CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying consolidated financial statements should be read in conjunction with the Annual Report on Form 10-K for the fiscal year ended December 31, 2009 for SBA Communications Corporation and its subsidiaries (the Company). The December 31, 2009 Condensed Consolidated Balance Sheet has been derived from the Company's audited consolidated financial statements. These financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals) considered necessary for fair financial statement presentation have been made. The results of operations for an interim period may not give a true indication of the results for the year. Certain reclassifications have been made to prior year amounts or balances to conform to the presentation adopted in the current year.

2. CURRENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06) which requires new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The FASB also clarified existing fair value measurement disclosure guidance about the level of disaggregation, inputs, and valuation techniques. ASU 2010-06 is effective for fiscal years beginning after December 15, 2009. The adoption of this accounting guidance did not have any impact on the Company's disclosures.

3. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments The carrying values of the Company's financial instruments, with the exception of debt instruments, reasonably estimate the related fair values as of September 30, 2010 and December 31, 2009 due to the short maturity of those instruments.

The Company determines fair value of its debt instruments utilizing various sources including quoted prices and indicative quotes (that is non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices. The following table reflects fair values, principal values and carrying values of the Company's debt instruments (see Note 9).

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Items Measured at Fair Value on a Nonrecurring Basis The Company's earnouts related to acquisitions, intangibles, certain long-lived assets, and asset retirement obligations are measured at fair value on a nonrecurring basis. The fair value of the earnouts is reviewed quarterly and is based on the payments the Company expects to make based on the anticipated performance of the underlying assets. The fair value of the intangibles, long-lived assets, and asset retirement obligations are calculated using a discounted cash flow model.

4. RESTRICTED CASH

Restricted cash consists of the following:

	As of September 30, 2010	As of December 31, 2009	Included on Balance Sheet
	(in thousands)		
Securitization escrow accounts	\$ 29,250	\$ 29,108	Restricted cash - current asset
Payment and performance bonds	868	1,177	Restricted cash - current asset
Surety bonds and workers compensation	11,391	11,097	Other assets - noncurrent
Total restricted cash	\$ 41,509	\$ 41,382	

Securitization escrow accounts relate to funds that are required to be in escrow, initially pursuant to the terms of the Commercial Mortgage Pass-Through Certificates Series 2006-1 (the "2006 CMBS Certificates") and, upon their refinancing, pursuant to the terms of the Secured Tower Revenue Securities Series 2010-1 (the "2010-1 Tower Securities") and the Secured Tower Revenue Securities Series 2010-2 (the "2010-2 Tower Securities" and together with the 2010-1 Tower Securities, the "2010 Tower Securities") (see Note 9). Pursuant to the terms of the 2006 CMBS Certificates and, subsequently, the 2010 Tower Securities, the Company is required to establish a controlled deposit account, held by the indenture trustee, into which all rents and other sums due on the towers that secured the 2006 CMBS Certificates and those that currently secure the 2010 Tower Securities are directly deposited by the lessees. These restricted cash amounts are used to fund reserve accounts for the payment of (1) debt service costs, (2) ground rents, real estate and personal property taxes and insurance premiums related to tower sites, (3) trustee and servicing expenses, (4) management fees, and (5) to reserve a portion of advance rents from tenants. The restricted cash in the controlled deposit account in excess of required reserve balances is subsequently released to the Borrowers (as defined in Note 9) monthly, provided that the Borrowers are in compliance with their debt service coverage ratio and that no Event of Default has occurred. All monies held by the indenture trustee are classified as restricted cash on the Company's Consolidated Balance Sheets.

Payment and performance bonds relate primarily to collateral requirements for tower construction currently in process by the Company. Cash is pledged as collateral related to surety bonds issued for the benefit of the Company or its affiliates in the ordinary course of business and primarily related to the Company's tower removal obligations. As of September 30, 2010, the Company had \$19.7 million in surety, payment and performance bonds for which it is only required to post \$9.7 million in collateral. The Company periodically evaluates the collateral posted for its bonds to ensure that it meets the minimum requirements. As of September 30, 2010 and December 31, 2009, the Company had pledged \$2.2 million and \$2.4 million, respectively, as collateral related to its workers compensation policy. Restricted cash for surety bonds and workers compensation are included in other assets on the Company's Consolidated Balance Sheets.

5. ACQUISITIONS

During the third quarter of 2010, the Company acquired 86 completed towers and related assets and liabilities from various sellers including 10 towers in El Salvador. The Company acquired a total of 307 completed towers

SBA COMMUNICATIONS CORPORATION AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

and related assets and liabilities in the first nine months of 2010. The aggregate consideration paid for these towers and related assets (excluding working capital adjustments) was approximately \$52.7 million during the third quarter of 2010, and \$150.7 million during the first nine months of 2010, all of which was paid in cash. In addition, as part of the ground lease purchase program, the Company paid, in cash, \$3.2 million for long-term lease extensions and \$8.0 million for land and perpetual easement purchases in the third quarter of 2010 and an aggregate of \$6.7 million for long-term lease extensions and \$17.2 million for land and perpetual easement purchases during the first nine months of 2010.

The Company accounted for these acquisitions under the acquisition method of accounting. The acquisitions are recorded at fair market value at the date of each acquisition. The results of operations of the acquired assets are included with those of the Company from the dates of the respective acquisitions.

During the first nine months of 2010, the Company acquired an equity interest in distributed antenna system (DAS) provider Extenet Systems, Inc. for approximately \$32.3 million in cash and the contribution of its existing DAS business. The investment in Extenet Systems, Inc. is accounted for under the cost method of accounting.

The acquisitions consummated were not significant to the Company and accordingly, pro forma financial information has not been presented. The Company continues to evaluate all acquisitions within one year after the applicable closing date of each transaction to determine whether any additional adjustments are needed to the allocation of the purchase price paid for the assets acquired and liabilities assumed by major balance sheet caption, as well as the separate recognition of intangible assets from goodwill if certain criteria are met. These intangible assets represent the value associated with current leases in place at the acquisition date (Current contract intangibles) and future tenant leases anticipated to be added to the acquired towers (Network location intangibles) and were calculated using the discounted values of the current or future expected cash flows. The intangible assets are estimated to have an economic useful life consistent with the economic useful life of the related tower assets, which is typically 15 years.

From time to time, the Company agrees to pay additional consideration (or earnouts) in connection with its acquisitions if the towers or businesses that are acquired meet or exceed certain performance targets in the one to three years after they have been acquired. The Company records contingent consideration for acquisitions that occurred prior to January 1, 2009 when the contingent consideration is paid. Effective January 1, 2009, the Company accrues for contingent consideration in connection with acquisitions at fair value as of the date of the acquisition. All subsequent changes in fair value are recorded through the Consolidated Statements of Operations. During the three and nine months ended September 30, 2010, certain earnings targets associated with previously acquired towers were achieved and therefore, the Company paid \$1.3 million and \$6.1 million in cash, respectively. As of September 30, 2010, the Company had potential obligations to pay up to an additional \$8.3 million in consideration if the performance targets contained in various acquisition agreements are met of which the Company recorded, in accrued expenses, \$4.8 million for contingent consideration relating to the earnings targets associated with towers acquired subsequent to January 1, 2009. In certain acquisitions, the additional consideration may be paid in cash or shares of Class A common stock at the Company's option.

Subsequent to September 30, 2010, the Company acquired 80 completed towers and related assets and liabilities from various sellers. The aggregate consideration paid for the towers and related assets was \$40.7 million in cash.

In connection with the Company's business operations in Canada, Costa Rica, Panama and El Salvador, the Company entered into agreements with its joint venture partners that contain both a put option for its partners and a call option for the Company, requiring or allowing the Company, in certain circumstances, to purchase the remaining interest in such entity at a price based on predetermined earnings multiples. Each of these options are triggered upon the occurrence of specified events and/or upon the passage of time. None of these options are currently exercisable by either the Company or its partners.

Commercial Mortgage Pass-Through Certificates Series 2006-1

On November 6, 2006, a New York common law trust (the Trust), initially formed by an indirect subsidiary of the Company, issued in a private transaction \$1.15 billion of 2006 CMBS Certificates.

The 2006 CMBS Certificates consisted of nine subclasses with annual pass-through interest rates ranging from 5.314% to 7.825%. The weighted average annual fixed coupon interest rate of the 2006 CMBS Certificates was 5.9%, payable monthly, and the effective weighted average annual fixed interest rate was 6.2% after giving effect to the settlement of the nine interest rate swap agreements entered into in contemplation of the transaction (see Note 10).

On April 16, 2010, the Company repaid the remaining principal balance of \$938.6 million of the 2006 CMBS Certificates and paid \$38.5 million for prepayment consideration plus accrued interest and fees. During the year-to-date period ended September 30, 2010, but prior to the payoff of the principal balance, the Company repurchased an aggregate of \$2.0 million in principal amount of 2006 CMBS Certificates for \$2.1 million in cash. The Company recorded on the Company's Consolidated Statements of Operations a \$49.0 million loss on extinguishment of debt related to the repurchases and prepayment during the nine months ended September 30, 2010.

the 2010 1 Tower Securities is April 16, 2015 and April 16, 2040, respectively. The anticipated repayment date and the final maturity date for the 2010 2 Tower Securities is April 16, 2017 and April 16, 2042, respectively. The Company incurred deferred financing fees of approximately \$17.7 million in relation to this transaction which are being amortized through the anticipated repayment date of each of the 2010 Tower Securities. Net proceeds from the 2010 Tower Securities were used to repay in full the outstanding 2006 CMBS Certificates in the amount of \$938.6 million and pay the related prepayment consideration plus accrued interest and fees. The remaining net proceeds are being used for general corporate purposes.

The sole asset of the Trust consists of a non-recourse mortgage loan made in favor of SBA Properties, Inc., SBA Sites, Inc., and SBA Structures, Inc., indirect wholly-owned operating subsidiaries of the Company (the Borrowers). The Borrowers are special purpose vehicles which exist solely to hold the towers which are subject to the securitization. In connection with the issuance of the 2010 Tower Securities and the repayment of the 2006 CMBS Certificates, the mortgage loan components relating to the 2006 CMBS Certificates were repaid and the mortgage loan was amended to create two new loan components, each with terms that are identical to the series of 2010 Tower Securities to which it relates. The Borrowers are jointly and severally liable for all obligations under the mortgage loan.

The mortgage loan underlying the 2010 Tower Securities will be paid from the operating cash flows from the aggregate 3,686 tower sites owned by the Borrowers. The mortgage loan is secured by (i) mortgages, deeds of trust and deeds to secure debt on a substantial portion of the tower sites, (ii) a security interest in substantially all of the Borrowers' personal property and fixtures, (iii) the Borrowers' rights under certain tenant leases, and (iv) all of the proceeds of the foregoing. For each calendar month, SBA Network Management, Inc., the Company's indirect subsidiary, is entitled to receive a management fee equal to 7.5% of the Borrowers' operating revenues for the immediately preceding calendar month.

The Borrowers may prepay either of the mortgage loan components, in whole or in part, with no prepayment consideration, (i) within nine months of the anticipated repayment date of such mortgage loan component, (ii) with proceeds received as a result of any condemnation or casualty of any tower site owned by the Borrowers or (iii) during an amortization period. In all other circumstances, the Borrowers may prepay the mortgage loan, in whole or in part, upon payment of the applicable prepayment consideration. The prepayment consideration is determined based on the class of 2010 Tower Securities to which the prepaid mortgage loan component corresponds and consists of an amount equal to the excess, if any, of (1) the present value associated with the portion of the principal balance being prepaid, calculated in accordance with the formula set forth in the mortgage loan agreement, on the date of prepayment of all future installments of principal and interest required to be paid from the date of prepayment to and including the first due date that is nine months prior to the anticipated repayment date over (2) that portion of the principal balance of such class prepaid on the date of such prepayment.

To the extent that the mortgage loan components corresponding to the 2010 Tower Securities are not fully repaid by their respective anticipated repayment dates, the interest rate of each such component will increase by the greater of (i) 5% and (ii) the amount, if any, by which the sum of (x) the ten-year U.S. treasury rate plus (y) the credit-based spread for such component (as set forth in the mortgage loan agreement) plus (z) 5%, exceeds the original interest rate for such component.

Pursuant to the terms of the 2010 Tower Securities, all rents and other sums due on tower sites owned by the Borrowers are directly deposited by the lessees into a controlled deposit account and are held by the indenture trustee. The monies held by the indenture trustee after the release date are classified as restricted cash on the Company's Consolidated Balance Sheets. However, if the Debt Service Coverage Ratio, defined as the net cash flow (as defined in the mortgage loan agreement) divided by the amount of interest on the mortgage loan, servicing fees and trustee fees that the Borrowers are required to pay over the succeeding twelve months, as of the end of any calendar quarter, falls to 1.30x or lower, then all cash flow in excess of amounts required to make debt service

payments, to fund required reserves, to pay management fees and budgeted operating expenses and to make other payments required under the loan documents, referred to as excess cash flow, will be deposited into a reserve account instead of being released to the Borrowers. The funds in the reserve account will not be released to the Borrowers unless the Debt Service Coverage Ratio exceeds 1.30x for two consecutive calendar quarters. If the Debt Service Coverage Ratio falls below 1.15x as of the end of any calendar quarter, then an amortization period will commence and all funds on deposit in the reserve account will be applied to prepay the mortgage loan until such time that the Debt Service Coverage Ratio exceeds 1.15x for a calendar quarter. The mortgage loan agreement, as amended, also includes covenants customary for mortgage loans underlying rated securitizations. Among other things, the Borrowers are prohibited from incurring other indebtedness for borrowed money or further encumbering their assets. As of September 30, 2010, the Borrowers met the required Debt Service Coverage Ratio and were in compliance with all other covenants.

The Company incurred cash interest expense of \$14.3 million and \$26.3 million for the three and nine month period ended September 30, 2010, respectively, related to the 2010 Tower Securities.

0.375% Convertible Senior Notes due 2010

2010 Credit Facility

On February 11, 2010, SBA Senior Finance II, LLC (SBA Senior Finance II), an indirect wholly-owned subsidiary of the Company, entered into a credit agreement for a \$500.0 million senior secured revolving credit facility (the 2010 Credit Facility) with several banks and other financial institutions or entities from time to time parties to the credit agreement (the Credit Agreement). Amounts borrowed under the 2010 Credit Facility are secured by a first lien on the capital stock of Telecommunications, SBA Senior Finance, Inc. and SBA Senior Finance II, and substantially all of the assets, other than leasehold, easement or fee interests in real property, of SBA Senior Finance II and the Subsidiary Guarantors (as defined in the Credit Agreement). The Company incurred deferred financing fees of \$4.9 million associated with the closing of this transaction. In addition, at the time of termination of the Senior Credit Facility, the remaining deferred financing fees balance of approximately \$1.0 million was transferred to the 2010 Credit Facility in accordance with FASB accounting guidance for revolving credit facilities.

The 2010 Credit Facility consists of a revolving loan under which up to \$500.0 million may be borrowed, repaid and redrawn, subject to compliance with specific financial ratios and the satisfaction of other customary conditions to borrowing as set forth in the Credit Agreement. Amounts borrowed under the 2010 Credit Facility accrue interest at the Eurodollar rate plus a margin that ranges from 187.5 basis points to 237.5 basis points or at a Base Rate (as defined in the Credit Agreement) plus a margin that ranges from 87.5 basis points to 137.5 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA (as defined in the Credit Agreement). A 0.375% to 0.5% per annum fee is charged on the amount of unused commitment. If it is not earlier terminated by SBA Senior Finance II, the 2010 Credit Facility will terminate on, and SBA Senior Finance II will repay all amounts outstanding on or before, February 11, 2015. Proceeds available under the 2010 Credit Facility may be used for general corporate purposes. As of September 30, 2010, availability under the 2010 Credit Facility was approximately \$500.0 million.

The Credit Agreement requires SBA Senior Finance II and the Company to maintain specific financial ratios, including, at the SBA Senior Finance II level, a ratio of Consolidated Total Debt to Annualized Borrower EBITDA (as defined in the Credit Agreement) that does not exceed 5.0x for any fiscal quarter, a ratio of Consolidated Total Debt and Net Hedge Exposure (as defined in the Credit Agreement) to Annualized Borrower EBITDA for the most recently ended fiscal quarter not to exceed 5.0x for 30 consecutive days and a ratio of Annualized Borrower EBITDA to Annualized Cash Interest Expense (as defined in the Credit Agreement) of not less than 2.0x for any fiscal quarter. In addition, the Company's ratio of Consolidated Total Net Debt to Consolidated Adjusted EBITDA (as defined in the Credit Agreement) for any fiscal quarter on an annualized basis cannot exceed 8.9x. The Credit Agreement also contains customary affirmative and negative covenants that, among other things, limit SBA Senior Finance II's ability to incur indebtedness, grant certain liens, make certain investments, enter into sale leaseback transactions or engage in certain asset dispositions, including a sale of all or substantially all of its assets. As of September 30, 2010, SBA Senior Finance II and the Company were in full compliance with the financial covenants contained in the 2010 Credit Facility.

The Company incurred cash interest expense of \$0.5 million and \$1.2 million for the three and nine months ended September 30, 2010, respectively, relating to the unused commitment fee of the 2010 Credit Facility.

Capital Lease Obligations

The Company's capital lease obligations outstanding were \$1.3 million as of September 30, 2010 and \$1.0 million as of December 31, 2009. As of September 30, these obligations were bearing interest rates ranging from 0.6% to 4.9% and will mature in periods ranging from approximately one to five years.

10. DERIVATIVE FINANCIAL INSTRUMENTS

2006 CMBS Certificate Swaps

During 2006, an indirect wholly-owned subsidiary of the Company entered into nine forward-starting swap agreements (the 2006 CMBS Certificate Swaps) in anticipation of issuing the 2006 CMBS Certificates (see Note 9). In October 2006, the Company terminated the 2006 CMBS Certificate Swaps in connection with entering into the purchase and sale agreement for the 2006 CMBS Certificates. The Company determined a portion of the swaps to be an effective cash flow hedge and as a result, recorded a deferred loss of \$12.8 million in accumulated other comprehensive loss, net of applicable income taxes on the Company's Consolidated Balance Sheets. The deferred loss was being amortized utilizing the effective interest method over the anticipated five year life of the 2006 CMBS Certificates and increased the effective interest rate on these certificates by 0.3%.

On April 16, 2010, the Company wrote-off the remaining unamortized deferred loss of \$3.6 million in connection with the repayment of the 2006 CMBS Certificates.

The Company recorded on the Company's Consolidated Statements of Operations non-cash interest expense of \$0.6 million for the three months ended September 30, 2009, and non-cash interest expense of \$0.6 million and \$1.8 million for the nine months ended September 30, 2010 and 2009, respectively.

11. SHAREHOLDERS' EQUITY

Common Stock Equivalents

The Company has potential common stock equivalents related to its outstanding stock options, restricted stock units, the 0.375% Notes, the 1.875% Notes and the 4.0% Notes (see Note 9). These potential common stock equivalents were not included in diluted loss per share because the effect would have been anti-dilutive for each of the three and nine months ended September 30, 2010 and 2009, respectively. Accordingly, basic and diluted loss per common share and the weighted average number of shares used in the computation are the same for each period presented.

Registration of Additional Shares

On May 20, 2010, the Company filed a registration statement on Form S-8 with the Securities and Exchange Commission registering 15.0 million shares of the Company's Class A common stock issuable under the 2010 Performance and Equity Incentive Plan.

Stock Repurchases

The Company's Board of Directors authorized a stock repurchase program effective November 3, 2009. This program authorizes the Company to purchase, from time to time, up to \$250.0 million of the Company's

outstanding Class A common stock through open market repurchases in compliance with Rule 10b-18 of the Securities Act of 1933, as amended, and/or in privately negotiated transactions at management's discretion based on market and business conditions, applicable legal requirements and other factors. This program will continue until otherwise modified or terminated by the Company's Board of Directors at any time in the Company's sole discretion. During the nine months ended September 30, 2010, the Company repurchased and retired 2,895,635 shares for an aggregate of \$97.1 million including commissions and fees in connection with the stock repurchase program. The Company did not repurchase any shares during the three months ended September 30, 2010 and has remaining authorization to repurchase an additional \$151.3 million of its common stock under its current \$250.0 million stock repurchase program.

12. STOCK-BASED COMPENSATION

On May 6, 2010, the Company adopted the 2010 Performance and Equity Incentive Plan (the "2010 Plan") whereby options, restricted stock units and other equity and performance based instruments may be granted to directors, employees and consultants. Upon the adoption of the 2010 Plan by the Company's shareholders, no further grants are permitted under the 2001 Equity Participation Plan. The 2010 Plan provides for the issuance of a maximum of 15.0 million shares of our Class A common stock.

Stock Options

The Company records compensation expense for employee stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes option-pricing model with the assumptions included in the table below. The Company uses a combination of historical data and historical volatility to establish the expected volatility. Historical data is used to estimate the expected option life and the expected forfeiture rate. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option. The following assumptions were used to estimate the fair value of options granted using the Black-Scholes option-pricing model:

	For the nine months ended September 30,	
	2010	2009
Risk free interest rate	1.35% - 1.83%	1.30% - 1.80%
Dividend yield	0.0%	0.0%
Expected volatility	55.2%	55.7%
Expected lives	3.6 - 4.3 years	3.2 - 4.1 years

The weighted-average fair value of options granted during the nine months ended September 30, 2010 and 2009 was \$15.88 and \$8.60, respectively. The total intrinsic value for options exercised during the nine months ended September 30, 2010 and 2009 was \$14.3 million and \$4.8 million, respectively.

Restricted Stock Units

The Company granted approximately 1,000 restricted stock units pursuant to its 2010 Performance and Equity Incentive Plan and approximately 128,000 restricted stock units pursuant to its 2001 Equity Participation Plan during the nine months ended September 30, 2010. The expense is based on the fair market value of the units awarded at the date of the grant times the number of shares subject to the units awarded. The Company typically recognizes the expense associated with the units on a straight-line basis over the vesting term.

The following table summarizes the Company's restricted stock unit activity for the nine months ended September 30, 2010:

13. INCOME TAXES

The Company had taxable losses during the three and nine months ended September 30, 2010 and 2009, and as a result, net operating loss carry-forwards have been generated. These net operating loss carry-forwards are fully reserved as management believes it is not more-likely-than-not that the Company will generate sufficient taxable income in future periods to recognize the losses.

15. CONCENTRATION OF CREDIT RISK

The Company's credit risks consist primarily of accounts receivable with national, regional and local wireless service providers and federal and state government agencies. The Company performs periodic credit evaluations of its customers' financial condition and provides allowances for doubtful accounts, as required, based upon factors surrounding the credit risk of specific customers, historical trends and other information. The Company generally does not require collateral.

The following is a list of significant customers (representing at least 10% of revenue for the periods reported) and the percentage of total revenue for the specified time periods derived from such customers:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We are a leading independent owner and operator of wireless communications towers. Our principal operations are in the United States and its territories. As of September 30, 2010, we also owned towers in Canada, Costa Rica, El Salvador, and Panama. Our primary business line is our site leasing business, which contributed approximately 97.6% of our total segment operating profit for the year-to-date period ended September 30, 2010. In our site leasing business, we lease antenna space to wireless service providers on towers and other structures that we own, manage or lease from others. The towers that we own have been constructed by us at the request of a wireless service provider, built or constructed based on our own initiative or acquired. As of September 30, 2010, we owned 8,705 tower sites, the substantial majority of which have been built by us or built by other tower owners or operators who, like us, have built such towers to lease space to multiple wireless service providers. We also managed or leased approximately 5,400 actual or potential additional communications sites, approximately 520 of which were revenue producing as of September 30, 2010. Our other business line is our site development business, through which we assist wireless service providers in developing and maintaining their own wireless service networks.

Site Leasing Services

Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts. Site leasing revenues are received primarily from wireless service provider tenants, including AT&T, Sprint, Verizon Wireless and T-Mobile. Wireless service providers enter into numerous different tenant leases with us, each of which relates to the lease or use of space at an individual tower site. Tenant leases are generally for an initial term of five years with five 5-year renewal periods at the option of the tenant. These tenant leases typically contain specific rent escalators, which average 3% per year, including during the renewal option periods. Tenant leases are generally paid on a monthly basis and revenue from site leasing is recorded monthly on a straight-line basis over the current term of the related lease agreements. Rental amounts received in advance are recorded in deferred revenue.

Cost of site leasing revenue primarily consists of:

Rental payments on ground and other underlying property leases;

Straight-line rent adjustment for the difference between rental payments made and the expense recorded as if the payments had been made evenly throughout the minimum lease term (which may include renewal terms) of the underlying property leases;

Property taxes;

Site maintenance and monitoring costs (exclusive of employee related costs);

Utilities;

Property insurance; and

Deferred lease origination cost amortization.

Ground leases are generally for an initial term of five years or more with multiple renewal terms of five year periods at our option and provide for rent escalators which typically average 3% annually or

Table of Contents

provide for term escalators of approximately 15%. Of the 8,705 tower sites we owned as of September 30, 2010, approximately 30.3% were located on parcels of land that we own, land subject to perpetual easements, or parcels of land in which we have a leasehold interest that extends beyond 50 years. For any given tower, costs are relatively fixed over a monthly or an annual time period. As such, operating costs for owned towers do not generally increase as a result of adding additional customers to the tower. The amount of direct costs associated with operating a tower varies from site to site depending on the taxing jurisdiction and the height and age of the tower. The ongoing maintenance requirements are typically minimal and include replacing lighting systems, painting a tower or upgrading or repairing an access road or fencing.

As indicated in the table below, our site leasing business generates substantially all of our total segment operating profit. For information regarding our operating segments, please see Note 14 of our Condensed Notes to Consolidated Financial Statements included in this quarterly report.

⁽¹⁾ Site leasing segment operating profit and total segment operating profit are non-GAAP financial measures. We reconcile these measures and provide other Regulation G disclosures in this quarterly report in the section entitled Non-GAAP Financial Measures.

We believe that over the long-term, site leasing revenues will continue to grow as wireless service providers lease additional antenna space on our towers due to increasing minutes of network use, network expansion and network coverage requirements. We believe our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures. Due to the relatively young age and mix of our tower portfolio, we expect future expenditures required to maintain these towers to be minimal. Consequently, we expect to grow our cash flows by adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost of tower modifications. Furthermore, because our towers are strategically positioned and our customers typically do not relocate, we have historically experienced low customer churn as a percentage of revenue.

Table of Contents

The following rollforward summarizes the activity in our consolidated tower portfolio from December 31, 2009 to September 30, 2010:

- ⁽¹⁾ Reclassifications reflect the combination for reporting purposes of multiple tower structures on a single parcel of real estate, which we market and customers view as a single location, into a single tower site. Dispositions reflect the decommissioning, sale, conveyance or legal transfer of owned tower sites.

Site Development Services

Our site development business is complementary to our site leasing business and provides us the ability to keep in close contact with the wireless service providers who generate substantially all of our site leasing revenue and to capture ancillary revenues that are generated by our site leasing activities, such as antenna and equipment installation at our tower locations. Our site development business consists of two segments, site development consulting and site development construction. Site development services revenues are received primarily from providing a full range of end to end services to wireless service providers or companies providing development or project management services to wireless service providers. We principally perform services for third parties in our core, historical areas of wireless expertise, specifically, site acquisition, zoning, technical services and construction.

Our site development customers engage us on a project-by-project basis and a customer can generally terminate an assignment at any time without penalty. Site development projects, both consulting and construction, include contracts on a time and materials basis or a fixed price basis. The majority of our site development services are billed on a fixed price basis. Time and materials based site development contracts are billed and revenue is recognized at contractual rates as the services are rendered. Our site development projects generally take from three to twelve months to complete. For those site development consulting contracts in which we perform work on a fixed price basis, we recognize revenue based on the completion of agreed upon phases of the project on a per site basis.

Our revenue from site development construction contracts is recognized on the percentage-of-completion method of accounting, determined by the percentage of cost incurred to date compared to management's estimated total cost for each contract. This method is used because management considers total cost to be the best available measure of progress on the contracts. These amounts are based on estimates, and the uncertainty inherent in the estimates initially is reduced as work on the contracts nears completion. Revenue from our site development construction business may fluctuate from period to period depending on construction activities, which are a function of the timing and amount of our clients' capital expenditures, the number and significance of active customer engagements during a period, weather and other factors.

Table of Contents

Cost of site development consulting revenue and construction revenue includes all costs of materials, salaries and labor costs, including payroll taxes, subcontract labor, vehicle expense and other costs directly and indirectly related to the projects. All costs related to site development consulting contracts and construction contracts are recognized as incurred.

The table below provides the percentage of total company revenues contributed by site development consulting services and site development construction services for the three and nine months ended September 30, 2010 and 2009. For information regarding our operating segments, see Note 14 of our Condensed Notes to Consolidated Financial Statements included in this quarterly report.

CRITICAL ACCOUNTING POLICIES

We have identified the policies and significant estimation processes below as critical to our business operations and the understanding of our results of operations. The listing is not intended to be a comprehensive list. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see Note 3 in the Notes to Consolidated Financial Statements for the year ended December 31, 2009, included in the Form 10-K filed with the Securities and Exchange Commission, or the Commission, on March 1, 2010. Our preparation of our financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting periods. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

Construction Revenue

Revenue from construction projects is recognized using the percentage-of-completion method of accounting, determined by the percentage of cost incurred to date compared to management's estimated total cost for each contract. This method is used because we consider total cost to be the best available measure of progress on each contract. These amounts are based on estimates, and the uncertainty inherent

Table of Contents

in the estimates initially is reduced as work on each contract nears completion. The asset Costs and estimated earnings in excess of billings on uncompleted contracts represents expenses incurred and revenues recognized in excess of amounts billed. The liability Billings in excess of costs and estimated earnings on uncompleted contracts represents billings in excess of revenues recognized.

Allowance for Doubtful Accounts

We perform periodic credit evaluations of our customers. We continuously monitor collections and payments from our customers and maintain an allowance for estimated credit losses based upon our historical experience and any specific customer collection issues that we have identified. Establishing reserves against specific accounts receivable and the overall adequacy of our allowance is a matter of judgment.

Asset Impairment

We evaluate the potential impairment of individual long-lived assets, principally the tower sites. We record an impairment charge when we believe an investment in towers or intangible assets has been impaired, such that future undiscounted cash flows would not recover the then current carrying value of the investment in the tower site. We consider many factors and make certain assumptions when making this assessment, including but not limited to: general market and economic conditions, historical operating results, geographic location, lease-up potential and expected timing of lease-up. In addition, we make certain assumptions in determining an asset's fair value for purposes of calculating the amount of an impairment charge. Changes in those assumptions or market conditions may result in a fair value which is different from management's estimates. Future adverse changes in market conditions could result in losses or an inability to recover the carrying value, thereby possibly requiring an impairment charge in the future. In addition, if our assumptions regarding future undiscounted cash flows and related assumptions are incorrect, a future impairment charge may be required.

Property Tax Expense

We typically receive notifications and invoices in arrears for property taxes associated with the tangible personal property and real property used in our site leasing business. As a result, we recognize property tax expense, which is reflected as a component of site leasing cost of revenue, based on our best estimate of anticipated property tax payments related to the current period. We consider several factors in establishing this estimate, including our historical level of incurred property taxes, the location of the property, our awareness of jurisdictional property value assessment methods and industry related property tax information. If our estimates regarding anticipated property tax expenses are incorrect, a future increase or decrease in site leasing cost of revenue may be required.

KEY PERFORMANCE INDICATORS

Non-GAAP Financial Measures

This report contains certain non-GAAP measures, including Segment Operating Profit and Adjusted EBITDA information. We have provided below a description of such non-GAAP measures, a reconciliation of such non-GAAP measures to their most directly comparable GAAP measures and an explanation as to why management utilizes these measures.

Segment Operating Profit:

We believe that Segment Operating Profit is an indicator of the operating performance of our site leasing and site development segments and is used to provide management with the ability to monitor the

Table of Contents

operating results and margin of each segment, while excluding the impact of depreciation, accretion and amortization, which is largely fixed and non-cash in nature. Segment Operating Profit is not intended to be an alternative measure of revenue or segment gross profit as determined in accordance with GAAP.

Each respective Segment Operating Profit is defined as segment revenues less segment cost of revenues (excluding depreciation, accretion and amortization). Total Segment Operating Profit is the total of the operating profits of the three segments. The reconciliation of Segment Operating Profit is as follows:

	For the three months ended September 30, 2010 2009		Site leasing segment

Site leasing segment operating profit increased \$13.5 million and \$36.2 million for the three and nine months ended September 30, 2010, compared to the same period in the prior year, primarily due to additional profit generated by the revenues from towers that we acquired or constructed subsequent to September 30, 2009, organic site leasing growth from new leases and contractual rent escalators and lease amendments with current tenants which increased the related rent to reflect additional equipment added to our towers, control of our site leasing cost of revenue and the positive impact of our ground lease purchase program.

Adjusted EBITDA:

We believe that Adjusted EBITDA is an indicator of the performance of our core operations and reflects the changes in our operating results. Adjusted EBITDA is a component of the calculation that has been used by our lenders to determine compliance with certain covenants under our 2010 Credit Facility and Senior Notes (as defined below). Adjusted EBITDA is not intended to be an alternative measure of operating income or gross profit margin as determined in accordance with GAAP.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 10-Q

Adjusted EBITDA increased \$12.8 million for the three months ended September 30, 2010, compared to the same period in the prior year, primarily due to increased site leasing segment operating profit.

Table of Contents

We define Adjusted EBITDA as net loss excluding the impact of net interest expenses (including amortization of deferred financing fees), provision for taxes, depreciation, accretion and amortization, asset impairment and other charges, non-cash compensation, net loss from extinguishment of debt, other income and expenses, acquisition related expenses, non-cash straight-line leasing revenue and non-cash straight-line ground lease expense. Revenues:

Site leasing revenues increased \$15.1 million for the three months ended September 30, 2010, as compared to the same period in the prior year, due largely to (i) revenues from the towers that we acquired or constructed subsequent to September 30, 2009 and (ii) organic site leasing growth from new leases, contractual rent escalators with current tenants and lease amendments with current tenants which increased the related rent to reflect additional equipment added to our towers.

Site development consulting revenues remained relatively stable for the three months ended September 30, 2010 as compared to the three months ended September 30, 2009. Site development construction revenues increased \$3.8 million for the three months ended September 30, 2010, as compared to the three months ended September 30, 2009, as a result of a higher volume of work associated with continued network expansion of the wireless carriers.

Operating Expenses:

Site leasing cost of revenues increased \$1.7 million for the three months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of the growth in the number of tower sites owned by us (8,705 at September 30, 2010 compared to 8,085 at September 30, 2009) offset by the positive impact of our ground lease purchase program.

Table of Contents

Site development consulting cost of revenues remained relatively stable for the three months ended September 30, 2010 as compared to the same period in the prior year. Site development construction cost of revenues increased \$3.3 million for the three months ended September 30, 2010, as compared to the same period in the prior year, as a result of a higher volume of work performed during third quarter of 2010 compared to the same period in the prior year.

Selling, general and administrative expenses increased \$1.2 million for the three months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of an increase in non-cash compensation, salaries and benefits as well as costs incurred in connection with our international expansion.

Acquisition related expenses increased \$2.3 million for three months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of increased diligence costs due to an increase in the number of towers acquired as well as towers under contract for acquisition during the quarter ended September 30, 2010 compared to the quarter ended September 30, 2009.

Depreciation, accretion and amortization expense increased \$4.8 million to \$69.7 million for the three months ended September 30, 2010, as compared to the same period in the prior year, due to an increase in the number of tower sites and associated intangible assets owned at September 30, 2010 compared to those owned at September 30, 2009.

Operating Income:

Operating income increased \$5.7 million to \$20.7 million for the three months ended September 30, 2010 from the three months ended September 30, 2009 primarily due to the result of higher segment operating profit in the site leasing segment offset by increases in depreciation, accretion and amortization expense, acquisition related expenses and selling, general and administrative expenses.

Other Income (Expense):

Interest expense was \$37.6 million for the three months ended September 30, 2010, an increase of \$1.1 million from the three months ended September 30, 2009. This increase was due to the higher weighted average amount of cash-interest bearing debt outstanding offset by the lower weighted average interest rate for the three months ended September 30, 2010 compared to the three months ended September 30, 2009.

Non-cash interest expense was \$15.1 million for the three months ended September 30, 2010, an increase of \$1.1 million from the three months ended September 30, 2009. This increase reflects the accretion of the debt discounts on the 1.875% Notes (as defined below) and the 4.0% Notes (as defined below) using the effective interest method, accretion of debt discount on the Senior Notes issued in July 2009, offset by the impact of the repayment of the Optasite Credit Facility in July 2009 and decrease in amortization of net deferred loss from settlement of derivative financial instruments.

The loss from extinguishment of debt decreased \$12.5 million for the three months ended September 30, 2010 from the three months ended September 30, 2009. The loss from extinguishment of debt of \$12.5 million for the three months ended September 30, 2009 included a \$9.3 million loss related to the payoff of our Commercial Mortgage Pass-Through Certificates, Series 2005-1 (the 2005 CMBS Certificates) in July 2009, a \$1.9 million loss associated with the payoff of our Optasite Credit Facility in July 2009, and a \$1.4 million loss associated with the repurchase of \$105.6 million of our 2006 CMBS Certificates (as defined below) offset by a \$0.1 million gain associated with the repurchase of \$4.0 million of our 0.375% Notes (as defined below).

Table of Contents**Net Loss**

Net loss decreased \$15.6 million to \$34.6 million for the three months ended September 30, 2010 from \$50.2 million for the three months ended September 30, 2009. The decrease in net loss for the three months ended September 30, 2010 is primarily due to an increase in site leasing segment operating profit and a \$12.5 million decrease in net loss on extinguishment of debt partially offset by increases in depreciation, accretion and amortization expense, acquisition related expenses, interest expense and non-cash interest expense. The net loss for the three months ended September 30, 2009 included a \$12.5 million net loss on extinguishment of debt related to the payoff of our 2005 CMBS Certificates and Optasite Credit Facility and repurchases of our 2006 CMBS Certificates and 0.375% Notes.

Revenues:

Site leasing revenues increased \$42.0 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, due largely to (i) revenues from the towers that we acquired or constructed subsequent to September 30, 2009 and (ii) organic site leasing growth from new leases, contractual rent escalators with current tenants and lease amendments with current tenants which increased the related rent to reflect additional equipment added to our towers.

Table of Contents

Site development consulting revenues increased \$1.1 million and site development construction revenues increased \$7.4 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, as a result of a higher volume of work awarded by wireless carriers expanding their networks.

Operating Expenses:

Site leasing cost of revenues increased \$5.8 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of the growth in the number of tower sites owned by us (8,705 at September 30, 2010 compared to 8,085 at September 30, 2009) offset by the positive impact of our ground lease purchase program.

Site development consulting cost of revenues increased \$1.3 million and site development construction cost of revenues increased \$6.8 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, as a result of a higher volume of work performed during 2010 due to network expansion by the largest wireless carriers.

Selling, general and administrative expenses increased \$4.8 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of an increase in non-cash compensation, salaries and benefits as well as costs incurred in connection with our international expansion.

Acquisition related expenses increased \$4.0 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, primarily as a result of increased diligence costs due to an increase in the number of towers acquired and towers under contract for acquisition during the first nine months of 2010 compared to the first nine months of 2009.

Depreciation, accretion and amortization expense increased \$13.2 million to \$206.0 million for the nine months ended September 30, 2010, as compared to the same period in the prior year, due to an increase in the number of tower sites and associated intangible assets owned at September 30, 2010 compared to those owned at September 30, 2009.

Operating Income:

Operating income increased \$14.7 million to \$57.6 million for the nine months ended September 30, 2010 from the nine months ended September 30, 2009 primarily due to the result of higher segment operating profit in the site leasing segment offset by increases in depreciation, accretion and amortization expense, acquisition related expenses and selling, general and administrative expenses.

Other Income (Expense):

Interest expense was \$112.4 million for the nine months ended September 30, 2010, an increase of \$19.1 million from the nine months ended September 30, 2009. This increase was due to the higher weighted average amount of cash-interest bearing debt outstanding for the nine months ended September 30, 2010 compared to the nine months ended September 30, 2009.

Non-cash interest expense was \$44.7 million for the nine months ended September 30, 2010, an increase of \$9.3 million from the nine months ended September 30, 2009. This increase reflects the accretion of the debt discount on the 1.875% Notes using the effective interest method, accretion of debt discounts on the Senior Notes issued in July 2009 and the 4.0% Notes issued in April 2009, offset by the impact of the repurchase of an aggregate of \$107.7 million in principal of the 0.375% Notes during 2009 and the repayment of the Optasite Credit Facility in July 2009.

Table of Contents

The loss from extinguishment of debt of \$49.1 million for the nine months ended September 30, 2010 is primarily associated with the repayment of the outstanding balance of \$938.6 million in principal of our 2006 CMBS Certificates. The loss from extinguishment of debt of \$4.2 million for the nine months ended September 30, 2009 included a loss of \$7.2 million associated with the repurchase and subsequent payoff of 2005 CMBS Certificates, a \$1.9 million loss related to the payoff of Optasite Credit Facility, a \$1.2 million loss associated with the repurchase of \$116.8 million of 2006 CMBS Certificates offset by a gain of \$6.1 million associated with the repurchases of an aggregate \$107.7 million of our 0.375% Notes.

Net Loss

Net loss was \$155.8 million, an increase of \$58.3 million for the nine months ended September 30, 2010 from the nine months ended September 30, 2009, primarily due to an increase in loss on extinguishment of debt associated with the repayment of \$938.6 million in principal of our 2006 CMBS Certificates, increases in interest expense, non-cash interest expense, and depreciation, accretion and amortization expense partially offset by an increase in site leasing segment operating profit.

LIQUIDITY AND CAPITAL RESOURCES

SBA Communications Corporation is a holding company with no business operations of its own. SBA Communications' only significant asset is the outstanding capital stock of SBA Telecommunications, Inc. ("Telecommunications") which is also a holding company that owns equity interests in (1) SBA Senior Finance, Inc. (the entity that indirectly owns all of our domestic towers and assets) and (2) our international entities. We conduct all of our business operations through Telecommunications' subsidiaries. Accordingly, our only source of cash to pay our obligations, other than financings, is distributions with respect to our ownership interest in our subsidiaries from the net earnings and cash flow generated by these subsidiaries.

A summary of our cash flows is as follows:

Sources of Liquidity

We fund our growth, including our tower portfolio growth, through cash flows from operations, long-term indebtedness and equity issuances. With respect to our debt financing, we have utilized secured and unsecured financings and issuances at various levels of our organizational structure to minimize our financing costs while maximizing our operational flexibility.

Table of Contents

Cash provided by operating activities was \$142.4 million for the nine months ended September 30, 2010 as compared to \$169.8 million for the nine months ended September 30, 2009. This decrease was primarily due to the timing of interest payments relating to the higher weighted average amount of cash-interest bearing debt outstanding for the nine months ended September 30, 2010 compared to the nine months ended September 30, 2009 offset slightly by an increase in segment operating profit from the site leasing segment.

On February 11, 2010, SBA Senior Finance II, LLC (SBA Senior Finance II), our indirect wholly-owned subsidiary, entered into a credit agreement for a \$500.0 million senior secured revolving credit facility (the 2010 Credit Facility) with several banks and other financial institutions or entities from time to time parties to the credit agreement (the Credit Agreement). Amounts borrowed under the 2010 Credit Facility are secured by a first lien on the capital stock of Telecommunications, SBA Senior Finance, Inc. and SBA Senior Finance II, and substantially all of the assets, other than leasehold, easement or fee interests in real property, of SBA Senior Finance II and the Subsidiary Guarantors (as defined in the Credit Agreement). The 2010 Credit Facility matures on February 11, 2015 and may be borrowed, repaid and redrawn, subject to compliance with the financial and other covenants in the Credit Agreement. As of September 30, 2010, we had no borrowings outstanding under the 2010 Credit Facility and the availability under the 2010 Credit Facility was approximately \$500.0 million. Proceeds under the 2010 Credit Facility may be used for general corporate purposes. The material terms of the 2010 Credit Facility are described below under Debt Instruments and Debt Service Requirements 2010 Credit Facility.

On April 16, 2010, a New York common law trust (the Trust), initially formed by our indirect subsidiary, issued \$680.0 million of Secured Tower Revenue Securities Series 2010-1 (the 2010-1 Tower Securities), and \$550.0 million of Secured Tower Revenue Securities Series 2010-2 (the 2010-2 Tower Securities and together with the 2010-1 Tower Securities, the 2010 Tower Securities). The weighted average annual fixed coupon interest rate of the 2010 Tower Securities is 4.6%, payable monthly. The anticipated repayment date and the final maturity date for the 2010-1 Tower Securities is April 16, 2015 and April 16, 2040, respectively. The anticipated repayment date and the final maturity date for the 2010-2 Tower Securities is April 16, 2017 and April 16, 2042, respectively. The sole asset of the Trust consists of a non-recourse mortgage loan made in favor of SBA Properties, Inc., SBA Sites, Inc., and SBA Structures, Inc., our indirect operating subsidiaries (the Borrowers). The mortgage loan consists of two components, each with terms that are identical to the series of 2010 Tower Securities to which it relates. The Borrowers are special purpose vehicles which exist solely to hold the towers which are subject to the securitization. The Borrowers are jointly and severally liable for all obligations under the mortgage loan. The material terms of the 2010 Tower Securities are described below under Debt Instruments and Debt Service Requirements Secured Tower Revenue Securities Series 2010 .

Registration Statements

We have on file with the Commission a shelf registration statement on Form S-4 registering shares of Class A common stock that we may issue in connection with the acquisition of wireless communication towers or antenna sites and related assets or, companies who own wireless communication towers, antenna sites or related assets. During the nine months ended September 30, 2010, we did not issue any shares of Class A common stock under this registration statement. As of September 30, 2010, we had approximately 1.7 million shares of Class A common stock remaining under this shelf registration statement.

On March 3, 2009, we filed with the Commission an automatic shelf registration statement for well-known seasoned issuers on Form S-3ASR. This registration statement enables us to issue shares of our Class A common stock, preferred stock or debt securities either separately or represented by warrants, or depositary shares as well as units that include any of these securities. Under the rules governing automatic

shelf registration statements, we will file a prospectus supplement and advise the Commission of the amount and type of securities each time we issue securities under this registration statement. For the nine months ended September 30, 2010, we did not issue any securities under this automatic shelf registration statement.

On May 19, 2010, SBA Communications and Telecommunications filed a registration statement on Form S-4 with the Commission pursuant to which Telecommunications offered to (1) exchange all of its outstanding unregistered \$375.0 million 8.00% Senior Notes due 2016 for registered \$375.0 million 8.00% Senior Notes due 2016, and (2) exchange all of its outstanding unregistered \$375.0 million 8.25% Senior Notes due 2019 for registered \$375.0 million 8.25% Senior Notes due 2019. On July 15, 2010, the exchange offer was consummated.

Uses of Liquidity

We believe that our principal use of liquidity will be to fund tower portfolio growth and, secondarily, to fund our stock repurchase program. During the market disruptions that occurred from October 2008 through 2009, we utilized our liquidity to take advantage of certain market opportunities and repurchase our outstanding debt. In the future, we may continue to repurchase, for cash or equity, our outstanding indebtedness in privately-negotiated or open market transactions in order to optimize our liquidity and leverage and take advantage of market opportunities.

Our cash capital expenditures, including cash used for acquisitions, for the nine months ended September 30, 2010 were \$219.4 million. The \$219.4 million primarily consists of cash capital expenditures of \$154.2 million that we incurred primarily in connection with the acquisition of 307 completed towers net of related working capital adjustments and earnouts paid in connection with previous acquisitions, \$33.6 million for construction and related costs associated with the completion of 83 new towers during the nine months ended September 30, 2010 and for sites in process at September 30, 2010, \$5.9 million for tower maintenance capital expenditures, \$7.0 million for augmentations and tower upgrades, \$1.5 million for general corporate expenditures and \$17.2 million for ground lease purchases (not including \$6.7 million spent to extend ground lease terms).

Subsequent to September 30, 2010, we acquired 80 towers and related assets and liabilities from various sellers. The aggregate consideration paid for the towers and related assets was \$40.7 million in cash.

In connection with the stock repurchase program, we repurchased and retired 2,895,635 shares for an aggregate of \$97.1 million including commissions and fees in the nine months ended September 30, 2010. We did not repurchase any shares during the three months ended September 30, 2010 and we have remaining authorization to repurchase an additional \$151.3 million of our common stock under our current \$250.0 million stock repurchase program.

During 2010, we expect to incur non-discretionary cash capital expenditures associated with tower maintenance and general corporate expenditures of \$9 million to \$10 million and discretionary cash capital expenditures, based on current obligations, of \$342 million to \$352 million primarily associated with the towers we intend to build in 2010, tower acquisitions closed or currently under contract, tower augmentations and ground lease purchases. We may spend additional capital in 2010 on acquiring revenue producing or expense reducing assets not yet identified and under contract, or possibly stock repurchases. We estimate we will incur less than \$1,000 per tower per year for capital improvements or modifications to our towers. We expect to fund cash capital expenditures from cash on hand, cash flow from operations and borrowings under the 2010 Credit Facility. The exact amount of our future capital expenditures will depend on a number of factors including amounts necessary to support our tower portfolio, our new tower build and tower acquisition programs, and our ground lease purchase program.

Table of Contents

On April 16, 2010, we used the proceeds from the issuance of our 2010 Tower Securities to repay the remaining principal balance of \$938.6 million of the 2006 CMBS Certificates and to pay \$38.5 million for related prepayment consideration plus accrued interest and fees. During the year-to-date period ended September 30, 2010, but prior to the payoff of the principal balance, we repurchased an aggregate of \$2.0 million in principal amount of 2006 CMBS Certificates for \$2.1 million in cash.

Debt Instruments and Debt Service Requirements

As of September 30, 2010, we believe that our cash on hand and our cash flows from operations for the next twelve months will be sufficient to service our outstanding debt during the next twelve months.

Commercial Mortgage Pass-Through Certificates Series 2006-1

On November 6, 2006, the Trust issued in a private transaction \$1.15 billion of Commercial Mortgage Pass-Through Certificates Series 2006-1 (the 2006 CMBS Certificates).

The 2006 CMBS Certificates consisted of nine subclasses with annual pass-through interest rates ranging from 5.314% to 7.825%. The weighted average annual fixed interest rate of the 2006 CMBS Certificates was 5.9%, payable monthly, and the effective weighted average annual fixed interest rate was 6.2% after giving effect to the settlement of the nine interest rate swap agreements entered into in contemplation of the transaction.

On April 16, 2010, we paid off the remaining outstanding balance of \$938.6 million on the 2006 CMBS Certificates and paid \$38.5 million in related prepayment consideration plus accrued interest and fees.

Secured Tower Revenue Securities Series 2010

The 2010-1 Tower Securities have an annual interest rate of 4.254% and the 2010-2 Tower Securities have an annual interest rate of 5.101%. The weighted average annual fixed coupon interest rate of the 2010 Tower Securities is 4.6%, payable monthly. The anticipated repayment date and the final maturity date for the 2010 1 Tower Securities is April 16, 2015 and April 16, 2040, respectively. The anticipated repayment date and the final maturity date for the 2010 2 Tower Securities is April 16, 2017 and April 16, 2042, respectively. Net proceeds from the 2010 Tower Securities were used to repay in full the outstanding 2006 CMBS Certificates in the amount of \$938.6 million and pay the related prepayment consideration plus accrued interest and fees. The remaining net proceeds are being used for general corporate purposes.

The sole asset of the Trust consists of a non-recourse mortgage loan made in favor of the Borrowers. The mortgage loan consists of two components, each with terms that are identical to the series of 2010 Tower Securities to which it relates. The Borrowers are special purpose vehicles which exist solely to hold the towers which are subject to the securitization. The Borrowers are jointly and severally liable for all obligations under the mortgage loan.

The mortgage loan underlying the 2010 Tower Securities will be paid from the operating cash flows from the aggregate 3,686 tower sites owned by the Borrowers. The mortgage loan is secured by (i) mortgages, deeds of trust and deeds to secure debt on a substantial portion of the tower sites, (ii) a security interest in substantially all of the Borrowers' personal property and fixtures, (iii) the Borrowers' rights under certain tenant leases, and (iv) all of the proceeds of the foregoing. For each calendar month, SBA Network Management, Inc., our indirect subsidiary, is entitled to receive a management fee equal to 7.5% of the Borrowers' operating revenues for the immediately preceding calendar month.

Table of Contents

The Borrowers may prepay either of the mortgage loan components, in whole or in part, with no prepayment consideration, (i) within nine months of the anticipated repayment date of such mortgage loan component, (ii) with proceeds received as a result of any condemnation or casualty of any tower site owned by the Borrowers or (iii) during an amortization period. In all other circumstances, the Borrowers may prepay the mortgage loan, in whole or in part, upon payment of the applicable prepayment consideration. The prepayment consideration is determined based on the class of 2010 Tower Securities to which the prepaid mortgage loan component corresponds and consists of an amount equal to the excess, if any, of (1) the present value associated with the portion of the principal balance being prepaid, calculated in accordance with the formula set forth in the mortgage loan agreement, on the date of prepayment of all future installments of principal and interest required to be paid from the date of prepayment to and including the first due date that is nine months prior to the anticipated repayment date over (2) that portion of the principal balance of such class prepaid on the date of such prepayment.

To the extent that the mortgage loan components corresponding to the 2010 Tower Securities are not fully repaid by their respective anticipated repayment dates, the interest rate of each such component will increase by the greater of (i) 5% and (ii) the amount, if any, by which the sum of (x) the ten-year U.S. treasury rate plus (y) the credit-based spread for such component (as set forth in the mortgage loan agreement) plus (z) 5%, exceeds the original interest rate for such component.

Pursuant to the terms of the 2010 Tower Securities, all rents and other sums due on any of the tower sites owned by the Borrowers are directly deposited by the lessees into a controlled deposit account and are held by the indenture trustee. The monies held by the indenture trustee after the release date are classified as restricted cash on our Consolidated Balance Sheets. However, if the Debt Service Coverage Ratio, defined as the net cash flow (as defined in the mortgage loan agreement) divided by the amount of interest on the mortgage loan, servicing fees and trustee fees that the Borrowers are required to pay over the succeeding twelve months, as of the end of any calendar quarter, falls to 1.30x or lower, then all cash flow in excess of amounts required to make debt service payments, to fund required reserves, to pay management fees and budgeted operating expenses and to make other payments required under the loan documents, referred to as excess cash flow, will be deposited into a reserve account instead of being released to the Borrowers. The funds in the reserve account will not be released to the Borrowers unless the Debt Service Coverage Ratio exceeds 1.30x for two consecutive calendar quarters. If the Debt Service Coverage Ratio falls below 1.15x as of the end of any calendar quarter, then an amortization period will commence and all funds on deposit in the reserve account will be applied to prepay the mortgage loan until such time that the Debt Service Coverage Ratio exceeds 1.15x for a calendar quarter. The mortgage loan agreement, as amended, also includes covenants customary for mortgage loans subject to rated securitizations. Among other things, the Borrowers are prohibited from incurring other indebtedness for borrowed money or further encumbering their assets. As of September 30, 2010, the Borrowers met the required Debt Service Coverage Ratio. Based on the amounts outstanding at September 30, 2010, debt service for the next twelve months on the 2010 Tower Securities would be \$57.0 million.

0.375% Convertible Senior Notes due 2010

At September 30, 2010, we had \$30.4 million outstanding of 0.375% Convertible Senior Notes (the 0.375% Notes) which were recorded at their discounted carrying value of \$30.1 million. The maturity date of the 0.375% Notes is December 1, 2010. Interest on the 0.375% Notes is payable semi-annually each June 1 and December 1. Based on the maturity date of December 1, 2010 of the 0.375% Notes, debt service for 2010 will be \$30.4 million in principal and approximately \$0.06 million in interest. We intend to use a portion of the net proceeds from the Senior Notes issued in July 2009 to repurchase prior to maturity or repay at maturity our remaining 0.375% Notes outstanding.

Table of Contents

On October 5, 2010 we provided notice to the trustee and holders of our 0.375% Notes that we had elected to settle 100% of our conversion obligation in cash pursuant to the Indenture governing the 0.375% Notes.

1.875% Convertible Senior Notes due 2013

At September 30, 2010, we had \$550.0 million outstanding of Convertible Senior Notes (the 1.875% Notes) which were recorded at their discounted carrying value of \$455.8 million. The maturity date of the 1.875% Notes is May 1, 2013. Interest on the 1.875% Notes is payable semi-annually each May 1 and November 1. Based on the amounts outstanding at September 30, 2010, debt service for the next twelve months on the 1.875% Notes would be \$10.3 million.

4.0% Convertible Senior Notes due 2014

As of September 30, 2010, we had outstanding \$500.0 million of our 4.0% Convertible Senior Notes (the 4.0% Notes) which were recorded at their discounted carrying value of \$361.7 million. The maturity date of the 4.0% Notes is October 1, 2014. Interest on the 4.0% Notes is payable semi-annually on April 1 and October 1. Based on the amounts outstanding at September 30, 2010, debt service for the next twelve months on the 4.0% Notes would be \$20.0 million.

Convertible Senior Notes Conversion Options

Each of our 0.375% Notes, 1.875% Notes and 4.0% Notes are convertible, at the holder's option, into shares of our Class A common stock, at a per share conversion price of \$33.56, \$41.46, and \$30.38, respectively, subject to certain customary adjustments. In connection with the issuance of each of our convertible senior notes, we entered into hedging arrangements which, taken as a whole, effectively increased the per share conversion price of our notes to \$55.00 for the 0.375% Notes, \$67.37 for the 1.875% Notes and \$44.64 for the 4.0% Notes. Our convertible senior notes are only convertible in certain circumstances, including, but not limited to, (1) during any calendar quarter, if the last reported sale price of our Class A common stock for at least 20 trading days in the 30 consecutive trading day period ending on the last trading day of the preceding calendar quarter is more than 130% of the applicable conversion price per share of Class A common stock on the last day of such preceding calendar quarter and (2) at any time on or after October 12, 2010 for the 0.375% Notes, February 19, 2013 for the 1.875% Notes and July 22, 2014 for the 4.0% Notes. A discussion of the full convertibility provisions of our convertible senior notes and of the related hedging arrangements, including the impact of Lehman Brothers OTC Derivatives Inc. default on a portion of the hedge associated with the 1.875% Notes, is included in our Annual Report on Form 10-K filed with the SEC on March 1, 2010.

Senior Notes

On July 24, 2009, Telecommunications issued \$750.0 million of unsecured senior notes (the Senior Notes), \$375.0 million of which are due August 15, 2016 (the 2016 Notes) and \$375.0 million of which are due August 15, 2019 (the 2019 Notes). At September 30, 2010, the 2016 Notes and the 2019 Notes were recorded at carrying value of \$372.8 million and \$372.1 million, respectively.

The 2016 Notes have an interest rate of 8.00% and were issued at a price of 99.330% of their face value. The 2019 Notes have an interest rate of 8.25% and were issued at a price of 99.152% of their face value. Interest on the 2016 Notes and 2019 Notes is due semi-annually on February 15 and August 15 of each year beginning on February 15, 2010. Based on the amounts outstanding at September 30, 2010, debt service for the next twelve months on the 2016 Senior Notes and the 2019 Senior Notes would be \$30.0 million and \$30.9 million, respectively. The 2016 Notes and the 2019 Notes are fully and unconditionally guaranteed by SBA Communications.

Table of Contents

The Indenture governing the Senior Notes contains customary covenants, subject to a number of exceptions and qualifications, including restrictions on Telecommunications' ability to (1) incur additional indebtedness unless its Consolidated Indebtedness to Annualized Consolidated Adjusted EBITDA Ratio (as defined in the Indenture), pro forma for the additional indebtedness does not exceed 7.0x for the fiscal quarter, (2) merge, consolidate or sell assets, (3) make restricted payments, including dividends or other distributions, (4) enter into transactions with affiliates, and (5) enter into sale and leaseback transactions and restrictions on the ability of Telecommunications' Restricted Subsidiaries (as defined in the Indenture) to incur liens securing indebtedness.

Senior Credit Facility

On February 11, 2010, SBA Senior Finance, Inc., our indirect wholly-owned subsidiary, terminated its \$320.0 million Senior Secured Revolving Credit Facility (the "Senior Credit Facility"). We had no borrowings under the Senior Credit Facility at the time of its termination. No early termination penalties were incurred by us as a result of the termination.

2010 Credit Facility

The 2010 Credit Facility consists of a revolving loan under which up to \$500.0 million may be borrowed, repaid and redrawn, subject to compliance with specific financial ratios and the satisfaction of other customary conditions to borrowing as set forth in the Credit Agreement. Amounts borrowed under the 2010 Credit Facility accrue interest at the Eurodollar rate plus a margin that ranges from 187.5 basis points to 237.5 basis points or at a Base Rate (as defined in the Credit Agreement) plus a margin that ranges from 87.5 basis points to 137.5 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA (as defined in the Credit Agreement). A 0.375% to 0.5% per annum fee is charged on the amount of unused commitment. Unless terminated earlier, the 2010 Credit Facility will terminate on, and SBA Senior Finance II will repay all amounts outstanding on or before, February 11, 2015. Proceeds available under the 2010 Credit Facility may be used for general corporate purposes.

The Credit Agreement requires SBA Senior Finance II and SBA Communications to maintain specific financial ratios, including, at the SBA Senior Finance II level, a ratio of Consolidated Total Debt to Annualized Borrower EBITDA (as defined in the Credit Agreement) that does not exceed 5.0x for any fiscal quarter, a ratio of Consolidated Total Debt and Net Hedge Exposure (as defined in the Credit Agreement) to Annualized Borrower EBITDA for the most recently ended fiscal quarter not to exceed 5.0x for 30 consecutive days and a ratio of Annualized Borrower EBITDA to Annualized Cash Interest Expense (as defined in the Credit Agreement) of not less than 2.0x for any fiscal quarter. In addition, our ratio of Consolidated Total Net Debt to Consolidated Adjusted EBITDA (as defined in the Credit Agreement) for any fiscal quarter on an annualized basis cannot exceed 8.9x. The Credit Agreement also contains customary affirmative and negative covenants that, among other things, limit SBA Senior Finance II's ability to incur indebtedness, grant certain liens, make certain investments, enter into sale leaseback transactions or engage in certain asset dispositions, including a sale of all or substantially all of our assets. As of September 30, 2010, SBA Senior Finance II and SBA Communications were in full compliance with the financial covenants contained in the 2010 Credit Facility.

Inflation

The impact of inflation on our operations has not been significant to date. However, we cannot assure you that a high rate of inflation in the future will not adversely affect our operating results particularly in light of the fact that our site leasing revenues are governed by long-term contracts with pre-determined pricing that we will not be able to increase in response to increases in inflation.

Table of Contents**Accounting Changes and Recent Accounting Pronouncements**

For a description of accounting changes and recent accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on our condensed consolidated financial statements, see Note 2: Current Accounting Pronouncements in the Condensed Notes to Consolidated Financial Statements of this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to certain market risks that are inherent in our financial instruments.

The following table presents the future principal payment obligations and interest rates associated with our debt instruments assuming our actual level of indebtedness as of September 30, 2010:

	2010	2011	2012	2013	2014 (in thousands)	Thereafter	Total	Fair Value
Debt:								
0.375% Convertible Senior Notes due 2010	\$ 30,403	\$	\$	\$	\$	\$	\$ 30,403	\$ 36,522
1.875% Convertible Senior Notes due 2013	\$	\$	\$	\$ 550,000	\$	\$	\$ 550,000	\$ 619,438
4.0% Convertible Senior Notes due 2014	\$	\$	\$	\$	\$ 500,000	\$	\$ 500,000	\$ 736,563
8.0% Senior Notes due 2016	\$	\$	\$	\$	\$	\$ 375,000	\$ 375,000	\$ 401,250
8.25% Senior Notes due 2019	\$	\$	\$	\$	\$	\$ 375,000	\$ 375,000	\$ 405,000
4.254% 2010-1 Tower Securities ⁽¹⁾	\$	\$	\$	\$	\$	\$ 680,000	\$ 680,000	\$ 720,324
5.101% 2010-2 Tower Securities ⁽¹⁾	\$	\$	\$	\$	\$	\$ 550,000	\$ 550,000	\$ 588,940

- (1) The anticipated repayment date and the final maturity date for the 2010 1 Tower Securities is April 16, 2015 and April 16, 2040, respectively. The anticipated repayment date and the final maturity date for the 2010 2 Tower Securities is April 16, 2017 and April 16, 2042, respectively.

Our current primary market risk exposure is interest rate risk relating to (1) our ability to meet financial covenants and (2) the impact of interest rate movements on any borrowings that we may incur under our 2010 Credit Facility, which are at floating rates. We manage the interest rate risk on our outstanding debt through our large percentage of fixed rate debt. While we cannot predict our ability to refinance existing debt or the impact interest rate movements will have on our existing debt, we continue to evaluate our financial position on an ongoing basis. In addition, in connection with our convertible notes, we are subject to market risk associated with the market price of our common stock.

Special Note Regarding Forward-Looking Statements

This quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements concern expectations, beliefs, projections, plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this quarterly report contains forward-looking statements regarding:

our expectations that site leasing revenues will continue to grow as wireless service providers lease additional antenna space on our towers due to increasing minutes of network use, network expansion and network coverage requirements;

our belief that our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures;

our expectations regarding the growth of our cash flows by adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost of tower modifications;

Table of Contents

our estimates regarding certain accounting and tax matters, including the adoption of certain accounting pronouncements and the availability of sufficient net operating losses to offset future taxable income;

our expectations regarding our future cash capital expenditures, both discretionary and non-discretionary, including expenditures required to maintain, improve and modify our towers and general corporate expenditures;

our estimates regarding our liquidity and our annual debt service in 2010 and thereafter, and our belief that our cash flows from operations for the next twelve months will be sufficient to service our outstanding debt during the next twelve months;

our use of the net proceeds from our recent debt offerings;

our expectations regarding the acquisition of revenue producing or expense reducing assets not yet identified and under contract;

our belief that certain non-GAAP financial measures are indicators of our operating performance;

our expectations that our cash flows will grow by adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost of tower modifications; and

our intentions regarding the share repurchase program.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels to permit us to meet our anticipated uses of liquidity for operations and estimated portfolio growth;

the ability of our clients to access sufficient capital or their willingness to expend capital to fund network expansion or enhancements;

our ability to continue to comply with covenants and the terms of our credit instruments;

our ability to secure site leasing tenants, including our ability to retain current leases on towers and deal with the impact, if any, of recent consolidation among wireless service providers;

Edgar Filing: SBA COMMUNICATIONS CORP - Form 10-Q

our ability to identify towers and land underneath towers that would be attractive to our clients and accretive to our financial results; and to negotiate and consummate agreements to acquire such towers and land;

Table of Contents

our ability to identify, acquire at acceptable prices and terms and integrate into our leasing business towers and tower assets, domestically and internationally, that meet our investment criteria and, to the extent that any such towers and tower assets are located internationally, our ability to successfully manage the risks associated with international operations, including foreign exchange risk, currency restrictions and foreign regulatory and legal risks;

our ability to secure and deliver anticipated services business at contemplated margins;

our ability to successfully and timely address zoning issues, permitting and other issues that arise in connection with the building of new towers;

our ability to realize economies of scale from our tower portfolio;

the business climate for the wireless communications industry in general and the wireless communications infrastructure providers in particular;

the state of the credit markets and capital markets, including the level of volatility, illiquidity and interest rates that may affect our ability to pursue actions to manage our leverage position;

the continued use of towers and dependence on outsourced site development services by the wireless communications industry;

our ability to successfully estimate certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements;

the introduction of new technologies that may make our tower leasing business less desirable to potential tenants; and

natural disasters and other unforeseen damage for which our insurance may not provide adequate coverage.

ITEM 4. CONTROLS AND PROCEDURES

In order to ensure that the information we must disclose in our filings with the SEC is recorded, processed, summarized and reported on a timely basis, we have formalized our disclosure controls and procedures. Our principal executive officer and principal financial officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures, as defined in Securities and Exchange Act Rules 13a-15(e) and 15d-15(e), as of September 30, 2010. Based on such evaluation, such officers have concluded that, as of September 30, 2010, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
