**Disclaimer Regarding Forward-Looking Statements**

This quarterly report includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Panasonic and its Group companies (the Panasonic Group). To the extent that statements in this quarterly report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Panasonic Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Panasonic Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Panasonic undertakes no obligation to publicly update any forward-looking statements after the date of this quarterly report. Investors are advised to consult any further disclosures by Panasonic in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the U.S. Securities Exchange Act of 1934 and its other filings.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Panasonic Group operates businesses, or in which assets and liabilities of the Panasonic Group are denominated; the possibility of the Panasonic Group incurring additional costs of raising funds, because of changes in the fund raising environment; the ability of the Panasonic Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the possibility of not achieving expected results on the alliances or mergers and acquisitions including the acquisition of all shares of Panasonic Electric Works Co., Ltd. and SANYO Electric Co., Ltd. through tender offers and share exchanges; the ability of the Panasonic Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Panasonic Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Panasonic Group; the possibility that the Panasonic Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Panasonic Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes, prevalence of infectious diseases throughout the world and other events that may negatively impact business activities of the Panasonic Group. The factors listed above are not all-inclusive and further information is contained in Panasonic's latest annual reports, on Form 20-F, and any other reports and documents which are on file with the U.S. Securities and Exchange Commission.

Note: Certain information previously filed with the SEC in other reports is not included in this English translation.

**(2) Principal Businesses**

The Panasonic Group is comprised primarily of the parent Panasonic Corporation and 658 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Panasonic is engaged in production, sales and service activities in a broad array of business areas.

The Company strengthens the unity of all employees throughout the group and ultimately enhances the value of the Panasonic brand globally. The Company will continue its tireless efforts to generate ideas that brighten the lives of people everywhere in order to contribute to a better future both for the Earth and for the further development of society.

The Company's business segment classifications consist of six segments, namely, Digital AVC Networks, Home Appliances, PEW and PanaHome, Components and Devices, SANYO, and Other. Digital AVC Networks includes video and audio equipment, and information and communications equipment. Home Appliances includes household equipment. PEW and PanaHome includes electrical supplies, home appliances, building materials and equipment, and housing business. Components and Devices includes semiconductors, general electronic components, electric motors and batteries. SANYO includes solar cells, lithium-ion batteries, and optical pickups. Other includes FA equipment and other industrial equipment.

For production, Panasonic adopts a management system that takes charge of each product in the Company or its affiliates. In recent years, the Company has been enhancing production capacity at its overseas affiliates to further develop global business. Meanwhile, in Japan, Panasonic's products are sold through sales channels at its domestic locations, each established according to products or customers. The Company also sells directly to large-scale consumers, such as the government and corporations. For exports, sales are handled mainly through sales subsidiaries and agents located in their respective countries. Certain products produced at domestic affiliates are purchased by the Company and sold through the same sales channels as products produced by the Company itself. Additionally, products produced at overseas affiliates are sold mainly through sales subsidiaries in respective countries. Meanwhile, most import operations are carried out internally, and the Company aims to expand them to promote international economic cooperation.

Certain PEW, PanaHome and SANYO products are sold on a proprietary basis in Japan and overseas.

During the three months ended December 31, 2010, there were no major changes in principal businesses.

**(3) Changes in Affiliated Companies**

As of October 1, 2010, IPS Alpha Technology, Ltd., a consolidated subsidiary of the Company, integrated IPS Alpha Technology, Himeji, Ltd. and IPS Alpha Support Co., Ltd., and changed the company name to Panasonic Liquid Crystal Display Co., Ltd.

As of October 1, 2010, Panasonic Shikoku Electronics Co., Ltd., a consolidated subsidiary of the Company, changed the company name to Panasonic Healthcare Co., Ltd.

SANYO Semiconductor Co., Ltd. (SSC), a consolidated subsidiary of the Company, became a significant subsidiary, defined with Cabinet Office Ordinance of Japan, through the capital increase underwritten by SANYO, during the third quarter of fiscal 2011. As of January 1, 2011, SANYO transferred its entire shareholding of SSC to Semiconductor Components Industries LLC, a wholly-owned subsidiary of ON Semiconductor Corporation, and as a result, SSC was excluded from a consolidated subsidiary of the Company.

JVC KENWOOD Holdings, Inc. (JVC KENWOOD HD) and its subsidiaries ceased to be an associated company of the Company under the equity method as the voting rights of the Company in JVC Kenwood HD declined to less than 20%, due to JVC KENWOOD HD's issuance of new shares and disposition of treasury shares through a global offering on January 25, 2011.

**II The Business**

**(1) Operating Results**

During the third quarter, although the bleak employment scenario continued to plague developed countries, the global economy has recovered gradually, due mainly to economic stimulus plans in several countries and the sustained high-growth in emerging countries. In such business conditions, Panasonic Group launched a new midterm management plan called Green Transformation 2012 (GT12) in the beginning of fiscal 2011.

Consolidated group sales for the third quarter increased 21% to 2,285,413 million yen from the third quarter of fiscal 2010.

Regarding earnings, operating profit\* for the third quarter decreased to 95,364 million yen, down 6% from a year ago. This result was due mainly to ever-intensified global price competition and rising material costs, despite increasing sales and the streamlining of material costs and other general expenses. Pre-tax income for the third quarter was 82,767 million yen, up 2% from a year ago. This result was due mainly to a decrease in business restructuring expenses incurred as other deductions. Accordingly, net income for the third quarter was 39,025 million yen, up 12% from a year ago, and net income attributable to Panasonic Corporation was 39,983 million yen, up 24% from a year ago.

\* In order to be consistent with generally accepted financial reporting practices in Japan, operating profit, a non-GAAP measure, is presented as net sales less cost of sales and selling, general and administrative expenses. The Company believes that this is useful to investors in comparing the Company's financial results with those of other Japanese companies.

**(2) Operating Results by Segment**

The following information shows the operating results by business segment for the third quarter. The Company restructured the motor business on April 1, 2010. Accordingly, segment information for Home Appliances, and Component and Devices in the fiscal 2010 third quarter are reclassified to conform to the presentation for fiscal 2011.

Digital AVC Networks

Sales in this segment amounted to 927,569 million yen, a decrease of 5% compared with a year ago, due mainly to the sales decrease in digital cameras and mobile phones. Segment profit was 39,903 million yen, down 1% from a year ago. This amount level was almost in line with a year ago, due mainly to a fixed cost reduction and comprehensive streamlining efforts, despite the sales decrease.

Home Appliances

Sales in this segment amounted to 337,515 million yen, an increase of 10% compared with a year ago, due mainly to favorable sales in air conditioners, refrigerators and compressors. Segment profit amounted to 32,711 million yen, up 4% compared with a year ago, due mainly to favorable sales and a fixed cost reduction.

PEW and PanaHome

Sales in this segment amounted to 446,449 million yen, an increase of 9% compared with a year ago. Regarding Panasonic Electric Works Co., Ltd. (PEW) and its subsidiaries, in addition to improved sales mainly in home appliances and devices such as electronic materials and automation controls, sales recovery in housing/building related business such as electrical construction material also contributed to overall sales increase. For PanaHome Corporation and its subsidiaries, stable sales of housing construction such as detached housing and rental apartment housing led to the increase in overall sales. Segment profit amounted to 23,125 million yen, up 32% from a year ago, as strong sales covered the impact of rising material costs.

Components and Devices

Sales in this segment amounted to 232,810 million yen, a decrease of 6% compared with a year ago, due mainly to a sales decrease in semiconductors and exchange rate fluctuations. Segment profit amounted to 3,684 million yen, down 81% compared with a year ago, due mainly to a sales decrease and a price decline.

SANYO

Sales in this segment totaled 393,326 million yen. The sales of digital cameras and rechargeable batteries were sluggish due to weak demand. Segment profit resulted in a loss of 5,686 million yen after incurring expenses, such as amortization of intangible assets recorded at acquisition.

Other

Sales in this segment totaled 262,579 million yen, up 13% compared with a year ago, due mainly to a significant sales increase in factory automation equipment. Segment profit also improved to 12,224 million yen, up 99% compared with a year ago.

**Table of Contents**

- 7 -

**(3) Assets, Liabilities and Equity**

The Company's consolidated total assets as of December 31, 2010 decreased by 825,590 million yen to 8,138,376 million yen compared with 8,963,966 million yen at the end of the second quarter of fiscal 2011. This was due mainly to the decrease in cash and cash equivalents related to the tender offers for the shares of PEW and SANYO.

Regarding liabilities, total liabilities amounted to 5,111,401 million yen, a decrease of 314,720 million yen compared with the end of the second quarter of fiscal 2011. This was due mainly to a decrease of short-term bonds.

Panasonic Corporation shareholders' equity decreased by 11,019 million yen to 2,640,941 million yen compared with the end of the second quarter of fiscal 2011. This result was due primarily to a deterioration in accumulated other comprehensive income (loss) influenced by the appreciation of the yen and a decrease in capital surplus owing to acquisition of noncontrolling interests of the Company's subsidiaries, despite an increase in retained earnings by incurring quarterly net income attributable to Panasonic Corporation. Noncontrolling interests decreased by 499,851 million yen to 386,034 million yen due primarily to the tender offer.

**(4) Cash Flows**

**Cash flows from operating activities**

Net cash provided by operating activities in the fiscal 2011 third quarter totaled 126,970 million yen, a decrease of 22,959 million yen from a year ago. This was due primarily to a decrease in trade payables.

**Cash flows from investing activities**

Net cash used in investing activities in the fiscal 2011 third quarter amounted to 48,213 million yen, a decrease of 269,787 million yen from a year ago. This difference from a year ago was due primarily to a decrease in time deposits and the prior year's expenditures to purchase shares of a newly consolidated subsidiary.

Cash flows from financing activities

Net cash used in financing activities in the fiscal 2011 third quarter amounted to 808,960 million yen, an increase of 619,432 million yen from a year ago. This was due mainly to a decrease in short-term bonds and the expenditures related to the tender offers for the shares of PEW and SANYO.

All these activities associated with the effect of exchange rate fluctuations resulted in cash and cash equivalents of 1,125,951 million yen as of December 31, 2010, down 742,455 million yen compared with the end of the second quarter of fiscal 2011.

**Table of Contents**

- 8 -

**(5) Research and Development**

Panasonic's R&D expenditures for the third quarter of fiscal 2011 totaled 134,862 million yen. There were no significant changes in R&D activities for the period.

**(6) Risk Factors**

There were no risks newly identified during the three months ended December 31, 2010. However, there were significant changes with regard to the Risk Factors stated in the annual report of the prior fiscal year and the quarterly reports of the first and second quarter of this fiscal year as follows.

**Alliances with, and strategic investments in, third parties, and mergers and acquisitions undertaken by Panasonic, may not produce positive or expected results**

Panasonic develops its businesses by forming alliances or joint ventures with, and making strategic investments in, other companies, including investments in start-up companies. Furthermore, the strategic importance of partnering with third parties is increasing. In some cases, such partnerships are crucial to Panasonic's goal of introducing new products and services, but Panasonic may not be able to successfully collaborate or achieve expected synergies with its partners. Furthermore, Panasonic does not control these partners, who may make decisions regarding their business undertakings with Panasonic that may be contrary to Panasonic's interests. In addition, if these partners change their business strategies, Panasonic may fail to maintain these partnerships. Panasonic, Panasonic Electric Works (PEW) and SANYO Electric Co., Ltd. (SANYO) resolved, at their respective meetings of the Boards of Directors held on July 29, 2010, to pursue a plan of Panasonic's acquisition of all shares of PEW and SANYO in order to make them wholly-owned subsidiaries of Panasonic (the Acquisitions) by around April 2011 by way of tender offers and, thereafter, share exchanges. Panasonic conducted, pursuant to the resolution of its above-mentioned Board of Directors meeting, the tender offers for the shares of PEW and SANYO at a purchase price of 1,110 yen per share of PEW common stock and 138 yen per share of SANYO common stock during a tender offer period from August 23, 2010 through October 6, 2010, and as a result, Panasonic's shareholdings of PEW and SANYO became approximately 84% and 81%, respectively. Thereafter, Panasonic, PEW and SANYO resolved, at their respective meetings of the Boards of Directors held on December 21, 2010, to conduct share exchanges in order to make Panasonic a wholly-owning parent company, and PEW and SANYO wholly-owned subsidiaries, and the share exchange agreements were executed between Panasonic and PEW, and between Panasonic and SANYO, respectively. The Acquisitions are scheduled to be completed on April 1, 2011 subject to approval of the share exchange agreements at extraordinary general meetings of PEW and SANYO, respectively. However, Panasonic may not be able to promptly complete the Acquisitions or realize the business reorganization which is scheduled thereafter. Furthermore, even if Panasonic completes the Acquisitions, Panasonic may fail to sufficiently achieve the expected results of the

Acquisitions, such as promotion of rapid decision-making and maximization of group synergies.

Note: The forward-looking statements in the above information are based on our belief as of the filing date of this quarterly report.

**(7) Others**

Based on the Board of Directors meeting held on July 29, 2010, the Company conducted the tender offers for common shares of PEW and SANYO from August 23, 2010 through October 6, 2010. The aggregate purchase amount of the tender offers is 525.2 billion yen and, as a result of the tender offers, the equity ownership of the Company in PEW and SANYO is approximately 84% and 81%, respectively. Thereafter, Panasonic, PEW and SANYO resolved at their respective meetings of the Board of Directors held on December 21, 2010, to conduct share exchanges in order to make Panasonic a wholly-owning parent company, and the share exchange agreements were executed between Panasonic and PEW, and between Panasonic and SANYO. Shares of both subsidiaries are scheduled to be delisted on March 29, 2011, as the effective date for the share exchanges has been set as April 1, 2011, subject to approval of the share exchange agreements at extraordinary general meetings of PEW and SANYO, in early March 2011.

A sales breakdown by geographical market was as follows: Japan 53%, North and South America 12%, Europe 11%, and Asia and Others 24%.

The Company is not dependent on a single supplier and has no significant difficulty in obtaining raw materials from suppliers.

\* PEW stands for Panasonic Electric Works Co., Ltd. and PanaHome stands for PanaHome Corporation. SANYO stands for SANYO Electric Co., Ltd.

(b) **Basis of Presentation of Consolidated Financial Statements**

The Company and its domestic subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner and reflect adjustments which are necessary to conform with U.S. generally accepted accounting principles (U.S. GAAP).

**Table of Contents**

- 20 -

**(c) Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. Investments in companies and joint ventures over which we have the ability to exercise significant influence (generally through a voting interest of between 20% to 50%) are included in Investments and advances in the consolidated balance sheets. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company has 658 consolidated subsidiaries and 233 associated companies under equity method as of December 31, 2010.

**(d) Use of Estimates**

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions are reflected in valuation and disclosure of revenue recognition, allowance for doubtful receivables, valuation of inventories, impairment of long-lived assets, environmental liabilities, valuation of deferred tax assets, uncertain tax positions, employee retirement and severance benefit plans, and assets acquired and liabilities assumed by business combinations.

**(e) Adoption of New Accounting Pronouncements**

On April 1, 2010, the Company adopted Accounting Standards Update (ASU) 2009-16, Accounting for Transfers of Financial Assets. ASU 2009-16 removes the concept of a qualifying special-purpose entity (QSPE) from ASC 860,

Transfers and Servicing, and the exception from applying ASC 810 to QSPEs, thereby requiring transferors of financial assets to evaluate whether to consolidate transferees that previously were considered QSPEs. ASU 2009-16 also clarifies ASC 860's sale-accounting criteria pertaining to legal isolation and effective control and creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale. The adoption of ASU 2009-16 did not have a material effect on the Company's consolidated financial statements.

On April 1, 2010, the Company adopted ASU 2009-17, Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities. ASU 2009-17, which amends ASC 810, revises the test for determining the primary beneficiary of a Variable Interest Entities (VIE) from a primarily quantitative risks and rewards calculation based on the VIE's expected losses and expected residual returns to a primarily qualitative analysis based on identifying the party or related-party (if any) with the power to direct the activities that most significantly impact the VIE's economic performance and the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE. The adoption of ASU 2009-17 did not have a material effect on the Company's consolidated financial statements.

For the three months ended December 31, 2010, the Company adopted the provisions of the disclosures as of the end of a reporting period included in ASU 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses. ASU 2010-20 requires an entity to provide disclosures about the nature of credit risk inherent in the entity's portfolio of financing receivables, how that risk is analyzed and assessed in arriving at the allowance for credit losses, and the changes and reasons for those changes in the allowance for credit losses in order to increase transparency about disclosures of entity's credit risk exposures and adequacy of its allowance for credit losses. The adoption of the provisions of ASU 2010-20 did not have a material effect on the Company's consolidated financial statements.

(12) Derivatives and Hedging Activities

The Company operates internationally, giving rise to significant exposure to market risks arising from changes in foreign exchange rates, interests rates and commodity prices. The Company assesses these risks by continually monitoring changes in these exposures and by evaluating hedging opportunities. Derivative financial instruments utilized by the Company to hedge these risks are comprised principally of foreign exchange contracts, interests rate swaps, cross currency swaps and commodity derivatives. The Company does not hold or issue derivative financial instruments for trading purposes.

The Company accounts for derivative instruments in accordance with ASC 815, Derivatives and Hedging. Amounts included in accumulated other comprehensive income (loss) at December 31, 2010 are expected to be recognized in earnings principally over the next twelve months. The maximum term over which the Company is hedging exposures to the variability of cash flows for foreign currency exchange risk is approximately five months.

The Company is exposed to credit risk in the event of non-performance by counterparties to the derivative contracts, but such risk is considered mitigated by the high credit rating of the counterparties.

(13) Fair Value

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

*Cash and cash equivalents, Time deposits, Trade receivables, Short-term debt, Trade payables, Accrued expenses*

The carrying amount approximates fair value because of the short maturity of these instruments.

*Investments and advances*

The fair value of investments and advances is estimated based on quoted market prices or the present value of future cash flows using appropriate current discount rates.

*Long-term debt, including current portion*

The fair value of long-term debt is estimated based on quoted market prices or the present value of future cash flows using appropriate current discount rates.

*Derivative financial instruments*

The fair value of derivative financial instruments, all of which are used for hedging purposes, is estimated based on unadjusted market prices or quotes obtained from brokers, which are periodically validated by pricing models using observable inactive market inputs.

*Limitations*

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

ASC 820 defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets.
- Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Unobservable inputs for the asset or liability.

*Assets and liabilities measured at fair value on a recurring basis*

The following table presents assets and liabilities that are measured at fair value on a recurring basis at December 31 and March 31, 2010:

The Company's existing marketable equity securities and commodity futures are included in Level 1, which are valued using an unadjusted quoted market price in active markets with sufficient volume and frequency of transactions.

Level 2 available-for-sale securities include all debt securities, which are valued using inputs other than quoted prices that are observable. Level 2 derivatives including foreign exchange contracts and commodity futures are valued using quotes obtained from brokers, which are periodically validated by pricing models using observable market inputs, such as foreign currency exchange rates and market prices for commodity futures.

The Company classified the impaired security, representing a substantial portion of the write-down, in Level 1 as the Company used an unadjusted quoted market price in active markets as input to value the investment. The remaining impaired security is classified in Level 3 as the Company used unobservable inputs to value the investment.

For three months ended December 31, 2010, there were no circumstances that required any significant assets and liabilities that are not measured at fair value on an ongoing basis to be measured and recognized at fair value.

The Company classified most of assets described above in Level 3 as the Company used unobservable inputs to value these assets when recognizing impairment losses related to the assets. The fair value for the major assets was measured through estimated future cash flows. The Company classified certain investments in Level 1 as the Company used an unadjusted quoted market price in active markets as valuation inputs.

(14) Commitments and Contingent Liabilities

The Company provides guarantees to third parties mainly on bank loans provided to associated companies and customers. The guarantees are made to enhance their credit. For each guarantee provided, the Company is required to perform under the guarantee if the guaranteed party defaults on a payment. Also, the Company sold certain trade receivables to independent third parties, some of which are with recourse. If the collectibility of those receivables with recourse becomes doubtful, the Company is obligated to assume the liabilities. At December 31, 2010, the maximum amount of undiscounted payments the Company would have to make in the event of default is 37,346 million yen. The carrying amount of the liabilities recognized for the Company's obligations as a guarantor under those guarantees at December 31 and March 31, 2010 was insignificant.

In connection with the sale and lease back of certain machinery and equipment, the Company guarantees a specific value of the leased assets. For each guarantee provided, the Company is required to perform under the guarantee if certain conditions are met during or at the end of the lease term. At December 31, 2010, the maximum amount of undiscounted payments the Company would have to make in the event that these conditions are met is 45,006 million yen. The carrying amount of the liabilities recognized for the Company's obligations as guarantors under those guarantees at December 31 and March 31, 2010 was insignificant.

The Company and certain subsidiaries are under the term of leasehold interest contracts for land of domestic factories and have obligations for restitution on their leaving. The asset retirement obligations cannot be reasonably estimated because the durations of use of the leased assets are not specified and there are no plans to undertake relocation in the future. Therefore, the Company did not recognize asset retirement obligations.

The Company and certain of its subsidiaries are subject to a number of legal proceedings including civil litigations related to tax, products or intellectual properties, or governmental investigations. Since November 2007, the Company and MT Picture Display Co., Ltd. (MTPD), a subsidiary of the Company, are subject to investigations by government authorities, including the Japan Fair Trade Commission, the U.S. Department of Justice and the European Commission, in respect of alleged antitrust violations relating to cathode ray tubes (CRTs). Subsequent to these actions by the authorities, a number of class action lawsuits have been filed in the U.S. and Canada against the Company and certain of its subsidiaries. In October 2009, the Japan Fair Trade Commission issued a cease and desist order against MTPD and assessed a fine against its three subsidiaries in South East Asia, but each named company filed for a hearing to challenge the orders which is currently subject to proceedings. Since February 2009, the Company is subject to investigations by government authorities, including the U.S. Department of Justice and the European Commission, in respect of alleged antitrust violations relating to compressors for refrigerator use. Subsequent to these actions by the authorities, a number of class action lawsuits have been filed in the U.S. and Canada against the Company and certain of its subsidiaries. The Company has been cooperating with the various

governmental investigations. Depending upon the outcome of these different proceedings, the Company and certain of its subsidiaries may be subject to an uncertain amount of fines, and accordingly the Company has accrued for certain probable and reasonable estimated amounts for the fines. On September 30, 2010, the Company has entered into a plea agreement with the U.S. Department of Justice to resolve alleged antitrust violations relating to compressors for refrigerator use. This agreement did not have a material effect on the Company's consolidated financial statements. Other than those above, there are a number of legal actions against the Company and certain subsidiaries. Management is of the opinion that damages, if any, resulting from these actions will not have a material effect on the Company's consolidated financial statements.
