1. CONSOLIDATED RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

(Please refer to Summary of Financial Results for Fiscal 2010 for more information.)

Mizuho Financial Group (the Group) would like to express its deepest and sincerest apologies to all of our customers and shareholders, and to everyone who has experienced any inconvenience caused by the computer system failures that occurred at Mizuho Bank, Ltd. (MHBK) in March 2011. Since the computer system failures occurred, the Group has been making every effort to restore the system to normal as soon as possible by mobilizing all available resources of the Group. In April of this year, in order to investigate the cause of the system failures and receive evaluations and suggestions about the validity of the plan for preventing a recurrence, MHBK established the Special Investigating Committee on System Failures, which is a third party committee comprised of independent outside experts and specialists. All of the officers and employees of the Group have been endeavoring together to their full extent to investigate the cause and immediately implement the plan for preventing a recurrence, with the aim of regaining customers' trust.

(1) Analysis of Results of Operations

Reviewing the economic environment over the fiscal year ended March 31, 2011, there are indications of regional variations in the speed of the continuing recovery in the global economy which has been led by newly developing countries, and the risk remains of a slackening in the economy due to factors including the appreciation in commodity markets and the fiscal problems experienced by certain countries in Europe.

In the United States, recovery in the economy continues on the basis of steady capital investment together with positive trends in consumer spending, but with rising unemployment and so on there is a risk of a stalling in economic growth. In Europe, overall economic growth is stagnant, and there is a growing gap between the richer and the poorer countries, while there exist growing concerns about financial markets and real economy against the backdrop of the fiscal problems experienced by certain countries. In Asia, the increase in demand in the Chinese market has a knock-on effect in inducing an increase in exports and production activity in neighboring economies, and while the pace of growth is slowing, the region continues to maintain strong economic growth, although there are increasing concerns about inflation.

In Japan, despite the continuing appreciation of the value of the yen against other currencies and mild deflationary situation, positive growth in the economy has been maintained as represented by continuous improvement of corporate profits and recovery of personal consumption resulting from the improvement of the foreign economic environment and the effect of various stimulus programs. Nevertheless, due to the impact of the Great Eastern Japan Earthquake, constraints to production activities and a sharp decline in personal consumption seem to be inevitable at least in the short term. As for the future direction of the economy, while there are boosting factors such as the rebound of exports and the growing demands for restoring damaged capital assets, there are also several causes for concern, such as electricity shortages in summer, a slowing in economies abroad and a prolonged slump in personal consumption, and thus the risk remains for these factors to serve as a drag on economic growth.

Under the foregoing business environment, we recorded Net Income of ¥413.2 billion for fiscal 2010.

As for earnings estimates for fiscal 2011, we estimate Ordinary Profits of ¥660.0 billion and Net Income of ¥460.0 billion on a consolidated basis.

(2) Analysis of Financial Conditions

Consolidated total assets as of March 31, 2011 amounted to ¥160,812.0 billion, increasing by ¥4,558.4 billion from the end of the previous fiscal year, mainly due to increases in Cash and Due from Banks.

Securities were ¥44,782.0 billion, increasing by ¥1,685.6 billion from the end of the previous fiscal year.

The balance of Loans and Bills Discounted amounted to ¥62,777.7 billion, increasing by ¥613.1 billion from the end of the previous fiscal year.

Deposits amounted to ¥79,233.9 billion, increasing by ¥2,894.1 billion from the end of the previous fiscal year.

Net Assets amounted to ¥6,623.9 billion, increasing by ¥786.9 billion from the end of the previous fiscal year. Shareholders' Equity was ¥4,248.2 billion, Accumulated Other Comprehensive Income was ¥80.9 billion and Minority Interests was ¥2,292.1 billion.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Net Cash Provided in Operating Activities was ¥6,051.5 billion mainly due to increased Borrowed Money (excluding subordinated Borrowed Money). Net Cash Provided (Used in) by Investing Activities was ¥(1,667.4) billion mainly due to acquisition of securities, and Net Cash Provided in Financing Activities was ¥155.0 billion mainly due to issuance of common stock.

As a result, Cash and Cash Equivalents as of March 31, 2011 was ¥9,182.4 billion.

The Consolidated Capital Adequacy Ratio (Basel II BIS Standard) was 15.30% (preliminary).

	March 31, 2009	March 31, 2010	March 31, 2011
Basel II	10.53%	13.46%	15.30%

(3) Basic Policy on Profit Distribution, Proposed Dividend Payment for Fiscal 2010 and Forecast Dividend Payment for Fiscal 2011

We continue to pursue strengthening of stable capital base and steady returns to shareholders as our disciplined capital management policy and have been placing a higher priority on strengthening of stable capital base, considering global discussions about capital adequacy and the uncertainty of economic and market trends.

Based on this policy, in consideration of our consolidated financial results, we plan to make cash dividend payments of ¥6 per share of common stock for the fiscal year ending March 31, 2011 as previously announced.

We also propose making dividend payments on preferred stock as prescribed (i.e., a cash dividend of ¥20 per share for the Eleventh Series Class XI Preferred Stock and a cash dividend of ¥30 per share for the Thirteenth Series Class XIII Preferred Stock).

As for the dividend forecast of common stock for fiscal 2011, in the present circumstances of a heightened awareness of the importance of financial institutions capital adequacy, we continue to consider the balance between strengthening of stable capital base and steady returns to shareholders. From this standpoint, we plan to make cash dividend payments of ¥6 per share of common stock. As for the dividend forecast of preferred stock for fiscal 2011, we plan to make cash dividend payments as prescribed. We have continued to make cash dividend payments only at the end of the period, however we intend to make cash dividend payments at the interim period commencing from the fiscal year ending March 31, 2012 to return profits to shareholders in a more timely way.

(Dividends Estimates for Fiscal 2011)

Common Stock	Cash Dividends per Share	¥ 6
	Interim Dividends	¥ 3
Eleventh Series Class XI	Cash Dividends per Share	¥ 20
	Interim Dividends	¥ 10
Thirteenth Series Class XIII	Cash Dividends per Share	¥ 30
	Interim Dividends	¥ 15

The above dividend estimate is based on information that is currently available to us and on assumptions regarding factors that have an influence on future results of operations. Actual results may differ materially from these estimates. Please refer to forward-looking statements on the second page of this immediate release.

3. MANAGEMENT POLICY

(1) Principal Management Policy

Mizuho Financial Group (the Group) pursues our goals of being held in high regard by our shareholders and the financial markets and earning widespread trust from the community as Japan's leading comprehensive financial services group on the basis of the three fundamental management philosophies below.

- a) To provide the highest level of comprehensive financial services to our customers and clients.
- b) To provide an attractive, inspiring workplace for our employees where they can each demonstrate their rich individuality and ability to meet their respective challenges.
- c) To enable each group company to demonstrate to the utmost its own particular characteristics and strengths in its respective business field and function.

(2) Management's Medium/Long-term Targets and Issues to be Resolved

Regarding the computer system failures that occurred at MHBK in March 2011, the Group will endeavor together to their full extent in preventing a recurrence through thorough investigations into the cause of the computer system failures, also by comprehensively reviewing the investigation report provided by the Special Investigating Committee on System Failures, which is the third party committee comprised of outside experts and specialists, and will, as a whole, strive to regain customers' trust in the Group.

Since the announcement of the Transformation Program as the Medium-term Management Policy of the Group in May 2010, the Group has promoted a policy to enhance profitability, financial base and front-line business capabilities of the Group through a fundamental review of those areas in an aim to respond promptly and appropriately to a new business environment while the Group practices its customer first policy.

By promoting the Transformation Program, which consists of the three pillars of Program for Improving Profitability, Program for Enhancing Financial Base, and Program for Strengthening Front-line Business Capabilities, the Group aims to become the financial institution most trusted by customers.

With respect to capital management, the strengthening of their capital bases has become increasingly important for financial institutions as reform of global capital regulations is currently being conducted.

The Group will, through the steady implementation of the Transformation Program, continuously strive to further strengthen its financial base mainly by accumulating retained earnings through improved profitability, and improving asset efficiency.

The Group companies will strengthen profitability by providing superior financial services to their customers through the use of their respective strengths and the promotion of mutual collaboration within the Group.

For the purpose of integrating Group-wide business operations, optimizing management resources, such as workforce and branch network, and accelerating the implementation of the Transformation Program, in April 2011, the respective share exchange agreements were entered whereby (i) MHTB has been turned into the wholly-owned subsidiary of MHFG, (ii) MHSC has been turned into the wholly-owned subsidiary of MHCBC, and (iii) MHIS has been turned into the wholly-owned subsidiary of MHBK (the Transactions).

Through the Transactions, the Group aims to (i) ensure a prompt decision making process and flexibility of strategies and establish a Group management structure that can respond with greater flexibility to the changes in the extended business environment, etc., (ii) further enhance its comprehensive financial services capabilities and reinforce Group collaboration that provides seamless full-line services that include banking, trust and securities functions, and (iii) pursue improvement of Group management efficiency by thoroughly promoting the consolidation of operations and the cost structure reforms.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

In respect of the securities business, the Group will consider the integration of MHSC and MHIS by merger or other methods after the completion of the Transactions in order to enhance the retail business in Japan, rationalize and streamline management infrastructure, and provide securities functions in a unified manner through the Group's full-line securities company.

In carrying out further facilitated financing, the Group is constantly aware of its social responsibilities and the importance of its public mission as a financial institution, and will make efforts to facilitate financing uniformly through the Group companies in response to the extended Law Concerning Temporary Measures to Facilitate Financing for Small and Medium-Size Enterprises, etc. and in compliance with the purpose of the guidelines for supervision of Financial Services Agency issued in April 2011, concerning the Concrete Roles Which Financial Institutions Should Play to Demonstrate the Consulting Function.

Considering the severity and scope of the damage caused by the Great Eastern Japan Earthquake to the national economy and life, also pursuant to its social responsibilities and its public mission as a financial institution, the Group will exert its utmost efforts to support the swift customer recovery and reconstruction of the affected industries and areas.

[Business Strategy]

(Please refer to Management Structure of Mizuho Financial Group, Inc. on page 1-10.)

(Global Corporate Group)

Aiming to be a top corporate finance provider, MHCB will continuously strengthen its profitability by mainly focusing on its strategic business fields, and continuously differentiate from, and establish a superior position over, its competitors by providing a swift response such as predictive sign monitoring, and a strategic response to changes in the environment. In particular, MHCB will further strengthen its profitability through the allocation of management resources to its businesses in Asia and in other areas that MHCB mainly intends to improve. In addition, MHCB will further reinforce the framework for improving its ability to offer financial solutions to domestic customers and will promote collaboration with the Group companies. MHCB will also, through the collaboration with MHSC and enhanced management administration, further promote the formulation of the global strategy for securities transactions and the improvement of the operation system. Moreover, MHCB will improve its management administration regime, including the improvement of portfolio management.

In aiming towards the swift recovery of its customers and reconstruction of the industries and areas affected by the Great Eastern Japan Earthquake, MHCB is aware of the significance of being a driver of industrial finance, and will, through the recovery process, positively and voluntarily become involved therein. MHCB will also contribute to the structural conversion in the industries and regions and the economic revitalization as well as responding to the demand for reconstruction funds.

MHSC employs two main business strategies: implementing a profit model centered on the business with customers and creating a management structure that is highly responsive to environmental changes, and, through the maximization of the effects of the collaborations between the banking and securities, MHSC will improve customer services and its product development capabilities.

Through the aforementioned measures, Global Corporate Group will make efforts to provide, not only the high-quality solutions of the banking and securities businesses, but also the financial services that are most suited to their needs, for which the financial functions of the Group will be fully utilized.

(Global Retail Group)

MHBK will return to its original starting point as a commercial bank, and will establish a medium-to-long-term relationship of trust with customers, including individual customers, small- and medium-sized enterprises, middle market corporations, and their management, based on its philosophy of putting customers first.

In the individuals market, MHBK will implement sophisticated measures to meet the needs of its customers and to match the nature of markets while it reinforces the collaboration among the Group companies.

In the corporate market, MHBK will actively provide customers with smooth financing and optimum solutions while it conducts careful credit controls. MHBK will respond to more diversified and sophisticated needs of its customers by expanding points of contact with customers, and by reinforcing its collaboration with the Group companies and leveraging the full resources of the Group.

MHBK will strive to become involved in assisting in the recovery efforts in the areas affected by the Great Eastern Japan Earthquake, including financially supporting the customers' businesses and lives to the fullest extent and voluntarily getting involved in the reconstruction of the affected areas as a financial institution with a number of local branches and offices located in those areas.

MHBK will continue to strengthen its compliance, customer protection, and security to ensure that its customers will be able to carry out their transactions without worries.

(Global Asset & Wealth Management Group)

MHTB will make every effort to increase profits and to significantly broaden its customer base through the provision of sophisticated trust products and/or trust services to customers of the whole Group. In addition, MHTB will further devote management resources to areas in which MHTB specializes and in which MHTB will be able to demonstrate benefits of a trust business by selecting and concentrating on such area, while focusing on the general marketing functions of the trust business and further enhancing the collaboration among the Group companies. Also, MHTB will continue to focus on enhancing its internal controls, thereby strengthening compliance and customer protection in the process of enhancing the unification of the Group.

MHTB will exert its utmost efforts, as a trust bank, to assist the society and customers affected by the Great Eastern Japan Earthquake in their recovery and reconstruction efforts, and render assistance through its real estate business and trust function including real estate, etc., in addition to responding to the demand for reconstruction funds.

Mizuho Private Wealth Management Co., Ltd. will promote the further strengthening of its owner-consulting capabilities through the full use of products and functions across the Group companies.

As core companies in the asset management business of the Group, Mizuho Asset Management Co., Ltd. and DIAM Co., Ltd. will respond to the diverse needs of customers.

The Group will continue to establish a firm compliance structure and an advanced risk management regime, and will steadily pursue business strategies, in its efforts to become a financial partner that helps customers shape their future and achieve their dreams, which is an ideal implicit in the Group brand slogan, Channel to Discovery.

Also, the Group will work to fulfill its social responsibilities and public mission and further promote its corporate values by promoting CSR (corporate social responsibilities) activities, from the perspective of assisting the recovery from the Great Eastern Japan Earthquake, in addition to providing support for financial education and environmental efforts. Our shareholders' continuing support would be greatly appreciated.

During the period, Eurekahedge Pte, Ltd. and 8 other companies were newly consolidated as a result of acquisition of the stocks and other factors.

During the period, Mizuho Corporate Bank (Germany) Aktiengesellschaft and 18 other companies were excluded from the scope of consolidation as a result of dissolution and other factors.

b) Number of non-consolidated subsidiaries: 0

2. Application of the Equity Method

a) Number of non-consolidated subsidiaries under the equity method: 0

b) Number of affiliates under the equity method: 22

Name of principal companies:

Orient Corporation

The Chiba Kogyo Bank, Ltd.

During the period, Orient Corporation and one other company were newly included in the scope of the equity method as a result of the exercise of the right to request acquisition of the preferred shares and other factors.

During the period, Mitoyo Securities Co., Ltd. was excluded from the scope of the equity method as a result of the sale of stocks.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

c) Number of non-consolidated subsidiaries not under the equity method: 0

d) Affiliates not under the equity method:

Name of principal company:

Asian-American Merchant Bank Limited

Non-consolidated subsidiaries and affiliates not under the equity method are excluded from the scope of the equity method since such exclusion has no material effect on MHFG's consolidated financial statements in terms of Net Income (Loss) (amount corresponding to MHFG's equity position), Retained Earnings (amount corresponding to MHFG's equity position), Net Deferred Hedge Gains (Losses), net of Taxes (amount corresponding to MHFG's equity position) and others.

(Changes in Basis for Presentation and Principles of Preparation of Financial Statements)

Mizuho Financial Group has applied Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No. 16, March 10, 2008) and Practical Solution on Unification of Accounting Policies Applied to Associates Accounted for Using the Equity Method (PITF No. 24, March 10, 2008) beginning with this fiscal year.

This application does not affect the consolidated financial statements.

3. Balance Sheet Dates of Consolidated Subsidiaries

- a) Balance sheet dates of consolidated subsidiaries are as follows:

The day before the last business day of June	7 companies
September 30	1 company
December 29	18 companies
December 31	59 companies
March 31	67 companies

- b) Consolidated subsidiaries with balance sheet dates of the day before the last business day of June and December 29 were consolidated based on their tentative financial statements as of and for the period ended December 31. Consolidated subsidiaries with balance sheet dates of September 30 were consolidated based on their tentative financial statements as of and for the period ended the consolidated balance sheet date.

Other consolidated subsidiaries were consolidated based on their financial statements as of and for the period ended their respective balance sheet dates.

The necessary adjustments have been made to the financial statements for any significant transactions that took place between their respective balance sheet dates and the date of the consolidated financial statements.

4. Special Purpose Entities Subject to Disclosure

- a) Summary of special purpose entities subject to disclosure and transactions with these special purpose entities Mizuho Bank, Ltd. (MHBK), Mizuho Corporate Bank, Ltd. (MHCB), and Mizuho Trust & Banking Co., Ltd. (MHTB), which are consolidated subsidiaries of MHFG, granted loans, credit facilities and liquidity facilities to 23 special purpose entities (mainly incorporated in the Cayman Islands) in their borrowings and fund raising by commercial paper in order to support securitization of monetary assets of customers.

The aggregate assets and aggregate liabilities of these 23 special purpose entities at their respective balance sheet dates amounted to ¥2,146,309 million and ¥2,145,260 million, respectively. MHBK, MHCB and MHTB do not own any shares with voting rights in any of these special purpose entities and have not dispatched any director or employee to them.

- b) Major transactions with these special purpose entities subject to disclosure as of or for the fiscal year ended March 31, 2011 are as follows:

As of March 31, 2011	<i>Millions of yen</i>
Loans	¥ 1,701,545
Credit and Liquidity Facilities	¥ 427,325
For the Fiscal Year ended March 31, 2011	<i>Millions of yen</i>
Interest Income on Loans	¥ 12,887
Fee and Commission Income, etc.	¥ 2,271

5. STANDARDS OF ACCOUNTING METHOD

Amounts less than one million yen are rounded down.

1. Trading Assets & Liabilities and Trading Income & Expenses

Trading transactions intended to take advantage of short-term fluctuations and arbitrage opportunities in interest rates, currency exchange rates, market prices of securities and related indices are recognized on a trade date basis and recorded in Trading Assets or Trading Liabilities on the consolidated balance sheet. Income or expenses generated on the relevant trading transactions are recorded in Trading Income or Trading Expenses on the consolidated statement of income.

Securities and other monetary claims held for trading purposes are stated at fair value at the consolidated balance sheet date. Derivative financial products, such as swaps, futures and option transactions, are stated at fair value, assuming that such transactions are terminated and settled at the consolidated balance sheet date.

Trading Income and Trading Expenses include the interest received and the interest paid during the fiscal year, the gains or losses resulting from any change in the value of securities and other monetary claims between the beginning and the end of the fiscal year, and the gains or losses resulting from any change in the value of financial derivatives between the beginning and the end of the fiscal year, assuming they were settled at the end of the fiscal year.

2. Securities

(i) Bonds held to maturity are stated at amortized cost (straight-line method) and determined by the moving average method. Investments in non-consolidated subsidiaries and affiliates, which are not under the equity method, are stated at acquisition cost and determined by the moving average method. Other Securities which have readily determinable fair value are stated at fair value. Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date (cost of securities sold is calculated primarily by the moving average method). Other Securities, the fair values of which are extremely difficult to determine, are stated at acquisition cost or amortized cost and determined by the moving average method.

The net unrealized gains on Other Securities are included directly in Net Assets, net of applicable income taxes after excluding gains and losses as a result of the fair-value hedge method.

(ii) Securities which are held as trust assets in Money Held in Trust accounts are valued in the same way as given in (i) above.

3. Derivative Transactions

Derivative transactions (other than transactions for trading purposes) are valued at fair value.

4. Depreciation

(1) Tangible Fixed Assets (Except for Lease Assets)

Depreciation of buildings is computed mainly by the straight-line method, and that of others is computed mainly by the declining-balance method. The range of useful lives is as follows:

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Buildings: 3 years to 50 years

Others: 2 years to 20 years

(2) Intangible Fixed Assets (Except for Lease Assets)

Amortization of Intangible Fixed Assets is computed by the straight-line method. Development costs for internally-used software are capitalized and amortized over their estimated useful lives of mainly five years as determined by MHFG and consolidated subsidiaries.

(3) Lease Assets

Depreciation of lease assets booked in Tangible Fixed Assets and Intangible Fixed Assets which are concerned with finance lease transactions that do not transfer ownership is mainly computed by the same method as the one applied to fixed assets owned by us.

5. Deferred Assets

(1) Stock issuance costs

Stock issuance costs are expensed as incurred.

(2) Bond issuance costs

Bond issuance costs are expensed as incurred.

(3) Debenture issuance costs

Debenture issuance costs are expensed as incurred.

(4) Bond discounts

Bonds are stated at amortized costs computed by the straight-line method on the consolidated balance sheets.

Bond discounts booked on the consolidated balance sheets as of March 31, 2006 are amortized under the straight-line method over the term of the bond by applying the previous accounting method and the unamortized balance is directly deducted from bonds, based on the tentative measure stipulated in the Tentative Solution on Accounting for Deferred Assets (ASBJ Report No. 19, August 11, 2006).

6. Reserves for Possible Losses on Loans

Reserves for Possible Losses on Loans of major domestic consolidated subsidiaries are maintained in accordance with internally established standards for write-offs and reserve provisions.

For claims extended to obligors that are legally bankrupt under the Bankruptcy Law, Special Liquidation under the Company Law or other similar laws (Bankrupt Obligors), and to obligors that are effectively in similar conditions (Substantially Bankrupt Obligors), reserves are maintained at the amounts of claims net of direct write-offs described below and expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees. For claims extended to obligors that are not yet legally or formally bankrupt but are likely to be bankrupt (Intensive Control Obligors), reserves are maintained at the amounts deemed necessary based on overall solvency analyses of the amounts of claims net of expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees.

For claims extended to Intensive Control Obligors and Obligors with Restructured Loans and others, if the exposure to an obligor exceeds a certain specific amount, reserves are provided as follows: (i) if future cash flows of the principal and interest can be reasonably estimated, the discounted cash flow method is applied, under which the reserve is determined as the difference between the book value of the loan and its present value of future cash flows discounted using the contractual interest rate before the loan was classified as a Restructured Loan, and (ii) if future cash flows of the principal and interest cannot be reasonably estimated, reserves are provided for the losses estimated for each individual loan. For claims extended to other obligors, reserves are maintained at rates derived from historical credit loss experience and other factors. Reserve for Possible Losses on Loans to Restructuring Countries is maintained in order to cover possible losses based on analyses of the political and economic climates of the countries.

All claims are assessed by each claim origination department in accordance with the internally established Self-assessment Standard, and the results of the assessments are verified and examined by the independent examination departments. Reserves for Possible Losses on Loans are provided for on the basis of such verified assessments.

In the case of claims to Bankrupt Obligors and Substantially Bankrupt Obligors, which are collateralized or guaranteed by a third party, the amounts deemed uncollectible (calculated by deducting the anticipated proceeds from the sale of collateral pledged against the claims and amounts that are expected to be recovered from guarantors of the claims) are written off against the respective claims balances. The total directly written-off amount was ¥416,313 million.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Other consolidated subsidiaries provide the amount necessary to cover the loan losses based upon past experience and other factors for general claims and the assessment for each individual loan for other claims.

1-24

7. Reserve for Possible Losses on Investments

Reserve for Possible Losses on Investments is maintained to provide against possible losses on investments in securities, after taking into consideration the financial condition and other factors concerning the investee company.

Except for securitization products which are included as reference assets of another securitization schemes of the Group's domestic banking subsidiary, Reserve for Possible Losses on Investments is provided against unrealized losses on securitization products related with the discontinuation of business regarding credit investments primarily in Europe which were made as an alternative to loans by the Group's domestic banking subsidiary. Since securities are recognized at fair value on the consolidated balance sheet, the balance of Securities is offset against that of Reserve for Possible Losses on Investments by ¥721million.

8. Reserve for Bonus Payments

Reserve for Bonus Payments, which is provided for future bonus payments to employees, is maintained at the amount accrued at the end of the fiscal year, based on the estimated future payments.

9. Reserve for Employee Retirement Benefits

Reserve for Employee Retirement Benefits (including Prepaid Pension Cost), which is provided for future benefit payments to employees, is recorded as the required amount, based on the projected benefit obligation and the estimated plan asset amounts at the end of the fiscal year. Unrecognized actuarial differences are recognized as income or expenses from the following fiscal year under the straight-line method over a certain term within the average remaining service period of the employees of the respective fiscal year.

10. Reserve for Director and Corporate Auditor Retirement Benefits

Reserve for Director and Corporate Auditor Retirement Benefits, which is provided for future retirement benefit payments to directors, corporate auditors, and executive officers, is recognized at the amount accrued at the end of the respective fiscal year, based on the internally established standards.

11. Reserve for Possible Losses on Sales of Loans

Reserve for Possible Losses on Sales of Loans is provided for possible future losses on sales of loans at the amount deemed necessary based on a reasonable estimate of possible future losses.

12. Reserve for Contingencies

Reserve for Contingencies is maintained to provide against possible losses from contingencies, which are not covered by other specific reserves in off-balance transactions, trust transactions and others. The balance is an estimate of possible future losses, on an individual basis, considered to require a reserve.

13. Reserve for Reimbursement of Deposits

Reserve for Reimbursement of Deposits is provided against the losses for the deposits derecognized from the liabilities at the estimated amount of future claims for withdrawal by depositors and others.

14. Reserve for Reimbursement of Debentures

Reserve for Reimbursement of Debentures is provided for the debentures derecognized from Liabilities at the estimated amount for future claims.

15. Reserve under Special Laws

Reserve under Special Laws is Reserve for Contingent Liabilities from Financial Instruments and Exchange. This is the reserve pursuant to Article 46-5, Paragraph 1 and Article 48-3, Paragraph 1 of the Financial Instruments and Exchange Law to indemnify the losses incurred from accidents in the purchase and sale of securities, other transactions or derivative transactions.

16. Assets and Liabilities denominated in foreign currencies

Assets and Liabilities denominated in foreign currencies and accounts of overseas branches of domestic consolidated banking subsidiaries and a domestic consolidated trust banking subsidiary are translated into Japanese yen primarily at the exchange rates in effect at the consolidated balance sheet date, with the exception of the investments in non-consolidated subsidiaries and affiliates not under the equity method, which are translated at historical exchange rates.

Assets and Liabilities denominated in foreign currencies of the consolidated subsidiaries, except for the transactions mentioned above, are translated into Japanese yen primarily at the exchange rates in effect at the respective balance sheet dates.

17. Hedge Accounting

(1) Interest Rate Risk

The deferred method, the fair-value hedge method or the exceptional accrual method for interest rate swaps are applied as hedge accounting methods.

The portfolio hedge transaction for a large volume of small-value monetary claims and liabilities of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries is accounted for in accordance with the method stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.24).

The effectiveness of hedging activities for the portfolio hedge transaction for a large volume of small-value monetary claims and liabilities is assessed as follows:

(i) as for hedging activities to offset market fluctuation risks, the effectiveness is assessed by bracketing both the hedged instruments, such as deposits and loans, and the hedging instruments, such as interest-rate swaps, in the same maturity bucket.

(ii) as for hedging activities to fix the cash flows, the effectiveness is assessed based on the correlation between a base interest rate index of the hedged instrument and that of the hedging instrument.

The effectiveness of the individual hedge is assessed based on the comparison of the fluctuation in the market or of cash flows of the hedged instruments with that of the hedging instruments.

Among Net Deferred Hedge Losses, net of Taxes recorded on the consolidated balance sheet, those deferred hedge losses are included that resulted from the application of the macro-hedge method based on the Tentative Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.15), under which the overall interest rate risks inherent in loans, deposits and others are controlled on a macro-basis using derivatives transactions. The deferred hedge gains/losses are amortized as interest income or interest expenses over the remaining maturity and average remaining maturity of the respective hedging instruments. The unamortized amounts of gross deferred hedge losses and gross deferred hedge gains on the macro-hedges, before net of applicable income taxes were ¥16,874 million and ¥13,984 million, respectively.

(2) Foreign Exchange Risk

Domestic consolidated banking subsidiaries and some of domestic consolidated trust banking subsidiaries apply the deferred method of hedge accounting to hedge foreign exchange risks associated with various financial assets and liabilities denominated in foreign currencies as stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Foreign Currency Transactions for Banks (JICPA Industry Audit Committee Report No.25). The effectiveness of the hedge is assessed by confirming that the amount of the foreign currency position of the hedged monetary claims and liabilities is equal to or larger than that of currency-swap transactions, exchange swap transactions, and similar transactions designated as the hedging instruments of the foreign exchange risk.

In addition to the above methods, these subsidiaries apply the deferred method or the fair-value hedge method to portfolio hedges of the foreign exchange risks associated with investments in subsidiaries and affiliates in foreign currency and Other Securities in foreign currency (except for bonds) identified as hedged items in advance, as long as the amount of foreign currency payables of spot and forward foreign exchange contracts exceeds the amount of acquisition cost of the hedged foreign securities in foreign currency.

(3) Inter-company Transactions

Inter-company interest rate swaps, currency swaps and similar derivatives among consolidated companies or between trading accounts and other accounts, which are designated as hedges, are not eliminated and related gains and losses are recognized in the statement of income or deferred under hedge accounting, because these inter-company derivatives are executed according to the criteria for appropriate outside third-party cover operations which are treated as hedge transactions objectively in accordance with JICPA Industry Audit Committee Reports No. 24 and 25.

18. Consumption Taxes and other

With respect to MHFG and its domestic consolidated subsidiaries, Japanese consumption taxes and local consumption taxes are excluded from transaction amounts.

19. Amortization Method of Goodwill and Amortization Period

Goodwill of Eurekaledge Pte, Ltd. is amortized over a period of 10 years under the straight-line method. The amount of other Goodwill is expensed as incurred since the amount has no material impact.

20. Scope of Cash and Cash Equivalents on Consolidated Statements of Cash Flows

For the purpose of the consolidated statement of cash flows, Cash and Cash Equivalents consists of cash and due from central banks included in Cash and Due from Banks on the consolidated balance sheet.

(7) CHANGES OF FUNDAMENTAL AND IMPORTANT MATTERS FOR THE PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

(Changes of Accounting Method)

Accounting Standard for Asset Retirement Obligations

Mizuho Financial Group has applied Accounting Standard for Asset Retirement Obligations (ASBJ Statement No. 18, March 31, 2008) and Guidance on Accounting Standard for Asset Retirement Obligations (ASBJ Guidance No. 21, March 31, 2008) beginning with this fiscal year.

As a result, Income before Income Taxes and Minority Interests decreased by ¥3,081 million. The change in Asset Retirement Obligations (which is in Other Liabilities) due to commencement of application of the accounting standards is ¥6,555 million.

(8) ADDITIONAL INFORMATION

Issuance of New Shares by the Spread Method

The spread method is adopted for the issuance of new shares (5,609,000 thousand shares) with a payment date of July 21, 2010. This is a method where the new shares are underwritten and purchased by the initial purchasers at the amount to be paid to MHFG (¥125.27 per share), and sold by the underwriters to the investors at an issue price (¥130.00 per share) different from the amount to be paid to MHFG.

Using the spread method, the aggregate amount of the difference between (a) the issue price and (b) the amount to be paid to MHFG is retained by the initial purchasers, and allocated to each of the underwriters as underwriting fees. Accordingly, Other Ordinary Expenses does not include the amount equivalent to such underwriting fees of ¥26,530 million related to the issuance.

The amount equivalent to such underwriting fees of ¥9,734 million, recognized as profit by consolidated subsidiaries, is eliminated and recorded as an increase in Capital Surplus.

Accounting Standard for Presentation of Comprehensive Income

Mizuho Financial Group has applied Accounting Standard for Presentation of Comprehensive Income (ASBJ Statement No. 25, June 30, 2010) beginning with this fiscal year. However, the amounts of Accumulated Other Comprehensive Income and Total Accumulated Other Comprehensive Income for the previous fiscal year are presented within the balances of Valuation and Translation Adjustments and Total Valuation and Translation Adjustments.

(9) NOTES**(NOTES TO CONSOLIDATED BALANCE SHEET)**

1. Securities include shares of ¥209,145 million and investments of ¥421 million in non-consolidated subsidiaries and affiliates.
2. Unsecured loaned securities which the borrowers have the right to sell or repledge amounted to ¥4,198 million and are included in trading securities under Trading Assets. MHFG has the right to sell or repledge some of unsecured borrowed securities, securities purchased under resale agreements and securities borrowed with cash collateral. Among them, the total of securities repledged was ¥9,428,034 million, the total of securities re-loaned was ¥18,741 million and securities neither repledged nor re-loaned was ¥1,961,545 million, respectively.

3. Loans and Bills Discounted include Loans to Bankrupt Obligors of ¥46,116 million and Non-Accrual Delinquent Loans of ¥660,718 million.

Loans to Bankrupt Obligors are loans, excluding loans written-off, on which delinquencies in payment of principal and/or interest have continued for a significant period of time or for some other reason there is no prospect of collecting principal and/or interest (Non-Accrual Loans), as per Article 96, Paragraph 1, Item 3, Subsections 1 to 5 or Item 4 of the Corporate Tax Law Enforcement Ordinance (Government Ordinance No. 97, 1965).

Non-Accrual Delinquent Loans represent Non-Accrual Loans other than (i) Loans to Bankrupt Obligors and (ii) loans on which interest payments have been deferred in order to assist or facilitate the restructuring of the obligors.

4. Balance of Loans Past Due for Three Months or More: ¥25,034 million

Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the first due date without such payments, and which are not included in Loans to Bankrupt Obligors, or Non-Accrual Delinquent Loans.

5. Balance of Restructured Loans: ¥496,991 million

Restructured Loans represent loans whose contracts were amended in favor of obligors (e.g. reduction of, or exemption from, stated interest, deferral of interest payments, extension of maturity dates and renunciation of claims) in order to assist or facilitate the restructuring of the obligors. Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans and Loans Past Due for Three Months or More are not included.

6. Total balance of Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans, Loans Past Due for Three Months or More, and Restructured Loans: ¥1,228,859 million

The amounts given in Notes 3 through 6 above are gross amounts before deduction of amounts for the Reserves for Possible Losses on Loans.

7. In accordance with Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry (JICPA Industry Audit Committee Report No. 24), bills discounted are accounted for as financing transactions. The banking subsidiaries have rights to sell or pledge these bankers acceptances, commercial bills, documentary bills and foreign exchange bills purchased. The face value of these bills amounted to ¥734,051 million.

8. The following assets were pledged as collateral:

Cash and Due from Banks:	¥	130 million
Trading Assets:	¥	6,255,353 million
Securities:	¥	18,571,019 million
Loans and Bills Discounted:	¥	9,376,342 million
Other Assets:	¥	19,815 million
Tangible Fixed Assets:	¥	126 million

The following liabilities were collateralized by the above assets:

Deposits:	¥ 824,972 million
Call Money and Bills Sold:	¥ 1,878,300 million
Payables under Repurchase Agreements:	¥ 4,608,710 million
Guarantee Deposits Received under Securities Lending Transactions:	¥ 4,628,424 million
Borrowed Money:	¥ 14,198,742 million

In addition to the above, the settlement accounts of foreign and domestic exchange transactions or derivatives transactions and others were collateralized, and margins for futures transactions were substituted by Cash and Due from Banks of ¥17,658 million, Trading Assets of ¥189,100 million and Securities of ¥2,363,237 million and Loans and Bills Discounted of ¥45,307 million.

None of the assets was pledged as collateral in connection with borrowings by the non-consolidated subsidiaries and affiliates. Other Assets includes guarantee deposits of ¥106,814 million, collateral pledged for derivatives transactions of ¥247,600 million, margins for futures transactions of ¥33,492 million and other guarantee deposits of ¥35,782 million.

Rediscount of bills is conducted as financial transaction based on the JICPA Industry Audit Committee Report No. 24. As a result there was no balance for bankers' acceptances, commercial bills, documentary bills or foreign exchange bills purchased.

9. Overdraft protection on current accounts and contracts of the commitment line for loans are contracts by which banking subsidiaries are bound to extend loans up to the prearranged amount, at the request of customers, unless the customer is in breach of contract conditions. The unutilized balance of these contracts amounted to ¥58,034,077 million. Of this amount, ¥51,102,222 million relates to contracts of which the original contractual maturity is one year or less, or which are unconditionally cancelable at any time. Since many of these contracts expire without being exercised, the unutilized balance itself does not necessarily affect future cash flows. A provision is included in many of these contracts that entitles the banking subsidiaries to refuse the execution of loans, or reduce the maximum amount under contracts when there is a change in the financial situation, necessity to preserve a claim or other similar reasons. The banking subsidiaries require collateral such as real estate and securities when deemed necessary at the time the contract is entered into. In addition, they periodically monitor customers' business conditions in accordance with internally established standards and take necessary measures to manage credit risks such as amendments to contracts.
10. In accordance with the Land Revaluation Law (Proclamation No.34 dated March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries was revalued. The applicable income taxes on the entire excess of revaluation are included in Deferred Tax Liabilities for Revaluation Reserve for Land under Liabilities, and the remainder, net of applicable income taxes, is stated as Revaluation Reserve for Land, net of Taxes included in Net Assets.
Revaluation date: March 31, 1998
- Revaluation method as stated in Article 3, Paragraph 3 of the above law: Land used for business operations was revalued by calculating the value on the basis of the valuation by road rating stipulated in Article 2, Paragraph 4 of the Enforcement Ordinance relating to the Land Revaluation Law (Government Ordinance No.119 promulgated on March 31, 1998) with reasonable adjustments to compensate for sites with long depth and other factors, and also on the basis of the appraisal valuation stipulated in Paragraph 5.
- The difference at the consolidated balance sheet date between the total fair value of land for business operation purposes, which has been revalued in accordance with Article 10 of the above-mentioned law, and the total book value of the land after such revaluation was ¥160,512 million.
11. Accumulated Depreciation of Tangible Fixed Assets amounted to ¥799,355 million.

12. The book value of Tangible Fixed Assets adjusted for gains on sales of replaced assets and others amounted to ¥37,126 million.

1-30

13. Borrowed Money includes subordinated borrowed money of ¥644,329 million with a covenant that performance of the obligation is subordinated to that of other obligations.
14. Bonds and Notes includes subordinated bonds of ¥1,710,361 million.
15. The principal amounts of money trusts and loan trusts with contracts indemnifying the principal amounts, which are entrusted to domestic consolidated trust banking subsidiaries, are ¥836,285 million and ¥383 million, respectively.
16. Liabilities for guarantees on corporate bonds included in Securities, which were issued by private placement (Article 2, Paragraph 3 of the Financial Instruments and Exchange Law) amounted to ¥1,032,321 million.
17. Projected pension benefit obligations, etc. as of the consolidated balance sheet date are as follows:

	<i>Millions of yen</i>
Projected Benefit Obligations	¥ (1,207,229)
Plan Assets (fair value)	1,215,987
Unfunded Retirement Benefit Obligations	8,757
Unrecognized Actuarial Differences	420,438

(FINANCIAL INSTRUMENTS)**1. Matters relating to the conditions of financial instruments****(1) Policy on financial instruments**

Mizuho Financial Group (MHFG), which primarily engages in banking business, incurs financial liabilities such as customer deposits and market deposits on the funding side while holding financial assets such as customer loans, stocks and bonds on the investment side, and also engages in trading business for certain financial products. Some subsidiaries conduct securities business and other financial business.

For above funding and investment business, MHFG appropriately manages risks of each financial instrument and carefully watches term-gaps and other risk factors.

(2) Contents and Risk of Financial Products

The main financial assets of the Mizuho group consist of loans to customers and securities such as Japanese stocks and government bonds. The Group holds these securities for the purpose of reserves for deposit payments reserves and as investments. These financial assets are subject to various types of risk that may be incurred by the Group due to a decline in, or total loss of, the value of assets, as a result of deterioration in a counterparty's and an issuer's financial position (credit risk), or incurred by the Group due to fluctuations in interest rates, stock prices and foreign exchange rates and so on (market risk).

The main financing source of the Mizuho group is a stable source of deposits from its customers in addition to direct funding from the financial market. These financing sources are subject to the risk of losses (liquidity risk) arising from funding difficulties due to market disruption or a deterioration in our financial position that makes it difficult for us to raise the necessary funds or that forces us to raise funds at significantly higher interest rates than usual.

In addition, the Mizuho group uses derivative financial products to control the interest rate risk related to the assets and liabilities of the Group, as part of our asset and liability management (ALM). The Group primarily utilizes the portfolio hedge by grouping numerous financial assets and liabilities such as loans and deposits into similar interest risk units in accordance with risk management policies. Some derivative products like interest rate swaps are used as hedging methods for cash-flow hedges or fair value hedges. The Group applies hedge accounting to the majority of these products, treating them as deferred hedges. The effectiveness of the hedges is assessed periodically by regression analysis and other methods to ensure whether the derivative financial products effectively work in order to offset the exposure to changes in fair value and variable cash flows from hedged items. It should be noted that the Mizuho Group uses derivative financial products for trading purposes and so on as well.

Progress in financial deregulation and internationalization has led to growth in the diversity and complexity of financial assets and liabilities of the Mizuho group, exposing the Group to various risks, including credit risk, liquidity risk and other risks.

(3) Risk Management for Financial Products**Commitment to Risk Management**

We recognize the conducting of operations tailored to the risks and managing such risks as a key issue relating to overall management. In order to implement our business strategy while maintaining our financial stability, we maintain comprehensive risk management and control measures.

We maintain basic policies for risk management established by our board of directors that are applicable to the entire Mizuho group. These policies clearly define the kinds of risks to be managed, set forth the organizational structure and provide for the human resources training necessary for appropriate levels of risk management. The policies also provide for audits to measure the effectiveness and suitability of the risk management structure. In line with these basic policies, we maintain various measures to strengthen and enhance the sophistication of our risk management system.

General Concept of Risk Management

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

We classify our risk exposures according to the various kinds of risk, including credit risk, market risk, liquidity risk and operational risk, and manage each type of risk according to its characteristics.

In addition to managing each type of risk individually, we have established a risk management structure to identify and evaluate overall risk and, where necessary, to devise appropriate responses to keep risk within limits that are managerially acceptable in both qualitative and quantitative terms.

More specifically, we allocate risk capital to our principal banking subsidiaries and other core group companies to control risk within the limits set for each company. We also control risk within managerially acceptable limits by working to ensure that the overall risk we hold on a consolidated basis does not exceed shareholders' equity and other measures of financial strength. To ensure the ongoing financial health of Mizuho Financial Group, our principal banking subsidiaries and other core group companies, we regularly monitor the manner in which risk capital is being used in order to obtain a proper grasp of the risk profile within this framework. Reports are also submitted to the board of directors and other committees of each company.

Credit Risk Management

We have adopted two different but mutually complementary approaches in credit risk management. The first approach is credit management, in which we manage the process for each individual transaction and individual obligor from execution until collection, based on our assessment of the credit quality of the customer. Through this process, we curb losses in the case of a credit event. The second is credit portfolio management, in which we utilize statistical methods to assess the potential for losses related to credit risk. Through this process, we identify credit risk and respond appropriately.

Our board of directors determines the Mizuho group's key matters pertaining to credit risk management. In addition, we have established the Portfolio Management Committee as one of its business policy committees. This committee of Mizuho Financial Group discusses and coordinates basic policy in connection with credit risk management and matters in connection with overall credit portfolio management and credit risk monitoring for the Mizuho group. Under the control of the Chief Risk Officer of Mizuho Financial Group, the Risk Management Division and the Credit Risk Management Division jointly monitor, analyze and submit suggestions concerning credit risk and formulate and execute plans in connection with basic matters pertaining to credit risk management.

We use statistical methods to manage the possibility of losses by measuring the expected average loss for a one-year risk horizon (expected loss) and the maximum loss within a certain confidence interval (credit VAR). The difference between expected loss and credit VAR is measured as the credit risk amount (unexpected loss). We recognize two types of risk arising from allowing too large a proportion of overall credit risk to be allocated in certain areas. One type is credit concentration risk, which stems from granting excessive credit to certain individual counterparties. The other type is chain-reaction default risk, which arises from granting excessive credit to certain corporate groups, industrial sectors and other groupings. We manage these risks appropriately in line with our specific guidelines for each.

The board of directors of each of our principal banking subsidiaries and other core group companies determines key matters pertaining to credit risk in line with basic policies set forth by Mizuho Financial Group. Their respective business policy committees are responsible for discussing and coordinating overall management of their individual credit portfolios and transaction policies towards obligors.

The chief risk officer of each principal banking subsidiary and core group company is responsible for matters relating to planning and implementing credit risk management. The credit risk management division of each principal banking subsidiary is responsible for planning and administering credit risk management and conducting credit risk measuring and monitoring. Each credit division determines policies and approves/disapproves individual transactions regarding review and management of and collection from customers in accordance with the lines of authority set forth by each principal banking subsidiary. In addition, from the standpoint of internal controls, each of our principal banking subsidiaries has also established internal audit divisions that are independent of the business divisions in order to ensure appropriate credit risk management.

Market Risk Management

The board of directors of Mizuho Financial Group determines key matters pertaining to market risk management policies. In addition, we have established the ALM & Market Risk Committee as one of its business policy committees. The committee broadly discusses and coordinates matters relating to basic asset and liability management policies, risk planning and market risk management and proposes responses to emergencies such as sudden market changes.

The Chief Risk Officer of Mizuho Financial Group is responsible for matters relating to market risk management planning and operations. The Risk Management Division of Mizuho Financial Group is responsible for monitoring market risk, reports and analyses, proposals, setting limits and guidelines, and formulating and implementing plans relating to market risk management. In addition, the division assesses and manages the overall market risk of the Mizuho group as a whole and keeps track of the market risk situation of our principal banking subsidiaries and other core group companies. The division also submits reports to the Chief Executive Officer on a daily basis and to our board of directors and the executive management committee of Mizuho Financial Group on a regular basis.

To manage market risk, we set limits that correspond to risk capital allocations. The amount of risk capital allocated to market risk corresponds to VAR and additional costs that may arise in order to close relevant positions. For trading and banking activities, we set limits for VAR and for losses. For banking activities, we set position limits based on interest rate sensitivity as needed.

Our principal banking subsidiaries and certain other core group companies have formulated their basic policies in line with the basic policies determined by Mizuho Financial Group. Their boards of directors determine important matters relating to market risk management while their Chief Executive Officers are responsible for controlling market risk. Based on a common Mizuho Group risk capital allocation framework, the above-mentioned companies manage market risk by setting limits according to the risk capital allocated to market risk by Mizuho Financial Group.

Our principal banking subsidiaries and certain other core group companies have the same market risk management structure as the Mizuho Financial Group, such as their business policy committees being responsible for overall discussion and coordination of the market risk management, including their ALM & market risk management committees.

In addition, they have established middle offices specializing in risk management that are independent of their front offices, which engage in market transactions, and their back offices, which are responsible for book entries and settlements. This system enables them to achieve mutual checks and control over market operations.

When VAR is not adequate to control risk, the middle offices manage risk using additional risk indices such as 10 BPV (Basis Point Value), carry out stress tests and set stop loss limits as needed.

Situation of Market Risk

i. Overview of Banking Activities

The following table shows the VaR figures relating to our banking activities for the fiscal year indicated:

	<i>(Billions of yen)</i>
	Fiscal year ended March 31, 2011
As of fiscal year end	211.3
Maximum	227.6
Minimum	137.8
Average	188.6
[Definition of Banking business]	

The following transactions are categorized as banking business, with trading business and strategically-held equity being categorized separately.

(1) Deposits and loans as well as related funding activities, and hedge against interest rate risk.

(2) Equity (excluding strategically-held equity), bonds, investment trusts, etc. and hedges against related market risk.
The core deposit of liquid deposits is to be specified and incorporated into the measurement of market risk.

Banking business VAR used to calculate Market Risk Equivalent is based on the following:

variance co-variance model for linear risk and Monte-Carlo simulation for non-linear risk;

VAR : the total amount of linear risk and non-linear risk;

confidence interval: one-tailed 99%;

holding period of one month; and

historical observation period of one year.

ii. Trading business

The following table shows VAR figures of our trading activities for the fiscal year indicated:

	<i>(Billions of yen)</i>
	Fiscal year ended March 31, 2011
As of fiscal year end	3.6
Maximum	3.8
Minimum	2.2
Average	2.9
[Definition of trading activities]	

- (1) Transactions held for the purpose of short-term resale.
- (2) Transactions held for the purpose of making a profit from price fluctuations over a short period as well as fixing a profit from arbitrage activities.
- (3) Deals that have both aspects of (1) and (2) above.
- (4) Deals held for broking business or market making business.

Trading business VAR used to calculate Market Risk Equivalent is based on the following:

variance co-variance model for linear risk and Monte-Carlo simulation for non-linear risk;

confidence interval: one-tailed 99%;

holding period of 1 trading day; and

historical observation period of one year.

iii. Strategic Equity Holding

We make the same market risk management based on VAR and risk indices for strategic equity holding portfolio as banking business and trading business.

The risk index of the strategic equity holding portfolio (sensitivity of the portfolio to a 1% change in TOPIX index) is set as ¥25.7 billion for in fiscal year ended March 31,2011.

iv. Risk management using VAR

VAR is a commonly used market risk management technique with statistical assumptions to measure maximum possible loss in the market, which will be incurred to the holding portfolio in a certain period with some probability. It should be noted that in general VAR model has the following shortcomings:

VAR estimates could differ by assumptions of holding period, confidence interval level and approaches for the measurement.

VAR which is calculated based on historical data does not necessarily indicate an accurate future possible maximum loss .

VAR might underestimate the probability of extreme market movements when the market gets inactive as VAR assumes sales of holding portfolio and hedges in the market during the holding period for the calculation.

The use of a 99% confidence level does not take account of, nor makes any statement about, any losses that might occur beyond this confidence level.

The variance co-variance model used as the measurement technique of VAR assumes that change in a market movement follows a normal distribution. Therefore, the model might underestimate the risk under the circumstance that the market is likely to move extremely beyond the assumption. The model might also underestimate the risk when the normal correlation assumption between interest rate and share price collapses under the circumstances when a rise in the interest rate and a deterioration of share price happen simultaneously.

We check the validity of the market risk measurement made by VAR approach periodically by the back-test which compares VAR with actual profit and loss. In addition to VAR, we make a wide variety of management and controls such as risk indices monitoring, implementation of stress tests, loss limit monitoring in order to make strict risk management by capturing carefully all risks, including what VAR approach is not able to cover.

Liquidity Risk Management

Our liquidity risk management structure is generally the same as the market risk management structure described above (Item Market Risk Management). However, the head of the Financial Control & Accounting Group of Mizuho Financial Group is additionally responsible for matters relating to planning and running cash flow management operations, while the Financial Planning Division is responsible for monitoring and adjusting the cash flow management situation and for planning and implementing cash flow management. Reports on the cash flow situation are submitted to the ALM & market risk management committee, the executive management committee and the Chief Executive Officer.

We measure liquidity risk using indices pertaining to cash flow, such as limits on funds raised in the market. Limits on liquidity risk are discussed and coordinated by the ALM & market risk management committee, discussed further by the executive management committee and determined by the Chief Executive Officer. We have established classifications for the cash flow conditions affecting the Group, ranging from normal to cause for concern and critical, and have established procedures for dealing with cases which are deemed to fall into the cause for concern or critical categories. In addition, we have constructed a system under which we will be able to respond smoothly in the event of emergency situations that affect our funding by establishing action plans.

(4) Supplementary explanation of matters relating to fair value of financial instruments and others

Fair values of financial instruments include the values based on market prices, and the values deemed as market prices obtained by the reasonable estimate when the financial instruments do not have market prices. Since certain assumptions and others are adopted for calculating such values, they may differ when adopting different assumptions and others.

2. Matters relating to fair value of financial instruments and others

The following are the consolidated balance sheet amounts, fair values and differences between them as of March 31, 2011. Unlisted stocks and others, the fair values of which are extremely difficult to determine, are excluded from the table below (see (Note 2)).

Net claims and debts that arose from derivative transactions are presented on a net basis.

(Note 1) Calculation method of fair value of financial instruments

Assets

(1) Cash and Due from Banks

For Due from Banks which have no maturity, since fair values of these items approximate book values, we deem the book values to be fair values. For Due from Banks which have maturity, since contractual terms of these items are short (i.e., within six months) and fair values of these items approximate book values, we deem the book values to be fair values.

(2) Call Loans and Bills Purchased, (3) Receivables under Resale Agreements and (4) Guarantee Deposits Paid under Securities Borrowing Transactions

Since contractual terms of these items are short (i.e., within six months) and fair values of these items approximate book values, we deem the book values to be fair values.

(5) Other Debt Purchased

Fair values of Other Debt Purchased are based on the values deemed as market prices obtained by the reasonable estimate such as those obtained from brokers and financial information vendors.

(6) Trading Assets

Fair values of securities held for trading, such as bonds held for trading, are based on the market prices and others.

(7) Money Held in Trust

As to securities managed as trust assets in a directed money trust for separate investment with the management of securities as its primary purpose, stocks are based on the prices on stock exchanges, and bonds are based on the market prices and others. For other Money Held in Trust, since fair values of these items approximate book values, we deem the book values to be fair values. The notes to Money Held in Trust based on holding purpose are stated in (Notes to Money Held in Trust).

(8) Securities

Fair values of stocks are based on the prices on securities exchanges, and those of bonds and others are based on the market prices, valuations obtained from brokers and information vendors and others. Fair values of investment trusts are based on the disclosed net asset value. Fair values of private placement bonds are calculated by discounting the total amount of principal and interest and others at interest rates based on the discount rate reflecting expected loss and various risk factors by categories according to the internal ratings and terms.

Fair values of Floating-rate Japanese Government Bonds, according to our determination that current market prices may not reflect the fair value, are based on the reasonably calculated prices as book value at the end of the current fiscal year. In deriving the reasonably calculated prices, we used the discount cash flow method as well as other methods. The price decision variables include the yield of 10-year Japanese Government Bonds and the volatilities of interest rate swap options for 10-year Japanese Government Bonds as underlying assets.

With respect to the credit investments in securitization products made as an alternative to loans by the European, North American and other offices of domestic consolidated banking subsidiaries, given the current situation in which the volume of actual transactions is extremely limited and there exists a considerable gap between the offers and bids of sellers and buyers, we determined that valuations obtained from brokers and information vendors cannot be deemed to be the fair value, and we applied reasonably calculated prices based on the reasonable estimates of our management as fair value. In deriving reasonably calculated prices based on the reasonable estimates of our management mentioned above, we used the discounted cash flow method. The price decision variables include default rates, recovery rates, pre-payment rates and discount rates, and the subject Securities included residential mortgage-backed securities, collateralized loan obligations, commercial mortgage-backed securities, and other asset backed securities.

The notes to Securities based on holding purpose are stated in (Securities).

1-40

(9) Loans and Bills Discounted

Fair values of Loans and Bills Discounted are calculated by the total amount of principal and interest and others at interest rates based on the discount rate reflecting expected loss and various risk factors by categories according to the types, internal ratings and terms of the Loans and Bills Discounted. In addition, as to claims against bankrupt obligors, substantially bankrupt obligors and intensive control obligors, since the estimated amount of bad debts is calculated based on the present value of the expected future cash flows or the estimated amounts that we would be able to collect from collateral and guarantees, fair values approximate the consolidated balance sheet amount as of the consolidated balance sheet date minus the present estimated amount of bad debts, and we thus deem such amount to be fair values.

Of the Loans and Bills Discounted, for those without a fixed maturity due to loan characteristics such as limiting loans to within the value of pledged assets, we deem book values to be fair values since fair values are expected to approximate book values based on the estimated loan periods, interest rates and other conditions.

Liabilities

(1) Deposits

For demand deposits, we deem the payment amounts required on the consolidated balance sheet date (i.e., book values) to be fair values. In addition, fair values of fixed deposits are calculated by classifying them based on their terms and by discounting the future cash flows. The discount rates used in such calculations are the interest rates.

(2) Negotiable Certificates of Deposit

Fair values of Negotiable Certificates of Deposit are calculated by classifying them based on their terms and by discounting the future cash flows. The discount rates used in such calculations are the interest rates. Since fair values of those whose deposit terms are short (i.e., within six months) approximate book values, we mainly deem the book values to be fair values.

(3) Debentures

Fair values of Debentures are based on the market prices for the debentures which have market prices, and calculated by classifying them based on their terms and by discounting the future cash flows for those which do not have market prices. The discount rates used in such calculations are the interest rates.

(4) Call Money and Bills Sold, (5) Payables under Repurchase Agreements and (6) Guarantee Deposits Received under Securities Lending Transactions

Since contractual terms of these financial instruments are short (i.e., within six months) and fair values approximate book values, we deem the book values to be fair values.

(7) Trading Liabilities

Fair values of Securities Sold, Not yet Purchased in Trading Liabilities are based on the market prices and others.

(8) Borrowed Money

Fair values of Borrowed Money are calculated by discounting the total amount of the principal and interest of such Borrowed Money classified by certain period at the interest rates considered to be applicable to similar loans.

(9) Bonds and Notes

Fair values of Bonds and Notes issued by MHFG and its consolidated subsidiaries are based on the market prices for Bonds and Notes which have market prices, and calculated by discounting the total amount of principal and interest by the interest rates considered to be applicable to similar Bonds and Notes for those which do not have market prices.

Derivative Transactions

Derivative transactions include interest rate-related transactions (futures, options, swaps and others), currency-related transactions (futures, options, swaps and others), bond-related transactions (futures, futures options and others), and are based on the prices on securities exchanges, discounted value of future cash flows, option pricing models and others.

(Note 2) Financial instruments whose fair values are deemed to be extremely difficult to determine are indicated below, and are not included in Assets (5) Other Debt Purchased, Assets (7) Money Held in Trust, and Assets (8) Other Securities in fair value information of financial instruments.

Category	<i>(Millions of yen)</i> Consolidated Balance Sheet Amount
Unlisted Stocks (*1)	280,340
Investments in Partnerships (*2)	156,965
Other	399
Total (*3)	437,704

(*1) We do not treat Unlisted Stocks as being subject to disclosure of fair values as there are no market prices and they are deemed extremely difficult to determine fair values.

(*2) Of the Investments in Partnerships, we do not treat those whose assets consist of unlisted stocks and other financial instruments that are deemed extremely difficult to determine fair values as being subject to disclosure of fair values.

(*3) During the fiscal year ended March 31, 2011, we impaired (devaluated) in the amount of ¥15,562 million on a consolidated basis.

(SECURITIES)

In addition to Securities on the consolidated balance sheet, trading securities, negotiable certificates of deposit (NCDs), commercial paper and certain other items in Trading Assets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.

7. Impairment (Devaluation) of Securities

Certain Securities (excluding Trading Securities) which have readily determinable fair value (are devalued to the fair value, and the difference between the acquisition cost and the fair value is treated as the loss for the fiscal year (impairment (devaluation)), if the fair value (primarily the closing market price at the consolidated balance sheet date) has significantly deteriorated compared with the acquisition cost (including amortized cost), and unless it is deemed that there is a possibility of a recovery in the fair value. The amount of impairment (devaluation) for the fiscal year was ¥83,641 million.

The criteria for determining whether a security's fair value has significantly deteriorated are outlined as follows:

- Securities whose fair value is 50% or less of the acquisition cost.
- Securities whose fair value exceeds 50% but is 70% or less of the acquisition cost and the quoted market price maintains a certain level or lower.

(BUSINESS SEGMENT INFORMATION)

1. Summary of reportable segment

The MHFG Group's operating segments are based on the nature of the products and services provided, the type of customer and the Group's management organization.

The reportable segment information, set forth below, is derived from the internal management reporting systems used by management to measure the performance of the Group's operating segments. The management measures the performance of each of the operating segments primarily in terms of net business profits (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) in accordance with internal managerial accounting rules and practices.

MHFG manages its business portfolio through the three Global Groups: the Global Corporate Group, the Global Retail Group and the Global Asset & Wealth Management Group. The Global Corporate Group consists primarily of MHCN and MHSC, the Global Retail Group consists primarily of MHBK and MHIS, and the Global Asset & Wealth Management Group consists primarily of MHTB.

Operating segments of MHCN and MHBK are aggregated within each entity based on customer characteristics and functions. Operating segments of MHCN are aggregated into three reportable segments, domestic, international, and trading and others. Operating segments of MHBK are also aggregated into three reportable segments, retail banking, corporate banking, and trading and others. In addition to the three Global Groups, subsidiaries which provide services to a wide range of customers and which do not belong to a specific Global Group are aggregated as Others.

[The Global Corporate Group]**[MHCN]**

MHCN is the main operating company of the Global Corporate Group and provides banking and other financial services to large corporations, financial institutions, public sector entities, foreign corporations, including foreign subsidiaries of Japanese corporations, and foreign governmental entities.

(Domestic)

This segment consists of the following three units of MHCN: corporate banking, global investment banking, and global transaction banking. This segment provides a variety of financial products and services to large corporations, financial institutions and public sector entities in Japan. The products and services it offers include commercial banking, advisory services, syndicated loan arrangements and structured finance.

(International)

This segment primarily offers commercial banking and foreign exchange transaction services to foreign corporations, including foreign subsidiaries of Japanese corporations, through MHCN's overseas network.

(Trading and others)

This segment consists of the global markets unit, and the global asset management unit. This segment supports the domestic and international segments in offering derivatives and other risk hedging products to satisfy MHCN's customers' financial and business risk control requirements. It is also engaged in MHCN's proprietary trading, such as foreign exchange and bond trading, and asset and liability management. This segment also includes costs incurred by headquarters functions of MHCN.

[MHSC]

Mizuho Securities is the securities arm of the Global Corporate Group and provides full-line securities services to corporations, financial institutions, public sector entities and individuals.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

The former Mizuho Securities and Shinko Securities merged to form the new Mizuho Securities in May 2009.

[Others]

This segment consists of MHC B's subsidiaries and others other than MHSC. These subsidiaries offer financial products and services in specific areas of business or countries mainly to customers of the Global Corporate Group.

1-47

[The Global Retail Group]

[MHBK]

MHBK is the main operating company of the Global Retail Group. MHBK provides banking and other financial services primarily to individuals, SMEs and middle-market corporations through its domestic branch and ATM network.

(Retail banking)

This segment offers banking products and services, including housing and other personal loans, credit cards, deposits, investment products and consulting services, to MHBK's individual customers through its nationwide branch and ATM network, as well as telephone and Internet banking services.

(Corporate banking)

This segment provides loans, syndicated loan arrangements, structured finance, advisory services, other banking services and capital markets financing to SMEs, middle-market corporations, local governmental entities and other public sector entities in Japan.

(Trading and others)

This segment supports the retail banking and corporate banking segments in offering derivatives and other risk hedging products to satisfy MHBK's customers' financial and business risk control requirements. It is also engaged in MHBK's proprietary trading, such as foreign exchange and bond trading, and asset and liability management. This segment also includes costs incurred by headquarters functions of MHBK.

[MHIS]

MHIS offers securities services to individuals and corporate customers of the Global Retail Group and provides those corporate customers with support in procuring funds through capital markets.

[Others]

This segment consists of MHBK's subsidiaries other than MHIS. These subsidiaries, such as Mizuho Capital and Mizuho Business Financial Center, offer financial products and services in specific areas of business to customers of the Global Retail Group.

[The Global Asset & Wealth Management Group]

[MHTB]

MHTB is the main operating company of the Global Asset & Wealth Management Group and offers products and services related to trust, real estate, securitization and structured finance, pension and asset management, and stock transfers.

[Others]

This segment includes companies other than MHTB which are part of the Global Asset & Wealth Management Group. These companies include Trust & Custody Service Bank, Mizuho Asset Management and Mizuho Private Wealth Management. They offer products and services related to private banking, trust and custody, and asset management.

[Others]

This segment consists of MHFG and its subsidiaries that do not belong to a specific Global Group but provide their services to a wide range of customers. Under this segment, the MHFG Group offers non-banking services including research and consulting services through Mizuho Research Institute, information technology-related services through Mizuho Information & Research Institute and advisory services to financial

institutions through Mizuho Financial Strategy.

2. Calculating method of Gross profits (excluding the amounts of credit costs of trust accounts), Net business profits (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans), and the amount of Assets by reportable segment

The following information of reportable segment is based on internal management reporting.

Gross profits (excluding the amounts of credit costs of trust accounts) is the total amount of Interest income, Fiduciary income, Fee and commission income, Trading income, and Other operating income.

Net business profits (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) is the amount of which General administrative expenses (excluding non-recurring expenses) and Other (Equity in income from investments in affiliates and certain other consolidation adjustments) are deducted from Gross profits (excluding the amounts of credit costs of trust accounts).

Asset information by segment is not prepared on the grounds that management does not use asset information of each segment for the purpose of asset allocation or performance evaluation.

Gross profits (excluding the amounts of credit costs of trust accounts) relating to transactions between segments is based on the current market price.

3. Gross profits (excluding the amounts of credit costs of trust accounts) and Net business profits or losses (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) by reportable segment

SUMMARY OF FINANCIAL RESULTS

For Fiscal 2010

<Under Japanese GAAP>

Mizuho Financial Group, Inc.

Summary Results for Fiscal 2010

I. Summary of Income Analysis

Ø Consolidated Net Business Profits

Consolidated Gross Profits for fiscal 2010 increased by JPY 36.6 billion on a year-on-year basis to JPY 2,033.2 billion. Gross Profits of the banking subsidiaries increased by JPY 26.3 billion on a year-on-year basis (increased by JPY 103.9 billion after adjustment of the impact for fiscal 2009 of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs). This was due to a year-on-year increase in income from Customer Groups (JPY 24.2 billion) arising mainly from non-interest income, accompanied by an increase in income from the Trading segment derived from flexible and timely operations properly interpreting market trends, and by other factors.

G&A Expenses of the banking subsidiaries decreased by JPY 30.0 billion on a year-on-year basis mainly due to continued overall cost reduction efforts.

Aggregated Consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities and Mizuho Investors Securities) decreased by JPY 54.9 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits amounted to JPY 741.7 billion, a year-on-year increase of JPY 39.0 billion.

Ø Consolidated Net Income

Credit-related Costs of the 3 Banks amounted to a net reversal of JPY 16.0 billion, a year-on-year improvement of JPY 173.1 billion. This was primarily due to our efforts to implement appropriate credit management while responding to our customers' financing needs. On a consolidated basis, Credit-related Costs were also maintained at a low level of a cost of JPY 16.6 billion.

Net Losses related to Stocks of the 3 Banks amounted to JPY 76.2 billion. This was mainly due to recording impairment losses reflecting a decline in stock prices.

As a result, Consolidated Net Income for fiscal 2010 increased by JPY 173.8 billion on a year-on-year basis to JPY 413.2 billion.

Net Gains (Losses) related to Stocks	-76.2	-87.1
Ordinary Profits	507.2	201.5
Net Income	447.0	133.8

* The results of FY2009 included the impact on banking subsidiaries (JPY 77.5 billion, eliminated on a consolidated basis) of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs. After adjustment for this impact, the change from FY2009 for Gross Profits was JPY 103.9 billion, and that for Net Business Profits was JPY 134.0 billion, respectively

Ø **Net Interest Income**

The average loan balance for the second half of fiscal 2010 increased by JPY 0.1 trillion from that of the first half. This was primarily due to an increase in overseas loans, offset in part by a decrease in domestic loans, particularly those to large corporate customers. Meanwhile, the fiscal year-end loan balance as of March 31, 2011 increased by JPY 0.9 trillion compared with that of September 30, 2010, mainly due to an increase in overseas loans.

The domestic loan-and-deposit rate margin for the fourth quarter (i.e. three-month period from January to March 2011) was 1.37%, an improvement of 0.02% from that for the third quarter (i.e. three-month period from October to December 2010).

Ø **Non-interest Income**

Non-interest income from Customer Groups of the 3 Banks (on a managerial accounting basis) for fiscal 2010 increased by JPY 38.6 billion on a year-on-year basis.

Non-interest income from overseas business substantially increased compared with the previous fiscal year. In addition, we have seen increases in income associated with investment trusts and individual annuities, income from foreign exchanges business, profits from trust and asset management business of Mizuho Trust & Banking, and others.

II. Financial Soundness

The balance of Disclosed Claims under the Financial Reconstruction Law (3 Banks) amounted to JPY 1,208.0 billion, a decrease of JPY 111.9 billion. NPL Ratio was 1.72%, an improvement of 0.18% from that of March 31, 2010.

Unrealized Gains on Other Securities amounted to JPY 0.6 billion, mainly due to a decrease in Unrealized Gains associated with a decline in stock prices and increases in both domestic and overseas interest rates.

Our Consolidated Capital Adequacy Ratio was 15.30%, an improvement of 1.84% from that of March 31, 2010.

	(JPY Bn)	March 31, 2011 Change from Mar. 31, 2010

III. Disciplined Capital Management

We continue to pursue strengthening of stable capital base and steady returns to shareholders as our disciplined capital management policy. However, considering the ongoing global discussions with respect to capital, uncertainty over the economy and market trends, and other factors, we are placing a higher priority on strengthening of stable capital base.

In the last fiscal year, we strengthened our capital base mainly as a result of earning JPY 413.2 billion of Consolidated Net Income and issuing common stock in July 2010 (the number of shares issued: 6 billion shares, total amount paid in: JPY 751.6 billion). As a result, our financial base was significantly improved. Our Consolidated Tier 1 Capital Ratio was 11.93% as of March 31, 2011, a year-on-year improvement of 2.84%.

Amid the ongoing global discussions on the revision of capital regulations, we aim to increase, as our medium-term target, our Consolidated Tier 1 Capital Ratio (under Basel II) to 12% or above and our Common Equity Capital Ratio* (under Basel III) as of the end of fiscal 2012, when the new capital regulations are scheduled to be implemented, to the mid-8% level.

We announced Mizuho's Transformation Program in May 2010, and continue to work to improve profitability and enhance our financial base. We will strive to strengthen further our financial base mainly by accumulating retained earnings and improving asset efficiency through the steady implementation of the Program. Accordingly, we believe we will be able to sufficiently

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

meet the new capital regulations.

* The calculation of our Common Equity Capital Ratio includes the outstanding balance of the Eleventh Series Class XI Preferred Stock that will be mandatorily convertible in July 2016. Meanwhile, as of today, details such as the calculation method for the capital adequacy ratio under the new capital regulations have yet to be determined. Therefore, our Common Equity Capital Ratio is the estimated figure that Mizuho Financial Group calculates based on the publicly-available materials which have been issued as of today.

(Note) The outstanding balance of the Eleventh Series Class XI Preferred Stock as of March 31, 2011 (excluding treasury stock) was JPY 416.8 billion (the rest of the balance, 55.8% of the initial amount issued of JPY 943.7 billion, had already been converted into common stock).

Earnings Plan for Fiscal 2011

(Figures below are on a consolidated basis)

- Ø We plan Consolidated Net Business Profits for fiscal 2011 to be JPY 800.0 billion, a year-on-year increase of JPY 58.2 billion. Net Business Profits of the 3 Banks for fiscal 2011 are planned to decrease on a year-on-year basis, as we conservatively estimate income from the Trading segment, which showed a strong performance in the previous fiscal year, while we plan a year-on-year increase in income from Customer Groups.
- Ø Credit-related Costs are estimated to be a cost of JPY 140.0 billion in light of the impact of the recent earthquake and other factors, while continuously implementing thorough credit management.
- Ø We estimate Net Gains related to Stocks to be JPY 30.0 billion mainly through the ongoing reduction of our stock portfolio.
- Ø Based on the above, and including the impact of turning the three listed group companies into wholly-owned subsidiaries, the transaction scheduled to be effective in September, we plan Consolidated Net Income to be JPY 460.0 billion.
- Ø We plan to make cash dividend payments of JPY 6 per share of common stock as annual dividend payments for the fiscal year ending March 31, 2012, unchanged from that in the previous fiscal year, in consideration of the balance between strengthening of stable capital base and steady returns to shareholders, as it has become increasingly important for financial institutions to strengthen capital base. We also plan to make cash dividend payments on preferred stock as prescribed. Pertaining to the above, commencing from the fiscal year ending March 31, 2012, we plan to make interim cash dividend payments in order to provide returns to shareholders at a more appropriate timing, although we have made cash dividend payments on an annual basis hitherto.

This immediate release contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. Such forward-looking statements do not represent any guarantee by management of future performance.

In many cases, but not all, we use such words as aim, anticipate, believe, endeavor, estimate, expect, intend, may, plan, probability, project, risk, seek, should, strive, target and similar expressions in relation to us or our management to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation: incurrence of significant credit-related costs; declines in the value of our securities portfolio; changes in interest rates; foreign currency fluctuations; decrease in the market liquidity of our assets; revised assumptions or other changes related to our pension plans; a decline in our deferred tax assets; the effect of financial transactions entered into for hedging and other similar purposes; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; our ability to avoid reputational harm; our ability to implement our Medium-term Management Policy and other strategic initiatives and measures effectively; the effectiveness of our operational, legal and other risk management policies; the effect of changes in general economic conditions in Japan and elsewhere; and changes to applicable laws and regulations.

Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information Risk Factors, and Item 5. Operating and Financial Review and Prospects in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission (SEC) which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC's web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

* In addition to Securities on the consolidated balance sheets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥(1,242) million, ¥(5,562) million and ¥7,910 million, which were recognized in the statement of income for March 31, 2011, September 30, 2010 and March 31, 2010, respectively, by applying the fair-value hedge method and others.
As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of March 31, 2011, September 30, 2010 and March 31, 2010 are ¥609 million, ¥102,441 million and ¥267,684 million, respectively.

* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2011, September 30, 2010 and March 31, 2010 are ¥(21,648) million, ¥32,505 million and ¥176,931 million, respectively.
