NOTE 22 EQUITY COMPENSATION PLANS

Equity compensation plans in effect at June 30, 2011 and at December 31, 2010 give the right to the subscription or to the grant of Telecom Italia ordinary shares depending on the period of each beneficiary s participation in the plan and, in some cases, the extent to which the pre-set performance targets have been met.

These plans are used by Telecom Italia for retention purposes and as a long-term incentive for the managers and employees of the Group.

For the plans outstanding at June 30, 2011 and in place at December 31, 2010, reference should be made to the Telecom Italia Group consolidated financial statements at that date.

However, it should be noted that these plans do not have any significant effect on the economic result or on the financial position or on cash flows at June 30, 2011.

Description of Telecom Italia S.p.A. stock option plans

Top 2008 Plan

On April 15, 2011, the 8,550,000 options, already outstanding at December 31, 2010, became exercisable, in a ratio of 1 Telecom Italia ordinary share for each option, at the price of 1.95 euros per option. From April 15, to June 30, 2011, no options were exercised and the situation is therefore unchanged compared to December 31, 2010.

Description of other Telecom Italia S.p.A. equity compensation plans

Performance Share Granting Plan 2008 2011

Since the performance targets were not met, all the rights were forfeited and the plan expired on June 30, 2011.

Broad-based Employee Share Ownership Plan

The Broad-based Employee Share Ownership Plan consists of a subscription offering for Telecom Italia ordinary shares at a discount off the market price, reserved for employees of Telecom Italia or companies controlled by Telecom Italia with registered offices in Italy. A further grant of ordinary shares shall be made, in a ratio of one bonus share for every three subscribed shares, subject to retaining the subscribed shares and maintaining an employment relationship with companies of the Telecom Italia Group for one year from the subscription date.

On August 2, 2011, the capital increase was set in motion with the grant of 8,876,296 bonus ordinary shares to those entitled, for a total par value of 4,881,962.80 euros.

Long Term Incentive Plan 2010-2015 (LTI Plan 2010-2015)

The Long Term Incentive Plan 2010-2015 (LTI Plan 2010-2015) grants, to a selected number of Group management who are not already beneficiaries of other long-term incentive plans, a cash bonus based on three-year performance measured against pre-set targets, with the option of investing 50% of the bonus in Telecom Italia ordinary shares at market price. By retaining these shares and maintaining an employment relationship with companies of the Group for the next two years, the employees shall be granted a bonus ordinary share for each share subscribed.

At June 30, 2011, the total maximum bonus that may be granted to the beneficiaries is 8,643,900 euros; the maximum amount of the investment at market price, and the relative capital increase in cash, is therefore equal to 4,321,950 euros and the bonus share grant and the relative bonus increase in capital is the same amount.

Unaudited Interim Consolidated Financial Statements

Notes to the Unaudited Interim Consolidated Financial Statements

The new plan, approved by the shareholders meeting on April 12, 2011, replicates the basic rationale of the LTI 2010-2015 Plan. It covers Executive Management, Top Management and a selected number of management. The plan is formulated according to a rolling perspective so that, normally, each year a new incentive cycle comes into effect, factored over the time frame of the company s strategic planning.

The objective of the plan is to reinforce the connection between management s compensation and, on one hand, the company performance defined in the business plan 2011-2013 (absolute performance: 35% weighted), and on the other hand, the growth of value relative to a group of peers (relative performance: 65% weighted).

The plan calls for granting:

to Selected Management, a cash bonus, with the option of investing 50% of the bonus in Telecom Italia ordinary shares at market price and the grant of bonus Matching Shares when specific conditions are met two years after subscription;

to Top Management, a 50% bonus in cash and 50% for rights to a bonus grant of Telecom Italia ordinary shares after two years;

to Executive Management, a bonus in cash and an equivalent number of Telecom Italia ordinary shares determined when the person is included in the Executive Management group of the Plan.

On July 7, 2011, the board of directors approved the start of the Plan. Besides the Executive Chairman and the Domestic Chief Executive Officer, the Plan covers 17 Top Managers and 128 Selected Management. The estimated maximum incentive is equal to:

9,789,300 euros for Selected Management, corresponding to a maximum number of 8,899,364 shares subscribable at market price (in the event of the determination of the estimated minimum price, equal to the par value of the share);

6,512,400 euros for Top Management, corresponding to a maximum number of 5,920,363 shares (in the event of the determination of the estimated minimum price, equal to the par value of the share);

5,400,000 euros for Executive Management, corresponding to a maximum number of 5,795,234 shares (in the event of the determination of the estimated minimum price, equal to the par value of the share).

NOTE 24 EVENTS SUBSEQUENT TO JUNE 30, 2011

4GH

On July 27, 2011, after having received the Antitrust s approval, Telecom Italia finalized the acquisition of a 71% stake in the company 4G Holding S.p.A., with an outlay of about 8.4 million euros. The transaction was carried out through the wholly-owned subsidiary TLC Commercial Services S.r.l.

The acquisition of 4GH, with its roughly 200 points of sale located in the most important shopping centers in Italy, will make it possible for Telecom Italia to build up its positioning in the retail distribution market specialized in the sale of telephony equipment, extending its reach throughout the territory.

Aes Atimus

On July 8, 2011, Telecom Italia Group announced that it had signed an agreement for the acquisition of the AES Atimus group from Companhia Brasiliana de Energia. AES Atimus is an operator in the telecommunications infrastructure sector in the states of São Paulo and Rio de Janeiro, the most densely populated and wealthiest areas of the South American nation, which produce 27% of Brazilian GDP. Specifically, AES Atimus is the owner of a fiber optic network extending over 5,500 kilometers covering the 21 cities forming the metropolitan areas of São Paulo and Rio de Janeiro. With sales in 2010 of 211 million reais, the AES Atimus group represents a vital asset in enabling the Tim Brasil group to reinforce its competitive position. The transaction has an enterprise value of 1.6 billion reais, equal to about 700 million euros. The closing is expected to take place by the fourth quarter of 2011, once the necessary approvals are obtained from the company and the competent authorities.

Auction of frequencies

Telecom Italia was admitted by the Ministry for Economic Development to the bidding for the use of the 800, 1800, 2000, 2600 Mhz frequencies. By August 29, 2011, the companies must have presented their economic bids which will be opened at a public meeting scheduled for August 30, 2011.
