Notes:

- The above figures are calculated based on the BIS standard applied on a consolidated basis under the Standards for Determining the Status of Capital Adequacy in consideration of assets held by a bank holding company and by its subsidiaries, in accordance with Banking Law Article 52-25 (FSA Notice No. 20 of 2006 (the Notice)). For the figures as of September 30, 2010 and 2011, we did not apply the exception to the Notice (FSA Notice No. 79 of 2008).
- As it is not possible to break down Mizuho Financial Group's common stock and preferred stock according to classes of stock, non-cumulative perpetual preferred stock is not stated separately from capital.
- In calculating the consolidated capital adequacy ratio, we underwent an examination following the procedures agreed with Ernst & Young ShinNihon LLC, on the basis of Treatment in implementing examination by agreed-upon procedures for calculating capital adequacy ratio (Industry Committee Practical Guideline No. 30 of the Japanese Institute of Certified Public Accountants). Note that this is not a part of the accounting audit performed on our consolidated financial statements. This consists of an examination under agreed-upon procedures performed by Ernst & Young ShinNihon LLC on a portion of the internal control structure concerning the calculation of the capital adequacy ratio and a report of the results to us. As such, they do not represent an opinion regarding the capital adequacy ratio itself nor the internal controls related to the calculation of the capital adequacy ratio.
- The amounts of net deferred tax assets as of September 30, 2010 and 2011 were ¥447.0 billion and ¥438.2 billion, respectively, and the maximum amounts of deferred tax assets that can be recorded without diminishing the amount of Tier 1 capital for the purpose of calculating capital adequacy ratio as of September 30, 2010 and 2011 were ¥1,252.0 billion and ¥1,213.9 billion, respectively.
- The adjusted amount for credit risk-weighted assets is the amount obtained by multiplying (i) 12.5 by (ii) the excess, if any, of the required capital under the foundation internal ratings-based approach multiplied by the rate prescribed in the Notice over the required capital under the advanced internal ratings-based approach; and the adjusted amount for operational risk equivalent is the amount obtained by multiplying (i) 12.5 by (ii) the excess, if any, of the required capital under the basic indicator approach

multiplied by the rate prescribed in the Notice over the required capital under the advanced measurement approach.

6. Among our group companies that were subject to the calculation of consolidated capital adequacy ratio pursuant to Article 3 of the Notice, the numbers of consolidated subsidiaries were 163 and 153 as of September 30, 2010 and 2011, respectively. There was no company that was subject to the deductions for total risk-based capital forth in Article 8, Paragraph 1, Item 2, Subitem (a) through (c) of the Notice as of September 30, 2010 and 2011.
