Supplementary cash flow information (Note 13)

The accompanying notes are an integral part of these consolidated financial statements.

Notes to the Consolidated Financial Statements

(Stated in U.S. dollars unless otherwise noted; tabular amounts in thousands)

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The accounting policies followed in preparing these consolidated financial statements are those used by Ivanhoe Mines Ltd. (the Company) as set out in the audited consolidated financial statements for the year ended December 31, 2011.

Certain information and note disclosures normally included for annual consolidated financial statements prepared in accordance with U.S. GAAP have been omitted. These interim consolidated financial statements should be read together with the audited consolidated financial statements of the Company for the year ended December 31, 2011.

In the opinion of management, all adjustments considered necessary (including reclassifications and normal recurring adjustments) to present fairly the financial position, results of operations and cash flows at March 31, 2012 and for all periods presented, have been included in these financial statements. The interim results are not necessarily indicative of results for the full year ending December 31, 2012, or future operating periods. For further information, see the Company s annual consolidated financial statements, including the accounting policies and notes thereto.

The Company has three operating segments, its development division located in Mongolia, its coal division located in Mongolia, and its exploration division with projects located primarily in Australia and Mongolia.

References to Cdn\$ refer to Canadian currency, Aud\$ to Australian currency, and \$ to United States currency.

(b) Basis of presentation

For purposes of these consolidated financial statements, the Company, subsidiaries of the Company, and variable interest entities for which the Company is the primary beneficiary, are collectively referred to as Ivanhoe Mines .

(c) Accounting changes

In May 2011, the Financial Accounting Standards Board Accounting Standards Codification (ASC) guidance for fair value measurement and disclosure was updated to clarify the Financial Accounting Standards Board s intent on current guidance, modify and change certain guidance and principles, and expand disclosures concerning Level 3 fair value measurements in the fair value hierarchy (including quantitative information about significant unobservable inputs within Level 3 of the fair value hierarchy). In addition, the updated guidance requires disclosure of the fair value hierarchy for assets and liabilities not measured at fair value in the statement of financial position, but whose fair value is required to be disclosed. The updated guidance was effective for the Company s fiscal year beginning January 1, 2012. The adoption of the updated guidance had no impact on the Company s consolidated financial position or results of operations.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Accounting changes (continued)

In June 2011, the ASC guidance on presentation of comprehensive income was updated to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This update eliminates the option to present the components of other comprehensive income as part of the statement of equity, but does not change the items that must be reported in other comprehensive income. The updated guidance was effective for the Company s fiscal year beginning January 1, 2012, except for changes as they relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. The adoption of the updated guidance had no impact on the Company s consolidated financial position or results of operations.

2. DISCONTINUED OPERATIONS

In February 2005, Ivanhoe Mines sold the Savage River Iron Ore Project in Tasmania, Australia, for two initial cash payments totalling \$21.5 million, plus a series of five contingent, annual payments that began on March 31, 2006. From 2006 to 2009, these contingent payments totalled \$116.4 million.

During 2010, Ivanhoe Mines received two payments totalling \$6.4 million in relation to the fifth annual contingent payment. The original purchaser of the Savage River Project disputed the estimated \$22.1 million remaining balance of the fifth annual contingent payment. In 2010, Ivanhoe Mines initiated arbitration proceedings by filing a Request for Arbitration with the ICC International Court of Arbitration. The arbitration hearing was scheduled to occur in December 2011. In November 2011, the parties reached an out-of-court settlement whereby the original purchaser agreed to pay Ivanhoe Mines a reduced balance of \$13.0 million by March 31, 2012. Ivanhoe Mines received the final payment on March 28, 2012.

Ivanhoe Mines has received a total of \$157.4 million in proceeds from the sale of the Savage River Project.

3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents at March 31, 2012 included SouthGobi Resources Ltd. s (Canada) (57.7% owned) (SouthGobi) balance of \$125.1 million (December 31, 2011 \$123.6 million) and Ivanhoe Australia Limited s (Australia) (58.9% owned) (Ivanhoe Australia) balance of \$103.1 million (December 31, 2011 \$170.3 million), which were not available for the Company s general corporate purposes.
