RISK FACTORS

Investing in the notes involves risks, including the risks described below that are specific to the notes and those that could affect us and our business. You should not purchase notes unless you understand these investment risks. Please be aware that other risks may prove to be important in the future. New risks may emerge at any time, and we cannot predict such risks or estimate the extent to which they may affect our financial performance. Before purchasing any notes, you should consider carefully the risks and other information in this prospectus supplement and the accompanying prospectus and carefully read the risks described in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, including the discussion under Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011, as such discussion may be amended or updated in other reports filed by us with the SEC.

The notes are our obligations and not obligations of our subsidiaries and will be effectively subordinated to the claims of our subsidiaries creditors.

The notes are exclusively our obligations and not those of our subsidiaries. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds to pay our obligations, whether by dividends, distributions, loans or other payments. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us would be subject to regulatory or contractual restrictions. Payments to us by our subsidiaries also will be contingent upon those subsidiaries' earnings and business considerations.

Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and, therefore, the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of those subsidiaries' creditors, including senior and subordinated debtholders and general trade creditors. In the event of any such distribution of assets of our bank subsidiaries, the claims of depositors and other general or subordinated creditors would be entitled to priority over the claims of holders of the notes. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of those subsidiaries and any indebtedness of those subsidiaries senior to that held by us.

We may temporarily invest any funds not required immediately for purposes described above in short-term marketable securities.

DESCRIPTION OF THE NOTES

The following is a description of the particular terms of the notes offered pursuant to this prospectus supplement. This description supplements and, to the extent inconsistent, modifies the description of the general terms and provisions of senior debt securities set forth in the accompanying prospectus under Description of Debt Securities. To the extent the description in this prospectus supplement is inconsistent with the description contained in the accompanying prospectus, you should rely on the description in this prospectus supplement. The following description is qualified in its entirety by reference to the provisions of the senior indenture dated as of November 1, 1996, between us and The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A. (as successor to Harris Trust and Savings Bank), as indenture trustee, which we refer to as the senior indenture. A copy of the senior indenture is filed as an exhibit to the registration statement of which this prospectus supplement and the accompanying prospectus are a part. Capitalized terms not defined in this section have the meanings assigned to such terms in the accompanying prospectus or in the senior indenture.

General

The floating rate notes and the fixed rate notes offered hereby constitute separate series of senior debt securities described in the accompanying prospectus to be issued under the senior indenture. The notes will be our direct, unsecured obligations.

The floating rate notes are initially offered in the principal amount of \$, and the fixed rate notes are initially offered in the principal amount of \$. We may, without the consent of existing holders, increase the principal amount of either series of notes by issuing more notes in the future, on the same terms and conditions (other than the issue date and possibly the price to the public) and with the same CUSIP number (if appropriate), in each case, as the notes being offered by this prospectus supplement. We do not plan to inform existing holders if we reopen a series of notes to issue and sell additional notes in the future.

Payments

Floating Rate Notes

The floating rate notes will mature on . The floating rate notes will bear interest from November , 2012 to, but excluding, , 20 at a rate per annum equal to the initial interest rate and thereafter at an interest rate that will be reset as described below to a rate per annum equal to LIBOR (as defined below) plus % per annum. The initial interest rate will be equal to LIBOR plus % per annum as determined by the calculation agent as described below. We will pay interest on the floating rate notes quarterly in arrears on each , , and . We will make the first interest payment on .

The rate of interest on the floating rate notes will be reset quarterly (the interest reset period and the first day of each interest reset period will be an interest reset date). The interest reset dates will be , , and of each year; provided that the interest rate in effect from November , 2012 to but excluding the first interest reset date will be the initial interest rate. If any interest reset date falls on a day that is not a business day, the interest reset date will be postponed to the next day that is a business day.

The calculation agent for the floating rate notes will be The Bank of New York Mellon Trust Company, N.A., which we refer to as the calculation agent. Upon the request of the holder of any floating rate note, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date.

The calculation agent will determine the initial interest rate for the floating rate notes on the second London banking day preceding the issue date and the interest rate for each succeeding interest reset period by reference to LIBOR on the second London banking day preceding the applicable interest reset date, each of which we refer to as an interest determination date.

Table of Contents

London banking day means any day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

The interest rate for the floating rate notes will be based on the London interbank offered rate, which we refer to as LIBOR, and will be determined by the calculation agent as follows:

(i) As of an interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least \$1,000,000, as such rate appears on Reuters Page LIBOR01 at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the Reuters Page LIBOR01 as of 11:00 a.m., London time, or if the Reuters Page LIBOR01 is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P.'s page BBAM.

(ii) If no rate appears on Reuters Page LIBOR01 or Bloomberg L.P.'s page BBAM, then the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the calculation agent after consultation with us, to provide the calculation agent with its offered quotation for deposits in U.S. dollars for a period of three months, commencing on the related interest reset date, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative of a single transaction in U.S. dollars in that market at that time. If at least two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, LIBOR will be determined for the related interest reset date as the arithmetic mean of the rates quoted at approximately 11:00 a.m., New York time, on that interest reset date, by three major banks in New York, New York, as selected by the calculation agent after consultation with us, for loans in U.S. dollars to leading European banks, for a period of three months, commencing on the related interest reset date, and in a principal amount that is representative of a single transaction in U.S. dollars in that market at that time. If the banks so selected by the calculation agent are not quoting as set forth above, LIBOR for that interest determination date will remain LIBOR for the immediately preceding interest reset period, or, if there was no preceding interest reset period, the rate of interest payable will be the initial interest rate.

Accrued interest on any floating rate note will be calculated by multiplying the principal amount of the note by an accrued interest factor. The accrued interest factor will be computed by adding the interest factors calculated for each day in the period for which interest is being paid. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. The interest rate in effect on any interest reset date will be the applicable rate as reset on that date. The interest rate applicable to any other day is the interest rate from the immediately preceding interest reset date, or if none, the initial interest rate. All percentages used in or resulting from any calculation of the rate of interest on a floating rate note will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with .000005% rounded up to .00001%), and all U.S. dollar amounts used in or resulting from these calculations will be rounded to the nearest cent (with one-half cent rounded upward).

Fixed Rate Notes

The fixed rate notes will mature on . The notes will bear interest from November , 2012 at the annual rate of %. We will pay interest on the fixed rate notes semi-annually in arrears on each and . We will make the first interest payment on , 2012.

General

We will pay interest to the person in whose name the note is registered at the close of business on , , and , with respect to the floating rate notes, and on and , with respect to the fixed rate notes, as the case may be, next preceding the relevant interest payment date, except that we will

Table of Contents

pay interest payable at the maturity date of the notes to the person or persons to whom principal is payable. Interest on the fixed rate notes will be paid on the basis of a 360-day year comprised of twelve 30-day months. Interest on the floating rate notes will be paid on the basis of a 360-day year and the actual number of days elapsed. If any date on which interest is payable on the notes is not a business day, the payment of the interest payable on that date will be made on the next day that is a business day, without any interest or other payment in respect of the delay, with the same force and effect as if made on the scheduled payment date.

The notes will not have the benefit of a sinking fund that is, we will not deposit money on a regular basis into any separate custodial account to repay the notes.

Denominations

The notes will be issued in minimum denominations of \$2,000 and in integral multiples of \$1,000 in excess thereof.

Ranking

Payment of the principal and interest on the notes will rank equally with all of our other unsecured and unsubordinated debt. As of June 30, 2012, we had an aggregate of \$8.1 billion of senior unsecured indebtedness outstanding, which includes senior unsecured indebtedness issued by our consolidated subsidiary Capital One Bank (USA), N.A. Our senior indebtedness ranks *pari passu* with the notes. The senior indenture does not limit the amount of additional senior indebtedness that we or any of our subsidiaries may incur. The notes will be our exclusive obligations and not those of our subsidiaries. Since we are a holding company and substantially all of our operations are conducted through subsidiaries, our cash flow and consequently our ability to service debt, including the notes, depends upon the earnings of our subsidiaries and the distribution of those earnings to us or upon other payments of funds by those subsidiaries to us. The subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due on the notes or to provide us with funds for payments on the notes, whether by dividends, distributions, loans or other payments. In addition, the payment of dividends and distributions and the making of loans and advances to us by our subsidiaries may be subject to regulatory, statutory or contractual restrictions, are contingent upon the earnings of those subsidiaries, and are subject to various business considerations.

Any right we have to receive assets of any of our subsidiaries upon their liquidation or reorganization and the resulting right of the holders of notes to participate in those assets effectively will be subordinated to the claims of that subsidiary's creditors, including trade creditors, except to the extent that we are recognized as a creditor of the subsidiary, in which case our claims would be subordinated to any security interests in the assets of the subsidiary and any indebtedness of the subsidiary senior to the debt held by us.

We may, without the consent of the holders of the notes, create and issue additional debt securities under the senior indenture, ranking equally with the notes.

Events of Default

Events of default under the senior indenture with respect to the notes of a series are:

- (1) failure to pay interest on the notes of such series when due and continuance of that default for 30 days;
- (2) failure to pay the principal of the notes of such series when due and payable;
- (3) failure to perform or the breach of any covenant or warranty in the senior indenture or the notes of such series (other than a covenant or warranty included solely for the benefit of a series of debt)

Table of Contents

securities other than the notes of such series) that continues for 60 days after we are given written notice by the indenture trustee or we and the indenture trustee are given written notice by the holders of at least 25% in principal amount of the outstanding notes of such series;

(4) any event of default under any mortgage, indenture or other instrument securing or evidencing any indebtedness of us or any significant subsidiary for money borrowed, resulting in such indebtedness in principal amount exceeding \$10,000,000 becoming or being declared due and payable prior to the date on which it would otherwise become due and payable, if the acceleration is not rescinded or annulled within 30 days after written notice; or

(5) certain events of bankruptcy, insolvency or reorganization of us or any of our significant subsidiaries.

Defeasance and Discharge

The defeasance provisions of the senior indenture described under [Description of Debt Securities](#) [Legal Defeasance and Covenant Defeasance](#) in the accompanying prospectus will apply to the notes.

Same-Day Settlement and Payment

Settlement by purchasers of the notes will be made in immediately available funds. All payments by us to the depository of principal and interest will be made in immediately available funds. So long as any notes are represented by global securities registered in the name of the depository or its nominee, those notes will trade in the depository's Same-Day Funds Settlement System which requires secondary market trading in those notes to settle in immediately available funds. No assurance can be given as to the effect, if any, of this requirement to settle in immediately available funds on trading activity in notes.

Global Securities; Book-Entry Issue

We expect that the notes will be issued in the form of global securities held by The Depository Trust Company and its participants, including Euroclear System and Clearstream Banking, S.A., as described under [Book-Entry Procedures and Settlement](#) in the accompanying prospectus.

Trustee

The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A. (as successor to Harris Trust and Savings Bank) is the indenture trustee with respect to the notes. The indenture trustee is one of a number of banks with which we and our subsidiaries maintain banking and trust relationships in the ordinary course of business.

Timing and delivery

It is expected that delivery of the notes will be made against payment on or about November 1, 2012, which is earlier than the third business day following the date of pricing of the notes. Under Rule 15c6-1 of the Securities and Exchange Commission under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Purchasers of the notes who wish to trade the notes on any day for which settlement within two business days would not be possible should consult their own advisers.

an estate whose income is includible in gross income for U.S. federal income tax purposes regardless of its source, or

a trust, if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) it has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

As used herein, a U.S. holder is a beneficial owner of notes that is, for U.S. federal income tax purposes, a U.S. Person. As used herein, the term non-U.S. holder means a beneficial owner, other than a partnership, of notes that is not a U.S. holder.

If a partnership, including for this purpose any entity treated as a partnership for U.S. tax purposes, is a beneficial owner of notes, the treatment of a partner in the partnership generally will depend upon the status of the partner and upon the activities of the partnership. A holder of notes that is a partnership and partners in such a partnership should consult their independent tax advisors about the U.S. federal income tax consequences of holding and disposing of notes.

Investors should consult their tax advisor concerning the tax consequences of the ownership and disposition of the notes, including the tax consequences under the laws of any foreign, state, local or other taxing jurisdictions and the possible effects on investors of changes in U.S. federal or other tax laws.

Original Issue Discount

The notes will not have more than a de minimis amount of original issue discount. This summary of material federal income tax consequences describes the treatment of the notes in accordance with that determination.

Table of Contents

U.S. holders

Stated Interest

Interest on a note will be includable by a U.S. holder as interest income at the time it accrues or is received in accordance with such holder's method of accounting for U.S. federal income tax purposes and will be ordinary income.

Sale or Other Disposition of the Notes

Upon a sale, exchange, redemption, retirement or other taxable disposition of a note, a U.S. holder will generally recognize gain or loss equal to the difference between (i) the amount realized on the disposition (other than amounts attributable to accrued but unpaid interest, which will be taxed as interest income as discussed above to the extent not previously included in income) and (ii) the U.S. holder's tax basis in the note. A U.S. holder's tax basis in a note generally will equal the cost of the note. A U.S. holder's gain or loss will generally constitute capital gain or loss and will be long-term capital gain or loss if the U.S. holder has held such note for longer than one year. The deductibility of capital losses is subject to certain limitations. Net long-term capital gain recognized by a non-corporate U.S. holder is generally taxed at preferential rates.

Medicare Tax

For taxable years beginning after December 31, 2012, newly enacted legislation requires certain U.S. holders who are individuals, estates or certain trusts to pay an additional 3.8% Medicare tax on the lesser of (1) the U.S. person's net investment income for the relevant taxable year and (2) the excess of the U.S. person's modified gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000 depending on the individual's circumstances). Net investment income will generally include interest income and net gains from the disposition of the notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the notes.

Backup Withholding and Information Reporting

In general, a U.S. holder of a note will be subject to backup withholding at the applicable tax rate (currently 28%, which is scheduled to increase to 31% for taxable years beginning on or after January 1, 2013) with respect to cash payments in respect of interest or the gross proceeds from dispositions of notes, unless the holder (i) is an entity that is exempt from backup withholding (generally including tax-exempt organizations and certain qualified nominees) and, when required, provides appropriate documentation to that effect, (ii) provides us or our paying agent with the social security number or other taxpayer identification number ("TIN") within a reasonable time after a request therefor, certifies that the TIN provided is correct and that the holder has not been notified by the IRS that it is subject to backup withholding due to underreporting of interest or dividends, and otherwise complies with applicable requirements of the backup withholding rules. In addition, such payments to U.S. holders that are not exempt entities will generally be subject to information reporting requirements. A U.S. holder who does not provide us or our paying agent with the correct TIN may be subject to penalties imposed by the IRS. The amount of any backup withholding from a payment to a U.S. holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS. We or our paying agent will report to the holders and the IRS the amount of any reportable payments and any amounts withheld with respect to the notes as required by the Code and applicable Treasury Regulations.

Table of Contents

Non-U.S. holders

The following discussion applies to non-U.S. holders.

Interest

Subject to the discussions of backup withholding and the Foreign Account Tax Compliance Act below, interest income of a non-U.S. holder will qualify for the portfolio interest exemption and not be subject to U.S. federal income tax or withholding, provided that:

the interest paid on the note is not income that is effectively connected with a United States trade or business carried on by the non-U.S. holder (ECI) (and, if required by an applicable income tax treaty, is not attributable to a U.S. permanent establishment);

the non-U.S. holder does not actually or constructively (pursuant to the rules of Section 871(h)(3)(C) of the Code) own 10% or more of the total combined voting power of all classes of our stock that are entitled to vote;

the non-U.S. holder is not a controlled foreign corporation related to us actually or constructively through the stock ownership rules under Section 864(d)(4) of the Code;

the non-U.S. holder is not a bank that is receiving the interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its business; and

the beneficial owner satisfies the certification requirements set forth in Section 871(h) or 881(c), as applicable, of the Code and the Treasury regulations issued thereunder by giving us or our paying agent an appropriate IRS Form W-8 (or a suitable substitute or successor form or such other form as the IRS may prescribe) that has been properly completed and duly executed establishing its status as a non-U.S. Person or by other means prescribed by the Secretary of the Treasury (or the non-U.S. holder holds the notes through certain foreign intermediaries or certain foreign partnerships, and the non-U.S. holder and the foreign intermediary or foreign partnership satisfy the certification requirements of applicable Treasury regulations).

If any of these conditions are not met, interest on the notes paid to a non-U.S. holder will generally be subject to U.S. federal income tax and withholding at a 30% rate unless (a) an applicable income tax treaty reduces or eliminates such tax, and the non-U.S. holder claims the benefit of that treaty by providing an IRS Form W-8BEN (or a suitable substitute or successor form or such other form as the IRS may prescribe) that has been properly completed and duly executed, or (b) the interest is ECI and the non-U.S. holder complies with applicable certification requirements by providing an IRS Form W-8ECI (or a suitable substitute or successor form or such other form as the IRS may prescribe) that has been properly completed and duly executed.

If the interest on the notes is ECI, the non-U.S. holder will be required to pay U.S. federal income tax on that interest on a net income basis generally in the same manner as a U.S. holder (and the 30% withholding tax described above will not apply, provided the appropriate statement is provided to us or our paying agent). If a non-U.S. holder is eligible for the benefits of any income tax treaty between the United States and its country of residence, any interest income that is ECI will be subject to U.S. federal income tax in the manner specified by the treaty and will generally be subject to U.S. federal income tax only if such income is attributable to a permanent establishment or a fixed base maintained by the non-U.S. holder in the United States and the non-U.S. holder claims the benefit of the treaty by providing a Form W-8BEN (or a suitable substitute or successor form or such other form as the IRS may prescribe) that has been properly completed and duly executed. In addition, interest received by a corporate non-U.S. holder that is ECI may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, or, if applicable, a lower treaty rate.

Table of Contents

Sale or Other Disposition of the Notes

A non-U.S. holder will generally not be subject to U.S. federal income tax on any gain realized on a sale, exchange, redemption, retirement or other taxable disposition of the notes unless:

the gain is effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment),

in the case of a non-U.S. holder who is a nonresident alien individual and holds the note as a capital asset, such holder is present in the United States for 183 or more days in the taxable year and certain other requirements are met, or

we are or have been a U.S. real property holding corporation for U.S. federal income tax purposes during the shorter of the non-U.S. holder's holding period or the 5-year period ending on the date of disposition of the notes or common stock, as the case may be. We believe that we are not, and we do not anticipate becoming, a U.S. real property holding corporation for U.S. federal income tax purposes.

If a non-U.S. holder falls under the first of these exceptions, the holder will be taxed on the net gain derived from the disposition under the graduated U.S. federal income tax rates that are applicable to U.S. Persons and, if the non-U.S. holder is a foreign corporation, it may also be subject to the branch profits tax described above. Even though the ECI will be subject to U.S. federal income tax, and possibly subject to the branch profits tax, it will not be subject to withholding if the non-U.S. holder delivers an appropriate IRS Form W-8ECI (or a suitable substitute or successor form or such other form as the IRS may prescribe) that has been properly completed and duly executed to us or our agent.

If an individual non-U.S. holder falls under the second of these exceptions, the holder generally will be subject to U.S. federal income tax at a rate of 30% on the amount by which the gain derived from the disposition exceeds such holder's capital losses allocable to sources within the United States for the taxable year of the sale.

A non-U.S. holder's ability to claim a loss on the disposition of the notes will be subject to substantial limitations. Non-U.S. holders who sell notes at a loss that exceeds certain thresholds may be required to file a disclosure statement with the IRS. Non-U.S. holders should consult their tax advisors regarding the tax consequences of disposing of the notes at a loss.

Backup Withholding and Information Reporting

Backup withholding and information reporting will not apply to payments of principal or interest on the notes by us or our paying agent if a holder certifies its status as a non-U.S. holder under penalties of perjury or otherwise establishes an exemption (provided that neither we nor our paying agent has actual knowledge that it is a U.S. Person or that the conditions of any other exemptions are not in fact satisfied). The payment of the proceeds of the disposition of notes to or through the United States office of a United States or foreign broker will be subject to information reporting and backup withholding unless the non-U.S. holder provides the certification described above or otherwise establishes an exemption. The proceeds of a disposition effected outside the United States by a holder of the notes to or through a foreign office of a broker generally will not be subject to backup withholding or information reporting. However, if that broker is, for United States tax purposes, a U.S. Person, a controlled foreign corporation, a foreign person 50% or more of whose gross income from all sources for certain periods is effectively connected with a trade or business in the United States, or a foreign partnership that is engaged in the conduct of a trade or business in the United States or that has one or more partners that are U.S. Persons who in the aggregate hold more than 50% of the income or capital interests in the partnership, information reporting requirements will apply unless that broker has documentary evidence in its files of such holder's status as a non-U.S. holder and has no actual knowledge to the contrary or unless such holder otherwise establishes an exemption. Any amounts withheld from a payment to a holder under the backup withholding rules will be allowed as a credit against such holder's U.S. federal income tax liability and may

entitle it to a refund, provided it timely furnishes the required information to the IRS. We or our paying agent will report to the holders and the IRS the amount of any reportable payments and any amounts withheld with respect to the notes as required by the Code and applicable Treasury Regulations.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act (FATCA) was enacted on March 18, 2010 and will impose a 30% U.S. withholding tax on withholdable payments as defined in Section 1473(l) of the Code (Withholdable Payments), which include certain U.S. source payments, including interest (and OID) and gross proceeds from a disposition of property of a type which can produce U.S. source interest, if paid to certain foreign entities with U.S. account holders, unless certain diligence and reporting requirements are met. Although FATCA currently applies to payments made on obligations (such as the notes) that are issued on or after March 19, 2012, the IRS has recently issued Proposed Treasury Regulations providing that the withholding provisions described above will not apply to any payments made under an obligation that is outstanding on January 1, 2013 and any gross proceeds from the disposition of such obligation. Holders are encouraged to consult their own tax advisors regarding the implication of FATCA on an investment in the notes.

The U.S. federal tax discussion set forth above as to both U.S. holders and non-U.S. holders is included for general information only and may not be applicable depending upon a holder's particular situation. Holders should consult their tax advisors with respect to the tax consequences to them of the ownership and disposition of the notes, including the tax consequences under state, local, foreign and other tax laws and the possible effects of changes in U.S. federal or other tax laws.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the notes by employee benefit plans to which Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended, which we refer to as ERISA, applies; plans, individual retirement accounts and other arrangements to which Section 4975 of the Code or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code, which we collectively refer to as Similar Laws, apply; and entities whose underlying assets are considered to include plan assets of such plans, accounts and arrangements (each of which we call a Plan).

Each fiduciary of a Plan should consider the fiduciary standards of ERISA or any applicable Similar Laws in the context of the Plan's particular circumstances before authorizing an investment in the notes. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA or any applicable Similar Laws and would be consistent with the documents and instruments governing the Plan.

Section 406 of ERISA and Section 4975 of the Code prohibit Plans subject to such provisions, which we call ERISA Plans, from engaging in certain transactions involving plan assets with persons that are parties in interest under ERISA or disqualified persons under the Code with respect to the ERISA Plans. A violation of these prohibited transaction rules may result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for those persons, unless exemptive relief is available under an applicable statutory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and foreign plans (as described in Section 4(b)(4) of ERISA) are not subject to the requirements of ERISA or Section 4975 of the Code, but may be subject to Similar Laws.

Prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code could arise if the notes were acquired by an ERISA Plan with respect to which we or any of our affiliates are a party in interest or a disqualified person. For example, if we are a party in interest or disqualified person with respect to an investing ERISA Plan (either directly or by reason of our ownership of our subsidiaries), an extension of credit prohibited by Section 406(a)(1)(B) of ERISA and Section 4975(c)(1)(B) of the Code between the investing ERISA Plan and us may be deemed to occur, unless exemptive relief were available under an applicable exemption (see below).

Prohibited transaction class exemptions, or PTCEs, issued by the United States Department of Labor, as well as certain statutory exemptions available under ERISA and the Code, may provide exemptive relief for direct or indirect prohibited transactions resulting from the purchase, holding or disposition of the notes. Those class and statutory exemptions include:

PTCE 96-23 for certain transactions determined by in-house asset managers;

PTCE 95-60 for certain transactions involving insurance company general accounts;

PTCE 91-38 for certain transactions involving bank collective investment funds;

PTCE 90-1 for certain transactions involving insurance company separate accounts;

PTCE 84-14 for certain transactions determined by independent qualified professional asset managers; and

ERISA § 408(b)(17); Code § 4975(d)(20) statutory exemption for certain transactions with service providers.

Table of Contents

Because of the possibility that direct or indirect prohibited transactions or violations of Similar Laws could occur as a result of the purchase, holding or disposition of the notes by a Plan, the notes may not be purchased by any Plan, or any person investing the assets of any Plan, unless its purchase, holding and disposition of the notes will not constitute or result in a non-exempt prohibited transaction under ERISA or the Code or in a violation of any Similar Laws. Any purchaser or holder of the notes or any interest in the notes will be deemed to have represented in its fiduciary and its corporate capacity by its purchase and holding of the notes that either:

it is not a Plan and is not purchasing the notes or interest in the notes on behalf of or with the assets of any Plan; or

its purchase, holding and disposition of the notes or interest in the notes will not constitute or result in a non-exempt prohibited transaction under ERISA or the Code or in a violation of any Similar Laws.

In addition, any purchaser that is a Plan or that is acquiring the notes on behalf of a Plan, including any fiduciary purchasing on behalf of a Plan, will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the notes that (a) neither we, the indenture trustee nor the underwriters, nor any of our respective affiliates (collectively the Seller) is a fiduciary (under Section 3(21) of ERISA, or under any final or proposed regulations thereunder, or with respect to a governmental, church, or foreign plan under any Similar Laws) with respect to the acquisition, holding or disposition of the notes, or as a result of any exercise by the Seller of any rights in connection with the notes, (b) no advice provided by the Seller has formed a primary basis for any investment decision by or on behalf of such purchaser in connection with the notes and the transactions contemplated with respect to the notes, and (c) such purchaser recognizes and agrees that any communication from the Seller to the purchaser with respect to the notes is not intended by the Seller to be impartial investment advice and is rendered in its capacity as a seller of such notes and not a fiduciary to such purchaser.

Due to the complexity of these rules and the penalties imposed upon persons involved in non-exempt prohibited transactions, it is important that any person considering the purchase of notes on behalf of or with the assets of any Plan consult with its counsel regarding the consequences under ERISA, the Code and any applicable Similar Laws of the acquisition, ownership and disposition of notes, whether any exemption would be applicable, and whether all conditions of such exemption have been satisfied such that the acquisition, holding and disposition of the notes by the Plan are entitled to full exemptive relief thereunder.

Nothing herein shall be construed as, and the sale of notes to a Plan is in no respect, a representation by us or the underwriters that any investment in the notes would meet any or all of the relevant legal requirements with respect to investment by, or is appropriate for, Plans generally or any particular Plan.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated November , 2012 we have agreed to sell to the underwriters named below, for whom Barclays Capital Inc., Credit Suisse Securities (USA) LLC and RBS Securities Inc. are acting as representatives, and the underwriters have severally agreed to purchase the following respective principal amounts of the notes:

Name	Principal Amount of Notes
Barclays Capital Inc.	\$
Credit Suisse Securities (USA) LLC	
RBS Securities Inc.	
Total	\$

The obligations of the underwriters under the underwriting agreement, including their agreement to purchase the notes from us, are several and not joint. Those obligations are also subject to the satisfaction of certain conditions in the underwriting agreement. The underwriters have agreed to purchase all of the notes if any are purchased.

The underwriters have advised us that they propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a selling concession of up to % of the principal amount per floating rate note and up to % of the principal amount per fixed rate note. In addition, the underwriters may allow, and those selected dealers may reallow, a selling concession of up to % of the principal amount per floating rate note and up to % of the principal amount per fixed rate note, to certain other dealers. After the initial public offering, the underwriters may change the public offering prices and any other selling terms. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We estimate that our out-of-pocket expenses for this offering (excluding underwriting discounts and commissions) will be approximately \$ million and will be payable by us.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

In connection with this offering, the representatives may engage in over-allotment, stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit the managing underwriter to reclaim a selling concession from a syndicate member when the notes originally sold by that syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the representatives engage in stabilizing, syndicate covering transactions or penalty bids they may discontinue them at any time.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discounts and commissions received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Table of Contents

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for the issuer, for which they may receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates have made or held, and may in the future make or hold, a broad array of investments, including serving as counterparties to certain derivative and hedging arrangements, and may have actively traded, and, in the future may actively trade, debt and equity securities (or related derivative securities), and financial instruments (including bank loans) for their own account and for the accounts of their customers and may have in the past and at any time in the future hold long and short positions in such securities and instruments. Such investment and securities activities may have involved, and in the future may involve, securities and instruments of the Company. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

CHARGES AND PREFERRED STOCK DIVIDENDS**

The following table sets forth our ratios of (1) earnings to fixed charges and (2) earnings to combined fixed charges and preferred stock dividends for each of the periods indicated. We do not currently have any preferred stock outstanding.

Ratio of Earnings to Fixed Charges:	Years Ended December 31,				
	2011	2010	2009⁽¹⁾	2008	2007
Including Interest on Deposits	3.09	2.51	1.47	1.16	1.85

Excluding Interest on Deposits ⁽²⁾	5.42	4.05	2.13	1.42	3.33

(1) On February 27, 2009, we acquired Chevy Chase Bank, fsb. The transaction was accounted for as a purchase, and the related results of operations are included in our consolidated results from the date of the transaction.

(2) Preferred stock dividends in 2009 and 2008 were attributable to preferred stock issued in connection with our participation in the U.S. Department of Treasury's Troubled Asset Relief Program. Such preferred stock was issued to the United States Department of the Treasury on November 14, 2008 and was subsequently repurchased in full on June 17, 2009.

We compute the ratio of earnings to fixed charges by dividing earnings by the sum of fixed charges. The term "fixed charges" includes the sum of the following: (a) interest expense on debts (including or excluding deposits, as applicable) and (b) interest factor in rent expense. The term "earnings" is the amount resulting from adding (a) income from continuing operations before income taxes, (b) fixed charges, and (c) equity in undistributed loss of unconsolidated subsidiaries.

We compute the ratio of earnings to combined fixed charges and preferred stock dividends by dividing earnings by the sum of fixed charges and preferred stock dividends.

USE OF PROCEEDS

Except as otherwise described in the applicable prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes in the ordinary course of our business, including but not limited to the reduction of short-term debt, acquisitions, investments in, or extensions of credit to, our subsidiaries and investments in securities.

We may temporarily invest any funds not required immediately for purposes described above in short-term marketable securities.

Table of Contents

DESCRIPTION OF DEBT SECURITIES

We may from time to time issue debt securities which will be our direct unsecured general obligations. These debt securities are described below and will be senior debt securities or subordinated debt securities and any senior or subordinated debt securities that may be part of a unit, all of which are called debt securities. The senior debt securities will be issued under an indenture between us and The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A. (as successor to Harris Trust and Savings Bank), as trustee, dated as of November 1, 1996, and the subordinated debt securities will be issued under an indenture dated as of August 29, 2006 between us and The Bank of New York Mellon Trust Company, N.A., as trustee, subject in each case to such amendments or supplemental indentures as may be adopted from time to time. Together, the senior indenture and the subordinated indenture are called the indentures, and the senior indenture trustee and the subordinated indenture trustee are called the indenture trustees.

We have summarized selected provisions of the indentures below. The summary is not complete and does not describe every aspect of the indentures. A copy of each of the senior indenture and the subordinated indenture has been filed as an exhibit to the registration statement of which this prospectus is a part and has been qualified as an indenture under the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. You should read the more detailed provisions of the applicable indenture, including the defined terms, for provisions that may be important to you. You should also consider applicable provisions of the Trust Indenture Act. In the summary below, we have included references to section numbers so that you can easily locate these provisions. The particular terms of any debt securities we offer will be described in the related prospectus supplement, along with any applicable modifications of or additions to the general terms of the debt securities described below and in the indentures. For a description of the terms of any series of debt securities, you should also review both the prospectus supplement relating to that series and the description of the debt securities set forth in this prospectus before making an investment decision. Capitalized terms used in the summary have the meanings specified in the applicable indenture.

As of March 31, 2012, we had \$11.1 billion in senior and subordinated notes outstanding that mature in varying amounts from 2012 to 2021, of which \$7.7 billion in aggregate principal amount was senior debt securities and \$3.45 billion in aggregate principal was subordinated debt securities. A portion of both our senior and subordinated debt securities were issued by predecessor entities pursuant to indentures not described herein, and \$2.27 billion in senior and subordinated debt securities were issued by our consolidated subsidiary, Capital One Bank (USA), National Association (COBNA).

General

The debt securities will be our direct unsecured obligations. The indentures do not significantly limit our operations. In particular, they do not:

limit the amount of debt securities that we can issue under the indentures;

limit the number of series of debt securities that we can issue from time to time;

limit or otherwise restrict the total amount of debt that we or our subsidiaries may incur or the amount of other securities that we may issue;

require us or an acquiror to repurchase debt securities in the event of a change in control; or

contain any covenant or other provision that is specifically intended to afford any holder of the debt securities any protection in the event of highly leveraged transactions or similar transactions involving us or our subsidiaries.

The senior debt securities will rank equally with all of our other unsecured unsubordinated indebtedness. The subordinated debt securities will have a position junior to all of our senior indebtedness.

Table of Contents

Because we are a holding company, dividends and fees from our subsidiaries are our principal source of revenues from which to repay the debt securities. Our subsidiaries engaged in the banking or credit card business can only pay dividends if they are in compliance with applicable United States federal and state regulatory requirements. Our right to participate in any asset distribution of any of our subsidiaries, including COBNA, Capital One, National Association (CONA) and ING Bank, fsb, on liquidation, reorganization or otherwise, will rank junior to the rights of all creditors of that subsidiary (except to the extent that we may ourselves be an unsubordinated creditor of that subsidiary). As a result, the rights of holders of debt securities to benefit from those distributions will also be junior to the rights of all creditors of our subsidiaries. Consequently, the debt securities will be effectively subordinated to all liabilities of our subsidiaries. COBNA, CONA and ING Bank, fsb are subject to claims by creditors for long-term and short-term debt obligations, including deposit liabilities, obligations for federal funds purchased and securities sold under repurchase agreements. There are also various legal limitations on the extent to which COBNA, CONA and ING Bank, fsb may pay dividends or otherwise supply funds to us or our other affiliates.

Terms

A prospectus supplement relating to the offering of any series of debt securities will include specific terms relating to the offering. These terms will include some or all of the following (unless specified otherwise or in context, section references are to sections of both the senior indenture and subordinated indenture):

the interest rate, or method, if any, for determining the interest rate, the date or dates from which interest will accrue, or method, if any, for determining such dates, the interest payment dates, if any, on which interest will be payable, and whether and under what circumstances additional amounts on the offered debt securities will be payable; the manner in which payments with respect to the offered debt securities will be made; and the place or places where principal of, premium, if any, interest on and additional amount, if any, will be payable;

election, in a currency other than that in which the offered debt securities are denominated, the period in which that election may be made and the time and manner of determining the applicable exchange rate;

the percentage of the principal amount or price at which the offered debt securities will be issued;

whether the amount of payments of principal of, premium, if any, interest on, or additional amount, if any, with respect to the offered debt securities may be determined by reference to an index, formula or other method, and if so, the terms and conditions and the manner in which such amounts will be determined and paid or payable;

any changes to the covenants or additional events of default or covenants;

whether and upon what terms the offered debt securities may be defeased (which means that we would be discharged from our obligations by depositing sufficient cash or government securities to pay the principal of, premium, if any, interest on, or additional amount, if any, due to the stated maturity date or a redemption date of the offered debt securities);

whether the offered debt securities will be convertible into our common stock and, if so, the initial conversion price, the periods and terms of the conversion or exchange; and

any other terms not inconsistent with the provisions of the indentures. (Section 301)

Form of the Debt Securities

The indentures provide that we may issue senior and subordinated debt securities in registered form, in bearer form or in both registered and bearer form. Unless we indicate otherwise in the applicable prospectus supplement, each series of senior and subordinated debt securities will be issued in registered form, without coupons. Holders of registered form securities will be listed on the applicable indenture trustee's register for the applicable debt securities. (Sections 201 and 305)

Unless we indicate otherwise in the applicable prospectus supplement, we will issue senior and subordinated debt securities in registered form, without coupons, in denominations of \$1,000 or any integral multiple of \$1,000. Unless we indicate otherwise in the applicable prospectus supplement, we will issue senior and subordinated debt securities in bearer form in denominations of \$5,000 or any integral multiple of \$5,000. There will be no service charge for any registration of transfer, exchange, redemption, or conversion of senior and subordinated debt securities, but we or the applicable indenture trustee may require the holder to pay any tax or other governmental charge that may be imposed in connection with any registration of a transfer or exchange of the senior or subordinated debt securities, other than certain exchanges not involving any transfer. (Sections 302 and 305)

If we issue the debt securities in bearer form, the debt securities will have interest coupons attached. Bearer form securities are payable to whomever physically holds them from time to time. Debt securities in bearer form will not be offered, sold, resold or delivered in connection with their original issuance in the United States or to any United States person other than through offices of certain United States financial institutions located outside the United States. Purchasers of debt securities in bearer form will be subject to certification procedures and may be affected by United States tax law limitations. These procedures and limitations will be described in the applicable prospectus supplement.

Registration, Transfer, Payment and Paying Agent

Unless we indicate otherwise in the applicable prospectus supplement, payments on the debt securities will be made at our office or agency maintained for that purpose. We have appointed an agency in New York, New York to make payments on the debt securities; however, we may change our agent from time to time. Any transfer of the debt securities will be registerable at the same place. In addition, we may choose to pay interest by

check mailed to the address in the security register of the person in whose name the debt security is registered at the close of business on the applicable record date. (Sections 1002 and 307) Unless we indicate otherwise in the applicable prospectus supplement, any interest and any additional amounts with respect to any debt securities which is payable, but not punctually paid or duly provided for, may be paid to the holders as of a special record date fixed by the trustee or in any other lawful manner. (Section 307)

Unless we indicate otherwise in the applicable prospectus supplement, payments of principal of, premium, if any, and interest on debt securities in bearer form will be made at the office outside the United States specified in the applicable prospectus supplement and as we may designate from time to time. Payment can also be made by check or by transfer to an account maintained by the payee with a bank located outside the United States. Unless we indicate otherwise in the applicable prospectus supplement, payment on debt securities in bearer form will be made only if the holder surrenders the coupon relating to the interest payment date. We will not make any payments on any debt security in bearer form at any office or agency in the United States, by check mailed to any address in the United States or by transfer to any account maintained with a bank located in the United States. (Sections 1001 and 1002)

Global Debt Securities

Unless we indicate otherwise in the applicable prospectus supplement for a series of debt securities, each series of debt securities will be issued in global form, which means that we will deposit with the depository identified in the applicable prospectus supplement (or its custodian) one or more certificates representing the entire series, as described below under **Book-Entry Procedures and Settlement**. Global debt securities may be issued in either temporary or permanent form. (Sections 201 and 203)

The applicable prospectus supplement will describe any limitations and restrictions relating to a series of global senior or subordinated debt securities.

Covenants

Under the senior indenture, we agree to the following:

Except as permitted as described in this prospectus under **Description of Debt Securities Consolidation, Merger and Sale of Assets**, we will preserve and keep in full force and effect our corporate existence and the corporate existence of each of our significant subsidiaries (as defined below) and our rights (charter and statutory) and franchises and those of each of our significant subsidiaries. However, neither we nor any of our significant subsidiaries will be required to preserve any of these rights or franchises if we or the significant subsidiary, as the case may be, determine that the preservation of these rights or franchises is no longer desirable in the conduct of our or its business, as applicable, and that the loss of these rights or franchises is not disadvantageous in any material respect to the holders of the senior debt securities. (Section 1007)

The senior indenture contains a covenant by us limiting our ability to dispose of the voting stock of a significant subsidiary. A significant subsidiary is any of our majority-owned subsidiaries the consolidated assets of which (as reflected on our consolidated balance sheet) constitute 20% or more of our consolidated assets. This covenant generally provides that, except as permitted as described in this prospectus under **Description of Debt Securities Consolidation, Merger and Sale of Assets**, as long as any of the senior debt securities are outstanding:

neither we nor any of our significant subsidiaries will sell, assign, transfer or otherwise dispose of the voting stock of a significant subsidiary or securities convertible into or options, warrants or rights to subscribe for or purchase such voting stock, and we will not permit a significant subsidiary to issue voting stock, or securities convertible into or options, warrants or rights to subscribe for or purchase such voting stock, in each case if, after giving effect to such transaction

Table of Contents

and to the issuance of the maximum number of shares of voting stock of the significant subsidiary issuable upon the exercise of all such convertibles securities, options, warrants or rights, such significant subsidiary would cease to be a controlled subsidiary (as defined below); and

we will not permit a significant subsidiary to merge or consolidate with or into any corporation unless the survivor is us or is, or upon consummation of the merger or consolidation will become, a controlled subsidiary, or to lease, sell or transfer all or substantially all of its properties and assets except to us or a controlled subsidiary or a person that upon such lease, sale or transfer will become a controlled subsidiary. (Section 1005)

A controlled subsidiary is a significant subsidiary at least 80% of the voting stock of which is owned by us and/or one or more of our controlled subsidiaries.

The limitations described above do not apply to certain transactions required by law, rule, regulation or governmental order (including as a condition to an acquisition of another entity by us) or to any sale or transfer of assets in a securitization transaction.

Under the subordinated indenture, we agree to the following:

Except as permitted as described in this prospectus under Description of Debt Securities Consolidation, Merger and Sale of Assets, we will preserve and keep in full force and effect our corporate existence and our rights (charter and statutory) and franchises. However, we will not be required to preserve any of these rights or franchises if we determine that the preservation of these rights or franchises is no longer desirable in the conduct of our business and that the loss of these rights or franchises is not disadvantageous in any material respect to the holders of the subordinated debt securities. (Section 1007)

In addition, the senior indenture contains a covenant by us limiting our ability to create liens on the voting stock of a significant subsidiary. This covenant generally provides that, as long as any of the senior debt securities are outstanding, neither we nor any of our subsidiaries will create, assume or incur any pledge, encumbrance or lien upon a significant subsidiary's voting stock, or upon securities convertible into or options, warrants or rights to subscribe for or purchase, a significant subsidiary's voting stock, directly or indirectly, to secure indebtedness for borrowed money, if, treating such pledge, encumbrance or lien as a transfer of the significant subsidiary's voting stock or securities convertible into or options, warrants or rights to subscribe for or purchase the significant subsidiary's voting stock to the secured party (in each case after giving effect to such transaction and to the issuance of the maximum number of shares of voting stock of the significant subsidiary issuable upon the exercise of all such convertible securities, options, warrants or rights), the significant subsidiary would not continue to be a controlled subsidiary, unless the senior debt securities are equally and ratably secured with any and all such indebtedness by this pledge, encumbrance or lien. (Section 1006)

Subordination of Subordinated Debt Securities

Unless we indicate otherwise in the applicable prospectus supplement, the following provisions will apply to subordinated debt securities. Section references are to sections of the subordinated indenture.

Subordinated debt securities will be subordinated in right of payment to all senior indebtedness, as defined below. Payments on subordinated debt securities also will be effectively subordinated if:

we are involved in insolvency, bankruptcy or similar proceedings;

the maturity of any series of our subordinated debt securities is accelerated because of certain events of bankruptcy, insolvency or reorganization of us or a major depository institution subsidiary; or

Table of Contents

we fail to pay the principal of, premium, if any, or interest on any senior indebtedness when due, or an event of default occurs and is continuing with respect to any senior indebtedness permitting the holders of such senior indebtedness to declare the senior indebtedness due and payable prior to the date on which it would otherwise have become due and payable. (Section 1601)

Because of this subordination, some of our creditors may receive more, ratably, than holders of subordinated debt securities if we are insolvent.

After all payments have been made to the holders of senior indebtedness, any holders of subordinated debt securities will be subrogated to the rights of holders of senior indebtedness to receive payments or distributions of cash, property or securities from us applicable to such senior indebtedness until all amounts owing on the subordinated debt securities have been paid in full. (Section 1602)

Senior indebtedness includes: (1) the principal of, premium, if any, and interest on, whether outstanding now or incurred later, (a) all indebtedness for money borrowed by us, including indebtedness of others that we guarantee, other than the subordinated debt securities and the junior subordinated debt securities and other indebtedness that is expressly stated as not senior, and (b) any amendments, renewals, extensions, modifications and refundings of any indebtedness, unless in either case the instrument evidencing the indebtedness provides that it is not senior in right of payment to the subordinated debt securities; (2) all our capital lease obligations and any synthetic lease or tax retention operating lease; (3) all our obligations issued or assumed as the deferred purchase price of property, and all conditional sale or title retention agreements, but excluding trade accounts payable in the ordinary course of business; (4) all our obligations, contingent or otherwise, in respect of any letters of credit, bankers acceptances, security purchase facilities and similar credit transactions; (5) all our obligations in respect of interest rate swap, cap or similar agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts, commodity contracts and other similar agreements; (6) all obligations of the type referred to in clauses (1) through (5) of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise; and (7) all obligations of the type referred to in clauses (1) through (6) of other persons secured by any lien on any of our property or assets whether or not such obligation is assumed by us.

Senior indebtedness does not include: (1) subordinated debt securities; (2) any indebtedness that by its terms is subordinated to, or ranks on an equal basis with, subordinated debt securities; and (3) any indebtedness between or among us and our affiliates, including (a) any junior subordinated debt securities, (b) trust preferred securities guarantees and (c) all other debt securities and guarantees in respect of those debt securities, issued to any trust, or a trustee of such trust, partnership or other entity affiliated with us which is our financing vehicle in connection with the issuance by such financing vehicle of trust preferred securities or other securities guaranteed by us pursuant to an instrument that ranks on an equal basis with, or junior to, the trust preferred securities guarantees.

Consolidation, Merger and Sale of Assets

Each indenture generally permits a consolidation or merger between us and another corporation and the conveyance, transfer or lease by us of all or substantially all of our property or assets, in each case without the consent of the holders of any outstanding debt securities. However, each indenture requires that:

the successor or purchaser is a corporation organized under the laws of the United States of America, any state thereof or the District of Columbia and expressly assumes our obligations on the debt securities under the applicable indenture;

immediately after giving effect to the transaction, no event which, after notice or lapse of time, would become an event of default, will have occurred and be continuing pursuant to the applicable indenture; and

Table of Contents

either we or the successor person has delivered to the applicable indenture trustee an officer's certificate and an opinion of counsel stating the consolidation, merger, transfer or lease, as applicable, complied with these provisions and all conditions precedent of the applicable indenture. (Section 801)

The successor shall be substituted for us as if it had been an original party to the indentures and the debt securities. Thereafter, the successor may exercise our rights and powers under the indentures and the debt securities and, except in the case of a lease, we will be released from all of our obligations and covenants under those documents. (Section 802)

Exchange of Debt Securities

Registered debt securities may be exchanged for an equal aggregate principal amount of registered debt securities of the same series containing identical terms and provisions in authorized denominations requested by the holders upon surrender of the registered debt securities at an office or agency that we maintain for that purpose and upon fulfillment of all other requirements set forth in the indentures. (Section 305)

Conversion and Exchangeability

The holders of debt securities that are convertible into our common stock or exchangeable into other securities will be entitled to convert or exchange the debt securities under some circumstances. The terms of any conversion or exchange will be described in the applicable prospectus supplement.

Events of Default

Unless we indicate otherwise in the applicable prospectus supplement for any series of debt securities, events of default with respect to any series of debt securities are:

failure to pay the interest or any additional amount payable on any debt security of such series when due and continuance of that default for 30 days;

failure to pay the principal of or any premium on any debt security of such series when due and payable;

failure to deposit any sinking fund payment when and as due by the terms of any debt security of such series;

failure to perform or the breach of any covenant or warranty in the applicable indenture or the debt securities (other than a covenant or warranty included solely for the benefit of a series of debt securities other than such series) that continues for 60 days after we are given written notice by the trustee or we and the trustee are given written notice by the holders of at least 25% of the outstanding debt securities of such series;

in the case of the senior debt securities, any event of default under any mortgage, indenture or other instrument securing or evidencing any indebtedness of us or any significant subsidiary for money borrowed, resulting in such indebtedness in principal amount exceeding \$10,000,000 becoming or being declared due and payable prior to the date on which it would otherwise become due and payable, if the acceleration is not rescinded or annulled within 30 days after written notice;

in the case of the senior debt securities, certain events of bankruptcy, insolvency or reorganization of us or any of our significant subsidiaries and in the case of the subordinated debt securities, certain events of bankruptcy, insolvency or reorganization of us or a major depository institution subsidiary; or

any other event of default included in any indenture or supplemental indenture. (Section 501)

Edgar Filing: CAPITAL ONE FINANCIAL CORP - Form 424B5

If a default occurs with respect to any series of senior or subordinated debt securities, the applicable indenture trustee will give the holders of those debt securities notice of the default as and to the extent provided by the Trust Indenture Act. (Section 501)

Table of Contents

If an event of default with respect to any series of senior debt securities occurs and continues, either the senior indenture trustee or the holders of not less than 25% of the aggregate principal amount of the outstanding senior debt securities of that series may declare the principal amount (or such lesser amount as may be provided for the senior debt securities of such series) of all the senior debt securities of that series to be due and payable immediately. Payment of the principal of subordinated debt securities may be accelerated only in the case of certain events of bankruptcy, insolvency or reorganization of us or one of our major depository institution subsidiaries. Subordinated debt securities cannot be accelerated if we default in our performance of any other covenant, including payment of principal or interest. (Section 502)

Any time after a declaration of acceleration has been made and before a judgment or decree for payment of the money due has been obtained the majority holders may, under certain circumstances, void the declaration. Majority holders are the holders of a majority of the aggregate principal amount of outstanding senior or subordinated debt securities of that series. (Section 502)

The majority holders may direct the time, method and place of conducting any proceeding for any remedy available to the applicable indenture trustee, or exercising any trust or power conferred on the applicable indenture trustee, for the senior or subordinated debt securities of that series. (Section 512). The applicable indenture trustee generally is not obligated to exercise any of its rights or powers under any senior or subordinated indenture at the request or direction of any of the holders, unless those holders offer the applicable indenture trustee reasonable indemnity. (Section 601)

A holder does not have the right to institute a proceeding with respect to the indenture, for the appointment of a receiver or a trustee, or for any other remedy, unless:

the holder has previously given written notice to the applicable indenture trustee of a continuing event of default;

the holders of not less than 25% of the aggregate principal amount of the outstanding debt securities of the applicable series have made a written request to the applicable indenture trustee to institute proceedings in respect of such event of default in its own name as trustee under the applicable indenture, and such holders have offered to the applicable indenture trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;

the applicable indenture trustee has failed to institute a proceeding within 60 days after receipt of such notice, request and offer of indemnity; and

the applicable indenture trustee has not received an inconsistent direction from the majority holders within such 60-day period. (Section 507)

However, these limitations do not apply to a suit for the enforcement of payment or conversion rights instituted on or after the respective due dates of the senior and subordinated debt securities of the applicable series. (Section 508)

Waivers of Certain Covenants and Past Defaults

The holders of not less than a majority of the aggregate principal amount of the outstanding senior and subordinated debt securities of each series may, on behalf of all holders of that series, waive our compliance with certain restrictive provisions of the applicable indenture. They also may waive any past default with respect to that series under the applicable indenture, except (1) a default in the payment of principal of, premium, if any, interest on or any additional amount, or (2) a default in the performance of certain covenants which cannot be modified without the consent of all of the holders of the applicable series. (Sections 513 and 1008)

Unless we indicate otherwise in the applicable prospectus supplement, we and the applicable trustee may modify or amend an indenture, with the consent of the holders of at least 66-2/3% in principal amount of each series of the senior or subordinated debt securities affected by the modification or amendment. However, no modification or amendment may, without the consent of each holder affected by the modification or amendment:

reduce the principal amount of, or the rate of interest on, or any additional amounts or premium, if any, payable with respect to any debt security, or, except as otherwise permitted, change an obligation to pay additional amounts with respect to any debt security, or adversely affect the right of repayment at the option of any holder, if any;

change the place of payment, the currency in which the principal of, any premium, if any, or interest on, or any additional amounts with respect to any debt security is payable or impair the right to institute suit for the enforcement of any such payment on or after the due date thereof (or, in the case of redemption, on or after the redemption date or, in the case of repayment at the option of the holder, on or after the date for repayment);

modify any of the provisions in the applicable indenture provisions described above under *Waivers of Certain Covenants and Past Defaults* and in this section *Amendments to the Indentures Supplemental Indentures with Consent of Holders*, except to increase any percentage in principal amount of outstanding debt securities of any series the consent of whose holders is required for a supplemental indenture or waiver, or to provide that certain other provisions of the applicable indenture cannot be modified or waived without the consent of the holders of each outstanding debt security affected thereby;

adversely affect the right of any holder to convert any convertible debt securities; or

in the case of the subordinated indenture, modify the subordination provisions in a manner adverse to the holders of the subordinated debt securities. (Section 902)

Supplemental Indentures without Consent of Holders

Except as otherwise provided in the applicable prospectus supplement, we and the applicable indenture trustee may modify and amend an indenture without the consent of any holder for any of the following purposes:

to evidence the succession of another person to us, and the assumption by the successor of our covenants in the applicable indenture and in the debt securities;

Edgar Filing: CAPITAL ONE FINANCIAL CORP - Form 424B5

to add to our covenants for the benefit of the holders of all or any series of debt securities or to surrender any right or power conferred upon us in the applicable indenture;

to add or change any provisions of the applicable indenture to provide that bearer debt securities may be registrable as to principal, to change or eliminate restrictions on payments with respect to debt securities, to permit registered securities to be exchanged for bearer securities, to permit bearer securities to be exchanged for bearer securities of other authorized denominations or to permit or facilitate the issuance of securities in uncertificated form, provided any such action does not adversely affect the interests of the holders of any debt securities or related coupons in any material respect;

to establish the form or terms of debt securities of any series and any related coupons;

to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any provisions of the applicable indenture as necessary to provide for or facilitate the administration of the trusts under the applicable indenture by more than one trustee;

to secure the debt securities;

to amend or supplement any provision of the applicable indenture or any supplemental indenture, provided that the amendment or supplement does not materially adversely affect the interests of the holders of outstanding debt securities; and

to make certain provisions with respect to conversion rights. (Section 901)

Legal Defeasance and Covenant Defeasance

If the applicable prospectus supplement provides for defeasance, we may at any time elect to defease and will be deemed to have paid and discharged our obligations on the applicable debt securities if:

no event of default has occurred and is continuing, or would occur upon the giving of notice or lapse of time, at the time of the satisfaction and discharge;

either (1) we have irrevocably deposited with the applicable indenture trustee sufficient cash or government securities to pay when due all the principal of, premium, if any, interest on and additional amounts, if any, with respect to the applicable debt securities, through the stated maturity or redemption date of the applicable debt securities (or, in the case of debt securities which have become due and payable, through the date of such deposit), or (2) we have properly fulfilled such other means of satisfaction and discharge as is provided in or pursuant to the applicable indenture for the applicable debt securities;

Edgar Filing: CAPITAL ONE FINANCIAL CORP - Form 424B5

we have paid all other sums payable under the applicable indenture with respect to the applicable debt securities and any related coupons;

we have delivered to the applicable trustee a certificate of our independent public accountants certifying as to the sufficiency of the amounts deposited by us, and an officers certificate and opinion of counsel as required by the applicable indenture; and

we have delivered to the applicable trustee an opinion of counsel to the effect that the holders will have no federal income tax consequences as a result of the deposit or termination and if the applicable debt securities are listed on the New York Stock Exchange, an opinion of counsel that the applicable debt securities will not be delisted.

Table of Contents

In the case of a defeasance, the holders of the applicable debt securities of the series will not be entitled to the benefits of the applicable indenture, except for the registration of transfer or exchange and the replacement of stolen, lost or mutilated applicable debt securities and the requirements regarding the maintenance of an office or agency where the applicable debt securities can be surrendered for payment or registration of transfer or exchange and the right of the holders of the applicable debt securities to receive from the deposited funds payment of the principal of, premium, if any, interest on, and any additional amounts, if any, with respect to the applicable debt securities when due. (Section 402)

Determining the Outstanding Debt Securities

Unless otherwise provided in or pursuant to the applicable indenture, we will consider the following factors in determining whether the holders of the requisite principal amount of outstanding debt securities have given any request, demand, authorization, direction, notice, consent or waiver under the applicable indenture or are present at a meeting of holders of debt securities for quorum purposes:

in the case of any debt security that by its terms provides for declaration of a principal amount less than the principal face amount of the debt security to be due and payable upon acceleration, the principal amount that will be deemed to be outstanding will be the principal amount that would be declared to be due and payable upon a declaration of acceleration thereof at the time of such determination;

in the case of any indexed security, the principal amount that will be deemed to be outstanding will be the principal face amount of the indexed security at original issuance;

in the case of any debt security denominated in one or more foreign currency units, the principal amount that will be deemed to be outstanding will be the U.S. dollar equivalent based on the applicable exchange rate or rates at the time of sale; and

any debt securities owned by us or any other obligor upon the debt securities or any of our or such other obligor's affiliates, will be disregarded and deemed not to be outstanding. (Section 101)

Governing Law

The indentures will be governed by, and construed in accordance with, the laws of the State of New York.

Regarding the Indenture Trustees

In the normal course of business, we and our subsidiaries conduct banking transactions with the indenture trustees, and the indenture trustees conduct banking transactions with us and our subsidiaries.

DESCRIPTION OF PREFERRED STOCK

Our Restated Certificate of Incorporation authorizes our Board of Directors, or the Board, to create and provide for the issuance of one or more series of preferred stock, par value \$.01 per share, without the approval of our stockholders. The Board can also determine the terms, including the designations, powers, preferences and rights (including conversion, voting and other rights) and the qualifications, limitations or restrictions, of any preferred stock. Currently, 50,000,000 shares of our capital stock are classified as preferred stock under our Restated Certificate of Incorporation. As of March 31, 2012, no shares of preferred stock were issued or outstanding.

The following description summarizes the general terms and provisions of our authorized preferred stock. The particular terms of any series of preferred stock we offer will be described in the related prospectus supplement. You should read the particular terms of any series of preferred stock we offer described in the related prospectus supplement, together with the more detailed provisions of our Restated Certificate of Incorporation and the certificate of designation relating to the particular series of preferred stock, for provisions that may be important to you. Our Restated Certificate of Incorporation has been filed as an exhibit to the registration statement of which this prospectus is a part. The certificate of designation relating to the particular series of preferred stock will be filed as an exhibit to a document incorporated by reference in the registration statement. The prospectus supplement will also state whether any of the terms summarized below do not apply to the series of preferred stock being offered. Terms which could be included in a prospectus supplement include:

the designation of the preferred stock and the number of shares offered;

the amount of liquidation preference per share;

the price at which the preferred stock will be issued;

the dividend rate, or its method of calculation, and the dates on which dividends will be payable;

whether the dividends will be cumulative or noncumulative, and, if cumulative, the dates from which dividends will commence to cumulate;

any redemption or sinking fund provisions of the preferred stock;

whether we have elected to offer depositary shares, as described below;

the terms and conditions, if any, upon which the preferred stock will be convertible into or exchangeable for common stock or other securities; and

any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions of the preferred stock.

The preferred stock will, when issued, be fully paid and nonassessable and have no preemptive rights. Preferred stock will have the dividend, liquidation, and voting rights described below, unless we indicate otherwise in the applicable prospectus supplement relating to a particular series of preferred stock. You should read the prospectus supplement relating to any series of preferred stock for the series specific terms.

Dividend Rights

Holders of preferred stock will receive, when, as and if declared by the Board, dividends at rates and on the dates described in the applicable prospectus supplement. Each dividend will be payable to the holders of record as they appear on our stock record books of the Corporation or, if applicable, the records of the depositary referred to under Description of Depositary Shares, on the record dates fixed by the Board or its committee. Dividends on any series of preferred stock may be cumulative or noncumulative. The Corporation's ability to pay dividends on the preferred stock depends on the ability of COBNA, CONA and ING Bank, fsb to pay dividends

Table of Contents

to the Corporation. The ability of the Corporation, COBNA, CONA and ING Bank, fsb to pay dividends in the future is subject to bank regulatory requirements and capital guidelines and policies established by the Federal Reserve Board.

We will not declare or pay or set apart funds for the payment of dividends on any securities which rank equally with the preferred stock unless we have paid or set apart funds for the payment of dividends on the preferred stock. If full dividends are not paid, the preferred stock will share dividends pro rata with any equally ranked securities.

Voting Rights

Unless we indicate otherwise in the applicable prospectus supplement relating to a particular series of preferred stock or expressly required by law, the holders of the preferred stock will not have any voting rights.

Rights upon Liquidation

If we liquidate, dissolve or wind up our affairs, either voluntarily or involuntarily, the holders of each series of preferred stock will be entitled to receive liquidation distributions. These will be in the amounts set forth in the applicable prospectus supplement, plus accrued and unpaid dividends and, if the series of the preferred stock is cumulative, accrued and unpaid dividends for all prior dividend periods. If we do not pay in full all amounts payable on any series of preferred stock, the holders of the preferred stock will share proportionately with any equally ranked securities in any distribution of our assets. After the holders of any series of preferred stock are paid in full, they will not have any further claim to any of our remaining assets.

Because the Corporation is a holding company, the rights of its stockholders to participate in the assets of any subsidiary, including COBNA, CONA and ING Bank, fsb, upon the subsidiary's liquidation or recapitalization may be subject to the prior claims of the subsidiary's creditors, except to the extent that the Corporation may itself be a creditor with recognized claims against the subsidiary.

Redemption

A series of preferred stock may be redeemable, in whole or in part, at our option or at the option of the holder of the stock, and may be subject to mandatory redemption pursuant to a sinking fund, under the terms described in any applicable prospectus supplement.

In the event of partial redemptions of preferred stock, the Board or its committee will determine the method for selecting the shares to be redeemed, which may be by lot or pro rata or by any other method the Board or its committee determines to be equitable.

On and after a redemption date, unless we default in the payment of the redemption price, dividends will cease to accrue on shares of preferred stock which were called for redemption. In addition, all rights of holders of the preferred shares will terminate except for the right to receive the redemption price.

Conversion and Exchange

The applicable prospectus supplement for any series of preferred stock will state the terms and conditions, if any, on which shares of that series are convertible into or exchangeable for our common stock or other securities, including:

the number of shares of common stock or other securities into which the shares of preferred stock are convertible or for which the shares of preferred stock may be exchanged;

the conversion period or exchange period;

provisions as to whether conversion or exchange will be at the option of the holders of the preferred stock or at our option, if applicable;

DESCRIPTION OF DEPOSITARY SHARES

The following description summarizes the general terms and provisions of depositary shares and depositary receipts. The particular terms of any depositary shares and any depositary receipts we offer will be described in the related prospectus supplement. You should read the particular terms of any depositary shares and depositary receipts we offer described in the related prospectus supplement, together with any deposit agreement relating to a particular series of preferred stock for provisions that may be important to you. The prospectus supplement will also state whether any of the generalized provisions summarized below do not apply to the depositary shares or depositary receipts being offered.

General

We may, at our option, elect to offer fractional shares of preferred stock, rather than full shares of preferred stock. In that event, we will issue receipts for depositary shares, each of which will represent a fraction of a share of a particular series of preferred stock as described in the applicable prospectus supplement. The terms of any depositary shares will be set forth in the applicable prospectus supplement and the provisions of the deposit agreement, which we will file with the SEC.

The shares of any series of preferred stock represented by depositary shares will be deposited under a deposit agreement between us and the depositary named in the applicable prospectus supplement. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled to all the rights and preferences of the preferred stock, including dividend, voting, redemption, conversion and liquidation rights, in proportion to the applicable fraction of a share of preferred stock represented by such depositary share.

The depositary shares will be evidenced by depositary receipts issued pursuant to the applicable deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of preferred stock as described in the applicable prospectus supplements.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the deposited preferred stock to the record holders of depositary shares relating to such preferred stock in proportion to the number of such depositary shares owned by such holders.

The depositary will distribute any property received by it other than cash to the record holders of depositary shares entitled thereto. If the depositary determines that it is not feasible to make such distribution, it may, with our approval, sell such property and distribute the net proceeds from such sale to such holders.

Redemption of Preferred Stock

If a series of preferred stock represented by depositary shares is to be redeemed, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of such series of preferred stock. The depositary shares will be redeemed by the depositary at a price per depositary share equal to the applicable fraction of the redemption price per share payable in respect of the shares of preferred stock so redeemed.

Whenever we redeem shares of preferred stock held by the depositary, the depositary will redeem as of the same date the number of depositary shares representing the shares of preferred stock so redeemed. If fewer than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by the depositary by lot or ratably or by any other equitable method as we may decide.

DESCRIPTION OF COMMON STOCK

The Corporation is authorized to issue 1,000,000,000 shares of common stock, par value \$.01 per share. As of March 31, 2012, 580,226,318 shares of common stock were issued. The common stock is traded on the New York Stock Exchange under the symbol COF. All outstanding shares of common stock are and will be fully paid and nonassessable.

The following summary is not complete, and you should refer to the applicable provisions of the Delaware General Corporation Law and our Restated Certificate of Incorporation and Amended and Restated Bylaws for additional information. See [Where You Can Find More Information](#).

Voting and Other Rights

Each share of common stock is entitled to one vote on all matters submitted to a vote of stockholders. Except as otherwise provided by law, the Restated Certificate of Incorporation or the Amended and Restated Bylaws, a majority of the votes cast is required for all actions to be taken by stockholders. Directors in uncontested elections shall be elected by a majority of votes cast; however, in contested elections, a plurality standard shall apply. Stockholders do not have cumulative voting rights in the election of directors, which means that the holders of more than 50% of the shares voting in an election of directors can elect all of the directors. Shares of common stock also do not have any preemptive, subscription, redemption, sinking fund or conversion rights.

The foregoing rights may be subject to voting and other rights that we may grant from time to time to the holders of other classes of our securities.

In addition, in connection with the ING Transaction, the Corporation and ING Groep N.V. entered into a Shareholders Agreement, dated February 17, 2012, that gave ING Groep N.V. the right to designate one representative to serve on our Board until the earlier of (i) February 17, 2013 (the one-year anniversary of the closing of the ING Transaction) and (ii) the day on which ING Bank N.V. has sold more than 33% of its shares of our common stock acquired in the ING Transaction to third parties. For more information, see Item 1.01 and Exhibit 2.1 of our Current Report on Form 8-K filed on June 22, 2011, which we incorporate into this prospectus by reference.

For a more detailed description of the terms of these and similar rights granted to the holders of other classes of our securities, please refer to the applicable prospectus supplement for any offering of our common stock pursuant to this registration statement and to the documents and other information that we incorporate by reference elsewhere in this prospectus. See [Where You Can Find More Information](#).

Distribution

Common stock dividends are subject to preferences, if any, on any outstanding shares of preferred stock. Dividends must be declared by the Board out of legally available funds. If we liquidate, dissolve or wind up our affairs, common stockholders are entitled to share proportionately in the assets available for distribution to common stockholders.

Anti-Takeover Provisions of the Restated Certificate of Incorporation and Amended and Restated Bylaws

Certain provisions in our Restated Certificate of Incorporation and Amended and Restated Bylaws could make more difficult or discourage a tender offer, proxy contest or other takeover attempt that is opposed by the Board but which might be favored by the stockholders. The Restated Certificate of Incorporation and Amended and Restated Bylaws are filed as exhibits to the registration statement, and certain provisions are summarized below.

Classified Board of Directors. At the 2011 annual meeting of stockholders, our stockholders approved an amendment to our Restated Certificate of Incorporation, to phase out over a three-year period the classification of

Table of Contents

the Board and provide instead for the annual election of directors. Previously, other than directors elected by any series of preferred stock, the Board was divided into three classes of directors, with each class of directors elected for a three-year term. Following our stockholders' approval of the amendment to our Restated Certificate of Incorporation, the Board approved certain related amendments to our Amended and Restated Bylaws. For more information regarding the foregoing amendments, see Item 5.03 of our Current Report on Form 8-K, filed on May 17, 2011, which we incorporate into this prospectus by reference.

As a result of the foregoing amendments, our Restated Certificate of Incorporation and Amended and Restated Bylaws provide that, other than directors elected by any series of preferred stock, beginning with the 2012 annual meeting of stockholders, directors will be elected annually to one-year terms in office. Directors elected at the 2009, 2010, and 2011 annual meetings of stockholders will continue to serve the remainder of their three-year terms in office. At the 2014 annual meeting of stockholders, the declassification of the Board will be complete.

Until the 2014 annual meeting of stockholders, our Board will consequently have more than one class of directors, which may have the effect of deterring or delaying any attempt by any group to obtain control of the Corporation. Specifically, these provisions could prevent a stockholder or a group of stockholders having majority voting power from obtaining control of the Board until the 2013 annual meeting of stockholders, at which time they could elect a majority of the directors appointed to the Board.

Number of Directors; Removal; Filling Vacancies. Generally, our Board must consist of between three and seventeen directors, and vacancies will be filled only by the affirmative vote of a majority of the remaining directors, even if less than a quorum remains in office. Therefore, unless the Amended and Restated Bylaws are further amended, the Board could prevent any stockholder from enlarging the Board of Directors and filling the new directorships with the stockholder's own nominees.

Under Delaware law, unless otherwise provided in the certificate of incorporation, directors serving on a classified board may only be removed by the stockholders for cause. Our Restated Certificate of Incorporation provides that directors may be removed without cause, except that directors serving the remainder of a three-year term in office may be removed only for cause. It also provides that directors may only be removed, whether for or without cause, upon the affirmative vote of holders of at least 80% of the voting power of all of the then-outstanding shares of stock entitled to vote generally in the election of directors.

No Stockholder Action by Written Consent; Special Meetings. Stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent. Under circumstances described in the Amended and Restated Bylaws, special meetings of stockholders can be called by the Chairman of the Board or by the Board. Stockholders are not permitted to call a special meeting or to require that the Board call a special meeting. Moreover, any special meeting of stockholders is limited to the business in the notice of the special meeting sent to the stockholders before the meeting.

The provisions prohibiting stockholder action by written consent and prohibiting stockholders from calling a special meeting could delay consideration of a stockholder proposal until our next annual meeting. This would prevent the holders of our stock from unilaterally using the written consent procedure to take stockholder action. Moreover, a stockholder cannot force stockholder consideration of a proposal over the opposition of the Chairman and the Board by calling a special meeting of stockholders.

Advance Notice Provisions for Stockholder Nominations and Stockholder Proposals. Only people who are nominated by, or at the direction of, the Board, or by a stockholder who has given proper written notice prior to a meeting at which directors are to be elected, will be eligible for election as directors. Business conducted at an annual meeting is limited to the business brought before the meeting by, or at the direction of, the Chairman, the Board or a stockholder who has given proper notice. A stockholder's notice to us proposing to nominate a person

Table of Contents

for election as a director must also contain certain information described in the Amended and Restated Bylaws. You should refer to our Amended and Restated Bylaws for more information, including the process and timing requirements for a stockholder notice.

Some of the effects of the provisions described above and in the Amended and Restated Bylaws include:

the Board will have a longer period to consider the qualifications of the proposed nominees and, if deemed necessary or desirable, to inform stockholders about the qualifications;

there will be an orderly procedure for conducting annual meetings of stockholders and informing stockholders, prior to the meetings, of any business proposed to be conducted at the meetings, including any Board recommendations; and

contests for the election of directors or the consideration of stockholder proposals will be precluded if the procedures are not followed. Third parties may therefore be discouraged from conducting a solicitation of proxies to elect their own slate of directors or to approve their own proposal.

Business Combinations. Certain mergers, share exchanges or sales of our assets with or to interested stockholders, as defined below, must be approved by the affirmative vote of the holders of at least 75% of our voting stock, voting together as a single class, including 75% of our voting stock not owned directly or indirectly by any interested stockholder or any affiliate of any interested stockholder. Our Restated Certificate of Incorporation requires this affirmative vote even if no vote is required, or a lesser percentage is specified, by law or any national securities exchange or otherwise. This affirmative vote is not required in two situations. First, it is not required if the business combination has been approved by a majority of uninterested, continuing directors. Second, it is not required if certain price and procedure requirements designed to ensure that our stockholders receive a fair price for their common stock are satisfied. Our Restated Certificate of Incorporation defines an interested stockholder as any person, other than us or any of our subsidiaries, who or which:

itself or along with its affiliates beneficially owns, directly or indirectly, more than 5% of the then outstanding voting stock;

is an affiliate of us and at any time within the two-year period immediately prior to the date in question itself or along with its affiliates beneficially owned, directly or indirectly, 5% or more of the then-outstanding voting stock; or

owns any shares of voting stock which were at any time within the two-year period immediately prior to the date in question beneficially owned by any interested stockholder, if the transfer of ownership occurred in the course of a non-public transaction or series of non-public transactions.

Liability of Directors; Indemnification. A director generally will not be personally liable for monetary damages to us or our stockholders for breach of fiduciary duty as a director. A director may be held liable, however, for the following:

any breach of the director's duty of loyalty to us or our stockholders;

acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;

paying a dividend or approving a stock repurchase in violation of Delaware law; or

Edgar Filing: CAPITAL ONE FINANCIAL CORP - Form 424B5

any transaction from which the director derived an improper personal benefit.

We indemnify our officers and directors against lawsuits by third parties to the fullest extent of the law. We may agree with any person to provide an indemnification greater than or different from the indemnification provided by the Restated Certificate of Incorporation.

Amendments. The Restated Certificate of Incorporation generally may be amended with a majority vote of the stockholders, but some provisions, including some of the provisions discussed above, can only be amended with an affirmative vote of the holders at least 80% of the then-outstanding voting stock. The Amended and

Table of Contents

Restated Bylaws generally may be amended by the Board or by the stockholders; provided that in the case of amendments by the stockholders the affirmative vote of at least 80% of the then outstanding voting stock is required. These 80% vote requirements prevent a stockholder with only a majority of the common stock from circumventing the requirements of the Amended and Restated Bylaws or certain provisions of the Restated Certificate of Incorporation by simply amending or repealing them.

Anti-Takeover Legislation

We are a Delaware corporation and are governed by Section 203 of the Delaware General Corporation Law. This provision generally states that, subject to some exceptions, a corporation cannot engage in any business combination with any interested stockholder for three years after the time that the stockholder became an interested stockholder unless the business combination is approved by the board of directors and authorized by the affirmative vote of at least 66-2/3% of the outstanding voting stock of the corporation which is not owned by the interested stockholder. Delaware law defines an interested stockholder to include any person, and its affiliates and associates, that owns 15% or more of the outstanding voting stock of the corporation, or that is an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the relevant date.

Although stockholders may elect to exclude a corporation from Section 203's restrictions, our Restated Certificate of Incorporation and Amended and Restated Bylaws do not exclude us from Section 203's restrictions. The provisions of Section 203 may encourage companies interested in acquiring us to negotiate in advance with the Board, since Section 203 does not require stockholder approval for a corporation to engage in any business combination with any interested stockholder, if the board of directors prior to the time that such stockholder became an interested stockholder approved either the business combination or the transaction in which the stockholder became an interested stockholder. Business combinations are discussed more fully above.

Dividend Reinvestment Plan

Our dividend reinvestment and stock purchase plan (as amended and supplemented, the DRIP Program) provides stockholders with the opportunity to purchase additional shares of our common stock by reinvesting all or a portion of their dividends on shares of common stock. It also provides existing stockholders with the option to make cash investments monthly, subject to a minimum monthly limit of \$50 and a maximum monthly limit of \$10,000. Optional cash investments in excess of \$10,000 may be made only with our express permission, and, in our sole discretion, we may grant a discount for such optional cash investments (from 0% to 5%). We use proceeds from the DRIP Program for general corporate purposes.

Transfer Agent

The transfer agent and registrar for the common stock is Computershare Trust Company, N.A.

Each unit may also include debt obligations or other securities of third parties not affiliated with us, such as U.S. Treasury securities. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The applicable unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or any time before a specified date.

BOOK-ENTRY PROCEDURES AND SETTLEMENT

Unless we indicate otherwise in the applicable prospectus supplement, the debt securities, common stock, preferred stock or other securities described herein, which we refer to collectively as the securities, will be book-entry securities. All book-entry securities of the same issue initially will be represented by one or more fully registered global securities. Each global security will be deposited upon issuance with, or on behalf of, The Depository Trust Company, as depository (DTC), and will be registered in the name of DTC or a nominee of DTC, in each case for credit to an account of a direct or indirect participant in DTC as described below. DTC will thus be the only registered holder of the securities and will be considered the sole owner of the securities for purposes of any indenture, warrant agreement, unit agreement, purchase contract, or similar agreement governing the terms of such securities, as applicable, which we refer to as a governing agreement.

Global securities may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global securities may be held through the Euroclear System, or Euroclear, and Clearstream Banking, S.A., or Clearstream, each as indirect participants in DTC. Transfers of beneficial interests in the global securities will be subject to the applicable rules and procedures of DTC and its direct and indirect participants, including, if applicable, those of Euroclear and Clearstream, which may change from time to time. DTC has advised us as follows: it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for securities that its participants deposit with it. DTC also facilitates the post-trade settlement among participants of sales and other securities transactions in deposited securities through electronic computerized book entry transfers and pledges between participants accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants in DTC s system include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to DTC s system also is available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which we collectively call indirect participants. Persons that are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the participants and the indirect participants. The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission. More information about DTC can be found at <http://www.dtcc.com/> and <http://www.dtc.org/>.

DTC has also advised us that, upon the issuance of a global security evidencing any securities, it will credit, on its book-entry registration and transfer system, the respective principal or face amounts of the securities evidenced thereby to the designated accounts of participants. Ownership of beneficial interests in the global securities will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the global securities will be shown on, and the transfer of those ownership interests may be effected only through, records maintained by DTC or its nominee (with respect to participants) and the records of participants and indirect participants (with respect to other owners of beneficial interests in the global securities).

Investors in the global securities that are participants may hold their interests therein directly through DTC. Investors in the global securities that are not participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) that are participants in such system. Euroclear and Clearstream will hold interests in the global securities on behalf of their participants through customers securities accounts in their respective names on the books of their respective depositories. All interests in a global security, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

Table of Contents

The laws of some states require that certain purchasers of securities take physical delivery of those securities in definitive form. These laws may impair the ability of holders to transfer beneficial interests in global securities to certain purchasers. Because DTC can act only on behalf of the participants, which in turn act on behalf of the indirect participants, the ability of a person having beneficial interests in a global security to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

So long as DTC or any successor depository for a global security, or any nominee, is the registered holder of such global security, DTC or such successor depository or nominee will be considered the sole owner or holder of the securities represented by such global security for all purposes under the governing agreement applicable to that global security. Except as set forth below, owners of beneficial interests in a global security will not be entitled to have the securities represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of such securities in definitive form, and will not be considered the owners or holders thereof for any purpose under the governing agreement applicable to that global security. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder of securities under the governing agreement applicable to that global security. We understand that, under existing industry practices, in the event that we request any action of holders or that an owner of a beneficial interest in a global security desires to give any consent or take any action under the governing agreement applicable to that global security, DTC or any successor depository would authorize the participants holding the relevant beneficial interests to give or take such action or consent, and such participants would authorize beneficial owners owning through such participants to give or take such action or consent or would otherwise act upon the instructions of beneficial owners owning through them.

Unless we indicate otherwise in the applicable prospectus supplement, any payments due with respect to any securities (including payments of principal and interest with respect to debt securities and dividends with respect to equity securities) that are registered in the name of or held by DTC or any successor depository or nominee will be payable to DTC or such successor depository or nominee, as the case may be, in its capacity as registered holder of the global securities representing the securities. Neither we, nor any trustee, registrar, paying agent or other agent in respect of the securities, nor any other agent of us or any such person will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the global securities, for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

We have been advised by DTC that its current practice, upon receipt of any payment in respect of a global security, is to credit participants accounts with payments on the payment date, unless DTC has reason to believe it will not receive payments on such payment date. Each relevant participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal or face amount of the relevant security as shown on the records of DTC. Payments by participants and indirect participants to owners of beneficial interests in a global security held through such participants and indirect participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participants or indirect participants, and will not be the responsibility of us, any trustee, registrar, paying agent or other agent in respect of the securities, nor any agent of us or of any such person. Neither we nor any such person or agent will be liable for any delay by DTC or by any participant or indirect participant in identifying the beneficial owners of the securities, and we and any such person or agent may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Crossmarket transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its depository; however, such cross-market transactions will

Table of Contents

require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global security in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream. DTC has advised us that it will take any action permitted to be taken by a holder of securities only at the direction of one or more participants to whose account DTC has credited the interests in the applicable global security and only in respect of such portion of the aggregate principal or face amount of the securities as to which such participant or participants has or have given such direction.

Except as provided in the applicable prospectus supplement, owners of beneficial interests in a global security will not be entitled to receive physical delivery of the related securities in certificated form and will not be considered the holders of the related securities for any purpose under the governing agreement applicable to that global security, and no global security will be exchangeable, except for another global security of the same denomination and tenor to be registered in the name of DTC or a successor depository or nominee. Accordingly, each beneficial owner must rely on the procedures of DTC and, if the beneficial owner is not a participant, on the procedures of the participant or indirect participant through which the beneficial owner owns its interest to exercise any rights of a holder under the applicable governing agreement. However, if there is an event of default under any applicable governing agreement, DTC reserves the right to exchange the relevant global securities for securities in certificated form, and to distribute such securities to the participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global securities among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we, nor any indenture trustee, nor any agent of us or of any such person will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section, including any description of the operations and procedures of DTC, Euroclear and Clearstream, has been provided solely as a matter of convenience. We do not take any responsibility for the accuracy of this information, and this information is not intended to serve as a representation, warranty or contract modification of any kind. The operations and procedures of DTC, Euroclear and Clearstream are solely within the control of such settlement systems and are subject to changes by them. We urge investors to contact such systems or their participants directly to discuss these matters.
