## WisdomTree Brazil Bond Fund

### Fund Summary

#### Investment Objective

The WisdomTree Brazil Bond Fund (the Fund) seeks a high level of total return consisting of both income and capital appreciation.

#### Fees and Expenses of the Fund

This table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund's average net assets.

<b>Shareholder Fees</b> (fees paid directly from your investment)	None
<b>Annual Fund Operating Expenses</b> (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	%
Distribution and/or Service (12b-1) Fees	None
Other Expenses*	0.00%
<b>Total Annual Fund Operating Expenses</b>	%

\* Other Expenses are based on estimated amounts for the current fiscal year.

#### Example

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such investors would incur over various periods if they invest \$10,000 in the Fund for the time periods indicated and then redeem all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years
	\$	\$

Investors may pay brokerage commissions on their purchases and sales of Fund shares, which are not reflected in the example.

#### Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or turns over its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. Because the Fund is newly-organized, portfolio turnover information is not yet available.

#### Principal Investment Strategies of the Fund

The Fund seeks to achieve its investment objective by investing in debt securities issued by the Brazilian government, quasi-sovereigns and corporations that are organized in or maintain their principal place of business in Brazil and other instruments designed to provide similar exposure. Under normal circumstances, the Fund will invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in Fixed Income Securities. For these purposes, Fixed Income Securities include debt instruments, such as bonds, notes, money market securities, and other debt obligations (such as loan participation notes) issued by the Brazilian government, quasi-sovereigns, and corporations that are organized in or have their principal place of business in Brazil, as well as certain derivatives described herein. The Fixed Income Securities in which this Fund invests may be denominated in local currency (i.e., Brazilian real) or U.S. dollars. The Fund is an actively managed exchange-traded fund (ETF).

## Edgar Filing: WisdomTree Trust - Form 485APOS

The Fund is designed to provide broad economic exposure to the Brazilian government and corporate bonds and invests in a range of instruments with varying credit risk and duration. The Fund intends to invest in bonds and other debt instruments issued by the government of Brazil and its agencies and instrumentalities as well as bonds and other debt instruments issued by corporations organized in Brazil. The Fund also may invest in Fixed Income Securities denominated in Brazilian real and issued by supranational organizations such as the European Investment Bank, International Bank for Reconstruction and Development or International Finance Corporation, and development agencies supported by other national governments. The Fund may also invest in inflation-linked debt securities denominated in Brazilian real. The Fund intends to invest a

WisdomTree Trust Prospectus **1**

portion of its assets in Brazilian government and corporate bonds denominated in U.S. dollars. The Fund may also combine these investments with forward currency contracts and swaps to gain exposure to the Brazilian real.

In order to provide broad-based economic exposure to the Brazilian bond market, the Fund will invest in both investment grade and non-investment grade securities. Securities rated investment grade generally are considered to be of higher credit quality and subject to lower default risk. Although securities rated below investment grade (commonly referred to as junk bonds) may offer the potential for higher yields, they generally are subject to higher potential risk of loss.

The Fund attempts to limit interest rate risk by maintaining an aggregate portfolio duration of between two and ten years under normal market conditions. Aggregate portfolio duration is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with higher durations generally are subject to greater interest rate risk. For example, the value of a fund with a portfolio duration of ten years would be expected to drop by 10% for every 1% increase in interest rates. The Fund's actual portfolio duration may be longer or shorter depending upon market conditions.

The Fund may invest up to 30% of its net assets in derivatives, such as swaps and forward currency contracts. The Fund's use of derivatives will be underpinned by investments in cash or other liquid assets (typically short-term, high-quality money market securities). To the extent practicable, the Fund will invest in swaps cleared through the facilities of a centralized clearing house. The Fund also may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A swap is an agreement between two parties to exchange payments based on a reference asset, which may be a currency or interest rate but also may be a single asset, a pool of assets or an index of assets. Swap transactions may be settled in U.S. dollars or Brazilian real. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. The Fund may also combine positions in corporate, quasi-sovereign and government securities denominated in U.S. dollars with forward currency contracts providing exposure to the Brazilian real to create local currency bond exposure. A repurchase agreement is a transaction in which the Fund purchases securities or other obligations from a bank or securities dealer and simultaneously agrees to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations.

The decision to secure exposure through direct investment in bonds or indirectly through derivative transactions will be a function of, among other things, market accessibility, credit exposure, tax ramifications and regulatory requirements applicable to U.S. investment companies. If, subsequent to an investment, the Fund's 80% requirement is no longer met, the Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy. The Trust will provide shareholders with sixty (60) days' prior notice of any change to this policy for the Fund.

### Principal Risks of Investing in the Fund

You can lose money on your investment in the Fund. The Fund is subject to the risks described below. Some or all of these risks may adversely affect the Fund's net asset value per share (NAV), trading price, yield, total return and/or ability to meet its objective. For more information about the risks of investing in the Fund, see the section in the Fund's prospectus titled "Additional Risk Information About the Fund."

- n **Investment Risk.** As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or even long periods of time.
- n **Market Risk.** The trading prices of fixed income securities, currencies, and other instruments fluctuate in response to a variety of factors. The Fund's NAV and market price may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.
- n **Shares of the Fund May Trade at Prices Other Than NAV.** Although it is expected that the market price of the shares of the Fund will approximate the Fund's NAV when purchased and sold in the secondary market, there may be times when the market price of the shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount). This risk is heightened in times of market volatility or periods of steep market declines.
- n **Capital Controls Risk.** Economic conditions, such as volatile currency exchange rates and interest rates, political events and other conditions may, without prior warning, lead to government intervention and the imposition of capital controls. Capital controls may impact the ability of

## Edgar Filing: WisdomTree Trust - Form 485APOS

the Fund to buy, sell or otherwise transfer securities or currency, may adversely affect the trading market and price for shares of the Fund, and may cause the Fund to decline in value.

- n **Cash Redemption Risk.** Similar to many foreign bond ETFs, the Fund's investment strategy might require it to effect redemptions, in whole or in part, for cash, triggering security sales. The sale of non-U.S. denominated securities can generate realized foreign exchange losses which could impact the income distributions paid by the Fund. Additionally, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used exclusively.

2 WisdomTree Trust Prospectus

- n **Counterparty and Issuer Credit Risk.** The financial condition of an issuer of a debt security or other instrument or a counterparty to a derivative or other contract may cause such issuer or counterparty to default become unable to pay interest or principal due or otherwise fail to honor its obligations. While the Fund attempts to limit credit and counterparty exposure in a manner consistent with its investment objective, the value of an investment in the Fund may change quickly and without warning in response to issuer or counterparty defaults and changes in the credit ratings of the Fund's portfolio investments.
  
- n **Currency Exchange Rate Risk.** The Fund invests a significant portion of its assets in investments denominated in Brazilian real, or in securities that provide exposure to Brazilian real, or interest rates denominated in Brazilian real. Changes in currency exchange rates and the relative value of the Brazilian real will affect the value of the Fund's investment and the value of your Fund shares. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.
  
- n **Derivatives Investment Risk.** The Fund may invest in derivatives. Derivatives are subject to a number of risks described elsewhere in the Fund's Prospectus, such as credit risk, interest rate risk, and market risk. They also involve the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. The counterparty to a derivative contract might default on its obligations. Derivatives can be volatile and may be less liquid than other securities. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.
  
- n **Emerging Markets Risk.** Investments in securities and instruments traded in developing or emerging markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, or regulatory conditions not associated with investments in U.S. securities and instruments or investments in more developed international markets. For example, developing or emerging market governments may, without prior warning, impose capital controls on the ability to transfer currency, securities or other assets. The Fund's ability to access certain developing or emerging markets also may be limited due to a variety of factors, including currency convertibility issues. Such conditions may impact the ability of the Fund to buy, sell or otherwise transfer securities, cause the Fund's returns to differ from those available to domestic investors, adversely affect the trading market and price for Fund shares, and cause the Fund to decline in value.
  
- n **Financial Sector Risk.** The Fund may invest in bonds issued by companies in the financial sector, and therefore the performance of the Fund could be negatively impacted by events affecting this sector. This sector can be significantly affected by changes in interest rates, government regulation, the rate of defaults on corporate, consumer and government debt, the availability and cost of capital, and fallout from the housing and sub-prime mortgage crisis.
  
- n **Foreign Securities Risk.** The Fund invests a significant portion of its assets in non-U.S. securities and instruments, or in securities that provide exposure to such securities and instruments. Investments in non-U.S. securities and instruments involve certain risks that may not be present with investments in U.S. securities, including the risk of loss due to foreign currency fluctuations or to political or economic instability.
  
- n **Geographic Concentration in Brazil.** Because the Fund concentrates its investments in Brazil, the Fund's performance is expected to be closely tied to social, political, and economic conditions within Brazil and to be more volatile than the performance of more geographically diversified funds. The Brazilian economy is sensitive to fluctuations in commodity prices and commodity markets. Additionally, the Brazilian economy generally has experienced and may continue to experience high inflation rates. While the Brazilian economy has experienced growth in recent years, there is no guarantee that this growth will continue. These and other factors could have a negative impact on the Fund's performance and increase the volatility of an investment in the Fund.
  
- n **High Yield Securities Risk.** Higher yielding, high risk debt securities, sometimes referred to as "junk bonds", may present additional risk because these securities may be less liquid and present more credit risk than investment grade bonds. The price of high yield securities tends to be more susceptible to issuer-specific operating results and outlook and to real or perceived adverse economic and competitive industry conditions.

## Edgar Filing: WisdomTree Trust - Form 485APOS

- n **Interest Rate Risk.** Interest rate risk is the risk that fixed income securities will decline in value because of increases in interest rates and other factors, such as perception of an issuer's creditworthiness.
  
- n **Issuer-Specific Risk.** Issuer-specific events, including changes in the financial condition of an issuer, can have a negative impact on the value of the Fund.
  
- n **Management Risk.** The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Fund will achieve its investment objective.

- n **Non-Diversification Risk.** The Fund is considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. To the extent the Fund invests a significant percentage of its assets in a limited number of issuers, the Fund is subject to the risks of investing in those few issuers, and may be more susceptible to a single adverse economic or regulatory occurrence. As a result, changes in the market value of a single security could cause greater fluctuations in the value of Fund shares than would occur in a diversified fund.
- n **Offshore Investor Risk.** The opportunity for offshore investors to access certain markets in Brazil can be limited due to a variety of factors including government regulations, adverse tax treatment, and currency convertibility issues. These limitations and restrictions may negatively impact returns achieved by offshore investors, such as the Fund, could differ from those available to domestic investors in Brazil.
- n **Repurchase Agreement Risk.** The Fund's investment in repurchase agreements may be subject to market and credit risk with respect to the collateral securing the repurchase agreements. Investments in repurchase agreements also may be subject to the risk that the market value of the underlying obligations may decline prior to the expiration of the repurchase agreement term.
- n **Sovereign Debt Risk.** Bonds issued by emerging market governments, sometimes referred to as sovereign debt present risks not associated with investments in other types of bonds. The government or agency issuing the debt may be unable or unwilling to make interest payments and/or repay the principal owed. In such instance, the Fund may have limited recourse against the issuing government or agency. In the past, governments of emerging market countries have refused to honor their payment obligations on issued bonds.

#### **Fund Performance**

The Fund is new and therefore does not have a performance history.

#### **Management**

##### **Investment Adviser and Sub-Adviser**

WisdomTree Asset Management, Inc. serves as investment adviser to the Fund.

\_\_\_\_\_ serves as sub-adviser to the Fund.

##### **Portfolio Managers**

\_\_\_\_\_, has been a portfolio manager of the Fund since its inception.

\_\_\_\_\_, has been a portfolio manager of the Fund since its inception.

\_\_\_\_\_, has been a portfolio manager of the Fund since its inception.

##### **Buying and Selling Fund Shares**

The Fund is an ETF. This means that shares of the Fund are listed on a national securities exchange, such as NYSE Arca, Inc. (the Listing Exchange), and trade at market prices. Most investors will buy and sell shares of the Fund through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV (premium) or less than NAV (discount).

The Fund issues and redeems shares at NAV only in large blocks of shares (Creation Units) which only institutions or large investors may purchase or redeem. Currently, Creation Units generally consist of 100,000 shares, although this may change from time to time. The Fund generally issues and redeems Creation Units in exchange for a portfolio of fixed income securities closely approximating the holdings of the Fund or a designated basket of non-U.S. currency and/or an amount of U.S. cash.

##### **Tax Information**

The Fund intends to make distributions that may be taxed as ordinary income or capital gains.

4 WisdomTree Trust Prospectus

---

## Additional Information About the Fund

**Additional Information About the Fund's Investment Objective.** The Fund's investment objective has been adopted as a non-fundamental investment policy and may be changed without a vote of shareholders upon at least 60 days' prior written notice to shareholders.

**Additional Information About the Fund's Investment Strategy.** The Fund intends to provide broad-based economic exposure to Fixed Income Securities issued by governments, quasi-sovereigns and corporations organized in or having their principal place of business in Brazil and, therefore, will invest in both investment grade and non-investment grade securities. The degree of credit risk for a particular security may be reflected in its credit rating. Investment grade debt securities are generally those rated Baa3 or higher by Moody's Investors Service, Inc. (Moody's) or equivalently rated by Standard & Poor's Corporation (S&P) or Fitch, and typically subject to less credit risk than non-investment grade debt securities. The Fund generally expects to have 65% or more of its assets invested in investment grade securities and not more than 35% of its assets invested in non-investment grade securities. This may change from time to time based on market conditions and the condition of specific issuers and securities. Within the non-investment grade category, some issuers and instruments are considered to be of lower credit quality and at higher risk of default (commonly referred to as "junk bonds"). Although these instruments offer the potential for higher yields, they are considered speculative and generally are subject to a higher potential risk of loss. For these purposes, speculative securities are securities rated B1 or lower by Moody's, or equivalently rated by S&P or Fitch, or if unrated, determined by WisdomTree Asset Management, Inc. (WisdomTree Asset Management) and the Sub-Adviser to be of comparable quality. The Fund will limit its exposure to speculative issuers and securities to no more than 15% of its assets. However, this may change from time to time based on market conditions and the condition of specific issuers and securities.

The Fund may invest up to 30% of its net assets in derivatives, such as swaps and forward currency contracts. The Fund may invest in a variety of swap agreements, including, for example, interest rate swaps and total return swaps. A swap is an agreement between two parties to exchange payments based on a reference asset, which may be a currency or interest rate, but also may be a single asset, a pool of assets or an index of assets. An interest rate swap is an agreement between two parties involving the exchange of a floating rate interest rate payment for a fixed interest rate payment. A total return swap is an agreement between two parties in which one party pays a set rate in exchange for the total return of an underlying reference, typically an equity index, loans or bonds. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract.

The Fund may invest in futures contracts and credit-linked notes. A futures contract may generally be described as an agreement for the future sale by one party and the purchase by another of a specified security or instrument at a specified price and time. The Fund intends to invest in interest rate futures contracts listed for trading on exchanges in the U.S. or Brazil. A credit-linked note is a type of structured note whose value is linked to an underlying reference asset or entity. A credit-linked note is a type of structured note whose value is linked to an underlying reference asset that typically provides periodic payments of interest as well as payment of principal upon maturity. The Fund's use of derivatives (other than credit-linked notes) will be underpinned by investments in cash or other liquid assets (typically short-term, high-quality money market securities). The Fund also may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks.

The Fund may also invest in loan participation notes. A loan participation note is a type of short-term debt instrument. They typically are issued by an offshore special purpose vehicle for the purpose of funding a loan by the special purpose vehicle to an offshore corporation or other entity. Loan participation notes are sometimes used by companies in non-U.S. markets to raise money because tax regulations or other laws make it difficult or expensive for such companies to issue debt directly into the global bond market. If the company fails to repay the loan received from the special purpose vehicle, the special purpose vehicle generally will not be able to honor its obligation to repay the notes.

**Temporary Defensive Strategies.** The Fund reserves the right to invest in U.S. government securities, money market instruments, and cash, without limitation, as determined by the Adviser or Sub-Adviser in response to adverse market, economic, political, or other conditions. The Fund also may hedge or minimize its exposure to the Brazilian real in response to such conditions. In the event that the Fund engages in temporary defensive strategies that are inconsistent with its investment strategies, the Fund's ability to achieve its investment objective may be limited.

## Additional Risk Information About the Fund

This section provides additional information regarding the principal risks described under "Principal Risks of Investing in the Fund" in the Fund Summary. Each of the factors below could have a negative impact on Fund performance and trading prices.

### **Capital Controls Risk**

Economic conditions, such as volatile currency exchange rates and interest rates, political events and other conditions may, without prior warning, lead to government intervention and the imposition of capital controls. Capital controls include the prohibition of, or restrictions on, the ability to transfer currency, securities or other assets. Levies may be placed on profits repatriated by foreign entities (such as the Fund). Capital controls may impact the ability of the Fund to buy, sell or otherwise transfer securities or currency, adversely affect the trading market and price for shares of the Fund, and cause the Fund to decline in value.

### **Cash Redemption Risk**

The Fund's investment strategy might require it to effect redemptions, in whole or in part, for cash, triggering security sales. The Fund may be required to sell or unwind portfolio investments in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used exclusively. Additionally, the sale of non-U.S. denominated securities by the Fund triggered by such redemptions may generate realized foreign exchange losses that could impact the income distributions paid by the Fund.

### **Counterparty and Issuer Credit Risk**

The Fund intends to engage in investment transactions or enter into derivative or other contracts with third parties (i.e., counterparties). For example, the Fund intends to enter into swap transactions and forward currency contracts. The Fund bears the risk that the counterparty to such contracts may default on its obligations or otherwise fail to honor its obligations. If a counterparty defaults on its payment obligations the Fund will lose money and the value of an investment in Fund shares may decrease. In addition, the Fund may engage in such investment transactions with a limited number of counterparties, which may increase the Fund's exposure to counterparty credit risk.

The financial condition of an issuer of a debt security or other issuer may cause it to default or become unable to pay interest or principal due on the security. The Fund cannot collect interest and principal payments on a security if the issuer defaults. Recent events in the financial sector have resulted in increased concerns about credit risk and exposure. Well-known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt. The degree of credit risk for a particular debt security or other issuer may be reflected in its credit rating. A credit rating is a measure of a bond issuer's ability to make timely payments of interest and principal. Rating agencies (such as Moody's, S&P, or Fitch) assign letter designations typically ranging from AAA to A- (lower default risk) through CCC to C (higher default risk) or D (in default). A credit rating of BBB or higher generally is considered investment grade. Credit ratings are subjective, do not remove market risk and represent the opinions of the rating agencies as to the quality of the securities they rate. Credit ratings can change quickly and may not accurately reflect the risk of an issuer. Generally, investment risk and price volatility increase as the credit rating of a security declines. The value of securities of smaller, less well-known issuers can be more volatile than that of larger issuers. While the Fund attempts to limit credit exposure in a manner consistent with its investment objective, the value of an investment in the Fund may change quickly and without warning in response to issuer defaults and changes in the credit ratings of the Fund's portfolio investments.

### **Currency Exchange Rate Risk**

The Fund invests a significant portion of its assets in investments denominated in Brazilian real, or in securities that provide exposure to Brazilian real or interest rates denominated in Brazilian real. Changes in currency exchange rates and the relative value of the real against the U.S. dollar will affect the value of the Fund's investment and the value of your Fund shares. Because the Fund's NAV is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the real depreciates against the U.S. dollar. This is true even if the value of the Fund's holdings goes up. Conversely, the dollar value of your investment in the Fund may go up if the value of the real appreciates against the U.S. dollar.

The value of the U.S. dollar measured against other currencies is influenced by a variety of factors. These factors include: interest rates, national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange rates. Currency exchange rates can be very volatile and can change quickly and unpredictably. Therefore, the value of an investment in the Fund may also go up or down quickly and unpredictably and investors may lose money.

### **Derivatives Investment Risk**

## Edgar Filing: WisdomTree Trust - Form 485APOS

The Fund may invest in derivatives. Derivatives are financial instruments that derive their performance from an underlying asset, index, interest rate or currency exchange rate, such as credit default swaps, total return swaps and forward currency

6 WisdomTree Trust Prospectus

contracts. A credit default swap is an agreement between two parties in which one party makes a series of payments to the other party and, in exchange, receives a payoff in the event the loan defaults. A total return swap is an agreement between two parties in which one party pays a set rate in exchange for the total return of an underlying reference, typically an equity index, loans or bonds. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract.

Derivatives are subject to a number of risks described elsewhere in this Prospectus, such as interest rate risk, market risk, and credit risk. They also involve the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index, or that the counterparty to a derivative contract might default on its obligations. Derivatives can be volatile and may be less liquid than other securities. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

### **Emerging Markets Risk**

Investments in securities and instruments traded in developing or emerging markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, or regulatory conditions not associated with investments in U.S. securities and instruments. For example, developing and emerging markets may be subject to (i) greater market volatility, (ii) lower trading volume and liquidity, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) lower disclosure, corporate governance, auditing and financial reporting standards, (vi) fewer protections of property rights, (vii) restrictions on the transfer of securities or currency, and (viii) settlement and trading practices that differ from those in U.S. markets. Each of these factors may impact the ability of the Fund to buy, sell or otherwise transfer securities, adversely affect the trading market and price for Fund shares and cause the Fund to decline in value.

### **Financial Sector Risk**

The financial sector can be significantly affected by changes in interest rates, government regulation, the rate of defaults on corporate, consumer and government debt, the availability and cost of capital, and fallout from the housing and sub-prime mortgage crisis. These factors and events have had, and may continue to have, a significant negative impact on the value of bonds issued by companies in this sector and have increased the volatility of investments in this sector.

### **Foreign Securities Risk**

Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than a U.S. issuer. Non-U.S. issuers may be subject to different accounting, auditing, financial reporting and investor protection standards than U.S. issuers. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. With respect to certain countries, there is the possibility of government intervention and expropriation or nationalization of assets. Because legal systems differ, there is also the possibility that it will be difficult to obtain or enforce legal judgments in certain countries. Since foreign exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely, Fund shares may trade on days when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments.

### **Geographic Concentration in Brazil**

The Fund may invest in Fixed Income Securities and other instruments issued by governments and corporations that are tied economically to Brazil and are denominated in Brazilian real or U.S. dollars. Investing in Brazil involves certain considerations not typically associated with investing in securities of U.S. companies or the U.S. government, including: (i) investment and repatriation controls, which could affect a Fund's ability to operate, and to qualify for the favorable tax treatment afforded to regulated investment companies for U.S. federal income tax purposes, (ii) fluctuations in the rate of exchange between the Brazilian real and the U.S. dollar, (iii) the generally greater price volatility and lesser liquidity that characterize Brazilian securities markets, as compared with U.S. markets, (iv) the effect that a trade deficit could have on economic stability and the Brazilian government's economic policy, (v) high rates of inflation, (vi) governmental involvement in and influence on the private sector, (vii) Brazilian accounting, auditing and financial standards and requirements, which differ from those in the United States, and (viii) political and other considerations, including changes in applicable Brazilian tax laws. These and other factors could have a negative impact on a Fund's performance.

### **High Yield Securities Risk**

The Fund may invest a limited portion of its assets in securities rated lower than Baa3 by Moody's, or equivalently rated by S&P or Fitch. Such securities are sometimes referred to as high yield securities or junk bonds. Investing in these securities

involves special risks in addition to the risks associated with investments in higher-rated fixed income securities. While offering a greater potential for capital appreciation and higher yields, high yield securities typically entail higher price volatility and may be less liquid than securities with higher ratings. High yield securities may be regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. Issuers of securities in default may fail to resume principal or interest payments, in which case the Fund may lose its entire investment.

#### **Interest Rate Risk**

The market value of fixed income securities, and financial instruments related to fixed income securities, will change in response to changes in interest rates and may change in response to other factors, such as perception of an issuer's creditworthiness. As interest rates rise, the value of certain fixed income securities is likely to decrease. Similarly, if interest rates decline, the value of fixed income securities is likely to increase. While securities with longer maturities tend to produce higher yields, the prices of longer maturity securities tend to be more sensitive to changes in interest rates and thus subject to greater volatility than securities with shorter maturities. The average portfolio maturity of a Fund is the average of all the current maturities of the individual securities in the Fund's portfolio. Average portfolio maturity is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with longer portfolio maturities generally are subject to greater interest rate risk.

#### **Investment Risk**

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or even long periods of time. An investment in the Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

#### **Issuer-Specific Risk**

Changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect a security's or instrument's value. The value of securities of smaller, less well-known issuers can be more volatile than that of larger issuers. Issuer-specific events can have a negative impact on the value of the Fund.

#### **Management Risk**

The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will produce the intended results and no guarantee that the Fund will achieve its investment objective or outperform other investment strategies over the short- or long-term market cycles.

#### **Market Risk**

The trading prices of fixed income securities, currencies, and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, as well as events that impact specific issuers. The Fund's NAV and market price, like security and commodity prices generally, may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.

#### **Non-Diversification Risk**

Although the Fund intends to invest in a variety of securities and instruments, the Fund will be considered to be non-diversified. This means that the Fund may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Fund's volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund's performance.

#### **Offshore Investor Risk**

The opportunity for offshore investors to access certain markets in Brazil can be limited due to a variety of factors including government regulations, adverse tax treatment, and currency convertibility issues. These limitations and restrictions may negatively impact the availability, liquidity and pricing of securities designed to provide offshore investors with exposure to such markets. As a result, returns achieved by offshore investors, such as the Fund, could differ from those available to domestic investors in Brazil.

**Repurchase Agreement Risk**

The Fund will enter into repurchase agreements only with counterparties that are deemed to present acceptable credit risks, and the collateral securing the repurchase agreements generally will be limited to U.S. government securities and cash. If the

**8** WisdomTree Trust Prospectus

market value of the underlying obligations of a repurchase agreement declines, the counterparty must provide additional collateral so that at all times the value of the collateral is greater than the repurchase price of the underlying obligations. Nonetheless, should a counterparty become insolvent or otherwise default, there could be a delay before the Fund is able to liquidate the collateral, which would subject the collateral and the Fund to market risk during that period.

### **Sovereign Debt Risk**

The Fund's investment in sovereign debt, which includes securities issued or guaranteed by a foreign sovereign government, presents risks not associated with investments in other types of bonds. The issuer of the sovereign debt that controls the repayment of the debt may be unable or unwilling to repay principal or interest payments when due, and the Funds may have limited recourse against the issuing government or agency in the event of a default. During periods of economic uncertainty, the market prices of sovereign debt, and a Fund's NAV, may be more volatile than prices of U.S. bonds. In the past, governments of certain emerging market countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest, refused to honor their payment obligations on their sovereign debt, and restructured their indebtedness. The restructuring of sovereign debt may involve obtaining additional credit to finance outstanding obligations and the reduction or rescheduling of payments of interest and principal. As a holder of such sovereign debt, the Fund may be asked to participate in the restructuring of such sovereign indebtedness. There can be no assurance that such restructurings will result in the full repayment of the issuer's sovereign debt.

### **Shares of the Fund May Trade at Prices Other Than NAV**

As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of the shares of a Fund will approximate the Fund's NAV, there may be times when the market price and the NAV vary significantly. Thus, you may pay more (or less) than NAV intra-day when you buy shares of a Fund in the secondary market, and you may receive more (or less) than NAV when you sell those shares in the secondary market.

### **Portfolio Holdings Information**

Information about the Fund's daily portfolio holdings will be available at [www.wisdomtree.com](http://www.wisdomtree.com). In addition, the Fund will disclose its complete portfolio holdings as of the end of its fiscal year (August 31) and its second fiscal quarter (February 28) in its reports to shareholders. The Fund files its complete portfolio holdings as of the end of its first and third fiscal quarters (November 30 and May 31, respectively) with the SEC on Form N-Q no later than 60 days after the relevant fiscal period. You can find the SEC filings on the SEC's website, [www.sec.gov](http://www.sec.gov). A summarized description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Statement of Additional Information (SAI).

## Management

### Investment Adviser

As investment adviser, WisdomTree Asset Management has overall responsibility for the general management and administration of WisdomTree Trust (the Trust) and each of its separate investment portfolios called Funds. WisdomTree Asset Management is a registered investment adviser with offices located at 380 Madison Avenue, 21st Floor, New York, New York 10017 and is a leader in ETF management. As of [REDACTED], 2013, WisdomTree Asset Management had assets under management totaling approximately \$ billion. WisdomTree Investments, Inc.\* ( WisdomTree Investments ) is the parent company of WisdomTree Asset Management. WisdomTree Asset Management provides an investment program for the Fund. WisdomTree Asset Management also arranges for sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution related services necessary for the Fund to operate. For its services, WisdomTree Asset Management expects to receive fees from the Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Name of Fund	Management Fee
WisdomTree Brazil Bond Fund	[REDACTED]%
<p>Under the Investment Advisory Agreement, WisdomTree Asset Management has agreed to pay all expenses of the Fund, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer ( CCO ); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the Investment Company Act of 1940 (the 1940 Act ); and (viii) the advisory fee payable to WisdomTree Asset Management. Pursuant to a separate contractual arrangement, WisdomTree Asset Management arranges for the provision of CCO services with respect to the Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WisdomTree Asset Management receives a fee of up to 0.0044% of the Fund's average daily net assets for providing such services and paying such expenses. WisdomTree Asset Management provides CCO services to the Trust.</p>	

The basis for the Board of Trustees' approval of the Investment Advisory Agreement will be available in the Trust's Annual Report to Shareholders for the period ended August 31, 2013.

### Sub-Adviser

The sub-adviser to the Fund is [REDACTED] ( [REDACTED] or the Sub-Adviser ), a wholly-owned subsidiary of [REDACTED]. Established in [REDACTED], [REDACTED] has offices located at [REDACTED] and acts as investment adviser to institutional accounts, such as corporate pension plans, mutual funds and endowment funds. As of December 31, 2012, the total assets under management of [REDACTED] and its supervised affiliates, were approximately \$ billion.

WisdomTree Asset Management, as the investment adviser for the Fund, may hire one or more sub-advisers to oversee the day-to-day activities of the Fund. The sub-advisers are subject to oversight by WisdomTree Asset Management. WisdomTree Asset Management and the Trust have received an exemptive order from the SEC that permits WisdomTree Asset Management, with the approval of the Independent Trustees of the Trust, to retain unaffiliated investment sub-advisers for the Fund without submitting the sub-advisory agreement to a vote of the Fund's shareholders. The Trust will notify shareholders in the event of any change in the identity of such sub-adviser or sub-advisers. WisdomTree Asset Management has ultimate responsibility for the investment performance of the Fund due to its responsibility to oversee each sub-adviser and recommend their hiring, termination and replacement. WisdomTree Asset Management is not required to disclose fees paid to any sub-adviser retained pursuant to the order.

### Portfolio Managers

The Sub-Adviser utilizes a broad team of investment professionals to manage the assets of the Fund. In the context of this broader team, senior members of the portfolio management team are responsible for the development of investment strategy and oversight for the Fund and coordination of other relevant investment team members. They work together with the broader [Sub-Adviser] investment team on portfolio structure, duration weighting and term structure decisions.

## Edgar Filing: WisdomTree Trust - Form 485APOS

\* WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

**10** WisdomTree Trust Prospectus

The individual members of the investment team who are primarily responsible for the day-to-day management, oversight and coordination of the Fund's portfolio are listed below.

**[PM bios to be provided by amendment]**

The Fund's SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares in the Funds for which they are Portfolio Managers.

**Additional Information on Buying and Selling Fund Shares**

Most investors will buy and sell shares of the Fund through brokers. Shares of the Fund trade on NYSE Arca, Inc. (the Listing Exchange) and elsewhere during the trading day and can be bought and sold throughout the trading day like other shares of publicly traded securities. When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges. Shares of the Fund trade under the trading symbol listed on the cover of this Prospectus.

**Share Trading Prices**

As with other types of securities, the trading prices of shares in the secondary market can be affected by market forces such as supply and demand, economic conditions and other factors. The price you pay or receive when you buy or sell your shares in the secondary market may be more or less than the NAV of such shares.

The approximate value of shares of the Fund is disseminated every 15 seconds throughout the trading day by the Listing Exchange or by other information providers. This approximate value should not be viewed as a real-time update of the Fund's NAV, because the approximate value may not be calculated in the same manner as the NAV, which is computed once per day. The approximate value generally is determined by using current market quotations, price quotations obtained from broker-dealers that may trade in the portfolio securities and instruments held by the Fund, and/or amortized cost for securities with remaining maturities of 60 days or less. The Fund is not involved in, or responsible for, the calculation or dissemination of the approximate value and makes no warranty as to its accuracy.

**Determination of Net Asset Value**

The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the Listing Exchange, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing the Fund's net assets by the number of Fund shares outstanding.

In calculating its NAV, the Fund generally values its assets on the basis of market quotations, last sale prices, or estimates of value furnished by a pricing service or brokers who make markets in such instruments. Debt obligations with maturities of 60 days or less are valued at amortized cost.

Fair value pricing is used by the Fund when reliable market valuations are not readily available or are not deemed to reflect current market values. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations or whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before the Fund's next NAV calculation time that may materially affect the value of the Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities.

**Dividends and Distributions**

The Fund intends to pay out dividends, if any, on a monthly basis but in any event no less frequently than annually. Nonetheless, the Fund might not make a dividend payment every month. The Fund intends to distribute its net realized capital gains, if any, to investors annually. The Fund occasionally may be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

**Book Entry**

## Edgar Filing: WisdomTree Trust - Form 485APOS

Shares of the Fund are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company ( DTC ) or its nominee is the record owner of all outstanding shares of the Fund.

Investors owning shares of the Fund are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares of the Fund. Participants include DTC, securities brokers and dealers, banks, trust companies, clearing corporations, and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares

registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any securities that you hold in book-entry or street name form. Your broker will provide you with account statements, confirmations of your purchases and sales, and tax information.

### **Delivery of Shareholder Documents    Householding**

Householding is an option available to certain investors of the Fund. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Householding for the Fund is available through certain broker-dealers. If you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, please contact your broker-dealer. If you are currently enrolled in householding and wish to change your householding status, please contact your broker-dealer.

### **Frequent Purchases and Redemptions of Fund Shares**

The Fund has adopted policies and procedures with respect to frequent purchases and redemptions of Creation Units of Fund shares. Since the Fund is an ETF, only a few institutional investors (known as Authorized Participants ) are authorized to purchase and redeem shares directly from the Fund. Because purchase and redemption transactions with Authorized Participants are an essential part of the ETF process and help keep ETF trading prices in line with NAV, the Fund accommodates frequent purchases and redemptions by Authorized Participants. Frequent purchases and redemptions for cash may increase portfolio transaction costs and may lead to the realization of capital gains. Frequent in-kind creations and redemptions do not give rise to these concerns. The Fund reserves the right to reject any purchase order at any time. The Fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading.

### **Investments by Registered Investment Companies**

Section 12(d)(1) of the 1940 Act restricts investments by registered investment companies in the securities of other investment companies, including shares of the Fund. Registered investment companies are permitted to invest in the Fund beyond the limits set forth in section 12(d)(1), subject to certain terms and conditions set forth in an SEC exemptive order issued to the Trust, including that such investment companies enter into an agreement with the Fund.

### **Additional Tax Information**

The following discussion is a summary of some important U.S. federal income tax considerations generally applicable to investments in the Fund. Your investment in the Fund may have other tax implications. Please consult your tax advisor about the tax consequences of an investment in Fund shares, including the possible application of foreign, state, and local tax laws.

The Fund intends to qualify each year for treatment as a regulated investment company. If it meets certain minimum distribution requirements, a regulated investment company is not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, the Fund's failure to qualify as a regulated investment company or to meet minimum distribution requirements would result (if certain relief provisions were not available) in fund-level taxation and, consequently, a reduction in income available for distribution to shareholders.

Unless your investment in Fund shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

- n The Fund makes distributions;
  
- n You sell Fund shares; and
  
- n You purchase or redeem Creation Units (institutional investors only).

### **Taxes on Distributions**

## Edgar Filing: WisdomTree Trust - Form 485APOS

For federal income tax purposes, distributions of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains (if any) are determined by how long the Fund owned the investments that generated them, rather than how long a shareholder has owned his or her Fund shares. Sales of assets held by the Fund for more than one year generally result in long-term capital gains and losses, and sales of assets held by the Fund for one year or less generally result in short-term capital gains and losses. Distributions of the Fund's net capital gain (the excess of net long-term capital gains over net short-term capital losses) that are properly reported by the Fund as capital gain dividends ( Capital Gain Dividends ) will be taxable as long-term capital gains. Distributions of short-term capital gain will be taxable as ordinary income.

In general, your distributions are subject to federal income tax for the year in which they are paid. Certain distributions paid in January, however, may be treated as paid on December 31 of the prior year. Distributions are generally taxable even if they are paid from income or gains earned by the Fund before your investment (and thus were included in the price you paid for your shares).

Dividends and distributions from the Fund will generally be taken into account in determining a shareholder's net investment income for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts for taxable years beginning after December 31, 2012.

Unlike many ETFs, the redemption of shares from the Fund generally incorporates a payment of cash by the Fund in addition to, or in place of, the delivery of a basket of securities. To meet this requirement, the Fund may be required to sell portfolio securities in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize capital gains or losses that it might not have recognized if it had completely satisfied the redemption in-kind. As a result, the Fund may be less tax efficient than if the in-kind redemption process was used.

Distributions (other than Capital Gain Dividends) paid to individual shareholders that are neither citizens nor residents of the U.S. or to foreign entities will generally be subject to a U.S. withholding tax at the rate of 30%, unless a lower treaty rate applies. However, for taxable years beginning before January 1, 2014, distributions reported by the Fund as either interest-related dividends or short-term capital gain dividends and paid to a foreign shareholder will be eligible for an exemption from this withholding tax.

The Fund (or financial intermediaries, such as brokers, through which shareholders own Fund shares) generally are required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and the sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding.

### **Taxes When Fund Shares Are Sold**

Any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if the shares have been held for more than one year. Any capital gain or loss realized upon a sale of Fund shares held for one year or less is generally treated as a short-term gain or loss, except that any capital loss on a sale of shares held for six months or less is treated as long-term capital loss to the extent that Capital Gain Dividends were paid with respect to such shares. The ability to deduct capital losses may be limited depending on your circumstances.

### **Taxes on Creation and Redemption of Creation Units**

An Authorized Participant having the U.S. dollar as its functional currency for U.S. federal tax purposes that exchanges debt securities for Creation Units generally will recognize a gain or loss equal to the difference between (i) the sum of the market value of the Creation Units at the time of the exchange and any amount of cash received by the Authorized Participant in the exchange and (ii) the sum of the exchanger's aggregate basis in the debt securities surrendered and any amount of cash paid for such Creation Units. A person who redeems Creation Units for debt securities will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate U.S. dollar market value of the debt securities plus the amount of any cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss that is realized by an Authorized Participant upon an exchange of debt securities for Creation Units cannot be currently deducted under the rules governing wash sales, or on the basis that there has been no significant change in economic position.

Gain or loss recognized by an Authorized Participant upon an issuance of Creation Units in exchange for non-U.S. currency will generally be treated as ordinary income or loss. Gain or loss recognized by an Authorized Participant upon an issuance of Creation Units in exchange for debt securities, or upon a redemption of Creation Units, may be capital or ordinary gain or loss depending on the circumstances. Any capital gain or loss realized upon an issuance of Creation Units in exchange for debt securities will generally be treated as long-term capital gain or loss if the debt securities have been held for more than one year. Any capital gain or loss realized upon the redemption of a Creation Unit will generally be treated as long-term capital gain or loss if the Fund shares comprising the Creation Unit have been held for more than one year. Otherwise, such capital gains or losses are treated as short-term capital gains or losses.

A person subject to U.S. federal income tax who receives non-U.S. currency upon a redemption of Creation Units and does not immediately convert the non-U.S. currency into U.S. dollars may, upon a later conversion of the non-U.S. currency into U.S. dollars, recognize as ordinary gains or losses any gains or losses resulting from fluctuations in the value of the non-U.S. currency relative to the U.S. dollar since the date of the redemption.

Persons exchanging securities or non-U.S. currency for Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction. If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many Fund shares you purchased or redeemed and at what price.

### **Foreign Investments by the Fund**

## Edgar Filing: WisdomTree Trust - Form 485APOS

Interest and other income received by the Fund with respect to foreign securities may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such

taxes. If as of the close of a taxable year more than 50% of the total assets of the Fund consist of stock or securities of foreign corporations, the Fund intends to pass through to investors the amount of foreign income and similar taxes (including withholding taxes) paid by the Fund during that taxable year. This means that investors will be considered to have received as additional income their respective shares of such foreign taxes, but may be entitled to either a corresponding tax deduction in calculating taxable income, or, subject to certain limitations, a credit in calculating federal income tax.

### **Distribution**

ALPS Distributors, Inc. (the Distributor) serves as the distributor of Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in shares of the Fund. The Distributor's principal address is 1290 Broadway, Suite 1100, Denver, Colorado 80203. The Distributor has no role in determining the policies of the Fund or the securities that are purchased or sold by the Fund.

### **Premium/Discount Information**

Information regarding how often shares of the Fund traded on the Listing Exchange at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund during the past calendar year and most recent calendar quarter can be found at [www.wisdomtree.com](http://www.wisdomtree.com).

### **Additional Notices**

Shares of the Fund are not sponsored, endorsed, or promoted by the Listing Exchange. The Listing Exchange makes no representation or warranty, express or implied, to the owners of the shares of the Fund or any member of the public regarding the performance of the Fund. The Listing Exchange is not responsible for, nor has it participated in, the determination of the timing of, prices of, or quantities of the shares of the Fund to be issued, or in the determination or calculation of the equation by which the shares are redeemable. The Listing Exchange has no obligation or liability to owners of the shares of the Fund in connection with the administration, marketing, or trading of the shares of the Fund. Without limiting any of the foregoing, in no event shall the Listing Exchange have any liability for any lost profits or indirect, punitive, special, or consequential damages even if notified of the possibility thereof.

WisdomTree Investments, WisdomTree Asset Management and the Fund make no representation or warranty, express or implied, to the owners of shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in this Fund particularly. WisdomTree Investments is the licensor of certain trademarks, service marks and trade names of the Fund.

### **Financial Highlights**

Financial information for the Fund will be available after the Fund has completed a fiscal year of operations.

WisdomTree Trust

380 Madison Avenue, 21st Floor

New York, NY 10017

The SAI provides additional detailed information about the Fund. The Trust has electronically filed the SAI with the SEC. The SAI is incorporated by reference in this Prospectus.

Additional information about the Fund's investments will be available in the Fund's annual and semi-annual reports to shareholders. In the annual report you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance after the first fiscal year the Fund is in operation.

To make shareholder inquiries, for more detailed information on the Fund or to request the SAI, or annual or semi-annual shareholder reports (once available) free of charge, please:

**STATEMENT OF ADDITIONAL INFORMATION**

**, 2013**

This Statement of Additional Information ( SAI ) is not a Prospectus. It should be read in conjunction with the current Prospectus ( Prospectus ) for the WisdomTree Brazil Bond Fund (the Fund ), a separate series of WisdomTree Trust (the Trust ), as may be revised from time to time.

The current Prospectus for the Fund is dated , 2013. Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. The Fund's audited financial statements for the most recent fiscal year (when available) are incorporated in this SAI by reference to the Fund's most recent Annual Report to Shareholders (File No. 811-21864). When available, you may obtain a copy of the Fund's Annual Report at no charge by request to the Fund at the address or phone number noted below.

THE SECURITIES AND EXCHANGE COMMISSION ( SEC ) HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS SAI. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

THE INFORMATION HEREIN IS NOT COMPLETE AND MAY BE CHANGED. WE MAY NOT SELL THESE SECURITIES UNTIL THE REGISTRATION STATEMENT FILED WITH THE SEC IS EFFECTIVE. THIS SAI IS NOT AN OFFER TO SELL THESE SECURITIES AND IS NOT SOLICITING AN OFFER TO BUY THESE SECURITIES IN ANY JURISDICTION IN WHICH THE OFFER OR SALE IS NOT PERMITTED.

A copy of the Prospectus for the Fund may be obtained, without charge, by calling 1-866-909-9473, visiting [www.wisdomtree.com](http://www.wisdomtree.com), or writing to WisdomTree Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203.

## GENERAL DESCRIPTION OF THE TRUST AND THE FUND

The Trust was organized as a Delaware statutory trust on December 15, 2005 and is authorized to issue multiple series or portfolios. The Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The offering of the Trust's shares is registered under the Securities Act of 1933, as amended (the "Securities Act").

WisdomTree Asset Management, Inc. ("WisdomTree Asset Management" or the "Adviser") serves as the investment adviser to the Fund. ( ) ( ) or the "Sub-Adviser"), serves as the investment sub-adviser to the Fund. The Adviser and the Sub-Adviser may be referred to together as the "Advisers." ALPS Distributors, Inc. serves as the distributor (the "Distributor") of the shares of the Fund.

The Fund is an actively managed exchange traded fund ("ETF"). The Fund issues and redeems shares at net asset value per share ("NAV") only in large blocks of shares ("Creation Units"). Currently, Creation Units generally consist of 100,000 shares, though this may change from time to time. Creation Units are not expected to consist of less than 50,000 shares. These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of the Fund are not redeemable securities.

Shares of the Fund are listed on a national securities exchange, such as the NYSE Arca, Inc. (the "Listing Exchange"), and trade throughout the day on the Listing Exchange and other secondary markets at market prices that may differ from NAV. As in the case of other publicly traded securities, brokers' commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the prices of shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

WisdomTree is a registered mark of WisdomTree Investments, Inc. and has been licensed for use by the Trust.

## INVESTMENT STRATEGIES AND RISKS

The Fund's investment objective, principal investment strategies and associated risks are described in the Fund's Prospectus. The sections below supplement these principal investment strategies and risks and describe the Fund's additional investment policies and the different types of investments that may be made by the Fund as a part of its non-principal investment strategies. With respect to the Fund's investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation. The Fund is new and therefore portfolio turnover information is not yet available.

All U.S. money market securities acquired by the Fund will be rated in the upper two short-term ratings by at least two Nationally Recognized Statistical Rating Organizations ("NRSROs") or, if unrated, deemed to be of equivalent quality. A First Tier security is (i) a rated security that has received a short-term rating from the NRSROs in the highest short-term rating category for debt obligations (within which there may be sub-categories or gradations indicating relative standing); (ii) an unrated security that is of comparable quality to a security, as determined by the Board of Trustees of the Trust (the "Board"); (iii) a security issued by a registered investment company that is a money market fund; or (iv) a security issued by the U.S. government or any of its agencies or instrumentalities. A Second Tier security is a rated security that has received a short-term rating other than a first tier rating from an NRSRO for debt obligations (within which there may be sub-categories or gradations indicating relative standing) or is an unrated security that is of comparable quality. The Fund intends to limit its overall exposure to Second Tier money market securities to 5% of total assets. Any security originally issued as a long-term obligation (more than 397 days from maturity at issuance) will be rated A or higher (or the equivalent) at the time of purchase by at least two NRSROs or, if unrated, deemed to be of equivalent quality.

The Fund intends to qualify each year as a regulated investment company (a "RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), so that it will not be subject to federal income tax on income and gains that are timely distributed to Fund shareholders. The Fund will invest its assets, and otherwise conduct its operations, in a manner that is intended to satisfy the qualifying income, diversification and distribution requirements necessary to establish and maintain RIC qualification under Subchapter M.

In addition to satisfying the above referenced RIC diversification requirements, no portfolio security held by the Fund (other than U.S. government securities) will represent more than 30% of the weight of the Fund's portfolio and the five highest weighted portfolio securities of the Fund (other than U.S. government securities and/or non-U.S. government securities) will not in the aggregate account for more than 65% of the weight of the Fund's portfolio. For these purposes, the Fund may treat repurchase agreements collateralized by U.S. government securities or non-U.S. government securities as U.S. or non-U.S. government securities, as applicable.

The Fund is considered non-diversified, as such term is used in the 1940 Act.

The Fund will invest only in corporate bonds (including loan participation notes) that the Adviser or the Sub-Adviser deems to be sufficiently liquid. The Fund's investment in corporate bonds generally will be limited to bonds with \$200 million or more par value outstanding and a significant volume traded (as determined by the Adviser or Sub-Adviser). Economic and other conditions in Brazil may, from time to time, lead to a decrease in the average par amount outstanding of bond issuances. Therefore, although the Fund does not intend to do so, the Fund may invest up to 20% of its net assets in corporate bonds with less than \$200 million par amount outstanding and up to 5% of its net assets in corporate bonds with less than \$100 million par amount outstanding if such bonds are sufficiently liquid, as determined by the Adviser or Sub-Adviser, consistent with the Fund's goal of providing exposure to a broad range of Brazilian government and corporate bonds, and deemed to be in the best interest of the Fund by the Adviser or Sub-Adviser.

The Fund intends to invest in Money Market Securities, as defined below, in a manner consistent with its investment objective in order to help manage cash flows in and out of the Fund, such as in connection with the payment of dividends or expenses and to satisfy margin requirements, to provide collateral, or to otherwise back investments in derivative instruments. Money Market Securities include: short-term, high quality obligations issued or guaranteed by U.S. or non-U.S. governments, agencies or instrumentalities, repurchase agreements backed by U.S. government securities, money market mutual funds, and deposit and other obligations of U.S. and non-U.S. banks and financial institutions

### GENERAL RISKS

An investment in the Fund should be made with an understanding that the value of the Fund's portfolio securities may fluctuate in accordance with changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer, and changes in general economic or political conditions. The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantees that these strategies and processes will produce the intended results. The Fund may not outperform other investment strategies over short- or long-term market cycles and the Fund may decline in value. Fund shares may trade above or below their net asset value.

An investor in the Fund could lose money over short or long periods of time. The Fund invests in short-term, intermediate and long-term U.S. and/or non-U.S. securities. The price of the securities and other investments held by the Fund, and thus the value of the Fund's portfolio, is expected to fluctuate in accordance with general economic conditions, interest rates, political events and other factors.

Investor perceptions may also impact the value of Fund investments and the value of an investment in Fund shares. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises. Issuer-specific conditions may also affect the value of the Fund investment. The financial condition of an issuer of a security or counterparty to a contract may cause it to default or become unable to pay interest or principal due on the security or contract. The Fund cannot collect interest and principal payments if the issuer or counterparty defaults. Accordingly, the value of an investment in the Fund may change in response to issuer or counterparty defaults and changes in the credit ratings of the Fund's portfolio securities.

Events in the financial sector have resulted, and may continue to result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. Domestic and foreign fixed income and equity markets experienced extreme volatility and turmoil in late 2008 and throughout much of 2009. Issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected, and well-known financial institutions have experienced significant liquidity and other problems. Some of these institutions have declared bankruptcy or defaulted on their debt. It is uncertain whether or for how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

Although the Fund attempts to invest in liquid securities and instruments, there can be no guarantee that a liquid market for such securities and instruments will be maintained. The price at which securities may be sold and the value of the Fund's shares will be adversely affected if trading markets for the Fund's portfolio holdings are limited.

Authorized Participants should refer to the section herein entitled "Creation and Redemption of Creation Unit Aggregations" for additional information that may impact them.

**BORROWING.** Although the Fund does not intend to borrow money, the Fund may do so to the extent permitted by the 1940 Act. Under the 1940 Act, a fund may borrow up to 33% of its net assets. The Fund will borrow only for short-term or emergency purposes.

Borrowing will tend to exaggerate the effect on net asset value of any increase or decrease in the market value of the Fund's portfolio. Money borrowed will be subject to interest costs that may or may not be recovered by earnings on the securities purchased. The Fund also may be required to maintain minimum average balances in connection with a borrowing or to pay a commitment or other fee to maintain a line of credit;

## Edgar Filing: WisdomTree Trust - Form 485APOS

either of these requirements would increase the cost of borrowing over the stated interest rate.

**CAPITAL CONTROL RISK.** Economic conditions, such as volatile currency exchange rates and interest rates, political events and other conditions may, without prior warning, lead to government intervention and the imposition of capital controls. Countries use these controls to restrict volatile movements of capital entering (inflows) and exiting (outflows) their country to respond to certain economic conditions. Such controls are mainly applied to short-term capital transactions to counter speculative flows that threaten to undermine the stability of the exchange rate and deplete foreign exchange reserves. Capital controls include the prohibition of, or restrictions on, the ability to transfer currency, securities or other assets. Levies may be placed on profits repatriated by foreign entities (such as the Fund). Capital controls may impact the ability of the Fund to create and redeem Creation Units, adversely affect the trading market for shares of the Fund, and cause the Fund to trade at prices materially different from its NAV. The Fund may change its creation or redemption procedures without notice in response to the imposition of capital controls. There can be no assurance a country in which the Fund invests will not impose a form of capital control to the possible detriment of the Fund and its shareholders.

**CURRENCY EXCHANGE RATE RISK.** The Fund intends to invest a portion of its assets in investments denominated in non-U.S. currencies and investments in securities or derivatives that provide exposure to such currencies, currency exchange rates or interest rates are subject to non-U.S. currency risk. Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund's investment and the value of your Fund shares. Because the Fund's NAV is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. This is true even if the local currency value of securities in the Fund's holdings goes up. Conversely, the U.S. dollar value of your investment in the Fund may go up if the value of the local currency appreciates against the U.S. dollar.

The value of the U.S. dollar against other currencies is influenced by a variety of factors. These factors include national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange rates.

Currencies of emerging or developing market countries, such as the Brazilian real, may be subject to significantly greater risks than currencies of developed countries. Many developing market countries have experienced steady declines or even sudden devaluations of their currencies relative to the U.S. dollar. Some non-U.S. market currencies may not be traded internationally, may be subject to strict limitations on foreign investment and may be subject to frequent and unannounced government intervention. Government intervention and currency controls can decrease the value and significantly increase the volatility of an investment in non-U.S. currency. Although the currencies of some developing market countries may be convertible into U.S. dollars, the achievable rates may differ from those experienced by domestic investors because of foreign investment restrictions, withholding taxes, lack of liquidity or other reasons.

**FOREIGN SECURITIES RISK.** The Fund invests a significant portion of its assets in non-U.S. securities and instruments, or in instruments that provide exposure to such securities and instruments. Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than a U.S. issuer. Non-U.S. issuers may be subject to different accounting, auditing, financial reporting and investor protection standards than U.S. issuers. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks (including restrictions on the transfers of securities). With respect to certain countries, there is the possibility of government intervention and expropriation or nationalization of assets. Because legal systems differ, there is also the possibility that it will be difficult to obtain or enforce legal judgments in certain countries. Since foreign exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely, Fund shares may trade on days when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments. In addition, the Fund may change its creation or redemption procedures without notice in connection with restrictions on the transfer of securities. For more information on creation and redemption procedures, see [Creation and Redemption of Creation Unit Aggregations](#) herein.

**HIGH YIELD RISK.** The Fund may invest a limited portion of its assets in securities rated lower than Baa3 by Moody's, or equivalently rated by S&P or Fitch. Such securities are sometimes referred to as high yield securities or junk bonds. Investing in these securities involves special risks in addition to the risks associated with investments in higher-rated fixed income securities. While offering a greater potential for capital appreciation and higher yields, high yield securities typically entail higher price volatility and may be less liquid than securities with higher ratings. High yield securities may be regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. Issuers of securities in default may fail to resume principal or interest payments, in which case the Fund may lose its entire investment.

**LACK OF DIVERSIFICATION.** Although the Fund intends to invest in a variety of securities and instruments, the Fund is considered non-diversified as such term is used in the 1940 Act. The Fund is considered to be non-diversified and is not limited by the 1940 Act with regard to the percentage of its assets that may be invested in the securities of a single issuer. As a result, the Fund may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were classified as a diversified fund. Therefore, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a small number of issuers than a fund that invests more widely, which may have a greater impact on the Fund's volatility and performance.

The Fund does, however, intend to maintain the level of diversification necessary to qualify as a RIC under Subchapter M of the Code. The Subchapter M diversification tests are discussed below under Taxes.

**TAX RISK.** To qualify for the favorable U.S. federal income tax treatment accorded to RICs, the Fund must, among other things, derive in each taxable year at least 90% of its gross income from certain prescribed sources. The U.S. Treasury Department has authority to issue regulations that would exclude foreign currency gains from qualifying income if such gains are not directly related to the Fund's business of investing in stock or securities. Accordingly, regulations may be issued in the future that could treat some or all of the Fund's foreign currency gains as non-qualifying income, which might jeopardize the Fund's status as a RIC for all years to which the regulations are applicable. If for any taxable year the Fund does not qualify as a RIC, all of its taxable income (including its net capital gain) for that year would be subject to tax at regular corporate rates without any deduction for distributions to shareholders, and such distributions would be taxable to shareholders as dividend income to the extent of the Fund's current and accumulated earnings and profits.

A discussion of some of the other risks associated with an investment in the Fund is contained in the Fund's Prospectus.

### SPECIFIC INVESTMENT STRATEGIES

A description of certain investment strategies and types of investments used by the Fund is set forth below.

**U.S. GOVERNMENT SECURITIES.** The Fund may invest in short-term obligations issued or guaranteed by the U.S. Treasury or the agencies or instrumentalities of the U.S. government. Such obligations may be short-, intermediate- or long-term. U.S. government securities are obligations of, or guaranteed by, the U.S. government, its agencies or government-sponsored enterprises. U.S. government securities are subject to market and interest rate risk, and may be subject to varying degrees of credit risk. U.S. government securities include inflation-indexed fixed income securities, such as U.S. Treasury Inflation Protected Securities (TIPS). U.S. government securities include zero coupon securities, which tend to be subject to greater market risk than interest-paying securities of similar maturities.

**NON-U.S. GOVERNMENT SECURITIES.** The Fund invests in obligations issued or guaranteed by non-U.S. governments, agencies and instrumentalities. Such obligations may be short-, intermediate- or long-term. Non-U.S. government securities are subject to market and interest rate risk, and may be subject to varying degrees of credit risk. Non-U.S. government securities include direct obligations, as well as obligations guaranteed by a foreign government including state, territory, or local governments.

**SUPRANATIONAL SECURITIES.** The Fund may invest in securities issued by supranational entities. A supranational entity is formed by two or more central governments to promote economic development for the member countries. Supranational entities finance their activities by issuing bond debt and are usually considered part of the sub-sovereign debt market. Some well-known examples of supranational entities are the World Bank, International Monetary Fund, European Investment Bank, Asian Development Bank, Inter-American Development Bank and other regional multilateral development banks. These securities are subject to varying degrees of credit risk and interest rate risk.

**SOVEREIGN DEBT OBLIGATIONS.** The Fund may invest in sovereign debt obligations. Sovereign debt obligations involve special risks that are not present in corporate debt obligations. The foreign issuer of the sovereign debt or the foreign governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and the Fund may have limited recourse in the event of a default. During periods of economic uncertainty, the market prices of sovereign debt, and the Fund's net asset value, to the extent it invests in such securities, may be more volatile than prices of debt obligations of U.S. issuers. In the past, certain foreign countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest and declared moratoria on the payment of principal and interest on their sovereign debt. A sovereign debtor's willingness or ability to repay principal and pay interest in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign currency reserves, the availability of sufficient foreign exchange, the relative size of the debt service burden, the sovereign debtor's policy toward principal international lenders and local political constraints. Sovereign debtors may also be dependent on expected disbursements from foreign governments, multilateral agencies and other entities to reduce principal and interest arrearages on their debt. The failure of a sovereign debtor to implement economic reforms, achieve specified levels of economic performance or repay principal or interest when due may result in the cancellation of third party commitments to lend funds to the sovereign debtor, which may further impair such debtor's ability or willingness to service its debts.

**BANK DEPOSITS AND OBLIGATIONS.** The Fund may invest in deposits and other obligations of U.S. and non-U.S. banks and financial institutions. Deposits and obligations of banks and financial institutions include certificates of deposit, time deposits, and bankers' acceptances. Certificates of deposit and time deposits represent an institution's obligation to repay funds deposited with it that earn a specified interest rate. Certificates of deposit are negotiable certificates, while time deposits are non-negotiable deposits. A banker's acceptance is a time draft drawn on and accepted by a bank that becomes a primary and unconditional liability of the bank upon acceptance. Investments in obligations of non-U.S. banks and financial institutions may involve risks that are different from investments in obligations of U.S. banks. These risks include future unfavorable political and economic developments, seizure or nationalization of foreign deposits, currency controls, interest limitations or other governmental restrictions that might affect the payment of principal or interest on the securities held in the Fund.

**COMMERCIAL PAPER.** The Fund may invest in commercial paper. Commercial paper is an unsecured short-term promissory note with a fixed maturity of no more than 270 days issued by corporations, generally to finance short-term business needs. The commercial paper purchased by the Fund generally will be rated in the upper two short-term ratings by at least two NRSROs or, if unrated, deemed to be of equivalent quality by the Adviser or the Sub-Adviser. If a security satisfies the rating requirement upon initial purchase and is subsequently downgraded, the Fund is not required to dispose of the security. In the event of such an occurrence, the Adviser or the Sub-Adviser will determine what action, including potential sale, is in the best interest of the Fund. The Fund may also purchase unrated commercial paper provided that such paper is determined to be of comparable quality by the Adviser or the Sub-Adviser. Commercial paper issues in which the Fund may invest include securities issued by corporations without registration under the Securities Act in reliance on the exemption from such registration afforded by Section 3(a)(3) thereof, and commercial paper issued in reliance on the so-called "private placement" exemption from registration, which is afforded by Section 4(2) of the Securities Act ("Section 4(2) paper"). Section 4(2) paper is restricted as to disposition under the federal securities laws in that any resale must similarly be made in an exempt transaction. Section 4(2) paper is normally resold to other institutional investors through or with the assistance of investment dealers who make a market in Section 4(2) paper, thus providing liquidity.

**NON-U.S. SECURITIES.** The Fund invests primarily in non-U.S. securities and instruments, or in instruments that provide exposure to such securities and instruments. Investments in non-U.S. securities involve certain risks that may not be present in investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than about a U.S. issuer, and a foreign issuer may or may not be subject to uniform accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. Other risks of investing in such securities include political or economic instability in the country involved, the difficulty of predicting international trade patterns and the possibility of imposition of exchange controls. There may be less information publicly available about a non-U.S. issuer than about a U.S. issuer, and a foreign issuer may or may not be subject to uniform accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. Other risks of investing in such securities include political or economic instability in the country involved, the difficulty of predicting international trade patterns and the possibility of imposition of exchange controls. The prices of such securities may be more volatile than those of domestic securities. With respect to certain foreign countries, there is a possibility of expropriation of assets or nationalization, imposition of withholding taxes on dividend or interest payments, difficulty in obtaining and enforcing judgments against foreign entities or diplomatic developments which could affect investment in these countries. Losses and other expenses may be incurred in converting between various currencies in connection with purchases and sales of foreign securities. Since foreign exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely, Fund shares may trade on days when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments.

**Investments in Brazil.** Investing in Brazil involves certain considerations not typically associated with investing in securities of U.S. companies or the U.S. government, including: (i) investment and repatriation controls, which could affect a Fund's ability to operate, and to qualify for the favorable tax treatment afforded to regulated investment companies for U.S. federal income tax purposes, (ii) fluctuations in the rate of exchange between the Brazilian real and the U.S. dollar, (iii) the generally greater price volatility and lesser liquidity that characterize Brazilian securities markets, as compared with U.S. markets, (iv) the effect that a trade deficit could have on economic stability and the Brazilian government's economic policy, (v) high rates of inflation, (vi) governmental involvement in and influence on the private sector, (vii) Brazilian accounting, auditing and financial standards and requirements, which differ from those in the United States, and (viii) political and other considerations, including changes in applicable Brazilian tax laws. These and other factors could have a negative impact on the Fund's performance.

**Investments in Emerging Markets.** The Fund invests in instruments that provide exposure to non-U.S. securities and instruments denominated in the currency of a market or markets considered to be emerging or developing or in securities and instruments that provide exposure to such markets. Investing in developing markets may be subject to additional risks not associated with more developed economies. Such risks may include: (i) the risk that government and quasi-government entities may not honor their obligations, (ii) greater market volatility, (iii) lower trading volume and liquidity, (iv) greater social,

political and economic uncertainty, (v) governmental controls on foreign investments and limitations on repatriation of invested capital, (vi) the risk that governments and companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets, and (vii) the risk that there may be less protection of property rights than in other countries. Some emerging markets have experienced and may continue to experience high inflation rates, currency devaluations and economic recessions. Each of these factors may cause a Fund to decline in value. Unanticipated political or social developments may result in sudden and significant investment losses, and may affect the ability of governments and government agencies in these markets to meet their debt obligations. These and other factors could have a negative impact on the Fund's performance and increase the volatility of an investment in the Fund.

**CORPORATE DEBT OBLIGATIONS.** The Fund invests in corporate debt obligations. Corporate debt securities are interest-bearing securities in which the corporate issuer has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal periodically or on a specified maturity date. Notes, bonds, debentures and commercial paper are the most common types of corporate debt securities. The primary differences between the different types of corporate debt securities are their maturities and secured or un-secured status. Commercial paper has the shortest term and is usually unsecured. Corporate debt may be issued by domestic or foreign companies of all kinds, including those with small-, mid- and large-capitalizations. Corporate debt may be rated investment-grade or below investment-grade and may carry variable or floating rates of interest.

Because of the wide range of types, and maturities, of corporate debt obligations, as well as the range of creditworthiness of its issuers, corporate debt obligations have widely varying potentials for return and risk profiles. For example, commercial paper issued by a large established domestic corporation that is rated investment-grade may have a modest return on principal, but carries relatively limited risk. On the other hand, a long-term corporate note issued by a small foreign corporation from an emerging market country that has not been rated may have the potential for relatively large returns on principal, but carries a relatively high degree of risk.

Like most fixed income securities, corporate debt obligations carry both credit risk and interest rate risk. Credit risk is the risk that a Fund could lose money if the issuer of a corporate debt security is unable to pay interest or repay principal when it is due. Interest rate risk is the risk that the value of certain corporate debt securities will tend to fall when interest rates rise. In general, corporate debt securities with longer terms tend to fall more in value when interest rates rise than corporate debt securities with shorter terms. The Fund attempts to limit interest rate risk by maintaining an aggregate portfolio duration of between two and ten years under normal market conditions. Aggregate portfolio duration is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with higher durations generally are subject to greater interest rate risk. An aggregate portfolio duration of between two and ten years generally would be considered to be intermediate. The Fund's actual portfolio duration may be longer or shorter depending upon market conditions.

Investments will be limited to securities rated by at least one NRSRO, or if unrated, deemed to be of appropriate quality. If a security satisfies the rating requirement upon initial purchase and is subsequently downgraded, the Fund is not required to dispose of the security. In the event of such an occurrence, WisdomTree Asset Management or the Sub-Adviser will determine what action, including potential sale, is in the best interest of the Fund. See also "High Yield Risk" above under "GENERAL RISKS."

**FIXED INCOME SECURITIES.** The Fund invests in fixed income securities, such as corporate debt (described above), bonds and notes. Fixed income securities change in value in response to interest rate changes and other factors, such as the perception of the issuer's creditworthiness. For example, the value of fixed income securities will generally decrease when interest rates rise, which may cause the value of the Fund to decrease. In addition, investments in fixed income securities with longer maturities will generally fluctuate more in response to interest rate changes.

**FLOATING AND ADJUSTABLE RATE NOTES.** The Fund may invest in floating-rate and adjustable rate obligations, such as demand notes, bonds, and commercial paper. Variable- and floating-rate securities generally are less sensitive to interest rate changes but may decline in value if their interest rates do not rise as much, or as quickly, as interest rates in general. Conversely, floating-rate securities will not generally increase in value if interest rates decline. When the Fund holds variable- or floating-rate securities, a decrease (or, in the case of inverse floating-rate securities, an increase) in market interest rates will adversely affect the income received from such securities and the net asset value of the Fund's shares.

These securities may bear interest at a rate that resets based on standard money market indices or are remarketed at current market rates. They may permit the holder to demand payment of principal at any time or at specified intervals not exceeding 397 days. The issuer of such obligations may also have the right to prepay, in its discretion, the principal amount of the obligations plus any accrued interest. The reset date of securities held by the Fund may not be longer than 397 days. Given that most floating-rate securities reset their interest rates prior to their final maturity date, the Fund uses the period to the next reset date to calculate the securities contribution to the average portfolio maturity of the Fund.

**INFLATION-LINKED BONDS.** The Fund may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed income securities whose principal value is periodically adjusted according to the rate of inflation. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of U.S. Treasury inflation-indexed bonds. However, the current market value of the bonds is not guaranteed, and will fluctuate with market conditions. Investments in other inflation-linked bonds may not provide a similar guarantee and the principal

## Edgar Filing: WisdomTree Trust - Form 485APOS

amount repaid could be less than the original principal if inflation falls over the period.

The value of inflation-indexed bonds is expected to change in response to changes in real interest rates. Real interest rates in turn are tied to the relationship between nominal interest rates and the rate of inflation. Therefore, if the rise in inflation exceeds the rise in nominal rates, real rates are likely to decline, leading to an increase in the market value of the bonds. Conversely, if the rise in nominal interest rates outpaces the pickup in the rate of inflation, real interest might rise, generating a decline in the market value of the inflation-linked security.

The periodic adjustment of U.S. inflation-indexed bonds generally is tied to the Consumer Price Index for Urban Consumers (CPI-U), which is calculated monthly by the U.S. Bureau of Labor Statistics. The CPI-U is a measurement of changes in the cost of living, made up of components such as housing, food, transportation and energy. Inflation-indexed bonds issued by a foreign government are generally adjusted to reflect a comparable country or regional inflation measure calculated by that government. There can be no assurance that the CPI-U or any foreign inflation index will accurately measure the real rate of inflation in the prices of goods and services. Moreover, there can be no assurance that the rate of inflation in a foreign country will be correlated to the rate of inflation in the United States. Any increase in the principal amount of an inflation-indexed bond will be considered taxable ordinary income, even though investors do not receive their principal until maturity.

Inflation-linked bonds held by the Fund may experience an increase in original issue value due to inflation-linked adjustments. The inflation-linked growth in the value of these bonds may be reflected in the Fund's gross income. While inflation-adjusted growth does not result in cash payments to the Fund, the Fund may be required to make distributions to shareholders for any increase in value in excess of the cash actually received by the Fund during the taxable year. The Fund may be required to sell portfolio securities to make these distribution payments. This may lead to higher transaction costs, losses from sale during unfavorable market conditions and higher capital gains taxes. If deflation-linked adjustments decrease the value of inflation-linked bonds held by the Fund, income distributions previously made by the Fund during the taxable year may be deemed a return of capital.

**LOAN PARTICIPATION NOTES.** The Fund may invest in loan participation notes (LPNs). Loan Participation Notes are notes issued through a special purpose vehicle offshore for the sole purpose of funding a loan to final obligor. Corporate issuers have commonly utilized this structure in jurisdictions where tax regulations make it difficult to access the global bond markets with directly issued debt. LPNs are subject to the same risks as other fixed income securities, including credit risk, interest rate risk and market risk. Many LPNs are highly traded and denominated in dollars. The notes do, however, have limited recourse to the issuer, to the extent of the amount received by the issuer from the ultimate borrower in paying the principal and interest amounts as defined under the loan agreement. The Fund may be exposed to the credit risk of both the lender and the borrower, and may not benefit from any collateral supporting the underlying loan.

**DERIVATIVES.** The Fund may invest in derivative instruments as a part of its investment strategies. Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to bonds, interest rates, currencies, commodities, and related indexes. Examples of derivative instruments include listed futures contracts, forward contracts, options, futures contracts, options on futures contracts, swap agreements and credit-linked notes. The Fund, under normal circumstances, will invest no more than 30% of the value of its net assets in derivative instruments.

With respect to certain kinds of derivative transactions entered into by the Fund that involve obligations to make future payments to third parties, including, but not limited to, futures, forwards, options contracts, swap contracts, the purchase of securities on a when-issued or delayed delivery basis, or reverse repurchase agreements, the Fund must set aside (also known as asset segregation) on its books cash or other liquid assets (typically short-term, high quality money market securities) in the required amount as determined daily, or engage in other measures to cover open positions with respect to such transactions. The Fund may cover such transactions using other methods permitted under the federal securities laws, SEC orders or releases or other guidance issued by the SEC staff.

For example, the net amount of the excess (if any) of the Fund's obligations over its entitlements with respect to each swap will be accrued on a daily basis and an amount of cash or liquid assets having an aggregate net asset value approximately equal to the accrued excess will be set aside as cover. The Fund will also maintain collateral with respect to its total obligations under any swaps that are not entered into on a net basis, and will maintain cover as required by SEC guidelines from time to time with respect to caps and floors written by the Fund.

With respect to futures contracts that are not contractually required to cash-settle, the Fund must cover its open positions by setting aside liquid assets equal to the contracts' full, notional value, except that deliverable foreign currency contracts for currencies that are liquid will be treated as the equivalent of cash-settled contracts. As such, the Fund may set aside liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation (i.e., the Fund's daily net liability if any) rather than the full notional amount under such deliverable forward foreign currency contracts. With respect to futures contracts that are contractually required to cash-settle, the Fund may set aside liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation rather than the notional value. The Fund reserves the right to modify its asset segregation policies in the future.

Although SEC guidelines on cover are designed to limit the transactions involving derivatives that the Fund may be engaged in at any time, the segregation of assets does not reduce the risks to the Fund of entering into transactions in derivatives. Consistent with SEC guidance, the Fund defines a liquid asset as one that can be sold at or near its carrying value within seven (7) calendar days.

To the extent the Fund uses futures and options, it will do so only in accordance with applicable requirements of the Commodity Exchange Act (CEA) and the rules thereunder. With regard to the Fund, WisdomTree Asset Management will continue to claim relief from the definition of commodity pool operator (CPO) under revised U.S. Commodity Futures Trading Commission (CFTC) Rule 4.5. Specifically, pursuant to CFTC Rule 4.5, WisdomTree Asset Management may claim exclusion from the definition of CPO, and thus from having to register as a CPO, with regard to a Fund that enters into commodity futures, commodity options or swaps solely for bona fide hedging purposes, or that limits its investment in commodities to a de minimis amount, as defined in CFTC rules, so long as the shares of such Fund are not marketed as interests in a commodity pool or other vehicle for trading in commodity futures, commodity options or swaps. It is expected that the Fund will be able to operate pursuant to the limitations under the revised CFTC Rule 4.5 without materially adversely affecting its ability to achieve its investment objective. If, however, these limitations were to make it difficult for the Fund to achieve its investment objective in the future, the Trust may determine to operate the Fund as a regulated commodity pool pursuant to WisdomTree Asset Management's CPO registration or to reorganize or close the Fund or to materially change the Fund's investment objective and strategy.

**Credit-Linked Notes.** The Fund may invest in credit-linked notes. A credit-linked note is a type of structured note whose value is linked to an underlying reference asset. Credit-linked notes typically provide periodic payments of interest as well as payment of principal upon maturity. The value of the periodic payments and the principal amount payable upon maturity are tied (positively or negatively) to a reference asset, such as an index, government bond, interest rate or currency exchange rate. The ongoing payments and principal upon maturity typically will increase or decrease depending on increases or decreases in the value of the reference asset. A credit-linked note typically is issued by a special purpose trust or similar entity and is a direct obligation of the issuing entity. The entity, in turn, invests in bonds or derivative contracts in order to provide the exposure set forth in the credit-linked note. The periodic interest payments and principal obligations payable under the terms of the note typically are conditioned upon the entity's receipt of payments on its underlying investment. If the underlying investment defaults, the periodic payments and principal received by the Fund will be reduced or eliminated. The buyer of a credit-linked note assumes the risk of default by the issuer and the underlying reference asset or entity. Generally, investors in credit-linked notes assume the risk of default by the issuer and the reference entity in return for a potentially higher yield on their investment or access to an investment that they could not otherwise obtain. In the event the issuer defaults or there is a credit event that relates to the reference asset, the recovery rate is generally less than the Fund's initial investment and the Fund may lose money.

**Foreign Currency Transactions.** The Fund may engage in foreign currency transactions. The Fund may invest directly in foreign currencies in the form of bank and financial institution deposits, certificates of deposit, and bankers' acceptances denominated in a specified non-U.S. currency. The Fund may enter into foreign currency exchange transactions. The Fund will conduct its foreign currency exchange transactions either on a spot (i.e., cash) basis at the spot rate prevailing in the foreign currency exchange market, or by entering into forward currency contracts to purchase or sell foreign currencies or forward currency swaps to exchange cash flows based on the notional difference among two or more currencies.

Foreign exchange transactions involve a significant degree of risk and the markets in which foreign exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. If the Fund utilizes foreign exchange transactions at an inappropriate time, such transactions may not serve their intended purpose. The Fund could experience losses if the value of any currency forwards, options and futures positions is poorly correlated with its other investments or if it could not close out its positions because of an illiquid market. In addition, the Fund will incur transaction costs, including trading commissions, in connection with certain foreign currency transactions.

The Fund may buy or sell government bonds, commercial paper, corporate debt obligations, notes and other fixed income securities of developed and emerging market issuers denominated in currencies other than the U.S. dollar. Any security or instrument denominated in a currency other than the U.S. dollar is subject to foreign currency risk.

**Forward Currency Contracts.** The Fund may enter into forward currency contracts. A forward currency contract is a privately negotiated contract to purchase or sell a specific currency at a future date (usually less than one year) at a price set at the time of the contract. These contracts generally are traded directly between currency traders (usually large commercial banks) and their customers. The Fund may enter into forward currency contracts in order to lock in the exchange rate between the currency it will deliver and the currency it will receive for the duration of the contract. The settlement of the contracts may occur with the physical delivery of a specified amount of currency equivalent to the market value of the contract. This is sometimes referred to as a deliverable forward contract. A non-deliverable forward contract is a forward contract where there is no physical settlement of two currencies at maturity. Non-deliverable forward contracts are contracts between parties in which one party agrees to make periodic payments to another party, or counterparty, based on the change in market value or level of a specified currency. In return, the counterparty agrees to make periodic payments to the first party based on the return of a different

specified currency. Non-deliverable forward contracts will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of the Fund's obligations over its entitlements with respect to each non-deliverable forward contract is accrued on a daily basis and an amount of cash or highly liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Trust's custodian bank. The risk of loss with respect to non-deliverable forward contracts generally is limited to the net amount of payments that the Fund is contractually obligated to make or receive. The Fund may invest in a combination of forward currency contracts and U.S. dollar-denominated money market securities in an attempt to obtain an investment result that is similar to a direct investment in a foreign currency denominated instrument. This investment technique, if successful, creates a synthetic position in the particular foreign currency instrument the Fund is trying to duplicate. Forward contracts are subject to the risk that the counterparty will default on its obligations.

**Futures Contracts and Options on Futures Contracts.** The Fund may use futures contracts and related options: (i) to attempt to gain exposure to foreign currencies, and (ii) to attempt to gain exposure to a particular market, instrument or index.

**Futures Contracts.** A futures contract is a standardized contract traded on a recognized exchange in which two parties agree to exchange either a specified financial asset or the cash equivalent of said asset of standardized quantity and quality for a price agreed today (the *futures price* or the strike price) with delivery occurring at a specified future date. The Fund's investments in listed futures contracts will be backed by investments in U.S. government securities in an amount equal to the exposure of such contracts. The Fund may take long or short positions in listed futures contracts.

The Fund may transact in listed currency futures contracts and listed U.S. Treasury futures contracts. When the Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (i.e., commodity, currency or Treasury security) at a specified future date. When the Fund sells a listed futures contract, it agrees to sell a specified reference asset (i.e., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation. Margin deposits are posted as performance bonds with the clearing broker and, in turn, with the exchange clearing corporation.

The Fund may buy and sell index futures contracts with respect to any index traded on a recognized exchange or board of trade. An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made. Instead, settlement in cash must occur upon the termination of the contract, with the settlement being the difference between the contract price, and the actual level of the stock index at the expiration of the contract. Generally, contracts are closed out prior to the expiration date of the contract.

When the Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. As discussed above under **Derivatives**, to cover its position, the Fund will maintain with its custodian bank (and mark-to market on a daily basis) a segregated account consisting of cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract or otherwise cover its position in a manner consistent with the 1940 Act or the rules and Securities and Exchange Commission (SEC) interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated account will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated accounts will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

There are significant risks associated with the Fund's use of futures contracts including the following: (1) the success of a strategy may depend on the Adviser's ability to predict movements in the prices of currencies or securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the currencies or securities and the prices of futures contracts; (3) although the Fund intends to enter into futures contracts only if there is an active market for such contracts, there is no assurance that an active market will exist for the contracts at any particular time; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in futures contracts.

**Options Contracts.** The Fund reserves the right to buy or sell options on listed futures contracts. An option on a futures contract gives the purchaser the right, in exchange for payment of a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. A put option gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security or instrument at any time during the option period. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security or instrument at any time during the option period. A premium is paid to the writer of an option as consideration for undertaking the obligation in the contract.

The Fund may purchase and write options on an exchange or over the counter ( OTC ). OTC options differ from exchange traded options in several respects. They are transacted directly with dealers and not with a clearing corporation, and therefore entail the risk of non-performance by the dealer. OTC options are available for a greater variety of securities and for a wider range of expiration dates and exercise prices than are available for exchange traded options. Because OTC options are not traded on an exchange, pricing is done normally by reference to information from a market maker. It is the SEC's position that OTC options are generally illiquid.

When the Fund purchases or sells an options contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. As discussed above under Derivatives, to cover its position, the Fund will maintain with its custodian bank (and mark-to-market on a daily basis) a segregated account consisting of cash or liquid securities that, when added to any amounts deposited as margin, are equal to the market value of the options contract or otherwise cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated account will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated accounts will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

There are significant risks associated with the Fund's use of options contracts, including the following: (1) the success of a strategy may depend on the Adviser's ability to predict movements in the prices of individual currencies or securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the currencies or securities and the price of options; (3) although the Fund intends to enter into options contracts only if there is an active market for such contracts, there is no assurance that an active market will exist for the contracts at any particular time; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in options contracts.

**Swap Agreements.** The Fund may enter into swap agreements, including credit default swaps and total return swaps. Swaps agreements can be structured to provide for periodic payments over the term of the swap contract or a single payment at maturity (also known as a bullet swap). Swap agreements may be used to hedge or achieve exposure to, for example, currencies and interest rates without actually purchasing such currencies or securities. Swap agreements will tend to shift the Fund's investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease the Fund's exposure to long- or short-term interest rates (in the United States or abroad), and foreign currencies, and may increase or decrease the overall volatility of the Fund's investments and its share price. Swaps may be used to enhance leverage. Leverage is a technique used to multiply gains or losses. The Fund may not invest more than 20% of its assets in swap transactions and structured notes. When the Fund purchases or sells a swap contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. As discussed above under Derivatives, to cover its position, the Fund will maintain with its custodian bank (and mark-to-market on a daily basis) a segregated account consisting of cash or liquid securities that, when added to any amounts deposited as margin, are equal to the market value of the swap contract or otherwise cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated account will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated accounts will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

**Total Return Swaps.** A typical total return swap involves the payment of the total return on a reference asset in return for payments equal to a rate of return on another reference asset. The total return includes appreciation or depreciation on the reference asset, plus any interest or dividend payments. Swap agreements may be used to achieve exposure to and benefit from a reference asset, such as currencies, interest rates, and money market securities without actually having to purchase such currencies or securities. The Fund will use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift the Fund's investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease the Fund's exposure to long- or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other factors, and may increase or decrease the overall volatility of the Fund's investments and its share price.

**SHORT SALE TRANSACTIONS.** The Fund may engage in short sale transactions. A short sale involves the sale by the Fund of a listed futures contract, security or commodity that it does not own at a specified price on a future date. A fund entering into a short sale transaction would generally expect the trading price of the subject listed futures contract, security or commodity to be lower on the specified future date than the price at which it agreed to sell the security or commodity. The Fund would hope to acquire the listed futures contract, security or commodity at a lower price on such date, thereby realizing a gain equal to the difference in the acquisition

price and the sale price (less any costs). The Fund may also enter into a short derivative position through a futures contract or swap agreement. If the price of the listed futures contract, security, commodity or derivative subject to a short sale transaction increases during the period covered by the contract, then the Fund will incur a loss equal to the increase in price from the time that the short sale was entered (plus any costs). Because it requires little or no money to enter into a short sale transaction, the Fund could potentially lose more money than the actual cost of entering into the transaction.

Also, there is the risk that the third party to the short sale may fail to honor its contract terms, causing a loss to the Fund. The Fund engaging in short sale transactions may be subject to expenses related to short sales that are not typically associated with investing in securities directly, such as costs of borrowing and margin account maintenance costs associated with the Fund's open short positions. These expenses negatively impact the performance of the Fund. The Fund's investment performance may also suffer if the Fund is required to close out a short position earlier than it had intended. The Fund is required to segregate cash and other liquid assets on its books to cover its short sale obligations. This means that such cash and other assets may not be available to meet the Fund's needs for immediate cash or other liquidity.

**REPURCHASE AGREEMENTS.** The Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which the Fund purchases securities or other obligations from a bank or securities dealer (or its affiliate) and simultaneously commits to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special tri-party custodian or sub-custodian that maintains separate accounts for both the Fund and its counterparty. Thus, the obligation of the counterparty to pay the repurchase price on the date agreed to or upon demand is, in effect, secured by such obligations.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that at all times the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. Repurchase agreements involving obligations other than U.S. government securities (such as commercial paper and corporate bonds) may be subject to special risks and may not have the benefit of certain protections in the event of the counterparty's insolvency. If the seller or guarantor becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition of collateral.

**REVERSE REPURCHASE AGREEMENTS.** The Fund may enter into reverse repurchase agreements, which involve the sale of securities held by the Fund subject to its agreement to repurchase the securities at an agreed-upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to the Fund's limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, the Fund will maintain the segregation, either on its records or with the Trust's custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by the Fund might be unable to deliver them when the Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer, trustee, or receiver may receive an extension of time to determine whether to enforce the Fund's obligation to repurchase the securities, and the Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

**ILLIQUID SECURITIES.** Although the Fund does not intend to do so, as a matter of policy, the Fund may invest up to an aggregate amount of 15% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of the Fund to dispose of illiquid or not readily marketable investments readily or at a reasonable price could impair the Fund's ability to raise cash for redemptions or other purposes. Any securities purchased by the Fund which are eligible for resale pursuant to Rule 144A, except for certain 144A bonds, will be deemed illiquid securities for purposes of this 15% limitation. Loan interests, such as loan participations and assignments (but not loan participation notes), are also deemed illiquid securities for purposes of this 15% limitation.

**FINANCIAL SECTOR INVESTMENTS.** The Fund may engage in transactions with or invest in companies that are considered to be in the financial sector, including commercial banks, brokerage firms, diversified financial services, a variety of firms in all segments of the insurance industry (such as multi-line, property and casualty, and life insurance) and real estate-related companies. There can be no guarantee that these strategies may be successful. The Fund may lose money as a result of defaults or downgrades within the financial sector.

Events in the financial sector have resulted in increased concerns about credit risk and exposure. Well-known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt obligations. Issuers that have exposure to real estate, mortgage and credit markets have been particularly affected. It is uncertain whether or how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

Rule 12d3-1 under the 1940 Act limits the extent to which a fund may invest in the securities of any one company that derives more than 15% of its revenues from brokerage, underwriting or investment management activities. A fund may purchase securities of an issuer that derived more than 15% of its gross revenues in its most recent fiscal year from securities-related activities, subject to the following conditions: (1) the purchase cannot cause more than 5% of the fund's total assets to be invested in securities of that issuer; (2) for any equity security, the purchase cannot result in the fund owning more than 5% of the issuer's outstanding securities in that class; and (3) for a debt security, the purchase cannot result in the fund owning more than 10% of the outstanding principal amount of the issuer's debt securities.

In applying the gross revenue test, an issuer's own securities-related activities must be combined with its ratable share of securities-related revenues from enterprises in which it owns a 20% or greater voting or equity interest. All of the above percentage limitations, as well as the issuer's gross revenue test, are applicable at the time of purchase. With respect to warrants, rights, and convertible securities, a determination of compliance with the above limitations shall be made as though such warrant, right, or conversion privilege had been exercised. The Fund will not be required to divest its holdings of a particular issuer when circumstances subsequent to the purchase cause one of the above conditions to not be met. The purchase of a general partnership interest in a securities-related business is prohibited.

**INVESTMENT COMPANY SECURITIES.** The Fund may invest in the securities of other investment companies (including money market funds and underlying ETFs). The 1940 Act generally prohibits a fund from acquiring more than 3% of the outstanding voting shares of an investment company and limits such investments to no more than 5% of the fund's total assets in any single investment company and no more than 10% in any combination of two or more investment companies. The Fund may purchase or otherwise invest in shares of affiliated money market funds and underlying ETFs.

**MONEY MARKET INSTRUMENTS.** The Fund invests a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which the Fund may invest include: (i) short-term obligations issued by the U.S. government; (ii) negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions. High-quality instruments are typically those rated in the top two short- or long-term ratings categories by at least one NRSRO or judged by the Adviser or Sub-Adviser to be of comparable quality.

**SECURITIES LENDING.** The Fund may lend portfolio securities to certain creditworthy borrowers, including the Fund's securities lending agent. Loans of portfolio securities provide the Fund with the opportunity to earn additional income on the Fund's portfolio securities. All securities loans will be made pursuant to agreements requiring the loans to be continuously secured by collateral in cash, money market instruments, or money market funds at least equal at all times to the market value of the loaned securities. The borrower pays to the Fund an amount equal to any dividends or interest received on loaned securities. The Fund retains all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities involves risks of delay in recovery of the loaned securities or in some cases loss of rights in the collateral should the borrower fail financially. Furthermore, because of the risks of delay in recovery, the Fund may lose the opportunity to sell the securities at a desirable price. The Fund will generally not have the right to vote securities while they are being loaned.

**FUTURE DEVELOPMENTS.** The Board may, in the future, authorize the Fund to invest in securities contracts and investments other than those listed in this SAI and in the Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any fundamental investment restrictions or policies.

#### **PROXY VOTING POLICY**

The Trust has adopted as its proxy voting policies for the Fund the proxy voting guidelines of one of the Fund's Sub-Adviser. The Trust has delegated to the Sub-Adviser the authority and responsibility for voting proxies on the portfolio securities held by the Fund. The remainder of this section discusses the Fund's proxy voting guidelines and the respective role of the Sub-Adviser in implementing such guidelines.

The Sub-Adviser has adopted a Proxy Voting Policy, related procedures, and voting guidelines which are applied to those client accounts over which it has been delegated the authority to vote proxies. In voting proxies, the Sub-Adviser seeks to act in the best interest of its clients and in accordance with its fiduciary duties. Specific votes depend on the particular facts and circumstances of each proxy vote. The Sub-Adviser generally votes in support of decisions reached by independent boards of directors. The policy establishes additional guidance to promote independence, alignment of compensation with long-term performance, and prudent fiscal management with respect to votes on specific matters, such as individual board elections, executive compensation, and capitalization. As a practical matter, as a fixed income manager, the Sub-Adviser rarely has the occasion to vote proxies.

## Edgar Filing: WisdomTree Trust - Form 485APOS

A complete copy of the Sub-Adviser's Proxy Voting Policy may be obtained by calling 1-866-909-9473 or by writing to: WisdomTree Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203.

The Trust is required to disclose annually the Fund's complete proxy voting record on Form N-PX covering the period from July 1 of one year through June 30 of the next and to file Form N-PX with the SEC no later than August 31 of each year. The Fund's Form N-PX, when filed, may be obtained at no charge upon request by calling 1-866-909-9473 or by visiting the SEC's website at [www.sec.gov](http://www.sec.gov).

### PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Trust has adopted a Portfolio Holdings Policy (the Policy) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees, and agents of the Fund, including the Advisers. The Policy is designed to ensure that the disclosure of information about the Fund's portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of the Fund.

The Fund is considered to be an actively managed ETF. As such, the Fund is required by the SEC to disclose on the Fund's website, at the start of each Business Day (defined below), the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

A Business Day with respect to the Fund is any day on which the Listing Exchange is open for business. As of the date of this SAI, the Listing Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

As an ETF, information about the Fund's portfolio holdings is made available on a daily basis in accordance with the provisions of any Order of the SEC applicable to the Fund, regulations of the Fund's Listing Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of the Fund's anticipated portfolio holdings as of the next Business Day. A Business Day with respect to the Fund is any day on which the Listing Exchange is open for business. This information is used in connection with the Creation and Redemption process and is disseminated on a daily basis through the facilities of the Listing Exchange, the National Securities Clearing Corporation (NSCC) and/or third-party service providers.

The Fund may disclose on its website at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

Daily access to the Fund's portfolio holdings with no lag time is permitted to personnel of the Advisers, the Distributor and the Fund's administrator (Administrator), custodian and accountant and other agents or service providers of the Trust who have need of such information in connection with the ordinary course of their respective duties to the Fund. The Fund's Chief Compliance Officer (CCO) may authorize disclosure of portfolio holdings.

The Fund may disclose its complete portfolio holdings or a portion of its portfolio holdings online at [www.wisdomtree.com](http://www.wisdomtree.com). Online disclosure of such holdings is publicly available at no charge.

The Fund will disclose its complete portfolio holdings schedule in public filings with the SEC on a quarterly basis, based on the Fund's fiscal year, within sixty (60) days of the end of the quarter, and will provide that information to shareholders, as required by federal securities laws and regulations thereunder.

No person is authorized to disclose the Fund's portfolio holdings or other investment positions except in accordance with the Policy. The Board reviews the implementation of the Policy on a periodic basis.

### INVESTMENT LIMITATIONS

The following fundamental investment policies and limitations supplement those set forth in the Fund's Prospectus. Unless otherwise noted, whenever a fundamental investment policy or limitation states a maximum percentage of the Fund's assets that may be invested in any security or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition of such security or other asset. Accordingly, other than with respect to the Fund's limitations on borrowings, any subsequent change in values, net assets, or other circumstances will not be considered when determining whether the investment complies with

the Fund's investment policies and limitations.

The Fund's fundamental investment policies cannot be changed without the approval of the holders of a majority of the Fund's outstanding voting securities as defined under the 1940 Act. The Fund, however, may change the non-fundamental investment policies described below and its investment objective without a shareholder vote, provided that it obtains Board approval and provides its shareholders with at least sixty (60) days' prior written notice of any such change.

**Fundamental Policies.** The following investment policies and limitations are fundamental and may NOT be changed without shareholder approval.

The Fund, as a fundamental investment policy, may not:

**Senior Securities**

Issue senior securities, except as permitted under the 1940 Act.

**Borrowing**

Borrow money, except as permitted under the 1940 Act.

**Underwriting**

Act as an underwriter of another issuer's securities, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act in the disposition of portfolio securities.

**Concentration**

Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. government, or their respective agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry.

**Real Estate**

Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).

**Commodities**

Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).

**Loans**

Lend any security or make any other loan except as permitted under the 1940 Act. This means that no more than 33 $\frac{1}{3}$ % of the Fund's total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments permissible under the Fund's investment policies.

**Non-Fundamental Policies.** The Fund has adopted a non-fundamental investment policy in accordance with Rule 35d-1 under the 1940 Act to invest, under normal circumstances, at least 80% of the value of its net assets, plus the amount of any borrowings for investment purposes, in Fixed Income Securities. For these purposes, Fixed Income Securities include debt instruments, such as bonds, notes, money market securities, and other debt obligations (such as loan participation notes) issued by the Brazilian government, quasi-sovereigns, and corporations that are organized in or have their principal place of business in Brazil, as well as certain derivatives described herein and in the Fund's Prospectus. If, subsequent to an investment, the 80% requirement is no longer met, the Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy.

**CONTINUOUS OFFERING**

## Edgar Filing: WisdomTree Trust - Form 485APOS

The method by which Creation Unit Aggregations of shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Unit Aggregations of shares are issued and sold by the Fund on an ongoing basis, at any point a

distribution, as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Unit Aggregations after placing an order with the Fund's Distributor, breaks them down into constituent shares, and sells such shares directly to customers, or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market demand for shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not underwriters but are effecting transactions in shares, whether or not participating in the distribution of shares, generally are required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus delivery obligation with respect to shares of the Fund are reminded that, pursuant to Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with the sale on the Listing Exchange is satisfied by the fact that the prospectus is available at the Listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

### MANAGEMENT OF THE TRUST

**Board Responsibilities.** The Board is responsible for overseeing the management and affairs of the Fund and the Trust. The Board has considered and approved contracts, as described herein, under which certain companies provide essential management and administrative services to the Trust. Like most ETFs, the day-to-day business of the Trust, including the day-to-day management of risk, is performed by third-party service providers, such as the Advisers, Distributor and Administrator. The Board is responsible for overseeing the Trust's service providers and, thus, has oversight responsibility with respect to the risk management performed by those service providers. Risk management seeks to identify and eliminate or mitigate the potential effects of risks, i.e., events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Trust or the Fund. Under the overall supervision of the Board and the Audit Committee (discussed in more detail below), the service providers to the Fund employ a variety of processes, procedures and controls to identify risks relevant to the operations of the Trust and the Fund to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (e.g., the Advisers are responsible for the day-to-day management of the Fund's portfolio investments) and, consequently, for managing the risks associated with that activity.

The Board's role in risk management oversight begins before the inception of the Fund, at which time the Fund's Adviser presents the Board with information concerning the investment objectives, strategies and risks of the Fund. Additionally, the Fund's Adviser and Sub-Adviser provide the Board with an overview of, among other things, its investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board oversees the risk management of the Fund's operations, in part, by requesting periodic reports from and otherwise communicating with various personnel of the Fund and its service providers, including the Trust's CCO and the Fund's independent registered public accountants. The Board and, with respect to identified risks that relate to its scope of expertise, the Audit Committee oversee efforts by management and service providers to manage risks to which the Fund may be exposed.

The Board is responsible for overseeing the nature, extent and quality of the services provided to the Fund by the Adviser and receives information about those services at its regular meetings. In addition, on at least an annual basis, in connection with its consideration of whether to renew any Advisory Agreements and Sub-Advisory Agreements with the Adviser and Sub-Adviser, respectively, the Board meets with the Adviser and Sub-Adviser to review such services. Among other things, the Board regularly considers the Adviser's and Sub-Adviser's adherence to the Fund's investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about the Fund's performance and investments.

The Trust's CCO meets regularly with the Board to review and discuss compliance and other issues. At least annually, the Trust's CCO provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Advisers. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and material compliance matters since the date of the last report.

The Board receives reports from the Trust's service providers regarding operational risks, portfolio valuation and other matters. Annually, an independent registered public accounting firm reviews with the Audit Committee its audit of the Trust's financial statements, focusing on major areas of risk encountered by the Trust and noting any significant deficiencies or material weaknesses in the Trust's internal controls.

The Board recognizes that not all risks that may affect the Fund can be identified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, despite the periodic reports the Board receives and the Board's discussions with the service providers to the Fund, it may not be made aware of all of the relevant information of a particular risk. Most of the Trust's investment management and business affairs are carried out by or through the Fund's Adviser, Sub-Adviser and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the Trust's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's risk management oversight is subject to substantial limitations.

**Members of the Board and Officers of the Trust.** Set forth below are the names, birth years, positions with the Trust, term of office, number of portfolios overseen, and the principal occupations and other directorships for a minimum of the last five years of each of the persons currently serving as members of the Board and as Executive Officers of the Trust. Also included below is the term of office for each of the Executive Officers of the Trust. The members of the Board serve as Trustees for the life of the Trust or until retirement, removal, or their office is terminated pursuant to the Trust's Declaration of Trust. The address of each Trustee and Officer is c/o WisdomTree Asset Management, Inc., 380 Madison Avenue, 21st Floor, New York, New York 10017.

The Chairman of the Board, Victor Ugolyn, is not an interested person of the Fund as that term is defined in the 1940 Act. The Board is composed of a super-majority (75 percent) of Trustees who are not interested persons of the Fund (i.e., Independent Trustees). There is an Audit Committee and Governance and Nominating Committee of the Board, each of which is chaired by an Independent Trustee and comprised solely of Independent Trustees. The Committee chair for each is responsible for running the Committee meeting, formulating agendas for those meetings, and coordinating with management to serve as a liaison between the Independent Trustees and management on matters within the scope of the responsibilities of the Committee as set forth in its Board-approved charter. The Fund has determined that this leadership structure is appropriate given the specific characteristics and circumstances of the Fund. The Fund made this determination in consideration of, among other things, the fact that the Independent Trustees of the Fund constitute a super-majority of the Board, the assets under management of the Fund, the number of Funds overseen by the Board, the total number of Trustees on the Board, and the fact that an Independent Trustee serves as Chair of the Board.

## Edgar Filing: WisdomTree Trust - Form 485APOS

since October 2011; Senior Compliance Officer, TIAA-CREF, 2007 to 2010; Vice President/NASD-SEC Compliance, Mutual of America Life Insurance Co., 2004 to 2007.

\* Chair of the Governance and Nominating Committee.

\*\* Chair of the Audit Committee.

\*\*\* Elected by and serves at the pleasure of the Board.

+ As of \_\_\_\_\_, 2013.

**Audit Committee.** Each Independent Trustee, except Joel Goldberg, is a member of the Trust's Audit Committee (the "Audit Committee"). The principal responsibilities of the Audit Committee are the appointment, compensation and oversight of the Trust's independent registered public accountants, including the resolution of disagreements regarding financial reporting between Trust management and such independent registered public accountants. The Audit Committee's responsibilities include, without limitation, to (i) oversee the accounting and financial reporting processes of the Trust and its internal control over financial reporting and, as the Committee deems appropriate, to inquire into the internal control over financial reporting of certain third-party service providers; (ii) oversee the quality and integrity of the Fund's financial statements and the independent audits thereof; (iii) oversee, or, as appropriate, assist Board oversight of, the Trust's compliance with legal and regulatory requirements that relate to the Trust's accounting and financial reporting, internal control over financial reporting and independent audits; (iv) approve prior to appointment the engagement of the Trust's independent registered public accountants and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent registered public accountants; and (v) act as a liaison between the Trust's independent registered public accountants and the full Board. The Board of the Trust has adopted a written charter for the Audit Committee. The Independent Trustees' independent legal counsel assists the Audit Committee in connection with these duties. During the fiscal year ended August 31, 2012, the Audit Committee held six meetings.

**Governance and Nominating Committee.** Each Independent Trustee is also a member of the Trust's Governance and Nominating Committee. The principal responsibilities of the Governance and Nominating Committee are to (i) oversee Fund governance matters and (ii) identify individuals qualified to serve as Independent Trustees of the Trust and to recommend its nominees for consideration by the full Board. While the Governance and Nominating Committee is solely responsible for the selection and nomination of the Trust's Independent Trustees, the Governance and Nominating Committee may consider nominations for the office of Trustee made by Trust stockholders as it deems appropriate. The Governance and Nominating Committee considers nominees recommended by shareholders if such nominees are submitted in accordance with Rule 14a-8 of the Securities Exchange Act of 1934 (the "1934 Act"), in conjunction with a shareholder meeting to consider the election of Trustees. Trust stockholders who wish to recommend a nominee should send nominations to the Secretary of the Trust that include biographical information and set forth the qualifications of the proposed nominee. During the fiscal year ended August 31, 2012, the Governance and Nominating Committee held two meetings.

**Individual Trustee Qualifications.** The Trust has concluded that each of the Trustees should serve on the Board because of his or her ability to review and understand information about the Trust and the Fund provided by management, to identify and request other information he or she may deem relevant to the performance of the Trustees' duties, to question management and other service providers regarding material factors bearing on the management and administration of the Fund, and to exercise his or her business judgment in a manner that serves the best interests of the Fund's shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on his or her own experience, qualifications, attributes and skills as described below.

The Trust has concluded that Mr. Steinberg should serve as Trustee of the Fund because of the experience he has gained as President, Chief Executive Officer and director of WisdomTree Investments, his knowledge of and experience in the financial services industry, and the experience he has gained serving as Trustee of the Trust since 2005.

The Trust has concluded that Mr. Goldberg should serve as Trustee of the Fund because of the experience he has gained as a member of the staff of the SEC, including serving as Director of the SEC's Division of Investment Management, as well as his experience as legal counsel for many mutual funds, investment advisers, and independent directors.

The Trust has concluded that Ms. Massaro should serve as Trustee of the Fund because of the experience she has gained as a law professor, dean and advisor at various universities, and the experience she has gained serving as Trustee of the Trust since 2006.

The Trust has concluded that Mr. Ugolyn should serve as Trustee of the Fund because of the experience he gained as chief executive officer of a firm specializing in financial services, his experience in and knowledge of the financial services industry, his service as chairman for another mutual fund family, and the experience he has gained serving as Trustee of the Trust since 2006.

Edgar Filing: WisdomTree Trust - Form 485APOS

**Fund Shares Owned by Board Members.** The following table shows the dollar amount range of each Trustee's beneficial ownership of shares of the Fund and each other series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. Beneficial ownership is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The Trustees and officers of the Trust collectively own less than 1% of the outstanding shares of the Trust.

Name of Trustee	Name of Fund	Dollar Range of Equity Securities in the Funds*	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies**
<b>Interested Trustee</b>			
Jonathan L. Steinberg	WisdomTree Brazil Bond Fund	None	Over \$100,000

Victor Ugolyn	\$ [ ]	None	None	\$ [ ]

\* The Trust is the only trust in the Fund Complex.

\*\* Gregory Barton resigned from the Board on October 5, 2012.

\*\*\* Joel Goldberg was appointed to the Board on October 5, 2012.

**Control Persons and Principal Holders of Securities.** Because the Fund is new there were no beneficial owners as of the date of this SAI.

## Edgar Filing: WisdomTree Trust - Form 485APOS

**Investment Adviser.** WisdomTree Asset Management serves as investment adviser to the Fund pursuant to an investment advisory agreement between the Trust and WisdomTree Asset Management (the Investment Advisory Agreement). WisdomTree Asset Management is a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the Advisers Act), and has offices located at 380 Madison Avenue, 21st Floor, New York, New York 10017. As of [redacted], 2013, WisdomTree Asset Management had assets under management totaling approximately \$[redacted] billion.

Under the Investment Advisory Agreement, WisdomTree Asset Management has overall responsibility for the general management and administration of the Trust. WisdomTree Asset Management provides an investment program for the Fund. The Adviser also

arranges for sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution-related services necessary for the Fund to operate. The Fund pays WisdomTree Asset Management a fee equal to [ ]% of the Fund's average daily net assets. WisdomTree Asset Management has agreed to pay all expenses of the Fund, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WisdomTree Asset Management.

Pursuant to a separate contractual arrangement between the Trust, on behalf of the Fund, and the Adviser, through March 31, 2013, WisdomTree Asset Management arranges for the provision of CCO services and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a fee paid by the Fund of up to 0.0044% of the Fund's average daily net assets.

The Adviser, from its own resources, including profits from advisory fees received from the Fund, provided such fees are legitimate and not excessive, may make payments to broker-dealers and other financial institutions for their expenses in connection with the distribution of Fund shares, and otherwise currently pays all distribution costs for Fund shares.

The Investment Advisory Agreement with respect to the Fund continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board of Trustees of the Trust or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, provided that in either event such continuance also is approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of the Fund fail to approve the Investment Advisory Agreement, WisdomTree Asset Management may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder.

The Investment Advisory Agreement with respect to the Fund is terminable without any penalty, by vote of the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, or by WisdomTree Asset Management, in each case on not less than thirty (30) days nor more than sixty (60) days prior written notice to the other party; provided that a shorter notice period shall be permitted for the Fund in the event its shares are no longer listed on a national securities exchange. The Investment Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

**Sub-Adviser.** The sub-adviser to the Fund is [ ], a wholly-owned subsidiary of [ ]. Established in [ ], the Sub-Adviser has offices located at and acts as investment adviser to institutional accounts, such as corporate pension plans, mutual funds and endowment funds. As of [ ], 2013, the total assets under management of the Sub-Adviser was approximately \$ [ ] billion.

As Sub-Adviser, [ ] is responsible for the day-to-day management of the Fund and chooses the Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments. For its services, the Sub-Adviser is paid a fee by the Adviser based on the average daily net assets of the Fund or a minimum annual fee (whichever is greater).

The Sub-Advisory Agreement with respect to the Fund continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board of Trustees of the Trust or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, provided that in either event such continuance is also approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. The Sub-Advisory Agreement with respect to the Fund is terminable without any penalty, by vote of the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, or by WisdomTree Asset Management, in each case on not less than thirty (30) days nor more than sixty (60) days prior written notice to the Sub-Adviser; provided that a shorter notice period shall be permitted for the Fund in the event its shares are no longer listed on a national securities exchange. The Sub-Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

**Portfolio Managers.** The Sub-Adviser utilizes a broad team of investment professionals to manage the assets of the Fund. In the context of this broader team, senior members of the portfolio management team are responsible for the development of investment strategy and oversight for the Fund and coordination of other relevant investment team members. They work together with the broader Sub-Adviser investment team on portfolio structure, duration weighting and term structure decisions.

The individual members of the investment team who are primarily responsible for the day-to-day management, oversight and coordination of the Fund's portfolio are listed below.

[To be provided by amendment]

Portfolio Manager	Registered Investment Companies Accounts	Assets Managed (billions)	Pooled Investment Vehicle Accounts	Assets Managed (billions)	Other Accounts	Assets Managed (billions)
----------------------	---------------------------------------------------	------------------------------	---------------------------------------------	------------------------------	----------------	------------------------------

**Portfolio Manager Fund Ownership.** As of the date of this SAI, none of the portfolio managers owned shares of the Fund.

**Portfolio Manager Compensation.** With respect to the compensation of portfolio managers, the Sub-Adviser's compensation system assigns each employee a total compensation range, which is derived from annual market surveys that benchmark each role with its job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience and ability to produce desired results. Standard compensation includes competitive base salaries, generous employee benefits and a retirement plan.

In addition, the Sub-Adviser's employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Sub-Adviser, and are determined by the professional's job function and pre-tax performance as measured by a formal review process. All bonuses are completely discretionary. The principal factor considered is a portfolio manager's investment performance versus appropriate peer groups and benchmarks (e.g., a securities index and, with respect to a fund, the benchmark set forth in the fund's prospectus to which the fund's average annual total returns are compared or, if none, the benchmark set forth in the fund's annual report). Performance is reviewed on a 1, 3 and 5 year basis for compensation with 3 and 5 years having a larger emphasis. The Sub-Adviser may also measure a portfolio manager's pre-tax investment performance against other benchmarks, as it determines appropriate. Because portfolio managers are generally responsible for multiple accounts (including the Fund) with similar investment strategies, they are generally compensated on the performance of the aggregate group of similar accounts, rather than a specific account. Other factors that may be considered when making bonus decisions include client service, business development, length of service to the Sub-Adviser, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Sub-Adviser's business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason stock options and long-term incentives that vest over a set period of time past the award date.

**Description of Material Conflicts of Interest.** Because the portfolio managers manage multiple portfolios for multiple clients, the potential for conflicts of interest exists. Each portfolio manager generally manages portfolios having substantially the same investment style as the Fund. However, the portfolios managed by a portfolio manager may not have portfolio compositions identical to those of the Fund due, for example, to specific investment limitations or guidelines present in some portfolios or accounts, but not in others. The portfolio managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. A portfolio manager may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of the Fund, or may make investment decisions that are similar to those made for the Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, a portfolio manager may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and the other accounts. However, the compensation structure for portfolio managers does not generally provide incentive to favor one account over another, because that part of a manager's bonus based on performance is not based on the performance of one account to the exclusion of others. There are many other factors considered in determining the portfolio manager's bonus and there is no formula that is applied to weight the factors listed. In addition, current trading practices do not allow the Adviser or Sub-Adviser to intentionally favor one portfolio over another as trades are executed or as trade orders are received. Portfolio rebalancing dates also generally vary between fund families. Program trades created from the portfolio rebalance are executed at market close. There is no guarantee that the Adviser, the Sub-Adviser and the portfolio managers will be able to identify or mitigate these conflicts of interest.

Examples of material conflicts of interest include, but are not limited to:

**Allocation of Limited Time and Attention.** A portfolio manager who is responsible for managing multiple funds and/or accounts may devote unequal time and attention to the management of those funds and/or accounts. A portfolio manager may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those funds and accounts as might be the case if he or she were to devote substantially more attention to the management of a single fund. Such a

portfolio manager may make general determinations across multiple funds, rather than tailoring a unique approach for each fund. The effects of this conflict may be more pronounced where funds and/or accounts overseen by a particular portfolio manager have different investment strategies.

*Allocation of Limited Investment Opportunities; Aggregation of Orders.* If a portfolio manager identifies a limited investment opportunity that may be suitable for multiple funds and/or accounts, the opportunity may be allocated among these several funds or accounts, which may limit a fund's ability to take full advantage of the investment opportunity. Additionally, the Sub-Adviser may aggregate transaction orders for multiple accounts for purpose of execution. Such aggregation may cause the price or brokerage costs to be less favorable to a particular client than if similar transactions were not being executed concurrently for other accounts. In addition, the Sub-Adviser's trade allocation policies may result in a fund's orders not being fully executed or being delayed in execution.

*Pursuit of Differing Strategies.* At times, a portfolio manager may determine that an investment opportunity may be appropriate for only some of the funds and/or accounts for which he or she exercises investment responsibility, or may decide that certain of the funds and/or accounts should take differing positions with respect to a particular security. In these cases, the portfolio manager may place separate transactions for one or more funds or accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other funds and/or accounts. For example, a portfolio manager may determine that it would be in the interest of another account to sell a security that a fund holds long, potentially resulting in a decrease in the market value of the security held by the fund.

*Cross Trades.* Portfolio managers may manage funds that engage in cross trades, where one of the manager's funds or accounts sells a particular security to another fund or account managed by the same manager. Cross trades may pose conflicts of interest because of, for example, the possibility that one account sells a security to another account at a higher price than an independent third party would pay or otherwise enters into a transaction that it would not enter into with an independent party, such as the sale of a difficult-to-obtain security.

*Selection of Broker/Dealers.* Portfolio managers may select or influence the selection of the brokers and dealers that are used to execute securities transactions for the funds and/or accounts that they supervise. In addition to executing trades, some brokers and dealers provide the Sub-Adviser with brokerage and research services. The Sub-Adviser does not consider the provision or value of such services in the selection of a broker or dealer. Nonetheless, the services obtained may ultimately be more beneficial to certain of the manager's funds or accounts than to others. A decision as to the selection of brokers and dealers could therefore yield disproportionate costs and benefits among the funds and/or accounts managed.

*Variation in Financial and Other Benefits.* A conflict of interest arises where the financial or other benefits available to a portfolio manager differ among the funds and/or accounts that he or she manages. If the amount or structure of the Sub-Adviser's fee differs among funds and/or accounts (such as where certain funds or accounts pay higher management fees or performance-based management fees), the portfolio manager might be motivated to help certain funds and/or accounts over others. Similarly, the desire to maintain assets under management or to enhance the portfolio manager's performance record or to derive other rewards, financial or otherwise, could influence the portfolio manager in affording preferential treatment to those funds and/or accounts that could most significantly benefit the portfolio manager. A portfolio manager may, for example, have an incentive to allocate favorable or limited opportunity investments or structure the timing of investments to favor such funds and/or accounts. Also, a portfolio manager's or the Sub-Adviser's desire to increase assets under management could influence the portfolio manager to keep a fund open for new investors without regard to potential benefits of closing the fund to new investors. Additionally, the portfolio manager might be motivated to favor funds and/or accounts in which he or she has an ownership interest or in which the investment manager and/or its affiliates have ownership interests. Conversely, if a portfolio manager does not personally hold an investment in the fund, the portfolio manager's conflicts of interest with respect to the fund may be more acute.

*Related Business Opportunities.* The Sub-Adviser or its affiliates may provide more services (such as distribution or recordkeeping) for some types of funds or accounts than for others. In such cases, a portfolio manager may benefit, either directly or indirectly, by devoting disproportionate attention to the management of funds and/or accounts that provide greater overall returns to the Sub-Adviser and its affiliates.

*Codes of Ethics.* The Trust, the Advisers and the Distributor have each adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act and Rule 204A-1 under the Advisers Act, where applicable. Each Code of Ethics permits personnel subject to that Code of Ethics to invest in securities for their personal investment accounts, subject to certain limitations, including securities that may be purchased or held by the Fund. Each Code of Ethics is on public file with, and is available from, the SEC.

*Administrator, Custodian, Transfer Agent and Securities Lending Agent.* The Bank of New York Mellon (BNY Mellon) serves as administrator, custodian, transfer agent and securities lending agent for the Fund. BNY Mellon's principal address is One Wall Street, New York, New York 10286. Under the Fund Administration and Accounting Agreement with the Trust, BNY Mellon provides necessary administrative, legal, tax, accounting services and financial reporting for the maintenance and operations of the Trust and the Fund. In addition, BNY Mellon makes available the office space, equipment, personnel and facilities required to provide such services. Under the custody agreement with the Trust, BNY Mellon maintains in separate accounts cash, securities and other assets of

the Trust and the Fund, keeps all necessary accounts and records, and provides other services. BNY Mellon is required, upon the order of the Trust, to deliver securities held by BNY Mellon and to make payments for securities purchased by the Trust for the Fund. Also, under a Delegation Agreement, BNY Mellon is authorized to appoint certain foreign custodians or foreign custody managers for Fund investments outside the United States. Pursuant to a Transfer Agency and Service Agreement with the Trust, BNY Mellon acts as transfer agent for the Fund's authorized and issued shares of beneficial interest, and as dividend disbursing agent of the Trust. As compensation for the foregoing services, BNY Mellon receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Trust from the Trust's custody account with BNY Mellon. BNY Mellon serves as the Fund's securities lending agent. As compensation for providing such services, BNY Mellon receives a portion of the income earned by the Fund on collateral investments made in connection with the lending program. The Fund is new and the Adviser had not paid BNY Mellon any fees for services to the Fund as of the fiscal year ended August 31, 2012.

**Distributor.** ALPS Distributors, Inc. serves as Distributor for the Trust and its principal address is 1290 Broadway, Suite 1100, Denver, Colorado 80203. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes shares of the Fund. The Distribution Agreement will continue for two years from its effective date and is renewable annually. Shares are continuously offered for sale by the Fund through the Distributor only in Creation Unit Aggregations, as described in the Fund's Prospectus and below in the Creation and Redemption of Creation Unit Aggregations section. Shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the Fund's Prospectus and, upon request, this SAI to persons purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority (FINRA). The Distributor is not affiliated with WisdomTree Investments, WisdomTree Asset Management, or any stock exchange.

The Distribution Agreement for the Fund will provide that it may be terminated at any time, without the payment of any penalty, on at least sixty (60) days' prior written notice to the other party (i) by vote of a majority of the Independent Trustees or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with securities dealers (Soliciting Dealers) who will solicit purchases of Creation Unit Aggregations of shares. Such Soliciting Dealers may also be Authorized Participants (as defined below) or DTC Participants (as defined below).

**Intermediary Compensation.** WisdomTree Asset Management or its affiliates, out of their own resources and not out of Fund assets (i.e., without additional cost to the Fund or its shareholders), may pay certain broker dealers, banks and other financial intermediaries (Intermediaries) for certain activities related to the Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, or for other activities, such as marketing and educational training or support. These arrangements are not financed by the Fund and, thus, do not result in increased Fund expenses. They are not reflected in the fees and expenses listed in the fees and expenses sections of the Fund's Prospectus and they do not change the price paid by investors for the purchase of the Fund's shares or the amount received by a shareholder as proceeds from the redemption of Fund shares.

Such compensation may be paid to Intermediaries that provide services to the Fund, including marketing and education support (such as through conferences, webinars and printed communications). WisdomTree Asset Management periodically assesses the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause the Intermediary to recommend the Fund over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professionals if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by WisdomTree Asset Management or its affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy shares of WisdomTree Funds.

If you have any additional questions, please call 1-866-909-9473.

## BROKERAGE TRANSACTIONS

The Sub-Adviser assumes general supervision over placing orders on behalf of the Fund for the purchase and sale of portfolio securities. In selecting the brokers or dealers for any transaction in portfolio securities, the Sub-Adviser's policy is to make such selection based on factors deemed relevant, including but not limited to, the breadth of the market in the security; the price of the

security; the reasonableness of the commission or mark-up or mark-down, if any; execution capability; settlement capability; back office efficiency; and the financial condition of the broker or dealer, both for the specific transaction and on a continuing basis. The overall reasonableness of brokerage commissions paid is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Brokers may also be selected because of their ability to handle special or difficult executions, such as may be involved in large block trades, less liquid securities, broad distributions, or other circumstances. The Sub-Adviser does not consider the provision or value of research, products or services a broker or dealer may provide, if any, as a factor in the selection of a broker or dealer or the determination of the reasonableness of commissions paid in connection with portfolio transactions. The Trust has adopted policies and procedures that prohibit the consideration of sales of the Fund's shares as a factor in the selection of a broker or a dealer to execute its portfolio transactions. To the extent creation or redemption transactions are conducted on a cash or cash in lieu basis, the Fund may contemporaneously transact with broker-dealers for the purchase or sale of portfolio securities in connection with such transactions (see *Creation and Redemption of Creation Unit Aggregations* herein). Such orders may be placed with an Authorized Participant in its capacity as broker-dealer or with an affiliated broker-dealer of such Authorized Participant. In such cases, the Fund will require such broker-dealer to achieve execution at a price that is at least as favorable to the Fund as the value of such securities used to calculate the Fund's NAV. The broker-dealer will be required to reimburse the Fund for, among other things, any difference between the price (including applicable brokerage commissions, taxes and transaction costs) at which such securities were bought or sold and the value of such securities used to calculate the Fund's NAV. This amount will vary depending on the quality of the execution and may be capped at amounts determined by WisdomTree Asset Management in its sole discretion.

#### **Brokerage Commissions**

The Fund is new and had not paid any brokerage commissions as of the fiscal year ended August 31, 2012.

#### **Affiliated Brokers**

The Fund is new and had not paid any commissions to any affiliated brokers as of the fiscal year ended August 31, 2012.

#### **Regular Broker-Dealers**

The Fund is new and did not acquire securities of its regular brokers or dealers (as defined in the 1940 Act) or of their parents during the fiscal year ended August 31, 2012.

#### **Portfolio Turnover**

Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Adviser based upon its knowledge of available information as to the general level of commissions paid by the other institutional investors for comparable services.

The Fund is new and therefore did not have a portfolio turnover rate for the fiscal year ended August 31, 2012.

### **ADDITIONAL INFORMATION CONCERNING THE TRUST**

**Shares.** The Trust was established as a Delaware statutory trust on December 15, 2005, and consists of multiple series of funds ( Funds ). The Fund issues shares of beneficial interest, with \$0.001 par value. The Board may establish additional Funds. The Trust is registered with the SEC as an open-end management investment company.

Each share issued by the Fund has a pro rata interest in the assets of the Fund. Shares have no preemptive, exchange, subscription or conversion rights and are freely transferable. Each share is entitled to participate equally in dividends and distributions declared by the Board with respect to the Fund, and in the net distributable assets of the Fund on liquidation.

Each share has one vote with respect to matters upon which a shareholder vote is required consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all Funds vote together as a single class except that if the matter being voted on affects only a particular Fund or if a matter affects a particular Fund differently from other Funds, that Fund will vote separately on such matter.

Under Delaware law, the Trust is not required to hold an annual meeting of shareholders unless required to do so under the 1940 Act. The policy of the Trust is not to hold an annual meeting of shareholders unless required to do so under the 1940 Act. All shares (regardless of the Fund) have non-cumulative voting rights for the Board. Under Delaware law, Trustees of the Trust may be removed by vote of the shareholders.

Following the creation of the initial Creation Unit Aggregation(s) of shares of the Fund and immediately prior to the commencement of trading in the Fund's shares, a holder of shares may be a control person of the Fund, as defined in the 1940 Act. The Fund cannot accurately predict the length of time for which one or more shareholders may remain a control person or persons of the Fund.

Shareholders may make inquiries by writing to the Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203.

Absent an applicable exemption or other relief from the SEC or its staff, beneficial owners of more than 5% of the shares of the Fund may be subject to the reporting provisions of Section 13 of the 1934 Act and the SEC's rules promulgated thereunder. In addition, absent an applicable exemption or other relief from the SEC staff, officers and Trustees of the Fund and beneficial owners of 10% of the shares of the Fund (Insiders) may be subject to the insider reporting, short-swing profit and short-sale provisions of Section 16 of the 1934 Act and the SEC's rules promulgated thereunder. Beneficial owners and Insiders should consult with their own legal counsel concerning their obligations under Sections 13 and 16 of the 1934 Act.

**Termination of the Trust or the Fund.** The Trust or the Fund may be terminated by a majority vote of the Board of Trustees or the affirmative vote of a super-majority of the holders of the Trust or the Fund entitled to vote on termination. Although the shares are not automatically redeemable upon the occurrence of any specific event, the Trust's organizational documents provide that the Board will have the unrestricted power to alter the number of shares in a Creation Unit Aggregation. In the event of a termination of the Trust or the Fund, the Board, in its sole discretion, could determine to permit the shares to be redeemable in aggregations smaller than Creation Unit Aggregations or to be individually redeemable. In such circumstances, the Trust may make redemptions in-kind, for cash, or for a combination of cash and securities.

**Role of the Depositary Trust Company ( DTC ).** DTC acts as Securities Depository for the shares of the Trust. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants ( DTC Participants ) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities' certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or their representatives) own DTC. More specifically, DTC is owned by a number of DTC Participants and by the NYSE, the AMEX and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly ( Indirect Participants ).

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as Beneficial Owners ) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of shares. No Beneficial Owner shall have the right to receive a certificate representing such shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form and number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all shares of the Trust. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a street name, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants. DTC may

decide to discontinue its service with respect to shares of the Trust at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

### CREATION AND REDEMPTION OF CREATION UNIT AGGREGATIONS

**Creation.** The Trust issues and sells shares of the Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt, on any Business Day, of an order in proper form.

**Fund Deposit.** The consideration for purchase of Creation Unit Aggregations of the Fund generally consists of (i) the in-kind deposit of a designated portfolio of fixed income securities closely approximating the holdings of the Fund (including any portion of such securities for which cash may be substituted) (the *Deposit Securities*) and (ii) an amount of cash denominated in U.S. dollars computed as described below (the *Cash Component*). Together, the Deposit Securities and the Cash Component constitute the *Fund Deposit*, which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of the Fund.

The Cash Component is sometimes also referred to as the *Balancing Amount*. The Cash Component is an amount equal to the difference between the NAV of the shares (per Creation Unit Aggregation) and the value of Deposit Securities. If the Cash Component is a positive number, the Authorized Participant will deliver the Cash Component. If the Cash Component is a negative number, the Authorized Participant will receive the Cash Component. The Cash Component does not include any stamp duty tax or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities. These are the sole responsibility of the Authorized Participant.

The Fund, through the National Securities Clearing Corporation ( *NSCC* ), makes available on each Business Day, prior to the opening of business on the Listing Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of fixed income securities and other instruments that constitute the Deposit Securities to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Deposit Securities are applicable, subject to any adjustments as described below, in order to effect creations of Creation Unit Aggregations of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Fund changes from time to time.

In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (i.e., a *cash in lieu* amount) to be added to the Cash Component at its discretion (typically 102%-110% of the value of any missing Deposit Security). For example, cash may be substituted to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC. The Trust also reserves the right to permit or require a *cash in lieu* amount where the delivery of the Deposit Security by the Authorized Participant (as described below) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws, or in other situations deemed appropriate by the Trust. While the Fund does not expect to issue and redeem Creation Unit Aggregations solely for cash in an amount based on the NAV per Creation Unit Aggregation, it reserves the right to use this approach.

**Procedures for Creation of Creation Unit Aggregations.** To be eligible to place orders with the Distributor and to create a Creation Unit Aggregation of the Fund, an entity must be a DTC Participant. Such entity must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit Aggregations ( *Participant Agreement* ). A DTC Participant that has entered a Participation Agreement is referred to as an *Authorized Participant*. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All shares of the Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create shares must be placed for one or more Creation Unit Aggregations. All orders to create Creation Unit Aggregations of the Fund must be received by the Distributor no later than the closing time of the regular trading session on the Listing Exchange ( *Closing Time* ) (ordinarily 4:00 p.m., Eastern time) on the date such orders are placed in order to receive that day's NAV. All orders must be received in proper form. The date on which an order to create Creation Unit Aggregations is placed is referred to as the *Transmittal Date*. Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below, which procedures may change from time to time without notice at the discretion of the Trust. Economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach the Distributor or an Authorized Participant. On days when the Listing Exchange or U.S. markets close earlier than normal, the Fund may require purchase orders to be placed earlier in the day. All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding.

If BNY Mellon does not receive both the required Deposit Securities and the Cash Component by the specified time on the Settlement Date, the Trust may cancel or revoke acceptance of such order. Upon written notice to the Distributor, such canceled or revoked order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date.

Creation Unit Aggregations may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the shares on the date the order is placed in proper form since, in addition to available Deposit Securities, U.S. cash (or an equivalent amount of non-U.S. currency) must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) at least 102%, which the Trust may change from time to time, of the market value of the undelivered Deposit Securities (the Additional Cash Deposit ) with the Fund pending delivery of any missing Deposit Securities.

The Authorized Participant must deposit with BNY Mellon the appropriate amount of federal funds by 2:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If BNY Mellon does not receive the Additional Cash Deposit in the appropriate amount by such time, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of U.S. cash (or an equivalent amount of non-U.S. currency) shall be required to be deposited with BNY Mellon pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 102%, which the Trust may change from time to time, of the daily marked-to-market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by the specified time on the Settlement Date, or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Securities.

The Authorized Participant will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the Transmittal Date plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by BNY Mellon or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as listed below, will be charged in all cases. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date.

All orders to create Creation Unit Aggregations through an Authorized Participant shall be placed with an Authorized Participant, in the form required by such Authorized Participant. In addition, the Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, in that case, orders to create Creation Unit Aggregations of the Fund have to be placed by each investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases, there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

Those placing orders for Creation Unit Aggregations of International Funds (including the Fund) should ascertain the applicable deadline for cash transfers by contacting the operations department of the broker or depository institution making the transfer of the Cash Component. This deadline is likely to be significantly earlier than the closing time of the regular trading session on the Listing Exchange. Investors should be aware that the Authorized Participant may require orders for Creation Units placed with it to be in the form required by the individual Authorized Participant, which form may not be the same as the form of purchase order specified by the Trust that the Authorized Participant must deliver to the Distributor.

**Placement of Creation Orders.** With respect to any non-U.S. securities, BNY Mellon shall cause the sub-custodians of the Fund to maintain an account into which the Authorized Participant shall deliver the securities included in the designated Fund Deposit (or the cash value of all or part of such securities, in the case of a permitted or required cash purchase or cash in lieu amount), with any appropriate adjustments as advised by the Trust. Deposit Securities must be delivered to an account maintained at the applicable local sub-custodian(s). Authorized Participants must have appropriate local custodial or sub-custodial accounts in the applicable non-U.S. market in which the Fund operates for delivery and receipt of non-U.S. securities and non-U.S. currency. When a non-U.S. market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period.

To the extent contemplated by the applicable Participant Agreement, Creation Unit Aggregations of International Funds may be issued to such Authorized Participant notwithstanding the fact that the corresponding Fund Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Securities as soon as possible. Such undertaking shall be secured by such Authorized Participant's delivery and maintenance of collateral consisting of cash in the form of U.S. dollars in immediately available funds having a value (marked-to-market daily) at least equal to 110% of the value of the missing Deposit Securities, which amount may change from time to time in WisdomTree Asset Management's sole discretion. Such cash collateral must be delivered no later than 2:00 p.m., Eastern time, on the contractual settlement date. The Participant Agreement will permit the Fund to buy the missing Deposit Securities at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the value of the

collateral.

**Cash Purchases.** When, in the sole discretion of the Trust, cash purchases of Creation Unit Aggregations of shares are available or specified for the Fund, such purchases shall be effected in essentially the same manner as in-kind purchases thereof. In the case of a cash purchase, the Authorized Participant must pay the cash equivalent of the Deposit Securities it would otherwise be required to provide through an in-kind purchase, plus the same Cash Component required to be paid by an in-kind purchaser. In addition, to offset brokerage and other costs associated with using cash to purchase the requisite Deposit Securities, the Authorized Participant must pay the Transaction Fees required by the Fund. If the Authorized Participant acts as a broker for the Fund in connection with the purchase of Deposit Securities, the Authorized Participant will also be required to pay certain brokerage commissions, taxes, and transaction and market impact costs as discussed under the heading **Brokerage Transactions** herein.

**Acceptance of Orders for Creation Unit Aggregations.** The Trust reserves the absolute right to reject or revoke acceptance of a creation order transmitted to it by the Distributor with respect to the Fund. Orders may be rejected and acceptance may be revoked if, for example: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the Deposit Securities delivered are not the same as those disseminated through the facilities of the NSCC for that date by the Fund as described above; (iv) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or WisdomTree Asset Management, have an adverse effect on the Trust or the rights of beneficial owners; or (vii) in the event that circumstances outside the control of the Trust, BNY Mellon, the Distributor or WisdomTree Asset Management make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, WisdomTree Asset Management, the Distributor, DTC, NSCC, BNY Mellon or a sub-custodian or any other participant in the creation process and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit Aggregation of its rejection of the order of such person. The Trust, BNY Mellon, a sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

**Creation/Redemption Transaction Fee.** The Fund imposes a Transaction Fee on investors purchasing or redeeming Creation Units. The purpose of the Transaction Fee is to protect the existing shareholders of the Fund from the dilutive costs associated with the purchase and redemption of Creation Units. Where the Fund permits cash creations (or redemptions) or cash in lieu of depositing one or more Deposit Securities, the purchaser (or redeemer) may be assessed a higher Transaction Fee to offset the transaction cost to the Fund of buying (or selling) those particular Deposit Securities. Transaction Fees for the Fund will differ from Transaction Fees for other WisdomTree Funds, depending on the transaction expenses related to the Fund's portfolio securities, and will be limited to amounts that have been determined by WisdomTree Asset Management to be appropriate. The maximum Transaction Fee, as set forth in the table below for the Fund, may be charged in cases where the Fund permits cash or cash in lieu of Deposit Securities. Investors purchasing or redeeming through the DTC process generally will pay a higher Transaction Fee than will investors doing so through the NSCC process. Also, investors who use the services of a broker or other such intermediary may be charged a fee for such services, in addition to the Transaction Fee imposed by the Fund.

The following table sets forth the standard and maximum creation and redemption Transaction Fee for the Fund. These fees may be changed by the Trust.

Fund	Standard Creation/Redemption Transaction Fee	Maximum Creation/Redemption Transaction Fee
WisdomTree Brazil Bond Fund	\$ [ ]	\$ [ ]

**Placement of Redemption Orders.** The process to redeem Creation Unit Aggregations works much like the process to purchase Creation Unit Aggregations, but in reverse. Orders to redeem Creation Unit Aggregations of the Fund must be delivered through an Authorized Participant. Investors other than Authorized Participants are responsible for making arrangements for a redemption request to be made through an Authorized Participant. Except as described herein, an order to redeem Creation Unit Aggregations of International Funds is deemed received by the Trust on the Transmittal Date if: (i) such order is received by BNY Mellon (in its capacity as Transfer Agent) not later than the Closing Time on the Transmittal Date; (ii) such order is accompanied or followed by the requisite number of shares of the Fund specified in such order, which delivery must be made through DTC to BNY Mellon no later than 10:00 a.m., Eastern time, on the next Business Day following the Transmittal Date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. Deliveries of Fund securities to redeeming investors ( Fund Securities ) generally will

be made within three Business Days. Due to the schedule of holidays in certain countries, however, the delivery of in-kind redemption proceeds for International Funds may take longer than three Business Days after the day on which the redemption request is received in proper form. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods. Such procedures may change from time to time without notice at the discretion of the Trust. Authorized Participants must have appropriate custodial or sub-custodial accounts in the applicable non-U.S. market(s) in which the Fund operates for delivery and receipt of non-U.S. securities and non-U.S. currency. Due to the schedule of holidays in certain countries, the delivery of redemption proceeds for the Fund may take longer than three Business Days after the day on which the redemption request is received in proper form. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods.

In connection with taking delivery of shares of Fund Securities upon redemption of shares of International Funds, a redeeming Beneficial Owner, or Authorized Participant acting on behalf of such Beneficial Owner, must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered.

If the requisite number of shares of the Fund is not delivered on the Transmittal Date as described above, the Fund may reject or revoke acceptance of the redemption request because the Authorized Participant has not satisfied all of the settlement requirements.

The current procedures for collateralization of missing shares require, among other things, that any cash collateral shall be in the form of U.S. dollars (or, at the discretion of the Trust, non-U.S. currency in an equivalent amount) in immediately available funds and shall be held by BNY Mellon and marked-to-market daily, and that the fees of BNY Mellon and any sub-custodians in respect of the delivery, maintenance and redelivery of the cash collateral shall be payable by the Authorized Participant. The Authorized Participant's agreement will permit the Trust, on behalf of the Fund, to purchase the missing shares or acquire the Deposit Securities and the Cash Component underlying such shares at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such shares, Deposit Securities or Cash Component and the value of the collateral.

The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Unit Aggregations for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit Aggregation may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment.

Because the portfolio securities of the Fund may trade on the relevant foreign exchange on days that the Listing Exchange is closed or that are otherwise not Business Days for the Fund, shareholders may not be able to redeem their Fund shares or to purchase and sell Fund shares on the Listing Exchange on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

**Cash Redemptions.** The Fund may pay out the proceeds of redemptions of Creation Unit Aggregations solely in cash or through any combination of cash or securities. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). Proceeds will be paid to the Authorized Participant redeeming shares on behalf of the redeeming investor as soon as practicable after the date of redemption. If the Authorized Participant acts as a broker for the Fund in connection with the sale of Fund Securities, the Authorized Participant will also be required to pay certain brokerage commissions, taxes, and transaction and market impact costs as discussed under the heading **Brokerage Transactions** herein.

**In-Kind Redemptions.** The ability of the Trust to effect in-kind creations and redemptions is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle may be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period. The Fund will not suspend or postpone redemption beyond seven days, except as permitted under Section 22(e) of the 1940 Act. Section 22(e) provides that the right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the New York Stock Exchange (NYSE) is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the NYSE is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal

## Edgar Filing: WisdomTree Trust - Form 485APOS

of the shares of the Fund's portfolio securities or determination of its net asset value is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

---

## TAXES

The following discussion of certain U.S. federal income tax consequences of investing in the Fund is based on the Code, U.S. Treasury regulations, and other applicable authority, all as in effect as of the date of the filing of this SAI. These authorities are subject to change by legislative or administrative action, possibly with retroactive effect. The following discussion is only a summary of some of the important U.S. federal income tax considerations generally applicable to investments in the Fund. There may be other tax considerations applicable to particular shareholders. Shareholders should consult their own tax advisors regarding their particular situation and the possible application of foreign, state, and local tax laws.

**Qualification as a Regulated Investment Company (RIC).** The Fund intends to elect to be treated and qualify each year as a RIC under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, the Fund must, among other things:

(a) derive at least 90% of its gross income each year from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities or currencies, and (ii) net income derived from interests in qualified publicly traded partnerships (as defined below);

(b) diversify its holdings so that, at the end of each quarter of its taxable year, (i) at least 50% of the market value of the Fund's total assets consists of cash and cash items, U.S. government securities, securities of other RICs and other securities, with investments in such other securities limited with respect to any one issuer to an amount not greater than 5% of the value of the Fund's total assets and not greater than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets is invested in (1) the securities (other than those of the U.S. government or other RICs) of any one issuer or two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses or (2) the securities of one or more qualified publicly traded partnerships; and

(c) distribute with respect to each taxable year an amount at least equal to the sum of 90% of its investment company taxable income (as that term is defined in the Code without regard to the deduction for dividends paid generally taxable ordinary income and the excess, if any, of net short-term capital gains over net long-term capital losses) and 90% of its net tax-exempt interest income.

In general, for purposes of the 90% of gross income requirement described in (a) above, income derived from a partnership will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by the Fund. However, 100% of the net income derived from an interest in a qualified publicly traded partnership (generally, a partnership (i) interests in which are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof, and (ii) that derives less than 90% of its income from the qualifying income described in (a)(i) of the prior paragraph) will be treated as qualifying income. In addition, although in general the passive loss rules of the Code do not apply to RICs, such rules do apply to a RIC with respect to items attributable to an interest in a qualified publicly traded partnership.

The U.S. Treasury Department has authority to issue regulations that would exclude foreign currency gains from the 90% test described in (a) above if such gains are not directly related to a fund's business of investing in stock or securities. Accordingly, regulations may be issued in the future that could treat some or all of the Fund's non-U.S. currency gains as non-qualifying income, thereby potentially jeopardizing the Fund's status as a RIC for all years to which the regulations are applicable.

**Taxation of the Fund.** If the Fund qualifies for treatment as a RIC, the Fund will not be subject to federal income tax on income and gains that are distributed in a timely manner to its shareholders in the form of dividends.

If, for any taxable year, the Fund were to fail to qualify as a RIC or were to fail to meet the distribution requirement, it would be taxed in the same manner as an ordinary corporation and distributions to its shareholders would not be deductible by the Fund in computing its taxable income. In addition, the Fund's distributions, to the extent derived from the Fund's current and accumulated earnings and profits, including any distributions of net long-term capital gains, would be taxable to shareholders as ordinary dividend income for federal income tax purposes. However, such dividends would be eligible, subject to any generally applicable limitations, (i) to be treated as qualified dividend income in the case of shareholders taxed as individuals and (ii) for the dividends-received deduction in the case of corporate shareholders. Moreover, the Fund would be required to pay out its earnings and profits accumulated in that year in order to qualify for treatment as a RIC in a subsequent year. Under certain circumstances, the Fund may be able to cure a failure to qualify as a RIC, but in order to do so the Fund may incur significant Fund-level taxes and may be forced to dispose of certain assets. If the Fund failed to qualify as a RIC for a period greater than two taxable years, the Fund would generally be required to recognize any net built-in gains with respect to certain of its assets upon a disposition of such assets within ten years of qualifying as a RIC in a subsequent year.

## Edgar Filing: WisdomTree Trust - Form 485APOS

The Fund intends to distribute at least annually substantially all of its investment company taxable income and net capital gains. Investment company taxable income that is retained by the Fund will be subject to tax at regular corporate rates. If the Fund retains

any net capital gain, that gain will be subject to tax at corporate rates, but the Fund may designate the retained amount as undistributed capital gains in a notice to its shareholders who (i) will be required to include in income for federal income tax purposes, as long-term capital gain, their shares of such undistributed amount, (ii) will be deemed to have paid their proportionate shares of the tax paid by the Fund on such undistributed amount against their federal income tax liabilities, if any, and (iii) will be entitled to claim refunds on a properly filed U.S. tax return to the extent the credit exceeds such liabilities. For federal income tax purposes, the tax basis of shares owned by a shareholder of the Fund will be increased by an amount equal to the difference between the amount of undistributed capital gains included in the shareholder's gross income and the tax deemed paid by the shareholder.

If the Fund fails to distribute in a calendar year an amount at least equal to the sum of 98% of its ordinary income for such year and 98.2% of its capital gain net income for the one-year period ending October 31 of such year, plus any retained amount from the prior year, the Fund will be subject to a non-deductible 4% excise tax on the undistributed amount. For these purposes, the Fund will be treated as having distributed any amount on which it has been subject to corporate income tax in the taxable year ending within the calendar year. The Fund intends to declare and pay dividends and distributions in the amounts and at the times necessary to avoid the application of the 4% excise tax, although there can be no assurance that it will be able to do so.

The Fund may elect to treat part or all of any qualified late year loss as if it had been incurred in the succeeding taxable year in determining the Fund's taxable income, net capital gain, net short-term capital gain, and earning and profits. A qualified late year loss generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year, and certain other late-year losses.

If the Fund has a net capital loss (that is, capital losses in excess of capital gains) for a taxable year beginning after December 22, 2010 (a Post-2010 Loss), the excess of the Fund's net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund's next taxable year, and the excess (if any) of the Fund's net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund's next taxable year. The Fund's unused capital loss carryforwards that arose in tax years that began on or before December 22, 2010 (Pre-2011 Losses) are available to be applied against future capital gains, if any, realized by the Fund prior to the expiration of those carryforwards, generally eight taxable years after the year in which they arose. The Fund's Pre-2011 Losses must be fully utilized before the Fund will be permitted to utilize any carryforwards of Post-2010 Losses.

**Fund Distributions.** Distributions are taxable whether shareholders receive them in cash or reinvest them in additional shares. Moreover, distributions on the Fund's shares are generally subject to federal income tax as described herein to the extent they do not exceed the Fund's realized income and gains, even though such distributions may economically represent a return of a particular shareholder's investment. Investors may therefore wish to avoid purchasing shares at a time when the Fund's NAV reflects gains that are either unrealized, or realized but not distributed. Realized gains must generally be distributed even when the Fund's NAV also reflects unrealized losses.

Dividends and other distributions by the Fund are generally treated under the Code as received by the shareholders at the time the dividend or distribution is made. However, if any dividend or distribution is declared by the Fund in October, November or December of any calendar year and payable to its shareholders of record on a specified date in such a month but is actually paid during the following January, such dividend or distribution will be deemed to have been received by each shareholder on December 31 of the year in which the dividend was declared.

Distributions by the Fund of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains are determined by how long the Fund owned the investments that generated those gains, rather than how long a shareholder has owned his or her Fund shares. Sales of assets held by the Fund for more than one year generally result in long-term capital gains and losses, and sales of assets held by the Fund for one year or less generally result in short-term capital gains and losses. Distributions from the Fund's net capital gain (the excess of the Fund's net long-term capital gain over its net short-term capital loss) that are properly reported by the Fund as capital gain dividends (Capital Gain Dividends) will be taxable as long-term capital gains. For individuals, long-term capital gains are subject to tax at reduced maximum tax rates. Distributions of gains from the sale of investments that the Fund owned for one year or less will be taxable as ordinary income. The Fund does not expect any of its distributions to be derived from qualified dividend income, which is taxable at reduced rates for noncorporate shareholders.

Since the Fund will invest primarily in investments other than stock of U.S. corporations, the Fund does not expect a substantial portion of its dividends will qualify for the dividends-received deduction available to corporate shareholders.

Dividends and distributions from the Fund will generally be taken into account in determining a shareholder's net investment income for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts for taxable years beginning after December 31, 2012.

If the Fund makes distributions to a shareholder in excess of the Fund's current and accumulated earnings and profits in any taxable year, the excess distribution will be treated as a return of capital to the extent of that shareholder's tax basis in its shares, and thereafter as capital gain, assuming the shareholder holds his or her shares as capital assets. A return of capital is not taxable, but reduces a shareholder's tax basis in its

## Edgar Filing: WisdomTree Trust - Form 485APOS

shares, thus reducing any loss or increasing any gain on a subsequent taxable disposition by the shareholder of its shares.

**Sale or Exchange of Shares.** A sale or exchange of shares in the Fund may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of shares will be treated as short-term capital gain or loss. However, any loss realized upon a taxable disposition of shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed received) by the shareholder with respect to the shares. All or a portion of any loss realized upon a taxable disposition of shares will be disallowed if other substantially identical shares of the Fund are purchased within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

**Backup Withholding.** The Fund (or a financial intermediary, such as a broker, through which a shareholder holds Fund shares) generally is required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding.

**Federal Tax Treatment of Certain Fund Investments.** Transactions of the Fund in options, futures contracts, hedging transactions, forward contracts, swap agreements, straddles and foreign currencies may be subject to various special and complex tax rules, including mark-to-market, constructive sale, straddle, wash sale and short sale rules. These rules could affect whether gains and losses recognized by the Fund are treated as ordinary income or capital gain, accelerate the recognition of income to the Fund and/or defer the Fund's ability to recognize losses. These rules may in turn affect the amount, timing or character of the income distributed to shareholders by the Fund.

The Fund is required, for federal income tax purposes, to mark to market and recognize as income for each taxable year its net unrealized gains and losses as of the end of such year on certain regulated futures contracts, foreign currency contracts and options that qualify as Section 1256 contracts in addition to the gains and losses actually realized with respect to such contracts during the year. Except as described below under **Certain Foreign Currency Tax Issues**, gain or loss from Section 1256 contracts that are required to be marked to market annually will generally be 60% long-term and 40% short-term capital gain or loss. Application of this rule may alter the timing and character of distributions to shareholders.

Some debt obligations that are acquired by the Fund may be treated as having original issue discount (OID). Generally, the Fund will be required to include OID in taxable income over the term of the debt security, even though payment of the OID is not received until a later time, usually when the debt security matures. If the Fund holds such debt instruments, it may be required to pay out as distributions each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary.

The Fund may invest in inflation-linked debt securities. Any increase in the principal amount of an inflation-linked debt security will be OID, which is taxable as ordinary income and is required to be distributed, even though the Fund will not receive the principal, including any increase thereto, until maturity. If the Fund invests in securities that have OID, it may be required to liquidate other investments, including at times when it is not advantageous to do so, in order to satisfy its distribution requirements and to eliminate any possible taxation at the Fund level. Moreover, the Fund may realize gains or losses from such liquidations. In the event the Fund realizes net gains from such transactions, its shareholders may receive larger distributions than they would have in the absence of such transactions.

**Certain Foreign Currency Tax Issues.** The Fund's gain or loss on foreign currency denominated debt securities and on certain other financial instruments, such as forward currency contracts and currency swaps, that is attributable to fluctuations in exchange rates occurring between the date of acquisition and the date of settlement or disposition of such securities or instruments generally will be treated under Section 988 of the Code as ordinary income or loss. The Fund may elect out of the application of Section 988 of the Code with respect to the tax treatment of each of its foreign currency forward contracts to the extent that (i) such contract is a capital asset in the hands of the Fund and is not part of a straddle transaction and (ii) the Fund makes an election by the close of the day the contract is entered into to treat the gain or loss attributable to such contract as capital gain or loss.

The Fund's forward contracts may qualify as so-called Section 1256 contracts if the underlying currencies are currencies for which there are futures contracts that are traded on and subject to the rules of a qualified board or exchange. However, a forward currency contract that is a Section 1256 contract would, absent an election out of Section 988 of the Code as described in the preceding paragraph, be subject to Section 988. Accordingly, although such a forward currency contract would be marked to market annually like other Section 1256 contracts, the resulting gain or loss would be ordinary. If the Fund were to elect out of Section 988 with respect to forward currency contracts that qualify as Section 1256 contracts, the tax treatment generally applicable to Section 1256 contracts would apply to those forward currency contracts: that is, the contracts would be marked to market annually and gains and losses with respect to the contracts would be treated as long-term capital gains or losses to the extent of 60% thereof and short-term capital gains or losses to the extent of 40% thereof. If the Fund were to elect out of Section 988 with respect to any of its forward currency contracts that do not qualify as Section 1256 contracts, such contracts will not be marked to market annually and the Fund will recognize short-term or long-term capital gain or loss depending on the Fund's holding period therein. The Fund may elect out of Section 988 with respect to some, all or none of its forward currency contracts.

Finally, regulated futures contracts and non-equity options that qualify as Section 1256 contracts and are entered into by the Fund with respect to foreign currencies or foreign currency denominated debt instruments will be subject to the tax treatment generally applicable to Section 1256 contracts unless the Fund elects to have Section 988 apply to determine the character of gains and losses from all such regulated futures contracts and non-equity options held or later acquired by the Fund.

**Funds Holding Foreign Investments.** Income received by the Fund from sources within foreign countries (including, for example, dividends or interest on stock or securities of non-U.S. issuers) may be subject to withholding and other taxes imposed by such countries. Tax treaties between such countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund's assets at the close of any taxable year consists of stock or securities of foreign corporations, which for this purpose may include obligations of foreign governmental issuers, the Fund may elect, for U.S. federal income tax purposes, to treat any foreign income or withholding taxes paid by the Fund as paid by its shareholders. For any year that the Fund is eligible for and makes such an election, each shareholder of the Fund will be required to include in income an amount equal to his or her allocable share of qualified foreign income taxes paid by the Fund, and shareholders will be entitled, subject to certain holding period requirements and other limitations, to credit their portions of these amounts against their U.S. federal income tax due, if any, or to deduct their portions from their U.S. taxable income, if any. No deductions for foreign taxes paid by the Fund may be claimed, however, by non-corporate shareholders who do not itemize deductions. Foreign taxes paid by the Fund will reduce the return from the Fund's investments.

If the Fund holds shares in a passive foreign investment company (PFIC), it may be subject to U.S. federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its shareholders. Additional charges in the nature of interest may be imposed on the Fund in respect of deferred taxes arising from such distributions or gains.

The Fund may be eligible to treat a PFIC as a qualified electing fund under the Code in which case, in lieu of the foregoing requirements, such Fund will be required to include in income each year a portion of the ordinary earnings and net capital gains of the qualified electing fund, even if not distributed to the Fund, and such amounts will be subject to the 90% and excise tax distribution requirements described above. In order to make this election, the Fund would be required to obtain certain annual information from the PFICs in which it invests, which may be difficult or impossible to obtain. Alternatively, the Fund may make a mark-to-market election that will result in such Fund being treated as if it had sold and repurchased its PFIC stock at the end of each year. In such case, the Fund would report any gains resulting from such deemed sales as ordinary income and would deduct any losses resulting from such deemed sales as ordinary losses to the extent of previously recognized gains. The election must be made separately for each PFIC owned by the Fund and, once made, is effective for all subsequent taxable years, unless revoked with the consent of the Internal Revenue Service (the IRS). By making the election, the Fund could potentially ameliorate the adverse tax consequences with respect to its ownership of shares in a PFIC, but in any particular year may be required to recognize income in excess of the distributions it receives from PFICs and its proceeds from dispositions of PFIC stock. The Fund may have to distribute this excess income to satisfy the 90% distribution requirement and to avoid imposition of the 4% excise tax. In order to distribute this income and avoid a tax at the Fund level, the Fund might be required to liquidate portfolio securities that it might otherwise have continued to hold, potentially resulting in additional taxable gain or loss.

**Foreign Currency Transactions.** Under the Code, gains or losses attributable to fluctuations in exchange rates which occur between the time the Fund accrues income or other receivables or accrues expenses or other liabilities denominated in a foreign currency and the time the Fund actually collects such income or receivables or pays such expenses or liabilities generally are treated as ordinary income or loss. Similarly, on disposition of debt securities denominated in a foreign currency and on disposition of certain other instruments, gains or losses attributable to fluctuations in the value of the foreign currency between the date of acquisition of the security or contract and the date of disposition are also treated as ordinary gain or loss. The gains and losses may increase or decrease the amount of the Fund's income to be distributed to its shareholders as ordinary income.

**Additional Tax Information Concerning REITs.** The Fund may invest in entities treated as REITs for U.S. federal income tax purposes. The Fund's investments in REIT equity securities may at times result in the Fund's receipt of cash in excess of the REIT's earnings; if the Fund distributes these amounts, these distributions could constitute a return of capital to Fund shareholders for federal income tax purposes. Dividends received by the Fund from a REIT generally will not constitute qualified dividend income.

The Fund may invest in REITs that hold residual interests in real estate mortgage investment conduits (REMICs) or which are, or have certain wholly-owned subsidiaries that are, taxable mortgage pools (TMPs). Under certain Treasury guidance, a portion of the Fund's income from a REIT that is attributable to the REIT's residual interest in a REMIC or equity interests in a TMP (referred to in the Code as an excess inclusion) will be subject to federal income tax in all events. This guidance provides that excess inclusion income of a RIC, such as the Fund, must generally be allocated to shareholders of the RIC in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related REMIC residual interest or TMP interests directly. In general, excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited

exception for certain thrift institutions), (ii) will constitute unrelated business taxable income to entities (including a qualified pension plan, an individual retirement account, a 401(k) plan, a Keogh plan or other tax-exempt entity) subject to tax on unrelated business income, thereby potentially requiring such an entity, which otherwise might not be required to file a tax return, to file a tax return and pay tax on such income (see Taxes Tax-Exempt Shareholders below), and (iii) in the case of a foreign shareholder, will not qualify for any reduction in U.S. federal withholding tax. No Fund intends to invest a substantial portion of its assets in REITs which generate excess inclusion income.

**Tax-Exempt Shareholders.** Under current law, income of a RIC that would be treated as unrelated business taxable income (UBTI) if earned directly by a tax-exempt entity generally will not be attributed as UBTI to a tax-exempt entity that is a shareholder in the RIC. Notwithstanding this blocking effect, a tax-exempt shareholder could realize UBTI by virtue of its investment in the Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Code Section 514(b).

**Non-U.S. Shareholders.** In general, dividends other than Capital Gain Dividends paid by the Fund to a shareholder that is not a U.S. person within the meaning of the Code (a foreign person) are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

Effective for taxable years beginning before January 1, 2014, and assuming certain certification requirements are complied with, the Fund generally is not required to withhold any amounts (i) with respect to distributions attributable to U.S. source interest income that would be treated as portfolio interest and accordingly would not be subject to U.S. federal income tax if earned directly by an individual foreign person, and (ii) with respect to distributions of net short-term capital gains in excess of net long-term capital losses, in each case to the extent such distributions are reported by the Fund as interest-related dividends and short-term capital gain dividends, respectively. Depending on the circumstances, the Fund may so report all, some or none of its potentially eligible dividends or treat such dividends, in whole or in part, as ineligible for this exemption from withholding. Moreover, in the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports such a payment.

A beneficial holder of shares who is a non-U.S. person is not, in general, subject to U.S. federal income tax on gains (and is not allowed a U.S. income tax deduction for losses) realized on a sale of shares of the Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States or (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met.

Ordinary dividends, redemption payments and certain capital gain dividends paid after December 31, 2013 to a non-U.S. shareholder that fails to make certain required certifications, or that is a foreign financial institution as defined in Section 1471 of the Code and that does not meet the requirements imposed on foreign financial institutions by Section 1471, are generally subject to withholding tax at a 30% rate. Under current IRS guidance, withholding on such payments will begin at different times depending on the type of payment, the type of payee, and whether the shareholder's account is opened before or after January 1, 2014. Withholding with respect to ordinary dividends is currently scheduled to begin on January 1, 2014 for accounts opened on or after that date and on certain later dates for accounts opened before January 1, 2014. Withholding on redemption payments and certain Capital Gain Dividends is currently scheduled to begin on January 1, 2017. The extent, if any, to which such withholding tax may be reduced or eliminated by an applicable tax treaty is unclear. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the U.S. to implement Section 1471 and related provisions will be exempt from such withholding tax provided that the shareholder and the applicable foreign government comply with the terms of such agreement.

In order for a non-U.S. person to qualify for an exemption from backup withholding, the foreign investor must comply with special certification and filing requirements. Foreign investors in the Fund should consult their tax advisors in this regard. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

A beneficial holder of shares who is a non-U.S. person may be subject to the U.S. federal estate tax in addition to the federal income tax consequences referred to above. If a shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by the shareholder in the United States.

**Creation and Redemption of Creation Unit Aggregations.** An Authorized Participant having the U.S. dollar as its functional currency for U.S. federal tax purposes that exchanges securities or non-U.S. currency for Creation Unit Aggregations generally will recognize a gain or loss equal to the difference between (i) the sum of the market value of the Creation Unit Aggregations at the time of the exchange and any cash received by the Authorized Participant in the exchange, and (ii) the sum of the exchanger's aggregate basis in the securities or non-U.S. currency surrendered and any cash paid for such Creation Unit Aggregations. All or a portion of any gain or loss recognized by an Authorized Participant exchanging a currency other than its functional currency for Creation Units may be treated as ordinary income or loss. A person who redeems Creation Unit Aggregations for securities or non-U.S. currency will

generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Unit Aggregations and the sum of the aggregate U.S. dollar market value of the securities or non-U.S. currency plus the amount of any cash received for such Creation Unit Aggregations. The IRS, however, may assert that a loss that is realized by an Authorized Participant upon an exchange of securities or non-U.S. currency for Creation Unit Aggregations cannot be currently deducted under the rules governing wash sales. Gain or loss recognized by an Authorized Participant upon an issuance of Creation Unit Aggregations in exchange for non-U.S. currency will generally be treated as ordinary income or loss. Gain or loss recognized by an Authorized Participant upon an issuance of Creation Unit Aggregations in exchange for securities, or upon a redemption of Creation Unit Aggregations, may be capital or ordinary gain or loss depending on the circumstances. All or some portion of any capital gain or loss realized upon the issuance of Creation Unit Aggregations in exchange for securities will generally be treated as long-term capital gain or loss if securities exchanged for such Creation Unit Aggregations have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Unit Aggregations will generally be treated as long-term capital gain or loss if the Creation Unit Aggregations have been held for more than one year. Otherwise, such gains or losses are treated as short-term capital gains or losses.

A person subject to U.S. federal income tax who receives non-U.S. currency upon a redemption of Creation Unit Aggregations and does not immediately convert the non-U.S. currency into U.S. dollars may, upon a later conversion of the non-U.S. currency into U.S. dollars, or upon the use of the non-U.S. currency to pay expenses or acquire assets, recognize as ordinary gains or losses any gains or losses resulting from fluctuations in the value of the non-U.S. currency relative to the U.S. dollar since the date of the redemption.

Persons exchanging securities or non-U.S. currency for Creation Unit Aggregations should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction. If you purchase or redeem Creation Unit Aggregations, you will be sent a confirmation statement showing how many shares you purchased or redeemed and at what price.

**Section 351.** The Trust on behalf of the Fund has the right to reject an order for a purchase of shares of the Trust if the purchaser (or any group of purchasers) would, upon obtaining the shares so ordered, own 80% or more of the outstanding shares of a given Fund and if, pursuant to Section 351 of the Code, that Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination.

**Certain Reporting Regulations.** Under U.S. Treasury regulations, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the Internal Revenue Service a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

**General Considerations.** The federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisors regarding the specific federal income tax consequences of purchasing, holding and disposing of shares of the Fund, as well as the effect of state, local and foreign tax law and any proposed tax law changes.

#### DETERMINATION OF NAV

The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the Listing Exchange, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing the Fund's net assets by the number of Fund shares outstanding.

In calculating the Fund's NAV, Fund investments generally are valued using market valuations. Short-term debt securities with remaining maturities of sixty (60) days or less generally are valued on the basis of amortized cost, which approximates fair value. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. The values of any assets or liabilities of the Fund that are denominated in a currency other than the U.S. dollar are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, the Fund's investments will be valued in accordance with the Fund's pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations or whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before the Fund's next NAV Calculation Time that may materially affect the value of the Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued.

When fair-value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. No secondary sales will be made to brokers or dealers at a concession by the Distributor or by the Fund. Purchases and sales of shares in the secondary market, which will not involve the Fund, will be subject to customary brokerage commissions and charges. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from the Fund in Creation Units.

#### **DIVIDENDS AND DISTRIBUTIONS**

The Fund intends to pay out dividends, if any, on a monthly basis but in any event no less frequently than annually. Nonetheless, the Fund might not make a dividend payment every month. The Fund intends to distribute its net realized capital gains, if any, to investors annually. The Fund may occasionally be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income.

#### **FINANCIAL STATEMENTS**

Financial Statements and Annual Reports will be available after the Fund has completed a fiscal year of operations. When available, you may request a copy of the Trust's Annual Report at no charge by calling 866-909-9473 or through the Trust's website at [www.wisdomtree.com](http://www.wisdomtree.com).

#### **MISCELLANEOUS INFORMATION**

**Counsel.** Bingham McCutchen LLP, with offices located at 2020 K Street, NW, Washington, DC 20006, serves as legal counsel to the Trust.

**Independent Registered Public Accounting Firm.** Ernst & Young LLP, with offices located at 5 Times Square, New York, New York 10036, serves as the independent registered public accounting firm to the Trust.

**Part C: Other Information**

**Item 28. Exhibits**

- (a)(1) Trust Instrument of WisdomTree Trust (the Trust or the Registrant ) dated December 15, 2005 is incorporated herein by reference to Exhibit (a) of the Registrant s Initial Registration Statement on Form N-1A, as filed with the U.S. Securities Exchange Commission (the SEC ) on March 13, 2006.
- (a)(2) Schedule A, as revised August 2012, to the Trust Instrument dated December 15, 2005 is incorporated herein by reference to Exhibit (a)(2) of the Registrant s Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (a)(3) Revised Schedule A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Trust Instrument dated December 15, 2005, to be filed by amendment.
- (a)(4) Certificate of Trust, as filed with the State of Delaware on December 15, 2005, is incorporated herein by reference to Exhibit (a)(2) of the Registrant s Initial Registration Statement on Form N-1A, as filed with the SEC on March 13, 2006.
- (b) Registrant s By-Laws are incorporated herein by reference to Exhibit (b) of the Registrant s Initial Registration Statement on Form N-1A, as filed with the SEC on March 13, 2006.
- (c) Portions of the Registrant s Trust Instrument and By-Laws defining the rights of holders of shares of the Registrant are incorporated herein by reference to Article II, Sections 2, 3 and 8, and Articles III, IV, V, VI, VII, VIII, IX and X of the Registrant s Trust Instrument dated December 15, 2005, filed as Exhibit (a)(1) to the Registrant s Initial Registration Statement on Form N-1A, as filed with the SEC on March 13, 2006; and to Articles I, V, and VI of the Registrant s By-Laws, filed as Exhibit (b) to the Registrant s Initial Registration Statement on Form N-1A, as filed with SEC on March 13, 2006.
- (d)(1) Investment Advisory Agreement dated November 20, 2012 between the Registrant and WisdomTree Asset Management, Inc., is incorporated herein by reference to Exhibit (d)(1) of the Registrant s Post-Effective Amendment No. 142 filing, as filed with the SEC on December 28, 2012.
- (d)(2) Revised Schedule A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Investment Advisory Agreement dated November 20, 2012 between the Registrant and WisdomTree Asset Management, Inc., to be filed by amendment.
- (d)(3) Amended and Restated Sub-Advisory Agreement dated January 1, 2013 between WisdomTree Asset Management, Inc., on behalf of each series of the Trust, with the exception of WisdomTree Emerging Markets Corporate Bond Fund, WisdomTree Global Corporate Bond Fund, and WisdomTree China Dividend ex-Financials Fund, and Mellon Capital Management Corporation, is incorporated herein by reference to Exhibit (d)(6) of the Registrant s Post-Effective Amendment No. 144 filing, as filed with the SEC on January 11, 2013.
- (d)(4) Amended and Restated Investment Sub-Advisory Agreement dated December 5, 2012 between WisdomTree Asset Management, Inc., on behalf of the WisdomTree Emerging Markets Corporate Bond Fund and WisdomTree Global Corporate Bond Fund, and Western Asset Management Company, Western Asset Management Company Ltd, and Western Asset Management Company Pte. Ltd., is incorporated herein by reference to Exhibit (d)(8) of the Registrant s Post-Effective Amendment No. 144 filing, as filed with the SEC on January 11, 2013.
- (d)(5) Sub-Advisory Agreement dated November 20, 2012 between WisdomTree Asset Management, Inc., on behalf of the WisdomTree China Dividend ex-Financials Fund, and Old Mutual Global Index Trackers (Proprietary) Limited, is incorporated herein by reference to Exhibit (d)(5) of Registrant s Post-Effective Amendment No. 151 filing, as filed with the SEC on March 6, 2013.

- (d)(6) Sub-Advisory Agreement between WisdomTree Asset Management, Inc., on behalf of the WisdomTree U.S. Dividend Growth Fund, and [SUB-ADVISER], to be filed by amendment.
- (d)(7) Sub-Advisory Agreement between WisdomTree Asset Management, Inc., on behalf of the WisdomTree U.S. Small Cap Dividend Growth Fund, and [SUB-ADVISER], to be filed by amendment.
- (d)(9) Sub-Advisory Agreement between WisdomTree Asset Management, Inc., on behalf of the WisdomTree Brazil Low Volatility Equity Fund, and [SUB-ADVISER], to be filed by amendment.
- (d)(10) Sub-Advisory Agreement between WisdomTree Asset Management, Inc., on behalf of the WisdomTree Brazil Bond Fund, and [SUB-ADVISER], to be filed by amendment.
- (d)(11) Investment Advisory Agreement dated February 14, 2008 between WisdomTree Asset Management, Inc. and WisdomTree India Investment Portfolio, Inc. is incorporated herein by reference to Exhibit (d)(7) of the Registrant's Post-Effective Amendment No. 14 filing, as filed with the SEC on April 4, 2008.
- (d)(12) Form of Sub-Advisory Agreement dated November 20, 2012 between WisdomTree Asset Management, Inc., on behalf of the WisdomTree India Investment Portfolio Inc., and Mellon Capital Management Corporation, is incorporated herein by reference to Exhibit (d)(10) of the Registrant's Post-Effective Amendment No. 142 filing, as filed with the SEC on December 28, 2012.
- (e)(1) Distribution Agreement dated March 21, 2006 between the Registrant and ALPS Distributors, Inc. is incorporated herein by reference to Exhibit (e)(1) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on September 29, 2006.
- (e)(2) Amendment No. 1 to the Distribution Agreement dated March 21, 2006 between the Registrant and ALPS Distributors, Inc. to be filed by amendment.
- (e)(3) Amendment No. 2 and revised Exhibit A, dated August 29, 2012, to the Distribution Agreement dated March 21, 2006 between the Registrant and ALPS Distributors, Inc. is incorporated herein by reference to Exhibit (e)(2) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (e)(4) Amendment and revised Exhibit A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Distribution Agreement dated March 21, 2006 between the Registrant and ALPS Distributors, Inc. to be filed by amendment.
- (e)(5) Form of Authorized Participant Agreement is incorporated herein by reference to Exhibit (e)(2) of the Registrant's Initial Registration Statement on Form N-1A, as filed with the SEC on March 13, 2006.
- (f) Not applicable.
- (g)(1) Custody Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (g)(1) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on September 29, 2006.
- (g)(2) Schedule II, as revised August 29, 2012, to the Custody Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (g)(2) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (g)(3) Revised Schedule II, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Custody Agreement dated May 24, 2006 between the Registrant and The Bank of New York to be filed by amendment.

- (g)(4) Foreign Custody Manager Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (g)(2) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on September 29, 2006.
- (g)(5) Schedule I, as revised August 29, 2012, to the Foreign Custody Manager Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (g)(4) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (g)(6) Revised Schedule I, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Foreign Custody Manager Agreement dated May 24, 2006 between the Registrant and The Bank of New York to be filed by amendment.
- (g)(7) Custody Agreement dated February 18, 2008 between WisdomTree India Investment Portfolio, Inc. and The Bank of New York is incorporated herein by reference to Exhibit (g)(5) of the Registrant's Post-Effective Amendment No. 14 filing, as filed with the SEC on April 4, 2008.
- (h)(1) Fund Administration and Accounting Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (h)(1) of the Registrant's Post-Effective Amendment No. 2 filing, as filed on September 29, 2006.
- (h)(2) Schedule A, as revised August 29, 2012, to the Fund Administration and Accounting Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (h)(2) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (h)(3) Revised Schedule A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Fund Administration and Accounting Agreement dated May 24, 2006 between the Registrant and The Bank of New York to be filed by amendment.
- (h)(4) Transfer Agency and Service Agreement dated May 24, 2006 between the Registrant and The Bank of New York is incorporated herein by reference to Exhibit (h)(2) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on September 29, 2006.
- (h)(5) Appendix A, as revised August 29, 2012, to the Transfer Agency and Service Agreement dated May 24, 2006 between the Registrant and The Bank of New York, is incorporated herein by reference to Exhibit (h)(4) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (h)(6) Revised Appendix A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Transfer Agency and Service Agreement dated May 24, 2006 between the Registrant and The Bank of New York to be filed by amendment.
- (h)(7) License Agreement dated March 21, 2006 between the Registrant and WisdomTree Investments, Inc. is incorporated herein by reference to Exhibit (h)(3) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on September 29, 2006.
- (h)(8) Exhibit A, as revised August 29, 2012, to the License Agreement dated March 21, 2006 between the Registrant and WisdomTree Investments, Inc. is incorporated herein by reference to Exhibit (h)(6) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.

- (h)(9) Revised Exhibit A, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the License Agreement dated March 21, 2006 between the Registrant and WisdomTree Investments, Inc. to be filed by amendment.
- (h)(10) Form of Securities Loan Agreement between the Registrant and The Bank of New York Mellon is incorporated herein by reference to Exhibit (h)(8) of the Registrant's Post-Effective Amendment No. 2 filing, as filed with the SEC on December 24, 2008.
- (h)(11) Amendment No. 5, dated June 17, 2011, to the Securities Lending Authorization Agreement dated September 17, 2008 between the Registrant and The Bank of New York Mellon is incorporated herein by reference to Exhibit (h)(10) of the Registrant's Post-Effective Amendment No. 60 filing, as filed with the SEC on July 29, 2011.
- (h)(12) Chief Compliance Officer Services Agreement dated October 1, 2009 between the Registrant and WisdomTree Asset Management, Inc. is incorporated herein by reference to Exhibit (h)(10) of the Registrant's Post-Effective Amendment No. 27 filing, as filed with the SEC on October 15, 2009.
- (h)(13) Exhibit C, as revised August 29, 2012, to the Chief Compliance Officer Services Agreement dated October 1, 2009 between the Registrant and WisdomTree Asset Management, Inc. is incorporated herein by reference to Exhibit (h)(10) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (h)(14) Revised Exhibit C, reflecting the addition of the WisdomTree Global Corporate Bond Fund, WisdomTree U.S. Dividend Growth Fund, WisdomTree U.S. Small Cap Dividend Growth Fund, WisdomTree Brazil Low Volatility Equity Fund and WisdomTree Brazil Bond Fund, to the Chief Compliance Officer Services Agreement dated October 1, 2009 between the Registrant and WisdomTree Asset Management, Inc. to be filed by amendment.
- (h)(15) Fund Services Agreement dated June 15, 2009 between the Registrant and WisdomTree Asset Management, Inc. is incorporated herein by reference to Exhibit (h)(11) of the Registrant's Post-Effective Amendment No. 131 filing, as filed with the SEC on September 10, 2012.
- (h)(16) WisdomTree Rules-Based Earnings-Weighted Methodology, dated June 2012, is incorporated herein by reference to Exhibit (h)(13) of the Registrant's Post-Effective Amendment No. 124 filing, as filed with the SEC on July 27, 2012.
- (h)(17) WisdomTree Rules-Based Methodology (Growth Index), dated June 2012, is incorporated herein by reference to Exhibit (h)(14) of the Registrant's Post-Effective Amendment No. 124 filing, as filed with the SEC on July 27, 2012.
- (h)(18) WisdomTree Rules-Based Methodology (DEFA International Hedged Equity and Japan Hedged Equity Indexes), dated June 2012, is incorporated herein by reference to Exhibit (h)(15) of the Registrant's Post-Effective Amendment No. 124 filing, as filed with the SEC on July 27, 2012.
- (h)(19) WisdomTree Rules-Based Methodology (Domestic and International Dividend Funds), dated June 2012, is incorporated herein by reference to Exhibit (h)(16) of the Registrant's Post-Effective Amendment No. 124 filing, as filed with the SEC on July 27, 2012.
- (h)(20) WisdomTree Rules-Based Methodology (Global Dividend and World ex-U.S. Indexes), dated June 2012, is incorporated herein by reference to Exhibit (h)(17) of the Registrant's Post-Effective Amendment No. 124 filing, as filed with the SEC on July 27, 2012.

**Item 29. Persons Controlled by or Under Common Control with the Registrant**

Not applicable.

**Item 30. Indemnification**

Reference is made to Article IX of the Registrant's Trust Instrument included as Exhibit (a)(1) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

**Section 1. Limitation of Liability.**

All Persons contracting with or having any claim against the Trust or a particular Series shall look only to the assets of the Trust or Assets belonging to such Series, respectively, for payment under such contract or claim; and neither the Trustees nor any of the Trust's officers, employees, or agents, whether past, present, or future, shall be personally liable therefor. Every written instrument or obligation on behalf of the Trust or any Series shall contain a statement to the foregoing effect, but the absence of such statement shall not operate to make any Trustee or officer of the Trust liable thereunder. Provided they have exercised reasonable care and have acted under the reasonable belief that their actions are in the best interest of the Trust, the Trustees and officers of the Trust shall not be responsible or liable for any act or omission or for neglect or wrongdoing of them or any officer, agent, employee, Investment Adviser, or independent contractor of the Trust, but nothing contained in this Trust Instrument or in the Delaware Act shall protect any Trustee or officer of the Trust against liability to the Trust or to Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office.

**Section 2. Indemnification.**

- (a) Subject to the exceptions and limitations contained in subsection (b) below:
- (i) every Person who is, or has been, a Trustee or an officer, employee, or agent of the Trust ( Covered Person ) shall be indemnified by the Trust or the appropriate Series (out of Assets belonging to that Series) to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit, or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been a Covered Person and against amounts paid or incurred by him in the settlement thereof; provided that the transfer agent of the Trust or any Series shall not be considered an agent for these purposes unless expressly deemed to be such by the Trustees in a resolution referring to this Article.
  - (ii) as used herein, the words claim, action, suit, or proceeding shall apply to all claims, actions, suits, or proceedings (civil, criminal, or other, including appeals), actual or threatened, and the words liability and expenses shall include attorney's fees, costs, judgments, amounts paid in settlement, fines, penalties, and other liabilities.
- (b) No indemnification shall be provided hereunder to a Covered Person:
- (i) who has been adjudicated by a court or body before which the proceeding was brought:
    - (A) to be liable to the Trust or its Shareholders by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office or
    - (B) not to have acted in good faith in the reasonable belief that his action was in the best interest of the Trust; or
  - (ii) in the event of a settlement, unless there has been a determination that such Covered Person did not engage in willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office (A) by the court or other body approving the settlement, (B) by at least a majority of those Trustees who are neither Interested Persons of the Trust nor are parties to the matter based on a review of readily available facts (as opposed to a full trial-type inquiry), or (C) by written opinion of independent legal counsel based on a review of readily available facts (as opposed to a full trial-type inquiry).
- (c) The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not be exclusive of or affect any other rights to which any Covered Person may now or hereafter be entitled, and shall inure to the benefit of the heirs, executors, and administrators of a Covered Person.
- (d) To the maximum extent permitted by applicable law, expenses in connection with the preparation and presentation of a defense to any claim, action, suit, or proceeding of the character described in subsection (a) of this Section shall be paid by the Trust or applicable Series from time to time prior to final disposition thereof on receipt of an undertaking by or on behalf of such Covered Person that such amount will be paid over by him to the Trust or applicable Series if it is ultimately determined that he is not entitled to indemnification under this Section, provided that either (i) such Covered Person has provided appropriate security for such undertaking, (ii) the Trust is insured against losses arising out of any such advance payments, or (iii) either a majority of the Trustees who are neither Interested Persons of the Trust nor parties to the matter, or independent legal counsel in a written opinion, has determined, based on a review of readily available facts (as opposed to a full trial-type inquiry) that there is reason to believe that such Covered Person will not be disqualified from indemnification under this Section.

## Edgar Filing: WisdomTree Trust - Form 485APOS

- (e) Any repeal or modification of this Article IX by the Shareholders, or adoption or modification of any other provision of this Trust Instrument or the By-laws inconsistent with this Article, shall be prospective only, to the extent that such repeal, modification, or adoption would, if applied retrospectively, adversely affect any limitation on the liability of any Covered Person or indemnification available to any Covered Person with respect to any act or omission that occurred prior to such repeal, modification, or adoption.

Reference is made to Article VI of the Registrant's By-Laws included as Exhibit (b) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

**Section 6.2. Limitation of Liability.**

The Declaration refers to the Trustees as Trustees, but not as individuals or personally; and no Trustee, officer, employee or agent of the Trust shall be held to any personal liability, nor shall resort be had to their private property for the satisfaction of any obligation or claim or otherwise in connection with the affairs of the Trust; provided, that nothing contained in the Declaration or the By-Laws shall protect any Trustee or officer of the Trust from any liability to the Trust or its Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be provided to trustees, officers and controlling persons of the Trust, pursuant to the foregoing provisions or otherwise, the Trust has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Trust of expenses incurred or paid by a trustee, officer or controlling person of the Trust in connection with the successful defense of any action, suit or proceeding or payment pursuant to any insurance policy) is asserted against the Trust by such trustee, officer or controlling person in connection with the securities being registered, the Trust will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

**Item 31. Business and Other Connections of the Investment Adviser**

WisdomTree Asset Management, Inc. ( WTAM ), 380 Madison Avenue, 21st Floor, New York, NY 10017, a wholly-owned subsidiary of WisdomTree Investments, Inc., is a registered investment adviser and serves as investment adviser for each series of the Trust. The description of WTAM under the caption of Management-Investment Adviser in the Prospectus and under the caption Management of the Trust in the Statement of Additional Information constituting Parts A and B, respectively, of this Registration Statement are incorporated herein by reference.

Each of the directors and officers of WTAM will also have substantial responsibilities as directors and/or officers of WisdomTree Investments, Inc., 380 Madison Avenue, 21st Floor, New York, NY 10017. To the knowledge of the Registrant, except as set forth below, none of the directors or executive officers of WTAM is or has been at any time during the past two fiscal years engaged in any other business, profession, vocation or employment of a substantial nature.
