Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On December 24, 2013, the Board of Directors of Gold Resource Corporation (the Company) resolved to decrease the number of members of the Board of Directors from six to four effective December 31, 2013 with the retirement of William Reid from the Board of Directors. Mr. Reid has served as Chairman of the Board of Directors since the Company's inception. Bill Conrad, who has been serving as Vice Chairman since Mr. Reid notified the Company in September 2013 of his intention to retire, has been appointed to serve as Chairman upon Mr. Reid's departure. The reduction in the size of the Board eliminates any vacancy created by Mr. Reid's retirement and a majority of the members continue to meet the independence standards determined by the NYSE.

Item 7.01. Regulation FD Disclosure

On December 30, 2013, the Company issued a press release regarding a decrease in the size of the Board of Directors and the retirement of William Reid as a director. A copy of the press release is attached to this report as Exhibit 99.1.

The information furnished under this Item 7.01, including the exhibits, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by reference to such filing.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits.

With the exception of historical matters, the matters discussed in the press release include forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from projections or estimates contained therein. Such forward-looking statements include, among others, statements regarding current and future exploration and development activities. Factors that could cause actual results to differ materially from projections or estimates include, among others, precious metals prices, economic and market conditions and future drilling results, as well as other factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, and other filings with the SEC. Most of these factors are beyond the Company's ability to predict or control. The Company disclaims any obligation to update any forward-looking statement. Readers are cautioned not to put undue reliance on forward-looking statements. U.S. investors should be aware that the Company has no reserves as defined by Guide 7 adopted by the United States Securities and Exchange Commission (SEC) and are cautioned not to assume that any part or all of the mineralization will ever be confirmed or converted into Guide 7 compliant reserves.
