RISK FACTORS

*An investment in our securities involves a high degree of risk. You should carefully consider the risk factors described below as well as the risk factors described in our Annual Report on Form 10-K and any risk factors set forth in the documents that are incorporated in this prospectus supplement or the accompanying prospectus. Before making any investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus supplement and the accompanying prospectus. Any of these risks could materially and adversely affect our business, financial condition, results of operations or cash flows and cause the value of our securities to decline, which could cause you to lose all or part of your investment. See also the information contained under the heading *Cautionary Statement Concerning Forward-Looking Statements*.*

Risks Related to an Investment in our Common Stock and this Offering

The price of our common stock may fluctuate significantly and you could lose all or part of your investment.

Volatility in the market price of our common stock may prevent you from being able to sell your shares of common stock at or above the price you paid for them. The market price for our common stock could fluctuate significantly for a number of other reasons, including:

our operating and financial performance and prospects;

our quarterly or annual earnings or those of other companies in our industry;

conditions that impact demand for our products and services;

future announcements concerning our business or our competitors' businesses;

the public's reaction to our press releases, other public announcements and filings with the SEC;

changes in earnings estimates or recommendations by securities analysts who track our common stock;

market and industry perception of our success, or lack thereof, in pursuing our growth strategy;

strategic actions by us or our competitors, such as acquisitions or restructurings;

changes in government regulation;

general market, economic and political conditions;

changes in accounting standards, policies, guidance, interpretations or principles;

Edgar Filing: Bankrate, Inc. - Form 424B7

arrival and departure of key personnel;

the number of shares to be publicly traded after this offering;

sales of common stock by the Apax Holders (defined below) or members of our management team;

adverse resolution of new or pending litigation against us;

changes in general market, economic and political conditions in the United States and global economies or financial markets, including those resulting from natural disasters, terrorist attacks, acts of war and responses to such events; and

material weakness in our internal controls over financial reporting.

In addition, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies. The changes frequently appear to occur without regard to the operating performance of the affected companies. Hence, the price of our common stock could fluctuate based upon factors that have little or nothing to do with the company, and these fluctuations could materially reduce our share price.

The Apax Holders will continue to be able to substantially influence our company and the outcome of all matters voted upon by our shareholders, and to prevent actions which a shareholder may otherwise view favorably.

After the consummation of this offering, Apax US VII, L.P. (Apax US VII Fund) and Apax Europe VII-A, L.P., Apax Europe VII-B, L.P. and Apax Europe VII-1, L.P. (the Apax Europe VII Funds and, together, with Apax US VII Fund, the Apax VII Funds), which beneficially own Ben Holding S.à r.l., or any of its direct or subsequent transferees (other than pursuant to or widely distributed sale or open market purchase) (the Apax Holders), will indirectly beneficially own approximately 38.7% of our common stock, assuming that the underwriters do not exercise their option to purchase additional shares. In addition, the fourth amended and restated stockholders agreement that we entered into in connection with our initial public offering (which we refer to as the stockholders agreement) provides that the Apax Holders is entitled to designate nominees for election to our Board of Directors as follows: (i) a majority of the total number of directors comprising our Board of Directors for so long as the Apax Holders, directly or indirectly, beneficially owns 50% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors; (ii) 30% of the total number of directors comprising our Board of Directors for so long as the Apax Holders, directly or indirectly, beneficially owns 30% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors; and (iii) 15% of the total number of directors comprising our Board of Directors for so long as the Apax Holders, directly or indirectly, beneficially owns 5% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors. Therefore, following this offering, Apax will, continue to be able to significantly influence or effectively control our decisions. See Certain Relationships and Related Party Transactions Stockholders Agreement, incorporated by reference into this prospectus from our Definitive Proxy Statement.

The interests of the Apax Holders could conflict with or differ from your interests as a holder of our common stock. For example, the concentration of ownership held by the Apax Holders and the Apax Holders rights under the stockholders agreement could delay, defer or prevent a change of control of the company or impede a merger, takeover or other business combination that you as a stockholder may otherwise view favorably. In addition, a sale of a substantial number of shares of stock in the future by the Apax Holders could cause our stock price to decline.

Additionally, Apax is in the business of advising on investments in companies the Apax Holders hold (and they or other funds advised by Apax may from time to time in the future acquire) interests in businesses that directly or indirectly compete with certain portions of our business or are suppliers or customers of ours. They may also pursue acquisitions that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Even if we are no longer a controlled company within the meaning of the NYSE rules, we may continue to rely on exemptions from certain corporate governance requirements during a one-year transition period.

After the consummation of this offering, the Apax Holders will no longer control a majority of our voting common stock. As a result, following this offering we will no longer qualify as a controlled company within the meaning of the NYSE corporate governance standards. The NYSE rules require that we appoint a majority of independent directors to the Board of Directors, and have compensation and nominating and governance committees composed entirely of independent directors, by March 10, 2015, which is one year after the date we will no longer qualify as a controlled company. During this transition period, we may elect not to comply with certain NYSE corporate governance requirements, including:

the requirement that a majority of the Board of Directors consists of independent directors;

the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors (with a written charter addressing specified purposes and responsibilities of the committee); and

the requirement that we have a compensation committee that is composed entirely of independent directors (with a written charter addressing specified purposes and responsibilities of the committee).

Table of Contents

Accordingly, during these transition periods, stockholders will not have the same protections afforded to stockholders of companies that are subject to such corporate governance requirements. In addition, although we will no longer be a controlled company within the meaning of the NYSE rules, following this offering, the Apex Holders will continue to be able to significantly influence or effectively control our decisions.

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock.

We have no plans to pay regular dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock may be limited by restrictive covenants of our debt agreements, will be at the sole discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant.

The terms of our revolving credit agreement and the indenture governing our notes may restrict our ability to pay cash dividends on our common stock. Our debt instruments contain covenants that restrict our ability to pay dividends on our common stock, as well as the ability of our subsidiaries to pay dividends to us. Furthermore, we will be permitted under the terms of our debt instrument to incur additional indebtedness, which may restrict or prevent us from paying dividends on our common stock. Agreements governing any future indebtedness, in addition to those governing our current indebtedness, may not permit us to pay dividends on our common stock.

Future sales or the possibility of future sales of a substantial amount of our common stock may depress the price of shares of our common stock.

Future sales or the availability for sale of substantial amounts of our common stock in the public market could adversely affect the prevailing market price of our common stock and could impair our ability to raise capital through future sales of equity securities.

Our certificate of incorporation provides for 350 million authorized shares, of which 300 million shares, par value \$0.01, are designated as common stock and 50 million shares, par value \$0.01, are designated as preferred stock. Both before and upon completion of this offering, we will have an aggregate of 39,803,694 shares of our common stock outstanding. The shares of our common stock beneficially owned by the Apex Holders following this offering, as well as any remaining shares of our common stock that were issued and outstanding prior to our initial public offering that have not been sold or had their legends removed pursuant to Rule 144, will be restricted securities, as that term is defined in Rule 144, and may in the future be sold without restriction under the Securities Act to the extent permitted by Rule 144 or any applicable exemption under the Securities Act and subject to any applicable lock-up agreements. In addition, we have granted the Apex Holders and Mr. Peter C. Morse demand and incidental registration rights, and we have also granted certain employees and others who own equity in the company incidental registration rights.

We may issue shares of our common stock or other securities from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares of our common stock, or the number or aggregate principal amount, as the case may be, of other securities that we may issue may in turn be substantial. We may also grant registration rights covering those shares of our common stock or other securities in connection with any such acquisitions and investments.

We cannot predict the size of future issuances of our common stock or the effect, if any, that future issuances and sales of our common stock will have on the market price of our common stock. Sales of substantial amounts of our common stock (including shares of our common stock issued in connection with an acquisition), or the perception that such sales could occur, including such sales by the Apex Holders, may adversely affect prevailing market prices for our common stock.

Delaware law and our organizational documents may impede or discourage a takeover, which could deprive our investors of the opportunity to receive a premium for their shares.

We are a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change of control would be beneficial to our existing stockholders. In addition, provisions of our certificate of incorporation and bylaws may make it more difficult for, or prevent a third party from, acquiring control of us without the approval of our Board of Directors. Among other things, these provisions:

classify our Board of Directors so that only some of our directors are elected each year;

do not permit cumulative voting in the election of directors, which would otherwise allow less than a majority of stockholders to elect director candidates;

provide our Board of Directors with the sole power to fix the number of directors or fill vacancies, as applicable;

authorize the issuance of blank check preferred stock without any need for action by stockholders;

eliminate the ability of stockholders to call special meetings of stockholders if the Apax Holders ceases to hold a majority of our outstanding common stock;

prohibit stockholders from acting by written consent if less than 40% of our outstanding common stock is owned by the Apax Holders; and

establish advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

The foregoing factors, as well as the significant common stock ownership by the Apax Holders, could impede a merger, takeover or other business combination or discourage a potential investor from making a tender offer for our common stock, which, under certain circumstances, could reduce the market value of our common stock.

We may issue shares of preferred stock in the future, which could make it difficult for another company to acquire us or could otherwise adversely affect holders of our common stock, which could depress the price of our common stock.

Our certificate of incorporation authorizes us to issue one or more series of preferred stock. Our Board of Directors has the authority to determine the preferences, limitations and relative rights of shares of preferred stock and to fix the number of shares constituting any series and the designation of such series, without any further vote or action by our stockholders. Our preferred stock could be issued with voting, liquidation, dividend and other rights superior to the rights of our common stock. The potential issuance of preferred stock may delay or prevent a change in control of us, discouraging bids for our common stock at a premium to the market price, and materially and adversely affect the market price and the voting and other rights of the holders of our common stock.

If securities analysts do not publish research or reports about our company, or if they issue unfavorable commentary about us or our industry or downgrade our common stock, the price of our common stock could decline.

The trading market for our common stock depends in part on the research and reports that third-party securities analysts publish about our company and our industry. One or more analysts could downgrade our common stock or issue other negative commentary about our company or our industry. In addition, we may be unable or slow to attract research coverage. Alternatively, if one or more of these analysts cease coverage of our company, we could lose visibility in the market. As a result of one or more of these factors, the trading price of our common stock could

decline.

DIVIDEND POLICY

We have not declared or paid any dividends on our common stock. We currently intend to retain all of our future earnings, if any, for use in our business and do not anticipate paying any cash dividends for the common stock in the foreseeable future. Our ability to pay dividends on our common stock is currently limited by the covenants of our notes and revolving credit agreement and may be further restricted by the terms of any future debt or preferred securities. Payments of future dividends, if any, will be at the discretion of our board of directors after taking into account various factors, including our business, operating results and financial condition, current and anticipated cash needs, plans for expansion and any legal or contractual limitations on our ability to pay dividends.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of material U.S. federal income tax considerations with respect to the ownership and disposition of our common stock applicable to non-U.S. holders who acquire such shares in this offering. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect.

For purposes of this discussion, the term non-U.S. holder means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes, a partnership or any of the following:

a citizen or resident of the United States;

a corporation created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a person treated as a partner generally will depend on the status of the partner and the activities of the partnership. Persons that for U.S. federal income tax purposes are treated as a partner in a partnership holding shares of our common stock should consult their tax advisors.

This discussion assumes that a non-U.S. holder holds shares of our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a non-U.S. holder in light of that holder's particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax law (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, holders who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders liable for the alternative minimum tax, certain former citizens or former long-term residents of the United States, and holders who hold our common stock as part of a hedge, straddle, constructive sale or conversion transaction). In addition, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax, nor does it address any aspects of the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, or U.S. state or local or non-U.S. taxes. Accordingly, prospective investors should consult with their own tax advisors regarding the U.S. federal, state, local, non-U.S. income and other tax considerations of acquiring, holding and disposing of shares of our common stock.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK. WE RECOMMEND THAT PROSPECTIVE HOLDERS OF OUR COMMON STOCK CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY U.S. STATE OR LOCAL OR NON-U.S. INCOME AND OTHER TAX LAWS) OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Table of Contents

Dividends

In general, subject to the discussions below under the headings **Information Reporting and Backup Withholding** and **New Legislation**, any distributions we make to a non-U.S. holder with respect to its shares of our common stock that constitute dividends for U.S. federal income tax purposes will be subject to U.S. withholding tax at a rate of 30% of the gross amount (or a reduced rate prescribed by an applicable income tax treaty) unless the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States (and, if an income tax treaty applies, are attributable to a permanent establishment of the non-U.S. holder within the United States). A distribution will constitute a dividend for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Any distribution not constituting a dividend will be treated as first reducing the adjusted basis in the non-U.S. holder's shares of our common stock and, to the extent it exceeds the adjusted basis in the non-U.S. holder's shares of our common stock, as gain from the sale or exchange of such shares.

Dividends effectively connected with a U.S. trade or business (and, if an income tax treaty applies, attributable to a U.S. permanent establishment) of a non-U.S. holder generally will not be subject to U.S. withholding tax if the non-U.S. holder complies with applicable certification and disclosure requirements. Instead, such dividends generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a resident of the United States. A non-U.S. holder that is a corporation may be subject to an additional branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on its effectively connected earnings and profits, subject to certain adjustments.

Gain on Sale or Other Disposition of our Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income or, subject to the discussions below under the headings **Information Reporting and Backup Withholding** and **New Legislation**, withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder;

the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied; or

we are or have been a U.S. real property holding corporation for U.S. federal income tax purposes at any time within the shorter of the five-year period ending on the date of the disposition and the non-U.S. holder's holding period and certain other conditions are satisfied.

Gain that is effectively connected with the conduct of a trade or business in the United States generally will be subject to U.S. federal income tax, net of certain deductions, at regular U.S. federal income tax rates. If the non-U.S. holder is a foreign corporation, the branch profits tax described above also may apply to such effectively connected gain. An individual non-U.S. holder who is subject to U.S. federal income tax because the non-U.S. holder was present in the United States for 183 days or more during the year of sale or other disposition of our common stock will be subject to a flat 30% tax on the gain derived from such sale or other disposition, which may be offset by U.S. source capital losses. We do not believe we have been and do not currently anticipate becoming a U.S. real property holding corporation.

Information Reporting and Backup Withholding

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable tax treaty. Copies of this information also may be made available under the provisions of a specific treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

Table of Contents

U.S. backup withholding (currently, at a rate of 28%) is imposed on certain payments to persons that fail to furnish the information required under the U.S. information reporting rules. Dividends paid to a non-U.S. holder generally will be exempt from backup withholding if the non-U.S. holder provides a properly executed IRS Form W-8BEN or otherwise establishes an exemption.

Under U.S. Treasury regulations, the payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless the beneficial owner, under penalties of perjury, certifies, among other things, its status as a non-U.S. holder or otherwise establishes an exemption. The payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker generally will not be subject to backup withholding and information reporting, except as noted below. In the case of proceeds from a disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker that is:

a U.S. person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or

a foreign partnership if at any time during its tax year (a) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (b) the foreign partnership is engaged in a U.S. trade or business;

information reporting will apply unless the broker has documentary evidence in its files that the owner is a non-U.S. holder and certain other conditions are satisfied, or the beneficial owner otherwise establishes an exemption (and the broker has no knowledge or reason to know to the contrary). Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that the required information is furnished to the Internal Revenue Service in a timely manner.

New Legislation

Under recently enacted legislation and administrative guidance, a United States federal withholding tax of 30% generally will be imposed on certain payments made to a foreign financial institution (as specifically defined under these rules) unless such institution enters into an agreement with the U.S. tax authorities to withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). Under the legislation and administrative guidance, a U.S. federal withholding tax of 30% generally also will be imposed on certain payments made to a non-financial foreign entity unless such entity provides the withholding agent with a certification identifying its direct and indirect U.S. owners. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of such taxes. These withholding taxes would be imposed on dividends paid with respect to our common stock after June 30, 2014 to, and on gross proceeds from sales or other dispositions of our common stock after December 31, 2016 by, foreign financial institutions or non-financial entities (including in their capacity as agents or custodians for beneficial owners of our common stock) that fail to satisfy the above requirements. Prospective non-U.S. holders should consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

Table of Contents**UNDERWRITING**

The company, the selling stockholder and the underwriters named below will enter into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Goldman, Sachs & Co. is the representative of the underwriters.

Underwriter	Number of Shares
Goldman, Sachs & Co.	5,600,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	3,080,000
RBC Capital Markets, LLC	3,080,000
Stephens Inc.	2,240,000
 Total	 14,000,000

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

The underwriters have an option to buy up to an additional 2,100,000 shares from the selling stockholder, in aggregate. If the underwriters exercise their option to purchase additional shares in full, the selling stockholder will sell up to an additional 2,100,000 shares of common stock. The underwriters may exercise that option for 30 days.

The following tables show the per share and total underwriting discounts and commissions to be paid to the underwriters by the selling stockholder. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 2,100,000 additional shares.

Paid by the Selling Stockholder

	No Exercise	Full Exercise
Per Share	\$ 0.6388	\$ 0.6388
Total	\$ 8,942,500	\$ 10,283,875

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$0.3833 per share from the public offering price. If all the shares are not sold at the public offering price, Goldman, Sachs & Co. may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The company and the selling stockholder have agreed with the underwriters, subject to certain exceptions, not to sell, short sell or otherwise dispose of any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 90 days after the date of this prospectus, except with the prior written consent of Goldman, Sachs & Co. This agreement does not apply to any existing employee benefit plans. Along with other customary exceptions, sales pursuant to a trading plan established pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of Common Stock will be permitted; provided that such trading plan was established prior to the date hereof and not subsequently amended.

Table of Contents

The offering price will be negotiated between the selling shareholder and the underwriters. Among the factors to be considered in determining the offering price of the shares, in addition to prevailing market conditions, will be the company's historical performance, estimates of the business potential and earnings prospects of the company, an assessment of the company's management and the consideration of the above factors in relation to market valuation of companies in related businesses.

The shares are listed on the New York Stock Exchange under the symbol RATE.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by an underwriter of a greater number of shares of common stock than it is required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriter's option to purchase additional shares of common stock from the selling stockholder in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares of common stock or purchasing shares of common stock in the open market. In determining the source of shares of common stock to close out the covered short position, the underwriters will consider, among other things, the price of shares of common stock available for purchase in the open market as compared to the price at which it may purchase additional shares of common stock pursuant to the option granted to them. Naked short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representative has repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the company's stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer) who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representative has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representative has been obtained to each such proposed offer or resale.

The company, the underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Each underwriter has represented and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the shares in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.57 I, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of

any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust will not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The shares have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any shares, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following is a description of the material terms of our certificate of incorporation and bylaws, and of specific provisions of Delaware law. The following description is intended as a summary only and is qualified in its entirety by reference to our second amended and restated certificate of incorporation (our certificate of incorporation), our second amended and restated bylaws (our bylaws) and the Delaware General Corporation Law, or DGCL.

General

Pursuant to our certificate of incorporation, our capital stock consists of 350,000,000 total authorized shares, of which 300,000,000 shares, par value \$0.01 per share, are designated as common stock and 50,000,000 shares, par value \$0.01 per share, are designated as preferred stock. As of February 18, 2014, there were 102,804,500 shares of common stock outstanding and no shares of preferred stock outstanding.

Common Stock

Voting Rights. Holders of common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. The holders of common stock do not have cumulative voting rights in the election of directors.

Dividend Rights. Holders of common stock are entitled to receive ratably dividends if, as and when dividends are declared from time to time by our board of directors out of funds legally available for that purpose, after payment of dividends required to be paid on outstanding preferred stock, as described below, if any. Under Delaware law, we can only pay dividends either out of surplus or out of the current or the immediately preceding year's net profits. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation's assets can be measured in a number of ways and may not necessarily equal their book value.

Liquidation Rights. Upon liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and accrued but unpaid dividends and liquidation preferences on any outstanding preferred stock.

Other Matters. The common stock has no preemptive or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock.

Preferred Stock

Pursuant to our certificate of incorporation, shares of preferred stock are issuable from time to time, in one or more series, with the designations of the series, the voting rights (if any) of the shares of the series, the powers, preferences and relative, participation, optional or other special rights, if any, and any qualifications, limitations or restrictions thereof as our board of directors from time to time may adopt by resolution, subject to certain limitations. Each series will consist of that number of shares as will be stated and expressed in the certificate of designations providing for the issuance of the stock of the series.

Composition of Board of Directors; Election and Removal of Directors

In accordance with our certificate of incorporation and our bylaws, the number of directors comprising our board of directors will be determined from time to time by our board of directors, and only a majority of the board of directors may fix the number of directors. We currently avail ourselves of the controlled company exception under New York Stock Exchange (NYSE) rules which exempts us from certain requirements, including the requirements that we have a majority of independent directors on our board of directors and that we have compensation and nominating and governance committees composed entirely of independent directors. In the event that we cease to be a controlled company, under the NYSE rules, we will be required to (1) have a majority of independent directors on our board of directors within one year following our ceasing to be a

Table of Contents

controlled company; (2) create a nominating and governance committee of our board of directors composed entirely of independent directors within one year following our ceasing to be a controlled company; and (3) cause our compensation committee to be composed entirely of independent directors within the same time period. In addition, the NYSE transition rules will require us to have at least one independent director on each of our compensation and nominating and governance committees once we cease to be a controlled company, and a majority of these committees to be comprised of independent directors within 90 days following such event. We are currently subject to the requirement that we have an audit committee of at least three members composed entirely of independent directors. We have eight directors and each director is to hold office until his or her successor is duly elected and qualified or until his or her earlier death, resignation or removal. At any meeting of our board of directors, except as otherwise required by law, a majority of the total number of directors then in office will constitute a quorum for all purposes.

The Stockholders Agreement we entered into with Ben Holding S.à r.l. and certain members of our management provides that Apax US VII, L.P., Apax Europe VII-A, L.P., Apax Europe VII-B, L.P., and Apax Europe VII-I, L.P., which beneficially own Ben Holding S.à r.l. or any of its direct or subsequent transferees (other than pursuant to a widely distributed public sale or open market purchase) (the Apax Holders), are entitled to designate nominees for election to our board of directors as follows: (i) a majority of the total number of directors comprising our board of directors for so long as the Apax Holders, directly or indirectly, collectively beneficially own 50% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors; (ii) 30% of the total number of directors comprising our board of directors for so long as the Apax Holders, directly or indirectly, collectively beneficially own 30% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors; and (iii) 15% of the total number of directors comprising our board of directors for so long as the Apax Holders, directly or indirectly, collectively beneficially own 5% or more of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors. Thereafter the Apax Holders will no longer be entitled to designate any nominees for election to the board of directors except pursuant to our general director nomination process generally applicable to all stockholders which is described below. For purposes of calculating the number of directors that the Apax Holders are entitled to designate pursuant to the formulas described above, any fractional amounts will be rounded up to the nearest whole number and the calculation will be made taking into account the increase in the size of our board of directors (e.g., one and one quarter (1 1/4) directors will equate to two (2) directors). All parties to the Stockholders Agreement are obligated to vote in favor of the Apax Holders nominees. In addition, the Apax Holders, will have the right to remove and replace any or all of its director-nominees at any time and for any reason and to designate any individual(s) to fill any such vacancies. In addition, (i) for so long as the Apax Holders, directly or indirectly, beneficially own a majority of the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors, at the Apax Holders option, a majority of the members of each committee of our board of directors will be directors nominated by the Apax Holders, and (ii) for so long as the Apax Holders, directly or indirectly, beneficially own 5% or more the outstanding voting power of all shares of our capital stock entitled to vote generally in the election of our directors, at the Apax Holders option, at least one member of each committee of our board of directors will be a director nominated by the Apax Holders, in each case to the extent permitted by law and applicable stock exchange rules. At the option of the Apax Holders, the Company will cause the board of directors of any of its subsidiaries (and any committees of such board) to have the same proportionate representation as the board of directors of the Company (and of each committee thereof).

Our certificate of incorporation provides that our board of directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible. As a result, approximately one-third of our board of directors will be elected each year. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board. Our certificate of incorporation also provide that stockholders do not have the right to cumulative votes in the election of directors.

Our certificate of incorporation and bylaws provides that, except to the extent otherwise provided in the Stockholders Agreement, any vacancies on our board of directors will be filled only by the affirmative vote of a majority of the remaining directors, although less than a quorum, subject to the Apax Holders rights as described above.

Special Meetings of Stockholders

Our certificate of incorporation provides that special meetings of our stockholders may be called at any time by the holders representing a majority of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors; provided, however, that from and after such time as the Apax Holders cease to beneficially own, in the aggregate, a majority of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors, special meetings of our stockholders may be called at any time only by or at the direction of the chairman of our board of directors, the board of directors, a committee of the board of directors which has been designated by the board of directors.

Certain Corporate Anti-Takeover Provisions

Certain provisions in our certificate of incorporation, our bylaws and the DGCL summarized below may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders.

Preferred Stock

Our certificate of incorporation contains provisions that permit our board of directors to issue, without any further vote or action by the stockholders, shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designation of the series, the voting rights (if any) of the shares of the series, and the powers, preferences and relative, participation, optional and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of such series. See Preferred Stock.

Classified Board; Number of Directors

Our certificate of incorporation provides that our board of directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible and the number of directors on our board may be fixed only by the majority of our board of directors, as described above in Composition of Board of Directors; Election and Removal of Directors.

Removal of Directors, Vacancies

Our certificate of incorporation provides that (i) prior to the first date on which the Apax Holders beneficially own less than a majority in outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors, directors may be removed with or without cause upon the affirmative vote of holders representing at least a majority of the outstanding voting power of all the then outstanding shares of stock entitled to vote generally in the election of directors, voting together as a single class and (ii) on or after the date on which the Apax Holders beneficially own, in the aggregate, less than a majority but more than 10% of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors, directors may be removed only for cause and only upon the affirmative vote of holders representing at least 75% of the outstanding voting power of all the then outstanding shares of our stock entitled to vote generally in the election of directors, voting together as a single class. Thereafter, directors may be removed only for cause and only upon the affirmative vote of holders representing at least a majority in outstanding voting power of all then outstanding shares of stock entitled to vote generally in the election of directors. In addition, our bylaws provide that, except as set forth in the Stockholders Agreement, any vacancies on our board of directors will be filled only by the affirmative vote of a majority of the remaining directors, although less than a quorum, and in the event there is only one director remaining in office, by such sole remaining director.

No Cumulative Voting

Our certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors.

Calling of Special Meetings of Stockholders

Our certificate of incorporation provides that special meetings of our stockholders may be called at any time by the holders representing a majority of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors; provided, however, that from and after such time as the Apax Holders cease to beneficially own, in the aggregate, a majority of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors, special meetings of our stockholders may be called at any time only by or at the direction of the chairman of our board of directors, the board of directors, a committee of the board of directors which has been designated by the board of directors.

Stockholder Action by Written Consent

The DGCL permits stockholder action by written consent unless otherwise provided in a corporation's certificate of incorporation. Our certificate of incorporation precludes stockholder action by written consent from and after such time as the Apax Holders cease to beneficially own, in the aggregate, at least 40% of the outstanding voting power of all outstanding shares of our capital stock entitled to vote generally in the election of directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our bylaws provide that stockholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of stockholders must provide timely notice of their proposal in writing to the corporate secretary.

Generally, to be timely, a stockholder's notice must be received at our principal executive offices not less than 90 days or more than 120 days prior to the first anniversary date of the previous year's annual meeting of stockholders. Our bylaws also specifies requirements as to the form and content of a stockholder's notice. These provisions, which do not apply to the Apax Holders with respect to their board nomination rights described above, may impede stockholders' ability to bring matters before an annual meeting of stockholders or make nominations for directors at an annual meeting of stockholders.

Business Combinations

We have opted out of Section 203 of the DGCL; however, our certificate of incorporation contains similar provisions providing that we may not engage in certain business combinations with any interested stockholder for a three-year period following the time that the stockholder became an interested stockholder, unless, among certain other exceptions:

prior to such time, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares; or

at or subsequent to that time, the business combination is approved by our board of directors and by the affirmative vote of holders representing at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Table of Contents

Generally, a business combination includes a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an interested stockholder is a person who, together with that person's affiliates and associates, owns, or within the previous three years owned, 15% or more of our voting stock. Under certain circumstances, this provision will make it more difficult for a person who would be an interested stockholder to effect various business combinations with a corporation for a three-year period. This provision may encourage companies interested in acquiring the Company to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board of directors approves either the business combination or the transaction which results in the stockholder becoming an interested stockholder. These provisions also may have the effect of preventing changes in our board of directors and may make it more difficult to accomplish transactions which stockholders may otherwise deem to be in their best interests.

Our certificate of incorporation provides that the Apax Holders, until they cease to beneficially own, in the aggregate, 10% of our voting stock, and any of their direct or indirect transferees and any group as to which such persons are a party, until any such transferee or group ceases to beneficially own, in the aggregate, 10% of our voting stock, do not constitute interested stockholders for purposes of this provision.

All the foregoing proposed provisions of our certificate of incorporation and bylaws could discourage potential acquisition proposals and could delay or prevent a change in control. These provisions are intended to enhance the likelihood of continuity and stability in the composition of the board of directors and in the policies formulated by the board of directors and to discourage certain types of transactions that may involve an actual or threatened change of control. These provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions also are intended to discourage certain tactics that may be used in proxy fights. These same provisions may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interest. In addition, such provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

Corporate Opportunity

Our certificate of incorporation provides that, for so long as the Apax Holders have the right to nominate any directors to our board of directors as described above, we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any business opportunity which may be a corporate opportunity for the Apax Holders, and certain related persons or the members of the board of directors who are not our employees (including any directors who also serve as officers). We do not renounce our interest in any corporate opportunity offered to any such director or officer if such opportunity is expressly offered to such person solely in his or her capacity as our director or officer.

Forum

Our certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director or officer of the Company to the Company or its stockholders, (iii) any action asserting a claim against the Company or any director or officer of the Company arising pursuant to any provision of the DGCL or our certificate of incorporation or bylaws, or (iv) any other action asserting a claim governed by the internal affairs doctrine shall be the Court of Chancery of the state of Delaware (or, if and only if the Court of Chancery dismisses any such action for lack of subject matter jurisdiction, another state court sitting in the State of Delaware).

Amendment of Our Certificate of Incorporation; Supermajority Provisions

The DGCL provides generally that the affirmative vote of holders representing a majority of the outstanding shares of stock entitled to vote is required to amend a corporation's certificate of incorporation, unless the certificate of incorporation requires a greater percentage. Our certificate of incorporation provides that before the first date on which the Apax Holders cease to beneficially own more than 10% in outstanding voting power of all outstanding shares of our stock entitled to vote generally in the election of directors, the following provisions in our certificate of incorporation may be amended only by the affirmative vote of holders representing at least 75% of the shares of common stock entitled to vote generally in the election of directors:

classified board (the election and term of our directors);

the resignation and removal of directors;

the provisions regarding competition and corporate opportunities;

the provisions regarding entering into business combinations with interested stockholders;

the provisions regarding stockholder action by written consent;

the provisions regarding calling special meetings of stockholders;

filling vacancies on the board of directors and newly created directorships;

the indemnification provisions; and

the amendment provision requiring that the above provisions be amended only with a 75% majority vote.

Amendment of Our Bylaws

Our certificate of incorporation grants the board of directors the authority to amend and repeal our bylaws without a stockholder vote in any manner not inconsistent with the laws of the State of Delaware or our certificate of incorporation. Our bylaws provide that the bylaws may be altered, amended or repealed at any meeting of the board of directors or of the stockholders; provided that, on or after the first date on which the Apax Holders cease to beneficially own a majority of, and until the first date on which the Apax Holders cease to beneficially own more than 10% of, the voting power of all outstanding shares of our stock entitled to vote generally in the election of directors, the following provisions in our bylaws may be amended only by the affirmative vote of holders representing at least 75% of the shares of common stock entitled to vote generally in the election of directors:

the provisions regarding calling special meetings of stockholders;

the provisions regarding stockholder action by written consent;

the provisions regarding eligibility requirements for nominees for election as a director;

the provisions regarding the conduct of meetings of stockholders;

the provisions regarding the procedure and required vote for the election of directors;

the resignation and removal of directors;

filling vacancies on the board of directors;

the indemnification provisions; and

the provisions regarding bylaw amendments.

Limitation of Liability and Indemnification

Our certificate of incorporation provides that no director will be personally liable for monetary damages for breach of any fiduciary duty as a director, except with respect to liability:

for any breach of the director's duty of loyalty to us or our stockholders;

Table of Contents

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

under Section 174 of the DGCL (governing distributions to stockholders); or

for any transaction from which the director derived any improper personal benefit.

However, if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our certificate of incorporation provides that we will, to the fullest extent from time to time permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding, arising out of their status as an officer or director or their activities in these capacities. We will also indemnify any person who, at our request, is or was serving as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise. We may, by action of our board of directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers.

The right to be indemnified will include the right of an officer or a director to be paid expenses in advance of the final disposition of any proceeding, provided that, if required by law, we receive an undertaking to repay such amount if it is determined that he or she is not entitled to be indemnified.
