Program Ratings*: (P)Baa3 (Moody s) / BBB+ (S&P)
Sole Bookrunner: Nomura Securities International, Inc.

* Note: A BBB rating is the fourth-highest category of S&P rating while a + or - designation shows the relative standing within the major rating categories. A BBB rating by S&P generally indicates that the obligor has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. A (P)Baa3 provisional rating by Moody s is in the lower end of the fourth-highest category of Moody s rating. Obligations rated Baa are subject to moderate credit risk. They are considered medium grade and as such may possess certain speculative characteristics. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. Moody s often assigns a provisional rating when the assignment of a final rating is subject to the fulfillment of contingencies but it is highly likely that the rating will become definitive after all documents are received or an obligation is issued into the market. Credit ratings are not a recommendation to buy, sell or hold securities and may be subject to downward revision, suspension or withdrawal at any time by the relevant rating agencies. Each rating should be evaluated independently of any other ratings. Program ratings are not definitive ratings issued for a specific debt security and indicate only the rating agencies view of the obligor s ability to meet its obligations.
