Management Discussion of Fund Performance (Unaudited)

Letter to Shareholders

J	ulv	23,	201	4
J	ui,	40,	201	_

Dear Fellow Shareholders:1

We are pleased to provide the semi-annual report of the Salient Midstream & MLP Fund (Fund) which contains updated data as of May 31, 2014

As of May 31, 2014, the Fund had total consolidated assets of \$406.7 million, net assets applicable to our common shares of \$273.3 million (net asset value of \$28.77 per share) and 9.5 million common shares outstanding. The Fund s price per share was \$26.88, which represents a 6.6% discount to its net asset value (NAV² The Fund s investments allocation is shown in the pie chart below:

¹ **Certain statements in this letter are forward-looking statements.** The forward-looking statements and other views expressed herein are those of the portfolio managers and the Fund as of the date of this letter. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and there is no guarantee that any predictions will come to pass. The views expressed herein are subject to change at any time, due to numerous market and other factors. The Fund disclaims any obligation to update publicly or revise any forward-looking statements or views expressed herein. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

² Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. The data shown are unaudited. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

The Fund s Top 10 consolidated holdings are shown below, as of May 31, 2014:

		% of
		Gross
Company Name	Sector	Assets
Enterprise Products Partners, L.P.*	MLP	8.8%
Kinder Morgan Management, LLC	MLP Affiliate	5.7%
Plains All American Pipeline, L.P.*	MLP	5.5%
Energy Transfer Equity, L.P.*	MLP	5.1%
The Williams Companies, Inc.	Midstream Company	4.8%
Enbridge Energy Management, LLC	MLP Affiliate	4.3%
Linn Co, LLC	MLP Affiliate	3.6%
Targa Resources Corp	Midstream Company	3.4%
NGL Energy Partners, L.P.	MLP	3.1%
Targa Resources Partners, L.P.	MLP	2.9%
Total		56.3%

^{*} Held indirectly through the wholly owned C-Corporation, Salient Midstream & MLP Fund, Inc.

Current and future holdings are subject to change and risk.

Source: Salient Capital Advisors, LLC, May 2014.

For illustrative purposes only.

During the first half of fiscal 2014 (December 2013 May 2014), the Fund s NAV and market price total return were +21.5% and +21.3%, respectively, compared to +11.6% for the Alerian MLP Index (AMZ), during the same period. Top performing investments held by the Fund for the first half of fiscal 2014 include EQT Midstream Partners, L.P. (EQM), Energy Transfer Equity, L.P. (ETE), and Targa Resources Corp. (TRGP). The bottom performing investments include LinnCo, LLC (LNCO), MarkWest Energy Partners, L.P. (MWE), and Kinder Morgan, Inc. (KMI).

Market Review

The positive momentum surrounding MLPs stalled during the first quarter of 2014 as the conventional wisdom that U.S. interest rates were unquestionably headed higher was, at least temporarily, proven wrong. Emerging market debt fears primarily in Turkey, Argentina, South Africa, and Puerto Rico roiled the markets and interest rates on the U.S. 10-Year Treasury fell from ~3.00% to ~2.60%.

The asset class has seen many yield-seeking investors continue to flock to the space. Ironically, the continued movement into MLPs comes at a time when nominal MLP yields are at record low levels. However, it appears to us that many investors are finding that a tax-deferred MLP yield of 5.4% is still appealing on a relative basis when compared to other asset classes. On a yield spread basis vs. treasuries, MLP yields are not too far below historical averages. Since 2006, the average yield spread between MLPs and the U.S. 10-Year Treasury has been 3.7% with a standard deviation of 1.7%, so the current spread of 306 basis points (bps) is within a standard deviation of the historical norm. Based on these metrics, MLPs appear fairly valued in our opinion. MLPs have averaged a 227 bps premium (lower yield) spread vs. high yield bonds. The current spread is just 36 bps.⁵

³ Fund shares do not represent a deposit or obligation of, and are not guaranteed or endorsed by, any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency. Data are based on total market value of Fund investments unless otherwise indicated. The data provided are for informational purposes only and are not intended for trading purposes.

⁴ Alerian Capital Management, May 2014.

⁵ Barclays U.S. High Yield Bond Index is a U.S. Aggregate index that is comprised of fixed-rate, publicly issued, non-investment grade debt. RISKS: Interest rate risk (as interest rates rise bond prices usually fall), the risk of issuer default, and inflation risk exist. As a lower-quality debt security, this involves greater risk of default or price changes and is more volatile than Bonds and T-Bills.

Performance Snapshot as of May 31, 2014 (unaudited)

		Since
	1-Year	Inception*
Price Per Share	Total Return*	(Annualized)
\$28.77 (NAV)	33.00%	27.09%
\$26.88 (Market Price)	22.81%	22.88%

Summary

Our emphasis on above average distribution growth potential rather than nominal yield to achieve competitive total returns has served us well during the first half of the year. We believe that being disciplined and sticking to our focus on choosing quality names using our bottom up stock selection approach will be key as some MLP valuations have become stretched. The seemingly undervalued names have gotten harder to find but that will not keep us from looking.

Please visit our website at www.salientfunds.com for the latest updates and sign up to receive email alerts on future press releases by the Fund.

Please note that this letter, including the financial information herein, is made available to shareholders of the Fund for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this letter.

Sincerely,

Gregory A. Reid

President and Chief Executive Officer

MLP Business, Salient Capital Advisors, LLC

^{*} Total returns are based on changes in NAV or market price, respectively. Returns reflect the deduction of all Fund expenses, including management fees, operating expenses, and other Fund expenses. Returns do not reflect the deduction of brokerage commissions or taxes that investors may pay on distributions or the sale of shares. Total return assumes the reinvestment of all distributions. Inception date of the Fund was May 25, 2012.

Key Financial Data (unaudited)

We supplement the reporting of our financial information determined under United States generally accepted accounting principles (GAAP) with certain non-GAAP financial measures: distributable cash flow and distributable cash flow coverage ratio. We believe these non-GAAP measures provide meaningful information to assist shareholders in understanding our financial results and assessing our performance. We pay distributions to our shareholders, funded in part by distributable cash flow generated from our portfolio investments. Distributable cash flow is the amount of income received by us from our portfolio investments less operating expenses, subject to certain adjustments as described below. Other companies with similar measures may calculate these measures differently, and as a result, it may not be possible to compare these financial measures with other companies non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for reported net investment income. These non-GAAP financial measures reflect an additional way of viewing an aspect of our operations that, when viewed with our GAAP results and the below reconciliation to the corresponding GAAP financial measures, provide a more complete understanding of our Fund. We strongly encourage shareholders to review our financial statements in their entirety and not rely on any single financial measure.

The table below reconciles the non-GAAP financial measures, distributable cash flow and distributable cash flow coverage ratio, by starting with the most directly comparable GAAP financial measure, net investment income.

	Period
	Ended May 31,
	2014
Net investment loss, before income taxes	(\$ 128,901)
Reconciling items:	
Return of capital of distributions (a)	5,944,691
Dividends paid in stock (b)	1,589,415
Option premium earnings (c)	(361,751)
Distributable cash flow (non-GAAP)	\$ 7,043,454
Distributions paid on common stock	\$ 6,678,255
Distributable cash flow coverage ratio (non-GAAP)	1.05
Distributable cash flow coverage ratio since inception (non-GAAP)	1.00
Reconciliation of distributable cash flow to GAAP	

- (a) GAAP recognizes that a significant portion of the cash distributions received from MLPs is characterized as a return of capital and therefore excluded from net investment income, whereas the distributable cash flow calculation includes the return of capital portion of such distributions.
- (b) Distributable cash flow includes the value of dividends paid-in-kind (i.e., stock dividends), whereas such amounts are not included in net investment income for GAAP purposes during the period received, but rather are recorded as unrealized gains upon receipt.
- (c) We may sell covered call option contracts to generate income or to reduce our ownership of certain securities that we hold. In some cases, we are able to repurchase these call option contracts at a price less than the fee that we received, thereby generating a profit. The amount we received from selling call options, less the amount that we pay to repurchase such call option contracts is included in distributable cash flow. For GAAP purposes, income from call option contracts sold is not included in net investment income. See Note 2 Summary of Significant Accounting Policies and Practices for a full discussion of the GAAP treatment of option contracts.

Asset coverage per \$1,000 unit of senior indebtedness ⁽⁹⁾	\$	3,412	\$	3,187	\$	3,443
Short-term borrowings, end of period (000s)	\$	113,300	\$	105,500	\$	75,200

- (1) Commencement of operations.
- (2) Information presented relates to a common share outstanding for periods indicated.
- (3) Per share net investment gain has been calculated using the average daily shares method.
- (4) Represents the dilution per common share from underwriting and other offering costs for the period.
- (5) Not annualized for periods less than one year.
- (6) Total investment return is calculated assuming a purchase of common shares at the current market price on the first day of the period and a sale at the closing market price on the last day of the period reported (excluding brokerage commissions). Dividends and distributions are assumed for the purpose of this calculation to be reinvested at prices obtained under the DRIP.
- (7) Annualized for periods less than one year.
- (8) The amount includes an investment adviser waiver representing 0.30%, 0.30% and 0.25% for the periods ended May 31, 2014, November 30, 2013 and November 30, 2012, respectively, to the expense ratios. Without this waiver, the expense ratios would be higher.

(9) Calculated by subtracting the Fund s total liabilities (not including borrowings) from the Fund s total assets and dividing by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness.

Notes to Consolidated Financial Statements

(Unaudited)

(1) ORGANIZATION

Salient Midstream & MLP Fund (the Fund), a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the 1940 Act), commenced operations on May 24, 2012 as a non-diversified, closed-end management investment company. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (Common Shares), which may be issued in more than one class or series. The Fund s Common Shares are listed on the New York Stock Exchange (NYSE) under the symbol SMM.

The Fund s objective is to provide a high level of total return with an emphasis on making quarterly cash distributions to its common shareholders. The Fund seeks to achieve its investment objective by investing at least 80% of its total assets in securities of midstream companies and master limited partnerships (MLPs).

The board of trustees (each member thereof a Trustee and, collectively the Board) is authorized to engage an investment adviser, and pursuant to an investment management agreement (the Investment Management Agreement), it has selected Salient Capital Advisors, LLC (the Adviser) to manage the Fund s portfolio and operations. The Adviser is a Texas limited liability company that is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. Under the Investment Management Agreement, the Adviser is responsible for the establishment of an investment committee (the Investment Committee), which is responsible for developing, implementing, and supervising the Fund s investment program subject to the ultimate supervision of the Board.

Under the Fund s organizational documents, the Fund s Trustees and officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In the normal course of business, the Fund enters into contracts with service providers, which also provide for indemnifications by the Fund. The Fund s maximum exposure under these arrangements is unknown as this would involve any future potential claims that may be made against the Fund. However, based on experience, management expects that risk of loss to be remote.

The Fund may invest up to 25% of its total assets in Salient Midstream & MLP Fund, Inc., a wholly owned subsidiary (the Subsidiary). The Subsidiary, which is organized under the laws of the state of Delaware, is controlled by the Fund, and is therefore consolidated in the Fund s consolidated financial statements. The Fund invests in the Subsidiary in order to gain additional exposure to the investment returns of the MLP markets, within the limitations of the federal tax law requirements applicable to regulated investment companies (RIC). Where the context requires, the Fund includes both the Fund and the Subsidiary.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

(a) BASIS OF ACCOUNTING

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP). The accompanying consolidated financial statements reflect the financial position of the Fund and its Subsidiary and the results of their operations on a consolidated basis. All intercompany accounts and transactions have been eliminated in consolidation.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

(b) CASH EQUIVALENTS

The Fund considers all unpledged temporary cash investments with a maturity date at the time of purchase of three months or less to be cash equivalents.

(c) PORTFOLIO SECURITIES TRANSACTIONS

Security transactions are accounted for on a trade date basis. Realized gains and losses are reported using the specific identification cost basis.

(d) INVESTMENT VALUATION

The valuation of the Fund s investments is determined each day based on the most recent close of regular session trading on the NYSE and reported by Citi Fund Services Ohio, Inc., the Fund s independent administrator (Administrator).

The Board has formed a valuation committee (the Board Valuation Committee) that is responsible for overseeing the Fund s valuation policies, making recommendations to the Board on valuation-related matters, and overseeing implementation by the Adviser of the Fund s valuation policies.

The Board has authorized the Adviser to establish a valuation committee of the Adviser (Adviser Valuation Committee). The function of the Adviser Valuation Committee, subject to oversight of the Board Valuation Committee and the Board, is generally to review the Fund s valuation methodologies, valuation determinations, and any information provided to the Adviser Valuation Committee by the Adviser or the Administrator.

To the extent that the price of a security cannot be determined applying the methods described below, the Adviser Valuation Committee in conjunction with the Administrator will determine the price of the security pursuant to the fair value procedures approved by the Board.

Investments currently held by the Fund are valued as follows:

SECURITIES LISTED ON A SECURITIES EXCHANGE OR OVER-THE-COUNTER EXCHANGES In general, the Fund values those securities at their last sale price on the exchange or over-the-counter market on the valuation date. If the security is listed on more than one exchange, the Fund uses the price from the exchange that it considers to be the principal exchange on which the security is traded. If there have been no sales for that day on the exchange where the security is principally traded, then the price of the security will be the mean of the closing bid and ask prices on the valuation day on the relevant exchange. Securities listed on the NASDAQ will be valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price.

PUBLICLY-TRADED EQUITY SECURITIES ACQUIRED IN A DIRECT PLACEMENT TRANSACTION Such securities may be subject to restrictions on resale that can affect the security s liquidity and fair value. Such securities that are convertible or otherwise will become freely tradable will be valued based on the market value of the freely tradable security less an applicable restriction discount. Generally, the discount will initially be equal to the discount at which the Fund purchased the securities and thereafter will be periodically reassessed and likely

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

reduced over the anticipated restricted period. Equity securities are typically categorized as Level 1 or 2 in the fair value hierarchy based on the level of inputs utilized in determining the value of such investments.

DERIVATIVES Exchange traded futures contracts are valued using quoted final settlement prices from the national exchange on which they are principally traded and are typically categorized as Level 1 in the fair value hierarchy. If no such price is reported by such exchange on the valuation date, the Adviser Valuation Committee will determine the fair value in good faith using information that is available at such time. Such fair valued investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Options that are listed on a securities exchange are generally valued at the closing bid and ask prices for options held long and short, respectively on the valuation date and are typically categorized as Level 1 in the fair value hierarchy. If no such bid or ask price is reported, the positions are valued at the last sales price on the valuation date. If no such sales price is reported by such exchange on the valuation date, the Adviser Valuation Committee in conjunction with the Administrator will determine the fair value in good faith using information that is available at such time. Such fair valued investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Options traded on an over-the-counter market are generally valued using the midpoint of the closing bid and ask prices provided by an independent pricing service. If a quotation is not available from the independent pricing service, the price is obtained from a broker (typically the counterparty to the option) on the valuation date. If no such price is available on the valuation date, the Adviser Valuation Committee in conjunction with the Administrator will determine the fair value of such options in good faith using information that is available at such time. Such fair valued options are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Non exchange-traded derivatives, such as swap agreements, are valued based on procedures approved by the Board and are typically categorized as Level 2 in the fair value hierarchy. Credit default swaps and total return swaps are generally fair valued using evaluated quotes provided by an independent pricing service. If a quotation is not available from the independent pricing service, the price is obtained from a broker (typically the counterparty to the swap agreement) on the valuation date.

SECURITIES NOT ACTIVELY TRADED The value of securities, derivatives or synthetic securities that are not actively traded on an exchange are determined by obtaining quotes from brokers that normally deal in such securities or by an unaffiliated pricing service that may use actual trade data or procedures using market indices, matrices, yield curves, specific trading characteristics of certain groups of securities, pricing models or a combination of these procedures. In each of these situations, valuations are typically categorized as Level 2 in the fair value hierarchy. Securities for which independent pricing services are not available are valued at fair value pursuant to the fair valuation procedures approved by the Board and are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

(Unaudited)

INVESTMENT FUNDS Investments in investment limited partnerships and shares in unregistered investment funds (Investment Funds) for which a market value is not available will generally be valued using the partner's capital or net asset value (NAV) as a practical expedient, as reported by the investment fund managers or the administrators of such Investment Funds. These Investment Funds value their underlying investments in accordance with policies established by such Investment Funds. Prior to investing in any Investment Fund, the Adviser Valuation Committee, as part of the due diligence process, conducts a review of the valuation methodologies employed by the Investment Fund to determine whether such methods are appropriate for the asset types. The Adviser Valuation Committee will consider whether it is appropriate, in light of the relevant circumstances, to value shares at NAV as reported by an Investment Fund for valuation purposes, or whether to adjust such reported value to reflect an adjusted fair value. Because of the inherent uncertainty of valuation, fair value may differ significantly from the value that would have been used had readily available markets for the investments in Investment Funds existed. The Fund's investments in Investment Funds are subject to the terms and conditions of the respective operating agreements and offering memoranda of such Investment Funds. Investment Funds are typically categorized as Level 2 or Level 3 in the fair value hierarchy based upon liquidity.

OTHER Investments in private placement securities and other securities for which market quotations are not readily available will be valued in good faith by using fair value procedures approved by the Board. Such fair value procedures may consider among other factors discounts to publicly traded issues, time until conversion date, securities with similar yields, quality, type of issue, coupon, duration and rating, and an analysis of the issuer s financial statements and reports. If events occur that affect the value of the Fund s securities before the net asset value has been calculated, the securities so affected will generally be priced using fair value procedures. Such investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the level of inputs utilized in determining the value of such investments.

(e) FOREIGN CURRENCY

The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollar amounts at current exchange rates on the valuation date. Purchases and sales of investments denominated in foreign currencies are translated into U.S. dollar amounts at the exchange rate on the respective dates of such transactions.

(f) MASTER LIMITED PARTNERSHIPS

Entities commonly referred to as MLPs are generally organized under state law as limited partnerships or limited liability companies. The Fund and Subsidiary invest in MLPs receiving partnership taxation treatment under the Internal Revenue Code of 1986, as amended (the Code), and whose interests or units are traded on securities exchanges like shares of corporate stock. To be treated as a partnership for U.S. federal income tax purposes, an MLP whose units are traded on a securities exchange must receive at least 90% of its income from qualifying sources such as interest, dividends, real property rents, gains on dispositions of real property, income and gains from mineral or natural resources activities, income and gains from the transportation or storage of certain fuels, and, in certain circumstances, income and gains from commodities or futures, forwards and options on commodities. Mineral or natural resources activities include exploration, development, production, processing, mining, refining, marketing and transportation (including pipelines) of oil and gas, minerals,

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

geothermal energy, fertilizer, timber or industrial source carbon dioxide. An MLP consists of a general partner and limited partners (or in the case of MLPs organized as limited liability companies, a managing member and members). The general partner or managing member typically controls the operations and management of the MLP and has an ownership stake in the partnership or limited liability company. The limited partners or members, through their ownership of limited partner or member interests, provide capital to the entity, are intended to have no role in the operation and management of the entity and receive cash distributions. The Fund s investments in MLPs consist only of limited partner or member interests ownership. The MLPs themselves generally do not pay U.S. federal income taxes. Thus, unlike investors in corporate securities, direct MLP investors are generally not subject to double taxation (i.e., corporate level tax and tax on corporate dividends). Currently, most MLPs operate in the energy and/or natural resources sector.

(g) RESTRICTED AND ILLIQUID SECURITIES

The Fund may invest up to 30% of its total assets in unregistered or otherwise restricted securities of which up to 10% may be in securities of privately held companies. A restricted security is a security which has been purchased through a private offering and cannot be resold to the general public without prior registration under the Securities Act of 1933 (the 1933 Act.) or pursuant to the resale limitations provided by Rule 144 under the 1933 Act, or an exemption from the registration requirements of the 1933 Act. Illiquid securities are securities that cannot be sold or disposed of within a reasonable amount of time in the ordinary course of business. Certain restricted securities may be resold in transactions exempt from registration, normally to qualified institutional buyers, and may be deemed liquid by the Adviser based on procedures approved by the Board. Therefore, not all restricted securities are considered illiquid.

The restricted securities held at May 31, 2014 are identified below and are also presented in the Fund s Consolidated Schedule of Investments.

	% of	Acquisition		Shares/	
Security	Net Assets	Date	Total Cost	Units	Fair Value
EMG Utica I Offshore Co-Investment, L.P.*	3.7%	2/22/13	\$ 9,000,000	9,000,000	\$ 9,978,300
Total	3.7%		\$ 9,000,000	9,000,000	\$ 9,978,300

* Security has been deemed illiquid by the Adviser.

(h) AFFILIATED INVESTMENT FUNDS

The 1940 Act defines affiliates as those issuers in which a fund holds 5% or more of the outstanding voting securities, but the fund does not own enough of the outstanding voting securities of the issuer to have control (as defined by the 1940 Act) of that issuer. The following is a summary of the investments in other affiliates for the period ended May 31, 2014:

					Change in	
	Fair Value			Realized Gain	Unrealized	Fair Value
	November 30,	Cost of	Proceeds	(Loss) on	Appreciation/	May 31,
Security	2013	Purchases	from Sales	Investments	Depreciation	2014
EMG Utica I Offshore Co-Investment, L.P.	\$ 9,538,200	\$	\$	\$	\$ 440,100	\$ 9,978,300

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

(i) INVESTMENT INCOME

Interest income is recognized on the accrual basis. Distributions are recorded on the ex-dividend date. Distributions received from the Fund s investments in MLPs generally are composed of ordinary income, capital gains and return of capital from the MLPs.

(j) USE OF ESTIMATES

The preparation of the consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates and such differences may be significant.

(k) DERIVATIVE INSTRUMENTS

All open derivative positions at period end, if any, are presented in the Fund s Consolidated Schedule of Investments. The following is a description of the derivative instruments that the Fund has utilized as part of its investment strategy, including the primary underlying risk exposures related to each instrument type.

OPTIONS The Fund writes equity call options with the purpose of generating realized gains from premiums as a means to enhance distributions to the Fund s common shareholders. Options are secured by investments, as detailed in the Fund s Consolidated Schedule of Investments. A call option on a security is a contract that gives the holder of such call option the right to buy the security underlying the call option from the writer of such call option at a specified price at any time during the term of the option. At the time the call option is sold, the writer of a call option receives a premium from the buyer of such call option. If the Fund writes a call option, it will have the obligation upon exercise of such call option to deliver the underlying security upon payment of the exercise price. As the writer of a covered call option, during the option s life, the Fund gives up the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but the Fund retains the risk of loss should the price of the underlying security decline.

The Fund had the following transactions in written call options during the period ended May 31, 2014:

	Number of Contracts	Premiums
Options outstanding at November 30, 2013		\$
Options written	16,420	1,415,181
Options expired	(565)	(35,854)
Options closed	(12,309)	(1,274,132)
Options outstanding at May 31, 2014	3,546	\$ 105,195

FUTURES CONTRACTS The Fund invests in futures contracts as a part of its hedging strategy to manage exposure to interest rate, equity and market price movements, and commodity prices. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date. Upon entering into a futures contract, the Fund is required to pledge to the broker an amount of cash and/or other assets

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

equal to a certain percentage of the contract amount (initial margin deposit). A portion of the initial margin is restricted as to its use. Subsequent payments, known as variation margin, are made or received by the Fund, depending on the fluctuations in the value of the underlying asset. The underlying assets are not physically delivered. The Fund recognizes a gain or loss equal to the variation margin. Should market conditions move unexpectedly, the Fund may not achieve the anticipated benefits of the futures contracts and may realize a loss. The use of futures transactions involves, to varying degrees, elements of market risk (generally equity price risk related to stock index or equity futures contracts and interest rate risk related to bond futures contracts) and exposure to loss. The face or contract amounts reflect the extent of the total exposure the Fund has in the particular classes of instruments. Among other risks, the use of futures contracts may cause the Fund to have imperfect correlation due to differences between movements in the price of the futures contracts and the market value of the underlying assets. With futures, there is minimal counterparty credit risk to the Fund since futures are exchange-traded and the exchange s clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

SWAP AGREEMENTS The Fund invests in swap agreements, primarily total return swap agreements, as part of its hedging strategy to manage market risks.

A credit default swap agreement gives one party (the buyer) the right to recoup the economic value of a decline in the value of debt securities of the reference issuer if a credit event (a downgrade, bankruptcy or default) occurs. This value is obtained by delivering a debt security of the reference issuer to the party in return for previously agreed upon payment from the other party (frequently, the par value of the debt security) or receive a net amount equal to the par value of the defaulted reference entity less it recovery value. The Fund is usually a net buyer of credit default swap agreements.

The Fund as a buyer of a credit default swap agreement would have the right to deliver a referenced debt obligation and receive the par (or other agreed-upon) value of such debt obligation from the counterparty in the event of a default or other credit event by the reference issuer with respect to its debt obligations. In return, the Fund would pay the counterparty a periodic stream of payments over the term of the agreement provided that no event of default or other credit event has occurred. If no default or other credit event occurs, the counterparty would keep the stream of payments and would have no further obligations to the Fund.

A total return swap agreement is a bilateral financial contract agreement where one party (the payer) agrees to pay the other (the receiver) the total return on a specified asset or index in exchange for a fixed or floating rate of return. A total return swap agreement allows the receiver or payer to derive the economic benefit of owning or having short exposure to an asset without owning or shorting the underlying asset directly. The receiver is entitled to the amount, if any, by which the notional amount of the total return swap agreement would have increased in value had it been invested in the particular instruments, plus an amount equal to any dividends or interest that would have been received on those instruments. In return, the payer is entitled to an amount equal to a fixed or floating rate of interest (e.g., a LIBOR based rate) on the notional amount of the swap agreement plus the amount, if any, by which the notional amount would have decreased in value had it been invested in such instruments, less any dividends or interest. The amounts to which each party is entitled are normally netted against each other at periodic settlement dates, resulting in a single amount that is either due to or from each party.

In addition to being exposed to the credit risk of the underlying reference entity, swap agreements are subject to counterparty risk, market risk and interest rate risk. Swap agreements utilized by the Fund may not perform as expected. Risks may arise as a result of the failure of the counterparty to perform under the agreement. The loss

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

incurred by the failure of a counterparty is generally limited to the market value and premium amounts recorded. The Fund considers the creditworthiness of each counterparty to a swap agreement in evaluating potential credit risk, and will not enter into any swap agreement unless the Adviser believes the counterparty to the transaction is creditworthy, or unless the swap agreement is centrally cleared. With uncleared swap agreements, the Fund bears the risk of loss of the amount expected to be received under the swap agreement if the counterparty fails to perform. Additionally, risks may arise from the unanticipated movements in interest rates or in the value of the underlying reference assets. The Fund may use various techniques to minimize credit risk including early termination or reset and payment. The counterparty risk for cleared swap agreements is generally lower than for uncleared over-the-counter swap agreements as the clearing organization becomes substituted for each counterparty and, in effect, guarantees the parties performance under the contract as each party to a trade looks only to the clearing house for performance of financial obligations. However, there can be no assurance that the clearing house, or its members, will satisfy its obligations to the Fund. Collateral, in the form of cash, is held in broker segregated accounts for swap agreements.

The following is a summary of the fair value of derivative instruments held directly by the Fund as of May 31, 2014, and where such derivatives are recorded:

	Unrealized Loss on Swap Agreements	Liabilities Unrealized Depreciation on Futures Contracts*	Written Call Options at Fair Value
Equity Risk Exposure:			
Written Call Options	\$	\$	\$ 111,250
Futures Contracts		599,926	
Swap Agreements	1,500,784		
Commodity Risk Exposure:			
Futures Contracts		212,888	

^{*} Includes cumulative appreciation/depreciation on futures contracts as reported in the Consolidated Schedule of Investments. Only current day s variation margin is reported in the Consolidated Statement of Assets, Liabilities and Shareholders Equity.

The following is a summary of the effect of derivative instruments on the Consolidated Statement of Operations for the period ended May 31, 2014.

	Net Realized Gain/Loss on Derivatives	Change in Unrealized Appreciation/ Depreciation on Derivatives
Equity Risk Exposure:		
Futures Contracts	\$ (82,893)	\$ (599,926)
Swap Agreements	(2,044,705)	(1,500,784)
Written Call Options	(361,751)	(111,250)
Commodity Risk Exposure:		
Futures Contracts	389,229	(212,888)

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

Effective January 1, 2013 the Fund adopted Accounting Standards Update (ASU) No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11), which was subsequently clarified by ASU No. 2013-01 Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities (ASU 2013-01). ASU 2013-01 requires an entity to disclose information about offsetting and related arrangements to enable users of that entity s financial statements to understand the effect of the arrangements on its financial position.

As described above, the Fund utilized derivative instruments to achieve its investment objective during the period ended May 31, 2014. The Fund may enter into International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreement) or similar agreements with its derivative contract counterparties whereby the Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and/or receivables with collateral held and/or posted and create one single net payment. Under the ISDA Master Agreements in place at May 31, 2014, the Fund is subject to master netting agreements that allow for amounts owed between the Fund and the counterparty to be netted. The party that has the larger net payable pays the excess of the larger amount over the smaller amount to the other party. The master netting agreements do not apply to amounts to or from different counterparties. At May 31, 2014, the Fund did not hold any derivatives with applicable master netting agreements which were presented on a net basis in the financial statements.

As of May 31, 2014, the Fund had one total return swap agreement with Morgan Stanley as the counterparty, with an unrealized loss of \$1,500,784 as presented in the Consolidated Statement of Assets, Liabilities and Shareholders Equity.

The following is a summary of the average monthly notional value of written options, futures contracts and swap agreements during the period ended May 31, 2014.

	Average Monthly Notional Value	Notional Value Outstanding at May 31, 2014
Written call options	\$ 172,272	\$ 111,250
Futures contracts sold	36,241,993	54,695,865
Total return swap agreements	13,286,686	79,062,333

(1) DISTRIBUTIONS TO SHAREHOLDERS

The Fund intends to continue to comply with the requirements under Subchapter M of the Internal Revenue Code (the Code) in order to continue to qualify as a RIC. If so qualified, the Fund will not be subject to federal income tax to the extent it distributes substantially all of its net investment income and net capital gains to its shareholders.

The Fund intends to make quarterly distributions to shareholders. Net realized capital gains, if any, will be distributed annually. Distributions from net realized gains may include short-term capital gains. All net short-term capital gains are included in ordinary income for tax purposes. Distributions to shareholders are recorded on the ex-dividend date. The Fund may also pay, at the end of the calendar year, a special distribution to comply with requirements under the Code.

Each shareholder will automatically be a participant under the Fund s Dividend Reinvestment Plan (the DRIP) and have all income distributions and capital gains distributions automatically reinvested in Shares,

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

unless a shareholder otherwise elects to receive distributions in cash. Generally, for U.S. federal income tax purposes, shareholders receiving Shares under the DRIP will be treated as having received a distribution equal to the amount of cash they would have received had the shareholder not participated in the DRIP.

The character of distributions made during the period from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. For the period ended May 31, 2014, all of the Fund s distributions are return of capital.

The amount of distributions from net investment income and net realized gains are determined in accordance with federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (e.g., return of capital, differing treatment on certain swap agreements, net operating loss, distribution reclassification, certain gain/loss and certain distributions), such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment: temporary differences (e.g., wash sales and differing treatment on certain swap agreements) do not require a reclassification. Distributions which exceed net investment income and net realized gains for financial reporting purposes but not for tax purposes are reported as distributions in excess of net investment income or net realized gains. To the extent they exceed net investment income and net realized gains for tax purposes, they are reported as return of capital.

(m) CFTC REGULATION

On August 13, 2013, the Commodity Futures Trading Commission (CFTC) adopted rules to harmonize conflicting Securities and Exchange Commission (the SEC) and CFTC disclosure, reporting and recordkeeping requirements for registered investment companies that do not meet an exemption from the definition of commodity pool. The harmonization rules provide that the CFTC will accept the SEC s disclosure, reporting, and recordkeeping regime as substituted compliance for substantially all of the otherwise applicable CFTC regulations as long as such investment companies meet the applicable SEC requirements.

With respect to the Fund, the Adviser has claimed an exclusion from the definition of the term commodity pool operator under the CFTC Regulation 4.5 of the Commodity Exchange Act (the CEA). As such, the Fund is not currently subject to registration or regulation as a commodity pool operator under the CEA.

(n) PROPOSED TAX REGULATIONS

On August 2, 2013, the Internal Revenue Service (IRS) issued proposed regulations which, if adopted in their current form, would require the Fund to aggregate investment holdings of the Subsidiary with its direct investment holdings for purposes of determining whether more than 25% of its total assets are invested in the securities of qualified publicly traded partnerships, which includes MLPs. The proposed regulations would not impact Fund investments in affiliates of MLPs or other Energy Infrastructure Companies structured as domestic corporations. If the proposed regulations are adopted and finalized in their current form, the Fund would reduce its overall investment in MLPs, whether held in the Fund directly or held by the Subsidiary, to no more than 25% of the Fund s total assets. The Fund would otherwise continue to pursue its current investment objective and strategies.

The IRS proposed regulations have no immediate impact on the current operations of the Fund, and will not affect the ability of the Fund to qualify as a RIC for tax purposes in the current year. The IRS had requested

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

comments on the proposed regulations, with the comment period ending October 31, 2013. The IRS received a number of comments on the proposal from issuers and trade associations. IRS action on the proposal remains uncertain.

The Adviser is evaluating possible investment alternatives in the event the proposed regulations are finalized. Reduction of the Fund s investments in MLPs (whether held in the Fund directly or held in the Subsidiary), and/or use of any alternatives, could negatively affect the Fund s investment returns.

(o) RETURN OF CAPITAL ESTIMATES

Distributions received from the Fund s investments in MLPs generally are composed of income, capital gains and return of capital. The Fund records investment income and return of capital based on estimates made at the time such distributions are received. Such estimates are based on historical information available from each MLP and other industry sources. These estimates may subsequently be revised based on information received from MLPs after their tax reporting periods are concluded.

For the period ended May 31, 2014, the Fund estimated that approximately 91% of the MLP distributions received would be treated as a return of capital. The Fund recorded as return of capital the amount of \$5,944,691 of dividends and distributions received from its investments. Net realized gain was increased by \$1,375,103 and change in net unrealized appreciation/depreciation was increased by \$4,569,588 in the accompanying Consolidated Statement of Operations, attributable to the recording of such distributions as a reduction in the cost basis of investments.

(p) FEDERAL AND OTHER TAXES

For the current open tax year and for all major jurisdictions, management of the Fund has evaluated the tax positions taken or expected to be taken in the course of preparing the Fund s tax returns to determine whether the tax positions will more-likely-than-not be sustained by the Fund upon challenge by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold and that would result in a tax benefit or expense to the Fund would be recorded as a tax benefit or expense in the current period. For the period ended May 31, 2014, the Fund did not recognize any amounts for unrecognized tax benefit/expense. A reconciliation of unrecognized tax benefit/expense is not provided herein, as the beginning and ending amounts of unrecognized tax benefit/expense are zero, with no interim additions, reductions or settlements.

The Subsidiary, as a corporation, is obligated to pay federal and state income tax on its taxable income. The Subsidiary invests its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the Subsidiary includes its allocable share of the MLP s taxable income in computing its own taxable income. Deferred income taxes reflect (i) taxes on unrealized gains (losses), which are attributable to the temporary difference between fair market value and tax basis, (ii) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and (iii) the net tax benefit of accumulated net operating and capital losses. To the extent the Subsidiary has a deferred tax asset, consideration is given as to whether or not a valuation allowance is required. The need to establish a valuation allowance for deferred tax assets is assessed periodically by the Subsidiary. A valuation allowance will be established if it is more likely than not that some portion or the entire deferred tax asset will not be realized. In the assessment of a valuation allowance, consideration is given to all positive and negative evidence related to the realization of the deferred tax asset.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability (which are highly dependent on future cash distributions from the Subsidiary s MLP holdings), the duration of statutory carry forward periods and the associated risk that operating and capital loss carry forwards may expire unused.

For the current open tax year and for all major jurisdictions, management of the Subsidiary has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Furthermore, management of the Subsidiary is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The Subsidiary may rely to some extent on information provided by the MLPs, which may not necessarily be timely, to estimate taxable income allocable to the MLP units held in the portfolio and to estimate the associated deferred tax liability. Such estimates are made in good faith. From time to time, as new information becomes available, the Subsidiary may modify its estimates or assumptions regarding the deferred tax liability.

The Subsidiary s policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on its Statement of Operations. The current and prior tax years remain open and subject to examination by tax jurisdictions.

(3) FAIR VALUE MEASUREMENTS

The Fund defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The valuation techniques employed by the Fund, as described below, maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. The inputs used to determine the fair value of the Fund s investments are summarized in the three broad levels listed below:

Level 1 unadjusted quoted prices in active markets for identical investments

Level 2 investments with other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 investments with significant unobservable inputs (including the Funds own assumptions in determining the fair value of investments) or Investment Funds that cannot be fully redeemed at the NAV in the near term; these are investments that generally have one or more of the following characteristics: gated redemptions, suspended redemptions, or lock-up periods greater than quarterly

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Other assets and securities, which are generally not exchange-traded, or for which market quotations are not readily available, or are deemed unreliable are valued at fair value as determined in good faith by the Adviser Valuation Committee. Fair value pricing may be used for significant events such as securities for which trading has been suspended, prices have become stale or for which there is no currently available price at the close of the NYSE. A significant change in the unobservable inputs could result in a significantly lower or higher fair value measurement. Depending on the source and relative significance of valuation inputs, these investments may be classified as Level 2 or Level 3 in the fair value hierarchy.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

The Fund establishes valuation processes and procedures to ensure that the valuation techniques for investments that are categorized within Level 3 of the fair value hierarchy are fair, consistent, and appropriate. The Adviser is responsible for developing the Fund s written valuation processes and procedures, conducting periodic reviews of the valuation policies, and evaluating the overall fairness and consistent application of the valuation policies. The Board Valuation Committee has authorized the Adviser to oversee the implementation of the Board approved valuation procedures by the Administrator. The Adviser Valuation Committee is comprised of various Fund personnel, which include members from the Fund s portfolio management and operations groups. The Adviser Valuation Committee meets monthly or as needed, to determine the valuations of the Fund s Level 3 investments. Fund valuations are required to be supported by market data, industry accepted third-party valuation models, or other methods the Adviser Valuation Committee deems to be appropriate, including the use of internal proprietary valuation models.

The following is a summary categorization as of May 31, 2014, of the Fund s investments based upon the three levels defined above. The breakdown by category of equity securities is disclosed in the Consolidated Schedule of Investments.

	LEVE	L 1	LEVEL 2	LEVE	L 3	Tot	tal
	Investment Securities		Other ent Financial esInstruments^	Investment Securities	Other Financial Instruments	Investment Securities	Other Financial Instruments^
Investments							
Master Limited Partnerships							
and Related Companies							
Natural Gas							
Gathering/Processing	\$ 93,936,955	\$	\$ \$	\$ 9,978,300	\$	\$ 103,915,255	\$
Other Master Limited							
Partnerships and Related							
Companies	275,342,081					275,342,081	
Written Call Options		(111,250)					(111,250)
Futures Contracts		(812,814)					(812,814)
Swap Agreements			(1,500,784)				(1,500,784)
Total	\$ 369,279,036	\$ (924,064)	\$ \$ (1,500,784)	\$ 9,978,300	\$	\$ 379,257,336	\$ (2,424,848)

[^] Other financial instruments include any derivative instruments not reflected in the Consolidated Schedule of Investments as investment securities, such as written options, futures contracts and swap agreements. These investments are generally presented in the consolidated financial statements at the unrealized gain or loss on the investment, or at fair value for written options.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

The following table is a summary of quantitative information about significant unobservable valuation inputs for Level 3 fair value measurements for investments held as of May 31, 2014.

Type of Assets Master Limited Partnerships and Related	 · Value as of ay 31, 2014	Valuation Technique(s)	Liquidity of Investments	Adjustments to Fair Value**
Companies EMG Utica I Offshore Co-Investment, L.P.	\$ 9,978,300	NAV as Practical Expedient*	Quarterly or Greater	None
Total Investments	\$ 9,978,300			

The Fund discloses transfers between levels based on valuations at the end of the reporting period. There were no transfers between Levels 1, 2, or 3 for the period ended May 31, 2014. The following is a reconciliation of Level 3 investments based on the inputs used to determine fair value:

	 lance as of nber 30, 2013	Gross Purchases	Gross Sales	Net Realized Gain (Loss)	U Ap	Change in Inrealized preciation/ epreciation	Balance as of May 31, 2014
Master Limited Partnerships and Related Companies							
Natural Gas Gathering/Processing	\$ 9,538,200	\$	\$	\$	\$	440,100	\$ 9,978,300
Total Investments	\$ 9,538,200	\$	\$	\$	\$	440,100	\$ 9,978,300

(4) CREDIT FACILITY

The Fund maintains a line of credit agreement (the Agreement) with Bank of America Merrill Lynch (BAML) which provides a secured revolving \$110,000,000 credit facility. Borrowings under the Agreement are secured by investments, as detailed in the Fund's Consolidated Schedule of Investments. The Agreement provides for a commitment fee of 0.25% per annum on undrawn amounts above a certain threshold plus interest accruing on any borrowed amounts at the one month LIBOR plus 0.75% per annum. The average principal balance and weighted average interest rate for the period ended May 31, 2014, was approximately \$94,496,703. and 0.91%, respectively. At May 31, 2014, the principal balance outstanding was \$88,700,000 at an interest rate of 0.90%. The current credit facility expires on June 22, 2015.

The Subsidiary maintains a line of credit agreement (the Sub Agreement) with BAML which provides a secured revolving \$34,000,000 credit facility. Borrowings under the Sub Agreement are secured by investments, as detailed in the Fund s Consolidated Schedule of Investments. The

Unobservable valuation input.

^{**} Fair Value may be adjusted if underlying fund reports a NAV as of a date other than the Fund s measurement date, or if underlying fund is not reporting its investments at fair value.

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSRS

Sub Agreement provides for a commitment fee of 0.25% per annum on undrawn amounts above a certain threshold plus interest accruing on any borrowed amounts at the one month LIBOR plus 0.75% per annum. The average principal balance and weighted average interest rate for the period ended May 31, 2014 was approximately \$17,133,516. and 0.91%, respectively. At May 31, 2014, the principal balance outstanding was \$24,600,000 at an interest rate of 0.90%. The current credit facility expires on June 22, 2015.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

(5) FEDERAL INCOME TAXES

The Fund intends to continue to comply with the requirements of the Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Also, in order to avoid the payment of any federal excise taxes, the Fund will distribute substantially all of its net investment income and net realized gains on a calendar year basis.

The tax character of dividends paid to shareholders during the tax year ended in 2013 was as follows:

Ordinary	Net Long Term	Total		Total
	Capital	Taxable	Tax Return	Distributions
Income	Gains	Distributions	of Capital	Paid
\$8,150,649	\$	\$ 8,150,649	\$ 4,825,706	\$ 12,976,355

The tax character of dividends paid to shareholders during the tax year ended in 2012 was as follows:

Ordinary	Net Long Term	Total		Total
	Capital	Taxable	Tax Return	Distributions
Income	Gains	Distributions	of Capital	Paid
\$	\$	\$	\$ 6.201.092	\$ 6.201.092

The differences between book-basis and tax-basis unrealized appreciation (depreciation) are primarily due to differences in the timing of recognition of gains and losses on investments for tax and book purposes.

The following information is provided on a tax basis as of May 31, 2014:

\$ 254,132,316
125,346,504
(221,484)
125,125,020
107,360,471

As of the end of the tax year ended November 30, 2013, the Fund had no capital loss carryforwards (CLCFs).

Under current tax law, capital losses and specified ordinary losses realized after October 31st and nonspecified ordinary losses incurred after December 31st (ordinary losses collectively known as qualified late year ordinary loss) may be deferred and treated as occurring on the first business day of the following fiscal year. The Fund had no deferred losses for the tax year ended November 30, 2013.

CLCFs are available to be carried back up to three years to offset past capital gains or carried forward up to five years to offset future capital gains. It is the Board s intent that the Fund will not distribute any realized gain distributions until the CLCFs have been offset or expire. As of November 30, 2013, the Fund had no CLCFs attributable to the Subsidiary.

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of the Subsidiary s deferred tax assets and liabilities as of May 31, 2014, are as follows:

Deferred tax assets:	
Net operating loss carryforward	\$ 3,241,334
Capital loss carryforward	755,339
Capital loss Carrytorward	133,339
Total deferred tax assets	3,996,673
Less deferred tax liability:	
Unrealized gain on investment securities	(17,764,549)
Total deferred tax liability	(17,764,549)
Total net deferred tax liability	\$ (13,767,876)

The Fund has net operating loss carryforwards (NOLs) attributable to the Subsidiary as summarized below. NOLs are available to be carried back up to two years to offset past taxable income or carried forward up to twenty years to offset future taxable income.

Fiscal Period Ended Net Operating Loss		Expiration
November 30, 2013	\$ (4,237,395)	November 30, 2033
May 31, 2014	(6,202,554)	May 31, 2034
Net operating loss carryforward	\$ (10,439,949)	

Although the Subsidiary currently has a net deferred tax liability, it periodically reviews the recoverability of its deferred tax assets based on the weight of available evidence. When assessing the recoverability of its deferred tax assets, significant weight is given to the effects of potential future realized and unrealized gains on investments and the period over which these deferred tax assets can be realized. Based on the Subsidiary s assessment, it has determined that it is more likely than not that its deferred tax asset will be realized through future taxable income of the appropriate character. Accordingly, no valuation allowance has been established for the Subsidiary s deferred tax asset. The Subsidiary will continue to assess the need for a valuation allowance in the future.

Total income tax expense (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 34% to the Subsidiary s net investment income and realized and unrealized gains (losses) on investments before taxes for the fiscal period ended May 31, 2014, as follows:

	Current	Deferred	Total
Application of statutory federal income tax rate	\$	\$ 4,910,360	\$ 4,910,360
State income taxes, net of federal tax benefit		288,845	288,845

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSRS

Total income tax expense	\$ \$ 5,199,205	\$ 5,199,205

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

(6) INVESTMENT TRANSACTIONS

For the period ended May 31, 2014, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were \$52,953,242 and \$70,424,547, respectively.

(7) ADMINISTRATION AGREEMENT

In consideration for administrative, accounting, and recordkeeping services, the Fund will pay the Administrator a monthly administration fee computed at an annual rate of 0.055% if the Fund s average net assets for the month are equal to or less than \$300 million. If the Fund s average net assets for the month are greater than \$300 million, the Fund will pay the Administrator at a rate of 0.045% of the Fund s average net assets. The minimum annual fee is \$150,000. The Administrator also provides the Fund with legal, compliance, custody and other investor-related services. The Fund pays the custodian monthly based on an annual fee of 0.004% on average daily market value, plus transaction costs.

(8) RELATED PARTY TRANSACTIONS

INVESTMENT MANAGEMENT FEE

In consideration of the advisory and other services provided by the Adviser, under the terms of the Investment Management Agreement between the Adviser and the Fund, the Fund pays the Adviser a management fee at an annualized rate, based on the average monthly consolidated net assets (excluding any liabilities related to borrowings and taxes) of the Fund of 1.20%. The fee is accrued and payable monthly.

The Adviser has contractually agreed to waive its management fee in an amount equal on an annual basis to 0.20% of the Fund s average monthly net assets (excluding any liabilities related to borrowings and taxes) until May 31, 2014.

(9) RISK CONSIDERATIONS

The following summary of certain common principal risk factors is not meant to be comprehensive of all the Fund s risks.

(a) GENERAL MARKET RISK

An investment in the Fund s common shares represents an indirect investment in the securities owned by the Fund, some of which will be traded on a national securities exchange or in the over-the-counter markets. The value of the securities in which the Fund invests, like other market investments, may move up or down, sometimes rapidly and unpredictably. The value of the securities in which the Fund invests will affect the value of the Fund s common shares. An investment in the Fund s common shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of the Fund s distributions.

(b) CONCENTRATION RISK

The Fund s investment portfolio will be concentrated in MLPs and midstream companies. The focus of the portfolio on a specific industry or industries within the midstream sector may present more risks than if the portfolio was broadly diversified over numerous sectors of the economy. A downturn in one or more industries

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

within the midstream sector would have a larger impact on the Fund than on an investment company that does not concentrate solely in MLPs and midstream companies. To the extent that the Fund invests a relatively high percentage of the Fund s assets in the obligations of a limited number of issuers, the Fund may be more susceptible than a more widely diversified investment company to any single economic, political or regulatory occurrence.

(c) LEVERAGE RISK

Financial leverage represents the leveraging of the Fund s investment portfolio. The use of leverage can amplify gains or losses. Unless the income and capital appreciation, if any, on securities acquired with the proceeds from financial leverage exceed the costs of such financial leverage, the use of leverage could cause the Fund s net asset value to decline. When financial leverage is used, the net asset value and market value of the Fund s common shares will be more volatile. There is no assurance that the Fund s use of financial leverage will be successful.

(d) DERIVATIVES RISK

The Fund may purchase and sell derivative instruments (including options, futures contracts and swap agreements). The use of derivatives has risks, including high price volatility, government intervention, non-performance by the counterparty, the imperfect correlation between the value of such instruments and the underlying assets, the possible default of the other party to the transaction or the illiquidity of the derivative investments. Furthermore, the ability to successfully use these techniques depends on the Adviser's ability to predict pertinent market movements, which cannot be assured. The use of derivatives may result in losses greater than if they had not been used, may require the Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Fund can realize on an investment or may cause the Fund to hold a security that the Fund might otherwise sell. In addition, amounts paid by the Fund as premiums and cash or other assets held in margin accounts with respect to derivative transactions are not otherwise available to the Fund for investment purposes.

(e) COUNTERPARTY RISK

The Fund will be subject to the risk of the inability of counterparties to perform with respect to transactions, whether due to a contract dispute, insolvency, liquidity or other causes, which could subject the Fund to substantial losses. This risk increases and becomes more concentrated as the number of Fund counterparties decreases. Counterparty risk also increases with the Fund s use of certain over-the-counter derivatives, which lack some of the safeguards afforded on a regulated exchange. Counterparty defaults may have a negative impact beyond the value of the contract as it could lead to the encumbrance of Fund collateral.

(10) CAPITAL SHARE TRANSACTIONS

The Fund has an unlimited number of shares of capital stock authorized, \$0.01 par value per share, and 9,499,651 shares issued and outstanding at May 31, 2014. Transactions in common shares for the period ended May 31, 2014 were as follows:

Shares issued and outstanding at November 30, 2013	9,499,651
Shares issued and outstanding at May 31, 2014	9,499,651

Notes to Consolidated Financial Statements, continued

May 31, 2014

(Unaudited)

(11) SUBSEQUENT EVENTS

The Fund received a notice from BAML, its credit provider, indicating that the Funds—credit facilities were being terminated effective June 22, 2015. The Adviser has been in discussions with other credit providers regarding the replacement of the current BAML provided facilities. Based on such discussions, the Adviser is confident it will be able to replace BAML as credit provider prior to the expiration of such facilities.

The Boards of Trustees of Salient MLP & Energy Infrastructure Fund (SMF) and the Fund (together the Funds) have approved a proposed reorganization, subject to shareholder approval, under which shareholders of SMF will receive common shares of the Fund and the Fund would acquire substantially all of the assets and liabilities of SMF. Such transaction would occur on the basis of relative net asset value of the Funds. The Funds have similar portfolios and operations and the Boards of Trustees believe that the transaction presents the opportunity for enhanced long-term market liquidity through increased trading volume, potential cost savings through increased economies of scale, and similar size-realted benefits and flexibility. The Funds expect to file with the Securities and Exchange Commission a joint proxy statement/prospectus on Form N-14 with respect to the reorganization. Subject to such shareholder approval and the satisfaction of certain conditions, the transaction is currently expected to close by the end of 2014.

Supplemental Information

May 31, 2014

(Unaudited)

Trustees and Officers

The Fund s operations are managed under the direction and oversight of the Board. Each Trustee serves for an indefinite term or until he or she reaches mandatory retirement as established by the Board. The Board appoints the officers of the Fund who are responsible for the Fund s day-to-day business decisions based on policies set by the Board. The officers serve at the pleasure of the Board.

Compensation for Trustees

The Fund pays each Trustee who is not an interested person of the Adviser, as defined in the 1940 Act (the Independent Trustees) an annual retainer of \$15,000. Such compensation shall encompass attendance and participation at all Board meetings, and any Committee meetings thereof, including telephonic meetings.

Form N-Q Filings

The Fund files a complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund s Form N-Q is available on the SEC website at http://www.sec.gov. The Fund s Form N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, DC and information regarding operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Fund s actual results are the performance of the portfolio of investments held by it, the conditions in the U.S. and international financial, petroleum and other markets, the price at which shares of the Fund will trade in the public markets and other factors discussed in filings with the SEC.

Proxy Voting Policies

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request by calling (800) 809-0525; and (ii) on the SEC website at http://www.sec.gov.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 of any year will be made available on or around August 30 of that year (i) without charge, upon request by calling (800) 809-0525; and (ii) on the SEC website at http://www.sec.gov.

Statement of Additional Information

The Statement of Additional Information (SAI) includes additional information about the Funds Trustees and is available upon request without charge by calling (800) 809-0525 or by visiting the SEC website at http://www.sec.gov.

Supplemental Information, continued

Certifications

The Fund s Chief Executive Officer has submitted to the NYSE the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Fund Manual.

Board Consideration of the Investment Management Agreement

At an in-person meeting of the Board held on January 21, 2014, the Board, including the Trustees who are not interested persons as that term is defined in the Investment Company Act of 1940, as amended (the Independent Trustees), considered and approved the continuation of the Investment Management Agreement (the Advisory Agreement) between the Fund and the Adviser. In preparation for review of this agreement, the Board requested the Adviser to provide detailed information which the Board determined to be reasonably necessary to evaluate the agreement. The Independent Trustees also met in-person among themselves prior to the January 21 meeting and on January 20, 2014 to review and discuss aspects of these materials, initially with, and later without, representatives of the Adviser being present. At the request of the Independent Trustees, the Adviser made presentations regarding the materials and responded to questions from the Independent Trustees relating to, among other things, portfolio management, the Fund s investment program, Fund and Adviser compliance programs, Fund performance including benchmarks and comparisons to other funds, Fund fee levels, other portfolios (including fees) managed by the Adviser and its affiliates and the Adviser s profitability (including revenue of the Adviser across all its funds). The Board, including the Independent Trustees, also took into consideration information furnished for the Board s review and consideration throughout the year at regular Board meetings. The Independent Trustees were assisted at all times by independent counsel.

Following the Board s review, the Independent Trustees concluded that the Advisory Agreement continues to enable the Fund to obtain high quality services at a cost that is appropriate, reasonable, and in the interests of investors. They stated that prudent exercise of judgment warranted renewal of the advisory fee. It also was noted that the Board s decision to renew the Advisory Agreement was not based on any single factor, but rather was based on a comprehensive consideration of all the information provided to the Board at its meetings throughout the year. Upon consideration of these and other factors, the Board also determined:

The nature, extent and quality of the advisory services provided. With respect to the Advisory Agreement, the Board considered: the specialized expertise required to manage the Fund s strategy, personnel and staffing at the Adviser, the background and experience of key investment personnel; the Adviser s focus on analysis of complex asset categories; the Adviser s disciplined investment approach and commitment to investment principles; the Adviser s significant investment in and commitment to personnel, including additional hiring and extensive training; the Adviser s significant compliance, risk oversight and tax reporting efforts; and, the Adviser s oversight of and interaction with service providers.

The Board concluded that the nature, extent and quality of the management and advisory service provided were appropriate and thus supported a decision to renew the Advisory Agreement. The Board also concluded that the Adviser would be able to provide during the coming year quality of investment management and related services, and that these services are appropriate in scope and extent in light of the Fund s operations, the competitive landscape and investor needs.

The investment performance of the Fund. The Board evaluated the comparative information provided by the Adviser regarding the Fund s investment performance, distributions and information on the performance of other investment funds and various indices, including the relevance of various indices. The Board also considered the various performance reports received throughout the year. On the basis of the Directors

Supplemental Information, continued

(Unaudited)

assessment, the Directors concluded that the Adviser was capable of generating a level of investment performance that is appropriate in light of the Fund s investment objective, policies and strategies and competitive with comparable funds.

The cost of advisory service provided and the level of profitability. In analyzing the cost of services and profitability of the Adviser, the Board considered the revenues earned and expenses incurred by the Adviser. The Board took into account the significant investment by and cost to the Adviser in appropriate personnel and service infrastructure to support the Fund. On the basis of the Board s review of the fees to be charged by the Adviser for investment advisory and related services, the specialized nature of the Fund s investment program, the Adviser s financial information and the costs associated with managing the Fund, the Board concluded that the level of investment management fees and the profitability is appropriate in light of the services provided, the management fees and overall expense ratios of comparable investment companies, and the anticipated profitability of the relationship between the Fund and the Adviser.

The extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors. While noting that the management fees will not decrease as the level of Fund assets increase, the Board concluded that as a closed-end fund of a relatively fixed-scale the management fees reflect the Fund s complex operations, the current economic environment for the Adviser, including its continued investment relating to support and monitoring of the Fund, and the competitive nature of the investment company market as relevant to the Fund. The Board noted that as the Fund s assets, relative to expenses, result in expenses generally not spread over a growing asset pool. The Board noted that it would have the opportunity to periodically re-examine whether the Fund has achieved economies of scale, as well as the appropriateness of management fees payable to the Adviser.

Benefits (such as soft dollars) to the Adviser from its relationship with the Fund. The Board concluded that other benefits derived by the Adviser from its relationship with the Fund, to the extent such benefits are identifiable or determinable, are reasonable and fair, result from the provision of appropriate services to the Fund and investors therein, and are consistent with industry practice and the best interests of the Fund and its partners. In this regard, the Board noted that the Adviser does not realize soft dollar benefits from its relationship with the Fund.

Other considerations. The Board determined that the Adviser has made a continuing and substantial commitment both to the recruitment of high quality personnel, monitoring and investment decision-making and provision of investor service, and maintained and expanded the financial, compliance and operational resources reasonably necessary to manage the Fund in a professional manner that is consistent with the best interests of the Fund and its investors. The Directors also concluded that the Adviser continues to make a significant entrepreneurial commitment to the management and success of the Fund.

Privacy Policy

(Unaudited)

The Fund recognizes the importance of securing personal financial information. It is our policy to safeguard any personal and financial information that may be entrusted to us. The following is a description of the Fund s policy regarding disclosure of nonpublic personal information.

We collect nonpublic personal information as follows:

We collect information about our investors, including, but not limited to, the investor s name, address, telephone number, e-mail address, social security number and date of birth. We collect that information from subscription agreements, other forms of correspondence that we receive from investors, from personal conversations and from affiliated entities as permitted by law.

We receive information about investor transactions with us, including, but not limited to, account number, account balance, investment amounts, withdrawal amounts and other financial information.

We are permitted by law to disclose nonpublic information we collect, as described above, to the Funds service providers, including the Funds investment adviser, sub-advisers, servicing agent, independent administrator, custodian, legal counsel, accountant and auditor. We do not disclose any nonpublic information about our current or former investors to nonaffiliated third parties, except as required or permitted by law. We restrict access to investor nonpublic personal information to those persons who require such information to provide products or services to investors. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard investors nonpublic personal information.

If an investor s investment relationship with the Fund involves a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of such investor s financial intermediary would govern how any nonpublic personal information would be shared by them with nonaffiliated third parties.
