Dear Colleagues,

We are off to a positive start in planning the integration of Medtronic and Covidien. As we have previously said, this proposed combination will accelerate Medtronic's three strategic levers of Therapy Innovation, Globalization and Economic Value in realizing our vision to transform healthcare around the world.

Recently, we announced the structure our companies have created to govern the integration planning process. A Joint Steering Committee (JSC), comprised of senior leaders from both companies, will oversee the process. They will make key decisions which we, in turn, will implement through our co-leadership of the Integration Management Office (IMO).

Co-leaders for Medtronic and Covidien for the IMO in the areas of Strategy, Finance, Communication and Organization were named last week for Medtronic and Covidien. These leaders will assist us in launching the Functional Teams and the Business/Product Integration Teams we are announcing today. The co-leaders from these teams will be accountable for developing detailed integration plans covering the functions and businesses of the combined company. Their focus will be to ensure the readiness of the new Medtronic when we begin operating as one company after the transaction closes.
