PART I

Item 1. *Business.*

General Development of Business

Skyline Corporation was originally incorporated in Indiana in 1959, as successor to a business founded in 1951. Skyline Corporation and its consolidated subsidiaries (the Corporation) designs, produces and markets manufactured housing, modular housing and recreational vehicles (travel trailers, fifth wheels and park models) to independent dealers and manufactured housing communities located throughout the United States and Canada. Manufactured housing represents homes built according to a national building code; modular housing represents homes built to a local building code.

The Corporation, which is one of the largest producers of manufactured and modular housing in the United States, sold 2,434 manufactured homes and 457 modular homes in fiscal 2014.

The Corporation's housing products are marketed under a number of trademarks. They are available in lengths ranging from 30' to 76' and in singlewide widths from 12' to 16', doublewide widths from 18' to 32', and triplewide widths from 36' to 46'. The area of a singlewide ranges from approximately 400 to 1,200 square feet, a doublewide from approximately 700 to 2,400 square feet, and a triplewide from approximately 1,600 to 2,900 square feet.

The Corporation also sold 2,825 recreational vehicles in fiscal 2014, which are sold under a number of trademarks for travel trailers, fifth wheels and park models.

Financial Information about Segments

Net sales, operating results and total assets for the housing and recreational vehicle segments are included in Note 16, Industry Segment Information, in the Notes to Consolidated Financial Statements included in this document under Item 8.

Narrative Description of Business

Principal Products and Markets

The Corporation's homes are marketed under a number of trademarks, and are available in a variety of dimensions. Manufactured housing models are built according to standards established by the U.S. Department of Housing and Urban Development. Modular homes are built according to state, provincial or local building codes. Each home typically includes two to four bedrooms, kitchen, dining area, living room, one or two bathrooms, kitchen appliances, central heating and cooling. Custom options may include but are not limited to: exterior dormers and windows; interior or exterior accent columns; fireplaces and whirlpool tubs. Materials used to construct a manufactured or a modular home are similar to those used in site-built housing. The Corporation also sells homes that are Energy-Star compliant.

The Corporation's recreational vehicles include travel trailers, fifth wheels and park models. Travel trailers and fifth wheels are marketed under the following trademarks: Aljo; AlumaSky; Ecocamp; Koala; Super Lite; Layton; Nomad; Park Villa; Retro; Skycat; Walka; Weekender. Park models are marketed under the following trademarks: Cabin Series; Cedar Cove; Kensington; Shore Park Homes; Stone Harbor; and Vacation Villa. The Corporation's recreational vehicles are intended to provide temporary living accommodations for individuals seeking leisure travel and outdoor recreation. A recreational vehicle typically includes sleeping, kitchen, dining and bath areas.

The principal markets for manufactured and modular housing are the suburban and rural areas of the continental United States and Canada. The principal buyers continue to be individuals over the age of fifty, but the market tends to broaden when conventional housing becomes more difficult to purchase and finance.

The recreational vehicle market is made up of primarily vacationing families, traveling retired couples and sports enthusiasts pursuing four-season hobbies.

Table of Contents

Item 1. Business (Continued). Principal Products and Markets (Continued)

The Corporation provides the retail purchaser of its homes with a full fifteen-month warranty against defects in design, materials and workmanship. Recreational vehicles are covered by a one-year warranty. The warranties are backed by service departments located at the Corporation's manufacturing facilities and an extensive field service system.

The amount and percentage of net sales contributed by the housing and recreational vehicle segments is noted in Items 7 and 8.

Method of Distribution

The Corporation's homes are distributed by approximately 210 independent dealers at 370 locations throughout the United States and Canada, and recreational vehicles are distributed by approximately 150 independent dealers at 200 locations throughout the United States and Canada. These are generally not exclusive dealerships and it is believed that most dealers also sell products of other manufacturers.

The Corporation's products are sold to dealers either through floor plan financing with various financial institutions or on a cash basis. Payments to the Corporation are made either directly by the dealer or by financial institutions, which have agreed to finance dealer purchases of the Corporation's products. In accordance with industry practice, certain financial institutions which finance dealer purchases require the Corporation to execute repurchase agreements in which the Corporation agrees, that in the event a dealer defaults on its repayment of the financing, the Corporation will repurchase its products from the financial institution in accordance with a declining repurchase price schedule agreed to by the financial institution and the Corporation. Any loss under these agreements is the difference between the repurchase cost and the resale value of the units repurchased. Further, the risk of loss is spread over numerous dealers.

The Corporation had no losses related to repurchases in fiscal years 2014 and 2013. Additional information regarding these repurchase agreements is included in Note 12, Commitments and Contingencies, in the Notes to Consolidated Financial Statements included in this document under Item 8.

Raw Materials and Supplies

The Corporation is basically an assembler and installer of components purchased from outside sources. The major components used by the Corporation are electrical components, lumber, plywood, shingles, vinyl and wood siding, steel, aluminum, insulation, home appliances, furnaces, plumbing fixtures, hardware, floor coverings and furniture. The suppliers are many and range in size from large national companies to very small local companies. At the present time the Corporation is obtaining sufficient materials to fulfill its needs.

Patents, Trademarks, Licenses, Franchises and Concessions

The Corporation does not rely upon any terminable or nonrenewable rights such as patents, licenses or franchises under the trademarks or patents of others, in the conduct of either segment of its business.

Seasonal Fluctuations

While the Corporation maintains production of homes and recreational vehicles throughout the year, seasonal fluctuations in sales do occur. Sales and production of homes are affected by winter weather conditions at the Corporation's northern plants. Recreational vehicle sales are generally higher in the spring and summer months than in the fall and winter months.

Inventory

The Corporation does not maintain significant inventories of either raw materials or finished goods. In addition, there are no inventories sold on consignment.

Table of Contents**Item 1. Business (Continued).****Dependence Upon Individual Customers**

During fiscal 2014, net sales of homes and recreational vehicles to Sun Home Services, Inc. totaled approximately \$19,657,000 or 10 percent of total net sales. No other individual customer in fiscal 2014 and 2013 had net sales greater than 10 percent of net total sales.

Backlog

The Corporation does not consider the existence and extent of backlog to be significant in its business. The Corporation's production is based on a relatively short manufacturing cycle and dealers' orders, which continuously fluctuate. As such, the existence of backlog is insignificant at any given date and does not typically provide a reliable indication of the status of the Corporation's business.

Government Contracts

The Corporation has had no government contracts during the past two years.

Competitive Conditions

The industries in which the Corporation operates are highly competitive, with particular emphasis on price and features offered. The Corporation's competitors are numerous, ranging from multi-billion dollar corporations to relatively small and specialized manufacturers. In addition, the housing segment also competes with companies that provide other forms of housing, such as new and existing site-built homes, apartments, condominiums and townhouses.

The following tables show the Corporation's competitive position on a calendar and fiscal year basis in the product lines it sells.

	Units Shipped Calendar Year 2013			Units Shipped Calendar Year 2012		
	Market			Market		
	Industry	Skyline	Share	Industry	Skyline	Share
Manufactured housing	60,000	2,205	3.7%	55,000	1,848	3.4%
Domestic modular housing	14,000	263	1.9%	13,000	301	2.3%
Travel trailer	198,000	3,127	1.6%	177,000	4,447	2.5%
Fifth wheels	71,000	100	0.1%	66,000	214	0.3%

The competitive position for park models and Canadian modular housing is not listed because industry data is not available.

	Units Shipped Fiscal Year 2014			Units Shipped Fiscal Year 2013		
	Market			Market		
	Industry	Skyline	Share	Industry	Skyline	Share
Manufactured housing	61,000	2,434	4.0%	56,000	1,851	3.3%
Travel trailer	207,000	2,556	1.2%	188,000	4,003	2.1%
Fifth wheels	74,000	38	0.1%	68,000	165	0.2%

The competitive position for park models and modular housing is not listed because industry data is not available.

Both the housing and recreational vehicle segments of the Corporation's business are dependent upon the availability of wholesale and retail financing. Consequently, increases in interest rates and the availability of credit through governmental action or otherwise, have adversely affected the Corporation's business in the past and may do so in the future.

Table of Contents

Item 1. Business (Continued).

Regulation

The manufacture, distribution and sale of manufactured housing, modular housing and recreational vehicles are subject to government regulations in both the United States and Canada, at federal, state or provincial and local levels.

Environmental Quality

The Corporation believes that compliance with federal, state and local requirements with respect to environmental quality will not require any material capital expenditures for plant or equipment modifications which would adversely affect earnings.

Other Regulations

The U.S. Department of Housing and Urban Development (HUD) has set national manufactured home construction and safety standards and implemented recall and other regulations since 1976. The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, under which such standards and regulations are promulgated, prohibits states from establishing or continuing in effect any manufactured home standard that is not identical to the federal standards as to any covered aspect of performance. Implementation of these standards and regulations involves inspection agency approval of manufactured home designs, plant and home inspection by states or other HUD-approved third parties, manufacturer certification that the standards are met, and possible recalls if they are not or if homes contain safety hazards.

HUD has promulgated rules requiring producers of manufactured homes to utilize wood products certified by their suppliers to meet HUD's established limits on formaldehyde emissions, and to place in each home written notice to prospective purchasers of possible adverse reaction from airborne formaldehyde in the homes. These rules are designated as preemptive of state regulation. Some components of manufactured and modular housing may also be subject to Consumer Product Safety Commission standards and recall requirements.

Regarding recreational vehicles, the Corporation has voluntarily subjected itself to third party inspection of all of its recreational vehicle products nationwide in order to further assure the Corporation, its dealers, and customers of compliance with established standards.

Manufactured housing, modular housing and recreational vehicles may be subject to the Magnuson Moss Warranty Federal Trade Commission Improvement Act, which regulates warranties on consumer products.

The Corporation's travel trailers continue to be subject to safety standards and recall and other regulations promulgated by the U.S. Department of Transportation under the National Traffic and Motor Vehicle Safety Act of 1966 and the Transportation Recall Enhancement, Accountability and Documentation (TREAD) Act, as well as state laws and regulations.

The Corporation's operations are subject to the Federal Occupational Safety and Health Act, and are routinely inspected thereunder.

The transportation and placement (in the case of manufactured and modular housing) of the Corporation's products are subject to state highway use regulations and local ordinances which control the size of units that may be transported, the roads to be used, speed limits, hours of travel, and allowable locations for manufactured homes and communities.

The Corporation is also subject to many state manufacturer licensing and bonding requirements, and to dealer day in court requirements in some states.

The Corporation believes that it is currently in compliance with the above regulations.

Number of Employees

The Corporation employs approximately 1,300 people at the present time.

Table of Contents

Item 1. Business (Continued).

Executive Officers of the Corporation

Information regarding the Corporation's executive officers is located in this document under Part III, Item 10.

Available Information

The Corporation makes available, free of charge, through the Investors section of its internet website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, Proxy Statements and all amendments to those reports as soon as practicable after such material is electronically filed or furnished to the United States Securities and Exchange Commission (SEC). The Corporation's internet site is <http://www.skylinecorp.com>. A copy of the Corporation's annual report on Form 10-K will be provided without charge upon written request to Skyline Corporation, Investor Relations Department, Post Office Box 743, Elkhart, Indiana 46515.

The public may read and copy any materials the Corporation has filed with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may also obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet website (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Item 1A. Risk Factors.

Investors or potential investors should carefully consider the risks described below. Additional risks of which the Corporation is presently unaware or that the Corporation considers immaterial may also impair business operations and hinder financial performance.

Incurrence of Net Losses

Due to negative economic conditions that impacted the manufactured housing, modular housing and recreational vehicle industries, the Corporation incurred net losses from fiscal year 2008 to 2014. In addition, net losses were also incurred as a result of declining net sales and market share in its recreational vehicle segment. To continue as a going concern, the Corporation's management is aggressively pursuing strategies as referenced in Item 7 to raise capital, increase sales and decrease cost. In addition, management is prepared to modify these strategies to meet prevailing business conditions. Continued losses could negatively affect the Corporation's liquidity.

Changing Consumer Preferences

Changes in consumer preferences for manufactured housing, modular housing and recreational vehicles occur over time, and consequently the Corporation responds to changing demand by evaluating the market acceptability of its products. Delays in responding to changing consumer preferences could have an adverse effect on net sales, operating results and cash flows.

Dependence on Independent Dealers

The Corporation sells its manufactured homes, modular homes and recreational vehicles to independent dealers. These dealers are not obligated to exclusively sell the Corporation's products, and may choose to sell competitor's products. In addition, a dealer may become financially insolvent and be forced to close its business. Both scenarios could have an adverse effect on net sales, operating results and cash flows.

Cost and Availability of Raw Materials

Prices and availability of raw materials used to manufacture the Corporation's products can change significantly due to fluctuations in supply and demand. In addition, the cost of raw materials is also influenced by transportation costs. The Corporation has historically been able to have an adequate supply of raw materials by maintaining good relations with its vendors.

Table of Contents

Item 1A. Risk Factors (Continued). Cost and Availability of Raw Materials (Continued)

Increased prices have historically been passed on to dealers by raising the price of manufactured housing, modular housing and recreational vehicles. There is no certainty that the Corporation will be able to pass on future price increases and maintain an adequate supply of raw materials. The inability to raise the price of its products and to maintain a proper supply of materials could have a negative impact on net sales, operating results and cash flows.

Dealer Inventories

As wholesale shipments of manufactured homes, modular homes and recreational vehicles exceed retail sales, dealer inventories increase to a level where dealers decrease orders from manufacturers. As manufacturers respond to reduced demand, many either offer discounts to maintain production volumes or curtail production levels. Both outcomes could have a negative impact on net sales, operating results and cash flows.

Competition

As noted in Item 1, the manufactured housing, modular housing and recreational vehicle industries are highly competitive with particular emphasis on price and features offered. Some of the Corporation's competitors are vertically integrated by owning retail, consumer finance and insurance operations. This integration may provide competitors with an advantage. In addition, the Corporation's housing products compete with other forms of housing, such as new and existing site-built homes, apartments, condominiums and townhouses. The inability to effectively compete in this environment could result in lower net sales, operating results and cash flows.

Retail Financing Availability

Customers who purchase the Corporation's products generally obtain retail financing from third party lenders. The availability, terms and cost of retail financing depend on the lending practices of financial institutions, governmental policies and economic and other conditions, all of which are beyond the Corporation's control. A customer seeking to purchase a manufactured home without land will generally pay a higher interest rate and have a shorter loan maturity versus a customer financing the purchase of land and a home. This difference is due to most states classifying home-only manufactured housing loans as personal property rather than real property for purposes of taxation and lien perfection.

In recent years, many lenders of home-only financing have tightened credit underwriting standards, with some deciding to exit the industry. These actions resulted in decreased availability of retail financing, causing a negative effect on sales and operating results. If retail financing were to be further curtailed, net sales, operating results and cash flows could be adversely affected.

Wholesale Financing Availability

Independent dealers of the Corporation's products generally finance their inventory purchases with wholesale floor plan financing provided by lending institutions.

A dealer's ability to obtain financing is significantly affected by the number of lending institutions offering floor planning, and by an institution's lending limits. In recent years, the industries in which the Corporation operates experienced a reduction in both the number of lenders offering floor planning and the amount of money available for financing. These events could have a negative impact on a dealer's ability to purchase manufactured housing, modular housing and recreational vehicle products, resulting in lower net sales, operating results and cash flows.

Increased Fuel Prices

The Corporation's recreational vehicle products depend on the use of vehicles that operate on gasoline or diesel fuel. In the Corporation's history there have been periods where the price of gasoline and diesel fuel dramatically increased. These increases resulted in greater cost associated with recreational vehicle travel. This trend could result in decreased net sales, operating results and cash flows.

Table of Contents

Item 1A. Risk Factors (Continued).

Governmental Regulations

As noted in Item 1, the Corporation is subject to various governmental regulations. Implementation of new regulations or amendments to existing regulations could significantly increase the cost of the Corporation's products. In addition, failure to comply with present or future regulations could result in fines or potential civil or criminal liability. Both scenarios could negatively impact net sales, operating results and cash flows.

Contingent Repurchase Agreements

As referenced in Note 12 to the Notes to the Consolidated Financial Statements in Item 8, the Corporation is contingently liable under repurchase agreements with certain financial institutions providing inventory financing for retailers of its products. The Corporation could be required to fulfill some or all of the repurchase agreements, resulting in increased expense and reduced cash flows.

Cyclical and Seasonal Nature of Business

The industries in which the Corporation operates are highly cyclical, and are impacted by but not limited to the following conditions:

Availability of wholesale and retail financing

Consumer confidence

Interest rates

Demographic and employment trends

Availability of used or repossessed homes or recreational vehicles

Impact of inflation

Sales of manufactured housing, modular housing and recreational vehicle industries are also seasonal in nature with sales being lowest in the winter months. Seasonal changes, in addition to weakness in demand in one or both of the Corporation's market segments, could materially impact the Corporation's net sales, operating results and cash flows.

Dependence on Executive Officers and Other Key Personnel

The Corporation depends on the efforts of its executive officers and certain key employees. The loss of the service of one or more of these individuals could have an adverse effect on net sales, operating results and cash flows of the Corporation.

Item 1B. Unresolved Staff Comments.

None

Table of Contents**Item 2. Properties.**

The Corporation's 11 operating manufacturing facilities, 2 idle facilities and 3 corporate facilities, all of which are owned, are as follows:

Location	Products	Approximate Square Footage
California, San Jacinto	Manufactured Housing	84,000
California, Woodland	Manufactured Housing	81,000
Florida, Ocala	Manufactured Housing	139,000
Florida, Ocala	Idle	127,000
Indiana, Bristol	Recreational Vehicles	115,000
Indiana, Elkhart	Recreational Vehicles	75,000
Indiana, Elkhart	Idle	55,000
Indiana, Elkhart	Corporate	37,000
Indiana, Elkhart	Corporate	18,000
Indiana, Elkhart	Corporate	4,000
Kansas, Arkansas City	Manufactured Housing	83,000
Ohio, Sugarcreek	Manufactured Housing	149,000
Oregon, McMinnville	Manufactured Housing	246,000
Pennsylvania, Leola	Manufactured Housing	210,000
Texas, Mansfield	Manufactured Housing	79,000
Wisconsin, Lancaster	Manufactured Housing	130,000

In addition, the Corporation owns undeveloped land in McMinnville, Oregon. During the first quarter of fiscal 2014, the Corporation sold an idle housing facility located in Fair Haven, Vermont for a gain of \$162,000. In the third quarter of fiscal 2014, an idle housing facility located in Halstead, Kansas was sold for a gain of \$300,000. In the fourth quarter of fiscal 2014, undeveloped land located in Elkhart, Indiana was sold for a gain of \$244,000.

During the second quarter of fiscal 2013, two idle recreational vehicle facilities located in Hemet, California were sold for a gain of \$1,411,000. During the fourth quarter of fiscal 2013, an idle housing facility located in Mocksville, North Carolina was sold for a gain of \$230,000.

It is extremely difficult to determine the unit productive capacity of the Corporation because of the ever-changing product mix. The Corporation believes that its plant facilities, machinery and equipment are well maintained and are in good operating condition.

Item 3. Legal Proceedings.

The Corporation is a party to various pending legal proceedings in the normal course of business. Management believes that any losses resulting from such proceedings would not have a material adverse effect on the Corporation's results of operations or financial position.

Item 4. Mine Safety Disclosures.

Not applicable.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Skyline Corporation (SKY) is traded on the NYSE MKT LLC. At May 31, 2014, there were 720 shareholders of record of Skyline Corporation common stock. A quarterly summary of the market price are listed for the fiscal years ended May 31, 2014 and 2013.

Item 6. Selected Financial Data.

Not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview**

The Corporation designs, produces and markets manufactured housing, modular housing and recreational vehicles (travel trailers, fifth wheels and park models) to independent dealers and manufactured housing communities located throughout the United States and Canada. To better serve the needs of its dealers and communities, the Corporation has eleven manufacturing facilities in nine states. Manufactured housing, modular housing and recreational vehicles are sold to dealers and communities either through floor plan financing with various financial institutions or on a cash basis. While the Corporation maintains production of manufactured housing, modular homes and recreational vehicles throughout the year, seasonal fluctuations in sales do occur. Sales and production of manufactured housing and modular housing are affected by winter weather conditions at the Corporation's northern plants. Recreational vehicle sales are generally higher in the spring and summer months than in the fall and winter months.

As referenced in Item 1, manufactured and modular housing are marketed under a number of trademarks, and are available in a variety of dimensions. Manufactured housing products are built according to standards established by the U.S. Department of Housing and Urban Development. Modular homes are built according to state, provincial or local building codes.

Recreational vehicles include travel trailers, fifth wheels and park models. Travel trailers and fifth wheels are marketed under the following trademarks: Aljo ; AlumaSky ; Ecocamp ; Koala ; Layton ; Nomad ; Park Villa ; Retro ; Skycat ; Walkabout ; and Weekender . P marketed under the following trademarks: Cabin Series ; Cedar Cove ; Kensington ; Shore Park Homes ; Stone Harbor ; and Vacation Villa . Corporation's recreational vehicles are intended to provide temporary living accommodations for individuals seeking leisure travel and outdoor recreation.

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations* (Continued).

Manufactured Housing, Modular Housing and Recreational Vehicle Industry Conditions

Sales of manufactured housing, modular housing and recreational vehicles are affected by the strength of the U.S. economy, interest rate and employment levels, consumer confidence and the availability of wholesale and retail financing. The manufactured housing industry had been affected by declining unit shipments to historically low levels. Shipments totaled approximately 373,000 units in 1998; steadily declining to approximately 50,000 units by 2010. This decline was caused primarily by adverse economic conditions, tightening retail and wholesale credit markets and a depressed site-built housing market. Shipments, however, increased to approximately 52,000, 55,000 and 60,000 units in 2011, 2012 and 2013, respectively. From January to May 2014, shipments were approximately 25,000 units; an approximately 5 percent increase from the same period a year ago.

Tight credit markets for retail and wholesale financing have become a significant challenge for the manufactured housing industry. According to the Manufactured Housing Institute, a lack of retail financing options and restrictive credit standards has negatively affected manufactured home buyers. In addition, a significant decline has occurred in wholesale financing, especially as national floor plan lenders have decreased lending to industry dealers.

The domestic modular housing industry has challenges similar to the manufactured housing industry, such as restrictive retail and wholesale financing, and a depressed site-built housing market. From calendar 2006 to 2012, total shipments decreased from approximately 39,000 to 13,000 units, a decline of 67 percent. Total shipments for calendar year 2013, however, increased approximately 8 percent from calendar 2012's total to approximately 14,000 units. Information related to the Canadian modular housing industry is not available.

Sales of recreational vehicles are influenced by changes in consumer confidence, employment levels, the availability of retail and wholesale financing and gasoline prices. Industry unit sales of travel trailers and fifth wheels have varied in recent years. From calendar 2007 to the first half of 2009 unit sales decreased as a result of recessionary conditions, decreased household wealth, tightening credit markets for retail and wholesale financing, and excess inventory of new recreational vehicles. Unit sales, however, started increasing in the last half of calendar 2009 and continue to date. The Recreational Vehicle Industry Association (RVIA) notes that continued growth in recreational vehicle shipments is due to a combination of easing credit terms and availability of loans, gains in household wealth and employment. These positive factors, however, could be negatively affected by rising interest rates.

Fiscal 2014 Results

The Corporation experienced the following results during fiscal 2014:

Total net sales were \$191,730,000, an approximate 8 percent increase from the \$177,574,000 reported in the same period a year ago

Housing net sales were \$145,864,000, an approximate 31 percent increase from the \$111,104,000 realized in fiscal 2013

Recreational vehicle net sales were \$45,866,000 in fiscal 2014, an approximate 31 percent decrease from \$66,470,000 in fiscal 2013

Net loss for the fiscal 2014 was \$11,864,000 as compared to \$10,513,000 for fiscal 2013. On a per share basis, net loss was \$1.41 as compared to \$1.25 for the comparable period a year ago

Two idle housing facilities located in Fair Haven, Vermont and Halstead, Kansas were sold for gains of \$162,000 and \$300,000, respectively. In addition, undeveloped land located in Elkhart, Indiana was sold for a gain of \$244,000.

Edgar Filing: SKYLINE CORP - Form 10-K

The Corporation consolidated the manufacturing of recreational vehicles to its facilities in Bristol and Elkhart, Indiana. As a result of the consolidation, the Mansfield, Texas facility, which formerly built recreational vehicles, was renovated to accommodate the production of manufactured housing. Commencement of housing operations occurred in the third quarter.

Table of Contents

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Fiscal 2014 Results (Continued)**

In the fourth quarter, life insurance loans from policy cash surrender values, of approximately \$6,300,000 were obtained to meet certain obligations and to purchase inventory as the Corporation entered its spring and summer selling seasons; the highest sales periods in its fiscal year. Prepaid interest expense of approximately \$200,000 was assessed; resulting in net proceeds of approximately \$6,100,000.

The loans have no fixed repayment schedule, and have interest rates ranging from 4.2 percent to 7.4 percent. The weighted average interest rate of the loans in total is 5.9 percent.

The Corporation's housing segment experienced increased net sales in fiscal 2014 as compared to fiscal 2013, and management cannot determine with certainty if this trend will continue. This uncertainty is based on potential adverse changes in economic growth, interest rate and employment levels, consumer confidence, and the availability of wholesale and retail financing.

The recreational vehicle segment experienced decreased net sales in fiscal 2014 as noted in Net Sales and Unit Shipments. Regarding the business environment for fiscal 2015, the RVIA forecasts calendar 2014 travel trailer and fifth wheel shipments of approximately 289,000 units; an 8 percent increase from calendar 2013's total of approximately 268,000 units. In addition, calendar 2015 travel trailer and fifth wheel shipments are forecasted to be approximately 298,000 units; a 3 percent increase from calendar 2014's total. Despite this favorable forecast, business conditions in fiscal 2014 could be negatively impacted by adverse factors previously referenced by the RVIA.

Management's Plan

The Corporation's consolidated financial statements were prepared on a going concern basis, which assumes continuity of operations and realization of assets and satisfaction of liabilities in the ordinary course of business. Due to recurring losses, the Corporation experienced negative cash flows from operating activities. As a result, the Corporation has utilized its cash, investments in U.S. Treasury Bills, proceeds from the sale of assets and borrowings from the cash surrender of life insurance policies. The level of historical negative cash flows from operations and not having available funding from outside financing sources raise substantial doubt about the Corporation's ability to continue as a going concern. To continue as a going concern, certain strategies need to be pursued to raise capital, increase sales and decrease costs. These strategies include but are not limited to:

Addressing declining recreational vehicle sales by evaluating its model lineup to more closely meet consumer needs. Specifically, at an exclusive meeting of recreational vehicle dealers held in June 2014, the Corporation announced for fiscal year 2015 the introduction of the Dart ; Javelin ; and Trident brands. These new brands, coupled with redesigned Nomad and Layton brands, are believed by management to be products that will appeal to both recreational vehicles dealers and consumers. In addition, subsequent to May 31, 2014, management consolidated the operations of the Elkhart, Indiana recreational vehicle facility into its Bristol, Indiana recreational vehicle facility. This consolidation is expected to increase manufacturing efficiencies and decrease costs.

Increasing sales at the Mansfield, Texas housing facility by gaining a greater presence on the properties of manufactured housing dealers and manufactured housing communities. Furthermore, efforts are being made to reduce costs and gain manufacturing efficiencies as the facility transitions from a startup to a continuing operation.

Continuing to work with manufactured housing communities to identify opportunities for increasing sales

Increasing efforts to increase sales of modular homes and park models in both the United States and Canada by cultivating relationships with modular housing developers and campground owners that are outside the Corporation's historical distribution channels

Maintaining the number of display models at housing facilities in order to provide dealers, communities and consumers with examples of newly designed product

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Management's Plan (Continued)**

Selling non-strategic assets, such as an idle housing facility in Ocala, Florida and undeveloped land in McMinnville, Oregon, to generate cash and eliminate carrying costs

Working with current and potential vendors to decrease costs

Analyzing staffing needs and making reductions when considered appropriate by management

Continuing to seek debt financing that is acceptable with respect to cost and structure

As with any business enterprise, the Corporation's ability to operate as a going concern is contingent upon the successful execution of its strategies. Management, however, is prepared to modify these strategies to meet prevailing business conditions.

Table of Contents

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Results of Operations Fiscal 2014 Compared to Fiscal 2013 (Continued)**

Net Sales and Unit Shipments (Continued)

Housing net sales increased approximately 31 percent. The increase was the outcome of the following factors:

Domestic manufactured housing net sales increasing approximately 38 percent

Domestic modular housing net sales increasing approximately 7 percent

Canadian modular housing net sales remaining relatively unchanged

Housing unit shipments increased approximately 30 percent. The increase was the outcome of the following factors:

Domestic manufactured housing shipments increasing approximately 31 percent

Domestic modular shipments increasing approximately 33 percent

Canadian modular shipments decreasing approximately 7 percent

As previously noted, total domestic manufactured housing unit shipments increased approximately 31 percent. Industry unit shipments for these products in fiscal 2014 increased approximately 10 percent as compared to fiscal 2013. The improvement is the result of increased sales to manufactured housing communities.

Total modular housing unit shipments increased approximately 24 percent. Unit shipments increased due to the fourth quarter shipment of 127 modular housing units resulting from a contract between the Corporation and National Community Renaissance of California. The modular units were assembled into multi-story apartment buildings, and the revenue recognized from the shipment of the modular units was approximately \$3,900,000. This contract was outside of the Corporation's normal business model of producing and selling single family manufactured and modular housing for dealers and communities. The Corporation does not plan on performing this type of project in the foreseeable future. Current industry unit shipment data is not available.

Compared to prior year, the average net sales price for domestic manufactured housing and Canadian modular housing products increased approximately 5 percent and 7 percent, respectively. The increase is primarily as a result of homes sold with larger square footage and greater amenities. The average net sales price for domestic modular housing products decreased approximately 19 percent; resulting from homes sold with less square footage and fewer amenities.

Recreational vehicles net sales revenue decreased approximately 31 percent. The decrease was the outcome of the following factors:

Domestic recreational vehicle net sales decreasing approximately 29 percent

Canadian recreational vehicle net sales decreasing approximately 41 percent

Edgar Filing: SKYLINE CORP - Form 10-K

Recreational vehicle unit shipments decreased approximately 35 percent. The decrease was the outcome of the following factors:

Domestic recreational vehicle shipments decreasing approximately 34 percent

Canadian recreational vehicle shipments decreasing approximately 39 percent

Unit shipments for travel trailers and fifth wheels decreased approximately 38 percent. Industry shipments for these products in fiscal 2014 increased approximately 10 percent as compared to fiscal 2013. The Corporation's unit shipments lagged the industry due to various factors. Unit shipments to domestic dealers were adversely affected by some competitors maintaining larger quantities of finished goods inventory; resulting in the ability to meet dealer demand immediately. In addition, the Corporation experienced decreased demand from Canadian dealers. Finally, consumer demand is presently concentrated toward larger, higher priced models; of which the Corporation has a limited offering. Current industry unit shipment data for park models is not available.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Results of Operations Fiscal 2014 Compared to Fiscal 2013 (Continued)****Net Sales and Unit Shipments (Continued)**

Compared to prior year, the average net sales price per unit for recreational vehicles sold increased approximately 6 percent; primarily due to models sold with larger square footage and greater amenities.

Cost of Sales

	2014	Percent of Net Sales*	2013 (Dollars in Thousands)	Percent of Net Sales*	Increase (Decrease)
Housing	\$ 136,014	93	\$ 104,131	94	\$ 31,883
Recreational vehicles	45,429	99	61,980	93	(16,551)
Consolidated	\$ 181,443	95	\$ 166,111	94	\$ 15,332

* The percentages for housing and recreational vehicles are based on segment net sales. The percentage for consolidated cost of sales is based on total net sales.

Housing cost of sales, in dollars, increased primarily as a result of increased unit shipments. Current year cost of sales included approximately \$2,626,000 of expenses attributable to the operations of the Mansfield, Texas housing facility; which was converted during fiscal year 2014 to accommodate housing production as compared to recreational vehicle production in fiscal 2013. This facility incurred certain manufacturing costs such as employee retraining associated with the aforementioned conversion. Sales for this facility totaled approximately \$1,590,000. In addition, the Corporation had approximately \$633,000 of unique manufacturing costs attributable to the contract with National Community Renaissance of California. As a percentage of net sales, housing cost of sales decreased due to primarily certain manufacturing expenses remaining fixed amid rising sales.

Recreational vehicle cost of sales decreased due to declining unit shipments. As a percentage of net sales, recreational vehicle cost of sales increased primarily due to certain manufacturing costs remaining fixed amid declining sales.

Selling and Administrative Expenses

	2014	Percent of Net Sales	2013 (Dollars in thousands)	Percent of Net Sales	Decrease
Selling and administrative expenses	\$ 22,886	12	\$ 23,681	13	\$ 795

Selling and administrative expenses, in dollars and as a percent of net sales, decreased primarily as a result in a decline in dealer promotional expenses, health insurance costs, and the expense related to the Corporation's liability for retirement and death benefits offered to certain current and former employees.

Gain on Sale of Idle Property, Plant and Equipment

During the first quarter of fiscal 2014, the Corporation sold an idle housing facility located in Fair Haven, Vermont for a gain of \$162,000. In the third quarter of fiscal 2014, an idle housing facility located in Halstead, Kansas was sold for a gain of \$300,000. In the fourth quarter of fiscal 2014, undeveloped land located in Elkhart, Indiana was sold for a gain of \$244,000.

Edgar Filing: SKYLINE CORP - Form 10-K

During the second quarter of fiscal 2013, two idle recreational vehicle facilities located in Hemet, California were sold for a gain of \$1,411,000. During the fourth quarter of fiscal 2013, an idle housing facility was sold for a gain of \$230,000.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Results of Operations Fiscal 2014 Compared to Fiscal 2013 (Continued)****Loss Before Income Taxes**

	2014	Percent of Net Sales*	2013	Percent of Net Sales*
	(Dollars in Thousands)			
Housing	\$ (6,128)	(4)	\$ (6,867)	(6)
Recreational vehicles	(4,951)	(11)	(3,444)	(5)
General corporate expenses	(1,520)	(1)	(1,907)	(1)
Gain on sale of idle property, plant and equipment	706		1,641	1
Operating loss	(11,893)	(6)	(10,577)	(6)
Interest expense	(71)			
Interest income	100		64	
Loss before income taxes	\$ (11,864)	(6)	\$ (10,513)	(6)

* The percentages for housing and recreational vehicles are based on segment net sales. The percentage for general corporate expenses, interest income, total operating loss and loss before income taxes are based on total net sales.

The operating loss for the housing segment decreased due to the effects of increased net sales. Included in the current year loss is an approximately \$1,691,000 year to date loss attributable to the housing facility in Mansfield, Texas. In addition, the contract with National Community Renaissance of California was performed by the Corporation's San Jacinto, California facility. The fourth quarter loss associated with this contract, in addition to other non-contract related business, totaled approximately \$1,643,000. Included in this loss is an accrual of approximately \$760,000 related to contractual obligations that are anticipated to be completed in the first half of fiscal 2015.

Recreational vehicle operating loss increased primarily due to decreased net sales.

General corporate expenses decreased primarily due to a decrease in the expense related to the Corporation's liability for retirement and death benefits offered to certain current and former employees as previously referenced.

Interest expense is related to the cost of having outstanding life insurance loans of \$6,334,000. The interest rates associated with loans vary from 4.2 to 7.4 percent; with a weighted average interest rate of 5.9 percent.

Interest income for fiscal 2014 consisted of \$99,000 interest from the Corporation's note receivable, and \$1,000 from investment in U.S. Treasury Bills. Interest income fiscal 2013 consisted of approximately \$55,000 from the Corporation's note receivable and approximately \$9,000 from investment in U.S. Treasury Bills.

Liquidity and Capital Resources

	2014	May 31, 2013	Increase (Decrease)
	(Dollars in thousands)

-----------------	-----------	-----------	------------

Table of Contents

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Liquidity and Capital Resources (Continued)**

Cash, Restricted Cash and U.S. Treasury Bills decreased primarily due to a net loss of approximately \$11,864,000. Current assets, exclusive of cash, restricted cash and U.S. Treasury Bills, increased mainly due to a \$7,557,000 increase in accounts receivable, and a \$2,598,000 increase in inventories. Accounts receivable increased due to higher sales for May 2014 as compared to May 2013, in addition to the timing of payment from dealers and communities at May 31, 2014 as compared to May 31, 2013. In addition, the accounts receivable from National Community Renaissance at May 31, 2014 totaled approximately \$2,900,000. Inventories rose as a result of increased raw materials and work in process inventories; caused primarily by increased production at May 31, 2014 as compared to May 31, 2013.

Current liabilities increased as a result of increases in accounts payable, accrued marketing programs, and other accrued liabilities. Accounts payable increased \$1,464,000 due to increased production at May 31, 2014 as compared to May 31, 2013. Accrued marketing programs increased \$891,000 as a result of increased manufactured housing sales impacting an ongoing marketing program for manufacturing housing dealers. Other accrued liabilities increased \$1,620,000 due primarily to increased deposits received from dealers, state sales tax withholdings, and contractual obligations associated with the contract with National Community Renaissance of California.

Capital expenditures totaled \$753,000 for fiscal 2014 as compared to \$75,000 for fiscal 2013. Capital expenditures were made primarily to replace or refurbish machinery and equipment, and to renovate the Mansfield, Texas facility to accommodate the production of housing.

As noted in the Management's Plan section of Item 7, the Corporation is aggressively pursuing strategies in order to raise capital, increase sales and decrease costs. As with any business enterprise, the Corporation's ability to operate as a going concern is contingent upon the successful execution of its strategies. Management, however, is prepared to modify these strategies to meet prevailing business conditions.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires the Corporation to make certain estimates that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures.

Estimates are periodically evaluated using historical experience and various other factors believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions. The following accounting policies are considered to require a significant estimate:

Deferred Tax Assets

Net deferred tax assets and liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the enacted tax rates.

The Corporation has a full valuation allowance against its deferred tax assets. In addition, net deferred tax assets consist of federal net operating loss and tax credit carryforwards, state net operating loss carryforwards and temporary differences between financial and tax reporting. Additional information regarding the increase in the valuation allowance is referenced in Note 11 of the Notes to Consolidated Financial Statements.

Revenue Recognition

The Corporation's accounting for revenue recognition is referenced in Note 1 of the Notes to Consolidated Financial Statements.

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations* (Continued). Critical Accounting Policies (Continued)

Product Warranties

As referenced in Note 1 of the Notes to Consolidated Financial Statements, homes are sold with a fifteen-month warranty and recreational vehicles are sold with a one-year warranty. Estimated warranty costs are accrued at the time of sale based upon sales, historical claims experience and management's judgment regarding anticipated rates of warranty claims. Significant changes in these factors could have a material impact on future results of operations.

Recently Issued Accounting Pronouncements

Information regarding recently issued accounting pronouncements is located in Note 1 of the Note to Consolidated Financial Statements.

Impact of Inflation

The consolidated financial statements included in this report reflect transactions in the dollar values in which they were incurred and, therefore, do not attempt to measure the impact of inflation. On a long-term basis, the Corporation has adjusted selling prices in reaction to changing costs due to inflation.

Forward Looking Information

Certain statements in this report are considered forward looking as indicated by the Private Securities Litigation Reform Act of 1995. These statements involve uncertainties that may cause actual results to materially differ from expectations as of the report date. These uncertainties include but are not limited to:

Consumer confidence and economic uncertainty

Availability of wholesale and retail financing

The health of the U.S. housing market as a whole

Federal, state and local regulations pertaining to the manufactured housing and industry

Cyclical nature of the manufactured housing and recreational vehicle industries

General or seasonal weather conditions affecting sales

Potential impact of natural disasters on sales and raw material costs

Potential periodic inventory adjustments by independent retailers Interest rate levels

Impact of inflation

Impact of rising fuel costs

Cost of labor and raw materials

Competitive pressures on pricing and promotional costs

Catastrophic events impacting insurance costs

The availability of insurance coverage for various risks to the Corporation

Market demographics

Management's ability to attract and retain executive officers and key personnel

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Skyline Corporation

Elkhart, Indiana

We have audited the accompanying consolidated balance sheets of Skyline Corporation and subsidiary companies (the Corporation) as of May 31, 2014 and 2013, and the related consolidated statements of operations and retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Corporation is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Corporation as of May 31, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Corporation will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has incurred recurring operating losses and negative cash flows from operating activities. The Company also needs to raise additional capital in order to fund projected operating needs through May 31, 2015 for which there is no current commitment. These matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements

NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements

Nature of operations Skyline Corporation designs, produces and markets manufactured housing, modular housing and recreational vehicles (travel trailers, fifth wheels and park models) to independent dealers and manufactured housing communities throughout the United States and Canada. Manufactured housing represents homes built according to a national code; modular housing represents homes built to a local code. These dealers and communities often utilize floor plan financing arrangements with lending institutions. The Corporation's net sales are predominately from its housing products.

The following is a summary of the accounting policies that have a significant effect on the consolidated financial statements.

Basis of presentation The consolidated financial statements include the accounts of Skyline Corporation and its wholly-owned subsidiaries as referenced in Exhibit 21 (the Corporation). All intercompany transactions have been eliminated. Certain prior year amounts for Property, Plant and Equipment have been reclassified to conform to current year presentation.

Accounting Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Key estimates would include accruals for warranty, workers' compensation, marketing programs and health insurance as well as valuations for long-lived assets and deferred tax assets.

Revenue recognition Substantially all of the Corporation's products are made to order. Revenue is recognized upon completion of the following: an order for a unit is received from a dealer or community (customer); written or verbal approval for payment is received from a customer's financial institution or payment is received; a common carrier signs documentation accepting responsibility for the unit as agent for the customer; and the unit is removed from the Corporation's premises for delivery to a customer. Freight billed to customers is considered sales revenue, and the related freight costs are cost of sales. Volume based rebates paid to dealers are classified as a reduction of sales revenue. Sales of parts are classified as revenue.

Investments The Corporation invests in United States Government securities, which are typically held until maturity and are therefore classified as held-to-maturity and carried at amortized cost.

Accounts Receivable Trade receivables are based on the amounts billed to dealers and communities. The Corporation does not accrue interest on any of its trade receivables, nor does it have an allowance for credit losses due to favorable collections experience. If a loss occurs, the Corporation's policy is to recognize it in the period when collectability cannot be reasonably assured.

Inventories Inventories are stated at the lower of cost or market. Cost is determined under the first-in, first-out method. Physical inventory counts are taken at the end of each reporting quarter.

Workers' Compensation Security Deposit Workers' compensation security deposit represents funds placed with the Corporation's workers' compensation insurance carrier to offset future medical claims and benefits.

Note Receivable The Corporation's note receivable represents the amount owed for the sale of two idle recreational vehicle facilities in Hemet, California; less cash received on the date of closing and cash received from principal repayments through May 31, 2014. Interest is accrued on a monthly basis. No allowance for credit losses exists due to favorable collections experience. The Corporation's management evaluates the credit quality of the note on a monthly basis. The Corporation's policy is to recognize a loss in the period when collectability cannot be reasonably assured.

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements (Continued)

Property, Plant and Equipment Property, plant and equipment are stated at cost. Depreciation is computed over the estimated useful lives of the assets using the straight-line method for financial statement reporting and accelerated methods for income tax reporting purposes. Estimated useful lives for significant classes of property, plant and equipment, including idle property, are as follows: Building and improvements 10 to 30 years; machinery and equipment 5 to 8 years. At May 31, 2014, idle property consisted of manufacturing facilities in Ocala, Florida and Elkhart, Indiana. At May, 31, 2013, idle property consisted of manufacturing facilities in the following locations: Ocala, Florida; Elkhart, Indiana; Halstead, Kansas and Fair Haven, Vermont.

Long-lived assets are reviewed for impairment whenever events indicate that the carrying amount of an asset may not be recoverable from projected future cash flows. If the carrying value of a long-lived asset is impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value. The Company believes no impairment of long-lived assets exists at May 31, 2014.

Warranty The Corporation provides the retail purchaser of its homes with a full fifteen-month warranty against defects in design, materials and workmanship. Recreational vehicles are covered by a one-year warranty. The warranties are backed by service departments located at the Corporation's manufacturing facilities and an extensive field service system.

Estimated warranty costs are accrued at the time of sale based upon current sales, historical experience and management's judgment regarding anticipated rates of warranty claims. The adequacy of the recorded warranty liability is periodically assessed and the amount is adjusted as necessary.

Income Taxes The Corporation recognizes deferred tax assets based on differences between the carrying values of assets for financial and tax reporting purposes. The realization of the deferred tax assets is dependent upon the generation of sufficient future taxable income. Generally accepted accounting principles require that an entity consider both negative and positive evidence in determining whether a valuation allowance is warranted. In comparing negative and positive evidence, continual losses in recent years is considered significant, negative, objective evidence that deferred tax assets may not be realized in the future, and generally is assigned more weight than subjective positive evidence of the realizability of deferred tax assets. As a result of its extensive evaluation of both positive and negative evidence, management maintains a full valuation allowance against its deferred tax assets. The Corporation reports a liability, if any, for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. The Corporation recognizes interest and penalties, if any, related to unrecognized tax benefits in income tax expense.

Consolidated statements of cash flows For purposes of the consolidated statements of cash flows, investments in U. S. Treasury Bills are included as investing activities. The Corporation's cash flows from operating activities were not affected by income taxes in fiscal 2014 and 2013.

Recently issued accounting pronouncements In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 66). The core principal of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For a public entity, this guidance is effective for annual reporting periods after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The Corporation will evaluate how the adoption of ASU 2014-09 will impact its financial position and result of operations.

Management's Plan The Corporation's consolidated financial statements were prepared on a going concern basis, which assumes continuity of operations and realization of assets and satisfaction of liabilities in the ordinary course of business. Due to recurring losses, the Corporation experienced negative cash flows from operating activities. As a result, the Corporation has utilized its cash, investments in U.S. Treasury Bills, proceeds from the sale of assets and borrowings from the cash surrender of life insurance policies. The level of

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements (Continued)

Management's Plan (Continued)

historical negative cash flows from operations and not having available funding from outside financing sources raise substantial doubt about the Corporation's ability to continue as a going concern. To continue as a going concern, certain strategies need to be pursued to raise capital, increase sales and decrease costs. These strategies include but are not limited to:

Addressing declining recreational vehicle sales by evaluating its model lineup to more closely meet consumer needs. Specifically, at an exclusive meeting of recreational vehicle dealers held in June 2014, the Corporation announced for fiscal year 2015 the introduction of the Dart ; Javelin ; and Trident brands. These new brands, coupled with a redesigned Nomad and Layton brands, are believed by management to be products that will appeal to both recreational vehicles dealers and consumers. In addition, subsequent to May 31, 2014, management consolidated the operations of the Elkhart, Indiana recreational vehicle facility into its Bristol, Indiana recreational vehicle facility. This consolidation is expected to increase manufacturing efficiencies and decrease costs.

Increasing sales at the Mansfield, Texas housing facility by gaining a greater presence on the properties of manufactured housing dealers and manufactured housing communities. Furthermore, efforts are being made to reduce costs and gain manufacturing efficiencies as the facility transitions from a startup to a continuing operation.

Continuing to work with manufactured housing communities to identify opportunities for increasing sales

Increasing efforts to increase sales of modular homes and park models in both the United States and Canada by cultivating relationships with modular housing developers and campground owners that are outside the Corporation's historical distribution channels

Maintaining the number of display models at housing facilities in order to provide dealers, communities and consumers with examples of newly designed product

Selling non-strategic assets, such as an idle housing facility in Ocala, Florida and undeveloped land in McMinnville, Oregon, to generate cash and eliminate carrying costs

Working with current and potential vendors to decrease costs

Analyzing staffing needs and making reductions when considered appropriate by management

Edgar Filing: SKYLINE CORP - Form 10-K

Continuing to seek debt financing that is acceptable with respect to cost and structure
As with any business enterprise, the Corporation's ability to operate as a going concern is contingent upon the successful execution of its strategies. Management, however, is prepared to modify these strategies to meet prevailing business conditions.

NOTE 2 Restricted Cash

During fiscal 2013, the Corporation entered into an agreement to build and sell 60 manufactured homes to Stewart Homes, Inc., one of its dealers. Stewart Homes Inc. also entered into an agreement to sell these homes to Oakridge Family Homes, L.P., a California limited partnership. As a function of Oakridge Family Homes, L.P. purchasing the 60 homes, the Corporation pledged a \$600,000 certificate of deposit as security for certain performances.

In December 2013, the terms of the certificate of deposit proceeds and security agreement were completed; resulting in the maturation of the certificate of deposit and the receipt of the certificate of deposit proceeds.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 3 Investments**

The following is a summary of investments:

	Gross Amortized Costs	Gross Unrealized Gains (Dollars in thousands)	Fair Value
May 31, 2014			
U. S. Treasury Bills	\$	\$	\$
May 31, 2013			
U. S. Treasury Bills	\$ 4,000	\$	\$ 4,000

The fair value is determined by a secondary market for U.S. Government Securities. At May 31, 2013, the U.S. Treasury Bills matures within three months. In the third quarter of fiscal 2014, U.S. Treasury Bills with a gross amortized cost of \$5,000,000 were sold before maturity at cost. The sale occurred for purposes of maintaining liquidity during a period where the Corporation's sales and cash collections are at its lowest level for the fiscal year.

NOTE 4 Inventories

Total inventories consist of the following:

	May 31, (Dollars in thousands)	
	2014	2013
Raw materials	\$ 6,797	\$ 5,104
Work in process	3,922	2,863
Finished goods	611	765
	\$ 11,330	\$ 8,732

NOTE 5 Note Receivable

During the second quarter of fiscal 2013, the Corporation sold two idle recreational vehicle facilities in Hemet, California. The sale of the facilities included a down payment of \$500,000 and a promissory note of \$1,700,000 to the Corporation. Selling expenses related to the sale, which were paid by the Corporation, were approximately \$152,000. This resulted in net cash received from the transaction of approximately \$348,000. The note bears an interest rate of 6 percent per annum, requires monthly payments following a 20 year amortization schedule, and provides for a final payment after 6 years. In addition, the two facilities are collateral for the note. The current and non-current balance of \$1,631,000 represents the original amount of the note less principal payments received through May 31, 2014.

NOTE 6 Property, Plant and Equipment

During the first quarter of fiscal 2014, the Corporation sold an idle housing facility located in Fair Haven, Vermont for a gain of \$162,000. In the third quarter of fiscal 2014, an idle housing facility located in Halstead, Kansas was sold for a gain of \$300,000. In the fourth quarter of fiscal 2014, undeveloped land located in Elkhart, Indiana was sold for a gain of \$244,000.

During the second quarter of fiscal 2013, two idle recreational vehicle facilities located in Hemet, California were sold for a gain of \$1,411,000. During the fourth quarter of fiscal 2013, an idle housing facility located in Mocksville, North Carolina was sold for a gain of \$230,000.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 7 Other Assets**

Other assets consist primarily of the cash surrender value of life insurance policies which aggregated \$6,452,000 and \$6,231,000 at May 31, 2014 and 2013, respectively.

NOTE 8 Warranty

A reconciliation of accrued warranty and related expenses is as follows:

	Year ended May 31,	
	2014	2013
	(Dollars in thousands)	
Balance at the beginning of the period	\$ 5,882	\$ 5,870
Accruals for warranties	5,224	5,191
Settlements made during the period	(5,409)	(5,179)
Balance at the end of the period	5,697	5,882
Non-current balance included in other deferred liabilities	2,000	2,200
Accrued warranty and related expenses	\$ 3,697	\$ 3,682

NOTE 9 Long-Term Liabilities

Long-term liabilities, consisting of other deferred liabilities and life insurance loans, include the following:

	May 31,	
	2014	2013
	(Dollars in thousands)	
Other deferred liabilities:		
Deferred compensation expense	\$ 5,386	\$ 5,869
Accrued warranty and related expenses	2,000	2,200
Total other deferred liabilities	7,386	8,069
Life insurance loans	6,334	
	\$ 13,720	\$ 8,069

Additional information regarding deferred compensation expense is in Note 15. Life insurance loans have no fixed prepayment schedule, and have interest rates ranging from 4.2 percent to 7.4 percent. The weighted average interest rate is 5.9 percent. At May 31, 2014, prepaid interest associated with the life insurance loans totaled approximately \$165,000; which is recognized in Other current assets.

NOTE 10 Customer Concentration

During fiscal 2014, net sales of homes and recreational vehicles to Sun Home Services, Inc. totaled approximately \$19,657,000 or 10 percent of total net sales. No other individual customer in fiscal 2014 and 2013 had net sales greater than 10 percent of net total sales.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 11 Income Taxes**

The Corporation had no federal and state income tax benefit for the years ended May 31, 2014 and 2013.

The difference between the Corporation's statutory federal income tax rate of 34 percent in fiscal 2014 and 2013, and the effective income tax rate is due primarily to state income taxes and changes in deferred tax assets valuation allowance and are as follows:

	Year ended May 31,	
	2014	2013
	(Dollars in thousands)	
Income taxes at statutory federal rate	\$ (4,034)	\$ (3,574)
State income taxes	23	93
State net operating loss	(480)	(605)
New Energy Efficient Home Credit	(137)	(91)
Increase in deferred tax assets valuation allowance	4,561	4,189
Other, net	67	(12)
Income tax benefit	\$	\$
Effective tax rate	0%	0%

Components of the net deferred tax assets include:

	May 31,	
	2014	2013
	(Dollars in thousands)	
Current deferred tax assets		
Accrued marketing programs	\$ 169	\$ 55
Accrued warranty expense	1,464	1,466
Accrued workers' compensation	650	638
Accrued vacation	329	319
Other	223	143
Gross current deferred tax assets	2,835	2,621
Noncurrent deferred tax assets		
Liability for certain post-retirement benefits	2,061	2,252
Accrued warranty expense	792	876
Federal net operating loss carryforward	30,488	26,616
Federal tax credit carryforward	1,345	1,205
State net operating loss carryforward	7,860	7,380
Depreciation	854	735
Other	(32)	(43)
Gross noncurrent deferred tax assets	43,368	39,021

Edgar Filing: SKYLINE CORP - Form 10-K

Total gross deferred tax assets	46,203	41,642
Valuation allowance	(46,203)	(41,642)
Net deferred tax assets	\$	\$

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 11 Income Taxes (Continued)**

At May 31, 2014, the Corporation had gross federal net operating loss carryforwards of approximately \$90 million and gross state net operating loss carryforwards of approximately \$102 million. The federal net operating loss and tax credit carryforwards have a life expectancy between sixteen and twenty years. The state net operating loss carryforwards have a life expectancy, depending on the state where a loss was incurred, between five and twenty years. If the Corporation, after considering future negative and positive evidence regarding the realization of deferred tax assets, determines that a lesser valuation allowance is warranted, it would record a reduction to income tax expense and the valuation allowance in the period of determination.

Income tax returns are filed in the U.S. federal jurisdiction and in several state jurisdictions. For the majority of taxing jurisdictions the Corporation is no longer subject to examination by taxing authorities for years before 2010. The Corporation did not incur any interest or penalties related to income tax matters in fiscal years 2014 and 2013.

The Corporation has no unrecognized tax benefits in its financial statements during fiscal years 2014 and 2013, and does not expect any significant changes related to unrecognized tax benefits in the twelve months following May 31, 2014.

NOTE 12 Commitments and Contingencies

The Corporation was contingently liable at May 31, 2014, under repurchase agreements with certain financial institutions providing inventory financing for dealers of its products. Under these arrangements, which are customary in the manufactured housing and recreational vehicle industries, the Corporation agrees to repurchase units in the event of default by the dealer at declining prices over the term of the agreement. The period to potentially repurchase units is between 12 to 24 months.

The maximum repurchase liability is the total amount that would be paid upon the default of the Corporation's independent dealers. The maximum potential repurchase liability, without reduction for the resale value of the repurchased units, was approximately \$63 million at May 31, 2014 and \$71 million at May 31, 2013. As a result of favorable experience regarding repurchased units, which is largely due to the strength of dealers selling the Corporation's products, the Corporation maintained at May 31, 2014 and 2013 a \$100,000 loss reserve that is a component of other accrued liabilities.

The risk of loss under these agreements is spread over many dealers and financial institutions. The loss, if any, under these agreements is the difference between the repurchase cost and the resale value of the units. The Corporation estimates the fair value of this commitment considering both the contingent losses and the value of the guarantee. This amount has historically been insignificant. The Corporation believes that any potential loss under the agreements in effect at May 31, 2014 will not be material to its financial position or results of operations.

The amounts of obligations from repurchased units and incurred net losses for the periods presented are as follows:

	Year ended May 31,	
	2014	2013
	(Dollars in thousands)	
Number of units repurchased		3
Obligations from units repurchased	\$	\$ 31
Net losses on repurchased units	\$	\$

The Corporation is a party to various pending legal proceedings in the normal course of business. Management believes that any losses resulting from such proceedings would not have a material adverse effect on the Corporation's results of operations or financial position.

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 12 Commitments and Contingencies (Continued)

As referenced in Note 2, the Corporation pledged a \$600,000 certificate of deposit as security for certain performances in providing 60 manufactured homes to Oakridge Family Homes, L.P. In December 2013, the terms of the certificate of deposit proceeds and security agreement were completed; resulting in the maturation of the certificate of deposit and the receipt of the certificate of deposit proceeds.

The Corporation utilizes a combination of insurance coverage and self-insurance for certain items, including workers' compensation and group health benefits. Liabilities for workers' compensation are recognized for estimated future medical costs and indemnity costs. Liabilities for group health benefits are recognized for claims incurred but not paid. Insurance reserves are estimated based upon a combination of historical data and actuarial information. Actual results could differ from these estimates.

NOTE 13 Treasury Stock

The Corporation's Board of directors from time to time has authorized the repurchase of shares of the Corporation's common stock, in the open market or through negotiated transactions, at such times and at such prices as management may decide. In fiscal 2014 and 2013, the Corporation did not acquire any shares of its common stock. At May 31, 2014, the Corporation had authorization to repurchase an additional 391,300 shares of its common stock.

NOTE 14 401(K) Plan

The Corporation has an employee savings plan (the 401(k) Plan) that is intended to provide participating employees with an additional method of saving for retirement. The 401(k) Plan covers all employees who meet certain minimum participation requirements. The Corporation does not provide a matching contribution to the 401(k) Plan, but can make discretionary profit sharing contributions. No profit sharing contributions were made in fiscal 2014 and 2013.

NOTE 15 Retirement and Death Benefit Plans

The Corporation has entered into various arrangements with certain employees or former employees for benefits to be paid in the following manner:

to an employee's estate in the event of death

an employee in the event of retirement or disability to be paid over 10 years beginning at the date of retirement or disability

in the event of death, the employee's beneficiary will receive the balance due the employee

The Corporation also purchased life insurance contracts on the covered employees or former employees. The present value of the principal cost of such arrangements is being accrued over the period from the date of such arrangements to full eligibility using a discount rate of 4.5 percent in fiscal 2014 and 4.0 percent in fiscal 2013. The current and non-current amounts accrued for such arrangements totaled \$5,856,000 and \$6,309,000 at May 31, 2014 and 2013, respectively. The amount credited to operations under these arrangements was approximately \$152,000 in fiscal year 2014. The amount charged to operations under these arrangements was approximately \$187,000 fiscal 2013.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 16 Industry Segment Information**

The Corporation designs, produces and markets manufactured housing, modular housing and recreational vehicles (travel trailers, fifth wheels and park models). Manufactured housing represents homes built according to a national building code; modular housing represents homes built to a local building code. The percentage allocation of manufactured housing, modular housing and recreational vehicle net sales is:

	Year Ended May 31,	
	2014	2013
Domestic Manufactured Housing	63%	49%
Modular Housing		
Domestic	10	11
Canadian	3	3
	13	14
Total Housing	76	63
Recreational Vehicles		
Domestic	20	30
Canadian	4	7
Total Recreational Vehicles	24	37
	100%	100%

Total operating loss represents operating losses before interest expense, interest income and benefit from income taxes with non-traceable operating expenses being allocated to industry segments based on percentages of net sales. General corporate expenses are not allocated to the industry segments.

Identifiable assets, depreciation and capital expenditures, by industry segment, are those items that are used in operations in each industry segment, with jointly used items being allocated based on a percentage of net sales.

	Year Ended May 31,	
	2014	2013

Item 9A. *Controls and Procedures.*

Evaluation of Disclosure Controls and Procedures

As of May 31, 2014, the Corporation conducted an evaluation, under the supervision and participation of management including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures are effective for the period ended May 31, 2014.

Management's Assessment on Internal Controls Over Financial Reporting

Management of the Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. Internal control over financial reporting provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

The Corporation's internal control over financial reporting includes policies and procedures that: pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Corporation's assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that the Corporation's receipts and expenditures are being made only in accordance with authorizations of management and directors; provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Corporation's assets that could have a material effect on the financial statements.

Management of the Corporation has assessed the effectiveness of the Corporation's internal control over financial reporting based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Management's assessment included an evaluation of the design of the Corporation's internal control over financial reporting, and testing of the operational effectiveness of the Corporation's internal control over financing reporting. Based on this assessment, management has concluded that the Corporation's internal control over financial reporting was effective as of May 31, 2014. This annual report does not include an attestation report of the Corporation's registered public accounting firm regarding internal control over financial reporting. Management's report is not subject to attestation by the Corporation's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Corporation to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

No change in the Corporation's internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) occurred during the fiscal quarter ended May 31, 2014 that materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Chief Executive Officer and Chief Financial Officer Certifications

The Corporation's Chief Executive Officer and Chief Financial Officer have filed with the Securities and Exchange Commission the certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 as Exhibits 31.1 and 31.2 to the Corporation's Annual Report on Form 10-K for the fiscal year ended May 31, 2014. In addition, on September 26, 2013 the Corporation's Chief Financial Officer certified to NYSE MKT LLC that he was not aware of any violation by the Corporation of the NYSE MKT corporate governance listing standards as in effect on September 23, 2013. The foregoing certification was unqualified.
