Notes to Quarterly Consolidated Portfolio of Investments

June 30, 2014 (Unaudited)

Note 1. Valuation and Investment Practices

Basis for Consolidation: The First Opportunity Fund, Inc. (the Fund) invests a significant portion of its investments (the Hedge Fund Portfolio) in private investment partnerships and similar investment vehicles, typically referred to as hedge funds (Hedge Funds). In addition, a portion of the Fund's assets are invested primarily in equity securities issued by financial services companies. The accompanying Consolidated Portfolio of Investments includes the investment positions of FOFI 1, Ltd. and FOFI 2, Ltd. (the Subsidiaries), each a wholly-owned subsidiary of the Fund, organized under the laws of the Cayman Islands. FOFI 1, Ltd. invests in Bay Pond Partners, LP, and FOFI 2, Ltd. contains liabilities for expenses related to the subsidiary. The Fund may invest up to 25% of its total assets in the Subsidiaries. The aggregated net assets of the Subsidiaries as of June 30, 2014 were \$59,639,008.03 or 16.85% of the Fund's consolidated total net assets. The Consolidated Portfolio of Investments includes positions of the Fund and of the Subsidiaries. The Subsidiaries price their portfolio investments pursuant to the same pricing and valuation methodologies used by the Fund.

Securities Valuation: Equity securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued based on the last sales price at the close of the applicable exchange. If such equity securities were not traded on the valuation date, but market quotations are readily available, they are valued at the bid price provided by an independent pricing service or by principal market makers. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Debt securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent pricing services, principal market makers or other independent sources. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

The Fund's Board of Directors (the Board) has delegated to the advisers, through approval of the appointment of the members of the advisers' Valuation Committee, the responsibility of determining fair value of any security or financial instrument owned by the Fund for which market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the advisers, does not represent fair value (Fair Value Securities). The advisers use a third party pricing consultant to assist the advisers in analyzing, developing, applying and documenting a methodology with respect to certain Fair Value Securities. The advisers and their valuation consultant, as appropriate, use valuation techniques that utilize both observable and unobservable inputs including discount for lack of marketability, price to tangible book value multiple, future cash distribution, book value, book value multiple and price to earnings multiple. In such circumstances, the Valuation Committee of the advisers are responsible for (i) identifying Fair Value Securities, (ii) analyzing the Fair Value Security and developing, applying and documenting a methodology for valuing Fair Value Securities, and (iii) periodically reviewing the appropriateness and accuracy of the methods used in valuing Fair Value Securities. The appointment of any officer or employee of the advisers to the Valuation Committee shall be promptly reported to the Board and ratified by the Board at its next regularly scheduled meeting. The advisers are responsible for reporting to the Board, on a quarterly basis, valuations and certain findings with respect to the Fair Value Securities. Such valuations and findings are reviewed by the entire Board on a quarterly basis.

The Fund's investments in Hedge Funds are valued, as a practical expedient, at the most recent estimated net asset value periodically determined by the respective Hedge Fund manager according to such manager's policies and procedures based on valuation information reasonably available to the Hedge Fund manager at that time (adjusted for estimated expenses and fees accrued to the Fund since the last valuation date); provided, however, that the advisers may consider whether it is appropriate, in light of relevant circumstances, to adjust such

valuation in accordance with the Fund's valuation procedures. If a Hedge Fund does not report a value to the Fund on a timely basis, the fair value of such Hedge Fund shall be based on the most recent value reported by the Hedge Fund, as well as any other relevant information available at the time the Fund values its portfolio. The frequency and timing of receiving valuations for Hedge Fund investments is subject to change at any time, without notice to investors, at the discretion of the Hedge Fund manager or the Fund.

The Consolidated Portfolio of Investments includes investments valued at \$138,021,830 (39.00% of total net assets), whose fair values have been estimated by management in the absence of readily determinable fair values. Due to the inherent uncertainty of the valuation of these investments, these values may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

For valuation purposes, the last quoted prices of non-U.S. equity securities may be adjusted under the circumstances described below. If the Fund determines that developments between the close of a foreign market and the close of the New York Stock Exchange (NYSE) will, in its judgment, materially affect the value of some or all of its portfolio securities, the Fund will adjust the previous closing prices to reflect what it believes to be the fair value of the securities as of the close of the NYSE. In deciding whether it is necessary to adjust closing prices to reflect fair value, the Fund reviews a variety of factors, including developments in foreign markets, the performance of U.S. securities markets, and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The Fund may also fair value securities in other situations, such as when a particular foreign market is closed but the U.S. market is open. The Fund uses outside pricing services to provide it with closing prices. The advisers may consider whether it is appropriate, in light of relevant circumstances, to adjust such valuation in accordance with the Fund's valuation procedures. The Fund cannot predict how often it will use closing prices and how often it will determine it necessary to adjust those prices to reflect fair value. If the Fund uses adjusted prices, the Fund will periodically compare closing prices, the next day's opening prices in the same markets and those adjusted prices as a means of evaluating its security valuation process.

Various inputs are used to determine the value of the Fund's investments. Observable inputs are inputs that reflect the assumptions market participants would use based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions based on the best information available in the circumstances.

These inputs are summarized in the three broad levels listed below.

- Level 1 Unadjusted quoted prices in active markets for identical investments
- Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of June 30, 2014 in valuing the Fund's investments carried at value:

The Fund evaluates transfers into or out of Levels 1, 2 and 3 as of the end of the reporting period. Financial assets were transferred from Level 1 to Level 2 since certain equity prices used a bid price from a data provider at the end of the period and a last quoted sales price from a data provider at the beginning of the period. Financial assets were transferred from Level 2 to Level 1 since certain equity prices used a last sales price from a data provider at the end of the period and a bid price from a data provider at the beginning of the period. As of June 30, 2014 there were no transfers into or out of Levels 1 and 2.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Investments in Securities	Balance as of March 31, 2014	Return of Capital	Realized loss	Change in unrealized appreciation/ (depreciation)	Sales proceeds	Transfer into Level 3	Transfer into Level 3	Balance as of June 30, 2014

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded as of the ex-dividend date, or for certain foreign securities, when the information becomes available to the Fund. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the interest method.

Foreign Currency Translations: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks. See Foreign Issuer Risk below.

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of foreign interest and dividends recorded on the books of the Fund and the amounts actually received.

Foreign Issuer Risk: Investment in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include, but are not limited to: (i) less information about non-U.S. issuers or markets may be available due to less rigorous disclosure, accounting standards or regulatory practices; (ii) many non-U.S. markets are smaller, less liquid and more volatile thus, in a changing market, the advisers may not be able to sell the Fund's portfolio securities at times, in amounts and at prices they consider reasonable; (iii) currency exchange rates or controls may adversely affect the value of the Fund's investments; (iv) the economies of non-U.S. countries may grow at slower rates than expected or may experience downturns or recessions; and, (v) withholdings and other non-U.S. taxes may decrease the Fund's return.

Concentration Risk: The Fund has highly concentrated positions in certain Hedge Funds and may take concentrated positions in other securities. Concentrating investments in a fewer number of securities (including investments in Hedge Funds) may involve a degree of risk that is greater than a fund which has less concentrated investments spread out over a greater number of securities. For example, the value of the Fund's net assets will fluctuate significantly based on the fluctuation in the value of the Hedge Funds in which it invests. In addition, investments in Hedge Funds can be highly volatile and may subject investors to heightened risk and higher operating expenses than another closed-end fund with a different investment focus.

Hedge Fund Risk: The Fund invests a significant portion of its assets in Hedge Funds. The Fund's investments in Hedge Funds are private entities that are not registered under the 1940 Act and have limited regulatory oversight and disclosure obligations. In addition, the Hedge Funds invest in and actively trade securities and other financial instruments using different strategies and investment techniques, which involve significant risks. These strategies and techniques may include, among others, leverage, employing various types of derivatives, short selling, securities lending, and commodities trading. These Hedge Funds may invest a high percentage of their assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Hedge Funds may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility. These and other risks associated with hedge funds may cause the Fund's net asset value to be more volatile and more susceptible to the risk of loss than that of other funds with a different investment strategy.

Industry Diversification: The Fund may not invest more than 25% of its assets in any industry or group of industries. While the advisers do not intend to invest more than 25% of the Fund's assets in a single industry, the Fund does not look through its investments in the Hedge Funds, some of which have significant exposure to industries within the financial sector, to determine whether the Fund exceeds the 25% limit. As a result, the Fund may be indirectly concentrated in an industry or group of industries by virtue of the Fund's investments in Hedge Funds.

Indemnifications: Like many other companies, the Fund's organizational documents provide that its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, both in some of its principal service contracts and in the normal course of its business, the Fund enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Fund's maximum exposure under these arrangements is unknown as this could involve future claims against the Fund.

Note 2. Unrealized Appreciation/ (Depreciation)

On June 30, 2014, based on cost of \$259,987,224 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$105,227,474 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$11,117,107, resulting in net unrealized appreciation of \$94,110,367.

Note 3. Transactions With Affiliated Companies

Transactions during the period with companies in which the Fund owned at least 5% of the voting securities were as follows:

Name of Affiliate	Beginning Share Balance as of 4/01/14	Purchases	Sales	Ending Share Balance as of 6/30/14	Dividend Income	Realized Gains (Losses)	Value as of 6/30/14

Note 4. Restricted Securities

As of June 30, 2014, investments in securities included issues that are considered restricted. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be valued under methods approved by the Board as reflecting fair value.

Restricted securities as of June 30, 2014 are as follows:

(b) On January 7, 2014, the merger of Forethought Financial Group into Global Atlantic Group was completed. Following the merger, a holdback of the proceeds was established to fund escrow accounts. The escrow accounts will be released in installments within 3 years after the close of the merger.

Note 5. Investments in Hedge Funds

As of June 30, 2014, the Fund held investments in Hedge Funds which are reported on the Consolidated Portfolio of Investments under the sections titled Domestic Hedge Funds and Foreign Hedge Funds.

The Hedge Funds investment objectives are to achieve capital appreciation through investment primarily in equity and equity-related securities of companies that derive a major portion of profits or anticipated profits from the global financial services sector and related sectors. The Hedge Fund's general partner, or investment manager, may, at their discretion, change the Hedge Fund's investment objective and investment strategy at any time.

Since the investments in Hedge Funds are not publicly traded, the Fund's ability to make withdrawals from its investments in the Hedge Funds is subject to certain restrictions which vary for each respective Hedge Fund. These restrictions include notice requirements for withdrawals and additional restrictions or charges for withdrawals within a certain time period following initial investment. In addition, there could be circumstances in which such restrictions can include the suspension or delay in withdrawals from the respective Hedge Fund, or limited withdrawals allowable only during specified times during the year. In certain circumstances the Fund may not make withdrawals that occur less than one year following the date of admission to the Hedge Fund. As of June 30, 2014, the Fund did not have any investments in hedge funds in which a suspension of withdrawals was in effect.

The following table summarizes the Fund's investments in Hedge Funds as of June 30, 2014:

Description	% of Net Assets as of	Value as of	Net Unrealized Gain/(Loss) as of	Mgmt fees	Incentive fees	Redemption Period/Frequency
	6/30/14	6/30/14	6/30/14

Wolf Creek Investors (Bermuda) LP, a Wellington Management Investors (Bermuda), Ltd. share class	17.0%	60,290,890	20,247,240	Annual rate of 1% of net assets	20% of net profits at the end of the fiscal year	At the end of each calendar quarter upon 45 days notice
Total	33.9%	\$119,932,487	\$40,501,652			

The Fund did not have any outstanding unfunded commitments as of June 30, 2014.

Note 6. Line of Credit

On December 7, 2012 the Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allowed the Fund to borrow up to \$30,000,000 (Initial Maximum Commitment) and a Lending Agreement, as defined below. Borrowings under the Agreement are secured by assets of the Fund that are held by the Fund's custodian in a separate account (the Pledged Collateral). Under the terms of the Agreement, BNP is permitted in its discretion, with 270 calendar days advance notice (the Notice Period), to reduce or call the entire Initial Maximum Commitment. Interest on the borrowing is charged at the one month LIBOR (London Inter-bank Offered Rate) plus 0.80% on the amount borrowed.

For the period ended June 30, 2014, the average amount borrowed under the Agreement and the average interest rate for the amount borrowed were \$0 and 0.00%, respectively. As of June 30, 2014, the amount of such outstanding borrowings is \$0. The interest rate applicable to the borrowings on June 30, 2014 was 0.00%. As of June 30, 2014 the amount of Pledged Collateral was \$0.

The Lending Agreement is a separate side-agreement between the Fund and BNP pursuant to which BNP may borrow a portion of the Pledged Collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by the Fund to BNP under the Agreement. The Lending Agreement is intended to permit the Fund to reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. The Fund may designate any security within the Pledged Collateral as ineligible to be a Lent Security, provided there are eligible securities within the Pledged Collateral in an amount equal to the outstanding borrowing owed by the Fund. During the period in which the Lent Securities are outstanding, BNP must remit payment to the Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities. The Fund receives income from BNP based on the value of the Lent Securities.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by the Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to the Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with the Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, the Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. The Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to the Fund's custodian no later than three business days after such request. If the Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of

such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. The Fund shall also have the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the Current Borrowings. As of June 30, 2014, the value of securities on loan was \$0.

The Board has approved the Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement occurred during the period ended June 30, 2014.

Note 7. Subsequent Event

Redemption of Hedge Funds: The Fund has given its notice of redemption with respect to its remaining hedge fund investments. In July 2014, the Fund was notified of proposed structural changes to both of its remaining hedge fund investments. In light of the substantive nature of the proposed changes, the managers of the funds allowed investors who did not want to continue as investors under the revised fund terms to redeem their investments in the funds in an off-cycle redemption. The Advisers reviewed the proposed changes and determined that the hedge funds would no longer satisfy the Advisers' original investment thesis. Consequently, the Advisers gave notice to the hedge fund manager of their decision to redeem the Fund's hedge fund investments. Such redemptions will occur on September 30, 2014, the off-cycle redemption date.
