First Opportunity Fund, Inc.

Letter from the Advisers

September 30, 2014 (Unaudited)

Dear Stockholders:

It seems I got ahead of myself in my last letter. It turns out that I have one more letter to write specifically for the First Opportunity Fund, Inc. (the Fund). Although I believe I can now say with confidence that this will in all likelihood be the last semi-annual letter specifically for the Fund, as the merger of the Fund, Boulder Total Return Fund, Inc., The Denali Fund Inc. and Boulder Growth & Income Fund, Inc. into a single surviving fund has officially received stockholder approval. It has been a long process to reach this point and we appreciate your support and patience throughout it all. In light of this momentous event, I believe we have an opportunity to break from the normal and attempt to provide something new and hopefully more insightful. Let us begin by starting with the familiar and review the performance of the Fund.

For the six-month period ending September 30, 2014, the Fund generated an absolute return of 1.3% on net assets. While a positive return, this performance was materially below the performances of the Fund's benchmarks as the S&P 500 Index generated a 6.4% return, the Dow Jones Industrial Average (DJIA) generated a 4.8% return and the NASDAQ Composite generated a 7.7% return.

	3 mos.	6 mos.	One Year	Three Years*	Five Years*	Ten Years*	Since June 2010**
FOFI (NAV)	-1.4%	1.3%	11.7%	14.6%	10.4%	2.8%	10.5%
FOFI (Market)	0.7%	4.0%	20.3%	18.2%	9.4%	0.5%	11.4%
S&P 500 Index	1.1%	6.4%	19.7%	22.9%	15.7%	8.1%	17.1%
DJIA	1.9%	4.8%	15.3%	19.0%	14.8%	8.1%	15.6%
NASDAQ Composite	2.2%	7.7%	20.7%	24.7%	17.6%	10.3%	18.7%

* Annualized

** Annualized since June 1, 2010, when the current Advisers became investment advisers to the Fund.

The performance data quoted represents past performance. Past performance is no guarantee of future results. Fund returns include reinvested dividends and distributions, but do not reflect the reduction of taxes that a stockholder would pay on Fund distributions or the sale of Fund shares and do not reflect brokerage commissions, if any. Returns of the S&P 500 Index, the DJIA and the NASDAQ Composite include reinvested dividends and distributions. You cannot invest directly in any of these indices. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

In my last letter, I discussed our viewpoint that markets were beginning to trade at premium valuations and if there were any further appreciation in excess of underlying business performance the Fund would generate a positive return, but would run the risk of underperforming on a relative basis. While it could be said that the Fund's performance for

the period was in-line with the expectations we laid out in the previous stockholder letter, I believe this would be an overly simplistic explanation of the Fund's performance for the period.

Upon closer examination it can be seen that the Fund's performance was negatively impacted by the performance of some of the Fund's larger positions. Chief among these were the positions in the two hedge funds of Bay Pond, L.P. (Bay Pond) and Wolf Creek Investors (Bermuda), L.P. (Wolf Creek), which accounted for roughly 16.4% and 16.6% of total assets at period end, respectively. For the period, Bay Pond generated a return of -0.9% and Wolf Creek generated a return of -0.3%. In both cases, these positions generated returns materially below the Fund's benchmarks and due to their combined weight in the Fund were contributing factors to the Fund's relative underperformance during the period. The weak performance from these two positions was only partially offset by the positive contributions from some of the Fund's other large positions, such as Cisco Systems, Inc. and the combined position in the common shares and American Depositary Receipts (ADRs) of Sanofi as they generated returns for the period of 15.0% and 11.3%, respectively.

As you know from the press release on September 4th, we made the investment decision to redeem the Fund's positions in both Bay Pond and Wolf Creek during the period. We were notified in July of this year that there were going to be structural changes made to both Bay Pond and Wolf Creek and a redemption period would be made available to investors in these two hedge funds. As part of our investment process, we performed an in-depth review of the proposed structural changes and other relevant factors and made the determination that the Fund's investment in the hedge funds no longer adhered to our original investment thesis. In accordance with this decision, we notified the manager of these hedge funds of our intent to redeem the Fund's investment in both Bay Pond and Wolf Creek. The Fund received approximately 95% of the redemption proceeds in early October with the remainder, subject to some tax withholdings, received in November. As the aggregate position in Bay Pond and Wolf Creek accounted for approximately 33% of the Fund's total assets, the Fund's cash position has increased dramatically since the period end on September 30, 2014.

We have been actively analyzing opportunities to re-invest these redemption proceeds, but attractive opportunities have been scarce due to generally elevated market valuations. Regardless, any investment decision we make will adhere to our core philosophy of buying good businesses at attractive valuations for the long-run. If Mr. Market is unwilling to offer us such opportunities, we are willing to patiently wait in cash until fear gets the better of him.

In the meantime, we continue to focus our efforts on closely monitoring the existing holdings of the Fund and researching new investment ideas. We believe these labors bore some fruit during the period as we made a few changes to the Fund's holdings. While attractive investment opportunities have been scarce, they are not extinct and we believe we identified one in Pfizer Inc. (Pfizer). Pfizer is a leading global biopharmaceutical company with a history that stretches back to 1849. Recently, the knock against the company has been that its sales and income are expected to decline in the next year or more and growth opportunities are fairly modest for the next couple of years thereafter. While we do not disagree with this assessment, we feel the market has placed too much emphasis on the company's limited growth prospects and in the process overlooked the company's many other positives. As a result, we believe the market provided us with an attractive entry point and we established a position in Pfizer's stock. We believe some of the overlooked positives of Pfizer are its diverse product portfolio, geographic sales diversity and a large and improving product development pipeline. When combined with the fact that many of the company's products are insulated from competition due to patent protection and market exclusivity rights, we believe the company will be able to generate high levels of free cash flow for the foreseeable future. We expect the company will continue to use this free cash flow and its large excess cash position to return capital to shareholders through its attractive dividend

and share repurchases as well as to fund business development initiatives that should help bolster its current growth prospects.

September 30, 2014 (Unaudited)

In addition to the new position in Pfizer, we sold out of the Fund's position in Kohl's Corporation (Kohl's) with the proceeds going to boost the existing position in Chevron Corporation (Chevron). In general for Kohl's, we continue to like the company as we believe it is among the better operators in the retail space, it consistently generates high levels of free cash flow and it is a shareholder friendly allocator of capital. However, we have always had some concern with the uncertain long-term competitive landscape of the retail industry in light of the continued trend toward online shopping. When Kohl's stock traded at a material discount to our estimate of its intrinsic value, the additional margin of safety allowed us to be comfortable with this concern. As the company's market valuation moved above our estimate of intrinsic value; however, this margin of safety disappeared and along with it our comfort level with Kohl's stock. When the market is willing to pay us materially more for a company we own than what we believe it is worth, we will be happy to oblige as long as we have an opportunity to re-deploy those proceeds into a more attractive investment opportunity.

Fortunately, we believe we had such an opportunity with Chevron, as growing concerns about falling oil prices drove a selloff in the company's stock. As you know, we are bottom-up investors and we make no boasts about our abilities as macro prognosticators. How then were we able to gain comfort with a company whose earnings are highly dependent on volatile commodity prices, such as oil, natural gas liquids and natural gas? The simple answer is we recognize and understand our short comings. We know we are not able to predict with any sense of accuracy where commodity prices are going to be in the next day, much less the next year. Therefore, when we look to invest in commodity driven companies, we favor ones where other structural factors of the business help mute commodity price driven earnings volatility, such as commodity exposure diversification, geographic diversification, low cost operations and conservative leverage levels. Geographic and commodity exposure diversification can provide greater earnings stability as earnings are less reliant on any one commodity price or regional price differential. Low cost operations and conservative leverage ratios provide an increased margin of safety. Even if commodity prices fall dramatically and for an extended period of time, the companies with low cost operations and conservative balance sheets should be able to maintain some level of profitability and be able to weather an unforeseen storm.

Can oil prices fall further? Absolutely. Can oil prices remain depressed for an extended period? Sure. Will Chevron's earnings take a major hit if oil prices stay at the current lower levels? Yes. Are we concerned for the long-term future of Chevron? No. The reason is that in addition to being a return-focused and a high-quality operator, we believe Chevron benefits from all of the structural factors discussed above. Regardless of the short-term fluctuations in oil prices, we feel confident they will eventually recover. When they do, Chevron will be there, well-positioned to benefit. While the market focuses on the short-term outlook, we believe it has overlooked Chevron's many attractive long-term prospects. This is fine with us as we believe it has given us the chance to increase the Fund's stake in a good company at an attractive price.

Now, the fact that I just covered the vast majority of activity in the Fund in just a few paragraphs highlights what we believe is an underappreciated aspect of our investment philosophy, which is low portfolio turnover. We are investors and not speculators. When we make a buy decision, we are making a decision to purchase an interest in a business that we plan to hold for a

Table of Contents

Letter from the Advisers

First Opportunity Fund, Inc.

September 30, 2014 (Unaudited)

long time. A result of our buy and hold philosophy is that portfolio turnover, in the ordinary course of business, will tend to be low and we believe this is beneficial for a couple of reasons. First, it allows us to keep trading activity and its related costs to a minimum. The logic here is simple: we believe the Fund's assets are better spent appreciating in long-term investments in high quality companies than unnecessarily lining the pockets of our brokers. Secondly, the less time spent on trading is more time we have to focus our efforts on research. It is through research and not trading where we believe we are able to provide the greatest value to you and the Fund.

Ignoring the obvious chance to segue into an in-depth discussion of our research process, I will save that for another time as it is probably best to bring this letter to a close before it becomes overlong. Going forward, our priorities are twofold. The first is to continue to navigate through this difficult market environment where we believe valuations remain elevated. We seek to accomplish this by remaining committed to our investment philosophy of investing in good businesses at attractive valuations for the long-run. The second is to move forward with the recently approved merger, which we expect to complete in March of next year. Until then, I would like to wish you all a safe and happy holiday season and I look forward to writing you again soon.

Sincerely,

Brendon Fischer, CFA

The views and opinions in the preceding commentary are as of the date of this letter and are subject to change at any time. This material represents an assessment of the market environment at a specific point in time, should not be relied upon as investment advice and is not intended to predict or depict performance of any investment.

Portfolio weightings and other figures in the foregoing commentary are provided as of period-end, unless otherwise stated.

Note to Stockholders on the Fund's Discount. As most stockholders are aware, the Fund's shares presently trade at a significant discount to net asset value. The Fund's board of directors is aware of this, monitors the discount and periodically reviews the options available to mitigate the discount. In addition, there are several factors affecting the Fund's discount over which the board and management have little control. In the end, the market sets the Fund's share price. For long-term stockholders of a closed-end fund, we believe the Fund's discount should only be one of many factors taken into consideration at the time of your investment decision.

Note to Stockholders on the Fund's Use of Leverage. The Fund has the ability to leverage through a credit facility. The Fund may utilize leverage to seek to enhance the returns for its stockholders over the long term; however, this objective may not be achieved in all interest rate and investment environments. Leverage creates certain risks for stockholders, including the likelihood of greater volatility of the Fund's NAV and market price. In the event the Fund utilizes leverage there are other risks associated with borrowing through a line of credit, including, but not limited to risks associated with purchasing securities on margin. In addition, borrowing would increase costs to the Fund, subject the Fund to contractual restrictions on its operations and require the Fund to maintain certain asset coverage ratios on any outstanding indebtedness.

First Opportunity Fund, Inc.

*September 30, 2014 (Unaudited)***NOTE 1. FUND ORGANIZATION**

First Opportunity Fund, Inc. (the **Fund**) was incorporated in Maryland on March 3, 1986, as a closed-end, management investment company; registered under the Investment Company Act of 1940, as amended (the **1940 Act**). The Fund is non-diversified and its primary investment objective is total return. The Fund trades over-the-counter under the trading symbol FOFI. The Fund is considered an investment company for financial reporting purposes under generally accepted accounting principles in the United States of America (**GAAP**).

In seeking to achieve its investment objective, during the semi-annual period ended September 30, 2014, the Fund invested a significant portion of its investments in private investment partnerships and similar investment vehicles (the **Hedge Fund Portfolio**), typically referred to as hedge funds (**Hedge Funds**). In addition, a portion of the Fund's assets were invested primarily in equity securities issued by financial services companies.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES AND SECURITIES VALUATION

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements is in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. The most critical estimates reflected in the financial statements relate to securities whose fair values have been estimated by management in the absence of readily determinable fair values. Actual results could differ from those estimates.

Basis for Consolidation: The accompanying consolidated financial statements include the account of FOFI 1, Ltd. (the **Subsidiary**), a wholly-owned subsidiary of the Fund, organized under the laws of the Cayman Islands. FOFI 1, Ltd. invested in Bay Pond Partners, LP. until redemption of the hedge fund on September 30, 2014. FOFI 2, Ltd., which contained cash and accruals for expenses related to the subsidiary, was dissolved on September 30, 2014. The Fund may invest up to 25% of its total assets in the Subsidiary. The net assets of FOFI 1, Ltd. as of September 30, 2014 was \$57,259,111 or 16.4% of the Fund's consolidated total net assets.

Securities Valuation: Equity securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued based on the last sales price at the close of the applicable exchange. If such equity securities were not traded on the valuation date, but market quotations are readily available, they are valued at the bid price provided by an independent pricing service or by principal market makers. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Debt securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent pricing services, principal market makers or other independent sources. Short-term securities which mature in more than 60 days are valued at current market quotations.

Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

The Fund's Board of Directors (the Board) has delegated to the advisers, through approval of the appointment of the members of the advisers' Valuation Committee, the responsibility of determining the fair value of any security or financial instrument owned by the Fund for which

market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the advisers, does not represent fair value (Fair Value Securities). The advisers use a third-party pricing consultant to assist the advisers in analyzing, developing, applying and documenting a methodology with respect to certain Fair Value Securities. The advisers and their valuation consultant, as appropriate, use valuation techniques that utilize both observable and unobservable inputs including discount for lack of marketability, price to tangible book value multiple, future cash distribution, book value, book value multiple, and price to earnings multiple. In such circumstances, the Valuation Committee of the advisers are responsible for (i) identifying Fair Value Securities, (ii) analyzing the Fair Value Security and developing, applying and documenting a methodology for valuing Fair Value Securities, and (iii) periodically reviewing the appropriateness and accuracy of the methods used in valuing Fair Value Securities. The appointment of any officer or employee of the advisers to the Valuation Committee shall be promptly reported to the Board and ratified by the Board at its next regularly scheduled meeting. The advisers are responsible for reporting to the Board, on a quarterly basis, valuations and certain findings with respect to the Fair Value Securities. Such valuations and findings are reviewed by the entire Board on a quarterly basis.

The Fund's investments in Hedge Funds are valued, as a practical expedient, at the most recent estimated net asset value periodically determined by the respective Hedge Fund manager according to such manager's policies and procedures based on valuation information reasonably available to the Hedge Fund manager at that time (adjusted for estimated expenses and fees accrued to the Fund since the last valuation date); provided, however, that the advisers may consider whether it is appropriate, in light of relevant circumstances, to adjust such valuation in accordance with the Fund's valuation procedures. If a Hedge Fund does not report a value to the Fund on a timely basis, the fair value of such Hedge Fund shall be based on the most recent value reported by the Hedge Fund, as well as any other relevant information available at the time the Fund values its portfolio. The frequency and timing of receiving valuations for Hedge Fund investments is subject to change at any time, without notice to investors, at the discretion of the Hedge Fund manager or the Fund.

The Consolidated Portfolio of Investments includes investments valued at \$134,397,166 (38.99% of total net assets), whose fair values have been estimated by management in the absence of readily determinable fair values. Due to the inherent uncertainty of the valuation of these investments, these values may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

For valuation purposes, the last quoted prices of non-U.S. equity securities may be adjusted under certain circumstances described below. If the Fund determines that developments between the close of a foreign market and the close of the New York Stock Exchange (the NYSE) will, in its judgment, materially affect the value of some or all of its portfolio securities, the Fund will adjust the previous closing prices to reflect what it believes to be the fair value of the securities as of the close of the NYSE. In deciding whether it is necessary to adjust closing prices to reflect fair value, the Fund reviews a variety of factors, including developments in foreign markets, the performance of U.S. securities markets, and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The Fund may also fair value securities in other situations, such as when a particular foreign market is closed but the U.S. market is open. The Fund uses outside pricing services to provide it with closing

prices. The advisers may consider whether it is appropriate, in light of relevant circumstances, to adjust such

valuation in accordance with the Fund's valuation procedures. The Fund cannot predict how often it will use closing prices and how often it will determine it necessary to adjust those prices to reflect fair value. If the Fund uses adjusted prices, the Fund will periodically compare closing prices, the next day's opening prices in the same markets and those adjusted prices as a means of evaluating its security valuation process.

Various inputs are used to determine the value of the Fund's investments. Observable inputs are inputs that reflect the assumptions market participants would use based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions based on the best information available in the circumstances.

These inputs are summarized in the three broad levels listed below.

- Level 1 Unadjusted quoted prices in active markets for identical investments
- Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of September 30, 2014 in valuing the Fund's investments carried at value:

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded as of the ex-dividend date, or for certain foreign securities, when the information becomes available to the Fund. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the interest method.

Foreign Currency Translations: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks. See Foreign Issuer Risk below.

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of foreign interest and dividends recorded on the books of the Fund and the amounts actually received.

The portion of realized and unrealized gains or losses on investments due to fluctuations in foreign currency exchange rates is not separately disclosed and is included in realized and unrealized gains or losses on investments, when applicable.

Foreign Issuer Risk: Investment in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include, but are not limited to: (i) less information about non-U.S. issuers or markets may be available due to less rigorous disclosure, accounting standards or regulatory practices; (ii) many non-U.S. markets are smaller, less liquid and more volatile thus, in a changing market, the advisers may not be able to sell the Fund's portfolio securities at times, in amounts and at prices they consider reasonable; (iii) currency exchange rates or controls may adversely affect the value of the Fund's investments; (iv) the economies of non-U.S. countries may grow at slower rates than expected or may experience downturns or recessions; and, (v) withholdings and other non-U.S. taxes may decrease the Fund's return.

Concentration Risk: The Fund has highly concentrated positions in certain Hedge Funds and may take concentrated positions in other securities. Concentrating investments in a fewer number of securities (including investments in Hedge Funds) may involve a degree of risk that is greater than a fund which has less concentrated investments spread out over a greater number of securities. For example, the value of the Fund's net assets will fluctuate significantly based on the fluctuation in the value of the Hedge Funds in which it invests. In addition, investments in Hedge Funds can be highly volatile and may subject investors to heightened risk and higher operating expenses than another closed-end fund with a different investment focus.

Hedge Fund Risk: The Fund invests a significant portion of its assets in Hedge Funds. The Fund's investments in Hedge Funds are private entities that are not registered under the 1940 Act and have limited regulatory oversight and disclosure obligations. In addition, the Hedge Funds invest in and actively trade securities and other financial instruments using different strategies and investment techniques, which involve significant risks. These strategies and techniques may include, among others, leverage, employing various types of derivatives, short selling, securities lending, and commodities trading. These Hedge Funds may invest a high percentage of their assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Hedge Funds may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility. These and other risks associated with Hedge Funds may cause the Fund's net asset value to be more volatile and more susceptible to the risk of loss than that of other funds with a different investment strategy.

Industry Diversification: The Fund may not invest more than 25% of its assets in any industry or group of industries. While the advisers do not intend to invest more than 25% of the Fund's assets in a single industry, the Fund does not look through its investments in the Hedge Funds, some of which have significant exposure to industries within the financial sector, to determine whether the Fund exceeds the 25% limit. As a result, the Fund may be indirectly concentrated in an industry or group of industries by virtue of the Fund's investments in Hedge Funds.

Indemnifications: Like many other companies, the Fund's organizational documents provide that its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, both in some of its principal service contracts and in the normal course of its business, the Fund enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Fund's maximum exposure under these arrangements is unknown as this could involve future claims against the Fund.

Federal Income Tax: For federal income tax purposes, the Fund currently qualifies, and intends to remain qualified, as a regulated investment company under the provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, by distributing substantially all of its earnings to its stockholders. Accordingly, no provision for federal income or excise taxes has been made.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from U.S. GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund as a whole.

As of and during the six months ended September 30, 2014, the Fund did not have a liability for any unrecognized tax benefits. The Fund files U.S. federal, state, and local tax returns as required. The Fund's tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

*September 30, 2014 (Unaudited)***NOTE 3. AGREEMENTS**

Rocky Mountain Advisers, LLC (RMA) and Stewart Investment Advisers (SIA) serve as co-advisers to the Fund (the Advisers). The Fund pays the Advisers a monthly fee (the Advisory Fee) at an annual rate of 1.25% of the value of the Fund's average monthly total net assets plus the principal amount of leverage, if any (Managed Assets), less an amount equal to up to 1.00% of the Fund's assets invested in Hedge Funds affiliated with Wellington Hedge Management, LLC (Wellington) to offset any asset-based fees (but not any performance-based fees) paid to Wellington with respect to the Hedge Fund investments. Additionally, effective December 1, 2011, RMA and SIA agreed to waive 0.10% of the Advisory Fee such that the Advisory Fee will be calculated at the annual rate of 1.15% of Managed Assets except with respect to the Hedge Fund investments. The fee waiver agreement has a one-year term and is renewable annually. The Advisers renewed the fee waiver for an additional one year term as of December 1, 2013. The 0.10% waiver does not apply to the Hedge Fund investments.

RMA is owned by the Susan L. Ciciora Trust (the SLC Trust), which is also a member of Evergreen Atlantic LLC, a Colorado limited liability company (EALLC), and is a stockholder of the Fund. SIA is owned by the Stewart West Indies Trust, which is also a member of EALLC. RMA and SIA are considered affiliated persons, as that term is defined in the 1940 Act, of the Fund and Fund Administrative Services, LLC (FAS). Prior to October 1, 2013, SIA received a fee equal to 75% of the fees earned by the Advisers, and RMA received 25% of the fees earned by the Advisers. As of October 1, 2013, SIA receives 25% of the fees earned by the Advisers and RMA receives 75% of the fees earned by the Advisers.

FAS serves as the Fund's co-administrator. Under the Administration Agreement, FAS provides certain administrative and executive management services to the Fund. The Fund pays FAS a monthly fee, calculated at an annual rate of 0.20% of the Fund's Managed Assets up to \$100 million and 0.15% of the Fund's Managed Assets over \$100 million. The equity owners of FAS are EALLC and the Lola Brown Trust No. 1B (the Lola Trust). The Lola Trust is a stockholder of the Fund, and the Lola Trust and EALLC are considered to be affiliated persons of the Fund and the Advisers, as that term is defined in the 1940 Act.

ALPS Fund Services, Inc. (ALPS) serves as the Fund's co-administrator. As compensation for its services, ALPS receives certain out-of-pocket expenses and asset-based fees, which are accrued daily and paid monthly (the Co-Administration Fee). Fees paid to ALPS are calculated based on combined assets of the Fund and the following affiliates of the Fund: Boulder Total Return Fund, Inc., Boulder Growth & Income Fund, Inc., and The Denali Fund Inc. (the Fund Group). ALPS receives the greater of the following, based on combined average assets of the Fund Group: an annual minimum of \$460,000, or an annualized fee of 0.045% on assets up to \$1 billion, an annualized fee of 0.03% on assets between \$1 and \$3 billion, and an annualized fee of 0.02% on assets above \$3 billion. In addition, the Fund and the Fund's wholly-owned Subsidiaries entered into an additional Administration Agreement with ALPS to provide certain administrative services to the Subsidiaries. Pursuant to the new Administration Agreement, the Fund pays ALPS through its subsidiaries a fee in addition to the Co-Administration Fee at the annual rate of \$45,000,

payable monthly. On April 1, 2014 the Administration Agreement was amended due to the closure of FOFI 2, Ltd. The Fund pays ALPS through FOFI 1, Ltd. a fee in addition to the Co-Administration Fee at the annual rate of \$28,000, payable monthly.

*September 30, 2014 (Unaudited)***NOTE 8. DISTRIBUTIONS AND TAX INFORMATION**

As determined on March 31, 2014, permanent differences resulting primarily from different book and tax accounting for gains and losses on foreign currency, partnership investments, and certain other investments were reclassified at fiscal year-end. These reclassifications had no effect on net increase in net assets resulting from operations, net assets applicable to common stockholders or net asset value per common share outstanding. Permanent book and tax basis differences of \$2,538,656, \$438,459 and \$(2,977,115) were reclassified at March 31, 2014 among net investment income, accumulated net realized gains on investments and paid-in-capital, respectively, for the Fund.

The amounts and characteristics of tax basis distributions and composition of distributable earnings/(accumulated losses) are finalized at fiscal year-end; accordingly, tax basis balances have not been determined as of September 30, 2014.

	Year Ended March 31, 2014
Distributions paid from:	
Ordinary Income	\$ 7,344,638
	\$ 7,344,638

As of March 31, 2014, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$ 4,398,084
Accumulated capital loss on investments	(69,008,819)
Other cumulative effect of timing differences	(436,128)
Unrealized appreciation on investments	81,409,013
Total	\$ 16,362,150

Under the Regulated Investment Company Modernization Act of 2010 (the Modernization Act), net capital losses recognized in tax years beginning after December 22, 2010 may be carried forward indefinitely, and the character of the losses is retained as short-term and/or long-term. Under the law in effect prior to the Modernization Act, net capital losses were carried forward for eight years and treated as short-term. As a transition rule, the Modernization Act requires that post-enactment net capital losses be used before pre-enactment net capital losses. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term losses rather than being considered all short-term as under previous law.

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-CSRS

As of March 31, 2014, the Fund had unused pre-enactment capital loss carryovers of \$9,191,039 expiring March 31, 2017 and \$35,618,163 expiring March 31, 2018. Additionally, the Fund had post-enactment capital losses deferred to next tax year of \$5,274,276 for short-term and \$18,002,628 for long-term.

The Fund has post-October capital losses of \$922,713 which it has elected to defer until the next fiscal year.

(a) Less than 0.05% of total net assets.

(b) On January 7, 2014, the merger of Forethought Financial Group into Global Atlantic Financial Group was completed. Following the merger, a holdback of the proceeds was established to fund escrow accounts. The escrow accounts will be released in installments within 3 years after the close of the merger.

NOTE 11. REDEMPTION OF HEDGE FUNDS

In July 2014, the Fund was notified of proposed structural changes to both of its remaining hedge fund investments. In light of the substantive nature of the proposed changes, the managers of the funds allowed investors who did not want to continue as investors under the revised fund terms to redeem their investments in the funds in an off-cycle redemption. The Advisers reviewed the proposed changes and determined that the hedge funds would no longer satisfy the Advisers' original investment thesis. Consequently, the Advisers gave notice to the hedge fund manager of their decision to redeem the Fund's hedge fund investments. On September 30, 2014, the Fund's interest in the Hedge Funds was redeemed. A 5% holdback was assessed at the time of the redemption. The redemption and the 5% holdback are reported on the Consolidated Statement of Assets and Liabilities under Receivable for investments sold.

NOTE 12. LINE OF CREDIT

On December 7, 2012 the Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allowed the Fund to borrow up to \$30,000,000 (Initial Maximum Commitment) and a Lending Agreement, as defined below. Borrowings under the Agreement are secured by assets of the Fund

Table of Contents

	Notes to Consolidated
First Opportunity Fund, Inc.	Financial Statements

September 30, 2014 (Unaudited)

that are held by the Fund's custodian in a separate account (the Pledged Collateral). Under the terms of the Agreement, BNP is permitted in its discretion, with 270 calendar days advance notice (the Notice Period), to reduce or call the entire Initial Maximum Commitment. Interest on the borrowing is charged at the one month LIBOR (London Inter-bank Offered Rate) plus 0.80% on the amount borrowed.

For the six months ended September 30, 2014, the Fund had no borrowings outstanding under the Agreement.

The Lending Agreement is a separate side-agreement between the Fund and BNP pursuant to which BNP may borrow a portion of the Pledged Collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by the Fund to BNP under the Agreement. The Lending Agreement is intended to permit the Fund to reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. The Fund may designate any security within the Pledged Collateral as ineligible to be a Lent Security, provided there are eligible securities within the Pledged Collateral in an amount equal to the outstanding borrowing owed by the Fund. During the period in which the Lent Securities are outstanding, BNP must remit payment to the Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities. The Fund receives income from BNP based on the value of the Lent Securities. This income is recorded as Securities lending income on the Statement of Operations.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by the Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to the Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with the Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, the Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. The Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to the Fund's custodian no later than three business days after such request. If the Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. The Fund shall also have the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the Current Borrowings. As of September 30, 2014, the value of securities on loan was \$0.

The Board has approved the Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement occurred during the six months ended September 30, 2014.

NOTE 13. SUBSEQUENT EVENTS

On November 14, 2014, BIA and RMA announced that at a joint special meeting of stockholders of the Fund, Boulder Growth & Income Fund, Inc. (BIF), Boulder Total Return Fund, Inc. (BTF) and The Denali Fund Inc. (DNY) stockholders of each fund approved all proposals presented with regard to the reorganization of each of BTF, DNY and the Fund into BIF, the single surviving fund.

At the special meeting:

FOFI stockholders approved (i) an amendment to the Fund's charter eliminating the right of stockholders to demand the fair value for shares in connection with a reorganization of FOFI with another affiliated investment company and (ii) the agreement and plan of reorganization pursuant to which FOFI will transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of FOFI;

BTF stockholders approved an agreement and plan of reorganization pursuant to which BTF will transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of BTF;

DNY stockholders approved an agreement and plan of reorganization pursuant to which DNY would transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of DNY; and

BIF stockholders approved (i) the issuance of additional common shares of BIF in connection with the reorganizations pursuant to an agreement and plan of reorganization among the Funds, (ii) the elimination of a fundamental investment policy limiting BIF's ability to invest more than 4% of total assets in any single issuer; and (iii) new investment co-advisory agreements with Rocky Mountain Advisers, LLC and Stewart Investment Advisers (aka, Stewart West Indies Trading Company, Ltd).
(the foregoing being the Reorganization Proposals).

Each of the Reorganization Proposals received the requisite votes for passage.

In addition, it was announced that in recognition of BIF stockholder approval of the new advisory agreements which contemplate a 1.00% advisory fee, the advisers for all the funds have agreed to reduce the advisory fee for each of the funds (currently at 1.25% with a 0.10% temporary waiver) to a flat rate of 1.00% (i.e., 1.25% contractual rate less a 0.25% waiver), effective December 1, 2014, through the effectiveness of the reorganizations.

Summary of Dividend

Reinvestment Plan

First Opportunity Fund, Inc.

September 30, 2014 (Unaudited)

Stockholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (the "shares") pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"). Stockholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the stockholders of record (or if the shares are held in street name or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a stockholder's specific election to receive cash.

Computershare Trust Company, N.A. (the "Plan Agent") serves as agent for the stockholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in shares valued at the market price determined as of the time of purchase (generally, following the payment date of a dividend or distribution); or if (2) the market price of shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distributions payable only in cash and the net asset value exceeds the market price of shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy shares on the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly issued shares. The Fund will not issue shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchase in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions. The Fund reserves the right to amend or terminate the Plan upon 90 days' written notice to stockholders of the Fund. Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole shares and cash for fractional shares.

All correspondence concerning the Plan should be directed to the Plan Agent, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170. To receive a full copy of the Fund's dividend reinvestment plan, please contact the Plan Agent at 1-800-426-5523.
