PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held May 21, 2015

Solicitation and Revocability of Proxies

The Board of Directors (the Board of Directors or the Board) of Capital Senior Living Corporation (the Company or Capital Senior) is soliciting your proxy for voting on the proposals to be presented at our annual meeting of our stockholders to be held on May 21, 2015 (the Annual Meeting). The Annual Meeting will be held at the New York Palace Hotel, 455 Madison Avenue, New York, New York 10022, on the 21st day of May, 2015 at 10:00 a.m. Eastern Time for the purposes set forth in the accompanying notice and described in this proxy statement. When proxies in the accompanying form are properly executed and received, the shares represented thereby will be voted at the Annual Meeting in accordance with the directions noted thereon, unless the proxy is subsequently revoked.

Any stockholder giving a proxy has the unconditional right to revoke his or her proxy at any time prior to the voting thereof either in person at the Annual Meeting by delivering a duly executed proxy bearing a later date or by giving written notice of revocation to us addressed to David R. Brickman, Senior Vice President, General Counsel and Secretary, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254. However, no such revocation will be effective unless such notice of revocation has been received by us at or prior to the Annual Meeting.

Our principal executive offices are located at, and our mailing address is, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254.

Our management does not intend to present any business at the Annual Meeting for a vote other than the matters set forth in the accompanying notice and has no knowledge that others will do so. If other matters requiring a vote of our stockholders properly come before the Annual Meeting, then it is the intention of the persons named in the accompanying form of proxy to vote the shares represented by the proxies held by them in accordance with their judgment on such matters.

This proxy statement and accompanying form of proxy are being mailed on or about April 16, 2015. The annual report to our stockholders covering our fiscal year ended December 31, 2014, which was mailed to our stockholders on or about April 16, 2015, does not form any part of the materials for solicitation of proxies.

In addition to the solicitation of proxies by mail, our officers, directors and employees may solicit proxies by telephone, telecopy or through personal contact. Such officers, directors and employees will not be additionally compensated by us but will be reimbursed for any out-of-pocket expenses. We have retained Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies for a fee of \$7,500. This amount includes fees payable to Georgeson, but excludes salaries and expenses of our officers, directors and employees. Brokerage houses and other custodians, nominees and fiduciaries will, in connection with shares of our common stock registered in their names, be requested to forward solicitation material to the beneficial owners of such shares of our common stock.

The cost of preparing, printing, assembling and mailing the annual report, the accompanying notice, this proxy statement and the enclosed form of proxy, as well as the reasonable cost of forwarding solicitation materials to the beneficial owners of shares of our common stock, and other costs of solicitation, will be exclusively borne by us.

Table of Contents

Some banks, brokers and other record holders have begun the practice of "householding" proxy statements and annual reports. "Householding" is the term used to describe the practice of delivering a single copy of this proxy statement and the annual report to any household at which two or more stockholders share an address. This procedure would reduce the volume of duplicative information and our printing and mailing costs. We will deliver promptly, upon written or oral request, a separate copy of this proxy statement and the annual report to a stockholder at a shared address to which a single copy of such documents was delivered. Any stockholder who would like to receive a separate copy of the proxy statement and annual report, now or in the future, should submit this request to David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. Beneficial owners sharing an address who receive multiple copies of proxy materials and annual reports and who would like to receive a single copy of such materials in the future will need to contact their broker, bank or other nominee to request that only a single copy of each document be mailed to all stockholders at the shared address in the future.

Date for Receipt of Stockholder Proposals

Stockholder proposals to be included in the proxy statement for the 2016 annual meeting of our stockholders must be received by us at our principal executive offices on or before December 18, 2015 for inclusion in the proxy statement relating to that meeting.

Our Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation"), establishes an advance notice procedure with regard to certain matters, including stockholder proposals and nominations of individuals for election to the Board, to be proposed at an annual meeting of our stockholders. Notice of a stockholder proposal or a director nomination to be brought at an annual meeting of our stockholders must be delivered to, or mailed and received at, our principal executive offices not less than 60 but not more than 90 days before the scheduled date of the meeting, regardless of any postponement, deferral or adjournment of that meeting to a later date; provided, however, that if less than 70 days' notice or prior public disclosure of the date of the meeting is given or made to stockholders, the notice must be delivered or received no later than the close of business on the tenth day following the earlier of (1) the day on which such notice of the date of meeting was mailed or (2) the day on which such public disclosure was made. The notice of a stockholder proposal or a director nomination must also contain specified information and conform to certain requirements set forth in our Certificate of Incorporation. The chairman of the meeting may disregard the introduction of any such proposal or nomination if it is not made in compliance with the foregoing procedures or the applicable provisions of our Certificate of Incorporation.

Quorum and Voting

The record date for the determination of our stockholders entitled to notice of and to vote at the Annual Meeting was the close of business on March 25, 2015. At such time, there were 29,492,833 shares of our common stock issued and outstanding.

Each holder of our common stock is entitled to one vote per share on all matters to be acted upon at the Annual Meeting, and neither our Certificate of Incorporation nor our Second Amended and Restated Bylaws (the "Bylaws") allow for cumulative voting rights. Each proposal is tabulated separately. The holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present or represented at the Annual Meeting, a majority of the stockholders entitled to vote at the Annual Meeting, present in person or represented by proxy, may adjourn the Annual Meeting, from time to time, without notice or other announcement at the Annual Meeting until a quorum is present or represented.

Pursuant to our Bylaws, assuming the presence of a quorum, the affirmative vote of the holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, at the Annual Meeting is required to ratify the appointment of the independent auditors and approve, on an

Table of Contents

advisory basis, the Company's executive compensation. Abstentions and broker non-votes (as described below) will not be counted as votes cast FOR such proposals, but may be treated as votes AGAINST such proposals. With respect to an uncontested election of directors, assuming the presence of a quorum, each director nominee will be elected to the Board if the number of shares voted FOR the election of such director nominee exceeds the number of shares voted WITHHOLD for such director nominee (with abstentions and broker non-votes not counted as votes cast either FOR or WITHHOLD for such director nominee's election).

Pursuant to rules of the New York Stock Exchange (NYSE), assuming the presence of a quorum, the approval of the Amended and Restated Second Amendment (the Second Amendment) to our 2007 Omnibus Stock and Incentive Plan, as amended (the 2007 Stock Incentive Plan), requires the affirmative vote of a majority of the votes cast on the proposal. In accordance with NYSE rules, abstentions will be counted as votes cast on this proposal but broker non-votes will not be counted as votes cast on this proposal.

The Board of Directors unanimously recommends that you vote (1) FOR the election of each director nominee named in this proxy statement, (2) FOR the ratification of the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2015, (3) FOR the approval, on an advisory basis, of the Company's executive compensation, and (4) FOR the approval of the Second Amendment to the 2007 Stock Incentive Plan. The Board of Directors also recommends that you vote FOR the ability of the proxy holders to vote the proxy in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares registered directly in your name and you sign and return a proxy card without giving specific voting instructions, the persons named as proxy holders will vote your proxy (1) in favor of the election of each director nominee named in this proxy statement, (2) in favor of the ratification of the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2015, (3) in favor of the approval, on an advisory basis, of the Company's executive compensation, (4) in favor of the approval of the Second Amendment to the 2007 Stock Incentive Plan, and (5) as the proxy holders may determine in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares in street name and do not submit specific voting instructions to your broker, bank or other nominee, the organization that holds your shares may generally vote your shares with respect to discretionary items, but not with respect to non-discretionary items. Discretionary items are proposals considered to be routine under the rules of the NYSE, and in the absence of voting instructions, your broker, bank or other nominee may vote the shares it holds in street name on such items. On non-discretionary items for which you do not submit specific voting instructions to your broker, bank, or other nominee, the shares will be treated as broker non-votes. Broker non-votes will be considered present at the Annual Meeting for purposes of determining a quorum at the Annual Meeting. The proposal to ratify the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2015 (Proposal 2) is considered to be routine, and therefore, may be voted upon by your broker, bank or other nominee if you do not provide instructions to such broker, bank or other nominee. However, pursuant to the NYSE's rules, brokers, banks or other nominees will not have discretion to vote your shares on the election of directors (Proposal 1), the advisory vote on executive compensation (Proposal 3), and the proposal to approve the Second Amendment to the 2007 Stock Incentive Plan (Proposal 4), as such proposals are considered to be non-routine items. We encourage you to provide voting instructions to your broker, bank or other nominee if you hold your shares in street name so that your voice is heard on such matters.

Requests for Written Copies of Annual Report

We will provide, without charge, a copy of our annual report upon the written request of any registered or beneficial owner of our common stock entitled to vote at the Annual Meeting. Requests should be made by mailing David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. The SEC also maintains a website at www.sec.gov which contains reports, proxy statements and other information regarding registrants, including us.

Mr. Malone has an intimate knowledge of the home health industry and expertise in the legislative and regulatory landscape affecting healthcare companies. With respect to Mr. Brooks, the Board considered his extensive experience in the senior living industry and strong background in senior housing financing. With regard to Dr. Hornbake, the Board considered his position as a practicing physician specializing in geriatrics, his strong understanding of emerging needs of the aging population, his service as Chief Medical Officer for a large health services organization, and his involvement in public policy as it affects seniors. BOARD OF DIRECTORS AND COMMITTEES

General

Our Board of Directors currently consists of nine directors. The Board has determined that Philip A. Brooks, Kimberly S. Herman, Dr. E. Rodney Hornbake, Jill M. Krueger, Ronald A. Malone, James A. Moore and Michael W. Reid, each an existing director, are independent within the meaning of the corporate governance rules of the NYSE and no such individual has any relationship with us, except as a director, stockholder and/or director nominee, as applicable. In addition, we have adopted a Director Independence Policy, as described in greater detail below under the heading Director Independence Policy, which establishes guidelines for the Board to follow in making the determination as to which of our directors is independent. Our Director Independence Policy is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is available in print to any stockholder who requests it. The Board has determined that Messrs. Brooks, Hornbake, Malone, Moore and Reid and Ms. Herman and Ms. Krueger, each an existing director, are independent in accordance with our Director Independence Policy.

During 2014, the Board held seven meetings, including regularly scheduled and special meetings. During 2014, no director attended fewer than 75% of the aggregate of (i) the total number of meetings of the Board and (ii) the total number of meetings held by all committees of the Board on which such director served. Under our Corporate Governance Guidelines, each of our directors is expected to attend all meetings of the Board, the annual stockholders meeting and meetings of the committees of the Board on which they serve. Messrs. Cohen, Johannessen, Brooks, Hornbake, Malone, Moore and Reid and Ms. Herman and Ms. Krueger attended our 2014 annual meeting of stockholders. Our independent directors meet in executive sessions without any management directors, and Mr. Moore, the independent Chairman of the Board, presided over these meetings during 2014.

Advance Resignation Policy

Under our Corporate Governance Guidelines, for uncontested director elections, as a condition to nomination by the Board of an incumbent director, such nominee must submit an irrevocable resignation to the Board. Any such nominee who receives a greater number of votes withholding authority for or against such nominee's election than votes for such nominee's election (with abstentions and broker non-votes not counted as votes cast either for or withhold authority for or against such nominee's election), and who remains on the Board as a holdover director, will have his or her irrevocable resignation considered by the Nominating and Corporate Governance Committee. Following the certification of the voting results in an uncontested election of directors, the Nominating and Corporate Governance Committee will make a recommendation to the Board as to the treatment of any such nominee that did not receive the requisite majority vote, including whether to accept or reject any such tendered resignation. Thereafter, the Board will determine whether to accept the Nominating and Corporate Governance Committee's recommendation. If such nominee's resignation is accepted by the Board, then such director will immediately cease to be a member of the Board upon the date of such acceptance.

Director Independence Policy

The Board undertakes an annual review of the independence of all non-management directors. In advance of the meeting at which this review occurs, each non-management director is asked to provide the Board with full information regarding the director's business and other relationships with us in order to enable the Board to evaluate the director's independence. Directors have an affirmative obligation to inform the Board of any material changes in their circumstances or relationships that may impact their designation by the Board as independent. This obligation includes all business relationships between, on the one hand, directors or members of their immediate family, and, on the other hand, us, whether or not such business relationships are described above.

Table of Contents

No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with us. The following guidelines are considered in making this determination:

a director who is, or has been within the last three years, employed by us, or whose immediate family member is, or has been within the last three years, one of our executive officers, is not independent ;

a director who received, or whose immediate family member received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent ;

a director (a) who is or whose immediate family member is a current partner of a firm that is our internal or external auditor, (b) who is a current employee of such a firm, (c) whose immediately family member is a current employee of such a firm and participates in the firm's audit, assurance or tax compliance (but not tax planning) practice, or (d) who is, or whose immediate family member was within the last three years (but is no longer), a partner or employee of such a firm and personally worked on our audit within that time, is not independent ;

a director who is, or whose immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of our present executive officers at the same time serves or served on that other company's compensation committee, is not independent ;

a director who is a current employee, or whose immediate family member is a current executive officer, of a company that has made payments to, or received payments from, us for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues, is not independent ;

a director who serves as an executive officer, or whose immediate family member serves as an executive officer, of a tax exempt organization that, within the preceding three years, received contributions from us, in any single fiscal year, of an amount equal to the greater of \$1 million or 2% of such organization's consolidated gross revenue, is not independent ; and

a director who has a beneficial ownership interest of 10% or more in a company which has received remuneration from us in any single fiscal year in an amount equal to the greater of \$1 million or 2% of such company's consolidated gross revenue is not independent until three years after falling below such threshold.

In addition, members of the Compensation Committee must not have any relationship or affiliation with us that would materially affect the director's ability to be independent from management as a Compensation Committee member and must otherwise be independent under our Director Independence Policy. Members of the Audit Committee may not accept any consulting, advisory or other compensatory fee from us or any of our subsidiaries or affiliates other than directors' compensation.

The terms us, we and our refer to Capital Senior Living Corporation and any direct or indirect subsidiary of Capital Senior Living Corporation, which is part of the consolidated group. An immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone (other than domestic employees) who shares such person's home.

meaning of SEC regulations. Pursuant to its charter, the Audit Committee:

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee consists of Messrs. Pursuant to its charter, the Nominating and Corporate Governance Committee:

conducts an annual review of the adequacy of its charter and recommends any proposed changes to the Board for its approval. During 2014, the Nominating and Corporate Governance Committee held 3 meetings, including regularly scheduled and special meetings.

Compensation Committee

The Compensation Committee consists of Messrs. Moore, Malone and Reid, each of whom is independent as defined by the listing standards of the New York Stock Exchange in effect as of the date of this proxy statement. The Board has adopted an amended and restated Compensation Committee Charter, which is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is also available in print to any stockholder who requests a copy. Pursuant to its charter, the Compensation Committee's responsibilities include, among other things, the responsibility to:

perform any other activities consistent with our Certificate of Incorporation, Bylaws and governing law as the Compensation Committee or the Board deems appropriate.

During 2014, the Compensation Committee held 8 meetings, including regularly scheduled and special meetings.

The Compensation Committee's processes for fulfilling its responsibilities and duties with respect to executive compensation and the role of our executive officers and management in the compensation process are each described under "Compensation Discussion and Analysis - Overview of Compensation Process" beginning on page 21 of this proxy statement.

In fulfilling its responsibilities and duties with respect to the compensation of our directors, the Compensation Committee periodically reviews the compensation paid to the non-employee directors of the companies in our peer group, and may recommend to the Board adjustments to our director compensation levels and practices so as to remain competitive with the companies in our peer group.

Pursuant to its charter, the Compensation Committee may retain such compensation consultants, outside counsel and other advisors as it may deem appropriate in its sole discretion and it has the sole authority to approve related fees and other retention terms. From time to time, the Compensation Committee has engaged third parties to compile statistical information with respect to the executive compensation practices of other comparable public companies and has retained independent compensation consultants, including in 2013 and most recently in 2014 for our 2015 incentive compensation plan, to review the Company's compensation arrangements for certain of its named executive officers. However, the Compensation Committee did not engage any compensation consultant for purposes of determining or recommending the amount or form of executive officer and director compensation for 2014.

Board of Director's Leadership Structure

Our Board separated the roles of Chairman of the Board and Chief Executive Officer by electing James A. Moore, a non-executive, independent director, as Chairman of the Board in 2010. The separation of the roles was implemented to allow Mr. Cohen, our Chief Executive Officer, to continue to focus his efforts on the successful management of the Company while allowing Mr. Moore, our independent Chairman, to focus his efforts on the continued development of a high-performing Board, including (1) ensuring the Board remains focused on the Company's long-term strategic plans, (2) working with Company management to ensure the Board continues to receive timely and adequate information, (3) coordinating activities of the committees of the Board, and (4) ensuring effective stakeholder communications. The Board believes, due to the continued leadership and experience provided by these two individuals, that having separate positions is the appropriate leadership structure for the Company at this time and demonstrates our commitment to good corporate governance.

Board of Director's Role in Risk Oversight

Our Company, like others, faces a variety of enterprise risks, including credit risk, liquidity risk, and operational risk. In fulfilling its risk oversight role, the Board focuses on the adequacy of the Company's risk management process and overall risk management system. The Board believes an effective risk management system will (1) adequately identify the material risks that the Company faces in a timely manner, (2) implement

Table of Contents

appropriate risk management strategies that are responsive to the Company's risk profile and specific material risk exposures, (3) integrate consideration of risk and risk management into business decision-making throughout the Company, and (4) include policies and procedures that adequately transmit necessary information with respect to material risks to senior executives and, as appropriate, to the Board or relevant committee.

The Audit Committee has been designated to take the lead in overseeing risk management at the Board level. Accordingly, the Audit Committee schedules time for periodic reviews of risk management, in addition to its other duties. In this role, the Audit Committee receives information from management and other advisors, and strives to generate serious and thoughtful attention to the Company's risk management process and system, the nature of the material risks the Company faces, and the adequacy of the Company's policies and procedures designed to respond to and mitigate these risks.

In addition, the Nominating and Corporate Governance Committee is responsible under its charter for reviewing with management and assisting and advising the Board with respect to resident care and services. This risk management and risk assessment includes management compliance with regulatory requirements related to resident care and services and other related matters, including meeting the Company's expectations for providing quality care and services to its residents.

Although the Board's primary risk oversight has been assigned to the Audit Committee, the full Board also periodically receives information about the Company's risk management system and the most significant risks that the Company faces. This is principally accomplished through the Audit Committee's discussions with the full Board and summary versions of the briefings provided by management and advisors to the Audit Committee.

In addition to the formal compliance program, the Board and the Audit Committee encourage management to promote a corporate culture that understands risk management and incorporates it into the overall corporate strategy and day-to-day business operations. The Company's risk management structure also includes an ongoing effort to assess and analyze the most likely areas of future risk for the Company. As a result, the Board and Audit Committee periodically ask the Company's executives to discuss the most likely sources of material future risks and how the Company is addressing any significant potential vulnerability.

Director Nominations

The Nominating and Corporate Governance Committee is responsible under its charter for identifying and recommending qualified candidates for election to the Board. In addition, stockholders who would like to recommend a candidate for election to the Board may submit the recommendation to the chairman of the Nominating and Corporate Governance Committee, in care of David R. Brickman, our Senior Vice President, General Counsel and Secretary. Any recommendation must include name, contact information, background, experience and other pertinent information on the proposed candidate and must be received in writing by November 15, 2015 for consideration by the Nominating and Corporate Governance Committee for the 2016 annual meeting of our stockholders.

Although the Nominating and Corporate Governance Committee is willing to consider candidates recommended by our stockholders, it has not adopted a formal policy with regard to the consideration of any director candidates recommended by our stockholders. The Nominating and Corporate Governance Committee believes that a formal policy is not necessary or appropriate because of the small size of the Board and because the current Board already has a diversity of business background and industry experience.

The Nominating and Corporate Governance Committee does not have specific minimum qualifications that must be met by a candidate for election to the Board in order to be considered for nomination by the Nominating and Corporate Governance Committee. In identifying and evaluating nominees for director, the Nominating and Corporate Governance Committee considers each candidate's qualities, experience, background and skills, as well as any other factors that the candidate may be able to bring to the Board. The process is the same whether the candidate is recommended by a stockholder, another director, management or otherwise. Although the

Table of Contents

Nominating and Corporate Governance Committee does not have a formal diversity policy in place for the director nomination process, an important factor in the Nominating and Corporate Governance Committee's consideration and assessment of a candidate is the diversity of the candidate's viewpoints, professional experience, education and skill set. The Nominating and Corporate Governance Committee does not pay a fee to any third party for the identification of candidates, but it has paid fees in the past to third parties for background checks on candidates.

With respect to this year's nominees for director, Mr. Johannessen, Ms. Krueger and Mr. Reid currently serve as directors of the Company.

Code of Business Conduct and Ethics

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

This Compensation Discussion and Analysis focuses on the compensation of our executive officers, including our named executive officers who are the individuals included in the Summary Compensation Table beginning on page 41 of this proxy statement. This section summarizes our executive compensation program and objectives and provides an overview of how and why the Compensation Committee, which is responsible for the oversight of our executive compensation program, made specific decisions involving the compensation of our named executive officers. We also refer you to our Annual Report on Form 10-K for the year ended December 31, 2014 for additional information regarding our 2014 financial results discussed below.

Executive Summary

Our executive compensation program is designed to meet three principal objectives:

employ, retain and reward executives who are capable of leading us to the achievement of our business objectives, which include maximizing the value of our operations, growing our cash flow, preserving a strong financial position, increasing our geographic concentration, maximizing our competitive strengths in each of our markets, capitalizing on long-term growth opportunities, and most importantly, enhancing stockholder value;

a significant amount of total compensation should be in the form of short-term and long-term incentive awards to align compensation with our financial and operational performance goals as well as individual performance goals; and

incentive awards should be tied to and vary with our financial and operational performance as well individual performance.

We believe these objectives collectively link compensation to overall Company performance and directly link compensation to the objectives set forth in our 2014 business plan that was approved by our Board of Directors. These objectives help ensure that the interests of our named executive officers are closely aligned with the interests of our stockholders. We believe that Capital Senior Living has successfully achieved these objectives as demonstrated by our strong financial results during 2014, which met our business plan objectives. As described in

Management's Discussion and Analysis of Financial Conditions and Results of Operations in our Annual Report on Form 10-K, our fiscal 2014 financial results, based upon various measures, increased significantly relative to our fiscal 2013 financial results. The following table highlights the year-over-year comparison of some of the key financial metrics that the Compensation Committee uses in evaluating our performance for purposes of making compensation decisions.

Performance Measures	Fiscal Year 2014	Fiscal Year 2013	% Increase
Revenue	\$383.9 million	\$350.4 million	9.6%
Adjusted EBITDAR	\$132.6 million	\$119.6 million	10.9%
Adjusted EBITDAR Margin	35.9%	34.9%	2.9%
Adjusted CFFO	\$42.8 million (or \$1.51 per share)	\$42.8 million (or \$1.54 per share)(1)	10.2%(2)

(1) Includes \$4.0 million, or \$0.14 per share, of tax savings from a cost segregation study we completed in 2013.

(2) The percentage increase is calculated on a comparable basis between 2014 and 2013. As such, the \$4.0 million tax savings from the cost segregation study is excluded from 2013.

The above table utilizes non-GAAP financial measures such as adjusted CFFO, adjusted CFFO per share, adjusted EBITDAR and adjusted EBITDAR margin. We believe these non-GAAP measures are useful in identifying trends in day-to-day operations and provide indicators to management of progress in achieving optimal operating performance. In addition, these non-GAAP measures are used by many research analysts and

investors to evaluate the performance and valuations of companies in our industry. Please refer to Appendix A to this proxy statement for important information concerning such non-GAAP financial measures, including a reconciliation of such measures to GAAP.

For fiscal 2014, we believe our compensation programs, which are designed to reward our named executive officers for the achievement of short-term and long-term strategic and operational goals and the achievement of increased stockholder value, delivered payments commensurate with our strong financial performance. Below are the highlights of our executive compensation program for 2014.

Emphasis on Pay for Performance. Our fiscal 2014 performance, along with the individual performance of our eligible named executive officers, served as key factors in determining compensation for 2014, including as follows:

For 2014, a significant portion of the total compensation opportunity available to our named executive officers who were eligible to participate in our Incentive Compensation Plan was linked to the achievement of certain corporate and individual goals. As discussed in more detail below, in 2014 our Chief Executive Officer, President and Chief Operating Officer, and Senior Vice President and Chief Financial Officer were eligible to receive incentive bonuses of up to a maximum of 150%, 105% and 90%, respectively, of their base salaries paid in 2014, subject to the achievement of various performance criteria under our Incentive Compensation Plan for 2014 and, in the case of our Senior Vice President and Chief Financial Officer, proration based upon the date he joined the Company. During 2014, certain corporate and individual goals were amended to reflect strategic and operational changes that occurred after the original performance goals were established and to more closely align executive officer performance measures with the public reporting of these results to outside investors and analysts. These amendments included provisions to remove the operating results of two senior living communities from both the performance goals and the Company's publicly reported non-GAAP financial measures due to the disruptive significant renovations and unit conversions of these assets, and to reflect the impact of other significant operational changes.

Adjusted CFFO per share and adjusted EBITDAR were the key performance metrics for corporate goals under our Incentive Compensation Plan for 2014. We believe these metrics provide for a balanced approach to measuring annual Company performance. In addition, these measures are used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Another performance metric for corporate goals under our Incentive Compensation Plan for 2014 was the aggregate transaction value of the senior housing communities we acquired during such year. This performance metric was designed to reward our eligible named executive officers for their efforts in helping us identify and complete such strategic acquisitions, which we expect will increase our ownership of high-quality senior living communities in geographically concentrated regions and generate meaningful increases in our CFFO and earnings, and accordingly, increase shareholder value.

Another way that we try to link compensation and performance is through periodically granting performance-based equity awards to our named executive officers. During 2014, we granted 50,000, 40,000, 16,667 and 15,000 shares of performance-based restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary, respectively. The periodic vesting of these awards is subject to our achievement of certain performance targets over a three-year period, which is primarily designed to encourage our named executive officers to focus on our long-term performance.

Periodic Grants of Long-Term Equity Awards. We periodically grant shares of time-based restricted stock to our named executive officers. During 2014, we granted 50,000, 40,000, 16,667, 15,000 and 5,000 shares of restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer, Senior Vice President, General Counsel and Secretary, and

Table of Contents

Vice President Acquisitions, respectively. The vesting of these awards is generally subject to the named executive officer's continued employment by us over a three-year period, which is primarily designed to encourage such key executive officers to remain with us during such period and continue to work to achieve our long-term goals for growth and profitability. If our stock price improves, these equity awards will become more valuable to our executives.

Recoupment Policy (or Clawback) for Incentive Compensation. The Compensation Committee has adopted a recoupment policy pursuant to which, in the event that it is determined that a participant in the Incentive Compensation Plan has committed fraud or a willful misstatement related to the calculations used in determining an award under such plan, the participant involved in such fraud or willful misstatement must return to the Company any awards that were paid as a result of the fraud or willful misstatement. This feature of the Incentive Compensation Plan is separate from and in addition to any clawback provisions under applicable law, including the Sarbanes-Oxley Act of 2002.

Stockholder-Friendly Pay Practices. We do not use many common pay practices that many consider to be unfriendly to stockholders, such as extensive perquisites, and our named executive officers are only eligible to participate in benefit plans that are generally available to all of our employees. Further, our executive compensation arrangements do not contain excess parachute payment tax gross-up provisions. We also do not provide guaranteed non-performance-based bonuses to our named executive officers.

Independent Compensation Committee. The Compensation Committee is composed solely of non-employee, independent directors who satisfy the independence requirements of the NYSE. In addition, to obtain and evaluate independent information with respect to our executive compensation program, each year the Compensation Committee typically reviews information compiled by independent third parties, including Aon Hewitt, Mercer and Christenson Advisors. Although the Compensation Committee did not engage any compensation consultant for purposes of determining or recommending the amount or form of executive officer compensation during 2014, from time to time, including in 2013 and most recently in 2014 for our 2015 incentive compensation plan, the Compensation Committee has retained independent compensation consultants to review the Company's executive compensation arrangements. As a result, the Compensation Committee continually endeavors to provide independent oversight and engages in an ongoing independent review of all aspects of our executive compensation programs.

Executive Management Changes in 2014

Carey P. Hendrickson joined the Company as Senior Vice President and Chief Financial Officer in May 2014. Mr. Hendrickson succeeded Ralph A. Beattie, who previously served as our Executive Vice President and Chief Financial Officer until his retirement in May 2014. Lawrence A. Cohen, Keith N. Johannessen, Carey P. Hendrickson, David R. Brickman, Joseph G. Solari and Ralph A. Beattie, who are all listed in the Summary Compensation Table set forth below, were our named executive officers for 2014.

2014 Say-on-Pay Advisory Vote on Executive Compensation

We provided our stockholders with a say on pay advisory vote in 2014 on our executive compensation pursuant Section 14A of the Securities Exchange Act of 1934, as amended. At our 2014 Annual Meeting of Stockholders, our stockholders expressed overwhelming support for the compensation of our named executive officers, with approximately 98.5% of the votes cast for the approval of the say on pay advisory vote on executive compensation (assuming abstentions and broker non-votes do not constitute votes cast). In evaluating our executive compensation programs, the Compensation Committee considered the results of the 2014 advisory vote along with the many other factors discussed in this Compensation Discussion and Analysis, including the Compensation Committee's assessment of the interaction of our compensation programs with our corporate business objectives, input received from our senior management, the analysis, reports and recommendations of Aon Hewitt, and the Compensation Committee's own judgment. While each of these factors

Table of Contents

impacted the Compensation Committee's decisions regarding our named executive officers' compensation, the Compensation Committee did not make any changes to our executive compensation program and policies as a result of the 2014 say on pay advisory vote.

Overview of Compensation Process

The Compensation Committee is ultimately responsible for reviewing and approving the base salary increases (other than annual base salary increases contemplated by existing employment agreements) and bonus levels of our executive officers, including our named executive officers, evaluating the performance of such executives and reviewing any related matters. Equity and other forms of compensation for our executive officers, including our named executive officers, are also considered by the Compensation Committee. In applying the above-described objectives for our executive compensation program, the Compensation Committee primarily relies upon the following factors:

Input Received from our Senior Management. As discussed in greater detail below, the Compensation Committee has historically relied in part upon the input and recommendations of our senior management, which currently consists of Messrs. Cohen, Johannessen and Hendrickson and whom we refer to in this section as our senior management, when considering annual increases to base salaries for our named executive officers, the annual establishment of our Incentive Compensation Plan, and whether to grant long-term incentive awards to our named executive officers, and if so, in what forms and amounts. Whenever the Compensation Committee considers increasing the base salary of a member of our senior management, such individual is not permitted to participate in the deliberations of the Compensation Committee relating to the increase in base salary.

Peer Group Data. The Compensation Committee has consistently sought to structure our executive compensation program to provide amounts and forms of compensation to our named executive officers that are generally commensurate with those paid to executive officers with comparable duties and responsibilities at companies in the senior living industry that the Compensation Committee, in consultation with our senior management, periodically determines to be the most directly comparable to Capital Senior. In order to determine which companies in the senior living industry are the most directly comparable to Capital Senior, the Compensation Committee and our senior management conduct an annual review to determine which companies have a similar business focus to ours and a similar revenue and/or asset base to ours. We refer to such public companies collectively as our peer group. For our 2014 compensation program, the companies which comprised our peer group were Brookdale Senior Living Inc., Emeritus Corporation and Five Star Quality Care, Inc.

Third Party Industry Surveys and Compensation Consultants. As part of its ongoing efforts to provide independent oversight and review of our compensation programs, the Compensation Committee periodically reviews information compiled by third parties with respect to the executive compensation practices of other companies in our industry. The Compensation Committee reviews such information for purposes of obtaining a general understanding of current compensation practices of companies in our peer group and industry, and generally endeavors to make the total compensation mix and opportunities available to our named executive officers comparable to the total compensation mix and opportunities available to executive officers at such other similar companies. The information reviewed is part of a larger competitive analysis and does not mandate a particular decision regarding the compensation opportunities of our named executive officers. The Compensation Committee does not target the compensation of our named executive officers to fall within a specific percentile range of the companies in our peer or industry, but rather considers several factors, such as the experience levels of individuals and market factors, before exercising its discretion in determining the total compensation mix and opportunities available to our named executive officers. Based upon the results of such review, the Compensation Committee may determine to modify the amounts and/or the forms of compensation that are available to our named executive officers, in light of the objectives we have identified for our executive compensation program.

From time to time, including in 2013 and most recently in 2014 for our 2015 incentive compensation plan, the Compensation Committee also retains independent compensation consultants to review the Company's

Table of Contents

executive compensation arrangements. However, the Compensation Committee did not engage any compensation consultant for purposes of determining or recommending the amount or form of executive officer compensation for 2014.

Other Factors. Key factors that also affect the Compensation Committee's judgment with respect to our executive compensation program include our financial performance, to the extent that it may be fairly attributed or related to the performance of a particular named executive officer, and the contribution of each named executive officer relative to his individual responsibilities and capabilities. While the Compensation Committee does consider our stock price performance, the Compensation Committee has not utilized it as the only measure of our financial performance, or the performance of our named executive officers, given the fact that it may not take into account a variety of factors, including the business conditions within the senior living industry, our long-term strategic direction and goals and general market conditions. Also, in applying these objectives, the Compensation Committee endeavors to achieve consistency with respect to the difference between the compensation of our named executive officers and the compensation of our other officers and employees and such differences found in the companies in our peer group.

Forms of Compensation

The following forms of compensation are currently utilized by the Compensation Committee in compensating our named executive officers.

BASE SALARY

The base salaries of our named executive officers is established pursuant to the terms of each executive's employment agreement and is subject to an annual increase. Base salaries are paid in cash and are intended to reward our named executive officers for their performance during the fiscal year relative to their authority and responsibilities in their respective positions with us.

In the fourth quarter of each year, the Compensation Committee typically establishes a percentage range within which the base salary for our named executive officers for the upcoming year may increase from the preceding year. In determining this percentage range, the Compensation Committee typically reviews information and reports compiled by independent third parties, including any compensation consultants engaged by the Compensation Committee during such year, and generally targets the base salaries of our named executive officers to be comparable to the base salaries of members of management and executive officers with comparable duties and responsibilities at other similar companies. For 2014, the Compensation Committee set such percentage range at 2.0% - 3.0%.

At each quarterly meeting, the Compensation Committee typically reviews a list of those senior executives, including our named executive officers, whose employment agreements have anniversary dates arising in the upcoming quarter and authorizes our senior management to approve base salary increases for each such individual in its discretion within such percentage range. Each annual performance and compensation review takes place at the same quarterly meeting of the Compensation Committee at which it is authorized. In exercising its discretion, our senior management typically considers each such executive's historical performance in his or her position with us, as reflected by the results of the annual performance and compensation review, as well as our financial performance within each such executive's sphere of influence. Following such evaluation, if our senior management determines that the amount of any increase to an executive's base salary should be greater or less than the increase permitted by the percentage range, then our senior management informs the Compensation Committee of its recommendation. Then, the Compensation Committee ultimately determines the amount of the increase based upon both the recommendations of our senior management and its review of information and reports compiled by independent third parties as to the base salaries of executives with comparable duties and responsibilities at other similar companies. Any increase to the base salary of the executive is typically effective as of the beginning of the pay period immediately following the anniversary date of such executive's employment agreement.

Table of Contents

The Compensation Committee believes that the members of our senior management are the most appropriate individuals to conduct the annual performance and compensation reviews by virtue of their role in overseeing the day-to-day performance of our senior executives, other than our Chief Executive Officer. The Compensation Committee believes that the members of our senior management are also the most appropriate individuals to ultimately determine the amount of the annual base salary increases within the established percentage range since each member occupies a position with us that provides the requisite knowledge and experience to properly evaluate the performance of our senior executives, including our named executive officers, in their respective positions with us and in the context of our overall performance. Whenever our senior management considers increasing the base salary of a member of our senior management, such individual is not permitted to participate in the deliberations of our senior management relating to the increase in base salary.

For a further description of the base salaries paid to our named executive officers for 2014, please refer to the Summary Compensation Table beginning on page 41 of this proxy statement.

PERFORMANCE BONUS

Bonuses are typically awarded to our named executive officers, other than Messrs. Brickman and Solari, annually pursuant to the incentive compensation plan, which we refer to as our Incentive Compensation Plan. The purpose of the Incentive Compensation Plan is to assist us in employing and retaining certain of our named executive officers by providing them with a competitive compensation opportunity based upon the achievement of specified performance objectives that the Compensation Committee identifies as having a direct relation to the accomplishment of our business plan for the applicable year.

Under the Incentive Compensation Plan, performance bonuses are typically targeted at a pre-determined percentage of each eligible named executive officer's base salary for such year. These percentages are typically established by the Compensation Committee based upon (i) its general review of publicly-available information with respect to similar programs offered by the companies in our peer group, and (ii) each officer's ability, by virtue of his position with us, to exert a significant influence over the factors upon which performance bonuses under the Incentive Compensation Plan are contingent. For 2014, the bonus opportunities under the Incentive Compensation Plan for Messrs. Cohen, Johannessen, Hendrickson and Beattie are set forth in the table below. As discussed below, Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and did not receive any performance bonus under the Incentive Compensation Plan for 2014.

Named Executive Officer	2014 Minimum Bonus		2014 Target Bonus		2014 Maximum Bonus	
	% of Base Salary	Amount	% of Base Salary	Amount	% of Base Salary	Amount
Lawrence A. Cohen	82.6%	\$ 598,969	100.0%	\$ 725,232	150.0%	\$ 1,087,848
Keith N. Johannessen	50.2%	\$ 214,864	70.0%	\$ 299,493	105.0%	\$ 449,239
Carey P. Hendrickson ¹	45.7%	\$ 182,940	60.0%	\$ 240,000	90.0%	\$ 360,000
Ralph A. Beattie ²	45.7%	\$ 182,487	60.0%	\$ 239,405	90.0%	\$ 359,107

(1) Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014).

(2) Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and was not entitled to receive any performance bonus under the Incentive Compensation Plan for 2014.

The minimum bonus award opportunities in the table above reflect the amounts the eligible named executive officers would receive if the targeted level of performance was not achieved but the threshold level of performance was satisfied. For 2014, with respect to corporate goals, a threshold level of performance was set for the CFFO per share target (90% of the targeted amount), adjusted EBITDAR target (90% of the targeted amount), and aggregate transaction value target (33% of the targeted amount). For 2014, with respect to

Table of Contents

individuals goals, a threshold level of performance was set for Mr. Cohen's CFO per share target (90% of the targeted amount), Mr. Johannessen's Facility NOI target (90% of the targeted amount), and Mr. Hendrickson's and Beattie's acquisition financing target (33% of the targeted amount) and Controllable G&A target (90% of the targeted amount). More information regarding these threshold amounts is set forth in the tables below.

During the first quarter of each year, our senior management typically makes recommendations to the Compensation Committee regarding the percentage allocations to be made among the above-described categories for the year based upon its determination as to the relative importance that the goals in each such category should bear to the goals in the other categories in order to achieve our business plan for the applicable year. In addition, for each category that contains multiple goals, our senior management also typically makes recommendations to the Compensation Committee regarding the percentage allocations among the goals within each such category based upon its determination as to the relative importance that the goals in each such category should bear to the other goal(s) in such category in order to achieve our business plan for the applicable year. The Compensation Committee typically takes into account these recommendations from our senior management due to the fact that the members of our senior management are primarily responsible for the establishment of our business plan each year.

By approving the Incentive Compensation Plan in the first quarter of each year, the Compensation Committee and our senior management may examine the performance of each of our eligible named executive officers during the previous year, establish performance goals for our eligible named executive officers relative to such performance, and determine the financial performance targets for the new fiscal year based in part upon the previous year's performance. At any time during the performance period, the Compensation Committee has the discretion to adjust the performance targets upon the occurrence of unforeseen developments, changes in market conditions, changes in our business plan, changes in the Compensation Committee's compensation philosophy or objectives or otherwise. During 2014, certain corporate and individual goals were amended to reflect strategic and operational changes that occurred during the performance period. These amendments included provisions to remove the operating results of two senior living communities from both the performance goals and the Company's publicly reported non-GAAP financial measures due to the disruptive significant renovations and unit conversions of these assets, and to reflect the impact of other significant operational changes, as discussed below. The Compensation Committee amended the Incentive Compensation Plan for 2014 as follows:

In August 2014, our President and Chief Operating Officer's individual Facility NOI target was adjusted from \$171,056,000 to \$178,947,000 to eliminate as an expense amounts that had not been budgeted for on-site health insurance costs due to changes in our health care plans that occurred in June 2014.

In October 2014, the corporate adjusted EBITDAR performance target was adjusted from \$134,813,000 to \$133,292,000 and our President and Chief Operating Officer's individual Facility NOI target was adjusted from \$178,947,000 to \$169,317,000 in order to exclude the projected EBITDAR and remove the Facility NOI, respectively, attributable to two of our communities that were undergoing significant renovations and/or conversion of units during 2014. Due to the disruption of the renovations and unit conversions, it was concluded the operating results of these two communities would be removed from the publicly reported non-GAAP financial measures of the Company beginning in the second quarter of 2014.

In addition, in October 2014, our Senior Vice President and Chief Financial Officer's individual Controllable G&A Expenses target was adjusted from 2.4% to 2.5% of actual total revenues in order to account for the fact that subsequent to the establishment of the 2014 performance goals it was concluded that corporate salaries and wages would no longer be allocated to two of our facilities. Prior to 2014, we allocated corporate salaries and wages associated with Medicare cost reporting at these facilities, but as we no longer provide skilled nursing services at these facilities, these expenses are no longer being allocated.

These modifications, individually and in the aggregate, did not significantly increase the actual payout amounts that any of our named executive officers received under the Incentive Compensation Plan for 2014.

Table of Contents

The Compensation Committee typically meets annually to determine, among other things, whether performance bonuses are to be paid under the Incentive Compensation Plan to any of our eligible named executive officers based upon our achievement, or any eligible named executive officer's individual achievement, as applicable, of any performance objective of the Incentive Compensation Plan during the previous year (provided that performance bonuses awardable pursuant to metrics that are determined on a quarterly basis are considered by the Compensation Committee at their quarterly meetings). In 2014, the only performance bonuses considered at the Compensation Committee's quarterly meetings were those awardable pursuant to the aggregate acquisition transaction value target discussed below. The payment of performance bonuses, if any, to the eligible named executive officers is normally made, subject to payroll taxes and tax withholdings, in the pay period immediately following the date of such determination by the Compensation Committee.

The Incentive Compensation Plan represents the Compensation Committee's determination that, although a substantial portion of the performance bonus opportunity for our eligible named executive officers should be dependent upon measures that are reflective of our overall financial performance, the Incentive Compensation Plan should also reward the individual contributions of each eligible named executive officer for the achievement of elements of our business plan that are within such individual's sphere of influence. In determining the corporate and individual performance metrics under our Incentive Compensation Plan, the Compensation Committee endeavors to undertake a thoughtful process to establish performance metrics that will reflect a balanced approach for measuring our annual performance. This process typically includes a general review of publicly-available compensation information with respect to similar programs utilized by the companies in our peer group and discussions with research analysts covering our industry and our stockholders as to the most appropriate measures for measuring the performance and valuations of companies in our industry. During 2014, the Compensation Committee met three times during which it considered the most appropriate performance targets for the 2014 fiscal year and whether adjustments should be made to the structure of the Incentive Compensation Plan, in light of the objectives that the Compensation Committee has established for our executive compensation program.

Corporate Goals. Of the performance bonus amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is typically contingent upon our achievement of certain objectively verifiable measures of our performance for the applicable year. These corporate goals are typically approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our senior management regarding certain initiatives and the related corresponding metrics that our senior management believes are directly related to the achievement of our business plan for that year. Typically, two or three distinct corporate goals are established, and of the percentage of the performance bonus amount that is contingent upon the achievement of such corporate goals, varying percentages of such amount are allocated by the Compensation Committee to each corporate goal.

Table of Contents

Under the Incentive Compensation Plan for 2014, our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer were eligible to receive a target cash performance bonus equal to 75%, 53%, 45% and 45%, respectively, of their base salaries for 2014 based upon our achievement of three distinct corporate goals with respect to Cash From Facility Operations, or CFFO, per share, adjusted EBITDAR, and the aggregate transaction value of our acquired senior housing communities during 2014; provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). The table below sets forth the target performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2014 with respect to the achievement of these corporate goals. As discussed below, Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and did not receive any performance bonus under the Incentive Compensation Plan for 2014.

Named Executive Officer	% of Base Salary	Amount
Lawrence A. Cohen	75.0%	\$ 543,924
Keith N. Johannessen	53.0%	\$ 226,759
Carey P. Hendrickson ¹	45.0%	\$ 180,000
Ralph A. Beattie ²	45.0%	\$ 179,554

- (1) Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014).
- (2) Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and was not entitled to receive any performance bonus under the Incentive Compensation Plan for 2014.

CFFO Per Share. First, of the target bonus percentage attributable to the achievement of corporate goals, 34%, 26%, 23% and 23% for our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer, respectively, was based upon our achievement of a CFFO per outstanding share target during 2014, which was viewed as a challenging performance target. For purposes of the Incentive Compensation Plan for 2014, CFFO was defined as net cash provided by (used in) operating activities adjusted for changes in operating assets and liabilities and recurring capital expenditures. Recurring capital expenditures included expenditures capitalized in accordance with GAAP that were funded from reserves pursuant to our mortgage loans and leases.

The target level of performance under the CFFO portion of the Incentive Compensation Plan for 2014 was CFFO per share of \$1.52, which was based on our internal business plan. Achievement of the target level of CFFO per share would result in Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer receiving a bonus equal to 34%, 26%, 23% and 23%, respectively, of their base salaries for 2014; provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). Achievement of 90% of the target level of CFFO per share would result in 90% of the portion of the award subject to such performance target being earned by our eligible named executive officers. If this threshold level of CFFO per share performance was attained but the target level was not attained, the earned portion of the award subject to CFFO per share performance would be prorated between 90% and 100% based upon our actual CFFO per share results reported for 2014. If we did not achieve 90% of the target level of CFFO per share, no amounts would be paid to the eligible named executive officers with respect to this bonus opportunity.

The following tables set forth the cash performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2014 with respect to the CFFO per share performance target. As our CFFO per share for 2014 was \$1.51 (as calculated pursuant to the Incentive Compensation Plan for 2014), which was approximately 99.3% of the target amount, the 90% threshold level of CFFO per share performance was attained but the target level was not attained. As a result, the earned portion of the award subject to CFFO per share was prorated based upon our actual CFFO per share results for 2014, and the amounts listed below at the 99.3% level were awarded to Messrs. Cohen, Johannessen and Hendrickson (prorated amount earned). As discussed below, Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and did not receive any performance bonus under the Incentive Compensation Plan for 2014.

Adjusted EBITDAR. Second, of the target bonus percentage attributable to the achievement of corporate goals, 28%, 18%, 15% and 15% for our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer, respectively, was based upon our achievement of an adjusted EBITDAR target during 2014, which was viewed as a challenging performance target. For purposes of the Incentive Compensation Plan for 2014, adjusted EBITDAR was defined as income from operations before provision for income taxes, interest, depreciation and amortization (including non-cash charges), facility lease expense, non-cash compensation expense and provision for bad debts.

The target level of performance under the adjusted EBITDAR portion of the Incentive Compensation Plan for 2014 was \$133,292,000, which was based on our internal business plan, as modified as discussed above. Achievement of the target level of adjusted EBITDAR would result in our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer receiving a bonus equal to 28%, 18%, 15% and 15%, respectively, of their base salaries for 2014; provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). Achievement of 90% of the target level of adjusted EBITDAR would result in 90% of the portion of the award subject to such performance target being earned by our eligible named executive officers. If this threshold level of adjusted EBITDAR performance was attained but the target level was not attained, the earned portion of the award subject to adjusted EBITDAR performance would be prorated

between 90% and 100% based upon our actual adjusted EBITDAR results reported for 2014. If we did not achieve 90% of the target level of adjusted EBITDAR, no amounts would be paid to the eligible named executive officers with respect to this bonus opportunity.

Table of Contents

The following tables set forth the cash performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2014 with respect to the adjusted EBITDAR performance target. As our adjusted EBITDAR was \$132,600,879 for 2014 (as calculated pursuant to the Incentive Compensation Plan for 2014), which was approximately 99.5% of the target amount, the 90% threshold level of adjusted EBITDAR performance was attained but the target level was not attained. As a result, the earned portion of the award subject to adjusted EBITDAR was prorated based upon our actual adjusted EBITDAR results for 2014, and the amounts listed below at the 99.5% level were awarded to Messrs. Cohen, Johannessen and Hendrickson (prorated amount earned). As discussed below, Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and did not receive any performance bonus under the Incentive Compensation Plan for 2014.

Aggregate Value of Transactions. Third, of the target bonus percentage attributable to the achievement of corporate goals, 13%, 9%, 7% and 7% for our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer, respectively, was based upon our achievement of an aggregate transaction value target with respect to our acquisitions of senior housing communities during 2014, which was viewed as a challenging performance target. For purposes of the Incentive Compensation Plan for 2014, an acquisition includes senior living communities acquired by the Company directly or pursuant to a joint-venture or long-term management contract or lease with a term of three or more years.

The target level of performance under the aggregate value of transactions portion of the Incentive Compensation Plan for 2014 was \$100,000,000 (excluding any acquisition of our wholly-owned communities), which was based on our internal business plan. 33% of such award would be earned upon our acquisition of an

aggregate of \$50,000,000 of senior housing communities during 2014, and 66% of such award would be earned upon our acquisition of an aggregate of \$75,000,000 of senior housing communities during 2014. If we did not acquire senior housing communities with an aggregate value of at least \$50,000,000 during 2014, no amounts would be paid to our eligible named executive officers with respect to this bonus opportunity.

2014 exceeded the target amount of \$1.52 per share by at least 5% (i.e., CFFO per share of \$1.60 or more); provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). Individual Goals. Of the performance bonus amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is typically contingent upon the eligible named executive officer's achievement of certain objectively verifiable individual goals within such named executive officer's sphere of influence for the applicable year. These individual goals are typically approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our senior management regarding certain initiatives and the corresponding measures therefor that our senior management believes are directly related to the achievement of our business plan for that year. Typically, several distinct individual goals are established for each eligible named executive officer, and of the percentage of the performance bonus amount that is contingent upon the achievement of such individual goals, varying percentages of such amount are allocated by the Compensation Committee to each individual goal based upon the recommendations of our senior management.

Under the Incentive Compensation Plan for 2014, our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President and Chief Financial Officer and former Chief Financial Officer were eligible to receive a target cash performance bonus equal to 25%, 17%, 15% and 15%, respectively, of their base salaries for 2014 based upon the achievement of individual goals; provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). The table below sets forth the target performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2014 with respect to the achievement of individual goals.

CFFO Per Share. With respect to our Chief Executive Officer, the entire target bonus percentage attributable to the achievement of individual goals was based upon our achievement of a CFFO per outstanding share target during 2014, upon the same terms and conditions as described above regarding the corporate goals portion of the Incentive Compensation Plan for 2014. The Compensation Committee determined to establish a separate individual CFFO per share bonus opportunity for our Chief Executive Officer based upon its belief that our Chief Executive Officer, by virtue of his position with us, exerts a more significant influence as compared to the other eligible named executive officers over this important performance metric.

Achievement of the target level of CFFO per share under the Incentive Compensation Plan for 2014, or CFFO per share of \$1.52, would result in our Chief Executive Officer receiving a bonus equal to 25% of his base salary for 2014. Achievement of 90% of the target level of CFFO per share would result in 90% of the portion of the award subject to such individual performance target being earned by our Chief Executive Officer. If this threshold level of CFFO per share performance was attained but the target level was not attained, the earned portion of the award subject to individual CFFO per share performance would be prorated between 90% and 100% based upon our actual CFFO per share results reported for 2014. If we did not achieve 90% of the target level of CFFO per share, no amounts would be paid to our Chief Executive Officer with respect to this bonus opportunity.

Table of Contents

The following table sets forth the cash performance bonus opportunities of our Chief Executive Officer under the Incentive Compensation Plan for 2014 with respect to his individual CFFO per share performance target. As our CFFO per share for 2014 was \$1.51 (as calculated pursuant to the Incentive Compensation Plan for 2014), which was approximately 99.3% of the target amount, the 90% threshold level of CFFO per share performance was attained but the target level was not attained. As a result, the earned portion of the award subject to CFFO per share was prorated based upon our actual CFFO per share results for 2014, and the amount listed below at the 99.3% level was awarded to our Chief Executive Officer.

Facility NOI. First, with respect to our President and Chief Operating Officer, of the target bonus percentage attributable to the achievement of individual goals, 8.5% was based upon facility net operating income, or Facility NOI. Facility NOI was defined as facility resident revenue less facility operating expenses, not including provision for bad debts, management fees, taxes, insurance, health insurance and casualty losses.

The target level of performance under the Facility NOI portion of the Incentive Compensation Plan for 2014 was \$169,317,000, which was based on our internal business plan, as modified as discussed above. Achievement of the target level of Facility NOI under the Incentive Compensation Plan for 2014 would result in our President and Chief Operating Officer receiving a bonus equal to 8.5% of his base salary for 2014. Achievement of 90% of the target level of Facility NOI would result in 90% of the portion of the award subject to such individual performance target being earned by our President and Chief Operating Officer. If this threshold level of Facility NOI was attained but the target level was not attained, the earned portion of the award subject to Facility NOI would be prorated between 90% and 100% based upon our actual Facility NOI results reported for 2014. If we did not achieve 90% of the target level of Facility NOI, no amounts would be paid to our President and Chief Operating Officer with respect to this bonus opportunity.

The following table sets forth the cash performance bonus opportunities of our President and Chief Operating Officer under the Incentive Compensation Plan for 2014 with respect to his individual Facility NOI performance target. As our Facility NOI was \$179,758,185 for 2014, the target was achieved and the amount listed below at the 100% level was awarded to our President and Chief Operating Officer.

Facility NOI	% of Facility NOI Target	Bonus as % of Base Salary	Amount

Resident Satisfaction. Second, with respect to our President and Chief Operating Officer, of the target bonus percentage attributable to the achievement of individual goals, 8.5% was based upon our resident satisfaction, which is surveyed each year in our communities by an independent third party. The receipt of a 93% or higher favorable rating in such survey on all properties would result in our President and Chief Operating Officer receiving a bonus equal to 8.5% of his base salary for 2014. If we did not achieve at least a 93% favorable rating on such survey, no amounts would be paid to our President and Chief Operating Officer with respect to this bonus opportunity.

Table of Contents

The following table sets forth the cash performance bonus opportunity of our President and Chief Operating Officer under the Incentive Compensation Plan for 2014 with respect to the resident satisfaction performance target. Controllable G&A. First, with respect to our Senior Vice President and Chief Financial Officer, of the target bonus percentage attributable to the achievement of individual goals, 7.5% was based upon our controllable general and administrative expenses—accounting, finance, information systems, investor relations and administration, or the Controllable G&A Expenses. The target budget for Controllable G&A Expenses for 2014 was 2.5% of the Company's total revenue target, excluding bonus accruals, which was based on our internal business plan, as modified as discussed above. If our Controllable G&A Expenses did not exceed the target budget under the Incentive Compensation Plan for 2014, then our Senior Vice President and Chief Financial Officer would receive a bonus equal to 7.5% of his base salary for 2014; provided that Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). 90% of the bonus would be earned if 90% of the Controllable G&A Expenses target was met, and awards would be prorated between 90% and 100% of the target.

The following table sets forth the cash performance bonus opportunity of our Senior Vice President and Chief Financial Officer under the Incentive Compensation Plan for 2014 with respect to his individual Controllable G&A Expenses performance target. Our Controllable G&A Expenses were 2.3% of Company's total revenue for 2014, which was less than the target budget, the performance target was achieved and the amount listed below at the 2.5% Controllable G&A level (prorated amount earned) was awarded to our Senior Vice President and Chief Financial Officer.

Aggregate Acquisitions With Financing. Second, with respect to our Senior Vice President and Chief Financial Officer, of the target bonus percentage attributable to the achievement of individual goals, 7.5% was based upon our ability to secure mortgage financing for acquisitions of senior housing communities in 2014. Upon our acquisition of \$100,000,000 or more of senior housing communities with mortgage financing in 2014, 100% of the portion of the award subject to acquisition financing target would be earned by our Senior Vice President and Chief Financial Officer. 33% of such award would be earned upon our acquisition of \$50,000,000 or more of senior housing communities with mortgage financing in 2014, and 66% of such award would be earned upon our acquisition of \$75,000,000 or more of senior housing communities with mortgage financing in 2014. If we did not obtain mortgage financing related to acquisitions of at least \$50,000,000 of senior housing communities in 2014, no amounts would be paid to our Senior Vice President and Chief Financial Officer with respect to this bonus opportunity.

Table of Contents

The following table sets forth the cash performance bonus opportunities of our Senior Vice President and Chief Financial Officer under the Incentive Compensation Plan for 2014 with respect to the acquisition financing target. Other Named Executive Officers. The Compensation Committee does not believe that the Incentive Compensation Plan is an appropriate method to determine the cash performance bonus that Messrs. Brickman and Solari are entitled to receive each year since the Incentive Compensation Plan has historically been heavily dependent upon measures that are related to the achievement of our overall business plan. The Compensation Committee does not believe that Messrs. Brickman and Solari, in their capacities as our Senior Vice President, General Counsel and Secretary and Vice President Acquisitions, respectively, are in positions to influence the achievement of our overall business plan each year to the same extent as our other named executive officers. Although Messrs. Brickman and Solari do not participate in the Incentive Compensation Plan, the Compensation Committee has the ability to award annual cash performance bonuses to such named executive officers in its discretion pursuant to the terms of their respective employment agreements.

David R. Brickman

The determination as to whether Mr. Brickman will receive a cash performance bonus with respect to a particular year is typically made by the Compensation Committee in the first quarter of the following year. In determining whether Mr. Brickman is entitled to receive a cash performance bonus, and if so, in what amount, the Compensation Committee typically reviews peer group data, our financial performance for the relevant fiscal year, the past performance of Mr. Brickman, the total cash compensation necessary to retain top executive talent, and the budget for Mr. Brickman's internal department. Based upon such review, the Compensation Committee decided to award Mr. Brickman a cash performance bonus of \$114,000 for 2014.

Joseph G. Solari

For 2014, the Compensation Committee determined that Mr. Solari would be eligible to receive a cash performance bonus of up to 75% of his annual base salary based upon the aggregate value of our completed qualified acquisitions. Qualified acquisitions include wholly-owned acquisitions, acquisitions made in joint ventures, long-term management contracts and leases with a term of three or more years but exclude acquisitions of communities we currently operate. The Compensation Committee selected this performance metric based upon the recommendations of our senior management regarding certain strategic initiatives and the corresponding measures therefor that our senior management believed were directly related to the achievement of our business plan for 2014 and were within Mr. Solari's sphere of influence. These initiatives consisted of helping us identify and complete certain strategic acquisitions that our senior management believed would increase our ownership of high-quality senior living communities in geographically concentrated regions and generate meaningful increases in our CFFO and earnings, and accordingly, increase shareholder value. There were no minimum nor target amounts with respect to this performance bonus opportunity, but rather the performance bonus was awardable in increments of \$9,283 per \$10,000,000 of completed qualified acquisitions, subject to the cap set forth above. As we completed qualified acquisitions with an aggregate value of \$63,025,000 in 2014, Mr. Solari was awarded \$55,698 with respect to this performance bonus opportunity.

LONG-TERM INCENTIVES

In May 2007, our stockholders approved the Company's 2007 Omnibus Stock and Incentive Plan, as amended, which we refer to as the 2007 Stock Incentive Plan. Upon approval of the 2007 Stock Incentive Plan, the Company's 1997 Omnibus Stock and Incentive Plan terminated and no additional awards will be granted under that plan. Awards granted under the 2007 Stock Incentive Plan may be made at times and upon vesting and other conditions as determined by the Compensation Committee, and may be made in the form of stock options, restricted share awards, stock appreciation rights, cash awards and performance-based equity and cash awards. Pursuant to the terms of the 2007 Stock Incentive Plan, our Chief Executive Officer and each of our four highest paid employees as of December 31, 2014 are not eligible to receive awards under the 2007 Stock Option Plan in any fiscal year exceeding 250,000 shares.

In determining the amount and types of long-term incentive awards to be granted to our named executive officers, the Compensation Committee primarily relies upon:

objective data with respect to the size and/or the financial impact of the transaction(s), if any, giving rise to such long-term incentive award;

its own judgment with respect to the contributions of our named executive officers to such transaction(s) giving rise to the long-term incentive award, if any, which may involve input from members of our senior management;

publicly-available information with respect to long-term incentive awards paid to named executive officers at companies in our peer group;

reports and analysis provided by any compensation consultants engaged by the Compensation Committee during such year;

the amount of equity held by each named executive officer, including the amount of any unvested equity awards; and

the amount of cash compensation, in the form of base salary and cash performance bonus, that each named executive officer is eligible to earn for the relevant fiscal year.

2014 Long-Term Incentive Awards

On March 4, 2014, the Compensation Committee, after taking into account the foregoing factors, granted the following named executive officers shares of restricted stock and shares of performance-based restricted stock in the amounts set forth in the table below. In addition, in connection with the appointment of Carey P. Hendrickson as the Company's Senior Vice President and Chief Financial Officer, on August 4, 2014 the Compensation Committee, granted Mr. Hendrickson shares of restricted stock and shares of performance-based restricted stock in the amounts set forth in the table below.

- (2) The shares are scheduled to vest in installments of 33%, 33% and 34% on March 4, 2015, March 4, 2016 and March 4, 2017, respectively, subject to the named executive officer's continued employment by us and our achievement of certain adjusted EBITDAR performance targets that were established by the Compensation Committee for each of fiscal 2014, fiscal 2015 and fiscal 2016.
- (3) The shares are scheduled to vest in installments of 33%, 33% and 34% on August 4, 2015, August 4, 2016 and August 4, 2017, respectively, subject to Mr. Hendrickson's continued employment by us.
- (4) The shares are scheduled to vest in installments of 33%, 33% and 34% on August 4, 2015, August 4, 2016 and August 4, 2017, respectively, subject to Mr. Hendrickson's continued employment by us and our achievement of certain adjusted EBITDAR performance targets that were established by the Compensation Committee for each of fiscal 2014, fiscal 2015 and fiscal 2016.

The Compensation Committee selected an adjusted EBITDAR target for the performance-based awards made in 2014 because it believes this metric provides a balanced approach for measuring long-term Company performance and would encourage our named executive officers to focus on our long-term performance. In addition, this metric is used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Adjusted EBITDAR was defined as income from operations before provision for income taxes, interest, depreciation and amortization (including non-cash charges), facility lease expense, non-cash compensation expense, and provision for bad debts. For fiscal 2014, the vesting of 33% of the performance shares was subject to our achievement of adjusted EBITDAR of at least \$133,292,000, which was based on our internal business plan and was viewed as a challenging performance target. As discussed above on page 24 under "Forms of Compensation - Performance Bonus," in October, 2014, the Compensation Committee amended the performance-based awards granted in 2014 to modify the adjusted EBITDAR target for fiscal 2014 from \$134,813,000 to \$133,292,000 in order to exclude the projected EBITDAR attributable to two of our communities that were undergoing significant renovations and/or conversion of units during 2014. Corresponding modifications were also made for the adjusted EBITDAR targets for fiscal 2015 and fiscal 2016. If we achieved 90% of the target level of adjusted EBITDAR (*i.e.*, adjusted EBITDAR of \$119,962,800), then 90% of the performance shares subject to such performance target would vest. If we attained this threshold level of adjusted EBITDAR performance but did not attain the target level, then the performance shares subject to such performance target would be prorated between 90% and 100% based upon our actual adjusted EBITDAR for 2014. If we did not achieve 90% of the targeted level of adjusted EBITDAR, then the shares subject to such performance target would be forfeited. As our adjusted EBITDAR was \$132,600,879 for fiscal 2014, which was approximately 99.5% of the target amount, the 90% threshold level of adjusted EBITDAR performance was attained but the target level was not attained. As a result, the earned portion of the award subject to adjusted EBITDAR was prorated based upon our adjusted EBITDAR results for 2014, and (i) 16,418, 13,134, 5,473 and 4,925 shares with respect to this performance-based award vested or will vest, as applicable, to Messrs. Cohen, Johannessen, Hendrickson and Brickman, respectively, and (ii) 82, 66, 27 and 25 shares with respect to this performance-based award were forfeited by Messrs. Cohen, Johannessen, Hendrickson and Brickman, respectively.

In addition, on April 23, 2014 Mr. Beattie was granted 9,375 shares of restricted stock, which were scheduled to vest in installments of 33%, 33% and 34% on April 23, 2015, April 23, 2016 and April 23, 2017, respectively. As discussed below, the vesting of such shares was accelerated upon Mr. Beattie's retirement from the Company on May 16, 2014.

Except as described above, the Compensation Committee did not to grant any equity awards to our named executive officers for 2014.

2013 Performance-Based Awards

In March 2013, the Compensation Committee granted Messrs. Cohen, Johannessen, Beattie and Brickman, 50,000, 40,000, 25,000 and 15,000 shares of performance-based restricted stock. These shares were scheduled to vest in installments of 33%, 33% and 34% on March 6, 2014, March 6, 2015 and March 6, 2016, respectively,

Table of Contents

subject to the named executive officer's continued employment by us and our achievement of certain adjusted EBITDAR performance targets that were established by the Compensation Committee for each of fiscal 2013, fiscal 2014 and fiscal 2015. For fiscal 2014, the vesting of 33% of the performance shares was subject to our achievement of adjusted EBITDAR of \$131,800,000, which was based on our internal business plan and was viewed as a challenging performance target. If we achieved 90% of the target level of adjusted EBITDAR (*i.e.*, adjusted EBITDAR of \$118,620,000), then 90% of the performance shares subject to such performance target would vest. If we attained this threshold level of adjusted EBITDAR performance but did not attain the target level, then the performance shares subject to such performance target would be prorated between 90% and 100% based upon our actual adjusted EBITDAR for 2014. As our adjusted EBITDAR for fiscal 2014 was \$132,600,879, we did achieve the targeted level of adjusted EBITDAR performance, and as a result, 16,500, 13,200 and 4,950 shares with respect to this performance-based vested to Messrs. Cohen, Johannessen and Brickman, respectively. As discussed below, the vesting of all of Mr. Beattie's unvested performance-based restricted stock awards (16,750 shares) was accelerated upon Mr. Beattie's retirement from the Company on May 16, 2014.

For a description of the long-term incentives awarded to our named executive officers for 2014, please refer to the 2014 Grants of Plan-Based Awards Table beginning on page 42 of this proxy statement.

SEVERANCE ARRANGEMENTS

We have entered into employment agreements with each of our named executive officers which, among other things, provide for severance benefits upon the occurrence of certain events. Our employment agreements with Messrs. Brickman, Cohen and Johannessen were each originally entered into in connection with our initial public offering in 1997 and have been modified several times as the agreements have come up for renewal. Leading up to our initial public offering, the Board, based upon input received from legal counsel, determined that it was in our best interests to implement a severance plan structure pursuant to which severance benefits would be payable to members of our executive and senior management, including such named executive officers, upon the occurrence of certain events. In determining the measures to use to calculate the amounts payable upon the happening of certain events and the types of events that would trigger a payment obligation under the severance plan structure, the Board relied in large part upon both input received from legal counsel and publicly-available information with respect to the severance practices of similarly-situated companies.

Upon the commencement of Mr. Beattie's employment with us in 1999, Mr. Solari's employment with us in 2010 and Mr. Hendrickson's employment with us in 2014, we entered into employment agreements with such named executive officers. In the course of negotiating these employment agreements, we relied upon publicly-available information with respect to the severance practices of the companies in our peer group in order to determine the measures to use to calculate the amounts payable upon the occurrence of certain events and the types of events that would trigger a payment obligation. In addition, the Compensation Committee also sought to achieve a degree of consistency with respect to the severance benefits available to our other named executive officers.

The Compensation Committee believes that such severance benefits advance the objectives of our executive compensation program by facilitating our ability to employ, retain and reward executives who are capable of leading us to achieve our business objectives. In addition, the Compensation Committee believes that formalizing such severance benefits provides certainty in terms of our obligations to our named executive officers in the event that our relationship with such individuals is severed. Any time that the Compensation Committee considers the amount and mix of total compensation to be paid to our named executive officers it considers, among other things, the severance payments that each named executive officer would be entitled to receive upon the occurrence of the specified events. The Compensation Committee considers such information a relevant factor in analyzing proposed compensation arrangements, including raises in salary, bonus opportunities and grants of long-term incentive awards.

Table of Contents

For a more detailed description of the severance arrangements for our named executive officers, please refer to Termination of Employment and Change in Control Arrangements beginning on page 46 of this proxy statement.

PERQUISITES AND OTHER PERSONAL BENEFITS

Our named executive officers are eligible to participate in certain benefit plans that are generally available to all of our employees. The benefits available under such plans are the same for all of our employees, including our named executive officers, and include medical and dental coverage, long-term disability insurance and supplemental life insurance. In addition, all of our employees, including our named executive officers, are eligible to participate in our 401(k) plan, which is the only retirement benefit which we provide to our named executive officers. We may make discretionary matching cash contributions to the 401(k) plan in the amount of 100% of the named executive officer's contributions, but subject to a cap of 2% of the named executive officer's base salary. In determining the amount of such matchable contributions to the 401(k) plan, we rely primarily on publicly-available information with respect to the practices employed by the companies in our peer group.

Historically, our executive compensation program has contained limited perquisites. Other than the receipt of an automobile allowance by Mr. Cohen of approximately \$500 per month, our named executive officers did not receive any special perquisites during 2014.

The Compensation Committee has determined to offer the above-described perquisites and other benefits in order to attract and retain our named executive officers by offering compensation opportunities that are competitive with those offered by similarly-situated companies in the senior living industry. In determining the total compensation payable to our named executive officers for a given fiscal year, the Compensation Committee will examine such perquisites and other benefits in the context of the total compensation our named executive officers are eligible to receive. However, given the fact that such perquisites and other benefits represent a relatively insignificant portion of our named executive officers' total compensation, such items do not materially influence the Compensation Committee's decisions with respect to other elements of compensation available to our named executive officers.

For a description of the perquisites and other personal benefits received by our named executive officers during 2014, please refer to the Summary Compensation Table beginning on page 41 of this proxy statement.

Risk-Related Compensation Policies and Practices

As part of its oversight of our executive and non-executive compensation programs, the Compensation Committee considers the impact of our compensation programs, and the incentives created by the compensation awards that it administers, on our risk profile. In addition, we review all of its compensation policies and procedures, including the incentives that they create and factors that may reduce the likelihood of excessive risk taking, to determine whether they present a significant risk to us. Based on this review, we have concluded that our compensation policies and procedures are not reasonably likely to have a material adverse effect on us.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), generally disallows public companies a tax deduction for federal income tax purposes of remuneration in excess of \$1 million paid to our Chief Executive Officer and each of our three other most highly compensated executive officers (other than our Chief Financial Officer) in any taxable year. Generally, remuneration in excess of \$1 million may only be deducted if it is performance-based compensation within the meaning of the Code.

The Compensation Committee believes that, in establishing the cash and equity incentive compensation plans and arrangements for our executive officers, the potential deductibility of the compensation payable under those plans and arrangements should be only one of the relevant factors taken into consideration. For that reason,

Table of Contents

the Compensation Committee may deem it appropriate to provide one or more executive officers with the opportunity to earn incentive compensation, whether through cash incentive awards or equity incentive awards, which may not be deductible by reason of Section 162(m) or other provisions of the Code.

The Compensation Committee believes it is important to maintain cash and equity incentive compensation at the requisite level to attract and retain the individuals essential to our financial success, even if all or part of that compensation may not be deductible by reason of the Section 162(m) limitation.

Compensation Committee Report on Executive Compensation

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with our management and, based upon such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement on Schedule 14A related to the Annual Meeting for filing with the SEC.

- (1) These columns show the value of the possible payouts of the incentive bonuses under the Incentive Compensation Plan for 2014 for each eligible named executive officer if the minimum (or threshold), target and maximum performance levels are achieved. The potential payout is performance-based and driven by Company and individual performance. The actual amount, if any, of the incentive bonuses paid pursuant to the Incentive Compensation Plan for 2014 is shown in the Summary Compensation Table under the Non-Equity Incentive Plan Compensation column. Mr. Hendrickson's actual payout under the Incentive Compensation Plan for 2014 was subject to proration based upon the date he joined the Company (May 7, 2014). Mr. Beattie retired from the Company, effective May 16, 2014, and as a result, Mr. Beattie forfeited and did not receive any performance bonus under the Incentive Compensation Plan for 2014. Messrs. Brickman and Solari did not participate in the Incentive Compensation Plan for 2014.
- (2) Represents (i) shares of restricted stock that were granted on March 4, 2014 under the 2007 Stock Incentive Plan to Messrs. Cohen, Johannessen and Brickman, which vest in installments of 33%, 33% and 34% on March 4, 2014, March 4, 2015 and March 4, 2016, respectively, and (ii) shares of restricted stock that were granted on August 4, 2014 under the 2007 Stock Incentive Plan to Mr. Hendrickson, which vest in installments of 33%, 33% and 34% on August 4, 2014, August 4, 2015 and August 4, 2016, respectively, in each case of (i) and (ii), provided the Company satisfies certain adjusted EBITDAR performance targets with respect to fiscal 2014, fiscal 2015 and fiscal 2016. If the Company achieves 90% of the target level of adjusted EBITDAR, then 90% of the performance shares subject to such performance target will vest. If the Company attains this threshold level of adjusted EBITDAR performance but does not attain the target level, then the performance shares subject to such performance target will be prorated between 90% and 100% based upon the Company's actual adjusted EBITDAR for 2014. If the Company does not achieve 90% of the targeted level of adjusted EBITDAR, then the shares subject to such performance target will be forfeited. As the Company's adjusted EBITDAR was \$132,600,879 for fiscal 2014, which was approximately 99.5% of the target amount, the 90% threshold level of adjusted EBITDAR performance was attained but the target level was not attained. As a result, the earned portion of the award subject to adjusted EBITDAR was prorated based upon the Company's adjusted EBITDAR results for 2014, and (i) 16,418, 13,134, 5,473, and 4,925 shares with respect to this performance-based award vested or will vest, as applicable, to Messrs. Cohen, Johannessen, Hendrickson and Brickman, respectively, and (ii) 82, 66, 27 and 25 shares with respect to this performance-based award were forfeited by Messrs. Cohen, Johannessen, Hendrickson and Brickman, respectively. Please see Compensation Discussion and Analysis Forms of Compensation Long-Term Incentives above for more information.

Restricted Stock Award Agreements and Performance Award Agreements

When our named executive officers are awarded shares of restricted stock under the 2007 Stock Incentive Plan with time-based vesting provisions, each of them enters into a restricted stock award agreement with us. These restricted stock award agreements generally provide that, if the holder's employment with us is terminated for any reason before the vesting date for the restricted shares, the restricted shares that have not previously vested will, automatically and without notice, terminate and be permanently forfeited as of such date, except that all unvested shares will vest in connection with the holder's death or disability or in the event of a change in control.

In addition, when our eligible named executive officers are awarded shares of performance-based restricted stock under the 2007 Stock Incentive Plan, each of them enters into a performance award agreement with us. These performance award agreements generally provide that (1) if the holder's employment with us is terminated for any reason before the vesting date for the performance shares, the performance shares that have not previously vested will, automatically and without notice, terminate and be permanently forfeited as of such date, and (2) the holder's right to receive the specified percentage of performance shares that do not vest as a result of our failure to achieve the applicable performance measures will be automatically terminated and permanently forfeited; provided, that any performance shares that have not been forfeited pursuant to clause (2) above, will vest in connection with the holder's death or disability or in the event of a change in control.
