(mark one)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended October 29, 2016

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission file number 1-4908

The TJX Companies, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

04-2207613
(I.R.S. Employer
Identification No.)

770 Cochituate Road

Framingham, Massachusetts
(Address of principal executive offices)

01701
(Zip Code)

(508) 390-1000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

The number of shares of registrant's common stock outstanding as of October 29, 2016: 651,900,739

THE TJX COMPANIES, INC.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Note A. Summary of Significant Accounting Policies

Basis of Presentation: The consolidated interim financial statements are unaudited and, in the opinion of management, reflect all normal recurring adjustments, accruals and deferrals among periods required to match costs properly with the related revenue or activity, considered necessary by The TJX Companies, Inc. (together with its subsidiaries, "TJX") for a fair statement of its financial statements for the periods reported, all in conformity with accounting principles generally accepted in the United States of America ("GAAP") consistently applied. The consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements, including the related notes, contained in TJX's Annual Report on Form 10-K for the fiscal year ended January 30, 2016 ("fiscal 2016").

These interim results are not necessarily indicative of results for the full fiscal year, because TJX's business, in common with the businesses of retailers generally, is subject to seasonal influences, with higher levels of sales and income generally realized in the second half of the year.

The January 30, 2016 balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP.

Fiscal Year: TJX's fiscal year ends on the Saturday nearest to the last day of January of each year. The current fiscal year ends January 28, 2017 ("fiscal 2017") and is a 52-week fiscal year. Fiscal 2016 was also a 52-week fiscal year.

Share-Based Compensation: TJX accounts for share-based compensation by estimating the fair value of each award on the date of grant. TJX uses the Black-Scholes option pricing model for stock options awarded and uses the market price on the grant date for performance-based restricted stock awards. Total share-based compensation expense was \$27.5 million for the quarter ended October 29, 2016 and \$27.3 million for the quarter ended October 31, 2015. Total share-based compensation expense was \$77.4 million for the nine months ended October 29, 2016 and \$71.1 million for the nine months ended October 31, 2015. These amounts include stock option expense as well as restricted and deferred stock amortization. There were options to purchase 0.7 million shares of common stock exercised during the quarter ended October 29, 2016 and options to purchase 4.0 million shares of common stock exercised during the nine months ended October 29, 2016. There were options outstanding to purchase 28.7 million shares of common stock as of October 29, 2016. As of October 29, 2016, there was \$100.7 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under TJX's stock incentive plan.

Cash and Cash Equivalents: TJX generally considers highly liquid investments with a maturity of 90 days or less at the date of purchase to be cash equivalents. As of October 29, 2016, TJX's cash and cash equivalents held by its foreign subsidiaries were \$1,138.2 million, of which \$253.3 million was held in countries where TJX has the intention to reinvest any undistributed earnings indefinitely.

Investments: Investments with maturities greater than 90 days but less than one year at the date of purchase are included in short-term investments. These investments are classified as trading securities and are stated at fair value. Investments are classified as either short- or long-term based on their original maturities. TJX's investments are primarily high-grade commercial paper, institutional money market funds and time deposits with major banks.

Merchandise Inventories: Inventories are stated at the lower of cost or market. TJX uses the retail method for valuing inventories at all of its businesses, except at Sierra Trading Post ("STP") and Trade Secret. The businesses that utilize the retail method have some inventory that is initially valued at cost before the retail method is applied as it has not been fully processed for sale (e.g. inventory in transit and unprocessed inventory in our distribution centers). Under

the retail method, TJX utilizes a permanent markdown strategy and lowers the cost value of the inventory that is subject to markdown at the time the retail prices are lowered in the stores. TJX accrues for inventory obligations at the time title transfers, which is typically at the time when inventory is shipped. As a result, merchandise inventories on TJX's balance sheet include an accrual for in-transit inventory of \$785.0 million at October 29, 2016, \$690.3 million at January 30, 2016 and \$816.6 million at October 31, 2015. Comparable amounts were reflected in accounts payable at those dates.

Leases: TJX begins to record rent expense when it takes possession of a store, which is typically 30 to 60 days prior to the opening of the store and generally occurs before the commencement of the lease term, as specified in the lease. Lease agreements involving property built to our specifications are reviewed to determine if our involvement in the construction project requires that we account for the project costs as if we were the owner for accounting purposes. We have entered into several lease agreements where we are deemed the owner of a construction project for accounting purposes. Thus, during construction of the facility the construction costs incurred by the lessor are included as a construction in progress asset along with a related liability of the same amount on our balance sheet. Upon completion of the project, a sale-leaseback analysis is performed to determine if the Company should record a sale to remove the related asset and related obligation and record the lease as either an operating or capital lease obligation. If the Company is precluded from derecognizing the asset when construction is complete, due to continuing involvement beyond a normal leaseback, the lease is accounted for as a financing transaction and the recorded asset and related financing obligation remain on the Consolidated Balance Sheets. Accordingly, the asset is depreciated over its estimated useful life in accordance with the Company's policy and a portion of the lease payments is allocated to ground rent and treated as an operating lease. The portion of the lease payment allocated to ground rental expense is based on the fair value of the land at the commencement of construction. Lease payments allocated to the non-land asset are recognized as reductions to the financing obligation and interest expense.

New Accounting Standards: In March 2016, a pronouncement was issued that aims to simplify several aspects of accounting and reporting for share-based payment transactions. One provision requires that excess income tax benefits and tax deficiencies related to share-based payments be recognized within income tax expense in the statement of income, rather than within additional paid-in capital on the balance sheet. The Company is currently evaluating the potential impact that this provision, which is to be applied prospectively, will have on its financial statements. The Company does not expect the other provisions within the pronouncement will have a material impact on its financial statements. The guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods, with early adoption permitted.

In August 2016, a pronouncement was issued that addresses diversity in how certain cash receipts and cash payments are presented in the statement of cash flows. The new guidance provides clarity around the cash flow classification for eight specific issues in an effort to reduce the current and potential future diversity in practice. The standard, which is to be applied retrospectively, will be effective for the first interim period within annual reporting periods beginning after December 15, 2017, and early adoption is permitted. TJX is in the process of evaluating this guidance to determine the impact it will have on our financial statements.

In October 2016, a pronouncement was issued that aims to reduce the diversity in practice and complexity associated with accounting for the income tax consequences of intra-entity transfers of assets other than inventory. Current GAAP prohibits the recognition of current and deferred income taxes for an intra-entity asset transfer until the asset has been sold to an outside party. The new pronouncement stipulates that an entity should recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The new guidance will be effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods, with early adoption permitted in the first interim period only. The amendments are to be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. TJX is in the process of evaluating this guidance to determine the impact it will have on our financial statements.

In May 2014, a pronouncement was issued that creates common revenue recognition guidance for GAAP. The new guidance supersedes most preexisting revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard was originally scheduled to be effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. In April 2015, the Financial Accounting Standards Board

proposed an update to this rule which deferred its effective date for one year. The proposed update stipulates the new standard would be effective for annual reporting periods beginning after December 15, 2017, and interim periods therein, with an option to adopt the standard on the originally scheduled effective date. The standard shall be

applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. For TJX, the standard will be effective in the first quarter of the fiscal year ending January 26, 2019. TJX is currently evaluating the impact of the new pronouncement on its consolidated financial statements.

In February 2016, a pronouncement was issued that aims to increase transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing arrangements. The new standard is effective for annual periods beginning after December 15, 2018, and interim periods within those annual periods; early adoption is permitted and modified retrospective application is required. TJX is in the process of evaluating this guidance to determine the impact it will have on our financial statements.

In April 2015, a pronouncement was issued that requires debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The guidance was effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. For TJX, the standard was effective in the first quarter of fiscal 2017. As a result, we have recast the January 30, 2016 consolidated balance sheet to conform to the current period presentation. The adoption of this standard reduced previously-presented other assets by \$9.1 million and reduced long-term debt by \$9.1 million as of January 30, 2016. In addition, we have also recast the October 31, 2015 consolidated balance sheet to conform to the current period presentation. The adoption of this standard reduced previously-presented other assets by \$9.5 million and reduced long-term debt by \$9.5 million as of October 31, 2015.

In November 2015, a pronouncement was issued that requires entities to present deferred tax assets (DTAs) and deferred tax liabilities (DTLs) as noncurrent in a classified balance sheet. It simplified then existing guidance, which required entities to separately present DTAs and DTLs as current or noncurrent in a classified balance sheet. TJX adopted this guidance as of January 30, 2016, and applied it retrospectively. The impact on the October 31, 2015 consolidated balance sheet was to reduce previously-presented current DTAs by \$120.9 million, decreased long-term DTAs by \$2.6 million and reduced long-term DTLs by \$123.5 million as of October 31, 2015.

Note B. Acquisition of Trade Secret

On October 24, 2015, TJX purchased Trade Secret, an off-price retailer that operates 35 stores in Australia, for AUD\$83.3 million (US\$59.4 million).

The following table presents the final allocation of the purchase price to the assets and liabilities acquired based on their estimated fair values as of October 24, 2015 (in thousands):

Current assets	\$ 25,899
Property and equipment	10,184
Goodwill and intangible assets	37,416
Less liabilities assumed	(14,071)
Net assets acquired	\$ 59,428

Goodwill and intangible assets include goodwill of \$25 million and identified intangible assets of \$12 million for the value of the tradename Trade Secret which is being amortized over 10 years.

The operating results of Trade Secret have been included in TJX's consolidated financial statements from the date of acquisition and Trade Secret is now part of the TJX International segment along with our European operations. Pro

forma results of operation assuming the acquisition of Trade Secret occurred as of the beginning of fiscal 2015 have not been presented as the inclusion of the results of operations for the acquired business would not have produced a material impact on TJX's sales, net income or earnings per share as reported.

Note C. Accumulated Other Comprehensive Income (Loss)

Amounts included in accumulated other comprehensive income (loss) are recorded net of the related income tax effects. The following table details the changes in accumulated other comprehensive income (loss) for the related periods:

In thousands	Foreign Currency Translation	Deferred Benefit Costs	Cash Flow Hedge on Debt	Accumulated Other Comprehensive Income (Loss)
Balance, January 30, 2016	\$ (439,192)	\$ (224,654)	\$ (3,626)	\$ (667,472)
Additions to other comprehensive income:				
Foreign currency translation adjustments (net of taxes of \$17,241)	(93,304)			(93,304)
Recognition of net gains/losses on benefit obligations,(net of taxes of \$47,051)		(71,525)		(71,525)
Pension settlement charge (net of taxes of \$12,369)		18,804		18,804
Reclassifications from other comprehensive income to net income:				
Amortization of prior service cost and deferred gains/losses (net of taxes of \$7,517)		11,427		11,427
Amortization of loss on cash flow hedge (net of taxes of \$337)			513	513
Balance, October 29, 2016	\$ (532,496)	\$ (265,948)	\$ (3,113)	\$ (801,557)

Note D. Capital Stock and Earnings per Share

Capital Stock: TJX repurchased and retired 5.2 million shares of its common stock at a cost of \$400.0 million during the quarter ended October 29, 2016, on a trade date basis. During the nine months ended October 29, 2016, TJX repurchased and retired 15.4 million shares of its common stock at a cost of \$1.2 billion, on a trade date basis. TJX reflects stock repurchases in its financial statements on a settlement date or cash basis. TJX had cash expenditures under repurchase programs of \$1.2 billion for the nine months ended October 29, 2016 and \$1.3 billion for the nine months ended October 31, 2015.

In February 2015, TJX announced that its Board of Directors had approved a stock repurchase program that authorized the repurchase of up to an additional \$2.0 billion of TJX common stock from time to time. Under this program, on a trade date basis through October 29, 2016, TJX repurchased 22.7 million shares of common stock at a cost of \$1.7 billion. At October 29, 2016, \$315.8 million remained available for purchase under this program.

In February 2016, TJX announced that its Board of Directors had approved another stock repurchase program that authorized the repurchase of up to an additional \$2.0 billion of TJX common stock from time to time, all of which remained available at October 29, 2016.

All shares repurchased under the stock repurchase programs have been retired.

Earnings per share: The following schedule presents the calculation of basic and diluted earnings per share (EPS) for net income:

In thousands, except per share data	Thirteen Weeks Ended	
	October 29, 2016	October 31, 2015
<i>Basic earnings per share</i>		
Net income	\$ 549,786	\$ 587,256

Weighted average common shares outstanding for diluted EPS	666,632	686,072
Diluted earnings per share	\$ 2.43	\$ 2.35

The weighted average common shares for the diluted earnings per share calculation exclude the impact of outstanding stock options if the assumed proceeds per share of the option is in excess of the related fiscal period's average price of TJX's common stock. Such options are excluded because they would have an antidilutive effect. There were 4.3 million such options excluded for the thirteen weeks and thirty-nine weeks ended October 29, 2016. There were 4.2 million options excluded for the thirteen weeks and thirty-nine weeks ended October 31, 2015.

Note E. Financial Instruments

As a result of its operating and financing activities, TJX is exposed to market risks from changes in interest and foreign currency exchange rates and fuel costs. These market risks may adversely affect TJX's operating results and financial position. When and to the extent deemed appropriate, TJX seeks to minimize risk from changes in interest and foreign currency exchange rates and fuel costs through the use of derivative financial instruments. TJX does not use derivative financial instruments for trading or other speculative purposes and does not use any leveraged derivative financial instruments. TJX recognizes all derivative instruments as either assets or liabilities in the statements of financial position and measures those instruments at fair value. The fair values of the derivatives are classified as assets or liabilities, current or non-current, based upon valuation results and settlement dates of the individual contracts. Changes to the fair value of derivative contracts that do not qualify for hedge accounting are reported in earnings in the period of the change. For derivatives that qualify for hedge accounting, changes in the fair value of the derivatives are either recorded in shareholders' equity as a component of other comprehensive income or are recognized currently in earnings, along with an offsetting adjustment against the basis of the item being hedged. TJX does not hedge its net investments in foreign subsidiaries.

Diesel Fuel Contracts: When and to the extent deemed appropriate, TJX hedges portions of its estimated notional diesel requirements based on the diesel fuel expected to be consumed by independent freight carriers transporting TJX's inventory. Independent freight carriers transporting TJX's inventory charge TJX a mileage surcharge based on the price of diesel fuel. The hedge agreements are designed to mitigate the volatility of diesel fuel pricing (and the resulting per mile surcharges payable by TJX) by setting a fixed price per gallon for the period being hedged. During fiscal 2016 and fiscal 2017, TJX entered into agreements to hedge a portion of its estimated notional diesel requirements for fiscal 2017. In addition, during fiscal 2017, TJX entered into agreements to hedge a portion of its estimated notional diesel requirements for the first nine months of fiscal 2018. The hedge agreements outstanding at October 29, 2016 relate to approximately 51% of TJX's estimated notional diesel requirements for the remainder of fiscal 2017 and approximately 50% of TJX's estimated notional diesel requirements for the first nine months of fiscal year 2018. These diesel fuel hedge agreements will settle throughout the remainder of fiscal 2017 and the first ten months of fiscal 2018. TJX elected not to apply hedge accounting rules to these contracts.

Foreign Currency Contracts: When and to the extent deemed appropriate, TJX enters into forward foreign currency exchange contracts to obtain economic hedges on portions of merchandise purchases made and anticipated to be made by the Company's operations in Europe (United Kingdom, Ireland, Germany, Poland, Austria and The Netherlands), TJX Canada (Canada), Marmaxx (U.S.) and HomeGoods (U.S.) in currencies other than their respective functional currencies. These contracts typically have a term of twelve months or less. The contracts outstanding at October 29, 2016 cover a portion of such actual and anticipated merchandise purchases throughout the remainder of fiscal 2017 and the first two quarters of the fiscal year ending February 3, 2018, (fiscal 2018). Additionally, TJX's operations in Europe are subject to foreign currency exposure as a result of their buying function being centralized in the United Kingdom. All merchandise is purchased centrally in the U.K. and then shipped and billed to the retail entities in other countries. This intercompany billing to TJX's European businesses' Euro denominated operations creates exposure to the buying entity for changes in the exchange rate between the Euro and British Pound. The inflow of Euros to the central buying entity provides a natural hedge for merchandise purchased from third-party vendors that is denominated in Euros. However, with the growth of TJX's Euro denominated retail operations, the intercompany billings committed to the Euro denominated operations is generating Euros in excess of those needed to meet merchandise commitments to outside vendors. TJX calculates this excess Euro exposure each month and enters into forward contracts of approximately 30 days duration to mitigate the exposure. TJX elected not to apply hedge accounting rules to these contracts.

When and to the extent deemed appropriate, TJX also enters into derivative contracts, generally designated as fair value hedges, to hedge intercompany debt and intercompany interest payable. The changes in fair value of these contracts are recorded in selling, general and administrative expenses and are offset by marking the underlying item to

fair value in the same period. Upon settlement, the realized gains and losses on these contracts are offset by the realized gains and losses of the underlying item in selling, general and administrative expenses.

Note F. Disclosures about Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date or exit price. The inputs used to measure fair value are generally classified into the following hierarchy:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3: Unobservable inputs for the asset or liability

The following table sets forth TJX's financial assets and liabilities that are accounted for at fair value on a recurring basis:

In thousands	October 29, 2016	January 30, 2016	October 31, 2015
Level 1			
Assets:			
Executive Savings Plan investments	\$ 185,042	\$ 155,847	\$ 164,970
Level 2			
Assets:			
Short-term investments	\$ 450,804	\$ 352,313	\$ 399,714
Foreign currency exchange contracts	29,925	28,643	13,801
Diesel fuel contracts	\$ 1,485		
Liabilities:			
Foreign currency exchange contracts	\$ 28,766	\$ 3,455	\$ 2,396
Diesel fuel contracts		13,952	10,437

Investments designed to meet obligations under the Executive Savings Plan are invested in registered investment companies traded in active markets and are recorded at unadjusted quoted prices.

Short-term investments, foreign currency exchange contracts and diesel fuel contracts are valued using broker quotations which include observable market information. TJX's investments are primarily high-grade commercial paper, institutional money market funds and time deposits with major banks. TJX does not make adjustments to quotes or prices obtained from brokers or pricing services but does assess the credit risk of counterparties and will adjust final valuations when appropriate. Where independent pricing services provide fair values, TJX obtains an understanding of the methods used in pricing. As such, these instruments are classified within Level 2.

The fair value of TJX's general corporate debt was estimated by obtaining market quotes given the trading levels of other bonds of the same general issuer type and market perceived credit quality. These inputs are considered to be Level 2. The fair value of long-term debt as of October 29, 2016 was \$2.2 billion compared to a carrying value of \$2.2 billion. The fair value of long-term debt as of January 30, 2016 was \$1.7 billion compared to a carrying value of \$1.6 billion. The fair value of long-term debt as of October 31, 2015 was \$1.7 billion compared to a carrying value of \$1.6 billion. These estimates do not necessarily reflect provisions or restrictions in the various debt agreements that might affect TJX's ability to settle these obligations.

TJX's cash equivalents are stated at cost, which approximates fair value due to the short maturities of these instruments.

Note G. Segment Information

TJX operates four main business segments. The Marmaxx segment (T.J. Maxx, Marshalls and tjmaxx.com) and the HomeGoods segment both operate in the United States, the TJX Canada segment operates Winners, HomeSense and Marshalls in Canada, and the TJX International segment operates T.K. Maxx, HomeSense and tkmaxx.com in Europe and Trade Secret in Australia. TJX also operates Sierra Trading Post (STP), an off-price Internet retailer that operates sierratradingpost.com and a small number of stores in the U.S. The results of STP are included in the Marmaxx segment. The former TJX Europe segment was renamed TJX International in the fourth quarter of fiscal 2016 to reflect the acquisition of Trade Secret in Australia.

All of TJX's stores, with the exception of HomeGoods and HomeSense, sell family apparel and home fashions. HomeGoods and HomeSense offer home fashions.

TJX evaluates the performance of its segments based on segment profit or loss, which it defines as pre-tax income or loss before general corporate expense and interest expense, net. Segment profit or loss, as defined by TJX, may not be comparable to similarly titled measures used by other entities. The terms segment margin or segment profit margin are used to describe segment profit or loss as a percentage of net sales. These measures of performance should not be considered alternatives to net income or cash flows from operating activities as an indicator of TJX's performance or as a measure of liquidity.

Pension settlement charge	31,173			
Total expense	\$ 76,557	\$ 42,954	\$ 6,431	\$ 6,416

TJX's policy with respect to the funded plan is to fund, at a minimum, the amount required to maintain a funded status of 80% of the applicable pension liability (the funding target pursuant to the Internal Revenue Code section 430) or such other amount sufficient to avoid restrictions with respect to the funding of TJX's nonqualified plans under the Internal Revenue Code. TJX does not anticipate any required funding in fiscal 2017 for the funded plan. TJX anticipates making payments of \$3.3 million to provide current benefits coming due under the unfunded plan in fiscal 2017.

The amounts included in recognized actuarial losses in the table above have been reclassified in their entirety from other comprehensive income to the statements of income, net of related tax effects, for the periods presented.

During the third quarter, TJX offered eligible, former TJX Associates, who had not yet commenced receiving their pension benefit, an opportunity to receive a lump sum payout of their vested pension benefit. On October 21, 2016 the Company's pension plan paid \$103.2 million from pension plan assets to those who accepted this offer, thereby reducing its pension benefit obligations. The transaction had no cash impact on TJX but did result in a non-cash pre-tax pension settlement charge of \$31.2 million, which is reported separately on the consolidated statements of income. As a result of the lump sum payout the Company re-measured the funded status of its pension plan as of September 30, 2016. The assumptions for pension expense presented above includes a discount rate of 4.80% through the measurement date and 3.80% thereafter. The expected rate of return on plan assets is 6.50% through the measurement date and 6.00% thereafter. The discount rate for determining the obligation at the measurement date is 3.80%. Presented below is the funded status of the plan as a result of this measurement and lump sum payment:

In thousands	
Change in projected benefit obligation:	
Projected benefit obligation at beginning of year	\$ 1,213,000
Service cost	28,337
Interest cost	38,754
Actuarial (gains) losses	231,636
Benefits paid including lump sum payment	(122,029)
Expenses paid	(2,980)
Projected benefit obligation at measurement date	\$ 1,386,718
Change in plan assets:	
Fair value of plan assets at beginning of year	\$ 1,119,842
Actual return on plan assets	159,787
Employer contribution	
Benefits paid including lump sum payment	(122,029)
Expenses paid	(2,980)
Fair value of plan assets at measurement date	\$ 1,154,620
Funded status:	
Projected benefit obligation at measurement date	\$ 1,386,718
Fair value of plan assets at measurement date	1,154,620
Funded status excess obligation at measurement date	\$ 232,098
Amounts not yet reflected in net periodic benefit cost and included in accumulated other comprehensive income (loss):	
Prior service cost	\$ 2,438
Accumulated actuarial losses	416,873
Amounts included in accumulated other comprehensive income (loss)	\$ 419,311

TJX also has an unfunded postretirement medical plan which was closed to new benefits in fiscal 2006. The amendment to the plan benefits in fiscal 2006 resulted in a negative plan amendment which was being amortized to income over the estimated average remaining life of the eligible plan participants.

During the first quarter of fiscal 2017, TJX terminated the unfunded postretirement medical plan and made a discretionary lump sum payment to participants. The settlement of the liability and the recognition of the remaining negative plan amendment resulted in a pre-tax benefit of \$5.5 million in the first quarter of fiscal 2017. Amortization from other comprehensive income to net income was \$864,000 for the quarter ended October 31, 2015 and \$2.6 million for the thirty-nine weeks ended October 31, 2015.

Note I. Long-Term Debt and Credit Lines

The table below presents long-term debt, exclusive of current installments, as of October 29, 2016, January 30, 2016 and October 31, 2015. All amounts are net of unamortized debt discounts.

In thousands	October 29, 2016	January 30, 2016	October 31, 2015
General corporate debt:			
6.95% senior unsecured notes, redeemed on October 12, 2016 (effective interest rate of 6.98% after reduction of unamortized debt discount of \$223 at January 30, 2016 and \$240 at October 31, 2015)	\$	\$ 374,777	\$ 374,760
2.50% senior unsecured notes, maturing May 15, 2023 (effective interest rate of 2.51% after reduction of unamortized debt discount of \$289 at October 29, 2016, \$323 at January 30, 2016 and \$335 at October 31, 2015)	499,711	499,677	499,665
2.75% senior unsecured notes, maturing June 15, 2021 (effective interest rate of 2.76% after reduction of unamortized debt discount of \$344 at October 29, 2016, \$400 at January 30, 2016 and \$418 at October 31, 2015)	749,656	749,600	749,582
2.25% senior unsecured notes, maturing September 15, 2026 (effective interest rate of 2.32% after reduction of unamortized debt discount of \$7,336 at October 29, 2016)	992,664		
Debt issuance cost	(15,118)	(9,051)	(9,478)
Long-term debt	\$ 2,226,913	\$ 1,615,003	\$ 1,614,529

On September 12, 2016, TJX issued \$1.0 billion aggregate principal amount of 2.25% ten-year notes due September 2026 all of which was outstanding at October 29, 2016. TJX entered into a rate-lock agreement to hedge \$700 million of the 2.25% notes. The cost of these agreements are being amortized to interest expense over the term of the notes resulting in an effective fixed rate of 2.36%. On October 12, 2016, TJX used a portion of the proceeds for the 2.25% ten-year notes to redeem all outstanding 6.95% ten-year notes and recorded a pre-tax loss on the early extinguishment of debt of \$51.8 million, which includes \$50.6 million of redemption premium and \$1.2 million to write off unamortized debt expenses and discount.

At October 29, 2016, TJX also had outstanding \$500 million aggregate principal amount of 2.50% ten-year notes due May 2023 and \$750 million aggregate principal amount of 2.75% seven-year notes, due June 2021. TJX entered into rate-lock agreements to hedge the underlying treasury rate of \$250 million of the 2.50% notes. The costs of these agreements are being amortized to interest expense over the term of the respective notes, resulting in an effective fixed interest rate of 2.57% for the 2.50% notes. TJX also entered into rate-lock agreements to hedge the underlying treasury rate of all of the 2.75% notes prior to their issuance. The agreements were accounted for as cash flow hedges and the pre-tax realized loss of \$7.9 million was recorded as a component of other comprehensive income and is being amortized to interest expense over the term of the notes, resulting in an effective fixed interest rate of 2.91%.

At October 29, 2016, TJX had two \$500 million revolving credit facilities, one which matures in March 2020 and one which matures in March 2021. At January 30, 2016 and October 31, 2015, TJX had two \$500 million revolving credit facilities, one which was scheduled to mature in May 2016 and one which was scheduled to mature in June 2017. In March 2016, the \$500 million revolving credit facility scheduled to mature in May 2016 was replaced with a new five-year \$500 million revolving credit facility maturing in March 2021 and the \$500 million revolving credit facility scheduled to mature in June 2017 was replaced with a new four-year \$500 million revolving credit facility maturing in March 2020. The terms and covenants under the new revolving credit facilities are similar to those in the terminated facilities and require quarterly payments of 6.0 basis points per annum on the committed amounts for both agreements. This rate is based on the credit ratings of TJX's long-term debt and would vary with specified changes in the credit ratings. These agreements had no compensating balance requirements and had various

covenants. Each of these facilities required TJX to maintain a ratio of funded debt and four-times consolidated rentals to consolidated earnings before interest, taxes, depreciation and amortization, and consolidated rentals (EBITDAR) of not more than 2.75 to 1.00 on a rolling four-quarter basis. TJX was in compliance with all covenants related to its credit facilities at October 29, 2016, January 30, 2016 and October 31, 2015. As of October 29, 2016, January 30, 2016 and October 31, 2015, and during the quarters and year then ended, there were no amounts outstanding under any of these facilities.

As of October 29, 2016, January 30, 2016 and October 31, 2015, TJX Canada had two uncommitted credit lines, a C\$10 million facility for operating expenses and a C\$10 million letter of credit facility. As of October 29, 2016, January 30, 2016 and October 31, 2015, there were no amounts outstanding on the Canadian credit line for operating expenses. As of October 29, 2016, January 30, 2016, and October 31, 2015, our European business at TJX International had an uncommitted credit line of £5 million. As of October 29, 2016, January 30, 2016, and October 31, 2015, and during the quarters and year then ended, there were no amounts outstanding on the European credit line.

Note J. Property at Cost

Presented below are the components of property at cost as of October 29, 2016, January 30, 2016 and October 31, 2015:

In thousands	October 29, 2016	January 30, 2016	October 31, 2015
Land and buildings	\$ 1,118,739	\$ 1,013,247	\$ 917,651
Leasehold costs and improvements	2,936,777	2,943,191	2,950,635
Furniture, fixtures and equipment	5,469,647	5,112,229	5,056,946
Total property at cost	\$ 9,525,163	\$ 9,068,667	\$ 8,925,232
Less accumulated depreciation and amortization	5,206,334	4,931,092	4,858,245
Net property at cost	\$ 4,318,829	\$ 4,137,575	\$ 4,066,987

Depreciation expense was \$484.5 million for the nine months ended October 29, 2016 and \$453.0 for the nine months ended October 31, 2015. Depreciation expense was \$612.8 million for the twelve months ended January 30, 2016.

Note K. Income Taxes

The effective income tax rate was 38.2% for the fiscal 2017 third quarter and 37.6% for the fiscal 2016 third quarter. The effective income tax rate for the nine months ended October 29, 2016 was 38.4% as compared to 37.9% for last year's comparable period. The increase in the effective income tax rate was primarily due to the jurisdictional mix of income and the increase in valuation allowance on foreign net operating losses. In addition, the fiscal 2016 effective income tax rates benefitted from a reduction in our reserve for uncertain tax positions related to our adoption of the new Tangible Property Regulations during the third quarter of that year.

TJX had net unrecognized tax benefits of \$37.4 million as of October 29, 2016, \$34.1 million as of January 30, 2016 and \$31.4 million as of October 31, 2015.

TJX is subject to U.S. federal income tax as well as income tax in multiple state, local and foreign jurisdictions. In the U.S., fiscal years through 2010 are no longer subject to examination. In Canada, fiscal years through 2008 are no longer subject to examination. In all other jurisdictions, fiscal years through 2009 are no longer subject to

examination.

TJX's accounting policy classifies interest and penalties related to income tax matters as part of income tax expense. The total accrued amount on the balance sheets for interest and penalties was \$7.8 million as of October 29, 2016, \$7.0 million as of January 30, 2016 and \$6.8 million as of October 31, 2015.

Based on the outcome of tax examinations or judicial or administrative proceedings, or as a result of the expiration of statute of limitations in specific jurisdictions, it is reasonably possible that unrecognized tax benefits for certain tax positions taken on previously filed tax returns may change materially from those presented in the financial statements. During the next 12 months, it is reasonably possible that tax examinations of prior years' tax returns or judicial or administrative proceedings that reflect such positions taken by TJX may be finalized. As a result, the total net amount of unrecognized tax benefits may decrease, which would reduce the provision for taxes on earnings, by a range of zero to \$12 million.

Note L. Contingent Obligations and Contingencies

Contingent Obligations: TJX has contingent obligations on leases, for which it was a lessee or guarantor, which were assigned to third parties without TJX being released by the landlords. Over many years, TJX has assigned numerous leases that it had originally leased or guaranteed to a significant number of third parties. With the exception of leases of former businesses for which TJX has reserved, the Company has rarely had a claim with respect to assigned leases, and accordingly, the Company does not expect that such leases will have a material adverse impact on its financial condition, results of operations or cash flows. TJX does not generally have sufficient information about these leases to estimate our potential contingent obligations under them, which could be triggered in the event that one or more of the current tenants does not fulfill their obligations related to one or more of these leases. TJX may also be contingently liable on up to nine leases of former TJX businesses, for which we believe the likelihood of future liability to TJX is remote.

TJX also has contingent obligations in connection with certain assigned or sublet properties that TJX is able to estimate. We estimate that the undiscounted obligations of (i) leases of former operations not included in our reserve for former operations and (ii) properties of our former operations if the subtenants do not fulfill their obligations, are approximately \$43 million as of October 29, 2016. We believe that most or all of these contingent obligations will not revert to us and, to the extent they do, will be resolved for substantially less due to mitigating factors including our expectation to further sublet.

TJX is a party to various agreements under which it may be obligated to indemnify the other party with respect to breach of warranty or losses related to such matters as title to assets sold, specified environmental matters or certain income taxes. These obligations are typically limited in time and amount. There are no amounts reflected in our balance sheets with respect to these contingent obligations.

Contingencies: TJX is subject to certain legal proceedings, lawsuits, disputes and claims that arise from time to time in the ordinary course of our business. In addition, TJX is a defendant in several lawsuits filed in federal and state courts brought as putative class or collective actions on behalf of various groups of current and former salaried and hourly associates in the U.S. The lawsuits allege violations of the Fair Labor Standards Act and of state wage and hour and other labor statutes, including alleged misclassification of positions as exempt from overtime, alleged entitlement to additional wages for alleged off-the-clock work by hourly employees and alleged failure to pay all wages due upon termination. TJX is also a defendant in lawsuits filed in federal courts brought as putative class actions on behalf of customers relating to TJX's compare at pricing. The lawsuits are in various procedural stages and seek unspecified monetary damages, injunctive relief and attorneys' fees. In connection with ongoing litigation, an immaterial amount has been accrued in the accompanying financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The Thirteen Weeks (third quarter) and Thirty-Nine Weeks (nine months) Ended October 29, 2016

Compared to

The Thirteen Weeks (third quarter) and Thirty-Nine Weeks (nine months) Ended October 31, 2015

Overview

We are the leading off-price apparel and home fashions retailer in the U.S. and worldwide. We sell a rapidly changing assortment of apparel, home fashions and other merchandise at prices generally 20% to 60% below department and specialty store regular prices on comparable merchandise, every day. We operate over 3,700 stores through our four main segments: in the U.S., Marmaxx (which operates T.J. Maxx, Marshalls and tjmaxx.com) and HomeGoods; TJX Canada (which operates Winners, HomeSense and Marshalls in Canada); and TJX International (which operates T.K. Maxx, HomeSense and tkmaxx.com in Europe, and Trade Secret in Australia). In the U.S., we also operate Sierra Trading Post (STP), an off-price Internet retailer with a small number of stores. The results of STP are reported in our Marmaxx segment.

Results of Operations

Highlights of our financial performance for the third quarter ended October 29, 2016 include the following:

Same store sales increased 5% in the third quarter of fiscal 2017 over an increase of 5% in the third quarter of fiscal 2016. The increase in same store sales was primarily driven by an increase in customer traffic. We also had an increase in units sold, largely offset by a reduction in the average ticket.

Net sales increased 7% to \$8.3 billion for the fiscal 2017 third quarter and increased 8% to \$23.7 billion for the nine-month period over last year's comparable periods. At October 29, 2016, stores in operation increased 5% and selling square footage increased 4% compared to the end of the fiscal 2016 third quarter. Trade Secret, which was acquired on October 24, 2015, is reflected in our store base and selling square footage as of October 31, 2015. Overall, we saw strong growth in sales for home fashions and apparel in the third quarter and the first nine months of fiscal 2017.

Diluted earnings per share for the third quarter of fiscal 2017 were \$0.83 versus \$0.86 per share in the third quarter of fiscal 2016. The fiscal 2017 third quarter impact of an early extinguishment of debt charge and a pension settlement charge, collectively reduced earnings per share by \$.08 per share.

Our pre-tax margin (the ratio of pre-tax income to net sales) for the third quarter of fiscal 2017 was 10.7%. The debt extinguishment charge and pension settlement charge reduced fiscal 2017 third quarter pre-tax margin by 1.0 percentage point.

Our cost of sales ratio for the third quarter of fiscal 2017 was 70.5%, a 0.5 percentage point decrease compared to the third quarter last year. This improvement was driven by an improved merchandise margin

and foreign currency gains related to our inventory hedges.

Our selling, general and administrative expense ratio for the third quarter of fiscal 2017 was 17.6%, up 0.9 percentage points compared to the prior year's third quarter ratio. The increase in this ratio was primarily due to higher employee payroll costs as a result of wage increases along with investments to support our growth.

Our consolidated average per store inventories, including inventory on hand at our distribution centers (which excludes inventory in transit) and excluding our e-commerce businesses, decreased 5% on a reported basis and decreased 2% on a constant currency basis at the end of the third quarter of fiscal 2017 as compared to the prior year.

During the third quarter of fiscal 2017, we repurchased 5.2 million shares of our common stock at a cost of \$400 million under our buyback program.

The following is a discussion of our consolidated operating results, followed by a discussion of our segment operating results.

Net sales: Consolidated net sales for the third quarter ended October 29, 2016 totaled \$8.3 billion, a 7% increase over consolidated net sales of \$7.8 billion for the third quarter ended October 31, 2015. The increase reflected a 5% increase in same store sales and a 4% increase from new store sales, offset by a 2% negative impact from foreign currency exchange rates. This increase compares to sales growth of 5% in last year's third quarter, which reflected a 5% increase from same store sales, a 3% increase in new store sales, and a 3% negative impact from foreign currency exchange rates.

Consolidated net sales for the nine months ended October 29, 2016 totaled \$23.7 billion, an 8% increase over \$22.0 billion in last year's comparable period. The increase reflected a 5% increase in same store sales and a 4% increase from new store sales, offset by a 1% negative impact from foreign currency exchange rates. This compares to sales growth of 6% in the nine-month period of fiscal 2016, which reflected a 5% increase in same store sales, a 4% increase from new store sales, and a 3% negative impact from foreign currency exchange rates.

As of October 29, 2016, our consolidated store count increased 5% and selling square footage increased 4% compared to the end of the third quarter last year. Trade Secret, which was acquired on October 24, 2015, is reflected in our store base and selling square footage as of October 31, 2015.

The consolidated same store sales increase for the third quarter and nine months ended October 29, 2016 was primarily driven by an increase in customer traffic. We also had a strong increase in units sold which was largely offset by a decrease in the average ticket. On a consolidated basis, home fashions outperformed apparel categories and both categories posted strong same store sales growth. In the U.S., virtually all regions posted strong same store sales increases. In Canada, same store sales were well above the consolidated average for both the fiscal 2017 third quarter and nine month periods. Same store sales for our International segment were below the consolidated average for the third quarter and nine months ended October 29, 2016.

We define same store sales to be sales of those stores that we have operated for all or a portion of two consecutive fiscal years, or in other words, stores that are starting their third fiscal year of operation. The sales of Sierra Trading Post (including stores), tjmaxx.com and tkmaxx.com (our e-commerce businesses) are not included in same store sales. We classify a store as a new store until it meets the same store sales criteria. The newly acquired Trade Secret stores will be included in same store sales when they meet the above definition. We determine which stores are included in the same store sales calculation at the beginning of a fiscal year and the classification remains constant throughout that year unless a store is closed. We calculate same store sales results by comparing the current and prior year weekly periods that are most closely aligned. Relocated stores and stores that have increased in size are generally classified in the same way as the original store, and we believe that the impact of these stores on the consolidated same store percentage is immaterial. Same store sales of our foreign segments are calculated on a constant currency basis, meaning we translate the current year's same store sales of our foreign segments at the same exchange rates used in the prior year. This removes the effect of changes in currency exchange rates, which we believe is a more accurate measure of segment operating performance. We define customer traffic to be the number of transactions in stores included in the same store sales calculation and define average ticket to be the average retail price of the units sold. We define average transaction to be the average dollar value of transactions included in the same store sales calculation.

The following table sets forth certain information about our consolidated operating results as a percentage of net sales for the following periods:

	Percentage of Net Sales Thirteen Weeks Ended October 29, 2016	Percentage of Net Sales Thirteen Weeks Ended October 31, 2015
Net sales	100.0%	100.0%
Cost of sales, including buying and occupancy costs	70.5	71.0
Selling, general and administrative expenses	17.6	16.7
Loss on early extinguishment of debt	0.6	
Pension settlement charge	0.4	
Interest expense, net	0.2	0.2
Income before provision for income taxes*	10.7%	12.1%

* Figures may not foot due to rounding

	Percentage of Net Sales Thirty-Nine Weeks Ended October 29, 2016	Percentage of Net Sales Thirty-Nine Weeks Ended October 31, 2015
Net sales	100.0%	100.0%
Cost of sales, including buying and occupancy costs	70.7	71.2
Selling, general and administrative expenses	17.7	16.9
Loss on early extinguishment of debt	0.2	
Pension settlement charge	0.1	
Interest expense, net	0.1	0.2
Income before provision for income taxes*	11.1%	11.8%

* Figures may not foot due to rounding

Impact of foreign currency exchange rates: Our operating results are affected by foreign currency exchange rates as a result of changes in the value of the U.S. dollar or a division's local currency in relation to other currencies. Two ways in which foreign currency exchange rates affect our reported results are as follows:

Translation of foreign operating results into U.S. dollars: In our financial statements, we translate the operations of TJX Canada and TJX International from local currencies into U.S. dollars using currency rates in effect at different points in time. Significant changes in foreign exchange rates between comparable prior periods can result in meaningful variations in consolidated net sales, net income and earnings per share growth as well as the net sales and operating results of these segments. Currency translation generally does not affect operating margins, or affects them only slightly, as sales and expenses of the foreign operations are translated at approximately the same rates within a given period.

Inventory-related derivatives: We routinely enter into inventory-related hedging instruments to mitigate the impact on earnings of changes in foreign currency exchange rates on merchandise purchases denominated in currencies other than the local currencies of our divisions, principally TJX Canada and TJX International. As we have not elected hedge accounting for these instruments, as defined by U.S. generally accepted accounting principles (GAAP), we record a mark-to-market gain or loss on the derivative instruments in our results of operations at the end of each reporting period. In subsequent

periods, the income statement impact of the mark-to-market adjustment is effectively offset when the inventory being hedged is received and paid for. While these effects occur every reporting period, they are of much greater magnitude when there are sudden and significant changes in currency exchange rates during a short period of time. The mark-to-market adjustment on these derivatives does not affect net sales, but it does affect the cost of sales, operating margins and earnings we report.

We refer to the impact of the above two items throughout our discussion as foreign currency. This does not include the impact currency exchange rates can have on various transactions that are denominated in a currency other than an operating division's local currency. When discussing the impact on our results of the effect of currency exchange rates on such transactions we refer to it as transactional foreign exchange.

Cost of sales, including buying and occupancy costs: Cost of sales, including buying and occupancy costs, as a percentage of net sales improved by 0.5 percentage points to 70.5% for the third quarter of fiscal 2017 and improved by 0.5 percentage points to 70.7% for the nine months ended October 29, 2016 compared to the same periods last year. The improvement for the third quarter was driven by an increase in consolidated merchandise margin of 0.4 percentage points and the favorable impact of the mark-to-market of our inventory derivatives of 0.2 percentage points. This ratio also reflects a favorable impact of buying and occupancy expense leverage. These improvements were partially offset by an increase in distribution center costs as a percentage of net sales due to the impact of processing more units as well as additional investments in the supply chain network. The improvement for the nine-month period was also driven by an increase in consolidated merchandise margin of 0.3 percentage points along with expense leverage (particularly occupancy costs of 0.3 percentage points) on the strong same store sales growth. These gains were partially offset by an increase in the distribution costs as a percentage of net sales for the same reasons described above.

Selling, general and administrative expenses: Selling, general and administrative expenses, as a percentage of net sales, were 17.6% in the third quarter of fiscal 2017, up 0.9 percentage points over last year's ratio and increased by 0.8 percentage points to 17.7% for the nine months ended October 29, 2016 as compared to the same period last year. The major factor for this increase for both the third quarter and nine months is due to higher store payroll costs resulting from wage increases as well as the impact of handling the increase in units. This expense ratio also reflects the impact of investments to support our growth (primarily technology related), and incremental credit card chargeback costs.

Loss on early extinguishment of debt: On September 12, 2016 we issued \$1.0 billion of 2.25% ten year notes. We used a portion of the proceeds to redeem our \$375 million 6.95% notes on October 12, 2016, prior to their scheduled maturity of April 15, 2019. We recorded a pre-tax loss on the early extinguishment of debt of \$51.8 million.

Pension settlement charge: During the fiscal 2017 third quarter, we offered eligible former TJX Associates, who had not yet commenced receiving their qualified pension plan benefit, an opportunity to receive a lump sum payout of their vested pension benefit. On October 21, 2016, TJX's qualified pension plan paid \$103.2 million from pension plan assets to those who accepted this offer. This transaction had no cash impact on TJX, but did result in a non-cash pre-tax settlement charge of \$31.2 million.

Interest expense, net: Interest expense, net decreased \$0.5 million for the third quarter ended October 29, 2016 and decreased \$1.5 million for the fiscal 2017 year-to-date period as compared to last year. The components of interest expense, net are summarized below:

Dollars in thousands	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-Q

Interest expense	\$ 18,906	\$ 17,084	\$ 52,851	\$ 51,211
Capitalized interest	(1,948)	(1,168)	(6,351)	(6,062)
Interest (income)	(4,496)	(2,911)	(12,582)	(9,712)
Interest expense, net	\$ 12,462	\$ 13,005	\$ 33,918	\$ 35,437

For both the quarter and first nine months of fiscal 2017, the reduction in net interest expense is driven by additional interest income, primarily due to an increase in invested balances. This offset the increase in gross interest expense which was due to the 2.25% ten year notes issued in September 2016.

Income taxes: The effective income tax rate was 38.2% for the fiscal 2017 third quarter compared to 37.6% for the fiscal 2016 third quarter. For the nine months ended October 29, 2016 the effective income tax rate was 38.4% as compared to 37.9% for the nine months ended October 31, 2015. The increase in the effective income tax rate was primarily due to the jurisdictional mix of income and the increase in valuation allowance on foreign net operating losses. In addition, the fiscal 2016 effective income tax rates benefitted from a reduction in our reserve for uncertain tax positions related to our adoption of the new Tangible Property Regulations.

Net income and net income per share: Net income for the third quarter of fiscal 2017 was \$549.8 million, or \$0.83 per diluted share, versus \$587.3 million, or \$0.86 per diluted share, in last year's third quarter. Foreign currency had a \$0.01 negative impact on earnings per share for both the third quarter of fiscal 2017 as well as the third quarter of fiscal 2016. Net income for the nine months ended October 29, 2016 was \$1.6 billion, or \$2.43 per diluted share, compared to \$1.6 billion, or \$2.35 per diluted share, in last year's comparable period. Foreign currency had a \$0.03 negative impact on earnings per share in the first nine months of fiscal 2017 compared to a \$0.02 negative impact on earnings per share in the prior year. The loss on early extinguishment of debt and the pension settlement charge, collectively reduced net income by \$50.0 million, or \$0.08 per share, for both the third quarter and nine months ended October 29, 2016.

Our stock repurchase programs, which reduce our weighted average diluted shares outstanding, benefited our earnings per share growth by approximately three percent in both the third quarter and first nine months of fiscal 2017. During the third quarter of fiscal 2017, we repurchased 5.2 million shares of our common stock at a cost of \$400.0 million. For the first nine months of fiscal 2017, we repurchased 15.4 million shares of our common stock at a cost of \$1.2 billion.

Segment information: We operate four main business segments. The Marmaxx segment (T.J. Maxx, Marshalls and tjmaxx.com) and the HomeGoods segment both operate in the United States. Our TJX Canada segment operates Winners, HomeSense and Marshalls in Canada, and our TJX International segment operates T.K. Maxx, HomeSense and tkmaxx.com in Europe and Trade Secret in Australia. We also operate STP, an off-price Internet retailer that operates a small number of stores in the U.S. The results of STP have been included in our Marmaxx segment. The former TJX Europe segment was renamed TJX International in the fourth quarter of fiscal 2016 to reflect the acquisition of Trade Secret in Australia.

We evaluate the performance of our segments based on segment profit or loss, which we define as pre-tax income or loss before general corporate expense and interest expense. Segment profit or loss, as we define the term, may not be comparable to similarly titled measures used by other entities. The terms segment margin or segment profit margin are used to describe segment profit or loss as a percentage of net sales. These measures of performance should not be considered an alternative to net income or cash flows from operating activities as an indicator of our performance or as a measure of liquidity.

Presented below is selected financial information related to our business segments:

U.S. Segments:

Marmaxx

Dollars in millions	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Net sales	\$ 5,252.8	\$ 4,926.5	\$ 15,217.2	\$ 14,227.8
Segment profit	\$ 703.1	\$ 678.3	\$ 2,154.2	\$ 2,046.2
Segment profit as a percentage of net sales	13.4%	13.8%	14.2%	14.4%
Increase in same store sales	5%	3%	5%	3%
Stores in operation at end of period				
T.J. Maxx			1,179	1,149
Marshalls			1,027	1,001
Sierra Trading Post			11	7
Total			2,217	2,157
Selling square footage at end of period (in thousands)				
T.J. Maxx			26,501	26,008
Marshalls			24,614	24,197
Sierra Trading Post			209	142
Total			51,324	50,347

Net sales for Marmaxx increased 7% for both the third quarter and nine months ended October 29, 2016 over the prior fiscal year's comparable periods. This increase for both the quarter and first nine months reflected same store sales increases of 5% and a 2% increase from new stores. Same store sales growth at Marmaxx for the third quarter and nine months ended October 29, 2016 was mainly driven by an increase in customer traffic. Marmaxx sales for both periods also reflected an increase in units sold which was largely offset by a decrease in the average ticket. Geographically, same store sales growth in both the quarter and the nine month period was widespread as most regions were near the divisional average. Home fashions outperformed apparel in both periods with both categories posting strong same store sales growth.

Segment profit margin decreased to 13.4% for the third quarter of fiscal 2017 compared to 13.8% for the same period last year. Segment margin for the nine months ended October 29, 2016 decreased to 14.2% compared to 14.4% in the same period last year. Marmaxx results reflected an increase in merchandise margins of 0.5 percentage points for the third quarter and 0.4 percentage points for the nine-month period. Segment profit margin also benefitted from buying and occupancy expense leverage on strong same store sales growth. These gains were more than offset by numerous factors, including higher store payroll due to wage increases and handling an increase in units, as well as higher distribution costs primarily due to processing the increased units, which combined reduced segment margin by 0.9 percentage points in the third quarter and 0.6 percentage points for the first nine months. Segment margin for the fiscal 2017 periods was also unfavorably impacted by incremental credit card chargeback costs. Our e-commerce businesses, which represent less than 2% of Marmaxx's net sales, did not have a significant impact on year-over-year segment margin comparisons for the third quarter or first nine months of fiscal 2017.

HomeGoods

Dollars in millions	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Net sales	\$ 1,078.4	\$ 959.8	\$ 3,075.5	\$ 2,735.4
Segment profit	\$ 149.7	\$ 134.6	\$ 416.0	\$ 368.0
Segment profit as a percentage of net sales	13.9%	14.0%	13.5%	13.5%
Increase in same store sales	6%	6%	7%	8%
Stores in operation at end of period			568	522
Selling square footage at end of period (in thousands)			10,931	10,169

HomeGoods net sales increased 12% in the third quarter and 12% in the first nine months of fiscal 2017 compared to the same periods last year. The sales increase for the third quarter reflects a 6% increase in same store sales and a 6% increase from new store sales. The sales increase for the nine-month period reflects a 7% increase in same store sales and a 5% increase from new store sales. The increases in same store sales for both the third quarter and nine-month period were largely driven by an increase in customer traffic along with an increase in units sold.

Segment profit margin was 13.9% for the third quarter of fiscal 2017 compared to 14.0% for the same period last year. Segment profit margin was 13.5% for the nine months ended October 29, 2016 compared to 13.5% for the nine months ended October 31, 2015. Segment margin was favorably impacted by occupancy expense leverage on strong same store sales growth as well as an increase in merchandise margin. These third quarter gains were more than offset by higher store payroll costs due to wage increases, an increase in distribution center costs, as HomeGoods invests in its supply chain, as well as an increase in credit card chargeback costs. Segment margin for the nine months was favorably impacted by improved merchandise margin and occupancy expense leverage however, these improvements were offset by the same items that negatively impacted the third quarter.

Total			8,920	8,345

Net sales for TJX Canada increased 14% during the third quarter and increased 11% over the nine months ended October 29, 2016 compared to the same periods last year. The quarterly increase reflects an 8% increase in same store sales growth on a constant currency basis, 5% from new store sales and a favorable impact from currency translation of 1%. The nine-month increase in net sales included same store sales growth of 10% on a constant currency basis and 4% from new store sales, which was offset by a negative 3% impact due to currency translation. The increase in same store sales for the fiscal 2017 third quarter was due to an increase in customer traffic along with a comparable increase in the value of the average transaction. The increase in same store sales for the nine month period was driven primarily by an increase in customer traffic as well as an increase in the value of the average transaction.

Segment profit margin was to 16.7% for the fiscal 2017 third quarter compared to 15.0% for last year's third quarter and was 14.0% for the nine months ended October 29, 2016 compared to 13.4% for the prior year's first nine months. The increase in segment margin for the quarter was driven by the favorable impact of the mark to market of inventory derivatives of 2.7 percentage points along with buying and occupancy expense leverage on the same store sales growth. These improvements were partially offset by an increase in supply chain and distribution costs, including the opening of a new distribution facility, as well as a decrease in merchandise margin. The increase in segment margin for the nine month period reflects the same factors. The favorable impact of the mark to market of inventory derivatives was 0.9 percentage points and occupancy expense leverage benefitted segment margin by approximately 0.6 percentage points for the first nine months. These improvements were partially offset by a decline in merchandise margin and an increase in distribution costs in connection with a new distribution center. The decrease in merchandise margin for both periods, which was greater in the year-to-date period, was driven by transactional foreign exchange as the change in currency exchange rates increased TJX Canada's cost of merchandise purchased in U.S. dollars as

compared to the same periods last year.

TJX International

U.S. Dollars in millions	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015

Total			12,184	11,250

Net sales for TJX International decreased 1% for the third quarter and increased 6% for the nine months ended October 29, 2016 compared to the same periods last year. The decrease in sales for the quarter was entirely due to foreign currency translation which negatively impacted third quarter sales by 14%, more than offsetting a 13% increase from new stores, which includes 3% from Trade Secret in Australia. Same stores sales were flat with last year. The increase in sales for the nine-month period reflected an increase of 13% from new stores, including 3% from Trade Secret in Australia, and 2% from same store sales, which was offset by foreign currency translation which negatively impacted year-to-date sales growth by 9%. We believe same store sales results for the third quarter were impacted by unseasonably warm weather in the fall and a challenging retail environment in Europe. Europe had an increase in customer traffic which was offset by a decline in the value of the average transaction for both the third quarter and the nine months ended October 29, 2016.

Segment profit margin for the third quarter of fiscal 2017 decreased 2.5 percentage points to 7.9%. For the nine months ended October 29, 2016, segment profit margin decreased 1.9 percentage points to 4.6%. Foreign currency unfavorably impacted year-over-year comparisons by 0.8 percentage points for the third quarter and 0.2 percentage points for the nine months ended October 29, 2016. The biggest factor impacting the decrease in segment margin for both the third quarter and first nine months is the integration of Trade Secret into this segment which reduced segment margin by approximately 1 percentage point in both periods. In addition segment margin was negatively impacted by expense deleverage on the weak same store sales as well as investments to support our growth and expansion in Europe and higher store payroll costs.

General corporate expense

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-Q

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Dollars in millions				
General corporate expense	\$ 97.9	\$ 87.1	\$ 291.0	\$ 256.8

General corporate expense for segment reporting purposes represents those costs not specifically related to the operations of our business segments. Virtually all general corporate expenses are included in selling, general and administrative expenses.

The increase in general corporate expense for the third quarter and first nine months of fiscal 2017, as compared to the prior year, is primarily due to higher systems and technology costs along with incremental employee benefit costs.

Analysis of Financial Condition

Liquidity and Capital Resources

Net cash provided by operating activities was \$2,087 million for the nine months ended October 29, 2016, an increase of \$431 million from the \$1,657 million provided in the nine months ended October 31, 2015. Net income, adjusted for non-cash items and the early extinguishment of debt, provided \$169 million of additional operating cash flows in the first nine months of fiscal 2017 as compared to the same period last year. The change in merchandise inventory, net of the related change in accounts payable, which resulted in a use of cash of \$234 million in the first nine months of fiscal 2017 compared to a use of cash of \$521 million in the first nine months of fiscal 2016 favorably impacted year over year cash flows by \$287 million. This favorable impact on cash flows for the first nine months of fiscal 2017 is attributable in part to additional cash outflows during last year's third quarter as inventory levels were increased to meet demand. In addition, this year's operating cash flows as compared to last year were unfavorably impacted by the timing of the Company's funding of medical claims. The reserve for medical claims at the beginning of last year was prefunded as of January 2015 while the reserve requirement at the beginning of this fiscal year was funded during the first nine months of fiscal 2017.

Investing activities in the first nine months of fiscal 2017 primarily reflected property additions for new stores, store improvements and renovations and investment in our home offices and our distribution network (including buying and merchandising systems and information systems). Cash outflows for property additions amounted to \$767 million in the nine months ended October 29, 2016 compared to \$651 million in the comparable period last year. We anticipate that capital spending for fiscal 2017 will be approximately \$1.1 billion. We also purchased \$534 million of investments in the first nine months of fiscal 2017 versus \$643 million in the prior year and \$432 million of investments were sold or matured in the first nine months of fiscal 2017 versus \$502 million in the prior year. This activity primarily related to short-term investments which had initial maturities in excess of 90 days and, per our policy, are not classified as cash on the consolidated balance sheets presented.

Cash flows from financing activities resulted in a net cash outflow of \$932 million in the first nine months of fiscal 2017 compared to a net cash outflow of \$1,565 million in the same period last year. During the fiscal 2017 third quarter we received net proceeds of \$992.5 million from the issuance of \$1 billion of 2.25% ten year notes. A portion of the proceeds were used to redeem our \$375 million 6.95% notes prior to their scheduled maturity. The redemption of the notes, including the prepayment penalty, resulted in cash outflows of \$426 million. Financing activities include the cash flows relating to our repurchases of our common stock. We spent \$1,175 million to repurchase 15.4 million shares of our stock in the first nine months of fiscal 2017 compared to \$1,296 million to repurchase 18.9 million shares in the same period last year. See Note D to our unaudited consolidated financial statements for more information. In February 2016, we announced an additional repurchase program authorizing the repurchase of up to an additional \$2.0 billion of TJX stock from time to time. We currently plan to repurchase approximately \$1.5 billion to \$2.0 billion of stock under our stock repurchase programs in fiscal 2017. We determine the timing and amount of repurchases based on our assessment of various factors including excess cash flow, liquidity, economic and market conditions, our assessment of prospects for our business, legal requirements and other factors. The timing and amount of these purchases may change. Financing activities also included \$171 million of proceeds, including excess tax benefits, related to the exercise of stock options in the first nine months of fiscal 2017 versus \$136 million in proceeds in the same period last year. Dividends paid on common stock in the first nine months of fiscal 2017 were \$482 million versus \$404 million in the same period last year.

We traditionally have funded our working capital requirements, including for seasonal merchandise, primarily through cash generated from operations, supplemented, as needed, by short-term bank borrowings and the issuance of

commercial paper. As of October 29, 2016, approximately 48% of our cash was held by our foreign subsidiaries with \$253 million held in countries where we have the intention to reinvest any undistributed earnings indefinitely. We have provided for deferred U.S. taxes on all undistributed earnings of our subsidiaries in Canada, Puerto Rico, Italy, India, Hong Kong, and Australia. If we repatriate cash from these subsidiaries, we should not incur additional

tax expense, but our cash would be reduced by the amount of taxes paid. For all other foreign subsidiaries, no income taxes have been provided on the undistributed earnings because such earnings are considered to be indefinitely reinvested in the business. We have no current plans to repatriate cash balances held by such foreign subsidiaries. We believe our existing cash and cash equivalents, internally generated funds and our credit facilities, described in Note I to the unaudited consolidated financial statements, are more than adequate to meet our operating needs over the next fiscal year.

Recently Issued Accounting Pronouncements

See Note A to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q, for recently issued accounting standards, including the dates of adoption and estimated effects on our results of operations, financial position or cash flows.

Forward-looking Statements

Various statements made in this Quarterly Report on Form 10-Q are forward-looking and involve a number of risks and uncertainties. All statements that address activities, events or developments that we intend, expect or believe may occur in the future are forward-looking statements. The following are some of the factors that could cause actual results to differ materially from the forward-looking statements: execution of buying strategy and inventory management; operational and business expansion and management of large size and scale; customer trends and preferences; various marketing efforts; competition; personnel recruitment, training and retention; labor costs and workforce challenges; data security; information systems and new technology; economic conditions and consumer spending; adverse or unseasonable weather; serious disruptions or catastrophic events; disruptions in the second half of the fiscal year; corporate and retail banner reputation; quality, safety and other issues with merchandise; expanding international operations; merchandise importing; commodity availability and pricing; fluctuations in currency exchange rates; fluctuations in quarterly operating results and market expectations; mergers, acquisitions, or business investments, divestitures, closings or business consolidations; compliance with laws, regulations and orders and changes in laws, regulations and applicable accounting standards; outcomes of litigation, legal proceedings and other legal or regulatory matters; tax matters; real estate activities; cash flow and other factors that may be described in our filings with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission. We do not undertake to publicly update or revise our forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied in such statements will not be realized.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended January 30, 2016.

Item 4. Controls and Procedures.

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of October 29, 2016 pursuant to Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level in ensuring that information required to be disclosed by us in the reports that we file or submit under the Act is (i) recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms; and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely

decisions regarding required disclosures. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of implementing controls and procedures.

There were no changes in our internal control over financial reporting, (as defined in Rules 13a-15(f) and 15d-15(f) under the Act) during the fiscal quarter ended October 29, 2016 identified in connection with the evaluation by our management, including our Chief Executive Officer and Chief Financial Officer, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

Not applicable

Item 1A. Risk Factors.

There have been no material changes to the risk factors disclosed in the Risk Factors section of our Annual Report on Form 10-K for the year ended January 30, 2016, as filed with the Securities Exchange Commission on March 29, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Information on Share Repurchases

The number of shares of common stock repurchased by TJX during the third quarter of fiscal 2017 and the average price paid per share are as follows:

	Total Number of Shares Repurchased (1)	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(3)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs
July 31, 2016 through August 27, 2016	1,309,962	\$ 80.15	1,309,962	\$ 2,610,761,235
August 28, 2016 through September 1, 2016	2,105,073	\$ 76.01	2,105,073	\$ 2,450,761,309
September 2, 2016 through October 29, 2016	1,812,112	\$ 74.50	1,812,112	\$ 2,315,760,427
Total:	5,227,147		5,227,147	

(1) Consists of shares repurchased under publicly announced stock repurchase programs.

(2) Includes commissions for the shares repurchased under stock repurchase programs.

- (3) In February 2015, TJX announced a \$2.0 billion stock repurchase program, under which \$316 million remained available as of October 29, 2016. Additionally, in February 2016, TJX announced its 17th stock repurchase program authorizing an additional \$2.0 billion in repurchases from time to time.

Item 6. Exhibits.
