Management's Discussion of Funds Performance

(unaudited)

Economic Environment

Over the fiscal year ended August 31, 2017, the global economy continued to slowly expand, with some areas of note showing improvements, while others were showing signs of slight sluggishness.

After raising the fed funds rate from a 0% - 0.50% target to a 0.50% - 0.75% target in December of 2016, the U.S. Federal Reserve (Fed) continued its path of raising rates in March and June of 2017, to targets of 0.75% - 1.00% and 1.00% - 1.25%, respectively. In doing so, the Fed continued their intent to gradually normalize short term interest rates. Since August 31, 2017, the Fed has announced their intent to begin normalizing their \$4.5 trillion balance sheet, with runoffs scheduled to start in October of 2017 and for subsequent quarters. In addition, they indicated one more potential rate hike in 2017 occurring, with the possibility of three rate hikes in 2018.

Calendar year 2017 began with the continuation of the inflation trade post-President Trump's election into office in November of 2016. U.S. equity markets have continued their historical bull run, with a near 18.5% return in the S&P 500 Index since the election and 16.23% for the fiscal year ending August 31, 2017. A combination of global reflation, positive corporate earnings and financials, as well as hopes for deregulation, repatriation, and tax reform have continued to drive markets to all-time highs. Despite a myriad of headlines surrounding economic fears of a recession, geopolitical fears surrounding President Trump, North Korea, and natural disasters, these Teflon markets have shrugged off any short-term volatility in stride and have continued to settle at newer highs.

However, as commodity markets began to stabilize running into the end of 2016, crude oil prices have since been largely range-bound between \$54 and \$42 a barrel through the end of August 2017. The first 7 months of 2017 showed continued downward pressure on prices, with only the last few months showing regained strength.

The U.S. dollar continued its multi-year rally from August 31, 2016 through the end of calendar year 2016, seeing a 6.4% increase. However, what followed for 2017 would be the biggest weakening period for the U.S. dollar in nearly a decade. The Dollar Spot Index ended the fiscal year at 92.7 as of August 31, 2017. This is a nearly 9.3% drop since the beginning of the year (102.2), and as a result, emerging market (EM) assets broadly have seen a sharp and steady rebound throughout most of the year. Much of the EM rally has also not been driven by commodity prices like in years past, but rather improving sectors such as Financials and Technology.

After the June Brexit vote in 2016, global bond yields and stock markets fell as they priced in expectations for slower economic growth in the U.K. and Europe at large. Since then, U.K. and European GDP forecasts and markets have rallied sharply, erasing most of the losses that occurred after the vote. In some cases, these rebounds have surpassed pre-vote levels. While some of this fueled by the weakening U.S. dollar, the European recovery has a handful of catalysts that could help drive markets farther; the unraveling of the Trump Trade as we have seen in recent weeks, the market-friendly results in most of the European elections that occurred this year, as well as improved corporate earnings and economic growth.

To conclude, the global outlook largely remains policy and interest rates dependent. Barring any geopolitical crisis, much of the concepts that have driven movements for the first 8 months of 2017 should continue through the end of the year and into next year, hinged on the ideas of improved financials, low and steady U.S. interest rate increases, and the enactment of market-friendly policies.

Foreign Exchange and Fixed Income Markets

In the developed world, Japanese policy makers continue to target policy rates below zero like their European Central Bank (ECB) counterparts. European government bond yields continued to grind lower, with some countries experiencing negative bond yields out

Table of Contents**Management's Discussion of Funds Performance** (audited) (continued)

through 10 years. ECB President Mario Draghi has not said when or if he will begin to taper off of their Quantitative Easing (QE) program, or if he intends on raising rates in the future, but has indicated his willingness to do what is necessary when the time is right, perhaps learning from his premature announcements and policies of years past. As of August 31, 2017, U.K. 10-year bonds are up fiscal year from 0.64% to 1.03%, German 10-year bonds are up from -0.07% to 0.36%, while Japan 10-year bond yields have been relatively near their 0% pegged yield.

In the U.S., the 10-year treasury yield has experienced some volatility during the fiscal year. The 10-year yield started at 1.58% on August 31, 2016 and ended at 2.44% on December 31, 2016. 10-year treasury yields rose as high as 2.63% following the first rate-hike of 2017, but have been largely in a downward trend since then. The 10-year yield fell to 2.12% by the end of August 2017. U.S. 10-Year – 2 Year spreads have come full circle after starting the fiscal year at 0.77%, widening to as high as 1.36%, and then tightening back to 0.79% at the end of August 2017. With the Fed signaling for a low and slow rate hiking cycle, corporate investment grade and high yield spreads tightened. For high yield spreads, they tightened by about 1.12% over the fiscal year (4.90% vs. 3.78%), and were as low as 3.44% in early March 2017. For investment grade spreads, they tightened by about 0.25% (1.35% to 1.10%), which also saw lows of 1.02% in late July and early August of 2017. Similar to last year, yields in emerging market bonds (both sovereign and corporates) fell, resulting in positive performance. Also, locally-denominated EM sovereign debt provided positive returns resulting from declining local bond yields, a weakening U.S. dollar, and EM currency appreciation.

On the currency front, the U.S. dollar has seen sharp declines from its highs in the beginning of 2017, helping to strengthen the Japanese yen and Euro considerably. Japanese yen strengthening can also be contributed by those seeking a safer haven asset from the growing geopolitical risk of the United States, while impactful European elections yielded market favorable outcomes and signs of improving economic outlooks have helped strengthen the Euro. Several risk-off trading sessions propelled the Japanese yen even higher as the currency was viewed as a safe haven asset. Additionally, currencies of heavy commodity exporters such as the Norwegian krone and Canadian dollar have ended the fiscal year positive as China concerns subsided and commodity prices roared back. Along the same previously mentioned ideas, EM and European currencies were among the best performing currencies during the fiscal year. For the fiscal year ended August 31, 2017, the South African rand appreciated 13.29%, the Russian ruble 12.63%, the Polish zloty 9.57% and Czech koruna appreciated 10.50%. After the Trump campaign rhetoric failed to materialize substantive policies, many investors took back increased exposure into the Mexican Peso, as it appreciated 15.9% from the beginning of 2017 to August 31, 2017, and 5.02% during the fiscal year.

Fixed Income and Currency Strategy Funds Performance

For the fiscal year ending August 31, 2017, 12 of 13 fixed income and currency strategy funds (excluding funds with less than six months of operating history) had positive performance based on net asset value (NAV).

Currency Strategy Funds

Currency appreciation and income returns were strong drivers of fund performance over the fiscal year, while the currency strategy funds continued to achieve exposure to the applicable currency markets by investing primarily in short-term U.S. money market securities and forward currency contracts.

The **WisdomTree Bloomberg U.S. Dollar Bullish Fund** returned -2.66% over the fiscal year based on NAV, underperforming its industry reference benchmark, the Bloomberg U.S. Dollar Total Return Index, by 0.11%. Geopolitical concerns contributed to a weakening of the U.S. dollar in 2017, and therefore was a detractor from Fund performance for the fiscal year. The slight underperformance to its industry reference benchmark was primarily due to changes in the value of forward currency contracts and deductions for Fund expenses.

Table of Contents**Management's Discussion of Funds Performance** (audited) (continued)

For the two single currency funds for the fiscal year, both funds produced total returns based on NAV which exceeded the change in value of the underlying currency (see pages 7 and 8 herein for standardized performance tables for each single currency fund). Of the strongest performing single currency funds, the **WisdomTree Brazilian Real Strategy Fund** (the Brazilian Real Strategy Fund) generated total returns for the fiscal year that were significantly greater than the underlying change in the spot return of the currency. Spot currency returns represent the change in foreign exchange rates versus the U.S. dollar available for immediate delivery. The Brazilian Real Strategy Fund increased 13.01% for the fiscal year based on NAV, outperforming the 2.78% appreciation in the Brazilian real versus the U.S. dollar. The **WisdomTree Chinese Yuan Strategy Fund**, which returned 4.59% for the fiscal year based on NAV, boosted relative performance versus the Chinese yuan through investments made in both onshore and offshore Chinese yuan forwards, outperforming the spot return of 1.19%

The **WisdomTree Emerging Currency Strategy Fund** posted a 6.51% return over the fiscal year based on NAV, underperforming its industry reference benchmark, the JP Morgan Emerging Local Markets Index Plus, which returned 7.05%. The Fund's overweights to the Philippines, Colombia, and Indonesia were the largest contributors to the underperformance as these currencies were among the worst performers over the past year. Overweights to Poland and Chile contributed positively to Fund performance as both were among some of the stronger performing EM currencies over the same period.

Fixed Income Funds

Local Asian bonds performed well relative to local debt of other emerging market countries. The **WisdomTree Asia Local Debt Fund** returned 1.81% based on NAV for the fiscal year ending August 31, 2017, outperforming its industry reference benchmark, the Markit iBoxx Asian Local Bond Index, by 1.11%. The Fund's positive returns were most notably attributed to exposure to the Thailand baht, South Korean won, and Singapore dollar. The Fund's strategic exposure to Australia and New Zealand versus the benchmark were significant. Australia's currency appreciated 5.72% during the fiscal year, providing an additional positive contributor for the Fund's return.

The **WisdomTree Barclays Interest Rate Hedged U.S. Aggregate Bond Fund** (formerly the WisdomTree Barclays U.S. Aggregate Bond Zero Duration Fund) seeks to track the price and yield performance, before fees and expenses, of the Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Zero Duration. For the fiscal year ended August 31, 2017, the Index returned 2.04% versus the Fund's return of 1.93% based on NAV. The difference between the Index and Fund returns are primarily due to representative sampling, deductions for Fund expenses and transaction costs. During the fiscal year, the Fund invested in derivatives, specifically short futures contracts on U.S. Treasury bonds, to hedge against a rise in interest rates. At August 31, 2017, yields on 5-year, 10-year, and 30-year U.S. Treasury bonds all ended the period higher than where they began a year ago, but off their highs from the beginning of calendar year 2017. As a result of the overall increase in U.S. Treasury yields, the Fund's use of derivatives contributed positively to Fund performance during the fiscal year.

The **WisdomTree Barclays Negative Duration U.S. Aggregate Bond Fund** (formerly the WisdomTree Barclays U.S. Aggregate Bond Negative Duration Fund) seeks to track the price and yield performance, before fees and expenses, of the Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Negative Five Duration. For the fiscal year ended August 31, 2017, the Index returned 4.06% versus the Fund's return of 3.55% based on NAV. The difference between the Index and Fund returns are primarily due to representative sampling, deductions for Fund expenses and transaction costs. During the fiscal year, the Fund invested in derivatives, specifically short futures contracts on U.S. Treasury bonds, to hedge against a rise in interest rates. At August 31, 2017, yields on 5-year, 10-year, and 30-year U.S. Treasury bonds all ended the period higher than where they began a year ago, but off their highs from the beginning of calendar year 2017. As a result of the overall increase in U.S. Treasury yields, the Fund's use of derivatives contributed positively to the Fund's performance during the fiscal period.

Table of Contents**Management's Discussion of Funds Performance** (audited) (continued)

The **WisdomTree Barclays Yield Enhanced U.S. Aggregate Bond Fund** (formerly the WisdomTree Barclays U.S. Aggregate Bond Enhanced Yield Fund) seeks to achieve the returns of the Bloomberg Barclays U.S. Aggregate Enhanced Yield Index (the Index). The Index uses a rules-based approach to re-weight subcomponents of the Bloomberg Barclays U.S. Aggregate Index (the U.S. Aggregate Index) with the aim of earning a higher yield while broadly retaining the risk characteristics of the U.S. Aggregate Index. For the fiscal year ended August 31, 2017, the Fund returned 1.05% based on NAV while the Index returned 1.49%. During the same period, the Fund outperformed the U.S. Aggregate Index (0.49%) by 0.56%. As a result of its overweight to corporate bonds relative to the U.S. Aggregate Index, the Fund benefitted from tightening corporate spreads during the fiscal year. The Fund's longer duration profile will typically benefit the Fund in falling rate periods, and detract from it in rising rate periods.

The **WisdomTree Bloomberg Floating Rate Treasury Fund** seeks to track the price and yield performance, before fees and expenses, of the Bloomberg U.S. Treasury Floating Rate Bond Index. For the fiscal year ended August 31, 2017, the Index returned 1.04% versus the Fund's return of 0.85% based on NAV. The difference between the Index and Fund returns are primarily due to deductions for Fund expenses and transaction costs.

The **WisdomTree Emerging Markets Corporate Bond Fund** invests in the dollar-denominated debt of emerging market corporate issuers and utilizes the JP Morgan Corporate Emerging Markets Bond Index (CEMBI) Broad as its industry reference benchmark. During the fiscal year, the Fund generated a total return of 5.51% based on NAV, underperforming its industry reference benchmark by about 0.30% which returned 5.81% during the period. Every country exposure within the Fund and the industry reference benchmark had positive total returns for the fiscal year. However, some countries far outperformed others. The Fund's largest overweight was to Argentina, which was one of the top 5 performers for the fiscal year. The Fund's underweight to Israel and significant underweight to China were positive contributors to the Fund's performance. Some of the top detractors to the Fund's performance relative to the industry reference benchmark were the Fund's overweights to Russia and Colombia.

The **WisdomTree Emerging Markets Local Debt Fund**'s return of 8.46% based on NAV for the fiscal year were primarily driven by strong local bond returns, both contributed income and principal returns. Most EM currencies have appreciated, along with a weak U.S. dollar, on the backs of stronger outlooks and improving financials. Despite posting positive returns, the Emerging Market Local Debt Fund underperformed its industry reference benchmark, JP Morgan GBI-EM Global Diversified Index (9.86%) by 1.40%. This relative underperformance was due in large part because of the Fund's Poland and Mexico underweights relative to the benchmark.

The **WisdomTree Interest Rate Hedged High Yield Bond Fund** (formerly the WisdomTree BofA Merrill Lynch High Yield Bond Zero Duration Fund) seeks to track the price and yield performance, before fees and expenses, of the BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Zero Duration Index. For the fiscal year ending August 31, 2017, the Index returned 9.37% versus the Fund's return of 7.73% based on NAV. The difference between the Fund and Index returns are primarily due to representative sampling, deductions for Fund expenses and transaction costs. During the fiscal year, the Fund invested in derivatives, specifically short futures contracts on U.S. Treasury bonds, to hedge against a rise in interest rates. At August 31, 2017, yields on 5-year, 10-year, and 30-year U.S. Treasury bonds all ended the period higher than where they began a year ago, but off their highs from the beginning of the calendar year. As a result of net positive capital share transactions in the Fund since the beginning of calendar year 2017 and the overall decline in U.S. Treasury yields during that period, the Fund's use of derivatives detracted from overall Fund performance during the fiscal year ended August 31, 2017. In addition, high yield securities have outperformed their investment grade counterparts during the fiscal year, thus contributing more to the positive performance.

4 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents**Management's Discussion of Funds Performance** (audited) (concluded)

The **WisdomTree Negative Duration High Yield Bond Fund** (formerly the WisdomTree BofA Merrill Lynch High Yield Bond Negative Duration Fund) seeks to track the price and yield performance, before fees and expenses, of the BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Negative Seven Duration Index. For the fiscal year ended August 31, 2017, the Index returned 12.51% versus the Fund's return of 10.44% based on NAV. The underperformance is primarily due to representative sampling, deductions for Fund expenses and transaction costs. During the fiscal year, the Fund invested in derivatives, specifically short futures contracts on U.S. Treasury bonds, to hedge against a rise in interest rates. At August 31, 2017, yields on 5-year, 10-year, and 30-year U.S. Treasury bonds all ended the period higher than where they began a year ago, but off their highs from the beginning of the year. As a result of net positive capital share transactions in the Fund since the beginning of calendar year 2017 and the overall decline in U.S. Treasury yields during that period, the Fund's use of derivatives detracted from overall Fund performance during the fiscal year ended August 31, 2017. In addition, high yield securities have outperformed their investment grade counterparts during this period, thus contributing more to the positive performance.

Alternative Funds

The **WisdomTree CBOE S&P 500 PutWrite Strategy Fund** posted a 10.52% return based on NAV for the fiscal year ended August 31, 2017, underperforming its industry reference benchmark, the CBOE S&P 500 PutWrite Index (the Index), which returned 11.12%. The difference between the Index and Fund returns are primarily due to deductions for Fund expenses and transaction costs.

The **WisdomTree Managed Futures Strategy Fund** seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Managed Futures Index. For the fiscal year ended August 31, 2017, the Index returned -4.62% versus the Fund's return of -5.54% based on NAV. The difference between the Index and Fund returns are primarily due to deductions for Fund expenses and transaction costs. Some of the top contributors to the Fund's performance were its short exposure to copper positions throughout the fiscal year, the Fund's long exposure to the Euro in the last quarter of the fiscal year, and the Fund's short exposure to lean hogs futures in the first month of the fiscal year. Some of the top detractors to the Fund's performance during the fiscal year were various positions in high grade copper and silver, and the Fund's long exposure to natural gas futures in the first five months of 2017.

Despite the Fed raising interest rates away from zero bound, longer term treasury yields generally fell over the fiscal year ending August 31, 2017. The market continued to grapple with the pace and timing of interest rate hikes in the U.S. At the beginning of 2016, there were expectations of up to 4 rate hikes, and yet the Fed rates rose once in 2016. Since then, the Fed has had 2 rate hikes in 2017, with the expectation of a third later in 2017. Consequently, the U.S. dollar weakened significantly through August 31, 2017. The Euro and British strengthened against the U.S. dollar on the back of overblown fears of Brexit as well as an economic recovery underway in Europe. The Japanese yen also had strengthened over the year in large part from a weakening U.S. dollar. Energy markets were significantly negative through the year ended August 31, 2017. As a result, energy investments were a detractor to Fund performance this year. Sugar ended the fiscal year down nearly 25%. Live cattle and lean hog futures were among the worst performing investments. Precious metals like gold and silver have been largely flat during the fiscal year. In the recent months leading up to August 31, 2017, Wheat futures contracts saw a spike up in price, only to come back down into negative performance territory.

Table of Contents

Performance Summary (unaudited)

WisdomTree Bloomberg U.S. Dollar Bullish Fund (USDU)

Investment Breakdown as of 8/31/17

Investment Type	% of Net Assets
U.S. Government Obligations	99.4%
Other Assets less Liabilities	0.6%
Total	100.0%

The Fund's investment breakdown may change over time. It does not include derivatives (if any).

Other assets includes investment of cash collateral for securities on loan (if any).

Top Holdings* as of 8/31/17

Description	% of Net Assets
U.S. Treasury Bill, 0.98%, 9/21/17	51.1%
U.S. Treasury Bill, 0.95%, 9/7/17	48.3%

*The holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular security. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Bloomberg U.S. Dollar Bullish Fund (the Fund) seeks to provide total returns, before fees and expenses, that exceed the performance of the Bloomberg Dollar Total Return Index (the Index).

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, the Fund's annual expense ratio was 0.50%.**

Performance as of 8/31/17

Average Annual Total Return
1 Year 3 Year

Edgar Filing: WisdomTree Trust - Form N-CSR

			Since Inception ¹
Fund NAV Returns	-2.66%	3.36%	2.71%
Fund Market Price Returns	-2.73%	3.33%	2.69%
<i>Bloomberg Dollar Total Return Index</i>	-2.55%	3.76%	3.17%
<i>Bloomberg Dollar Spot Index</i>	-2.94%	3.85%	3.34%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on December 18, 2013.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

6 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents**Performance Summary** (unaudited)**WisdomTree Brazilian Real Strategy Fund (BZF)****Investment Breakdown** as of 8/31/17

U.S. Treasury Bill, 0.98%, 12/7/17	43.9%

*The holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular security. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Brazilian Real Strategy Fund (the Fund) seeks to achieve total returns reflective of both money market rates in Brazil available to foreign investors and changes in value of the Brazilian real relative to the U.S. dollar. The Brazilian real is a developing market currency, which can experience periods of significant volatility. Although the Fund invests in very short-term, investment grade instruments, the Fund is not a money market fund and it is not the objective of the Fund to maintain a constant share price.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, as amended August 29, 2017, the Fund's annual expense ratio was 0.45%.**

Performance as of 8/31/17

Edgar Filing: WisdomTree Trust - Form N-CSR

	Average Annual Total Return			Since Inception ¹
	1 Year	3 Year	5 Year	
Fund NAV Returns	13.01%	-0.95%	0.13%	1.50%
Fund Market Price Returns	12.34%	-0.95%	0.17%	1.37%
<i>JP Morgan Emerging Local Markets Index Plus (ELMI+) Brazil</i>	13.15%	-0.53%	0.58%	2.41%
<i>Brazilian real</i>	2.78%	-10.74%	-8.40%	-6.65%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on May 14, 2008.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, the Fund's net and gross annual expense ratios were 0.12% and 0.20%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.12% through December 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

Performance as of 8/31/17

	Average Annual Total Return Since	
	1 Year	Inception ¹
Fund NAV Returns	1.05%	4.05%
Fund Market Price Returns	1.03%	4.13%
<i>Bloomberg Barclays U.S. Aggregate Enhanced Yield Index</i>	1.49%	4.26%
<i>Bloomberg Barclays U.S. Aggregate Index</i>	0.49%	3.14%

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on July 9, 2015.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Emerging Markets Corporate Bond Fund (the Fund) seeks a high level of total return consisting of both income and capital appreciation. The Fund attempts to achieve its objective through investments in debt securities issued by corporate entities that are domiciled in, or economically tied to, emerging market countries.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, as amended August 23, 2017, the Fund's annual expense ratio was 0.60%.**

Description	% of Net Assets
U.S. Treasury Bill, 0.99%, 11/16/17	79.7%

*The holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular security. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree CBOE S&P 500 PutWrite Strategy Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the CBOE S&P 500 PutWrite Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, the Fund's net and gross annual expense ratios were 0.38% and 0.44%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.38% through December 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

Performance as of 8/31/17

Edgar Filing: WisdomTree Trust - Form N-CSR

	Average Annual Total Return	
	1 Year	Since Inception¹
Fund NAV Returns	10.52%	12.18%
Fund Market Price Returns	10.61%	12.24%
<i>CBOE[®] S&P 500 PutWrite Index</i>	<i>11.12%</i>	<i>12.76%</i>
<i>S&P 500[®] Index</i>	<i>16.23%</i>	<i>20.23%</i>

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on February 24, 2016.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

Performance Summary (unaudited)

WisdomTree Managed Futures Strategy Fund (WDTI) (consolidated)

Investment Breakdown as of 8/31/17

Investment Type	% of Net Assets
U.S. Government Obligations	85.9%
Other Assets less Liabilities	14.1%
Total	100.0%

The Fund's investment breakdown may change over time. It does not include derivatives (if any).

Other assets includes investment of cash collateral for securities on loan (if any).

Top Holdings* as of 8/31/17

Description	% of Net Assets
U.S. Treasury Bill, 0.98%, 9/21/17	67.3%
U.S. Treasury Bill, 0.95%, 9/7/17	15.8%
U.S. Treasury Bill, 1.10%, 12/7/17	2.8%

*The holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular security. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Managed Futures Strategy Fund (the "Fund") seeks to provide investors with positive total returns in rising or falling markets. The Fund is managed using a quantitative, rules-based strategy designed to provide returns that correspond to the performance of the WisdomTree Managed Futures Index (the "Index").

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated January 1, 2017, the Fund's annual expense ratio was 0.65% and 0.75%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.65% through December 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

Performance as of 8/31/17

Table of Contents

Description of Terms and Indexes (unaudited)

Below are descriptions of certain terms and of each index referenced in this report.

Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Negative Five Duration:

The Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Negative Five Duration combines long positions in the Bloomberg Barclays U.S. Aggregate Bond Index with short positions in U.S. Treasury Bonds to provide a duration exposure of -5 years. Market values of long and short positions are rebalanced at month-end.

Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Zero Duration:

The Bloomberg Barclays Rate Hedged U.S. Aggregate Bond Index, Zero Duration combines long positions in the Bloomberg Barclays U.S. Aggregate Bond Index with short positions in U.S. Treasury Bonds to provide a duration exposure of 0 years. Market values of long and short positions are rebalanced at month-end.

Bloomberg Barclays U.S. Aggregate Enhanced Yield Index:

The Bloomberg Barclays U.S. Aggregate Enhanced Yield Index uses a rules-based approach to reallocate across subcomponents in the Bloomberg Barclays U.S. Aggregate Bond Index seeking to enhance yield while maintaining a similar risk profile.

Bloomberg Barclays U.S. Aggregate Index:

The Bloomberg Barclays U.S. Aggregate Index represents the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, as well as mortgage- and asset-backed securities.

Bloomberg Dollar Spot Index:

The Bloomberg Dollar Spot Index tracks the performance of a basket of 10 leading global currencies versus the U.S. dollar. Each currency in the basket and its weight is determined annually based on its share of international trade and foreign exchange (FX) liquidity.

Bloomberg Dollar Total Return Index:

The Bloomberg Dollar Total Return Index is structured to potentially benefit as the U.S. dollar appreciates relative to a basket of global currencies. The index tracks a long position in the U.S. dollar measured against a basket of developed and emerging market currencies which (i) have the highest liquidity in the currency markets and (ii) represent countries that make the largest contribution to trade flows with the United States. The index also incorporates differences in money market rates between the U.S. and the countries (or regions) represented by the foreign currencies.

Bloomberg U.S. Treasury Floating Rate Bond Index:

The Bloomberg U.S. Treasury Floating Rate Bond Index is a rules-based, market-value weighted index engineered to measure the performance and characteristics of floating rate coupon U.S. Treasuries which have a maturity greater than 12 months. To be included in the index a security must have a minimum par of 1,000MM.

BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Negative Seven Duration Index:

The BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Negative Seven Duration

Edgar Filing: WisdomTree Trust - Form N-CSR

Index tracks the performance of the combination of a long position in short maturity U.S. high yield bonds and a short position in on the run U.S. Treasuries where the net

22 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents

Description of Terms and Indexes (unaudited) (continued)

interest rate exposure of the index is adjusted to a negative seven year duration. Market values of long and short positions are rebalanced at month-end.

BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Zero Duration Index:

The BofA Merrill Lynch 0-5 Year U.S. High Yield Constrained, Zero Duration Index tracks the performance of the combination of a long position in short maturity U.S. high yield bonds and a short position in on the run U.S. Treasuries where the net interest rate exposure of the index is adjusted to a zero year duration. Market values of long and short

positions are rebalanced at month-end.

CBOE® S&P 500 PutWrite Index:

The CBOE® S&P 500 PutWrite Index tracks the value of a cash-secured (i.e. collateralized) put option sales strategy, which consists of selling (or writing) S&P 500 Index put options (SPX Puts) and investing the sale proceeds in one- and three-month Treasury bills.

Equal-Weighted Emerging Currency Composite:

A composite incorporating equal-weighted exposure to the currencies within the Emerging Currency Strategy Fund was constructed as an additional gauge of Emerging Currency Strategy Fund performance. Currently, the composite tracks the returns for the currencies of the following countries: Brazil, Chile, Mexico, Poland, Indonesia, South Africa, Turkey, India, China, Russia and South Korea, using the total returns of the country subindices of the JP Morgan Emerging Local Markets Index Plus (ELMI+). Each subindex uses a weighted basket of one-month, two-month and three-month currency forwards (deliverable or nondeliverable) collateralized with U.S. money market rates to proxy the total returns of an investment in local-currency money market instruments. Currency exposures are rebalanced back to equal-weighting at the end of the month in which the Emerging Currency Strategy Fund intends to rebalance, and currency changes are reflected in the composite at the end of the month they are reflected in the Fund.

Forward Currency Contracts:

A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. A forward contract may either be deliverable or non-deliverable. A **deliverable forward currency contract** is an agreement by two parties to transact in currencies at a specific rate on a future date upon which each party delivers the promised currency. A **non-deliverable forward (NDF) currency contract** is an agreement by two parties to transact in currencies at a specific rate on a future date and then cash settle the agreement with a simple exchange of the market value difference between the current market rate and the initial agreed-upon rate.

JP Morgan Corporate Emerging Markets Bond Index (CEMBI) Broad:

The JP Morgan Corporate Emerging Markets Bond Index (CEMBI) Broad is a market capitalization-weighted index consisting of U.S. dollar-denominated emerging market corporate bonds. The index serves as a global corporate benchmark representing Asia, Latin America, Europe and Middle East/Africa. U.S. dollar-denominated corporate issues from index-eligible countries are narrowed further by only including issues with more than \$300 million current face outstanding and at least five years to maturity (at the time of inclusion into the index).

JP Morgan Emerging Local Markets Index Plus (ELMI+):

The JP Morgan Emerging Local Markets Index Plus (ELMI+) and its underlying country and regional subindices track the total returns for local-currency denominated money market instruments in emerging market countries.

Table of Contents

Description of Terms and Indexes (unaudited) (continued)

JP Morgan Emerging Local Markets Index Plus (ELMI+) Brazil:

The Brazil subindex uses a weighted basket of one-month, two-month and three-month currency forwards collateralized with U.S. money market rates to proxy the total returns of an investment in Brazilian real money market instruments. The returns are reported in U.S. dollar terms.

JP Morgan Emerging Local Markets Index Plus (ELMI+) China:

The China subindex uses a weighted basket of one-month, two-month and three-month currency forwards collateralized with U.S. money market rates to proxy the total returns of an investment in Chinese yuan money market instruments. The returns are reported in U.S. dollar terms.

JP Morgan Government Bond Index-Emerging Markets (GBI-EM) Global Diversified Index:

The JP Morgan Government Bond Index-Emerging Markets (GBI-EM) Global Diversified Index tracks the performance of local currency debt issued by emerging market governments, whose debt is accessible by most of the international investor base. The index incorporates a constrained market capitalization methodology in which individual issuer exposures are capped at 10% (with the excess distributed to smaller issuers) for greater diversification among issuing governments. The returns are reported in U.S. dollar terms.

LIBID:

London Interbank Bid Rate or the rate at which banks are willing to borrow for a discrete period of time.

Markit iBoxx Asian Local Bond Index:

The Markit iBoxx Asian Local Bond Index (ALBI) tracks the total return performance of a bond portfolio which consists of local currency denominated, high quality and liquid bonds in Asia ex-Japan. The ALBI includes bonds from the following countries: South Korea, Hong Kong, India, Singapore, Taiwan, Malaysia, Thailand, the Philippines, Indonesia and China.

Sovereign Debt:

Debt that is the direct obligation of a government issuer.

S&P 500® Index:

The S&P 500® Index is a capitalization-weighted index of 500 stocks selected by Standard & Poor's Index Committee, designed to represent the performance of the leading industries in the United States economy.

S&P Diversified Trends Indicator Index:

The S&P Diversified Trends Indicator Index is a diversified composite of global commodity and financial futures that are highly liquid.

Spot Rate and NDF Rate Returns:

A spot rate is the foreign exchange rate on foreign exchange contracts settled generally within two business days from the trade date. The NDF rate is the foreign exchange rate on non-deliverable forward currency contracts settled on a future date that is generally greater than two business days from the trade date. The **Brazilian real** spot return rate relative to the U.S. dollar calculated by WisdomTree is the rate of return percentage difference between the end of period spot and the beginning of period spot rate using

Table of Contents

Description of Terms and Indexes (unaudited) (continued)

WM/Reuters London closing rates. The **Chinese yuan** NDF return rate relative to the U.S. dollar calculated by WisdomTree is the rate of return percentage difference between the end of period NDF rate and the beginning of period NDF rate using WM/Reuters Singapore closing rates.

WisdomTree Managed Futures Index:

The WisdomTree Managed Futures Index is a long/short, rules-based Index designed to provide exposure to a portfolio consisting of diversified futures contracts for commodities, currencies and interest rates. On a monthly basis, assets with lower realized volatility will be selected, and a determination to go long or short the futures contracts of the selected assets under a proprietary composite momentum framework will be made. The composite momentum framework incorporates multiple momentum signals to decide the direction and weight in the Index.

Table of Contents

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from March 1, 2017 to August 31, 2017.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During the Period 3/1/17 to 8/31/17* to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Actual	\$ 1,000.00	\$ 959.00	0.65%*	\$ 3.21
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,021.93	0.65%*	\$ 3.31

Unless otherwise indicated in the footnotes below, expenses are calculated using each Fund's annualized expense ratio, multiplied by the average account value for the period, multiplied by 184/365 (to reflect the one-half year period).

* WisdomTree Asset Management, Inc. has contractually agreed to limit its management fee to 0.12%, 0.15%, 0.38%, and 0.65% for WisdomTree Barclays Yield Enhanced U.S. Aggregate Bond Fund, WisdomTree Bloomberg Floating Rate Treasury Fund, WisdomTree CBOE S&P 500 PutWrite Strategy Fund and WisdomTree Managed Futures Strategy Fund, respectively, through December 31, 2017, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.

¹ Fund commenced operations on May 18, 2017. Actual expenses are calculated using the Fund's annualized expense ratio, multiplied by the average account value for the period, multiplied by 106/365 (to reflect the period since commencement of operations). WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.12% through December 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.

Security is being fair valued using significant unobservable inputs by a pricing committee under the direction of the Board of Trustees. The aggregate value of fair valued securities is \$0, which represents 0.0% of net assets.

^(a) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

^(b) Security, or portion thereof, was on loan at August 31, 2017 (See Note 2).

^(c) Security in default on interest payments.

Edgar Filing: WisdomTree Trust - Form N-CSR

(d) Rate shown reflects the accrual rate as of August 31, 2017 on securities with variable or step rates.

(e) The security has a perpetual maturity; the date displayed is the next call date.

(f) Rate shown represents annualized 7-day yield as of August 31, 2017.

(g) At August 31, 2017, the total market value of the Fund's securities on loan was \$5,802,744 and the total market value of the collateral held by the Fund was \$6,019,853.

(h) Represents an escrow position for future entitlements, if any, on the defaulted corporate bond. The escrow position was received in exchange for the defaulted bond as part of the bankruptcy reorganization of the bond issuer. The escrow position is non-income producing.
3-month USD LIBOR 3-month USD London Interbank Offered Rate as of August 31, 2017 is 1.318%.

LIBOR London Interbank Offered Rate as of August 31, 2017 is 1.176%.

PIK Payment in Kind.

FINANCIAL DERIVATIVE INSTRUMENTS FUTURES CONTRACTS (EXCHANGE-TRADED)

Short Exposure	Contracts	Expiration Date	Notional Amount ¹	Unrealized Appreciation/ (Depreciation)
2 Year U.S. Treasury Note	79	12/29/17	\$ (17,088,688)	\$ (8,594)

Edgar Filing: WisdomTree Trust - Form N-CSR

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ Annualized.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.
- ⁵ Includes a voluntary reimbursement from the sub-advisor for investment losses on certain futures contract transactions during the period. Excluding this voluntary reimbursement, total return would have been 0.08% lower.
- ⁶ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio (net of expense waivers) would have been 0.95% and the expense ratio (prior to expense waivers) would have been 0.95%.

See Notes to Financial Statements.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of August 31, 2017, the Trust consisted of 86 operational investment funds (each a Fund, collectively, the Funds). In accordance with Accounting Standards Update (ASU) 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

Fund	Commencement of Operations
WisdomTree Bloomberg U.S. Dollar Bullish Fund (U.S. Dollar Bullish Fund and also referred to herein as Currency Strategy Funds)	December 18, 2013
WisdomTree Brazilian Real Strategy Fund (Brazilian Real Strategy Fund and also referred to herein as Currency Strategy Funds)	May 14, 2008
WisdomTree Chinese Yuan Strategy Fund (Chinese Yuan Strategy Fund and also referred to herein as Currency Strategy Funds)	May 14, 2008
WisdomTree Emerging Currency Strategy Fund (Emerging Currency Strategy Fund and also referred to herein as Currency Strategy Funds)	May 6, 2009
WisdomTree Asia Local Debt Fund (Asia Local Debt Fund)	March 17, 2011
WisdomTree Barclays Interest Rate Hedged U.S. Aggregate Bond Fund (Interest Rate Hedged U.S. Aggregate Bond Fund and also referred to herein as Duration Funds) (formerly, <i>WisdomTree Barclays U.S. Aggregate Bond Zero Duration Fund</i>)	December 18, 2013
WisdomTree Barclays Negative Duration U.S. Aggregate Bond Fund (Negative Duration U.S. Aggregate Bond Fund and also referred to herein as Duration Funds) (formerly, <i>WisdomTree Barclays U.S. Aggregate Bond Negative Duration Fund</i>)	December 18, 2013
WisdomTree Barclays Yield Enhanced U.S. Aggregate Bond Fund (Yield Enhanced U.S. Aggregate Bond Fund) (formerly, <i>WisdomTree Barclays U.S. Aggregate Bond Enhanced Yield Fund</i>)	July 9, 2015
WisdomTree Barclays Yield Enhanced U.S. Short-Term Aggregate Bond Fund (Yield Enhanced U.S. Short-Term Aggregate Bond Fund)	May 18, 2017
WisdomTree Bloomberg Floating Rate Treasury Fund (Floating Rate Treasury Fund)	February 4, 2014
WisdomTree Emerging Markets Corporate Bond Fund (Emerging Markets Corporate Bond Fund)	March 8, 2012
WisdomTree Emerging Markets Local Debt Fund (Emerging Markets Local Debt Fund)	August 9, 2010
WisdomTree Interest Rate Hedged High Yield Bond Fund (Interest Rate Hedged High Yield Bond Fund and also referred to herein as Duration Funds) (formerly, <i>WisdomTree BofA Merrill Lynch High Yield Bond Zero Duration Fund</i>)	December 18, 2013
WisdomTree Negative Duration High Yield Bond Fund (Negative Duration High Yield Bond Fund and also referred to herein as Duration Funds) (formerly, <i>WisdomTree BofA Merrill Lynch High Yield Bond Negative Duration Fund</i>)	December 18, 2013
WisdomTree CBOE S&P 500 PutWrite Strategy Fund (CBOE S&P 500 PutWrite Strategy Fund)	February 24, 2016
WisdomTree Managed Futures Strategy Fund (Managed Futures Strategy Fund) (consolidated)	January 5, 2011

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Basis of Consolidation The financial statements of the Managed Futures Strategy Fund (the Parent Fund), include the accounts of a wholly-owned and controlled Cayman Islands subsidiary (the Subsidiary). For the Parent Fund, the accompanying financial statements reflect the financial position and results of operations on a consolidated basis with its Subsidiary. All intercompany accounts and transactions have been eliminated in consolidation. The Parent Fund seeks to gain exposure to commodity markets, in whole or in part, through investments in its Subsidiary. The Parent Fund's investment in its Subsidiary may not exceed 25% of the Parent Fund's total assets at the end of each fiscal quarter in order to meet the requirements for qualification as a regulated investment company under the Internal Revenue Code of 1986, as amended.

Edgar Filing: WisdomTree Trust - Form N-CSR

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

102 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents**Notes to Financial Statements** (continued)

Investment Valuation The net asset value (NAV) of each Fund 's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund 's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund 's NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less and to-be-announced (TBA) securities) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. Repurchase agreements are valued at par which represents their fair value. Except for U.S. Dollar Bullish Fund, foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time. U.S. Dollar Bullish Fund uses WM/Reuters closing spot and forward rates as of 4:00 p.m. Eastern time to value foreign currency contracts. For the Chinese Yuan Strategy Fund, Emerging Currency Strategy Fund, Asia Local Debt Fund, Emerging Markets Corporate Bond Fund and the Emerging Markets Local Debt Fund, WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time are used to value forward foreign currency contracts in the following Asian currencies: Chinese renminbi, Chinese yuan, Hong Kong dollar, Indian rupee, Indonesian rupiah, Malaysian ringgit, Philippine peso, Singapore dollar, South Korean won, Taiwan dollar, and the Thai baht. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade. Option contracts generally are valued at the closing price on the primary exchange on which they trade. Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund 's investments, which include derivatives, will be fair valued in accordance with the Fund 's pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WisdomTree Asset Management, Inc. (WTAM) and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund 's next NAV Calculation Time that may materially affect the value of a Fund 's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity 's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Edgar Filing: WisdomTree Trust - Form N-CSR

Level 1 quoted prices in active markets for identical securities

WisdomTree Currency Strategy, Fixed Income and Alternative Funds 103

Table of Contents

Notes to Financial Statements (continued)

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of August 31, 2017 in valuing each Fund's assets:

U.S. Dollar Bullish Fund	Level 1	Level 2	Level 3

* Security is being fair valued using significant unobservable inputs by the Pricing Committee.

The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

There were no transfers into or out of any fair value measurement levels during the fiscal year or period ended August 31, 2017.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts, futures contracts and options contracts during the year ended August 31, 2017 and open positions in such derivatives as of August 31, 2017 are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to credit risk. Credit risk is where the financial condition of an issuer of a security or instrument may cause it to default or become unable to pay interest or principal due on the security or where the counterparty to a derivative contract might default on its obligations. The Funds derivative agreements also contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds NAV over a specified time period. If an event occurred at August 31, 2017 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on page 115. At August 31, 2017, no event occurred that triggered a credit-risk-related contingent feature. Information with respect to the amounts and types of collateral received and/or posted for derivative instruments as of August 31, 2017, if any, is reflected as a footnote below the respective derivatives tables on each Fund's Schedule of Investments.

As of August 31, 2017, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

Fund	Asset Derivatives		Liability Derivatives

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Interest income (including amortization of premiums and accretion of discounts), net of any foreign taxes withheld, is accrued daily. Generally, amortization of premiums and accretion of discounts are recognized daily using the interest method (also known as the scientific amortization method). Payment-in-kind (PIK) interest income is accrued daily and the increase in a security's principal amount related to such PIK interest income is recorded on the coupon payment date. Dividend income is recognized on the ex-dividend date.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net increase (decrease) in unrealized appreciation/depreciation from investment transactions*, respectively, on the Statements of Operations. Net realized and unrealized gains or losses of foreign currency contracts are included in the *net realized gain (loss) from foreign currency contracts* and/or *increase (decrease) in unrealized appreciation/depreciation from foreign currency contracts* in the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies and the difference between the amounts of dividends/interest and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency related transactions* and/or *increase (decrease) in unrealized appreciation/depreciation from translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Edgar Filing: WisdomTree Trust - Form N-CSR

Acquired fund fees and expenses (which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies) are not operating expenses of the Funds and are not paid by WTAM.

WisdomTree Currency Strategy, Fixed Income and Alternative Funds 111

Table of Contents**Notes to Financial Statements** (continued)

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under *Service fees*, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Repurchase Agreements Each Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which a Fund acquires securities or other obligations as collateral from a commercial bank or securities broker-dealer and simultaneously commits to resell them to the counterparty at an agreed upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the acquired obligations. This is designed to result in a fixed rate of return for the Fund insulated from market fluctuations during the holding period. Each Fund maintains custody of the acquired collateral prior to their repurchase, either through its regular custodian or through a special tri-party custodian or sub-custodian that maintains separate accounts for both the Fund and the counterparty. Because repurchase agreements are collateralized by securities, they are subject to market and credit risk on the acquired collateral in addition to counterparty credit risk. The acquired collateral is valued on a daily basis at fair value to ensure that the value, including accrued interest, is at least equal to the repurchase price. If the acquired collateral declines in value and becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that at all times the collateral value is at least equal to the repurchase price plus any agreed-upon additional amount. In the event of default of the obligation to repurchase, a Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligations. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings.

Forward Foreign Currency Contracts The Currency Strategy Funds, except the U.S. Dollar Bullish Fund, utilized forward foreign currency contracts (*Forward Contract*) to obtain net long exposure to foreign currencies consistent with each Currency Strategy Fund's investment objective. The U.S. Dollar Bullish Fund utilized Forward Contracts to obtain net short exposure to foreign currencies consistent with its investment objective. The Asia Local Debt Fund and the Emerging Markets Local Debt Fund utilized Forward Contracts to obtain long and short exposures to foreign currencies consistent with each Fund's investment objective. The Managed Futures Strategy Fund utilized Forward Contracts to obtain long and short exposures to the Japanese Yen consistent with its investment objective. A Forward Contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds and included in *net increase (decrease) in unrealized appreciation/depreciation from foreign currency contracts* on the Statements of Operations. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold and included in *net realized gain (loss) from foreign currency contracts* on the Statements of Operations.

Futures Contracts The Duration Funds and the Emerging Markets Corporate Bond Fund utilized futures contracts to obtain short exposure to U.S. Treasury bonds to hedge against a rise in interest rates. The Managed Futures Strategy Fund utilized futures contracts to obtain long and short exposures to currencies, commodities and interest rates consistent with its investment objective. When a Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. When a Fund sells a listed futures contract, it agrees to sell a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange-listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the *initial margin*. Subsequent payments, known as *variation margin*, generally are made or received by the Fund each day or at other agreed-upon time periods depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded

Edgar Filing: WisdomTree Trust - Form N-CSR

for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures. The current one-day variation margin on open futures contracts is shown on the Statements of Assets and Liabilities

112 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents**Notes to Financial Statements** (continued)

as either a receivable or a payable for Net variation margin on futures contracts. The prior variation margins on both open and closed futures contracts are shown in the Statements of Assets and Liabilities, in whole or in part, as a component of, or an offset to, Cash and/or Deposits at broker for futures contracts. When a Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. To cover its position, a Fund will segregate assets consisting of, or take other measures with respect to, cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, will cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. This will function as a practical limit on the amount of leverage which a Fund may undertake and on the potential increase in the speculative character of a Fund's outstanding portfolio securities.

Options Contracts The CBOE S&P 500 PutWrite Strategy Fund (the Fund) utilized option contracts by writing put options on the S&P 500 Index consistent with its investment objective. A put option gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security or financial instrument. A call option gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security or financial instrument. A premium is paid to the writer of an option as consideration for undertaking the obligation in the contract. The Fund may purchase and write options on an exchange or over the counter (OTC). OTC options differ from exchange-traded options in several respects. They are transacted directly with dealers and not with a clearing corporation, and therefore entail the risk of nonperformance by the dealer. OTC options are available for a greater variety of securities and for a wider range of expiration dates and exercise prices than are available for exchange-traded options. Because OTC options are not traded on an exchange, pricing is done normally by reference to information from a market maker.

When a Fund purchases an option, an amount equal to the premium paid by the Fund is recorded as an asset, the value of which is marked-to-market to reflect the current market value of the option purchased. If the purchased option expires, the Fund realizes a loss equal to the amount of premium paid. When a security or financial instrument is purchased or sold through the exercise of an option, the related premium paid is added to the basis of the security or financial instrument acquired or deducted from the proceeds of the security or financial instrument sold.

When a Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market daily to reflect the current market value of the option written. If the option expires, the premium received is recorded as a realized gain. When a written call option is exercised, the difference between the premium received plus the option exercise price and the Fund's basis in the underlying security (in the case of a covered written call option), or the cost to purchase the underlying security (in the case of an uncovered written call option), including brokerage commission, is recognized as a realized gain or loss. When a written put option is exercised, the amount of the premium received is subtracted from the cost of the security purchased by the Fund from the exercise of the written put option to form the Fund's basis in the underlying security purchased.

The purchaser or writer of an option may close the position before the exercise of the option by entering into a closing transaction. In the case of a written option, the cost of a closing transaction is deducted from the original premium received resulting in a realized gain or loss to the Fund. With respect to a purchased option, the original premium paid is deducted from the proceeds received from a closing transaction resulting in a realized gain or loss to the Fund.

Written options may constitute a fair value guarantee on a financial asset under the provisions of FASB Codification Topic 460 *Guarantees*. The Fund's maximum payout for written put options is limited to the number of contracts written and the associated strike prices. At August 31, 2017, the CBOE S&P 500 PutWrite Strategy Fund's maximum payout for written put options was \$205,155,000. The maximum payout for written call options is potentially unlimited to the extent that the written call option is uncovered.

The Fund's risk associated with purchasing put and call options is limited to the premiums paid. The risk in writing a covered call option is that the Fund may forego the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing an uncovered call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

Other significant risks associated with the Fund's use of options contracts may include the following: (1) the success of a strategy may depend on the Fund adviser's ability to predict movements in the prices of individual commodities, currencies or securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the commodities, currencies

Edgar Filing: WisdomTree Trust - Form N-CSR

or securities and the price of options; (3) although the Fund intends to enter into options contracts only if there is an active market for such contracts, there is no assurance that an active market will exist for the contracts at any particular time; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in options contracts.

WisdomTree Currency Strategy, Fixed Income and Alternative Funds 113

Table of Contents**Notes to Financial Statements** (continued)

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

Repurchase agreements are subject to the terms and conditions of a Master Repurchase Agreement (Master Repurchase Agreement) between a Fund and a counterparty. In the event of a default or failure by a party to perform an obligation with respect to a repurchase transaction, the Master Repurchase Agreement gives the non-defaulting party the right to set-off claims and to apply property held by it in connection with a repurchase transaction against obligations owed to the non-defaulting party.

A Fund's security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under

Edgar Filing: WisdomTree Trust - Form N-CSR

applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market

114 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents

Notes to Financial Statements (continued)

fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

The Funds' futures contracts and option contracts are all exchange traded and are not subject to master netting arrangements. Therefore, all futures contracts and option contracts are excluded from the master netting table below.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement, Master Repurchase Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of August 31, 2017, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement, Master Repurchase Agreement and the Lending Agreement are detailed in the following table:

Fund	Assets				Liabilities

¹ The amount of collateral presented has been limited such that the net amount by counterparty cannot be less than zero.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Table of Contents**Notes to Financial Statements** (continued)

To-be-announced Transactions Interest Rate Hedged U.S. Aggregate Bond Fund, Negative Duration U.S. Aggregate Bond Fund, Yield Enhanced U.S. Aggregate Bond Fund and the Yield Enhanced U.S. Short-Term Aggregate Bond Fund invest in U.S. agency mortgage-backed pass-through securities which are securities issued by entities such as Government National Mortgage Association and Federal National Mortgage Association that are backed by pools of mortgages. Most transactions in mortgage-backed pass-through securities occur for future delivery in which the exact mortgage pools to be delivered are not specified until a few days prior to settlement, referred to as a to-be-announced transaction or TBA Transaction. In a TBA Transaction, the buyer and seller agree upon general trade parameters such as agency, settlement date, par amount and price. The actual pools delivered generally are determined a few days prior to the settlement date; however, it is not anticipated that the Interest Rate Hedged U.S. Aggregate Bond Fund, Negative Duration U.S. Aggregate Bond Fund, Yield Enhanced U.S. Aggregate Bond Fund and the Yield Enhanced U.S. Short-Term Aggregate Bond Fund will take delivery of pools, but instead will participate in rolling TBA Transactions whereby instead of receiving pools on the purchase settlement date, the position is offset by a current sale of the TBA security with a simultaneous forward purchase of a substantially similar TBA security (i.e. same type, coupon, maturity) to settle on a specified future date.

Short Sale Transactions Each Fund may enter into short sale transactions in which a Fund sells a security that it does not own in anticipation of a decline in the market price of that security. When a Fund enters into a short sale transaction, the Fund will borrow the security and deliver it to the counterparty to which the Fund sold the security short. An amount equal to the proceeds received by the Fund is reflected as an asset and an equivalent liability in the Statement of Assets and Liabilities. The amount of the liability is subsequently marked-to-market to reflect the current market value of the securities sold short. Any interest or dividends that accrue on the securities borrowed are shown as an interest expense or dividend expense in the Statement of Operations of the Fund. A realized gain, limited to the proceeds received at which the Fund sold the security short, or a realized loss, unlimited as to the dollar amount, will be recognized upon the termination of a short sale if the cost to close out the short sale transaction is either less than (in the case of a gain) or greater than (in the case of a loss) the proceeds received. The risk of loss on a short sale transaction is potentially unlimited unlike the risk of loss on a long position, which is limited to the amount paid for the investment plus transaction costs. Funds entering into short sale transactions are exposed to the risk that they may be unable to close out a short sale position at any particular time or at an acceptable price.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation (MCM) to provide sub-advisory services to the Funds, except for Yield Enhanced U.S. Short-Term Aggregate Bond Fund and Emerging Markets Corporate Bond Fund which are sub-advised by Voya Investment Management Co., LLC (Voya IM). Western Asset Management Company and certain of its affiliates served as sub-adviser to the Brazilian Real Strategy Fund and the Emerging Markets Corporate Bond Fund prior to August 29, 2017 and August 23, 2017, respectively. MCM and Voya IM are compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Edgar Filing: WisdomTree Trust - Form N-CSR

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for an annual fee, accrued daily and paid monthly in arrears, of up to 0.0044% of

116 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents**Notes to Financial Statements** (continued)

each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Fund	Advisory		Advisory Fee Waiver Expiration Date
	Fee Rate (before fee waiver)	Advisory Fee Waiver ¹	
U.S. Dollar Bullish Fund	0.50%		
Brazilian Real Strategy Fund	0.45%		
Chinese Yuan Strategy Fund	0.45%		
Emerging Currency Strategy Fund	0.55%		
Asia Local Debt Fund	0.55%		
Interest Rate Hedged U.S. Aggregate Bond Fund	0.23%		
Negative Duration U.S. Aggregate Bond Fund	0.28%		
Yield Enhanced U.S. Aggregate Bond Fund	0.20%	(0.08)%	December 31, 2017
Yield Enhanced U.S. Short-Term Aggregate Bond Fund	0.20%	(0.08)%	December 31, 2018
Floating Rate Treasury Fund	0.20%	(0.05)%	December 31, 2017
Emerging Markets Corporate Bond Fund	0.60%		
Emerging Markets Local Debt Fund	0.55%		
Interest Rate Hedged High Yield Bond Fund	0.43%		
Negative Duration High Yield Bond Fund	0.48%		
CBOE S&P 500 PutWrite Strategy Fund	0.44%	(0.06)%	December 31, 2017
Managed Futures Strategy Fund (<i>consolidated</i>)	0.75% ²	(0.10)%	December 31, 2017

¹ WTAM has contractually agreed to waive a portion of its advisory fee by the waiver amount listed per annum based on the average daily net assets through the expiration date listed, unless earlier terminated by the Board of Trustees of the Trust for any reason. The dollar amount of contractual fee waivers are included in "Expense waivers" on the Statements of Operations.

² Prior to June 30, 2016, the Fund's advisory fee rate was 0.95% per annum based on average daily net assets.

During the fiscal year ended August 31, 2017, the Managed Futures Strategy Fund received a voluntary reimbursement of \$109,900 from MCM for investment losses on certain futures transactions.

WTAM or its affiliates may from time to time own shares of a Fund. As of August 31, 2017, WTAM held shares of the following Funds which were purchased through an unaffiliated broker in ordinary brokerage transactions in the secondary market in which the Funds' shares trade:

Fund	Market Value		Dividends paid to WTAM on Fund Shares
	Fund Shares held by WTAM	of Fund Shares held by WTAM	
Yield Enhanced U.S. Aggregate Bond Fund	1,156	\$ 58,968	\$ 1,190
Floating Rate Treasury Fund	110	2,747	9
Emerging Markets Local Debt Fund	80	3,101	118
Interest Rate Hedged High Yield Bond Fund	402	9,608	225
CBOE S&P 500 PutWrite Strategy Fund	97	2,842	30

4. CAPITAL SHARE TRANSACTIONS

Edgar Filing: WisdomTree Trust - Form N-CSR

As of August 31, 2017, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. Generally, Funds issue and redeem shares on a cash basis, however, shares may also be issued or redeemed in kind. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding short-term investments) for the fiscal year or period ended August 31, 2017 are shown in the following table. Realized gains and

WisdomTree Currency Strategy, Fixed Income and Alternative Funds 117

Asia Local Debt Fund	(1,272,659)	1,272,659	
Interest Rate Hedged U.S. Aggregate Bond Fund	41,337	(59,300)	17,963
Negative Duration U.S. Aggregate Bond Fund	22,822	(22,820)	(2)
Yield Enhanced U.S. Aggregate Bond Fund	170,276	(170,275)	(1)
Yield Enhanced U.S. Short-Term Aggregate Bond Fund			
Floating Rate Treasury Fund	1		(1)
Emerging Markets Corporate Bond Fund		(146,885)	146,885
Emerging Markets Local Debt Fund	(8,072,112)	15,853,459	(7,781,347)
Interest Rate Hedged High Yield Bond Fund		(78,461)	78,461
Negative Duration High Yield Bond Fund			
CBOE S&P 500 PutWrite Strategy Fund		(117,517)	117,517
Managed Futures Strategy Fund (<i>consolidated</i>)	259,433	10,952,408	(11,211,841)

These differences are primarily due to the calculation of currency gains/losses, realized book income from wholly owned foreign subsidiaries, the realization for tax purposes of gain/(loss) on certain derivative instruments, redemptions-in-kind, redesignation of dividends, the utilization of earnings and profits distributed to shareholders on redemption of shares, foreign capital gains tax, paydowns, net operating losses, net operating loss offsets, and non-deductible excise tax paid.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and

Edgar Filing: WisdomTree Trust - Form N-CSR

net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year or period ended August 31, 2017, the Funds did not have any liabilities for unrecognized tax benefits

WisdomTree Currency Strategy, Fixed Income and Alternative Funds 121

Table of Contents

Notes to Financial Statements (concluded)

relating to uncertain income tax positions they have taken or expect to take in the future. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended August 31, 2017, remains subject to examination by taxing authorities.

7. FUND LIQUIDATIONS

At the recommendation of WTAM, after continued review of the product lineup and anticipated limited future prospects of investor demand, among other considerations, the Board of Trustees voted to close and liquidate the WisdomTree Strategic Corporate Bond Fund, the WisdomTree Unconstrained Bond Fund and the WisdomTree Global Real Return Fund.

The last day of secondary market trading of shares of the Funds on their respective exchanges was August 16, 2017. Shareholders were able to sell Fund shares through a broker in the standard manner through this date. Customary brokerage charges may have applied to such transactions. Each Fund was closed to new investors after the close of business on August 25, 2017.

Beginning on or about this date, each Fund was in the process of liquidating its portfolio assets. This caused each Fund to increase its cash holdings and deviate from the investment objective and strategies stated in its prospectus.

Shareholders that remained in the Funds had their shares automatically redeemed and received cash in an amount equal to the net asset value of their shares as of the close of business on August 25, 2017 and were not charged any transaction fees by the Funds. This amount included any accrued capital gains and dividends.

Whether an investor sold their shares or were automatically redeemed, an investor generally would have recognized a capital gain (or loss) equal to the amount received above (or below) their adjusted cost basis in such shares.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Bloomberg U.S. Dollar Bullish Fund, WisdomTree Brazilian Real Strategy Fund, WisdomTree Chinese Yuan Strategy Fund, WisdomTree Emerging Currency Strategy Fund, WisdomTree Asia Local Debt Fund, WisdomTree Barclays Interest Rate Hedged U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Zero Duration Fund), WisdomTree Barclays Negative Duration U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Negative Duration Fund), WisdomTree Barclays Yield Enhanced U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Enhanced Yield Fund), WisdomTree Barclays Yield Enhanced U.S. Short-Term Aggregate Bond Fund, WisdomTree Bloomberg Floating Rate Treasury Fund, WisdomTree Emerging Markets Corporate Bond Fund, WisdomTree Emerging Markets Local Debt Fund, WisdomTree Interest Rate Hedged High Yield Bond Fund (formerly, WisdomTree BofA Merrill Lynch High Yield Bond Zero Duration Fund), WisdomTree Negative Duration High Yield Bond Fund (formerly, WisdomTree BofA Merrill Lynch High Yield Bond Negative Duration Fund), WisdomTree CBOE S&P 500 PutWrite Strategy Fund, and WisdomTree Managed Futures Strategy Fund (consolidated), sixteen of the investment funds included in the WisdomTree Trust (the Trust), as of August 31, 2017, and the related statements of operations, the statements of changes in net assets and the financial highlights for each of the periods presented therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of August 31, 2017, by correspondence with the custodian and others, or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Asia Local Debt Fund, WisdomTree Barclays Interest Rate Hedged U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Zero Duration Fund), WisdomTree Barclays Negative Duration U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Negative Duration Fund), WisdomTree Barclays Yield Enhanced U.S. Aggregate Bond Fund (formerly, WisdomTree Barclays U.S. Aggregate Bond Enhanced Yield Fund), WisdomTree Barclays Yield Enhanced U.S. Short-Term Aggregate Bond Fund, WisdomTree Bloomberg Floating Rate Treasury Fund, WisdomTree Bloomberg U.S. Dollar Bullish Fund, WisdomTree Brazilian Real Strategy Fund, WisdomTree CBOE S&P 500 PutWrite Strategy Fund, WisdomTree Chinese Yuan Strategy Fund, WisdomTree Emerging Currency Strategy Fund, WisdomTree Emerging Markets Corporate Bond Fund, WisdomTree Emerging Markets Local Debt Fund, WisdomTree Interest Rate Hedged High Yield Bond Fund (formerly, WisdomTree BofA Merrill Lynch High Yield Bond Zero Duration Fund), WisdomTree Managed Futures Strategy Fund (consolidated), and WisdomTree Negative Duration High Yield Bond Fund (formerly, WisdomTree BofA Merrill Lynch High Yield Bond Negative Duration Fund), sixteen of the investment funds included in the Trust, at August 31, 2017, the results of their operations, the changes in their net assets and the financial highlights for each of the periods presented therein, in conformity with U.S. generally accepted accounting principles.

New York, New York

October 26, 2017

Table of Contents**Approval of Investment Advisory and Sub-Advisory Agreements** (unaudited)***Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree Barclays Yield Enhanced U.S. Short-Term Aggregate Bond Fund (the Fund)***

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on March 9-10, 2017, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Voya Investment Management Co. LLC (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund. The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board noted WTAM's belief that shareholders will invest in the Fund on the strength of WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Fund. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Fund, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to the Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Fund's portfolio holdings; oversight of the third-party index provider to the Fund; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Fund. The Board also considered research support available to, and management capabilities of, the Fund's management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the Agreements.

Comparative Analysis of the Fund's Performance, Advisory Fees and Fund Expenses. As the Fund had not yet commenced operations, the Board was not able to review the Fund's performance. The Board discussed with WTAM representatives the portfolio management team and the investment strategies to be employed in the management of the Fund's assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by the Fund. The Board examined the fee to be paid by the Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund's fee. The Board noted the proposed fee waiver arrangements. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser's fee will be paid by WTAM (out of its fee paid by the Fund) and not the Fund. The Board considered the meaningful differences in the services that WTAM will provide to the Fund as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to the Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Fund's unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of the Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board's approval of the Agreements.

Edgar Filing: WisdomTree Trust - Form N-CSR

Analysis of Profitability and Economies of Scale. As the Fund had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Fund had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material

124 WisdomTree Currency Strategy, Fixed Income and Alternative Funds

Table of Contents

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

economies of scale had not been shared with the Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

* * * * *

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

Consideration of the Approval of Sub-Advisory Agreement with respect to the WisdomTree Brazilian Real Strategy Fund (the Fund)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on June 13-14, 2017, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Sub-Advisory Agreement (the Agreement), pursuant to which Mellon Capital Management Corporation (Mellon Capital) will coordinate the investment and reinvestment of the assets of the Fund. Management discussed with the Board its proposal to terminate Western Asset Management Company, Western Asset Management Company Limited and Western Asset Management Company Pte. Ltd. (collectively, Western Asset) as the sub-adviser to the Fund and to engage Mellon Capital as the Fund's sub-adviser. Management noted that Mellon Capital currently serves as the sub-adviser to certain other series of the Trust.

In considering whether to approve the Agreement, the Trustees considered and discussed information and analysis provided by WisdomTree Asset Management, Inc. (WTAM) and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and Mellon Capital. In considering the approval of the Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund

The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing Mellon Capital's operational capabilities and resources. The Board also considered WTAM's favorable assessment of the nature and quality of the sub-advisory services expected to be provided to the Fund by Mellon Capital and WTAM's recommendation to engage Mellon Capital.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by Mellon Capital under the Agreement are adequate and appropriate and supported the Board's approval of the Agreement.

Comparative Analysis of the Fund's Performance, Advisory Fees and Fund Expenses

Because Mellon Capital would be a newly-appointed sub-adviser for the Fund, the Board could not consider Mellon Capital's investment performance in managing the Fund's portfolio as a factor in evaluating the Agreement during the meeting. The Board discussed the portfolio management team and the investment strategies to be employed in the management of the Fund's assets. The Board noted the reputation and experience of Mellon Capital.

The Board considered the proposed fees to be paid under the Agreement, noting that Mellon Capital's fee would be paid by WTAM (out of its fee paid by the Fund), and not the Fund, and thus would not impact the fees paid by the Fund. The Board considered the fee to be paid to Mellon Capital in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by Mellon Capital and WTAM. Based on this review, the Board concluded that the fees to be paid to Mellon Capital supported the Board's approval of the Agreement.

Analysis of Profitability and Economies of Scale

Edgar Filing: WisdomTree Trust - Form N-CSR

The Board recognized that, because Mellon Capital's fee would be paid by WTAM, and not the Fund, an analysis of profitability and economies of scale was more appropriate in the context of the Board's consideration of the investment advisory agreement between the Trust and WTAM. Accordingly, the Board did not consider Mellon Capital's profitability to be relevant to its deliberations with respect to approval of the Agreement. The Board considered potential benefits to Mellon Capital from acting as sub-adviser to the Fund.

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (concluded)

In evaluating the Agreement, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and Mellon Capital, of other funds sub-advised by Mellon Capital. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreement.

Consideration of the Approval of Sub-Advisory Agreement with respect to the WisdomTree Emerging Markets Corporate Bond Fund (the Fund)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on June 13-14, 2017, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Sub-Advisory Agreement (the Agreement), pursuant to which Voya Investment Management Co. LLC (Voya) will coordinate the investment and reinvestment of the assets of the Fund. Management discussed with the Board its proposal to terminate Western Asset Management Company, Western Asset Management Company Limited and Western Asset Management Company Pte. Ltd. (collectively, Western Asset) as the sub-adviser to the Fund and to appoint Voya as the Fund s sub-adviser. Management noted that Voya currently serves as the sub-adviser to certain other series of the Trust.

In considering whether to approve the Agreement, the Trustees considered and discussed information and analysis provided by WisdomTree Asset Management, Inc. (WTAM) and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and Voya. In considering the approval of the Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund

The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing Voya s operational capabilities and resources. The Board also considered WTAM s favorable assessment of the nature and quality of the sub-advisory services expected to be provided to the Fund by Voya and WTAM s recommendation to engage Voya.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by Voya under the Agreement are adequate and appropriate and supported the Board s approval of the Agreement.

Comparative Analysis of the Fund s Performance, Advisory Fees and Fund Expenses

Because Voya would be a newly-appointed sub-adviser for the Fund, the Board could not consider Voya s investment performance in managing the Fund s portfolio as a factor in evaluating the Agreement during the meeting. The Board discussed the portfolio management team and the investment strategies to be employed in the management of the Fund s assets. The Board noted the reputation and experience of Voya.

The Board considered the proposed fees to be paid under the Agreement, noting that Voya s fee would be paid by WTAM (out of its fee paid by the Fund), and not the Fund, and thus would not impact the fees paid by the Fund. The Board considered the fee to be paid to Voya in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by Voya and WTAM. Based on this review, the Board concluded that the fees to be paid to Voya supported the Board s approval of the Agreement.

Analysis of Profitability and Economies of Scale

The Board recognized that, because Voya s fee would be paid by WTAM, and not the Fund, an analysis of profitability and economies of scale was more appropriate in the context of the Board s consideration of the investment advisory agreement between the Trust and WTAM. Accordingly, the Board did not consider Voya s profitability to be relevant to its deliberations with respect to approval of the Agreement. The Board considered potential benefits to Voya from acting as sub-adviser to the Fund.

* * * * *

Edgar Filing: WisdomTree Trust - Form N-CSR

In evaluating the Agreement, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and Voya, of other funds sub-advised by Voya. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreement.

General Information (unaudited)

Proxy Voting Policies, Procedures and Record

A complete copy of the Proxy Voting Policy may be obtained upon request, at no charge, by calling 1-866-909-WISE (9473) or writing to: WisdomTree Trust, c/o Foreside Fund Services, LLC, Three Canal Plaza Suite 100, Portland, ME, 04101.

The Trust is required to disclose annually the Funds' complete proxy voting record on Form N-PX covering the most recent 12-month period ended June 30 and to file Form N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Funds is available at no charge upon request by calling 1-866-909-WISE (9473) or through the Trust's website at www.wisdomtree.com. The Funds' Form N-PX is also available on the SEC's website at www.sec.gov.

Shareholder Reports and Quarterly Portfolio Disclosure

The Funds are required to file their complete schedule of portfolio holdings with the SEC for their first and third fiscal quarters on Form N-Q. Copies of the filings are available, without charge, on the SEC's website at www.sec.gov and are also available by calling the Trust at 1-866-909-WISE (9473). You can also obtain copies of Form N-Q by (i) visiting the SEC's Public Reference Room in Washington, DC (information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330); (ii) sending your request and a duplicating fee to the SEC's Public Reference Room, Washington, DC 20549-0102; or (iii) sending your request electronically to publicinfo@sec.gov.

Information about each Fund's portfolio holdings is available daily, without charge, at www.wisdomtree.com.

The Statement of Additional Information (SAI) has additional information about the Funds' Trustees and Officers and is available without charge upon request. Contact your financial representative for a free prospectus or SAI.

Frequency Distribution of Discounts & Premiums

Information about differences between the per share net asset value of each Fund and the market trading price of shares of each Fund are available, without charge, at www.wisdomtree.com.

Table of Contents

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers.

Fixed income investments are subject to interest rate risk; their value will normally decline as interest rates rise. In addition, when interest rates fall, income may decline. Fixed income investments are also subject to credit risk, the risk that the issuer of a bond will fail to pay interest and principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of that bond to decline. High-yield or junk bonds have lower credit ratings and involve a greater risk to principal. One of the risks associated with the Managed Futures Strategy Fund (WDTI) is the complexity of the different factors which contribute to the Fund's performance, as well as their correlation (or non-correlation) to other asset classes. These factors include use of long and short positions in commodity futures contracts, currency forward contracts, swaps and other derivatives. An investment in WDTI is speculative and involves a substantial degree of risk. WDTI should not be used as a proxy for taking long only (or short only) positions in commodities or currencies. In markets without sustained price trends or markets that quickly reverse or whipsaw WDTI may suffer significant losses. Unlike typical exchange-traded funds, there are no indexes that the actively managed Currency Strategy Funds, actively managed Fixed Income Funds or WDTI attempt to track or replicate. Thus, the ability of these Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Table of Contents

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description.
- (d) The registrant has not granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this item's instructions.
- (f) The code of ethics is attached hereto as exhibit 13(a)(1).

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that the Registrant has one audit committee financial expert, as that term is defined under Item 3(b) and 3(c), serving on its audit committee. The audit committee financial expert serving on the Registrant's audit committee is David Chrencik, who is an independent Trustee of the Trust, as that term is defined under Item 3(a) (2).

Item 4. Principal Accountant Fees and Services.

Audit Fees

- (a) The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years are \$397,085 for 2017 and \$543,302 for 2016.

Audit-Related Fees

- (b)

Edgar Filing: WisdomTree Trust - Form N-CSR

The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item are \$0 for 2017 and \$0 for 2016.

Table of Contents

Tax Fees

- (c) The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are \$199,100 for 2017 and \$163,165 for 2016.

All Other Fees

- (d) The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are \$0 for 2017 and \$0 for 2016.

- (e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

Per Rule 2-01(c) (7) (A), the Registrant's audit committee charter provides that the audit committee shall select and approve in advance the retention of independent accountants to annually audit and provide their opinion on the Registrant's financial statements. The audit committee must also approve prior to appointment the engagement of the principal accountant to provide other audit services to the Registrant or to provide non-audit services to the Registrant, its investment adviser, or any entity controlling, controlled by, or under common control with its investment adviser (adviser/affiliate) that provides ongoing services to the Registrant, if the engagement by the investment adviser or adviser affiliate relates directly to the operations and financial reporting of the Registrant. The audit committee must also, prior to appointment of the engagement of the principal accountant, review and approve the fees proposed to be charged to the Registrant by the auditors for each audit and non-audit service. The audit committee must also consider whether non-audit services provided by the Registrant's principal accountant to the Registrant's investment adviser, or adviser/affiliate that provides ongoing services to the Trust are compatible with maintaining the auditor's independence.

- (e)(2) The Registrant's Audit committee has approved 100% of services described in each of Items 4(b) through (d) pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
- (f) The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.
- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant was \$199,100 for 2017 and \$163,165 for 2016.

(h) Not applicable.

Item 5. Audit Committee of Listed registrants.

The Registrant is an issuer as defined in Rule 10A-3 under the Exchange Act and has a separately-designated standing audit committee established in accordance with Section 3(a) (58)A of the Exchange Act. The Registrant's audit committee members are David Chrencik, Melinda Raso Kirstein and Victor Ugolyn.

Item 6. Investments.

(a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

(b) Not applicable.

Table of Contents

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Not applicable.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies

Not applicable.

Item 13. Exhibits.

- (a)(1) Code of ethics, or any amendment thereto, that is the subject of disclosure required by Item 2 is attached hereto.

Table of Contents

- (a)(2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
