*The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Dynamic Currency Hedged Europe Equity Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Currency Hedged Europe Equity Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

Edgar Filing: WisdomTree Trust - Form N-CSRS

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated November 1, 2017, the Fund's net and gross annual expense ratios were 0.43% and 0.48%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

* Returns of less than one year are cumulative.

¹ Total returns are calculated based on the commencement of Fund trading on the Cboe BZX Exchange, Inc. on January 7, 2016.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

The WisdomTree Strong Dollar Emerging Markets Equity Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Strong Dollar Emerging Markets Equity Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated November 1, 2017, the Fund's annual expense ratio was 0.32% and 0.58%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.32% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated November 1, 2017, the Fund's net and gross annual expense ratios were 0.38% and 0.48%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.38% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2017 to December 31, 2017.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During the Period 7/1/17 to 12/31/17* to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

The annualized expense ratio does not include AFFEs, which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies.

Unless otherwise indicated in the footnotes below, expenses are calculated using each Fund's annualized expense ratio, multiplied by the average account value for the period, multiplied by 184/365 (to reflect the one-half year period).

- ¹ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ² WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.35% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ³ WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund's investments in the Underlying Fund, as well as an additional 0.10%, through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ⁴ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.48% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.

¹ Based on average shares outstanding.

² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

³ Annualized.

⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments) or an Index developed by a third party. WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. (WTAM), the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund 's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund 's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund 's NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except, foreign currency contracts on Asian currencies for Global Hedged SmallCap Dividend Fund are valued using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade. Swap contracts are generally marked to market daily based upon values from independent pricing service providers or quotations from broker-dealers to the extent available.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund 's investments, which include derivatives, will be fair valued in accordance with the Fund 's pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund 's next NAV Calculation Time that may materially affect the value of a Fund 's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity 's own assumptions about the assumptions market participants

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of December 31, 2017 in valuing each Fund's assets:

** Security is being fair valued using significant unobservable inputs by the Pricing Committee.

The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

During the six months ended December 31, 2017, Dynamic Currency Hedged International SmallCap Equity Fund transferred securities with a fair value of \$1,003 from Level 1 to Level 2 as a result of the unavailability of a quoted price in an active market for identical investments.

During the six months or period ended December 31, 2017, there were no significant transfers into or out of Level 3 of the fair value hierarchy.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts and swap contracts during the period ended December 31, 2017 and open positions in such derivatives as of December 31, 2017 are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to credit risk. Credit risk is where the financial condition of an issuer of a security or instrument may cause it to default or become unable to pay interest or principal due on the security or where the counterparty to a derivative contract might default on its obligations. The Funds derivative agreements also contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds NAV over a specified time period. If an event occurred at December 31, 2017 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 162 and 163. At December 31, 2017, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature. Information with respect to the amounts and types of collateral received and/or posted for derivative instruments as of December 31, 2017, if any, is reflected as a footnote below the respective derivatives tables on each Fund's Schedule of Investments.

As of December 31, 2017, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

¹ The volume of derivative activity for the period is based on intra-month balances.

² For the period December 21, 2017 (commencement of operations) through December 31, 2017.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income (net of foreign taxes withheld, if any) is recognized on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Non-cash dividend income is recognized at the fair value of securities received on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Interest income (including amortization of premiums and accretion of discounts), net of any foreign taxes withheld, is accrued daily. Generally, amortization of premiums and accretion of discounts are recognized daily using the interest method (also known as the scientific amortization method). Income earned from securities lending activities (i.e. Securities lending income), net of fees payable to the securities borrower and/or securities lending agent, is accrued daily.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net increase (decrease) in unrealized appreciation (depreciation) from investment transactions*, respectively, on the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency contracts and foreign currency related transactions* and/or *increase (decrease) in unrealized appreciation (depreciation) from foreign currency contracts and translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges,

taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the

partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Acquired fund fees and expenses (which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies) are not operating expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under *Service fees*, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts The Currency Hedged Equity Funds, except the Global Hedged SmallCap Dividend Fund, utilized forward foreign currency contracts (Forward Contract) to dynamically obtain either a net long or net short exposure to foreign currencies consistent with each Currency Hedged Equity Fund's investment objective. The Global Hedged SmallCap Dividend Fund utilized Forward Contracts to obtain net short exposure to foreign currencies consistent with its investment objective. The Emerging Markets Dividend Fund, Europe Domestic Economy Fund, Global ex-Mexico Equity Fund, Global SmallCap Dividend Fund, ICBCCS S&P China 500 Fund, and the Strong Dollar Emerging Markets Equity Fund utilized Forward Contracts to facilitate foreign security settlements. A Forward Contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds and included in *net increase (decrease) in unrealized appreciation (depreciation) from foreign currency contracts* on the Statements of Operations. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold and included in *net realized gain (loss) from foreign currency contracts* on the Statements of Operations.

Futures Contracts The Global SmallCap Dividend Fund utilized equity futures contracts on a temporary basis during the period to obtain market exposure consistent with its investment objective during the Fund's annual portfolio rebalance. When a Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. When a Fund sells a listed futures contract, it agrees to sell a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange-listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the initial margin. Subsequent payments, known as variation margin, generally are made or received by the Fund each day or at other agreed-upon time periods depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures. When a Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

risk associated with the use of leverage and other related risks. To cover its position, a Fund will segregate assets consisting of, or take other measures with respect to, cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, will cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. This will function as a practical limit on the amount of leverage which a Fund may undertake and on the potential increase in the speculative character of a Fund's outstanding portfolio securities.

Total Return Swap Contracts The Dynamic Bearish U.S. Equity Fund and the Dynamic Long/Short U.S. Equity Fund utilized total return swap contracts to obtain short exposure to the S&P 500 Index. Total return swap contracts are agreements between counterparties to exchange the return of a given underlying reference asset/index, including income and any appreciation/depreciation in value of the reference asset/index, in exchange for payments equal to a rate of interest on another reference asset. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses and the periodic payments received or made on the swap are recorded as realized gains or losses. Swap agreements may be used to achieve exposure to, for example, currencies, interest rates, indexes and money market securities without actually purchasing such currencies or securities. A Fund may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impractical. Swap agreements will tend to shift a Fund's investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease a Fund's exposure to long- or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other factors, and may increase or decrease the overall volatility of a Fund's investments and its share price. Total return swaps are exposed to the market risk factor of the specific underlying reference asset/index such as unanticipated movements in the value of the exchange rates, interest rates, securities, or the reference asset/index. Additional risks to a Fund include the possibility that there is no liquid market for these agreements or that the swap counterparty may default on its obligation to perform. A Fund's maximum loss from counterparty risk is the fair value of the contract.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of

set-off provisions in the event of a default and/or termination event. Under an ISDA Master

170 WisdomTree Trust Semi-Annual Report December 31, 2017

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

A Fund's security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of December 31, 2017, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation (MCM) to provide sub-advisory services to the Funds, except for Fundamental U.S. Corporate Bond Fund, Fundamental U.S. High Yield Corporate Bond Fund, Fundamental U.S. Short-Term Corporate Bond Fund and Fundamental U.S. Short-Term High Yield Corporate Bond Fund which are sub-advised by Voya Investment Management Co., LLC (Voya IM) and ICBCCS S&P China 500 Fund which is sub-advised by ICBC Credit Suisse Asset Management (International) Company Ltd. (ICBC Credit Suisse). MCM, Voya IM and ICBC Credit Suisse are compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for an annual fee, accrued daily and paid monthly in arrears, of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

4. CAPITAL SHARE TRANSACTIONS

Edgar Filing: WisdomTree Trust - Form N-CSRS

As of December 31, 2017, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a portfolio of equity securities and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

7. RECENT ACCOUNTING PRONOUNCEMENT

In March 2017, the FASB issued *ASU 2017-08 Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. The amendments in ASU 2017-08 shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. ASU 2017-08 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. WTAM is currently evaluating the impact that the adoption of this guidance will have on the Trust's financial statements and related disclosures.

8. SUBSEQUENT EVENTS

At the recommendation of WTAM, after continued review of the product lineup and anticipated limited future prospect of investor demand, among other considerations, the Board of Trustees voted to close and liquidate the Strong Dollar Emerging Markets Equity Fund, U.S. Domestic Economy Fund and the U.S. Export and Multinational Fund (each a Liquidating Fund and collectively referred to herein as the Liquidating Funds).

After the close of business on March 16, 2018, the Liquidating Funds will no longer accept creation orders. The last day of secondary market trading of shares of the Liquidating Funds on their respective exchanges will be March 16, 2018. Shareholders may sell Liquidating Fund shares through a broker in the standard manner through this date. Customary brokerage charges may apply to such transactions. When a Liquidating Fund commences liquidation of its portfolio, which is anticipated to occur on or around March 16, 2018, but may occur before March 16, 2018, and at different times for each Liquidating Fund, each Liquidating Fund will be increasing its cash holdings and deviating from the investment objective and strategies stated in its prospectus.

It is anticipated that shareholders remaining in the Liquidating Funds after the last day of trading will have their shares redeemed automatically on or around March 23, 2018 and will receive cash through their broker or other applicable financial intermediary thereafter in an amount equal to the net asset value of their shares. This amount is expected to include any accrued capital gains and dividends. Shareholders remaining in a Liquidating Fund and that receive cash will not be charged any transaction fees by the Liquidating Fund. Whether a shareholder sells their shares or are automatically redeemed as described above, a shareholder will generally recognize a capital gain (or loss) equal to the amount they received above (or below) their adjusted cost basis in such shares.

Table of Contents**Approval of Investment Advisory and Sub-Advisory Agreements** (unaudited)***Consideration of the Renewal of Investment Advisory and Sub-Investment Advisory Agreements with respect to all Funds (except the WisdomTree ICBCCS S&P China 500 Fund and the WisdomTree Balanced Income Fund)***

At a meeting of the Board of Trustees (the Board or the Trustees) of the WisdomTree Trust (the Trust) held on September 26-27, 2017 (the Meeting), the Trustees, including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the renewal of the Investment Advisory Agreements between WisdomTree Asset Management, Inc. (WTAM) and the Trust, on behalf of its series (each, a Fund, and, collectively, the Funds), pursuant to which WTAM provides the Funds with investment advisory services (the Advisory Agreements), the Sub-Advisory Agreement (the MCM Sub-Advisory Agreement), pursuant to which Mellon Capital Management Corporation (MCM) coordinates the investment and reinvestment of the assets of applicable Funds listed on Schedule 1 hereto, and the Investment Sub-Advisory Agreement (together with the MCM Sub-Advisory Agreement, the Sub-Advisory Agreements, and, collectively with the Advisory Agreements, the Agreements), pursuant to which Voya Investment Management Co. LLC (Voya, and, together with MCM, the Sub-Advisers) coordinates the investment and reinvestment of the assets of the applicable Funds.

The Trustees requested, and WTAM provided, such information as the Trustees, with advice from counsel to the Trust and independent legal counsel, deemed reasonably necessary to evaluate the Agreements. At a meeting of a committee of Independent Trustees (the Contracts Review Committee) held on August 3, 2017, representatives from WTAM presented preliminary information to the Trustees relating to the continuance of the Agreements, and the Trustees, including the Independent Trustees, reviewed and discussed such information. Further information was presented at the Board's request at the Meeting.

The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Advisers. In considering the renewal of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Funds.

The Board considered information provided to them at the Meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the Funds, recognizing WTAM's and the Sub-Advisers' operational capabilities and resources. The Board also discussed the role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to certain Funds, which comprise the substantial majority of assets in the WisdomTree fund complex. The Board noted that the strategies represented by those Funds tracking affiliated WTI indexes are unique, based on WTI's intellectual property and are only available for use by applicable Funds through WTAM. The Board noted WTAM's belief that shareholders have invested in such Funds on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Funds based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including: the selection of, and supervisory responsibilities and activities over, the Sub-Advisers, including oversight of the Sub-Advisers' adherence to each Fund's investment strategy and restrictions, monitoring of the Sub-Advisers' buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Advisers and oversight of, and the provision of consultation to, the Sub-Advisers with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Funds' portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds' management personnel and that WTAM provides oversight of day-to-day Fund operations, including fund accounting, tax matters, administration and legal assistance in meeting disclosure and regulatory requirements. Based on management's representations, the Board expected that there would be no reduction in the scope of services required by or provided by WTAM and the Sub-Advisers under the relevant Agreements. The Board noted that WTAM has continued to commit significant resources toward the fund complex and has made substantial investments to improve the services offered by WTAM, which benefit Fund shareholders.

Based on review of this information and the other factors considered at the Meeting, the Board concluded that the nature, extent and quality of services provided by WTAM and the Sub-Advisers under the Advisory Agreements and Sub-Advisory Agreements, respectively, are adequate and appropriate and supported the Board's approval of the renewal of the Agreements.

Comparative Analysis of the Funds' Performance and Management Fee and Expense Ratio.

Edgar Filing: WisdomTree Trust - Form N-CSRS

The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data, which included information (1) measuring each index Fund s performance by how well it tracked the relevant benchmark index and (2) comparing each Fund s actual management fees and total expenses with those of a group of comparable funds (the Expense Group) and, with respect to total expenses, with a broader group of funds (the Expense Universe), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its

Table of Contents**Approval of Investment Advisory and Sub-Advisory Agreements** (unaudited) (continued)

analysis. The Contracts Review Committee and the Independent Trustees previously had reviewed and discussed the methodology Broadridge used to select the Expense Groups and Expense Universes. The Board noted that the Expense Groups and Expense Universes included only pure-index and index-based exchange traded funds (ETFs) as comparison funds. The Board also noted that due to the special characteristics of certain Funds, there are limitations in providing comparable funds in the Performance Groups, Expense Groups and Expense Universes, and the information in the Broadridge reports may or may not provide meaningful direct comparisons to the Funds. The Board also reviewed reports prepared by WTAM presenting performance data for Funds with ten years of performance history and for WisdomTree indexes with at least three years of performance history that are tracked by an index Fund.

The Board discussed the index Funds' performance, noting that the substantial majority of index Funds seek to track their own WisdomTree benchmark index. During the prior year, the Board received periodic reports on the Funds' performance in comparison to their relevant benchmark indexes. In response to questions from the Independent Trustees, WTAM representatives discussed the relative performance of the Funds and the factors affecting such performance. On that basis, the Board determined to monitor carefully in the coming year disparities in performance—both positive and negative—but did not believe that the disparities in the past reflected any characteristics requiring immediate action by WTAM or a Sub-Adviser.

The Board also reviewed the range of actual management fees and total expenses of the Expense Group funds and, with respect to total expenses, Expense Universe funds, as well as the advisory fees and total expenses of certain funds not included in the Broadridge reports that WTAM considers to be significant competitors of the Funds, and discussed the results of the comparisons. With respect to comparisons of actual management fees, the Board noted the Funds' unitary fee structure and that the Expense Groups and Expense Universes generally included both ETFs with and without a unitary fee structure. The Board also noted that certain comparison funds in certain Expense Groups and Expense Universes benefited from waivers of all or a portion of their management fees and reimbursement of certain operating expenses. The Board noted that the total expenses of many of the Funds were within five basis points of the median or average total expenses of the funds in the Funds' respective Expense Groups. In those specific instances where a Fund's total expenses departed more significantly from comparative funds, the Independent Trustees sought explanations from WTAM, which generally attributed the disparities to the limitations within peer and/or the unique attributes of a Fund.

The Board considered the fees to the Sub-Advisers in relation to the fees paid to WTAM by the Funds and the respective services provided by the Sub-Advisers and WTAM. The Board also noted that the Sub-Advisers' fees are paid by WTAM (out of its fee paid by the relevant Funds) and not the Funds. The Board considered the meaningful differences in the services that WTAM provides to the Funds as compared to the Sub-Advisers, including that the role of a Sub-Adviser in making investment recommendations with respect to a Fund tracking an index is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk borne by WTAM that is associated with Funds' unitary fee structure, which frequently includes minimum fees (such as those to a Sub-Adviser), regardless of whether the asset size of a Fund has grown to a sufficient size.

Based on this review and the other factors considered at the Meeting, the Board concluded that, with respect to each Fund, the Fund's performance, the fees paid to WTAM and the relevant Sub-Adviser and the Fund's total expenses supported the Board's approval of the renewal of the relevant Agreements.

Analysis of Profitability and Economies of Scale.

WTAM representatives reviewed the expenses allocated and profit received by WTAM and the resulting profitability percentage for managing each Fund and the aggregate profitability percentage to WTAM for managing the WisdomTree fund complex, and the method used to determine the expenses and profit.

The Board considered the profitability analysis (1) as part of its evaluation of whether the fees under the Agreements bear a reasonable relationship to the mix of services provided by WTAM and the Sub-Advisers, including the nature, extent and quality of such services, and (2) in light of the relevant circumstances for each Fund and the extent to which economies of scale would be realized if the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund shareholders. WTAM representatives noted that a discussion of economies of scale is predicated on a Fund having achieved a substantial size and that, if a Fund's assets had been decreasing, the possibility that WTAM may have realized any economies of scale would be less. WTAM representatives also noted that, as a result of shared and allocated costs among the WisdomTree funds, the extent of economies of scale could depend substantially on the level of assets in the fund complex as a whole. The Board noted that certain Funds had grown rapidly over a relatively short period of time after longer periods of slow or no growth, during which there

Edgar Filing: WisdomTree Trust - Form N-CSRS

were years of losses for WTAM in managing such Funds that had only recently turned profitable and years of substantial cumulative losses to WTAM in managing the fund complex as a whole. WTAM representatives stated that there has been significant volatility in the assets of individual Funds and in the fund complex as a whole over time (including volatility in profitability) and that it was not clear that current asset levels will be maintained. WTAM representatives noted that assets in certain Funds have diminished at times at a rapid

rate (including during the last year) and could continue to do so. WTAM representatives also noted that economies of scale currently are shared with the Funds by way of the unitary fee structure of the Trust, as well as through additional investment in the WisdomTree business. The Board noted that the Contracts Review Committee had focused on the issue of economies of scale during its meetings. The Board also noted that it would continue to monitor the sharing of economies of scale, focusing in particular on Funds that have experienced significant asset growth, to determine the appropriateness of adding breakpoints in the future. The Board also considered potential benefits to WTAM and the Sub-Advisers from acting as investment adviser and sub-investment advisers, respectively, and noted that there were no soft dollar arrangements in effect for trading the Funds' investments. Based on this review, the Board concluded that the profitability results were consistent with the services rendered and service levels provided by WTAM and the entrepreneurial risk WTAM has undertaken over time.

* * * * *

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreements. In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its previous knowledge, gained through meetings and other interactions with WTAM and the Sub-Advisers, of the Funds and the services provided to the Funds by WTAM and the Sub-Advisers. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the Funds and the investment advisory and other services provided under the Agreements. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the renewal of the Agreement.

Consideration of the Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree ICBCCS S&P China 500 Fund (the Fund)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on September 26-27, 2017, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which ICBC Credit Suisse Asset Management (International) Co. Ltd. (ICBCCS or the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM, the Sub-Adviser and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Trustees were assisted in their review by counsel to the Trust and independent legal counsel, and met with counsel in executive session separate from representatives of WTAM and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund.

The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM's operational capabilities and resources. The Board considered WTAM's reasons for recommending that ICBCCS be appointed as the sub-adviser to the Fund, including its due diligence concerning ICBCCS. WTAM representatives noted ICBCCS's expertise in investing in securities of Chinese companies and in-depth understanding of the Chinese markets and stated that ICBCCS is one of the largest asset managers in China. The Board also received materials from ICBCCS detailing its investment process and met with representatives of ICBCCS, who discussed with the Board that investment process and the backgrounds and qualifications of relevant personnel of ICBCCS, including the Fund's proposed primary portfolio manager and ICBCCS's chief compliance officer. The Board noted WTAM's belief that shareholders will invest in the Fund on the strength of WTAM's and ICBCCS's industry standing and reputation. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Fund, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to the Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Fund's portfolio holdings; oversight of general Fund compliance with federal and state laws;

and implementation of Board directives as they relate to the Fund. The Board also considered research support available to, and management capabilities of, the Fund's management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board’s approval of the Agreements.

Comparative Analysis of the Fund’s Performance, Advisory Fees and Fund Expenses.

As the Fund had not yet commenced operations, the Board was not able to review the Fund’s performance. The Board discussed with representatives of WTAM and ICBCCS the portfolio manager’s experience and the investment strategies to be employed in the management of the Fund’s assets. The Board noted the reputation and experience of WTAM and ICBCCS.

The Board considered the fees to be paid to WTAM by the Fund. The Board examined the fee to be paid by the Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund’s fee. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser’s fee will be paid by WTAM (out of its fee paid by the Fund) and not the Fund. The Board considered the meaningful differences in the services that WTAM will provide to the Fund as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to the Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Fund’s unitary fee structure, regardless of whether the asset size of the Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board’s approval of the Agreements.

Analysis of Profitability and Economies of Scale.

As the Fund had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Fund had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it was determined that material economies of scale had not been shared with the Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

* * * * *

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM, of other funds advised by WTAM. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

Consideration of the Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree Balanced Income Fund (the Fund)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on December 12-13, 2017, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Mellon Capital Management Corporation (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Trustees noted that representatives from WTAM presented preliminary information to the Trustees regarding the Fund’s proposed investment objective, index methodology and principal investment strategies and risks at meetings of the Fund’s Investment Committee, a committee of Independent Trustees, held on December 14, 2016 and September 26, 2017. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the approval of the Agreements, the Board

considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

The Board noted WTAM's belief that shareholders will invest in the Fund on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Fund based on the WTI index. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Fund, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to the Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Fund's portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Fund. The Board also considered research support available to, and management capabilities of, the Fund's management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the Agreements.

Comparative Analysis of the Fund's Performance, Advisory Fees and Fund Expenses.

As the Fund had not yet commenced operations, the Board was not able to review the Fund's performance. The Board discussed with WTAM representatives the portfolio management team and the investment strategies to be employed in the management of the Fund's assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by the Fund. The Board examined the fee to be paid by the Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund's fee. The Board noted the proposed fee waiver arrangements. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser's fee will be paid by WTAM (out of its fee paid by the Fund) and not the Fund. The Board considered the meaningful differences in the services that WTAM will provide to the Fund as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to the Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Fund's unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of the Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board's approval of the Agreements.

Analysis of Profitability and Economies of Scale.

As the Fund had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Fund had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with the Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

Edgar Filing: WisdomTree Trust - Form N-CSRS

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Fixed income investments are subject to interest rate risk; their value will normally decline as interest rates rise. In addition, when interest rates fall income may decline. Fixed income investments are also subject to credit risk, the risk that the issuer of a bond will fail to pay interest and principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of that bond to decline. High-yield or junk bonds have lower credit ratings and involve a greater risk to principal. While the Fundamental Fixed Income Funds attempt to limit credit and counterparty exposure, the value of an investment in the Funds may change quickly and without warning in response to issuer or counterparty defaults and changes in the credit ratings of the Fund's portfolio investments. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only by Authorized Participants in large creation unit sizes of shares.
