We Continue to Target Attractive Returns in the Near-Term Chapter 1 6 We expect cash flow from operations to grow more than 40 percent from 2016 levels to 2020, driven by retransmission revenue increases and restructuring initiatives We expect margin improvement of approximately 400 bps from 2018 to 2020 Our buy-sell-swap strategy offers incremental returns via margin improvement We are returning cash to shareholders via the dividend initiation in Q1 2018 (current dividend yield of ~1.7%) We expect to continue share repurchases, and have \$82.6 million remaining in our current share repurchase program that expires at the end of the year We take a disciplined approach to allocating capital, balancing business investment, acquisitions and shareholder return

Right now, our debt is about 3.5 times our EBITDA average – the lowest among our peer group of companies. On path to less than ~3.0x net leverage by year end 2018 6 Scripps Modestly Levered Versus TV Broadcast Peers

Restructuring Initiatives Have Been Well-Received By Wall Street Research Chapter 1 Regarding its “Buy” rating: “We now calculate a 2018/2019 PMV of \$24 per share for SSP based on 8x BCF, rising to \$31 per share in 2019/2020.” “We came away impressed with the strong revenue growth that Katz has already generated (55% 5 yr. CAGR through F17) and believe the consumer shift to over-the-air viewing and Katz's shift to general market advertising offers further revenue/profitability growth potential moving forward. Bottom Line: Execution risk seems modest.” – Jefferies, Jan. 23, 2018 “National is profitable, management is committed to returning capital ..., there is a clear focus on TV station M&A, and sub trends are getting better. ... We truly believe the management team is making the right changes for the long term.” – Wells Fargo, Feb. 28, 2018 “Scripps currently has 2.5 million subscribers paying essentially nothing, National is expected to see improved profitability over the next 24 months, and Scripps has significant FCC cap room to merge/make acquisitions, with synergies likely to enhance revenues and cash flow in both segments. Therefore, we believe a multiple of 8x consolidated broadcast EBITDA and 2x revenue for National is justified, resulting in a \$21 per share price target.” – Benchmark, March 1, 2018 – Gabelli, Jan. 26, 2018

GAMCO's Thesis Is Misguided Chapter 4

As it does with all investors, Scripps has sought to foster an open dialogue with GAMCO about company operations and strategy as well as board composition. Despite Scripps' attempts at dialogue, GAMCO escalated to a proxy contest, with little explanation. To avoid any risk, executing on our strategy is paramount to maximizing value for our shareholders. Despite Regular Conversations, Mr. Gabelli Never Articulated A Coherent Thesis For Company Change Chapter 4 Summary Of Interactions May 10, 2017 Adam Symson, as COO, with then CEO Rich Boehne and IR VP Carolyn Micheli, visited the GAMCO team at their offices and had a positive, friendly talk about creating value and the company direction. July 2017 Mario Gabelli, GAMCO founder and CEO, called Symson to congratulate him on the announcement that he would take the CEO role in August. He did not indicate concerns with company direction. Aug. 16, 2017 GAMCO filed an amended 13D stating that it was evaluating all options with respect to submitting director nominations for considerations at the Scripps Annual Meeting. Sept. 6, 2017 Gabelli attended Scripps' Investor Day and talked with Symson and Micheli, but did not indicate intent to submit director nominations or any concerns about company direction. Nov. 3, 2017 Gabelli had a call with Symson and Micheli during which he stated his intent to nominate up to three directors, that it was a friendly move and that capital allocation was generally an issue but with no specifics. Feb. 20, 2018 After GAMCO had nominated three directors with no prior communication on their identities, Scripps asked to interview them. GAMCO declined. March 5, 2018 Symson and Gabelli met and discussed the company's strategic and operating plan, trends within the industry and the composition of the Board.
