Schedule of Investments as of April 30, 2018 (unaudited) (continued)

On June 14, 2017, GenOn Energy, Inc. and its subsidiaries filed for bankruptcy under Chapter 11. In connection with the Chapter 11 plan of reorganization (the "GenOn Reorganization Plan") GenOn Energy, Inc. and its subsidiaries issued a 144A high yield bond offering for the exit financing of the bankruptcy. As part of the GenOn Reorganization Plan and restructuring of the existing bond, PGIM, Inc. had agreed to participate in (dd) a backstop commitment of \$6,325,000 for the new bond offering. Under the commitment agreement, the Fund would have been obligated to purchase all of the unsubscribed shares of the bond offering. The Fund has received a backstop fee of \$316,250 in conjunction with this commitment. As of November 17, 2017, the agreement was terminated and PGIM, Inc. was not obligated to purchase any unsubscribed shares of the bond offering.

(p) Interest rate not available as of April 30, 2018.

(w) PGIM Investments LLC, the manager of the Fund, also serves as manager of the PGIM Core Ultra Short Bond Fund.

Effective June 11, 2018, the Fund's name was changed by replacing "Prudential" with "PGIM" in the Fund's name. Notes to Schedule of Investments (unaudited)

Securities Valuation: The Fund holds securities and other assets and liabilities that are fair valued at the close of each day (generally, 4:00 PM Eastern time) the New York Stock Exchange ("NYSE") is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the "Board") has adopted valuation procedures for security valuation under which fair valuation responsibilities have been delegated to PGIM Investments LLC ("PGIM Investments" or "the Manager"). Under the current valuation procedures, the Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets and liabilities. The valuation procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly scheduled quarterly meeting.

For the fiscal reporting period-end, securities and other assets and liabilities were fair valued at the close of the last U.S. business day. Trading in certain foreign securities may occur when the NYSE is closed (including weekends and holidays). Because such foreign securities trade in markets that are open on weekends and U.S. holidays, the values of some of the Fund's foreign investments may change on days when investors cannot purchase or redeem Fund shares. Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the Schedule of Investments.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the OTC market are generally classified as Level 2 in the fair value hierarchy. Such fixed income securities are typically valued using the market approach which generally involves obtaining data from an approved independent third-party vendor source. The Fund utilizes the market approach as the primary method to value securities when market prices of identical or comparable instruments are available. The third-party vendors' valuation techniques used to derive the evaluated bid price are based on evaluating observable inputs, including but not limited to, yield curves, yield spreads, credit ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds,

27

broker/dealer quotations and reported trades. Certain Level 3 securities are also valued using the market approach when obtaining a single broker quote or when utilizing transaction prices for identical securities that have been used in excess of five business days. During the reporting period, there were no changes to report with respect to the valuation approach and/or valuation techniques discussed above.

Bank loans are generally valued at prices provided by approved independent pricing vendors. The pricing vendors utilize broker/dealer quotations and provide prices based on the average of such quotations. Bank loans valued using such vendor prices are generally classified as Level 2 in the fair value hierarchy. Bank loans valued based on a single broker quote or at the original transaction price in excess of five business days are classified as Level 3 in the fair value hierarchy.

OTC derivative instruments are generally classified as Level 2 in the fair value hierarchy. Such derivative instruments are typically valued using the market approach and/or income approach which generally involves obtaining data from an approved independent third-party vendor source. The Fund utilizes the market approach when quoted prices in broker-dealer markets are available but also includes consideration of alternative valuation approaches, including the income approach. In the absence of reliable market quotations, the income approach is typically utilized for purposes of valuing OTC derivatives such as interest rate swaps based on a discounted cash flow analysis whereby the value of the instrument is equal to the present value of its future cash inflows or outflows. Such analysis includes projecting future cash flows and determining the discount rate (including the present value factors that affect the discount rate) used to discount the future cash flows. In addition, the third party vendors' valuation techniques used to derive the evaluated OTC derivative price is based on evaluating observable inputs, including but not limited to, underlying asset prices, indices, spreads, interest rates and exchange rates. Certain OTC derivatives may be classified as Level 3 when valued using the market approach by obtaining a single broker quote or when utilizing unobservable inputs in the income approach. During the reporting period, there were no changes to report with respect to the valuation approach and/or valuation techniques discussed above.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the Manager regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's

most recent closing price and from the price used by other unaffiliated mutual funds to calculate their net asset values. The Fund may invest without limit in illiquid securities, including those that are restricted as to disposition under securities law (“restricted securities”). Restricted securities are valued pursuant to the valuation procedures noted above. The Fund may invest its overnight sweep cash in the PGIM Core Ultra Short Bond Fund, a series of the Prudential Investment Portfolios 2, registered under the Investment Company Act of 1940, as amended, and managed by PGIM Investments.

Other information regarding the Fund is available in the Fund’s most recent Report to Shareholders. This information is available on the Securities and Exchange Commission’s website (www.sec.gov)
