Consolidated Financial Results

April 1, 2018 June 30, 2018

July 30, 2018

In preparing its consolidated financial information, ORIX Corporation (the "Company") and its subsidiaries have complied with generally accepted accounting principles in the United States of America.

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under "Risk Factors" in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission.

The Company believes that it may have been a "passive foreign investment company" for U.S. federal income tax purposes in the year to which these consolidated financial results relate by reason of the composition of its assets and the nature of its income. In addition, the Company may be a PFIC for the foreseeable future. Assuming that the Company is a PFIC, a U.S. holder of the shares or ADSs of the Company will be subject to special rules generally intended to eliminate any benefits from the deferral of U.S. federal income tax that a holder could derive from investing in a foreign corporation that does not distribute all of its earnings on a current basis. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company's annual report.

Overview of Business Performance (April 1, 2018 to June 30, 2018)

Total revenues for the three months ended June 30, 2018 (hereinafter, the first consolidated period) decreased 24% to ¥603,917 million compared to ¥792,297 million during the same period of the previous fiscal year. Despite an increase in life insurance premiums in line with an increase in in-force policies, life insurance premiums and related investment income in the life insurance business decreased due to a decrease in investment income from assets under variable annuity and variable life insurance contracts, as compared to the same period of the previous fiscal year during which period market conditions had improved significantly. In addition, sales of goods and real estate decreased due primarily to decreasing revenues generated by subsidiaries in the principal investment business. On the other hand, services income increased due primarily to large gains from sales of property under facility operations, and increasing revenues generated by subsidiaries in the principal investment business.

Total expenses decreased 27% to ¥511,922 million compared to ¥700,317 million during the same period of the previous fiscal year. Costs of goods and real estate sold and life insurance costs decreased in line with the aforementioned decreased revenues. In addition, services expense increased in line with the aforementioned increased revenues.

Equity in net income of affiliates decreased mainly due to the recognition of significant gains on sales of investments in real estate joint ventures compared to the same period of the previous fiscal year.

As a result of the foregoing, income before income taxes for the first consolidated period decreased 18% to ¥110,954 million compared to ¥135,611 million during the same period of the previous fiscal year, and net income attributable to ORIX Corporation shareholders decreased 11% to ¥79,947 million compared to ¥89,712 million during the same period of the previous fiscal year.

Table of Contents**Segment Information**

Total segment profits for the first consolidated period decreased 16% to ¥113,431 million compared to ¥134,422 million during the same period of the previous fiscal year.

Segment information for the first consolidated period is as follows:

Corporate Financial Services Segment: Loan, leasing and fee business

	Three months ended June 30, 2017 (millions of yen)	Three months ended June 30, 2018 (millions of yen)	Change Amount (millions of yen)	Percent (%)
Segment Revenues	25,456	25,004	(452)	(2)
Segment Profits	10,225	7,820	(2,405)	(24)

	As of March 31, 2018 (millions of yen)	As of June 30, 2018 (millions of yen)	Change Amount (millions of yen)	Percent (%)
Segment Assets	991,818	976,117	(15,701)	(2)

Segment revenues decreased 2% to ¥25,004 million compared to ¥25,456 million during the same period of the previous fiscal year due to a decrease in finance revenues from decreases in average investment balance in direct financing leases and installment loans despite an increase in services income resulting from our stable fee businesses provided to domestic small- and medium-sized enterprise customers.

Segment expenses decreased due to a decrease in selling, general and administrative expenses.

As a result of the foregoing and due to the recognition of gains on sales of subsidiaries and affiliates during the same period of the previous fiscal year, segment profits decreased 24% to ¥7,820 million compared to ¥10,225 million during the same period of the previous fiscal year.

Segment assets decreased 2% to ¥976,117 million compared to the end of the previous fiscal year due to decreases in investment in direct financing leases and installment loans.

Segment Assets	620,238	598,140	(22,098)	(4)

Table of Contents

Segment revenues increased 17% to ¥54,524 million compared to ¥46,520 million during the same period of the previous fiscal year due to an increase in services income from facilities operations which resulted from sales of property under facility operations.

Segment expenses decreased compared to the same period of the previous fiscal year.

As a result of the foregoing and due to a decrease in equity in net income of affiliates which recognized significant gains on sales of investments in real estate joint ventures during the same period of the previous fiscal year, segment profits decreased 32% to ¥22,219 million compared to ¥32,833 million during the same period of the previous fiscal year.

Segment assets decreased 4% to ¥598,140 million compared to the end of the previous fiscal year due primarily to sales of property under facility operations and rental properties.

Investment and Operation Segment: Environment and energy, principal investment, loan servicing (asset recovery), and concession

	Three months ended June 30, 2017 (millions of yen)	Three months ended June 30, 2018 (millions of yen)	Change Amount (millions of yen)	Percent (%)

Segment Profits	16,657	11,905	(4,752)	(29)

	As of March 31, 2018 (millions of yen)	As of June 30, 2018 (millions of yen)	Change Amount (millions of yen)	Percent (%)
Segment Assets	856,348	876,811	20,463	2

Segment revenues decreased 45% to ¥234,518 million compared to ¥422,557 million during the same period of the previous fiscal year due to decreases in sales of goods in subsidiaries in the principal investment business which recognized significant demand during the same period of the previous fiscal year and in real estate sales resulting from the decrease in number of condominiums delivered.

Segment expenses decreased compared to the same period of the previous fiscal year in line with the aforementioned revenues decreases.

As a result of the foregoing, segment profits decreased 29% to ¥11,905 million compared to ¥16,657 million during the same period of the previous fiscal year.

Segment assets increased 2% to ¥876,811 million compared to the end of the previous fiscal year due primarily to increases in inventories and advances for property under facility operations in the environment and energy business.

Table of Contents**Retail Segment:** Life insurance, banking and card loan

	Three months ended June 30, 2017 (millions of yen)	Three months ended June 30, 2018 (millions of yen)	Change Amount (millions of yen)	Percent (%)

Note : Shareholders' Equity refers to ORIX Corporation Shareholders' Equity based on U.S. GAAP. Shareholders' Equity Per Share is calculated using total ORIX Corporation Shareholders' Equity.

Total assets remained flat at ¥11,371,902 million compared to the end of the previous fiscal year. Investment in securities increased due primarily to the purchase of investment in securities in the life insurance business. On the other hand, investment in direct financing leases decreased due primarily to repayment from customers. In addition, segment assets remained flat at ¥9,117,155 million compared to the end of the previous fiscal year.

We manage the balance of interest-bearing liabilities at an appropriate level taking into account the condition of assets and liquidity on-hand as well as the domestic and overseas financial environment. As a result, long-term debt and short-term debt decreased, and deposits increased compared to the end of the previous fiscal year.

Shareholders' equity increased 1% to ¥2,712,205 million compared to the end of the previous fiscal year due primarily to an increase in retained earnings.

(3) Medium-Term Strategic Directions FY2019-2021

ORIX Group manages its business portfolio by dividing it into six segments: Corporate Financial Services, Maintenance Leasing, Real Estate, Investment and Operation, Retail, and Overseas Business. Furthermore, taking risk and capital requirements into account, ORIX Group categorizes these six segments into three categories: Finance, Operation and Investment to describe its mid-term strategic directions.

The Finance business is ORIX Group's customer base and source of information. However, given that the low interest rate environment makes growth difficult in the financial business, ORIX Group will continue to focus on Operation and Investment to grow stable earnings and will proactively enter new markets to nurture its next core businesses.

The Operation business for which operational risk is taken by ORIX Group is positioned as ORIX Group's growth driver and source for new and stable earnings. ORIX Group will engage in M&A and expand new investment with a focus on the environment and energy business, asset management business, concession business and life insurance business as well as other new business areas coming from the change in society and the market.

The Investment business provides ORIX Group with opportunities to develop new businesses. ORIX Group focuses mainly on private equity businesses in Japan and overseas, aircraft- and ship-related operations and will expand the scale of those businesses.

From the fiscal year ending March 31, 2019, ORIX Group aims to achieve annual net income attributable to ORIX Corporation shareholders growth of between 4% and 8%, and to maintain ROE above 11%.

(6) Changes in Accounting Policies

(Adoption of New Accounting Standards)

In May 2014, Accounting Standards Update 2014-09 (Revenue from Contracts with Customers ASC 606 (Revenue from Contracts with Customers)) was issued, and related amendments were issued thereafter. The core principle of these Updates requires that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Company and its subsidiaries adopted these Updates on April 1, 2018, using the cumulative-effect method, for only those contracts that are not completed at the date of initial adoption. The adoption primarily resulted in changes in the timing of revenue recognition for performance fees received from customers regarding asset management business, and certain project-based orders in real estate business for which the Company and its subsidiaries currently apply the percentage-of-completion or completed contract method. The effect of adopting these Updates on the Company and its subsidiaries' financial position at the adoption was mainly an increase of ¥405 million in retained earnings in the condensed consolidated balance sheets.

In January 2016, Accounting Standards Update 2016-01 (Recognition and Measurement of Financial Assets and Financial Liabilities ASC 825-10 (Financial Instruments Overall)) was issued. This Update requires an entity to measure equity investments at fair value, and requires recognizing the changes in fair value through earnings or using alternative method that requires carrying value to be adjusted by subsequent observable transactions. Additionally, this Update revises the presentation of certain fair value changes for financial liabilities measured at fair value. The Company and its subsidiaries adopted this Update on April 1, 2018. The effect of adopting this Update on the Company and its subsidiaries' financial position at the adoption date was mainly a decrease of ¥2,899 million in accumulated other comprehensive income and an increase of ¥2,899 million in retained earnings in the condensed consolidated balance sheets, due to reclassification of unrealized changes in fair value of equity investments from accumulated other comprehensive income to retained earnings, and reclassification of changes in fair value of financial liabilities resulting from a change in the instrument-specific credit risk when the Company and its subsidiaries have elected to measure the liabilities at fair value in accordance with the fair value option, from retained earnings to accumulated other comprehensive income.

In October 2016, Accounting Standards Update 2016-16 (Intra-Entity Transfers of Assets Other Than Inventory ASC 740 (Income Taxes)) was issued. This Update eliminates the exception to defer the income tax consequences of intra-entity transfers of assets other than inventory until the assets are ultimately sold to an outside party and requires the recognition of the current and deferred tax consequences when those transfers occur. The Company and its subsidiaries adopted this Update on April 1, 2018. The effect of adopting this Update on the Company and its subsidiaries' financial position at the adoption date was mainly an increase of ¥3,772 million in retained earnings in the condensed consolidated balance sheets.
