The Notice of Internet Availability was mailed, and this Proxy Statement and the form of proxy were first made available, to shareholders on or about April 25, 2019.

The purposes of the 2019 Annual Meeting are to:

elect ten directors for one-year terms;

Only shareholders of record at the close of business on April 9, 2019, which we refer to as the record date, will be entitled to receive notice of and to vote at the 2019 Annual Meeting. As of that date, 132,101,238 shares of our common stock, \$0.001 par value per share, were issued and outstanding. Shareholders are entitled to one vote per share on any proposal presented at the 2019 Annual Meeting. If you are a shareholder of record, you may vote via the Internet at www.proxyvote.com or by telephone at 1-800-690-6903 by following the instructions on the Notice of Internet Availability of Proxy Materials or physical proxy card you received in the mail and which are also provided on that website; or, if you have requested a proxy card by mail, by signing, voting and returning your proxy card. Edgar Filing: CITRIX SYSTEMS INC - Form DEF 14A

you are a shareholder who holds shares through a brokerage firm, bank, trust or other similar organization (that is, in street name), please refer to the instructions from the broker or organization holding your shares

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by:

2019 Proxy Statement 1

Table of Contents

The representation in person or by proxy of at least a majority of the outstanding shares of our common stock entitled to vote at the 2019 Annual Meeting is necessary to constitute a quorum for the transaction of business. Abstentions and broker non-votes (discussed below) will be counted as present or represented for purposes of determining the presence or absence of a quorum for the 2019 Annual Meeting. When a quorum is present at any meeting of shareholders, the holders of a majority of the stock present or represented and voting on a matter shall decide any matter to be voted upon by the shareholders at such meeting, except when a different vote is required by express provision of law, our amended and restated certificate of incorporation (as currently in effect, our Certificate of Incorporation) or our amended and restated bylaws (as currently in effect, our Bylaws).

For Proposal 1 (the election of ten directors), each nominee shall be elected as a director if the votes cast for such nominee's election exceed the votes cast against such nominee's election. Any director who fails to receive the required number of votes for his or her re-election is required to submit his or her resignation to the Board of Directors. Our Nominating and Corporate Governance Committee (excluding any director nominee who failed to receive the required number of votes) will promptly consider any such director's resignation and make a recommendation to the Board of Directors as to whether such resignation should be accepted. The Board of Directors is required to act on the Nominating and Corporate Governance Committee's recommendation within 90 days of the certification of the shareholder vote for the 2019 Annual Meeting.

For each of Proposal 2 (approval of an amendment to our Amended and Restated 2014 Equity Incentive Plan), Proposal 3 (the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2019), and Proposal 4 (the advisory vote to approve the compensation of our Named Executive Officers), an affirmative vote of a majority of the stock present, in person or represented by proxy, and voting on such matter is required for approval.

Broadridge Financial Solutions will tabulate the votes at the 2019 Annual Meeting. The vote on each matter submitted to shareholders will be tabulated separately.

Broker non-votes are shares held by a nominee (such as a bank or brokerage firm) which, although counted for purposes of determining a quorum, are not voted on a particular matter because voting instructions have not been received from the nominees' clients (who are the beneficial owners of such shares). Under national securities exchange rules, nominees who hold shares of common stock in street name for, and have transmitted our proxy solicitation materials to, their customers but do not receive voting instructions from such customers, are not permitted to vote such customers' shares on non-routine matters. Proposal 3 is considered a routine matter under such rules and nominees therefore have discretionary voting power as to Proposal 3. For non-routine matters, these broker non-votes shall not be counted as votes cast and therefore will have no effect on Proposals 1, 2 and 4. Similarly, abstentions are not counted as votes cast and thus will have no effect on any proposal.

The persons named as attorneys-in-fact in the proxies, David J. Henshall and Antonio G. Gomes, were selected by the Board of Directors and are officers of Citrix. All properly executed proxies submitted in time to be counted at the 2019 Annual Meeting will be voted by such persons at the 2019 Annual Meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. **If no such specifications are indicated, such proxies will be voted FOR Proposal 1 (the election of each of the director nominees), FOR Proposal 2 (approval of an amendment to our Amended and Restated 2014 Equity Incentive Plan), FOR Proposal 3 (the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2019), and FOR Proposal 4 (the advisory vote to approve the compensation of our Named Executive Officers).**

Edgar Filing: CITRIX SYSTEMS INC - Form DEF 14A

Aside from the proposals included in this Proxy Statement, our Board of Directors knows of no other matters to be presented at the 2019 Annual Meeting. If any other matter should be presented at the 2019 Annual Meeting upon which a vote may properly be taken, shares represented by all proxies received by the Board of Directors will be voted with respect to such matter in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

No dissenters' rights are available under the General Corporation Law of the State of Delaware, our Certificate of Incorporation or our Bylaws to any shareholder with respect to any of the matters proposed to be voted on at the 2019 Annual Meeting.

Unless otherwise indicated, references in this Proxy Statement to Citrix, the company, we and us refer to Citrix Systems, Inc., a Delaware corporation and its consolidated subsidiaries.

Proxy Highlights

This summary should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2018 and the entire Proxy Statement.

Accelerating to the Cloud

Citrix is powering a better way to work with unified workspace, networking, and analytics solutions that help organizations unlock innovation, engage customers, and boost productivity, without sacrificing security. With Citrix, users get a seamless work experience and IT has a unified platform to secure, manage, and monitor diverse technologies in complex cloud environments.

As the world embraces cloud solutions, we continue to accelerate our transformation, focusing on three strategic priorities. First, we are accelerating our transition to a subscription-based business model with all our solutions offered as cloud services, giving organizations flexibility in how they work. Second, we are unifying our portfolio to simplify user and IT experience. Finally, we are prioritizing innovation, organically and through acquisitions, to meet the evolving needs of our customers and position Citrix for long-term sustainable growth.

We believe execution of our strategic priorities will continue to drive results for our stakeholders. Exiting 2018, progress in our business transformation to a cloud-based subscription business was reflected in:

Bookings: More than 42% of total product bookings were subscription-based in 2018, up from 28% in 2017

Deferred and unbilled revenue: Deferred and unbilled revenue, or future committed revenue, grew 12% year-over-year to \$2.2 billion¹

Reported revenue: Subscription revenue grew 45% year-over-year

Mix within total subscription revenue: Software as a Service (SaaS) revenue accounted for 60% of total subscription revenue and 9% of total revenue in 2018

- ¹ Unbilled revenue primarily represents contractually committed future billings under our subscription agreements that have not been invoiced and, accordingly, are not recorded in accounts receivable and deferred revenue within our consolidated financial statements.

2018 Highlights:

As illustrated in the graph below, our total shareholder return (assuming reinvestment of dividends)⁽¹⁾, or TSR, over the five-year period ended on December 31, 2018 was approximately 105%.

- (1) For purposes of this graph, the reinvestment of Citrix's \$0.35 per share cash dividend paid on December 21, 2018 was calculated using the closing price on Nasdaq on December 31, 2018.
- (2) In January 2017, we completed the separation of our GoTo business and its subsequent merger with LogMeIn, Inc. For the purpose of this graph, the distribution of LogMeIn common stock to our shareholders in connection with such separation and merger is treated as a non-taxable cash dividend of \$18.59 (equal to the opening price of LogMeIn common stock on February 1, 2017 multiplied by .1718 of a share of LogMeIn common stock). Such amount was deemed reinvested in Citrix common stock at the closing price on February 1, 2017 using the daily dividend reinvestment methodology. Other financial data providers may use different methodologies to adjust for the GoTo separation, which may produce different results.

Shareholder Engagement

Our Board of Directors welcomes and values the views and insights of our shareholders and conducts an annual outreach effort to connect with our larger shareholders in order to ensure open lines of communication. Further, our executives regularly engage with shareholders to better understand their perspective on a wide range of strategy, business and governance issues.

In 2019, we reached out to our largest shareholders and proxy advisory firms to understand their perspectives and discuss our governance and executive compensation policies with a goal to use feedback received from shareholders and proxy advisory firms to inform our governance and executive compensation decisions for 2019. As a result, we held meetings in early 2019 with institutional shareholders representing over 32% of Citrix's outstanding common stock. We also met with proxy advisory firms during the same period. These shareholder meetings covered a wide range of topics, including: our subscription model transition and strategy; corporate governance practices such as board composition; our diversity and inclusion programs; cybersecurity and data privacy; succession planning and shareholder views regarding pay ratio disclosure; and other matters of shareholder interest. Peter J. Sacripanti, the Chairperson of our Compensation Committee and a member of our Nominating and Corporate Governance Committee, and David J. Henshall, our President and Chief Executive Officer, participated in each meeting along with other senior executives of the company.

Members of the leadership team, the Chairperson of our Compensation Committee, and other members of our Board of Directors who participate in shareholder engagement meetings regularly discuss shareholder feedback with relevant Board committees and the full Board of Directors. In general, feedback from our shareholders regarding our compensation programs and corporate governance practices has been positive. The Board of Directors carefully considers the feedback from shareholders and has implemented their feedback into our executive compensation and corporate governance practices, including:

increasing our focus on our diversity and inclusion initiatives, including diversity of our Board of Directors;

implementing an operational performance metric for our 2018 and 2019 performance-based equity awards to align with our strategic initiatives; and

increasing our focus on Corporate Social Responsibility (CSR) programs and initiatives with oversight by the Nominating and Corporate Governance Committee.

We believe it is important to continue to engage with our shareholders on a regular basis to understand their perspectives and to give them a voice in shaping our governance and executive compensation policies and practices.

Part 1 Corporate Governance

Corporate Governance Cycle

Our annual corporate governance cycle is shown below:

Independence of Members of Our Board

Our Board of Directors has determined that eight of our directors (Ms. Caldwell, Mr. Cohn, Mr. Daleo, Mr. Demo, Dr. Gopal, Mr. Hogan, Ms. Kilcoyne, and Mr. Sacripanti) are independent within the meaning of the director independence standards of The Nasdaq Stock Market LLC, or Nasdaq, and the Securities and Exchange Commission, or the SEC, including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended. Furthermore, our Board of Directors has determined that each member of each of our regular standing committees of the Board of Directors is independent within the meaning of Nasdaq's and the SEC's director independence standards. In making this determination, our Board of Directors solicited information from each of our directors regarding whether such director, or any member of his or her immediate family, had a direct or indirect material interest in any transactions involving Citrix, was involved in a debt relationship with Citrix or received personal benefits outside the scope of such person's normal compensation. The Board of Directors determined that each of Mr. Calderoni, who served as our Executive Chairman through December 31, 2018 and currently serves as our Chairman but no longer as an employee of the company, and

Mr. Henshall, who is currently serving as our President and Chief Executive Officer, is not independent within these definitions. Our Board of Directors considered the responses of our directors, and independently considered the commercial agreements, acquisitions, and other material transactions entered into by Citrix during 2018.

Board Leadership Structure

Our Corporate Governance Guidelines provide our Board of Directors with flexibility to select the appropriate leadership structure based on the specific needs of our business and the best interests of our shareholders. Our Corporate Governance Guidelines set forth our general policy that the positions of Chairperson of the Board of Directors and Chief Executive Officer will be held by different persons. In certain circumstances, however, our Board of Directors may determine that it is in our best interests for the same person to hold the positions of Chairperson and Chief Executive Officer, or, in the case of Mr. Calderoni's appointment as Executive Chairman in July 2015, for the position of Chairperson to also be an executive role. In such event, the Board of Directors will appoint an independent member of our Board of Directors as the Lead Independent Director, who is currently Nanci E. Caldwell. While Mr. Calderoni ceased to

Table of Contents

be Executive Chairman on January 1, 2019, he continues as Chairman in a non-employee capacity and Ms. Caldwell continues in the position of Lead Independent Director. Our general policy is that the position of Chairperson or Lead Independent Director, as the case may be, will be held by an independent member of our Board of Directors. The Chairperson or Lead Independent Director, as the case may be, will preside at executive sessions of the independent directors and will have such further responsibilities as the full Board of Directors may designate from time to time.

Executive Sessions of Independent Directors

Executive sessions of the independent directors are held at least four times a year following regularly scheduled in-person meetings of our Board of Directors. Executive sessions do not include Messrs. Calderoni and Henshall, and the Lead Independent Director of our Board of Directors, Ms. Caldwell, is responsible for chairing the executive sessions.

Executive Succession

Executive succession is regularly reviewed and discussed by our Board of Directors in Board meetings and in executive sessions of the Board of Directors. At least one Board

meeting each year is focused on human capital, including formal reviews of executive talent, organizational structure and succession planning for the role of Chief Executive Officer and other senior executive roles. In these sessions, among other things, our Board of Directors reviews the assumptions, processes and strategy for various succession events and reviews potential internal and external successor candidates. The Board of Directors' goal is to have a long-term and continuing program for effective executive development and succession and to be prepared for both short-term unexpected loss of a key leader and permanent transitions.

Considerations Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee of our Board of Directors is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and in light of the current make-up of our Board of Directors. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all directors:

Table of Contents

The Nominating and Corporate Governance Committee also may consider numerous other qualities, skills and characteristics when evaluating director nominees, such as:

an understanding of and experience in software, hardware or services, technology, accounting, governance, finance and/or marketing;

leadership experience with public companies or other major complex organizations;

experience on another public company board; and

the specific needs of our Board of Directors and the committees of our Board of Directors at that time.

Our Board of Directors believes that a diverse membership with varying perspectives and breadth of experience is an important attribute of a well-functioning board and will enhance the quality of the Board of Directors' deliberations and decisions. As a result, the Nominating and Corporate Governance Committee will consider the diversity of background and experience of a director nominee (such as diversity of knowledge, skills, experience and expertise) as well as diversity of personal characteristics (such as diversity of gender, race, ethnicity, culture, thought and geography) among its members in the overall context of the composition of the Board of Directors. The Nominating and Corporate Governance Committee and the Board of Directors discuss the composition of our Board of Directors, including diversity of background and experience, as part of the annual Board of Directors evaluation process.

Process for Identifying and Evaluating Director Nominees

Our Board of Directors delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate. Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management and the other directors, through the use of search firms or other advisers, through the recommendations submitted by shareholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee gathers information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of our Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Directors' approval as director nominees for election to our Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to the Board of Directors for appointment to the committees of the Board of Directors. The Chairman of the Board of Directors assists the Nominating and Corporate Governance Committee with Board composition and evolution planning, including review of committee memberships.

Board Evaluation Program

Our Board of Directors undertakes an evaluation process each year. In early 2019, our Board of Directors, with the assistance of an outside advisor, conducted one-on-one interview discussions to assess the Board's performance and how to best serve the interests of our shareholders in the future. These one-on-one interview discussions focused on an assessment of the structure, composition, processes, roles, relationships and culture of our Board of Directors and its committees. The interview discussions also addressed appropriate Board size, committee composition and the functional, business and organizational skills that may be required of future Board members, executive succession, and perspectives on long-term corporate strategy. The results of the evaluation were shared with the Chairman of the Board of Directors and Lead Independent Director, and discussed in executive session with the full Board of Directors present.

Procedures for Recommendation of Director Nominees by Shareholders

The Nominating and Corporate Governance Committee will consider director nominee candidates who are recommended by our shareholders. Shareholders, in submitting recommendations to the Nominating and Corporate Governance Committee for director nominee candidates, shall follow the procedures described below.

Generally, the Secretary of the company must receive any such recommendation for nomination not later than the close

a written statement from the shareholder making the recommendation stating why such recommended candidate meets Citrix's criteria and would be able to fulfill the duties of a director.

Nominations must be sent to the attention of our Secretary by one of the two methods listed below:

Attn: Secretary of Citrix Systems, Inc.

By facsimile to: (954) 337-4607

Attn: Secretary of Citrix Systems, Inc.

Our Secretary will promptly forward any such nominations to the Nominating and Corporate Governance Committee. As a requirement for being considered for nomination to our

Board of Directors, a candidate will need to comply with the following minimum procedural requirements:

a candidate must undergo a comprehensive private investigation background check by a qualified firm of our choosing;

a candidate must complete a detailed questionnaire regarding his or her experience, background and independence;

a candidate must submit to the Board of Directors his or her written consent to serve as director if elected; and

a candidate must submit to our Board of Directors a statement to the effect that (1) if elected, he or she will tender promptly following his or her election an irrevocable resignation effective upon his or her failure to receive the required vote for re-election at the next meeting at which he or she would face re-election, and (2) upon acceptance of his or her resignation by our Board of Directors, in accordance with our Corporate Governance Guidelines, he or she shall resign as a member of the Board of Directors.

Once the Nominating and Corporate Governance Committee receives the nomination of a candidate and the candidate has complied with the minimum procedural requirements above, such candidacy will be evaluated and a recommendation with respect to such candidate will be delivered to our Board of Directors.

Our Bylaws also provide that shareholders satisfying certain requirements, including ownership and holding period requirements with respect to our common stock, may nominate directors for potential inclusion in our Proxy Statement. In general, a shareholder, or a group of up to twenty shareholders, owning three percent or more of our outstanding common stock continuously for at least three years may nominate and include in our proxy materials director nominees constituting up to two individuals, or 20% of the Board of Directors, whichever is greater, provided that the shareholder(s) and the nominee(s) satisfy the requirements specified in our Bylaws. See *Additional Information Shareholder Proposals* on page 89 for further information.

Risk Oversight

We view risk appraisal and oversight as being a primary component of our governance and management framework. To that end, our Board of Directors plays an active role in reviewing Citrix's corporate strategy and priorities on an ongoing basis, and also encourages management to promote a culture that actively manages risks as a part of our corporate strategy and day-to-day business operations.

Our Board of Directors is involved in risk oversight through its direct decision-making authority with respect to significant matters as well as the oversight of management by the Board of Directors and its committees. Among other areas, the Board of Directors is directly involved in overseeing risks related to our overall corporate strategy, including product, go-to-market and sales strategy, executive officer succession, cybersecurity, business continuity, crisis preparedness and competitive and reputational risks.

The committees of the Board of Directors execute their oversight responsibility for risk management as follows:

The Audit Committee has responsibility for overseeing our internal financial and accounting controls, work performed by our independent registered public accounting firm and our internal audit function and overseeing risks related to our investments, financing activities, capital allocation strategies and world-wide insurance programs. As part of its oversight function, the Audit Committee regularly reviews the policies and processes by which our exposure to certain significant areas of risk is assessed and managed. The Audit Committee also regularly discusses with management and our independent registered public accounting firm our major financial and controls-related risk exposures and steps that management has taken to monitor and control such exposures. In addition, we have, under the supervision of the Audit Committee, established procedures available to all employees for the anonymous and confidential submission of complaints relating to any matter to encourage employees to report questionable activities directly to our Audit Committee.

The Compensation Committee is responsible for ensuring that our compensation practices are consistent with our overall philosophy and drive the intended outcomes, overseeing risks related to our cash and equity-based

compensation programs and practices, and evaluating whether our compensation plans encourage participants to take excessive risks that are reasonably likely to have a material adverse effect on Citrix. For a detailed discussion of our efforts to manage compensation-related risks, see *Compensation-Related Risk Assessment* below.

The Nominating and Corporate Governance Committee is responsible for overseeing risks related to the composition and structure of our Board of Directors and its committees, our corporate governance and certain areas of regulatory compliance. In this regard, the Nominating and Corporate Governance Committee conducts an annual evaluation of the Board of Directors and its committees, plans for Board member and executive officer succession, reviews transactions between Citrix and our officers, directors, affiliates of officers and directors, or other related parties for conflicts of interest, and annually reviews our most significant compliance policies and compliance training program. The Nominating and Corporate Governance Committee also periodically reviews reputational, intellectual property and litigation-related risks with management.

Table of Contents

We maintain a risk management program to identify, scope, communicate and manage risks across Citrix. As part of this program, our Internal Audit team, acting with executive sponsorship, facilitates a cross-functional engagement process that assesses and prioritizes risks that we face and monitors certain of our risk management initiatives. The Audit Committee receives a report concerning our risk management efforts on a regular basis.

In addition to the risk oversight work of the committees as described above, the full Board of Directors oversees cybersecurity risks, which includes key aspects of corporate security, product security, and the security of our cloud operations. As part of these efforts, the Board of Directors receives periodic in-person updates concerning management's efforts to address cybersecurity risks. Further, our Board of Directors formed a Cybersecurity Committee of the Board to oversee management's investigation of and response to the cyber incident we disclosed on our website on March 8, 2019. The work of the Cybersecurity Committee is supported by external forensic experts, legal counsel and strategic communications advisors.

Compensation-Related Risk Assessment

We believe that our executive officer and employee compensation plans are appropriately structured so as not to incent excessive risk taking that would be reasonably likely to have a material adverse effect on our business. In particular, the Compensation Committee considered the following aspects of our compensation plans and policies when evaluating these areas.

Our Board of Directors annually approves a corporate operating plan with goals that it believes are appropriate and reasonable in light of past performance and current market opportunities. Our corporate operating plan is the basis for the performance targets in our annual variable cash compensation plans.

For our variable cash compensation plans, awards are based on the achievement of at least two objective performance measures, thus diversifying the risk associated with any single indicator of performance.

For our variable cash compensation plans, we select performance measures that we believe are less susceptible to manipulation (for example, non-GAAP corporate operating margin) than other performance measures that we could select (for example, non-GAAP earnings per share).

We model amounts payable under proposed variable cash compensation plan structures against various scenarios and assess those payouts as a percentage of non-GAAP earnings per share, non-GAAP corporate operating income and other variables to ensure that our framework appropriately balances pay versus return to shareholders.

All of our executive and corporate variable cash compensation plans are capped at 200% of payout awards so as to prevent award payments in excess of specific returns to the business and our shareholders, even if we dramatically exceed our performance or financial targets.

Assuming achievement of a threshold level of performance, payouts under our performance-based plans if target performance metrics are not achieved result in compensation at levels below full target payout, rather than an

all-or-nothing approach, which could engender excessive risk taking.

We implemented a performance-based restricted stock unit program for 2018, which awards our executive officers with restricted stock units based on subscription bookings as a percentage of total product and subscription bookings, which we believe is an indicator of the success of our business transformation and a driver of value creation for our shareholders. This program has been capped at 200% of target awards to prevent excessive compensation even if we dramatically outperform our goals.

Our base salary component of compensation does not encourage risk taking because it is a fixed amount.

No opportunities for non-qualified deferrals of compensation were offered to our executive officers in 2018 and none will be offered in 2019.

The Compensation Committee, or in the case of our President and Chief Executive Officer, the entire Board of Directors, determines achievement levels under our variable cash compensation plan and performance-vesting restricted stock unit awards after reviewing the company's performance.

Our executive stock ownership policy requires executives to hold significant levels of stock, which aligns an appropriate portion of their personal wealth to our long-term performance.

Our executive officers are subject to a formal executive compensation recovery policy, or clawback policy, which allows us to recoup from our executive officers excess proceeds from certain incentive compensation received by such executive due to a material restatement of Citrix's financial results due to an executive officer engaging in an act of embezzlement, fraud, willful misconduct or breach of fiduciary duty.

Corporate Responsibility

At Citrix, we are committed to improving the lives of our employees, customers, partners, shareholders, and the communities in which we live and work. We believe that a strong focus on corporate responsibility and conducting our business in an ethical, transparent and accountable way generates value for all our stakeholders.

Our approach to corporate responsibility encompasses the following initiatives: *Diversity, Inclusion and Belonging, Corporate Citizenship, Sustainability, Supply Chain Oversight and Trust*.

Diversity, Inclusion and Belonging. At Citrix, diversity, inclusion and belonging is about leveraging the innovative power of human difference. We believe that including different backgrounds, beliefs, perspectives and capabilities in our workforce fuels innovation and creates value for our employees, customers, partners and shareholders. We have incorporated diversity, inclusion and belonging into our policies and practices, education and events, and executive and community programs, which include:

Executive Oversight Committee: Provides guidance, sponsorship, and thought leadership for company-wide diversity, inclusion and belonging initiatives;

Diversity, Inclusion and Belonging Team: Team focused on diversity, inclusion and belonging strategy development, initiative execution and measurement of outcomes that support our values and culture;

Attracting Talent: A number of programs and initiatives enhance the diversity and inclusion experience for candidates and employees, including: attending National Society of Black Engineers, Fairygodboss Women in Sales, and Grace Hopper conferences for employee development and talent attraction;

External Website: Highlighting our diversity and inclusion and oversight committee mission statement, metrics, programs and achievements in a dedicated section on Citrix.com, for customers, partners, shareholders and potential employees.

We have been publicly recognized for our commitment to inclusion and diversity initiatives. Most recently, in 2017, 2018 and 2019, Citrix was designated as one of the Best Places to Work for LGBTQ Equality by the Human Rights Campaign Foundation and received a score of 100 percent on the foundation's Corporate Equality Index survey.

To ensure that our President and Chief Executive Officer drives a diverse and inclusive culture, as part of our President and Chief Executive Officer's annual evaluation, he is evaluated on, among other things, his leadership of the business, which includes driving a diverse and inclusive culture.

Board diversity is also a top priority at Citrix. We believe that a diverse membership with varying perspectives and breadth of experience is an important attribute of a well-functioning Board of Directors and will enhance the quality of the Board of Directors' deliberations and decisions. As a result, the Nominating and Corporate Governance Committee of our Board of Directors considers the diversity of background and experience of a director nominee inclusive of diversity of knowledge, skills, experience and expertise, as well as, diversity of personal characteristics, such as diversity of gender, race, ethnicity, culture, thought and geography among its members in the overall context of the composition of the Board of Directors as documented in our Corporate Governance Guidelines and our Nominating and Corporate Governance Committee Charter. The Nominating and Corporate Governance Committee and the Board of Directors discuss the composition of our Board of Directors, including diversity of background and experience, as part of the annual Board of Directors evaluation process. In 2018, we added two new directors to the Board of Directors, Mr. Hogan and Ms. Kilcoyne, as part of the continuing evolution and diversification of our Board of Directors.

Corporate Citizenship. We strive to be a good corporate citizen and support the communities in which we live and work. We are proud of our robust corporate giving program. We are even more proud of our generous employees, and we support their generosity through our charitable match program and our day of impact worldwide volunteer program.

During 2018, together, we:

served 1,245 charities in 40 countries through volunteer work and donations by our employees;

contributed \$1,909,989, up 8% from last year, in total community investment, including employee donations, which were matched by Citrix; and

contributed 37,609 volunteer hours, up 24% from last year, to charities that serve low income communities with a focus on education programs, environmental stewardship, health services, and disaster relief.

Sustainability. We build sustainability-enabling products and services. Our technology gives people the opportunity to work and share information from anywhere on any device. Using our technology, our customers become less reliant on equipment, paper and commuter time.

For example, Citrix technology helps customers achieve their sustainability goals, including:

minimize the number of physical servers they have, drastically reducing energy consumption;

broaden client device options to include more low power alternatives such as thin clients and tablets;

safely and securely store unlimited files in the cloud, reducing paper, printing and postage needs; and

provide remote access to applications, programs, data, and collaboration tools, to reduce environmental cost associated with commuting, office space usage and team travel.

While our biggest opportunity to impact the sustainability of our communities is through our products and services, we are also investing in best practices to reduce our energy footprint. For example, we have programs designed to reduce our carbon footprint and have invested in sustainable design features and green operations in many of our offices.

Supply Chain Oversight. We are committed to advancing supply chain responsibility and strive to enhance

transparency and promote greater accountability in our own operations and with our suppliers. Citrix outsources product manufacturing and recycling to suppliers and vendors that follow the highest environmental standards in the industry, such as ISO 14001. Further, we require our suppliers to adopt a policy of responsible sourcing. We also prohibit our suppliers from profiting from the sale of tantalum, tin, tungsten, and gold (also known as conflict

minerals) that funds conflict in the Democratic Republic of the Congo (DRC) and adjoining countries, and we require that our suppliers source such minerals from socially responsible suppliers. Additionally, we participate in organizations focused on conducting operations in a socially and environmentally responsible manner, including organizations that support social, environmental and ethical responsibility in the electronics industry supply chain.

Trust. In 2018, we prepared for the arrival of the General Data Protection Regulation. In an effort to enhance our transparency, in 2018 we launched the Citrix Trust Center (<https://www.citrix.com/about/trust-center/>); a place where our customers and partners can go to learn more about Citrix's privacy and security programs.

Our Corporate Governance Guidelines and the charter of the Compensation Committee provide that any independent compensation consultant, such as FW Cook, engaged by the Compensation Committee works for the Compensation Committee, not our management, with respect to executive officer and director compensation matters. Please read the *Compensation Discussion and Analysis* included in this Proxy Statement for additional information on the role of, and amounts paid to, FW Cook in the compensation review process for 2018.

In fulfilling its role, the Cybersecurity Committee:

oversees management's investigation of and response to the cyber incident we disclosed on our website on March 8, 2019, including the investigation and remediation of any vulnerabilities identified as part of management's investigation; and

Table of Contents**Director Compensation****2018 Non-employee Director Cash Compensation**

It is our policy that our employee directors do not receive cash or equity compensation for their service as members of our Board of Directors.

The Compensation Committee, with assistance from its independent compensation consultant, FW Cook, oversees director compensation and reviews the appropriateness of our non-employee directors' compensation on a regular basis. Most recently, in October 2018, FW Cook prepared a comprehensive benchmarking of our non-employee director cash compensation program against the compensation programs offered by our peer companies and reviewed this benchmarking in detail with the Compensation Committee.

Under our non-employee director cash compensation program, non-employee members of our Board of Directors receive retainer fees, which are paid in cash in semi-annual installments (pro-rated if a director joins mid-year). Each non-employee director was entitled to receive the retainers detailed in the tables below (provided that committee chairpersons were only entitled to receive a retainer as

committee chair and were not entitled to the non-chair membership retainer for the committee(s) he or she chairs). In addition, non-employee directors are reimbursed for their reasonable out-of-pocket expenses incurred in attending meetings of our Board of Directors or any of its committees that are conducted in person. In December 2018, after review and discussion of updated benchmarking of our non-employee director cash compensation program by the Compensation Committee's independent compensation consultant, our Compensation Committee approved, effective January 1, 2019, an increase in the annual retainer to be paid to the Lead Independent Director from \$35,000 to \$40,000, a decrease in the annual retainer to be paid to the chairperson of the Compensation Committee from \$40,000 to \$32,500, and an increase in the annual retainer to be paid to the chairperson of each of the Audit Committee from \$40,000 to \$42,500 and the Nominating and Corporate Governance Committee from \$20,000 to \$25,000. The Compensation Committee also approved an annual retainer of \$100,000 to be paid to the Chairman of the Board commencing January 1, 2019, in addition to the Annual Board Member Retainer.

The following table summarizes our 2018 non-employee director cash compensation program:

Board Retainers

Compensation Element	Annual Cash Compensation
Annual Board Member Retainer	\$60,000(1)
Annual Retainer for Lead Independent Director	\$35,000 (in addition to Annual Board Member Retainer)(2)

Committee Retainers

Committee	Annual Cash Compensation	
	Chair	Member
Audit Committee	Annual: \$40,000(3)	Annual: \$17,500
Compensation Committee	Annual: \$40,000(4)	Annual: \$15,000
Finance Committee	None	None
Nominating and Corporate Governance Committee	Annual: \$20,000(5)	Annual: \$10,000

- (1) Annual retainer of \$100,000 (in addition to Annual Board Member Retainer) for our non-employee Chairman of the Board of Directors is effective January 1, 2019.
- (2) Annual retainer for the Lead Independent Director was increased to \$40,000, effective January 1, 2019.

Table of Contents

In connection with *ad hoc* committees that may be formed from time to time, committee fees, if any, are determined by the Board of Directors upon the recommendation of the Compensation Committee with advice from its independent compensation consultant.

Non-employee Director Equity-based Compensation

Equity Awards to our Non-employee Directors

The Compensation Committee, with assistance from its independent compensation consultant, reviews the appropriateness of equity awards granted to our non-employee directors under the company's Amended and Restated 2014 Equity Incentive Plan, which we refer to as the Amended and Restated 2014 Plan, on a regular basis. In October 2018, FW Cook prepared a comprehensive benchmarking of our non-employee director equity awards against the equity awards offered by our peer companies and reviewed this benchmarking in detail with the Compensation Committee. No changes to our non-employee director equity-based compensation program for 2018 were made as a result of this review.

For 2018, each non-employee director was eligible to receive an annual grant on the first business day of the month following our annual shareholders meeting consisting of restricted stock units valued at \$250,000 that vest in equal monthly installments over a one-year period, which we refer to as an annual vesting period. Prior to March 2018, each newly elected non-employee director was entitled to receive restricted stock units valued at \$500,000 upon his or her initial election to our Board of Directors, which vest in accordance with our standard three-year vesting schedule. The number of restricted stock units issued is calculated based on the closing price per share as reported by Nasdaq of our common stock on the date of grant. In March 2018, upon further benchmarking by the Compensation Committee's independent compensation consultant, and the Compensation Committee's recommendation, the Board of Directors approved that, beginning in March 2018, rather than an initial restricted stock unit award valued at \$500,000 that vests over three years, newly appointed directors (i.e., directors appointed prior to the annual shareholders meeting) would be entitled to a pro-rated annual grant upon election to the Board of Directors. Such grant will be an award valued at \$250,000 and pro-rated based on the director's date of appointment and the current annual vesting period. Such pro-rated grant will vest monthly over the remaining portion of the current annual vesting period.

Outside Directors' Deferred Compensation Program for Non-Employee Directors

We offer our non-employee directors an outside directors' deferred compensation program to defer restricted stock units awarded to them under the Amended and Restated 2014 Plan and cash compensation. In advance of payment of cash compensation or a restricted stock unit award and in compliance with the program's requirements, a non-employee director may elect to defer the receipt of all of his or her cash compensation and/or restricted stock units until ninety days after such director's separation from service from us or upon a change in control. Deferred cash compensation is converted into a number of deferred stock units on the date that the cash compensation would otherwise be paid and upon the vesting of deferred awards of restricted stock units, any amounts that would otherwise have been paid in shares of common stock are converted to deferred stock units on a one-to-one basis. In each case, the deferred stock units are credited to the director's deferred account.

Matching Gifts Program

Our non-employee directors are eligible to participate in the company's charitable matching gifts program pursuant to which we match donations made to qualifying tax-exempt 501(c)(3) charitable and non-governmental organizations

on a one-for-one basis. We match up to \$15,000 USD per year for executives and non-employee directors under this program.

Director Stock Ownership Guidelines

To further align the interests of members of our Board of Directors with our shareholders, our Board of Directors adopted stock ownership guidelines for our non-employee directors. Pursuant to these guidelines, each non-employee director is required to own shares of our common stock (which includes vested but deferred restricted stock units) equal in value to at least five times the Board member annual cash retainer. New directors are expected to meet the standards set forth in the guidelines within five years after the date of his or her election to our Board of Directors. Shares owned by directors are valued at the current market value.

Director Compensation Limits

The Amended and Restated 2014 Plan, which was approved by our shareholders at our 2017 Annual Meeting of Shareholders, provides for a limitation of \$795,000 with respect to the value of the annual equity compensation grant that may be awarded to any non-employee director and a limitation of \$500,000 with respect to the value of any annual cash compensation that may be paid to any non-employee director.

2018 Highlights**Accelerating to the Cloud**

Citrix is powering a better way to work with unified workspace, networking, and analytics solutions that help organizations unlock innovation, engage customers, and boost productivity, without sacrificing security. With Citrix, users get a seamless work experience and IT has a unified platform to secure, manage, and monitor diverse technologies in complex cloud environments.

As the world embraces cloud solutions, we continue to accelerate our transformation, focusing on three strategic priorities. First, we are accelerating our transition to a subscription-based business model with all our solutions offered as cloud services, giving organizations flexibility in how they work. Second, we are unifying our portfolio to simplify user and IT experience. Finally, we are prioritizing innovation, organically and through acquisitions, to meet the evolving needs of our customers and position Citrix for long-term sustainable growth.

We believe execution of our strategic priorities will continue to drive results for our stakeholders. Exiting 2018, progress in our business transformation to a cloud-based subscription business was reflected in:

Bookings: More than 42% of total product bookings were subscription-based in 2018, up from 28% in 2017

Deferred and unbilled revenue: Deferred and unbilled revenue, or future committed revenue, grew 12% year-over-year to \$2.2 billion²

Reported revenue: Subscription revenue grew 45% year-over-year

Mix within total subscription revenue: Software as a Service (SaaS) revenue accounted for 60% of total subscription revenue and 9% of total revenue in 2018

2019 Proxy Statement 33

² Unbilled revenue primarily represents contractually committed future billings under our subscription agreements that have not been invoiced and, accordingly, are not recorded in accounts receivable and deferred revenue within our consolidated financial statements.

As illustrated in the graph below, our total shareholder return, (assuming reinvestment of dividends)⁽¹⁾ or TSR, over the five-year period ended on December 31, 2018 was approximately 105%.

- (1) For purposes of this graph, the reinvestment of Citrix's \$0.35 per share cash dividend paid on December 21, 2018 was calculated using the closing price on Nasdaq on December 31, 2018.
- (2) In January 2017, we completed the separation of our GoTo business and its subsequent merger with LogMeIn, Inc. For the purpose of this graph, the distribution of LogMeIn common stock to our shareholders in connection with such separation and merger is treated as a non-taxable cash dividend of \$18.59 (equal to the opening price of LogMeIn common stock on February 1, 2017 multiplied by .1718 of a share of LogMeIn common stock). Such amount was deemed reinvested in Citrix common stock at the closing price on February 1, 2017 using the daily dividend reinvestment methodology. Other financial data providers may use different methodologies to adjust for the GoTo separation, which may produce different results.

Shareholder Engagement

Our Board of Directors welcomes and values the views and insights of our shareholders and conducts an annual outreach effort to connect with our larger shareholders in order to ensure open lines of communication. Further, our executives regularly engage with shareholders to better understand their perspective on a wide range of strategy, business and governance issues.

In 2019, we reached out to our largest shareholders and proxy advisory firms to understand their perspectives and discuss our governance and executive compensation policies with a goal to use feedback received from such shareholders and proxy advisory firms to inform our governance and executive compensation decisions for 2019. As a result, we held meetings in early 2019 with institutional shareholders representing over 32% of Citrix's outstanding common stock. We also met with proxy advisory firms during the same

Table of Contents

period. These shareholder meetings covered a wide range of topics, including: our subscription model transition and strategy, corporate governance practices such as board composition; our diversity and inclusion programs; cybersecurity and data privacy; succession planning and shareholder views regarding pay ratio disclosure and other matters of shareholder interest. Peter J. Sacripanti, the Chairperson of our Compensation Committee and a member of our Nominating and Corporate Governance Committee, and David J. Henshall, our President and Chief Executive Officer, participated in each meeting along with other senior executives of the company.

Members of the leadership team, the Chairperson of our Compensation Committee, and other members of our Board of Directors who participate in shareholder engagement meetings regularly discuss shareholder feedback with relevant Board committees and the full Board of Directors. In general, feedback from our shareholders regarding our compensation programs and corporate governance practices has been positive. The Board of Directors carefully considers the feedback from shareholders and has implemented their feedback into our executive compensation and corporate governance practices, including:

- increasing our focus on our diversity and inclusion initiatives, including diversity on our Board of Directors;

- implementing an operational performance metric for our 2018 and 2019 performance-based equity awards to align with our strategic initiatives; and

- increasing our focus on Corporate Social Responsibility (CSR) programs and initiatives with oversight by the Nominating and Corporate Governance Committee.

We believe it is important to continue to engage with our shareholders on a regular basis to understand their

perspectives and to give them a voice in shaping our governance and executive compensation policies and practices.

Objectives and Elements of Our Executive Compensation Programs

The compensation that we offer our executive officers is designed to reflect our principles of integrity, fairness and transparency concepts that have continually underscored the design and delivery of compensation opportunities at Citrix. We believe our compensation programs should emphasize sustainable corporate growth through a pay-for-performance orientation and a commitment to both operational and organizational effectiveness. We also believe that lavish perquisites, excessive severance and bonuses unrelated to performance are inconsistent with our executive compensation principles. Furthermore, while the establishment of variable cash compensation targets for our executive officers necessarily involves judgment, the actual payouts against those targets are based on pre-determined, objective financial criteria reflective of our corporate operating plan.

For more than a decade, the objectives of our executive compensation programs have been to:

- provide competitive compensation that attracts, retains and engages high-performing talent; and

align the long-term interests of executive officers with those of our shareholders by linking a significant portion of total cash and equity compensation to company performance and value creation. These objectives hold true today and guided us through the compensation decisions we made in 2018 as we accelerated our transformation to a cloud-based subscription business.

The elements of compensation that we use to accomplish our objectives include:

base salary;

variable cash compensation;

equity-based long-term incentives; and

benefits.

As discussed further below, our equity-based long-term incentives currently include performance-based restricted stock units and time-based restricted stock units, which we refer to as PRSUs and TRSUs, respectively.

How Executive Pay Decisions Are Made

Compensation Process and Criteria

Evaluation Process

The compensation packages for our executive officers are reviewed by our Compensation Committee and include an analysis of all elements of compensation separately and in the aggregate. In 2018, the Compensation Committee continued its engagement of FW Cook as its independent consultant to

assist with its oversight of executive compensation. In addition, our legal, finance and human resources departments support the Compensation Committee in its work and act in accordance with the direction given to them to administer our compensation programs.

During early 2018, the Compensation Committee held meetings with management, our human resources department and representatives of FW Cook to:

review our compensation objectives;

evaluate and develop our executive compensation peer group;

review the actual and target compensation of our executive officers and compensation packages for new executive officers for consistency with our objectives;

analyze trends in executive compensation;

assess our variable cash compensation structure, as well as the plan components and mechanics, to ensure an appropriate correlation between pay and performance with resulting compensation opportunities that balance returns to the business and our shareholders (this included, among

2019 Proxy Statement 37

Table of Contents

other things, modeling amounts payable under proposed plan structures against various scenarios);

assess our equity-based awards programs against our objectives of executive engagement, retention and alignment with shareholder interests;

benchmark our executive cash compensation and equity-based awards programs;

review recommendations for 2018 target direct compensation for appropriateness relative to our compensation objectives; and

review retention incentive levels for our executive officers to support our strategic and operational initiatives. At several meetings throughout the first quarter of 2018, the Compensation Committee reviewed proposed compensation programs and packages for our executive officers for 2018, which were prepared by management working in conjunction with our human resources department and FW Cook and evaluated by our finance department for alignment with our corporate operating plan. In February 2018, the Compensation Committee approved the proposed 2018 executive variable cash compensation plan, which we refer to as the variable cash compensation plan. In March 2018, the Compensation Committee approved individual compensation packages for our executive officers. In each case, the determinations of the Compensation Committee were reviewed with our full Board of Directors. Our Board of Directors approved the 2018 compensation of our President and Chief Executive Officer, upon the recommendation of the Compensation Committee.

In evaluating our 2018 executive compensation program in the first quarter of 2018, the Compensation Committee considered several factors as discussed elsewhere in the Compensation Discussion and Analysis section of this Proxy Statement, including the shareholder advisory (say-on-pay) vote on our named executive officer compensation for 2016, which was approved by over 86% of the votes cast at our Annual Meeting of Shareholders held in June 2017, which was the most recent shareholder advisory vote on executive compensation available to the Compensation Committee at the time.

Evaluation Criteria

In determining the amount and mix of the target compensation elements, the Compensation Committee relies upon its judgment regarding the scope and strategic impact of each individual executive officer's role. In setting final

compensation targets for our executive officers in 2018, the Compensation Committee considered many factors, including:

the performance and experience of each individual;

the scope and strategic impact of the executive officer's role;

our past business and financial performance and future expectations;

our long-term goals and strategies;

difficulty in, and the cost of, replacing high performing leaders with in-demand skills;

past compensation levels of each individual and of our executive officers as a group;

relative levels of compensation among our executive officers;

the amount of each compensation component in the context of the executive officer's total target compensation and other benefits;

the retention levels, and holding power for each of our executive officers based on outstanding equity awards and recommended equity awards;

for each executive officer, other than our President and Chief Executive Officer, the evaluation and recommendation of our President and Chief Executive Officer;

for our President and Chief Executive Officer, the evaluation of our Board of Directors, a self-evaluation by our President and Chief Executive Officer and feedback from his direct reports; and

the competitiveness of the compensation packages relative to the selected benchmarks as highlighted by the independent compensation consultant's analysis.

President and Chief Executive Officer Evaluation

As discussed above, one of the factors the Compensation Committee considers when determining compensation targets for our President and Chief Executive Officer is the performance evaluation of our President and Chief Executive Officer. Our President and Chief Executive Officer completes a self-evaluation, and our Board of Directors and each of our President and Chief Executive Officer's direct reports provides written feedback assessing our President and Chief Executive Officer's contributions to our company. To align with our transition to a cloud-based subscription business and the importance of fostering an innovative, collaborative and inclusive culture, we refined the focus areas when

Table of Contents

addressing our President and Chief Executive Officer's performance for 2017 to include the following:

drives and ensures financial results;

establishes near-term and long-term strategy with employee engagement that drives the needs of customers, partners and shareholders;

leads and inspires the organization, ensures Citrix employees live our core values, and drives a diverse and inclusive culture;

builds effective external stakeholder relationships; and

drives a collaborative relationship with our Board of Directors.

The Compensation Committee considered our President and Chief Executive Officer's evaluation results for 2017 in a holistic manner, in addition to other factors, including those listed under the section titled *Evaluation Criteria*, when setting our President and Chief Executive Officer's amount and mix of target compensation for 2018.

Role of the Independent Compensation Consultant

Our Compensation Committee regularly reviews its executive compensation consulting needs and periodically invites compensation consulting firms to discuss these executive compensation needs with the Compensation Committee. This process enables the Compensation Committee to re-evaluate its compensation consultant and take a fresh look at our compensation practices and policies. Beginning in October 2016, the Compensation Committee invited five consulting firms to present to the Compensation Committee. The Compensation Committee evaluated the consulting firms on consulting competency, technical competency, industry knowledge, independence and fee structure, among other things. As a result of this review, our Compensation Committee appointed FW Cook in December 2016 as its independent compensation consultant.

During 2018, FW Cook reported directly to the Compensation Committee for purposes of advising the Committee on executive compensation matters. The Compensation Committee provided FW Cook with preliminary instructions regarding the goals of our compensation program and the parameters of the competitive review of executive officer total direct compensation packages to be conducted by FW Cook. FW Cook was instructed to review and provide guidance on our peer group development. FW Cook was then instructed

to benchmark all components of compensation for all executive officer positions, including base salary, total target cash (base salary plus target variable cash compensation) and equity-based long-term incentive awards. The Compensation Committee also instructed FW Cook to review the public disclosure by our peer companies concerning their executive compensation practices and to review our internal compensation model and guidelines and compare them to our peer companies and to our actual compensation practices.

During the first quarter of 2018, FW Cook attended meetings of the Compensation Committee, both with and without members of management present, and interacted with members of our human resources department with respect to its

assessment of the compensation packages of our executive officers. Once FW Cook, working in conjunction with our human resources department, completed its preliminary analysis of our executive officer compensation, their analysis was presented to the Compensation Committee, which was discussed at the Compensation Committee's March 2018 meeting.

Similarly, the Compensation Committee provided FW Cook with instructions regarding compensation packages for new and promoted executive officers in 2018, as well as retention and incentive programs to support our strategic and operational initiatives. FW Cook was instructed to benchmark the relevant compensation components for these items and also advise the Compensation Committee on market practices in similar circumstances. FW Cook attended meetings of the Compensation Committee, with executive sessions being held at most meetings, and interacted with members of our human resources, legal and finance departments with respect to certain of these matters.

Independence of Compensation Consultant

In connection with FW Cook's continued appointment in 2018, the Compensation Committee evaluated FW Cook's independence and considered our policy on independence of the Compensation Committee's consultant and other advisers, which is contained in our Corporate Governance Guidelines and the Compensation Committee's charter. The Compensation Committee also considered the six independence factors as required by Nasdaq and the SEC, which are specified in the following table. After analyzing each of these factors indicated in the following table and our policy on independence relative to FW Cook's engagement, the Compensation Committee concluded that FW Cook is independent.

Table of Contents

Independence Factor	Information Considered
Other services provided to Citrix by FW Cook	None.
Citrix fees received by FW Cook, as a percentage of FW Cook's total revenue	Modest and represents less than 0.5% of FW Cook's total revenue.
FW Cook's policies and procedures that are designed to prevent conflicts of interest	FW Cook maintains a number of internal mechanisms and policies designed to prevent conflicts of interest.
Business or personal relationships between the Compensation Committee's individual compensation adviser and members of the Compensation Committee	The Compensation Committee's individual compensation adviser has no direct business or personal relationships with any member of the Compensation Committee. FW Cook has provided consulting services to two companies that are affiliated with members of the Compensation Committee.
Citrix stock owned by the Compensation Committee's individual compensation adviser	The Compensation Committee's individual compensation adviser does not directly own any Citrix stock, and the practice is prohibited under FW Cook's policies.
Business or personal relationships between the Compensation Committee's individual compensation adviser, or FW Cook, with a Citrix executive officer	The Compensation Committee's individual compensation adviser serves as an advisor to a Compensation Committee for a company where one of our executive officers sits on the Board. FW Cook has advised our Compensation Committee that it does not believe that this relationship presents a conflict.

Our Use of Benchmarks and Peer Group Analysis

Each year, we conduct a competitive analysis of the compensation paid to our executive officers and review the compensation practices of our peer group. As in prior years, the analysis for 2018 measured our compensation opportunities for executive officers against information from the following sources:

independent, commercially available surveys on executive compensation within the software industry, tailored to reflect our relative market capitalization and revenue, including the Radford Global Technology Survey and the Radford Global Sales Survey; and

benchmark analysis prepared by FW Cook using commercially available survey data and information from publicly filed reports from a group of peer technology companies, or the peer group, specifically identified by the Compensation Committee.

Each year, we evaluate the composition of our peer group and adjust the composition of our peer group for factors such as recent acquisitions of peer companies, new markets that we have entered or changes in the technology market landscape. In 2017, with assistance from our independent compensation consultant, we again focused on developing a peer group to address the dynamics in the markets for talent in which we

compete. Based on this assessment, in the fourth quarter of 2017, our Compensation Committee approved the composition of our peer group for 2018 as set forth in the table below, which reflected no changes from our peer

group for 2017. Our peer group includes:

U.S. publicly-traded companies that represent an appropriate range from a size and scope perspective;

innovative companies that operate in virtualization, cloud, software-as-a-service and networking markets; and

companies with whom we compete for talent.

We believe that our peer group continues to be aligned with our strategic vision and positions us to attract, retain and engage high performing leaders. Moreover, our peer group, with its inclusion of a full array of companies with whom we compete for talent, maintains Citrix's position at approximately the group median across revenue and other key financial metrics we view as important in selecting a peer group. The table below lists the companies in our 2018 peer group indicating the peers with whom we regularly compete for executive, managerial and technical talent. We believe that our 2018 peer group is composed of innovative, software-focused businesses operating on a global scale, like Citrix, and are the companies with whom we look to align our executive compensation practices.

- (1) Fiscal year end data presented in the table is for fiscal year ending in 2018, other than VMWare whose fiscal year end data is for its fiscal year ended on February 1, 2019.

We use peer group benchmarks as one of several factors that inform our judgment of appropriate compensation parameters for base salary, variable cash compensation and equity-based, long-term incentives. Our executive compensation decisions are made on a case-by-case basis, and benchmarks are just one consideration within our holistic approach to executive compensation. Based on a regular review of our peer group, in October 2018 for 2019 compensation, our Compensation Committee after consultation with FW Cook determined to remove Adobe Systems, Inc. and salesforce.com, inc., due to their large size relative to Citrix, and to replace them with Dropbox, Inc. and Workday, Inc., which are industry- and size-appropriate.

Components of Compensation

Commitment to Performance-Based Cash and Equity Compensation

Our key executive compensation guiding principle continues to be closely aligning the compensation of our executive officers with the creation of long-term value for our shareholders by tying a significant portion of total target direct compensation opportunity to our performance. The following pie charts show the 2018 total target direct compensation mix for our President and Chief Executive Officer, Mr. Henshall, and the average total target direct compensation mix for our other Named Executive Officers, other than Mr. Coyle, our former Interim Chief Financial

Officer, who served as Interim Chief Financial Officer through February 18, 2018 and who was not included in the executive officer annual compensation planning process during 2018, and Mr. Del Matto, our former Executive Vice President and Chief Financial Officer, who joined Citrix on February 19, 2018 and whose employment with Citrix will end on April 26, 2019. For 2018, our President and Chief Executive Officer's total target direct compensation was 59% performance-based and

93% at risk as shown below. Also as shown below, approximately 56% of the total target direct compensation of our other Named Executive Officers, on average, was performance-based and 89% was at risk. We consider compensation to be at risk if vesting is subject to achievement of performance targets or the value received is dependent on our stock price.

- (1) Total target direct compensation includes: (a) 2018 base salary in effect at the end of fiscal year 2018, (b) target 2018 annual variable cash compensation award in effect at the end of fiscal year 2018, and (c) grant date fair value of TRSUs and PRSUs granted during fiscal year 2018. Does not include the performance-based awards granted in August 2017 for retention purposes that are included in the Summary Compensation Table and Grants of Plan-Based Awards Table as described herein.

Base Salary

Salary levels for our executive officers are based on several factors, including individual performance and experience, the scope of the role and competitive ranges informed by compensation data reported for similar roles at companies in our peer group.

In 2018, based on the objectives of our executive compensation program, our evaluation criteria for individual performance, Citrix's overall performance and other factors described above, the base salaries of our Named Executive Officers were increased, effective April 1, 2018, unless otherwise indicated below.

Variable Cash Compensation

Our Compensation Committee oversees our variable cash compensation plan, with administrative tasks delegated to the leadership team. We believe that, for an annual cash compensation plan to be effective, it should be easy to understand. Accordingly, we use a limited number of financial

targets that focus our executive officers on the key metrics underlying our strategic plan and align performance pay strictly with financial results.

Over the past ten years, our variable cash compensation plan has paid between 58.8% and 170.9% and has paid above 100% five times, as shown below:

As discussed below, we tailor our variable cash compensation plan to our strategic and business objectives and our results vary based on achievement of those objectives. The Compensation Committee and our Board of Directors retain the discretion to decrease or increase payout of our variable cash compensation plan to account for extraordinary circumstances and to balance the interests of the plan participants with the interests of our shareholders. Over the ten years summarized in the graph above, we did not apply discretion to increase or decrease plan payouts, and no bonuses or awards were granted to make-up for forfeited awards.

Total Target Cash Compensation

For 2018, our compensation evaluation processes during our annual cycle and in connection with any promotions or executive hires during the year resulted in target awards for our Named Executive Officers under our variable cash compensation plan that ranged from 75% to 150% of base salary, based on the factors discussed above.

Table of Contents

Our Named Executive Officer compensation packages had the following target cash compensation in 2018, expressed both as a percentage of base salary in dollars. The base salaries and target variable cash percentage of our Named Executive Officers included in the table below reflect the increased base salaries and any increases in variable cash percentage, effective April 1, 2018, unless otherwise indicated below:

Name	Base Salary (\$)	As a % of Base Salary	Target Variable Cash	Total (\$)
			Target Variable Cash Amount (\$)	
David J. Henshall(1) President and Chief Executive Officer	1,000,000	150%	1,500,000	2,500,000

- (1) Mr. Henshall's variable cash compensation target was increased from 125% to 150% effective April 1, 2018. As a result, his total target variable cash compensation for 2018 was \$1,438,356.
- (2) Mr. Coyle served as Interim Chief Financial Officer through February 18, 2018, and his base salary was adjusted from \$400,000 to \$520,000 and his variable cash compensation target increased from 50% to 90% of his base salary through the end of February 2018. For the period commencing on March 1, 2018 through March 31, 2018, Mr. Coyle's base salary was restored to \$400,000 and his variable cash compensation target decreased from 90% to 50%. Effective April 1, 2018, Mr. Coyle's base salary was increased to \$410,000 and his variable cash compensation target was increased from 50% to 75%. As a result, his total target variable cash compensation for 2018 was \$324,314.
- (3) Mr. Gomes' variable cash compensation target was increased from 75% to 90% effective April 1, 2018. As a result, his total target variable cash compensation for 2018 was \$425,959.

2018 Variable Cash Compensation Plan

For 2018, each executive officer's variable cash compensation plan award was based 100% on the achievement of financial targets established by the Compensation Committee. For 2018, as discussed below, our Compensation Committee determined to align achievement with product and subscription bookings (excluding transition and trade-up bookings) and non-GAAP corporate operating margin.

To ensure the integrity of our operating plan, and to safeguard shareholder value, the payout levels under our variable cash compensation plan are designed to motivate performance that meets or exceeds our financial plan objectives while mitigating undue exposure for under-performance of these objectives. Our program is designed to provide appropriately tailored incentives to our executive officers aligned to our strategy while driving our financial performance to benefit our shareholders when we are successful. For example, during 2018, we focused heavily on new growth to drive long-term value creation. This is

reflected in our 2018 executive variable cash compensation plan, as further described below, by applying a 70% weighting to product and subscription bookings (excluding transition and trade-up bookings) to drive new growth, and with profitability reflected by a 30% weighting on non-GAAP corporate operating margin. Transitions and trade-up bookings are bookings for current customers that transition to Citrix cloud-based deployments. The Compensation Committee determined to exclude transition and trade-up bookings to focus on new customer growth.

We rigorously test our plan design to ensure that the structure and possible outcomes do not create incentives for our executive officers to take unnecessary and excessive risks that would impact our long-term value. Specifically, we model potential award payouts generated by various performance attainment levels against corporate goals for product and subscription bookings and non-GAAP corporate operating margin.

The financial targets established were consistent with our 2018 corporate operating plan, which was approved by our

Table of Contents

Board of Directors. Our variable cash compensation plan weighted the financial components as follows:

70% for achieving product and subscription bookings (excluding transition and trade-up bookings) of \$1.181 billion, as further detailed below; and

30% for achieving a non-GAAP corporate operating margin target of 30.2%.

For 2018, we concentrated on product and subscription bookings as a metric with a 70% weighting in order to emphasize new product and subscription bookings growth consistent with our strategic plan to accelerate new

bookings. We continued to weigh non-GAAP corporate operating margin for the remaining 30%, as we did in 2017.

Our variable cash compensation plan provided for a premium in the event of overachievement of targets, capped at 200% of the target payout amount, and a reduction in the event of underachievement of targets, depending on actual results. The following chart shows the maximum performance amounts that would have resulted in a payout of 200% of the target amount, the performance amounts that would have resulted in a payout of 100% of the target amount and the minimum performance requirements that needed to be met before any award could be earned.

	Minimum Performance (33% payout)	Target Performance (100% payout)	Maximum Performance (200% payout)
Product and Subscription Bookings (excluding transition and trade-up bookings)	\$1.136 billion	\$1.181 billion	\$1.277 billion
Non-GAAP Corporate Operating Margin %	27.9%	30.2%	32.9%

The 2018 non-GAAP corporate operating margin target of 30.2% represents a decrease of 190 basis points from the operating margin target of 32.1% in our 2017 variable cash compensation plan and the maximum non-GAAP corporate operating margin threshold of 32.9% represents a decrease of 80 basis points from the 33.7% maximum threshold set for fiscal year 2017. When determining the non-GAAP corporate operating margin target for 2018 as compared to 2017, the Compensation Committee considered the following:

Our corporate operating plan for 2018, reflects the challenges of maintaining operating margin while transitioning to a cloud-based subscription business.

- i Operating margin targets were projected to decrease as a result of anticipated investments for the delivery of cloud solutions and customer success that would support our transition to a subscription-based business consistent with our business transition strategy; and
- i More revenue is recognized upfront for perpetual licenses than for subscriptions. As a result, as seen in 2018, business transition has the effect of muting current period reported revenue, as more of the value of

the subscription booking is recognized as revenue in future periods. While this shift is reflected in growth of future committed revenue or, deferred and unbilled revenue it has a near-term impact on operating margin.

Other companies going through similar business transitions to a subscription-based business face the same and even greater near-term challenges in maintaining operating margin targets.

The view that, while the targets were decreased, such targets required a higher level of performance rigor than was the case under our 2017 variable cash compensation plan as a result of our transition to a subscription-based business.

When actual performance falls between the threshold and the target performance levels or between the target and maximum performance levels, payouts are calculated using a graduated slope to provide for the fair distribution of operating profit for overachievement and appropriate compensation reductions for underachievement, as applicable. Further, no incentive is payable under our variable cash compensation plan unless over 92% in the case of the operating margin or 96% in the case of the product and subscription bookings target, is achieved, and at such threshold level an executive officer receives only 33% of his or her target variable cash compensation allocated to such component. This payout structure recognizes that, in a business of this scale, while overachievement merits a greater reward, any underachievement should be penalized.

Consistent with the way we calculate and publicly report our financial results, the financial targets and attainment levels for corporate operating margin are adjusted to exclude certain GAAP measurements in accordance with Citrix's past practices, including amortization of intangible assets

primarily related to business combinations, non-cash charges associated with the expensing of equity-based compensation, non-cash charges related to amortization of debt discount, accruals related to patent litigation, charges related to restructuring programs, changes related to separation activities, the tax effects related to these items and any other items adjusted from our GAAP results in Citrix's reported earnings as approved by our Audit Committee. In addition, references in this discussion to the non-GAAP corporate operating margin used for purposes of calculating variable cash compensation refer to our non-GAAP corporate operating margin prior to adjusting for the impact of the expense of our employee success sharing plan (a cash-based profit sharing plan in which our executive officers do not participate).

Determination of Awards

Early in the first quarter of 2019, our finance team reviewed and approved the calculations of financial target attainment levels, which were based on and consistent with, our publicly reported financial results for 2018, and the 2018 award amounts payable to executive officers that were generated by members of our human resources department in accordance with the terms of our variable cash compensation plan. At meetings held in January 2019, our Compensation Committee approved (or, in the case of our President and Chief Executive Officer, recommended to the Board of Directors for approval) the payouts under our 2018 executive variable cash compensation plan, including approval of the award calculations shown in the table below. As in the past, we did not adjust the resulting payouts under our variable cash compensation plan for 2018.

	Goal	Actual	Attainment	Payout (Pre-Weighting)	Weighting	Weighted Payout
<i>(amounts are approximate due to rounding)</i>						
Product and Subscription Bookings (excluding transition and trade-up bookings)	\$ 1.181 billion	\$ 1.226 billion	103.74%	163.29%	70%	114.30%
Non-GAAP Corporate Operating Margin %	30.2%	32.6%	107.99%	188.77%	30%	56.64%
Total Weighted Payout %						170.94%

The table below summarizes the payments approved by our Compensation Committee (or, in the case of our President and Chief Executive Officer, approved by the Board of Directors) under our variable cash compensation plan

compared to each executive officer's target award for 2018. Each Named Executive Officer listed below received 170.94% of his or her target award for 2018, except as noted below in the notes to the table.

- (1) All target variable cash compensation awards are pro-rated to reflect changes in compensation during 2018, and are based on the actual base salary paid to the Named Executive Officer in 2018.
- (2) Mr. Henshall's target variable cash was increased from 125% to 150% effective April 1, 2018.
- (3) Mr. Del Matto's target variable cash compensation and his actual variable cash compensation award are pro-rated to reflect less than a full year of service given that Mr. Del Matto did not join Citrix as Executive Vice President and Chief Financial Officer until February 19, 2018.
- (4) Mr. Coyle served as Interim Chief Financial Officer through February 18, 2018, and his base salary was adjusted from \$400,000 to \$520,000 and his variable cash compensation target increased from 50% to 90% of his base salary through February 2018. For the period commencing on March 1, 2018 through March 31, 2018, Mr. Coyle's base salary was restored to \$400,000 and his variable cash compensation target decreased from 90% to 50%. Effective April 1, 2018, Mr. Coyle's base salary was increased to \$410,000 and his variable cash compensation target was increased from 50% to 75%. As a result, his total target variable cash compensation for 2018 was \$324,314.
- (5) Mr. Gomes' target variable cash was increased from 75% to 90% effective April 1, 2018.

Equity-Based Long-term Incentives

The purpose of our equity-based long-term incentives is to attract, retain and engage high performing leaders, further align employee and shareholder interests, and continue to closely link executive compensation with company performance. Our equity-based long-term incentive program is an essential component of the total compensation package offered to our executive officers, reflecting the importance that we place on motivating and rewarding superior results with long-term and performance-based incentives.

Approach to Equity-Based Awards

Since 2012, our annual equity grant program has consisted entirely of restricted stock units, except restricted stock awards granted to our former Executive Chairman in 2015 (who is now our Chairman of the Board of Directors) and our former President and Chief Executive Officer in 2016. Our portfolio of equity awards granted to executive officers on an annual basis has been a mix of just two equity elements, half of which have been tied to long-term performance.

Specifically, from 2012 to 2018, our equity-based long-term incentive program was targeted to consist of at least 50% performance-based restricted stock units tied to achievement of total shareholder return metrics. Beginning in 2018, based on a review of our equity compensation program and feedback from our shareholders over the past two years, and with the assistance and guidance of its independent compensation consultant, our Compensation Committee implemented an operating metric for our 2018 performance-based restricted stock units to incentivize our executives to achieve a financial goal that is directly tied to our multi-year business transition that is described further below.

The exclusive use of restricted stock units granted to our executive officers furthers our goals of reducing dilution, burn rate and overhang by reducing the number of shares of our common stock subject to equity-based awards while continuing to provide incentive for our high performers to remain with us and continue to perform at a high level. Also, the inclusion of performance-based restricted stock units based on the achievement of an operational metric that is directly tied to our multi-year business transition is designed to drive success of our transition and be a driver of value creation for our shareholders.

Equity-Based Award Grant Levels

When establishing equity grant levels for our executive officers, our Compensation Committee considers the existing value of vested and unvested equity-based awards held by the executive officers relative to each other and to our employees as a whole, previous grants of equity-based awards to our executive officers, our overhang of equity-based awards and targeted burn rates for equity-based awards and the vesting schedules of previously granted equity-based awards, as well as the various other factors described above. In addition, our Compensation Committee considers the market competitive value for an executive officer's role, the relative level of impact the executive officer has or is expected to have on company performance, and the current and prospective performance of the executive officer in his or her role. For the equity grant levels for promotion and new-hire awards, the Compensation Committee also considers market practices for such awards and the difficulty in recruiting high performing leaders with in-demand skills. While our Compensation Committee is aware of the accounting costs of equity-based awards, that is only one of several factors in determining individual equity-based awards.

Adjustments to Outstanding Equity Awards in Connection with our Quarterly Dividend

In connection with our payment of a cash dividend on December 21, 2018, we adjusted the number of our outstanding restricted stock units to provide each holder thereof with additional restricted stock units reflecting the value of such

dividend. These additional restricted stock units are subject to the same conditions regarding vesting and settlement as the underlying restricted stock units to which they relate. The value of these additional restricted stock units is reflected in the All Other Compensation column of the Summary Compensation Table, and the number of such additional restricted stock units is reflected in the Outstanding Equity Awards at Fiscal Year End 2018 Table. Upon the final vesting date, any fractional unit will be rounded up to a whole share.

Restricted Stock Unit Awards

Pursuant to the Amended and Restated 2014 Plan, we may grant executive officers various types of awards, including market performance-based restricted stock units, performance-based restricted stock units, and time-based restricted stock units. Once vested, each restricted stock unit represents the right to receive one share of our common stock.

2018 Performance-Based Awards

When designing the 2018 performance-based awards to be granted to our executive officers in March 2018, our

Table of Contents

Compensation Committee considered the following objectives:

providing an incentive that has clear performance measures and aligned reward;

directly aligning performance-based awards to our multi-year business transition strategy to a cloud-based subscription business; and

responding to shareholder feedback.

To achieve the objectives described above, our Compensation Committee tied vesting of the 2018 performance-based restricted stock units awarded in March 2018 to subscription bookings as a percentage of total product and subscription bookings (excluding transition and trade-up bookings) measured from January 1, 2020 to December 31, 2020. Our Compensation Committee determined to award

performance-based restricted stock units tied to this operational metric to further incentivize our executives to achieve this financial goal that is directly tied to the multi-year business transition strategy, which we reviewed with our shareholders in October 2017 and January 2018. The acceleration of our new business mix significantly towards ratable subscriptions (that is, subscription bookings as a percentage of total product and subscription bookings) is expected to be a key indicator of the success of our business transition over the three-year performance period and a driver of value creation for our shareholders.

The payout curve for the portion of these performance-based awards that may be earned based on achievement of subscription bookings as a percentage of total product and subscription bookings is as follows (utilizing straight-line interpolation between percentages):

Subscription Bookings as a Percentage of Total Product and Subscription Bookings(1)	Percentage of Target Award Vested
Threshold (50% of Target)	None
Target	100%
Maximum (150% of Target)	200%

(1) Disclosing subscription bookings as a percentage of total product and subscription bookings (excluding transition and trade-up bookings) targets for future periods would cause competitive harm without adding meaningfully to the understanding of our business. This internal metric is primarily used to assess our transition to a cloud-based subscription business and excludes transitions and trade-up bookings, which is a different metric than what we publicly disclose. Further, disclosing such metrics would reveal specifics regarding our transition to a cloud-based subscription business that a competitor may use against us. However, like performance targets for all metrics, the Compensation Committee set performance goals at definitive, rigorous and objective levels so as to require significant effort and achievement by our executive team. Specifically, the Compensation Committee set the payout curve for

these performance-based awards to provide a maximum payout for subscription bookings as a percentage of product bookings that would exceed our internal operating plan. The company intends to disclose such metrics at the end of the performance period once performance has been determined.

No restricted stock units will vest if subscription bookings as a percentage of total product and subscription bookings is less than the threshold. For this purpose, subscription bookings as a percentage of total product and subscription bookings is Citrix's total term, cloud (SaaS), hybrid-cloud and Citrix Service Provider product subscription bookings or any other product bookings from subscription offerings, including subscription renewals, expansions, extensions, upgrades, updates, initial and add-on or multiple year terms of any of the foregoing, but excluding transition and trade-up bookings, over Citrix's total product and subscription bookings, excluding transition and trade-up bookings, in each case excluding ShareFile SMB bookings, measured as of the last fiscal year of the performance period (fiscal year 2020).

These performance-based awards are intended to ensure that a meaningful share of our executives' equity compensation is contingent upon a successful transition to a cloud-based subscription business. The restricted stock units

underlying these awards cliff vest after a three-year period based on the performance of Citrix during the last year of such performance period.

Our executive officers received performance-based restricted stock units having this performance metric in March 2018 as part of our annual grant cycle.

Retention Performance-Based Awards Granted in 2017 with Performance Metrics Established in 2018

As discussed in our proxy statement for our 2018 Annual Meeting, in August 2017, Mr. Henshall was awarded performance-based restricted stock units in connection with his promotion to President and Chief Executive Officer, and certain of our other executive officers were awarded retention performance-based restricted stock units to promote retention of our leadership team and drive the achievement of company operational goals during our business transition. In determining the level of performance-based awards for

Table of Contents

Mr. Henshall, with the assistance of its independent compensation consultant, the Compensation Committee reviewed the value of Mr. Henshall's current outstanding equity awards and market compensation data for Chief Executive Officers and, especially, internally promoted Chief Executive Officers. To closely align performance metrics with company strategy during our business transition, one-half of these performance-based awards are tied to achievement of non-GAAP corporate operating margin and the other half are tied to achievement of subscription bookings as a percentage of total product and subscription bookings, in each case during the last year of the performance period. The Compensation Committee chose subscription bookings as a percentage of total product and subscription bookings and non-GAAP corporate operating margin to help focus our executive officers on our strategy to accelerate our transition to a cloud-based subscription business, while maintaining profitability.

The Compensation Committee approved the awards effective as of August 1, 2017; however, the threshold, target and maximums for the relevant performance metrics were not established until the first quarter of 2018 in connection with the approval of a multi-year operating plan by our Board of Directors. The grant date fair value of these performance-based restricted stock units was not determined until the performance goals were established in 2018; and, therefore, these awards are included in this year's Summary Compensation Table and Grants of Plan Based Awards Table below.

The payout curve for the portion of these performance-based awards that may be earned based on achievement of Citrix non-GAAP corporate operating margin is as follows (utilizing straight-line interpolation between percentages):

Non-GAAP Corporate Operating Margin(1)	Percentage of Target Award Vested
Threshold (84% of Target)	50%
Target	100% for Mr. Henshall / 150% for Other Executives
At or above Maximum (116% of Target)	200%

- (1) Disclosing non-GAAP corporate operating margin targets for future periods would cause competitive harm without adding meaningfully to the understanding of our business. Like performance targets for all metrics, the Compensation Committee set performance goals at definitive, rigorous and objective levels so as to require significant effort and achievement by our executive team. Specifically, the Compensation Committee set the payout curve for these performance-based awards to provide a maximum payout for non-GAAP corporate operating margin that would exceed our internal operating plan. The company intends to disclose such metrics at the end of the performance period once performance has been determined.

No restricted stock units will vest if the non-GAAP corporate operating margin is less than the threshold. For this purpose, non-GAAP corporate operating margin is Citrix's non-GAAP corporate operating margin measured during the period from January 1, 2019 to December 31, 2019, excluding certain GAAP measurements in accordance with Citrix's past practices, including amortization of intangible assets primarily related to business combinations, non-cash charges associated with the expensing of equity-based compensation, non-cash charges related to amortization of debt discount, accruals related to patent litigation, charges

related to restructuring programs, charges related to separation activities, the tax effects related to these items and any other items adjusted from the GAAP results in Citrix's reported earnings as approved by our Audit Committee.

The payout curve for the portion of these performance-based awards that may be earned based on achievement of subscription bookings as a percentage of total product and subscription bookings is as follows (utilizing straight-line interpolation between percentages):

Subscription Bookings as a Percentage of Total Product and Subscription Bookings(1)	Percentage of Target Award Vested
Threshold (56% of Target)	50%
Target	100% for Mr. Henshall / 150% for Other Executives
At or above Maximum (144% of Target)	200%

- (1) As discussed above under the heading 2018 Performance Based Awards, disclosing such metrics would reveal specifics regarding our transition to a cloud-based subscription business that a competitor may use against us. The Compensation Committee set performance goals at definitive, rigorous and objective levels so as to require significant effort and achievement in order to be attained by our executive team. Specifically, the Compensation Committee set the payout curve for these performance-based awards to provide a maximum payout for subscription bookings as a percentage of product bookings that would exceed our internal operating plan. The company intends to disclose such metrics at the end of the performance period once performance has been determined.

No restricted stock units will vest if subscription bookings as a percentage of total product and subscription bookings is less than the threshold. For this purpose, subscription bookings as a percentage of total product and subscription bookings is Citrix's total term, cloud (SaaS), hybrid-cloud and Citrix Service Provider product subscription bookings or any other product bookings from subscription offerings, including subscription renewals, expansions, extensions, upgrades, updates, initial and add-on or multiple year terms of any of the foregoing, but excluding transition and trade-up bookings, over Citrix's total product and subscription bookings, excluding transition and trade-up bookings, in each case excluding ShareFile SMB bookings, measured for fiscal year 2019.

Our Compensation Committee decided to provide for 150% payout for target achievement of these awards for executive officers, other than our President and Chief Executive Officer who has a 100% payout for target achievement, to create a significant retention mechanism for the company's key executives during a time of leadership and strategy transition that is aligned with the company's strategy of accelerating its transformation into a cloud-based subscription business while maintaining a commitment to operational efficiency. In the judgment of the Compensation Committee, the loss of the company's key executives during such a time, and the impact that such attrition could have on value creation, significantly exceeds the value of the potential payout at target achievement.

Time-Based Awards

Consistent with our past practice, in March 2018, we also entered into restricted stock unit agreements with our executive officers, for time-based restricted stock unit awards that were not subject to performance criteria and that vest over three years, with one-third of the units vesting on the first, second and third anniversaries of the date of the award agreement. These restricted stock unit awards represented 50% of the equity grants awarded to our executive officers who participated in our annual equity grant program.

Our Compensation Committee also granted time-based restricted stock units to Mr. Del Matto as his new-hire equity award, with one-third of the units in each case vesting on the first, second and third anniversaries of the date of the award agreement.

Vesting of these time-based restricted stock units is subject to the continued employment of the executive officer with Citrix through the applicable vesting date.

The equity-based awards indicated in the table below reflect an equity portfolio mix with respect to our annual equity award grants that is 50% performance-based and 50% time-based restricted stock units. Mr. Del Matto also received a new hire time-based restricted stock unit award upon joining Citrix on February 19, 2018. His new-hire award is reflected in the table below. For further details regarding these equity awards, see *Individual Executive Compensation Decisions* beginning on page 51.

The following table summarizes our 2018 equity-based awards to our Named Executive Officers:

Table of Contents**Benefits**

Our executive officers participate in our broad-based employee benefit plans on the same terms as eligible, non-executive employees, subject to any legal limits on the amounts that may be contributed or paid by executive officers under these plans. We offer a stock purchase plan, under which our employees may purchase shares of our common stock at a 15% discount from the fair market value of our common stock on the first or last business day of the purchase period, whichever is lower (determined by reference to the closing price of our common stock on each such date). Further, we offer a 401(k) plan that includes a Roth feature. The 401(k) allows our employees to invest in a wide array of funds and provides for matching contributions by our company. We also maintain insurance and other benefit plans for our employees. Our executive officers receive higher life, accidental death and dismemberment and disability insurance benefits than other employees, which reflects industry standards and their relative base salary levels. Our executive officers also receive reimbursement for annual health physicals, are eligible for relocation assistance upon joining our company and have access to financial counseling and tax services benefits. Our executive officers are eligible to participate in our charitable matching gifts program pursuant to which we match donations made to qualifying tax-exempt 501(c)(3) charitable and non-governmental organizations on a one-for-one basis. We match up to 15,000 USD per year for executives under this program. During 2018, we did not offer any non-qualified deferred compensation plans or supplemental retirement plans to our executive officers. During 2018, we provided relocation benefits to our former Executive Vice President and Chief Financial Officer as described below. For more information, please refer to the Summary Compensation Table and the Nonqualified Deferred Compensation Table below. We have always limited the perquisites that are generally made available to our executive officers.

Individual Executive Compensation Decisions

Next, we discuss how we apply the policies and practices described above and the resulting compensation paid or awarded to each of our Named Executive Officers for the year ended December 31, 2018 as set forth in the Summary Compensation Table and the Grants of Plan-Based Awards Table.

President and Chief Executive Officer Compensation***Chief Executive Officer Compensation***

Our President and Chief Executive Officer is responsible for overseeing all of our corporate functions, product strategy and development, go-to-market activities and the attainment of our strategic, operational and financial goals. Working in

concert with the leadership team and our Board of Directors, our President and Chief Executive Officer formulates current and long-term strategic plans and objectives and is our chief spokesperson to our employees, customers, partners and shareholders.

Based on a recommendation of the Compensation Committee, our Board of Directors determines compensation for our President and Chief Executive Officer using the same factors it uses for other executive officers, placing less emphasis on base salary and, instead, driving greater performance-based alignment through equity-based long-term and variable cash compensation. In assessing the compensation paid to our President and Chief Executive Officer, the Compensation Committee relies on the advice of its independent compensation consultant, information from selected benchmarks and its judgment with respect to the factors described above and specific factors described below.

Mr. Henshall's employment agreement provides for a minimum base salary of \$1,000,000, which is subject to annual review and may be increased but not decreased. In addition, Mr. Henshall is entitled to participate in our executive

variable cash compensation program at an annual target variable cash compensation payment of 125% of his base salary and a maximum variable cash compensation payment of 200% of his base salary, with the actual amount to be determined in the discretion of the Compensation Committee based on Citrix's performance and the individual performance of Mr. Henshall.

In March 2018, as part of our annual compensation review process, our Board of Directors met in executive session to review Mr. Henshall's annual compensation, including the minimum compensation provided for by his employment agreement, and to assess his performance for 2017. Our Board of Directors considered Mr. Henshall's performance and the demands on, and responsibilities of, a leader of a global organization of the scale and complexity of Citrix, especially given that our company is going through a significant transition. Further, our Compensation Committee, with assistance from its independent compensation consultant, conducted a comprehensive review of compensation for chief executive officers at our peer companies.

As a result of that review, our Board of Directors approved a 2018 direct target compensation package for Mr. Henshall that was approximately 59% performance-based. Target direct compensation includes base salary, target variable cash compensation and the grant date fair value of time-based restricted stock units and performance-based restricted stock units. This percentage of performance-based

Table of Contents

target direct compensation was consistent with the average pay mix for chief executive officers in our peer group.

Our Board of Directors maintained Mr. Henshall's base salary of \$1,000,000 for 2018 (as a result, Mr. Henshall received base salary compensation of \$1,000,000 in 2018). Also, effective April 1, 2018, the Board increased Mr. Henshall's target variable cash compensation from 125% of his base salary to 150% of his base salary, which resulted in actual variable cash compensation for 2018 of \$2,458,726. In addition, Mr. Henshall was granted 55,556 time-based restricted stock units and 55,555 performance-based restricted stock units, which vest based on subscription bookings as a percentage of total product and subscription bookings as discussed above.

Our Board of Directors approved Mr. Henshall's 2018 compensation package, including his equity awards, upon the recommendation of the Compensation Committee.

Other Named Executive Officers Cash Compensation Base Salary and Variable Cash Compensation

Mr. Del Matto's initial annual base salary was set at \$550,000, and he received base salary compensation of \$478,704 in 2018. Mr. Del Matto's 2018 target variable cash compensation award as a percentage of base salary was set at 90% of his base salary. For 2018, Mr. Del Matto was awarded variable cash compensation of \$732,560 in accordance with our 2018 executive variable cash compensation plan.

In connection with joining our company, we provided assistance to Mr. Del Matto with respect to the costs of his relocation from the State of California to our corporate headquarters in Florida in the amount of \$325,000. This assistance included the reimbursement of certain related moving expenses associated with his relocation. This assistance was not subject to a gross-up.

Former Interim Chief Financial Officer

In July 2017, our Board of Directors appointed Mr. Coyle, our Senior Vice President of Finance at the time, as Interim Chief Financial Officer. Table of Contents**Other Compensation Policies and Information****Executive Agreements**

In January 2017, we entered into executive agreements with certain members of our senior leadership team, including Mr. Coyle, Mr. Gomes and Ms. Kimmel, that extended certain severance benefits under their existing incentive agreements, which expired in accordance with their terms on January 25, 2017. The executive agreements also superseded the executive's existing change in control agreements by consolidating the benefits under those agreements into a single agreement with Citrix. We subsequently entered into an executive agreement with Mr. Hough in September 2017 when he was hired as Senior Vice President and Chief Product Officer, and Mr. Del Matto in February 2018 when he was

hired as Executive Vice President and Chief Financial Officer of Citrix. The Compensation Committee believes that it is in the best interests of our shareholders to extend these benefits to our executives to reinforce and encourage retention and focus of shareholder value creation without distraction. Mr. Henshall has an individual employment agreement with Citrix that provides for similar benefits in the event of the termination of his employment under certain circumstances. See *Potential Payments upon Termination or Change in Control* beginning on page 64 for further information.

Equity Award Grant Policy

In 2007, the Compensation Committee adopted the Citrix Equity Award Grant Policy, or the Awards Policy. The Awards Policy enhances our controls with respect to grants of equity awards by establishing procedures for approving and pre-determining the dates on which awards will be made. Pursuant to the Awards Policy, unless a different date is set by our Board of Directors or the Compensation Committee, annual grants of full-value awards are made on the last business day in March on or prior to March 30th. Beginning in 2019, annual grants will be made on or about April 1 or the first trading day thereafter. The Awards Policy also establishes fixed grant dates for new hire and performance grants. An employee's eligibility to receive an award as of a particular, fixed grant date is subject to the time of the month in which the employee's employment begins or promotion is effective or, if later, the date on which all documentation necessary for the approval of the grant is obtained. A copy of our Awards Policy is available on the Corporate Governance section of our website at <http://www.citrix.com/about/governance.html> under Governance Documents.

Executive Stock Ownership Guidelines

To align the interests of our executive officers with the interests of our shareholders, our Board of Directors has established stock ownership guidelines for our executive officers. Under our current guidelines, our executive officers are expected to own shares of our common stock equal in value to a multiple of base salary as indicated in the table below.

Position**Stock Ownership Value**

	(Multiple of Base Salary)
President and Chief Executive Officer	6 times
Other Executive Officers who report to the President and Chief Executive Officer	4 times

To comply with these guidelines, each executive officer is required to retain an amount equal to one-third (1/3) of the net shares (those shares remaining after shares are deducted or withheld to cover any exercise price or tax obligations arising in connection with the exercise, vesting or payment of an equity award) received as a result of the exercise, vesting or payment of any equity-based award granted to the executive officer by the company unless such executive officer holds the applicable guideline value of shares. Each of our executive officers is expected to hold such shares for so long as he or she is one of our executive officers. Failure to satisfy the stock ownership guidelines when required to do so will result in suspension of an executive officer's ability to sell shares of our common stock until the requisite ownership levels are reached. Our executive officers may accumulate shares of our common stock through stock option exercises, settlement of restricted stock units or other awards and open market purchases made in compliance with applicable securities laws, our policies or any other equity plans we may adopt from time to time. Shares of our common stock beneficially owned (unless the executive officer disclaims beneficial ownership of the shares) and vested restricted stock (including vested but deferred restricted stock units) count towards the satisfaction of the stock ownership guidelines. Given the nature and expected duration of his role, our Board of Directors determined that Mr. Calderoni, as our then Executive Chairman, would be subject to our director ownership guidelines and not our executive stock ownership guidelines. Shares owned by executive officers are valued at the current market value.

Policy Concerning Hedging And Pledging Transactions

Certain transactions in Citrix securities (such as buying or selling puts, calls or other derivative securities of Citrix securities, or any derivative securities that provide the economic equivalent of ownership of any Citrix securities or an opportunity, direct or indirect, to profit from any change in the value of Citrix securities, or engaging in any other hedging transactions with respect to Citrix securities) create a heightened compliance risk or could create the appearance of misalignment between management and shareholders. As a result, our insider trading policy prohibits our executive officers and directors from engaging in hedging transactions, such as short sales and/or other derivative transactions, purchasing Citrix securities on margin, holding Citrix securities in an account that is, or is linked to, a margin account, and pledging Citrix securities as collateral for a loan.

Policy Regarding Change In Control Arrangements

It is our policy that we will not enter into any agreements with our executive officers that provide the executive officer with payments following a change in control unless such agreements provide for a double-trigger termination event

(that is, upon the termination of the executive officer's employment without cause or for good reason following a change in control).

Policy Regarding Recovery of Executive Compensation

Citrix executive officers are subject to a formal executive compensation recovery policy, or "clawback" policy, which allows Citrix to recoup from its executive officers excess proceeds from certain incentive compensation received by such executive due to a material restatement of Citrix's financial results due to an executive officer engaging in an act of embezzlement, fraud, willful misconduct or breach of fiduciary duty. Excess compensation includes any cash or equity-based compensation if the payment, grant or vesting of such compensation is predicated on the achievement of financial performance goals or financial metrics (excluding any incentive-based compensation based on total shareholder return or any similar stock price-based metric). The Compensation Committee intends to periodically review this policy and, as appropriate, conform it to any applicable final rules adopted pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Chief People Officer

- * Each year, our salary levels are determined during our first fiscal quarter and become effective April 1, except in connection with promotions and new hires. The amounts represented in this table reflect salary actually paid during the fiscal year.
- (1) These amounts represent the aggregate grant date fair value of restricted stock unit awards in the year in which the grant was made. The assumptions we used for calculating the grant date fair value are set forth in Note 8 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 15, 2019. These amounts do not represent the actual amounts paid to or realized by the executive officer for these awards during fiscal years 2018, 2017 or 2016. The value as of the grant date for restricted stock unit awards is recognized over the number of days of service required for the grant to become vested. In the case of performance-based restricted stock units, the fair value is reported for the probable outcome, which for this purpose is estimated using the company's financial projections as of the grant date. The fair value of awards at the maximum level of achievement for performance-based restricted stock units included in this table for 2018 which include the performance-based restricted stock units granted in August 2017 as previously described is as follows: Mr. Henshall, \$20,984,904; Mr. Del Matto, \$2,887,748; Mr. Coyle, \$3,997,873; Mr. Gomes, \$6,894,921; Mr. Hough, \$6,894,921; and Ms. Kimmel, \$7,813,245.
 - (2) Includes performance-based restricted stock units awarded to each Named Executive Officer (other than Mr. Del Matto who joined Citrix in February 2018) in August 2017 having performance-based vesting based on non-GAAP corporate operating margin and subscription bookings as a percentage of total product bookings as discussed under the section titled *Retention Performance-Based Awards Granted in 2017 with Performance Metrics Established in 2018*.
 - (3) Includes restricted stock units issued as a result of the dividend paid on December 21, 2018 (\$106,867), the value of company-covered financial services available to each executive officer (\$6,970), 401(k) matching contributions made by our company (\$8,250), the value of a company-covered physical examination available to each executive officer (\$5,000), and premiums for split-dollar life insurance and disability policies (\$19,240), and charitable donations made under the Company's matching gift program (\$5,000).
 - (4) Mr. Del Matto joined Citrix in February 2018. As announced on April 24, 2019, Mr. Del Matto's employment with Citrix will end on April 26, 2019.
 - (5) Mr. Del Matto's non-equity incentive award was pro-rated to reflect less than one year of service as Executive Vice President and Chief Financial Officer in 2018.
 - (6) Includes restricted stock units issued as a result of the dividend paid on December 21, 2018 (\$25,122), reimbursement of relocation expenses (\$325,000), the value of company-covered financial services available to each executive officer (\$8,066), 401(k) matching contributions made by our company (\$4,813), the value of a company-covered physical examination available to each executive officer (\$5,000), and premiums for split-dollar life insurance and disability policies (\$10,269), and charitable donations made under the Company's matching gift program (\$5,000).

Table of Contents**Nonqualified Deferred Compensation**

The following table sets forth certain information regarding non-tax qualified compensation deferred during the year ended December 31, 2018, under our equity incentive plans for our Named Executive Officers. The deferred compensation consists of shares of our common stock that will be issued with respect to vested restricted stock units under a long-term incentive program, or LTIP, that we instituted in 2009.

The LTIP's design and structure were intended to, and ultimately did, reward executive officers for generating both relative and absolute shareholder returns. The number of vested restricted stock units was determined after the

conclusion of a three-year period ending December 31, 2011, subject to employment of the executive officer by us throughout the three-year period. The number of shares of common stock issuable upon settlement of the LTIP restricted stock units was determined by comparing the performance of our common stock to the performance of the specified market indices over the same three-year period. Although the LTIP stock units have vested, the units will not be settled in shares of our common stock until the earliest of six months and one day following termination of the executive officer's employment for any reason other than cause, the executive officer's death, or the effective date of a change in control of our company.

shares that were withheld to satisfy minimum tax withholding obligations that arose upon vesting. The number of restricted stock units on a net basis for each of the Named Executive Officers is as follows: Mr. Henshall, 48,227.945 units which includes additional restricted stock units received as a result of adjustments made to outstanding equity awards in connection with our quarterly cash dividend paid in December 2018. None of Messrs. Del Matto, Coyle, Gomes, Hough, or Ms. Kimmel participated in the LTIP program. The grant date fair value of the LTIP awards was included in the *Stock Awards* column of the *Summary Compensation Table* for 2009.

Potential Payments upon Termination or Change in Control

We have change in control and severance arrangements with our Named Executive Officers that provide severance and other benefits to our Named Executive Officers in the event of the termination of their employment under certain circumstances. Set forth below is a summary of these arrangements.

President and Chief Executive Officer

In July 2017, we entered into an employment agreement with Mr. Henshall in connection with his appointment as our President and Chief Executive Officer. The employment agreement has a term of three years, with one-year extensions thereafter unless written notice of non-renewal is given by either party not less than 180 days prior to the end of the then current term.

Mr. Henshall's employment agreement provides for a minimum base salary of \$1,000,000, which is subject to annual review and may be increased but not decreased. In addition, Mr. Henshall is entitled to participate in our executive variable cash compensation program at an annual target variable cash compensation payment of 125% of his base salary and a maximum variable cash compensation payment of 200% of his base salary, with the actual amount to be determined in the discretion of the Compensation Committee based on Citrix's performance and the individual performance of Mr. Henshall.

In connection with his appointment as our President and Chief Executive Officer, Mr. Henshall received an equity grant consisting of (1) \$2,500,000 of time-based restricted stock units that vest in three annual installments and (2) \$2,500,000 of performance-based restricted stock units, half of which may be earned based on Citrix's performance against a non-GAAP corporate operating margin percentage target and half of which may be earned based on Citrix's performance against a subscription bookings as a percentage of total product and subscription bookings target for the fiscal year ending on December 31, 2019. Mr. Henshall became eligible to receive annual equity awards with a minimum target value of \$8,000,000 beginning in 2018. Mr. Henshall also is entitled to participate in all of our employee benefit plans and programs that are generally available to our senior executive employees.

Upon a termination of Mr. Henshall's employment without cause or for good reason before a change in control,

Mr. Henshall will be entitled to severance pay and benefits as follows:

salary continuation in an amount equal to two times the sum of (a) Mr. Henshall's base salary and (b) his target variable cash compensation;

continued health insurance coverage for 18 months; and

acceleration of unvested equity awards with time-based vesting then scheduled to vest over 24 months.

In such event, his performance-based equity awards will remain outstanding and may be earned on a pro-rata basis at the end of the relevant performance period based on actual performance.

The definitions of "cause", "good reason" and "change in control" included in Mr. Henshall's employment agreement are substantially the same as the definitions included in the executive agreements for the other Named Executive Officers described below, except that it will be considered a substantial reduction in Mr. Henshall's duties or responsibilities for purposes of the definition of "good reason" if he is not nominated for re-election to the Board or, in the event of a change in control, if he is no longer serving as President and Chief Executive Officer for the ultimate parent of the resulting company or such parent is not a publicly-traded company.

In the event Mr. Henshall's employment is terminated without cause or if he resigns his position for good reason in the 18-month period following a change in control, he will be entitled to receive:

- a lump sum payment equal to 300% of the sum of (a) his annual base salary and (b) his target variable cash compensation;

- continued health insurance coverage for 18 months; and

- accelerated vesting of all unvested equity awards with time-based vesting.

Mr. Henshall's currently outstanding equity awards with performance-based vesting provide that they will be deemed earned at the time of a change in control based on maximum achievement of 200%, subject to time-based vesting over the remaining measurement period, with full vesting if Mr. Henshall is terminated without cause or resigns for good reason following a change in control.

Upon Mr. Henshall's death or disability, all unvested equity awards with time-based vesting held by Mr. Henshall will

Table of Contents

immediately vest, and any equity awards with performance-based vesting will remain outstanding and may be earned on a pro-rata basis at the end of the relevant performance period based on actual performance. Mr. Henshall (or his estate, if applicable) also will be entitled to receive his target variable cash compensation on a pro-rata basis for such year. For purposes of his employment agreement, disability means that he is unable to perform the essential functions of his then existing position or positions under the agreement (or is expected, based on a reasonable degree of medical certainty, to be unable to perform such functions) with or without reasonable accommodation for a period of 180 days (which need not be consecutive) in any 12-month period.

All severance payments and benefits under Mr. Henshall's employment agreement are subject to the execution of a separation and release agreement by Mr. Henshall containing, among other provisions, a general release of claims in favor of Citrix.

In the event that any payments made to Mr. Henshall in connection with a change in control or termination would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, the payments to Mr. Henshall would be reduced to the maximum amount that can be paid without the imposition of an excise tax under Section 4999 of the Internal Revenue Code of 1986, but only if such reduction provides a higher benefit on an after-tax basis to Mr. Henshall. The employment agreement does not provide for any tax gross-up payments. The employment agreement superseded Mr. Henshall's previously existing executive agreement with Citrix.

Other Named Executive Officers

In January 2017, we entered into executive agreements with certain members of our senior leadership team, including Mr. Coyle, Mr. Gomes, and Ms. Kimmel. The executive agreements extended certain severance benefits to our executive officers under their existing incentive agreements with the company, which were scheduled to expire in accordance with their terms on January 25, 2017, and require the executive to comply with additional provisions protective of the company and shareholder interests to be eligible to receive the severance benefits. The executive agreements also superseded the executives' existing change in control agreements by consolidating the benefits under those agreements into a single agreement with the company. We subsequently entered into an executive agreement with Mr. Hough in September 2017 when he was hired as Senior Vice President and Chief Product Officer, and Mr. Del Matto in

February 2018 when he was hired as Executive Vice President and Chief Financial Officer of Citrix.

The executive agreements have a term of three years and automatically renew for one-year periods, unless written notice of non-renewal is given by either party at least 180 days prior to the end of the term. In the event of a change in control, the term will be automatically extended until 12 months after the change in control.

Under the executive agreements, if an executive's employment is terminated by Citrix without cause or by the executive for good reason, in either case before a change in control, he or she will be entitled to receive:

a lump sum payment equal to the sum of his or her then-current annual base salary plus the higher of (a) a designated percentage of his or her then-current annual base salary (90% for each of Mr. Del Matto and Mr. Hough, 75% for each of Mr. Gomes and Ms. Kimmel, and 50% for Mr. Coyle) or (b) the amount of variable cash compensation paid to him or her for the fiscal year prior to termination;

continued health insurance coverage for 12 months;

accelerated vesting of the unvested portion of his or her equity awards with time-based vesting that would have vested within the 12-month period following his or her date of termination; and

12 months of executive-level outplacement services.

In addition, the executive agreements provide for certain benefits in the event that the executive's employment is terminated following a change in control of Citrix. In the event that an executive's employment is terminated without cause or if he or she resigns his or her position for good reason, in either case, within the 12-month period following a change in control, he or she will be entitled to receive:

a lump sum payment equal to 150% of the sum of (a) his or her annual base salary and (b) his or her variable cash compensation target for the then-current fiscal year;

continued health insurance coverage for 18 months;

accelerated vesting of the unvested portion of any equity awards; and

18 months of executive-level outplacement services.

The company's currently outstanding equity awards with performance-based vesting provide that they will be deemed earned at the time of a change in control based on maximum achievement of 200%, subject to time-based vesting over the remaining measurement period, with full vesting if the

Table of Contents

executive is terminated without cause or resigns for good reason following the change in control as described above.

Under the executive agreements, a change in control would include any of the following events:

any person, as defined in the Securities Exchange Act of 1934, as amended, acquires 30% or more of our voting securities;

the consummation of a consolidation, merger or sale or other disposition of all or substantially all of our assets in which our shareholders would beneficially own less than 50% of the voting securities of the resulting entity or its ultimate parent after such transaction;

our incumbent directors cease to constitute a majority of our Board of Directors;

any other acquisition of the business of Citrix in which a majority of our Board of Directors votes in favor of a decision that a change in control has occurred; or

our shareholders approve a plan or proposal for our liquidation or dissolution.

Termination of the executive officer's employment by Citrix for cause includes a termination of the executive officer's employment as a result of:

an indictment for the commission of any felony or a misdemeanor involving deceit, material dishonesty or fraud, or any willful conduct that would reasonably be expected to result in material injury or reputational harm to Citrix if the executive were retained in his or her position;

willful disclosure of material trade secrets or other material confidential information related to our business;

willful and continued failure substantially to perform the executive's duties with Citrix, other than any such failure resulting from the executive's incapacity due to physical or mental illness (subject to notice and a period for the executive officer to cure such failure);

willful and knowing participation in releasing false or materially misleading financial statements or submission of a false certification to the Securities and Exchange Commission; or

failure to cooperate with a bona fide internal investigation by regulatory or law enforcement authorities.

Termination of the executive officer's employment by the executive officer for good reason includes a termination of the executive officer's employment as a result of:

a substantial reduction, not consented to by the executive officer, in the nature or scope of the executive officer's responsibilities, authorities, powers, functions or duties;

a reduction in the executive officer's annual base salary or target variable cash compensation;

failure to provide the executive with any payments, rights and other entitlements under the applicable agreement, including upon a change in control;

following a change in control, a material breach by Citrix of any agreements, plans, policies and practices relating to the executive's employment with Citrix;

the relocation of our offices at which the executive officer is principally employed by more than 35 miles; or

Citrix's issuance to the executive of a notice of non-renewal of the agreement (as applicable).

In addition, it will be considered a substantial reduction in Mr. Gomes' duties or responsibilities for purposes of the definition of "good reason" if, in the event of a change in control, he is no longer serving as General Counsel for the ultimate parent of the resulting company or such parent is not a publicly-traded company.

The severance payments and benefits described above are subject to the execution of a separation and release agreement containing, among other provisions, a general release of claims in favor of Citrix.

In the event that any payments made in connection with a change in control or termination would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, the payments to our executive officers would be reduced to the maximum amount that can be paid without the imposition of an excise tax under Section 4999 of the Internal Revenue Code of 1986, but only if such reduction provides a higher benefit on an after-tax basis to our executive officers. The executive agreements do not provide any "gross-up" payments in connection with a change in control.

Table of Contents

With respect to the performance-based equity awards granted to these Named Executive Officers, the award agreements provide that if the executive officer's employment with our company terminates as a result of the executive's death, disability (defined under our long-term disability plan) or retirement (defined as termination of employment after attainment of age 65 and provided that the executive officer has at least four years of service with our company), the executive officer will remain eligible to earn such performance-based awards on a pro-rata basis at the end of the performance period based on our achievement of the applicable performance metrics. As of December 31, 2018, none of our Named Executive Officers were eligible for retirement under our policy. In addition, our Compensation Committee adopted a policy applicable to these Named Executive Officers providing for the acceleration of vesting of outstanding time-based restricted stock units upon death or disability.

Each of our executive officers is also subject to the terms of a non-solicitation, non-compete and confidentiality and employee non-disclosure agreement with us. The non-solicitation and non-compete obligations, where enforceable, survive the termination of the executive officer's employment for a period of one year.

Potential Payments

The following table shows potential payments and benefits that would have been provided to each of Messrs. Henshall, Del Matto, Coyle, Hough and Gomes and Ms. Kimmel upon the occurrence of a change in control and/or certain termination triggering events, assuming such change in control and/or termination event occurred on December 31, 2018. The amounts shown in this table do not include payments and benefits to the extent they have been earned prior to the termination of employment or are provided on a non-discriminatory basis to employees upon termination of employment. These include:

accrued salary and vacation pay;

distribution of plan balances under our 401(k) plan and the non-qualified deferred compensation plan (see *Nonqualified Deferred Compensation* on page 63 for the balances of each Named Executive Officer); and

life insurance proceeds in the event of death.

The closing market price of our common stock on December 31, 2018 was \$102.46 per share.

The value of any performance-based awards included in this column was calculated using maximum achievement of 200%.

- (2) The value of any performance-based awards was calculated using the target award level. For each performance-based award for which the performance period is not complete as of termination, the number of shares earned will be calculated based on actual performance during the performance period and pro-rated for the number of months that elapsed in the performance period prior to such termination.
- (3) Mr. Henshall (or his estate, if applicable) would be entitled to receive his target variable cash compensation on a pro-rata basis for such year.

Compensation Committee Interlocks and Insider Participation

From January through December 2018, Ms. Caldwell and Dr. Gopal served as members of the Compensation Committee. Messrs. Smith and Sullivan, who departed the Board of Directors at the 2018 Annual Meeting, also served on the Compensation Committee until that time, and Mr. Sacripanti joined the Compensation Committee in June 2018 upon their departure. No member of our Compensation Committee was an employee or former employee of our company or any of our subsidiaries. During the past year, none of our executive officers served as: (1) a member of the compensation committee (or other committee of the Board

of Directors performing equivalent functions or, in the absence of any such committee, the entire Board of Directors) of another entity, one of whose executive officers served on our Compensation Committee; (2) a director of another entity, one of whose executive officers served on our Compensation Committee; or (3) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire Board of Directors) of another entity, one of whose executive officers served as a director on our Board of Directors.

Pay Ratio Disclosure

Pay Ratio Disclosure

We strive to provide competitive benefits and compensation programs that meet the diverse needs of our employees. Our compensation and benefits philosophy and the overall structure of our compensation and benefit programs are broadly similar across the organization to encourage and reward all employees who contribute to our success. We strive to ensure that the pay of every Citrix employee reflects the level of their job responsibilities and is competitive with our peer group. Our team is global, with over half our workforce located outside of the United States, and we believe it is important to be consistent in how employees are rewarded. We have differences in our programs to meet competitive needs and comply with local customs and laws, and strive to provide offerings that reflect local market practices. Compensation rates are benchmarked and set to be market-competitive in the country in which the jobs are performed.

Each part of our compensation program encourages and rewards both individual performance and the company's results and can include base salary, variable cash compensation, commissions, equity awards and other benefits.

Under the rules adopted pursuant to the Dodd-Frank Act of 2010, Citrix is required to calculate and disclose the total compensation paid to its median paid employee, as well as

the ratio of the total compensation paid to the median employee as compared to the total compensation paid to Citrix's CEO. We describe our methodology and the resulting CEO pay ratio below.

The SEC rules for identifying the median paid employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. As a result, the pay ratio reported by other companies may not be comparable to our Chief Executive Officer pay ratio, as other companies have offices in different countries, have different employee populations and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their CEO pay ratios.

Pay Ratio Methodology

Median Employee Determination

We first determined our median employee during 2017 for purposes of determining our CEO pay ratio as disclosed in our 2017 Proxy Statement. The applicable SEC rules require us to identify a median employee only once every three years, as long as there have been no material changes in our employee

Table of Contents

population or employee compensation arrangements that we reasonably believe would result in a significant change to our CEO pay ratio disclosure. Because there have been no material changes in our employee population or employee compensation arrangements that we believe would significantly impact the Company's CEO pay ratio disclosure, we are using the same median employee for our 2018 CEO pay ratio that we used for our 2017 CEO pay ratio, although we have updated the calculation of the total compensation earned by that employee for 2018.

The methodology and the material assumptions and estimates that we used to identify our median employee during 2017 were as described below.

We determined that as of December 31, 2017, we had approximately 7,500 employees at Citrix. We used this employee population to determine the median employee.

Under the relevant rules, we are required to identify the median employee using a consistently applied compensation measure (CACM). We chose a CACM that closely approximates the annual total direct compensation of our employees. Specifically, we identified the median employee using all elements of cash compensation. We excluded the value of benefits that were not paid in cash and equity. We did not adjust the compensation paid to part-time employees to calculate what they would have been paid on a full-time basis. We, however, annualized the compensation of all permanent full-time employees who were hired in 2017 but did not work for Citrix for the full year. We did not make any cost-of-living adjustments in identifying the median employee. For

purposes of this calculation, we converted all local currency to USD based on the average exchange rates over the twelve months ended December 31, 2017.

Using this methodology, we determined that the median employee was a full-time salaried employee located in the United States who was awarded variable cash compensation and equity awards during 2017. Similarly, for 2018, the median employee was awarded variable cash compensation and equity awards during 2018.

Calculating the Total Annual Compensation of the Median Employee and the Pay Ratio for 2018

Using the 2017 median employee, we calculated that employee's total annual compensation in the same manner we calculate our President and Chief Executive Officer's total annual compensation in the 2018 Summary Compensation Table on page 56. We determined that the median employee's 2018 annual total compensation was \$170,433. Our President and Chief Executive Officer's annual total compensation as reported in the 2018 Summary Compensation Table was \$19,253,101. As a result, the ratio of the annual total compensation of our Chief Executive Officer and President, to the annual total compensation of the median employee was 113 to 1.

Neither the Compensation Committee nor Citrix management used this pay ratio measure in making compensation decisions. Given the differences in calculation methodology, our pay ratio should not be used as a basis for comparison across companies.

Related Party Transactions Policies and Procedures and Transactions with Related Persons

In accordance with its charter, the Nominating and Corporate Governance Committee reviews, approves and ratifies any related person transaction. The term related person transaction refers to any transaction required to be disclosed in our filings with the SEC pursuant to Item 404 of Regulation S-K.

In considering any related person transaction, the Nominating and Corporate Governance Committee considers the facts and circumstances regarding such transaction, including, among other things, the amounts involved, the relationship of the related person (including those persons identified in the instructions to Item 404(a) of Regulation S-K) with our company and the terms that would be available in a similar

transaction with an unaffiliated third-party. The Nominating and Corporate Governance Committee also considers its fiduciary duties, our obligations under applicable securities law, including disclosure obligations and director independence rules, and other applicable law in evaluating any related person transaction. The Nominating and Corporate Governance Committee reports its determination regarding any related person transaction to our full Board of Directors.

Since the beginning of 2018, there were no related person transactions, and there are not currently any proposed related person transactions, that would require disclosure under SEC rules.

Cooperation Agreement with Elliott

In July 2015, we entered into a cooperation agreement with affiliates of Elliott Management, or Elliott, a significant investor in our company. Pursuant to this agreement, we agreed to the initial appointment of Jesse A. Cohn, Elliott's Partner and head of U.S. equity activism, to our Board of Directors (we have no continuing obligation to appoint Mr. Cohn as a director pursuant to this agreement), and Elliott agreed to vote all shares of Citrix common stock owned by

Elliott in favor of the directors nominated by our Board and in accordance with management's recommendations with respect to any other proposals (other than those relating to extraordinary transactions) at any annual meeting of Citrix shareholders at which Mr. Cohn (or another Elliott designee) has been nominated by our Board of Directors for election as a director. Also, Elliott agreed to certain standstill restrictions that will continue until our Board fails to re-nominate

Table of Contents

Mr. Cohn as a director for election at an annual meeting or the date that Mr. Cohn resigns as a director. These standstill restrictions include not engaging in any solicitation of proxies or consents with respect to the election or removal of directors; forming or joining a group with respect to our common stock and other voting securities of Citrix; beneficially owning more than 9.9% of the voting power of, or economic exposure to, our common stock; making or participating in any extraordinary transaction, including

tender offer, merger, business combination, recapitalization, restructuring, liquidation, dissolution or other similar transaction involving Citrix; seeking, alone or in concert with others, representation on our Board of Directors or the removal of any member of our Board of Directors; or making any shareholder proposal. These standstill restrictions terminate automatically upon certain events, including in the event of certain extraordinary transactions involving our company.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the SEC and the Nasdaq Stock Market. Our officers and directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. To our knowledge, based solely on our review of the copies of such reports furnished to us and written representations from our executive officers and directors that no other reports were required during the fiscal year ended December 31, 2018, all Section 16(a) filing requirements applicable to our executive officers, directors and greater than ten percent beneficial owners were satisfied on a timely basis, with the exception of the following:

one Form 4 filed by each of Andrew H. Del Matto, Mark J. Ferrer, Antonio G. Gomes, David J. Henshall, Paul J. Hough, Donna N. Kimmel, Timothy A. Minchen, Jessica Soisson and Jeroen van Rotterdam to report one transaction for each of Messrs. Del Matto and Ferrer, three transactions for each of Messrs. Hough and van Rotterdam, four transactions for each of Messrs. Henshall, and Minahan and Ms. Kimmel, and five transactions for each of Mr. Gomes and Ms. Soisson related to annual equity awards on March 29, 2018. The due date for these nine Form 4 filings was April 2, 2018, and they were filed on April 3, 2018; and

one Form 4 filed by Jeroen van Rotterdam on April 6, 2018 to report one transaction related to Mr. van Rotterdam's sale of stock under a 10b5-1 plan on April 2, 2018. The due date for this Form 4 filing was April 4, 2018, and it was filed on April 6, 2018.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986 generally places a \$1 million limit on the amount of compensation a company can deduct in any one year for certain executive officers. While the Compensation Committee considers tax deductibility as one factor in determining executive compensation, the Compensation Committee also looks at other factors in making its decisions, as noted above, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible by us for tax purposes. The exemption from Section 162(m)'s deduction limit for performance-based compensation has been repealed, effective for taxable years beginning after December 31, 2017, such that compensation paid to our Named Executive Officers and certain other individuals in excess of \$1 million will not be deductible unless it qualifies for the limited transition relief applicable to certain arrangements in place as of November 2, 2017.

Despite the Compensation Committee's efforts to structure certain performance-based awards in a manner intended to be exempt from Section 162(m) and therefore not subject to its deduction limits, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, including the uncertain scope of the transition relief under the legislation repealing the performance-based compensation exemption from the deduction limit, no assurance can be given that compensation intended to satisfy the requirements for exemption from Section 162(m) in fact will. Further, the Compensation Committee reserves the right to modify compensation that was initially intended to be exempt from Section 162(m) if it determines that such modifications are consistent with our business needs. The Compensation Committee believes that shareholder interests are best served if its discretion and flexibility in awarding compensation is not restricted, even though some compensation awards may result in non-deductible compensation expenses.

Part 5 Audit Committee Matters

Report of the Audit Committee

The Audit Committee oversees the accounting and financial reporting processes of Citrix and the audits of the consolidated financial statements of Citrix on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited consolidated financial statements in Citrix's Annual Report on Form 10-K for the year ended December 31, 2018, and discussed with management the quality, not just the acceptability, of the accounting principles, the reasonableness of significant estimates and judgments, critical accounting policies and accounting estimates resulting from the application of these policies, and the substance and clarity of disclosures in the financial statements, and reviewed Citrix's disclosure controls and procedures and internal control over financial reporting.

The Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by Nasdaq and the SEC, including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended. Messrs. Daleo and Demo each qualify as an audit committee financial expert under the rules of the SEC.

The Audit Committee has reviewed Citrix's audited consolidated financial statements at December 31, 2018 and 2017 and for each of the years in the three-year period ended December 31, 2018 and has discussed them with both management and Ernst & Young. The Audit Committee also discussed with Ernst & Young the overall scope and plan for their annual audit for 2018. The Audit Committee met separately with Ernst & Young in its capacity as Citrix's independent registered public accountants, with and without management present, to discuss the results of Ernst & Young's procedures, its evaluations of Citrix's internal control over financial reporting, and the overall quality of its financial reporting, as applicable.

The Audit Committee reviewed and discussed with Ernst & Young the matters required to be discussed by Auditing Standard No. 1301, *Communications with Audit Committees*, as adopted by the Public Company Accounting Oversight Board, or PCAOB. In addition, the Audit Committee has reviewed the services provided by Ernst & Young and discussed with Ernst & Young its independence from management and Citrix, including the matters in the written disclosures and letter from independent accountants required by PCAOB Rule 3526 and considered the compatibility of non-audit services with the registered public accountants' independence.

Based on the Audit Committee's review of the financial statements and the reviews and discussions referred to above, it concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited consolidated financial statements be included in Citrix's Annual Report on Form 10-K for the year ended December 31, 2018.

No portion of this Audit Committee Report shall be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, through any general statement incorporating by reference in its entirety the Proxy Statement in which this report appears, except to the extent that Citrix specifically incorporates this report or a portion of it by reference. In addition, this report shall not be

Audit Partner Rotation

In accordance with SEC rules and Ernst & Young policies, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide service to Citrix. For lead and concurring audit partners, the maximum number of consecutive years of service in that capacity is five years. The process for selection

of our lead audit partner pursuant to this rotation policy involves meetings among the Chair of the Audit Committee, our Chief Financial Officer and the candidate for the role, as well as discussion by the full Audit Committee and with other members of management.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor

The Audit Committee has implemented procedures under our Audit Committee Pre-Approval Policy for Audit and Non-Audit Services, which we refer to as the Pre-Approval Policy, to ensure that all audit and permitted non-audit services to be provided to Citrix have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of our independent registered public accounting firm for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before the service may be provided by our independent registered public accounting firm. Any pre-approved services

exceeding the pre-approved monetary limits require specific approval by the Audit Committee. All of the audit-related, tax and all other services provided to us by Ernst & Young in 2018 and 2017 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the procedures contained in the Pre-Approval Policy. All non-audit services provided in 2018 and 2017 were reviewed with the Audit Committee, which concluded that the provision of such services by Ernst & Young was compatible with the maintenance of that firm's independence in the conduct of its auditing functions. For additional information concerning the Audit Committee and its activities with Ernst & Young, see *Our Board Committees* beginning on page 24.

Table of Contents**Part 6 Proposals to be Voted on at the Meeting****Proposal 1****Election of Director Nominees**

Our Board of Directors currently consists of ten members. Directors elected at this meeting will serve a term of one year. The table below sets forth the nominees for directors at the 2019 Annual Meeting.

The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has nominated the Board members, listed in the chart below, for re-election and has recommended that each be elected to the Board of Directors, each to hold office until the annual meeting of shareholders to be held in the year 2020 and until his or her successor has been duly elected and qualified or until his or her earlier death, resignation or removal. All of the nominees are current directors whose terms expire at the

2019 Annual Meeting. The Board of Directors knows of no reason why any of the nominees would be unable or unwilling to serve, but if any nominee should for any reason be unable or unwilling to serve, the proxies will be voted for the election of such other person for the office of director as the Board of Directors may recommend in the place of such nominee. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below.

This proposal for the election of directors relates solely to the election of ten directors nominated by our Board of Directors and does not include any other matters relating to the election of directors, including, without limitation, the election of directors nominated by any of our shareholders.

Proposal 2

Amendment to

Amended and Restated

2014 Equity Incentive Plan

On March 11, 2019, our Board of Directors, upon the recommendation of the Compensation Committee, approved the Second Amendment to the Amended and Restated 2014 Plan (which we refer to herein as the Plan Amendment), subject to shareholder approval, to:

decrease the total number of shares authorized for issuance under the Amended and Restated 2014 Plan by 2,600,000 shares, from 46,000,000 to 43,400,000 shares; and

remove the fungible share formula so that, going forward, each share underlying awards granted under the Amended and Restated 2014 Plan will reduce the share reserve by one share and all shares underlying forfeited, cancelled or terminated awards that are granted on or after the effective date of the Plan Amendment will be returned to the share reserve in the same manner.

References to the Amended and Restated 2014 Plan, or to the Plan, in the remainder of this discussion refer to the Amended and Restated 2014 Plan as if this Proposal 2 is approved by our shareholders, unless otherwise specified or the context otherwise references the Amended and Restated 2014 Plan prior to it being amended. The Plan Amendment will only become effective if and when approved by shareholders.

Background of Proposal

We operate in a challenging and competitive environment and our success depends, to a great extent, on our ability to attract, retain and effectively motivate the most qualified employees, officers and non-employee directors. Our Compensation Committee and Board of Directors believe we must continue to offer a competitive equity compensation program in order to meet those objectives and, as such, our equity compensation program constitutes a significant part of our overall compensation philosophy at Citrix. Each year, we seek to grant equity-based compensation to a significant percentage of our employee population and, in recent years, have increased that percentage in order to be competitive with our peers and industry practice. Ensuring that our equity compensation program is appropriately tailored requires continuous reevaluation and careful management of our Amended and Restated 2014 Plan.

The Amended and Restated 2014 Plan (prior to the effectiveness of the Plan Amendment) currently employs a fungible share formula under which shares of our common stock underlying full-value awards (i.e., awards other than stock options and stock appreciation rights) are counted against the Plan's share limit as 2.75 shares for every one

share of common stock underlying the award. The Plan Amendment would remove the 2.75 fungible share formula. Accordingly, so-called full-value awards granted under our Plan on or after the effective date of the Plan Amendment would be counted against the Plan's share limit as one share for every one share underlying the award. Because the 2.75 formula was in place with respect to awards made prior to the Plan Amendment, any forfeitures, cancellations or other terminations of a full-value award that was granted prior to the Plan Amendment will return back to the Plan's share reserve pool as 2.75 shares for every one share underlying the relevant award to reflect the formula used at the time such award was granted.

In addition to the removal of the fungible share formula, the Plan Amendment also decreases the maximum number of shares authorized for issuance under the Plan by 2,600,000 shares, from 46,000,000 to 43,400,000 shares.

Our Board of Directors believes that the Plan Amendment will give Citrix greater flexibility to structure future incentives and better attract, retain, motivate and reward key employees and non-employee directors. If our shareholders do not approve this proposal, the current share limits under, and other terms and conditions of, the Amended and Restated 2014 Plan as currently in place will continue in effect.

As of April 2, 2019, under the Amended and Restated 2014 Plan (the only plan from which we grant equity), there were:

5,640,416 total shares remaining available for grant of full-value awards (after giving effect to this Proposal 2, including decreasing the total number of shares authorized for issuance); and

6,564,390 unvested full-value awards outstanding and no options, stock appreciation rights or other awards outstanding.

With this amendment, we are not requesting that shareholders authorize any additional shares for the Plan.

Table of Contents***Rationale for Plan Amendment***

As we have discussed previously in the Compensation Discussion and Analysis section of this Proxy Statement, we believe that stock-based incentive awards play an important role in our success by motivating and enabling our employees, officers and non-employee directors, upon whose judgment, initiative and efforts we largely depend for the successful conduct of our business, to acquire a proprietary interest in Citrix. Further, we believe that continuing to motivate and retain such individuals who we expect to make important contributions to our business will impact the speed and success of our transition to a cloud-based subscription business. Our Board of Directors anticipates that providing these individuals with a direct stake in Citrix will more closely align the interests of such individuals with those of Citrix and our shareholders, thereby encouraging their efforts on our behalf and strengthening their desire to remain with us.

As we anticipated in 2017, when we most recently requested and received shareholder approval for an increase to the number of shares available for issuance under the Plan, and as a result of a number of factors, including the impact of a fungible share formula on our grants of restricted stock units and the fact that we have not historically requested outsized increases to the share reserve available under the Plan which would have resulted in significantly greater equity dilution, Citrix will need additional shares for issuance under the Plan in order to continue providing stock-based incentive awards to recruit, hire and retain the talent required to successfully execute our business plan. Consistent with our focus on achieving such operational objectives while also exercising discipline in order to limit or reduce dilution, we are not currently seeking to increase the share reserve available under the Plan. Instead, the Plan Amendment provides for a change to our fungible share formula while also reducing the overall share reserve by 2,600,000 in order to mitigate the dilutive impact of the revision to the fungible share formula.

Our Compensation Committee, working with management and our independent compensation advisors, determined that removing the fungible share formula from the Plan and decreasing the shares available under the Plan, without asking for an increase to the share reserve, was in the best interests of Citrix and its shareholders because:

- **The Plan Amendment will allow us to make grants from our share reserve and will not directly increase the dilutive effect on shareholders' current holdings (unlike a proposal to increase the available share reserve).** Requesting additional shares would dilute our current shareholders. Removing the fungible share formula allows us to make additional grants without such additional dilution. Further, we are reducing the share reserve under the Plan by 2,600,000 shares. Our Compensation Committee heavily weighted potential dilution to existing shareholders when considering the Plan Amendment.
- **The Plan Amendment allows us to maintain an equity compensation program primarily comprised of full-value awards.** Since 2012, our annual equity grant program has consisted entirely of full-value awards, and almost exclusively restricted stock units. The use of restricted stock units furthers our goals of managing burn rate and dilution by reducing the number of shares of our common stock subject to equity-based awards (as compared to other types of awards) while continuing to provide incentive for our high performers to remain with us and to perform at a high level and we expect to continue to grant primarily full-value awards. As a result, the fungible share formula is less relevant than in prior periods.
- **The Plan Amendment provides increased transparency and a truer indication of the number of shares of our common stock remaining under the Amended and Restated 2014 Plan share reserve.** To illustrate

the end result of the Plan Amendment, we have (prior to giving effect to the Plan Amendment) 8,240,416 total shares remaining available for issuance under the Amended and Restated 2014 Plan as of April 2, 2019. Due to the fungible share counting structure and the 2.75:1 ratio for full-value awards under the Amended and Restated 2014 Plan, we only have 2,996,515 total shares remaining available for the grant of full-value awards as of such date. If this Proposal 2 is approved by our shareholders, we would have 5,640,416 total shares remaining available for grant of full-value awards under the Amended and Restated 2014 Plan as of April 2, 2019, and have a better measure of the shares that we estimate that we will need for future awards. Our Board of Directors believes that having more shares available for full-value awards will help us achieve our goals by keeping our incentive compensation program competitive with those of comparable companies.

2019 Proxy Statement 79

Table of Contents

Our Board of Directors approved the Plan Amendment, subject to approval by our shareholders, following the recommendations of our Compensation Committee and consideration of various sources of information and relevant factors including review and discussion of our historical and anticipated equity grant practices and requirements, the dilutive impact of the alternatives available to address anticipated equity incentive needs, the advice of our independent compensation consultant, and in light of our significant institutional shareholder base, the policy guidelines of major proxy advisory firms. The Board of Directors believes it is in the best interests of Citrix and its shareholders to approve the Plan Amendment and recommends that shareholders vote in favor of this Proposal 2. Our carefully-considered reasoning, as well as a summary of the Amended and Restated 2014 Plan, is provided below.

Amended and Restated 2014 Plan Reflects Continued Focus on Disciplined Equity Compensation Practices

The Amended and Restated 2014 Plan, as amended by the Plan Amendment, continues to reflect responsible equity compensation practices including the following features:

Shares tendered or held back for taxes will not be added back to the reserved pool under the Plan. Upon the exercise of a stock appreciation right, the full number of shares underlying the award will be charged to the reserved pool. Additionally, shares that we reacquire on the open market will not be added to the reserved pool;

Stock options and stock appreciation rights may not be granted below fair market value and will not be repriced in any manner without shareholder approval;

No reload grants are permitted;

No evergreen provision is included (i.e., no automatic annual share reserve increase);

The number of shares that may be issued in any year to an individual in the form of certain awards is limited;

Awards granted under the Plan are subject to our executive compensation recovery (or clawback) policy;

If the Plan Amendment is approved by shareholders, the Plan will count the number of actual shares underlying an award granted after the effective date of the Plan Amendment for purposes of calculating the remaining share reserve available; and

The term of the Plan is fixed and will expire on June 22, 2027.

Other material features of the Plan, as amended by the Plan Amendment, include:

The maximum number of shares of common stock authorized for issuance under the Plan is 43,400,000 (or 46,000,000 if the Plan Amendment is not approved by shareholders);

The award of stock options (both incentive and non-qualified options), stock appreciation rights, restricted stock, restricted stock units, unrestricted stock, performance shares, dividend equivalent rights and cash-based awards is permitted; and

Certain amendments to the Plan are subject to approval by our shareholders.

The Plan also contains certain limits on the compensation of our non-employee directors. The value of all equity-based awards granted under the Plan to any of our non-employee directors in any calendar year shall not exceed \$795,000 (excluding any awards granted in connection with a non-employee director's initial election to the Board). The value of all cash compensation, not including the value of awards under the Plan, paid by the Company to any non-employee director for his or her services as such in any calendar year shall not exceed \$500,000. These limits were included in our Plan at the time that it was last approved by our shareholders.

The shares of common stock underlying any awards that are forfeited, canceled, reacquired by us prior to vesting, satisfied without any issuance of stock, expire or are otherwise terminated (other than by exercise) under the Plan or the 2005 Equity Incentive Plan are added back to the shares of common stock available for issuance under the Plan. Each share underlying awards granted under the Plan prior to the Plan Amendment will be added back to the Plan as 2.75 shares. The following shares will not be added back to the shares authorized for issuance under the Plan: shares tendered or held back upon exercise of an option or settlement of an award to cover the exercise price or tax withholding, and shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right upon exercise. In addition, if we repurchase shares on the open market, such shares will not be added back to the Plan.

We Manage Our Equity Incentive Program Thoughtfully

We manage our long-term shareholder dilution by limiting the number of equity incentive awards granted annually. The Compensation Committee carefully monitors our annual net

Table of Contents

burn rate, total dilution, and equity expense in order to maximize shareholder value by granting only the appropriate number of equity incentive awards that it believes are necessary to attract, reward, and retain employees, officers, and non-employee directors.

The following table shows our historical dilution and burn rate percentages.

As of and for the year-ended December 31	2018	2017	2016
Full Dilution(1)	13.7%	16.4%	11.3%
Gross Burn Rate(2)	2.9%	2.1%	1.6%

(1) Full Dilution is calculated as (shares available for grant under our equity incentive plans + shares subject to outstanding equity incentive awards)/(common stock outstanding + shares available for grant under our equity incentive plans + shares subject to outstanding equity incentive awards).

(2) Gross Burn Rate is calculated as (shares subject to equity incentive awards granted / weighted average common shares outstanding).

Our total dilution has been impacted by an active stock repurchase program, which was initiated in July 2000. During the 19-year period ended December 31, 2018, we have repurchased approximately 177 million shares under this program. We believe that our stock repurchase program represents a valuable use of cash that has improved shareholder value. Because dilution increases as total shares outstanding decrease, the effect of our stock repurchase program has been to increase our dilution by more than 116%. Specifically, if we had not repurchased approximately 177 million shares under the program, dilution as of December 31, 2018 would have been 6.3% instead of 13.7%. In addition, as of April 2, 2019, assuming approval of the Plan Amendment including the 2,600,000 share reserve reduction, dilution would be 8.4%.

Given that our Gross Burn Rate is calculated as a percentage of the weighted average common shares outstanding, our share repurchase program has also impacted our Gross Burn Rate. Specifically, if we had not repurchased approximately 177 million shares under the program, our Gross Burn Rate for the year ended December 31, 2018 would have been 1.3% instead of 2.9%. Our Compensation Committee determined the number of shares available for issuance under the Plan after giving effect to the Plan Amendment, based on projected equity awards to anticipated new hires, projected annual equity awards to existing employees, and an assessment of the magnitude of increase that our institutional investors and the firms that advise them would

likely find acceptable. We anticipate that if the Plan Amendment is approved, the number of shares available for issuance under the Plan will be sufficient to provide equity incentives to attract, retain, and motivate employees through the next 18 to 24 months.

Note Regarding Forecasts and Forward-Looking Statements

We do not as a matter of course make public forecasts as to our total shares outstanding and utilization of various equity awards due to the unpredictability of the underlying assumptions and estimates. In particular, the forecasts set forth above in this Proposal 2 include embedded assumptions which are highly dependent on the public trading price of our common stock and other factors, which we do not control and, as a result, upon which we do not as a matter of practice provide forecasts. These forecasts reflect various assumptions regarding our future operations. The inclusion of the forecasts set forth above should not be regarded as an indication that these forecasts will be predictive of actual future outcomes, and the forecasts should not be relied upon as such.

Background on our Stock Compensation

Our comprehensive compensation programs include base salary, variable cash compensation tied to our financial and individual goals, and stock-based compensation. We have a long history of linking employee compensation to our long-term stock performance. For over 25 years, we have been granting equity awards to employees in connection with a focused evaluation of strategic value and in cases of high-level performance.

As of April 2, 2019, under all of our equity-based compensation plans (prior to giving effect to the Plan Amendment), there were 8,240,416 total shares of common stock remaining available for grant of which 2,996,515 may be issued as full-value awards. As of such date, there were 6,564,390 unvested full-value awards outstanding and there were otherwise no options, stock appreciation rights or other awards outstanding under our equity compensation plans.

We believe that our focus on pay-for-performance, as well as employee participation as shareholders, have been key contributing factors in enabling our growth and will continue to be important to our ability to achieve consistent performance in the years ahead. We believe that consistent performance is achieved through the ability to attract, retain and motivate the employee talent critical to attaining long-term improved company performance and shareholder

Table of Contents

returns. Therefore, we consider approval of the Plan Amendment vital to our future success.

In 2018, we used, and intend to continue using, restricted stock units as our primary means of providing equity compensation to our employees, officers, and non-employee directors. We will continue to evaluate other equity-based compensation vehicles, such as restricted stock and stock appreciation rights, and may return to more widespread option grants in the future, as a means of providing additional equity compensation to our employees, officers, and non-employee directors.

Summary of the Plan

The following description of certain features of the Plan is intended to be a summary only. The summary is qualified in its entirety by the full text of the Plan Amendment that is attached as Appendix A to this Proxy Statement and the copies of the Plan and the First Amendment to the Plan which are filed with the SEC as Exhibit 10.1 to Citrix's Current Report on Form 8-K filed on June 27, 2017 and Exhibit 10.8 to Citrix's Quarterly Report on Form 10-Q filed on May 4, 2018, respectively.

Plan Administration

The Plan is administered by the Compensation Committee. The Compensation Committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the Plan. The Compensation Committee may delegate to our Chief Executive Officer, Chief Financial Officer or Chief People Officer the authority to grant stock awards to employees who are not subject to the reporting and other provisions of Section 16 of the Exchange Act, subject to certain limitations and guidelines.

Eligibility

Persons eligible to participate in the Plan will be those of our full or part-time officers, employees, non-employee directors and consultants selected from time to time by the Compensation Committee in its discretion. As of April 2, 2019, approximately 8,400 individuals are currently eligible to participate in the Plan, which includes eight executive officers, 8,392 employees who are not executive officers, and nine non-employee directors.

Plan Limits

The maximum number of shares of common stock available for issuance under the Plan (as amended by the Plan Amendment) is 43,400,000.

The maximum award of stock options or stock appreciation rights granted to any one individual will not exceed 2,000,000 shares of common stock (subject to adjustment for stock splits and similar events) for any calendar year period. In addition, no more than 46,000,000 shares will be issued in the form of incentive stock options.

Effect of Awards

For purposes of determining the number of shares of common stock available for issuance under the Plan, subject to approval of the Plan Amendment, the grant of any award granted on or after the effective date of the Plan Amendment will be counted for this purpose as one share for each share of common stock actually subject to the award, except that any forfeitures, cancellations or other terminations (other than by exercise) of a full-value award that was granted prior to the Plan Amendment shall return back to the Plan's pool as 2.75 shares for every one share to reflect the formula

used at the time such award was granted.

Stock Options

The Plan permits the granting of the following stock options: (1) options to purchase common stock intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986 and (2) options that do not so qualify. Options granted under the Plan will be non-qualified options if they fail to qualify as incentive options or to the extent these exceed the annual limit on incentive stock options. Incentive stock options may only be granted to our employees. Non-qualified options may be granted to any persons eligible to receive incentive options and to non-employee directors and consultants. The option exercise price of each option will be determined by the Compensation Committee but may not be less than 100% of the fair market value of the common stock on the date of grant. Fair market value for this purpose will be the last reported sale price of the shares of common stock on the NASDAQ Global Select Market on the date of grant. The exercise price of an option may not be reduced after the date of the option grant, other than to appropriately reflect changes in our capital structure.

The term of each option will be fixed by the Compensation Committee and may not exceed five years from the date of grant. The Compensation Committee will determine at what

Table of Contents

time or times each option may be exercised. Options may be made exercisable in installments and the exercisability of options may be accelerated by the Compensation Committee. In general, unless otherwise permitted by the Compensation Committee, no option granted under the Plan is transferable by the optionee other than by will or by the laws of descent and distribution, and options may be exercised during the optionee's lifetime only by the optionee, or by the optionee's legal representative or guardian in the case of the optionee's incapacity.

Upon exercise of options, the option exercise price must be paid in full either in cash, by certified or bank check or other instrument acceptable to the Compensation Committee or by delivery (or attestation to the ownership) of shares of common stock that are beneficially owned by the optionee or were purchased in the open market. Subject to applicable law, the exercise price may also be delivered to Citrix by a broker pursuant to irrevocable instructions to the broker from the optionee. In addition, the Compensation Committee may permit non-qualified options to be exercised using a net exercise feature which reduces the number of shares issued to the optionee by the number of shares with a fair market value equal to the exercise price.

To qualify as incentive stock options, options must meet additional federal tax requirements, including a \$100,000 limit on the value of shares subject to incentive options that first become exercisable by a participant in any one calendar year.

Stock Appreciation Rights

The Compensation Committee may award stock appreciation rights subject to such conditions and restrictions as the Compensation Committee may determine. Stock appreciation rights entitle the recipient to shares of common stock equal to the value of the appreciation in the stock price over the exercise price. The exercise price is the fair market value of the common stock on the date of grant. The maximum term of a stock appreciation right is five years.

Restricted Stock

The Compensation Committee may award shares of common stock to participants subject to such conditions and restrictions as the Compensation Committee may determine. These conditions and restrictions may include the achievement of certain performance goals and/or continued employment with us through a specified restricted period.

Restricted Stock Units

The Compensation Committee may award restricted stock units to any participants. Restricted stock units are ultimately payable in the form of shares of common stock and may be subject to such conditions and restrictions as the Compensation Committee may determine. These conditions and restrictions may include the achievement of certain performance goals and/or continued employment with us through a specified vesting period. In the Compensation Committee's sole discretion, it may permit a participant to make an advance election to receive a portion of his or her future cash compensation otherwise due in the form of a deferred stock unit award, subject to the participant's compliance with the procedures established by the Compensation Committee and requirements of Section 409A of the Internal Revenue Code of 1986.

Unrestricted Stock Awards

The Compensation Committee may also grant shares of common stock which are free from any restrictions under the Plan. Unrestricted stock may be granted to any participant in recognition of past services or other valid consideration and may be issued in lieu of cash compensation due to such participant.

Performance Share Awards

The Compensation Committee may grant performance awards to any participant which entitle the recipient to receive shares of common stock upon the achievement of certain performance goals and such other conditions as the Compensation Committee shall determine. Except in the case of a change in control, these awards granted to employees will have a performance period of at least one year.

Dividend Equivalent Rights

The Compensation Committee may grant dividend equivalent rights to participants which entitle the recipient to receive credits for dividends that would be paid if the recipient had held specified shares of common stock. Dividend equivalent rights granted as a component of another award may be paid only if the related award becomes vested and settled. Dividend equivalent rights may be settled in cash, shares of common stock or a combination thereof, in a single installment or installments, as specified in the award.

Cash-Based Awards

The Compensation Committee may grant cash bonuses under the Plan to participants. The cash bonuses may be subject to the achievement of certain performance goals.

Acquisition

In the event of an Acquisition (as defined in the Plan), Citrix and the surviving or acquiring entity, shall, as to outstanding awards (on the same basis or on different bases as the Compensation Committee shall specify), make appropriate provision for the assumption or continuation of such awards or the substitution of such awards on an equitable basis with new awards, with appropriate adjustments as to the number and kind of shares, and if appropriate, the per share exercise prices, as such parties shall agree, the fair market value of which shall not materially differ from the fair market value of the shares of Citrix common stock subject to such awards immediately preceding the Acquisition. To the extent the parties to such Acquisition do not provide for the assumption, continuation or substitution of awards, the Plan and all outstanding awards shall terminate, and, except as the Compensation Committee may otherwise specify, all options and stock appreciation rights shall become exercisable in full prior to the consummation of the Acquisition, all other awards subject to time-based vesting shall become fully vested and non-forfeitable as of the effective time of the Acquisition and all awards with conditions and restrictions relating to the attainment of performance goals will, in each case unless otherwise set forth in an award agreement, be deemed achieved at 100% of target levels and become fully vested and nonforfeitable as of the effective time of an Acquisition.

In addition to or in lieu of the foregoing, with respect to outstanding options or stock appreciation rights, the Compensation Committee may, upon written notice to the affected participant, provide that one or more options or stock appreciation rights then outstanding must be exercised, in whole or in part, within a specified number of days of the date of such notice, at the end of which period such options or stock appreciation rights shall terminate, or provide that one or more options or stock appreciation rights then outstanding, in whole or in part, shall be terminated in exchange for a cash payment equal to the excess of the fair market value for the shares subject to such options or stock appreciation rights over the exercise price thereof.

The Compensation Committee may provide that all options and stock appreciation rights that are not exercisable immediately

prior to the effective time of an Acquisition shall become fully exercisable as of the effective time of the Acquisition, all other awards with time-based vesting, conditions or restrictions shall become fully vested and nonforfeitable as of the effective time of an Acquisition and all awards with conditions and restrictions relating to the attainment of performance goals will be deemed achieved at 100% of target levels, unless otherwise set forth in an award agreement, and become fully vested and nonforfeitable as of the effective time of an Acquisition. In such cases, such awards shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

In the event of an involuntary termination of services of a participant for any reason other than death, disability or Cause (as defined in the Plan) within six months following the consummation of an Acquisition, any awards of the participant assumed or substituted in the Acquisition which are subject to vesting conditions, shall accelerate in full, and any awards accelerated in such manner with conditions and restrictions relating to the attainment of performance goals will be deemed achieved at 100% of target levels. All such accelerated options or stock appreciation rights of the participant shall be exercisable for a period of one year following termination, but in no event after the expiration

date of such award.

In the event of an Acquisition, the vesting of any and all awards held by any participant who is a Non-Employee Director shall accelerate and become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and shall terminate if not exercised prior to the consummation of the Acquisition.

Adjustments for Stock Dividends, Stock Splits, Etc.

The Plan requires the Compensation Committee to make appropriate adjustments to the number of shares of common stock that are subject to the Plan, to certain limits in the Plan, and to any outstanding awards to reflect stock dividends, stock splits, extraordinary cash dividends and similar events.

Clawback

Awards granted under the Plan are subject to clawback pursuant to our executive compensation recovery policy.

Table of Contents

Dispute Resolution

The Plan provides that all disputes or claims arising under the Plan shall be resolved by confidential binding arbitration.

Tax Withholding

Participants in the Plan are responsible for the payment of any federal, state or local taxes that we are required by law to withhold upon the exercise of options or stock appreciation rights or vesting of other awards. Subject to approval by the Compensation Committee, the tax withholding obligations may be satisfied by us withholding shares of common stock to be issued pursuant to the exercise or vesting of the award.

Amendments and Termination

Our Board of Directors may at any time amend or discontinue the Plan and the Compensation Committee may at any time amend or cancel any outstanding award for the purpose of satisfying changes in the law or for any other lawful purpose. However, no such action may adversely affect any rights under any outstanding award without the holder's consent. Stock options and stock appreciation rights may not be amended to reduce the exercise price, or otherwise repriced in any manner, without shareholder approval. In addition, to the extent required under the rules of NASDAQ, any amendments that materially change the terms of the Plan will be subject to approval by our shareholders. Amendments shall also be subject to approval by our shareholders if and to the extent determined by the Compensation Committee to be required by the Internal Revenue Code of 1986 to preserve the qualified status of incentive options or to ensure that compensation earned under the Plan qualifies as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986.

Effective Date of Plan

Our Board of Directors adopted the Plan on March 14, 2017, and the Plan became effective when it was approved by our shareholders on June 22, 2017. The Plan was amended by the First Amendment to the Plan, adopted by the Board of Directors on March 7, 2018 to add our Chief People Officer to the list of officers to whom certain authority may be delegated under the Plan. The Plan Amendment to change the fungible ratio and decrease the number of shares available for issuance under the Plan was adopted by our Board of Directors on March 11, 2019 and will become effective on the date it is approved by our shareholders. No other awards may be granted under the Plan after June 22, 2027 or, in the case of any incentive stock options, 10 years from the date of adoption by our Board.

New Plan Benefits

All awards to executive officers in future periods are made at the discretion of the Compensation Committee and our Board. Therefore, the benefits and amounts that will be received or allocated under the Plan to such persons are not determinable at this time.

Tax Aspects Under the Internal Revenue Code of 1986

The following is a summary of the principal federal income tax consequences of certain transactions under the Plan. It does not describe all federal tax consequences under the Plan, nor does it describe state or local tax consequences.

Incentive Options

No taxable income is generally realized by the optionee upon the grant or exercise of an incentive option. If shares of common stock issued to an optionee pursuant to the exercise of an incentive option are sold or transferred after two years from the date of grant and after one year from the date of exercise, then (i) upon sale of such shares, any amount realized in excess of the option price (the amount paid for the shares) will be taxed to the optionee as a long-term capital gain, and any loss sustained will be a long-term capital loss, and (ii) we will not be entitled to any deduction for federal income tax purposes. The exercise of an incentive option will give rise to an item of tax preference that may result in alternative minimum tax liability for the optionee.

If shares of common stock acquired upon the exercise of an incentive option are disposed of prior to the expiration of the two-year and one-year holding periods described above (a disqualifying disposition), generally (i) the optionee will realize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of the shares of common stock at exercise (or, if less, the amount realized on a sale of such shares of common stock) over the option price thereof, and (ii) we will be entitled to deduct such amount. Special rules will apply where all or a portion of the exercise price of the incentive option is paid by tendering shares of common stock.

If an incentive option is exercised at a time when it no longer qualifies for the tax treatment described above, the option is treated as a non-qualified option. Generally, an incentive option will not be eligible for the tax treatment described above if it is exercised more than three months following termination of employment (or one year in the case of termination of employment by reason of disability). In the case of termination of employment by reason of death, the three-month rule does not apply.

Table of Contents

Non-Qualified Options

No income is realized by the optionee at the time the option is granted. Generally (i) at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares of common stock on the date of exercise, and we receive a tax deduction for the same amount, and (ii) at disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on how long the shares of common stock have been held. Special rules will apply where all or a portion of the exercise price of the non-qualified option is paid by tendering shares of common stock. Upon exercise, the optionee will also be subject to Social Security and Medicare taxes on the excess of the fair market value over the exercise price of the option.

Other Awards

We generally will be entitled to a tax deduction in connection with an award under the Plan in an amount equal to the ordinary income realized by the participant at the time the participant recognizes such income. Participants typically are subject to income tax, Social Security and Medicare taxes and recognize such taxes at the time that an award is exercised, vests or becomes non-forfeitable, unless the award provides for a further deferral.

Parachute Payments

The vesting of any portion of an option or other award that is accelerated due to the occurrence of a change in control (such as a sale event) may cause a portion of the payments with respect to such accelerated awards to be treated as parachute payments as defined in the Internal Revenue Code of 1986. Any such parachute payments may not be deductible by us, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment (in addition to other taxes ordinarily payable).

Limitation on Deductions

Section 162(m) of the Internal Revenue Code of 1986 generally places a \$1 million limit on the amount of compensation a company can deduct in any one year for certain executive officers. Therefore, our deduction for certain awards under the Plan may be limited by Section 162(m).

Vote Required

The affirmative vote of at least a majority of shares present in person or represented by proxy at the meeting and entitled to vote on this proposal is required for the approval of the Plan Amendment.

Proposal 3

Ratification of Appointment of

Independent Registered Public

Accounting Firm

The Audit Committee has retained the firm of Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2019. Ernst & Young has served as our independent registered public accounting firm since 1989. The Audit Committee reviewed and discussed the prior performance of Ernst & Young and its selection of Ernst & Young for the fiscal year ending December 31, 2019. As a matter of good corporate governance, the Audit Committee has determined to submit its selection to our shareholders for ratification. Even if the selection of Ernst & Young is ratified, the Audit Committee, in

its discretion, may select a different independent registered public accounting firm at any time during the year, if it determines that such a change would be in the best interests of Citrix and our shareholders.

We expect that a representative of Ernst & Young will attend our 2019 Annual Meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from shareholders.

Proposal 4

Advisory Vote to Approve the

Compensation of Our Named

Executive Officers

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, known as the Dodd-Frank Act, this proposal, commonly known as a say-on-pay proposal, gives our shareholders the opportunity to vote to approve or not approve, on an advisory basis, the compensation of our Named Executive Officers. This vote is not intended to address any specific item of compensation or the compensation of any particular officer, but rather the overall compensation of our Named Executive Officers and our compensation philosophy, policies and practices.

As discussed under *Compensation Discussion and Analysis* beginning on page 33, we believe that our executive compensation programs emphasize sustainable growth through a pay-for-performance orientation and a commitment to both operational and organizational effectiveness. We believe that our compensation programs for our Named Executive Officers are instrumental in helping us achieve our strategic and financial performance and, during this transition period for our company, to retain our

Named Executive Officers in order to drive execution of our strategic and operational initiatives. Accordingly, we are asking our shareholders to vote **FOR** the following resolution at our 2019 Annual Meeting:

RESOLVED, that Citrix's shareholders approve, on an advisory basis, the compensation of Citrix's Named Executive Officers, as disclosed pursuant to the SEC's compensation disclosure rules (which disclosure includes the Compensation Discussion and Analysis, the compensation tables and the narrative disclosures that accompany the compensation tables).

The vote is advisory, and therefore not binding on Citrix, the Compensation Committee or our Board of Directors. However, our Board of Directors and our Compensation Committee value the opinions of our shareholders and will take into account the outcome of the vote when considering future compensation decisions for our Named Executive Officers.

Other Matters

The Board of Directors knows of no other matters to be brought before the 2019 Annual Meeting. If any other matters are properly brought before the 2019 Annual Meeting, the

persons appointed in the accompanying proxy intend to vote the shares represented thereby in accordance with their best judgment on such matters, under applicable laws.

Shareholder Proposals

Proposals of shareholders intended for inclusion in the Proxy Statement to be furnished to all shareholders entitled to vote at our 2020 Annual Meeting of Shareholders, pursuant to Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended, must be received at our principal executive offices not later than December 27, 2019. All such proposals must comply with Rule 14a-8 under the Securities Exchange Act of 1934.

In order to be properly brought before the 2020 Annual Meeting, a shareholder's notice of (a) nomination of a director candidate to be included in our Proxy Statement and proxy pursuant to Section 1.11 of our Bylaws (a proxy access nomination) or (b) any proposal other than a matter brought pursuant to Rule 14a-8 or a proxy access nomination, must be received by our Secretary at our principal executive offices between November 27, 2019 and December 27, 2019. However, in the event that an annual meeting is called for a date that is more than 30 days before or more than 60 days after the first anniversary of the date of the Proxy Statement furnished to shareholders in connection with the preceding

year's annual meeting, then, in order to be timely, a shareholder's notice must be received by our Secretary not earlier than the close of business on the 90th day prior to such annual meeting and not later than the close of business on the later of (1) the 60th day prior to such annual meeting or (2) the close of business on the 10th day following the day on which we first publicly announce the date of such annual meeting. A shareholder's notice to our Secretary must set forth the information required by our Bylaws with respect to such proxy access nomination or proposal. If a shareholder makes a timely notification, discretionary voting authority with respect to the shareholder's proposal may be conferred upon the persons selected by management to vote the proxies under circumstances consistent with the SEC's proxy rules. In order to curtail controversy as to the date on which a notice was received by Citrix, it is suggested that proponents submit their proposals by Certified Mail, Return Receipt Requested, to our principal executive offices at Citrix Systems, Inc., 851 West Cypress Creek Road, Fort Lauderdale, Florida 33309, Attention:

Secretary.

Expenses and Solicitation

The cost of solicitation of proxies will be borne by Citrix and, in addition to soliciting shareholders by mail and via the Internet through our regular employees, we may request banks, brokers and other custodians, nominees and fiduciaries to solicit their customers who have stock of Citrix registered in the names of a nominee and, if so, will reimburse such banks, brokers and other custodians,

nominees and fiduciaries for their reasonable out-of-pocket costs. Solicitation by our officers and employees may also be made of some shareholders in person or by mail, telephone, e-mail or telegraph following the original solicitation. We have retained MacKenzie Partners, a proxy solicitation firm, to assist in the solicitation of proxies for a fee not to exceed \$20,000, plus reimbursement of expenses.
