Item 2.02 Results of Operations and Financial Condition.

On August 1, 2005, the Company issued a press release announcing its financial results for the quarter ended June 30, 2005. A copy of the press release is filed as Exhibit 99.1 to this report and is incorporated herein by reference.

The Company provides in the press release certain non-GAAP financial measures, including: (1) earnings before interest, taxes, depreciation and amortization (EBITDA); (2) EBITDA before the labor dispute settlement charge (as defined in the press release); and (3) operating income before the labor dispute settlement charge. GAAP refers to accounting principles generally accepted in the United States. The press release contains a reconciliation table of items 1 and 2 above to the most directly comparable GAAP measures. The Company believes the non-GAAP measure in item 1 above is useful to investors because it is a basis upon which the Company assesses its financial performance, it provides useful information regarding the Company's ability to service its debt and it is a commonly used financial analysis tool for measuring and comparing companies in several areas of liquidity, operating performance and leverage. The Company believes the non-GAAP measures in items 2 and 3 are useful to investors when comparing prior periods because it believes the excluded items are nonrecurring. The Company's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance. A reconciliation table of item 3 above is set forth below.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as reported by the Company may not be comparable to similarly titled items reported by other companies or the definition used in any of our debt agreements.
