NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America (“U.S.”) generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the “Company”) filed in its Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management’s knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company’s financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation.

Certain prior year amounts have been reclassified to conform to the current period presentation. See Note 3 for further details regarding the discontinued operations reclassification.

NOTE 2 – DESCRIPTION OF BUSINESS

The Company is comprised of the operations, assets and liabilities of the three Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe (“Hudson regional businesses” or “Hudson”). The Company provides specialized professional-level recruitment and related talent solutions. The Company’s core service offerings include Permanent Recruitment, Contract Consulting, Recruitment Process Outsourcing (“RPO”), Talent Management Solutions and Legal eDiscovery. See Note 3 for description regarding the presentation of the Legal eDiscovery business in discontinued operations.

The Company operates in 19 countries with three reportable geographic business segments: Hudson Americas, Hudson Asia Pacific, and Hudson Europe. See Note 16 for further details regarding the reportable segments. Corporate expenses are reported separately from the reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, tax, marketing, information technology and treasury. A portion of these expenses are attributed to the reportable segments for providing the above services to them and have been allocated to the segments as management service fees and are included in the segments’ non-operating other income (expense).

The Company’s core service offerings include those services described below.

Permanent Recruitment: Offered on both a retained and contingent basis, Hudson’s Permanent Recruitment services leverage its consultants, psychologists and other professionals in the development and delivery of its proprietary methods to identify, select and engage the best-fit talent for critical client roles.

Contract Consulting: In Contract Consulting, Hudson provides a range of project management, interim management and professional contract staffing services. These services draw upon a combination of specialized recruiting and project management competencies to deliver a wide range of solutions. Hudson-employed professionals – either individually or as a team – are placed with client organizations for a defined period of time based on a client’s specific business need.

RPO: Hudson RPO delivers both permanent recruitment and temporary contracting outsourced recruitment solutions tailored to the individual needs of primarily mid-to-large-cap multinational companies. Hudson RPO's delivery teams utilize state-of-the-art recruitment process methodologies and project management expertise in their flexible, turnkey solutions to meet clients' ongoing business needs. Hudson RPO services include complete recruitment outsourcing, project-based outsourcing, contingent workforce solutions and recruitment consulting.

Talent Management Solutions: Featuring embedded proprietary talent assessment and selection methodologies, Hudson's Talent Management capability encompasses services such as talent assessment (utilizing a variety of competency, attitude and experiential testing), interview training, executive coaching, employee development and outplacement.

Legal eDiscovery: Hudson's Legal eDiscovery services comprise eDiscovery solutions, managed document review (encompassing logistical deployment, project management, process design and productivity management) and contract attorney staffing and are included within temporary contracting services. The most comprehensive of these is Hudson's full-service eDiscovery solution, providing an integrated system of discovery management and review technology deployment for both corporate and law firm clients.

NOTE 3 – DISCONTINUED OPERATIONS

On July 29, 2014, the Company's management and Board of Directors approved a plan for the divestiture of the Company's Legal eDiscovery business within the Hudson Americas and Hudson Europe segments. Subsequently, the Company has entered into an asset purchase agreement on November 7, 2014 to divest the Legal eDiscovery business. Based on the terms of the asset purchase agreement, the Company will not have any significant continuing involvement in the operations of the Legal eDiscovery business after the disposal transaction. In addition, other than providing short term transition services, the Company expects that continuing cash flows will be eliminated within one year. See Note 17 for further details regarding the subsequent disposal of the eDiscovery business.

In addition, the Company ceased its operations in Sweden within the Hudson Europe segment during the third quarter of 2014.

The Company concluded that the divestiture of the Legal eDiscovery business and its cessation of operations in Sweden meet the criteria for discontinued operations set forth in Accounting Standards Codification ("ASC") No. 205, Presentation of Financial Statements. The Company reclassified its discontinued operations for all periods presented and has been excluded from continuing operations and from segment results for all periods presented.

The carrying amounts of the major classes of assets and liabilities from the Legal eDiscovery business and Sweden included as part of the discontinued operations were as follows:

Income tax expense is provided at the effective tax rate by taxing jurisdiction and differs from the U.S. statutory tax rate of 35% due to the inability of the Company to recognize tax benefits on losses in the U.S. and certain foreign jurisdictions, variations from the U.S. tax rate in foreign jurisdictions, non-deductible expenses and other miscellaneous taxes.

NOTE 4 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15), to provide guidance on management's responsibility to evaluate whether there is substantial doubt about a company's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 also provides guidance for related footnote disclosures. ASU 2014-15 is effective for the Company beginning on January 1, 2016 with early adoption permitted. The Company does not believe the impact of its pending adoption of ASU 2014-15 on the Company's consolidated financial statements will be material.

(unaudited)

In June 2014, the FASB issued ASU No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period ("ASU 2014-12"). ASU 2014-12 requires that a performance target that affects vesting and could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in ASC 718,

Compensation - Stock Compensation, as it relates to such awards. ASU 2014-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 with early adoption permitted using either of two methods: (i) prospective to all awards granted or modified after the effective date or (ii) retrospective to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter, with the cumulative effect of applying ASU 2014-12 as an adjustment to the opening retained earnings balance as of the beginning of the earliest annual period presented in the financial statements. Accordingly, the standard is effective for the Company beginning on January 1, 2016. The Company is currently evaluating the impact of adopting ASU 2014-12 on the Company's financial condition, results of operations, and disclosures.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09"). The standard is a comprehensive new revenue recognition model that requires revenue to be recognized in a manner to depict the transfer of goods or services to a customer at an amount that reflects the consideration expected to be received in exchange for those goods or services. ASU 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is not permitted. Accordingly, the standard is effective for the Company beginning on January 1, 2017. The Company is currently evaluating the impact that the standard will have on the Company's financial condition, results of operations, and disclosures.

In April 2014, the FASB issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). The standard raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. ASU 2014-08 is effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2014. Accordingly, the standard is effective for the Company beginning on January 1, 2015. Early adoption is permitted, but only for disposals that have not been reported in financial statements previously issued. The Company is currently reviewing the requirements of ASU 2014-08, which will only impact the Company's financial statements upon the occurrence of a future disposal transaction within its scope.

In July 2013, the FASB issued ASU No. 2013-11, "Presentation of Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, an amendment to FASB Accounting Standards Codification Topic 740, Income Taxes" ("ASU 2013-11"). ASU 2013-11 clarifies that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. The Company adopted the ASU 2013-11 prospectively on January 1, 2014. As of September 30, 2014, the Company reclassified \$786 of its unrecognized tax benefit as a reduction to a deferred tax asset for a net operating loss carryforward in the Condensed Consolidated Balance Sheet.

There have been no other new accounting pronouncements not yet effective that have significance, or potential significance, to the Company's Condensed Consolidated Financial Statements.

Other than reimbursed out-of-pocket expenses, there are no other direct costs associated with the Permanent Recruitment and Other category. Gross margin represents revenue less direct costs. The region where services are provided, the mix of contracting and permanent recruitment, and the functional nature of the staffing services provided can affect gross margin. The salaries, commissions, payroll taxes and employee benefits related to recruitment professionals are included under the caption "Selling, general and administrative expenses" in the Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss).

NOTE 6 – STOCK-BASED COMPENSATION

Incentive Compensation Plan

The Company maintains the Hudson Global, Inc. 2009 Incentive Stock and Awards Plan, as amended and restated on April 26, 2012 (the “ISAP”), pursuant to which it can issue equity-based compensation incentives to eligible participants. The ISAP permits the granting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. The Compensation Committee of the Company’s Board of Directors (the “Compensation Committee”) will establish such conditions as it deems appropriate on the granting or vesting of stock options, restricted stock, restricted stock units and other types of equity-based awards.

The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee; consultants or other independent contractors who provide services to the Company or its affiliates, and non-employee directors of the Company. As of September 30, 2014, there were 2,610,414 shares of the Company’s common stock available for future issuance under the ISAP.

A summary of the quantity and vesting conditions for stock-based awards granted to the Company’s employees for the nine months ended September 30, 2014 was as follows:

Vesting conditions	Number of Shares of Restricted Stock Granted
Vest 100% on the third anniversary of the grant date with service conditions only	5,000
Immediately vested	1,400
Total shares of stock award granted	6,400

The Company also maintains the Director Deferred Share Plan (the “Director Plan”) pursuant to which it can issue restricted stock units to its non-employee directors. A restricted stock unit is equivalent to one share of the Company’s common stock and is payable only in common stock issued under the ISAP upon a director ceasing service as a member of the Board of Directors of the Company. The restricted stock units vest immediately upon grant and are credited to each of the non-employee director’s retirement accounts under the Director Plan. During the nine months ended September 30, 2014, the Company granted 50,259 restricted stock units to its non-employee directors pursuant to the Director Plan.

For the three and nine months ended September 30, 2014 and 2013, the Company’s stock-based compensation expense related to stock options, restricted stock and restricted stock units was as follows:

The Company maintains the Hudson Global, Inc. 401(k) Savings Plan (the "401(k) plan"). The 401(k) plan allows eligible employees to contribute up to 15% of their earnings to the 401(k) plan. The Company has the discretion to match employees' contributions up to 3% of the employees' earnings through a contribution of the Company's common stock to the 401(k) plan. Vesting of the Company's contribution occurs over a five-year period. For the three and nine months ended September 30, 2014 and 2013, the Company's current year expenses and contributions to satisfy the prior years' employer-matching liability for the 401(k) plan were as follows:

NOTE 7 – INCOME TAXES

Under ASC 270, “Interim Reporting”, and ASC 740-270, “Income Taxes – Intra Period Tax Allocation”, the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the nine months ended September 30, 2014 was \$37 on a pre-tax loss of \$12,210, compared to a benefit from income taxes of \$775 on pre-tax loss of \$20,659 for the same period in 2013. The Company’s effective income tax rate was negative 0.3% and positive 3.8% for the nine months ended September 30, 2014 and 2013, respectively. For the nine months ended September 30, 2014 and 2013, the effective tax rate differed from the U.S. Federal statutory rate of 35% due to the inability of the Company to recognize tax benefits on losses in the U.S. and certain foreign jurisdictions, variations from the U.S. tax rate in foreign jurisdictions, non-deductible expenses, other miscellaneous taxes, and changes in uncertain tax positions.

Uncertain Tax Positions

As of September 30, 2014 and December 31, 2013, the Company had \$2,468 and \$3,872, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company’s annual effective income tax rate. Accrued interest and penalties were \$559 and \$786 as of September 30, 2014 and December 31, 2013, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company’s Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss) and totaled to a benefit of \$165 and a provision of \$73 for the nine months ended September 30, 2014 and 2013, respectively.

In many cases, the Company’s unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with NOLs remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of September 30, 2014, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2011
Majority of U.S. state and local jurisdictions	2009
United Kingdom	2012
Australia	2010
Majority of other non-U.S. jurisdictions	2008

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of September 30, 2014, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$100 to \$300 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 8 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share (“EPS”) is computed by dividing the Company’s net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share is computed by dividing the Company’s net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options “in-the-money” and unvested restricted stock. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is determined by applying the “treasury stock” method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the nine months ended September 30, 2014 and 2013 were as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Earnings (loss) per share ("EPS"):				
EPS - basic and diluted				
Income (loss) from continuing operations	\$ (0.14) \$ (0.17) \$ (0.38) \$ (0.61
Income (loss) from discontinued operations	(0.07) 0.02	(0.11) 0.02
Net income (loss)	\$ (0.21) \$ (0.15) \$ (0.49) \$ (0.59
EPS numerator - basic and diluted:				
Income (loss) from continuing operations	\$ (4,571) \$ (5,585) \$ (12,247) \$ (19,884
Income (loss) from discontinued operations	(2,448) 538	(3,690) 785
Net income (loss)	\$ (7,019) \$ (5,047) \$ (15,937) \$ (19,099
EPS denominator (in thousands):				
Weighted average common stock outstanding - basic	32,910	32,600	32,769	32,468
Common stock equivalents: stock options and other stock-based awards (a)	—	—	—	—
Weighted average number of common stock outstanding - diluted	32,910	32,600	32,769	32,468

For the periods in which net losses are presented, the diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because (a) the effects of any potential common stock equivalents (see Note 6 for further details on outstanding stock options, unvested restricted stock units and unvested restricted stock) were anti-dilutive and therefore not included in the calculation of the denominator of dilutive earnings per share.

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the nine months ended September 30, 2014 and 2013 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

NOTE 12 – BUSINESS REORGANIZATION EXPENSES

In April 2014, the Company engaged AlixPartners, LLP, a premier consulting firm in the areas of organization design and operational improvements, to assist management in a comprehensive assessment of the Company's organization and operations. The engagement of AlixPartners was focused on identifying opportunities to better align the Company's organizational model to support future growth, and to identify actions that can improve operating efficiencies and effectiveness. In conjunction with AlixPartners review, the Company's Board of Directors approved a program to restructure and realign the Company's cost base with current and anticipated future market conditions. The program approved by the Board involves restructuring actions for optimizations of existing real estate and global

workforce, including integration of support services and systems at the regional and corporate level ("2014 Plan"). These initiatives are expected to result in a restructuring charge of up to \$7,000, which is expected to be taken from fiscal 2014 through 2015, depending on the timing of other strategic actions, such as the sale of the Company's Legal eDiscovery business and formulation of action plans.

In addition to the 2014 Plan, the Company also incurred certain business exit costs in connection with the discontinued operations in Legal eDiscovery and Sweden ("Discontinued Operations Exit Plan"). Business exit costs associated with the Discontinued Operations Exit Plan primarily consisted of employee termination benefits and costs for elimination of contracts for certain discontinued services and locations.

The Company's Board previously approved other reorganization plans in 2012, 2009, 2008 and 2006 ("Previous Plans") to streamline the Company's support operations. The Previous Plans included actions to reduce support functions to match them to the scale of the business, to exit underutilized properties and to eliminate contracts for certain discontinued services. These actions resulted in costs for lease termination payments, employee termination benefits and contract cancellations.

For the nine months ended September 30, 2014, restructuring charges associated with these initiatives primarily included employee separation costs for 16 positions in Asia Pacific under the 2012 Plan, employee separation costs for 42 positions in Asia Pacific, Europe and U.S. Corporate under the 2014 Plan and Discontinued Operations Exit Plan, and lease termination payments for rationalized offices in the U.S. and Australia under the 2012 Plan. Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$273 and \$745 as of September 30, 2014 and December 31, 2013, respectively.

Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. NOTE 14 – CREDIT AGREEMENTS**Credit Agreement with RBS Citizens Business Capital**

The Company and certain of its North American and U.K. subsidiaries ("Loan Parties") had a senior secured revolving credit facility (as amended, the "Revolver Agreement") with RBS Citizens Business Capital, a division of RBS Asset Finance, Inc. ("RBS"). The maturity date of the Revolver Agreement was August 5, 2014. On August 1, 2014, the Company entered into two credit facilities with Lloyds Bank PLC and Lloyds Bank Commercial Finance Ltd and Siena Lending Group, LLC to replace the Revolver Agreement.

Receivables Finance Agreement with Lloyds Bank Commercial Finance Limited and Lloyds Bank PLC

On August 1, 2014, the Company's U.K. subsidiary ("U.K. Borrower") entered into a receivables finance agreement for an asset-based lending funding facility (the "Lloyds Agreement") with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited (together, "Lloyds"). The Lloyds Agreement provides the U.K. Borrower with the ability to borrow up to \$24,320 (£15,000). Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves from the Company's U.K. operations. The initial term is two years with renewal periods every three months thereafter. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower.

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed temporary contracting and permanent recruitment activities in the U.K. operation ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$19,456 (£12,000) based on 83% of eligible billed temporary contracting and permanent recruitment receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress (as defined under the receivables finance agreement) activities in the U.K. operation ("Lloyds Tranche B"). The borrowing limit of Lloyds Tranche B is \$4,864 (£3,000) based on 75% of eligible work-in-progress from temporary contracting and 25% of eligible work-in-progress from the permanent recruitment. For both tranches,

borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

Loan and Security Agreement with Siena Lending Group, LLC

On August 1, 2014, the Company and its U.S. subsidiary ("U.S. Borrower") entered into a loan and security agreement for a credit facility (the "Siena Agreement") with Siena Lending Group LLC. ("Siena"). The Siena Agreement provides the U.S. Borrower with the ability to borrow up to \$10,000 (subject to a borrowing base and an availability block), including up to \$1,000 for the issuance of letters of credit. In the event of a sale of the Company's Legal eDiscovery business, the aforementioned borrowing limit will be reduced to \$5,000 (subject to a borrowing base and an availability block). The availability block currently is \$2,000 but will be decreased to \$1,000 in the event of a sale of the Company's Legal eDiscovery business. The availability block will be eliminated on the later of (a) the date on which the U.S. Borrower notifies Siena that the U.S. Borrower's Fixed Charge Coverage Ratio is equal to or greater than 1.1x on a trailing six month basis and (b) January 31, 2015. Extensions of credit are based on borrowing base calculated on a percentage of the eligible accounts receivable less required reserves related to the U.S. operations. The term of the Siena Agreement is three years expiring on August 1, 2017. Borrowings may be made with an interest rate based on a base rate (with a floor of 3.25%) plus 1.75%. The interest rate for letters of credit is 4.5% on face amount of each letter of credit issued and outstanding. Borrowings under the Siena Agreement are secured by substantially all of the assets of the U.S. Borrower.

The Siena Agreement contains various restrictions and covenants including (1) a requirement that the U.S. Borrower maintain a Fixed Charge Coverage Ratio of equal to or greater than 1.1x after the later of (a) the date on which the U.S. Borrower notifies Siena that the U.S. Borrower's Fixed Charge Coverage Ratio is equal to or greater than 1.1x on a trailing six month basis and (b) January 31, 2015; (2) a limit on the payment of dividends by the U.S. Borrower; (3) restrictions on the ability of the U.S. Borrower to incur additional debt, acquire, merge or otherwise change the ownership of the U.S. Borrower; (4) restrictions on investments and acquisitions; and (5) restrictions on dispositions of assets.

- Executive Overview
- Results of Operations
- Liquidity and Capital Resources
- Contingencies
- Recent Accounting Pronouncements
- Forward-Looking Statements

Current Market Conditions

Economic conditions in most of the world's major markets remain mixed. However, most of the economies in Continental Europe have experienced slower growth or GDP declines in recent months. Civil unrest in Hong Kong has had an impact on business conditions there. In addition, Scotland's sovereignty issue adversely affected market conditions in the United Kingdom in the third quarter of fiscal 2014. If the current market conditions persist, the Company may experience diminished operating performance. The Company closely monitors the economic environment and business climate in its markets and responds accordingly. At this time, the Company is unable to accurately predict the outcome of these events or changes in general economic conditions and their effect on the demand for the Company's services.

Financial Performance

During the third quarter of fiscal 2014, the Company began to implement strategic actions identified in connection with its engagement of AlixPartners, as well as other significant strategic activities planned by management. The Company's divestiture of its Legal eDiscovery business and exit of operations in Sweden accounted for \$2.4 million and \$3.7 million of net losses for the three and nine months ended September 30, 2014, respectively, which have been reclassified to discontinued operations for all periods presented and has been excluded from continuing operations and from segment results for all periods presented. Please see Note 3 included in Item 1 of this Form 10-Q for additional information.

The Company continued to show progress in its financial performance from continuing operations on its path towards delivering sustained profitability. On both a third quarter and year-to-date basis, the Company experienced improvements in revenue, gross margin and EBITDA. For the quarter, these improvements were led by growth in Asia Pacific and Americas regions benefiting from double-digit percentage revenue and gross margin growth in the RPO practice. The Company experienced mixed results in Europe as the U.K. and parts of Continental Europe faced challenges, which offset strong performances in Belgium and Spain.

The following is a summary of the highlights for the three and nine months ended September 30, 2014 and 2013. This summary should be considered in the context of the additional disclosures in this MD&A.

• Revenue was \$149.3 million for the three months ended September 30, 2014, compared to \$139.3 million for the same period in 2013, an increase of \$10.0 million, or 7.2%.

The improvement in overall revenue was led by the RPO practice, which contributed to approximately \$10.9 million of overall revenue growth (up 77.2% compared to the same period in 2013).

Revenue was \$444.5 million for the nine months ended September 30, 2014, compared to \$422.6 million for the same period in 2013, an increase of \$21.9 million, or 5.2%.

Constant Currency

The Company operates on a global basis, with the majority of its gross margin generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect the Company's results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term "constant currency" to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company's management reviews and analyzes business results in constant currency and believes these results better represent the Company's underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross margin, SG&A and Non-Op, business reorganization expenses, operating income (loss), net income (loss) and EBITDA (loss) include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company's operating results for the three and nine months ended September 30, 2014 and 2013.

SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statements of Operations and Other Comprehensive Income (a) (Loss): Selling, general and administrative expenses; and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which we operate. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable U.S. GAAP financial measure is provided in the table below:

Temporary contracting gross margin and gross margin as a percentage of revenue are shown to provide additional information regarding the Company's ability to manage its cost structure and to provide further comparability relative to the Company's peers. Temporary contracting gross margin is derived by deducting the direct costs of temporary contracting from temporary contracting revenue. The Company's calculation of gross margin may differ from that of other companies. See Note 5 to the Condensed Consolidated Financial Statements for direct costs and gross margin information.

The increases in permanent recruitment were attributable to the RPO and sales & marketing practices. The increases in talent management revenue were due to increases in assessment and development services resulting from a higher rate of new client wins and client retention.

In Asia, revenue increased \$0.8 million, or 11.3%, for the three months ended September 30, 2014 and \$1.6 million, or 7.9%, for the nine months ended September 30, 2014, as compared to the same periods in 2013. Corporate Expenses, Net of Corporate Management Fee Allocations

Corporate expenses were \$1.2 million for the three months ended September 30, 2014, as compared to \$2.9 million for the same period in 2013, a decrease of \$1.6 million, or 57.1%. The decrease was due to a change in corporate allocations in the prior year period that did not reoccur. For the three months ended September 30, 2014, corporate allocation charges to the regions were \$2.5 million, as compared to \$1.3 million for the same period in 2013. However, for the nine months ended September 30, 2014, corporate allocation charges to the regions were \$6.8 million, consistent with \$7.0 million of corporate allocation charges for the same period in 2013. For the nine months ended September 30, 2014, corporate expenses were \$5.7 million, as compared to \$6.1 million for the same period in 2013, a decrease of \$0.4 million, or 6.1%. The decrease for the nine months ended September 30, 2014 was primarily due to a reduction in staff compensation as a result of recent reorganization initiatives. The cost savings were partially offset by approximately \$1.4 million of costs incurred in the current year period in connection with the proxy contest

and organizational strategy review.

Depreciation and Amortization Expense

Depreciation and amortization expense remained consistent at \$1.5 million for the three months ended September 30, 2014, as compared to \$1.4 million for the same period in 2013. The effective tax rate for the nine months ended September 30, 2014 was negative 0.3%, as compared to 3.8% for the same period in 2013. For the nine months ended September 30, 2014 and 2013, the difference in the effective tax rate from the U.S. Federal statutory rate of 35% was primarily due to the inability of the Company to recognize tax benefits on losses in the U.S. and certain foreign jurisdictions, variations from the U.S. tax rate in foreign jurisdictions, non-deductible expenses and other miscellaneous taxes.

Income (Loss) from Discontinued Operations

Net loss from discontinued operations was \$2.4 million for the three months ended September 30, 2014, as compared to income from discontinued operations of \$0.5 million for the same period in 2013. For the nine months ended September 30, 2014, net loss from discontinued operations was \$3.7 million, as compared to income from discontinued operations of \$0.8 million for the same period in 2013. The increase in net cash used in investing activities was principally attributable to \$2.1 million of landlord funded capital expenditures for leasehold improvements in connection with the Company's office relocations in the Asia Pacific region and USA. Capital expenditures from discontinued operations were \$0.9 million and \$0.1 million, respectively, for the nine months ended September 30, 2014 and 2013.

The initial term is two years with renewal periods every three months thereafter. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower.

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed temporary contracting and permanent recruitment activities in the U.K. operation ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$19.5 million (£12.0 million) based on 83% of eligible billed temporary contracting receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress activities in the U.K. operation from ("Lloyds Tranche B"). The borrowing limit of Lloyds Tranche B is \$4.9 million (£3.0 million) based on 75% of eligible work-in-progress from temporary contracting and 25% of eligible work-in-progress from the permanent recruitment. For both tranches, borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

The Lloyds Agreement contains various restrictions and covenants including (1) that true credit note dilution may not exceed 5%, measured at audit on a regular basis; (2) debt turn may not exceed 55 days over a three month rolling period; (3) dividends by the U.K. Borrower to the Company are restricted to the value of post tax profits; and (4) at the end of each month, there must be a minimum excess availability of \$3.2 million (£2.0 million).

The details of the Lloyds Agreement as of September 30, 2014 were as follows:

Loan and Security Agreement with Siena Lending Group, LLC

On August 1, 2014, the Company and its U.S. subsidiary ("U.S. Borrower") entered into a loan and security agreement for a credit facility (the "Siena Agreement") with Siena Lending Group LLC. ("Siena"). The Siena Agreement provides the U.S. Borrower with the ability to borrow up to \$10.0 million (subject to a borrowing base and an availability block), including up to \$1.0 million for the issuance of letters of credit. In the event of a sale of the Company's Legal eDiscovery business, the aforementioned borrowing limit will be reduced to \$5.0 million (subject to a borrowing base and an availability block). The availability block currently is \$2.0 million but will be decreased to \$1.0 million in the event of a sale of the Company's Legal eDiscovery business. The availability block will be eliminated on the later of (a) the date on which the U.S. Borrower notifies Siena that the U.S. Borrower's Fixed Charge Coverage Ratio is equal to or greater than 1.1x on a trailing six month basis and (b) January 31, 2015. Extensions of credit are based on

borrowing base calculated on a percentage of the eligible accounts receivable less required reserves related to the U.S. operations. The term of the Siena Agreement is three years expiring on August 1, 2017. Borrowings may be made with an interest rate based on a base rate (with a floor of 3.25%) plus 1.75%. The interest rate for letters of credit is 4.5% on face amount of each letter of credit issued and outstanding. Borrowings under the Siena Agreement are secured by substantially all of the assets of the U.S. Borrower.

Credit Agreement with Westpac Banking Corporation

Certain Australian and New Zealand subsidiaries of the Company have a facility agreement with Westpac Banking Corporation and Westpac New Zealand Limited (collectively, "Westpac"). On September 30, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a waiver letter to waive compliance with a financial covenant contained in the facility agreement at the September 30, 2013 and December 31, 2013 testing dates, and on December 19, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a Deed of Variation to the facility agreement (as amended, the "Facility Agreement") to amend certain terms and conditions of the Facility Agreement.

The Facility Agreement provides three tranches: (1) an invoice discounting facility of up to \$13.1 million (AUD15 million) ("Tranche A") for an Australian subsidiary of the Company, the availability under which facility is based on an agreed percentage of eligible accounts receivable; (2) an overdraft facility of up to \$2.7 million (NZD\$3.5 million) ("Tranche B") for a New Zealand subsidiary of the Company; and (3) a financial guarantee facility of up to \$4.4 million (AUD5.0 million) ("Tranche C") for the Australian subsidiary.

The Facility Agreement does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. Borrowings under Tranche A may be made with an interest rate based on the Invoice Finance 30-day Bank Bill Rate (as defined in the Facility Agreement) plus a margin of 0.90%. Borrowings under Tranche B may be made with an interest rate based on the Commercial Lending Rate (as defined in the Facility Agreement) plus a margin of 0.83%. Each of Tranche A and Tranche B bears a fee, payable monthly, equal to 0.90% and 0.65%, respectively, of the size of Westpac's commitment under such tranche. Borrowings under Tranche C may be made incurring a fee equal to 1.80% of the face value of the financial guarantee requested. Amounts owing under the Facility Agreement are secured by substantially all of the assets of the Australian subsidiary, its Australian parent company and the New Zealand subsidiary (collectively, the "Obligors") and certain of their subsidiaries.

The Company was in compliance with all financial covenants under the Facility Agreement as of September 30, 2014.

Other Credit Agreements

The Company also has lending arrangements with local banks through its subsidiaries in the Netherlands, Belgium and Singapore. As of September 30, 2014, the Netherlands subsidiary could borrow up to \$1.8 million (€1.5 million) based on an agreed percentage of accounts receivable related to its operations. The Belgium subsidiary has a \$1.3 million (€1.0 million) overdraft facility. Borrowings under the Belgium and the Netherlands lending arrangements may be made using an interest rate based on the one-month EURIBOR plus a margin, and the interest rate under each of these arrangements was 2.57% as of September 30, 2014. The lending arrangement in the Netherlands expires annually each June, but can be renewed for one-year periods at that time. The lending arrangement in Belgium has no expiration date and can be terminated with a 15-day notice period. In Singapore, the Company's subsidiary can borrow up to \$0.8 million (SGD1 million) for working capital purposes. Interest on borrowings under the Singapore overdraft facility is based on the Singapore Prime Rate plus a margin of 1.75%, and it was 6.0% on September 30, 2014. The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. On October 2, 2014, the borrowing base of the Singapore overdraft facility was reduced to \$0.4 million (SGD0.5 million). There was an aggregate of \$0.4 million in outstanding borrowings under the Belgium, the Netherlands, and Singapore lending agreements as of September 30, 2014.

The average aggregate monthly outstanding borrowings under the Revolver Agreement, Lloyds Agreement, Siena Agreement, Facility Agreement and the various credit agreements in Belgium, the Netherlands and Singapore was \$4.6 million for the nine months ended September 30, 2014. The weighted average interest rate on monthly outstanding borrowings as of September 30, 2014 was 4.15%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. The Company uses letters of credit and bank guarantees primarily to support office leases.

Liquidity Outlook

As of September 30, 2014, the Company had cash and cash equivalents on hand of \$18.8 million supplemented by additional borrowing availability of \$28.0 million under the various lending arrangements in the U.S., the U.K., Australia, New Zealand, Belgium, the Netherlands and Singapore. In addition, the Company completed the sale of its eDiscovery business on November 9, 2014 for \$23.0 million in cash and used approximately \$3.1 million of the proceeds to repay debt under its credit facility with Siena. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months. The Company's near-term cash requirements during 2014 are primarily related to funding operations, restructuring actions and capital expenditures. For the next 12 months, the Company expects to make capital expenditures of approximately \$3.0 million to \$4.0 million, which excludes landlord-funded leasehold improvements, payments in connection with the existing restructuring actions of \$2.5 million to \$3.5 million, and up to \$6.0 million for the remaining 2014 Plan. The Company is closely managing its capital spending and will perform capital additions where economically prudent, while continuing to invest strategically for future growth.

As of September 30, 2014, \$0.8 million of the Company's cash and cash equivalents noted above were held in the United States and the remainder were held internationally, primarily in Australia (\$5.8 million), the United Kingdom (\$2.4 million), Mainland China (\$2.4 million), Belgium (\$1.5 million), the Netherlands (\$1.3 million) and New Zealand (\$1.2 million). However, the majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments. Unrepatriated cumulative earnings of certain foreign subsidiaries are considered to be invested indefinitely outside of the United States, except where the Company is able to repatriate these earnings to the United States without a material incremental tax provision. In managing its day-to-day liquidity and its capital structure, the Company does not rely on the unrepatriated earnings as a source of funds. The Company has not provided for federal income or foreign withholding taxes on these undistributed foreign earnings. The Company has not done so because a distribution of these foreign earnings with material incremental tax provision is unlikely to occur in the foreseeable future. Accordingly, it is not practicable to determine the amount of tax associated with such undistributed earnings.

The Company believes that future external market conditions remain uncertain, particularly access to credit, rates of near-term projected economic growth and levels of unemployment in the markets in which the Company operates. Due to these uncertain external market conditions, the Company cannot provide assurance that its actual cash requirements will not be greater in the future than those currently expected, especially if market conditions deteriorate substantially. If sources of liquidity are not available or if the Company cannot generate sufficient cash flow from operations, the Company could be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, or a combination of those sources. The Company cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor.

The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. In the last twelve months, the Company has seen an increase in employee disputes arising from our business reorganization initiatives. Employment laws vary in the markets in which we operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company. The Company is unable to determine if the recent rise in claims represents a trend. For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$0.3 million and \$0.7 million as of September 30, 2014 and December 31, 2013, respectively. Although the outcome of these matters cannot be determined, the Company

believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “predict,” “believe” and similar words, expressions and variations of these words and expressions are intended to identify forward-looking statements. All forward-looking statements are subject to important factors, risks, uncertainties and assumptions, including industry and economic conditions, that could cause actual results to differ materially from those described in the forward-looking statements. Such factors, risks, uncertainties and assumptions include, but are not limited to, (1) global economic fluctuations, (2) the Company's ability to execute its strategic initiatives, (3) risks related to fluctuations in the Company’s operating results from quarter to quarter, (4) the ability of clients to terminate their relationship with the Company at any time, (5) competition in the Company’s markets, (6) the negative cash flows and operating losses that the Company has experienced from time to time, (7) restrictions on the Company’s operating flexibility due to the terms of its credit facilities, (8) risks associated with the Company’s investment strategy, (9) risks related to international operations, including foreign currency fluctuations, (10) the Company’s dependence on key management personnel, (11) the Company’s ability to attract and retain highly-skilled professionals, (12) the Company’s ability to collect its accounts receivable, (13) the Company’s ability to achieve anticipated cost savings through the Company’s cost reduction initiatives, (14) the Company’s heavy reliance on information systems and the impact of potentially losing or failing to develop technology, (15) risks related to providing uninterrupted service to clients, (16) the Company’s exposure to employment-related claims from clients, employers and regulatory authorities and limits on related insurance coverage, (17) the Company’s ability to utilize net operating losses, (18) volatility of the Company’s stock price, (19) the impact of government regulations, (20) restrictions imposed by blocking arrangements, (21) risks related to limited availability under the Company's credit facilities, and (22) risks related to activist stockholders. The Company assumes no obligation, and expressly disclaims any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the nine months ended September 30, 2014, the Company earned approximately 91% of its gross margin outside the U.S., and it collected payments in local currency and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect the Company's consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in the Company's foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders’ equity section of the Condensed Consolidated Balance Sheets. The translation of the foreign currency into U.S. dollars is reflected as a component of stockholders’ equity and does not impact the Company's reported net income.

As more fully described in Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the Company has credit agreements with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited, Siena Lending Group LLC, Westpac Banking Corporation and other credit agreements with lenders in Belgium, the Netherlands, and Singapore. The Company does not hedge the interest risk on borrowings under the credit agreements, and accordingly, it is exposed to interest rate risk on the borrowings under such credit agreements. Based on the Company's annual average borrowings in the current year, a 1% increase or decrease in interest rates on the Company's borrowings would not have a material impact on the Company's earnings.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chairman and Chief Executive Officer and its Executive Vice President and Chief Financial Officer, has conducted an evaluation of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, the Company's Chairman and Chief Executive Officer and its Executive Vice President and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2014.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the three months ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is involved in various legal proceedings that are incidental to the conduct of its business. The Company is not involved in any pending or threatened legal proceeding that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

ITEM 1A. RISK FACTORS

As of September 30, 2014, there have not been any material changes to the information set forth in Item 1A. "Risk Factors" disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013 except as follows.

We have limited borrowing availability under our credit facilities and such facilities may be terminated, which may negatively impact our liquidity.

Extensions of credit under our existing Facility Agreement with Westpac as well as our new facilities with Lloyds and Siena are permitted based on a borrowing base, which is an agreed percentage of eligible accounts receivable, less required reserves, applicable letters of credit and outstanding borrowings. If the amount or quality of our accounts receivable deteriorates, then our ability to borrow under these credit facilities will be directly affected. Furthermore, the Facility Agreement with Westpac does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. We cannot provide assurance that we will be able to borrow under these credit facilities if we need money to fund working capital or other needs.

If sources of liquidity are not available or if we cannot generate sufficient cash flows from operations, then we may be required to obtain additional sources of funds through additional operating improvements, capital markets transactions, asset sales or financing from third parties, or a combination thereof and, under certain conditions, such transactions could substantially dilute the ownership of existing stockholders. We cannot provide assurance that the additional sources of funds will be available, or if available, would have reasonable terms.

We may not be able to successfully achieve our strategic initiatives and goals, which could have a negative effect on our business, results of operations and financial condition.

We have been engaged in strategic initiatives to refocus on our core business to maximize long-term stockholder value, to improve our cost structure and efficiency and to increase our selling efforts and developing new business. We cannot provide any assurance that we will be able to successfully execute these or other strategic initiatives or that we will be able to execute these initiatives on our expected timetable. Furthermore, we have divested our Legal eDiscovery business. We may not be successful in refocusing our core business and obtaining operational efficiencies or replacing revenues lost as a result of the divestiture.

Proxy contests and any other actions of activist stockholders could have a negative effect on our business.

The Company recently experienced a proxy contest from activist stockholders. If further proxy contests or any other dissident stockholder activities ensue, then our business could be adversely affected because responding to proxy contests, litigation and other actions by dissident stockholders can be costly and time-consuming, disrupt our operations and divert the attention of management and our employees. In addition, perceived uncertainties as to our future direction may result in the loss of potential business opportunities and harm our ability to attract new investors and clients. As new director nominees are elected to our Board of Directors as a result of a proxy contest, it may adversely affect our ability to effectively and timely implement our strategic initiatives and to retain and attract experienced management and employees. Also, we may experience a significant increase in legal fees, administrative

and associated costs incurred in connection with responding to a proxy contest or related action. These actions could also cause our stock price to experience periods of volatility or stagnation.
