## GPA Food 4Q12 x 4Q11

Gross sales revenue increased 9.0% over 4Q11, to R\$ 8.751 billion. Same-store sales growth was 5.6%, lead by growth of 7.8% in Food sales, notably in perishables and beverages categories. In Non-Food, sales from the consumer electronics category, in Extra banner, were decreased over 4Q11, due to strong comps. In 4Q11, Extra was the sole retail banner to promote Black Friday in bricks-and-mortar stores and the electronics/appliances category grew 28% over 4Q10.

4 Retail: gross sales revenue up 6.2%. The highlights were:

§ Minimercado Extra performance, as a result of the conversion process conclusion from the former Extra Fácil format, and of the increase the store openings pace. The format, which was repositioned in order to offer a broader assortment of perishables and services – such as butchery and bakery – posted a double-digit growth in same-store-sales in 4Q12, the banner's highest growth of 2012, which opened 30 new stores in the quarter.

§ Fastest growth at Pão de Açúcar banner over Retail Food's average. Both fruits and vegetables and beverage categories were the main drivers of the same-store growth in food. Sales of organic fruits and vegetables were high during the period, helped by the change in displaying these products in the stores. These products are now offered in dedicated stations to organic products.

4 Cash-and-carry: gross sales revenue up 24.1%, mainly due to:

§ Double-digit growth in same-store gross sales revenue, due to an increase over 15.0% in the average ticket resulting from adjustments aiming at the target publics of the banner – processors, resellers and users – with an increase in the offering of perishables.

### **GPA Food 2012 x 2011**

In 2012, gross sales revenue increased 8.8%, to R\$ 30.944 billion. Same-store sales growth was 6.5%.

2012 was the first full year of Extra Supermercado operation, strengthening Extra as a national player. The banner, which by the end of 2011 was operating only through Extra Hiper, where the one-stop shop offers gas stations and drugstores, was strengthened with the launch of its own clothing brand and the introduction of the concept store-in-store, in which the designated area for the category was enhanced with its own fit rooms and checkouts, and the reintroduction of butchers. In 2012, Drogaria Extra was also repositioned, with changes in store layout and enhancement of perfumery category. In the fourth quarter, Extra Delivery was launched, consolidating the Extra banner as multichannel. In 2012, three Extra Supermercado stores and other six Extra Hiper stores were opened.

**3/21**

---

Minimercado Extra, as mentioned above, concluded the store conversion from the former Extra Fácil format, offering a broader assortment of perishables and services. Considering both new and converted stores, Minimercado Extra ended the year with over 100 stores.

In 2012, Pão de Açúcar expansion was resumed. Furthermore, the banner launched new campaigns – such as “Ofertas da Casa” focusing on cleaning products and as “Momento Feliz: Churrasco” (items related to barbecue) – and straighten its anniversary campaign and differentiation through customer service.

Assaí, which underwent a restructuring process, consolidated in 2012 the changes initiated in the previous year, with adjustments in store layout, assortment and quantity of services for target publics. As of December, GPA Food’s sales area totaled 1,568 thousand square meters. The area growth was 4.8%, or 72.0 thousand square meters, with a total of 55 stores opened, highlighting the growth in Minimercado Extra.

### GPA Consolidated 4Q12 x 4Q11

Gross sales revenue totaled R\$ 16.342 billion in 4Q12, up 8.0% over 4Q11, due to the food retail performance, mentioned above, and the electronics bricks-and-mortar stores performance – highlight to Pontofrio, with a double-digit growth in same-store-sales, partially offset by the slowdown of e-commerce business growth trend due to the fierce competition in the sector. In Nova Pontocom, two new businesses were launched: barateiro.com.br - exclusive website that sells refurbished or minor-damaged products and outlet - and Patiu Viagens - website for booking tickets, packages and other travel-related services.

### GPA Consolidated 2012 x 2011

Gross sales revenue totaled R\$ 57.081 billion, up 8.4% over 2011 due to the growth in Food Retail and Viavarejo.

---

**GPA Food 4Q12 x 4Q11**

EBITDA increased 20.2% to R\$ 690 million, while EBITDA margin was up 70 basis-points to 8.7%.

4 Retail: EBITDA margin increased 120 basis points, due to:

§ Recovery on the gross margin and better sales mix (with higher value added). Seasonal items sales also contributed for margin enhancement;

§ The increase in selling expenses is related to the impact of the labor union wage agreement, which was higher than inflation, granted to employees mainly in September. This increase also impacted the outsourced service expenses (in stores), which were already growing due to the acceleration on store openings in 4Q12 and 1Q13;

4 Cash-and-carry: EBITDA margin declined 60 basis points over 4Q11, to 4.8%, due to:

§ Reduction in the gross margin, due to the adjustments made in 2012 to its target publics - processors, distributors and users - usually more sensitive to price. The new model is based on price competitiveness and strict expenses control. With sales increase, Management expects to drive the return on invested capital up for both the format and the Company.

§ 20 basis-point decrease in operating expenses as percentage of net revenues. The new model has the target to run the operation with a low level of expenses.

### GPA Consolidated 4Q12 x 4Q11

Gross margin fell by 10 basis points, mainly pressured by increased competition and higher logistics costs in the electronics segment. However, EBITDA margin was benefitted by the reduction in operating expenses in Viavarejo and by the improvement in Food margin (as mentioned above).

In 2012, EBITDA was up by 24.8%, to R\$ 3.515 billion, with margin of 6.9%, an increase of 90 basis-point over 2011.

### **GPA Food 4Q12 x 4Q11**

In 4Q12, net financial expense totaled R\$ 136 million, down 6.4% from 4Q11, despite the 9.7% increase in gross sales revenue in the quarter, and accounted for 1.7% of net sales revenue. The improvement was mainly due to declining interest rates, notably as from September 2011, and improvement in the management of receivables, which impacts the Company as explained below:

§ R\$ 64 million in charges on the net bank debt, amount 25.6% lower than in 4Q11;

§ R\$ 27 million in discount of receivables cost, which accounted for 0.3% of net sales revenue, a 20 basis point reduction from 4Q11. The volume of discounted receivables totaled R\$ 3.4 billion;

§ R\$ 45 million in restatement of other assets and liabilities, which accounted for 0.6% of net sales revenue in the quarter, up 30 basis points from 4Q11, due to the lower financial revenue from supplier payments' anticipation.

### **GPA Food 2012 x 2011**

In 2012, the net financial expense totaled R\$ 522 million, down 18.6% from 2011. The result was impacted by a decline in interest rates and control in payment conditions.

### **GPA Consolidated 4Q12 x 4Q11**

In 4Q12, net financial expense totaled R\$ 301 million, down 12.2% from 4Q11, and accounted for 2.1% of net sales revenue, down 50 basis points from 4Q11. The result is due to the decline in the Selic base rate and improvement in the management of receivables.

---

## GPA Consolidated 2012 x 2011

In 2012, net financial expense totaled R\$ 1.199 billion, down 10.0% from 2011. Even with growth of 8.4% in gross sales, which impacts the amount to be securitized and, consequently, the discounted receivables cost, in 2012 the account represented 2.4% of net sales, a decrease of 50 basis points on the previous year, and is caused by the effects of the declining of interest rate and efficient management on receivables, especially in the electronics segment.

## Indebtedness

The analysis of the Company's indebtedness considers the real estate projects operation, since it is consolidated also in the balance sheet (cash and cash equivalents).

**7/21**

---

Cash position by 12/31/2012, when compared to previous periods, shows significant increase due to the following reasons: (i) Company`s decision, by the beginning of 2012, on raising cash reserves as precaution to the macro-economy scenario that could possibly afflict market`s liquidity; (ii) usual seasonality on the fourth quarter, more pronounced, specially reflected in the Company`s working capital, on suppliers and inventories; and (iii) cash generation in the period. Company intends not to refinance debt and the current cash will be partially used to pay-off upcoming debt when reaches maturity. As a result, Company expects to keep lower cash position level throughout 2013, keeping the indebtedness close to the current level by the year-end, financing the necessary investments with the cash generation from operation.

Company used to discount credit card and food vouchers receivables in 2012 with two securitization funds dedicated to this purpose. In the 4Q12, there were changes in both funds. PCAFIDC, fund that served the food operation, is no longer exclusive to GPA`s receivables, and the Company holds no subordinated quotas, thus, it is not consolidated into Companies financial statements in 12/31/2012. Globex FIDC, fund that used to securitize receivables from Viavarejom, was terminated in December 2012. These changes have a neutral net impact in cash, given the fund`s cash position (consolidated by GPA) and the redeemed subordinated quotas were equivalent. Company`s receivables are still being securitized though acquirers.

### **GPA Malls & Properties**

The opening of stores at Grupo Pão de Açúcar is the result of a planned expansion process. The Company uses its market knowledge to promote synergies between its retail strength and its real estate assets, which are managed by its real estate unit, GPA Malls & Properties (GPA M&P). GPA M&P manages and explores the Company`s real estate assets, aiming to unlock value in this market.

In 2012, R\$ 153 million gross sales revenue was recognized from real estate projects though land swap with Cyrela Polinésia Empreendimento Imobiliários, Pitangueiras Desenvolvimento Imobiliário and Hesa Investimentos Imobiliários for the projects Thera Faria Lima Pinheiros, Figue; Classic and Carpe Diem, respectively. The swap revenue is net of the book value of the asset. Of the R\$ 153 million mentioned above, R\$ 55 million were recognized in 4Q12.

When compared to retail, is worth noting that the real estate industry have different operational cycle, typically longer, generally exceeding the fiscal year period in which the project started and relies on real estate launches and their construction pace.

For further information on the recognition of such revenue, see explanatory notes number 3.b. and 28, on the Financial Statements.

## **GPA Food**

Cash position by the year's end was R\$ 4.505 billion, of which R\$206 million in 4Q12, mainly generated by the operating cash flow in the period.

As FIDCs are no longer consolidated into Company's financial statements (see section 'Indebtedness' for more information), Management evaluates that the effects from its elimination on receivables (positive impact on working capital of approximately R\$1.1 billion) and liabilities (negative impact of around R\$1.2 billion) should not be considered in the cash flow analysis. In 4Q12, working capital was improved by the suppliers, which grew relatively more than the amount on inventories.

In 2012, GPA Food generated R\$ 961 million in cash, driven by the increase of the operational profit and lower expenses on interest on debt and cost of discount of receivables.

## **GPA Consolidated**

Cash position by the end of 2012 was R\$ 7.086 billion, R\$ 1.536 over the cash in the beginning of 4Q12 and was generated from sales growth combined with EBITDA margin increase, mainly from Viavarejo. The cash flow analysis, when isolated from the FIDC effect (as mentioned below, which would impact the consolidated result in, approximately, R\$2.5 billion positively on receivables and R\$ 2.516 negatively in the liabilities), points out R\$ 0.7 billion positive flow from the suppliers account.

Company added to its cash R\$ 2.1 billion in 2012, and intends to use part of it to repay debt close to its maturity, specially in the upcoming quarters, thus not incurring on new refinancing plan. Therefore, Company expects lower cash position along 2013 and should reach year's end close to current indebtedness level, financing its investments with cash generated from operations.
