Item 2.02 Results of Operations and Financial Condition.

On November 1, 2007, Ferro Corporation announced it would discontinue porcelain enamel frit manufacturing in Rotterdam, The Netherlands by the summer of 2008, and that it would consolidate frit manufacturing at other European sites. As a result of the manufacturing consolidation, the Company expects to record a pre-tax charge of \$5.9 million in the quarter ended September 30, 2007, pursuant to an agreement reached with workers' representatives on September 20, 2007. Each employee was notified on October 15, 2007. The charge includes approximately \$4.0 million in employee severance and pension costs and approximately \$1.9 million in asset impairment costs. The charge is expected to reduce diluted earnings per share in the 2007 third quarter by approximately 10 cents.

The Company expects to record additional charges in future periods that will result in cash expenditures of approximately \$17 million related to the manufacturing consolidation through the third quarter of 2008. These charges include approximately \$13 million in expected employee severance costs and approximately \$4 million in costs associated with closing the facility.

A copy of the press release announcing the manufacturing consolidation is attached, hereto, as Exhibit 99.1.

Item 2.05 Costs Associated with Exit or Disposal Activities.

The information set forth under Item 2.02 of this Current Report on Form 8-K is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

Exhibit 99.1: Press release
