Item 1.01 Entry into a Material Definitive Agreement.

Effective December 28, 2007, Brush Engineered Materials Inc. (the "Company") and certain of its subsidiaries entered into a Second Amended and Restated Precious Metals Agreement with The Bank of Nova Scotia (the "Restated Precious Metals Agreement"). The Restated Precious Metals Agreement matures on September 30, 2010 and provides for a \$110 million precious metals facility comprised of sub-facilities for: gold loans; consignments of gold, silver, platinum, palladium and rhodium; precious metals forward contracts; and a precious metals storage facility.

The Company entered into the Restated Precious Metals Agreement to replace the Amended and Restated Precious Metals Agreement, dated as of September 30, 2007, among the Company, certain of its subsidiaries and The Bank of Nova Scotia (the "Previous Precious Metals Agreement"). In comparison to the Previous Precious Metals Agreement, the Restated Precious Metals Agreement, among other things: increases the available lines of precious metals thereunder from \$85 million to \$110 million; adds rhodium as an available precious metal; and contains various representations, warranties, covenants and events of default that conform to the corresponding provisions contained in the Company's senior Credit Agreement, dated November 7, 2007, with JPMorgan Chase Bank, National Association.

The Restated Precious Metals Agreement is secured by all precious metals of the Company and its subsidiaries that are party to the Restated Precious Metals Agreement, all inventory containing any such precious metals and all proceeds of the foregoing.

Item 9.01 Financial Statements and Exhibits.

99.1 Amended and Restated Precious Metals Agreement, dated as of December 28, 2007.

The Restated Precious Metals Agreement is filed as an exhibit to this Current Report on Form 8-K. The foregoing description of the Restated Precious Metals Agreement is qualified in its entirety by reference to the full text of the Restated Precious Metals Agreement, which is incorporated herein by reference.
