Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:  Form 20-F  Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934:  Yes  No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): n/a

## Edgar Filing: Mechel OAO - Form 6-K

MECHEL ANNOUNCES RECEIVING CERTIFICATE TO MARK MECHEL CAMPIA TURZII PLANT'S PRODUCTS WITH CE MARKING

Romania, Campia Turzii - March 29, 2010.- Mechel OAO (NYSE: MTL), one of the leading Russian mining and metals companies, announces annual product certification procedure having completed at its Mechel Campia Turzii plant, which is a part of its East-European Steel Division. The audit inspection results confirmed the plant's procedures compliance to the EU requirements. The plant's right to mark its products with CE marking has also been confirmed. At the end of February 2010 audit inspection was carried out at Mechel Campia Turzii plant in order to check compliance of its products such as welding electrodes of D-PRINS E51 B, SUDOX E50 FAVORIT and metal fiber manufactured in accordance with STAS SR EN 14889-1/2007 standard to the European Union main requirements.

Within the audit process certification body's specialists in two days provided a complex inspection of the production process of welding electrodes and metal fiber. Production process was tracked from the point of raw materials input to the point of finished products transportation to storage area and the system was recognized as conformable to the EU standards.

CE marking shows product's compliance to the European procedure requirements represented by the EU standards which establish general requirements and certification rules for particular product groups. CE marking is a security guarantee for various types of products and is obligatory for all goods coming to the European market which are subject to the EU requirements.

Audit inspection was implemented by the AEROQ Bucharest certification body which is authorized by the European Commission to provide certification of products used in the construction industry.

Metal fiber production for concrete reinforcement started at Mechel Campia Turzii plant at the end of 2009. Fiber usage helps to significantly reduce costs of concrete constructions production as well as improve concrete's structure, solidity and durability due to more even distribution of metal.
