NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2010, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The results of operations for the period ended September 30, 2010 and 2009 are not necessarily indicative of the operating results for the full year.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses and seeking equity and/or debt financing. However management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Company's financial position, or statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 4 – SIGNIFICANT EVENTS

On October 4, 2010, the Board of Directors of the Company and in excess of a majority of the outstanding shares of Common stock approved the Company's reincorporation in Nevada. The reincorporation by which Genesis Fluid Solutions Holdings, Inc., a Delaware corporation will be merged with and into a newly formed Nevada corporation named Blue Earth Inc., the parent Company's new name was effective as of October 21, 2010.

In excess of a majority of the securities issued by the Company pursuant to its Private Placement Memorandum dated as of June 25, 2009, have waived any and all past, present and future rights they may have under their Registration Rights Agreement with the Company. Once the Board of Directors decided on a new strategy this past summer they determined that it would not be in the Company's best interest to continue to pursue the effectiveness of its pending registration statement, which it has withdrawn, as the holders will be eligible for sales under Rule 144 commencing in November 2010. Accordingly, \$136,500 of accrued and unpaid fees has been recorded as contributed capital.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

On August 31, 2010, the Company entered into an "at will" employment agreement, effective as of September 1, 2010, with Dr. Johnny R. Thomas, as Chief Executive Officer and President of the Company. The first 100,000 warrants vested upon grant, with the next 150,000 warrants vesting on October 31, 2010, while the remaining 750,000 warrants vest in three equal installments on the first, second and third anniversaries of the signing of the employment agreement. The vesting schedule accelerates to full vesting upon the Company achieving aggregate revenue of \$12,500,000 for two consecutive quarters and the Company records a pre-tax net profit for such two quarters. These warrants also vest when Dr. Thomas exercises the warrants and purchases Common Stock. The agreements provides for a non-competition and non-solicitation period of one-year from the termination of employment.

On August 31, 2010, the Company entered into an "at will" employment agreement, effective as of September 1, 2010, with John C. Francis, as Vice-President, Corporate Development and Investor Relations of the Company. Mr. Francis's base salary is Seventy-Five Thousand Dollars (\$75,000.00) per annum. All other terms of employment and compensation are the same as set forth in Dr. Thomas' agreement described above.

As of September 30, 2010, other than what is described in this section, "Legal Matters", there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on our results of operations.

The former chief financial officer of our former subsidiary, Genesis Fluid Solutions, Ltd., has claimed breach of his separation agreement. The Company has made certain counterclaims. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

The information in this report contains forward-looking statements. All statements other than statements of historical fact made in this report are forward looking. In particular, the statements herein regarding industry prospects and future results of operations or financial position are forward-looking statements. These forward-looking statements can be identified by the use of words such as "believes," "estimates," "could," "possibly," "probably," "anticipates," "projects," "expects," "may," "will," or "should" or other variations or similar words. No assurances can be given that the future results anticipated by the forward-looking statements will be achieved. Such discussion represents only the best present assessment of our management.

Company Overview

Blue Earth, Inc. is engaged in the clean tech industry in general with a focus on the rapidly growing, multi-billion dollar energy efficiency sector.

Blue Earth hired an experienced management team to focus on a mergers and acquisition strategy ("M&A") to acquire, license, develop, market, install and monitor clean-tech related, innovative technologies and energy management systems. Management also intends to accelerate introduction of the acquired technology/products by offering and installing them through energy management service companies, which have an established base of customers at the local, state, regional and national levels. In order to accelerate product introduction, management expects to enter into varying types of agreements with these energy management service companies, including acquisition agreements and/or joint venture agreements, as may be appropriate, for each company and geographic territory.

The Company recently sold its wholly-owned subsidiary Genesis Fluid Solutions, Ltd. (GFS) to certain buyers including its former Chairman and interim CEO Michael Hodges as defined by the Stock Purchase Agreement (see Note 6).

Results of Operations

Our revenues are derived from professional services contracts to provide energy service management and technology.

Three Months Ended September 30, 2010 Compared with Three Months Ended September 30, 2009

Revenues

The Company recognized no revenue for the three months ended September 30, 2010 as compared to no revenue for the three months ended September 30, 2009. This is primarily due to management's implementation of its mergers and acquisition strategy whereby thorough due diligence of acquisition candidates and potential partners is necessary.

Operating Expenses

General and Administrative Expenses

General and administrative expenses were \$475,280 for the three months ended September 30, 2010 as compared to \$0 for the three months ended September 30, 2009, as a result of discontinued operations (See “Note 6 - Discontinued Operations”). This increase was primarily the result of the costs associated with implementing our business strategy. Our general and administrative expenses consist of expenses paid for payroll and related costs, consultant and professional fees, stock expenses, insurance and other general operating costs.

We expect our costs for personnel, consultants and other operating costs to increase as we implement our business plan. Thus, our general and administrative expenses are likely to increase significantly in future reporting periods.

Other Income (Expense)

Other income (expense) for the three months ended September 30, 2010 was (\$195,646) compared to \$0 for the three months ended September 30, 2009. The increase was primarily attributable to the change in the warrant derivative liability of \$199,306.

Net Loss

Net loss for the three months ended September 30, 2010 was \$709,239 compared to a net loss of \$19,056 from discontinued operations for the three months ended September 30, 2009. The increase in net loss was attributable to an increase in general and administrative expenses and the change to the warrant derivative liability.

Nine Months Ended September 30, 2010 Compared with Nine Months Ended September 30, 2009

Revenues

The Company recognized no revenue for the nine months ended September 30, 2010 as compared to no revenue for the nine months ended September 30, 2009. This is primarily due to management's implementation of its mergers and acquisition strategy whereby thorough due diligence of acquisition candidates and potential partners is necessary.

Operating Expenses

General and Administrative Expenses

General and administrative expenses were \$802,935 for the nine months ended September 30, 2010 as compared to \$0 for the nine months ended September 30, 2009, as a result of discontinued operations. The increase related to an increase in professional and consultant fees and costs associated with implementing our business plan. Our general and administrative expenses consist of expenses paid for payroll and related costs, consultant and professional fees, stock expenses, insurance and other general operating costs.

We expect our costs for personnel, consultants and other operating costs to increase as we implement our business plan. Thus, our general and administrative expenses are likely to increase significantly in future reporting periods.

Other Income (Expense)

Other income (expense) for the nine months ended September 30, 2010 was (\$226,592) compared to \$0 for the nine months ended September 30, 2009, an increase of 100%. The increase was primarily attributable to the change to the warrant derivative liability.

Net Loss

Net loss for the nine months ended September 30, 2010 was \$1,997,219 compared to a net loss of \$39,402 from discontinued operations for the nine ended September 30, 2009. The increased loss was attributable to an increase in general and administrative expenses and the recording of the warrant derivative liability.

Liquidity and Capital Resources

Net cash used in continuing operations during the nine months ended September 30, 2010 totaled \$1,084,771 and resulted primarily from the net loss incurred while expanding our business to accommodate anticipated sales.

Net cash used in investing activities during the nine months ended September 30, 2010 totaled \$24,418 and resulted from the purchase of property and equipment offset by proceeds received from the disposals of property and equipment.

Net cash used in financing activities during the nine months ended September 30, 2010 totaled \$50,642 and resulted primarily from payments on capital leases and a debt repayment.

At September 30, 2010, we had working capital of \$2,556,691 including \$3,599,081 in cash and cash equivalents compared with working capital of \$2,872,580 at December 31, 2009. We had no revenue generating activities in the nine months ended September 30, 2010. We anticipate revenue generating activities will ramp upon completion of due diligence of acquisition candidates. Our cash used in continuing operating activities during the nine months ended September 30, 2010 totaled \$1,084,711. Our unaudited condensed consolidated financial statements were prepared assuming that we would continue as a going concern based on our recurring losses, accumulated deficits and negative cash flows from operations. We continue to experience net operating losses and negative cash flows from operating activities. Our ability to continue as a going concern is subject to our ability to generate profits and/or obtain necessary funding from outside sources, including by the sale of our securities, or obtaining loans from lenders, where possible. Our continued net operating losses increase the difficulty of our meeting these goals, and our efforts to continue as a going concern may not prove successful. Nonetheless, the Company expects that it has sufficient cash and borrowing capacity to meet its working capital needs for at least the next 12 months.

Historically, we have financed our working capital and capital expenditure requirements primarily from the sales of our equity securities. We may seek additional equity and/or debt financing in order to implement our business plan. We completed a private placement, commencing October 30, 2009 through December 29, 2009, whereby we received net proceeds of \$5,909,750, which we believe will fund our operations at least through September 2011. We do not have any lines of credit or borrowing facilities to meet our cash needs. As a result, we may not be able to continue as a going concern, without further financing, following September 2011. It is reasonably possible that we will not be able to obtain sufficient financing to continue operations. Furthermore, any additional equity or convertible debt financing will be dilutive to existing shareholders and may involve preferential rights over common shareholders. Debt financing, with or without equity conversion features, may involve restrictive covenants.

Related Party Transactions

No related party transactions had a material impact on our operating results for the nine months ended September 30, 2010.

New Accounting Pronouncements

See Note 3 to our unaudited condensed consolidated financial statements for a discussion of recently issued accounting pronouncements.

Critical Accounting Estimates

Management's discussion and analysis of financial condition and results of operations is based upon our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these unaudited condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and assumptions, including, but not limited to valuation of accounts receivable and allowance for doubtful accounts, those related to the estimates of depreciable lives and valuation of property and equipment, valuation of derivatives, valuation of payroll tax contingencies, valuation of share-based payments, and the valuation allowance on deferred tax assets.

Off-Balance Sheet Arrangements

Since our inception, except for standard operating leases, we have not engaged in any off-balance sheet arrangements, including the use of structured finance, special purpose entities or variable interest entities.

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of our management, including our President, Chief Financial Officer and Secretary, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, our President, Chief Financial

Officer and Secretary concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective such that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management to allow timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting. During the most recent quarter ended September 30, 2010, there has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f)

under the Exchange Act)) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS.

From time to time, the Company may become involved in litigation relating to claims arising out of its operations in the normal course of business. Except as described below: (i) there have been no substantive changes in any legal proceedings described in our Annual Report on Form 10-K for the year ended December 31, 2009; and (ii) we are not involved in any pending legal proceeding or litigation and, to the best of our knowledge, no governmental authority is contemplating any proceeding to which we are a party or to which any of our properties is subject, which would reasonably be likely to have a material adverse effect on the Company.

On or about May 24, 2010, suit was filed against the Company by Michael Whaley, the former Chief Financial Officer of the Company's former wholly owned subsidiary, GFS, in the District Court of the City and County of Denver. Plaintiff, among other things, alleges breach of contract in connection with a separation and release agreement entered into by GFS following Mr. Whaley's departure from GFS and is seeking a monetary judgment for more than \$100,000. The Company has made certain counterclaims. A court date has been set for April 18, 2011.

On August 30, 2010, the Company entered into a Separation Agreement and Release of Claims with Martin Hedley, its former CEO, who had asserted certain claims against the Company. The parties exchanged mutual releases and no cash consideration was involved.

The litigation commenced by Big Fuel Communications, LLC in the Supreme Court, New York County as previously disclosed by the Company, has been settled by the Company with the payment of \$15,000 by the Company and the exchange of mutual releases.
