1. Basis of Presentation

The consolidated financial statements and footnotes thereto are unaudited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") have been omitted pursuant to such rules and regulations although we believe that the disclosures are adequate to make the information presented not misleading. The consolidated financial statements include the accounts of MModal Inc. and its subsidiaries (referred to as "we," "us," "our," and the "Company"). All significant inter-company accounts and transactions have been eliminated in consolidation. Certain amounts for prior periods have been reclassified to conform to the current period presentation.

These statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for the fair presentation of our results of operations, financial position and cash flows. Interim results are not necessarily indicative of results for a full year. The information in this Form 10-Q should be read in conjunction with our 2011 Annual Report on Form 10-K for the year ended December 31, 2011 (the "2011 Form 10-K") filed with the Securities and Exchange Commission ("SEC") on March 15, 2012.

Merger Agreement

On July 2, 2012, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Legend Parent, Inc., a Delaware corporation ("Parent"), and Legend Acquisition Sub, Inc., a Delaware corporation and a wholly-owned subsidiary of Parent ("Merger Sub"). Parent and Merger Sub are affiliates of One Equity Partners V, L.P., a Cayman Islands exempted limited partnership ("OEP").

Pursuant to the Merger Agreement, upon the terms and subject to the conditions thereof, Merger Sub commenced a tender offer on July 17, 2012 (the "Offer") to purchase all of the outstanding shares of common stock of the Company at a purchase price of \$14.00 per share, net to the seller thereof in cash (the "Offer Price"), without interest thereon and subject to any applicable withholding taxes. The transaction is expected to close during the third quarter of 2012.

After the consummation of the Offer and subject to the satisfaction or waiver of certain conditions set forth in the Merger Agreement, Merger Sub will merge with and into the Company (the "Merger") with the Company being the surviving corporation. The Merger Agreement also provides that the Merger may be consummated regardless of whether the Offer is completed, but if the Offer is not completed, the Merger will only be able to be consummated after a majority of the stockholders of the Company have adopted the Merger Agreement at a meeting of stockholders. In the Merger, each share of Company common stock issued and outstanding, other than shares of Company common stock held by the Company as treasury stock, by Parent or Merger Sub or by stockholders who have properly demanded appraisal under Delaware law, will be converted into the right to receive an amount in cash equal to the Offer Price, without interest thereon and subject to any applicable withholding of taxes.

The Merger Agreement contains certain termination rights for both the Company and Parent, including, among others, if the Merger is not consummated on or before December 31, 2012. Upon termination of the Merger Agreement under specified circumstances, including a termination by the Company to enter into an agreement for an alternative transaction pursuant to a Superior Proposal (as defined in the Merger Agreement), the Company has agreed to pay Parent a termination fee of \$28.7 million. If the Merger Agreement is terminated by Parent or the Company following failure to obtain Company stockholder approval for the transaction, the Company will be required to reimburse Parent's expenses incurred in connection with the Merger Agreement and the transactions contemplated thereby up to a maximum amount of \$8.2 million.

The Merger Agreement also provides that Parent will pay, or cause to be paid, to the Company an amount equal to \$57.5 million if the Company terminates the Merger Agreement under certain circumstances, including as a result of (i) Parent's failure to consummate the Offer if all Offer conditions have been satisfied (other than those that by their nature will be satisfied by actions taken at the closing of the Merger), (ii) Parent's failure to consummate the Merger if all conditions to the obligations of Parent and Merger Sub to close the Merger have been satisfied (other than those that by their nature will be satisfied by actions taken at the closing of the Merger) and the Marketing Period (as defined in the Merger Agreement) has expired, or (iii) Parent's material uncured breach of the Merger Agreement that is the principal factor in the failure of the Offer or the Merger, as the case may be, to be consummated.

Table of Contents MModal Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Per share data in whole dollars)

Unaudited

On July 2, 2012, in connection with the Merger Agreement, investment funds affiliated with S.A.C. Private Capital Group LLC, collectively the Company's largest stockholder owning approximately 31% of the outstanding shares of Company common stock in the aggregate, entered into a support agreement with Parent and Merger Sub under which they agreed to tender all of their shares into the Offer and to support the Merger. The support agreement will terminate upon certain circumstances, including upon termination of the Merger Agreement.

U.S. Initial Public Offering

In February 2011, we completed our U.S. initial public offering of common stock selling 3 million shares of our common stock and 1.5 million shares of our common stock owned by selling stockholders at an offer price of \$8.00, resulting in gross proceeds to us of \$24.0 million and net proceeds to us after underwriting fees of \$22.3 million.

Change in Company Name and Ticker Symbol

Effective January 23, 2012, we changed our name from MedQuist Holdings, Inc. to MModal Inc. The name change was effected pursuant to Section 253 of the Delaware General Corporation Law ("DGCL") through the Company's merger with a newly formed wholly-owned subsidiary which, under the DGCL, does not require stockholder approval. Pursuant to Section 253 of the DGCL, such merger had the effect of amending the Company's Certificate of Incorporation to reflect the new legal name of the Company. The Company also amended the Company's By-laws, effective as of the same date, to reflect the name change.

On January 25, 2012, the Company's common stock, which trades on the NASDAQ Global Select Market, ceased trading under the ticker symbol "MEDH" and commenced trading under the ticker symbol "MODL."

Merger with MModal MQ Inc.

In October 2011, we completed the merger ("MModal MQ Merger") with MModal MQ Inc. (formerly MedQuist Inc.), resulting in MModal MQ Inc. becoming our indirect wholly-owned subsidiary and MModal MQ Inc. common stock no longer trading on the OTCQB or on any other market. As a result of the MModal MQ Merger, the remaining approximately 3% issued and outstanding shares of MModal MQ Inc. not held by us were canceled and converted to the right to receive one share of our common stock. The MModal MQ Merger resulted in a reclassification from noncontrolling interest to common stock and additional paid-in-capital.

Business Segment and Reporting Unit

We operate in one reportable operating segment, MModal Inc., which is clinical documentation solutions for the healthcare industry.

2. Summary of Significant Accounting Policies

Critical Accounting Policies

There have been no material changes in our critical accounting policies, judgments or estimates as disclosed in our 2011 Form 10-K.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"), which clarifies the wording and disclosures required in Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurement ("ASC 820"), to converge with those used in International Financial Reporting Standards ("IFRS"). The update explains how to measure and disclose fair value under ASC 820. However, the FASB does not expect the changes in this update to alter the current application of the requirements in ASC 820. We adopted this new accounting guidance for the quarterly period ended March 31, 2012. The adoption of this guidance did not have an impact on our financial statements.

Table of Contents MModal Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Per share data in whole dollars)

Unaudited

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220) - Presentation of Comprehensive Income ("ASU 2011-05"). ASU 2011-05 changes the presentation of comprehensive income in the financial statements for all periods reported and eliminates the option under the current guidance that allows for presentation of other comprehensive income as part of the Statement of Stockholders' Equity. The update allows two options for the proper presentation of comprehensive income: 1) a single Statement of Comprehensive Income, which includes all components of net income and other comprehensive income; or 2) a Statement of Income followed immediately by a Statement of Comprehensive Income, which includes the summarized net income and all components of other comprehensive income. Additionally, the update requires the presentation of reclassification adjustments out of accumulated other comprehensive income on the face of the Statement of Income and the Statement of Comprehensive Income. The provisions of ASU 2011-05 are effective for public entities retrospectively for annual periods, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. We adopted this new accounting guidance for the quarterly period ended March 31, 2012. The adoption of this guidance did not have a material impact on our financial statements.

In September 2011, the FASB issued ASU No. 2011-08, Intangibles - Goodwill and Other (Topic 350) - Testing Goodwill for Impairment ("ASU 2011-08"), which allows companies to assess qualitative factors prior to the use of the two-step quantitative method to determine if goodwill has been impaired. If the qualitative factors reviewed do not indicate that it is more likely than not that the fair value of a reporting unit does not exceed the carrying value, ASU 2011-08 deems any further impairment testing to be unnecessary. In the event that the qualitative review indicates otherwise, the company is required to perform further quantitative impairment testing as prescribed by Topic 350. Other indefinite-lived intangible assets are not affected by the provisions of this update. We adopted this new accounting guidance for the quarterly period ended March 31, 2012. The adoption of this guidance did not have an impact on our financial statements.

In December 2011, the FASB issued ASU No. 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05 ("ASU 2011-12"). ASU No. 2011-12 defers the effective date of the requirement to present separate line items on the income statement for reclassification adjustments of items out of accumulated other comprehensive income into net income for all periods presented. The ASU does not change the other requirements of FASB ASU No. 2011-05, Presentation of Comprehensive Income. Entities are still required to present reclassification adjustments within other comprehensive income either on the face of the statement that reports other comprehensive income or in the notes to the financial statements. The requirement to present comprehensive income in either a single continuous statement or two consecutive condensed statements remains for both annual and interim reporting. The deferral of the requirement for the presentation of reclassification adjustments is intended to be temporary until the FASB reconsiders the operational concerns and needs of financial statement users. ASU 2011-12 is effective at the same time as ASU 2011-05, which is effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2011. We adopted this new accounting guidance for the quarterly period ended March 31, 2012. The adoption of this guidance did not have a material impact on our financial statements.

3. Acquisitions

Multimodal Technologies, Inc.

On August 18, 2011, we completed the acquisition and merger ("MultiModal Merger") of 100% of the shares of MultiModal Technologies, Inc. ("MultiModal"). The MultiModal Merger provided us ownership of speech and natural language understanding technologies, and facilitated consolidation to a single back-end speech recognition platform, provided a broader product offering to local and regional transcription partners and leveraged MultiModal's cloud-based services to enhance gross margins. The acquisition was funded by our available cash and availability under our revolving credit facility.

Table of Contents MModal Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Per share data in whole dollars)
Unaudited

The following unaudited pro forma summary presents the consolidated information of MModal Inc. as if the business combination had occurred at the beginning of the first quarter of 2011:

(dollars in thousands)	Pro forma for the three months ended June 30, 2011	Pro forma for the six months ended June 30, 2011
Net revenues	\$ 112,669	\$ 228,071
Net income	\$ 4,200	\$ 13,141
Net income per share (Basic)	\$ 0.09	\$ 0.13
Net income per share (Diluted)	\$ 0.08	\$ 0.13

These amounts have been calculated after applying our accounting policies and adjusting the results of MultiModal to reflect the additional amortization of intangible assets that would have been recorded as expense assuming the fair value adjustments to intangible assets had been applied from the beginning of the annual period being reported on, and excluding acquisition costs.

Other Acquisitions

During the six months ended June 30, 2012, we acquired two businesses for a total cash consideration of \$4.6 million, including \$3.1 million in cash paid on the date of acquisition and \$1.5 million in deferred acquisition payments that will be paid within one year. These acquisitions were not material to the Company, individually or in the aggregate. Accordingly, impacts related to these acquisitions are excluded from the pro forma information presented above.

Deferred Acquisition Payments

At June 30, 2012, we had deferred acquisition payments, current, of \$20.2 million, and deferred acquisition payments, non-current, of \$15.9 million recorded in the accompanying Consolidated Balance Sheets. These future cash payments are related to the acquisitions we made during the second half of 2011 and the first half of 2012. The table below represents our future deferred acquisition payments as of June 30, 2012:

(dollars in thousands)	Deferred Acquisition Payments
Due in one year	\$ 20,231
Due in two years	6,116
Due in three years	9,706
Due in four years	2,966
Total	39,019
Less: amount representing interest	(2,880)
Present value of deferred acquisition payments	\$ 36,139

Table of Contents MModal Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Per share data in whole dollars)
Unaudited

4. Debt

Debt consisted of the following:

(dollars in thousands)

Senior Secured Credit Facility consisting of:

	June 30, 2012	December 31, 2011
Term loan	\$ 170,000	\$ 175,000
Revolving credit facility	—	25,000
Senior Subordinated Notes	85,000	85,000
All other	11,558	11,534
	266,558	296,534
Less: Current maturities	(27,774) (22,712
Total long-term debt	\$ 238,784	\$ 273,822

The borrowings under the Senior Secured Credit Facility bear interest at a rate equal to an applicable margin plus, at the borrowers' option, either (a) a base rate determined by reference to the highest of (1) the rate last quoted by the Wall Street Journal as the "Prime Rate" in the United States, (2) the federal funds rate plus 1/2 of 1% and (3) the LIBOR rate for a one-month interest period plus 1.00% or (b) the higher of (1) a LIBOR rate determined by reference to the costs of funds for deposits in the currency of such borrowing for the interest period relevant to such borrowing adjusted for certain additional costs and (2) 1.75%. The applicable margin is 4.50% with respect to base rate borrowings and 5.50% with respect to LIBOR borrowings. At June 30, 2012, the Senior Secured Credit Facility had an interest rate of 7.25% and the interest rate on the Senior Subordinated Notes was a stated rate of 13.0%.

Of the \$25 million Revolving Credit Facility ("Revolver") included in the Senior Secured Credit Facility, \$3.2 million was available to be drawn as of June 30, 2012. Any amounts drawn over \$3.2 million would have caused us to be in noncompliance with our debt covenants. No amounts were outstanding under the Revolver at June 30, 2012.

In March 2012, we entered into a waiver and amendment to the Senior Secured Credit Facility to (i) allow for additional time to comply with certain reporting requirements related to recent acquisitions that we consummated and (ii) to amend the definition of "Consolidated EBITDA" under the Senior Secured Credit Facility to provide a favorable adjustment for certain one-time acquisition and restructuring costs related to our consolidation to a single back-end speech recognition platform. In May 2012, we entered into a waiver agreement under the Senior Secured Credit Facility, which waived certain covenant requirements related to a potential acquisition.

The Company is required to comply with certain covenants under the Senior Secured Credit Facility. The Company was in compliance with the financial covenants as of June 30, 2012. The Company's ability to maintain compliance with its debt covenants depends in part on management's ability to increase revenues and control costs. Should the Company fail to comply with the financial covenants at a future measurement date, the Company would be in default under the Senior Secured Credit Facility and the lenders thereunder could exercise various options that they have under the agreements governing the Senior Secured Credit Facility including demanding immediate payment of all amounts outstanding under the Senior Secured Credit Facility or issuing a waiver.

5. Net Income per Share

Basic net income per share is computed by dividing net income by the weighted average number of shares outstanding during each period. Diluted net income per share is computed by dividing net income by the weighted average number of shares outstanding during each period, as adjusted for the dilutive effect of common stock equivalents, which consist of stock options, restricted stock units and certain obligations which may be settled by the Company through the issuance of shares using the treasury stock method.

The following table reflects the weighted average shares outstanding used to compute basic and diluted net income per share:

(dollars in thousands)	For the three months ended		For the six months ended June	
	June 30, 2012	2011	30, 2012	2011
Net income attributable to MModal Inc.	\$3,046	\$5,135	\$177	\$14,447
Less: amount attributable to principal stockholders	—	400	—	(6,619)
Net income available for common stockholders	\$3,046	\$5,535	\$177	\$7,828
Weighted average shares outstanding:				
Basic	55,280	49,168	55,134	45,128
Effect of dilutive stock	1,428	1,391	1,223	1,282
Diluted	56,708	50,559	56,357	46,410
Net income per common share:				
Basic	\$0.06	\$0.11	\$—	\$0.17
Diluted	\$0.05	\$0.11	\$—	\$0.17

The computation of diluted net income per share does not assume conversion, exercise or issuance of shares that would have an anti-dilutive effect on diluted net income per share. Potentially dilutive shares having an anti-dilutive effect on net income per share and, therefore, excluded from the calculation of diluted net income per share, totaled 2,000 and 344,000 shares for the three and six months ended June 30, 2012, respectively.

For the three and six months ended June 30, 2011, the net income for the purpose of the basic income per share was adjusted for the amounts payable to two principal stockholders under a terminated management services agreement. As a result of the termination of the agreement, 770,000 shares of common stock valued at \$6.2 million were issued in March 2011 to satisfy the obligation to one of the stockholders. The termination of the agreement related to the second stockholder was settled and paid in July 2011 for \$4.0 million.

6. Stockholders' Equity

Changes in the components of stockholders' equity from January 1, 2012 to June 30, 2012 are as follows:

(dollars in thousands)	Common stock shares outstanding	Common stock amount	Additional paid-in-capital	Accumulated deficit	Treasury stock	Accumulated other comprehensive loss	Total stockholders' equity
Balance, January 1, 2012	56,319	\$5,632	\$ 167,440	\$(44,382)	\$—	\$(3,639)	\$ 125,051
Net income attributable to MModal Inc.	—	—	—	177	—	—	177
Restricted shares	300	31	(31) —	—	—	—
Share-based compensation	—	—	5,309	—	—	—	5,309
Exercise of stock options including shares surrendered for employee tax liabilities	467	46	(1,661) —	—	—	(1,615
Tax benefits from stock compensation	—	—	1,969	—	—	—	1,969
Repurchase of common stock	(36) (4) 1,205	—	(1,022) —	179
Foreign currency translation adjustment	—	—	—	—	—	(1,127) (1,127
Other	—	—	100	—	—	—	100
Balance, June 30, 2012	57,050	\$5,705	\$ 174,331	\$(44,205)	\$(1,022)	\$(4,766)	\$ 130,043

Share-based Compensation

The Company recognizes compensation expense ratably over each quarterly service period at the market value of the Company's common stock on the grant date. For the six months ended June 30, 2012, the Company recorded share-based compensation expense related to restricted stock awards of \$3.3 million and restricted stock units of \$0.4 million, respectively. Share-based compensation expense also includes \$1.5 million associated with the acceleration of restricted stock vesting for terminated employees, as discussed under the 2011 Restructuring Plan in Note 7, Accrued Expenses. As of June 30, 2012, there was \$19.5 million of total unrecognized compensation cost related to future service periods for nonvested restricted stock awards and restricted stock units granted.

Restricted Stock Units

On May 3, 2012, the Company's Board of Directors (the "Board"), upon the recommendation of the Compensation Committee of the Board (the "Committee"), approved new forms of restricted stock unit award agreements for grants to executive officers under the Company's 2010 Equity Incentive Plan (the "Plan") for (a) time-based restricted stock unit awards (the "Time-Based RSU Agreement") and (b) performance-based restricted stock unit awards (the "Performance-Based RSU Agreement" and, together with the Time-Based RSU Agreement, the "RSU Agreements").

RSUs granted pursuant to a Time-Based RSU Agreement will vest generally on each of the first, second, and third anniversaries of the initial grant of the award, subject to continued employment with the Company. 33.3% of the RSUs will vest generally on each of the first and second anniversaries of the initial grant of the award, and 33.4% of the RSUs will vest generally on the third anniversary of the initial grant of the award. As soon as practicable after the applicable vesting date, RSUs that vest under the Time-Based RSU Agreement will be settled in shares of common

stock of the Company.

RSUs granted pursuant to a Performance-Based RSU Agreement will vest on the last day of the Performance Period (as defined in the Performance-Based RSU Agreement), subject to the achievement of performance goals for the Performance Period and continued employment with the Company. The number of RSUs that vest on the vesting date will be equal to the product of (a) the Target Award (as defined in the Performance-Based RSU Agreement) and (b) the Total Shareholder Return ("TSR") Multiplier (as determined by the Committee), provided the Threshold Performance Level (as determined by the Committee) is attained. As soon as practicable following the date on which the Committee certifies that the applicable TSR Performance (as defined in the Performance-Based RSU Agreement) as set by the Committee has been achieved, but in no event later than March 15 of the year following the year in which the vesting date occurs, RSUs that vest under the Performance-Based RSU Agreement will be settled in shares of our common stock.

Table of Contents MModal Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Per share data in whole dollars)

Unaudited

The recipient of RSUs under an RSU Agreement will not have rights of a stockholder, including dividend and voting rights, unless and until such RSUs are settled in shares of our common stock. Upon the termination of the recipient's employment or service with the Company, any unvested RSUs will generally be forfeited under the terms of the RSU Agreements; provided, however, that if (a) the recipient is terminated without cause (other than by reason of death or due to permanent disability) or (b) the conditions for vesting of RSUs under the recipient's employment agreement are satisfied, the RSUs will not be forfeited and will instead vest on the date a Release (as defined in the RSU Agreements) is executed by the recipient. Generally, the terms of a recipient's employment agreement will govern in the event of any conflict between the terms of such agreement and the applicable RSU Agreements.

The RSU Agreements also include a clawback provision in the event the recipient (a) engaged in fraud resulting in a financial restatement or (b) knowingly or through gross negligence engaged in misconduct resulting in such financial restatement. In such event, the recipient would be required to (i) forfeit any and all RSUs, whether or not vested, and any shares of common stock and cash proceeds received in settlement of such RSUs, and (ii) repay the sales proceeds from such shares during the three-year period preceding the date on which the Company first determines that it must prepare a financial restatement.

Grants of Equity Awards to Certain Named Executive Officers

On May 3, 2012, the Board, upon the recommendation of the Committee, approved a discretionary award of 91,687 restricted shares of common stock to Roger L. Davenport, our Chairman and Chief Executive Officer, in lieu of the Mr. Davenport's guaranteed 2011 cash bonus that he agreed to forgo. The shares will vest one-half on the first anniversary of the grant and one-half on the second anniversary of the grant, provided he remains continuously employed through that date and subject to full acceleration upon termination without cause, resignation with good reason or change in control of the Company.

On May 3, 2012, the Board, upon the recommendation of the Committee, granted time-based and performance-based RSUs under the Plan to certain executive officers. 260,808 Time-Based RSU's and 149,436 Performance-Based RSU's (target), respectively, were granted to such officers with an annual vesting date of April 1.

On June 14, 2012, the Board, upon the recommendation of the Committee, approved a discretionary award of 17,307 time-based RSUs and 5,769 performance-based RSUs (target) to the Company's Chief Financial Officer.

The grant date fair value of the time-based RSUs described in the preceding paragraphs was in a range from \$12.27 to \$13.00 per share. The grant date fair value of the performance-based RSU's was calculated at \$19.11 per share through the use of a Monte Carlo valuation model with the following inputs: contractual life of 3 years, expected volatility of 61.29%, dividend yield of -% and expected risk free interest rate of 0.40%.

Restricted Stock Awards

The Company has a stock incentive plan that provides for the grant of restricted stock awards to certain officers and employees. The awards of restricted stock to officers and employees typically vest quarterly over a three-year period from date of grant such that the officers or employees cannot sell or trade the restricted stock until it becomes vested. During the six months ended June 30, 2012, the Company granted 300,000 restricted shares to officers and employees with a grant date fair value in a range from \$9.96 to \$12.99 per share.

Treasury Stock Transactions

During the six months ended June 30, 2012, we reacquired 36,261 shares of our outstanding common stock. These shares were acquired from employees in connection with the vesting of restricted stock under our stock incentive plan. Since the vesting of a restricted stock award is a taxable event to our employees for which income tax withholding is required, the plan allows employees to surrender to us some of the shares that would otherwise have vested in satisfaction of their tax liability. The surrender of these shares is treated by us as a purchase of the shares and recorded as treasury stock. The payment of minimum tax withholding is reflected in financing activities in the accompanying Consolidated Statements of Cash Flows.

7. Accrued Expenses

Accrued expenses consisted of the following:

(dollars in thousands)	June 30, 2012	December 31, 2011
Other accrued expenses	\$9,134	\$19,045
Accrued taxes, primarily reserve for uncertain tax positions	8,652	7,293
Accrued interest	5,554	5,753
Accrued legal, accounting and professional fees	4,176	2,511
Restructure liability	2,735	5,126
Total accrued expenses	\$30,251	\$39,728

Restructuring Costs

A liability for restructuring costs associated with an exit or disposal activity is recognized and measured initially at fair value when the liability is incurred. We record a liability for severance costs when the obligation is attributable to employee service already rendered, the employees' rights to those benefits accumulate or vest, payment of the compensation is probable and the amount can be reasonably estimated. We record a liability for future, non-cancellable operating lease costs when we vacate a facility.

Our estimates of future liabilities may change, requiring us to record additional restructuring charges or reduce the amount of liabilities recorded. At the end of each reporting period, we evaluate the remaining accrued restructuring charges to ensure their adequacy, that no excess accruals are retained and the utilization of the provisions are for their intended purposes in accordance with developed exit plans.

We periodically evaluate currently available information and adjust our accrued restructuring reserve as necessary. Changes in estimates are accounted for as restructuring costs or credits in the period identified.

2011 Restructuring Plan

On March 31, 2011, the Company's board of directors adopted a restructuring plan to complete the integration of its acquired Spheris, Inc. ("Spheris") operations into MModal Inc. and to integrate MModal MQ Inc. with MModal Inc. ("2011 Restructuring Plan"). The 2011 Restructuring Plan was implemented throughout 2011, as management identified opportunities for synergies from the integration of MModal MQ Inc. into MModal Inc., including elimination of redundant functions. Further, the Company completed eight acquisitions in 2011, including MultiModal, which resulted in additional charges to the 2011 Restructuring Plan. For the six months ended June 30, 2012, the Company continued to incur charges under the 2011 Restructuring Plan. These charges were primarily related to \$3.3 million in severance costs (includes \$1.5 million accelerated vesting of restricted shares in share-based compensation). We expect the 2011 Restructuring Plan to be paid out throughout the remainder of 2012.

The table below reflects the financial statement activity related to the 2011 Restructuring Plan:

(dollars in thousands)	For the Six Months ended June 30, 2012	For the Year ended December 31, 2011
Beginning balance	\$4,963	\$—
Charges	3,504	10,847
Accelerated vesting of shares in share-based compensation	(1,478)) —
Cash paid	(4,231)) (5,742)
Other	(157)) (142)

Ending balance	\$2,601	\$4,963
----------------	---------	---------

2010 Restructuring Plan

Management's 2010 cost reduction initiatives, including process improvement, combined with the acquisition of Spheris, resulted in a restructuring plan ("2010 Restructuring Plan") involving staff reductions and other actions designed to maximize operating efficiencies. We expect the 2010 Restructuring Plan to be paid out throughout the remainder of 2012.

The table below reflects the financial statement activity related to the 2010 Restructuring Plan.

(dollars in thousands)	For the Six Months ended June 30, 2012	For the Year ended December 31, 2011
Beginning balance	\$ 163	\$ 2,071
Charges	(8) 179
Cash paid	(176) (1,067
Other	155	(1,020
Ending balance	\$ 134	\$ 163

8. (Benefit) Cost of Legal Proceedings, Settlements and Accommodations

The following is a summary of the amounts recorded as (benefit) cost of legal proceedings, settlements and accommodations in the accompanying Consolidated Statements of Operations:

(dollars in thousands)	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Legal fees and recoveries	\$(211) \$581	\$329	\$2,726
Accommodation reversal	—	—	—	(9,658
Total	\$(211) \$581	\$329	\$(6,932

In November 2003, one of the Company's employees raised allegations that the Company had engaged in improper billing practices. In response, the Company's board of directors undertook an independent review of these allegations. In response to its customers' concern over the public disclosure of certain findings from such review, the Company made the decision in the fourth quarter of 2005 to take action to try to avoid litigation and preserve and solidify its customer business relationships by offering a financial accommodation to certain of our customers. In connection with the decision to offer financial accommodations to certain of its customers ("Accommodation Customers"), the Company analyzed its historical billing information and the available report-level data to develop individualized accommodation offers to be made to Accommodation Customers ("Accommodation Analysis"). Based on the Accommodation Analysis, the Company's board of directors authorized management to make cash or credit accommodation offers to Accommodation Customers in the aggregate amount of \$75.8 million ("Customer Accommodation Program"). By accepting the accommodation offer, the Accommodation Customers agreed, among other things, to release the Company from any and all claims and liability regarding the billing related issues. On March 31, 2011, the Company's board of directors terminated the Customer Accommodation Program. As a result, substantially all amounts that had not been offered to Accommodation Customers were reversed.

In June 2012, the Company received insurance proceeds related to previous litigation costs totaling \$0.2 million, resulting in a net benefit of \$0.2 million in legal proceedings, settlements and accommodations for the three months ended June 30, 2012.

9. Income Taxes

In January 2011, we re-domiciled from a British Virgin Island company to a Delaware corporation. For the three months ended June 30, 2012, our effective tax rate was 21.5%. This rate differs from the statutory rate of 35% primarily due to permanent differences related to acquisition-related charges, domestic taxation of certain foreign earnings, and discrete tax expense recorded on the gain on sale of an investment. For the three months ended June 30, 2011, our effective tax rate was 14.1%. This rate differs from the statutory rate of 35% primarily due to the increase in deferred tax liabilities for indefinite lived intangibles and valuation allowance on deferred tax assets.

For the six months ended June 30, 2012, our effective tax rate was 175%. This rate differs from the statutory rate of 35% primarily due to permanent differences related to acquisition-related charges domestic taxation of certain foreign earnings, and discrete tax expense recorded on the gain on sale of an investment. For the six months ended June 30, 2011, our effective tax rate was 11.1%. This rate differs from the statutory rate of 35% primarily due to the increase in deferred tax liabilities for indefinite lived intangibles and valuation allowance on deferred tax assets.

The income tax provision (benefit) for the three and six months ended June 30, 2012 includes \$0.5 million for tax expense related to fiscal year 2011.

10. Commitments and Contingencies

MModal Inc. Shareholder Litigation

On July 6, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned Alan Kahn v. Roger L. Davenport, et al., Case No. 7675-VCP, in connection with the proposed merger transaction discussed in Note 1, Basis of Presentation, above. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC and its affiliates, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Kahn action purports to be brought individually and on behalf of the public stockholders of the Company. The Kahn complaint contains allegations that the individual directors breached their fiduciary obligations because they (i) agreed to a flawed process that precluded the emergence of competing bidders and whereby the Company's financial advisor was not independent; and (ii) failed to maximize stockholder value. The Kahn complaint further alleges that One Equity Partners, LLC and Legend Parent, Inc. aided and abetted those alleged breaches of fiduciary duty. The Kahn action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

On July 9, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned Edward Forstein, v. MModal Inc. et al., Case No. 7680-VCP, in connection with the proposed merger transaction discussed in Note 1, Basis of Presentation, above. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Forstein action purports to be brought individually and on behalf of the public stockholders of the Company. The Forstein complaint contains allegations that the individual directors breached their fiduciary obligations because (i) one of the Company's financial advisors was materially conflicted; (ii) the Company's largest stockholder had different interests than the Company's public stockholders; (iii) they agreed to preclusive deal protection provisions; and (iv) the individual directors failed to maximize stockholder value. The Forstein complaint further alleges that One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. aided and abetted

those alleged breaches of fiduciary duty. The Forstein action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

Table of Contents MModal Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Per share data in whole dollars)

Unaudited

On July 10, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned *Scott Phillips v. Roger L. Davenport, et al.*, Case No. 7685-VCP, in connection with the proposed merger transaction discussed in Note 1, Basis of Presentation, above. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Phillips action purports to be brought individually and on behalf of the public stockholders of the Company. The Phillips complaint contains allegations that the individual directors breached their fiduciary duty because (i) they failed to take steps to maximize the value of the Company to its public shareholders and took steps to avoid competitive bidding; (b) they did not properly value the Company; and (c) they ignored or did not protect against the numerous conflicts of interest resulting from the directors' own interrelationships or connection with the merger transaction. The Phillips complaint further alleges the Company, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. aided and abetted those alleged breaches of fiduciary duty. The Phillips action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

On July 17, 2012, a proposed order of consolidation was submitted to the Court of Chancery of the State of Delaware for approval, pursuant to which, inter alia, each of the previously-filed lawsuits, described above, would be consolidated into one action, captioned *In re MModal Inc. Shareholder Litigation, Consolidated C.A. No. 7675-VCP*. On July 18, 2012, the Court of Chancery of the State of Delaware granted the order of consolidation.

On July 24, 2012, an amended putative class action lawsuit was filed in the Court of Chancery of the State of Delaware, captioned *In re MModal Inc. Shareholder Litigation, Consolidated Civil Action No. 7675-VCP* (which we refer to as the "Consolidated Complaint"). In addition to re-asserting the previously-asserted allegations and claims against the previously-named defendants, the Consolidated Complaint: (i) names certain funds affiliated with S.A.C. Private Capital Group LLC (the "SAC PCG Funds") as defendants, (ii) alleges that the support agreement entered into between the Company and the SAC PCG Funds gives rise to claims of breach of fiduciary duty against the Company's board of directors and to claims of aiding and abetting breach of fiduciary duty against One Equity Partners, LLC, Legend Parent, Inc., Legend Acquisitions Sub, Inc. and the SAC PCG Funds and (iii) alleges that the Company's board of directors breached its fiduciary duty via materially incomplete and misleading disclosures in the Schedule 14D-9 filed on July 17, 2012, as amended (specifically focusing on (a) the timing and content of any post-transaction employment discussions with senior management, (b) certain aspects of Macquarie Capital's (the Company's financial advisor) valuation work, (c) all services performed by Macquarie Capital for the Company and One Equity Partners LLC and its affiliates over the past two years and (d) which directors of the Company are principals in the fund in which Macquarie Capital has made a \$15 million investment). The Consolidated Complaint seeks substantially similar relief as the previously filed lawsuits described above. On July 27, 2012, plaintiffs filed a motion for expedited proceedings, and papers in support thereof, as well as a motion to enjoin consummation of the proposed merger transaction.

The Company believes that the Consolidated Complaint lacks merit, and intends to defend the case vigorously. Because this matter is in an early stage, the Company cannot estimate the possible loss or range of loss, if any, associated with its ultimate resolution.

Facilities Lease

On May 17, 2012, the Company entered into a new lease agreement ("lease") with RDU Center III LLC related to its offices totaling 18,350 square feet in Raleigh, NC. The lease will commence on the earlier of November 1, 2012 and "Substantial Completion of the Initial Improvements" as defined in the lease, and expires ninety-five months from the beginning of the lease term. The annual rental payments approximate \$0.4 million per year with no required payments

during the first eleven months, resulting in aggregate lease payments of approximately \$3.1 million.

Termination Payment

The Company received a non-recurring \$5.4 million payment in March 2012 for the termination of an agreement that is recorded as deferred revenue and is being recognized as revenue over the original eighteen-month term of the contract. At June 30, 2012, the remaining unamortized balance was \$4.2 million.

11. Fair Value Measurements

Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, FASB ASU 820, Fair Value Measurements and Disclosures ("ASU 820") establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs that are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Derivative Financial Instruments

The Company uses interest rate cap contracts to manage its interest rate risk. As of June 30, 2012, the Company had interest rate cap contracts for \$60.0 million in notional amounts, which amortize over time and expire in January 2013, to limit the risk of increase of fluctuation in interest rates. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate caps are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. To comply with the provisions of ASU 820, the Company incorporates credit valuation adjustments to appropriately reflect the respective counterparty's nonperformance risk in the fair value measurements.

The Company also uses foreign exchange forward cover contracts and option contracts to manage its foreign exchange risk. The Company commenced utilization of the option contracts in April 2012. As of June 30, 2012, the Company had foreign exchange forward cover contracts and option contracts for \$14.6 million of notional amounts, which expire through August 2012, to limit the risk of fluctuation in foreign exchange rates on the Indian rupee. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including foreign exchange forward rates and implied volatilities. To comply with the provisions of FASB ASU 820, the Company incorporates credit valuation adjustments to appropriately reflect the respective counterparty's nonperformance risk in the fair value

measurements.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with these derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by its counterparties. For counterparties with publicly available credit information, the credit spreads over LIBOR used in the calculations represent implied credit default swap spreads obtained from a third party credit data provider. However, as of June 30, 2012, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its valuations for the foreign currency exchange contracts and options contracts in their entirety are classified in Level 2 of the fair value hierarchy.

Table of Contents MModal Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Per share data in whole dollars)
Unaudited

The Company's (liabilities)/assets measured at fair value on a recurring basis were as follows:

(in thousands)	Balance at June 30, 2012
Foreign currency forward cover contracts	\$(1,254)
Foreign currency options contracts	\$55

These contracts are not designated for hedge accounting treatment and therefore, the Company records the fair value of these agreements as an asset or liability and the change in fair value at each reporting period as an adjustment in the Consolidated Statements of Operations. The interest rate derivatives are classified in other assets, and gains and losses are recorded in interest expense, net.

For the three months ended June 30, 2012, the Company recognized \$1.4 million in net realized losses from the settlement of the foreign currency forward cover contracts and options contracts, partially offset by \$0.7 million in net unrealized gains on such contracts (resulting from changes in their fair value). For the six months ended June 30, 2012, the Company recognized \$3.5 million in unrealized gains on the foreign exchange forward cover contracts and option contracts (resulting from changes in their fair value), partially offset by realized losses of \$2.3 million related to the settlement on such contracts. These amounts were classified in other income in the Consolidated Statements of Operations.

12. Acquisition and Restructuring

The following is a summary of the amounts recorded in the accompanying consolidated Statements of Operations:

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Acquisition and integration-related costs	\$4,721	\$2,371	\$12,877	\$3,838
Restructuring charges	566	2,020	3,496	7,431
Total	\$5,287	\$4,391	\$16,373	\$11,269

Acquisition and integration-related ("A&I") costs and restructuring charges for the three months ended June 30, 2012 consisted primarily of accelerated amortization charges of \$1.4 million related to the reassessed useful life of the Nuance prepaid licensing fees (discussed below under "Agreement with Nuance Communications, Inc."), \$1.3 million in legal and accounting fees, \$1.1 million in A&I consulting fees, \$0.5 million in severance costs and net increases in other miscellaneous A&I costs and restructuring charges. A&I and restructuring charges for the three months ended June 30, 2011 related primarily to the continued integration of Spheris, which we acquired in April 2010, and the continued integration of MModal MQ Inc. into MModal Inc.

A&I costs and restructuring charges for the six months ended June 30, 2012 consisted primarily of accelerated amortization charges of \$5.0 million related to the reassessed useful life of the Nuance prepaid licensing fees, \$3.6 million in legal and accounting fees, \$3.3 million in severance costs (includes \$1.5 million accelerated vesting of restricted shares in share-based compensation), \$1.6 million in A&I consulting fees, \$0.8 million in rebranding costs, \$0.7 million in sign-on bonuses and net increases in other miscellaneous A&I costs and restructuring charges. A&I and restructuring charges for the six months ended June 30, 2011 related primarily to the continued integration of Spheris, which we acquired in April 2010, and the continued integration of MModal MQ Inc. into MModal Inc.

Notes to Consolidated Financial Statements

(Per share data in whole dollars)

Unaudited

Agreement with Nuance Communications, Inc.

On June 30, 2011, MModal MQ Inc. and Nuance Communications, Inc. ("Nuance") entered into an agreement whereby MModal MQ Inc. agreed to pay Nuance an agreed upon amount in full satisfaction of MModal MQ Inc.'s license fee obligations with respect to certain products through June 30, 2015. MModal MQ Inc. also agreed to pay Nuance for one year of maintenance services to be provided by Nuance to MModal MQ Inc. with respect to the licensed products. The maintenance services will automatically renew for successive one-year terms unless canceled in writing by MModal MQ Inc. prior to the annual renewal date or the underlying agreement expires. The installments due under the agreement were paid during the second and third quarters of 2011.

During the fourth quarter of 2011, we began execution of a plan for consolidation to a single back-end speech recognition platform, the MultiModal platform. The transition is expected to be completed during the second quarter of 2013. Accordingly, we reassessed the useful life of the prepaid licensing fees and will record the expense over the new useful life. The amount related to utilization in production is charged to cost of revenues while the excess expense is charged to acquisition and restructuring. As a result, for the three months ended June 30, 2012, we recorded \$1.2 million of expense in cost of revenues and \$1.4 million of expense in A&I and restructuring. For the six months ended June 30, 2012, we recorded \$2.5 million of expense in cost of revenues and \$5.0 million of expense in A&I and restructuring. The remaining portion of the prepaid licensing fees of \$5.7 million was classified in other current assets in the accompanying Consolidated Balance Sheets at June 30, 2012. During the remainder of the transition, we expect the majority of expense related to this transition to be classified as A&I costs and restructuring charges.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains forward-looking statements that are based on current expectations, estimates, forecasts and projections about us, the industry in which we operate and other matters, as well as management's beliefs and assumptions and other statements regarding matters that are not historical facts. These statements include, in particular, statements about our plans, strategies and prospects. For example, when we use words such as "projects," "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "should," "would," "could," "will," "opportunity," "potential" or "may," variations of such words or other words that convey uncertainty of future events or outcomes, we are making forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"). Our forward-looking statements are subject to risks and uncertainties. Actual events or results may differ materially from the results anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors that could cause actual results to differ materially from those estimated by us include the risk factors set forth in the in the 2011 Form 10-K as modified or supplemented with the risk factors listed under Item 1A of Part II of this Quarterly Report on Form 10-Q. These and other risks and uncertainties that could affect our actual results are discussed in this report and in our other filings with the SEC.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, events, levels of activity, performance, or achievements. We do not assume responsibility for the accuracy and completeness of the forward-looking statements other than as required by applicable law. We do not undertake any duty to update any of the forward-looking statements after the date of this report to conform them to actual results, except as required by the federal securities laws.

You should read this section in combination with the section entitled Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2011, included in the 2011 Form 10-K.

Critical Accounting Policies

There have been no material changes in our critical accounting policies, judgments or estimates as disclosed in our 2011 Form 10-K.

Executive Overview

We are a leading provider of clinical documentation solutions providing clinical narrative capture services, Speech and Language Understanding™ technology and clinical documentation workflow solutions for the healthcare industry. Our end-to-end technology-enabled solutions convert the physicians' dictation into a comprehensive patient story through high-quality clinical documentation with rich context that can be leveraged across a healthcare enterprise for reimbursement, clinical decision support, business intelligence and distribution.

We provide comprehensive dictation and transcription solutions and services that automate the input and management of medical information. Our cloud-based solutions provide platforms to generate and distribute clinical documentation through the use of advanced dictation and transcription, and allow us to deliver scalable, highly productive medical transcription solutions. Our solutions also enable us to accelerate future innovation to transform the way healthcare providers document patient care, through improved interface with electronic medical records and extraction of clinical information to support the billing and insurance reimbursement processes. We also offer speech recognition solutions for radiology, cardiology, pathology and related specialties, that help healthcare providers dictate, edit and sign reports without manual transcription.

Our innovative solutions provide for a deeply valuable medical record that is contextually important in driving clinical decisions from analytical data available directly to the caregiver and provides for collaborative intelligence through services and technology that facilitate engagement among all stakeholders in the healthcare ecosystem.

Key Factors Affecting Our Performance

Acquisitions

During the six months ended June 30, 2012, we acquired two businesses for a total cash consideration of \$4.6 million, including \$3.1 million in cash paid on the date of acquisition and \$1.5 million in deferred acquisition payments that will be paid within one year. These acquisitions were not material to the Company, individually or in the aggregate. On August 18, 2011, we completed a merger with MultiModal. The merger provided us ownership of speech and natural language understanding technologies, and facilitated consolidation to a single back-end speech recognition platform, provided a broader product offering to local and regional transcription partners and leveraged cloud-based services to enhance gross margins. Subsequent to the merger, we made seven additional acquisitions in 2011, none of which were individually material.

We believe that there are significant opportunities available to create value through strategic acquisitions. We intend to seek appropriate opportunities to expand our customer base, enhance or expand our solutions, incorporate synergy opportunities and expand our value proposition to our customers.

Agreement with Nuance Communications, Inc.

On June 30, 2011, MModal MQ Inc. and Nuance Communications, Inc. ("Nuance") entered into an agreement whereby MModal MQ Inc. agreed to pay Nuance an agreed upon amount in full satisfaction of MModal MQ Inc.'s license fee obligations with respect to certain products through June 30, 2015. MModal MQ Inc. also agreed to pay Nuance for one year of maintenance services to be provided by Nuance to MModal MQ Inc. with respect to the licensed products. The maintenance services will automatically renew for successive one-year terms unless canceled in writing by MModal MQ Inc. prior to the annual renewal date or the underlying agreement expires. The installments due under the agreement were paid during the second and third quarters of 2011.

During the fourth quarter of 2011, we began execution of a plan for consolidation to a single back-end speech recognition platform, the MultiModal platform. The transition is expected to be completed during the second quarter of 2013. Accordingly, we reassessed the useful life of the prepaid licensing fees and will record the expense over the new useful life. The amount related to utilization in production is charged to cost of revenues while the excess expense is charged to acquisition and restructuring. As a result, for the three months ended June 30, 2012, we recorded \$1.2 million of expense in cost of revenues and \$1.4 million of expense in A&I and restructuring. For the six months ended June 30, 2012, we recorded \$2.5 million of expense in cost of revenues and \$5.0 million of expense in A&I and restructuring. The remaining portion of the prepaid licensing fees of \$5.7 million was classified in other current assets in the accompanying Consolidated Balance Sheets at June 30, 2012. During the remainder of the transition, we expect the majority of expense related to this transition to be classified as A&I costs and restructuring charges.

U.S. Initial Public Offering

In February 2011, we completed our U.S. initial public offering of common stock selling 3 million shares of our common stock and 1.5 million shares of our common stock owned by selling stockholders at an offer price of \$8.00, resulting in gross proceeds to us of \$24.0 million and net proceeds to us after underwriting fees of \$22.3 million.

Change in Company Name and Ticker Symbol

Effective January 23, 2012, we changed our name from MedQuist Holdings, Inc. to MModal Inc. The name change was effected pursuant to Section 253 of the Delaware General Corporation Law ("DGCL") through the Company's merger with a newly formed wholly-owned subsidiary which, under the DGCL, does not require stockholder approval. Pursuant to Section 253 of the DGCL, such merger had the effect of amending the Company's Certificate of

Incorporation to reflect the new legal name of the Company. The Company also amended the Company's By-laws, effective as of the same date, to reflect the name change.

On January 25, 2012, the Company's common stock, which trades on the NASDAQ Global Select Market, ceased trading under the ticker symbol "MEDH" and commenced trading under the ticker symbol "MODL."

Merger with MModal MQ Inc.

In October 2011, we completed the MModal MQ Merger with MModal MQ Inc. (formerly MedQuist Inc.), resulting in MModal MQ Inc. becoming our indirect wholly-owned subsidiary and MModal MQ Inc. common stock no longer trading on the OTCQB or on any other market. As a result of the MModal MQ Merger, the remaining approximately 3% issued and outstanding shares of MModal MQ Inc. not held by us were canceled and converted to the right to receive one share of our common stock. The MModal MQ Merger resulted in a reclassification from noncontrolling interest to common stock and additional paid-in-capital.

Merger Agreement

On July 2, 2012, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Legend Parent, Inc., a Delaware corporation ("Parent"), and Legend Acquisition Sub, Inc., a Delaware corporation and a wholly-owned subsidiary of Parent ("Merger Sub"). Parent and Merger Sub are affiliates of One Equity Partners V, L.P., a Cayman Islands exempted limited partnership ("OEP").

Pursuant to the Merger Agreement, upon the terms and subject to the conditions thereof, Merger Sub commenced a tender offer on July 17, 2012 (the "Offer") to purchase all of the outstanding shares of common stock of the Company at a purchase price of \$14.00 per share, net to the seller thereof in cash (the "Offer Price"), without interest thereon and subject to any applicable withholding taxes. The transaction is expected to close during the third quarter of 2012.

After the consummation of the Offer and subject to the satisfaction or waiver of certain conditions set forth in the Merger Agreement, Merger Sub will merge with and into the Company (the "Merger") with the Company being the surviving corporation. The Merger Agreement also provides that the Merger may be consummated regardless of whether the Offer is completed, but if the Offer is not completed, the Merger will only be able to be consummated after a majority of the stockholders of the Company have adopted the Merger Agreement at a meeting of stockholders. In the Merger, each share of Company common stock issued and outstanding, other than shares of Company common stock held by the Company as treasury stock, by Parent or Merger Sub or by stockholders who have properly demanded appraisal under Delaware law, will be converted into the right to receive an amount in cash equal to the Offer Price, without interest thereon and subject to any applicable withholding of taxes.

The Merger Agreement contains certain termination rights for both the Company and Parent, including, among others, if the Merger is not consummated on or before December 31, 2012. Upon termination of the Merger Agreement under specified circumstances, including a termination by the Company to enter into an agreement for an alternative transaction pursuant to a Superior Proposal (as defined in the Merger Agreement), the Company has agreed to pay Parent a termination fee of \$28.7 million. If the Merger Agreement is terminated by Parent or the Company following failure to obtain Company stockholder approval for the transaction, the Company will be required to reimburse Parent's expenses incurred in connection with the Merger Agreement and the transactions contemplated thereby up to a maximum amount of \$8.2 million.

The Merger Agreement also provides that Parent will pay, or cause to be paid, to the Company an amount equal to \$57.5 million if the Company terminates the Merger Agreement under certain circumstances, including as a result of (i) Parent's failure to consummate the Offer if all Offer conditions have been satisfied (other than those that by their nature will be satisfied by actions taken at the closing of the Merger), (ii) Parent's failure to consummate the Merger if all conditions to the obligations of Parent and Merger Sub to close the Merger have been satisfied (other than those that by their nature will be satisfied by actions taken at the closing of the Merger) and the Marketing Period (as defined in the Merger Agreement) has expired, or (iii) Parent's material uncured breach of the Merger Agreement that is the principal factor in the failure of the Offer or the Merger, as the case may be, to be consummated.

On July 2, 2012, in connection with the Merger Agreement, investment funds affiliated with S.A.C. Private Capital Group LLC, collectively the Company's largest stockholder owning approximately 31% of the outstanding shares of

Company common stock in the aggregate, entered into a support agreement with Parent and Merger Sub under which they agreed to tender all of their shares into the Offer and to support the Merger. The support agreement will terminate upon certain circumstances, including upon termination of the Merger Agreement.

Volume and pricing trends

Providing clinical documentation and technology services to our customers generates the vast majority of our revenue. We measure the volume associated with such services using the number of lines and line equivalents that are billed for the period, as defined by a customer's contract, including volume transcribed or edited on our transcription platforms, as well as ASR volume. Product sales and related maintenance contracts and implementation services make up the balance of our net revenues.

We base our pricing on various factors, principally market forces, the extent to which we can utilize our offshore production facilities, the extent to which customers utilize the ASR technology available in our solutions, the scope of services provided, and turnaround times requested. We work with our customers to evaluate how different solutions affect pricing and to determine the optimal mix of service level and price for them. Higher utilization of offshore production and ASR leads to lower costs for us, which permits us to offer better pricing to our customers while at the same time contributing to margin growth. We have successfully migrated a significant portion of our volume offshore and we will continue these efforts.

As technological advances and increased use of offshore resources have driven down industry costs, the average price per character has also declined as healthcare providers have sought to participate in the economic gains. We intend to monitor and adjust our pricing accordingly to remain competitive as these industry trends continue.

Operating improvements

Cost of revenues on a per unit basis has declined compared to the prior year period due to the increased percentage of volume produced offshore and increased utilization of ASR technology, as well as a shift in other staffing offshore in order to further reduce operating costs. We increased our offshore production volumes from 42% for the three months ended June 30, 2011 to 47% for the three months ended June 30, 2012. We also increased our use of ASR technology from 74% to 77% during the same period. We increased our offshore production volumes from 42% for the six months ended June 30, 2011 to 48% for the six months ended June 30, 2012. We also increased our use of ASR technology from 73% to 76% for the six months ended June 30, 2012. As we continue to increase the use of ASR technology and move production volume offshore, we expect to continue to reduce costs.

Adjusted EBITDA

Adjusted EBITDA was \$24.9 million, or 21.4% of net revenues, for the three months ended June 30, 2012, compared to \$27.6 million, or 25.4% of net revenues, for the same period in 2011. Adjusted EBITDA was \$51.4 million, or 22.0% of net revenues, for the six months ended June 30, 2012, compared to \$54.3 million, or 24.7% of net revenues, for the same period in 2011. Adjusted EBITDA is a non-GAAP financial measure. See section "Adjusted EBITDA (Non-GAAP Financial Measure)" below for further discussion of this financial measure.

Consolidated Results of Operations

The following table sets forth our Consolidated Results of Operations for the three months ended June 30, 2012 and 2011:

Net income attributable to MModal Inc.	\$3,046	2.6	% \$5,135	4.7	% \$(2,089)) (2.1)%

Net revenues

Net revenues were \$116.0 million for the three months ended June 30, 2012, compared with \$108.4 million for the three months ended June 30, 2011, representing a \$7.6 million increase. The increase is primarily due to the ten acquisitions we made beginning in the second half of 2011 through the first half of 2012, which contributed revenues of \$18.2 million (MultiModal contributed revenues of \$9.3 million) during the three months ended June 30, 2012. These increases in net revenues were partially offset by a deterioration in our base business, due to both a loss of customers and pricing pressures, versus the three months ended June 30, 2011.

Cost of Revenues

Cost of revenues were \$65.2 million for the three months ended June 30, 2012, compared with \$65.5 million for the three months ended June 30, 2011. As a percentage of net revenues, cost of revenues decreased to 56.2% for the three months ended June 30, 2012, compared to 60.4% for the same period in 2011. This decrease was primarily due to sales of higher margin products and increased utilization of speech recognition technologies, increased utilization of offshore resources and other cost reduction initiatives.

Selling, general and administrative ("SG&A")

SG&A expenses were \$23.6 million for the three month period ended June 30, 2012, compared to \$14.2 million for the three months ended June 30, 2011. The increase is primarily due to increases of \$2.2 million in salaries and sign-on bonuses for executive new hires and sales staff, an increase in share-based compensation of \$1.6 million, the MultiModal acquisition (which contributed SG&A expense of \$1.4 million), \$0.5 million incurred for acquisitions since the MultiModal acquisition and net increases in various other SG&A items.

Research & development ("R&D")

R&D expenses were \$3.6 million for the three months ended June 30, 2012, compared with \$2.2 million for the three months ended June 30, 2011. R&D expenses as a percentage of net revenues were 3.1% for the three months ended June 30, 2012, compared to 2.0% for the same period in 2011. The increase was due to the MultiModal Merger (which contributed R&D expense of \$1.5 million).

Depreciation and amortization

Depreciation and amortization was \$12.2 million for the three months ended June 30, 2012, compared with \$8.9 million for the three months ended June 30, 2011. This increase is primarily due to the amortization of acquired intangible assets related to the acquisitions completed by us during the second half of 2011 and the first half of 2012.

(Benefit) cost of legal proceedings, settlements and accommodations

(Benefit) cost of legal proceedings, settlements and accommodations was a benefit of \$0.2 million for the three months ended June 30, 2012, compared to a cost of \$0.6 million for the three months ended June 30, 2011. This decrease was primarily due to an insurance settlement the Company received during the three months ended June 30, 2012 related to previous litigation costs.

Acquisition and integration ("A&I") and restructuring

Acquisition and integration-related ("A&I") costs and restructuring charges for the three months ended June 30, 2012 consisted primarily of accelerated amortization charges of \$1.4 million related to the reassessed useful life of the Nuance prepaid licensing fees (discussed above under "Agreement with Nuance Communications, Inc."), \$1.3 million in legal and accounting fees, \$1.1 million in A&I consulting fees, \$0.5 million in severance costs and net increases in other miscellaneous A&I costs and restructuring charges. A&I and restructuring charges for the three months ended June 30, 2011 related primarily to the continued integration of Spheris, which we acquired in April 2010, and the continued integration of MModal MQ Inc. into MModal Inc.

Other income

Other income was \$0.8 million for the three months ended June 30, 2012, compared with \$0.5 million for the three months ended June 30, 2011. The increase in other income was primarily due to a gain of \$1.5 million related to the

revaluation of the Indian rupee between the Company (denominated in USD) and certain of its foreign subsidiaries (denominated in Indian rupee) and a \$0.5 million increase in unrealized foreign exchange gains on the Indian rupee (resulting from changes in the fair value of our foreign exchange forward cover contracts and option contracts), partially offset by an increase on realized losses of \$1.8 million related to the settlement of such contracts. We began use of the option contracts in April 2012.

Gain on sale of investment

In October 2010, we sold our shares related to an investment in a former affiliated company for cash consideration of \$23.6 million, of which \$4.4 million was held in escrow pursuant to the terms of the agreement. In May 2012, the \$4.4 million was released from escrow, and was recorded as a gain in the Consolidated Statements of Operations.

Interest expense, net

Interest expense, net, was \$7.7 million for the three months ended June 30, 2012, compared to \$7.0 million for the three months ended June 30, 2011. The increase in interest expense, net, is primarily due to accretion of deferred acquisition payments during the three months ended June 30, 2012.

Income tax provision

As part of the process of preparing our unaudited condensed consolidated financial statements, we are required to estimate our full-year income and the related income tax expense in each jurisdiction in which we operate. Changes in the geographical mix or estimated level of annual pretax income can impact our effective tax rate or income taxes as a percentage of pretax income. This process involves estimating our current tax liabilities in each jurisdiction in which we operate, including the impact, if any, of additional taxes resulting from tax examinations, as well as making judgments regarding the recoverability of deferred tax assets. Our provision for income taxes is subject to volatility and could be adversely impacted by earnings being lower than anticipated in jurisdictions that have lower tax rates and higher than anticipated in jurisdictions that have higher tax rates.

Tax liabilities can involve complex issues and may require an extended period to resolve. To the extent that the recovery of deferred tax assets does not reach the threshold of "more likely than not" based on our estimate of future taxable income in each jurisdiction, a valuation allowance is established. The assessment of the amount and timing of future taxable income involves significant estimates and management judgment. While we have considered future taxable income and the existence of prudent and feasible tax planning strategies in assessing the need for a valuation allowance, in the event we were to determine that we would not be able to realize all or part of our net deferred tax assets in the future, we would charge to income an adjustment resulting from the establishment of a valuation allowance in the period such a determination was made and such adjustment may be material.

In January 2011, we re-domiciled from a British Virgin Island company to a Delaware corporation. For the three months ended June 30, 2012, our effective tax rate was 21.5%. This rate differs from the statutory rate of 35% primarily due to permanent differences related to acquisition-related charges, domestic taxation of certain foreign earnings, and discrete tax expense recorded on the gain on sale of an investment. For the three months ended June 30, 2011, our effective tax rate was 14.1%. This rate differs from the statutory rate of 35% primarily due to the increase in deferred tax liabilities for indefinite lived intangibles and valuation allowance on deferred tax assets.

Net income attributable to noncontrolling interests

In accordance with the terms of the stipulation of settlement entered into in connection with the settlement of certain MModal MQ Inc. stockholder litigation, on October 18, 2011, we completed a short form merger with MModal MQ Inc. ("Short Form Merger"), resulting in MModal MQ Inc. becoming our indirect wholly-owned subsidiary and MModal MQ Inc. common stock no longer trading on the OTCQB or on any other market. As a result of the Short Form Merger, the remaining approximately 3% issued and outstanding shares of MModal MQ Inc. not held by us were canceled and converted in the Short Form Merger into the right to receive one share of our common stock. In the Short Form Merger, we issued an additional 1.2 million shares of our common stock. We now own 100% of MModal MQ Inc. The Short Form Merger resulted in a reclassification from noncontrolling interest to common stock and additional paid-in-capital in the fourth quarter of 2011.

Net revenues

Net revenues were \$233.4 million for the six months ended June 30, 2012, compared with \$219.7 million for the six months ended June 30, 2011, representing a \$13.7 million increase. The increase is primarily due to the ten acquisitions we made beginning in the second half of 2011 through the first half of 2012, which contributed revenues of \$32.8 million (MultiModal contributed revenues of \$15.2 million) during the six months ended June 30, 2012. These increases in net revenues were partially offset by a deterioration in our base business, due to both a loss of customers and pricing pressures, versus the six months ended June 30, 2011.

Cost of revenues

Cost of revenues were \$131.6 million for the six months ended June 30, 2012, compared with \$131.5 million for the six months ended June 30, 2011. As a percentage of net revenues, cost of revenues decreased to 56.4% for the six months ended June 30, 2012, compared to 59.8% for the same period in 2011. This decrease was primarily due to sales of higher margin products and increased utilization of speech recognition technologies, increased utilization of offshore resources and other cost reduction initiatives.

SG&A

SG&A expenses were \$45.8 million for the six month period ended June 30, 2012, compared to \$30.9 million for the six months ended June 30, 2011. The increase is primarily due to increased salaries and sign-on bonuses for executive new hires and sales staff of \$5.9 million, the MultiModal acquisition (which incurred \$3.0 million in SG&A), an increase in share-based compensation of \$2.5 million, \$1.1 million in the management incentive program accrual, \$1.0 million incurred for acquisitions since the MultiModal acquisition and net increases in various other SG&A items.

R&D

R&D expenses were \$6.6 million for the six months ended June 30, 2012, compared with \$4.9 million for the six months ended June 30, 2011. R&D expenses as a percentage of net revenues were 2.8% for the six months ended June 30, 2012, compared to 2.2% for the same period in 2011. The increase was due to MultiModal, which contributed R&D expense of \$2.3 million.

Depreciation and amortization

Depreciation and amortization was \$24.5 million for the six months ended June 30, 2012, compared with \$17.3 million for the six months ended June 30, 2011. This increase is primarily due to the amortization of acquired intangible assets related to the acquisitions completed by us during the second half of 2011 and first half of 2012.

Cost (benefit) of legal proceedings, settlements and accommodations

Cost (benefit) of legal proceedings, settlements and accommodations was a cost of \$0.3 million for the six months ended June 30, 2012, compared to a benefit of \$6.9 million for the six months ended June 30, 2011. During the first quarter of 2011, we reversed \$9.7 million of the Customer Accommodation Program ("Program") accrual, as the MModal MQ Inc. board of directors terminated the Program on March 31, 2011.

A&I and restructuring

A&I costs and restructuring charges for the six months ended June 30, 2012 consisted primarily of accelerated amortization charges of \$5.0 million related to the reassessed useful life of the Nuance prepaid licensing fees (discussed above under "Agreement with Nuance Communications, Inc."), \$3.6 million in legal and accounting fees, \$3.3 million in severance costs (includes \$1.5 million accelerated vesting of restricted shares in share-based compensation), \$1.6 million in A&I consulting fees, \$0.8 million in rebranding costs, \$0.7 million in sign-on bonuses and net increases in other miscellaneous A&I costs and restructuring charges. A&I and restructuring charges for the six months ended June 30, 2011 related primarily to the continued integration of Spheris, which we acquired in April 2010, and the continued integration of MModal MQ Inc. into MModal Inc.

Other income

Other income was \$2.7 million for the six months ended June 30, 2012, compared with \$1.5 million for the six months ended June 30, 2011. The increase in other income was primarily due to a \$2.6 million increase in unrealized foreign exchange gains on the Indian rupee (resulting from changes in the fair value of our foreign exchange forward cover contracts and option contracts) and a gain of \$1.4 million related to the revaluation of the Indian rupee between the Company (denominated in USD) and certain of its foreign subsidiaries (denominated in Indian rupee), partially offset by an increase on realized losses of \$2.8 million related to the settlement of such contracts. We began use of the option contracts in April 2012.

Gain on sale of investment

In October 2010, we sold our shares related to an investment in a former affiliated company for cash consideration of \$23.6 million, of which \$4.4 million was held in escrow pursuant to the terms of the agreement. In May 2012, the \$4.4 million was released from escrow, and was recorded as a gain in the Consolidated Statements of Operations.

Interest expense, net

Interest expense, net, was \$15.5 million for the six months ended June 30, 2012, compared to \$14.0 million for the six months ended June 30, 2011. The increase in interest expense, net, is primarily due to interest associated with the deferred acquisition payments during the six months ended June 30, 2012.

Income tax (benefit) provision

In January 2011, we re-domiciled from a British Virgin Island company to a Delaware corporation. For the six months ended June 30, 2012, our effective tax rate was 175%. This rate differs from the statutory rate of 35% primarily due to permanent differences related to acquisition-related charges, domestic taxation of certain foreign earnings, and discrete tax expense recorded on the gain on sale of an investment. For the six months ended June 30, 2011, our effective tax rate was 11.1%. This rate differs from the statutory rate of 35% primarily due to the increase in deferred tax liabilities for indefinite lived intangibles and valuation allowance on deferred tax assets.

Net income attributable to noncontrolling interests

In accordance with the terms of the stipulation of settlement entered into in connection with the settlement of certain MModal MQ Inc. stockholder litigation, on October 18, 2011, we completed a short form merger with MModal MQ Inc. ("Short Form Merger"), resulting in MModal MQ Inc. becoming our indirect wholly-owned subsidiary and MModal MQ Inc. common stock no longer trading on the OTCQB or on any other market. As a result of the Short Form Merger, the remaining approximately 3% issued and outstanding shares of MModal MQ Inc. not held by us were canceled and converted into the Short Form Merger to the right to receive one share of our common stock. In the Short Form Merger, we issued an additional 1.2 million shares of our common stock. We now own 100% of MModal MQ Inc. The Short Form Merger resulted in a reclassification from noncontrolling interest to common stock and additional paid-in-capital in the fourth quarter of 2011.

Adjusted EBITDA (Non-GAAP financial measure)

The following table presents a reconciliation of net income attributable to MModal Inc. to Adjusted EBITDA:

	Three Months Ended June 30,		Six Months Ended June 30,		
	2012	2011	2012	2011	
Net income attributable to MModal Inc.	\$3,046	\$5,135	\$177	\$14,447	
Net income attributable to noncontrolling interests	—	271	—	1,777	
Income tax provision (benefit)	836	886	(413) 2,030	
Interest expense, net	7,712	6,961	15,510	13,998	
Depreciation and amortization	12,155	8,879	24,544	17,297	
(Benefit) cost of legal proceedings, settlements and accommodations	(211) 581	329	(6,932)
Acquisition and restructuring ⁽¹⁾	5,287	4,391	16,373	11,269	
Other income	(814) (530) (2,678) (1,473)
Gain on sale of investment	(4,439) —	(4,439) —	
Realized (loss) gain on settlement of foreign currencies	(1,383) 377	(2,260) 534	
Amortization of core technologies	490	—	490	—	
Share-based compensation and other non-cash awards	2,182	611	3,778	1,321	
Adjusted EBITDA	\$24,861	\$27,562	\$51,411	\$54,268	
Percent of net revenues	21.4	% 25.4	% 22.0	% 24.7	%

⁽¹⁾ Includes \$1.5 million in share-based compensation expense for the three and six months ended June 30, 2012.

Adjusted EBITDA is a metric used by management to measure operating performance. Adjusted EBITDA is defined as net income attributable to MModal Inc., as applicable, plus net income attributable to noncontrolling interests, income taxes, interest expense, net, depreciation and amortization, (benefit) cost of legal proceedings, settlements, and accommodations, acquisition and restructuring charges, other income, gain on sale of investment, realized (loss) gain on settlement of foreign currency hedges, amortization of core technologies and share-based compensation and other non-cash awards. The realized (loss) gain on settlement of foreign currency hedges is a component of other income, as reported in the Consolidated Statements of Operations. The amortization of core technologies is a component of cost of revenues, as reported in the Consolidated Statements of Operations. Share-based compensation and other non-cash awards represents only the portion of such expense that is a component of selling, general and administrative expense, as reported in the Consolidated Statements of Operations, as it excludes such expense attributable to the Company's restructuring actions.

We present Adjusted EBITDA as a supplemental performance measure because we believe it facilitates operating performance comparisons from period to period by excluding the following:

- the impact on periods or companies for changes in effective tax rates), the age and book depreciation of fixed assets (affecting depreciation expense);
- the impact of non-cash charges; and
- the impact of acquisition and integration related charges and restructuring charges.

Because Adjusted EBITDA facilitates internal comparisons of operating performance on a more consistent basis, we also use Adjusted EBITDA in measuring our performance relative to that of our competitors. Adjusted EBITDA is not a measurement of our financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating activities as measures of our profitability or liquidity. We understand that although Adjusted EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

- Although depreciation is a non-cash charge, the assets being depreciated will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and

- Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Liquidity and Capital Resources

Our principal sources of liquidity include cash generated from operations, cash and cash equivalents on hand and availability under our revolving credit facility. We believe our existing cash and cash equivalents and cash to be generated from operations will be sufficient to finance our operations for the next twelve months. However, if we fail to generate adequate cash flows from operations in the future, due to an unexpected decline in our net revenues, or due to increased cash expenditures in excess of the net revenues generated, then our cash balances may not be sufficient to fund our continuing operations without incurring additional debt or selling additional equity. There are no assurances that sufficient funding from external sources will be available to us on acceptable terms, if at all.

Cash Flows Discussion

Operating activities

Cash provided by operating activities was \$27.3 million and \$23.0 million for the six months ended June 30, 2012 and 2011, respectively. Net cash provided by operating activities during the six months ended June 30, 2012 was primarily impacted by the following items:

- The Customer Accommodation Program reversal of \$9.7 million in 2011;

- Depreciation and amortization of \$24.5 million for the six months ended June 30, 2012, compared to \$17.3 million for the same period in 2011;

- Share-based compensation of \$5.3 million for the six months ended June 30, 2012, compared to \$1.2 million for the same period in 2011, primarily due to increased awards of restricted stock awards and restricted stock units.

The above increases in cash provided by operating activities were partially offset by net income of \$0.2 million for the six months ended June 30, 2012, compared to \$16.2 million for the same period in the prior year.

Investing activities

Cash used in investing activities was \$11.5 million for the six months ended June 30, 2012, compared to \$10.9 million for the same period in 2011. This increase in cash used in investing activities was primarily due to \$3.1 million in acquisition payments related to the two acquisitions we completed during the six months ended June 30, 2012. We did not complete any acquisitions during the same period in 2011. The increase in cash used in investing activities was partially offset by lower capital expenditures on computer software and property and equipment year over year. During the six months ended June 30, 2012, we invested \$8.7 million in computer software and property and

equipment, compared to \$10.9 million for the same period in 2011.

Financing activities

Cash used in financing activities was \$35.1 million for the six months ended June 30, 2012, compared to \$18.2 million for the same period in 2011. Cash used in financing activities increased due to \$6.8 million in net proceeds from the issuance of common stock during the six months ended June 30, 2011. We did not have any proceeds from the issuance of common stock during the six months ended June 30, 2012. The increase in cash used in financing activities was also due to an increase in net debt activity.

During the six months ended June 30, 2012, we recorded debt repayments of \$56.5 million, partially offset by proceeds from debt of \$26.6 million, resulting in net cash used in debt of \$29.9 million. By comparison, during the six months ended June 30, 2011, we recorded debt repayments of \$27.1 million, partially offset by proceeds from debt of \$2.1 million, resulting in net cash used in debt of \$25.0 million. We also made \$4.0 million of deferred acquisition payments in accordance with the terms of our prior acquisitions during the six months ended June 30, 2012. We did not make any deferred acquisition payments during the same period in 2011.

Other factors affecting our liquidity and capital resources:

Debt

Debt consisted of the following:

(dollars in thousands)	June 30, 2012	December 31, 2011
Senior Secured Credit Facility consisting of:		
Term loan	\$170,000	\$175,000
Revolving credit facility	—	25,000
Senior Subordinated Notes	85,000	85,000
All other	11,558	11,534
	266,558	296,534
Less: Current maturities	(27,774)	(22,712)
Total long-term debt	\$238,784	\$273,822

The borrowings under the Senior Secured Credit Facility bear interest at a rate equal to an applicable margin plus, at the borrowers' option, either (a) a base rate determined by reference to the highest of (1) the rate last quoted by the Wall Street Journal as the "Prime Rate" in the United States, (2) the federal funds rate plus 1/2 of 1% and (3) the LIBOR rate for a one-month interest period plus 1.00% or (b) the higher of (1) a LIBOR rate determined by reference to the costs of funds for deposits in the currency of such borrowing for the interest period relevant to such borrowing adjusted for certain additional costs and (2) 1.75%. The applicable margin is 4.50% with respect to base rate borrowings and 5.50% with respect to LIBOR borrowings. At June 30, 2012, the Senior Secured Credit Facility had an interest rate of 7.25% and the interest rate on the Senior Subordinated Notes was a stated rate of 13.0%.

Of the \$25 million Revolving Credit Facility ("Revolver") included in the Senior Secured Credit Facility, \$3.2 million was available to be drawn as of June 30, 2012. Any amounts drawn over \$3.2 million would have caused us to be in noncompliance with our debt covenants. No amounts were outstanding under the Revolver at June 30, 2012.

In March 2012, we entered into a waiver and amendment to the Senior Secured Credit Facility to (i) allow for additional time to comply with certain reporting requirements related to recent acquisitions that we consummated and (ii) to amend the definition of "Consolidated EBITDA" under the Senior Secured Credit Facility to provide a favorable adjustment for certain one-time acquisition and restructuring costs related to our consolidation to a single back-end speech recognition platform. In May 2012, we entered into a waiver agreement under the Senior Secured Credit Facility, which waived certain covenant requirements related to a potential acquisition.

The Company is required to comply with certain covenants under the Senior Secured Credit Facility. The Company was in compliance with the financial covenants as of June 30, 2012. The Company's ability to maintain compliance with its debt covenants depends in part on management's ability to increase revenues and control costs. Should the Company fail to comply with the financial covenants at a future measurement date, the Company would be in default under the Senior Secured Credit Facility and the lenders thereunder could exercise various options that they have under the agreements governing the Senior Secured Credit Facility including demanding immediate payment of all amounts outstanding under the Senior Secured Credit Facility or issuing a waiver.

Acquisitions

During the six months ended June 30, 2012, we acquired two businesses for a total cash consideration of \$4.6 million, including \$3.1 million in cash paid on the date of acquisition and \$1.5 million in deferred acquisition payments that will be paid within one year. These acquisitions were not material to the Company, individually or in the aggregate. On August 18, 2011, we completed a merger with MultiModal. The merger provided us ownership of speech and natural language understanding technologies, and facilitated consolidation to a single back-end speech recognition platform, provided a broader product offering to local and regional transcription partners and leveraged cloud-based services to enhance gross margins. Subsequent to the merger, we made seven additional acquisitions in 2011, none of which were individually material.

As part of our business strategy, we plan to consider and, as appropriate, make acquisitions of other businesses, products, product rights or technologies. Our cash reserves and other liquid assets may be inadequate to consummate such acquisitions and it may be necessary for us to issue stock or raise substantial additional funds in the future to complete future transactions. In addition, as a result of our acquisition efforts, we are likely to experience significant charges to earnings for merger and related expenses (whether or not our efforts are successful) that may include transaction costs, closure costs or costs of restructuring activities.

At June 30, 2012, we had deferred acquisition payments, current, of \$20.2 million, and deferred acquisition payments, non-current, of \$15.9 million recorded in the accompanying Consolidated Balance Sheets. These future cash payments are related to the acquisitions we made during the second half of 2011 and the first half of 2012. The table below represents our future deferred acquisition payments as of June 30, 2012:

(dollars in thousands)	Deferred Acquisition Payments
Due in one year	\$ 20,231
Due in two years	6,116
Due in three years	9,706
Due in four years	2,966
Total	39,019
Less: amount representing interest	(2,880)
Present value of deferred acquisition payments	\$ 36,139

Off-Balance Sheet Arrangements

We are not involved in any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors except as follows. In 2011, we entered into foreign currency forward cover contracts for a notional value of USD equivalent \$72.0 million related to our offshore operations. In April 2012, we commenced utilization of options contracts. As of June 30, 2012, \$14.6 million of the foreign currency forward cover contracts and options contracts were outstanding. These contracts expire through August 31, 2012. In 2011, we also entered into interest rate cap contracts (for \$60.0 million notional amounts which will amortize over time and expire on January 2013) to limit the risk of increases in interest rates.

On May 17, 2012, the Company entered into a new lease agreement ("lease") with RDU Center III LLC related to its offices totaling 18,350 square feet in Raleigh, NC. The lease will commence on the earlier of November 1, 2012 and "Substantial Completion of the Initial Improvements" as defined in the lease, and expires ninety-five months from the beginning of the lease term. The annual rental payments approximate \$0.4 million per year with no required payments during the first eleven months, resulting in aggregate lease payments of approximately \$3.1 million.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Reference is made to the discussion under "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in the Company's 2011 Annual Report on Form 10-K. As of June 30, 2012, the only material changes from the information presented in the Form 10-K are provided below.

We are exposed to the risk of fluctuations in foreign currencies, most notably expenses denominated in the Indian rupee. A portion of these risks is hedged, but fluctuations could impact our operations, financial position and cash flows. We monitor our foreign currency exposures daily to maximize the overall effectiveness of our hedge positions. We use a combination of Indian rupee/USD forward and option contracts to mitigate foreign currency volatility risk. We do not enter into foreign currency contracts for speculative purposes.

We began entering into the option contracts in April 2012. As of June 30, 2012, we had two outstanding option contracts, as discussed below:

(in thousands)

Notional Currency	Notional Amount (INR)	Call Amount (USD)	Strike Price (USD)	Maturity Date
Indian rupee	188,200	\$3,302	\$57.00	July 27, 2012
Indian rupee	188,520	\$3,307	\$57.00	August 29, 2012
	376,720	\$6,609		

Estimated Fair Value at June 30, 2012
(USD)

\$55

Based on the nature of the transaction for which the contracts were purchased, we do not believe that a hypothetical change of 10% in exchange rates would have a material impact on our financial results.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and our chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15, Securities Exchange Act of 1934 ("Exchange Act") as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, management is required to apply its judgment in evaluating the benefits of possible disclosure controls and procedures relative to their costs to implement and maintain.

Based on management's evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and our chief financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended June 30, 2012 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

MModal Inc. Shareholder Litigation

On July 6, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned Alan Kahn v. Roger L. Davenport, et al., Case No. 7675-VCP, in connection with the proposed merger transaction. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC and its affiliates, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Kahn action purports to be brought individually and on behalf of the public stockholders of the Company. The Kahn complaint contains allegations that the individual directors breached their fiduciary obligations because they (i) agreed to a flawed process that precluded the emergence of competing bidders and whereby the Company's financial advisor was not independent; and (ii) failed to maximize stockholder value. The Kahn complaint further alleges that One Equity Partners, LLC and Legend Parent, Inc. aided and abetted those alleged breaches of fiduciary duty. The Kahn action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

On July 9, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned Edward Forstein, v. MModal Inc. et al., Case No. 7680-VCP, in connection with the proposed merger transaction. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Forstein action purports to be brought individually and on behalf of the public stockholders of the Company. The Forstein complaint contains allegations that the individual directors breached their fiduciary obligations because (i) one of the Company's financial advisors was materially conflicted; (ii) the Company's largest stockholder had different interests than the Company's public stockholders; (iii) they agreed to preclusive deal protection provisions; and (iv) the individual directors failed to maximize stockholder value. The Forstein complaint further alleges that One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. aided and abetted those alleged breaches of fiduciary duty. The Forstein action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

On July 10, 2012, a purported stockholder of the Company filed a putative class action lawsuit in the Court of Chancery of the State of Delaware, captioned Scott Phillips v. Roger L. Davenport, et al., Case No. 7685-VCP, in connection with the proposed merger transaction. The defendants are the Company, the members of the Company's board of directors, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. The Phillips action purports to be brought individually and on behalf of the public stockholders of the Company. The Phillips complaint contains allegations that the individual directors breached their fiduciary duty because (i) they failed to take steps to maximize the value of the Company to its public shareholders and took steps to avoid competitive bidding; (b) they did not properly value the Company; and (c) they ignored or did not protect against the numerous conflicts of interest resulting from the directors' own interrelationships or connection with the merger transaction. The Phillips complaint further alleges the Company, One Equity Partners, LLC, Legend Parent, Inc. and Legend Acquisition Sub, Inc. aided and abetted those alleged breaches of fiduciary duty. The Phillips action seeks, among other things, injunctive relief prohibiting consummation of the proposed merger transaction, rescission of the Agreement and Plan of Merger governing such transaction, damages and attorneys' fees and costs.

On July 17, 2012, a proposed order of consolidation was submitted to the Court of Chancery of the State of Delaware for approval, pursuant to which, inter alia, each of the previously-filed lawsuits, described above, would be consolidated into one action, captioned In re MModal Inc. Shareholder Litigation, Consolidated C.A. No. 7675-VCP. On July 18, 2012, the Court of Chancery of the State of Delaware granted the order of consolidation.

On July 24, 2012, an amended putative class action lawsuit was filed in the Court of Chancery of the State of Delaware, captioned In re MModal Inc. Shareholder Litigation, Consolidated Civil Action No. 7675-VCP (which we refer to as the "Consolidated Complaint"). In addition to re-asserting the previously-asserted allegations and claims against the previously-named defendants, the Consolidated Complaint: (i) names certain funds affiliated with S.A.C. Private Capital Group LLC (the "SAC PCG Funds") as defendants, (ii) alleges that the support agreement entered into between the Company and the SAC PCG Funds gives rise to claims of breach of fiduciary duty against the Company's board of directors and to claims of aiding and abetting breach of fiduciary duty against One Equity Partners, LLC, Legend Parent, Inc., Legend Acquisitions Sub, Inc. and the SAC PCG Funds and (iii) alleges that the Company's board of directors breached its fiduciary duty via materially incomplete and misleading disclosures in the Schedule 14D-9 filed on July 17, 2012, as amended (specifically focusing on (a) the timing and content of any post-transaction employment discussions with senior management, (b) certain aspects of Macquarie Capital's (the Company's financial advisor) valuation work, (c) all services performed by Macquarie Capital for the Company and One Equity Partners LLC and its affiliates over the past two years and (d) which directors of the Company are principals in the fund in which Macquarie Capital has made a \$15 million investment). The Consolidated Complaint seeks substantially similar relief as the previously filed lawsuits described above. On July 27, 2012, plaintiffs filed a motion for expedited proceedings, and papers in support thereof, as well as a motion to enjoin consummation of the proposed merger transaction.

The Company believes that the Consolidated Complaint lacks merit, and intends to defend the case vigorously. Because this matter is in an early stage, the Company cannot estimate the possible loss or range of loss, if any, associated with its ultimate resolution.

Item 1A. Risk Factors

Excluding the updates discussed below, there have been no material changes to the risk factors discussed in Part I, "Item 1A. Risk Factors," in the 2011 Form 10-K. You should carefully consider the risks described in our 2011 Form 10-K which could materially affect our business, financial condition or future results. The risks described in our 2011 Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the risks actually occur, our business, financial condition and/or results of operations could be negatively affected.

We have reviewed the risk factors previously disclosed in our 2011 Form 10-K and have identified the following additional risks:

Our business and results of operations may be adversely affected by the announcement of our proposed acquisition by OEP.

On July 2, 2012, we entered into the Merger Agreement with Parent and Merger Sub, pursuant to which Merger Sub commenced a tender offer to purchase all of our outstanding shares of common stock.

The proposed acquisition could have an adverse effect on our revenue in the near term if customers delay, defer or cancel purchases until the completion of the acquisition. While we are attempting to mitigate this risk through communications with our customers, current and prospective customers could be reluctant to purchase our products and/or services due to potential uncertainty about the direction of our product offerings and our support and service of existing products. To the extent that the proposed acquisition creates uncertainty among customers or our employees such that any significant number of customers delay purchase decisions until the proposed completion of the acquisition, or employees depart the Company or become distracted, our results of operations and ability to operate profitably could be negatively affected. Decreased revenue and a failure to be profitable could have a variety of

adverse effects, including negative consequences to our relationships with, and ongoing obligations to, customers, suppliers, employees, business partners and others with whom we have business relationships.

Additionally, we are subject to additional risks in connection with the proposed acquisition, including: (i) the occurrence of an event, change or circumstance that could give rise to the payment of a termination fee by us of up to \$28.7 million pursuant to the terms of the Merger Agreement, (2) the pendency and outcome of any legal proceedings that have been or may be instituted against us, our directors and others relating to the transactions contemplated by the Merger Agreement, including the legal proceedings described in Part II. Item 1. "Legal Proceedings," (3) the failure of the proposed acquisition to close for any reason, (4) the restrictions imposed on our business, properties and operations pursuant to the affirmative and negative covenants set forth in the Merger Agreement and the potential impact of such covenants on our business, (5) the risk that the proposed acquisition will divert management's attention resulting in a potential disruption of our current business plan and (6) potential difficulties in employee retention arising from the proposed acquisition.

We may suffer additional consequences if our proposed acquisition by Parent is not completed.

If our proposed acquisition by Parent is not completed, we could suffer a number of consequences that may adversely affect our business, results of operations and stock price, including the following:

- activities relating to the transaction and related uncertainties may divert management's attention from our day-to-day business and cause disruptions among our employees and to our relationships with customers and business partners, thus detracting from our ability to grow revenue and minimize costs and possibly leading to a loss of revenue and market position that we may not be able to regain if the transaction does not occur;
- the market price of our common stock could decline following an announcement that the transaction has been abandoned, to the extent that the current market price reflects a market assumption that the transaction will be completed;
- we could be required to pay a fee to Parent, or its designees, up to a maximum fee of \$28.7 million if the Merger Agreement is terminated in certain circumstances;
- we would remain liable for our costs related to the acquisition, such as legal and accounting fees and expenses and a portion of the financial advisory fees and expenses;
- we may experience a departure of employees;
- we may be subject to legal proceedings related to the transaction;
- we may be the subject of other acquisition proposals that require management attention and are less favorable to the Company and its stockholders than the proposed transaction with Parent and Merger Sub; and
- we may not be able to take advantage of alternative business opportunities or effectively respond to competitive pressures.

Completion of the acquisition is subject to a number of conditions, which we believe are customary, including the accuracy of the representations and warranties of the parties and material compliance by the parties with their respective obligations under the Merger Agreement. Parent and Merger Sub's obligation to consummate the Offer is also subject to at least a majority of our outstanding shares on a fully diluted basis being tendered in the Offer and the availability of sufficient debt financing to Parent and Merger Sub. While the debt financing is not a condition to the consummation of the Merger if the Offer is not consummated, if the debt financing is not available to consummate the transaction, our remedies will be limited to receipt of a \$57.5 million reverse termination fee from Parent. If we are required to seek stockholder approval for the Merger, the completion of the acquisition will be subject to majority stockholder approval at a special meeting.

We may not be able to comply with the financial tests or ratios required in order to comply with covenant requirements under our Senior Secured Credit Facility, which may impact our ability to draw funds and may result in the acceleration of the maturity of, and/or the termination of the Senior Secured Credit Facility.

Our Senior Secured Credit Facility agreement requires us to comply with or maintain certain financial tests and ratios and restricts our ability to:

- draw down on our existing line of credit or incur more debt;
- make certain investments and payments;
- fund additional letters of credit;
- pay cash dividends; and
- transfer or sell assets.

Our ability to comply with these covenants is subject to various risks and uncertainties. In addition, events beyond our control could affect our ability to comply with and maintain the financial tests and ratios required by this indebtedness. Any failure by us to comply with and maintain all applicable financial tests and ratios and to comply with all applicable covenants could result in an event of default with respect to a substantial portion of our debt which would result in the acceleration of the maturity and/or the termination of our Senior Secured Credit Facility. Even if

we are able to comply with all applicable covenants, the restrictions on our ability to operate our business in our sole discretion could harm our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information regarding repurchases of our common stock during the three months ended June 30, 2012. The shares repurchased represent shares of our common stock that employees elected to surrender to us to satisfy their tax withholding obligations upon the vesting of shares of restricted stock. We do not consider this a share buyback program.

(shares in thousands)	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
April 1, 2012 - April 30, 2012	—	\$—	—	
May 1, 2012 - May 31, 2012	—	\$—	—	
June 1, 2012 - June 30, 2012	19	\$12.98	—	
Second Quarter 2012 Total	19	\$12.98	—	

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Important Additional Information and Where to Find It

This Quarterly Report on Form 10-Q is neither an offer to purchase nor a solicitation of an offer to sell any shares of the common stock of the Company or any other securities. On July 17, 2012, Parent and Purchaser filed a tender offer statement on Schedule TO, including an offer to purchase, a letter of transmittal and related documents, with the SEC. Thereafter, the Company filed a solicitation/recommendation statement on Schedule 14D-9 with respect to the tender offer. The offer to purchase shares of the Company's common stock is only being made pursuant to the offer to purchase, the letter of transmittal and related documents filed with such Schedule TO. Investors and security holders are urged to read both the tender offer statement (including an offer to purchase, a related letter of transmittal and the other offer documents) and the solicitation/recommendation statement regarding the tender offer, as they may be amended from time to time, because they contain important information that should be read carefully before making any decision with respect to the tender offer. The tender offer statement has been filed with the SEC by Parent and Purchaser, and the solicitation/recommendation statement has been filed with the SEC by the Company. Investors and security holders may obtain a free copy of these statements, the Merger Agreement and other documents filed with the SEC at the website maintained by the SEC at www.sec.gov or by directing such requests to the information agent for the tender offer. In addition, the tender offer statement and related documentation may be obtained for free by directing such requests to Georgeson Inc., 199 Water Street, 26th Floor, New York, New York 10038, Toll-Free Telephone: (888) 505-6583 or email: MModal@georgeson.com, and the solicitation/recommendation statement and

related documents may be obtained for free by directing such requests to the Company at Investor Relations, 9009 Carothers Parkway, Suite C-2, Franklin, Tennessee, or ir@mmodal.com.

Facilities Lease

On May 17, 2012, the Company entered into a new lease agreement ("lease") with RDU Center III LLC related to its offices totaling 18,350 square feet in Raleigh, NC. The lease will commence on the earlier of November 1, 2012 and "Substantial Completion of the Initial Improvements" as defined in the lease, and expires ninety-five months from the beginning of the lease term. The annual rental payments approximate \$0.4 million per year with no required payments during the first eleven months, resulting in aggregate lease payments of approximately \$3.1 million.

Senior Secured Credit Facility Waiver

On May 18, 2012, the Company entered into a Waiver Agreement (the "Waiver Agreement") by and among MModal CB Inc., a Delaware corporation ("MModal CB"), MModal MQ Inc., a New Jersey corporation ("MModal MQ"), MModal Services, Ltd., a New Jersey corporation ("Services" and, together with MModal CB and MModal MQ, the "Borrowers"), the Company, the other loan parties signatories thereto, the lenders signatories thereto (the "Lenders") and General Electric Capital Corporation, a Delaware corporation, as administrative agent (the "Administrative Agent").

The Waiver Agreement received the requisite consent of the Lenders holding a majority of the sum of the aggregate outstanding commitments under that certain Credit Agreement, dated as of October 1, 2010 (the "Credit Agreement"), among the Company, the Borrowers, the Lenders and the Administrative Agent, which governs the Senior Secured Credit Facility. The Credit Agreement provides for (i) a \$200.0 million term loan and (ii) a \$25.0 million revolving credit facility. The term loan is repayable in equal quarterly installments of \$5.0 million commencing on the first fiscal quarter after the closing date, with the balance payable 5 years from the closing date.

The Waiver Agreement was executed in order to waive any default that may have arisen under the Credit Agreement related to a proposed acquisition.

The Lenders and the Administrative Agent and their affiliates have provided or may from time to time provide investment banking, financial advisory and other services to the Company, for which they have received customary fees and reimbursement of expenses, or for which they expect to receive customary fees and reimbursement of expenses, respectively.

Item 6. Exhibits

(a) Exhibits

No.	Description
10.1(1)	Form of Restricted Stock Unit Award Agreement between MModal Inc. and Certain Officers (Time-Based).
