PJT Partners Inc. was formed in connection with certain merger and spin-off transactions whereby the financial and strategic advisory services, restructuring and reorganization advisory services and Park Hill Group businesses of The Blackstone Group L.P. (“Blackstone” or our “former Parent”) were combined with PJT Capital LP, a financial advisory firm founded by Paul J. Taubman in 2013 (together with its then affiliates, “PJT Capital”), and the combined business was distributed to Blackstone’s unitholders to create PJT Partners Inc., a stand-alone, independent publicly traded company. Throughout this Quarterly Report on Form 10-Q, we refer to this transaction as the “spin-off.” PJT Partners Inc. is a holding company and its only material asset is its controlling equity interest in PJT Partners Holdings LP, a holding partnership that holds the company’s operating subsidiaries, and certain cash and cash equivalents it may hold from time to time. As the sole general partner of PJT Partners Holdings LP, PJT Partners Inc. operates and controls all of the business and affairs of PJT Partners Holdings LP and its operating subsidiaries.

Additionally in this Quarterly Report on Form 10-Q, unless the context requires otherwise, the words “PJT Partners Inc.” refers to PJT Partners Inc., and “PJT Partners,” the “Company,” “we,” “us” and “our” refer to PJT Partners Inc., together with its consolidated subsidiaries, including PJT Partners Holdings LP and its operating subsidiaries.

There may be other risks and uncertainties that we are unable to predict at this time or that are not currently expected to have a material adverse effect on our business. Recent Accounting Developments

In June 2014, the Financial Accounting Standards Board (“FASB”) issued amended guidance on revenue from contracts with customers. The Company adopted the guidance using the modified retrospective approach as of January 1, 2018 applied to those contracts that were not completed as of January 1, 2018. The Company recognized the cumulative effect of initially applying the new revenue guidance as an adjustment to the opening balance of Accumulated Deficit. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. On an ongoing basis, the effect of the change in timing of revenue and expense recognition could be material to any given reporting period.

The impact of the changes to the Company’s Condensed Consolidated Statement of Financial Condition for the adoption of the new revenue guidance was as follows:

	December 31, 2017	Adjustments	January 1, 2018
Assets			
Accounts Receivable, Net	\$ 190,389	\$ (5,681)	\$ 184,708
Liabilities			
Deferred Revenue	382	1,015	1,397
Equity (Deficit)			
Accumulated Deficit	(185,991)	(6,696)	(192,687)

In accordance with the new revenue guidance requirements, the disclosure of the impact of adoption on the Condensed Consolidated Statement of Financial Condition and Statement of Operations is as follows as of and for the three and nine months ended September 30, 2018:

	Three Months Ended September 30, 2018	Without Adoption of Revenue Standard	Effect of Change

The change between the balances as reported under new and previous accounting guidance is primarily related to the accounting for reimbursable expenses, which were previously reported net and are now reported on a gross basis in both revenues and expenses on the statement of operations. Additionally, under the new revenue guidance, the Company has applied a measure of progress to certain fees that are recognized over time but were previously earned in full at the time of the revenue event.

In February 2016, the FASB issued new guidance regarding leases. The guidance requires lessees to recognize, on the balance sheet, assets and liabilities for the rights and obligations created by leases. Entities are also required to provide enhanced disclosure about leasing arrangements. The amendments retain lease classifications, distinguishing finance leases from operating leases, using criteria that are substantially similar for distinguishing capital leases from operating leases in previous guidance. The guidance is effective for fiscal years, and interim periods within those

fiscal years, beginning after December 15, 2018, with early adoption permitted. Adoption requires a modified retrospective approach or through a cumulative-effect adjustment to the opening balance of retained earnings. Based on the Company's initial evaluation, adoption on January 1, 2019 will result in the present value of the Company's lease commitments that have a term in excess of one year being recorded on the Company's Consolidated Statements of Financial Condition as a right-of-use asset with a corresponding liability. The Company's lease commitments, as discussed in Note 12. "Commitments and Contingencies—Commitments, Leases," primarily relate to office space. The lease-related assets will be amortized to expense over the life of the leases and the liability, and related interest expense, will be reduced as lease payments are made over the life of the lease. The Company is currently assessing the impact that adoption of this guidance will have on its consolidated financial statements and the transition method.

In June 2016, the FASB issued guidance regarding the measurement of credit losses on financial instruments. The new guidance replaces the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The guidance is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018. The Company is currently assessing the impact that adoption of this guidance will have on its consolidated financial statements.

In November 2016, the FASB issued guidance that requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash or restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Adoption required a retrospective approach. The Company adopted this guidance on January 1, 2018 with no impact on its Condensed Consolidated Statements of Cash Flows.

In January 2017, the FASB issued guidance clarifying the definition of a business with the objective of assisting entities with evaluating whether transactions should be accounted for as acquisitions of assets or businesses. The guidance becomes effective for the Company in the first quarter of 2019 and is applied prospectively. The Company is currently assessing the impact that adoption of this guidance will have on its consolidated financial statements.

In May 2017, the FASB issued updated guidance on modifications to share-based payment awards. The updated guidance requires entities to account for the effects of a modification to a share-based payment award unless the following are all the same immediately before and after the modification: (a) the fair value of the award, (b) the vesting conditions of the award, and (c) the classification of the award as an equity instrument or a liability instrument. The guidance is applied on a prospective basis. The Company adopted this guidance on January 1, 2018 with no impact on its consolidated financial statements.

In February 2018, the FASB issued guidance, which allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act (the “Tax Legislation”). The guidance is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the new guidance, but does not expect the impact to be material on its consolidated financial statements.

Total Revenues	\$ 140,143	\$ 404,855

The services provided under contracts with customers include advisory and placement services, which are recorded as Advisory Fees and Placement Fees, respectively, on the Condensed Consolidated Statements of Operations. Additionally, the Company is typically reimbursed for certain professional fees and other expenses incurred that are necessary in order to provide services to the customer. These fees are charged to the relevant expense caption in the Condensed Consolidated Statements of Operations when incurred and recognized as revenue and recorded in accounts receivable when these amounts are invoiced to the customer. Such revenue amounts are recorded in Interest Income and Other on the Condensed Consolidated Statements of Operations.

(All Dollars Are in Thousands, Except Share and Per Share Data, Except Where Noted)

At contract inception, the Company assesses the services promised in its contracts with customers and identifies a performance obligation for each promise to transfer to the customer a service (or a bundle of services) that is distinct. To identify the performance obligations, the Company considers all of the services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices.

Advisory Fees

Strategic advisory services include a broad range of financial advisory and restructuring services, which includes providing financial advice regarding acquisitions, mergers, joint ventures, minority investments, asset swaps, divestitures, takeover defenses, corporate finance, distressed sales, recapitalizations and restructurings, including raising various forms of financing, and portfolio liquidity solutions related to unfunded commitment relief and investments in secondary markets.

With respect to contracts for which Advisory Fees are recognized, the Company's primary performance obligation is to stand ready to perform a broad range of services the client may need over the course of the engagement. For such engagements, the customer obtains a benefit from the assurance that the Company is available to it, when-and-if needed or desired. Fees related to these stand-ready performance obligations are recognized over time using a time-based measure of progress.

The Company may also be engaged to provide a fairness opinion to the client or the client may request that the Company arrange interim financing. The Company determines that the delivery of either of these items represents a separate performance obligation that is satisfied at a point in time when the opinion or interim financing is delivered to the client as the customer is able to direct the use of, and obtain substantially all of the benefits from, the service at that point.

Advisory Fees are predominantly considered variable as they are susceptible to factors outside of the Company's influence and/or contain a large number and broad range of possible consideration amounts. As such, these amounts are excluded from the transaction price until the uncertainty associated with the variable consideration is subsequently resolved, which is expected to occur upon achievement of the specified event. The types of fees may vary in each engagement, but payments for Advisory Fees are generally due promptly upon completion of a specified event or, for retainer fees, periodically over the course of the engagement. The Company recognizes a receivable between the date of completion of the event and payment by the customer.

Placement Fees

The Company's fund placement services are provided within Park Hill and primarily serve private equity, real estate and hedge funds. Park Hill advises on all aspects of the fundraising process including competitive positioning and market assessment, marketing materials and related documentation and partnership terms and conditions most prevalent in the current environment. The Company also provides private placement fundraising services to corporate clients and earns placement fees based on successful completion of the transaction.

With respect to placement engagements, the Company has determined that the provision of overall capital advisory services in contemplation of a potential fund placement or capital raise is satisfied over time. Fees related to this

performance obligation are recognized over time using a time-based method as the customer simultaneously receives and consumes the benefits of the capital advisory services as they are provided.

Placement Fees are predominantly considered variable as they are susceptible to factors outside of the Company's influence and/or contain a large number and broad range of possible consideration amounts. As such, these amounts are excluded from the transaction price until the uncertainty associated with the variable consideration is subsequently resolved, which is expected to occur upon achievement of a specified event. Placement Fees are typically payable upon completion of a fund closing or may be paid in installments over three or four years with interest being charged to the outstanding balance. With respect to such fees paid over time, the Company has determined there is not a significant financing component related to such contracts. Placement fees earned for services to corporate clients are typically payable upon completion. The Company recognizes a receivable between the date of completion of the event and payment by the customer.

Determining the Timing of Satisfaction of Performance Obligations

For performance obligations that are satisfied over time, determining a measure of progress requires management to make judgments that affect the timing of revenue recognized. The Company has determined that the methods described above provide a faithful depiction of the transfer of services to the customer.

For performance obligations that are satisfied at a point in time, the Company has determined that the customer is able to direct the use of, and obtain substantially all of the benefits from, the output of the service at the time it is provided to the client. Additionally, the Company considers control to have transferred at that point because the Company has a present right to payment, the Company has transferred the output of the service and the customer has significant risks and rewards of ownership.

Remaining Performance Obligations and Revenue Recognized from Past Performance

As of September 30, 2018, the aggregate amount of the transaction price allocated to performance obligations yet to be satisfied is \$7.9 million and the Company generally expects to recognize this revenue within the next twelve months. Such amounts relate to the Company's performance obligations of providing capital advisory services and standing ready to perform.

During the three and nine months ended September 30, 2018, the Company recognized revenue of \$0.9 million and \$13.0 million, respectively, related to performance obligations that were fully satisfied in prior periods, primarily due to constraints on variable consideration in prior periods being resolved. Such amounts related primarily to the provision of capital advisory services. The majority of Fee Revenue recognized by the Company during the three and nine months ended September 30, 2018 was predominantly related to performance obligations that were partially satisfied in prior periods.

Contract Balances

The timing of revenue recognition may differ from the timing of payment. The Company records a receivable when revenue is recognized prior to payment and the Company has an unconditional right to payment. The beginning and ending balances of Accounts Receivable, Net are included in the Condensed Consolidated Statements of Financial Condition. There were no significant impairments related to these receivables during the nine months ended September 30, 2018.

The Company may receive non-refundable up-front fees in its contracts with customers, which are recorded as revenues in the period over which services are estimated to be provided. Additionally, the Company may receive payment of certain announcement, retainer or milestone fees before the performance obligation has been fully satisfied. Such fees give rise to a contract liability and are recorded as Deferred Revenue in the Condensed Consolidated Statements of Financial Condition. The beginning and ending balances of Deferred Revenue are included in the Condensed Consolidated Statements of Financial Condition. For the nine months ended September 30, 2018, \$1.4 million of revenue was recognized that was included in the beginning balance of Deferred Revenue, primarily related to the Company's performance obligation of standing ready to perform. In certain contracts, the Company receives customer deposits, which are also considered to be contract liabilities. As of September 30, 2018 and December 31, 2017, the Company recorded \$1.5 million and \$1.2 million, respectively, of

PJT Partners Inc.

(All Dollars Are in Thousands, Except Share and Per Share Data, Except Where Noted)

customer deposits in Accounts Payable, Accrued Expenses and Other Liabilities in the Condensed Consolidated Statements of Financial Condition.

The Company does not establish a provision for refunds or similar obligations. Additionally, the Company is the principal in the satisfaction of performance obligations.

To obtain a contract with a customer, the Company may incur costs such as advertising, marketing costs, bid and proposal costs and legal fees. The Company has determined that these costs would have been incurred regardless of whether the contract with the customer was obtained. Additionally, the Company does not expect to recover any of these costs from the customer; therefore, the costs of obtaining contracts with customers are expensed as incurred.

The compensation of employees assigned to provide services to customers are direct costs of fulfilling the contract. In addition, out-of-pocket expenses may be incurred as part of fulfilling the promised services under the contract. As these costs are related to performance obligations that are satisfied over time, the costs do not meet the criteria for capitalization.

4. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Included in Accounts Receivable are long-term receivables of \$68.5 million and \$77.7 million as of September 30, 2018 and December 31, 2017, respectively, related to placement fees that are generally paid in installments over a period of three to four years. The carrying value of such long-term receivables approximates fair value. Long-term receivables are classified as Level II in the fair value hierarchy.

The Company does not have any long-term receivables on non-accrual status. Of receivables that originated as long-term, there were \$5.5 million and \$2.5 million as of September 30, 2018 and December 31, 2017, respectively, which were outstanding more than 90 days. There was no allowance for doubtful accounts with respect to such receivables as of September 30, 2018 or December 31, 2017.

Investments in common stock are measured based on quoted closing exchange prices and are categorized within Level I of the fair value hierarchy. To the extent these securities are actively traded, valuation adjustments are not applied.

During the three and nine months ended September 30, 2018 and 2017, there were no transfers from Level I to Level II related to U.S. Treasury securities that were initially acquired as on-the-run and classified as Level I, but subsequently transferred to Level II as a result of becoming off-the-run. There were also no transfers between Level I, Level II or Level III during the three and nine months ended September 30, 2018 and 2017.

The Company's effective tax rate differed from the U.S. federal statutory tax rate for the three and nine months ended September 30, 2018 due to corporate entities subject to U.S. federal, state, local and foreign income taxes, to non-corporate entities that are subject to New York City Unincorporated Business Tax and to certain compensation charges that are not deductible for income tax purposes.

The change in tax rate between the nine months ended September 30, 2018 and 2017 was primarily due to the decrease in U.S. corporate income tax rate related to the passage of the Tax Legislation in December 2017 as well as an increased tax benefit related to the deliveries of vested shares during the nine months ended September 30, 2018 at values in excess of their amortized cost.

As of September 30, 2018, the Company continues to evaluate its provisional estimate as it relates to (a) the measurement of deferred tax assets and liabilities subject to the income tax rate change from 35% to 21%, including the state tax impact on these items; (b) potential changes in interpretations of the Tax Legislation; and (c) changes in interpretation of accounting standards for income taxes. As the Company finalizes the analysis of the impact of the Tax Legislation, additional adjustments may be recorded during the measurement period, which could be material.

As of September 30, 2018, the Company had no unrecognized tax benefits.

Common units of partnership interest in PJT Partners Holdings LP (“Partnership Units”) may be exchanged for PJT Partners Inc. Class A common stock on a one-for-one basis, subject to applicable vesting and transfer restrictions. If all Partnership Units were exchanged for Class A common stock, weighted-average Class A common stock outstanding would be 38,661,709 and 36,900,877 for the three and nine months ended September 30, 2018, respectively, excluding unvested restricted stock units (“RSUs”) and participating RSUs. In computing the dilutive effect, if any, which the aforementioned exchange would have on net income per share, net income attributable to holders of Class A common stock would be adjusted due to the elimination of the non-controlling interests associated with the Partnership Units (including any tax impact). For the three and nine months ended September 30, 2018, such exchange is reflected in diluted net income per share.

The following table summarizes the anti-dilutive securities for the three and nine months ended September 30, 2018 and 2017 that have been excluded from the calculation of net income per share of Class A common stock:

This cost is expected to be recognized over a weighted-average period of 1.2 years.

Equity-Based Awards with Both Service and Market Conditions

The market condition requirements must be met prior to the sixth anniversary of the consummation of the spin-off. No portion of these awards will become vested until both the service and market conditions have been satisfied.

Contingencies

Litigation

From time to time, the Company is named as a defendant in legal actions relating to transactions conducted in the ordinary course of business. Some of these matters may involve claims of substantial amounts. Although there can be no assurance of the outcome of such legal actions, in the opinion of management, after consultation with external counsel, the Company believes it is not probable and/or reasonably possible that any current legal proceedings or claims would individually or in the aggregate have a material adverse effect on the condensed consolidated financial statements of the Company.

As previously disclosed, with respect to actual and potential additional claims related to funds fraudulently obtained by Andrew Caspersen, the Company believes that any such claims are without merit and the Company will vigorously defend any such matters.

With respect to the Company's other litigation matters, the Company is not currently able to estimate the possible loss or range of loss until developments in such matters have provided sufficient information to support such an assessment, including quantification of a damage demand from plaintiffs, discovery from other parties and investigation of factual allegations, rulings by courts on motions or appeals, analysis by experts or the status of any settlement negotiations.

Guarantee

The Company provides a guarantee to a lending institution for certain loans held by employees for investment in funds of its former Parent, which are secured by the underlying investments in those funds. The amount guaranteed was \$10.1 million and \$9.7 million as of September 30, 2018 and December 31, 2017, respectively.

Indemnifications

The Company has entered and may continue to enter into contracts, including contracts with Blackstone relating to the spin-off, which contain a variety of indemnification obligations. The Company's maximum exposure under these arrangements is not known; however, the Company currently expects any associated risk of loss to be insignificant. In connection with these matters, the Company has incurred and may continue to incur legal expenses, which are expensed as incurred.

Transactions and Agreements with Blackstone

Employee Matters Agreement

The Company is required to reimburse Blackstone for the value of forfeited unvested equity awards granted to former Blackstone employees that transitioned to PJT Partners in connection with the spin-off. Such reimbursement is recorded in Accounts Payable, Accrued Expenses and Other Liabilities with an offset to Equity in the Condensed Consolidated Statements of Financial Condition. The Company will cash settle the liability to Blackstone quarterly as the forfeitures attributable to these employees crystallize. The accrual for these forfeitures was \$0.9 million and \$0.4 million as of September 30, 2018 and December 31, 2017, respectively.

Pursuant to the Employee Matters Agreement, the Company has agreed to pay Blackstone the net realized cash benefit resulting from certain compensation-related tax deductions. The amount payable to Blackstone arising from the tax deductions has been recorded in Other Expenses in the Condensed Consolidated Statements of Operations and is payable annually (for periods in which a cash benefit is realized) within nine months of the end of the relevant tax period. As of September 30, 2018 and December 31, 2017, the Company had accrued \$4.2 million and \$3.1 million, respectively, which the Company anticipates will be payable to Blackstone after the Company files its respective tax returns. The tax deduction and corresponding payable to Blackstone related to such deliveries will fluctuate primarily based on the price of Blackstone common units at the time of delivery.

Tax Matters Agreement

The Company entered into a Tax Matters Agreement with Blackstone that governs the respective rights, responsibilities and obligations of the Company and Blackstone after the spin-off with respect to tax liabilities and benefits, tax attributes, tax contests and other tax sharing regarding U.S. federal, state, local and foreign income taxes, other tax matters and related tax returns. The Company has joint and several liability with Blackstone to the Internal Revenue Service (“IRS”) for the consolidated U.S. federal income taxes of the Blackstone consolidated group relating to the taxable periods in which the Company was part of that group. However, the Tax Matters Agreement specifies the portion, if any, of this tax liability for which the Company bears responsibility, and Blackstone agrees to indemnify the Company against any amounts for which the Company is not responsible. The Tax Matters Agreement also provides special rules for allocating tax liabilities in the event that the spin-off is determined not to be tax-free. Though valid as between the parties, the Tax Matters Agreement is not binding on the IRS.

13. EMPLOYEE BENEFIT PLANS

The Company contributes to employer sponsored defined contribution plans for certain employees, subject to eligibility and statutory requirements. The Company incurred expenses with respect to these defined contribution plans in the amounts of \$0.3 million and \$0.9 million for the three and nine months ended September 30, 2018, respectively, and \$0.2 million and \$0.6 million for the three and nine months ended September 30, 2017, respectively, which are included in Compensation and Benefits in the Condensed Consolidated Statements of Operations.

ITEM 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with PJT Partners' Condensed Consolidated Financial Statements and the related notes included in this Quarterly Report on Form 10-Q.

Our team of senior professionals delivers a wide array of strategic advisory, shareholder engagement, restructuring and special situations and private fund advisory and placement services to corporations, financial sponsors, institutional investors and governments around the world. We offer a unique portfolio of advisory services designed to help our clients achieve their strategic objectives. We also provide, through Park Hill, private fund advisory and placement services for alternative investment managers, including private equity funds, real estate funds and hedge funds.

We have world-class franchises in each of the areas in which we compete.

Our strategic advisory business offers a broad range of financial advisory and transaction execution capability, including mergers and acquisitions ("M&A"), joint ventures, minority investments, asset swaps, divestitures, takeover defenses, corporate finance advisory, private placements and distressed sales. PJT Camberview, which we acquired in October 2018, brings together the world's leading experts from the investor community to help public companies understand, engage and succeed with their investors in complex and contested shareholder matters by developing insightful strategies, effective tactics and high impact messaging.

Our restructuring and special situations business is one of the world's leading advisors in restructurings and recapitalizations, both in and out of court, around the globe. With vast expertise in highly complex capital structure challenges, our Restructuring and Special Situations Group's services include advising companies, creditors and financial sponsors on recapitalizations, reorganizations, exchange offers, debt repurchases, capital raises and distressed mergers and acquisitions.

Park Hill, our private fund advisory and placement business, is a world-leading fund placement agent and provides private fund advisory and placement services for a diverse range of investment strategies. Moreover, Park Hill is the only group among its peers with top-tier dedicated private equity, hedge fund, real estate and secondary advisory groups.

Business Environment

Economic and global financial conditions can materially affect our operational and financial performance. See "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017 for a discussion of some of the factors that can affect our performance.

M&A is a cyclical business that is impacted by macroeconomic conditions. According to Thomson Reuters, worldwide M&A announced volumes during the first nine months of 2018 were up 37% versus the comparable prior period in 2017, the strongest first nine months since records began in 1980.¹ We remain in a very constructive environment for M&A by historical standards. We expect corporate boards and management teams to continue to use M&A as a tool for growth.

Global restructuring activity for the first nine months of 2018 remained consistent with 2017 despite continued low default rates. However, a balanced business mix of in-court and out-of-court transactions for companies, creditors and financial sponsors has driven continued demand for restructuring and liability management

services across a broad spectrum of industries including retail; healthcare; pharmaceuticals; shipping; and technology, media and telecommunications.

As investors seek to enhance returns, diversification and portfolio yield, alternative assets continue to be in demand by institutional investors on a global basis. Within certain asset classes, we are seeing increased interest in narrow and niche strategies as well as customized solutions such as joint ventures, separate accounts and direct investment opportunities.

On June 23, 2016, the United Kingdom (“U.K.”) voted to leave the European Union (“E.U.”), commonly referred to as “Brexit,” and on March 29, 2017, the U.K. began the process to withdraw from the E.U. The full impact of Brexit remains uncertain and the political climate in Europe continues to take shape. The future terms of the U.K.’s relationship with the E.U. are still being determined. We expect that circumstances relating to Brexit will impact the Company’s organization and/or operations and are taking preparatory steps accordingly.

Key Financial Measures

Revenues

Substantially all of our revenues are derived from Advisory Fees and Placement Fees. This revenue is primarily a function of the number of active engagements we have, the size of each of those engagements and the fees we charge for our services.

Advisory Fees – Our strategic advisory services include a broad range of financial advisory and transaction execution services relating to acquisitions, mergers, joint ventures, minority investments, asset swaps, divestitures, takeover defenses, corporate finance advisory and distressed sales. Our restructuring and special situations services include providing advice to corporations and creditors in recapitalizations and restructurings around the world, with particular expertise in large, complex and high-profile deals. In conjunction with providing such restructuring advice, we may also assist with raising various forms of financing, including debt and equity. Our secondary advisory services provided by Park Hill include providing solutions to investing clients seeking portfolio liquidity, unfunded commitment relief and investments in secondary markets. Advisory Fees typically consist of retainer and transaction-based fee arrangements. The amount and timing of the fees paid vary by the type of engagement. The majority of our Advisory Fees recognized are dependent on the successful completion of a transaction.

A transaction can fail to be completed for many reasons, including failure of parties to agree upon final terms with the counterparty, to secure necessary board or shareholder approvals, to secure necessary financing or to achieve necessary regulatory approvals. In the case of bankruptcy engagements, fees are subject to approval of the court.

Placement Fees – Our fund placement services are provided within Park Hill and primarily serve private equity, real estate and hedge funds. Our team advises on all aspects of the fundraising process including competitive positioning and market assessment, marketing materials and related documentation and partnership terms and conditions most prevalent in the current environment. We also provide private placement fundraising services to our corporate clients and earn placement fees based on successful completion of the transaction.

Fund placement fees earned for services provided to alternative asset managers are typically recognized upon acceptance by a fund of capital or capital commitments (referred to as a “closing”), in accordance with terms set forth in individual agreements. For commitment based fees, revenue is recognized over time as commitments are accepted. Fees for such closed-end fund arrangements are generally paid in installments over three or four years and interest is charged to the outstanding balance at an agreed upon rate (typically the London Interbank Offered Rate (“LIBOR”) plus a market-based margin). For funds with multiple closings, the constraint on variable consideration is lifted upon each

closing. For open-end fund structures, placement fees are typically calculated as a percentage of a placed investor's month-end net asset value. Typically, we earn fees for such open-end fund structures over a 48 month period. For these arrangements, revenue is recognized monthly as the constraint over variable consideration is lifted.

We may receive non-refundable up-front fees in our contracts with customers, which are recorded as revenues in the period over which services are estimated to be provided.

Interest Income and Other – Interest Income and Other represents interest typically earned on Cash and Cash Equivalents, U.S. Treasury securities and outstanding placement fees receivable; miscellaneous income; foreign exchange gains and losses arising on transactions denominated in currencies other than U.S. dollars; sublease income; and the amount of expense reimbursement invoiced to clients related to out-of-pocket expenses. Interest on placement fees receivable is earned from the time revenue is recognized and is calculated based upon LIBOR plus an additional percentage as mutually agreed upon with the receivable counterparty. Interest receivable is included in Accounts Receivable in the Condensed Consolidated Statements of Financial Condition.

Expenses

Compensation and Benefits – Compensation and Benefits expense includes salaries, bonuses, benefits, employer taxes and equity-based compensation associated with the grants of equity-based awards to employees and partners. Changes in this expense are driven by fluctuations in the number of employees, business performance, compensation adjustments in relation to market movements, changes in rates for employer taxes and other cost increases affecting benefit plans. In addition, this expense is affected by the composition of our work force. The expense associated with our bonus and equity plans can also have a significant impact on this expense category and may vary from year to year.

We maintain compensation programs, including salaries, annual incentive compensation (that may include components of cash, restricted cash and/or equity-based awards) and benefits programs. We manage compensation to estimates of competitive levels based on market conditions and performance. Our level of compensation reflects our plan to maintain competitive compensation levels to retain key personnel and it reflects the impact of newly-hired senior professionals, including related grants of equity awards that are generally valued at their grant date fair value.

Increasing the number of high-caliber, experienced senior level employees is critical to our growth efforts. In our advisory businesses, these hires generally do not begin to generate significant revenue in the year they are hired.

Our remaining expenses are the other costs typical to operating our business, which generally consist of:

- **Occupancy and Related** – consisting primarily of costs related to leased property, including rent, maintenance, real estate taxes, utilities and other related costs. Our company headquarters are located in New York, New York, and we maintain additional offices in the U.S. and throughout the world;
- **Travel and Related** – consisting of costs for our partners and employees to render services where our clients are located;
- **Professional Fees** – consisting primarily of consulting, audit and tax, recruiting and legal and other professional services;
- **Communications and Information Services** – consisting primarily of costs for our technology infrastructure and telecommunications costs;
- **Depreciation and Amortization** – consisting of depreciation and amortization on our furniture, equipment, leasehold improvements and intangible assets; and
- **Other Expenses** – consisting primarily of bad debt, regulatory fees, insurance, fees paid for access to external market data, advertising, other general operating expenses and transaction-related payable to The Blackstone Group L.P. (“Blackstone”).

Income Taxes – PJT Partners Inc. is a corporation subject to U.S. federal, state and local income taxes in jurisdictions where it does business. The Company’s businesses generally operate as partnerships for U.S. federal and state purposes and as corporate entities in non-U.S. jurisdictions. In the U.S. federal and state jurisdictions, taxes related to income

earned by these entities generally represent obligations of the individual members and partners.

The operating entities have generally been subject to New York City Unincorporated Business Tax (“UBT”) and to entity-level income taxes imposed by non-U.S. jurisdictions, as applicable. These taxes have been reflected in the Company’s condensed consolidated financial statements.

PJT Partners Inc. is subject to U.S. corporate federal, state and local income tax on its allocable share of results of operations from the operating partnership (PJT Partners Holdings LP).

The Tax Cuts and Jobs Act (the “Tax Legislation”) was signed into law on December 22, 2017, which lowered the U.S. corporate income tax rate to 21% as of January 1, 2018. The impact of the Tax Legislation may differ from the estimated amounts recorded, possibly materially, due to, among other things, further refinement of the Company’s calculations, changes in interpretations and assumptions the Company has made, guidance that may be issued and actions the Company may take as a result of the Tax Legislation.

Non-Controlling Interests

PJT Partners Inc. is a holding company and its only material asset is its controlling equity interest in PJT Partners Holdings LP, and certain cash and cash equivalents it may hold from time to time. As the sole general partner of PJT Partners Holdings LP, PJT Partners Inc. operates and controls all of the business and affairs and consolidates the financial results of PJT Partners Holdings LP and its operating subsidiaries.

Prior to October 1, 2017, the ownership interests of holders of common units of partnership interest in PJT Partners Holdings LP (“Partnership Units”) (other than PJT Partners Inc.) were considered redeemable non-controlling interests. On October 1, 2017, certain of the restrictive covenants entered into in connection with the spin-off expired. Previously, the ability to settle exchanges of Partnership Units in shares of the Company’s Class A common stock was not entirely within the Company’s control. Consequently, the value of these interests was reclassified from Redeemable Non-Controlling Interests to Non-Controlling Interests at their redemption value as of October 1, 2017. The portion of net income (loss) attributable to the non-controlling interests is presented separately in the Condensed Consolidated Statements of Operations.

Total Revenues were \$140.1 million for the three months ended September 30, 2018, an increase of \$61.7 million compared with \$78.5 million for the three months ended September 30, 2017. Advisory Fees were \$117.2 million for the three months ended September 30, 2018, an increase of \$56.7 million compared with \$60.5 million for the three months ended September, 2017. The increase in Advisory Fees resulted from growth in our strategic advisory, restructuring and special situations and secondary advisory businesses. Placement Fees were \$18.2 million for the three months ended September 30, 2018, an increase of \$2.3 million compared with \$15.9 million for the three months ended September 30, 2017. The increase was primarily driven by increases in capital raising activity and in our real estate vertical during the quarter. Interest Income and Other was \$4.8 million for the three months ended September 30, 2018, an increase of \$2.7 million compared with \$2.1 million for the three months ended September 30, 2017. The increase in Interest Income and Other was primarily driven by \$2.3 million of reimbursable expenses that are now presented on a gross basis due to adoption of ASU 2014-09 (the “new revenue guidance”).

Total Revenues were \$404.9 million for the nine months ended September 30, 2018, an increase of \$96.1 million compared with \$308.7 million for the nine months ended September 30, 2017. Advisory Fees were \$318.9 million for

the nine months ended September 30, 2018, an increase of \$85.8 million compared with \$233.1 million for the nine months ended September 30, 2017. The increase in Advisory Fees primarily resulted from growth in our strategic advisory and secondary advisory businesses. Placement Fees were \$72.5 million for the nine months ended September, 2018, an increase of \$3.6 million compared with \$68.9 million for the nine months ended September 30, 2017. The increase was primarily driven by increased revenues from our real estate vertical, which more than offset declines in private equity and hedge fund activity. Interest Income and Other was \$13.5 million for the nine months ended September 30, 2018, an increase of \$6.8 million compared with \$6.7 million for the nine months ended September 30, 2017. The increase in Interest Income and Other was primarily driven by \$6.7 million of reimbursable expenses that are now presented on a gross basis due to adoption of the new revenue guidance.

Expenses

Expenses were \$128.1 million for the three months ended September 30, 2018, an increase of \$34.0 million compared with \$94.1 million for the three months ended September 30, 2017. The increase in expenses was primarily attributable to increases in Compensation and Benefits and Travel and Related of \$31.9 million and \$2.1 million, respectively. The increase in Compensation and Benefits was primarily due to higher revenues and increased headcount. The increase in Travel and Related was primarily related to reimbursable expenses being presented on a gross basis during the current quarter due to adoption of the new revenue guidance.

Expenses were \$380.0 million for the nine months ended September 30, 2018, an increase of \$55.7 million compared with \$324.3 million for the nine months ended September 30, 2017. The increase in expenses was primarily attributable to increases in Compensation and Benefits, Travel and Related and Communications and Information Services of \$46.5 million, \$7.6 million and \$1.7 million, respectively. The increase in Compensation and Benefits was primarily due to higher revenues and increased headcount. The increase in Travel and Related was primarily related to adoption of the new revenue guidance. Travel and Related also increased due to increased business activity. The increase in Communications and Information Services was primarily driven by investments in our technology and data management infrastructure during the first half of the year.

Benefit for Taxes

The Company's Benefit for Taxes for the three months ended September 30, 2018 was \$0.2 million, which represented an effective tax rate of -1.6% on pretax income of \$12.1 million. The Company's Benefit for Taxes for the three months ended September 30, 2017 was \$13.3 million, which represented an effective tax rate of 84.9% on pretax loss of \$15.6 million.

The Company's Benefit for Taxes for the nine months ended September 30, 2018 was \$5.2 million, which represented an effective tax rate of -20.9% on pretax income of \$24.8 million. The Company's Benefit for Taxes for the nine months ended September 30, 2017 was \$15.6 million, which represented an effective tax rate of 100.2% on pretax loss of \$15.6 million.

The Company's effective tax rate differed from the U.S. federal statutory tax rate for the three and nine months ended September 30, 2018 due to corporate entities subject to U.S. federal, state, local and foreign income taxes, to non-corporate entities that are subject to New York City UBT and to certain compensation charges that are not deductible for income tax purposes.

The change in tax rate between the nine months ended September 30, 2018 and 2017 was primarily due to the decrease in U.S. corporate income tax rate related to the passage of the Tax Legislation in December 2017 as well as an increased tax benefit related to the deliveries of vested shares during the nine months ended September 30, 2018 at values in excess of their amortized cost.

Non-Controlling Interests

Net Income (Loss) Attributable to Non-Controlling Interests is derived from the Income (Loss) Before Benefit for Taxes and the percentage allocation of the net income (loss) between the holders of Partnership Units and holders of Class A common stock of PJT Partners Inc. after considering any contractual arrangements that govern the allocation of income (loss). As of October 1, 2017, the Redeemable Non-Controlling Interests were reclassified to Non-Controlling Interests.

Liquidity and Capital Resources

General

We regularly monitor our liquidity position, including cash and cash equivalents, investments, working capital assets and liabilities, any commitments and other liquidity requirements.

Our assets have historically been comprised of cash and cash equivalents, investments and receivables arising from strategic advisory and placement engagements. Our liabilities primarily include accrued compensation and benefits, accounts payable and accrued expenses and taxes payable. We expect to pay a significant amount of incentive compensation late each year or during the beginning of the next calendar year with respect to the prior year's results. A portion of annual compensation may be awarded with equity-based compensation and thus requires less cash. We expect levels of cash to decline at year-end or during the first quarter of each year after incentive compensation is paid to our employees. We then expect cash to gradually increase over the remainder of the year.

Previously, we had entered into a credit facility with First Republic Bank to provide a \$60.0 million revolving credit facility, with the ability to increase the credit facility up to \$80.0 million during the period beginning December 1 each year through March 1 the following year, so long as no event of default has occurred and is continuing or would be caused by exercising such option. The revolving credit facility is further described in Note 12. "Commitments and Contingencies—Commitments, Line of Credit" in the "Notes to Condensed Consolidated Financial Statements" in "—Item 1. Financial Statements" of this filing and an amendment to the revolving credit facility is further described below.

As of September 30, 2018 and December 31, 2017, there were no borrowings under the revolving credit facility and we were in compliance with the debt covenants.

On October 1, 2018, PJT Partners Holdings LP, as borrower (the "Borrower"), entered into an Amended and Restated Loan Agreement (the "Loan Agreement") and related documents with First Republic Bank, as lender (the "Lender"). The Loan Agreement provides for a revolving credit facility with aggregate commitments in an amount equal to \$40 million, which aggregate commitments may be increased, on the terms and subject to the conditions set forth in the Loan Agreement, to up to \$60 million during the period beginning December 1 each year through March 1 of the following year. The revolving credit facility will mature and the commitments thereunder will terminate on October 1, 2020, subject to extension by agreement of the Borrower and Lender.

The Loan Agreement also provides for a term loan with an aggregate commitment of \$30 million (the "Term Loan"). The Term Loan matures on January 2, 2021. In addition to the payment of interest described below, Borrower shall pay to the Lender installment payments of principal in the amount of (a) \$4.25 million on July 1, 2019 and quarterly thereafter to January 2, 2021, and (b) \$4.5 million on January 2, 2021. The Loan Agreement requires the Borrower to maintain certain minimum financial covenants and limits or restricts the ability of the Borrower (subject to certain qualifications and exceptions) to incur additional indebtedness in excess of \$20 million.

Outstanding borrowings under the revolving credit facility will bear interest equal to the greater of a per annum rate of (a) 3%, or (b) the prime rate minus 1.0%. Outstanding borrowings under the Term Loan bear interest equal to the greater of a per annum rate of (a) 3.25%, or (b) the prime rate minus 0.75%. During an event of default, overdue principal under both the revolving credit facility and Term Loan facility will bear interest at a rate 2.0% in excess of the otherwise applicable rate of interest. In connection with the closing of the Loan Agreement, the Borrower paid the Lender certain closing costs and fees. In addition, on and after the closing date, the Borrower will also pay a commitment fee on the undrawn portion of the revolving credit facility of 0.125% per annum, payable quarterly in arrears.

We evaluate our cash needs on a regular basis in light of current market conditions. As of September 30, 2018 and December 31, 2017, we had cash, cash equivalents and investments of \$192.2 million and \$182.7 million, respectively.

Our liquidity is highly dependent upon cash receipts from clients, which are generally dependent upon the successful completion of transactions as well as the timing of receivable collections. As of September 30, 2018 and December 31, 2017, total accounts receivable were \$191.8 million and \$190.4 million, respectively, net of allowance

for doubtful accounts of \$2.3 million and \$1.9 million, respectively. Included in Accounts Receivable are long-term receivables of \$68.5 million and \$77.7 million as of September 30, 2018 and December 31, 2017, respectively, related to placement fees that are generally paid in installments over a period of three to four years.

On October 1, 2018, the Company completed its previously-announced acquisition of CamberView Partners Holdings, LLC (“CamberView”).

Pursuant to the Agreement and Plan of Merger, by and among the Company, PJT Partners Holdings LP (“Purchaser”), Blue Merger Sub LLC, a wholly owned subsidiary of Purchaser, CamberView and CC CVP Partners Holdings, L.L.C., solely in its capacity as securityholder representative, dated as of August 27, 2018, the Company acquired 100% ownership of CamberView.

Sources and Uses of Liquidity

Our primary cash needs are for working capital, paying operating expenses, including cash compensation to our employees, funding the cash redemption of Partnership Units, paying income taxes, making distributions to our shareholders in accordance with our dividend policy, capital expenditures, commitments and strategic investments. We expect to fund these liquidity requirements through cash flows from operations and borrowings under our revolving credit facility. Our ability to fund these needs through cash flows from operations will depend, in part, on our ability to generate or raise cash in the future. This depends on our future financial results, which are subject to general economic, financial, competitive, legislative and regulatory factors. Furthermore, our ability to forecast future cash flows is more limited because we do not have a long-established operating history as a stand-alone company. If our cash flows from operations are less than we expect, we may need to incur debt, issue additional equity or borrow from our revolving credit facility. Although we believe that the arrangements we have in place will permit us to finance our operations on acceptable terms and conditions, our access to, and the availability of, financing on acceptable terms and conditions in the future will be impacted by many factors, including: (a) our credit ratings or absence of a credit rating, (b) the liquidity of the overall capital markets, and (c) the current state of the economy. We cannot provide any assurance that such financing will be available to us on acceptable terms or that such financing will be available at all. We believe that our future cash from operations and availability under our revolving credit facility, together with our access to funds on hand, will provide adequate resources to fund our short-term and long-term liquidity and capital needs.

Subject to the terms and conditions of the exchange agreement between us and certain of the holders of Partnership Units (other than PJT Partners Inc.), Partnership Units are exchangeable at the option of the holder for cash or, at our election, for shares of our Class A common stock on a one-for-one basis. Depending on our liquidity and capital resources, market conditions, the timing and concentration of exchange requests and other considerations, we may choose to fund cash-settled exchanges of Partnership Units with available cash, borrowings or new issuances of Class A common stock or to settle exchanges by issuing Class A common stock to the exchanging Partnership Unitholder. Issuing significant numbers of shares of our Class A common stock upon exchange of Partnership Units could adversely affect the tax consequences to Blackstone of the distribution. Accordingly, while we will retain the right under the Exchange Agreement to elect to settle exchanges in cash or Class A common stock in our sole discretion, we intend to limit such issuances of Class A common stock in settlement of exchanges of Partnership Units to the extent necessary to preserve the intended tax-free nature of the spin-off and to comply with our obligations under the Tax Matters Agreement.

Regulatory Capital

We actively monitor our regulatory capital base. We are subject to regulatory requirements in the U.S. and certain international jurisdictions to ensure general financial soundness and liquidity. This requires, among other things, that we comply with certain minimum capital requirements, recordkeeping, reporting procedures, experience and training requirements for employees and certain other requirements and procedures. These regulatory requirements may restrict the flow of funds to and from affiliates. See Note 14. “Regulated Entities” in the “Notes to Condensed Consolidated Financial Statements” in “—Item 1. Financial Statements” of this filing for further information. The licenses under which we operate are meant to be appropriate to conduct our strategic advisory, restructuring and special

situations and private fund advisory and placement services businesses. We believe that we provide each of these entities with sufficient capital and liquidity, consistent with their business and regulatory requirements.

Our activities may also be subject to regulation, including regulatory capital requirements, by various other foreign jurisdictions and self-regulatory organizations.

We do not anticipate that compliance with any and all such requirements will materially adversely impact the availability of funds for domestic and parent-level purposes.

Share Repurchase Program

On October 26, 2017, our board of directors authorized the repurchase of shares of the Company's Class A common stock in an amount up to \$100 million. Under this repurchase program, shares of the Company's Class A common stock may be repurchased from time to time in open market transactions, in privately negotiated transactions or otherwise. The timing and the actual number of shares repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. The repurchase program may be suspended or discontinued at any time and does not have a specified expiration date.

During the nine months ended September 30, 2018, we repurchased 665,301 shares of Class A common stock at an average price of \$53.78, or \$35.8 million in aggregate, pursuant to this share repurchase program. As of September 30, 2018, the available amount remaining for repurchases under this program was \$61.9 million.

Contractual Obligations

For a discussion of our contractual obligations, refer to "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Contractual Obligations" in our Annual Report on Form 10-K for the year ended December 31, 2017. There have not been any material changes to our contractual obligations since December 31, 2017.

Commitments and Contingencies

Litigation

As previously disclosed, with respect to actual and potential additional claims related to funds fraudulently obtained by Andrew Caspersen, we believe that the total potential amount of any such claims to be less than \$30 million, any such claims are without merit and we will vigorously defend any such actions.

With respect to our other litigation matters, including the litigation discussed under the caption "Legal Proceedings" elsewhere in this report, we are not currently able to estimate the possible loss or range of loss until developments in such matters have provided sufficient information to support such an assessment, including quantification of a damage demand from plaintiffs, discovery from other parties and investigation of factual allegations, rulings by courts on motions or appeals, analysis by experts or the status of any settlement negotiations. However, the disposition of these contingencies could be material to our financial results in the period in which it occurs.

Guarantee

The Company provides a guarantee to a lending institution for certain loans held by employees for investment in funds of its former Parent, which are secured by the underlying investments in those funds. The amount guaranteed was \$10.1 million and \$9.7 million as of September 30, 2018 and December 31, 2017, respectively.

Indemnifications

We have entered and may continue to enter into contracts, including contracts with Blackstone relating to the spin-off, which contain a variety of indemnification obligations. Our maximum exposure under these arrangements is not known; however, we currently expect any associated risk of loss to be insignificant. In connection with these matters, we have incurred and may continue to incur legal expenses, which are expensed as incurred.

Tax Receivable Agreement

We have entered into a tax receivable agreement with the holders of Partnership Units (other than PJT Partners Inc.) that provides for the payment by PJT Partners Inc. to exchanging holders of Partnership Units of 85% of the benefits, if any, that PJT Partners Inc. is deemed to realize as a result of the increases in tax basis related to such exchanges of Partnership Units and of certain other tax benefits related to entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement. This payment obligation is an obligation of PJT Partners Inc. and not of PJT Partners Holdings LP. PJT Partners Inc. expects to benefit from the remaining 15% of cash tax savings, if any, in income tax it realizes. As of September 30, 2018 and December 31, 2017, the Company had amounts due of \$6.1 million and \$2.9 million, respectively, pursuant to the tax receivable agreement, which represent management's best estimate of the amounts currently expected to be owed in connection with the tax receivable agreement. Actual payments may differ significantly from estimated payments.

Further information regarding the tax receivable agreement can be found in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2017.

Other

See Notes 8, 10, 12 and 13 in the "Notes to Condensed Consolidated Financial Statements" in "—Item 1. Financial Statements" of this filing for further information in connection with income taxes, equity compensation plans, commitments and employee benefit plans, respectively.

Critical Accounting Policies

Our significant accounting policies are summarized in Note 2. "Summary of Significant Accounting Policies" in the "Notes to Consolidated and Combined Financial Statements" in "Part II. Item 8. Financial Statements and Supplementary Data" in our Annual Report on Form 10-K for the year ended December 31, 2017. A discussion of critical accounting policies is included in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2017. The Company has updated its significant accounting policies with respect to the adoption of new revenue guidance as of January 1, 2018 and included this information in Note 3. "Revenues from Contracts with Customers" in the "Notes to Condensed Consolidated Financial Statements" in "—Item 1. Financial Statements" of this filing. Additionally, the Company considers this to be a change in critical accounting policies with respect to the Company's revenue recognition policies.

Off-Balance Sheet Arrangements

The Company is not involved with any off-balance sheet arrangements that are not elsewhere reflected in our condensed consolidated financial statements.

Recent Accounting Developments

Information regarding recent accounting developments and their impact on our financial statements can be found in Note 2. "Summary of Significant Accounting Policies" in the "Notes to Condensed Consolidated Financial Statements" in "—Item 1. Financial Statements" of this filing.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Quantitative and qualitative disclosures about market risk can be found in “Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the year ended December 31, 2017. Our exposures to market risk have not changed materially since December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during our most recent quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company and its affiliates may be subject to legal proceedings and claims in the ordinary course of business. In addition, government agencies and self-regulatory organizations in countries in which we conduct business conduct periodic examinations and may initiate administrative proceedings regarding the Company's and its affiliates' business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer, investment advisor, or its directors, officers or employees. It is our policy to cooperate fully with such governmental requests, examinations and administrative proceedings. In view of the inherent difficulty of determining whether any loss in connection with any such matters is probable and whether the amount of such loss can be reasonably estimated, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, we cannot estimate the amount of such loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, we believe, based on current knowledge and after consultation with counsel, that we are not currently party to any material pending proceedings, individually or in the aggregate, the resolution of which would have a material effect on the Company.

Two separate actions were filed in New York state court, in June 2017 (the "Moore Complaint") and January 2018 (the "Weekapaug Complaint"), against defendants including PJT Partners Inc., Park Hill Group LLC and Andrew W.W. Caspersen, arising out of the fraudulent conduct of Caspersen. Generally, the complaints allege that inadequate supervision enabled Caspersen to commit multiple frauds while using Park Hill Group's name and business resources. The two actions assert claims against the entity defendants for fraud (under theories of apparent authority and respondeat superior) and negligent supervision premised on frauds perpetrated by Caspersen during the period of his employment at Park Hill Group both before and after the October 1, 2015 spin-off of PJT Partners from The Blackstone Group L.P. PJT Partners Inc. and Park Hill Group moved to dismiss the Moore Complaint on August 24, 2017. On August 13, 2018, the court issued a Decision and Order dismissing all of the claims asserted against PJT Partners Inc. and Park Hill Group in the Moore Complaint except for the fraud-based apparent authority claim, which will now proceed to the discovery phase of the action. Plaintiffs and PJT Partners Inc. and Park Hill Group have appealed the court's August 2018 decision. PJT Partners Inc. and Park Hill Group moved to dismiss the Weekapaug Complaint on October 29, 2018. We believe that both actions are without merit and will defend them vigorously.

Unregistered Sales

In connection with the issuance during the third quarter of 2018 of LTIP Units in PJT Partners Holdings LP to two employees of the Company, PJT Partners Inc. issued two corresponding shares of its Class B common stock, par value \$0.01 per share, to these employees. Shares of Class B common stock have no economic rights but entitle the holder, without regard to the number of shares of Class B common stock held, to a number of votes that is equal to the aggregate number of vested and unvested Partnership Units and LTIP Units in PJT Partners Holdings LP held by such holder on all matters presented to stockholders of PJT Partners Inc. other than director elections and removals. With respect to the election and removal of directors of PJT Partners Inc., shares of Class B common stock will initially entitle holders to only one vote per share. However, the voting power of Class B common stock with respect to the election and removal of directors of PJT Partners Inc. may be increased to up to the number of votes to which a holder is then entitled on all other matters presented to stockholders. The issuance of shares of Class B common stock was not registered under the Securities Act of 1933 because such shares were not issued in a transaction involving the offer or sale of securities.
