POLARIS INDUSTRIES INC.  
(Exact name of registrant as specified in its charter)

Minnesota 41-1790959  
(State or other jurisdiction of (I.R.S. Employer  
incorporation or organization) Identification No.)

2100 Highway 55, Medina MN 55340  
(Address of principal executive (Zip Code)  
offices)

(763) 542-0500  
(Registrant's telephone number, including area  
code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Edgar Filing: POLARIS INDUSTRIES INC/MN - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

**APPLICABLE ONLY TO CORPORATE ISSUERS:**

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of April 23, 2015, 66,459,377 shares of Common Stock, \$.01 par value, of the registrant were outstanding.

## POLARIS INDUSTRIES INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## Note 1. Significant Accounting Policies

Basis of presentation. The accompanying unaudited consolidated financial statements of Polaris Industries Inc. ("Polaris" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and, therefore, do not include all information and disclosures of results of operations, financial position and changes in cash flow in conformity with accounting principles generally accepted in the United States for complete financial statements. Accordingly, such statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2014 previously filed with the Securities and Exchange Commission. In the opinion of management, such statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Due to the seasonality of snowmobiles; Off-Road Vehicles (ORV), which include all-terrain vehicles (ATV) and side-by-side vehicles; motorcycles; Global Adjacent Markets; and related Parts, Garments and Accessories (PG&A), and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

Fair value measurements. Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date: Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In making fair value measurements, observable market data must be used when available. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The Company utilizes the market approach to measure fair value for its non-qualified deferred compensation assets and liabilities, and the income approach for foreign currency contracts and commodity contracts. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities, and for the income approach the Company uses significant other observable inputs to value its derivative instruments used to hedge foreign currency and commodity transactions.

Assets and liabilities measured at fair value on a recurring basis are summarized below (in thousands):

Asset (Liability)	Fair Value Measurements as of March 31, 2015			
	Total	Level 1	Level 2	Level 3
Non-qualified deferred compensation assets	\$45,123	\$45,123	—	—

Table of Contents

Inventories. Inventory costs include material, labor and manufacturing overhead costs, including depreciation expense associated with the manufacture and distribution of the Company's products. Inventories are stated at the lower of cost (first-in, first-out method) or market. The major components of inventories are as follows (in thousands):

	March 31, 2015	December 31, 2014
Raw materials and purchased components	\$174,198	\$165,823
Service parts, garments and accessories	162,578	163,455
Finished goods	321,300	262,578
Less: reserves	(28,791	) (26,171
Inventories	\$629,285	\$565,685

Product warranties. Polaris provides a limited warranty for its ORVs for a period of six months, for a period of one year for its snowmobiles, for a period of one or two years for its motorcycles depending on brand and model year, and for a two year period for GEM, Goupil and Aixam vehicles. Polaris provides longer warranties in certain geographical markets as determined by local regulations and market conditions and may also provide longer warranties related to certain promotional programs. Polaris' standard warranties require the Company or its dealers to repair or replace defective products during such warranty periods at no cost to the consumer. The warranty reserve is established at the time of sale to the dealer or distributor based on management's best estimate using historical rates and trends.

Adjustments to the warranty reserve are made from time to time as actual claims become known in order to properly estimate the amounts necessary to settle future and existing claims on products sold as of the balance sheet date.

Factors that could have an impact on the warranty accrual in any given period include the following: improved manufacturing quality, shifts in product mix, changes in warranty coverage periods, snowfall and its impact on snowmobile usage, product recalls and any significant changes in sales volume. The activity in the warranty reserve during the periods presented was as follows (in thousands):

	Three months ended March 31, 2015	2014
Balance at beginning of period	\$53,104	\$52,818
Additions to warranty reserve through acquisitions	50	—
Additions charged to expense	13,919	11,027
Warranty claims paid	(18,439	) (16,621
Balance at end of period	\$48,634	\$47,224

New Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. This ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue from the transfer of goods or services to customers in an amount that reflects the consideration that the entity expects to receive in exchange for those goods or services. Polaris is required to adopt the new pronouncement on January 1, 2017 using one of two retrospective application methods. The Company is evaluating the application method and the impact of this new standard on the financial statements.

There are no other new accounting pronouncements that are expected to have a significant impact on Polaris' consolidated financial statements.

## Note 2. Share-Based Compensation

The amount of compensation cost for share-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. The Company estimates stock option forfeitures at the time of grant and revises those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company analyzes historical data to estimate pre-vesting forfeitures and records share compensation expense for those awards expected to vest.

Table of Contents

Total share-based compensation expenses were as follows (in thousands):

	Three months ended March 31,	
	2015	2014
Option plan	\$6,585	\$5,578
Other share-based awards	6,757	4,411
Total share-based compensation before tax	13,342	9,989
Tax benefit	4,977	3,729
Total share-based compensation expense included in net income	\$8,365	\$6,260

In addition to the above share-based compensation expenses, Polaris sponsors a qualified non-leveraged employee stock ownership plan (ESOP). Shares allocated to eligible participants' accounts vest at various percentage rates based on years of service and require no cash payments from the recipient.

At March 31, 2015, there was \$121,340,000 of total unrecognized share-based compensation expense related to unvested share-based equity awards. Unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 2.02 years. Included in unrecognized share-based compensation is approximately \$56,309,000 related to stock options and \$65,031,000 for restricted stock.

### Note 3. Financing Agreements

Debt, capital lease obligations, notes payable and the average related interest rates were as follows (in thousands):

	Average interest rate at March 31, 2015	Maturity	March 31, 2015	December 31, 2014
Revolving loan facility	0.90%	March 2020	\$91,688	—
Senior notes—fixed rate	3.81%	May 2018	25,000	\$25,000
Senior notes—fixed rate	4.60%	May 2021	75,000	75,000
Senior notes—fixed rate	3.13%	December 2020	100,000	100,000
Capital lease obligations	5.04%	Various through 2029	22,877	26,148
Notes payable	3.50%	June 2027	14,500	—
Total debt, capital lease obligations, and notes payable			\$329,065	\$226,148
Less: current maturities			2,203	2,528
Total long-term debt, capital lease obligations, and notes payable			\$326,862	\$223,620

In August 2011, Polaris entered into a \$350,000,000 unsecured revolving loan facility. In January 2013, Polaris amended the loan facility to provide more beneficial covenant and interest rate terms and extend the expiration date from August 2016 to January 2018. In March 2015, Polaris amended the loan facility to increase the facility to \$500,000,000 and to provide more beneficial covenant and interest rate terms. The amended terms also extended the expiration date to March 2020. Interest is charged at rates based on a LIBOR or "prime" base rate.

In December 2010, the Company entered into a Master Note Purchase Agreement to issue \$25,000,000 of unsecured senior notes due May 2018 and \$75,000,000 of unsecured senior notes due May 2021 (collectively, the "Senior Notes"). The Senior Notes were issued in May 2011. In December 2013, the Company entered into a First Supplement to Master Note Purchase Agreement, under which the Company issued \$100,000,000 of unsecured senior notes due December 2020.

The unsecured revolving loan facility and the Master Note Purchase Agreement contain covenants that require Polaris to maintain certain financial ratios, including minimum interest coverage and maximum leverage ratios. Polaris was in compliance with all such covenants as of March 31, 2015.

A property lease agreement for a manufacturing facility which Polaris began occupying in Opole, Poland commenced in February 2014. The Poland property lease is accounted for as a capital lease.

In January 2015, the Company announced plans to build a new production facility in Huntsville, Alabama to provide additional capacity and flexibility. The 600,000 square-foot facility will focus on off-road vehicle production. The

Company broke ground on the facility in the first quarter of 2015 with completion expected in the first half of 2016. A mortgage note payable agreement of \$14,500,000 for land, on which Polaris is building the facility, commenced in February 2015. The

9

---

Table of Contents

payment of principal and interest for the note payable is forgivable if the Company satisfies certain job commitments over the term of the note.

## Note 4. Goodwill and Other Intangible Assets

Goodwill and other intangible assets, net, consisted of \$114,293,000 of goodwill and \$96,158,000 of intangible assets, net of accumulated amortization, as of March 31, 2015.

In November 2014, the Company acquired certain assets of LSI Products Inc. and Armor Holdings, LLC.

(collectively, "Pro Armor"). Pro Armor is an industry-leading brand in performance side-by-side accessories. In January 2015, Polaris completed a non-cash acquisition of the electric motorcycle business from Brammo, Inc.

("Brammo"). Brammo will continue to be a designer and developer of electric vehicle powertrains. As of March 31, 2015, the purchase price allocations for Pro Armor and Brammo remain preliminary.

The changes in the carrying amount of goodwill for the three months ended March 31, 2015 were as follows (in thousands):

	Three months ended March 31, 2015
Goodwill, beginning of period	\$ 123,031
Goodwill acquired	110
Currency translation effect on foreign goodwill balances	(8,848 )
Goodwill, end of period	\$ 114,293

For other intangible assets, the changes in the net carrying amount for the three months ended March 31, 2015 were as follows (in thousands):

	Three months ended March 31, 2015	
	Gross Amount	Accumulated Amortization
Other intangible assets, beginning of period	\$ 124,093	\$(23,158 )
Intangible assets acquired during the period	2,864	—
Amortization expense	—	(2,752 )
Foreign currency translation effect on balances	(6,363 )	1,474 )
Other intangible assets, end of period	\$ 120,594	\$(24,436 )

The components of other intangible assets were as follows (in thousands):

	Total estimated life (years)	March 31, 2015	December 31, 2014
Non-amortizable— indefinite lived:			
Brand names		\$44,787	\$46,224
Amortized:			
Non-compete agreements	5	540	540
Dealer/customer related	7	58,122	62,758
Developed technology	5-7	17,145	14,571
Total amortizable		75,807	77,869
Less: Accumulated amortization		(24,436 )	(23,158 )
Net amortized other intangible assets		51,371	54,711
Total other intangible assets, net		\$96,158	\$100,935

Amortization expense for intangible assets for the three months ended March 31, 2015 and 2014 was \$2,752,000 and \$2,745,000, respectively. Estimated amortization expense for the remainder of 2015 through 2020 is as follows: 2015 (remainder), \$8,300,000; 2016, \$11,000,000; 2017, \$10,700,000; 2018, \$9,200,000; 2019, \$8,000,000; 2020, \$3,200,000; and after 2020, \$1,000,000. The preceding expected amortization expense is an estimate and actual amounts could differ due to additional intangible asset acquisitions, changes in foreign currency rates or impairment of intangible assets.

Note 5. Shareholders' Equity

During the three months ended March 31, 2015, Polaris paid \$86,267,000 to repurchase and retire approximately 571,000 shares of its common stock. As of March 31, 2015, the Board of Directors has authorized the Company to repurchase up to an

10

---

Table of Contents

additional 4,479,000 shares of Polaris stock. The repurchase of any or all such shares authorized for repurchase will be governed by applicable SEC rules and dependent on management's assessment of market conditions. Polaris paid a regular cash dividend of \$0.53 per share on March 16, 2015 to holders of record at the close of business on March 2, 2015. On April 30, 2015, the Polaris Board of Directors declared a regular cash dividend of \$0.53 per share payable on June 15, 2015 to holders of record of such shares at the close of business on June 1, 2015. Cash dividends declared per common share for the three months ended March 31, 2015 and 2014, were as follows:

	Three months ended March 31,	
	2015	2014
Cash dividends declared and paid per common share	\$0.53	\$0.48
Net income per share		

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during each period, including shares earned under The Deferred Compensation Plan for Directors ("Director Plan"), the ESOP and deferred stock units under the 2007 Omnibus Incentive Plan ("Omnibus Plan"). Diluted earnings per share is computed under the treasury stock method and is calculated to compute the dilutive effect of outstanding stock options issued under the 1995 Stock Option Plan and the 2003 Non-Employee Director Stock Option Plan (collectively, the "Option Plans") and certain shares issued under the Omnibus Plan. A reconciliation of these amounts is as follows (in thousands):

	Three months ended March 31,	
	2015	2014
Weighted average number of common shares outstanding	66,137	65,557
Director Plan and deferred stock units	205	201
ESOP	87	75
Common shares outstanding—basic	66,429	65,833
Dilutive effect of Option Plans and Omnibus Plan	1,717	2,125
Common and potential common shares outstanding—diluted	68,146	67,958

During the three months ended March 31, 2015, the number of options that could potentially dilute earnings per share on a fully diluted basis that were not included in the computation of diluted earnings per share (because to do so would have been anti-dilutive) were 742,000 compared to 379,000 for the same period in 2014.

Accumulated other comprehensive loss

Changes in the accumulated other comprehensive loss balance is as follows (in thousands):

	Foreign Currency Items	Cash Flow Hedging Derivatives	Accumulated Other Comprehensive Loss
Balance as of December 31, 2014	\$(25,789)	) \$(1,452	) \$(27,241
Reclassification to the income statement	—	392	392
Change in fair value	(30,156	) 1,180	(28,976
Balance as of March 31, 2015	\$(55,945	) \$120	\$(55,825

The table below provides data about the amount of gains and losses, net of tax, reclassified from accumulated other comprehensive loss into the income statement for cash flow derivatives designated as hedging instruments for the three months ended March 31, 2015 and 2014 (in thousands):

	Location of (Gain) Loss Reclassified from Accumulated OCI into Income	Three months ended March 31,	
		2015	2014
Derivatives in Cash Flow Hedging Relationships			
Foreign currency contracts	Other expense (income), net	\$504	\$(410
Foreign currency contracts	Cost of sales	(896	) 102
Total		\$(392	) \$(308

Table of Contents

The net amount of the existing gains or losses at March 31, 2015 that is expected to be reclassified into the income statement within the next 12 months is expected to not be material. See Note 9 for further information regarding Polaris' derivative activities.

#### Note 6. Financial Services Arrangements

Polaris Acceptance, a joint venture between Polaris and GE Commercial Distribution Finance Corporation, an indirect subsidiary of General Electric Capital Corporation, which is supported by a partnership agreement between their respective wholly owned subsidiaries, finances substantially all of Polaris' United States sales whereby Polaris receives payment within a few days of shipment of the product. Polaris' subsidiary has a 50 percent equity interest in Polaris Acceptance. Polaris Acceptance sells a majority of its receivable portfolio to a securitization facility (the "Securitization Facility") arranged by General Electric Capital Corporation. The sale of receivables from Polaris Acceptance to the Securitization Facility is accounted for in Polaris Acceptance's financial statements as a "true-sale" under Accounting Standards Codification Topic 860. Polaris' allocable share of the income of Polaris Acceptance has been included as a component of income from financial services in the accompanying consolidated statements of income. The partnership agreement is effective through February 2017.

Polaris' total investment in Polaris Acceptance of \$96,247,000 at March 31, 2015 is accounted for under the equity method, and is recorded in investment in finance affiliate in the accompanying consolidated balance sheets. At March 31, 2015, the outstanding amount of net receivables financed for dealers under this arrangement was \$1,221,937,000, which included \$382,158,000 in the Polaris Acceptance portfolio and \$839,779,000 of receivables within the Securitization Facility ("Securitized Receivables").

Polaris has agreed to repurchase products repossessed by Polaris Acceptance up to an annual maximum of 15 percent of the aggregate average month-end outstanding Polaris Acceptance receivables and Securitized Receivables during the prior calendar year. For calendar year 2015, the potential 15 percent aggregate repurchase obligation is approximately \$146,440,000. Polaris' financial exposure under this arrangement is limited to the difference between the amounts unpaid by the dealer with respect to the repossessed product plus costs of repossession and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement during the periods presented.

Polaris has agreements with Capital One, Sheffield Financial, Synchrony Bank, Freedom Road and Chrome Capital, under which these financial institutions provide financing to end consumers of Polaris products. Polaris' income generated from these agreements has been included as a component of income from financial services in the accompanying consolidated statements of income.

Polaris also administers and provides extended service contracts to consumers and certain insurance contracts to dealers and consumers through various third-party suppliers. Polaris does not retain any warranty, insurance or financial risk under any of these arrangements. Polaris' service fee income generated from these arrangements has been included as a component of income from financial services in the accompanying consolidated statements of income.

#### Note 7. Investment in Other Affiliates

The Company has certain investments in nonmarketable securities of strategic companies. As of March 31, 2015, and December 31, 2014, these investments are comprised of investments in Eicher-Polaris Private Limited (EPPL) and Brammo, and are recorded as components of other long-term assets in the accompanying consolidated balance sheets. EPPL is a joint venture established in 2012 with Eicher Motors Limited ("Eicher"). Polaris and Eicher each control 50 percent of the joint venture, which is intended to design, develop and manufacture a full range of new vehicles for India and other emerging markets. The investment in EPPL is accounted for under the equity method, with Polaris' proportionate share of income or loss recorded within the consolidated financial statements on a one month lag due to financial information not being available timely. At the time of the establishment of the joint venture, the overall investment was expected to be approximately \$50,000,000, shared equally with Eicher over a three year period. As of March 31, 2015 and 2014, the carrying value of the Company's investment in EPPL was \$17,987,000 and \$5,602,000, respectively. Through March 31, 2015, Polaris has invested \$26,927,000 in the joint venture. Polaris' share of EPPL loss for the three months ended March 31, 2015 and 2014 was \$1,623,000 and \$896,000, respectively, and is included

in equity in loss of other affiliates on the consolidated statements of income.

Brammo is a privately held designer and developer of electric powertrains, which Polaris has invested in since 2011. The investment in Brammo is accounted for under the cost method. Brammo is in the early stages of designing, developing, and selling electric vehicle powertrains. As such, a risk exists that Brammo may not be able to secure sufficient financing to reach

12

---

Table of Contents

viability through cash flow from operations. In January 2015, Polaris acquired the electric motorcycle business from Brammo, and also made an additional investment in the remaining Brammo business, which will continue to be a designer and developer of electric vehicle powertrains.

Polaris will impair or write off an investment and recognize a loss if and when events or circumstances indicate there is impairment in the investment that is other-than-temporary. When necessary, Polaris evaluates investments in nonmarketable securities for impairment, utilizing level 3 fair value inputs. No impairments were recognized on currently held investments in the three months ended March 31, 2015 and 2014.

**Note 8. Commitments and Contingencies**

Polaris is subject to product liability claims in the normal course of business. In late 2012, Polaris purchased excess insurance coverage for catastrophic product liability claims for incidents occurring after the policy date. Polaris self-insures product liability claims before the policy date and up to the purchased catastrophic insurance coverage after the policy date. The estimated costs resulting from any losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable. The Company utilizes historical trends and actuarial analysis tools, along with an analysis of current claims, to assist in determining the appropriate loss reserve levels. At March 31, 2015, the Company had an accrual of \$16,700,000 for the probable payment of pending claims related to continuing operations product liability litigation associated with Polaris products. This accrual is included as a component of other accrued expenses in the accompanying consolidated balance sheets.

Polaris is a defendant in lawsuits and subject to other claims arising in the normal course of business. In the opinion of management, it is unlikely that any legal proceedings pending against or involving Polaris will have a material adverse effect on Polaris' financial position or results of operations.

As a component of certain past acquisition agreements, Polaris has committed to make additional payments to certain sellers contingent upon either the passage of time or certain financial performance criteria. Polaris initially records the fair value of each commitment as of the respective opening balance sheet, and each reporting period the fair value is evaluated, using level 3 inputs, with the change in value reflected in the consolidated statements of income. As of March 31, 2015 and December 31, 2014, the fair value of contingent purchase price commitments was \$29,150,000 and \$27,908,000, respectively, recorded in other long-term liabilities in the consolidated balance sheets.

**Note 9. Derivative Instruments and Hedging Activities**

The Company is exposed to certain risks relating to its ongoing business operations. From time to time, the primary risks managed by using derivative instruments are foreign currency risk, interest rate risk and commodity price fluctuations. Derivative contracts on various currencies are entered into in order to manage foreign currency exposures associated with certain product sourcing activities and intercompany cash flows. Interest rate swaps are entered into in order to manage interest rate risk associated with the Company's variable-rate borrowings. Commodity hedging contracts are entered into in order to manage fluctuating market prices of certain purchased commodities and raw materials that are integrated into the Company's end products.

The Company's foreign currency management objective is to mitigate the potential impact of currency fluctuations on the value of its U.S. dollar cash flows and to reduce the variability of certain cash flows at the subsidiary level. The Company actively manages certain forecasted foreign currency exposures and uses a centralized currency management operation to take advantage of potential opportunities to naturally offset foreign currency exposures against each other. The decision of whether and when to execute derivative instruments, along with the duration of the instrument, can vary from period to period depending on market conditions, the relative costs of the instruments and capacity to hedge. The duration is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. Polaris does not use any financial contracts for trading purposes.

At March 31, 2015, Polaris had the following open foreign currency contracts (in thousands):

Foreign Currency	Notional Amounts (in U.S. Dollars)	Net Unrealized Gain (Loss)
Australian Dollar	\$ 10,681	\$ 567

Edgar Filing: POLARIS INDUSTRIES INC/MN - Form 10-Q

Canadian Dollar	181,253	2,150	
Japanese Yen	16,882	(795	)
Mexican Peso	35,105	(1,975	)
Total	\$243,921	\$(53	)

13

---

Table of Contents

These contracts, with maturities through June 30, 2016, met the criteria for cash flow hedges and the unrealized gains or losses, after tax, are recorded as a component of accumulated other comprehensive loss in shareholders' equity. Polaris enters into derivative contracts to hedge a portion of the exposure related to diesel fuel. These diesel fuel derivative contracts have not met the criteria for hedge accounting. The Company recognized a loss of \$1,053,000 and \$17,000 in cost of sales on commodity contracts not designated as hedging instruments during the three months ended March 31, 2015 and 2014, respectively.

The table below summarizes the carrying values of derivative instruments as of March 31, 2015 and December 31, 2014 (in thousands):

	Carrying Values of Derivative Instruments as of March 31, 2015		
	Fair Value— Assets	Fair Value— (Liabilities)	Derivative Net Carrying Value
Derivatives designated as hedging instruments			
Foreign exchange contracts(1)	\$2,881	\$(2,934)	) \$(53)
Total derivatives designated as hedging instruments	\$2,881	\$(2,934)	) \$(53)
Commodity contracts(1)	\$—	\$(3,925)	) \$(3,925)
Total derivatives not designated as hedging instruments	\$—	\$(3,925)	) \$(3,925)
Total derivatives	\$2,881	\$(6,859)	) \$(3,978)
	Carrying Values of Derivative Instruments as of December 31, 2014		
	Fair Value— Assets	Fair Value— (Liabilities)	Derivative Net Carrying Value
Derivatives designated as hedging instruments			
Foreign exchange contracts(1)	\$534	\$(3,104)	) \$(2,570)
Total derivatives designated as hedging instruments	\$534	\$(3,104)	) \$(2,570)
Commodity contracts(1)	—	\$(4,609)	) \$(4,609)
Total derivatives not designated as hedging instruments	—	\$(4,609)	) \$(4,609)
Total derivatives	\$534	\$(7,713)	) \$(7,179)

(1) Assets are included in prepaid expenses and other and liabilities are included in other accrued expenses on the accompanying consolidated balance sheets.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of accumulated other comprehensive loss and reclassified into the income statement in the same period or periods during which the hedged transaction affects the income statement. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in the current income statement.

The table below provides data about the amount of gains and losses, net of tax, related to derivative instruments designated as cash flow hedges included in accumulated other comprehensive loss for the three months ended March 31, 2015 and 2014 (in thousands):

Gains From Derivatives in Cash Flow Hedging Relationships	Three months ended March 31,	
	2015	2014
Foreign currency contracts	\$1,572	\$566

See Note 5 for information about the amount of gains and losses, net of tax, reclassified from accumulated other comprehensive loss into the income statement for derivative instruments designated as hedging instruments. The ineffective portion of foreign currency contracts was not material for the three month period ended March 31, 2015.

## Note 10. Subsequent Events

On April 21, 2015, Polaris acquired Timbersled Products, Inc. ("Timbersled"), a privately owned company based in Idaho that designs, develops, manufactures, sells and distributes a Snow Bike kit and snowmobile accessories. Timbersled is a leading brand in the Snow Bike market. The acquisition is intended to strengthen Polaris' long-term

snowmobile growth strategy and commitment to the snowmobile powersports industry.

14

---

Table of Contents

On April 22, 2015, Polaris acquired HH Investment Limited ("Hammerhead"), a privately owned company based in Shanghai, China that manufactures gasoline powered go-karts, light utility vehicles, and electric utility vehicles. Hammerhead markets its products globally under the Hammerhead Offroad® brand, along with maintaining key private label relationships with other original equipment manufacturers. The acquisition is intended to expand both Polaris' international manufacturing footprint and product breadth of off-road vehicles.

These acquisitions are not material to the consolidated financial statements.

## Item 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

The following discussion pertains to the results of operations and financial position of Polaris Industries Inc., a Minnesota corporation, for the three month period ended March 31, 2015 compared to the three month period ended March 31, 2014. The terms "Polaris," the "Company," "we," "us," and "our" as used herein refer to the business and operations of Polaris Industries Inc., its subsidiaries and its predecessors, which began doing business in the early 1950s. Due to the seasonality of snowmobiles; Off-Road Vehicles (ORV), which includes all-terrain vehicles (ATV) and side-by-side vehicles; motorcycles; Global Adjacent Markets; and related Parts, Garments and Accessories (PG&A), and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

We reported net income of \$88.6 million, or \$1.30 per diluted share, an earnings per diluted share increase of nine percent compared to 2014 first quarter net income of \$80.9 million, or \$1.19 per diluted share. Sales totaled \$1,033.3 million, an increase of 16 percent from last year’s first quarter sales of \$888.3 million. The sales increase was driven primarily by increased sales of ORVs, motorcycles and PG&A, improved pricing and beneficial mix. Our unit retail sales to consumers in North America grew eight percent in the first quarter of 2015, with the increased demand primarily of ORVs and motorcycles. Our sales to customers outside of North America declined seven percent driven by lower sales in ORVs and motorcycles, due to a decline in sales in the Europe, Middle East and Africa ("EMEA") region of 15 percent, offset by a 75 percent increase in Latin American sales and a six percent increase in sales in the Asia/Pacific region. Our gross profit of \$293.7 million increased 14 percent from \$258.4 million in the comparable prior year period. The increase in gross profit resulted primarily from higher volume, increased selling prices and continued product cost reduction efforts, partially offset by negative currency impacts and unfavorable mix. Our liquidity remained healthy with \$111.0 million of cash on hand and \$408.3 million of availability on our revolving loan facility at March 31, 2015.

### Results of Operations

Unless otherwise noted, all "quarter" comparisons are from the first quarter 2015 to the first quarter 2014.

#### Sales:

First quarter sales were \$1,033.3 million, a 16 percent increase from \$888.3 million of sales in the prior year. The following table is an analysis of the percentage change in total Company sales:

	Percent change in total Company sales compared to corresponding period of the prior year Three months ended March 31, 2015	
Volume	10	%
Product mix and price	10	
Currency	(4	)
	16	%

Volume increased as we shipped more ORVs, snowmobiles, motorcycles and related PG&A items to dealers given increased consumer retail demand for our products in North America. Product mix and price contributed to the growth primarily due to the positive benefit of a greater number of higher priced ORVs and motorcycles sold to dealers

relative to our other businesses. The U.S. dollar to Canadian dollar exchange rate, and overall strength of the U.S. dollar compared to the Euro and other international currencies negatively impacted our first quarter sales by approximately \$32.0 million when compared to the prior year period exchange rate.

Table of Contents

Our components of sales were as follows:

(\$ in millions)	Three months ended March 31,					
	2015	Percent of Total Sales	2014	Percent of Total Sales	Percent Change 2015 vs. 2014	
Off-Road Vehicles	\$645.4	63	% \$580.1	65	% 11	%
Snowmobiles	14.5	1	% 15.6	2	% (7	)%
Motorcycles	137.4	13	% 78.9	9	% 74	%
Global Adjacent Markets	65.4	6	% 61.2	7	% 7	%
PG&A	170.6	17	% 152.5	17	% 12	%
Total Sales	\$1,033.3	100	% \$888.3	100	% 16	%

ORVs: The eleven percent increase in sales reflects ongoing market acceptance of our numerous brands of off-road vehicles. Our North American ORV quarter unit retail sales to consumers increased mid-single digits percent, with consumer purchases of RANGER® and RZR® side-by-side vehicles each increasing from the first quarter last year. North American ATV retail sales were about flat for the quarter due to heavy competitive promotional spending during the 2015 first quarter. North American industry ORV retail sales increased mid-single digits percent from the first quarter of 2014. Polaris' North American dealer unit inventory was higher in the 2015 first quarter compared to a year ago reflecting new segments added, an increase in dealer count and the change to the ATV Retail Flow Management (RFM) sales order process. Quarter sales outside of North America decreased ten percent, primarily due to weak economic conditions in the EMEA region, as well as the currency impact of the strong U.S. dollar. The quarter average per unit sales price increased seven percent primarily as a result of the increased sales of higher priced side-by-side vehicle models.

Snowmobiles: Sales decreased seven percent primarily due to a negative currency impact on sales of 13% for the quarter. Historically, the first quarter is a slow quarter for shipments to dealers due to the seasonality of the business. Polaris and North American industry retail sales both decreased during the quarter. Dealer inventory levels, while elevated from the prior season-end, remain at acceptable levels for the 2014-2015 season-end. Sales to customers outside of North America decreased 12 percent in the first quarter 2015 due to the currency impact of the stronger U.S. dollar. During the quarter, the Company introduced its model year 2016 snowmobile lineup highlighted by the all-new 408-pound 800 PRO-RMK®. The average per unit sales price decreased 21 percent due to a decrease in international sales, driven by the currency impact of the strong U.S. dollar.

For the snowmobile season ended March 31, 2015 compared to season ended March 31, 2014, the North American industry retail sales were up mid-single digits percent due to favorable early snowfall levels in parts of the North American snowmobile riding areas and strong new product introductions. Our North American retail sales were up high-single digits percent for the full 2014-2015 season, resulting in an increase in market share.

Motorcycles: The increase in sales is due to increased shipments of Victory® and Indian® motorcycles and Slingshot®. Consumer retail demand for Polaris motorcycles was up about double last year's first quarter, driven by strong Indian Motorcycle and Slingshot retail sales, while first quarter North American industry heavyweight cruiser and touring motorcycle retail sales were up only one percent from 2014. All three brands added to their product portfolios during the quarter as Indian Motorcycle introduced the Indian Chief Dark Horse®; Victory introduced the Magnum™ X-1; and Slingshot added a limited edition model. Increased shipments of Indian motorcycles and Slingshot are the primary driver of North American Polaris dealer inventory increasing approximately twenty percent. Quarter sales to customers outside of North America decreased 12 percent due to the currency impact of the strong U.S. dollar. The quarter average per unit sales price increased two percent.

Global Adjacent Markets: The increase in sales is primarily due to double digit sales growth within our military group. Our work and transportation ("W&T") group sales increased mid-single digits percent with North American W&T sales increasing double-digits percent while W&T outside North America declined partly resulting from lower Aixam sales in EMEA due to the impact of negative currencies.

PG&A: The sales increase was driven primarily by increases in ORV, motorcycles and Global Adjacent Markets related PG&A resulting from continued product innovation, increased integration of accessories, improved product availability, sales contributions from our 2014 acquisitions, and an ongoing focus on Klim® apparel sales. This sales increase was partially offset by weak snowmobile parts sales due to poor snowfall in key riding areas during the 2015 first quarter. Quarter sales to customers outside North America were approximately flat.

Table of Contents

Sales by geographic region were as follows:

(\$ in millions)	Three months ended March 31,					
	2015	Percent of Total Sales	2014	Percent of Total Sales	Percent Change 2015 vs. 2014	
United States	\$810.1	78	% \$639.7	72	% 27	%
Canada	70.1	7	% 83.5	9	% (16	)%
Other foreign countries	153.1	15	% 165.1	19	% (7	)%
Total sales	\$1,033.3	100	% \$888.3	100	% 16	%

United States: Sales in the United States increased due to higher shipments of ORVs, snowmobiles, motorcycles and PG&A, improved pricing and more beneficial product mix.

Canada: Sales in Canada decreased primarily due to an unfavorable eleven percent currency rate movement impact on sales.

Other foreign countries: Sales in other foreign countries decreased primarily due to decreased sales of ORVs, particularly ATV and side-by-side vehicles, and motorcycles in the EMEA region. These sales decreases were offset by a 75 percent increase in Latin American sales and a six percent increase in sales in Asia/Pacific. Currency rate movements had a negative impact on sales of 16 percent.

Cost of Sales:

(\$ in millions)	Three months ended March 31,					
	2015	Percent of Total Cost of Sales	2014	Percent of Total Cost of Sales	Change 2015 vs. 2014	
Purchased materials and services	\$635.2	86	% \$549.3	87	% 16	%
Labor and benefits	61.3	8	% 49.3	8	% 24	%
Depreciation and amortization	29.2	4	% 20.3	3	% 44	%
Warranty costs	13.9	2	% 11.0	2	% 26	%
Total cost of sales	\$739.6	100	% \$629.9	100	% 17	%
Percentage of sales	71.6	%	70.9	%	+66 basis points	

The increase in cost of sales dollars resulted primarily from the effect of increases in volume on purchased materials and labor and benefits.

Gross Profit:

(\$ in millions)	Three months ended March 31,		
	2015	2014	Change 2015 vs. 2014
Gross profit dollars	\$293.7	\$258.4	14
Percentage of sales	28.4	% 29.1	% -66 basis points

Gross profit, as a percentage of sales, decreased due to negative currency rate movements, primarily the Canadian dollar, along with unfavorable mix, partially offset by lower product costs and higher pricing. Foreign currencies had a negative impact to gross profit of approximately \$12.0 million for the quarter. Gross profit in absolute dollars increased from higher sales volume, lower product costs and higher pricing offset by negative impacts from currency and unfavorable mix.

Table of Contents

## Operating Expenses:

(\$ in millions)	Three months ended March 31,			
	2015	2014	Change 2015 vs. 2014	
Selling and marketing	\$69.7	\$65.6	6	%
Research and development	38.9	35.5	10	%
General and administrative	49.5	41.3	20	%
Total operating expenses	\$158.1	\$142.4	11	%
Percentage of sales	15.3	% 16.0	% -73 basis points	

The increase in operating expenses was lower than the increase in sales primarily due to the realization of operating expense leverage from prior years research and development and infrastructure investments, offset partially by higher long-term incentive compensation expense. Operating expenses in absolute dollars also increased due to higher marketing and advertising expenses related to the launch of various new products and infrastructure investments being made to support our global growth initiative. Foreign currencies had a favorable impact to operating expenses of approximately \$5.0 million for the quarter.

## Income from Financial Services:

(\$ in millions)	Three months ended March 31,			
	2015	2014	Change 2015 vs. 2014	
Income from financial services	\$14.6	\$10.6	38	%
Percentage of sales	1.4	% 1.2	% +22 basis points	

The increase in income from financial services is due to higher income from dealer inventory financing through Polaris Acceptance and increased profitability of the retail credit portfolio. Further discussion can be found in the "Liquidity and Capital Resources" section below.

## Remainder of the Income Statement:

(\$ in millions except per share data)	Three months ended March 31,			
	2015	2014	Change 2015 vs. 2014	
Interest expense	\$2.9	\$2.8	3	%
Equity in loss of other affiliates	\$1.6	\$0.9	81	%
Other expense (income), net	\$7.4	\$(2.1)	) NM	
Income before taxes	\$138.3	\$125.1	11	%
Provision for income taxes	\$49.8	\$44.2	13	%
Percentage of income before taxes	36.0%	35.3%	+65 basis points	
Net income	\$88.6	\$80.9	9	%
Diluted net income per share:	\$1.30	\$1.19	9	%
Weighted average diluted shares outstanding	68.1	68.0	0	%

NM = not meaningful

Interest expense: The increase is primarily due to increased debt levels through borrowings on our existing revolving credit facility.

Equity in loss of other affiliates: Increased losses at Eicher-Polaris Private Limited (EPPL) were the result of an increase in the joint venture's pre-production activities. We have recorded our proportionate 50 percent share of EPPL losses.

Other expense (income), net: The change primarily relates to foreign currency exchange rate movements and the corresponding effects on foreign currency transactions and balance sheet positions related to our foreign subsidiaries from period to period.

Table of Contents

Provision for income taxes: The increase primarily relates to lower income from the Company's international operations in the 2015 first quarter compared to the same period last year, and the income tax rate in the first quarter 2014 reflecting favorable outcomes of income tax audits.

Weighted average shares outstanding: Over the time period within and between the comparable first quarter periods, the issuance of shares under employee compensation plans offset share repurchases under our stock repurchase program, resulting in approximately flat weighted average shares outstanding.

Cash Dividends:

We paid a regular cash dividend of \$0.53 per share on March 16, 2015 to holders of record at the close of business on March 2, 2015. On April 30, 2015, the Polaris Board of Directors declared a regular cash dividend of \$0.53 per share payable on June 15, 2015 to holders of record of such shares at the close of business on June 1, 2015.

### Liquidity and Capital Resources

Our primary source of funds has been cash provided by operating and financing activities. Our primary uses of funds have been for acquisitions, repurchase and retirement of common stock, capital investment, new product development and cash dividends to shareholders.

The following table summarizes the cash flows from operating, investing and financing activities:

(\$ in millions)	Three months ended March 31,		
	2015	2014	Change
Total cash provided by (used for):			
Operating activities	\$4.2	\$44.8	\$(40.6 )
Investing activities	(41.2 )	(40.4 )	(0.8 )
Financing activities	19.1	5.2	13.9
Impact of currency exchange rates on cash balances	(8.7 )	(0.1 )	(8.6 )
Increase (decrease) in cash and cash equivalents	\$(26.6 )	\$9.5	\$(36.1 )

Operating activities: The \$40.6 million decrease in net cash provided by operating activities in 2015 is primarily the result of higher net income compared to 2014, which includes a \$9.0 million increase in depreciation and amortization, more than offset by an \$18.6 million increase in tax effects of share-based compensation exercises and a \$48.0 million increase in net working capital. Changes in working capital (as reflected in our statements of cash flows) for the quarter was an increase of \$113.2 million, compared to an increase of \$65.2 million for the same period in 2014. This was primarily due to an increase in net cash used of \$60.2 million related to timing of payments made for accounts payable to support the growth in the business and timing of collections of trade receivables of \$9.3 million, partially offset by a decrease in net cash used of \$22.1 million related to lower incentive compensation paid in cash.

Investing activities: The primary use of cash was for the purchase of property and equipment and the continued investments in Brammo and EPPL. We made large capital expenditures related to continued capacity and capability expansion at our manufacturing facilities. We expect that capital expenditures for the full year 2015 will be greater than \$250 million.

Financing activities: Cash used for financing activities changed primarily due to net borrowings under debt arrangements, capital lease obligations and notes payable of \$94.0 million compared to net borrowings of \$19.0 million in the 2014 comparable period, and common stock repurchases of \$86.3 million compared to \$0.2 million in the 2014 comparable period. Additionally, we paid cash dividends of \$35.1 million and \$31.7 million for the three months ended March 31, 2015 and 2014, respectively. Proceeds from the issuance of stock under employee plans were \$19.0 million and \$9.4 million for the three months ended March 31, 2015 and 2014, respectively.

The seasonality of production and shipments cause working capital requirements to fluctuate during the year. We are party to a \$500 million variable interest rate bank lending agreement and a Master Note Purchase Agreement, as amended and supplemented, under which we have unsecured borrowings. We enter into leasing arrangements to finance the use of certain property and equipment.

In January 2015, we announced plans to build a new production facility in Huntsville, Alabama to provide additional capacity and flexibility. The 600,000 square-foot facility will focus on off-road vehicle production. We broke ground

on the facility in the first quarter of 2015 with completion expected in the first half of 2016. A mortgage note payable agreement of \$14.5

19

---

Table of Contents

million for land, on which we are building the facility, commenced in February 2015. The payment of principal and interest for the note payable is forgivable if we satisfy certain job commitments over the term of the note.

Debt, capital lease obligations, notes payable, and the average related interest rates at March 31, 2015 were as follows:

(\$ in millions)	Average interest rate at March 31, 2015	Maturity	March 31, 2015
Revolving loan facility	0.90%	March 2020	\$91.7
Senior notes—fixed rate	3.81%	May 2018	25.0
Senior notes—fixed rate	4.60%	May 2021	75.0
Senior notes—fixed rate	3.13%	December 2020	100.0
Capital lease obligations	5.04%	Various through 2029	22.9
Notes payable	3.50%	June 2027	14.5
Total debt, capital lease obligations, and notes payable			\$329.1
Less: current maturities			2.2
Long-term debt, capital lease obligations, and notes payable			\$326.9

Our debt to total capital ratio was 28 percent and 35 percent at March 31, 2015 and 2014, respectively.

Additionally, at March 31, 2015 we had letters of credit outstanding of \$23.4 million primarily related to purchase obligations for raw materials.

Our Board of Directors has authorized the cumulative repurchase of up to 79.0 million shares of our common stock. Of that total, approximately 74.5 million shares have been repurchased cumulatively from 1996 through March 31, 2015. We repurchased approximately 0.6 million shares of our common stock for \$86.3 million during the first three months of 2015, which had a nominal impact on earnings per share. We have authorization from our Board of Directors to repurchase up to an additional 4.5 million shares of our common stock as of March 31, 2015. The repurchase of any or all such shares authorized remaining for repurchase will be governed by applicable SEC rules.

Polaris Acceptance, a joint venture between Polaris and GE Commercial Distribution Finance Corporation ("GECDF"), an indirect subsidiary of General Electric Capital Corporation, which is supported by a partnership agreement between their respective wholly owned subsidiaries, finances substantially all of Polaris' United States sales whereby Polaris receives payment within a few days of shipment of the product. Polaris Acceptance sells a majority of its receivable portfolio (the "Securitized Receivables") to a securitization facility ("Securitization Facility") arranged by General Electric Capital Corporation, a GECDF affiliate. Polaris Acceptance is not responsible for any continuing servicing costs or obligations with respect to the Securitized Receivables. At March 31, 2015, the outstanding amount of net receivables financed for dealers under this arrangement, including Securitized Receivables, was \$1,221.9 million, a 28 percent increase from \$958.2 million at March 31, 2014.

We account for our investment in Polaris Acceptance under the equity method. Polaris Acceptance is funded through equal equity cash investments from the partners and a loan from an affiliate of GECDF. We do not guarantee the outstanding indebtedness of Polaris Acceptance. The partnership agreement provides that all income and losses of Polaris Acceptance are shared 50 percent by our wholly owned subsidiary and 50 percent by GECDF's subsidiary. Our total investment in Polaris Acceptance at March 31, 2015, was \$96.2 million. Our exposure to losses of Polaris Acceptance is limited to our equity in Polaris Acceptance. Credit losses in the Polaris Acceptance portfolio have been modest, averaging less than one percent of the portfolio.

We have agreed to repurchase products repossessed by Polaris Acceptance up to an annual maximum of 15 percent of the aggregate average month-end outstanding Polaris Acceptance receivables and Securitized Receivables during the prior calendar year. For calendar year 2015, the potential 15 percent aggregate repurchase obligation is approximately \$146.4 million. Our financial exposure under this arrangement is limited to the difference between the amount paid to the finance company for repurchases and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement.

See Note 6 in the Notes to Consolidated Financial Statements for further discussion of Polaris Acceptance.

We have agreements with certain financial institutions, under which these financial institutions provide financing to end consumers of our products. The income generated from these agreements has been included as a component of income from financial services in the accompanying consolidated statements of income. At March 31, 2015, the agreements in place were as follows:

20

---

Table of Contents

Financial institution	Agreement expiration date
Capital One	October 2015
Chrome Capital	January 2018
Freedom Road	February 2016
Sheffield Financial	February 2016
Synchrony Bank	April 2016

We believe that existing cash balances and cash flow to be generated from operating activities and available borrowing capacity under the line of credit arrangement will be sufficient to fund operations, new product development, cash dividends, share repurchases and capital requirements for the foreseeable future. At this time, management is not aware of any factors that would have a material adverse impact on cash flow.

**Inflation and Foreign Exchange Rates**

The changing relationships of the U.S. dollar to the Japanese yen, the Mexican peso, the Canadian dollar, the Australian dollar, the Euro and other foreign currencies have had a material impact from time to time. We actively manage our exposure to fluctuating foreign currency exchange rates by entering into foreign exchange hedging contracts.

**Japanese Yen:** During 2014, purchases totaling approximately two percent of our cost of sales were from yen-denominated suppliers. Fluctuations in the yen to U.S. dollar exchange rate primarily impact cost of sales and net income.

**Mexican Peso:** With increased production at our Monterrey, Mexico facility, our costs in the Mexican peso have continued to increase. We also market and sell to customers in Mexico through a wholly owned subsidiary.

Fluctuations in the peso to U.S. dollar exchange rate primarily impact sales, cost of sales, and net income.

**Canadian Dollar:** We operate in Canada through a wholly owned subsidiary. The relationship of the U.S. dollar in relation to the Canadian dollar impacts both sales and net income.

**Other currencies:** We operate in various countries, principally in Europe and Australia, through wholly owned subsidiaries and also sell to certain distributors in other countries. We also purchase components from certain suppliers directly for our U.S. operations in transactions denominated in the Euro and other foreign currencies. The relationship of the U.S. dollar in relation to these other currencies impacts each of sales, cost of sales and net income.

At March 31, 2015, we had the following open foreign currency hedging contracts for the remainder of 2015 and through June 2016, and expect the following net currency impact on net income, after consideration of the existing foreign currency hedging contracts, when compared to the respective prior year periods:

Foreign Currency	Currency Position	Foreign currency hedging contracts		Currency impact on net income compared to the prior year period	
		Notional amounts (in thousands of U.S. Dollars)	Average exchange rate of open contracts	First quarter 2015	Estimated remainder of 2015
Australian Dollar (AUD)	Long	\$10,681	\$0.80 to 1 AUD	Negative	Negative
Canadian Dollar (CAD)	Long	181,253	\$0.79 to 1 CAD	Negative	Negative
Euro	Long	—	—	Negative	Negative
Japanese Yen	Short	16,882	110 Yen to \$1	Positive	Positive
Mexican Peso	Short	35,105	14.59 Peso to \$1	Positive	Positive
Norwegian Krone	Long	—	—	Negative	Negative
Swedish Krona	Long	—	—	Negative	Negative
Swiss Franc	Short	—	—	Positive	Positive

The assets and liabilities in all our foreign entities are translated at the foreign exchange rate in effect at the balance sheet date. Translation gains and losses are reflected as a component of accumulated other comprehensive loss, net in the shareholders' equity section of the accompanying consolidated balance sheets. Revenues and expenses in all of our

foreign entities are translated at the average foreign exchange rate in effect for each month of the quarter. Certain assets and liabilities related to intercompany positions reported on our consolidated balance sheet that are denominated in a currency other than the entity's functional currency are translated at the foreign exchange rates at the balance sheet date and the associated gains and losses are included in net income.

## Table of Contents

We are subject to market risk from fluctuating market prices of certain purchased commodities and raw materials including steel, aluminum, petroleum-based resins, certain rare earth metals and diesel fuel. In addition, we are a purchaser of components and parts containing various commodities, including steel, aluminum, rubber and others, which are integrated into the Company's end products. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. We generally buy these commodities and components based upon market prices that are established with the vendor as part of the purchase process and from time to time will enter into derivative contracts to hedge a portion of the exposure to commodity risk. At March 31, 2015, we had derivative contracts in place to hedge approximately 50 percent of our diesel fuel exposure for the remainder of 2015. At March 31, 2015, these outstanding diesel swap contracts totaled approximately 6.5 million gallons, with an average fixed price of \$3.50 per gallon. Based on our current outlook for commodity prices, the total impact of commodities is expected to have a positive impact on our gross margins for the remainder of 2015 when compared to the same periods in the prior year.

We are a party to a credit agreement with various lenders consisting of a \$500 million revolving loan facility. Interest accrues on the revolving loan at variable rates based on LIBOR or "prime" plus the applicable add-on percentage as defined in the agreement. At March 31, 2015, we had an outstanding balance of \$91.7 million on the revolving loan.

### Critical Accounting Policies

See our most recent Annual Report on Form 10-K for the year ended December 31, 2014 for a discussion of our critical accounting policies.

### Note Regarding Forward Looking Statements

Certain matters discussed in this report are "forward-looking statements" intended to qualify for the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These "forward-looking statements," including but not limited to the impact of foreign exchange rate movements on sales and net income, and commodity price changes on gross margins, can generally be identified as such because the context of the statement will include words such as the Company or management "believes," "anticipates," "expects," "estimates" or words of similar import. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking. Forward-looking statements may also be made from time to time in oral presentations, including telephone, conferences and/or webcasts open to the public. Shareholders, potential investors and others are cautioned that all forward-looking statements involve risks and uncertainties that could cause results in future periods to differ materially from those anticipated by some of the statements made in this report, including the risks and uncertainties described under the heading titled "Item 1A-Risk Factors" appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. In addition to the factors discussed above, among the other factors that could cause actual results to differ materially are the following: product offerings, promotional activities and pricing strategies by competitors; acquisition integration costs; future conduct of litigation processes; warranty expenses; foreign currency exchange rate fluctuations; commodity and transportation costs; environmental and product safety regulatory activity; effects of weather; uninsured product liability claims; uncertainty in the retail and wholesale credit markets and relationships with Capital One, Sheffield Financial, Synchrony Bank, Freedom Road and Chrome Capital; changes in tax policy; and overall economic conditions, including inflation and consumer confidence and spending. The Company does not undertake any duty to any person to provide updates to its forward-looking statements.

### Item 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for a complete discussion on the Company's market risk. There have been no material changes in market risk from those disclosed in the Company's Form 10-K for the year ended December 31, 2014.

### Item 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and its Vice President — Finance and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rule 13a-15) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by

Table of Contents

this Quarterly Report on Form 10-Q, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to the Company's management, including its Chief Executive Officer and Vice President — Finance and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

**Changes in Internal Controls**

There have been no changes in the Company's internal controls over financial reporting during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

**Part II OTHER INFORMATION****Item 1 – LEGAL PROCEEDINGS**

We are involved in a number of legal proceedings incidental to our business, none of which is expected to have a material effect on the financial results of our business.

**Item 1A – RISK FACTORS**

There have been no material changes or additions to our risk factors discussed in our fiscal 2014 Annual Report filed on Form 10-K. Please consider the factors discussed in "Part I, Item 1A. Risk Factors" in such report, which could materially affect the Company's business, financial condition, or future results.

**Item 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program (1)
January 1 — 31, 2015	53,000	\$ 146.97	53,000	4,997,000
February 1 — 28, 2015	401,000	\$ 151.29	401,000	4,596,000
March 1 — 31, 2015	117,000	\$ 152.42	117,000	4,479,000
Total	571,000	\$ 151.12	571,000	4,479,000

(1) The Board of Directors has authorized the cumulative repurchase of up to an aggregate of 79.0 million shares of the Company's common stock (the "Program"). Of that total, 74.5 million shares have been repurchased cumulatively from 1996 through March 31, 2015. The Program does not have an expiration date.

**Item 4 – MINE SAFETY DISCLOSURES**

Not applicable.

**Item 6 – EXHIBITS**

A list of exhibits to this Form 10-Q is set forth on the Exhibit Index and is incorporated herein by reference.
