UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934
For the quarterly period ended March 31, 2018

Transition Report Pursuant to Section 13 or
15(d) of the Securities Exchange Act of 1934

Commission File Number: 001-31369
CIT GROUP INC.

(Exact name of Registrant as specified in its charter)

Delaware 65-1051192
(State or other jurisdiction of incorporation or organization) (IRS Employer Identification Number)

11 West 42nd Street New York, New York 10036
(Address of Registrant's principal executive offices) (Zip Code)

(212) 461-5200
(Registrant's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.
Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of 'large accelerated filer,' 'accelerated filer,' 'smaller reporting company' and 'emerging growth company' in Rule 12b-2 of the Exchange Act. (Check One):
Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company)
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: CIT GROUP INC - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13, or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

As of April 30, 2018, there were 127,065,926 shares of the registrant's common stock outstanding.

CIT GROUP INC. AND SUBSIDIARIES

CONDENSED CONSOLIDATED BALANCE SHEETS (Unaudited) (dollars in millions — except share data)

	March 31, 2018	December 31, 2017
Assets		
Cash and due from banks, including restricted balances of \$34.7 and \$42.9 at March 31, 2018 and December 31, 2017 ⁽¹⁾ , respectively (see Note 6 for amounts pledged)	\$200.9	\$278.6
Interest bearing deposits, including restricted balances of \$82.3 and \$81.8 at March 31, 2018 and December 31, 2017 ⁽¹⁾ , respectively (see Note 6 for amounts pledged)	3,895.4	1,440.1
Securities purchased under agreement to resell	250.0	150.0
Investment securities, including securities carried at fair value with changes recorded in net income of \$44.1 at March 31, 2018 and \$0.4 at December 31, 2017 (see Note 6 for amounts pledged)	5,910.5	6,469.9
Assets held for sale ⁽¹⁾	2,298.8	2,263.1
Loans (see Note 6 for amounts pledged)	29,453.6	29,113.9
Allowance for loan losses	(447.6)	(431.1)
Total loans, net of allowance for loan losses ⁽¹⁾	29,006.0	28,682.8
Operating lease equipment, net (see Note 6 for amounts pledged) ⁽¹⁾	6,774.9	6,738.9
Bank-owned life insurance	795.1	788.6
Goodwill	369.9	369.9
Other assets, including \$118.7 and \$68.7 at March 31, 2018 and December 31, 2017, respectively, at fair value	1,577.9	1,595.5
Assets of discontinued operations ⁽¹⁾	463.1	501.3
Total Assets	\$51,542.5	\$49,278.7
Liabilities		
Deposits	\$30,593.9	\$29,569.3
Credit balances of factoring clients	1,549.0	1,468.6
Other liabilities, including \$215.4 and \$198.1 at March 31, 2018 and December 31, 2017, respectively, at fair value	1,338.9	1,437.1
Borrowings, including \$1,875.0 and \$1,626.3 contractually due within twelve months at March 31, 2018 and December 31, 2017, respectively	10,437.3	8,974.4
Liabilities of discontinued operations ⁽¹⁾	496.6	509.3
Total Liabilities	44,415.7	41,958.7
Stockholders' Equity		
Preferred Stock: \$0.01 par value, 100,000,000 authorized, 325,000 shares issued and outstanding	325.0	-325.0
Common Stock: \$0.01 par value, 600,000,000 authorized		
Issued: 208,830,397 and 207,628,491 at March 31, 2018 and December 31, 2017, respectively	2.1	2.1
Outstanding: 128,418,283 and 131,352,924 at March 31, 2018 and December 31, 2017, respectively		
Paid-in capital	8,811.8	8,798.1
Retained earnings	1,982.7	1,906.5
Accumulated other comprehensive loss	(149.9)	(86.5)

Edgar Filing: CIT GROUP INC - Form 10-Q

Treasury stock: 80,412,114 and 76,275,567 shares at March 31, 2018 and December 31, 2017 at cost, respectively	(3,844.9)	(3,625.2)
Total Common Stockholders' Equity	6,801.8	6,995.0
Total Equity	7,126.8	7,320.0
Total Liabilities and Equity	\$51,542.5	\$49,278.7

The following table presents information on assets and liabilities related to Variable Interest Entities (VIEs) that are consolidated by the Company. The difference between VIE total assets and total liabilities represents the (1) Company's interests in those entities, which were eliminated in consolidation. The assets of the consolidated VIEs will be used to settle the liabilities of those entities and, except for the Company's interest in the VIEs, are not available to the creditors of CIT or any affiliates of CIT.

Assets		
Cash and interest bearing deposits, restricted	\$80.5	\$80.4
Total loans, net of allowance for loan losses	2.7	119.1
Operating lease equipment, net	771.8	763.3
Total Assets	\$855.0	\$962.8
Liabilities		
Beneficial interests issued by consolidated VIEs (classified as long-term borrowings)	\$484.6	\$566.6
Total Liabilities	\$484.6	\$566.6

6 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 — BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CIT Group Inc., together with its subsidiaries (collectively "we", "our", "CIT" or the "Company"), is a bank holding company ("BHC") and a financial holding company ("FHC"). CIT was formed in 1908 and provides financing, leasing and advisory services principally to middle-market companies in a wide variety of industries, primarily in North America. CIT also provides banking and related services to commercial and individual customers through its banking subsidiary, CIT Bank, N.A. ("CIT Bank" or the "Bank"), which includes 70 branches located in Southern California and its online bank, bankoncit.com.

CIT is regulated by the Board of Governors of the Federal Reserve System ("FRB") and the Federal Reserve Bank of New York ("FRBNY") under the U.S. Bank Holding Company Act of 1956, as amended. CIT Bank is regulated by the Office of the Comptroller of the Currency of the U.S. Department of the Treasury ("OCC").

BASIS OF PRESENTATION

Basis of Financial Information

These consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial information and accordingly do not include all information and note disclosures required by generally accepted accounting principles in the United States of America ("GAAP") for complete financial statements. The financial statements in this Form 10-Q, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of CIT's financial position, results of operations and cash flows in accordance with GAAP. These consolidated financial statements should be read in conjunction with our Form 10-K for the year ended December 31, 2017.

The accounting and financial reporting policies of CIT conform to GAAP and the preparation of the consolidated financial statements requires management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates and assumptions. Some of the more significant estimates include: allowance for loan losses, loan impairment, fair value determination, lease residual values, liabilities for uncertain tax positions, realizability of deferred tax assets, purchase accounting adjustments, indemnification assets, goodwill, intangible assets, and contingent liabilities, including amounts associated with the discontinued operation. Additionally where applicable, the policies conform to accounting and reporting guidelines prescribed by bank regulatory authorities.

Principles of Consolidation

The accompanying consolidated financial statements include financial information related to CIT and its majority-owned subsidiaries and those variable interest entities ("VIEs") where the Company is the primary beneficiary. In preparing the consolidated financial statements, all significant intercompany accounts and transactions have been eliminated. Assets held in an agency or fiduciary capacity are not included in the consolidated financial statements. The current period's results of operations do not necessarily indicate the results that may be expected for any other interim period or for the full year as a whole.

Discontinued Operations

Discontinued Operations as of March 31, 2018 and December 31, 2017 included certain assets and liabilities of (i) the Financial Freedom business that was acquired as part of the OneWest Transaction and (ii) the Business Air business.

Income from discontinued operations reflects the activities of the Financial Freedom and Business Air businesses for the quarter ended March 31, 2018 and the Financial Freedom and the Aerospace (Commercial Air and Business Air) businesses for the quarter ended March 31, 2017. We completed the sale of our Commercial Air business in April 2017.

On October 6, 2017, CIT announced that CIT Bank, N.A. has agreed to sell Financial Freedom, its reverse mortgage servicing business and the reverse mortgage portfolio serviced by Financial Freedom (the "Financial Freedom Transaction"). The Financial Freedom Transaction is targeted to close in the second quarter of 2018 and is subject to certain regulatory and investor approvals and other customary closing conditions. See further discussions in Note 2 — Discontinued Operations.

SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Form 10-K"). Effective January 1, 2018, CIT changed its accounting policy for revenue recognition resulting from the adoption of Accounting Standards Codification ("ASC") 606, Revenue from Contracts with Customers and subsequent related Accounting Standards Updates ("ASUs"). There were no other material changes to policies during the quarter ended March 31, 2018. Refer to Newly Adopted Accounting Standards for other ASUs adopted in Q1 2018.

Revenue Recognition

On January 1, 2018, CIT adopted ASU 2014-09, Revenue Recognition - Revenue from Contracts with Customers (ASC 606) and subsequent related ASUs. ASU 2014-09 establishes the principles to apply in determining the amount and timing of revenue recognition. The core principle is that a company will recognize revenue when it transfers control of goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. The guidance introduces a five step, principle-based model, requiring more judgment than under previous GAAP to determine when and how revenue is recognized. The standard defers to existing guidance where revenue recognition models are already in place.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

"Interest Income" and "Rental Income on Operating Leases", CIT's two largest revenue items, are out of scope of the new guidance, as are many other revenues relating to other financial assets and liabilities, including loans, leases, securities, and derivatives. As a result, the implementation of the new guidance was limited to certain revenue streams within Non-Interest Income, including some immaterial bank related fees and gains or losses related to the sale and disposition of leased equipment and Other Real Estate Owned ("OREO"), which is accounted for under ASC 610-20, Gains and Losses From the Derecognition of Nonfinancial Assets and requires the Company to apply certain recognition and measurement principles of ASC 606.

CIT evaluated its in-scope revenue streams under the five step model and concluded that ASU 2014-09 did not materially impact the current practice of revenue recognition as ASC 606 is consistent with the current accounting policy being applied by the Company for these revenues. Therefore, no change in the timing or amount of income recognized was identified. CIT also determined that costs incurred to obtain or fulfill contracts and financing components relating to in-scope revenue streams were immaterial to the Company.

Non-interest revenue, including amounts related to the sale and disposition of leased equipment and OREO, is recognized at an amount reflecting the consideration received, or expected to be received, when control of goods or services is transferred, which generally occurs when services are provided or control of leased equipment or OREO is liquidated.

ASU 2014-09 was adopted using the modified retrospective transition method. CIT elected to apply this guidance only to contracts that were not completed at the date of the initial application. The adoption did not have a significant impact on CIT's financial statements or disclosures. No adjustment to the opening balance of retained earnings was necessary.

Interest income on held for investment ("HFI") loans is recognized using the effective interest method or on a basis approximating a level rate of return over the life of the asset. Interest income includes components of accretion of the fair value discount on loans and lease receivables recorded in connection with Purchase Accounting Adjustments ("PAA"), which are accreted using the effective interest method as a yield adjustment over the remaining contractual term of the loan and recorded in interest income. If the loan is subsequently classified as assets held for sale ("AHFS"), accretion (amortization) of the discount (premium) will cease.

Rental revenue on operating leases is recognized on a straight line basis over the lease term and is included in Non-interest Income. Intangible assets related to acquisitions completed by the Company and Fresh Start Accounting ("FSA") adjustments that were applied as of December 31, 2009 (the Convenience Date), were recorded to adjust the carrying value of above or below market operating lease contracts to their fair value. The FSA related adjustments (net) are amortized into rental income on a straight line basis over the remaining term of the respective lease.

The recognition of interest income (including accretion) on commercial loans (exclusive of small ticket commercial loans) is suspended and an account is placed on non-accrual status when, in the opinion of management, full collection of all principal and interest due is doubtful. All future interest accruals, as well as amortization of deferred fees, costs, purchase premiums or discounts are suspended. To the extent the estimated cash flows, including fair value of collateral, does not satisfy both the principal and accrued interest outstanding, accrued but uncollected interest at the date an account is placed on non-accrual status is reversed and charged against interest income. Subsequent interest received is applied to the outstanding principal balance until such time as the account is collected, charged-off or returned to accrual status. Loans that are on cash basis nonaccrual do not accrue interest income; however, payments designated by the borrower as interest payments may be recorded as interest income. To qualify for this treatment, the remaining recorded investment in the loan must be deemed fully collectable.

The recognition of interest income (including accretion) on consumer mortgages and small ticket commercial loans and lease receivables is suspended and all previously accrued but uncollected revenue is reversed, when payment of principal and/or interest is contractually delinquent for 90 days or more. Accounts, including accounts that have been

modified, are returned to accrual status when, in the opinion of management, collection of remaining principal and interest is reasonably assured, and there is a sustained period of repayment performance for a minimum of six months.

The recognition of interest income on reverse mortgages is suspended upon the latter of the foreclosure sale date or date on which marketable title has been acquired (i.e. property becomes OREO).

The Company periodically modifies the terms of a loan in response to borrowers' financial difficulties. These modifications may include interest rate changes, principal forgiveness or payment deferrals. Loans that are modified, where a concession has been made to the borrower, are accounted for as Troubled Debt Restructurings ("TDRs"). TDRs are generally placed on nonaccrual upon their restructuring and remain on non-accrual until, in the opinion of management, collection of remaining principal and interest is reasonably assured, and upon collection of six consecutive scheduled payments.

Purchased credit impaired ("PCI") loans in pools that the Company may modify as TDRs are not within the scope of the accounting guidance for TDRs.

Fair Value Hedging

As noted in the Company's 2017 Form 10-K, CIT early adopted ASU 2017-12, Derivatives and Hedging (Topic 815) - Targeted Improvements to Accounting for Hedging Activities in fourth quarter of 2017. In accordance with this new guidance, the Company presents the entire change in the fair value of the hedging instrument included in the assessment of hedge effectiveness in the same income statement line as the earnings effect of the hedged item. See Note 7 — Derivative Financial Instruments for further details.

Other Newly Adopted Accounting Standards

The following pronouncements were issued by the Financial Accounting Standards Board ("FASB") and adopted by CIT as of January 1, 2018:

8 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities and Technical Corrections and Improvements to Financial Instruments - Overall

ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities includes amendments on recognition, measurement, presentation and disclosure of financial instruments. In addition, this guidance adds a new Topic (ASC 321, Investments - Equity Securities) to the FASB Accounting Standards Codification, which provides guidance on accounting for equity investments. ASU 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10) clarifies certain aspects of ASU 2016-01.

CIT adopted these standards as of January 1, 2018 with a cumulative-effect adjustment to the balance sheet as of the adoption date. The cumulative-effect adjustment resulted in a decrease in retained earnings due to the reclassification of \$1.1 million of unrealized losses from accumulated other comprehensive loss to opening retained earnings. The adoption of these standards did not have a material impact on CIT's consolidated financial statements and disclosures.

Income Taxes (Topic 740): Intra - Entity Transfers of Assets Other Than Inventory

ASU 2016-16, Income Taxes (Topic 740): Intra - Entity Transfers of Assets Other Than Inventory requires that a Company recognize the tax expense from the sale of an asset in the seller's tax jurisdiction when the transfer occurs, and any deferred tax asset that arises in the buyer's jurisdiction would also be recognized at the time of the transfer even though the pre-tax effects of the transaction are eliminated in consolidation.

CIT adopted this guidance as of January 1, 2018 using a modified retrospective approach. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures. The balance sheet impact was an approximately \$0.2 million increase to the opening retained earnings due to the adjustment recorded.

Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments and Restricted Cash

ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments clarifies how entities should classify certain cash receipts and cash payments within the statement of cash flows. The new guidance also clarifies how the predominance principle should be applied when cash receipts and cash payments have aspects of more than one class of cash flows.

CIT retrospectively adopted this guidance as of January 1, 2018, to each period presented. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures.

ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash requires that the Statement of Cash Flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents.

CIT retrospectively adopted this guidance as of January 1, 2018, to each period presented. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures.

Business Combinations (Topic 805): Clarifying the Definition of a Business

ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business narrows the definition of a business and provides guidance to assist entities with evaluating when a set of transferred assets and activities is a business.

CIT adopted this guidance effective January 1, 2018. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures.

Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost

ASU 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost requires employers that present a measure of operating income in their Statement of Income to include only the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses (together with other employee compensation costs). The other components of net benefit cost, including amortization of prior service cost/credit, and settlement and curtailment effects, are to be included in non-operating expenses in a separate line item(s). This standard also stipulates that only

the service cost component of net benefit cost is eligible for capitalization. The amendments related to presentation of service cost and other components in the Income Statements must be applied retrospectively to all periods presented. The amendments related to the capitalization of the service cost component should be applied prospectively, on and after the date of adoption.

CIT adopted this guidance as of January 1, 2018. The adoption was determined not to be material to the financial statements and disclosures.

Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting

ASU 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting.

CIT prospectively adopted this guidance as of January 1, 2018. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures.

Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income

ASU 2018-02 Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act.

Consequently, the amendments eliminate the stranded tax effects resulting from the Tax Cuts and Jobs Act and will improve the usefulness of information reported to financial statement users.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

CIT early adopted this guidance as of January 1, 2018 by applying the aggregate portfolio approach. Adjustment to opening retained earnings due to the reclassification of certain tax effects stranded in accumulated other comprehensive income was a \$1.6 million increase. The adoption did not have a material impact on CIT's consolidated financial statements and disclosures.

Recent Accounting Pronouncements

The following accounting pronouncements were issued by the FASB but are not yet effective for CIT.

Standard	Summary of Guidance	Effect on CIT's Financial Statements
ASU 2017-08, Receivables -Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities Issued March 2017	<ul style="list-style-type: none"> • ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. • The new guidance applies to all entities that hold investments in callable debt securities for which the amortized cost basis exceeds the amount repayable by the issuer at the earliest call date (i.e., at a premium). • This guidance must be adopted on a modified retrospective basis through a cumulative-effect adjustment to retained earnings. 	<ul style="list-style-type: none"> • Effective for CIT as of January 1, 2019. • CIT is currently evaluating the impact of this standard on its consolidated financial statements and disclosures and does not intend to early adopt this standard.
ASU 2016-02, Leases (Topic 842) Issued February 2016	<ul style="list-style-type: none"> • Lessees will need to recognize all leases longer than twelve months on the consolidated balance sheets as lease liabilities with corresponding right-of-use assets. For Income Statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit thresholds. • Lessor accounting remains similar to the current model, but updated to align with certain changes to the lessee model (e.g., certain definitions, such as initial direct costs, have been updated) and the new revenue recognition standard. Lease classifications by lessors are similar, 	<ul style="list-style-type: none"> • Effective for CIT as of January 1, 2019. • CIT will need to determine the impact where it is both a lessee and a lessor: • Lessor accounting: CIT is analyzing the impact of changes to the definition of 'initial direct costs' under the new guidance. The new standard has a narrower definition of initial direct costs, which will result in CIT recognizing increased upfront expenses offset by higher yield over the lease term. CIT is currently evaluating the bifurcation of certain non-lease components from lease revenue streams. If goods or services are determined to be a non-lease component and accounted for under ASC 606 or other applicable GAAP guidance, the income recognition may differ from current accounting.

operating, direct financing, or sales-type.

- The ASU requires both quantitative and qualitative disclosures regarding key information about leasing arrangements. The new standard must be adopted using a modified retrospective transition, and provides for certain practical expedients. Transition will require application of the new guidance at the beginning of the earliest comparative period presented. Early adoption is permitted.
- Lessee accounting: CIT is continuing to evaluate the impact of the amended guidance on its Condensed consolidated financial statements. CIT expects to recognize right-of-use assets and lease liabilities for substantially all of its operating lease commitments based on the present value of unpaid lease payments as of the date of adoption.
- CIT management has assembled a project committee to assess the impact of this guidance. Initial scoping and assessment is complete and CIT is continuing to evaluate the impact on its consolidated financial statements and disclosures.

10 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

<p>ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments Issued June 2016</p>	<ul style="list-style-type: none"> • Introduces a forward-looking “expected loss” model (the “Current Expected Credit Losses” (“CECL”) model) to estimate credit losses to cover the full remaining expected life of the portfolio upon adoption, rather than the incurred loss model under current U.S. GAAP, on certain types of financial instruments. • It eliminates existing guidance for PCI loans, and requires recognition of an allowance for expected credit losses on financial assets purchased with more than insignificant credit deterioration since origination. • It amends existing impairment guidance for AFS securities to incorporate an allowance, which will allow for reversals of impairment losses in the event that the credit of an issuer improves. • In addition, it expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the ALLL. • Entities will apply the standard’s provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted (modified-retrospective approach). 	<ul style="list-style-type: none"> • Effective for CIT as of January 1, 2020. • CIT management has established a project team and an oversight committee to assess the impact of this guidance and implement this standard. Initial gap assessment is complete and CIT is continuing to evaluate the impact on its consolidated financial statements and disclosures. • While CIT is currently in the process of evaluating the impact of the amended guidance on its Condensed consolidated financial statements, it currently expects the ALLL to increase upon adoption given that the allowance will be required to cover the full remaining expected life of the portfolio upon adoption, rather than the incurred loss model under current U.S. GAAP. The extent of this increase is still being evaluated and will depend on economic conditions and the composition of CIT’s loan and lease portfolios at adoption date.

NOTE 2 — DISCONTINUED OPERATIONS

Aerospace

As discussed in Note 2 — Discontinued Operations in our Annual Report on Form 10-K for the year ended December 31, 2017, the activity for 2017 in the following tables included Commercial Air, which was sold on April 4, 2017. The following condensed financial information reflects the Business Air business for the quarter ended March 31, 2018 and as of December 31, 2017.

Condensed Balance Sheet — Aerospace (dollars in millions)

Edgar Filing: CIT GROUP INC - Form 10-Q

	March 31, 2018	December 31, 2017
Net Loans	\$153.0	\$ 165.8
Operating lease equipment, net	11.4	18.4
Other assets	0.1	—
Assets of discontinued operations	\$164.5	\$ 184.2
Other liabilities	\$20.1	\$ 8.8
Liabilities of discontinued operations	\$20.1	\$ 8.8

Condensed Statement of Income — Aerospace (dollars in millions)

	Quarters Ended March 31,	
	2018	2017
Interest income	\$2.1	\$20.2
Interest expense	1.0	95.9
Rental income on operating leases	0.5	306.7
Other income (losses)	(1.0)	13.4
Maintenance and other operating lease expenses	—	4.2
Operating expenses	0.3	24.9
Loss on debt extinguishment ⁽¹⁾	—	39.0
Income from discontinued operations before provision for income taxes	0.3	176.3
Provision for income taxes	0.1	78.1
Gain on sale of discontinued operations, net of taxes	—	12.7
Income from discontinued operations, net of taxes	\$0.2	\$110.9

⁽¹⁾ The Company repaid approximately \$1 billion of secured borrowings in the first quarter of 2017 within discontinued operations and recorded a loss of \$39 million in relation to the extinguishment of those borrowings.

Reverse Mortgage Servicing

The Financial Freedom business, a division of CIT Bank that services reverse mortgage loans, was acquired in conjunction with the OneWest Transaction. The Financial Freedom business is reflected in discontinued operations. Assets of discontinued operations primarily include Home Equity Conversion Mortgage ("HECM") loans and servicing advances. The liabilities of discontinued operations include reverse mortgage servicing liabilities, which related primarily to loans serviced for third party investors, secured borrowings and contingent liabilities. Continuing operations includes a separate portfolio of reverse mortgage loans of \$861 million and other real estate owned assets of \$17 million at March 31, 2018, which are recorded in the Consumer Banking segment (refer to Note 3 - Loans) and are serviced by Financial Freedom. On October 6, 2017, CIT entered into a definitive agreement to sell the Financial Freedom business and the reverse mortgage loan portfolio serviced by Financial Freedom (the "Financial Freedom Transaction"). The Financial Freedom Transaction is targeted to close in the second quarter of 2018 and is subject to certain regulatory and investor approvals and other customary closing conditions

As a mortgage servicer of residential reverse mortgage loans, the Company is exposed to contingent liabilities for breaches of servicer obligations as set forth in industry regulations established by the Department of Housing and Urban Development ("HUD") and the Federal Housing Administration ("FHA") and in servicing agreements with the applicable counterparties, such as third party investors. Under these agreements, the servicer may be liable for failure to perform its servicing obligations, which could include fees imposed for failure to comply with foreclosure timeframe requirements established by servicing guides and agreements to which CIT is a party as the servicer of the loans. The Company had established reserves for contingent servicing-related liabilities associated with discontinued operations. Separately, the Company recognized an indemnification receivable from the FDIC of \$29 million as of March 31, 2018, and December 31, 2017 for covered servicing-related obligations related to reverse mortgage loans pursuant to the loss share agreement between CIT Bank and the FDIC related to the acquisition by OneWest Bank from the FDIC of certain assets of IndyMac Federal Bank FSB ("IndyMac") (the "IndyMac Transaction"). See the Company's Report on Form 10-K for the year ended December 31, 2017, Note 5 - Indemnification Assets, for further information.

Condensed Balance Sheet — Financial Freedom (dollars in millions)

	March	December
	31,	31, 2017
	2018	
Total cash and deposits, all of which is restricted	\$9.8	\$ 7.7
Net Loans ⁽¹⁾	253.7	272.8
Other assets ⁽²⁾	35.1	36.6
Assets of discontinued operation	\$298.6	\$ 317.1
Secured borrowings ⁽¹⁾	\$247.8	\$ 268.2
Other liabilities ⁽³⁾	228.7	232.3
Liabilities of discontinued operation	\$476.5	\$ 500.5

Edgar Filing: CIT GROUP INC - Form 10-Q

Net loans include \$246.8 million and \$267.2 million of securitized balances at March 31, 2018 and December 31, (1) 2017, respectively, and \$6.9 million and \$5.6 million of additional draws awaiting securitization respectively. Secured borrowings relate to those receivables.

Amount includes servicing advances, servicer receivables and property and equipment, net of accumulated (2) depreciation. The loans serviced for others total \$13.8 billion and \$14.1 billion for reverse mortgage loans as of March 31, 2018 and December 31, 2017, respectively.

Other liabilities include \$135.3 million and \$137.8 million of contingent liabilities, \$79.5 million of reverse (3) mortgage servicing liabilities and \$13.9 million and \$15.0 million of other accrued liabilities at March 31, 2018 and December 31, 2017, respectively.

12 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The results from discontinued operations for the quarters ended March 31, 2018 and 2017 are presented below.

Condensed Statement of Income — Financial Freedom (dollars in millions)

	Quarters Ended March 31,	
	2018	2017
Interest income ⁽¹⁾	\$2.1	\$2.8
Interest expense ⁽¹⁾	2.1	2.5
Other income	6.7	7.3
Operating expenses ⁽²⁾	16.1	22.7
Loss from discontinued operations before benefit for income taxes	(9.4)	(15.1)
Benefit for income taxes ⁽³⁾	(2.5)	(5.9)
Loss from discontinued operation, net of taxes	\$(6.9)	\$(9.2)

⁽¹⁾ Includes amortization for the premium associated with the HECM loans and related secured borrowings.

For the quarter ended March 31, 2018 and March 31, 2017, operating expense is comprised of approximately \$4 million and \$5 million in salaries and benefits, \$1 million and \$6 million in professional and legal services, and \$11 million and \$13 million for other expenses such as data processing, premises and equipment, and miscellaneous charges, respectively.

⁽³⁾ For the quarters ended March 31, 2018 and 2017, the Company's tax rate for discontinued operation was 27% and 39%, respectively.

Condensed Statement of Cash Flows — Financial Freedom (dollars in millions)

	Quarters Ended March 31,	
	2018	2017
Net cash flows used for operation	\$(3.3)	\$(8.4)
Net cash flows provided by investing activities	22.1	25.0

Combined Results for Discontinued Operations

The following tables reflect the combined results of the discontinued operations. Details of the balances are discussed in prior tables.

Condensed Combined Balance Sheet (dollars in millions)

	March 31, 2018	December 31, 2017
Total cash and deposits	\$9.8	\$ 7.7
Net Loans	406.7	438.6
Operating lease equipment, net	11.4	18.4
Other assets	35.2	36.6
Assets of discontinued operations	\$463.1	\$ 501.3
Secured borrowings	\$247.8	\$ 268.2
Other liabilities	248.8	241.1
Liabilities of discontinued operations	\$496.6	\$ 509.3

NOTE 3 — LOANS

Loans, excluding those reflected as discontinued operations, consist of the following:

Loans by Product (dollars in millions)

	March 31, December 31,	
	2018	2017
Commercial loans	\$21,163.9	\$ 20,892.1
Direct financing leases and leveraged leases	2,625.2	2,685.8
Total commercial	23,789.1	23,577.9
Consumer loans	5,664.5	5,536.0
Total loans	29,453.6	29,113.9
Loans held for sale ⁽¹⁾	1,085.9	1,095.7
Loans and held for sale loans ⁽¹⁾	\$30,539.5	\$ 30,209.6

Loans held for sale includes loans primarily related to portfolios in Commercial Banking, Consumer Banking and ⁽¹⁾ the China portfolio in Non-Strategic Portfolios ("NSP"). As discussed in subsequent tables, since the Company manages the credit risk and collections of loans held for sale consistently with its loans held for investment, the aggregate amount is presented in this table.

The following table presents loans, excluding loans held for sale, by segment, based on obligor location:

Loans (dollars in millions)

	March 31, 2018			December 31, 2017		
	Domestic	Foreign	Total	Domestic	Foreign	Total
Commercial Banking	\$21,693.8	\$1,652.1	\$23,345.9	\$21,368.7	\$1,790.6	\$23,159.3
Consumer Banking ⁽¹⁾	6,107.7	—	6,107.7	5,954.6	—	5,954.6
Total	\$27,801.5	\$1,652.1	\$29,453.6	\$27,323.3	\$1,790.6	\$29,113.9

⁽¹⁾ The Consumer Banking segment includes certain commercial loans, primarily consisting of a portfolio of Small Business Administration ("SBA") loans. These loans are excluded from the Consumer loan balance and included in the Commercial loan balances in the tables throughout this note.

The following table presents selected components of the net investment in loans:

Components of Net Investment in Loans (dollars in millions)

	March 31, December 31,	
	2018	2017
Unearned income	\$(726.8)	\$(727.8)
Unamortized premiums / (discounts)	9.4	3.7

Edgar Filing: CIT GROUP INC - Form 10-Q

Accretable yield on Purchased Credit-Impaired (“PCI”) loans	(1,016.3)	(1,063.7)
Net unamortized deferred costs and (fees) ⁽¹⁾	69.6	68.7

⁽¹⁾ Balance relates to the Commercial Banking segment.

Certain of the following tables present credit-related information at the “class” level in accordance with ASC 310-10-50, Disclosures about the Credit Quality of Finance Receivables and the Allowance for Credit Losses. A class is generally a disaggregation of a portfolio segment. In determining the classes, CIT considered the loan characteristics and methods it applies in monitoring and assessing credit risk and performance.

Credit Quality Information

Commercial obligor risk ratings are reviewed on a regular basis by Credit Risk Management and are adjusted as necessary for updated information affecting the borrowers’ ability to fulfill their obligations.

The following table summarizes commercial loans by the risk ratings that bank regulatory agencies utilize to classify credit exposure and which are consistent with indicators the Company monitors. The consumer loan risk profiles are different from commercial loans, and use loan-to-value (“LTV”) ratios in rating the credit quality, and therefore are presented separately below.

Total	\$21,055.6	\$1,065.5	\$1,428.3	\$200.6	\$57.9	\$23,807.9

⁽¹⁾ Other Consumer Banking loans consisted of SBA loans.

For consumer loans, the Company monitors credit risk based on indicators such as delinquencies and LTV, which the Company believes are relevant credit quality indicators.

LTV refers to the ratio comparing the loan's unpaid principal balance to the property's collateral value. We examine LTV migration and stratify LTV into categories to monitor the risk in the loan classes.

The following table provides a summary of the consumer portfolio credit quality. The amounts represent the carrying value, which differ from unpaid principal balances, and include the premiums or discounts and the accretable yield and non-accretable difference for PCI loans recorded in purchase accounting. Included in the consumer loans are "covered loans" for which the Company can be reimbursed for a substantial portion of future losses under the terms of loss sharing agreements with the FDIC. Covered loans are limited to the Legacy Consumer Mortgage ("LCM") division. Covered loans are further discussed in our Form 10-K for the year ended December 31, 2017, Note 5 — Indemnification Assets.

Included in the consumer loan balances as of March 31, 2018 and December 31, 2017, were loans with terms that permitted negative amortization with an unpaid principal balance of \$452 million and \$484 million, respectively.

CIT GROUP INC. 15

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The table below summarizes the consumer loan LTV distribution and the covered loan held for investment balances as of March 31, 2018 and December 31, 2017 for single family residential mortgage loans.

Consumer Loan LTV Distribution (dollars in millions)

LTV Range	Single Family Residential				Total Consumer Loans
	Covered Loans		Non-covered Loans		
	Non-PCI	PCI	Non-PCI	PCI	
March 31, 2018					
Greater than 125%	\$3.5	\$145.7	\$5.8	\$—	\$155.0
101% – 125%	6.0	260.4	4.8	—	271.2

Due to their nature, reverse mortgage loans are included in Current, as they do not have contractual payments due at a specified time. During the current quarter, an immaterial error was discovered and corrected relating to the

- (1) December 31, 2017 Current balance for Legacy Consumer Mortgage; which was understated by \$861 million, and the Current balance for Other Consumer Banking, which was overstated by \$861 million. The current presentation reflects the revised Current balances at December 31, 2017.

PCI loans are written down at acquisition to their fair value using an estimate of cash flows deemed to be

- (2) collectible. Accordingly, such loans are no longer classified as past due or non-accrual even though they may be contractually past due as we expect to fully collect the new carrying values.

⁽¹⁾ Factored receivables within our Business Capital division do not accrue interest and therefore are not considered within non-accrual loan balances; however factored receivables are considered for credit provisioning purposes.

Payments received on non-accrual financing receivables are generally applied first against outstanding principal, though in certain instances where the remaining recorded investment is deemed fully collectible, interest income is recognized on a cash basis. Reverse mortgages are not included in the non-accrual balances.

The table below summarizes the residential mortgage loans in the process of foreclosure and OREO: Loans in Process of Foreclosure and OREO (dollars in millions)⁽¹⁾

	March 31, 2018	December 31, 2017
PCI	\$ 134.5	\$ 133.7
Non-PCI	138.2	140.9
Loans in process of foreclosure	\$ 272.7	\$ 274.6
OREO	\$ 43.1	\$ 52.1

As of March 31, 2018 and December 31, 2017, the table included \$120.4 million and \$122.5 million of reverse mortgage loans in the process of foreclosure and \$17.2 million and \$21.0 million of reverse mortgage OREO, respectively.

Impaired Loans

The Company's policy is to review for impairment loans greater than \$500,000 that are on non-accrual status, as well as short-term factoring receivables greater than \$500,000 when events or circumstances indicate that it is probable that CIT will be unable to collect all amounts due according to the contractual terms of the factoring agreement.

Small-ticket loan and lease receivables that have not been modified in a restructuring are included (if appropriate) in the reported non-accrual balances above, but are excluded from the impaired loans disclosure below as charge-offs are typically determined and recorded for such loans when they are more than 90 – 150 days past due.

The following table contains information about impaired loans and the related allowance for loan losses by class. Impaired loans exclude PCI loans. Loans that were identified as impaired at the date of the OneWest Transaction (the "Acquisition Date") for which the Company is applying the income recognition and disclosure guidance in ASC 310-30 (Loans and Debt Securities Acquired with Deteriorated Credit Quality), are not included in the following table but are disclosed further below in Loans Acquired with Deteriorated Credit Quality.

Interest income recorded for the quarter ended March 31, 2018 while the loans were impaired was \$0.3 million of which none was recognized using the cash-basis method of accounting. Interest income recorded for the year ended (1) December 31, 2017 while the loans were impaired was \$2.4 million, of which none was recognized using the cash-basis method of accounting.

(2) Details of finance loans that were identified as impaired at the Acquisition Date are presented under Loans Acquired with Deteriorated Credit Quality.

(3) Average recorded investment for the quarters ended March 31, 2018, and March 31, 2017 and year ended December 31, 2017.

Loans Acquired with Deteriorated Credit Quality

The Company applied the income recognition and disclosure guidance in ASC 310-30 (Loans and Debt Securities Acquired with Deteriorated Credit Quality) to loans that were identified as impaired as of the Acquisition Date. PCI loans were initially recorded at estimated fair value with no allowance for loan losses carried over, since the initial fair values reflected credit losses expected to be incurred over the remaining lives of the loans. The acquired loans are subject to the Company's internal credit review. See Note 4 — Allowance for Loan Losses.

The following table summarizes the carrying value of commercial PCI loans within Commercial Banking, which are monitored for credit quality based on internal risk classifications. See previous table Consumer Loan LTV

Distribution for credit quality metrics on consumer PCI loans.

(dollars in millions)	March 31, 2018			December 31, 2017		
	Non-criticized	Criticized	Total	Non-criticized	Criticized	Total
Commercial Finance	\$—	\$ 10.4	\$10.4	\$—	\$ 10.6	\$10.6
Real Estate Finance	20.4	18.8	39.2	21.8	23.3	45.1
Total	\$20.4	\$ 29.2	\$49.6	\$21.8	\$ 33.9	\$55.7

Non-criticized loans generally include loans that are expected to be repaid in accordance with contractual loan terms. Criticized loans are risk rated as special mention or classified.

Accretable Yield

The excess of cash flows expected to be collected over the recorded investment (estimated fair value at acquisition) of the PCI loans represents the accretable yield and is recognized in interest income on an effective yield basis over the remaining life of the loan, or pools of loans. The accretable yield is adjusted for changes in interest rate indices for variable rate PCI loans, changes in prepayment assumptions and changes in expected principal and interest payments and collateral values. Further, if a loan within a pool of loans is modified, the modified loan remains part of the pool of loans.

See CIT's Annual Report on Form 10-K for the year ended December 31, 2017, Note 1 — Business and Summary of Significant Accounting Policies for further details.

Changes in the accretable yield for PCI loans are summarized below.

Change in
Accretable
Yield (dollars
in millions)

	Quarters Ended	
	March 31, 2018	2017

Disposals and Other	(3.9)	(8.5)
Balance, end of period	\$1,016.3	\$1,233.7

Troubled Debt Restructuring

The Company periodically modifies the terms of loans in response to borrowers' difficulties. Modifications that include a financial concession to the borrower are accounted for as troubled debt restructurings (TDRs). See the Company's Annual Report on Form 10-K for the year ended December 31, 2017 for discussion of policies on TDRs.

At March 31, 2018, the loans in trial modification period were \$7.9 million under proprietary programs. Trial modifications with a recorded investment of \$7.7 million at March 31, 2018 were accruing loans and \$0.2 million were non-accruing loans. At December 31, 2017, the loans in trial modification period were \$0.3 million under the Home Affordable Modification Program ("HAMP") and \$12.2 million under proprietary programs. Trial modifications with a recorded investment of \$12.3 million at

CIT GROUP INC. 19

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

December 31, 2017, were accruing loans and \$0.2 million were non-accruing loans. Our experience is that substantially all of the mortgages that enter a trial payment period program are successful in completing the program requirements and are then permanently modified at the end of the trial period. Our allowance process considers the impact of those modifications that are probable to occur.

The recorded investment of TDRs, excluding those classified as PCI and those within a trial modification period discussed in the preceding paragraph, at March 31, 2018 and December 31, 2017 was \$94.4 million and \$103.5 million, of which 61% and 63%, respectively, were on non-accrual. See the preceding paragraph on discussion related to TDRs in a trial modification period. Commercial Banking and Consumer Banking receivables accounted for 81% and 19% of the total TDRs, respectively, at March 31, 2018. Commercial Banking and Consumer Banking receivables accounted for 83.0% and 17.0% of the total TDRs, respectively at December 31, 2017. There were \$15.7 million and \$13.4 million as of March 31, 2018 and December 31, 2017, respectively, of commitments to lend additional funds to borrowers whose loan terms have been modified in TDRs.

The recorded investment related to modifications qualifying as TDRs that occurred during the quarters ended March 31, 2018 and 2017 were \$36.5 million and \$34.1 million, respectively. The recorded investment as of March 31, 2018 and 2017 of TDRs that experienced a payment default (payment default is one missed payment), during the quarters ended March 31, 2018 and 2017, and for which the payment default occurred within one year of the modification totaled \$1.6 million and \$1.2 million, respectively. The defaults that occurred during the current quarter related to Commercial Banking and Consumer Banking, 74% and 26%, respectively.

The financial impact of the various modification strategies that the Company employs in response to borrower difficulties is described below. While the discussion focuses on the March 31, 2018 amounts, the overall nature and impact of modification programs were comparable in the prior year.

The nature of modifications qualifying as TDR's based upon recorded investment at March 31, 2018 was comprised of payment deferrals for 27% and covenant relief and/or other for 73%. December 31, 2017 TDR recorded investment was comprised of payment deferrals for 31% and covenant relief and/or other for 69%.

Payment deferrals result in lower net present value of cash flows, if not accompanied by additional interest or fees, and increased provision for credit losses to the extent applicable. The financial impact of these modifications is not significant given the moderate length of deferral periods.

Interest rate reductions result in lower amounts of interest being charged to the customer, but are a relatively small part of the Company's restructuring programs. The weighted average change in interest rates for all TDRs occurring during the quarters ended March 31, 2018 and 2017 was not significant.

Debt forgiveness, or the reduction in amount owed by borrower, results in incremental provision for credit losses, in the form of higher charge-offs. While these types of modifications have the greatest individual impact on the allowance, the amounts of principal forgiveness for TDRs occurring during quarters ended March 31, 2018 and 2017 was not significant, as debt forgiveness is a relatively small component of the Company's modification programs.

The other elements of the Company's modification programs that are not TDRs, do not have a significant impact on financial results given their relative size, or do not have a direct financial impact, as in the case of covenant changes.

Reverse Mortgages

At March 31, 2018 and December 31, 2017 reverse mortgages of \$860.5 million and \$861.0 million, respectively, were classified as assets held-for-sale within continuing operations related to the Financial Freedom Transaction, of which \$716.8 million and \$724.7 million, respectively, related to the uninsured proprietary reverse mortgage loans and the remaining related to FHA-insured HECM loans.

The uninsured proprietary reverse mortgage portfolio consists of approximately 1,500 loans with an unpaid principal balance of \$929.4 million and \$944.0 million at March 31, 2018 and December 31, 2017, respectively.

See CIT's Annual Report on Form 10-K for the year ended December 31, 2017, Note 1 — Business and Summary of Significant Accounting Policies for further details.

Serviced Loans

The Company services HECM reverse mortgage loans sold to Government Sponsored Enterprises (Fannie Mae) and securitized in GNMA HECM mortgage-backed securities (“HMBS”) pools. HECM loans transferred into the HMBS program have not met all the requirements for sale accounting, and therefore, the Company has accounted for these transfers as a financing transaction with the loans remaining on the Company’s statement of financial position and the proceeds received are recorded as a secured borrowing. The pledged loans and secured borrowings are reported in Assets of discontinued operations and Liabilities of discontinued operations, respectively. See Note 2 — Discontinued Operations.

As servicer of HECM loans, the Company is required to repurchase loans out of the HMBS pool upon completion of foreclosure or once the outstanding principal balance is equal to or greater than 98% of the maximum claim amount. These HECM loans are repurchased at a price equal to the unpaid principal balance outstanding on the loan plus accrued interest. The repurchase transaction represents extinguishment of debt classified in discontinued operations. Although permitted under the GNMA HMBS program, the Company does not conduct optional repurchases upon the loan reaching a maturity event (i.e. borrower's death or the property ceases to be the borrower's principal residence). Upon investor (GNMA) consent to servicing transfer in connection with the Financial Freedom Transaction, CIT shall no longer have this obligation. See Note 2 - Discontinued Operations.

In the quarter ended March 31, 2018, the Company repurchased \$23.9 million (unpaid principal balance) of additional HECM loans, all of which were classified as AHFS. As of March 31, 2018, the Company had an outstanding balance of \$143.7 million of

20 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

HECM loans, with unpaid principal balance of \$189.3 million, all of which were classified as AHFS. As of December 31, 2017, the Company had an outstanding balance of \$136.3 million of HECM loans, with unpaid principal balance of \$177.6 million, all of which were classified as AHFS.

NOTE 4 — ALLOWANCE FOR LOAN LOSSES

The Company maintains an allowance for loan losses for estimated credit losses in its HFI loan portfolio. Allowance for Loan Losses and Recorded Investment in Loans (dollars in millions)

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Realized investment gains totaled \$6.2 million and \$1.6 million for the quarters ended March 31, 2018 and 2017 respectively, and exclude losses from OTTI.

In addition, the Company had \$3.9 billion and \$1.4 billion of interest bearing deposits at banks at March 31, 2018 and December 31, 2017, respectively, which are cash equivalents and are classified separately on the balance sheet.

The following table presents interest and dividends on interest bearing deposits and investments:
Interest and Dividend Income (dollars in millions)

	Quarters Ended March 31, 2018 2017	
Interest income — debt securities	\$40.5	\$27.8
Interest income — interest bearing deposits	3.0	12.5

Purchased Credit-Impaired AFS Securities

In connection with the OneWest acquisition, the Company classified AFS mortgage-backed securities as PCI due to evidence of credit deterioration since issuance and for which it is probable that the Company will not collect all principal and interest payments contractually required at the time of purchase. Accounting for these adjustments is discussed in Note 1 — Business and Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Changes in the accretable yield for PCI securities are summarized below for the quarter ended March 31, 2018 and 2017:

Changes in Accretable Yield (dollars in millions)

	Quarters Ended	
	March 31, 2018	March 31, 2017
Balance, beginning of period	\$101.7	\$165.0
Accretion into interest income	(3.8)	(6.5)
Reclassifications from non-accretable difference due to improving cash flows	0.1	0.1
Reclassifications to non-accretable difference due to decreasing cash flows	—	(0.5)
Disposals and other	(22.3)	—
Balance, end of period	\$75.7	\$158.1

The estimated fair value of PCI securities was \$238.4 million and \$312.5 million with a par value of \$302.9 million and \$387.6 million as of March 31, 2018, and December 31, 2017, respectively.

Securities Carried at Fair Value with Changes Recorded in Net Income

Upon the adoption of ASU 2016-01- Financial Instruments, CIT reclassified eligible equity securities AFS to Securities Carried at Fair Value with Changes Recorded in Net Income totaling \$46.1 million and \$44.1 million of amortized cost and fair value respectively as of March 31, 2018. The unrealized losses were \$2 million as of March

31, 2018.

The amortized cost and fair value of debt Securities carried at Fair Value with Changes Recorded in Net Income were \$0.4 million as of December 31, 2017 with a weighted average yield of 41.8%. There were no equity Securities Carried at Fair Value with Changes Recorded in Net Income as of December 31, 2017.

Other Than Temporary Impairment (“OTTI”)

The Company conducted and documented its periodic review of all securities with unrealized losses, which it performs to evaluate whether the impairment is other than temporary.

The Company reviewed PCI securities with unrealized losses and determined the unrealized losses were credit-related and recognized OTTI losses. There was an insignificant amount of OTTI credit-related losses recognized for the quarter ended March 31, 2018 and \$0.1 million was recognized as permanent write-downs for the quarter ended March 31, 2017.

The Company reviewed debt securities classified as AFS with unrealized losses and determined that the unrealized losses were neither OTTI nor credit-related, and believes it is not more-likely-than-not that the Company will have to sell the debt securities classified as AFS with unrealized losses prior to the recovery of the amortized cost basis.

There were no adjustments related to impairment for securities without readily determinable fair values measured under the measurement exception.

There were immaterial unrealized losses on non-marketable investments.

24 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 6 — BORROWINGS

The following table presents the carrying value of outstanding borrowings.
Borrowings (dollars in millions)

	March 31, 2018			December 31, 2017
	CIT Group Inc.	Subsidiaries	Total	Total
Senior Unsecured	\$4,730.8	\$ —	\$4,730.8	\$ 3,737.5
Subordinated unsecured debt	395.9	—	395.9	—
Secured borrowings:				
Structured financings	—	1,416.1	1,416.1	1,541.4
FHLB advances	—	3,894.5	3,894.5	3,695.5
Total Borrowings	\$5,126.7	\$ 5,310.6	\$ 10,437.3	\$ 8,974.4

Unsecured Borrowings

Revolving Credit Facility

The Revolving Credit Facility has a total commitment amount of \$500 million and the maturity date of the commitment is February 29, 2020. The applicable margin charged under the facility is 2.00% for LIBOR Rate loans and 1.00% for Base Rate loans.

The Revolving Credit Facility was amended in February 2018 to lower the total commitments from \$750 million to \$500 million and to extend the final maturity date of the lenders' commitments from January 25, 2019 to February 29, 2020, for all but one lender. The Revolving Credit Facility includes a covenant that requires that the Company maintain a minimum Tier 1 capital ratio of 9.0%. As of March 31, 2018, the Revolving Credit Facility was unsecured and was guaranteed by four of the Company's domestic operating subsidiaries. In addition, the applicable required minimum guarantor asset coverage ratio ranged from 1.0:1.0 to 1.5:1.0, and was 1.25:1.0 at March 31, 2018.

The Revolving Credit Facility may be drawn and prepaid at the option of CIT. The unutilized portion of any commitment under the Revolving Credit Facility may be reduced permanently or terminated by CIT at any time without penalty. There were no outstanding borrowings at March 31, 2018 and December 31, 2017. The amount available to draw upon at March 31, 2018 was approximately \$448 million, with the remaining amount of approximately \$52 million being utilized for issuance of letters of credit to customers.

Senior Unsecured Notes

The following table presents the principal amounts by maturity date.
Senior Unsecured Notes (dollars in millions)

Maturity Date	Rate (%)	Date of Issuance	Par Value
February 2019	5.500%	February 2012	\$ 383.0

Edgar Filing: CIT GROUP INC - Form 10-Q

February 2019	3.875%	February 2014	1,000.0
May 2020	5.375%	May 2012	435.6
March 2021	4.125%	March 2018	500.0
August 2022	5.000%	August 2012	1,150.0
August 2023	5.000%	August 2013	750.0
March 2025	5.250%	March 2018	500.0
Weighted average rate and total	4.771%		\$ 4,718.6

On April 9, 2018, CIT redeemed \$383 million aggregate principal amount of our 5.500% senior unsecured notes due February 2019 and \$500 million aggregate principal amount of our 3.875% senior unsecured notes due February 2019, at an aggregate premium of \$15.7 million. Refer to Note 15 — Subsequent Events for further disclosure.

The Indentures for the senior unsecured notes limit the Company's ability to create liens, merge or consolidate, or sell, transfer, lease or dispose of all or substantially all of its assets. Upon a Change of Control Triggering Event as that term is defined in the Indentures for the senior unsecured notes, holders of the senior unsecured notes will have the right to require the Company, as applicable, to repurchase all or a portion of the senior unsecured notes at a purchase price equal to 101% of the principal amount, plus accrued and unpaid interest to the date of such repurchase.

In addition to the above table, there is an unsecured note outstanding with a 6.0% coupon and a carrying value of \$39.6 million (par value of \$51 million) that matures in 2036.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Subordinated Unsecured Notes

In March 2018, CIT issued \$400 million aggregate principal amount of 6.125% subordinated notes with the maturity date on March 9, 2028. The notes are subordinated in right of payment to the payment of our senior indebtedness and secured indebtedness, to the extent of the value of the collateral.

Secured Borrowings

At March 31, 2018, the Company had pledged \$28.7 billion of assets (including collateral for the FRB discount window that is currently not drawn). The collateral specifically identified and used to calculate available borrowings was \$12.9 billion, which included \$11.5 billion of loans, \$1.2 billion of operating lease assets, \$0.1 billion of cash and cash equivalent and \$0.1 billion of investment securities. Under the FHLB Facility, CIT Bank may at any time grant a security interest in, sell, convey or otherwise dispose of any of the assets used for collateral, provided that CIT Bank is in compliance with the collateral maintenance requirement immediately following such disposition and all other requirements of the facility at the time of such disposition.

FHLB Advances

As a member of the FHLB of San Francisco, CIT Bank, N.A. can access financing based on an evaluation of its creditworthiness, statement of financial position, size and eligibility of collateral. The interest rates charged by the FHLB for advances typically vary depending upon maturity, the cost of funds of the FHLB, and the collateral provided for the borrowing. The advances are secured by certain Bank assets and bear either a fixed or floating interest rate. The FHLB advances are collateralized by mortgage-backed securities ("MBS") and a variety of consumer and commercial loans, including single family residential ("SFR") mortgage loans, multi-family mortgage loans, commercial real estate loans, certain foreclosed properties and certain amounts receivable under a loss sharing agreement with the FDIC.

As of March 31, 2018, the Company had \$5.3 billion of financing availability with the FHLB, of which \$1.4 billion was unused and available, and \$85.8 million was being utilized for issuance of letters of credit related to deposits. FHLB Advances as of March 31, 2018 have a weighted average rate of 2.04%. The following table includes the total outstanding FHLB Advances, and respective pledged assets⁽¹⁾.

FHLB Advances with Pledged

Assets⁽¹⁾ Summary (dollars in millions)

March 31, 2018		December 31, 2017	
FHLB Advances	Pledged Assets ₍₁₎	FHLB Advances	Pledged Assets ₍₁₎

Total	\$3,894.5	\$6,338.6	\$3,695.5	\$6,154.1
-------	-----------	-----------	-----------	-----------

⁽¹⁾ For purposes of this table the term "Pledged Assets" means the assets required under the collateral maintenance requirement in connection with FHLB advances at each of the dates.

Structured Financings

Set forth in the following table are amounts primarily related to structured financings of and assets owned by consolidated VIEs. Creditors of these VIEs received ownership and/or security interests in the assets. These entities are intended to be bankruptcy remote so that such assets are not available to creditors of CIT or any affiliates of CIT

until and unless the related secured borrowings have been fully discharged. These transactions do not meet accounting requirements for sales treatment and are recorded as secured borrowings. Structured financings as of March 31, 2018 had a weighted average rate of 4.02%, with rates ranging from 0.59% to 5.5%.

Structured Financings and Pledged Assets
Summary (dollars in millions)

	March 31, 2018		December 31, 2017	
	Secured Borrowing	Pledged Assets	Secured Borrowing	Pledged Assets
Business Capital	\$695.5	\$2,817.5	\$768.8	\$2,838.6
Rail ^{(1) (2)}	720.6	1,259.9	772.6	1,272.0
Total	\$1,416.1	\$4,077.4	\$1,541.4	\$4,110.6

At March 31, 2018, the TRS Transactions related borrowings and pledged assets, respectively, of \$485.0 million⁽¹⁾ and \$854.3 million were included in Rail. The TRS Transactions are described in Note 7 — Derivative Financial Instruments.

At March 31, 2018, secured borrowings and pledged assets, respectively, of \$211.5 million and \$379.9 million⁽²⁾ were related to the pending sale of our European Rail business, NACCO, and will be transferred to the buyer upon sale of that business.

Not included in the above table are secured borrowings of discontinued operations of \$247.8 million and \$268.2 million, at March 31, 2018, and December 31, 2017, respectively. See Note 2 — Discontinued Operations.

FRB

The Company has a borrowing facility with the FRB Discount Window that can be used for short-term, typically overnight, borrowings. The borrowing capacity is determined by the FRB based on the collateral pledged.

There were no outstanding borrowings with the FRB Discount Window as of March 31, 2018 and December 31, 2017.

26 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Variable Interest Entities (“VIEs”)

Described below are the results of the Company’s assessment of its variable interests in order to determine its current status with regards to being the VIE primary beneficiary.

Consolidated VIEs

The Company utilizes VIEs in the ordinary course of business to support its own and its customers’ financing needs. Each VIE is a separate legal entity and maintains its own books and records. The most significant types of VIEs that CIT utilizes are "on balance sheet" secured financings of pools of leases and loans originated by the Company where the Company is the primary beneficiary. Refer to the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 for further discussion.

Unconsolidated VIEs

Unconsolidated VIEs include government sponsored entity (“GSE”) securitization structures, private-label securitizations and limited partnership interests where the Company’s involvement is limited to an investor interest where the Company does not have the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE and limited partnership interests.

The Company has certain contractual obligations related to the HECM loans and the GNMA HMBS securitizations, which are VIEs for which CIT is not the primary beneficiary. The Company, as servicer of these HECM loans, is currently obligated to fund future borrower advances, which include fees paid to taxing authorities for borrowers’ unpaid taxes and insurance, mortgage insurance premiums and payments made to borrowers for line of credit draws on HECM loans. In addition, the Company is required to repurchase the HECM loans once the outstanding principal balance is equal to or greater than 98% of the maximum claim amount or when the property forecloses to OREO, which reduces the secured borrowing balance. Additionally the Company services \$136.5 million and \$140.3 million of HMBS outstanding principal balance at March 31, 2018 and December 31, 2017, respectively, for transferred loans securitized by IndyMac for which OneWest Bank prior to the acquisition had purchased the mortgage servicing rights (“MSRs”) in connection with the IndyMac Transaction. The carrying value of the MSRs was not significant at March 31, 2018 and December 31, 2017. As the HECM loans are federally insured by the FHA and the secured borrowings guaranteed to the investors by GNMA, the Company does not believe maximum loss exposure as a result of its involvement is material.

The table below presents potential losses that would be incurred under hypothetical circumstances, such that the value of its interests and any associated collateral declines to zero and assuming no recovery or offset from any economic hedges. The Company believes the possibility is remote under this hypothetical scenario; accordingly, this required disclosure is not an indication of expected loss.

Unconsolidated VIEs Carrying Value (dollars in millions)

	March 31, 2018		December 31, 2017	
	Securities	Partnership Investment	Securities	Partnership Investment
Agency securities	\$4,726.4	\$ —	\$4,950.2	\$ —
Non agency securities — Other servicer	244.0	—	318.8	—
Tax credit equity investments	—	207.0	—	198.8
Equity investments	—	46.7	—	38.6

Edgar Filing: CIT GROUP INC - Form 10-Q

Total Assets	\$4,970.4	\$ 253.7	\$5,269.0	\$ 237.4
Commitments to tax credit investments	\$—	\$ 79.7	\$—	\$ 66.6
Total Liabilities	\$—	\$ 79.7	\$—	\$ 66.6
Maximum loss exposure ⁽¹⁾	\$4,970.4	\$ 253.7	\$5,269.0	\$ 237.4

(1) Maximum loss exposure to the unconsolidated VIEs excludes the liability for representations and warranties, corporate guarantees and also excludes servicing advances.

NOTE 7 — DERIVATIVE FINANCIAL INSTRUMENTS

As part of managing exposure to interest rate and foreign currency risk, the Company enters into derivative transactions with other financial institutions. The Company also enters into derivative contracts with customers as part of its Commercial Banking business. The Company does not enter into derivative financial instruments for proprietary trading or speculative purposes.

See Note 1 — Business and Summary of Significant Accounting Policies in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, for further description of its derivative transaction policies.

Impact of Collateral and Netting Arrangements on the Total Derivative Portfolio

The following tables present a summary of our derivative portfolio, which includes the gross amounts of recognized financial assets and liabilities; the amounts offset in the consolidated balance sheet; the net amounts presented in the consolidated balance sheet; the amounts subject to an enforceable master netting arrangement or similar agreement that were not included in the offset amount above, and the amount of cash collateral received or pledged. Derivative transactions are documented under an International Swaps and Derivatives Association (“ISDA”) agreement.

Offsetting of Derivative Assets and Liabilities (dollars in millions)⁽¹⁾

	Gross Amount of Recognized Assets (Liabilities)	Gross Amount Offset in the Consolidated Balance Sheet	Net Amount Presented in the Consolidated Balance Sheet	Gross Amounts not offset in the Consolidated Balance Sheet		
				Derivative Financial Instruments ⁽²⁾	Cash Collateral Pledged / (Received) ⁽²⁾⁽³⁾	Net Amount
March 31, 2018						
Derivative assets	\$ 118.7	\$ —	—\$ 118.7	\$(24.8)	\$ (33.2)) \$ 60.7
Derivative liabilities	(103.9)	—	(103.9)) 24.8	1.9	(77.2)

December 31, 2017

Derivative assets	\$ 68.7	\$	—	\$ 68.7	\$(18.7)	\$ (8.4)	\$ 41.6
Derivative liabilities	(87.0)	—	(87.0)	18.7	23.0	(45.3)

Due to a change in clearinghouse rules, the Company accounts for swap contracts cleared by the Chicago Mercantile Exchange (“CME”) as “settled-to-market” effective January 2017. As a result, variation margin payments are characterized as settlement of the derivative exposure and variation margin balances are netted against the

(1) corresponding derivative mark-to-market balances. The Company’s swap contracts cleared by LCH Clearnet (“LCH”) continue to be accounted for as “collateralized-to-market” and variation margin balances are characterized as collateral against derivative exposures. At March 31, 2018, gross amounts of recognized assets and liabilities were lower by \$9.5 million and \$6.0 million, respectively.

The Company’s derivative transactions are governed by ISDA agreements that allow for net settlements of certain payments as well as offsetting of all contracts (“Derivative Financial Instruments”) with a given counterparty in the event of bankruptcy or default of one of the two parties to the transaction. We believe our ISDA agreements meet

(2) the definition of a master netting arrangement or similar agreement for purposes of the above disclosure. In conjunction with the ISDA agreements, the Company has entered into collateral arrangements with its counterparties which provide for the exchange of cash depending on change in the market valuation of the derivative contracts outstanding. Such collateral is available to be applied in settlement of the net balances upon an event of default of one of the counterparties.

(3) Collateral pledged or received is included in Other assets or Other liabilities, respectively.

Fair Value Hedge

In the first quarter of 2018, CIT entered into a \$250 million notional interest rate swap agreement to manage interest rate exposure on half of its three years 4.125% fixed-rate senior notes that were newly issued in March 2018. This agreement is designated as a fair value hedge.

Total	\$ 6.9	\$ 6.9	\$ (8.9)	\$ (8.9)	\$(15.8)

TRS Transactions

As of March 31, 2018, CIT was party to a financing facility between a wholly-owned Dutch subsidiary of CIT and Goldman Sachs International ("GSI"), which was structured as a total return swap ("TRS"). Amounts available for advances (otherwise known as the unused portion) were accounted for as derivatives and recorded at the estimated fair value. The total facility capacity available under the Dutch TRS was \$625 million at March 31, 2018, and December 31, 2017. The utilized portion reflects the borrowing.

The aggregate "notional amounts" of the Dutch TRS of \$189.6 million at March 31, 2018, and \$182.4 million at December 31, 2017, represent the aggregate unused portions and constitute derivative financial instruments. These notional amounts were calculated as the maximum facility commitment amount, \$625 million, under the Dutch TRS, less the actual adjusted qualifying borrowing base outstanding of \$435.4 million at March 31, 2018, and \$442.6 million under the facility at December 31, 2017. The notional amounts of the derivative will increase as the adjusted qualifying borrowing base decreases due to repayment of the underlying asset-backed securities ("ABS") to investors. If CIT funds additional ABS under the Dutch TRS, the aggregate adjusted qualifying borrowing base of the total return swap will increase and the notional amount of the derivative will decrease accordingly.

Based on the Company's valuation, a liability of \$16.2 million and \$14.1 million was recorded at March 31, 2018, and December 31, 2017, respectively. The increase in liability of \$2.1 million was recognized as a reduction to Other Income for the quarter ended March 31, 2018 and an increase in liability of \$0.9 million was recognized as a reduction to Other Income for the quarter ended March 31, 2017.

NOTE 8 — FAIR VALUE

Fair Value Hierarchy

The Company is required to report fair value measurements for specified classes of assets and liabilities. See Note 1 — Business and Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 for a description of its fair value measurement policy.

The Company characterizes inputs in the determination of fair value according to the fair value hierarchy. The fair value of the Company's assets and liabilities where the measurement objective specifically requires the use of fair value are set forth in the tables below.

Disclosures that follow in this note exclude assets and liabilities classified as discontinued operations.

Financial Assets and Liabilities Measured at Estimated Fair Value on a Recurring Basis

The following table summarizes the Company's assets and liabilities measured at estimated fair value on a recurring basis.

Assets and Liabilities Measured at Fair Value on a Recurring Basis (dollars in millions)

	Total	Level 1	Level 2	Level 3

Upon the adoption of ASU 2016-01 - Financial Instruments as of January 1, 2018, equity securities AFS were

(1) reclassified to securities carried at fair value with changes recorded in net income. See Note 1 - Business and Summary of Significant Accounting Policies.

(2) Derivative fair values include accrued interest.

Debt and Equity Securities Classified as AFS and Securities carried at fair value with changes recorded in net income — Debt securities classified as AFS included investments in U.S. federal government agencies, U.S. Treasury Notes and supranational securities and were valued using Level 2 inputs, primarily quoted prices for similar securities. U.S. Treasury Bills and certain equity securities classified as AFS were valued using Level 1 inputs, primarily quoted prices in active markets. For Agency pass-through MBS, which are classified as Level 2, the Company generally determines estimated fair value utilizing prices obtained from independent broker dealers and recent trading activity for similar assets. Debt securities classified as AFS and securities carried at fair value with changes recorded in net income represent non-Agency MBS, the market for such securities is not active and the estimated fair value was determined using a discounted cash flow technique. The significant unobservable assumptions, which are verified to the extent possible using broker dealer quotes, are estimated by type of underlying collateral, including credit loss assumptions, estimated prepayment speeds and appropriate discount rates. Given the lack of observable market data, the estimated fair value of the non-agency MBS is classified as Level 3.

Derivative Assets and Liabilities — These derivatives are valued using models that incorporate inputs depending on the type of derivative, such as interest rate curves, foreign exchange rates and volatility. Readily observable market inputs to models can be validated to external sources, including industry pricing services, or corroborated through recent trades, broker dealer quotes, yield curves, or other market-related data. As such, these derivative instruments are valued using a Level 2 methodology. In addition, these derivative values incorporate an assessment of the risk of counterparty nonperformance, measured based on the

30 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Company's evaluation of credit risk. The fair value of the TRS derivative, written options on certain CIT Bank CDs and credit derivatives were estimated using Level 3 inputs.

FDIC True-up Liability — The FDIC True-up liability was recorded at estimated fair value as of the Acquisition Date and is remeasured to fair value at each reporting date until the contingency is resolved. The FDIC True-up liability was valued using the discounted cash flow method based on the terms specified in the loss share agreement with the FDIC, the actual FDIC payments collected and significant unobservable inputs, including a risk-adjusted discount rate (reflecting the Company's credit risk plus a liquidity premium), prepayment and default rates. Due to the significant unobservable inputs used to calculate the estimated fair value, these measurements are classified as Level 3.

Consideration Holdback Liability — In connection with the OneWest acquisition, the parties negotiated 4 separate holdbacks related to select trailing risks, totaling \$116 million, which reduced the cash consideration paid at closing. Any unapplied Holdback funds at the end of the respective holdback periods, which range from 1 – 5 years, are payable to the former OneWest shareholders. Unused funds for any of the four holdbacks cannot be applied against another holdback amount. The range of potential holdback to be paid is from \$0 to \$116 million. Based on management's estimate of the probability of each holdback it was determined that the probable amount of holdback to be paid was originally recorded at \$62.4 million, and currently is \$46.0 million. The amount expected to be paid was discounted based on CIT's cost of funds, which approximates a market rate. This contingent consideration was measured at fair value at the Acquisition Date and is re-measured at fair value in subsequent accounting periods, with the changes in fair value recorded in the statement of income, until the related contingent issues are resolved. Gross payments, which are determined based on the Company's probability assessment, are discounted at a rate approximating the Company's average coupon rate on deposits and borrowings. Due to the significant unobservable inputs used to calculate the estimated fair value, these measurements are classified as Level 3.

The following tables summarize information about significant unobservable inputs related to the Company's categories of Level 3 financial assets and liabilities measured on a recurring basis as of March 31, 2018 and December 31, 2017.

Quantitative Information about Level 3 Fair Value Measurements — Recurring (dollars in millions)

Financial Instrument	Estimated Fair Value	Valuation Technique(s)	Significant Unobservable Inputs	Range of Inputs	Weighted Average
March 31, 2018					
Assets					
Securities — AFS	\$ 311.3	Discounted cash flow	Discount Rate	0.0% - 11.6%	4.7%
			Prepayment Rate	3.8% - 26.7%	8.5%
			Default Rate	0.0% - 6.6%	3.9%
			Loss Severity	0.3% - 76.2%	35.5%
Derivative assets — non qualifying	0.1	Internal valuation model	Borrower Rate	3.5% - 4.9%	4.2%

			Default Rate	0.0% – 7.3%	3.7%
			Loss Severity	0.3% – 72.4%	35.3%
Securities carried at fair value with changes recorded in net income	0.4	Discounted cash flow	Discount Rate	31.1%	31.1%
			Prepayment Rate	10.9%	10.9%
			Default Rate	2.4%	2.4%
			Loss Severity	59.2%	59.2%
Derivative assets — non qualifying	0.1	Internal valuation model	Borrower Rate	3.0% - 4.4%	3.8%
Total Assets	\$ 386.3				
Liabilities					
FDIC True-up liability	\$(65.1)	Discounted cash flow	Discount Rate	2.9%	2.9%
Consideration holdback liability	(46.0)	Discounted cash flow	Payment Probability	0% – 100%	48.0%
Derivative liabilities — non-qualifying	(14.1)	Market Comparables ⁽¹⁾			
Total Liabilities	\$(125.2)				

The valuation of these derivatives is primarily related to the GSI facilities and is based on several factors using a discounted cash flow methodology, including a) funding costs for similar financings based on current market conditions; b) forecasted usage of long-dated facilities through the final maturity date in 2028; and c) forecasted amortization, due to principal payments on the underlying ABS, which impacts the amount of the unutilized portion.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The level of aggregation and diversity within the products disclosed in the tables results in certain ranges of inputs being wide and unevenly distributed across asset and liability categories. For instruments backed by residential real estate, diversity in the portfolio is reflected in a wide range for loss severity due to varying levels of default. The lower end of the range represents high performing loans with a low probability of default while the higher end of the range relates to more distressed loans with a greater risk of default.

The valuation techniques used for the Company's Level 3 assets and liabilities, as presented in the previous tables, are described as follows:

Discounted cash flow — Discounted cash flow valuation techniques generally consist of developing an estimate of future cash flows that are expected to occur over the life of an instrument and then discounting those cash flows at a rate of return that results in the estimated fair value amount. The Company utilizes both the direct and indirect valuation methods. Under the direct method, contractual cash flows are adjusted for expected losses. The adjusted cash flows are discounted at a rate which considers other costs and risks, such as market risk and liquidity. Under the indirect method, contractual cash flows are discounted at a rate which reflects the costs and risks associated with the likelihood of generating the contractual cash flows.

Market comparables — Market comparable(s) pricing valuation techniques are used to determine the estimated fair value of certain instruments by incorporating known inputs such as recent transaction prices, pending transactions, or prices of other similar investments which require significant adjustment to reflect differences in instrument characteristics.

Internal valuation model — The internal model for rate lock valuation uses the spread on borrower mortgage rate and the Fannie Mae pass through rate and applies a conversion factor to assess the derivative value.

Significant unobservable inputs presented in the previous tables are those the Company considers significant to the estimated fair value of the Level 3 asset or liability. The Company considers unobservable inputs to be significant if, by their exclusion, the estimated fair value of the Level 3 asset or liability would be significantly impacted based on qualitative factors such as nature of the instrument, type of valuation technique used, and the significance of the unobservable inputs on the values relative to other inputs used within the valuation. Following is a description of the significant unobservable inputs provided in the tables.

Default rate — is an estimate of the likelihood of not collecting contractual amounts owed expressed as a constant default rate.

Discount rate — is a rate of return used to present value the future expected cash flows to arrive at the estimated fair value of an instrument. The discount rate consists of a benchmark rate component and a risk premium component. The benchmark rate component, for example, LIBOR or U.S. Treasury rates, is generally observable within the market and is necessary to appropriately reflect the time value of money. The risk premium component reflects the amount of compensation market participants require due to the uncertainty inherent in the instruments' cash flows resulting from risks such as credit and liquidity.

Loss severity — is the percentage of contractual cash flows lost in the event of a default.

Prepayment rate — is the estimated rate at which forecasted prepayments of principal of the related loan or debt instrument are expected to occur, expressed as a constant prepayment rate ("CPR").

Payment Probability — is an estimate of the likelihood the consideration holdback amount will be required to be paid expressed as a percentage.

Borrower rate — Mortgage rate committed to the borrower by CIT Bank, effective for up to 90 days.

As reflected above, the Company generally uses discounted cash flow techniques to determine the estimated fair value of Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions,

some of which represent significant unobservable inputs and assumptions and as a result, changes in these unobservable inputs (in isolation) may have a significant impact to the estimated fair value. Increases in the probability of default and loss severities will result in lower estimated fair values, as these increases reduce expected cash flows. Increases in the discount rate will result in lower estimated fair values, as these increases reduce the present value of the expected cash flows.

Alternatively a change in one unobservable input may result in a change to another unobservable input due to the interrelationship among inputs, which may counteract or magnify the estimated fair value impact from period to period. The value of the Level 3 assets and liabilities estimated using a discounted cash flow technique would decrease (increase) upon an increase (decrease) in discount rate, default rate, loss severity or weighted average life inputs. Discount rates are influenced by market expectations for the underlying collateral performance, and therefore may directionally move with probability and severity of default; however, discount rates are also impacted by broader market forces, such as competing investment yields, sector liquidity, economic news, and other macroeconomic factors. There is no direct interrelationship between prepayments and discount rate. Prepayment rates generally move in the opposite direction of market interest rates. Increase in the probability of default will generally be accompanied with an increase in loss severity, as both are impacted by underlying collateral values.

⁽¹⁾ Valuation of Interest Rate Lock Commitments

⁽²⁾ Valuation of the derivatives related to the TRS Transactions and written options on certain CIT Bank CDs.

The Company monitors the availability of observable market data to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the observability of key inputs to a fair value measurement may result in a transfer of assets or liabilities between Level 1, 2 and 3. The Company's policy is to recognize transfers in and transfers out as of the end of the reporting period. For the quarters ended March 31, 2018 and 2017, there were no transfers into or out of Level 3.

Assets Measured at Estimated Fair Value on a Non-recurring Basis

Certain assets or liabilities are required to be measured at estimated fair value on a nonrecurring basis subsequent to initial recognition. Generally, these adjustments are the result of LOCOM or other impairment accounting. In determining the estimated fair values during the period, the Company determined that substantially all the changes in estimated fair value were due to declines in market conditions versus instrument specific credit risk. This was determined by examining the changes in market factors relative to instrument specific factors.

The following table presents assets measured at estimated fair value on a non-recurring basis for which a non-recurring change in fair value has been recorded in the current year:

Carrying Value of Assets Measured at Fair Value on a Non-recurring Basis (dollars in millions)

	Fair Value Measurements at Reporting Date Using:			
	Total	Level		Total
		1	2	
				(Losses)
March 31, 2018				
Assets held for sale	\$153.6	\$—	\$151.1	\$(0.4)
Other real estate owned	13.2	—	13.2	(0.5)
Impaired loans ⁽¹⁾	37.6	—	37.6	(35.3)
Total	\$204.4	\$—	\$201.9	\$(36.2)
December 31, 2017				
Assets held for sale	177.8	—	177.8	(15.0)
Other real estate owned	18.8	—	18.8	(4.4)
Impaired loans	89.1	—	89.1	(21.9)
Total	\$285.7	\$—	\$285.7	\$(41.3)

⁽¹⁾ In the current quarter there was a \$22 million charge-off of a single Commercial Finance exposure.

Assets of continuing operations that are measured at fair value on a non-recurring basis are as follows:

Assets Held for Sale — Assets held for sale are recorded at the lower of cost or fair value on the balance sheet. As there is no liquid secondary market for the assets held for sale in the Company's portfolio, the fair value is estimated based on a binding contract, current letter of intent or other third-party valuation, or using internally generated valuations or discounted cash flow technique, all of which are Level 3 inputs. Carrying value of assets held for sale with impairment approximates fair value at March 31, 2018 and December 31, 2017.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Other Real Estate Owned — Estimated fair values of other real estate owned are reviewed on a quarterly basis and any decline in value below cost is recorded as impairment. Estimated fair value approximates carrying value and is generally based on market data, if available or broker price opinions or independent appraisals, adjusted for costs to sell. The estimated costs to sell are incremental direct costs to transact a sale, such as broker commissions, legal fees, closing costs and title transfer fees. The costs must be essential to the sale and would not have been incurred if the decision to sell had not been made. The range of inputs used to estimate cost to sell were 5.3% – 25.1%; which resulted in a weighted average of 6.1% at March 31, 2018. Significant unobservable inputs, such as a binding contract, appraised value or sales price, result in the Level 3 classification.

Impaired Loans — Impairment occurs when, based on current information and events, it is probable that CIT will be unable to collect all amounts due according to contractual terms of the agreement. Impairment is measured as the shortfall between estimated value and recorded investment in the loan, with the estimated value determined using fair value of collateral and other cash flows if the loan is collateralized, the present value of expected future cash flows discounted at the contractual effective interest rate, or observable market prices. The significant unobservable inputs result in the Level 3 classification. As of the reporting date, the carrying value of impaired loans approximates fair value.

Other liabilities subject to fair value disclosure ⁽⁵⁾	(725.2)	—	—	(725.2)	(725.2)

(1) Level 3 estimated fair value at March 31, 2018, includes debt securities AFS (\$311.3 million), and non-marketable investments (\$302.3 million). Level 3 estimated fair value at December 31, 2017 included debt securities AFS (\$385.8 million), debt securities carried at fair value with changes recorded in net income (\$0.4 million), and non-marketable investments (\$301.2 million).

(2) The indemnification assets included in the above table do not include Agency claims indemnification (\$28.9 million at both March 31, 2018 and December 31, 2017, respectively), as they are not considered financial instruments.

(3) Other assets subject to fair value disclosure primarily include accrued interest receivable and miscellaneous receivables. These assets have carrying values that approximate fair value generally due to their short-term nature and are classified as Level 3. The unsecured counterparty receivables primarily consist of amounts owed to CIT from GSI for debt discount, return of collateral posted to GSI and settlements resulting from market value changes to asset-backed securities underlying the TRS.

(4) Deposits and borrowings include accrued interest, which is included in "Other liabilities" in the Balance Sheet.

(5) Other liabilities subject to fair value disclosure include accounts payable, accrued liabilities, customer security and maintenance deposits and miscellaneous liabilities. The fair value of these approximate carrying value and are classified as level 3.

The methods and assumptions used to estimate the fair value of each class of financial instruments are explained below:

Cash and interest bearing deposits — Cash and cash equivalents and restricted cash approximate estimated fair value and are classified as Level 1.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Derivatives — The estimated fair values of derivatives were calculated using observable market data and represent the gross amount receivable or payable to terminate, taking into account current market rates, which represent Level 2 inputs, except for the TRS derivative and written options on certain CIT Bank CDs and credit derivatives that utilized Level 3 inputs. See Note 7 — Derivative Financial Instruments for notional principal amounts and fair values.

Investment Securities — Debt and equity securities classified as AFS are carried at fair value, as determined either by Level 1, Level 2 or Level 3 inputs. Debt securities classified as AFS included investments in U.S. federal government agency securities, U.S. Treasury Notes and supranational securities and were valued using Level 2 inputs, primarily quoted prices for similar securities. Debt securities carried at fair value with changes recorded in net income include non-agency MBS where the market for such securities is not active; therefore the estimated fair value was determined using a discounted cash flow technique, which is a Level 3 input. U.S. Treasury Bills and certain equity securities classified as AFS were valued using Level 1 inputs, primarily quoted prices in active markets. Non-marketable equity investments utilize Level 3 inputs to estimate fair value and are generally recorded under the cost or equity method of accounting and are periodically assessed for OTTI, with the net asset values reduced when impairment is deemed to be other-than-temporary. For investments in limited partnership equity interests, the Company used the net asset value provided by the fund manager as an appropriate measure of fair value.

Assets held for sale — Of the assets held for sale above, \$3.6 million carrying amount at March 31, 2018 was valued using Level 2 inputs. As there is no liquid secondary market for the other assets held for sale in the Company's portfolio, the fair value is estimated based on a binding contract, current letter of intent or other third-party valuation, or using internally generated valuations or discounted cash flow technique, all of which are Level 3 inputs. Commercial loans are generally valued individually, while small ticket commercial loans are valued on an aggregate portfolio basis.

Loans — Within the Loans category, there are several types of loans as follows:

Commercial and Consumer Loans — Of the loan balance above, \$668.8 million and \$624.3 million at March 31, 2018 and December 31, 2017, respectively, were valued using Level 2 inputs. As there is no liquid secondary market for the other loans in the Company's portfolio, the fair value is estimated based on analyses which use Level 3 inputs at both March 31, 2018 and December 31, 2017. In addition to the characteristics of the underlying contracts, key inputs to the analysis include interest rates, prepayment rates, To Be Announced ("TBA") prices, and credit spreads. For the commercial loan portfolio, the market based credit spread inputs are derived from instruments with comparable credit risk characteristics obtained from independent third party vendors. As these Level 3 unobservable inputs are specific to individual loans/collateral types, management does not believe that sensitivity analysis of individual inputs is meaningful, but rather that sensitivity is more meaningfully assessed through the evaluation of aggregate carrying values of the loans. The fair value of loans at March 31, 2018 was \$27.2 billion, which was 101.3% of carrying value. The fair value of loans at December 31, 2017 was \$26.8 billion, which was 101.6% of carrying value.

Impaired Loans — The value of impaired loans is estimated using the fair value of collateral (on an orderly liquidation basis) if the loan is collateralized, the present value of expected cash flows utilizing the current market rate for such loan, or observable market price. As these Level 3 unobservable inputs are specific to individual loans/collateral types, management does not believe that sensitivity analysis of individual inputs is meaningful, but rather that sensitivity is more meaningfully assessed through the evaluation of aggregate carrying values of impaired loans relative to contractual amounts owed (unpaid principal balance or "UPB") from customers. As of March 31, 2018, the UPB related to impaired loans totaled \$237.9 million. Including related allowances, these loans are carried at \$158.9 million, or 66.8% of UPB. Of these amounts, \$149.7 million and \$101.5 million of UPB and carrying value, respectively, relate to loans with no specific allowance. As of December 31, 2017 the UPB related to impaired loans totaled \$195.5 million. Including

related allowances, these loans were carried at \$146.7 million, or 75.0% of UPB. Of these amounts, \$86.1 million and \$63.6 million of UPB and carrying value, respectively, relate to loans with no specific allowance. The difference between UPB and carrying value reflects cumulative charge-offs on accounts remaining in process of collection, FSA discounts and allowances. See Note 3 — Loans for more information.

PCI loans — These loans are valued by grouping the loans into performing and non-performing groups and stratifying the loans based on common risk characteristics such as product type, FICO score and other economic attributes. Due to a lack of observable market data, the estimated fair value of these loan portfolios was based on an internal model using unobservable inputs, including discount rates, prepayment rates, delinquency roll-rates, and loss severities. Due to the significance of the unobservable inputs, these instruments are classified as Level 3.

Indemnification Assets — The Company's indemnification assets relating to the SFR loans purchased in the OneWest Bank Transaction are measured on the same basis as the related indemnified item, and the underlying SFR loans. The estimated fair values reflect the present value of expected reimbursements under the indemnification agreements based on the loan performance discounted at an estimated market rate, and are classified as Level 3.

Deposits — The estimated fair value of deposits with no stated maturity, such as demand deposit accounts (including custodial deposits), money market accounts, and savings accounts is the amount payable on demand at the reporting date.

The estimated fair value of time deposits is determined using a discounted cash flow analysis. The discount rate for the time deposit accounts is derived from the rate currently offered on funding sources with similar maturities for similar terms, which are Level 3 inputs.

Borrowings

36 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Unsecured debt — Unsecured debt includes both senior debt and subordinated debt. Approximately \$5.2 billion par value at March 31, 2018 and \$3.8 billion at December 31, 2017 were valued using market inputs, which are Level 2 inputs.

Secured borrowings — Secured borrowings include both structured financings and FHLB Advances. Approximately \$4.4 billion par value at March 31, 2018 and \$4.3 billion par value at December 31, 2017, were valued using market inputs, which are Level 2 inputs. Where market estimates were not available for approximately \$1.0 billion par value at both March 31, 2018, and December 31, 2017, respectively, values were estimated using a discounted cash flow analysis with a discount rate approximating current market rates for issuances by CIT of similar debt, which are Level 3 inputs. Included in the above, the estimated fair value of FHLB advances, which is based on the discounted cash flow model. The cash flows are calculated using the contractual features of the advance and they are discounted using observable rates. As the inputs for the calculation are observable and the model does not require significant judgment, FHLB advances are classified as Level 2.

Credit balances of factoring clients — The impact of the time value of money from the unobservable discount rate for credit balances of factoring clients is inconsequential due to the short term nature of these balances (typically 90 days or less) as of March 31, 2018 and December 31, 2017. Accordingly, credit balances of factoring clients approximate estimated fair value and are classified as Level 3.

NOTE 9 — STOCKHOLDERS' EQUITY

A roll forward of common stock is presented in the following table.

Number of Shares of Common Stock

	Issued	Less Treasury	Outstanding
Common Stock – December 31, 2017	207,628,491	(76,275,567)	131,352,924
Restricted stock issued	1,188,303	—	1,188,303
Repurchase of common stock	—	(3,665,866)	(3,665,866)
Shares held to cover taxes on vesting restricted shares and other	—	(470,681)	(470,681)
Employee stock purchase plan participation	13,603	—	13,603
Common Stock – March 31, 2018	208,830,397	(80,412,114)	128,418,283

During the quarter, CIT repurchased a total of \$194.9 million in common shares via open market repurchases of 3,665,866 common shares at an average share price of \$53.16.

Accumulated Other Comprehensive Income (Loss) ("AOCI")

The following table details the components of AOCI, net of tax:

Components of Accumulated Other Comprehensive Loss (dollars in millions)

⁽¹⁾ See Note 1 - Business and Summary of Significant Accounting Policies for information on these ASUs.

Other Comprehensive Loss

The amounts included in the Statement of Comprehensive Income are net of income taxes.

There were no foreign currency translation reclassification adjustments impacting net income for the quarter ended March 31, 2018 and \$9.5 million for the quarter ended March 31, 2017. The change in income taxes associated with foreign currency translation adjustments was \$(0.1) million and \$4.4 million for the quarters ended March 31, 2018 and 2017, respectively.

The changes in benefit plans net gain/(loss) and prior service (cost)/credit reclassification adjustments impacting net income were \$0.1 million and insignificant for the quarters ended March 31, 2018 and 2017, respectively. The change in income taxes associated with changes in benefit plans net gain/(loss) and prior service (cost)/credit was \$(0.8) million and \$(0.6) million for the quarters ended March 31, 2018 and 2017, respectively.

Reclassification adjustments impacting net income for unrealized gains/(losses) on available for sale securities was \$(3.8) million and insignificant for the quarters ended March 31, 2018 and 2017, respectively. The change in income taxes associated with net unrealized gains/(losses) on available for sale securities was \$17.4 million and \$(1.6) million for quarters ended March 31, 2018 and 2017, respectively.

Edgar Filing: CIT GROUP INC - Form 10-Q

The Company has operations primarily in North America. The functional currency for foreign operations is generally the local currency. The value of assets and liabilities of these operations is translated into U.S. dollars at the rate of exchange in effect at the balance sheet date. Revenue and expense items are translated at the average exchange rates during the year. The resulting foreign currency translation gains and losses, as well as offsetting gains and losses on hedges of net investments in foreign operations, are reflected in AOCI. Transaction gains and losses resulting from exchange rate changes on transactions denominated in currencies other than the functional currency are recorded in Other Income.

Reclassifications Out of AOCI (dollars in millions)

NOTE 10 — REGULATORY CAPITAL

The Company and the Bank are each subject to various regulatory capital requirements administered by the FRB and the OCC. Quantitative measures established by regulation to ensure capital adequacy require that the Company and the Bank each maintain minimum amounts and ratios of Total, Tier 1 and Common Equity Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. We compute capital ratios in accordance with Federal Reserve capital guidelines and OCC capital guidelines for assessing adequacy of capital for the Company and CIT Bank, respectively.

38 Item 1. Consolidated Financial Statements

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The following table summarizes the actual and minimum required capital ratios:

Capital Components and Ratios (dollars in millions)

	CIT		CIT Bank, N.A.		
	March 31, 2018	December 31, 2017	March 31, 2018	December 31, 2017	
Common Equity Tier 1 Capital	\$6,321.5	\$6,479.8	\$4,730.9	\$4,751.6

⁽¹⁾ Required ratios under Basel III Final Rule in effect as of the reporting date including the partially phased-in capital conservation buffer.

NOTE 11 — INCOME TAXES

The Company's global effective income tax rate from continuing operations for the first quarter and year-ago quarter was 28.5% and 41.8%, respectively, including discrete tax items. The decline in the effective tax rate is primarily driven by lower statutory income tax rates from U.S. tax reform, partially offset by the impact of the change in accounting method for the low income housing tax credit ("LIHTC") investment, disallowance of FDIC insurance premiums, and state income taxes.

The quarterly income tax expense is based on a projection of the Company's annual effective tax rate. This annual effective tax rate is applied to the year-to-date consolidated pre-tax income to determine the interim provision for income taxes before discrete items. The effective tax rate each period is impacted by a number of factors, including the relative mix of domestic and international earnings, adjustments to the valuation allowances, and discrete items. The currently forecasted effective tax rate may vary from the actual year-end 2018 effective tax rate due to the changes in these factors.

Tax Cuts and Jobs Act

The Tax Cuts and Jobs Act (or "U.S. Tax Reform legislation") was enacted on December 22, 2017. The Tax Cuts and Jobs Act required management to make certain adjustments to the Company's year-end financial statements for the

effects of the law relating to the remeasurement of deferred taxes, liabilities for taxes due on mandatory deemed repatriation, liabilities for taxes due on other foreign income, and the reassessment of the Company's valuation allowance. The SEC staff has afforded registrants a measurement period to record adjustments for the affects of the law, per Staff Accounting Bulletin No. 118 Income Tax Accounting Implications of the Tax Cuts and Jobs Act, similar to the measurement period used when accounting for business combinations. As of March 31, 2018, the Company has reviewed information relating to these tax law changes, and concluded that the procedures and methods utilized in developing assumptions, estimates and judgments for final and provisional amounts recorded in the financial statements are appropriate. The Company anticipates refinements to the amounts resulting from the issuance of future legislative and accounting guidance as well as those in the normal course of business, including true-ups resulting from the tax return to be filed later in 2018. However, Management does not anticipate any adjustments to the provisional amounts arising from further analysis of these tax law changes would be material.

Valuation Allowances

The Company established valuation allowances ("VAs") against certain U.S. federal, U.S. state, and international deferred tax assets ("DTAs") that are not expected to be realized in the future. The Company maintained a VA of \$208.6 million against U.S. state DTAs on certain state net operating losses and \$32.4 million VA against certain non-U.S. reporting entities' net DTAs as of March 31, 2018. Additionally, as of March 31, 2018, the Company maintained a \$21.7 million U.S. federal and state VA on the DTA established on capital loss carryforwards generated in the prior year from an equity investment in a wholly-owned foreign subsidiary. Capital losses can be carried forward for five years to offset capital gains but requires a VA until additional capital gains are identified. The Company's ability to recognize DTAs is evaluated on a quarterly basis to determine if there are any significant events that would affect its ability to utilize existing DTAs. If events are identified that affect its ability to utilize its DTAs, VAs may be adjusted accordingly.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Liabilities for Uncertain Tax Positions

The Company's liability for uncertain tax positions ("UTPs") before interest and penalties was \$13.2 million at March 31, 2018 and \$13.5 million at December 31, 2017. The Company anticipates changes to its UTP liability upon the resolution of open tax matters and closure of statutes of limitations. Management estimates that the total potential liability before interest and penalties may be reduced by up to \$5 million within the next twelve months. The Company's accrued liability for interest and penalties totaled \$6.5 million at March 31, 2018 and \$6.3 million at December 31, 2017. The Company recognizes accrued interest and penalties on unrecognized tax benefits in income tax expense.

NOTE 12 — COMMITMENTS

The accompanying table summarizes credit-related commitments and guarantees, as well as purchase and funding commitments:

Commitments (dollars in millions)

	March 31, 2018			December 31,
	Due to Expire		Total	2017
	Within One Year	After One Year		Total Outstanding
Financing Commitments				
Financing assets ⁽¹⁾ ⁽²⁾	\$2,018.1	\$4,689.7	\$ 6,707.8	\$ 6,351.1
Letters of credit				
Standby letters of credit	31.8	212.8	244.6	213.3
Other letters of credit	14.3	—	14.3	14.2
Guarantees				
Deferred purchase agreements	1,870.6	—	1,870.6	2,068.1
Guarantees, acceptances and other recourse obligations	2.1	—	2.1	2.1
Purchase and Funding Commitments				
Rail and other purchase commitments ⁽¹⁾	252.9	27.5	280.4	222.9

⁽¹⁾ In preparing the quarter-end financial statements as of March 31, 2018, the Company discovered and corrected an immaterial error impacting December 31, 2017 "Financing assets" and "Rail and other purchase commitments", which were understated by \$113.4 million (\$86.6 million for financing assets and \$26.8 million for purchase commitments). The current presentation has been revised to reflect the corrected balances at December 31, 2017.

⁽²⁾ The amount includes approximately \$2.2 billion and \$2.3 billion of undrawn financing commitments at March 31, 2018 and December 31, 2017, respectively, for instances where the customer is not in compliance with contractual obligations or does not have adequate collateral to borrow against the unused facility, and therefore CIT does not have the contractual obligation to lend. In preparing the quarter-end financial statements as of March 31, 2018, the Company discovered and corrected an immaterial error relating to the December 31, 2017 balance of certain undrawn financing commitments where the customer was not in compliance with contractual obligations which was understated by \$0.7 billion. The current presentation has been revised to reflect the corrected balance at December 31, 2017.

Discontinued Operations

Financing commitments include HECM reverse mortgage loan commitments associated with Financial Freedom discontinued operations of \$33 million at March 31, 2018 and \$34 million at December 31, 2017. In addition, as servicer of HECM loans, the Company is required to repurchase the loan out of the GNMA HMBS securitization pools once the outstanding principal balance is equal to or greater than 98% of the maximum claim amount or when the property forecloses to OREO. In October 2017, the Company announced the sale of the Financial Freedom business and a reverse mortgage loan portfolio in connection with the Financial Freedom Transaction. Upon investor (GNMA) consent to servicing transfer in connection with the sale, CIT shall no longer have this obligation. See Note 2 - Discontinued Operations.

Financing Commitments

Commercial

Financing commitments, referred to as loan commitments or lines of credit, primarily reflect CIT's agreements to lend to its customers, subject to the customers' compliance with contractual obligations. Included in the table above are commitments that have been extended to and accepted by customers, clients or agents, but on which the criteria for funding have not been completed of \$1,464.9 million at March 31, 2018 and \$950.3 million at December 31, 2017. Financing commitments also include credit line agreements to Business Capital clients that are cancellable by us only after a notice period. The notice period is typically 90 days or less. The amount available under these credit lines, net of the amount of receivables assigned to us, was \$105 million at March 31, 2018 and \$190 million at December 31, 2017. As financing commitments may not be fully drawn, may expire unused, may be reduced or canceled at the customer's request, and may require the customer to be in compliance with certain conditions, total commitment amounts do not necessarily reflect actual future cash flow requirements.

At March 31, 2018, substantially all undrawn financing commitments were senior facilities. Most of the Company's undrawn and available financing commitments are in the Commercial Banking segment.

The table above excludes uncommitted revolving credit facilities extended by Business Capital to its clients for working capital purposes. In connection with these facilities, Business Capital has the sole discretion throughout the duration of these facilities to determine the amount of credit that may be made available to its clients at any time and whether to honor any specific advance requests made by its clients under these credit facilities.

Consumer

The Company is committed to fund draws on certain reverse mortgages in conjunction with loss sharing agreements with the FDIC. The FDIC agreed to indemnify the Company for losses on the first \$200 million of draws that occur subsequent to the purchase date. In addition, the FDIC agreed to fund any other draws in excess of the \$200 million. As of March 31, 2018 and December 31, 2017, \$132 million and \$134 million, respectively, had been advanced on the reverse mortgage loans post March 2009. The Company's exposure for additional draws on loan commitments on these purchased reverse mortgage loans was \$68 million at March 31, 2018 and \$66 million at December 31, 2017. The aggregate amount advanced and the remaining loan commitments on these purchased loans increase or decrease as the Company funds additional draws or outstanding draws are repaid. See Note 5 — Indemnification Assets of the Company's Annual Report on Form 10-K for the year ended December 31, 2017 for further discussion on the loss sharing agreements with the FDIC.

Also included was the Company's commitment to fund draws on certain home equity lines of credit ("HELOCs"). Under the HELOC participation and servicing agreement entered into with the FDIC, the FDIC agreed to reimburse the Company for a portion of the draws that the Company made on the purchased HELOCs.

Letters of Credit

In the normal course of meeting the needs of clients, CIT sometimes enters into agreements to provide financing and letters of credit. Standby letters of credit obligate the issuer of the letter of credit to pay the beneficiary if a client on whose behalf the letter of credit was issued does not meet its obligation. These financial instruments generate fees and involve, to varying degrees, elements of credit risk in excess of amounts recognized in the Consolidated Balance Sheets. To minimize potential credit risk, CIT generally requires collateral and in some cases additional forms of credit support from the client.

Deferred Purchase Agreements

A Deferred Purchase Agreement (“DPA”) is provided in conjunction with factoring, whereby CIT provides a client with credit protection for trade receivables without purchasing the receivables. The trade receivable terms are generally 90 days or less. If the client’s customer is unable to pay an undisputed receivable solely as the result of credit risk, then CIT purchases the receivable from the client. The outstanding amount in the table above is the maximum potential exposure that CIT would be required to pay under all DPAs. This maximum amount would only occur if all receivables subject to DPAs default in the manner described above, thereby requiring CIT to purchase all such receivables from the DPA clients.

The table above includes \$1,774 million and \$1,979 million of DPA credit protection at March 31, 2018 and December 31, 2017, respectively, related to receivables which have been presented to us for credit protection after shipment of goods has occurred and the customer has been invoiced. The table also includes \$96 million and \$89 million available under DPA credit line agreements, net of the amount of DPA credit protection provided at March 31, 2018 and December 31, 2017, respectively. The DPA credit line agreements specify a contractually committed amount of DPA credit protection and are cancellable by us only after a notice period. The notice period is typically 90 days or less.

The methodology used to determine the DPA liability is similar to the methodology used to determine the allowance for loan losses associated with the finance loans, which reflects embedded losses based on various factors, including expected losses reflecting the Company’s internal customer and facility credit ratings. The liability recorded in Other Liabilities related to the DPAs totaled \$5.4 million and \$5.3 million at March 31, 2018 and December 31, 2017, respectively.

Purchase and Funding Commitments

CIT’s purchase commitments relate primarily to purchases of rail equipment.

The Company’s rail business entered into commitments to purchase railcars from multiple manufacturers. At March 31, 2018, approximately 2,120 railcars remain to be purchased from manufacturers with deliveries through 2019. Rail equipment purchase commitments are at fixed prices subject to price increases for certain materials.

Other purchase commitments primarily relate to Equipment Finance.

Other Commitments

The Company has commitments to invest in affordable housing investments, and other investments qualifying for community reinvestment tax credits. These commitments were \$80 million at March 31, 2018 and \$67 million at December 31, 2017. These commitments are payable on demand and are recorded in Other liabilities.

NOTE 13 — CONTINGENCIES

Litigation and other Contingencies

CIT is involved, and from time to time in the future may be involved, in a number of pending and threatened judicial, regulatory, and arbitration proceedings relating to matters that arise in connection with the conduct of its business

(collectively, “Litigation”). In view of the inherent difficulty of predicting the outcome of Litigation matters, particularly when such matters are in their early stages or where the claimants seek indeterminate damages, CIT cannot state with confidence what the eventual outcome of the pending Litigation will be, what the timing of the ultimate resolution of these matters will be, or what the eventual loss, fines, or penalties related to each pending matter will be, if any. In accordance with applicable accounting guidance, CIT establishes reserves for Litigation when those matters present loss contingencies as to which it is both probable that a loss will occur and the amount of such loss can be reasonably estimated. Based on currently available information, CIT believes that the results of Litigation that is currently pending, taken together, will not have a material adverse effect on the Company’s financial condition, but may be material to the Company’s operating results or cash flows for any particular period, depending in part on its operating results for that period. The actual results of resolving such matters may be substantially higher than the amounts reserved.

For certain Litigation matters in which the Company is involved, the Company is able to estimate a range of reasonably possible losses in excess of established reserves and insurance. For other matters for which a loss is probable or reasonably possible, such an estimate cannot be determined. For Litigation and other matters where losses are reasonably possible, management currently estimates the aggregate range of reasonably possible losses as up to \$55 million in excess of established reserves and insurance related to those matters, if any. This estimate represents reasonably possible losses (in excess of established reserves and insurance) over the life of such Litigation, which may span a currently indeterminable number of years, and is based on information currently available as of March 31, 2018. The matters underlying the estimated range will change from time to time, and actual results may vary significantly from this estimate.

Those Litigation matters for which an estimate is not reasonably possible or as to which a loss does not appear to be reasonably possible, based on current information, are not included within this estimated range and, therefore, this estimated range does not represent the Company’s maximum loss exposure.

The foregoing statements about CIT’s Litigation are based on the Company’s judgments, assumptions, and estimates and are necessarily subjective and uncertain. The Company has several hundred threatened and pending judicial, regulatory and arbitration proceedings at various stages. Several of the Company’s significant Litigation matters are described below.

Brazilian Tax Matter

Banco Commercial Investment Trust do Brasil S.A. (“Banco CIT”), CIT’s Brazilian bank subsidiary, was sold in a stock sale in the fourth quarter of 2015, thereby transferring the legal liabilities of Banco CIT to the buyer. Under the terms of the stock sale, CIT remains liable for indemnification to the buyer for any losses resulting from certain Imposto Sobre Circulacao de Mercadorias e Servicos (“ICMS”) tax appeals relating to disputed local tax assessments on leasing services and importation of equipment (the “ICMS Tax Appeals”).

Notices of infraction were issued to Banco CIT relating to the payment of ICMS taxes charged by Brazilian states in connection with the importation of equipment. The state of São Paulo claims that Banco CIT should have paid it ICMS taxes for tax years 2006 - 2009 because Banco CIT, the purchaser, was located in São Paulo. Instead, the ICMS taxes were paid to the state of Espirito Santo where the imported equipment arrived. A regulation issued by São Paulo in December 2013 reaffirms a 2009 agreement by São Paulo to conditionally recognize ICMS tax payments made to Espirito Santo. An assessment related to taxes paid to Espirito Santo was upheld in a ruling issued by the administrative court in May 2014. That ruling has been appealed. Another assessment related to taxes paid to Espirito Santo remains pending. Petitions seeking São Paulo’s recognition of the taxes paid to Espirito Santo were also filed in a general amnesty program. In the first quarter of 2018, CIT was advised that the larger of the two amnesty petitions had been granted and dismissal of that matter would be considered by the court in the second quarter. The second amnesty petition remains pending.

Hawaiian Foreclosure Litigation Claims

Based on recent rulings of the Hawaii Supreme Court, lawsuits have been filed against CIT in Hawaii alleging technical violations in non-judicial foreclosures. Similar cases have been filed against other mortgage lenders in Hawaii. The Hawaii Supreme Court did not establish a clear methodology for calculating alleged damages if a violation is proven and there is substantial dispute in this regard. In many instances the borrower had no equity in the home at the time of foreclosure. Damages sought in these cases include any lost equity, compensation for loss of use of the house and, in some cases, treble or punitive damages under Hawaii's unfair practices law. At this time, the Company does not have sufficient information to make an assessment of the outcome or the impact of these cases.

HUD OIG Investigation

In 2009, OneWest Bank acquired the reverse mortgage loan portfolio and related servicing rights of Financial Freedom Senior Funding Corporation, including HECM loans, from the FDIC as Receiver for IndyMac Federal Bank. HECM loans are insured by the FHA, and administered by HUD. In addition, Financial Freedom is the servicer of HECM loans owned by third party investors. Beginning in the third quarter of 2015, the Office of the Inspector General for HUD (the "HUD OIG"), served a series of subpoenas on the Company regarding HECM loans. The subpoenas requested documents and other information related to Financial Freedom's HECM loan origination and servicing business, including the curtailment of interest payments on HECM insurance claims. On May 16, 2017 CIT entered into a settlement of approximately \$89 million to resolve the servicing related claims. The settlement was within CIT's existing reserves and included interest to be reimbursed to HUD. CIT has provided information and documents responsive to the subpoena's request for information relating to the mortgage originations and does not currently expect the outcome of the remaining loan origination matter to have a material adverse effect on CIT's financial condition or results of operations.

NY Attorney General

In the second quarter of 2017, the Office of the Attorney General of the State of New York ("NYAG"), served a subpoena on the Company regarding HECM loans. The subpoena requested documents and other information related to Financial Freedom's HECM loan business in the State of New York. The NYAG subsequently withdrew the subpoena and has requested the Company's continued voluntary cooperation with the inquiry. The Company is continuing to cooperate with the NYAG's office and has produced certain documents. The Company does not have sufficient information to make an assessment of the outcome or the impact of the NYAG's ongoing inquiry.

NOTE 15 — SUBSEQUENT EVENTS

Debt Redemption

In April 2018, CIT repaid \$500 million of the \$1.0 billion outstanding 3.875% senior unsecured notes due February 2019 and all of the outstanding \$383 million of 5.500% senior unsecured notes due February 2019. The debt was repaid at a premium of \$16 million.

Cash Tender Offer for CIT Common Stock

On April 26, 2018, CIT commenced a modified "Dutch auction" cash tender offer to purchase up to \$500 million of its common stock, par value \$0.01 per share. The offer will expire on May 23, 2018, unless extended or earlier terminated by CIT. Under the terms of the tender offer, CIT stockholders have the opportunity to tender some or all of their shares at a price within a range of \$50.00 to \$56.00 per share. The tender offer will be subject to certain conditions described in the offer to purchase. This return of capital to stockholders is being made pursuant to CIT's 2017 Amended Capital Plan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 3. Quantitative and Qualitative Disclosures about Market Risk

BACKGROUND

CIT Group Inc., together with its subsidiaries (collectively "we", "our", "CIT" or the "Company"), is a bank holding company ("BHC") and a financial holding company ("FHC"). Formed in 1908, CIT provides financing, leasing and advisory services principally to middle-market companies in a wide variety of industries primarily in North America. We also provide a full range of banking and related services to commercial and individual customers through our banking subsidiary, CIT Bank, N.A. ("CIT Bank"), which includes 70 branches located in Southern California, and its online bank, bankoncit.com.

CIT is regulated by the Board of Governors of the Federal Reserve System ("FRB") and the Federal Reserve Bank of New York ("FRBNY") under the U.S. Bank Holding Company Act of 1956, as amended. CIT Bank is regulated by the Office of the Comptroller of the Currency of the U.S. Department of the Treasury ("OCC").

Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures about Market Risk ("MD&A") contain financial terms that are relevant to our business, and a Glossary of key terms is included at the end of Item 1. Business Overview in our Annual Report on Form 10-K for the year ended December 31, 2017.

Management uses certain non-GAAP financial measures in its analysis of the financial condition and results of operations of the Company. See "Non-GAAP Financial Measurements" for a reconciliation of these financial measures to comparable financial measures based on U.S. GAAP.

Throughout this MD&A we reference "Notes" to our financial statements. These Notes are included in Item 1. Consolidated Financial Statements.

SUMMARY OF 2018 FINANCIAL RESULTS

The following table summarizes the Company's results in accordance with GAAP as included in the Consolidated Statements of Income, for the quarters ended March 31, 2018 and 2017, and for the quarter ended December 31, 2017. In addition, we provide results that are not in accordance with GAAP, and are reconciled to GAAP in the "Non-GAAP Financial Measurements" section at the end of this MD&A. Further detail on the 2017 noteworthy items is presented in tabular format further in this section, and prior year noteworthy items are reconciled in the "Non-GAAP Financial Measurements" section.

Results of Operations (dollars in millions)

GAAP Results	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Income (loss) from continuing operations available to common shareholders	\$103.7	\$ (92.6)) \$ 78.2
Income (loss) from discontinued operations, net of taxes	(6.7)) (5.2)) 101.7
Net income (loss) available to common shareholders	\$97.0	\$ (97.8)) \$ 179.9
Diluted income per common share			
Income (loss) from continuing operations available to common shareholders	\$0.79	\$ (0.70)) \$ 0.38
Income (loss) from discontinued operations, net of taxes	(0.05)) (0.04)) 0.50
Diluted income (loss) per common share available to common shareholders	\$0.74	\$ (0.74)) \$ 0.88
Average number of common shares — diluted (thousands)	131,588	131,343	203,348

Non-GAAP Results, excluding noteworthy items			
Income from continuing operations available to common shareholders	\$96.9	\$ 130.3	\$ 109.4
(Loss) income from discontinued operations, net of taxes	(6.7)	(5.2)	53.7
Net income available to common shareholders	\$90.2	\$ 125.1	\$ 163.1
Diluted income per common share			
Income from continuing operations available to common shareholders	\$0.74	\$ 0.99	\$ 0.54
(Loss) income from discontinued operations, net of taxes	(0.05)	(0.04)	0.26
Diluted income per common share available to common shareholders	\$0.69	\$ 0.95	\$ 0.80
Average number of common shares — diluted (thousands)	131,588	131,343	203,348

Income from continuing operations available to common shareholders for the first quarter was up from the year-ago and prior quarters. Compared to the year-ago and prior quarters, income from continuing operations available to common shareholders excluding noteworthy items¹ was down, as a decline in net finance revenue and an increase in the provision for credit losses were partially offset by lower operating expenses. The decline was partially offset by higher other non-interest income compared to the year-ago quarter. The increase in income from continuing operations excluding noteworthy items per diluted common share compared to the year-ago quarter reflects the decline in the average number of diluted common shares outstanding due to significant share repurchases over the past four quarters that more than offset the decline in income.

¹. Income from continuing operations excluding noteworthy items and other non-interest income excluding noteworthy items are non-GAAP measures; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information.

42 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Net income available to common shareholders of \$97 million was down from the year-ago quarter and up from the prior quarter, while net income available to common shareholders excluding noteworthy items² of \$90 million, or \$0.69 per diluted common share, was down from both quarter comparative results. While the trends reflected the results from continuing operations, the decline from the year-ago quarter was also affected by the Commercial Air results in discontinued operations in that quarter, prior to the sale of Commercial Air on April 4, 2017.

The following table reflects the reconciliation of income from continuing operations and net income excluding noteworthy items² for the quarter ended March 31, 2018, to our results in accordance with GAAP.

Noteworthy Adjustments to 2018 Results (dollars in millions, except per share amounts)

	Income from		Net Income	
	Continuing		Available to	
	Operations		Common	
	Available to		Shareholders	
	Common			
	Shareholders			
GAAP Results	\$103.7	\$0.79	\$97.0	\$0.74
Suspended depreciation benefits related to the European Rail business (NACCO) held for sale	(6.8)	(0.05)	(6.8)	(0.05)
Non-GAAP Results	\$96.9	\$0.74	\$90.2	\$0.69

DISCONTINUED OPERATIONS

At March 31, 2018, discontinued operations comprised Business Air and Financial Freedom, our reverse mortgage servicing business as further described in Note 2 - Discontinued Operations.

On October 6, 2017, CIT Bank entered into a definitive agreement to sell the Financial Freedom business, which includes all the operations, mortgage servicing rights and related servicing assets and liabilities, reverse mortgage loans and related secured borrowings, along with a reverse mortgage loan portfolio and certain other real estate owned assets that are reported in continuing operations and serviced by Financial Freedom (the "Financial Freedom Transaction"). The reverse mortgage loan portfolio and other real estate owned assets that are included in the Financial Freedom Transaction totaled \$861 million and \$17 million at March 31, 2018, respectively.

We continue to target the second quarter of 2018 to close the sale of Financial Freedom, which is subject to certain regulatory approvals and the consent of investors related to the mortgage servicing business, along with other customary closing conditions. We previously projected a pre-tax net gain in continuing operations of \$25 million to \$35 million, before any incremental indemnification liabilities, associated with the reverse mortgage portfolio sold with the Financial Freedom business. Based on the current timing in obtaining the required regulatory and investor approvals, the Financial Freedom Transaction is targeted to close at the end of the second quarter instead of the previously anticipated April close. Given we now are targeting a close later in the second quarter, the projected gain may be reduced by the income recognized from the continued run off of the portfolio until the sale date.

As discussed in the next section, Net Finance Revenue, the sale of the reverse mortgage whole loans will lower our revenue and margin until the sale proceeds are redeployed. However, the sale of Financial Freedom and this mortgage portfolio is a significant step in simplifying CIT and reducing future risks.

The loss in the current quarter from discontinued operations was \$7 million, compared to \$5 million in the prior quarter. The year-ago quarter income, excluding noteworthy items, was \$54 million, reflecting income from Commercial Air. Noteworthy items in the year-ago quarter, which netted to income of \$48 million, related to the then pending Commercial Air sale, including suspended depreciation, a loss on debt repayment and the sale of the TC-CIT joint venture.

Business Air loans and leases totaled \$164 million at March 31, 2018, down from \$184 million at December 31, 2017 and \$340 million at March 31, 2017. Financial Freedom loans totaled \$254 million at March 31, 2018, compared to \$273 million at December 31, 2017 and \$353 million at March 31, 2017.

Further details of discontinued operations, along with condensed balance sheets and income statements are included in Note 2 — Discontinued Operations. See also Note 13 — Contingencies for discussion related to the Financial Freedom servicing business.

Unless specifically noted, the discussions and data presented throughout the following sections reflect CIT balances on a continuing operations basis.

² Net income excluding noteworthy items is a non-GAAP measure; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information.

Table of Contents

NET FINANCE REVENUE

Net Finance Revenue ("NFR")³ and Net Finance Margin ("NFM")³ are key metrics used by management to measure the profitability of our earning assets. NFR includes interest and yield-related fee income on our loans, rental income on our operating lease equipment, and interest and dividend income on interest-bearing cash and investments, less funding costs and depreciation, maintenance and other operating lease expenses from our operating lease equipment.

The consolidated financial statements include the effects of Purchase Accounting Adjustments ("PAA"), primarily related to the OneWest Transaction. Accretion and amortization of certain PAA primarily impact interest income and interest expense, and are summarized in a table later in this section.

The following table presents the average balance sheet and related rates, along with the NFR and NFM. Average Balances and Rates⁽¹⁾ (dollars in millions)

	Quarters Ended			December 31, 2017			March 31, 2017

44 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

The following table presents disaggregated quarter-over-quarter changes in net interest revenue and operating lease margins as presented in the preceding table between volume (level of lending or borrowing) and rate (rates charged customers or incurred on borrowings). Volume change is calculated as change in volume times the previous rate, while rate change is change in rate times the previous volume. The rate/volume change, change in rate times change in volume, is allocated between volume change and rate change at the ratio each component bears to the absolute value of their total.

Average Balances and Rates⁽¹⁾ (dollars in millions) (continued)

	March 2018 Over December 2017 Comparison Increase (Decrease) Due To Change In:			March 2018 Over March 2017 Comparison Increase (Decrease) Due To Change In:		
	Volume	Rate	Net	Volume	Rate	Net
Interest-bearing cash	\$(0.6)	\$(1.3)	\$(1.9)	\$(10.0)	\$4.5	\$(5.5)
Investments	1.8	3.9	5.7	12.9	(0.7)	12.2
Loans (including held for sale and net of credit balances of factoring clients) ⁽²⁾	7.7	(9.7)	(2.0)	0.7	(5.5)	(4.8)
Operating lease equipment, net (including held for sale) ⁽³⁾	1.4	(2.0)	(0.6)	6.9	(11.1)	(4.2)
Indemnification assets	2.9	(1.2)	1.7	7.1	(13.5)	(6.4)
Total earning assets	\$13.2	\$(10.3)	\$2.9	\$17.6	\$(26.3)	\$(8.7)
Interest-bearing deposits	\$1.5	\$3.5	\$5.0	\$(7.5)	\$10.6	\$3.1
Borrowings ⁽⁴⁾	3.7	3.1	6.8	(34.4)	48.7	14.3
Total interest-bearing liabilities	\$5.2	\$6.6	\$11.8	\$(41.9)	\$59.3	\$17.4

^{(1)...}⁽⁴⁾ See footnotes to prior table.

NFR was \$391 million compared to \$399 million in the prior quarter. NFR in the current and prior quarters included a \$9 million benefit from the suspension of depreciation expense related to NACCO because its assets are included in assets held for sale. Excluding noteworthy items, NFR was \$381 million, compared to \$391 million in the prior quarter, as lower PAA and higher deposit and borrowing costs were partially offset by higher interest income on loans and investments. Higher borrowing costs were driven by the unsecured debt issuance and higher deposit rates paid, as discussed further below. NFR in the current quarter included \$2 million related to the timing mismatch between the unsecured debt issuance in March 2018 and the portion of the proceeds used to redeem debt in April 2018. Revenues generated on our interest-bearing cash and investments are indicative of the interest rate environment. The average balance and revenues have increased in investments, reflecting our strategy to grow that portfolio. The returns may fluctuate depending on the composition of the investments, interest rates and credit spreads. Interest expense was up in the current quarter, reflecting higher balances.

NFM⁴ excluding noteworthy items was 3.37%, a 14 bps decrease from 3.51% in the prior quarter. The decrease in net finance margin reflects the aforementioned drivers of the decline in NFR and asset mix.

Compared to the year-ago quarter, NFR excluding noteworthy items decreased \$35 million or 8%, and NFM decreased 20 bps. The decrease in NFR primarily reflected lower purchase accounting accretion, lower gross yields in Rail and higher deposit and borrowing costs, partially offset by higher earnings on investment securities and on loans in the Commercial Banking segment. The decrease in NFM reflected the aforementioned drivers of the decrease in NFR, partially offset by asset mix.

Given the anticipated impact of the pending sale of the reverse mortgage portfolio, continued run-off of the remaining PAA, and lower rail lease renewal rates, we expect net finance margin to remain under pressure, although it is anticipated that these factors will be partially offset by an increase in income on investment securities and benefits from asset sensitivity in a rising rate environment.

AEA increased 2% from the prior quarter, reflecting an increase in average loans in the Commercial Finance division of Commercial Banking, along with an increase in our consumer lending businesses in Other Consumer Banking. These were partially offset by run-off of LCM in Consumer Banking. The decline from the year-ago quarter reflected the lower cash balance in Corporate.

The composition of our average funding mix was unchanged from the prior quarter as follows:

Average Funding Mix

	Quarters Ended			
	March 2018	December 2017	March 2017	December 2016
Deposits	77%	77%	69%	69%
Unsecured	10%	10%	22%	22%
Secured Borrowings:				
Structured financings	4%	4%	4%	4%
FHLB Advances	9%	9%	5%	5%

These proportions will fluctuate in the future depending upon our funding activities. The change from the year-ago quarter reflects the reduction of the unsecured debt, including redemptions totaling \$6.9 billion during 2017.

⁴ Net finance revenue, net finance margin, net operating lease revenue and average earnings assets, and respective amounts excluding noteworthy items are non-GAAP measures. See “Non-GAAP Measurements” for reconciliation of non-GAAP to GAAP financial information.

Table of Contents

The following table details further the rates of interest bearing liabilities.

Total interest-bearing liabilities	\$ 37,640.6	\$ 180.5	1.92 %	\$ 36,764.8	\$ 168.7	1.84 %	\$ 45,768.0	\$ 163.1	1.43 %

(1) The March 31, 2018 quarter includes amounts applicable to \$1.0 billion of senior unsecured debt and \$400 million of unsecured subordinated debt issued during the quarter.

(2) Balance includes interest expense related to facility fees and amortization of deferred costs on unused portions of credit facilities, including the Revolving Credit Facility and total return swaps. Amount for the quarter ended March 31, 2017, was reduced by capitalized interest on aircraft pre-delivery deposits and included in the amount allocated to discontinued operations.

We remain focused on improving the mix of deposits. The change in mix of our deposits reflects our strategy to increase the percentage of non-maturity deposits relative to total deposits. As a result of our strategy, the table above reflects increased savings deposits compared to both the year-ago and prior quarters. Compared to the year-ago quarter, we decreased money market and time deposit accounts in the higher cost commercial channel. In addition, we significantly lessened sweep accounts, and time deposits in the brokered channel. The deposit cost increases from the year-ago and prior quarters also reflected the impact from the Federal Reserve increases in the short-term interest rate. The Federal Reserve raised rates by 0.25% in March, June and December 2017 and again in March 2018. See Funding and Liquidity section for a table that reflects deposits by channel. Borrowing costs increased compared to the prior quarter as we issued \$1 billion of senior unsecured notes at a weighted average coupon rate of 4.69%. In addition, we issued \$400 million of unsecured subordinated debt at 6.125% in conjunction with our capital plan that will allow us to return up to \$800 million of capital. Most of the proceeds of the senior unsecured borrowings were used to repay \$883 million of unsecured notes in April.

The following table reflects our total deposit base, interest bearing and non-interest-bearing deposits, and related rate: Total Deposits — Average Balances and Rates for the Quarters Ended (dollars in millions)

Business Capital	4.60	% 4.47	% 5.41	%					

Gross yields (interest income plus rental income on operating leases as a % of AEA) in Commercial Banking were down from the year-ago and prior quarters. The Commercial Finance increase in gross yields from the year-ago quarter was primarily driven by the benefit of higher short-term interest rates, partially offset by a decline in PAA, which, in addition to lower prepayment benefits, also drove the division's decrease from the prior quarter. Gross yields in Rail were lower from the year-ago and prior quarters, as lease rates continued to re-price lower on average across the North American portfolio. The Real Estate Finance gross yield improved from the year-ago and prior quarters, driven by the benefit of higher short term interest rates that more than offset lower purchase accounting accretion. Gross yields in Business Capital were down slightly from the year-ago quarter, and up from the prior quarter due to asset mix and the interest rate increase.

Consumer Banking gross yields were down from the year-ago quarter, as the decline in LCM offset a modest increase in Other Consumer Banking. The decline in gross yields in LCM was driven by lower purchase accounting accretion on mortgage loans in LCM, some of which was due to ceasing PAA accretion related to the reverse mortgages that were transferred to assets held for sale (" AHFS") at the end of the third quarter of 2017. The decline also reflects higher amounts of negative interest income associated with amortizing the indemnification asset. The negative interest income on the indemnification asset totaled \$14 million this quarter, \$16 million last quarter and \$8 million in the year ago quarter. The negative amounts reduce interest income and are due to lower expected reimbursable losses under the loss share agreement, reflecting better than expected credit performance of the covered loans. While we expect the yield to remain negative, the level can increase or decrease as the indemnification assets amortizes over the remaining contract period, which expires in March 2019. NFM in Consumer Banking is higher than gross yields as this segment receives credit from the other segments for the value of the deposits generated.

As of March 31, 2018, the remaining accretable PAA was \$700 million, of which \$86 million related to Commercial Banking and \$614 million related to Consumer Banking. This compares to \$733 million of remaining accretable PAA as of December 31, 2017, of which \$97 million related to Commercial Banking and \$636 million related to Consumer Banking. We are forecasting 40-50% of the remaining accretable PAA in Commercial Banking to be realized in the next four quarters. The remaining accretable PAA in Consumer Banking is expected to run off at a rate consistent with the run-off of the underlying mortgages, which has averaged 10-15% annually. However, amounts may vary quarter to quarter from fluctuations in prepayments, which results in a loan's remaining PAA to be accelerated into interest income. (See footnote 1 to the following table).

Table of Contents

The following table displays PAA by segment and division for both interest income and interest expense. Purchase Accounting Accretion (PAA) (dollars in millions)

	Quarters Ended			December 31, 2017			March 31, 2017		
	March 31, 2018			PAA Accretion			PAA Accretion

Total Consumer Banking	21.1	0.8	21.9	23.1	0.9	24.0	30.3	1.2	31.5
Corporate and Other	—	—	—	—	—	—	—	0.2	0.2
Total CIT	\$31.7	\$ 0.9	\$32.6	\$38.8	\$ 1.1	\$39.9	\$54.4	\$ 1.7	\$56.1

(1) Included in the above are accelerated recognition of approximately \$7.1 million, \$12.1 million and \$14.2 million for the quarters ended March 31, 2018 and 2017 and December 31, 2017, respectively.

(2) Debt and deposits acquired in the OneWest Bank acquisition were recorded at a net premium, therefore the purchase accounting accretion of that adjustment decreases interest expense.

(3) The decline from the year-ago quarter reflects the transfer of the reverse mortgage portfolio to AHFS at the end of the third quarter of 2017.

The following table sets forth the details on net operating lease revenues.

Net Operating Lease Data (dollars in millions)

	Quarters Ended					
	March 31, 2018		December 31, 2017		March 31, 2017	
Rental income on operating leases	\$253.6	12.78%	\$252.6	12.89%	\$251.3	13.40%
Depreciation on operating lease equipment	76.4	3.85%	74.3	3.79%	73.5	3.92%
Maintenance and other operating lease expenses	57.4	2.89%	57.9	2.95%	53.8	2.87%
Net operating lease revenue and %	\$119.8	6.04%	\$120.4	6.14%	\$124.0	6.61%
Average operating lease equipment, including amounts held for sale	\$7,934.6		\$7,841.0		\$7,500.9	

Net operating lease revenue, which is a component of NFR, is driven principally by the performance of the Rail portfolio within the Commercial Banking segment. Net operating lease revenue was flat with the prior quarter and down from the year-ago quarter, reflecting continued downward pressures on renewal rates in Rail, partially offset by increased utilization. Net operating lease revenue benefited in the current and prior quarters (none in the year-ago quarter) from suspended depreciation of about \$9 million in each period, related to the pending sale of our European Rail business, NACCO. Increasing the depreciation in the current and prior quarters for the amount suspended would have decreased the respective net operating lease revenue in each period, and the rates to 5.57% for the current quarter and 5.69% for the prior quarter, respectively. Suspended depreciation is discussed further below.

North America railcar utilization, including commitments to lease, improved to nearly 97% from 96% at December 31, 2017, primarily driven by improvements in tank, mill gondola and box car utilization. Rail lease rates in the current quarter continued to price down compared to the rates on expiring leases, reflecting excess capacity in the market. We continue to expect downward pressure, and anticipate re-pricing to be down 20%-30% on average through the rest of 2018 and into 2019, reflecting continued pressure from tank car lease rates, which are coming due for renewal at a faster pace.

Depreciation is recognized on railcars and other operating lease equipment. Depreciation was up from the year-ago and prior quarters driven primarily by asset growth in the non-rail portfolio, which is depreciated over a shorter timespan. Once a long-lived asset is classified as assets held for sale, depreciation expense is no longer recognized, and the asset is evaluated for impairment with any such charge recorded in other income, of which none was recorded in the quarter on these assets. Consequently, net operating lease revenue includes rental income on operating lease equipment classified as assets held for sale, but there is no related depreciation expense. Suspended depreciation on operating lease equipment in assets held for sale totaled \$9 million for the current and prior quarters, with none in the year-ago quarter. The 2018 second quarter is expected to have suspended depreciation at a similar level. See “Expenses — Depreciation on operating lease equipment” for additional information.

Maintenance and other operating lease expenses relates to the Rail portfolio. The increase from the year-ago quarter reflected increased maintenance, freight and storage costs in Rail due to growth in the portfolio.

48 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

CREDIT METRICS

The following provides information on certain credit metrics, including non-accrual loan and net charge-off levels, as well as the provision for credit losses and allowance for loan losses, that management uses to track the credit quality of the portfolio.

Non-accrual loans totaled \$237 million (0.80% of loans), compared to \$221 million (0.76%) at December 31, 2017, and \$259 million (0.87%) at March 31, 2017.

The provision for credit losses reflects loss adjustments related to loans recorded at amortized cost, off-balance sheet commitments and related reimbursements under indemnification agreements. The provision for credit losses was \$69 million, up from the prior quarter provision of \$30 million and from the prior year quarter provision of \$50 million, primarily reflecting a \$22 million charge-off of a single commercial exposure and a higher level of reserves within the Commercial Finance division of Commercial Banking.

Net charge-offs were \$50 million (0.68% of average loans) in the current quarter, up from \$18 million (0.26%) in the prior quarter and from \$28 million (0.37%) in the year-ago quarter. The increase was driven by the \$22 million charge-off noted above. Excluding that charge-off, net charge-offs in the current quarter were \$28 million (0.39% of average loans).

The following table presents detail on our allowance for loan losses, including charge-offs and recoveries and provides summarized components of the provision and allowance:

Allowance for Loan Losses (dollars in millions)

	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Allowance — beginning of period	\$431.1	\$ 419.5	\$432.6
Provision for credit losses ⁽¹⁾	68.8	30.4	49.7
Other ⁽¹⁾	(2.4)	(0.5)	(6.2)
Net additions	66.4	29.9	43.5
Gross charge-offs	(55.1)	(23.3)	(33.0)
Recoveries	5.2	5.0	5.5
Net Charge-offs	(49.9)	(18.3)	(27.5)
Allowance — end of period	\$447.6	\$ 431.1	\$448.6
Provision for credit losses			
Specific reserves on impaired loans	\$(0.7)	\$ (9.6)	\$ 9.6
Non-specific reserves	69.5	40.0	40.1
Total	\$68.8	\$ 30.4	\$49.7
Allowance for loan losses			
Specific reserves on impaired loans	\$25.3	\$ 26.0	\$39.5
Non-specific reserves	422.3	405.1	409.1
Total	\$447.6	\$ 431.1	\$448.6
Ratio			
Allowance for loan losses as a percentage of total loans	1.52 %	1.48 %	1.51 %
Allowance for loan losses as a percent of loans/Commercial	1.79 %	1.74 %	1.85 %

The provision for credit losses includes amounts related to reserves on unfunded loan commitments and letters of credit, and for deferred purchase agreements, which are reflected in other liabilities. The items included in other⁽¹⁾ liabilities totaled \$47 million, \$45 million and \$50 million at March 31, 2018, December 31, 2017 and March 31, 2017, respectively. “Other” also includes allowance for loan losses associated with loan sales and foreign currency translations.

The allowance for loan losses was \$448 million (1.52% of loans, 1.70% excluding loans subject to loss sharing agreements with the FDIC) at March 31, 2018, compared to \$431 million (1.48% of loans, 1.67% excluding loans subject to loss sharing agreements with the FDIC) at December 31, 2017 and \$449 million (1.51% of loans, 1.76% excluding loans subject to loss sharing agreements with the FDIC) at March 31, 2017. The increase in the allowance for loan losses from the prior quarter reflected a higher level of reserves, primarily within the Commercial Finance division of Commercial Banking. The decrease in the Commercial Banking allowance ratio from the year-ago quarter reflects the charge-off of previously established specific reserves on impaired loans, partially offset by the increase in the allowance for loan losses for reserve build.

See Note 3 — Loans for details regarding the unpaid principal balance, carrying value and allowance for loan losses related to PCI loans.

Total	\$49.9	0.68 %	\$18.3	0.26 %	\$27.5	0.37 %

The increases in net charge-offs compared to the year-ago and prior quarters resulted primarily from a charge-off on a single account of \$22 million, most of which was in Commercial Finance.

The tables below present information on non-accruing loans, which includes loans in AHFS for each period, and when added to OREO and other repossessed assets, sums to non-performing assets. PCI loans are excluded from these tables as they are written down at acquisition to their fair value using an estimate of cashflows deemed to be collectible. Accordingly, such loans are no longer classified as past due or non-accrual even though they may be contractually past due, because we expect to fully collect the new carrying values of these loans.

Restructured loans	\$ 94.4	\$ 103.5
Accruing loans past due 90 days or more		
Accruing loans past due 90 days or more	\$ 27.0	\$ 31.9

(1) Factored receivables within our Business Capital division do not accrue interest and therefore are not considered within non-accrual loan balances but are considered for credit provisioning purposes.

(2) Excludes TDR loans in a trial modification period of \$7.9 million and \$12.5 million at March 31, 2018 and December 31, 2017, respectively. Refer to Note 3 — Loans for further details.

Non-accrual Loans (dollars in millions)

	March 31, 2018		December 31, 2017	
Commercial Finance	\$153.2	1.54%	\$134.8	1.36%
Real Estate Finance	—	—	2.8	0.05%
Business Capital	45.6	0.59%	53.2	0.70%
Commercial Banking	198.8	0.85%	190.8	0.82%
Legacy Consumer Mortgages	25.2	0.79%	19.9	0.60%
Other Consumer Banking	0.3	0.01%	0.4	0.02%
Consumer Banking	25.5	0.42%	20.3	0.34%
Non-Strategic Portfolios	12.2	NM	9.8	NM
Total	\$236.5	0.80%	\$220.9	0.76%

NM — Not meaningful; Non-accrual loans include loans held for sale. All of NSP non-accrual loans reflected loans held for sale; since there was no portfolio loans, no % is displayed.

Non-accrual loans were up from December 31, 2017, primarily due to an increase in Commercial Finance partially offset by decreases in Real Estate Finance and Business Capital.

Approximately 48% of our non-accrual accounts were paying currently compared to 52% at December 31, 2017. Our impaired loan carrying value (including PAA discount and charge-offs) to estimated outstanding unpaid principal balances approximated 67% compared to 76% at December 31, 2017. For this purpose, impaired loans comprise principally non-accrual loans over \$500,000 and troubled debt restructurings (“TDRs”).

Total delinquency (30 days or more) was 1.8% of loans at March 31, 2018 and 1.3% of loans at December 31, 2017. Forgone Interest (dollars in millions)

	Quarters Ended March 31,

The Company periodically modifies the terms of loans in response to borrowers' difficulties. Modifications that include a financial concession to the borrower, which otherwise would not have been considered, are accounted for as TDRs. For those accounts that were modified but not considered to be TDRs, it was determined that no concessions had been granted by CIT to the borrower. Borrower compliance with the modified terms is the primary measurement that we use to determine the success of these programs.

CIT GROUP INC. 51

Table of Contents

The tables that follow reflect loan carrying values of accounts that have been modified, excluding PCI loans. TDRs and Modifications (dollars in millions)

PCI loans, TDRs and other credit quality information is included in Note 3 — Loans in Item 1. Consolidated Financial Statements.

NON-INTEREST INCOME

As presented in the following table, Non-interest Income includes Rental Income on Operating Leases and Other Non-Interest Income. The following discussion is on a consolidated basis; non-interest income is also discussed in each of the individual segments in Results By Business Segment. Certain line-items in the table have changed from previous disclosures, all prior periods are conformed.

Non-interest Income (dollars in millions)

	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Rental income on operating leases	\$253.6	\$ 252.6	\$ 251.3
Other non-interest income:			
Fee revenues	27.2	30.3	28.9
Factoring commissions	25.6	26.7	26.1
Gains on leasing equipment, net of impairments	13.5	7.9	6.9
BOLI Income	6.5	5.8	—
Gains on investment securities, net of impairments	5.4	12.4	4.1
Other revenues	26.5	54.1	13.1
Total other non-interest income	104.7	137.2	79.1
Total other non-interest income, excluding noteworthy items ⁽¹⁾	\$104.7	\$ 107.8	\$ 87.2

Total non-interest income	\$358.3	\$ 389.8	\$ 330.4
---------------------------	---------	----------	----------

⁽¹⁾ Total non-interest income, excluding noteworthy items are non-GAAP balances, see reconciliations to GAAP balance in Non-GAAP Financial Measurements.

Rental income on operating leases from equipment we lease is generated in the Rail and Business Capital divisions in the Commercial Banking segment and recognized principally on a straight line basis over the lease term. Rental income is discussed in “Net Finance Revenues” and “Results by Business Segment”. See also our Annual Report on Form 10-K for the year ended December 31, 2017, Note 6 — Operating Lease Equipment in Item 8. Financial Statements and Supplementary Data for information on operating leases.

Other income changes reflect the following:

Fee revenues include items generated by our business activities such as fees on lines and letters of credit, capital markets-related fees, agent and advisory fees and servicing fees. Fee revenues were down from the prior quarter, primarily due to a decrease in capital markets fees. Fee revenues are mainly driven by our Commercial Banking segment.

Factoring commissions were down from the prior quarter, reflecting the seasonal decrease in volume and were down compared to the year-ago quarter, despite an increase in factoring volumes, as a change in portfolio mix put downward pressure on pricing. Factoring volume was down 4% from the prior quarter due to seasonality and up 9% from the year-ago quarter, driven by an increase in the technology industry. Factoring volume was \$7.4 billion for the current quarter, \$6.8 billion in the year-ago quarter, and \$7.7 billion last quarter.

52 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Gains on leasing equipment, net of impairments were driven by sales of rail equipment and other types of equipment in Business Capital. Gains as a percentage of equipment sold will vary based on the type and age of equipment sold. See table entitled Equipment Sales in the Loans and Leases section that displays amounts sold by segment.

Gains on investments, net of impairments mostly reflected gains on sales of mortgage-backed securities, changes in value of mortgage-backed securities carried at fair value, and to a lesser extent, sales of equity investments that were received as part of a lending transaction, or in some cases, a workout situation. During 2017, essentially all of the MBSs carried at fair value were sold or matured, resulting in lower gains in the current quarter compared to the prior quarter.

BOLI income reflects the changes in value of the bank-owned life insurance ("BOLI") policies CIT purchased on certain officers and employees. These policies were purchased during the second half of 2017.

Other revenues included items that are more episodic in nature, such as gains and losses on loans and portfolios sold, OREO sales, net gains and losses on derivative and foreign currency exchange, gains on work-out related claims, proceeds received in excess of carrying value on non-accrual accounts held for sale, which were repaid or had another workout resolution, insurance proceeds in excess of carrying value on damaged leased equipment, and income from joint ventures. Other revenue in the prior quarter included a noteworthy item of \$29 million related to the cumulative effect of an accounting policy change for low income housing tax credit ("LIHTC") investments. Other revenue in the year-ago quarter included a noteworthy item related to a currency translation charge of \$8 million.

EXPENSES

Non-Interest Expense (dollars in millions)

	Quarters Ended

Edgar Filing: CIT GROUP INC - Form 10-Q

Headcount	3,898	3,909	4,058
Operating expenses excluding restructuring costs and intangible asset amortization as a % of AEA ⁽¹⁾	2.43	% 2.39	% 2.49 %
Net efficiency ratio ⁽²⁾	55.6	% 49.6	% 58.6 %
Net Efficiency Ratio excluding noteworthy items ⁽²⁾	56.7	% 53.4	% 57.7 %

Operating expenses excluding restructuring costs and intangible asset amortization as a % of AEA is a non-GAAP⁽¹⁾ measure; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information.

Net efficiency ratio and net efficiency ratio adjusted are non-GAAP measurements used by management to measure operating expenses (before restructuring costs and intangible amortization) to the level of total net revenues. See “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information and description of the calculation.

Depreciation on Operating Lease Equipment

Depreciation on operating lease equipment is recognized on owned equipment over the lease term or estimated useful life of the asset. Depreciation expense is driven by rail equipment and smaller ticket equipment, such as office equipment, in the Rail and Business Capital divisions in Commercial Banking, respectively. Depreciation expense is discussed in “Net Finance Revenue,” as it is a component of our NFM. See “Non-Interest Income” for impairment charges on operating lease equipment classified as held for sale.

Maintenance and Other Operating Lease Expenses

Maintenance and other operating lease expenses relates to equipment ownership and leasing costs associated with the Rail portfolio. Rail provides railcars primarily pursuant to full-service lease contracts under which Rail as lessor is responsible for

Table of Contents

railcar maintenance and repair. Maintenance expenses on railcars increased from the year-ago quarter on the growing portfolio, with increased costs associated with end of lease railcar returns and higher Railroad Interchange repair expenses.

Operating Expenses

Operating expenses, excluding restructuring costs and intangible asset amortization, were up from the prior quarter, driven primarily by higher compensation and benefits, due to the annual restart of certain benefit costs, and higher FDIC insurance costs. Compared to the year-ago quarter, operating expenses were down, reflecting lower professional fees and FDIC insurance costs, partially offset by higher advertising and marketing costs.

Although operating expenses excluding restructuring costs and intangible asset amortization were up sequentially, we remain focused on reducing our operating costs and are on track to achieve the reduction of our annual operating expense to our target of \$1,050 million (before intangible amortization) for 2018 through reduction of consulting services and other professional fees and continuing to right-size the organization.

Operating Expenses reflect the following changes:

• Compensation and benefits increased from the prior quarter mostly reflecting the restart of annual benefit costs.

• Compared to the year-ago quarter, higher costs were partially offset by the impact of fewer employees.

• Technology costs increased from the prior quarter due to higher software expenses.

• Professional fees included legal and other professional fees, such as tax, audit, and consulting services. The decline from the year-ago quarter was driven by lower audit fees, while the declines from both the year-ago and prior quarters reflect lower consulting costs for CCAR reporting, partially offset by higher litigation costs.

• Insurance expenses, while below the year-ago level on lower FDIC premium assessment, was up from the prior quarter, which benefited from a true-up of the FDIC insurance costs.

• Net Occupancy expenses were down from the year-ago quarter, driven by lower rent, building repairs, and relocation costs.

• Advertising and marketing expenses include costs associated with raising deposits and may fluctuate based on timing of marketing programs. A consumer promotional marketing campaign started after the 2017 first quarter.

• Intangible asset amortization primarily results from intangible assets recorded in the OneWest Bank acquisition.

• Restructuring costs were significant in the year-ago and prior quarters, as we continued strategic initiatives to reduce operating expenses and streamline our operations, which resulted in employee reductions compared to the year-ago period.

• Other expenses include items such as travel and entertainment, office equipment and supplies and taxes (other than income taxes, etc.), and from time to time includes settlement agreement costs, including OneWest Bank legacy matters.

Goodwill Impairment

During the prior quarter, we recognized \$256 million in goodwill impairment charges, mostly related to Equipment Finance in our Commercial Banking segment.

Loss on Debt Extinguishments and Deposit Redemptions

Amounts were minor due to limited activity. See Note 6 — Borrowings in Item 1. Consolidated Financial Statements.

INCOME TAXES

Income Tax Data (dollars in millions)

	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Provision for income taxes, before discrete items	\$39.6	\$45.4	\$44.9
Discrete items	1.7	(17.7)	11.3
Provision (benefit) for income taxes	\$41.3	\$27.7	\$56.2
Effective tax rate	28.5 %	(50.3)%	41.8 %
Effective tax rate, before tax discrete items and noteworthy items ⁽¹⁾	27.3 %	39.4 %	31.9 %

⁽¹⁾ Effective tax rate excluding discrete items or noteworthy items are non-GAAP measures. See “Non-GAAP Measurements” for reconciliation of non-GAAP financial information.

The Company's current quarter income tax expense from continuing operations is \$41.3 million. This compares to an income tax provision of \$27.7 million in the prior year quarter and an income tax provision of \$56.2 million in the year-ago quarter. The income tax provision before the impact of tax discrete items was lower this year, as compared to the prior year quarter and year-ago quarter, primarily driven by lower statutory income tax rates from U.S. tax reform, partially offset by the impact of the change in accounting method for the LIHTC investments, disallowance of FDIC insurance premiums, and state income taxes.

54 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

The effective tax rate each quarter is impacted by a number of factors, including the relative mix of domestic and international earnings, effects of changes in enacted tax laws, adjustments to valuation allowances, and discrete items. The near term future periods effective tax rate may vary from the actual year-end 2018 effective tax rate due to the changes in these factors.

Included in the net discrete tax expense of \$1.7 million for the current quarter was:

- \$4.0 million deferred income tax benefit resulting from the release of a valuation allowance on deferred tax assets established on the capital losses generated in the prior year from an equity investment in a wholly-owned foreign subsidiary,

- \$3.7 million net deferred income tax expense, which includes \$5.3 million deferred income tax expense resulting from revaluation of U.S. state deferred tax assets and liabilities as a result of state tax rate changes, partially offset by \$1.6 million of net tax benefits from various other U.S. federal, state, and international discrete tax items,

- \$2.0 million deferred income tax expense related to the increase to the deferred tax liability on the Company's investment in NACCO, which is categorized as "held for sale."

Included in the net discrete tax benefit of \$17.7 million for the prior quarter was:

- \$37.1 million deferred income tax benefit resulting from the release of a valuation allowance on deferred tax assets established on the capital losses generated from an equity investment in a wholly-owned foreign subsidiary,
- \$26.6 million income tax expense related to the cumulative effect adjustment for the Company's election to change the accounting policy for LIHTC investments from the equity method to the proportional amortization method. The total income tax expense of \$38.2 million disclosed within Management's Discussion and Analysis "Non-GAAP Financial Measurements" section includes an \$11.6 million tax effect of the \$29 million pretax item recorded in other non-interest income,

- \$11.6 million net deferred tax benefit was recognized from the effect of the enacted U.S. tax reform legislation which included the following:

- \$13.6 million deferred income tax benefit related to the reduction of deferred tax liabilities on previously untaxed earnings and profits ("E&P") due to provisions in the U.S. Tax Reform that imposes a one-time "Toll Tax" on unremitted net positive E&P. This tax converts the net positive E&P into "previously taxed income" that can be repatriated without any further tax. The Company has a net deficit in E&P and, accordingly, has no Toll Tax liability,

- \$4.9 million expense reported on the income tax expense line for an increase in amortization expense resulting from revaluation of the LIHTC investments,

- \$2.9 million deferred income tax benefit related to revaluation of the U.S. deferred tax assets and liabilities as a result of change in U.S. federal tax rates from 35% to 21% with an effective date of January 1, 2018, and

- \$1.1 million net deferred tax expense related to the recognition of NACCO related items including impact of French tax law changes of an \$11.0 million deferred tax benefit and adjustments to deferred taxes on the Company's investment in NACCO of \$12.0 million deferred tax expense, which is now categorized as "held for sale,"

- \$3.3 million of miscellaneous net tax expense items.

Included in the net discrete tax expense of \$11.3 million for the year-ago quarter was:

- \$13.9 million in deferred tax expense related to the restructuring of legal entities in preparation for the Commercial Air sale,

- \$2.9 million in deferred tax benefit related to the revaluation of deferred taxes from state tax rate changes, and

- \$0.3 million of miscellaneous net tax expense items.

Management expects the 2018 global effective tax rate to be approximately 26% to 28%, excluding discrete tax items and noteworthy items. Furthermore, cash income taxes paid will remain minimal until the Company's NOL carry-forwards are fully utilized.

As of December 31, 2017, CIT had deferred tax assets ("DTAs") from continuing operations totaling \$877.3 million on its global NOLs. This includes: (1) a DTA of \$504.0 million relating to its cumulative U.S. federal NOLs of \$2.4 billion; (2) DTAs of \$322.0 million relating to cumulative state NOLs of \$6.1 billion, including amounts of reporting entities that file in multiple jurisdictions, and (3) DTAs of \$51.1 million relating to cumulative non-U.S. NOLs of \$203.8 million.

Of the \$2.4 billion U.S. federal NOLs, approximately \$1.0 billion relate to the pre-emergence bankruptcy period and are subject to the Section 382 limitation. CIT's bankruptcy reorganization in 2009 resulted in an ownership change under Section 382 of the Internal Revenue Code, which placed an annual dollar limit on the use of the remaining pre-bankruptcy NOLs. The Company's annual limitation on use of pre-bankruptcy NOLs is approximately \$265 million per annum. Approximately \$1.4 billion of the U.S. federal NOL is not subject to the limitation. The U.S. federal NOLs will begin to expire beginning in 2028 through 2036. Approximately \$188 million of state NOLs will expire in 2018. While most of the non-U.S. NOLs have no expiration date, a small portion will expire over various periods, including an insignificant amount expiring in 2018.

The amount of future cash taxes will depend on the level of taxable income after utilization of the remaining NOLs, including the implications of the aforementioned limitation. Cash taxes were a net payment of \$3.2 million for the current quarter, compared to \$2.5 million in the prior quarter, and \$0.2 million net refund in the year-ago quarter.

See Note 11 - Income Taxes in Item 1. Consolidated Financial Statements for additional information, including deferred tax assets and specific tax discrete items.

Table of Contents

RESULTS BY BUSINESS SEGMENT

CIT manages its business and reports its financial results in three operating segments, Commercial Banking, Consumer Banking, and Non-Strategic Portfolios, and a non-operating segment, Corporate and Other.

Commercial Banking

Commercial Banking is comprised of four divisions: Commercial Finance, Rail, Real Estate Finance and Business Capital. Revenue is generated from interest earned on loans, rents on equipment leased, fees and other revenue from lending and leasing activities and banking services, along with capital markets transactions and commissions earned on factoring and related activities. A detailed description of the divisions is included at the end of Item 1. Business Overview in our Annual Report on Form 10-K for the year ended December 31, 2017.

* See discussion below for the impact of suspended depreciation.

Pre-tax earnings in the current and prior quarters both included a noteworthy item related to the benefit from the suspension of depreciation expense related to NACCO of \$9 million. Pre-tax earnings in the prior quarter also included a noteworthy item from goodwill impairment. Excluding noteworthy items, pre-tax earnings of \$97 million decreased from the prior quarter of \$164 million, primarily driven by an increase in the credit provision, a decrease in net finance revenue and higher operating expenses. Compared to the year-ago quarter, pre-tax earnings excluding noteworthy items decreased from \$156 million, primarily driven by a decline in net finance revenue and a higher credit provision.

AEA increased from both the year-ago and prior quarters. AEA consists primarily of loans and leases. Average loans and leases net of credit balances of factoring clients was \$29.7 billion for the quarter ended March 31, 2018, up 2% from both the year-ago and prior quarters. Business Capital and Rail (primarily NACCO) drove growth from the year-ago quarter. Growth compared to the prior quarter was driven by the Commercial Finance division, which benefited from lower prepayment rates in the current quarter and strong originations towards the end of the prior quarter.

Compared to the year-ago quarter, new lending and leasing volume increased 40%, with strong growth in Commercial Finance, Real Estate and Business Capital. New lending and leasing volume decreased from the prior quarter, representing a decline in all divisions, due to strong and seasonally high volumes in the prior quarter and typically lower volumes experienced in the first quarter.

Factored volume of \$7.4 billion was up 9% compared to the year-ago quarter, driven primarily by increased volume in the technology industry, and down 4% from the prior quarter due to seasonal trends.

56 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Rail average earning assets of \$7.7 billion were up from \$7.3 billion in the year-ago quarter and up slightly from \$7.6 billion in the prior quarter. During 2017, we entered into a definitive sale agreement to sell our European rail business, which consists of approximately \$1.2 billion of loans and leases in AHFS, including approximately 15,000 railcars. All remaining antitrust approvals were received by the buyer from the European regulators this quarter, which includes a condition to sell approximately 30% of the NACCO cars to other parties. This additional requirement does not impact the overall economics to us and we are targeting to close the sale in the second half of 2018. Our portfolio includes approximately 132,000 railcars, including the railcars of the European business. At March 31, 2018, we had approximately 2,120 railcars on order from manufacturers, of which 1,264 related to our North America business that had deliveries scheduled through 2018.

See Note 12 — Commitments in Item 1. Consolidated Financial Statements for further railcar manufacturer commitment data.

Highlights included:

Net finance revenue ("NFR") decreased from both the year-ago and prior quarters. The decreases were primarily driven by higher interest expense, reflecting increases in interest rates and growth in the portfolio, as well as lower purchase accounting accretion and prepayment benefits in Commercial Finance and Real Estate Finance and lower net rental income in Rail. The decreases were partially offset by the benefit of higher interest rates on earning assets. Compared to the year-ago quarter, the decrease was partially offset by the suspended depreciation related to NACCO.

Net Finance Margin ("NFM") was down compared to the year-ago and prior quarters, reflecting the impact of lower NFR as discussed above and slightly higher average earning assets which were 2% higher compared to both the prior and year-ago quarters.

Purchase accounting accretion totaled \$11 million, \$16 million and \$24 million in the current, prior and year-ago quarters, respectively, and continues to trend down. Essentially all accretion benefited interest income, with a small amount decreasing interest expense. (Purchase accounting accretion is depicted in tabular form in the Net Finance Revenue section). The current quarter, prior and year-ago quarters included \$4 million, \$8 million and \$10 million, respectively, of PAA that was accelerated due to prepayments.

Gross yields (interest income plus rental income on operating leases as a % of AEA) in Commercial Banking were down from the year-ago and prior quarters. The declines reflect continued pressure on rail as discussed below. The Commercial Finance increase in gross yields from the year-ago quarter was primarily driven by the benefit of higher short-term interest rates, partially offset by a decline in PAA, which also drove the division's decrease from the prior quarter. See Select Segment and Division Margin Metrics table in Net Finance Revenue section for amounts of purchase accounting accretion and gross yields by division.

Net operating lease revenue, which is a component of NFR, is driven primarily by the performance of our rail portfolio. Rail's net rental income decline, excluding the suspension of depreciation expense related to NACCO, from both the year-ago and prior quarters were mainly driven by renewal rates that continue to price lower due to excess capacity in the market. We expect renewal rates to continue to be below expiring rates through 2018 and into 2019. This re-pricing will fluctuate depending on the number and types of cars renewing during any given quarter.

Suspended depreciation on operating lease equipment in assets held for sale totaled about \$9 million for the current and prior quarters, with no suspended depreciation in the year-ago quarter. Excluding the suspended depreciation, the current and prior quarter operating lease margin would have declined to 5.57% and 5.69%, respectively. Railcar utilization, including commitments to lease, was up at 97% from 95% at December 31, 2017.

Other non-interest income increased from the year-ago quarter and prior quarter, reflecting the following:

Factoring commissions of \$26 million were down compared to the year-ago quarter, despite an increase in factoring volumes, as a change in the portfolio mix put downward pressure on pricing, and down from the prior quarter,

reflecting the seasonal decrease in volume.

Gains on asset sales (including receivables, equipment and investments), net of impairments, totaled \$17 million, compared to \$14 million in the year-ago quarter and \$12 million in the prior quarter. The gains for the quarters were primarily driven by sales of rail cars.

Fee revenue is mainly driven by fees on lines of credit and letters of credit, capital markets-related fees, agent and advisory fees and banking related fees, including cash management and account fees. Fee revenue was \$25 million in the current quarter, down from \$27 million in the year-ago quarter and \$28 million in the prior quarter, on lower capital market fees.

The provision for credit losses in the current quarter totaled \$67 million, compared to \$49 million in the year-ago quarter and \$29 million in the prior quarter. The increase in the provision this quarter reflected a \$22 million charge-off of a single commercial exposure and a higher level of reserves primarily within the Commercial Finance division.

Net charge-offs were \$50 million (0.86% of average loans), \$27 million (0.48%) in the year-ago quarter and \$18.0 million (0.32%) in the prior quarter. The increases were driven by the noted charge-off of a single credit.

Non-accrual loans were \$199 million (0.85% of loans), compared to \$191 million (0.82%) at December 31, 2017, and \$234 million (1.02%) at March 31, 2017. The decrease from the year-ago quarter was in the Commercial Finance and Business Capital divisions.

Operating expenses increased from the year-ago and prior quarters, both reflecting higher legal fees in Rail and higher employee costs.

Table of Contents

Consumer Banking

Consumer Banking includes Retail Banking, Consumer Lending, and SBA Lending, which are grouped together for purposes of discussion as Other Consumer Banking, and Legacy Consumer Mortgages (“LCM”). A detailed description of the divisions is included at the end of Item 1. Business Overview in our Annual Report on Form 10-K for the year ended December 31, 2017.

See our Annual Report on Form 10-K for the year ended December 31, 2017, Note 1 — Business and Summary of Significant Accounting Policies and Note 5 — Indemnification Assets in Item 8. Financial Statements and Supplementary Data for accounting and detailed discussions.

Consumer Banking: Financial Data and Metrics (dollars in millions)

Average loans (includes HFS)	\$6,878.8	\$ 6,728.0	\$6,963.9
Average earning assets (AEA)	7,009.4	6,885.6	7,291.8
Statistical Data			
Net finance margin - NFR as a % of AEA	6.25	% 6.04	% 5.84
Net efficiency ratio	75.5	% 84.4	% 79.5
Pretax return on AEA	1.34	% 0.69	% 1.00
New business volume	\$388.6	\$ 421.9	\$ 154.7

Compared to the year-ago quarter, pre-tax earnings increased as an increase in the benefit in interest expense received from the other segments for the value of the excess deposits Consumer Banking generates was partially offset by the decrease in interest income. Compared to the prior quarter, pre-tax results were up primarily driven by an increase in the benefit in interest expense received from the other segments for the value of the excess deposits Consumer Banking generates and lower operating expenses.

Average loans, including held for sale, totaled \$6.9 billion for the quarter ended March 31, 2018, up slightly from the prior quarter, as originations offset run-off of the LCM portfolios. The LCM portfolios made up \$4.1 billion of the current quarter average balance, with a significant portion covered by loss sharing agreements with the FDIC. These agreements begin to expire in March 2019, the benefit of which is recorded within the indemnification assets. At March 31, 2018, LCM includes \$861 million of reverse mortgage loans held for sale (along with \$17.2 million of OREO) in connection with the announced Financial Freedom Transaction. See Note 5 — Indemnification Assets in Item

8. Financial Statements and Supplementary Data of CIT's Annual Report on Form 10-K for the year ended December 31, 2017 for more detailed discussion on the indemnification assets and Item 1. Consolidated Financial Statements, Note 2 - Discontinued Operations earlier in this document.

Deposits, which include deposits from the branch and online channels, increased from the prior and year-ago quarters, primarily driven by an increase in online High Yield Savings Accounts ("HYSA") and money-market accounts, partially offset by a decrease in time deposits and other interest-bearing accounts.

Other highlights include:

NFR of \$110 million increased slightly compared to the year-ago quarter, as higher negative income (see Net Finance Revenue MD&A section) related to amortizing the indemnification asset for the covered loans and lower interest income due to suspended purchase accounting accretion from the held for sale reverse mortgage portfolio was offset by an increase in the benefit in interest expense received from the other segments for the value of the excess deposits Consumer Banking generates. NFR increased from the prior quarter primarily due to an increase in the benefit in interest expense received from the other segments for the value of the excess deposits Consumer Banking generates. Net finance margin reflected similar trends. There was approximately \$22 million (including \$3 million accelerated) of PAA in the current quarter, compared to \$32 million (including \$2 million accelerated) in the year-ago quarter and \$24 million (including \$4 million accelerated) in the prior quarter.

Other non-interest income included gains and (losses) on asset sales, net of impairments, fee revenue and other miscellaneous income. Other non-interest income increased \$4 million compared to the year-ago quarter due to an increase in gains on asset sales from the reverse mortgage portfolio. Other non-interest income decreased by \$2 million compared to the prior quarter primarily due to a decline in gains on asset sales.

Non-accrual loans were \$26 million (0.42% of loans) at March 31, 2018, up from \$20 million (0.34%) at December 31, 2017, and \$16 million (0.24%) at March 31, 2017, essentially all of which are in LCM.

58 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Operating expenses are proportionally higher than other segments, which causes the net efficiency ratio to be higher than other segments, reflecting the branch operations and advertising and marketing campaigns for deposits. Operating expenses declined compared to the prior quarter primarily driven by lower servicing-related costs. Compared to the year-ago quarter, operating expenses were unchanged.

Non-Strategic Portfolios (NSP)

NSP consists of businesses and portfolios that we no longer consider strategic. These portfolios include international equipment financing, secured lending and leasing and advisory services to small and middle-market businesses.

Non-Strategic Portfolios: Financial Data and Metrics (dollars in millions)

Earnings Summary	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Interest income	\$2.4	\$ 5.1	\$7.0
Finance revenue	2.4	5.1	7.0
Interest expense	1.7	2.2	5.0
Net finance revenue (NFR)	0.7	2.9	2.0
Other non-interest income	1.2	0.9	(2.9)
Operating expenses	2.2	(0.3)	2.0
(Loss) income before income taxes	\$(0.3)	\$ 4.1	\$(2.9)
Select Period End Balance			
Loans and leases	\$58.5	\$ 63.3	\$162.1
Earning assets	151.3	145.3	348.2
Select Average Balances			
Average earning assets (AEA)	148.6	188.0	367.5
Statistical Data			
Net finance margin — NFR as a % of AEA	1.88 %	6.17 %	2.18 %
Pretax return on AEA	(0.81)%	8.72 %	(3.16)%

Pre-tax loss in NSP was less than \$1 million, compared to a pre-tax loss of \$3 million in the year-ago quarter and pre-tax income of \$4 million in the prior quarter. Interest income continues to decline as earning assets continue to run off. Operating expense in the prior quarter benefited from the reversal of a legal provision. In the year-ago quarter, other non-interest income included a noteworthy item, an \$8 million currency translation adjustment charge related to the exit of international businesses.

Remaining loans and leases are all in China, and were down from \$63 million in the prior quarter and \$162 million in the prior year quarter.

Corporate and Other

Certain items are not allocated to operating segments and are included in Corporate and Other. Some of the more significant and recurring items include interest income on investment securities, a portion of interest expense primarily related to corporate liquidity costs (interest expense), mark-to-market adjustments on non-qualifying derivatives (other non-interest income), restructuring charges for severance and facilities exit activities as well as certain unallocated costs (operating expenses), certain intangible assets amortization expenses (other expenses) and

loss on debt extinguishments.

Corporate and Other: Financial Data and Metrics (dollars in millions)

Earnings Summary	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Interest income	\$48.7	\$ 43.8	\$41.2
Interest expense	46.8	47.4	44.8
Net finance revenue (NFR)	1.9	(3.6) (3.6)
Other non-interest income	14.0	50.1	1.8
Operating expenses - Including gain/ (loss) on debt extinguishment	0.1	34.6	35.3
Income (loss) before benefit for income taxes	\$15.8	\$ 11.9	\$(37.1)
Select Balances			
Average earning assets	\$8,085.4	\$ 7,981.2	\$9,674.9
Earning assets (end of period)	\$9,717.5	\$ 7,702.8	\$9,460.7

A number of noteworthy items related to our strategic initiatives impact this division in the year-ago and prior quarters, which include an accounting policy change for LIHTC investments and restructuring costs. In total, these amounts reduced pretax income by \$15 million in the year-ago quarter and \$3 million in the prior quarter.

Interest income consists of interest and dividend income, primarily from investment securities and cash deposited at other financial institutions, and has increased as we shift from cash to securities in the investment portfolio. See the Net Finance Revenue section that displays an average balance sheet and the respective income.

Table of Contents

Interest expense in Corporate represents amounts in excess of expenses allocated to segments and amounts related to excess liquidity.

Other non-interest income primarily reflects BOLI income, gains and (losses) on derivatives and foreign currency exchange, and mark to market adjustments on certain MBS securities carried at fair value. Compared to the year-ago quarter, the increase is driven by BOLI income of \$7 million. The prior quarter benefited from \$29 million related to the cumulative effect of an accounting policy change for LIHTC investments.

In the current period, the operating expenses were fully allocated to the segments. There were no restructuring costs in the current quarter, compared to \$15 million in the year-ago quarter and \$32 million in the prior quarter.

LOANS AND LEASES

The following table presents our loans and leases by segment.

Loans and Leases Composition (dollars in millions)

	March 31, 2018	December 31, 2017

60 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Total loans and leases were \$38.5 billion at March 31, 2018, up 1.1% from December 31, 2017, as increases in Commercial Banking and in Other Consumer Banking were partially offset by the run-off of LCM portfolios in Consumer Banking and a legacy real estate portfolio in Real Estate Finance.

Total loans and leases trends are discussed in the respective segment descriptions in “Results by Business Segment.”

The following table presents the changes to our total loans and leases:
Changes in Loans and Leases (dollars in millions)

	Commercial Banking	Consumer Banking	Non- Strategic Portfolios	Total
Balance at December 31, 2017	\$ 31,232.4	\$ 6,820.2	\$ 63.3	\$ 38,115.9

⁽²⁾ At March 31, 2018 includes retailers of general merchandise (3.1%) and food and beverage providers (1.7%).

CONSUMER CONCENTRATIONS

The following table presents our total outstanding consumer loans, including PCI loans and loans held for sale. PCI loans are discussed in more detail in Note 3 — Loans in Item 1. Consolidated Financial Statements.

Consumer Loans (dollars in millions)

	March 31, 2018		December 31, 2017	
	Net Investment	% of Total	Net Investment	% of Total
Single family residential	\$5,534.8	84.8	% \$5,390.3	84.2 %
Reverse mortgage	860.5	13.2	% 861.0	13.4 %
Home Equity Lines of Credit	132.5	2.0	% 149.6	2.4 %
Other consumer	0.8		— 0.8	—
Total loans	\$6,528.6	100.0	% \$6,401.7	100.0%

For consumer and residential loans, the Company monitors credit risk based on indicators such as delinquencies and loan-to-value (“LTV”). We monitor delinquency and non-performing trends for home equity loans and residential real estate loans.

LTV refers to the ratio comparing the loan’s unpaid principal balance to the property’s collateral value. We update the property values of real estate collateral if events require current information and calculate current LTV ratios. We examine LTV migration and stratify LTV into categories to monitor the risk in the loan classes.

62 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

See Note 3 — Loans in Item 1. Consolidated Financial Statements for information on LTV ratios.

Loan concentrations may exist when multiple borrowers could be similarly impacted by economic or other conditions. The following table summarizes the carrying value of consumer loans, with concentrations in the top five states based upon property address.

Consumer Loans Geographic Concentrations (dollars in millions)

	March 31, 2018		December 31, 2017

Other Liabilities (dollars in millions)

	March 31, 2018	December 31, 2017
Accrued expenses and accounts payable	\$ 538.4	\$ 584.8
Current and deferred taxes payable	215.1	204.3
Fair value of derivative financial instruments	104.3	87.5
Accrued interest payable	66.5	86.6

Other liabilities	414.6	473.9
Total other liabilities	\$ 1,338.9	\$ 1,437.1

(1) Other consists of liabilities for taxes other than income, fair value of derivative financial instruments, equipment maintenance reserves, cash collateral deposits and contingent liabilities and other miscellaneous liabilities.

RISK MANAGEMENT

CIT's Risk Management Group has established a Risk Governance Framework that is designed to promote appropriate risk identification, measurement, monitoring, management and control. Our policies and procedures relating to Risk Management are detailed in our Annual Report on Form 10-K for the year ended December 31, 2017.

CIT GROUP INC. 63

Table of Contents

Interest Rate Risk (a component of Market Risk)

CIT is exposed to the risk that adverse changes in market conditions may negatively impact earnings. The risk arises from the composition of our balance sheet and changes in the shape of the yield curve. CIT looks to strategically manage this inherent risk based on prescribed guidelines and Board approved limits.

Interest rate risk arises from lending, leasing, investments, deposit taking and funding, as assets and liabilities reprice at different times as interest rates change. We evaluate and monitor interest rate risk primarily through two metrics.

Net Interest Income Sensitivity (“NII Sensitivity”), which measures the net impact of hypothetical changes in interest rates on forecasted net interest revenue and rental income assuming a static balance sheet over a twelve month period; and

Economic Value of Equity Sensitivity (“EVE Sensitivity”), which measures the net impact of these hypothetical changes on the value of equity by assessing the economic value of assets, liabilities and derivatives.

The composition of our assets and liabilities generally results in a net asset-sensitive position concentrated at the short end of the yield curve, mostly driven by moves in LIBOR, whereby our assets will reprice faster than our liabilities. Our assets generally consist of interest-bearing cash, investment securities and commercial and consumer loans and leases. Nearly 45% of our loans and leases are indexed to either LIBOR 1 month, 3 month, or the PRIME rate.

Our funding sources consist mainly of non-maturity deposits and time deposits from the online, branch, brokered and commercial channels, as well as wholesale funding and FHLB advances. The mix utilized consists of time deposits and unsecured debt which are fixed-rate, secured debt which is a mix of fixed and floating rate, and other deposits whose rates vary based on the market environment and competition.

Deposits continued to grow as a percent of total funding. CIT Bank, N.A. sources deposits primarily through a retail branch network in Southern California, direct-to-consumer (via the Internet), as well as commercial and brokered channels. At March 31, 2018, deposits totaled approximately \$31 billion. The deposit rates we offer can be influenced by market conditions and competitive factors. Beta represents the correlation between overall market interest rates and the rates paid by CIT Bank. Cumulative Deposit betas on total deposits have remained low at approximately 10% since the Fed started raising rates at the end of 2015 and 20% over the last 12 months. We model a beta of approximately 40% - 50% on our non-maturity deposits for a +100 bps rate increase over the next 12 months. Deposit betas are expected to continue to increase through the cycle for non-maturity deposits, which are currently 54% of our deposit base, and expected to grow over time. Changes in interest rates, as well as actions by competitors, can affect our deposit pricing and potentially impact our ability to attract and retain deposits. In a rising rate environment, we may need to increase rates to renew maturing time deposits and attract new deposits. Rates on our savings account deposits may fluctuate due to pricing competition and may also move with short-term interest rates. In general, retail deposits represent a low-cost source of funds and are less sensitive to interest rate changes than floating rate non-deposit funding sources. We regularly test the effect of deposit rate changes on our margins and seek to achieve optimal alignment between assets and liabilities from an interest rate risk management perspective.

The table below summarizes the results of simulation modeling produced by our asset/liability management system. The results reflect the percentage change in the EVE over the life of the asset and the NII Sensitivity over the next twelve months assuming an immediate 100 basis point parallel increase or decrease in interest rates from the market-based forward curve. The NII sensitivity is based on an assumption that the total balance sheet size remains static over the projection period.

March 31, 2018

December 31, 2017

Edgar Filing: CIT GROUP INC - Form 10-Q

	+200 bps	+100 bps	-100 bps	+200 bps	+100 bps	-100 bps
NII Sensitivity	6.8%	3.5%	(3.9)%	6.1%	3.0%	(3.0)%
EVE Sensitivity	(3.4)%	(1.7)%	1.4%	(4.4)%	(2.3)%	2.3%

A 200 basis point decline scenario was not run in the current rate environment as the scenario is less relevant. We have an assumed rate floor of 0% for the decline scenarios.

As of March 2018, the +100 bps NII sensitivity and EVE sensitivity change from December 31, 2017 (see table above) is primarily driven by the increase in cash from the issuance of Senior Unsecured and Subordinated notes in March 2018 for us to redeem outstanding debt and return capital to shareholders. We expect this to normalize lower next quarter with the redeployment of that cash.

As detailed above, NII sensitivity is positive with respect to an increase in interest rates. This position is primarily driven by our floating rate loan portfolio, which reprices frequently, and interest-bearing cash. On a net basis, we generally have more floating/repricing assets than liabilities in the near term. As a result, our current portfolio is more sensitive to moves in short-term interest rates in the near term. Therefore, our net interest income may increase if short-term interest rates rise, or decrease if short-term interest rates decline. An increase in net interest income from a rise in short-term interest rates may be partially offset by lower benefits from the declining PAA, lower level of interest recoveries and pressure on Rail margins. Market-implied forward rates over the future twelve months are used to determine a base interest rate scenario for the net interest income projection for the base case. This base projection is compared with those calculated under varying interest rate scenarios such as a 100 basis point parallel rate shift to arrive at NII Sensitivity.

EVE complements net interest income simulation and sensitivity analysis as it estimates risk exposures beyond a twelve month horizon. EVE modeling measures the extent to which the economic value of assets, liabilities and off-balance sheet instruments may change in response to a fluctuation in interest rates. EVE is calculated by subjecting the balance sheet to different rate shocks, measuring the net value of assets, liabilities and off-balance sheet instruments, and comparing those amounts with the EVE sensitivity base case calculated using a market-based forward interest rate curve. The methodology with which the operating lease assets are assessed in the results table above reflects the existing contractual rental cash flows and the expected residual value at the end of the existing contract term.

64 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

The simulation modeling for both NII Sensitivity and EVE assumes we take no action in response to the changes in interest rates. NII Sensitivity generally assumes cash flows from portfolio run-off are reinvested in similar products or cash to keep the balance sheet static.

A wide variety of potential interest rate scenarios are simulated within our asset/liability management system. All interest sensitive assets and liabilities are valued using discounted cash flow analysis. Rates are shocked up and down via a set of scenarios that include both parallel and non-parallel interest rate movements. Scenarios are also run to capture our sensitivity to changes in the shape of the yield curve. Furthermore, we evaluate the sensitivity of these results to a number of key assumptions, such as credit quality, spreads, and prepayments.

Various holding periods of the operating lease assets are also considered. These range from the current existing lease term to longer terms which assume lease renewals consistent with management's expected holding period of a particular asset. NII Sensitivity and EVE limits have been set and are monitored for certain of the key scenarios. We manage the exposure to changes in NII Sensitivity and EVE in accordance with our risk appetite and within Board approved limits.

We use results of our various interest rate risk analyses to formulate asset and liability management ("ALM") strategies, in coordination with the Asset Liability Committee ("ALCO"), in order to achieve the desired risk profile, while managing our objectives for capital adequacy and liquidity risk exposures. Specifically, we may manage our interest rate risk position through certain pricing strategies for loans and deposits, our investment strategy, issuing term debt with floating or fixed interest rates, and using derivatives such as interest rate swaps, which modify the interest rate characteristics of certain assets or liabilities.

These measurements provide an estimate of our interest rate sensitivity; however, they do not account for potential changes in credit quality, size, and prepayment characteristics of our balance sheet. They also do not account for other business developments that could affect income, or for management actions that could affect income or that could be taken to change our risk profile. Accordingly, we can give no assurance that actual results would not differ materially from the estimated outcomes of our simulations. Further, the range of such simulations does not represent our current view of the expected range of future interest rate movements.

FUNDING AND LIQUIDITY

CIT actively manages and monitors its funding and liquidity sources against relevant limits and targets. These sources satisfy funding and other operating obligations, while also providing protection against unforeseen stress events including unanticipated funding obligations, such as customer line draws, or disruptions to our access to capital markets or other funding sources. Primary sources of liquidity include cash, investment securities and credit facilities as discussed below.

Cash

Cash totaled \$4.1 billion at March 31, 2018, up from \$1.7 billion at December 31, 2017. Cash at March 31, 2018 consisted of \$3.4 billion at CIT Bank, \$0.7 billion related to the bank holding company and other operating subsidiaries. The increase in cash was driven by proceeds from the issuance of unsecured senior and subordinated debt during the quarter and the increase in deposits.

Investment Securities

Investment securities consist primarily of fixed income debt securities. Investment securities decreased by \$0.6 billion in the first quarter to \$5.9 billion at March 31, 2018, reflecting maturities. In addition, we have \$250 million of securities purchased under agreement to resell, up from \$150 million at December 31, 2017. See Note 5 — Investment Securities in Item 1. Consolidated Financial Statements for additional information on types of investment securities.

Liquidity Regulation

The Basel III Final Rule requires banks and BHCs to measure their liquidity against specific liquidity tests. One test, referred to as the liquidity coverage ratio (“LCR”), is designed to ensure that the banking entity maintains an adequate level of unencumbered high-quality liquid assets equal to the entity’s expected net cash outflow for a 30-day time horizon under an acute liquidity stress scenario. Beginning January 1, 2017, the minimum requirement was 100%. At March 31, 2018, our modified LCR was above 100% at both the Bank and on a consolidated basis.

Credit Facilities

At March 31, 2018, we maintained additional liquidity sources in the form of:

A multi-year committed Revolving Credit Facility that has a total commitment of \$500 million, of which approximately \$448 million was available to be drawn; and

Committed securitization facilities and secured bank lines totaled \$2.1 billion, of which \$971 million was unused at March 31, 2018, provided that eligible assets are available that can be funded through these facilities.

Funding Sources

Funding sources consist of deposits and borrowings. See Note 6 — Borrowings in Item 1. Consolidated Financial Statements. The end of period deposits to total funding decreased to 74% at March 31, 2018 from 77% at December 31, 2017. Unsecured borrowings increased to 13% from 10% at December 31, 2017 due to the issuance of unsecured borrowings while redemption of debt did not occur until April as noted below, while secured borrowings totaled 13% in each period.

Table of Contents

See Net Finance Revenue section for a tabular presentation of our average funding mix for the quarter ended March 31, 2018, which was unchanged from the quarter ended December 31, 2017.

Deposits

CIT offers its deposits through various channels. The period end balances are as follows:

Deposits by Channel (dollars in millions)

	March 31, 2018		December 31, 2017	
	Total	Percent of Total	Total	Percent of Total
Online	\$13,227.6	44 %	\$11,756.6	40 %
Branch	11,687.8	38 %	11,665.2	39 %
Brokered	3,442.8	11 %	3,618.3	12 %
Commercial	2,235.7	7 %	2,529.2	9 %
Total	\$30,593.9	100 %	\$29,569.3	100 %

The following table details our period end deposit balances by type:

Deposits (dollars in millions)

	March 31, 2018		December 31, 2017	
	Total	Percent of Total	Total	Percent of Total
Checking and Savings:				
Non-interest bearing checking	\$1,226.5	4 %	\$1,352.0	5 %
Interest bearing checking	2,618.4	9 %	2,653.3	9 %
Money market / Sweeps	6,268.5	20 %	5,075.5	17 %
Savings	6,226.7	20 %	5,986.7	20 %
Time deposits	14,089.3	46 %	14,343.8	49 %
Other	164.5	1 %	158.0	— %
Total	\$30,593.9	100 %	\$29,569.3	100 %

CIT Bank, N.A. offers a full suite of deposit offerings to its commercial and consumer customers through a network of 70 branches in Southern California and a national online platform. Increasing the proportion of deposit funding and lowering costs relative to the index is a key area of focus for CIT. Deposits increased during the quarter, as growth in the online channel offset the decline in higher-cost deposits in the brokered channel and higher beta deposits in the commercial channel. See Net Finance Revenue section for further discussion on average balances and rates.

Borrowings

Borrowings consist of senior unsecured notes, subordinated unsecured notes and secured borrowings (structured financings and FHLB advances), which totaled \$10.4 billion in aggregate at March 31, 2018, up from \$9.0 billion at December 31, 2017, reflecting the issuance of unsecured senior and subordinated borrowings, as noted below. The weighted average coupon rate of borrowings at March 31, 2018 was 3.71%, up from 3.30% at December 31, 2017, reflecting the newly issued unsecured debt.

Periodically, based on market conditions and other factors, and subject to compliance with applicable laws and regulations and terms of our existing indebtedness, including the Revolving Credit Facility, the TRS Facility and senior unsecured borrowings, we may repurchase, exchange or redeem outstanding senior unsecured borrowings, repay the Revolving Credit Facility, TRS Facility or otherwise enter into transactions regarding our debt or capital structure. For example, we may periodically evaluate and engage in liability management transactions, including repurchases of outstanding senior unsecured notes funded by the issuance of, or exchanges of, newly issued unsecured borrowings, as we seek to mitigate refinancing risk by actively managing our debt maturity profile and interest cost.

Unsecured Borrowings

Revolving Credit Facility

There were no borrowings outstanding under the Revolving Credit Facility, which had a total commitment of \$500 million at March 31, 2018, and the amount available to draw upon was approximately \$448 million, with the remaining amount of approximately \$52 million utilized for issuance of letters of credit.

The applicable margin charged under the facility, covenant and guarantor information and amendments made to the facility in connection with the consummation of the Commercial Air Sale is disclosed in Note 6 — Borrowings in Item 1. Consolidated Financial Statements. As of March 31, 2018, the Company was in compliance with the minimum guarantor asset coverage ratio and the minimum Tier 1 Capital requirement.

66 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Senior Unsecured Notes

At March 31, 2018, senior unsecured notes outstanding totaled \$4.7 billion and the weighted average coupon rate was 4.78%, compared to \$3.7 billion and 4.81% at December 31, 2017. During the quarter, CIT issued \$500 million, 4.125% aggregate principal amount of senior unsecured notes due 2021 and \$500 million, 5.25% aggregate principal amount of senior unsecured notes due 2025. In April 2018, \$883 million of the proceeds were used to repay \$500 million of the \$1.0 billion of outstanding 3.875% senior unsecured notes due February 2019 and all of the outstanding \$383 million, 5.500% senior unsecured notes due February 2019. See Note 6 — Borrowings and Note 15 — Subsequent Events in Item 1. Consolidated Financial Statements.

Subordinated Unsecured Notes

During the quarter, CIT issued \$400 million of 10-year subordinated unsecured notes with a coupon of 6.125%.

Secured Borrowings

We may pledge assets for secured financing transactions, which include borrowings from the FHLB and/or FRB, conduit securitizations, or for other purposes as required or permitted by law. Our secured financing transactions do not meet accounting requirements for sale treatment and are recorded as secured borrowings, with the assets remaining on-balance sheet pursuant to GAAP. The debt issued in conjunction with these transactions is collateralized by certain discrete receivables, loans, leases and/or underlying equipment. Certain related cash balances are restricted.

FHLB Advances

CIT Bank is a member of the FHLB of San Francisco and may borrow under a line of credit that is secured by pledged collateral. The Bank makes decisions regarding utilization of advances based upon a number of factors including available collateral, liquidity needs, cost of funds and alternative sources of funding.

FHLB Balances (dollars in millions)

	March 31, 2018	December 31, 2017
Total borrowing capacity	\$5,334.2	\$ 5,217.8
Less:		
Advances	(3,894.5)	(3,695.5)
Letters of credit	(85.8)	(87.8)
Available capacity	\$1,353.9	\$ 1,434.5
Weighted average rate	2.04 %	1.56 %
Pledged assets	\$6,338.6	\$ 6,154.1

FHLB Advances and pledged assets are also discussed in Note 6 — Borrowings in Item 1. Consolidated Financial Statements.

Structured Financings

Structured financings totaled \$1.4 billion at March 31, 2018, and \$1.5 billion at December 31, 2017. The weighted average coupon rate of structured financings was 4.02% at March 31, 2018, up from 3.75% at December 31, 2017, reflecting increases in benchmark rates and repayment of lower coupon debt tranches.

There were no structured financings at CIT Bank, N.A. at March 31, 2018 and \$74 million at December 31, 2017, which were secured by pledged assets of \$0.7 million and \$146 million, respectively. Non-CIT Bank, N.A. structured financings were \$1.4 billion and \$1.4 billion at March 31, 2018 and December 31, 2017, respectively, and were secured by \$4.1 billion of pledged assets at March 31, 2018 and \$4.0 billion of pledged assets at December 31, 2017.

See Note 6 — Borrowings in Item 1. Consolidated Financial Statements for a table displaying our consolidated secured financings and pledged assets and Note 7 — Derivative Financial Instruments for discussion of a total return swap.

FRB

The Company has a borrowing facility with the FRB Discount Window that can be used for short-term, typically overnight, borrowings. The borrowing capacity is determined by the FRB based on the collateral pledged.

There were no outstanding borrowings with the FRB Discount Window as of March 31, 2018 or December 31, 2017. See Note 6 — Borrowings in Item 1. Consolidated Financial Statements for total balances pledged, including amounts to the FRB.

Debt Ratings

Debt ratings can influence the cost and availability of short-and long-term funding, the terms and conditions on which such funding may be available, the collateral requirements, if any, for borrowings and certain derivative instruments, the acceptability of our letters of credit, and the number of investors and counterparties willing to lend to the Company. A decrease, or potential decrease, in credit ratings could impact access to the capital markets and/or increase the cost of debt, and thereby adversely affect the Company's liquidity and financial condition.

CIT and CIT Bank, N.A. debt ratings, as rated by Standard & Poor's Ratings Services ("S&P"), Fitch Ratings, Inc. ("Fitch"), Moody's Investors Service ("Moody's") and DBRS Inc. ("DBRS") are presented in the following table:

CIT GROUP INC. 67

Table of Contents

Ratings

	S&P	Fitch	Moody's	DBRS
Last Credit Update CIT Group Inc.	3/14/18	1/10/18	4/2/18	4/4/18
Issuer Rating	BB+	BB+	N/A	BB (high)
Long Term Senior Unsecured Debt	BB+	BB+	Ba2	BB (high)
Short Term Instruments	B	B	NR	R-4
Revolving Credit Facility Rating	N/A	BB+	Ba2	BBB (low)
Subordinated Debt	BB	BB	Ba2	BB
Non-Cumulative Perpetual Stock	B+	B	B1	B(high)
Outlook	Stable	Stable	Positive	Positive
CIT Bank, N.A.

Deposit Rating (LT/ST)	N/A	BBB-/F3	Baa2/P-2	BBB (low) / R-2 (mid)
Outlook	Stable	Stable	Positive	Positive
N/A — Not Applicable				

Rating agencies indicate that they base their ratings on many quantitative and qualitative factors, including capital adequacy, liquidity, asset quality, business mix, level and quality of earnings, and the current operating, legislative and regulatory environment, including implied government support. In addition, rating agencies themselves have been subject to scrutiny arising from the financial crisis and could make or be required to make substantial changes to their ratings policies and practices, particularly in response to legislative and regulatory changes, including as a result of provisions in the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"). Potential changes in rating methodology as well as in the legislative and regulatory environment and the timing of those changes could impact our ratings, which as noted above could impact our liquidity and financial condition.

A debt rating is not a recommendation to buy, sell or hold securities, and the ratings are subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

Contractual Commitments

Commitment Expiration for the Twelve Months Ended March 31 (dollars in millions)

	Total	2019	2020	2021	2022	2022+
Financing commitments	\$6,707.8	\$2,018.1	\$961.3	\$1,182.3	\$1,165.9	\$1,380.2
Rail and other purchase commitments	280.4	252.9	27.5	—	—	—
Letters of credit	258.9	46.1	47.9	33.8	73.4	57.7
Deferred purchase agreements	1,870.6	1,870.6	—	—	—	—
Guarantees, acceptances and other recourse obligations	2.1	2.1	—	—	—	—
Liabilities for unrecognized tax benefits ⁽¹⁾	13.2	1.0	12.2	—	—	—
Total contractual commitments	\$9,133.0	\$4,190.8	\$1,048.9	\$1,216.1	\$1,239.3	\$1,437.9

⁽¹⁾ The balance for 2020 reflects the remaining balance, which cannot be estimated further.

Financing commitments increased from \$6.4 billion at December 31, 2017 to \$6.7 billion at March 31, 2018.

Financing commitments include commitments that have been extended to and accepted by customers or agents, but on which the criteria for funding have not been completed of \$1.5 billion at March 31, 2018. Also included are Business Capital credit line agreements, with an amount available of \$105 million, net of the amount of receivables assigned to us. These are cancellable by CIT only after a notice period.

At March 31, 2018, substantially all our undrawn financing commitments were senior facilities, with approximately 84% secured by commercial equipment or other assets, and the remainder comprised of cash flow or enterprise value facilities. Most of our undrawn and available financing commitments are in the Commercial Finance division of Commercial Banking. The top ten undrawn commitments totaled \$581 million at March 31, 2018. The table above includes approximately \$2.2 billion of undrawn financing commitments at March 31, 2018 for instances where the customer is not in compliance with contractual obligations or does not have the adequate collateral to borrow against the unused facility, and therefore CIT does not have a contractual obligation to lend under such financing commitments.

See Note 12 — Commitments in Item 1. Consolidated Financial Statements for further detail.

CAPITAL

Capital Management

CIT manages its capital position to ensure that it is sufficient to: (i) support the risks of its businesses, (ii) maintain a “well-capitalized” status under regulatory requirements, and (iii) provide flexibility to take advantage of future investment opportunities. Capital in excess of these requirements is available to distribute to shareholders, subject to a “non-objection” to our capital plan from the FRB.

68 Item 2. Management’s Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

CIT uses a combination of capital metrics and related thresholds to measure capital adequacy and takes into account the existing regulatory capital framework. CIT further evaluates capital adequacy through the enterprise stress testing and economic capital (“ECAP”) approaches.

CIT is subject to enhanced prudential standards under the Dodd-Frank Act. Among other requirements, CIT is subject to capital planning and stress testing requirements under the FRB’s Regulation Y and Regulation YY, which requires CIT to submit an annual capital plan and demonstrate that it can meet minimum capital requirements over a nine quarter planning horizon under multiple stress scenarios.

CIT submitted its 2017 Capital Plan dated April 5, 2017 (“Original Plan”) under the 2017 Comprehensive Capital Analysis and Review (“CCAR”) to the FRB on April 5, 2017 and on June 28, 2017, received a non-objection to the plan. The plan included a quarterly cash dividend of up to \$0.16 per share and common stock repurchases of up to \$225 million for the four quarters ending June 30, 2018, including up to \$25 million of common share repurchases to offset dilution from issuances pursuant to CIT’s employee stock plans. Entering 2018, CIT had up to \$100 million remaining under this plan, inclusive of the \$25 million related to employee stock plans. On February 1, 2018, the Company received a “non-objection” from the FRBNY to an amendment to the Original Plan (the “Amended Capital Plan”). The Amended Capital Plan includes (i) the issuance of up to \$400 million in Tier 2 qualifying subordinated debt (which was completed in March 2018); and (ii) an increase in common equity distribution of up to \$800 million (as a result of issuing the subordinated debt) for the remainder of the four-quarter period that began July 1, 2017 and ends on June 30, 2018.

The Company will determine the timing and amount of any share repurchases, special dividends, or combination of the two that may be authorized based on market conditions and other considerations. Any share repurchases may be effected through tender offer, in the open market, through derivative, accelerated repurchase and other negotiated transactions, and through plans designed to comply with Rule 10b5-1(c) under the Securities Exchange Act of 1934. See Return of Capital below for shares repurchased during the first quarter and Note 15 - Subsequent Events in Item 1. Consolidated Financial Statements for description of an equity tender announced in April 2018.

CIT’s capital management is discussed further in its Annual Report on Form 10-K for the year ended December 31, 2017 in the “Regulation” section of Item 1. Business Overview with respect to capital and regulatory matters, including “Capital Requirements” and “Stress Test and Capital Plan Requirements”.

Return of Capital

During the quarter, CIT repurchased a total of \$194.9 million in common shares via open market repurchases of 3,665,866 common shares at an average share price of \$53.16. As of March 31, 2018, CIT had up to \$705 million of repurchases remaining, including \$25 million related to employee stock ownership plans, which can be executed by the end of the first half of 2018 under current authorizations. The Company has purchased in the open market an additional \$71 million, or 1.4 million shares, at an average repurchase price of \$51.86 through April 24. On April 26, 2018, the Company initiated a common stock tender offer for up to \$500 million of stock. See Note 15 - Subsequent Events in Item 1. Consolidated Financial Statements for additional information.

We declared and paid the following common stock dividend in the first quarter of 2018:
2018 Common Stock Dividends

Declaration Date	Payment Date	Per Share Dividend
------------------	--------------	-----------------------

January 22, 2018 February 23, 2018 \$0.16

On April 16, 2018, the Board of Directors of the Company (the “CIT Board”) declared a quarterly cash dividend in the amount of \$0.16 per common share, payable on May 25, 2018 to common shareholders of record on May 11, 2018.

On April 16, 2018, the CIT Board declared a semi-annual dividend in the amount of \$29.00 per share on the Series A preferred stock, payable on June 15, 2018 to preferred stockholders of record at the close of business on May 31, 2018.

Capital Composition and Ratios

The Company is subject to various regulatory capital requirements. We compute capital ratios in accordance with Federal Reserve capital guidelines for assessing adequacy of capital. The regulatory capital guidelines applicable to the Company were based on the Basel III Final Rule through December 31, 2017. At March 31, 2018 and December 31, 2017, the capital ratios of the Company and the Bank exceeded all capital adequacy requirements under the Basel III Final Rule on a fully phased-in basis.

In November 2017, the Federal Reserve Board, together with the OCC and FDIC adopted a final rule effective January 1, 2018 to extend the regulatory capital treatment under 2017 transition provisions for certain items, applicable to banking organizations that are not subject to advanced approaches capital rules (“Transition Final Rule”). These items include regulatory capital deductions, risk weights, and certain minority interest limitations. There were no items that exceeded the deduction threshold at March 31, 2018, for CIT and CIT Bank, therefore balances and ratios were the same for the transition basis and fully-phased-in basis.

At March 31, 2018 and December 31, 2017, the capital ratios of the Company and the Bank exceeded all capital adequacy requirements. The December balances in the following table present amounts in effect as of that period.

Table of Contents

Capital Components, Risk-Weighted Assets, and Capital Ratios (dollars in millions, except ratios)

	March 31, 2018	December 31, 2017		
	Fully Phased-in Basis ⁽⁵⁾	Transition Basis	Fully Phased-in Basis	
Common Equity Tier 1 (CET1) Capital

Tier 1 Leverage Ratio	11.6	% 11.8	% 11.8	%

(1) See Consolidated Balance Sheets for the components of Total common stockholders' equity.

(2) Goodwill and intangible assets deductions also reflect the portion included within assets held for sale and assets of discontinued operations.

Represents covered funds deductions required by the Volcker Rule. The balance as of December 31, 2017 also

(3) includes 20% of the deduction on DTAs arising from net operating loss and tax credit carryforwards applied to Additional Tier 1 Capital under transition basis.

(4) "Other reserves" represents additional credit loss reserves for unfunded lending commitments, letters of credit, and deferred purchase agreements, all of which are recorded in Other Liabilities.

(5) At March 31, 2018, the Transition Basis and the Fully Phased-in Basis were the same, as described in the paragraphs preceding this table.

The reconciliation of balance sheet assets to risk-weighted assets is presented below:

Risk-Weighted Assets (dollars in millions)

	March 31, 2018	December 31, 2017
Balance sheet assets	\$51,542.5	\$ 49,278.7
Risk weighting adjustments to balance sheet assets	(12,372.3)	(10,230.4)
Off-Balance sheet items	5,607.6	5,489.4
Risk-Weighted Assets	\$44,777.8	\$ 44,537.7

The 2018 off-balance sheet items primarily reflect \$2.9 billion of unused lines of credit (largely related to the Commercial Finance and Real Estate Finance divisions), \$1.9 billion of deferred purchase agreements (related to the Business Capital division), and \$0.8 billion of other items. The risk-weighted assets for off-balance sheet items as of March 31, 2018 increased slightly from December 31, 2017 mainly due to the unused lines of credit. See Note 12 — Commitments in Item 1. Consolidated Financial Statements for further detail on commitments.

70 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

Tangible Book Value and per Share Amounts (dollars in millions, except per share amounts)

	March 31, December 31,	
	2018	2017
Total common stockholders' equity	\$6,801.8	\$ 6,995.0
Less: Goodwill	(369.9)	(369.9)
Intangible assets	(107.0)	(113.0)
Tangible book value ⁽¹⁾	\$6,324.9	\$ 6,512.1
Book value per share	\$52.97	\$ 53.25
Tangible book value per share ⁽¹⁾	\$49.25	\$ 49.58

⁽¹⁾ Tangible book value and tangible book value per share are non-GAAP measures.

Book value and tangible book value ("TBV") decreased from December 31, 2017, primarily reflecting the capital actions completed through March 31, 2018. Book value and TBV per share decreased, as the 3.7 million common shares repurchased during the quarter, which were at amounts in excess of book value, and unrealized net losses on available for sale securities were only partially offset by net income for the quarter and the reduced share count.

CIT BANK, N.A.

The following presents condensed financial information for CIT Bank, N.A. Trends and significant items are discussed in the previous sections of the MD&A.

Condensed Balance Sheets (dollars in millions)

	March 31, 2018	December 31, 2017

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to use judgment in making estimates and assumptions that affect reported amounts of assets and liabilities, reported amounts of income and expense and the disclosure of contingent assets and liabilities. The following estimates, which are based on relevant information available at the end of each period, include inherent risks and uncertainties related to judgments and assumptions made. We consider the estimates to be critical in applying our accounting policies, due to the existence of uncertainty at the time the estimate is made, the likelihood of changes in estimates from period to period and the potential impact on the financial statements.

Management believes that the judgments and estimates utilized in the following critical accounting estimates are reasonable. We do not believe that different assumptions are more likely than those utilized, although actual events may differ from such assumptions. Consequently, our estimates could prove inaccurate, and we may be exposed to charges to earnings that could be material.

Allowance for Loan Losses Liabilities for Uncertain Tax Positions

Loan Impairment Realizability of Deferred Tax Assets

Fair Value Determination Contingent Liabilities

Lease Residual Values Goodwill Assets

The determination of goodwill impairment requires significant judgment and the consideration of past and current performance and overall macroeconomic and regulatory environments. There is risk that if the Company does not meet forecasted financial results, such as asset volume and returns and deposit growth and rate projections, there could be incremental goodwill impairment. In addition to financial results, other inputs to the valuation, such as the discount rate and market assumptions, including stock prices of comparable companies, could negatively affect the estimated fair value of the reporting units in the future. Refer to Note 26 - Goodwill and Intangible Assets in Item 8. Financial Statements and Supplementary Data in our Annual Report on Form 10-K for the year ended December 31, 2017 for a detailed description of the key assumptions used to identify and quantify goodwill impairment, if applicable.

There have been no significant changes to the methodologies and processes used in developing estimates relating to these items from those described in our Annual Report on Form 10-K for the year ended December 31, 2017.

NON-GAAP FINANCIAL MEASUREMENTS

The SEC adopted regulations that apply to any public disclosure or release of material information that includes a non-GAAP financial measure. A non-GAAP financial measure is a numerical measure of a company's historical or future financial performance or financial position that may either exclude or include amounts, or is adjusted in some way to the effect of including or excluding, as compared to the most directly comparable measure calculated and presented in accordance with GAAP financial statements.

The accompanying Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosure about Market Risk contain certain non-GAAP financial measures. We intend our non-GAAP financial measures to provide additional information and insight regarding operating results and financial position of the business and in certain cases to provide financial information that is presented to rating agencies and other users of financial information.

These non-GAAP measures are not in accordance with, or a substitute for, GAAP and may be different from or inconsistent with non-GAAP financial measures used by other companies.

1. Total Net Revenue, Net Finance Revenue, and Net Operating Lease Revenue

Total net revenue is a non-GAAP measure that represents the combination of net finance revenue and other non-interest income and is an aggregation of all sources of revenue for the Company. The source of the data is various statement of income line items, arranged in a different order, and with different subtotals than included in the statement of income, and therefore is considered non-GAAP. Total net revenue is used by management to monitor business performance and is used by management to calculate a net efficiency ratio, as discussed below.

NFR is a non-GAAP measure that represents the level of revenue earned on our loans and leases. NFR is another key performance measure used by management to monitor portfolio performance. NFR is also used to calculate a performance margin, NFM.

Due to the nature of our loans and leases, which include a higher proportion of operating lease equipment than most BHCs, certain financial measures commonly used by other BHCs are not as meaningful for our Company. As such, given our asset composition includes a high level of operating lease equipment, NFM as calculated below is used by management, compared to net interest margin ("NIM") (a common metric used by other bank holding companies), which does not fully reflect the earnings of our portfolio because it includes the impact of debt costs of all our assets but excludes the net operating lease revenue.

Net operating lease revenue is a non-GAAP measure that represents the combination of rental income on operating leases less depreciation on operating lease equipment and maintenance and other operating lease expenses. The net operating lease revenues measurement is used by management to monitor portfolio performance and returns on its purchased equipment.

Total Net Revenue and Net Operating Lease Revenue (dollars in millions)

Quarters Ended		
March 31,	December 31,	March 31,
2018	2017	2017

Edgar Filing: CIT GROUP INC - Form 10-Q

Interest income	\$451.2	\$ 447.7	\$455.7

CIT GROUP INC. 75

Table of Contents

2. Operating Expenses and Net Efficiency Ratio, Excluding Certain Costs

A key performance metric the Company uses to gauge the level of expenses is in comparison to the AEA. A decline in this metric could show improvement, i.e. expenses not going up at the same rate of asset growth, or decreasing at a rate in excess of asset decline. Operating expenses excluding restructuring costs and intangible asset amortization is a non-GAAP measure used by management to compare period over period expenses. Another key performance metric gauges our expense usage via our net efficiency calculation. This calculation compares the level of expenses to the level of net revenues and is calculated by dividing the operating expenses by total net revenue, as presented below. A lower result reflects a more efficient use of our expenses to generate revenue. Net efficiency ratio is a non-GAAP measurement used by management to measure operating expenses (before restructuring costs and intangible amortization) to total net revenues. We exclude the recurring items from these calculations as they are charges resulting from our strategic initiatives and not our operating activity, and exclude the noteworthy items due to their episodic nature and size. Due to the exclusions of the mentioned items, and in certain instances, other noteworthy items, these are considered non-GAAP measures, as presented in the reconciliation below.

Operating Expenses Excluding Certain Costs (dollars in millions)

	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Operating Expenses			
Operating expenses	\$281.3	\$ 304.0	\$311.6
Intangible asset amortization	6.0	6.1	6.2
Restructuring costs	—	31.9	14.8
Operating expenses excluding restructuring costs, intangible assets amortization, and other noteworthy items (Non-GAAP)	\$275.3	\$ 266.0	\$ 290.6
Operating expenses (excluding restructuring costs and intangible assets amortization) as a % of AEA (excluding noteworthy items)	2.43 %	2.39 %	2.49 %
Total Net Revenue (Non-GAAP)	\$495.2	\$ 536.6	\$495.7
Suspended depreciation on assets HFS	(9.3)	(8.8)	—
LIHTC accounting policy change	—	(29.4)	—
CTA charge	—	—	8.1
Total Net Revenue, excluding noteworthy items (Non-GAAP)	\$485.9	\$ 498.4	\$ 503.8
Net Efficiency Ratio	55.6 %	49.6 %	58.6 %
Net Efficiency Ratio excluding noteworthy items	56.7 %	53.4 %	57.7 %

3. Other Non-Interest Income

Other non-interest income serves as a source of revenue for CIT. Management monitors the level absent certain items to assist in comparability with prior period levels. We exclude the noteworthy items due to their episodic nature and size. Due to the exclusions of noteworthy items, these are considered non-GAAP measures, as presented in the reconciliation below.

Other Non-Interest Income (dollars in millions)

	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Other non-interest income	\$104.7	\$ 137.2	\$ 79.1

Edgar Filing: CIT GROUP INC - Form 10-Q

CTA charge	—	—	8.1

Table of Contents

4. Earning Assets and Average Earning Assets (“AEA”)

Earning asset balances displayed in the table below are directly derived from the respective line items in the balance sheet. These represent revenue generating assets, and the average (AEA) of which provides a basis for management performance calculations such as NFM and operating expenses as a percentage of AEA. The average is derived using month end balances for the respective period. Because the balances are used in aggregate, as well the average, there are no direct comparative balances on the balance sheet, therefore these are considered non-GAAP measures.

Earning Assets (dollars in millions)

Period End Earning Assets	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017

5. Tangible Book Value, ROTCE and Tangible Book Value per Share

Tangible book value (TBV, also referred to as tangible common equity), return on tangible common equity (ROTCE), and TBV per share are considered key financial performance measures by management, and are used by other financial institutions. TBV, as calculated and used by management, represents CIT's common stockholders' equity, less goodwill and intangible assets. ROTCE measures CIT's net income applicable to common shareholders as a percentage of average tangible common equity. This measure is useful for evaluating the performance of CIT as it calculates the return available to common shareholders without the impact of intangible assets and deferred tax assets. The average adjusted tangible common equity is derived using averages of balances presented, based on month end balances for the period. TBV per share is calculated dividing TBV by the outstanding number of common shares. TBV, ROTCE and TBV per share are measurements used by management and users of CIT's financial data in assessing CIT's use of equity. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income.

CIT management believes TBV, ROTCE and TBV per share are important measures for comparative purposes with other institutions, but are not defined under U.S. GAAP, and therefore considered non-GAAP financial measures.

To provide further information, management included ROTCE calculations, ROTCE calculations excluding noteworthy items and adjusted for the previously disclosed return of capital of common equity to shareholders from the net proceeds of the Commercial Air sale.

Tangible Book Value (dollars in millions)

6. Net income excluding noteworthy items and income from continuing operations excluding noteworthy items

Net income excluding noteworthy items and income from continuing operations excluding noteworthy items are non-GAAP measures used by management as each excludes items from the respective line item in the GAAP statement of income. Due to volume and size of noteworthy items, the Company believes that adjusting for these items provides the user of CIT's financial information a measure of the underlying performance of the Company and of continuing operations specifically. The non-GAAP noteworthy items are summarized in the following categories: significant due to the magnitude of the transaction; transactions pertaining to items no longer considered core to CIT's on-going operations (i.e. sales of Non-Strategic Portfolios); legacy

78 Item 2. Management's Discussion and Analysis and Item 3. Quantitative and Qualitative Disclosures about Market Risk

Table of Contents

OneWest Bank issues prior to CIT's ownership; and recurring items consistently noted in other non-GAAP measures, even though balance may not have been significant.

Table of Contents

7. Effective Tax Rate Reconciliation

The provision for income taxes before noteworthy items and separately, tax only discrete items and the respective effective tax rate are non-GAAP measures, which management uses for analytical purposes to understand the Company's underlying tax rate. Noteworthy items are presented in item 6 above, and discussed in various sections of the MD&A. The tax discrete items are discussed in the Income Tax section.

Effective Tax Rate Reconciliation - Noteworthy Items	Quarters Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Provision for income taxes - GAAP	\$41.3	\$ 27.7	\$ 56.2

Effective tax rate, before noteworthy and tax discrete items - Non-GAAP	27.3 %	39.4 %	31.9 %

8. Regulatory

Included within this Form 10-Q are risk-weighted assets (RWA), risk-based capital and leverage ratios as calculated under Basel III capital guidelines. For banking industry regulatory reporting purposes, we report our capital in accordance with Transitional Requirements, but also monitor our capital based on a fully phased-in methodology. Such measures are considered key regulatory capital measures used by banking regulators, investors and analysts to assess the CIT (as a BHC) regulatory capital position and to compare that to other financial institutions. For information on our capital ratios and requirements, see Note 10 — Regulatory Capital in Item 1. Consolidated Financial Statements, and the Capital section in Item 2. Management's Discussion and Analysis.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this document are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, as amended. All statements contained herein that are not clearly historical in nature are forward-looking and the words "anticipate," "believe," "could," "expect," "estimate," "forecast," "intend," "plan," "project," "target" and similar expressions are generally intended to identify forward-looking statements. Any forward-looking statements contained herein, in press releases, written statements or other documents filed with the Securities and Exchange Commission or in communications and discussions with investors and analysts in the normal course of business through meetings, webcasts, phone calls and conference calls, concerning our operations, economic performance and financial condition are subject to known and unknown risks, uncertainties and contingencies. Forward-looking statements are included, for example, in the discussions about:

-

our liquidity risk and capital management, including our capital plan, leverage, capital ratios, and credit ratings, our liquidity plan, and our plans and the potential transactions designed to enhance our liquidity and capital, to repay secured and unsecured debt, to issue qualifying capital instruments, including Tier 1 qualifying preferred stock, and for a return of capital,

our plans to change our funding mix, to access new sources of funding, and to broaden our use of deposit taking capabilities, including increasing our level of commercial deposits and expanding our treasury management services, our pending or potential acquisition and disposition plans, and the integration and restructuring risks inherent in such acquisitions, including our proposed sale of our Financial Freedom reverse mortgage servicing business and reverse mortgage loan portfolio, our Business Air loan portfolio, and NACCO, our European railcar leasing business,

our credit risk management and credit quality,

our asset/liability risk management,

our funding, borrowing costs and net finance revenue,

our operational risks, including risk of operational errors, failure of operational controls, success of systems enhancements and expansion of risk management and control functions,

our mix of portfolio asset classes, including changes resulting from growth initiatives, new business initiatives, new products, acquisitions and divestitures, new business and customer retention,

our legal risks, including the enforceability of our agreements, the impact of legal proceedings, and the impact of changes in laws and regulations,

our growth rates, and

Table of Contents

our commitments to extend credit or purchase equipment.

All forward-looking statements involve risks and uncertainties, many of which are beyond our control, which may cause actual results, performance or achievements to differ materially from anticipated results, performance or achievements expressed or implied in these statements. Forward-looking statements are based upon management's estimates of fair values and of future costs, using currently available information. Factors, in addition to those disclosed in "Risk Factors", that could cause such differences include, but are not limited to:

- risks inherent in deposit funding, including reducing reliance on brokered deposits, increasing commercial deposits and retail non-maturity accounts, and expanding treasury management services,
- risks inherent in capital markets, including liquidity, changes in market interest rates and quality spreads, and our access to secured and unsecured debt and asset-backed securitization markets,
- risks inherent in a return of capital, including risks related to obtaining regulatory approval, the nature and allocation among different methods of returning capital, and the amount and timing of any capital return,
- risks of actual or perceived economic slowdown, downturn or recession, including slowdown in customer demand for credit or increases in non-accrual loans or default rates,
- industry cycles and trends, including in oil and gas, power and energy, telecommunications, information technology, and commercial and residential real estate.
- uncertainties associated with risk management, including evaluating credit, adequacy of reserves for credit losses, prepayment risk, asset/liability risk, interest rate and currency risks, and cybersecurity risks,
- risks of implementing new processes, procedures, and systems, including those required to strengthen internal controls, improve data quality, and reliability, or comply with the additional laws and regulations applicable to systemically important financial institutions, such as the CCAR process, enhanced prudential standards, and Basel III,
- risks associated with the value and recoverability of leased equipment and related lease residual values, including railcars, telecommunications towers, technology and office equipment, information technology equipment, including data centers, and large and small industrial, medical, and transportation equipment,
- risks of failing to achieve the projected revenue growth from new business initiatives or the projected expense reductions from efficiency improvements,
- application of goodwill accounting or fair value accounting in volatile markets,
- regulatory changes and developments, including changes in laws or regulations governing our business and operations, or affecting our assets, including our operating lease equipment or changes in the regulatory environment, whether due to events or factors specific to CIT, or other large multi-national or regional banks, or the industry in general,
- risks associated with dispositions of businesses or asset portfolios, including how to replace the income associated with such businesses or asset portfolios and the risk of residual liabilities from such businesses or portfolios,
- risks associated with acquisitions of businesses or asset portfolios, including integrating and reducing duplication in personnel, policies, internal controls, and systems.

Any or all of our forward-looking statements here or in other publications may turn out to be wrong, and there are no guarantees regarding our performance. We do not assume any obligation to update any forward-looking statement for any reason.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision of and with the participation of management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities and Exchange Act of 1934, as amended (the "Exchange Act") as of March 31, 2018. Based on such evaluation our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part Two — Other Information

Item 1. Legal Proceedings

CIT is currently involved, and from time to time in the future may be involved, in a number of judicial, regulatory, and arbitration proceedings relating to matters that arise in connection with the conduct of its business (collectively, “Litigation”), certain of which Litigation matters are described in Note 13 — Contingencies of Item 1. Consolidated Financial Statements. In view of the inherent difficulty of predicting the outcome of Litigation matters, particularly when such matters are in their early stages or where the claimants seek indeterminate damages, CIT cannot state with confidence what the eventual outcome of the pending Litigation will be, what the timing of the ultimate resolution of these matters will be, or what the eventual loss, fines, or penalties related to each pending matter may be, if any. In accordance with applicable accounting guidance, CIT establishes reserves for Litigation when those matters present loss contingencies as to which it is both probable that a loss will occur and the amount of such loss can be reasonably estimated. Based on currently available information, CIT believes that the results of Litigation that is currently pending, taken together, will not have a material adverse effect on the Company’s financial condition, but may be material to the Company’s operating results or cash flows for any particular period, depending in part on its operating results for that period. The actual results of resolving such matters may be substantially higher than the amounts reserved.

For more information about pending legal proceedings, including an estimate of certain reasonably possible losses in excess of reserved amounts, see Note 13 — Contingencies of Item 1. Consolidated Financial Statements.

Item 1A. Risk Factors

Risk factors remain unchanged during the quarter. For a discussion of risk factors, see Part I, Item 1A. Risk Factors, of CIT’s Annual Report on Form 10-K for the year ended December 31, 2017, and Forward-Looking Statements of this Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were approximately 3.7 million shares of the Company’s common stock repurchased through open market repurchases (OMR) during the quarter ended March 31, 2018 as shown in the following table:

Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs
87,600	\$ 49.62	87,600	

January 1 - 31, 2018			
February 1 - 28, 2018	1,653,519	\$ 52.39	1,653,519
March 1 - 31, 2018	1,924,747	\$ 53.98	1,924,747
Total Purchases	3,665,866		

As of March 31, 2018, CIT had up to \$705 million of repurchases remaining, including \$25 million related to employee stock ownership plans that can be executed by the end of the first half of 2018 under current authorizations. The Company has purchased in the open market an additional \$71 million, 1.4 million shares, at an average repurchase price of \$51.86 through April 24. On April 26, CIT commenced a modified "Dutch auction" cash tender offer to purchase up to \$500 million of its common stock, par value \$0.01 per share. See Note 15 - Subsequent Events in Item 1. Consolidated Financial Statements for additional information.
