August 10, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: June 30, 2017

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-35922

PEDEVCO CORP.
(Exact name of registrant as specified in its charter)

Texas 22-3755993
(State or other jurisdiction of incorporation or organization) (IRS Employer Identification No.)

4125 Blackhawk Plaza Circle, Suite 201
Danville, California 94506
(Address of Principal Executive Offices)

(855) 733-2685
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Edgar Filing: PEDEVCO CORP - Form 10-Q

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

At August 8, 2017, there were 6,084,729 shares of the Registrant's common stock outstanding.

PEDEVCO CORP.

PEDEVCO CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying consolidated financial statements of PEDEVCO CORP. (“PEDEVCO” or the “Company”) have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) and the rules of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with the audited financial statements and notes thereto contained in PEDEVCO’s latest Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements that would substantially duplicate disclosures contained in the audited financial statements for the most recent fiscal year, as reported in the Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC on March 27, 2017, have been omitted.

The Company’s consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and subsidiaries in which the Company has a controlling financial interest. All significant inter-company accounts and transactions have been eliminated in consolidation.

The Company completed a 1-for-10 reverse split of its outstanding common stock, which took effect as of market close on April 7, 2017. All outstanding shares, options, warrants, preferred stock and other securities convertible into the Company’s common stock have been retrospectively adjusted to reflect the reverse stock split as required by the terms of such securities with a proportional increase in the related share or exercise price.

NOTE 2 – DESCRIPTION OF BUSINESS

PEDEVCO’s primary business plan is engaging in the acquisition, exploration, development and production of oil and natural gas shale plays in the United States, with a secondary focus on conventional oil and natural gas plays. The Company’s principal operating properties are located in the Wattenberg, Wattenberg Extension, and Niobrara formation in the Denver-Julesburg Basin (the “D-J Basin” and the “D-J Basin Asset”) in Weld County, Colorado, all of which properties are owned by the Company through its wholly-owned subsidiary, Red Hawk Petroleum, LLC (“Red Hawk”).

The Company plans to focus on the development of shale oil and gas assets held by the Company in its D-J Basin Asset.

The Company plans to seek additional shale oil and gas and conventional oil and gas asset acquisition opportunities in the U.S. utilizing its strategic relationships and technologies that may provide the Company a competitive advantage in accessing and exploring such assets. Some or all of these assets may be acquired by existing subsidiaries or other entities that may be formed at a future date.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation. The consolidated financial statements herein have been prepared in accordance with GAAP and include the accounts of the Company and those of its wholly and partially-owned subsidiaries as follows: (i) Blast AFJ, Inc., a Delaware corporation; (ii) Pacific Energy Development Corp. (“PEDCO”), a Nevada corporation; (iii) Pacific Energy & Rare Earth Limited, a Hong Kong company (which is

currently in the process of being dissolved); (iv) Blackhawk Energy Limited, a British Virgin Islands company (which is currently in the process of being dissolved); (v) White Hawk Petroleum, LLC, a Nevada limited liability company (dissolved on November 30, 2016); (vi) Red Hawk Petroleum, LLC, a Nevada limited liability company; (vii) Pacific Energy Development MSL, LLC (owned 50% by us) (which was dissolved in September 2016) and is included in our consolidated results for the periods prior to its dissolution (“PEDCO MSL”); (viii) PEDEVCO Acquisition Subsidiary, Inc., a Texas corporation which was formed on May 21, 2015 in connection with the planned reorganization transaction with Dome Energy, Inc. (“Dome Energy”), which was subsequently terminated (which was dissolved in April 2016); and (ix) White Hawk Energy, LLC, a Delaware limited liability company, formed on January 4, 2016 in connection with the contemplated reorganization transaction with GOM Holdings, LLC (“GOM”), which reorganization transaction has since been terminated. All significant intercompany accounts and transactions have been eliminated.

F-4

Use of Estimates in Financial Statement Preparation. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as certain financial statement disclosures. While management believes that the estimates and assumptions used in the preparation of the financial statements are appropriate, actual results could differ from these estimates. Significant estimates generally include those with respect to the amount of recoverable oil and gas reserves, the fair value of financial instruments, oil and gas depletion, asset retirement obligations, and stock-based compensation.

Cash and Cash Equivalents. The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. As of June 30, 2017, and December 31, 2016, cash equivalents consisted of money market funds and cash on deposit.

Concentrations of Credit Risk. Financial instruments which potentially subject the Company to concentrations of credit risk include cash deposits placed with financial institutions. The Company maintains its cash in bank accounts which, at times, may exceed federally insured limits as guaranteed by the Federal Deposit Insurance Corporation ("FDIC"). At June 30, 2017, approximately \$391,000 of the Company's cash balances were uninsured. The Company has not experienced any losses on such accounts.

Sales to one customer comprised 56% of the Company's total oil and gas revenues for the six months ended June 30, 2017. Sales to one customer comprised 58% of the Company's total oil and gas revenues for the six months ended June 30, 2016. The Company believes that, in the event that its primary customers are unable or unwilling to continue to purchase the Company's production, there are a substantial number of alternative buyers for its production at comparable prices.

Accounts Receivable. Accounts receivable typically consist of oil and gas receivables. The Company has classified these as short-term assets in the balance sheet because the Company expects repayment or recovery within the next 12 months. The Company evaluates these accounts receivable for collectability considering the results of operations of these related entities and, when necessary, records allowances for expected unrecoverable amounts. To date, no allowances have been recorded. Included in accounts receivable - oil and gas is \$-0- related to receivables from joint interest owners.

Bad Debt Expense. The Company's ability to collect outstanding receivables is critical to its operating performance and cash flows. Accounts receivable are stated at an amount management expects to collect from outstanding balances. The Company extends credit in the normal course of business. The Company regularly reviews outstanding receivables and when the Company determines that a party may not be able to make required payments, a charge to bad debt expense in the period of determination is made. Though the Company's bad debts have not historically been significant, the Company could experience increased bad debt expense should a financial downturn occur.

Equipment. Equipment is stated at cost less accumulated depreciation and amortization. Maintenance and repairs are charged to expense as incurred. Renewals and betterments which extend the life or improve existing equipment are capitalized. Upon disposition or retirement of equipment, the cost and related accumulated depreciation are removed and any resulting gain or loss is reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are 3 to 10 years.

Oil and Gas Properties, Successful Efforts Method. The successful efforts method of accounting is used for oil and gas exploration and production activities. Under this method, all costs for development wells, support equipment and facilities, and proved mineral interests in oil and gas properties are capitalized. Geological and geophysical costs are expensed when incurred. Costs of exploratory wells are capitalized as exploration and evaluation assets pending determination of whether the wells find proved oil and gas reserves. Proved oil and gas reserves are the estimated quantities of crude oil and natural gas which geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, (i.e., prices and costs as of the date the estimate is made). Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

Exploratory wells in areas not requiring major capital expenditures are evaluated for economic viability within one year of completion of drilling. The related well costs are expensed as dry holes if it is determined that such economic viability is not attained. Otherwise, the related well costs are reclassified to oil and gas properties and subject to impairment review. For exploratory wells that are found to have economically viable reserves in areas where major capital expenditure will be required before production can commence, the related well costs remain capitalized only if additional drilling is under way or firmly planned. Otherwise the related well costs are expensed as dry holes.

Exploration and evaluation expenditures incurred subsequent to the acquisition of an exploration asset in a business combination are accounted for in accordance with the policy outlined above.

Depreciation, depletion and amortization of capitalized oil and gas properties is calculated on a field by field basis using the unit of production method. Lease acquisition costs are amortized over the total estimated proved developed and undeveloped reserves and all other capitalized costs are amortized over proved developed reserves.

Impairment of Long-Lived Assets. The Company reviews the carrying value of its long-lived assets annually or whenever events or changes in circumstances indicate that the historical cost-carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of the asset by estimating the future net undiscounted cash flows expected to result from the asset, including eventual disposition. If the future net undiscounted cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and estimated fair value.

Asset Retirement Obligations. If a reasonable estimate of the fair value of an obligation to perform site reclamation, dismantle facilities or plug and abandon wells can be made, the Company will record a liability (an asset retirement obligation or "ARO") on its consolidated balance sheet and capitalize the present value of the asset retirement cost in oil and gas properties in the period in which the retirement obligation is incurred. In general, the amount of an ARO and the costs capitalized will be equal to the estimated future cost to satisfy the abandonment obligation assuming the normal operation of the asset, using current prices that are escalated by an assumed inflation factor up to the estimated settlement date, which is then discounted back to the date that the abandonment obligation was incurred using an assumed cost of funds for the Company. After recording these amounts, the ARO will be accreted to its future estimated value using the same assumed cost of funds and the capitalized costs are depreciated on a unit-of-production basis over the estimated proved developed reserves. Both the accretion and the depreciation will be included in depreciation, depletion and amortization expense on our consolidated statements of operations.

The following table describes changes in our asset retirement obligations during the six months ended June 30, 2017 and 2016 (in thousands):

2017 2016

Edgar Filing: PEDEVCO CORP - Form 10-Q

Asset retirement obligations at January 1	\$246	\$189
Accretion expense	33	14
Obligations incurred for acquisition	-	19
Changes in estimates	(1)	(9)
Asset retirement obligations at June 30	\$278	\$213

Revenue Recognition. All revenue is recognized when persuasive evidence of an arrangement exists, the service or sale is complete, the price is fixed or determinable and collectability is reasonably assured. Revenue is derived from the sale of crude oil and natural gas. Revenue from crude oil and natural gas sales is recognized when the product is delivered to the purchaser and collectability is reasonably assured. The Company follows the “sales method” of accounting for oil and natural gas revenue, so it recognizes revenue on all natural gas or crude oil sold to purchasers, regardless of whether the sales are proportionate to its ownership in the property. A receivable or liability is recognized only to the extent that the Company has an imbalance on a specific property greater than its share of the expected remaining proved reserves. If collection is uncertain, revenue is recognized when cash is collected.

F-6

Income Taxes. The Company utilizes the asset and liability method in accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for operating loss and tax credit carry-forwards and for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not that the value of such assets will be realized.

Stock-Based Compensation. The Company utilizes the Black-Scholes option pricing model to estimate the fair value of employee stock option awards at the date of grant, which requires the input of highly subjective assumptions, including expected volatility and expected life. Changes in these inputs and assumptions can materially affect the measure of estimated fair value of our share-based compensation. These assumptions are subjective and generally require significant analysis and judgment to develop. When estimating fair value, some of the assumptions will be based on, or determined from, external data and other assumptions may be derived from our historical experience with stock-based payment arrangements. The appropriate weight to place on historical experience is a matter of judgment, based on relevant facts and circumstances.

The Company estimates volatility by considering the historical stock volatility. The Company has opted to use the simplified method for estimating expected term, which is generally equal to the midpoint between the vesting period and the contractual term.

Loss per Common Share. Basic loss per common share equals net loss divided by weighted average common shares outstanding during the period. Diluted loss per share includes the impact on dilution from all contingently issuable shares, including options, warrants and convertible securities. The common stock equivalents from contingent shares are determined by the treasury stock method. The Company incurred net losses for the six months ended June 30, 2017 and 2016, and therefore, basic and diluted loss per share for those periods are the same as all potential common equivalent shares would be anti-dilutive. The Company excluded 451,614 and 342,734 potentially issuable shares of common stock related to options, 1,248,045 and 1,376,609 potentially issuable shares of common stock related to warrants and 144,822 and 133,422 potentially issuable shares of common stock related to the conversion of Bridge Notes due to their anti-dilutive effect for the six months ended June 30, 2017 and 2016, respectively.

Fair Value of Financial Instruments. The Company follows Fair Value Measurement (“ASC 820”), which clarifies fair value as an exit price, establishes a hierarchal disclosure framework for measuring fair value, and requires extended disclosures about fair value measurements. The provisions of ASC 820 apply to all financial assets and liabilities measured at fair value.

As defined in ASC 820, fair value, clarified as an exit price, represents the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As a result, fair value is a market-based approach that should be determined based on assumptions that market participants would use in pricing an asset or a liability.

As a basis for considering these assumptions, ASC 820 defines a three-tier value hierarchy that prioritizes the inputs used in the valuation methodologies in measuring fair value.

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

F-7

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Recently Issued Accounting Pronouncements. In August 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-15, Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. The new standard requires management to assess the company’s ability to continue as a going concern. Disclosures are required if there is substantial doubt as to the Company’s continuation as a going concern within one year after the issue date of financial statements. The standard provides guidance for making the assessment, including consideration of management’s plans which may alleviate doubt regarding the Company’s ability to continue as a going concern. ASU 2014-15 is effective for years ending after December 15, 2016. The Company adopted this standard for the six months ended June 30, 2017 and the year ended December 31, 2016, and management has concluded that there is substantial doubt as to the Company’s continuation as a going concern within one year after the issue date of the financial statements.

In May 2014, the FASB issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The standard’s core principle (issued as ASU 2014-09 by the FASB), is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The new guidance must be adopted using either a full retrospective approach for all periods presented in the period of adoption or a modified retrospective approach. In August 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU 2014-09 by one year, and would allow entities the option to early adopt the new revenue standard as of the original effective date. This ASU is effective for public reporting companies for interim and annual periods beginning after December 15, 2017. The Company has evaluated the adoption of the standard and due to the nature of the Company’s oil and gas revenue agreements method there will be no impact of the standard on its consolidated financial statements.

In April 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing” (topic 606). In March 2016, the FASB issued ASU No. 2016-08, “Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net)” (topic 606). These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09, “Revenue from Contracts with Customers”. The amendments in ASU 2016-10 provide clarifying guidance on materiality of performance obligations; evaluating distinct performance obligations; treatment of shipping and handling costs; and determining whether an entity's promise to grant a license provides a customer with either a right to use an entity's intellectual property or a right to access an entity's intellectual property. The amendments in ASU 2016-08 clarify how an entity should identify the specified good or service for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. The adoption of ASU 2016-10 and ASU 2016-08 is to coincide with an entity's adoption of ASU 2014-09, which would be adopted for interim and annual reporting periods beginning after December 15, 2017. The Company has evaluated the adoption of the standard and due to the nature of the Company’s oil and gas revenue agreements method there will be no impact of the standard on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, a new lease standard requiring lessees to recognize lease assets and lease liabilities for most leases classified as operating leases under previous U.S. GAAP. The guidance is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company will be required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. The Company has evaluated the adoption of the standard and due to only one operating lease currently in place there will be minimal impact of the standard on its consolidated financial statements.

In April 2016, the FASB issued ASU No. 2016-09, “Compensation – Stock Compensation” (topic 718). The FASB issued this update to improve the accounting for employee share-based payments and affect all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment award transactions are simplified, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. The updated guidance is effective for annual periods beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption of the update is permitted. The Company has evaluated the adoption of the standard and due to the nature of the Company’s employee share-based payments there will be no impact of the standard on its consolidated financial statements.

F-8

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments” (“ASU 2016-15”). ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017. The new standard will require adoption on a retrospective basis unless it is impracticable to apply, in which case it would be required to apply the amendments prospectively as of the earliest date practicable. The Company is currently in the process of evaluating the impact of ASU 2016-15 on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows (Topic 230)”, requiring that the statement of cash flows explain the change in the total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. This guidance is effective for fiscal years, and interim reporting periods therein, beginning after December 15, 2017 with early adoption permitted. The provisions of this guidance are to be applied using a retrospective approach which requires application of the guidance for all periods presented. The Company is currently evaluating the impact of the new standard.

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on its financial position, results of operations, or cash flows.

Subsequent Events. The Company has evaluated all transactions through the date the consolidated financial statements were issued for subsequent event disclosure consideration.

NOTE 4 – GOING CONCERN

Although the Company’s senior Tranche A Notes (as defined and discussed below under “Note 8 – Notes Payable – 2016 Senior Note Restructuring”) do not mature until May 11, 2019 and all of the Company’s other debt expressly subordinated thereto due, June 11, 2019, at the earliest, with no amounts due or owing under such subordinated debt until such date, with the exception of the New MIEJ Note (as defined and discussed below under “Note 8 – Notes Payable – MIE Jurassic Energy Corporation”), which matures on March 8, 2019 and with interest accruing thru March 8, 2018 being payable on such date, the realization of the Company’s assets and satisfaction of its liabilities remains contingent on the completion of a future financing. The Company anticipates that it will need approximately \$11 million in 2017 to execute its current business plan and is currently actively negotiating the necessary financing. In the event that the Company is unable to complete the financing currently under consideration, and is otherwise unable to replace such financing on a timely basis, it would materially affect the Company’s ability to continue as a going concern. If such financing is not completed, among other things, the Company expects that it would incur an impairment of its oil and gas properties in the range of \$27 million and the Company’s ability to meet its obligations from existing cash flows would be significantly affected. If the Company would be required to seek financing from other sources, such financings may not be available or, if available, may not be on terms acceptable to the Company or its existing lenders. Accordingly, the consolidated financial statements do not include any adjustments related to the recoverability of assets or classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon its ability to raise capital to meet its debt obligations, working capital needs, and develop its oil and gas properties to attain profitable operations. Management has concluded that there is substantial doubt as to the Company’s ability to continue as a going concern within one year after the issuance date of these financial statements.

NOTE 5 – OIL AND GAS PROPERTIES

The following table summarizes the Company’s oil and gas activities by classification for the six months ended June 30, 2017 and the year ended December 31, 2016:

F-9

	Balance at December 31,			Balance at June 30,	
	2016	Additions	Disposals	Transfers	2017
Oil and gas properties, subject to amortization	\$68,306		\$-	\$-	\$68,306
Oil and gas properties, not subject to amortization	-	-	-	-	-
Asset retirement costs	163	(1)	-	-	162
Accumulated depreciation, depletion and impairment	(11,074)	(1,520)	-	-	(12,594)
Total oil and gas assets	\$57,395	\$(1,521)	\$-	\$-	\$55,874

The depletion recorded for production on proved properties for the three and six months ended June 30, 2017 and 2016, amounted to \$862,000 compared to \$513,000 and \$1,520,000 compared to \$1,785,000, respectively.

Acquisition of Properties from Dome Energy, Inc.

On November 19, 2015, the Company entered into a Letter Agreement with certain parties including Dome Energy AB and its wholly-owned subsidiary Dome Energy, Inc. (collectively "Dome Energy"), pursuant to which Dome Energy agreed to acquire the Company's interests in eight wells and fully fund the Company's proportionate share of all the corresponding working interest owner expenses with respect to these eight wells. The Company assigned its interests in these wells to Dome Energy effective November 18, 2015, and Dome Energy assumed all amounts owed for the drilling and completion costs corresponding to these interests acquired from the Company.

On March 29, 2016, the Company entered into a Settlement Agreement with Dome Energy, pursuant to which Dome Energy re-conveyed to the Company the interests in these eight wells assigned to Dome Energy by the Company on November 18, 2015, with the Company becoming responsible for its proportionate share of all the working interest owner expenses, and having the right to receive all corresponding revenues with respect to these eight wells, from the initial production date of the wells. As part of this transaction, the Company also settled \$659,000 of outstanding payables due from the Company to Dome Energy that was accounted for as a purchase price adjustment to the value of the oil and gas properties acquired. The transaction was closed on May 12, 2016.

The following tables summarize the allocation of the purchase price to the net assets acquired (in thousands):

Assets Acquired:

Accounts receivable – oil and gas	\$793
Oil and gas properties, subject to amortization	3,587
Total assets	\$4,380

Liabilities Assumed:

Accounts payable	\$(4,361)
Asset retirement obligation	(19)
Total liabilities	(4,380)
Net purchase price	\$-

NOTE 6 – ACCOUNTS RECEIVABLE

On November 18, 2015, when the Company assigned its interests in the eight wells to Dome Energy (as described above in Note 5), Dome Energy also agreed to pay an additional \$250,000 to the Company in the event the anticipated merger was not consummated. In connection with the assignment of these well interests, Dome Energy issued a contingent promissory note to the Company, dated November 19, 2015 (the “Dome Promissory Note”), with a principal amount of \$250,000, which was due to mature on December 29, 2015, upon the termination of the anticipated merger with Dome Energy. To guarantee payment of the Dome Promissory Note, Dome Energy deposited \$250,000 into an escrow account. During the year ended December 31, 2016, the Company collected this receivable of \$250,000 in full satisfaction of the Dome Promissory Note.

F-10

On March 24, 2015, Red Hawk and Dome Energy entered into a Service Agreement, pursuant to which Red Hawk agreed to provide certain human resource and accounting services to Dome Energy, of which \$156,000 remained due and payable by Dome Energy to Red Hawk as of December 31, 2015. On March 29, 2016, the Company entered into a Settlement Agreement with Dome Energy and certain of its affiliated entities, pursuant to which the Company and Dome Energy agreed to terminate and cancel the Service Agreement and settle a number of outstanding matters, with Dome Energy agreeing to pay to Red Hawk \$50,000 on May 2, 2016, in full satisfaction of the amounts due under the Service Agreement, with all remaining amounts owed forgiven by Red Hawk. As of December 31, 2015, the receivable due from Dome Energy totaled \$406,000. During the year ended December 31, 2016, the net receivable created by the Dome Promissory Note was reduced to \$25,000 by (i) the collection of the \$250,000 as described above, (ii) forgiveness by the Company of \$106,000 due from Dome Energy pursuant to the Settlement Agreement, and (iii) the recording of an allowance of \$25,000 as a doubtful account (which was recognized as bad debt expense in selling, general and administrative expense on the Company's income statement). As of December 31, 2016, the \$50,000 was still due from Dome to Red Hawk as a part of the Settlement Agreement. The Company recorded an allowance for doubtful accounts as of December 31, 2016 of \$25,000 related to this outstanding amount, as \$25,000 of the \$50,000 was collected in early 2017. During the three months ended March 31, 2017, the net receivable created by the Dome Promissory Note was equal to \$25,000 due to (i) the collection of the \$25,000 in January 2017, and (ii) the reversal of the allowance of \$25,000 as a doubtful account (and credited to bad debt expense in selling, general and administrative expense on the Company's income statement) due to the collection in April 2017 of the final \$25,000 that had been due (the Company had no allowance for doubtful accounts as of March 31, 2017). As of June 30, 2017, the net receivable created by the Dome Promissory Note was \$-0-, due to the collection of the \$25,000 in April 2017 that represented the final amount due.

NOTE 7 – OTHER CURRENT ASSETS

On September 11, 2013, the Company entered into a Shares Subscription Agreement (“SSA”) to acquire an approximate 51% ownership in Asia Sixth Energy Resources Limited (“Asia Sixth”), which held an approximate 60% ownership interest in Aral Petroleum Capital Limited Partnership (“Aral”), a Kazakhstan entity. In August 2014 the SSA was restructured (the “Aral Restructuring”), in connection with which the Company received a promissory note in the principal amount of \$10.0 million from Asia Sixth (the “A6 Promissory Note”), which would be converted into a 10.0% interest in Caspian Energy, Inc. (“Caspian Energy”), an Ontario, Canada company listed on the NEX board of the TSX Venture Exchange, upon the consummation of the Aral Restructuring.

The Company entered into an agreement with Golden Globe Energy (US), LLC (“GGE”) to convey 50% of our interests in Asia Sixth in connection with an acquisition transaction in March 2014.

The Aral Restructuring was consummated on May 20, 2015, upon which date the A6 Promissory Note was converted into 23,182,880 shares of common stock of Caspian Energy. In addition, on the date of conversion of the A6 Promissory Note, Mr. Frank Ingriselli, our Chairman and then Chief Executive Officer, was appointed as a non-executive director of Caspian Energy and currently serves as the Chairman of its Board of Directors.

In February 2015, we expanded our D-J Basin position through the acquisition of acreage from GGE (the “GGE Acquisition” and the “GGE Acquired Assets”). In connection with our GGE Acquisition, on February 23, 2015, we provided GGE a one-year option to acquire our interest in Caspian Energy for \$100,000 payable upon exercise of the option recorded in prepaid expenses and other current assets. As a result, the carrying value of the 23,182,880 shares of common stock of Caspian Energy which were issued upon conversion of the A6 Promissory Note at December 31, 2015 was \$100,000. The option provided to GGE was not exercised and expired on February 23, 2016, resulting in the Company retaining ownership of the 23,182,880 shares of Caspian Energy.

In connection with the Company's May 2016 debt restructuring as more fully described below under "Note 8 – Notes Payable – 2016 Senior Note Restructuring", the Company entered into a new Call Option Agreement with GGE, dated May 12, 2016 (the "GGE Option Agreement"), pursuant to which the Company provided GGE an option to purchase the 23,182,880 common shares of Caspian Energy upon payment of \$100,000 by GGE to the Company at any time. The option expires on May 12, 2019, which is the maturity date of the debt evidenced by that certain Note and Security Agreement, dated April 10, 2014, as amended on February 23, 2015, and May 12, 2016, issued by the Company to RJ Credit LLC ("RJC" and the "RJC Junior Note"), as described below. The \$100,000 option is classified as part of other current assets as of June 30, 2017.

F-11

NOTE 8 – NOTES PAYABLE

Note Purchase Agreement and Sale of Secured Promissory Notes

On March 7, 2014, the Company entered into a \$50 million financing facility (the “Notes Purchase Agreement”) between the Company, BRe BCLIC Primary, BRe BCLIC Sub, BRe WNIC 2013 LTC Primary, BRe WNIC 2013 LTC Sub, and RJC, as investors (collectively, the “Investors”), and BAM Administrative Services LLC, as agent for the Investors (the “Agent”). The Company issued the Investors Secured Promissory Notes in the aggregate principal amount of \$34.5 million (the “Initial Notes”), which also provided for an additional \$15.5 million available under the financing agreement to fund the Company’s future drilling costs to be evidenced by notes with substantially similar terms as the Initial Notes (the “Subsequent Notes,” and together with the Initial Notes, the “Senior Notes”). On March 19, 2015, BRe WNIC 2013 LTC Primary transferred a portion of its Initial Note to HEARTLAND Bank, and effective April 1, 2015, BRe BCLIC Primary transferred its Initial Note to Senior Health Insurance Company of Pennsylvania (“SHIP”), with each of HEARTLAND Bank and SHIP becoming an “Investor” for purposes of the discussion below.

The Initial Notes, as originally issued, accrued interest at the rate of 15% per annum, payable monthly, required us to make certain mandatory principal payments and was originally to mature on March 7, 2017.

On August 28, 2015, January 29, 2016, March 7, 2016 and April 1, 2016, the Company entered into several letter agreements and amendments with certain of the holders to: (i) defer until the maturity date of their Senior Notes the mandatory principal payments that would otherwise be due and payable by the Company to them on payment dates occurring from August 2015 through April 2016; and (ii) defer until the maturity date of their Senior Notes and the RJC Junior Note all of the interest payments that would otherwise be due and payable by the Company to them from August 2015 to April 2016, with all interest amounts deferred being added to principal on the first business day of the month following the month in which such deferred interest is accrued. The purpose of these deferrals was to provide the Company with temporary relief from cash requirements to focus and execute upon its contemplated business combinations.

During the three and six months ended June 30, 2017, there were no payments made to reduce the outstanding principal due under the Initial Notes, however, such Notes were restructured as described below.

2016 Senior Note Restructuring

Following a series of temporary payment deferrals as described above, on May 12, 2016 (the “Closing Date”), the Company entered into an Amended and Restated Note Purchase Agreement (the “Amended NPA”), with existing lenders SHIP, BRe BCLIC Sub, BRe WNIC 2013 LTC Primary, BRe WNIC 2013 LTC Sub, Heartland Bank, and RJC, and new lenders BHLN-Pedco Corp. (“BHLN”) and BBLN-Pedco Corp. (“BBLN,” and together with BHLN and RJC, the “Tranche A Investors”) (the investors in the Tranche B Notes (defined below) and the Tranche A Investors, collectively, the “Lenders”), and the Agent, as agent for the Lenders. The Amended NPA amended and restated the Senior Notes held by the Investors, and the Company issued new Senior Secured Promissory Notes to each of the Investors (collectively, the “Tranche B Notes”) in a transaction that qualified as a troubled debt restructuring. RJC is also a party to the RJC Junior Note (discussed below under “Notes Payable - Related Party Financings - Subordinated Note Payable Assumed”).

Subsequently, certain of the Lenders transferred some or all of the principal outstanding under the New Senior Notes (as defined below) held by them and the term Lenders as used herein refers to the current holders of the New Senior Notes, as applicable.

The Amended NPA amended the Senior Notes as follows:

Created and issued to the Tranche A Investors new “Tranche A Notes,” in substantially the same form and with similar terms as the Tranche B Notes, except as discussed below, consisting of a term loan issuable in tranches with a maximum aggregate principal amount of \$25,960,000, with borrowed funds accruing interest at 15% per annum, and maturing on May 11, 2019 (the “Tranche A Maturity Date”) (the “Tranche A Notes,” and together with the Tranche B Notes, the “New Senior Notes”);

F-12

The Company capitalized all accrued and unpaid interest under the Tranche B Notes as a term loan with an aggregate outstanding principal balance as of May 12, 2016 equal to \$39,065,000 (as of June 30, 2017, the aggregate outstanding principal balance is \$45,087,000). The Tranche B Notes mature on June 11, 2019 except for the Tranche B Note issued to RJC, which matures on July 11, 2019;

Amended the provisions of the Senior Notes which required mandatory prepayments from our revenues, replacing them with a Net Revenue Sweep as described below; and

Provides that interest on the Tranche B Notes will continue to accrue at the rate of 15% per annum, but all accrued interest through December 31, 2017 shall be deferred until due and payable on the maturity date, with all interest amounts deferred being added to the principal of the Tranche B Notes on a monthly basis and that following December 31, 2017, all interest will accrue and be paid monthly in arrears in cash to the Tranche B Note holders, provided, however, no payment may be made on the Tranche B Notes unless and until the Tranche A Notes are repaid in full.

The Tranche A Notes are substantially similar to the Tranche B Notes, except that such notes are senior to the Tranche B Notes, accrue interest until maturity and have priority to the payment of Monthly Net Revenues as discussed below. Amounts paid to the Agent through the Net Revenue Sweep are applied first to the repayment of principal and interest due under the Tranche A Notes until such notes are paid in full and then to the repayment of principal and interest amounts due under the Tranche B Notes. As of June 30, 2017, the Company has paid \$682,000 of principal under the Net Revenue Sweep, of which \$30,000 was paid during the current six month period.

On the Closing Date, Tranche A Investors BHLN and BBLN loaned the Company their pro rata share of an aggregate of \$6,422,000 (the "Initial Tranche A Funding"). The Initial Tranche A Funding net proceeds (amounting to \$6,422,000 less legal fees of \$127,000) were used by the Company to (i) fund approximately \$5.1 million due to a third party operator for drilling and completion expenses related to the acquired working interests in eight wells from Dome Energy, (ii) pay \$750,000 of the Company's past due payables to Liberty (defined below under "Note 9 – Commitments and Contingencies" – "Other Commitments"), (iii) pay \$445,000 of unpaid interest payments due to Heartland Bank under its Tranche B Note through February 29, 2016, and (iv) pay fees and expenses of \$127,000.

Subject to the terms and conditions of the Amended NPA, the Company may request each Tranche A Investor, from time to time, to advance to the Company additional amounts of funding (each, a "Subsequent Tranche A Funding"), provided that: (i) the Company may not request a Subsequent Tranche A Funding more than one time in any calendar month; (ii) Agent shall have received a written request from the Company at least 15 business days prior to the requested date of such advance (the "Advance Request"); (iii) no Event of Default shall have occurred and be continuing; and (iv) the Company shall provide to the Agent such documents, instruments, certificates and other writings as the Agent shall reasonably require in its sole and absolute discretion. The advancement of all or any portion of the Subsequent Tranche A Funding is in the sole and absolute discretion of the Agent and the Investors and no Investor is obligated to fund all or any part of the Subsequent Tranche A Funding. Each Subsequent Tranche A Funding shall be in a minimum amount of \$500,000 and multiples of \$100,000 in excess thereof. The aggregate amount of Subsequent Tranche A Fundings that may be made by the Investors under the Amended NPA shall not exceed \$18,577,876 and any Subsequent Tranche A Funding repaid may not be re-borrowed.

In addition, subject to the terms and conditions of the Amended NPA, RJC agreed to loan \$240,000 to the Company, within 30 days of the Closing Date and within 30 days of each of July 1, 2016, October 1, 2016 and January 1, 2017 (collectively, the "RJC Fundings" and collectively with the Investor Tranche A Fundings, the "Fundings"), provided that no Event of Default or Default shall exist. The aggregate amount of the RJC Fundings made by RJC under the Amended NPA shall not exceed \$960,000 and any Funding repaid may not be re-borrowed. As of June 30, 2017, the

Company has received no loan proceeds under this agreement, and RJC is in default of its funding obligations thereunder.

F-13

To guarantee RJC's obligation in connection with the RJC Fundings as required under the Amended NPA, GGE entered into a Share Pledge Agreement with the Company, dated May 12, 2016 (the "GGE Pledge Agreement"), pursuant to which GGE agreed to pledge an aggregate of 10,000 shares of the Company's Series A Convertible Preferred Stock held by GGE (convertible into 1,000,000 shares of Company common stock), which pledged shares are subject to automatic cancellation and forfeiture based on a schedule set forth in the GGE Share Pledge Agreement, in the event RJC fails to meet each of its RJC Funding obligations pursuant to the Amended NPA. To date, RJC has not met its RJC Funding obligations under the Amended NPA and the Company is entitled to cancel and forfeit the entire 10,000 pledged shares of the Company's Series A Convertible Preferred Stock held by GGE pursuant to the terms of the GGE Pledge Agreement, which determination to cancel shares has not been made, and which shares have not been cancelled, as of the date of this filing.

As additional consideration for the entry into the Amended NPA, the Company granted to BHLN and BBLN, warrants exercisable for an aggregate of 596,280 shares of common stock of the Company (the "Investor Warrants"). The warrants have a 3-year term, are transferrable, and are exercisable on a cashless basis at any time at \$2.50 per share (as amended). The Investor Warrants include a beneficial ownership limitation that prohibits the exercise of the Investor Warrants to the extent such exercise would result in the holder, together with its affiliates, holding more than 9.99% of the Company's outstanding voting stock (the "Blocker Provision"). The estimated fair value of the Investor Warrants issued is approximately \$707,000 based on the Black-Scholes option pricing model. The relative fair value allocated to the Tranche A Notes and recorded as debt discount was \$636,000.

Other than the Investor Warrants, no additional warrants exercisable for common stock of the Company are due, owing, or shall be granted to the Lenders pursuant to the Senior Notes, as amended. In addition, warrants exercisable for an aggregate of 34,912 shares of the Company's common stock at an exercise price of \$15.00 per share and warrants exercisable for an aggregate of 120,101 shares of the Company's common stock at an exercise price of \$7.50 per share previously granted by the Company to certain of the Lenders on September 10, 2015 in connection with prior interest payment deferrals have been amended and restated to provide that all such warrants are exercisable on a cashless basis and to include a Blocker Provision (the "Amended and Restated Warrants").

Additionally, the Company also agreed to (a) provide to the Agent and the Investors a monthly projected general and administrative expense report (the "Projected G&A") and a monthly comparison report of the Projected G&A provided for the preceding month, with an explanation of any variances, provided that in no event shall such variances exceed \$150,000, and (b) pay to the Agent within 2 business days following the end of each calendar month all of the Company's oil and gas revenue received by the Company during such month (the "Net Revenue Sweep"), less (i) lease operating expenses, (ii) interest payments due to Investors under the New Senior Notes, (iii) general and administrative expenses not to exceed \$150,000 per month unless preapproved by the Agent (the "G&A Cap"), and (iv) preapproved extraordinary expenses (together the "Monthly Net Revenues"). Amounts paid to the Agent through the Net Revenue Sweep are applied first to the repayment of principal and interest due under the Tranche A Notes until such notes are paid in full and then to the repayment of principal and interest amounts due under the Tranche B Notes. As of June 30, 2017, the Company has paid \$682,000 of principal under the Net Revenue Sweep, of which \$30,000 was paid during the current six month period. The amount of interest deferred under the Tranche A and Tranche B Notes as of June 30, 2017 and December 31, 2016, equaled \$2,223,000 and \$1,266,000, respectively, and was accounted for on the balance sheet under long-term accrued expenses and accrued expenses - related party.

The amounts outstanding under the New Senior Notes are secured by a first priority security interest in all of the Company's and its subsidiaries' assets, property, real property, intellectual property, securities and proceeds therefrom, granted in favor of the Agent for the benefit of the Lenders, pursuant to a Security Agreement and a Patent Security Agreement, each entered into as of March 7, 2014, as amended on May 12, 2016 (the "Amended Security Agreement" and "Amended Patent Agreement," respectively). Additionally, the Agent, for the benefit of the Lenders, was granted a

mortgage and security interest in all of the Company's and its subsidiaries real property as located in the State of Colorado and the State of Texas pursuant to (i) a Leasehold Deed of Trust, Fixture Filing, Assignment of Rents and Leases, and Security Agreements, dated March 7, 2014, as amended May 12, 2016, filed in Weld County and Morgan County, Colorado; and (ii) a Mortgage, Deed of Trust, Security Agreement, Financing Statement and Assignment of Production filed in Matagorda County, Texas (collectively, the "Amended Mortgages").

Other than as described above, the terms of the Amended NPA (including the covenants and obligations thereunder) are substantially the same as the March 2014 Notes Purchase Agreement described above, and the terms of the Tranche A Notes and Tranche B Notes (including the events of default, interest rates and conditions associated therewith) are substantially the same as the Senior Notes.

All debt discount amounts are amortized using the effective interest rate method. The total amount of the remaining debt discount reflected on the accompanying balance sheet as of June 30, 2017 and December 31, 2016 was \$5,345,000 and \$6,988,000, respectively. Amortization of debt discount and total interest expense for the initial notes (New Senior Notes – Tranche A and Tranche B) was \$1,643,000 and \$3,278,000, respectively, for the six months ended June 30, 2017 and \$3,756,000 and \$3,646,000, respectively, for the six months ended June 30, 2016.

Amortization of debt discount and total interest expense for the initial notes (New Senior Notes – Tranche B) was \$812,000 and \$1,674,000, respectively, for the three months ended June 30, 2017 and was \$1,562,000 and \$2,169,000, respectively, for the three months ended June 30, 2016.

Junior Debt Restructuring

On May 12, 2016, the Company entered into an Amendment No. 2 to Note and Security Agreement with RJC (the “Second Amendment”). The Company and RJC agreed to amend the RJC Junior Note to (i) capitalize all accrued and unpaid interest under the RJC Junior Note as of May 12, 2016, and add it to the note principal, making the outstanding principal amount of the RJC Junior Note as of May 12, 2016 equal to \$9,379,000, (ii) extend the maturity date (“Termination Date”) from December 31, 2017 to July 11, 2019, (iii) provide that all future interest accruing under the RJC Junior Note is deferred until payable on the Termination Date, with all future interest amounts deferred being added to the principal on a monthly basis, and (iv) subordinate the RJC Junior Note to the New Senior Notes.

Bridge Note Financing

As of June 30, 2017, the Company had Bridge Notes with an aggregate principal amount of \$475,000 remaining outstanding, plus accrued interest of \$202,000 and additional payment-in-kind (“PIK”) of \$48,000. The aggregate principal and accrued and unpaid interest and PIK amounts are available for conversion into common stock pursuant to the terms of the Bridge Notes into common stock of the Company, subject to no more than 19.99% of the Company’s outstanding common stock on the date the Second Amended Notes were entered into. Upon a conversion, the applicable holder shall receive that number of shares of common stock as is determined by dividing the Conversion Amount by a conversion price as follows:

- (A) prior to June 1, 2014, the conversion price was \$21.50 per share; and
- (B) following June 1, 2014, the denominator used in the calculation described above is the greater of (i) 80% of the average of the closing price per share of the Company’s publicly-traded common stock for the five (5) trading days immediately preceding the date of the conversion notice provided by the holder; and (ii) \$5.00 per share.

Additionally, each Amended Bridge Investor entered into a Subordination and Intercreditor Agreement in favor of the Agent, subordinating and deferring the repayment of the Bridge Notes until full repayment of certain senior notes. The Subordination and Intercreditor Agreements also prohibit the Company from repaying the Bridge Notes until certain senior notes have been paid in full. The interest expense related to these notes for the three and six months ended June 30, 2017 and 2016 was \$14,000 compared to \$14,000 and \$28,000 compared to \$28,000, respectively.

The unamortized debt premium on the Convertible Bridge Notes as of June 30, 2017 and December 31, 2016, was \$113,000.

MIE Jurassic Energy Corporation

Edgar Filing: PEDEVCO CORP - Form 10-Q

On February 14, 2013, PEDCO entered into a Secured Subordinated Promissory Note with MIE Jurassic Energy Corp. (“MIEJ”), which was amended on March 25, 2013 and July 9, 2013 (the “MIEJ Note”, as amended through December 31, 2014) with MIEJ.

F-15

In February 2015, the Company and PEDCO entered into a Settlement Agreement with MIEJ and issued a new promissory note in the amount of \$4.925 million to MIEJ (the “NEW MIEJ Note”). The Settlement Agreement related to the February 2015 disposition of the Company’s interest in Condor Energy Technology, LLC, a joint venture previously owned 20% by the Company and 80% by MIEJ. As of June 30, 2017, the amount outstanding under the New MIEJ Note was \$4,925,000.

The New MIEJ Note has an interest rate of 10.0%, with no interest due until maturity, is secured by all of the Company’s assets, and is subordinated to the Senior Notes. MIEJ also agreed to subordinate its note up to an additional \$60 million of new senior lending, with any portion of new senior lending in excess of this amount required to be paid first to MIEJ until the New MIEJ Note is paid in full. Further, for every \$20 million in new senior lending the Company raises, MIEJ is required to be paid all interest and fees accrued on the New MIEJ Note through such date. The New MIEJ Note was due and payable on March 8, 2017, subject to automatic extensions upon the occurrence of a Long Term Financing (defined below), which as described below has occurred to date.

On a one-time basis, the Secured Promissory Notes may be refinanced by a new loan (“Long-Term Financing”) by one or more third party replacement lenders (“Replacement Lenders”), and in such event the Company shall undertake commercially reasonable best efforts to cause the Replacement Lenders to simultaneously refinance both the Senior Notes and the New MIEJ Note as part of such Long-Term Financing. If the Replacement Lenders are unable or unwilling to include the New MIEJ Note in such financing, then the Long-Term Financing may proceed without including the New MIEJ Note, and the New MIEJ Note shall remain in place and shall be automatically subordinated, without further consent of MIEJ, to such Long-Term Financing. Furthermore, upon the occurrence of a Long-Term Financing, the maturity of the New MIEJ Note is automatically extended to the same maturity date of the Long-Term Financing, but to no later than March 8, 2020. Additionally, in connection with a contemplated Long-Term Financing:

The Long-Term Financing must not exceed \$95 million;

The Company must make commercially reasonable best efforts to include adequate reserves or other payment provisions whereby MIEJ is paid all interest and fees accrued on the New MIEJ Note commencing as of March 8, 2017 and annually thereafter, and to allow for quarterly interest payments starting March 31, 2017 of not less than 5% per annum on the outstanding balance of the New MIEJ Note, plus a one-time payment of accrued interest (not to exceed \$500,000) as of March 31, 2017; and

Commencing on March 8, 2017, MIEJ shall have the right to convert the balance of the New MIEJ Note into the Company’s common stock at a price equal to 80% of the average closing price per share of our stock over the then previous 60 days, subject to a minimum conversion price of \$3.00 per share. MIEJ shall not be permitted to convert if the conversion would result in MIEJ holding more than 19.9% of the Company’s outstanding common stock without approval from the Company’s shareholders, which approval the Company obtained at its 2016 annual shareholder meeting held on December 28, 2016.

In the event the Senior Notes are not refinanced, restructured or extended by the Lenders, the maturity of both the New MIEJ Note and the Senior Notes may be extended to no later than March 8, 2019, without requiring the consent of MIEJ. However, (i) any such maturity extension of the New MIEJ Note will give MIEJ the right to convert the note into our common stock as described above, commencing on March 8, 2017, and (ii) such extension agreement must provide that MIEJ is paid all interest and fees accrued on the New MIEJ Note as of March 8, 2018. The New MIEJ Note may be prepaid any time without penalty.

As a result of the Company’s May 2016 senior debt restructuring pursuant to the Amended NPA (as described above under “Note Purchase Agreement and Sale of Secured Promissory Notes” – “2016 Senior Note Restructuring”), the

maturity date of the New MIEJ Note has automatically been extended to March 8, 2019, and as a result of the Company's shareholders approving the conversion terms of the MIEJ Note at the Company's annual shareholder meeting held on December 28, 2016, MIEJ has had the Right of Conversion (described above) since March 8, 2017.

F-16

The interest expense related to this note for the three and six months ended June 30, 2017 and 2016 was \$123,000 compared to \$124,000 and \$246,000 compared to \$248,000, respectively, with the total cumulative interest equal to \$1,231,000 through June 30, 2017.

For financial reporting purposes, MIEJ was considered a related party for all periods presented prior to the MIEJ Settlement Agreement signed in February 2015. After that date, MIEJ is no longer considered a related party.

Related Party Financings

Subordinated Note Payable Assumed

In 2015, the Company assumed approximately \$8.35 million of subordinated note payable from GGE in the acquisition of the GGE Acquired Assets (the "RJC Junior Note"). The amount outstanding on the RJC Junior Note as of June 30, 2017 and December 31, 2016 was \$10,803,000 and \$10,173,000, respectively. The lender under the RJC Junior Note is RJC, which is one of the lenders under the Senior Notes and is an affiliate of GGE. The note was originally due and payable on December 31, 2017, but has been extended to July 11, 2019 in connection with the May 2016 restructuring as described above. The assumed note payable is subordinate to the Senior Notes, as well as any future secured indebtedness from a lender with an aggregate principal amount of at least \$20,000,000. Should the Company repay the Senior Notes or replace them with secured indebtedness from a lender with an aggregate principal amount of at least \$20,000,000, RJC agreed to further amend the subordinated note payable to adjust the frequency of interest payments or to eliminate the payments and replace them with a single payment of the accrued interest to be paid at maturity.

The interest expense related to this note for the three and six months ended June 30, 2017 and 2016 was \$322,000 compared to \$285,000 and \$630,000 compared to \$561,000, respectively.

2016 RJC Subordinated Note Deferrals

On January 29, 2016 and March 7, 2016, the Company entered into agreements with RJC to defer until maturity the payment of interest and principal due under the RJC Junior Note through March 31, 2016, and reduce the interest rate to 12% per annum effective January 31, 2016.

The deferral period was further extended on May 12, 2016, on which date the Company entered into an Amendment No. 2 to Note and Security Agreement with RJC (the "Second Amendment"). The Company and RJC agreed to amend the RJC Junior Note to (i) capitalize all accrued and unpaid interest under the RJC Junior Note as of May 12, 2016, and add it to the note principal, making the outstanding principal amount of the RJC Junior Note as of June 12, 2016 equal to \$9,379,432, (ii) extend the maturity date from December 31, 2017 to July 11, 2019, (iii) provide that all future interest accruing under the RJC Junior Note is deferred until payable on the maturity date, with all future interest amounts deferred being added to the principal on a monthly basis, and (iv) subordinate the RJC Junior Note to the New Senior Notes. The warrants previously granted to RJC on September 10, 2015 were also amended to provide that such warrants are exercisable on a cashless basis and to include a Blocker Provision (as defined above).

As of June 30, 2017 and December 31, 2016, interest deferred and capitalized since May 12, 2016 under Amendment No. 2 to the Note amounted to \$1,424,000 and \$794,000, respectively, and amounted to total deferred interest of \$630,000 since January 1, 2017. The outstanding principal amount of the RJC Junior Note as of June 30, 2017 and December 31, 2016 was equal to \$10,803,000 and \$10,173,000, respectively.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

Office Lease

In June 2017, the Company entered into a second lease addendum to the original lease agreement signed in July 2012 and the first lease addendum signed in May 2016, as amended, which extends the term of the lease by an additional one year, now ending in July 2018, for its corporate office space located in Danville, California. The obligation under this one-year lease extension for the remainder of the lease through July 2018 is \$58,000.

F-17

In September 2014, the Company entered into a lease agreement for office space located in Houston, Texas, with a term of five years ending on March 1, 2020, which location served as the Company's operations office. Effective April 1, 2016, the Company terminated this lease agreement and issued the landlord 70,000 shares of restricted common stock valued at \$161,000, with no further obligations due thereunder.

Leasehold Drilling Commitments

The Company's oil and gas leasehold acreage is subject to expiration of leases if the Company does not drill and hold such acreage by production or otherwise exercises options to extend such leases, if available, in exchange for payment of additional cash consideration. In the D-J Basin Asset, 6 net acres are due to expire during the six months remaining in 2017 (409 net acres did expire during the six months ended June 30, 2017), 561 net acres expire in 2018, 129 net acres expire in 2019, 1,288 net acres expire thereafter (net to our direct ownership interest only). The Company plans to hold significantly all of this acreage through a program of drilling and completing producing wells. If the Company is not able to drill and complete a well before lease expiration, the Company may seek to extend leases where able. As of June 30, 2017, the Company had fully impaired its unproved leasehold costs based on management's revised re-leasing program.

Other Commitments

On December 18, 2015, a complaint was filed against Red Hawk, our wholly-owned subsidiary, in the District Court, County of Weld, State of Colorado (Case Number: 2015CV31079) (the "Court"), pursuant to which Liberty Oilfield Services, LLC ("Liberty") made various claims against Red Hawk in connection with certain completion services provided by Liberty to Red Hawk in November and December 2014, and accrued in accounts payable as of December 31, 2014. The complaint alleges causes of action for foreclosure of lien, breach of contract, quantum meruit and account stated, and seeks payment of amounts allegedly owed, pre- and post-judgment interest, attorneys' fees and court costs in connection with Red Hawk's alleged failure to pay Liberty approximately \$2.9 million in fees due for completion services provided by Liberty. On May 12, 2016, the Company and Liberty entered into a settlement agreement, pursuant to which the Company paid to Liberty \$750,000 and issued 245,000 fully-vested shares of the Company's restricted common stock, valued at \$588,000, based on the market price on the grant date, as full settlement of all amounts due for the services previously rendered, for which the Company owed approximately \$2.6 million. As a result of the settlement, the Company recognized a gain on settlement of payables of \$1,282,000 during the year ended December 31, 2016.

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we are not currently a party to any material legal proceeding. In addition, we are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

As part of its regular operations, the Company may become party to various pending or threatened claims, lawsuits and administrative proceedings seeking damages or other remedies concerning its commercial operations, products, employees and other matters.

Although the Company provides no assurance about the outcome of these or any other pending legal and administrative proceedings and the effect such outcomes may have on the Company, the Company believes that any ultimate liability resulting from the outcome of such proceedings, to the extent not otherwise provided for or covered by insurance, will not have a material adverse effect on the Company's financial condition or results of operations.

NOTE 10 – SHAREHOLDERS' DEFICIT

PREFERRED STOCK

At June 30, 2017, the Company was authorized to issue 100,000,000 shares of preferred stock with a par value of \$0.001 per share, of which 25,000,000 shares have been designated “Series A” preferred stock.

F-18

On February 23, 2015, the Company issued 66,625 Series A Preferred shares to GGE as part of the consideration paid for the GGE Acquired Assets. The grant date fair value of the Series A Preferred stock was \$28,402,000, based on a calculation using a binomial lattice option pricing model. See Note 13 below.

The 66,625 shares of Series A Preferred stock issued to GGE were originally contingently redeemable in 4 tranches as follows: (i) 15,000 shares in Tranche One; (ii) 15,000 shares in Tranche Two; (iii) 11,625 shares in Tranche Three; and (iv) 25,000 shares in Tranche Four.

In addition, upon the original issuance of the 66,625 shares of Series A Preferred stock issued to GGE, the Series A preferred stock had the following features:

a liquidation preference senior to all of the Company's common stock equal to \$400 per share;

a dividend, payable annually, of 10% of the liquidation preference;

voting rights on all matters, with each share having 1 vote; and

a conversion feature at GGE's option which would allow the Series A Preferred stock to be converted into shares of the Company's common stock on a 100:1 basis.

However, following the October 7, 2015 approval of the Company shareholders of the issuance of shares of common stock upon the conversion of the Series A Preferred stock, the Series A Preferred features have been modified as follows:

the Series A Preferred stock ceased accruing dividends and all accrued and unpaid dividends have been automatically forfeited and forgiven; and

the liquidation preference of the Series A Preferred stock has been reduced to \$0.001 per share from \$400 per share.

GGE was also subject to a lock-up provision that prohibited it from selling the shares of common stock through the public markets for less than \$10 per share (on an as-converted to common stock basis) until February 23, 2016, and subject to a provision which prohibits GGE from converting shares of Series A Preferred stock if upon such conversion it would beneficially own more than 9.99% of our outstanding common stock or voting stock, subject to waiver by the Company.

On November 23, 2015, the Company lost the right to redeem any of the Series A Preferred and the holder also lost the right to force any redemption because, pursuant to the Series A Certificate of Designations, the Company did not repurchase any shares within nine months of the initial Series A issuance. Accordingly, the Series A Preferred is no longer redeemable.

As of June 30, 2017 and December 31, 2016, there were 66,625 shares of the Company's Series A Preferred outstanding, 10,000 shares of which are now subject to cancellation and forfeiture as described further in the Notes above due to RJC's failure to meet its RJC Funding obligations under the Amended NPA.

COMMON STOCK

At June 30, 2017, the Company was authorized to issue 200,000,000 shares of its common stock with a par value of \$0.001 per share.

The Company completed a 1-for-10 reverse split of its outstanding common stock, which took effect as of market close on April 7, 2017. Before the split, the Company had approximately 54.9 million shares of common stock issued and outstanding, and following the reverse split, the Company now has approximately 5.49 million shares of common stock issued and outstanding (subject to adjustment for settlement of fractional shares which were rounded up to the nearest whole share). All outstanding options, warrants, preferred stock and other securities convertible into the Company's common stock have been adjusted as a result of the reverse stock split as required by the terms of such securities with a proportional increase in the exercise price.

F-19

During the six months ended June 30, 2017, the Company issued a total of 550,335 shares of common stock under the At Market Issuance Sales Agreement with National Securities Corporation effective September 29, 2016 for gross proceeds of \$587,000 and proceeds net of all issuance costs equal to \$495,000.

As of June 30, 2017, there were 6,044,729 shares of common stock outstanding.

Stock-based compensation expense recorded related to the vesting of restricted stock for the three and six months ended June 30, 2017 and 2016 was \$214,000 compared to \$438,000 and \$462,000 compared to \$809,000, respectively. The remaining unamortized stock-based compensation expense at June 30, 2017 related to restricted stock was \$139,000.

NOTE 11 – STOCK OPTIONS AND WARRANTS

Blast 2003 Stock Option Plan and 2009 Stock Incentive Plan

Prior to June 2005, we were known as Blast Energy Services, Inc. (“Blast”). Under Blast’s 2003 Stock Option Plan and 2009 Stock Incentive Plan, options to acquire 343 shares of common stock were granted and remained outstanding and exercisable as of June 30, 2017 and December 31, 2016. No new options were issued under these plans in 2017 or 2016.

2012 Incentive Plan

On July 27, 2012, the shareholders of the Company approved the 2012 Equity Incentive Plan (the “2012 Incentive Plan”), which was previously approved by the Board of Directors on June 27, 2012, and authorizes the issuance of various forms of stock-based awards, including incentive or non-qualified options, restricted stock awards, performance shares and other securities as described in greater detail in the 2012 Incentive Plan, to the Company’s employees, officers, directors and consultants. The 2012 Incentive Plan was amended on June 27, 2014, October 7, 2015 and December 28, 2016 to increase by 500,000, 300,000 and 500,000, respectively, the number of shares of common stock reserved for issuance under the Plan. A total of 1,500,000 shares of common stock are eligible to be issued under the 2012 Incentive Plan as of June 30, 2017 and December 31, 2016, of which 1,102,099 shares have been issued as restricted stock, 396,700 shares are subject to issuance upon exercise of issued and outstanding options, and 1,201 remain available for future issuance as of June 30, 2017 and December 31, 2016.

PEDCO 2012 Equity Incentive Plan

As a result of the July 27, 2012 merger by and between the Company, Blast Acquisition Corp., a wholly-owned Nevada subsidiary of the Company (“MergerCo”), and PEDCO pursuant to which MergerCo was merged with and into PEDCO, with PEDCO continuing as the surviving entity and becoming a wholly-owned subsidiary of the Company, in a transaction structured to qualify as a tax-free reorganization (the “Merger”), the Company assumed the PEDCO 2012 Equity Incentive Plan (the “PEDCO Incentive Plan”), which was adopted by PEDCO on February 9, 2012. The PEDCO Incentive Plan authorized PEDCO to issue an aggregate of 100,000 shares of common stock in the form of restricted shares, incentive stock options, non-qualified stock options, share appreciation rights, performance shares, and performance units under the PEDCO Incentive Plan. As of June 30, 2017 and December 31, 2016, options to purchase an aggregate of 31,014 shares of the Company’s common stock and 66,583 shares of the Company’s restricted common stock have been granted under this plan (all of which were granted by PEDCO prior to the closing of the merger with the Company, with such grants being assumed by the Company and remaining subject to the PEDCO Incentive Plan following the consummation of the merger). The Company does not plan to grant any additional awards under the PEDCO Incentive Plan.

F-20

Options

The Company did not grant any options during the six-month period ending June 30, 2017.

During the three and six months ended June 30, 2017 and 2016, the Company recognized stock option expense of \$27,000 compared to \$125,000 and \$55,000 compared to \$256,000, respectively. The remaining amount of unamortized stock options expense at June 30, 2017, was \$17,000.

The intrinsic value of outstanding and exercisable options at June 30, 2017 was \$-0-.

The intrinsic value of outstanding and exercisable options at December 31, 2016 was \$-0-.

Option activity during the six months ended June 30, 2017 was:

		Weighted	
		Average	
	Number of	Weighted	Remaining
	Shares	Average	Contract
		Exercise	Term
	Shares	Price	(# years)
Outstanding at January 1, 2017	518,727	\$5.00	4.3
Granted	-	-	-
Exercised	-	-	-
Forfeited and cancelled	-	-	-
Outstanding at June 30, 2017	518,727	\$5.00	3.8
Exercisable at June 30, 2017	451,614	\$5.38	3.7

Warrants

During the three and six months ended June 30, 2017 and 2016, the Company recognized warrant expense of \$-0-. The remaining amount of unrecognized warrant expense at June 30, 2017 was \$-0-.

The intrinsic value of outstanding as well as exercisable warrants at June 30, 2017 and December 31, 2016 was \$-0- and \$-0-, respectively.

Warrant activity during the six months ended June 30, 2017 was:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contract Term (# years)
Outstanding at January 1, 2017	1,256,618	\$8.00	2.4
Granted	-	-	-
Exercised	-	-	-
Forfeited and cancelled	(8,573)	52.50	-
Outstanding at June 30, 2017	1,248,045	\$7.70	1.9
Exercisable at June 30, 2017	1,248,045	\$7.70	1.9

F-21

NOTE 12 – RELATED PARTY TRANSACTIONS

Note Amendments and Warrant Issuances to RJC

See Note 8 above for a discussion of certain amendments to the Senior Note and RJC Junior Note held by RJC.

See Note 8 above for a discussion of certain warrants issued to RJC by the Company in connection with the amendment of the Senior Note and RJC Junior Note held by RJC.

GGE Acquisition

As a result of the 66,625 restricted shares of the Company's Series A Convertible Preferred Stock issued to GGE which can be converted into shares of the Company's common stock on a 100:1 basis as described below in greater detail, and the appointment by GGE of a representative to the Company's Board of Directors, GGE became a related party to the Company in 2015. The following table reflects the related party amounts for GGE included in the June 30, 2017 balance sheet (in thousands):

	As of June 30, 2017
Accrued expenses	\$1,201
Long-term notes payable - Secured Promissory Notes, net of discount of \$1,720,000	14,615
Long notes payable – Subordinated	10,803
Total liabilities	\$26,619

NOTE 13 – FAIR VALUE OF FINANCIAL INSTRUMENTS

As defined in our accounting policy on the fair value of financial instruments, financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

The following table sets forth by level within the fair value hierarchy our financial instruments that were accounted for at fair value as of June 30, 2017 (in thousands):

Fair Value Measurements At June 30, 2017

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Carrying Value
Series A Convertible Preferred Stock	\$-	\$-	\$28,402	\$28,402

The Company believes there is no active market or significant other market data for the Series A Preferred as it is held by a limited number of closely held entities, therefore the Company has determined it should use Level 3 inputs.

The Series A Convertible Preferred was valued using the binomial lattice model of which the significant assumptions were expected term and expected volatility. The binomial lattice model used a probabilistic approach in which the Company assigned percentages to each scenario based on the chance of repayment. The percentages used were as follows: the non-repayment scenario was assigned a 25% probability and the repayment scenario was assigned a 75% probability.

F-22

NOTE 14 – INCOME TAXES

Due to the Company's net losses, there was no provision for income taxes for the six months ended June 30, 2017 and 2016.

The difference between the income tax expense of zero shown in the statement of operations and pre-tax book net loss times the federal statutory rate of 34% is principally due to the increase in the valuation allowance.

Deferred income tax assets as of June 30, 2017 and December 31, 2016 are as follows (in thousands):

	For the Six Months Ended June 30,	For the Year Ended December 31,
	2017	2016
Deferred Tax Assets (Liabilities)		
Difference in depreciation, depletion, and capitalization methods – oil and natural gas properties	\$(255)	\$479
Net operating losses	2,839	5,507
Impairment – oil and natural gas properties	-	-
Other	27	438
Total deferred tax asset	2,611	6,424
Less: valuation allowance	(2,611)	(6,424)
Total deferred tax assets	\$-	\$-

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of deferred assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Based on the available objective evidence, management believes it is more likely than not that the net deferred tax assets will not be fully realizable. Accordingly, management has applied a full valuation allowance against its net deferred tax assets at June 30, 2017. The net change in the total valuation allowance from December 31, 2016 to June 30, 2017 was a decrease of \$3,813,000.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of June 30, 2017, the Company did not have any significant uncertain tax positions or unrecognized tax benefits. The Company did not have associated accrued interest or penalties, nor were there any interest expense or penalties recognized during the period from February 9, 2011 (Inception) through June 30, 2017.

As of June 30, 2017, the Company had net operating loss carryforwards (“NOLs”) of approximately \$82,290,000 and \$49,922,000 (subject to limitations) for federal and state tax purposes. If not utilized, these losses will begin to expire beginning in 2033 and 2023, respectively, for both federal and state purposes.

Utilization of NOL and tax credit carryforwards may be subject to a substantial annual limitation due to ownership change limitations that may have occurred or that could occur in the future, as required by the Internal Revenue Code (the “Code”), as amended, as well as similar state provisions. In general, an “ownership change” as defined by the Code results from a transaction or series of transactions over a three-year period resulting in an ownership change of more than 50% of the outstanding stock of a company by certain stockholders or public groups.

The Company currently has tax returns open for examination by the Internal Revenue Service for all years since 2009.

NOTE 15 – SUBSEQUENT EVENTS

On July 24, 2017, the Company sold 40,000 shares of common stock under the At Market Issuance Sales Agreement with National Securities Corporation effective September 29, 2016, at a purchase price of \$0.90 per share, for gross proceeds of \$36,000, to which an underwriter’s fee of 3.0% was applied.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Some of the statements contained in this report discuss future expectations, contain projections of results of operations or financial condition, or state other "forward-looking" information. The words "believe," "intend," "plan," "expect," "anticipate," "estimate," "project," "goal" and similar expressions identify such a statement was made, although not all forward-looking statements contain such identifying words. These statements are subject to known and unknown risks, uncertainties, and other factors that could cause the actual results to differ materially from those contemplated by the statements. The forward-looking information is based on various factors and is derived using numerous assumptions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, the risks discussed in this and our other SEC filings. We do not promise to or take any responsibility to update forward-looking information to reflect actual results or changes in assumptions or other factors that could affect those statements except as required by law. Future events and actual results could differ materially from those expressed in, contemplated by, or underlying such forward-looking statements.

Forward-looking statements may include statements about our:

- business strategy;
- reserves;
- technology;
- cash flows and liquidity;
- financial strategy, budget, projections and operating results;
- oil and natural gas realized prices;
- timing and amount of future production of oil and natural gas;
- availability of oil field labor;
- the amount, nature and timing of capital expenditures, including future exploration and development costs;
- availability and terms of capital;
- drilling of wells;
- government regulation and taxation of the oil and natural gas industry;

All forward-looking statements speak only at the date of the filing of this Quarterly Report. The reader should not place undue reliance on these forward-looking statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements we make in this Quarterly Report are

reasonable, we provide no assurance that these plans, intentions or expectations will be achieved. We disclose important factors that could cause our actual results to differ materially from our expectations under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Quarterly Report and our Annual Report on Form 10-K filed with the SEC on March 27, 2017. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf. We do not undertake any obligation to update or revise publicly any forward-looking statements except as required by law, including the securities laws of the United States and the rules and regulations of the SEC.

The following is management’s discussion and analysis of the significant factors that affected the Company’s financial position and results of operations during the periods included in the accompanying unaudited consolidated financial statements. You should read this in conjunction with the discussion under “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2016, and the unaudited consolidated financial statements included in this quarterly report.

Certain abbreviations and oil and gas industry terms used throughout this Quarterly Report are described and defined in greater detail under “Glossary of Oil And Natural Gas Terms” on page 31 of our Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission on March 27, 2017.

Certain capitalized terms used below but not otherwise defined, are defined in, and shall be read along with the meanings given to such terms in, the notes to the unaudited financial statements of the Company for the three and six months ended June 30, 2017, above.

Unless the context requires otherwise, references to the “Company,” “we,” “us,” “our,” “PEDEVCO” and “PEDEVCO Corp.” specifically to PEDEVCO Corp. and its wholly and majority-owned subsidiaries.

In addition, unless the context otherwise requires and for the purposes of this report only:

- “Exchange Act” refers to the Securities Exchange Act of 1934, as amended;
- “SEC” or the “Commission” refers to the United States Securities and Exchange Commission; and
- “Securities Act” refers to the Securities Act of 1933, as amended.

General Overview

We are an energy company engaged primarily in the acquisition, exploration, development and production of oil and natural gas shale plays in the Denver-Julesberg Basin (“D-J Basin”) in Colorado, which contains hydrocarbon bearing deposits in several formations, including the Niobrara, Codell, Greenhorn, Shannon, J-Sand, and D-Sand. As of March 31, 2017, we held approximately 11,129 net D-J Basin acres located in Weld County, Colorado through our wholly-owned operating subsidiary, Red Hawk Petroleum, LLC (“Red Hawk”), which asset we refer to as our “D-J Basin Asset.” As of June 30, 2017, we hold interests in 61 gross (17.4 net) wells in our D-J Basin Asset, of which 14 gross (12.5 net) wells are operated by Red Hawk and currently producing, 25 gross (4.9 net) wells are non-operated and 22 wells have an after-payout interest.

We have listed below the total production volumes and total revenue net to the Company for the three and six months ended June 30, 2017 and 2016 attributable to our D-J Basin Asset.

	Three Months Ended June 30, 2017	Three Months Ended June 30, 2016
Oil volume (BBL)	14,296	29,167
Gas volume (MCF)	36,747	56,973
Volume equivalent (BOE) (1)	20,421	38,663
Revenue (000’s)	\$812	\$1,203

	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Oil volume (BBL)	26,222	48,405
Gas volume (MCF)	55,179	83,215
Volume equivalent (BOE) (1)	35,419	62,274
Revenue (000's)	\$1,546	\$1,785

(1) Assumes 6 Mcf of natural gas is equivalent to 1 barrel of oil.

Strategy

We believe that the D-J Basin shale play represents among the most promising unconventional oil and natural gas plays in the U.S. We plan to opportunistically seek additional acreage proximate to our currently held core acreage located in the Wattenberg and Wattenberg Extension areas of Weld County, Colorado. Our strategy is to be the operator, directly or through our subsidiaries and joint ventures, in the majority of our acreage so we can dictate the pace of development in order to execute our business plan. The majority of our capital expenditure budget for the next twelve months will be focused on the development of our D-J Basin Asset. Our development plan calls for the development of approximately \$11.1 million in capital expenditures in order to drill and complete, participate in the drilling and completion of, and/or acquire approximately 3.3 net wells in our D-J Basin Asset in 2017. We expect our projected cash flow from operations combined with our existing cash on hand, up to \$2.0 million of gross proceeds available from the issuance of our common shares through National Securities Corporation under our current “at the market offering” (of which \$1.359 million remains available for issuance, subject to limitation under applicable SEC rules), and approximately \$18.0 million gross available under our current senior debt facility will be sufficient to fund our drilling plans and our operations in 2017, noting that the advancement of all or any portion of the approximately \$18.0 million gross available under our current senior debt facility is in the sole and absolute discretion of the senior lenders and no senior lender is obligated to fund all or any part of the requested funding. In addition, we may seek additional funding through asset sales, farm-out arrangements, lines of credit, or public or private debt or equity financings to fund additional 2017 capital expenditures and/or repay or refinance a portion or all of our outstanding debt. If market conditions are not conducive to raising additional funds, the Company may choose to extend the drilling program and associated capital expenditures further into 2018.

Recent Developments

Termination of GOM Merger and Pursuit of New Debt Conversion and Equity Investment Transaction

On June 22, 2017, we terminated our then pending merger with GOM Holdings, LLC (“GOM”), in order to pursue an alternative transaction with a Hong Kong-based investor group as contemplated pursuant to a non-binding term sheet entered into by us and the investor group (the “Debt Conversion and Equity Investment Transaction”), which term sheet includes a binding 90-day no-shop period expiring in late August 2017, during which time we are prohibited from discussing or pursuing the merger with GOM, while the parties conduct in-depth due diligence on one another, prepare definitive documentation, and move to closing. The merger with GOM was originally contemplated by that certain Agreement and Plan of Merger and Reorganization (the “GOM Merger Agreement”) with White Hawk Energy, LLC, a Delaware limited liability company and wholly-owned subsidiary of the Company (“Merger Sub”), and GOM, dated December 29, 2015, as amended. We have no further obligations or termination liabilities due or owing to GOM under the GOM Merger Agreement as a result of the termination of the transactions contemplated thereunder.

On July 18, 2017, we announced that we successfully completed the investor's asset due diligence stage which was conducted by Netherland Sewell & Associates, and were moving into corporate and financial due diligence and the drafting of the definitive investment documents with a view to closing the equity investment concurrent with the restructuring of our debt no later than August 31, 2017.

The planned Debt Conversion and Equity Investment Transaction calls for substantially all of our fixed debt, except for the approximately \$6 million senior secured position that matures May 2019 (which is contemplated to be modified to have more favorable terms to the Company), to convert into 75% of the equity of the Company, followed by an equity investment of \$12 million to be made by the new investor for approximately 51% of the common stock of the Company. The result would be a company with only approximately \$6 million in debt and an estimated \$70 million in assets, including \$12 million in cash. If the transaction is consummated as planned, we would immediately increase our stockholders' equity by approximately \$70 million, remove most of the debt burden on the Company, and provide the development capital needed to execute the development plan of our current key assets. Assuming the closing of these transactions, we believe the Company would emerge properly capitalized and positioned to initially grow through execution of our development plan, including increasing cash flow, and then plan to seek to expand through accretive acquisitions of oil and gas properties and operating companies, funding permitted.

The Company has not yet entered into binding definitive agreements, and the contemplated transaction remains subject to corporate and financial due diligence, completion of documentation, NYSE American approval, and final sign-off by the Company's lenders, and may not be consummated on terms and conditions acceptable to the Company, its lenders and the investor, if at all.

Reverse Stock Split

On April 7, 2017, we completed a 1-for-10 reverse stock split of our common stock, effective as of the close of business on April 7, 2017 and effective in the marketplace on April 10, 2017. The reverse stock split was done pursuant to the authorization provided by the Company's stockholders at the Company's December 28, 2016 annual meeting, and in order to meet the continued listing standards of the NYSE American. As a result of the reverse stock split, each 10 shares of outstanding common stock of the Company was combined into one new share, with no change in authorized shares or par value per share, and the number of common stock shares outstanding was reduced from approximately 54.9 million shares to approximately 5.49 million shares (prior to rounding). Fractional shares resulting from the reverse stock split have been rounded up to the nearest whole share. Proportional adjustments were made to the conversion and exercise prices of the Company's outstanding convertible preferred stock, warrants and stock options, and to the number of shares issued and issuable under the Company's stock incentive plans. The reverse stock split did not affect any shareholder's ownership percentage of the Company's common stock, except to the limited extent that the reverse stock split would result in any shareholder owning a fractional share. Following the reverse stock split, the common stock of the Company now trades under a new CUSIP number, 70532Y 303. Except as otherwise noted, all share and per share amounts set forth in this Quarterly Report have been adjusted to reflect the 1-for-10 reverse stock split of our common stock that was effected on April 7, 2017.

At The Market Offering

On September 29, 2016, we entered into an At Market Issuance Sales Agreement (the "Sales Agreement") with National Securities Corporation ("NSC"), a wholly-owned subsidiary of National Holdings Corporation (NasdaqCM:NHL), pursuant to which the Company may issue and sell shares of its common stock, having an aggregate offering price of up to \$2,000,000 (the "Shares") from time to time, as the Company deems prudent, through NSC (the "Offering"), with the maximum shares of common stock issuable in the Offering further subject to limitation pursuant to General Instruction I.B.6 of Form S-3, which limits us, until such time, if ever, as our public float exceeds \$75 million, from selling securities in a public primary offering under Form S-3 with a value exceeding more than one-third of the aggregate market value of the common stock held by non-affiliates of the Company every twelve months (the so-called "Baby Shelf Rules"). Upon delivery of a placement notice and subject to the terms and conditions of the Sales Agreement, NSC may sell the Shares by methods deemed to be an "at the market offering" as defined in Rule 415 promulgated under the Securities Act. With the Company's prior written approval, NSC may also sell the Shares by

any other method permitted by law, including in negotiated transactions. The Company may elect not to issue and sell any Shares in the Offering (other than those sold to date as described below) and the Company or NSC may suspend or terminate the offering of Shares upon notice to the other party and subject to other conditions. NSC will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of the NYSE American. The Company has agreed to pay NSC commissions for its services in acting as agent in the sale of the Shares in the amount equal to 3.0% of the gross sales price of all Shares sold pursuant to the Agreement. The Company also agreed to pay various expenses in connection with the offering, including reimbursing \$30,000 of NSC's legal fees, which has been paid to date. The Company has also agreed to provide NSC with customary indemnification and contribution rights. The Company intends to use the net proceeds from the offering, if any, to fund development and for working capital and general corporate purposes, including general and administrative purposes. The Company is not obligated to make any sales of common stock under the Sales Agreement, and no assurance can be given that the Company will sell any additional shares under the Sales Agreement, or, if it does, as to the price or amount of Shares that it will sell, or the dates on which any such sales will take place. The Company has filed a final prospectus in connection with such offering with the SEC (as part of a Form S-3 registration statement).

On April 24, 2017, the Company sold 872 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.05 per share, for an aggregate purchase price of \$1,000, to which an underwriter's fee of 3.0% was applied.

On May 15, 2017, the Company sold 369,603 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.12 per share, for an aggregate purchase price of \$415,000, to which an underwriter's fee of 3.0% was applied.

On June 27, 2017, the Company sold 179,860 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.05 per share, for an aggregate purchase price of \$189,000, to which an underwriter's fee of 3.0% was applied.

On July 24, 2017, the Company sold 40,000 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$0.90 per share, for an aggregate purchase price of \$36,000, to which an underwriter's fee of 3.0% was applied.

No other securities have been sold under the Sales Agreement as of the date of this filing.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make judgments, estimates and assumptions in the preparation of our consolidated financial statements and accompanying notes. Actual results could differ from those estimates. We believe there have been no significant changes in our critical accounting policies as discussed in our Annual Report on Form 10-K for the year ended December 31, 2016.

Results of Operations and Financial Condition

All of the numbers presented below are rounded numbers and should be considered as approximate.

Comparison of the Three Months Ended June 30, 2017 with the Three Months Ended June 30, 2016

Oil and Gas Revenue. For the three months ended June 30, 2017, we generated a total of \$812,000 in revenues from the sale of oil and gas, compared to \$1,203,000 for the three months ended June 30, 2016. The decrease of \$391,000 was primarily due to a decline in production from our oil and gas assets. This decline was a result of a natural decline in well production, and wells being shut-in periodically.

Lease Operating Expenses. For the three months ended June 30, 2017, lease operating expenses associated with our oil and gas properties were \$397,000, compared to \$414,000 for the three months ended June 30, 2016. The decrease of \$17,000 was primarily due to lower variable lease operating expenses associated with the lower volume resulting from the natural decline in well production and periodic wells being shut-in.

Exploration Expense. For the three months ended June 30, 2017, exploration expense was \$-0-, compared to \$86,000 for the three months ended June 30, 2016. The decrease of \$86,000 was primarily due to no exploration activity undertaken by the Company in the current period.

Selling, General and Administrative Expenses. For the three months ended June 30, 2017, selling, general and administrative (“SG&A”) expenses were \$694,000, compared to \$1,305,000 for the three months ended June 30, 2016. The decrease of \$611,000 was primarily due to decreases in stock compensation expense, as well as cost reductions in various areas as shown in the table below. The components of SG&A expenses for the three months ended June 30, 2017 and 2016, are summarized below (amounts in thousands):

(in thousands)	For the Three Months Ended		
	Ended June 30, Increase/		
	2017	2016	(Decrease)
Payroll and related costs	\$267	\$241	\$26
Stock-based compensation expense	241	724	(483)
Legal fees	21	35	(14)
Accounting and other professional fees	93	157	(64)
Insurance	27	25	2
Travel and entertainment	1	1	-
Bad debt expense	-0-	50	(50)
Office rent, communications and other	44	72	(28)
Total selling, general and administrative expenses	\$694	\$1,305	\$(611)

Depreciation, Depletion and Amortization and Accretion (“DD&A”). For the three months ended June 30, 2017, DD&A costs were \$873,000, compared to \$522,000 for the three months ended June 30, 2016. The \$351,000 increase was primarily the result of higher depletion rates in the current period due to changes in the reserve values relative to the same period in the prior year.

Gain on Settlement of Payables. For the three months ended June 30, 2017, gain on settlement of payables was \$-0- compared to a gain of \$1,282,000 for the three months ended June 30, 2016. The gain in 2016 was related to a Settlement Agreement entered into with Liberty Oilfield Services, LLC (“Liberty”) for vendor obligations that was recorded in the three months ended June 30, 2016.

Other Expense. For the three months ended June 30, 2017, interest expense was \$3,162,000, compared to \$3,592,000 for the three months ended June 30, 2016. The decrease in other expense was primarily due to lower debt amortization interest expense during the three months ended June 30, 2017 compared to the prior year’s period.

Net Loss. For the three months ended June 30, 2017, net loss was \$4,314,000, compared to a net loss of \$3,434,000 for the three months ended June 30, 2016. The increase in net loss of \$880,000 was primarily due to the one-time gain on settlement of payables recorded during the three months ended June 30, 2016 and the decrease in revenues for the three months ended June 30, 2017, compared to 2016.

Comparison of the Six Months Ended June 30, 2017 with the Six Months Ended June 30, 2016

Oil and Gas Revenue. For the six months ended June 30, 2017, we generated a total of \$1,546,000 in revenues from the sale of oil and gas, compared to \$1,785,000 for the six months ended June 30, 2016. The decrease of \$239,000 was primarily due to a decline in production from our oil and gas assets. This decline was a result of a natural decline in well production, and wells being shut-in periodically.

Lease Operating Expenses. For the six months ended June 30, 2017, lease operating expenses associated with our oil and gas properties were \$727,000, compared to \$678,000 for the six months ended June 30, 2016. The increase of \$49,000 was primarily due to workover expenses incurred in the current period.

Exploration Expense. For the six months ended June 30, 2017, exploration expense was \$-0-, compared to \$203,000 for the six months ended June 30, 2016. The decrease of \$203,000 was due to no exploration activity undertaken by the Company in the current period.

Selling, General and Administrative Expenses. For the six months ended June 30, 2017, SG&A expenses were \$1,494,000, compared to \$2,721,000 for the six months ended June 30, 2016. The decrease of \$1,227,000 was primarily due to a decrease in stock compensation expense, as well as cost reductions in various areas as shown in the table below. The components of SG&A expenses for the six months ended June 30, 2017 and 2016, are summarized below (amounts in thousands):

	For the Six Months Ended		Increase/ (Decrease)
	June 30, 2017	June 30, 2016	
(in thousands)	2017	2016	(Decrease)
Payroll and related costs	\$548	\$792	\$(244)
Stock-based compensation expense	517	1,226	(709)
Legal fees	45	50	(5)
Accounting and other professional fees	201	263	(62)
Insurance	54	50	4
Travel and entertainment	2	9	(7)
Bad debt expense (recovery)	(25)	156	(181)
Office rent, communications and other	152	175	(23)
Total selling, general and administrative expenses	\$1,494	\$2,721	\$(1,227)

Depreciation, Depletion, Amortization and Accretion. For the six months ended June 30, 2017, DD&A costs were \$1,553,000, compared to \$1,799,000 for the six months ended June 30, 2016. The \$246,000 decrease was primarily the result of lower production volumes due to a natural decline in well production.

Gain on Settlement of Payables. For the six months ended June 30, 2017, gain on settlement of payables was \$-0- compared to a gain of \$1,282,000 for the six months ended June 30, 2016. The gain in 2016 was related to a Settlement Agreement entered into with Liberty for vendor obligations that was recorded in the six months ended June 30, 2016.

Other Income (Expense). For the six months ended June 30, 2017, interest expense was \$6,258,000, compared to \$7,678,000 for the six months ended June 30, 2016. The decrease in other expense was primarily due to lower debt amortization interest expense during the six months ended June 30, 2017 compared to the prior year's period.

Net Loss. For the six months ended June 30, 2017, net loss was \$8,486,000, compared to a net loss of \$10,012,000 for the six months ended June 30, 2016. The decrease in net loss of \$1,526,000 was primarily due to lower SG&A and lower interest expense in the current period, offset somewhat by the one-time gain on settlement of payables recorded during the six months ended June 30, 2016.

Liquidity and Capital Resources

We expect to incur substantial expenses and generate significant operating losses as we continue to explore for and develop our oil and natural gas prospects, and as we opportunistically invest in additional oil and natural gas

properties, develop our discoveries which we determine to be commercially viable and incur expenses related to operating as a public company and compliance with regulatory requirements.

Our future financial condition and liquidity will be impacted by, among other factors, the success of our exploration and appraisal drilling program, the number of commercially viable oil and natural gas discoveries made and the quantities of oil and natural gas discovered, the speed with which we can bring such discoveries to production, and the actual cost of exploration, appraisal and development of our prospects.

Our current liquidity uses and debt service requirements are managed under the terms of our senior debt facility whereby we are subject to a cash sweep of our net revenues after operating costs and funds raised pursuant to our “at the market offering”, described below. The debt service arrangement provides for budgeted general and administrative cost allowance of \$150,000 each month which we believe is sufficient to meet our foreseeable recurring costs. Such financing arrangement is sufficient to manage recurring cash requirements but provides no additional funds for extraordinary items, execution of our capital expenditure program or the repayment of outstanding debt obligations other than our senior debt facility. Any equity funds we are able to raise through offerings is not subject to the cash sweep and is not subject to payment to or approval by the senior lenders. If we are able to complete the anticipated Debt Conversion and Equity Investment Transaction our senior lenders have verbally agreed to remove the cash sweep moving forward.

Subject to the availability of the additional funding, which is not currently in place and requires approval of our senior lenders in the event of a debt offering, we plan to make capital expenditures, excluding capitalized interest and general and administrative expense, of up to approximately \$11.1 million during the period from January 1, 2017 to December 31, 2017 in order to achieve our plans. We expect our projected cash flow from operations combined with our existing cash on hand, up to \$2.0 million of gross proceeds available from the issuance of our common shares through NSC under our current “at the market offering” (of which \$1.359 million remains available for issuance, subject to limitation under the SEC’s “Baby Shelf Rules”), and the approximately \$18.0 million available under our current senior debt facility will be sufficient to fund our drilling plans and our operations in 2017, noting that the advancement of all or any portion of the approximately \$18.0 million gross available under our current senior debt facility is in the sole and absolute discretion of the senior lenders and no senior lender is obligated to fund all or any part of the requested funding. In addition, we may seek additional funding through asset sales, farm-out arrangements, lines of credit, or public or private debt or equity financings to fund additional 2017 capital expenditures and/or repay or refinance a portion or all of our outstanding debt.

Our capital budget may be adjusted as business conditions warrant. The amount, timing and allocation of capital expenditures are largely discretionary and within our control. If oil and natural gas prices continue to decline or fail to improve or costs increase significantly, we could defer a significant portion of our budgeted capital expenditures until later periods to prioritize capital projects that we believe have the highest expected returns and potential to generate near-term cash flows. We routinely monitor and adjust our capital expenditures in response to changes in prices, availability of financing, drilling and acquisition costs, industry conditions, timing of regulatory approvals, availability of rigs, success or lack of success in drilling activities, contractual obligations, internally generated cash flows and other factors both within and outside our control.

The Company maintains additional sources of liquidity including \$891,000 of cash on-hand, and existing receivables of \$416,000. If we are successful in consummating our anticipated Debt Conversion and Equity Investment Transaction (described above), we would convert all but approximately \$6 million of our fixed debt into equity, modify the terms of the surviving debt to be more favorable to us, and receive an aggregate of \$12 million in additional equity financing, which funds would be used to fund our drilling plans after payment of transaction-related fees and expenses.

As of June 30, 2017, the Company had a working capital deficit of \$1.7 million. We plan to manage this working capital deficit through the use of our existing cash resources and collections of accounts receivable as well as by managing payment terms with vendors, as necessary. This deficit includes revenue held in suspense, unpaid vacation compensation, estimated 2018 taxes, PIK interest, principal and other payables that will not require payment over the next 12 months, and we believe that liabilities due within the next 12 months should be covered by our \$1.4 million in current assets.

We acknowledge that adequate funds may not be available when needed or may not be available on favorable terms. If we need to raise funds in the future by issuing equity securities (including in connection with the planned Debt Conversion and Equity Investment Transaction and additional sales under the “at the market offering”), dilution to existing shareholders will result, and such securities may have rights, preferences, and privileges senior to those of our common stock. If funding is insufficient at any time in the future and we are unable to generate sufficient revenue from new business arrangements, to complete planned acquisitions or operations, our results of operations and the value of our securities could be adversely affected.

Financial Summary

Edgar Filing: PEDEVCO CORP - Form 10-Q

We had total current assets of \$1.4 million as of June 30, 2017, including cash of \$0.9 million, compared to total current assets of \$1.3 million as of December 31, 2016, including a cash balance of \$0.7 million.

We had total assets of \$57.3 million as of June 30, 2017 compared to \$58.8 million as of December 31, 2016. Included in total assets as of June 30, 2017 and December 31, 2016, were \$55.9 million and \$57.4 million, respectively, of proved oil and gas properties subject to amortization. We have no unproved oil and gas properties not subject to amortization.

We had total liabilities of \$66.8 million as of June 30, 2017, including current liabilities of \$3.1 million, compared to total liabilities of \$60.7 million as of December 31, 2016, including current liabilities of \$3.3 million.

We had negative working capital of \$1.7 million, a total shareholders' deficit of \$9.4 million and a total accumulated deficit of \$110.2 million as of June 30, 2017, compared to negative working capital of \$2.0 million, a total shareholders' deficit of \$2.0 million and a total accumulated deficit of \$101.7 million as of December 31, 2016.

See also the description of the Company's accounts receivable (Note 6), Notes Payable (Note 8), and related party transactions (Note 12), as described in the footnotes to the Company's consolidated financial statements included in Part I, Item 1, of this report, which are incorporated herein by reference, for more details regarding the Company's balance sheet line items.

Cash Flows From Operating Activities. We had net cash used in operating activities of \$233,000 for the six months ended June 30, 2017, which was a decrease in cash used of \$6,404,000 compared to the prior year's period of \$6,637,000. This decrease was primarily due to a lower net loss and favorable changes in accounts payable and accrued expenses during the current period compared to the prior period.

Cash Flows From Investing Activities. We had no net cash used by investing activities for the six months ended June 30, 2017, which was a decrease in cash used of \$64,000 compared to the prior year's period of \$64,000. Net cash used by investing activities for the six months ended June 30, 2016 was due to \$64,000 of drilling costs paid.

Cash Flows From Financing Activities. We had net cash provided by financing activities of \$465,000 for the six months ended June 30, 2017, compared to net cash provided by financing activities of \$6,221,000 for the prior year's period. The change from the prior period was primarily due to the proceeds of \$6,295,000 from notes payable collected in the prior period.

Recently Issued Accounting Pronouncements.

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The new standard requires management to assess the company's ability to continue as a going concern. Disclosures are required if there is substantial doubt as to the Company's continuation as a going concern within one year after the issue date of financial statements. The standard provides guidance for making the assessment, including consideration of management's plans which may alleviate doubt regarding the Company's ability to continue as a going concern. ASU 2014-15 is effective for years ending after December 15, 2016. The Company adopted this standard for the three and six months ended June 30, 2017 and the year ended December 31, 2016, and management has concluded that there is substantial doubt as to the Company's continuation as a going concern within one year after the issue date of the financial statements.

In May 2014, the FASB issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The standard's core principle (issued as ASU 2014-09 by the FASB), is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The new guidance must be adopted using either a full retrospective approach for all periods presented in the period of adoption or a modified retrospective approach. In August 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU 2014-09 by one year, and would allow entities the option to early adopt the

new revenue standard as of the original effective date. This ASU is effective for public reporting companies for interim and annual periods beginning after December 15, 2017. The Company has evaluated the adoption of the standard and due to the nature of the Company's oil and gas revenue agreements method there will be no impact of the standard on its consolidated financial statements.

In April 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing” (topic 606). In March 2016, the FASB issued ASU No. 2016-08, “Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net)” (topic 606). These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09, “Revenue from Contracts with Customers”. The amendments in ASU 2016-10 provide clarifying guidance on materiality of performance obligations; evaluating distinct performance obligations; treatment of shipping and handling costs; and determining whether an entity's promise to grant a license provides a customer with either a right to use an entity's intellectual property or a right to access an entity's intellectual property. The amendments in ASU 2016-08 clarify how an entity should identify the specified good or service for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. The adoption of ASU 2016-10 and ASU 2016-08 is to coincide with an entity's adoption of ASU 2014-09, which would be adopted for interim and annual reporting periods beginning after December 15, 2017. The Company has evaluated the adoption of the standard and due to the nature of the Company's oil and gas revenue agreements method there will be no impact of the standard on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, a new lease standard requiring lessees to recognize lease assets and lease liabilities for most leases classified as operating leases under previous U.S. GAAP. The guidance is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company will be required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. The Company has evaluated the adoption of the standard and due to only one operating lease currently in place there will be minimal impact of the standard on its consolidated financial statements.

In April 2016, the FASB issued ASU No. 2016-09, “Compensation – Stock Compensation” (topic 718). The FASB issued this update to improve the accounting for employee share-based payments and affect all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment award transactions are simplified, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. The updated guidance is effective for annual periods beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption of the update is permitted. The Company has evaluated the adoption of the standard and due to the nature of the Company's employee share-based payments there will be no impact of the standard on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments” (“ASU 2016-15”). ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017. The new standard will require adoption on a retrospective basis unless it is impracticable to apply, in which case it would be required to apply the amendments prospectively as of the earliest date practicable. The Company is currently in the process of evaluating the impact of ASU 2016-15 on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows (Topic 230)”, requiring that the statement of cash flows explain the change in the total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. This guidance is effective for fiscal years, and interim reporting periods therein, beginning after December 15, 2017 with early adoption permitted. The provisions of this guidance are to be applied using a retrospective approach which requires application of the guidance for all periods presented. The Company is currently evaluating the impact of the new standard.

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on its financial position, results of operations, or cash flows.

Subsequent Events. The Company has evaluated all transactions through the date the consolidated financial statements were issued for subsequent event disclosure consideration.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Pursuant to Item 305(e) of Regulation S-K (§ 229.305(e)), the Company is not required to provide the information required by this Item as it is a “smaller reporting company,” as defined by Rule 229.10(f)(1).

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the SEC’s rules and forms and is accumulated and communicated to the Company’s management, as appropriate, in order to allow timely decisions in connection with required disclosure.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this Quarterly Report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of June 30, 2017, that our disclosure controls and procedures were not effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended June 30, 2017, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we are not currently a party to any material legal proceeding. In addition, we are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, filed with the Commission on March 27, 2017, other than as described below, and investors are encouraged to review such risk factors in the Form 10-K, prior to making an investment in the Company.

We have not entered into any definitive agreements related to the Debt Conversion and Equity Investment, the planned transaction is subject to various risks and closing conditions, and the planned transaction may not occur on a timely basis, if at all.

We have not yet entered into any binding definitive agreements related to the Debt Conversion and Equity Investment, and the contemplated transaction remains subject to corporate and financial due diligence, completion of documentation, NYSE American approval, final sign-off by the Company's lenders, and other closing and post-closing conditions to be reflected in definitive agreements, which are currently in the process of being drafted. There can be no assurance that the contemplated transaction will be consummated on terms and conditions acceptable to the Company, its lenders and the investor, if at all.

We require significant additional financing to pay our outstanding liabilities and in the event we cannot raise additional funding or undertake a business combination transaction prior to the due date of such liabilities, we may be forced to sell assets, our debtors may foreclose on our assets or we may be forced to seek bankruptcy protection.

We currently have significant indebtedness and our debt agreements require us to use a significant portion of our revenues to pay down our outstanding debt. Due to the nature of oil and gas interests, i.e., that rates of production generally decline over time as oil and gas reserves are depleted, if we are unable to drill additional wells and develop our reserves, either because we are unable to raise sufficient funding for such development activities, or otherwise, or in the event we are unable to acquire additional operating properties, we believe that our revenues will continue to decline over time. Furthermore, in the event we are unable to raise additional funding in the future, we will not be able to participate in the drilling of additional wells, will not be able to complete other drilling and/or workover activities, and may not be able to make required payments on our outstanding liabilities. We are currently working to complete the Debt Conversion and Equity Investment, which we believe will provide us additional capital, but in the event we are unable to raise necessary funding in the future or complete a business combination or similar transaction in the near term, we may not be able to pay our debts (or make required amortization and principal payments on such debts) as they come due or continue to drill wells and/or participate in their drilling.

If this were to happen, we may be forced to scale back our business plan, sell or liquidate assets to satisfy outstanding debts (or our creditors may undertake a foreclosure of such assets in order to satisfy amounts we owe to such creditors, with or without our assistance) and/or take other steps which may include seeking bankruptcy protection, all of which could result in the value of our outstanding securities declining in value or becoming worthless.

Failure to complete the Debt Conversion and Equity Investment could negatively impact our stock price and future business and financial results.

If the Debt Conversion and Equity Investment is not completed, our ongoing business may be adversely affected and we would be subject to a number of risks, including the following:

we will not realize the benefits expected from the Debt Conversion and Equity Investment, including a potentially enhanced competitive and financial position, expansion of assets and therefore opportunities, and will instead be subject to all the risks we currently face as an independent company;

we may experience negative reactions from the financial markets and our partners and employees; and

matters relating to the Debt Conversion and Equity Investment (including integration planning) may require substantial commitments of time and resources by our management, which would otherwise have been devoted to other opportunities that may have been beneficial to us as an independent company.

Failure to consummate the Debt Conversion and Equity Investment transaction could negatively impact the Company.

In the event the Debt Conversion and Equity Investment transaction is not consummated, our business may be adversely impacted by our failure to pursue other beneficial opportunities due to the focus of management on the Debt Conversion and Equity Investment, and the market price of our common stock might decline to the extent that the current market price reflects a market assumption that the Debt Conversion and Equity Investment will be completed. If the Debt Conversion and Equity Investment transaction is not consummated and our board of directors seeks another transaction or business combination, our stockholders cannot be certain that we will be able to find a party willing to offer equivalent or more attractive consideration than the consideration provided for by the Debt Conversion and Equity Investment.

We will be subject to business uncertainties and contractual restrictions while the Debt Conversion and Equity Investment is pending.

Uncertainty about the effect of the Debt Conversion and Equity Investment on employees and partners may have an adverse effect on us. These uncertainties may impair our ability to attract, retain and motivate key personnel until the Debt Conversion and Equity Investment is completed, and could cause partners and others that deal with us to seek to change existing business relationships, cease doing business with us or cause potential new partners to delay doing business with us until the Debt Conversion and Equity Investment has been successfully completed. Retention of certain employees may be challenging during the pendency of the Debt Conversion and Equity Investment, as certain employees may experience uncertainty about their future roles or compensation structure. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with the business, our business following the Debt Conversion and Equity Investment could be negatively impacted. In addition, the non-binding letter of intent entered into by the Company and the equity investor in connection with the Debt Conversion and Equity Investment Agreement includes a binding 90-day no-shop provision expiring in late August 2017 which restricts us from discussing or pursuing certain merger, sale, and acquisition transactions, and transactions involving the conversion of the Company's debt and raising of equity capital with other parties. These restrictions may prevent us from pursuing attractive business opportunities that may arise prior to the completion of the Debt Conversion and Equity Investment.

Future sales of our common stock could cause our stock price to decline.

If our shareholders sell substantial amounts of our common stock in the public market, the market price of our common stock could decrease significantly. The perception in the public market that our shareholders might sell shares of our common stock could also depress the market price of our common stock. We are permitted to issue securities pursuant to a "shelf" registration statement on Form S-3 (File No. 333-214415) that we filed with the Securities and Exchange Commission on December 20, 2016, and which was declared effective on January 17, 2017.

To date, an aggregate of approximately \$17.5 million in securities have been sold by us under the prior Form S-3 which the December 2016 Form S-3 replaced. We have also entered into an At Market Issuance Sales Agreement, or sales agreement, with National Securities Corporation, or NSC, relating to up to \$2.0 million of shares of our common stock which may be offered from time to time in “at the market offerings” (of which \$1.359 million remains available for issuance, subject to limitation under the SEC’s “Baby Shelf Rules”) and filed a final prospectus in connection with such offering with the SEC. To date, we have sold 590,335 shares of our common stock to date in the offering under the At Market Issuance Sales Agreement and the prospectus associated therewith. Additionally, if we consummate the Debt Conversion and Equity Investment, and/or if our existing shareholders sell, or indicate an intention to sell, substantial amounts of our common stock in the public market, the trading price of our common stock could decline significantly. The market price for shares of our common stock may drop significantly when such securities are sold in the public markets. A decline in the price of shares of our common stock might impede our ability to raise capital through the issuance of additional shares of our common stock or other equity securities.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

Use of Proceeds From Sale of Registered Securities

Our Registration Statement on Form S-3 (Reg. No. 333-214415) in connection with the potential sale by us of up to \$100 million in securities (common stock, preferred stock, warrants and units), subject to limitations under the Baby Shelf Rules, was declared effective by the Securities and Exchange Commission on January 17, 2017.

On September 29, 2016, we entered into an At Market Issuance Sales Agreement (the “Sales Agreement”) with National Securities Corporation (“NSC”), a wholly-owned subsidiary of National Holdings Corporation (NasdaqCM:NHLD), pursuant to which the Company may issue and sell shares of its common stock, having an aggregate offering price of up to \$2,000,000 (the “Shares”) from time to time, as the Company deems prudent, through NSC (the “Offering”) (of which \$1.359 million remains available for issuance, subject to limitation under the SEC’s “Baby Shelf Rules”). Upon delivery of a placement notice and subject to the terms and conditions of the Sales Agreement, NSC may sell the Shares by methods deemed to be an “at the market offering” as defined in Rule 415 promulgated under the Securities Act.

With the Company’s prior written approval, NSC may also sell the Shares by any other method permitted by law, including in negotiated transactions. The Company may elect not to issue and sell any additional Shares in the Offering and the Company or NSC may suspend or terminate the offering of Shares upon notice to the other party and subject to other conditions. NSC will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of the NYSE American.

The Company has agreed to pay NSC commissions for its services in acting as agent in the sale of the Shares in the amount equal to 3.0% of the gross sales price of all Shares sold pursuant to the Agreement. The Company also paid various expenses in connection with the offering, including reimbursing \$30,000 of NSC’s legal fees, which has been paid to date. The Company has also agreed to provide NSC with customary indemnification and contribution rights.

The Company has used, and intends to use, the net proceeds from the offering to fund development and for working capital and general corporate purposes, including general and administrative purposes. The Company is not obligated to make any sales of common stock under the Sales Agreement, and no assurance can be given that the Company will sell any additional shares under the Sales Agreement (other than as described below), or, if it does, as to the price or amount of Shares that it will sell, or the dates on which any such sales will take place.

The Company has filed a final prospectus in connection with such offering with the SEC (as part of the Form S-3 registration statement).

On April 24, 2017, the Company sold 872 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.05 per share, for an aggregate purchase price of \$1,000, to which an underwriter’s fee of 3.0% was applied.

On May 15, 2017, the Company sold 369,603 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.12 per share, for an aggregate purchase price of \$415,000, to which an underwriter’s fee of 3.0% was applied.

On June 27, 2017, the Company sold 179,860 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$1.05 per share, for an aggregate purchase price of \$189,000, to which an underwriter's fee of 3.0% was applied.

On July 24, 2017, the Company sold 40,000 shares of common stock under the Sales Agreement and the prospectus associated therewith, at a purchase price of approximately \$0.90 per share, for an aggregate purchase price of \$36,000, to which an underwriter's fee of 3.0% was applied.

No other securities have been sold under the Sales Agreement as of the date of this filing.

No payments for our expenses will be made in connection with the offering described above directly or indirectly to (i) any of our directors, officers or their associates, (ii) any person(s) owning 10% or more of any class of our equity securities or (iii) any of our affiliates. We plan to use the net proceeds from the offering as described in our final prospectus filed with the SEC pursuant to Rule 424(b).

There has been no material change in the planned use of proceeds from our offering as described in our final prospectuses filed with the SEC pursuant to Rule 424(b).

Issuer Purchases of Equity Securities

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable.

ITEM 5. OTHER INFORMATION

Termination of a Material Definitive Agreement

On June 22, 2017, we terminated our then pending merger with GOM, in order to pursue an alternative transaction with a Hong Kong-based investor group as contemplated pursuant to a non-binding term sheet entered into by us and the investor group, which term sheet includes a binding 90-day no-shop period expiring in late August 2017, during which time we are prohibited from discussing or pursuing the merger with GOM, while the parties conduct in-depth due diligence on one another, prepare definitive documentation, and move to closing. The merger with GOM was originally contemplated by the GOM Merger Agreement with White Hawk Energy, LLC, a wholly-owned subsidiary of the Company and GOM, dated December 29, 2015, as amended. We have no further obligations or termination liabilities due or owing to GOM under the GOM Merger Agreement as a result of the termination of the transactions contemplated thereunder.

ITEM 6. EXHIBITS

See the Exhibit Index following the signature page to this Quarterly Report on Form 10-Q for a list of exhibits filed or furnished with this report, which Exhibit Index is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
