Item 2.05. Costs Associated with Exit or Disposal Activities.

(a), (b), (c) and (d) On September 30, 2013, Merck & Co., Inc. (the “Company”) committed to a new global restructuring program (the “2013 Restructuring Program”) as part of a global initiative to sharpen its commercial and research and development focus. As part of the new program, the Company expects to reduce its total workforce by approximately 8,500 positions. These workforce reductions will primarily come from the elimination of positions in sales, administrative and headquarters organizations, as well as research and development. The Company will also reduce its global real estate footprint and continue to improve the efficiency of its manufacturing and supply network.

The actions under the 2013 Restructuring Program are expected to be substantially completed by the end of 2015 with the cumulative pretax costs estimated to be approximately \$2.5 billion to \$3.0 billion. The Company expects to record charges of approximately \$900 million to \$1.1 billion related to this program in 2013, a majority of which will be recorded in the third quarter. The Company estimates that approximately two-thirds of the cumulative pretax costs will result in cash outlays, primarily related to employee separation expense. Approximately one-third of the cumulative pretax costs are non-cash, relating primarily to the accelerated depreciation of facilities to be closed or divested.

The Company expects the actions under the 2013 Restructuring Program to result in annual net cost savings of approximately \$2.0 billion by the end of 2015. The Company anticipates that the actions under the 2013 Restructuring Program, combined with remaining actions under previously announced restructuring programs, will result in annual net cost savings of \$2.5 billion by the end of 2015 compared with full-year 2012 expense levels.

Item 9.01. Financial Statements and Exhibits.
