FOR IMMEDIATE RELEASE

EATON VANCE CORP.
REPORT FOR THE THREE MONTHS AND SIX MONTHS ENDED
APRIL 30, 2003

BOSTON, MA--Eaton Vance Corp. reported diluted earnings per share of \$0.36 in the second quarter of fiscal year 2003 compared to diluted earnings per share of \$0.46 in the second quarter of fiscal year 2002. Eaton Vance earned \$0.73 per diluted share for the first six months of fiscal 2003 compared to \$0.92 for the first six months of fiscal 2002.

Assets under management of \$57.9 billion at the end of the second quarter of fiscal 2003 were \$1.3 billion or 2 percent lower than the \$59.2 billion under management at the end of the second quarter last year. Average assets under management were \$56.1 billion in the second quarter of fiscal 2003, 5 percent lower than the average assets of \$59.3 billion in the second quarter of last year. During the 12-month period ended April 30, 2003, the S&P 500 and the Nasdaq Composite each declined by 13 percent. The Company's superior long-term investment performance, balanced product line (54 percent equity assets, 33 percent fixed income assets and 13 percent floating rate assets on April 30, 2003), and positive net flows helped offset approximately \$5.2 billion of market depreciation during the 12-month period.

Net inflows of long-term fund assets and separate account assets were \$1.5 billion in the first half of fiscal 2003 and \$1.6 billion in the first half of fiscal 2002. Fund net inflows of \$1.2 billion in the first six months of 2003 benefited from the successful offering of nine closed-end municipal bond funds that added \$0.7 billion of new assets. Managed account net inflows were \$0.3 billion in the first half of 2003 and in the first half of 2002. Tables 1, 2 and 3 (attached) summarize assets under management and asset flows by investment objective.

As a result of lower average assets under management and changes in product mix, fiscal 2003 first half revenue decreased by \$22.7 million or 8 percent to \$245.8 million. Investment adviser and administration fees declined \$6.4 million or 4

Page 5 of 10

percent to \$137.0 million. Distribution and underwriter fees decreased \$12.8 million or 15 percent, reflecting lower fund assets under management and the continuing shift from sales of Class B and Class C mutual fund shares to other share classes and assets with low or no distribution fees. Service fee revenue declined \$5.0 million or 12 percent in the first half of fiscal 2003 because of the decline in mutual fund assets that pay service fees. Other income increased 165 percent to \$2.3 million because of reimbursement payments for certain fund shareholder services now performed by the Company, and interest income from a consolidated investment company in which Eaton Vance is the majority shareholder.

Fiscal 2003 first half operating expenses of \$168.8 million were essentially flat compared to \$169.1 million in the first half of 2002. Compensation expenses declined 2 percent because of lower marketing and sales incentives and lower operating income-based bonus accruals. Amortization of deferred sales commissions increased 1 percent primarily due to adjustments made to better align amortization expense with projected distribution fee revenue. Service fee expense and distribution fee expense decreased 6 percent and 3 percent,

Edgar Filing: EATON VANCE CORP - Form 8-K

respectively, reflecting the decline in fund assets under management. Other expenses increased 11 percent primarily because of \$1.8 million of non-recurring expenses related to the Company's successful offering of nine closed-end municipal bond funds, higher marketing-related travel expenses and higher audit and consulting fees. Fiscal 2003 first half operating income declined 23 percent to \$77.0 million.

First half net income declined 23 percent to \$50.9 million. Interest income declined 16 percent because of lower short-term interest rates in the first half of fiscal 2003 compared to the first half last year. Interest expense increased 33 percent primarily because of the accrual, beginning November 13, 2002, of an additional 2.5 percent per annum of cash interest paid by Eaton Vance Management on its exchangeable notes. Gains on the sale of investments increased 41 percent. The Company's provision for income taxes was 35 percent in both the first half of fiscal 2003 and the first half of fiscal 2002.

Cash and cash equivalents and short-term investments were \$238.3 million on April 30, 2003 and \$217.1 million on April 30, 2002. The Company's strong operating cash flow in the last 12 months allowed it to reduce its long-term debt by \$92.0 million or 42 percent to \$125.0 million, and pay \$76.8 million in federal and state income taxes (including reducing the deferred tax liability by \$24.1 million to \$39.6 million), \$74.0 million in sales commissions, \$38.6 million to repurchase 1,361,000 shares of its non-voting common stock and \$21.1 million in dividends to shareholders. There are no outstanding borrowings against the Company's \$170 million credit facility.

Short-term investments on April 30, 2003 included the investment holdings of the \$67.2 million Eaton Vance Institutional Short-term Income Fund. Even though the Company's \$50.1 million investment in the fund is considered to be temporary, Statement of Financial Accounting Standards No. 144 requires the Company to consolidate funds in its financial statements in which it is the majority investor. Minority interest of \$18.3 million on April 30, 2003 includes \$17.1 million of minority interest in the Eaton Vance Institutional Short-term Income Fund.

During the first six months of fiscal year 2003, the Company used \$14.7 million of its cash to repurchase and retire 523,900 shares of its non-voting common stock. Approximately 1.8 million shares remain of the current 4.0 million-share repurchase authorization.
