financial disclosure.

Changes in Registrant's Certifying Accountant

On June 20, 2001, Kansas City Southern Industries, Inc. ("the Registrant") notified the accounting firm of PricewaterhouseCoopers LLP ("PWC"), the Registrant's principal accountant during the two most recent fiscal years, that PWC had been replaced as the Registrant's principal accountant. Additionally on June 20, 2001, the Registrant engaged the accounting firm of KPMG LLP ("KPMG") as its principal accountant for the current fiscal year.

For the two most recent fiscal years, the reports of PWC on the Registrant's financial statements contained no adverse opinion or disclaimer of opinion and were not qualified as to uncertainty, audit scope or accounting principle.

The decision to change certifying accountants was discussed with Registrant's Audit Committee and approved by the Chairman of the Registrant's Audit Committee.

The selection of KPMG was made after the completion of a competitive proposal process, which involved all five major accounting firms and began in April 2001.

Disagreements with Accountants on Accounting and Financial Disclosure

In connection with its audits for the two most recent fiscal years and through June 20, 2001, there have been no disagreements with PWC on any matter of accounting principles or practices, financial statements disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of PWC would have caused them to make reference thereto in their report on the financial statements for such years except that:

During the year ended December 31, 2000, the Registrant completed a transaction to monetize, for a one-time payment, the rights to the future income stream associated with certain billboard advertising sites located on the right of way of the Registrant's railroad operating property. The transaction was completed with a third party vendor to the Registrant, which provides advertising signage services to other companies in the railroad industry. Based upon the details of the transaction, the Registrant believed that the associated transaction should be accounted for under the guidance of Staff Accounting Bulletin No. 101 - "Revenue Recognition in Financial Statements" ("SAB 101") and consistent with railroad industry accounting practices. After reviewing industry practice and SAB 101 related to the specifics of this transaction, the Registrant concluded that the appropriate criteria, of both industry accounting practices and the guidance in SAB 101, were met to record the initial one-time payment as income in the Statement of Income for the year ended December 31, 2000. The Registrant's certifying accountant, PWC, believed that SAB 101 did not apply and railroad industry accounting practice would not take precedence over standards promulgated by the Financial Accounting Standards Board. PWC believed that the transaction should be evaluated under lease accounting rules which, in this instance, would require that the up-front payment be initially deferred and recognized over future periods. After further discussion between the Registrant and PWC, the Registrant recorded the transaction as recommended by PWC in the financial statements for the year ended December 31, 2000.

During the period of time that the Registrant was exploring with PWC the various accounting rules regarding this matter and following PWC's expression of its conclusion with regard to this matter, the Registrant inquired of PWC as to other avenues that might be available to the Registrant. PWC acknowledged that one alternative might be for the Registrant to seek a SAS 50 opinion from another independent accountant. In early February 2001, Registrant's management

Edgar Filing: KANSAS CITY SOUTHERN INDUSTRIES INC - Form 8-K

discussed this transaction with KPMG to obtain an understanding of relevant industry practice and application of SAB 101. Also, at the Registrant's request, PWC discussed the issue with representatives of the other major accounting firms, including KPMG. KPMG communicated to the Registrant that this issue was discussed with representatives of the major accounting firms and that PWC reaffirmed their earlier position on the proper accounting treatment of the transaction. The Registrant did not request a SAS 50 opinion or report from KPMG, and none was issued. Additionally, KPMG did not express any specific viewpoint to the Registrant regarding the accounting for the transaction.

The Registrant's management and PWC discussed this matter with the Registrant's Audit Committee.

Additionally, the Registrant has authorized PWC to respond fully to inquiries of KPMG concerning this matter.

Other Reportable Events

The Registrant became aware that as a result of a reorganization during 2001 between two of the participants in the Grupo TFM venture (in which the Registrant has a minority interest), Grupo TFM may be reported by one of the participants as a consolidated subsidiary under International Accounting Standards. The Registrant has historically treated Grupo TFM as a foreign corporate joint venture under US generally accepted accounting principles and, accordingly, has not provided deferred income taxes at the statutory rates on the difference between the financial accounting and income tax bases in its investment in Grupo TFM. PWC has informed the Registrant that at the time of their replacement, PWC had not completed the analysis and testing necessary to confirm the Registrant's continued accounting for Grupo TFM as a foreign corporate joint venture under these circumstances and, accordingly, that PWC believes this matter represents a reportable event under Regulation SK Section 304(a)(1)(v)(D).

The Registrant's management and PWC discussed this matter with the Registrant's Audit Committee.

Additionally, the Registrant has authorized PWC to respond fully to inquiries of KPMG concerning this matter.
