☒ Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013.

Section 1 – CONFLICTS MINERALS DISCLOSURE

Item 1.01 Conflict Minerals Disclosure and Report

This Form SD of Olin Corporation (“Olin”) is filed pursuant to Rule 13p-1 promulgated under the Securities Exchange Act of 1934, as amended (the “Rule”), for the reporting period January 1, 2013 to December 31, 2013.

Olin has concluded in good faith that during 2013, the Winchester division manufactured or contracted to have manufactured products for which conflict minerals as defined in the Rule (“Conflict Minerals”) are necessary to the functionality or production. As required by the Rule, we conducted a reasonable country of origin inquiry (“RCOI”) regarding the source of the Conflict Minerals. Olin does not have sufficient information from our suppliers or other sources at this time to conclude whether any of the Conflict Minerals originated or may have originated in the Covered Countries (as defined in the Rule) and if so, whether those Conflict Minerals are solely from recycled or scrap sources.

Description of Reasonable Country of Origin Inquiry

For 2013, Olin surveyed its direct suppliers to obtain country of origin information for the Conflict Minerals in our Winchester products using the Conflict Minerals Reporting Template from the Conflict Free Sourcing Initiative (“CFSI”), an initiative started by the Electronic Industry Citizenship Coalition (“EICC”) and the Global e-Sustainability Initiative (“GeSI”).

That supply chain survey requested suppliers to identify the smelters and refiners and countries of origin of the Conflict Minerals they supply to Olin. We compared the smelters identified in the surveys against the lists of facilities which have received a “conflict free” designation by the Conflict-Free Smelter Program (the “CFSP”) provided by the CFSI. If a smelter identified by our suppliers was not listed as having received a “conflict free” designation, we reviewed its website and other information in an attempt to determine country of origin information for the Conflict Minerals that it processed.

Based on the results of our inquiry, we proceeded with due diligence measures pursuant to the Rule. There is significant overlap between our RCOI efforts and the due diligence measures we performed. Both are discussed in more detail in the Conflict Minerals Report filed as Exhibit 1.02.
