#### EXPLANATORY NOTE

This Amendment No. 1 to the Quarterly Report on Form 10-Q of Questar Corporation (the Company) amends the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2008 (the Original Filing) which was filed with the Securities and Exchange Commission on May 5, 2008. The Company is filing this Amendment No. 1 for the purposes of:

•

restating the Consolidated Statements of Income, Note 6 to the consolidated financial statements and Management s Discussion and Analysis of Financial Condition and Results of Operations. Disclosures with respect to operations by line of business have been restated to correct for errors related to intercompany elimination of natural gas and crude oil sales between Questar E&P and Energy Trading. The restatement did not impact net income, operating income, the Condensed Consolidated Balance Sheets or the Condensed Consolidated Statement of Cash Flows as described in Note 3 to the consolidated financial statements:

•

providing revised Exhibits 31.1 and 31.2 which contain the Certification of the Chief Executive Officer and the Certification of the Chief Financial Officer, respectively. The certifications included in Exhibits 31.1 and 31.2 to the Original Filing inadvertently omitted the language required to be included in paragraph 4(b) of such certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002; and

•

expanding certain disclosures under Part I. Item 4. Controls and Procedures.

Except as described above, this Amendment No. 1 does not amend any other information set forth in the Original Filing and the Company has not updated disclosures included therein to reflect any events that occurred subsequent to May 5, 2008. The restatement did not impact net income, operating income, the Condensed Consolidated Balance Sheets or the Condensed Consolidated Statement of Cash Flows.

### QUESTAR CORPORATION

#### NOTES ACCOMPANYING THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### Note 1 Nature of Business

Questar Corporation (Questar or the Company) is a natural gas-focused energy company with five major lines of business—gas and oil exploration and production, midstream field services, energy marketing, interstate gas transportation, and retail gas distribution—which are conducted through its three principal subsidiaries:

•

Questar Market Resources, Inc. (Market Resources) is a subholding company that operates through four principal subsidiaries. Questar Exploration and Production Company (Questar E&P) acquires, explores for, develops and produces natural gas, oil and NGL. Wexpro Company (Wexpro) manages, develops and produces cost-of-service reserves for gas utility affiliate Questar Gas. Questar Gas Management Company (Gas Management) provides midstream field services including natural gas-gathering and processing services for affiliates and third parties. Questar Energy Trading Company (Energy Trading) markets equity and third-party natural gas and oil, provides risk-management services and owns and operates an underground gas-storage reservoir.

•

Questar Pipeline Company (Questar Pipeline) provides interstate natural gas transportation and storage and other energy services.

•

Questar Gas Company (Questar Gas) provides retail natural gas distribution services in Utah, Wyoming and Idaho.

Questar operates in the Rocky Mountain and Midcontinent regions of the United States of America and is headquartered in Salt Lake City, Utah. Shares of Questar common stock trade on the New York Stock Exchange under the symbol STR.

### Note 2 Basis of Presentation of Interim Consolidated Financial Statements

The interim condensed consolidated financial statements contain the accounts of Questar and its majority-owned or controlled subsidiaries. The condensed consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP) and with the instructions for quarterly reports on Form 10-Q and Regulations S-X and S-K. All significant intercompany accounts and transactions have been eliminated in consolidation.

The condensed consolidated financial statements reflect all normal, recurring adjustments and accruals that are, in the opinion of management, necessary for a fair presentation of financial position and results of operations for the interim periods presented. Interim condensed consolidated financial statements do not include all of the information and notes required by GAAP for audited annual consolidated financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2007. Certain reclassifications were made to prior-period financial statements to conform with the current presentation. Affiliate Rendezvous Gas Services was consolidated during the first quarter of 2008 as a result of a step acquisition resulting from disproportionate ownership.

The preparation of the condensed consolidated financial statements and notes in conformity with GAAP requires that management make estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from estimates. The results of operations for the three months ended March 31, 2008, are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

All dollar and share amounts in this quarterly report on Form 10-Q/A are in millions, except per-share information and where otherwise noted.

#### Note 3 Restatement

The accompanying Consolidated Statements of Income and Note 6 Operations by Line of Business have been restated to correct for errors related to intercompany elimination of gas sales between Questar E&P and Energy Trading. The restatement did not impact net income, operating income, the Condensed Consolidated Balance Sheets or the Condensed Consolidated Statement of Cash Flows. The following table shows the amended information:

### **Note 4** Earnings Per Share (EPS)

Basic EPS is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the reporting period. Diluted EPS includes the potential increase in the number of outstanding shares that could result from the exercise of in-the-money stock options plus an estimated number of nonvested restricted shares.

A reconciliation of the components of basic and diluted shares used in the EPS calculation follows:

	3 Months Ende	ed March 31,
	2008	2007

Weighted-average basic common shares outstanding	172.4	171.6
Potential number of shares issuable under the Long-term Stock Incentive Plan	3.8	4.0

### **Note 5** Share-Based Compensation

Questar issues stock options and restricted shares to certain officers, employees and non-employee directors under its Long-term Stock Incentive Plan (LTSIP) and accounts for the transactions according to Statement of Financial Accounting Standards (SFAS) 123R Share-Based Payment. First-quarter share-based compensation expense amounted to \$4.0 million in 2008 compared with \$2.8 million in 2007. At March 31, 2008, deferred share-based compensation amounted to \$30.3 million, of which \$27.7 million was attributed to unvested restricted stock. First-quarter cash flow from tax deductions in excess of recognized compensation expense amounted to \$7.1 million in 2008 and \$4.8 million in 2007. There were 9,873,199 shares available for future grant at March 31, 2008. Unvested stock options increased by 30,000 shares in the first three months of 2008. Stock-option transactions under the terms of the LTSIP are summarized below:

### **Note 7** Asset Retirement Obligations (ARO)

Questar recognizes ARO in accordance with SFAS 143 Accounting for Asset Retirement Obligations. SFAS 143 addresses the financial accounting and reporting of the fair value of legal obligations associated with the retirement of tangible long-lived assets. The Company ARO applies primarily to abandonment costs associated with gas and oil wells and certain other properties. The fair value of abandonment costs are estimated and depreciated over the life of the related assets. Revisions to estimates of the ARO result from changes in expected cash flows. The ARO liability is adjusted to present value each period through an accretion calculation using a credit-adjusted risk-free interest rate. Changes in ARO were as follows:

## Note 8 Employee Benefits

Questar has defined-benefit pension and postretirement medical and life insurance plans covering the majority of its employees. Questar is subject to and complies with minimum-required and maximum-allowed annual contribution levels for its qualified retirement plan as determined by the Employee Retirement Income Security Act and Internal Revenue Code. Subject to these limitations, Questar seeks to fund the qualified retirement plan approximately equal to the yearly expense, which is estimated to be \$11.8 million for 2008.

The Company also has a nonqualified pension plan for eligible employees that provides a benefit in addition to the benefit limit defined by the Internal Revenue Service for qualified pension plans. The nonqualified pension plan is unfunded. Claims are paid from the Company general funds. The 2008 expense is estimated to be \$1.6 million.

Components of the qualified and nonqualified pension expense included in the determination of net income are listed below:

	3 Months Ended	3 Months Ended March 31,	
	2008	2007	
	(in millio	ons)	
Service cost	\$ 2.4	\$ 2.7

#### **Note 9** Fair-Value Measures

Beginning in 2008, Questar adopted the effective provisions of SFAS 157 Fair-Value Measures. SFAS 157 defines fair value in applying GAAP, establishes a framework for measuring fair value and expands disclosures about fair-value measurements. SFAS 157 does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS 157 establishes a fair-

value hierarchy. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position Financial Accounting Standard 157-2 Partial Deferral of the Effective Date of Statement 157, which delays the effective date for nonfinancial assets and nonfinancial liabilities, except those recognized or disclosed at fair value in the financial statements on a recurring basis. The adoption of SFAS 157 did not have a significant effect on the Company s financial position or results of operations.

The following table discloses the Level 2 fair value of derivative contracts at March 31, 2008. The fair value of these derivative contracts is based on market prices posted on the NYMEX on the last trading day of the reporting period.

	Level 2
	(\$ millions)
Assets	
Fair value of derivative contracts - short term	\$ 0.2
Fair value of derivative contracts - long term	21.7
Liabilities	
Fair value of derivative contracts - short term	\$220.1

### **Note 10 Questar E&P Property Acquisitions**

On February 29, 2008, Questar E&P acquired two significant natural gas development properties in northwest Louisiana for an aggregate purchase price of \$659 million, subject to customary post-closing adjustments. The transactions had an effective date of January 1, 2008, and were initially funded with short-term bank debt.

### Note 11 Financings

On March 7, 2008, Market Resources filed a shelf registration with the Securities and Exchange Commission (SEC) to sell up to \$700 million of debt securities and use the net proceeds to repay bank borrowings and to finance certain capital expenditures as well as for general corporate purposes, including working capital. On March 21, 2008, Market Resources entered into a new \$800 million five-year revolving-credit facility. At March 31, 2008, there was \$200 million outstanding under the credit facility. On April 4, 2008, Market Resources sold \$450 million of 10-year notes

with a 6.8% coupon interest rate. The funds borrowed under the credit facility and the net proceeds from the sale of the notes were used to reduce the short-term bank debt discussed in Note 10. At March 31, 2008, \$450 million of the short-term bank debt was classified as long-term debt on the Condensed Consolidated Ba
