1. Organization and Business

Vail Resorts, Inc. ("Vail Resorts" or the "Parent Company") is organized as a holding company and operates through various subsidiaries. Vail Resorts and its subsidiaries (collectively, the "Company") currently operate in three business segments: Mountain, Lodging and Real Estate. In the Mountain segment, the Company owns and operates five world-class ski resorts and related ancillary businesses at Vail, Breckenridge, Keystone and Beaver Creek mountains in Colorado and the Heavenly Ski Resort ("Heavenly") in the Lake Tahoe area of California and Nevada. These resorts use federal land under the terms of Special Use Permits granted by the USDA Forest Service (the "Forest Service"). The Company also holds a 69.3% interest in SSI Venture, LLC ("SSV"), a retail/rental company. In the Lodging segment, the Company owns and operates various hotels, as well as RockResorts International, LLC ("RockResorts"), a luxury hotel management company, and Grand Teton Lodge Company ("GTLC"), which operates three resorts within Grand Teton National Park (under a National Park Service concessionaire contract), and the Jackson Hole Golf & Tennis Club ("JHG&TC") in Wyoming. Vail Resorts Development Company ("VRDC"), a wholly-owned subsidiary, conducts the operations of the Company's Real Estate segment. The Company's Mountain business and its Lodging properties at or around the Company's ski resorts are seasonal in nature with peak operating seasons from mid-November through mid-April. The Company's operations at GTLC generally run from mid-May through mid-October. The Company also has non-majority owned investments in various other entities, some of which are consolidated (see Note 6, Variable Interest Entities).

In the opinion of the Company, the accompanying Consolidated Condensed Financial Statements reflect all adjustments necessary to state fairly the Company's financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. Results for interim periods are not indicative of the results for the entire year. The accompanying Consolidated Condensed Financial Statements should be read in conjunction with the audited Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended July 31, 2006. Certain information and footnote disclosures, including significant accounting policies, normally included in fiscal year financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. The July 31, 2006 Consolidated Condensed Balance Sheet was derived from audited financial statements.

2. Summary of Significant Accounting Policies

Use of Estimates--The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Net Income Per Common Share

Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings Per Share" ("EPS"), establishes standards for computing and presenting EPS. SFAS No. 128 requires the dual presentation of basic and diluted EPS on the face of the Consolidated Condensed Statements of Operations and requires a reconciliation of numerators (net income/loss) and denominators (weighted-average shares outstanding) for both basic and diluted EPS in the footnotes. Basic EPS excludes dilution and is computed by dividing net income/loss available to common stockholders by the weighted-average shares outstanding. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, resulting in the issuance of shares of common stock that would then share in the earnings of the Company. Presented below is basic and diluted EPS for the three months ended April 30,

Less: Current maturities (d)	401	5,915	4,420
Long-term debt	\$575,162	\$525,313	\$516,871

- (a) Maturities are based on the Company's July 31 fiscal year end.
- (b) On March 13, 2007, The Vail Corporation ("Vail Corp."), a wholly-owned subsidiary of the Company, entered into an amendment (the "Third Amendment") of its existing Fourth Amended and Restated Credit Agreement (the "Credit Agreement") among Vail Corp., Bank of America, N.A. as administrative agent, U.S. Bank National Association and Wells Fargo Bank, National Association as co-syndication agents, Deutsche Bank Trust Company Americas and LaSalle Bank National Association as co-documentation agents, and the lenders party thereto. The Third Amendment amends the Credit Agreement to, among other things, (i) decrease the total loan commitment from \$400 million to \$300 million, (ii) improve pricing, including unused commitment fees and letter of credit fees and improve flexibility in the Company's ability to make investments, (iii) extend the maturity date from January 28, 2010 to February 1, 2012 and (iv) eliminate certain covenant ratios and change, for pricing and covenant purposes, the gross debt leverage ratio to a net debt ratio.
- (c) On March 19, 2007, The Chalets at The Lodge at Vail, LLC (the "Chalets"), a wholly-owned subsidiary of the Company, entered into a construction loan agreement (the "Construction Loan Agreement") in the amount of up to \$123 million with Wells Fargo Bank, National Association as administrative agent, book manager, and joint lead arranger, U.S. Bank National Association as joint lead arranger and syndication agent, and the lenders party thereto. Borrowings under the Construction Loan Agreement are non-revolving and must be used for the payment of certain costs associated with the construction and development of The Lodge at Vail Chalets, a residential development consisting of 13 luxury condominium units, as well as the associated private membership club, skier services building and parking structure. The Construction Loan Agreement matures on September 1, 2009, and principal payments are due at maturity, with certain pre-payment requirements, including upon the closing of the condominium units. The Chalets has the option to extend the term of the Construction Loan Agreement for six months, subject to certain requirements. Borrowings under the Construction Loan Agreement bear interest annually at the rate, at the Chalets' option, of (i) LIBOR plus a margin of 1.35% or (ii) the greater of the (x) administrative agent's prime commercial lending rate or (y) the Federal Funds Rate in effect on that day as announced by the Federal Reserve Bank of New York, plus 0.5%. Interest is payable monthly in arrears. The Construction Loan Agreement provides for affirmative and negative covenants that restrict, among other things, the Chalets' ability to dispose of assets, transfer or pledge its equity interest, incur indebtedness and make investments or distributions. The Construction Loan Agreement contains non-recourse provisions to the Company with respect to repayment, whereby under event of default, the lenders have recourse only against the Chalets' assets and as provided for below the lenders do not have recourse against assets held by the Company or Vail Corp. All

Edgar Filing: VAIL RESORTS INC - Form 10-Q

assets of the Chalets are provided as collateral under the Construction Loan Agreement. In connection with the Construction Loan Agreement, the Company and Vail Corp. each entered into completion guarantees, pursuant to which each of the Company and Vail Corp. guarantees the completion of the construction of the project (but not the repayment of any amounts drawn under the Construction Loan Agreement). However, Vail Corp. could be responsible to pay damages to the lenders under very limited circumstances. If either the Company or Vail Corp. is required to perform the Chalets' obligation to complete the project, the lenders will make available to the Company or Vail Corp. any undisbursed commitments under the Construction Loan Agreement for the completion of construction and development of The Lodge at Vail Chalets.

At April 30, 2007, Non-Recourse Real Estate Financings consist of borrowings of \$59.5 million under the \$175 million construction agreement for Arrabelle at Vail Square, LLC ("Arrabelle") and borrowings of \$8.8 million under the \$123 million construction agreement for the Chalets. At July 31, 2006, Non-Recourse Real Estate Financings also included borrowings under the \$30 million construction agreement for Gore Creek Place, LLC ("Gore Creek") which were paid in full during the nine months ended April 30, 2007.

(d) Current maturities represent principal payments due in the next 12 months.

Aggregate maturities for debt outstanding as of April 30, 2007 are as follows (in thousands):

Fiscal	
2007	\$ 88
Fiscal	
2008	363

The Company incurred gross interest expense of \$10.6 million and \$9.8 million for the three months ended April 30, 2007 and 2006, respectively, of which \$603,000 and \$599,000 was amortization of deferred financing costs. The Company incurred gross interest expense of \$31.1 million and \$29.1 million for the nine months ended April 30, 2007 and 2006, respectively, of which \$1.5 million and \$1.6 million was amortization of deferred financing costs. The Company capitalized \$2.6 million and \$938,000 of interest during the three months ended April 30, 2007 and 2006, respectively. The Company capitalized \$6.2 million and \$1.3 million of interest during the nine months ended April 30, 2007 and 2006, respectively.

Liabilities to complete real estate projects	6,301	550	550
Other long-term liabilities	12,397	10,616	7,373
Total other long-term liabilities	\$166,382	\$ 158,490	\$149,881

In connection with a periodic review by the staff of the Securities and Exchange Commission (the "Staff") of the Company's Annual Report on Form 10-K for the year end July 31, 2006, the Company is in discussions with the Staff regarding the Company's classification of its Real Estate segment cash inflows and outflows within the operating and investing sections of its Statements of Cash Flows. If, as a result of these discussions, it is concluded that an alternative Statement of Cash Flow presentation is more appropriate than the Company's current presentation, it would impact the operating and investing subtotals within the Statements of Cash Flows, but would not impact the overall net change in cash and cash equivalents in the Company's Statements of Cash Flows. Furthermore, these discussions do not relate to the presentation of the Company's previously reported operating results presented in its Statements of Operations or to the Company's Balance Sheets.

6. Variable Interest Entities

The Company has determined that it is the primary beneficiary of four employee housing entities (collectively, the "Employee Housing Entities"), Breckenridge Terrace, LLC ("Breckenridge Terrace"), The Tarnes at BC, LLC

("Tarnes"), BC Housing LLC and Tenderfoot Seasonal Housing, LLC, which are Variable Interest Entities ("VIEs"), and has consolidated them in its Consolidated Condensed Financial Statements. As a group, as of April 30, 2007, the Employee Housing Entities had total assets of \$40.9 million (primarily recorded in property, plant and equipment, net) and total liabilities of \$65.7 million (primarily recorded in long-term debt as "Employee Housing Bonds"). All of the assets (\$7.0 million as of April 30, 2007) of Tarnes serve as collateral for Tarnes' Tranche B Employee Housing Bonds. The Company has issued under its senior credit facility (the "Credit Facility") \$38.3 million letters of credit related to the Tranche A Employee Housing Bonds and \$12.6 million letters of credit related to the Tranche B Employee Housing Bonds. The letters of credit would be triggered in the event that one of the entities defaults on required payments. The letters of credit have no default provisions.

The Company has determined that it is the primary beneficiary of Avon Partners II ("APII"), which is a VIE. APII owns commercial space and the Company currently leases substantially all of that space. APII had total assets of \$4.7 million (primarily recorded in property, plant and equipment, net) and no debt as of April 30, 2007.

The Company had determined that it was the primary beneficiary of FFT Investment Partners ("FFT"), which was a VIE. FFT's sole asset was a private residence in Eagle County, Colorado. In March 2007, the private residence owned by FFT was sold for \$6.7 million, and thereafter FFT was dissolved.

The Company, through various lodging subsidiaries, manages the operations of several entities that own hotels in which the Company has no ownership interest. The Company also has extended a \$1.5 million note receivable to one of these entities. These entities were formed to acquire, own, operate and realize the value in resort hotel properties. The Company managed the day-to-day operations of five hotel properties as of April 30, 2007. The Company has determined that the entities that own the hotel properties are VIEs, and the management contracts are significant variable interests in these VIEs. The Company has also determined that it is not the primary beneficiary of these entities and, accordingly, is not required to consolidate any of these entities. Based on information provided to the Company by owners of the entities, these VIEs had total assets of approximately \$143.0 million and total liabilities of approximately \$53.1 million as of April 30, 2007. The Company's maximum exposure to loss as a result of its involvement with these VIEs is limited to the note receivable and accrued interest of approximately \$1.8 million and the net book value of the intangible asset associated with the management agreements in the amount of \$973,000 as of April 30, 2007.

7. Relocation and Separation Charges

In February 2006, the Company announced a plan to relocate its corporate headquarters; the plan was formally approved by the Company's Board of Directors in April 2006. The relocation process (which also includes the consolidation of certain other operations of the Company) was substantially completed by January 31, 2007. The Company currently expects that the total charges associated with the relocation that will result in cash expenditures will be approximately \$3.8 million (which includes charges for severance and retention of approximately \$1.7 million, charges for contract termination costs of approximately \$400,000 and facility, employee and other relocation costs of approximately \$1.7 million), of which all has been substantially incurred or recorded through April 30, 2007. The above amounts do not reflect any of the anticipated benefits expected to be realized from the relocation and consolidation of offices.

The following table summarizes the activity and balances of the liability related to future payments of relocation charges, which has been recorded in "accounts payable and accrued expenses" in the accompanying Consolidated Condensed Balance Sheets (in thousands):

Severance and	Contract	Facility, Employee and Other
------------------	----------	------------------------------------

	Retention Benefits	Termination Costs	Relocation Costs	Total
Balance at July 31, 2006	\$ 873	\$ --	\$ 283	\$ 1,156
Relocation charges	67	348	986	1,401
Payments	(940)	(157)	(1,259)	(2,235)
Balance at April 30, 2007	\$ --	\$ 191	\$ 10	\$ 201

In addition, in February 2006, Adam Aron, the former Chairman and Chief Executive Officer of the Company, resigned. In connection with Mr. Aron's resignation, the Company entered into a separation agreement with Mr. Aron, whereby the Company recorded \$2.7 million of separation related expenses, which is included in "relocation and separation charges" in the accompanying Consolidated Condensed Statements of Operations for the three and nine months ended April 30, 2006. Payments of Mr. Aron's separation benefits were made during the nine months ended April 30, 2007.

8. Sale of Businesses

On April 30, 2007, the Company sold its 54.5% interest in RTP, LLC ("RTP") to RTP's minority shareholder for approximately \$3.5 million. As part of this transaction the Company retained source code rights to its internal use software and internet solutions. The Company recorded a net loss of \$601,000 on the sale of its investment in RTP, which was included in "(loss) gain on sale of businesses, net" in the accompanying Consolidated Condensed Statements of Operations for the three and nine months ended April 30, 2007. Additionally, as a result of this transaction the Company recorded a net gain of \$690,000 related to the elimination of the put option liability to RTP's minority shareholder and the write-off of the associated put option intangible asset (see Note 9, Put and Call Options, for more information on this transaction).

On January 19, 2006, JHL&S LLC, a limited liability company owned by wholly-owned subsidiaries of the Company, sold the assets constituting Snake River Lodge & Spa ("SRL&S") to Lodging Capital Partners, a private, Chicago-based hospitality investment firm ("LCP"), for \$32.5 million, the proceeds of which were adjusted for normal working capital proration. The carrying value of the assets sold (net of liabilities assumed) was \$26.9 million, which were recorded as "assets held for sale" prior to the sale. The Company recorded a \$4.7 million gain after consideration of all costs involved, which is included in "(loss) gain on sale of businesses, net" in the accompanying Consolidated Condensed Statement of Operations for the nine months ended April 30, 2006. The Company continues to manage SRL&S pursuant to a 15-year management agreement with LCP.

In conjunction with the December 8, 2004 sale of the Company's 49% minority equity interest in Bachelor Gulch Resort, LLC ("BG Resort"), the Company had guaranteed payment of certain contingencies of BG Resort upon settlement. At the time of sale, the Company recorded a liability related to these contingencies in the amount of \$130,000. In February 2006, the Company reached a settlement of these contingencies and recorded an additional liability in the amount of \$82,000, which was recorded as a loss within "(loss) gain on sale of businesses, net" in the accompanying Consolidated Condensed Statement of Operations for the nine months ended April 30, 2006.

9. Put and Call Options

On March 31, 2007, the Company acquired 20% of GSSI LLC's ("GSSI"), the minority shareholder in SSV, ownership interest in SSV for \$8.4 million. As a result of this transaction, the Company holds an approximate 69.3% ownership interest in SSV. In addition, the put and call rights for GSSI's remaining interest in SSV were extended to begin August 1, 2010, as discussed below, and the existing management agreement was extended to coincide with the exercise of the remaining put and call rights.

The Company's and GSSI's remaining put and call rights are as follows: (1) beginning August 1, 2010 and each year thereafter, each of the Company and GSSI have the right to call or put respectively, 100% of GSSI's ownership interest in SSV to the Company during certain periods each year; and (2) GSSI has the right to put to the Company 100% of its ownership interest in SSV at any time after GSSI has been removed as manager of SSV or an involuntary transfer of the Company's ownership interest in SSV has occurred. The put and call pricing is generally based on the trailing twelve month EBITDA (as defined in the operating agreement) of SSV for the fiscal period ended prior to the commencement of the put or call period, as applicable. As of April 30, 2007, the estimated price at which the put/call option for the remaining interest could be expected to be settled was \$33.5 million.

In March 2001, in connection with the Company's acquisition of a 51% ownership interest in RTP, the Company and RTP's minority shareholder entered into a put agreement whereby the minority shareholder could put up to an aggregate one-third of its original 49% interest in RTP to the Company during the period from August 1 through October 31 annually. The put price was determined primarily by the trailing twelve month EBITDA (as defined in the underlying agreement) for the period ending prior to the beginning of each put period. The Company had determined that this put option should be marked to fair value through earnings. The put period was extended in October 2006, and again in February 2007. In connection with the Company's sale of its 54.5% interest in RTP (see Note 8, Sale of Businesses, for more information on this transaction) the put agreement with RTP's minority shareholder was terminated resulting in the Company recording a net gain of \$690,000 for the three and nine months ended April 30, 2007 related to the elimination of its put option liability net of the write-off of the associated put option intangible asset. For the three and nine months ended April 30, 2006, the Company recorded losses of \$113,000 and \$79,000, respectively, representing an increase in the estimated fair value of the put option liability during those periods.

10. Related Party Transactions

In January 2007, Robert A. Katz, Chief Executive Officer of the Company, executed a purchase and sale agreement for the purchase of a unit at The Lodge at Vail Chalets project located near the Vista Bahn at the base of Vail Mountain for a total purchase price of \$12.5 million. Mr. Katz provided an earnest money deposit of \$1.9 million and upgrade deposits totaling \$63,000. The earnest money deposits will be used to fund the construction of The Lodge at Vail Chalets project. The sale of the unit by the Company to Mr. Katz has been approved by the Board of Directors of the Company, in accordance with the Company's related party transactions policy.

In June 2006, the Company invested in the purchase of a residence in the Denver/Boulder, Colorado area, for Jeffrey W. Jones, the Company's Senior Executive Vice President and Chief Financial Officer, and his family in connection with his relocation to the Company's new headquarters in Broomfield, Colorado. The Company contributed \$650,000 towards the purchase price of the residence and thereby obtained a 31.0% undivided ownership interest in such residence. In January 2007, Mr. Jones repurchased the Company's 31.0% undivided ownership interest for an appraised value of \$650,000. The sale of the Company's undivided ownership interest had been approved by the Board of Directors of the Company, in accordance with the Company's related party transactions policy.

As of April 30, 2006, the Company had outstanding a \$500,000 note receivable from Keystone/Intrawest, LLC, a real estate development venture in which the Company has an equity-method investment. This note was related to the fair market value of the land originally contributed to the partnership, and was repaid in the year ended July 31, 2006, as the underlying land was sold to third parties.

11. Commitments and Contingencies

Metropolitan Districts

The Company credit-enhances \$8.5 million of bonds issued by Holland Creek Metropolitan District ("HCMD") through an \$8.6 million letter of credit issued against the Company's Credit Facility. HCMD's bonds were issued and

used to build infrastructure associated with the Company's Red Sky Ranch residential development. The Company has agreed to pay capital improvement fees to Red Sky Ranch Metropolitan District ("RSRMD") until RSRMD's revenue streams from property taxes are sufficient to meet debt service requirements under HCMD's bonds, and the Company has recorded a liability of \$964,000, \$1.3 million and \$1.7 million, primarily within "other long-term liabilities" in the accompanying Consolidated Condensed Balance Sheets, as of April 30, 2007, July 31, 2006 and April 30, 2006, respectively, with respect to the estimated present value of future RSRMD capital improvement fees. The Company estimates that it will make capital improvement fee payments under this arrangement through the year ending July 31, 2008.

Guarantees

As of April 30, 2007, the Company had various other letters of credit outstanding in the amount of \$66.0 million, a portion of which are not issued against the Credit Facility, consisting primarily of \$51.0 million in support of the Employee Housing Bonds, \$4.5 million related to workers' compensation for Heavenly and The Lodge at Rancho Mirage, \$6.2 million of construction performance guarantees and \$2.9 million for workers' compensation and general liability deductibles related to the construction of Gore Creek and Arrabelle.

In addition to the guarantees noted above, the Company has entered into contracts in the normal course of business which include certain indemnifications within the scope of Financial Interpretations No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45") under which it could be required to make payments to third parties upon the occurrence or non-occurrence of certain future events. These indemnities include indemnities to licensees in connection with the licensees' use of the Company's trademarks and logos, indemnities for liabilities associated with the infringement of other parties' technology based upon the Company's software products, indemnities related to liabilities associated with the use of easements, indemnities related to employment of contract workers, the Company's use of trustees, indemnities related to the Company's use of public lands and environmental indemnifications. The duration of these indemnities generally is indefinite and generally do not limit the future payments the Company could be obligated to make.

As permitted under applicable law, the Company and certain of its subsidiaries indemnify their directors and officers over their lifetimes for certain events or occurrences while the officer or director is, or was, serving the Company or its subsidiaries in such a capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a director and officer insurance policy that should enable the Company to recover a portion of any future amounts paid.

The Company guarantees the revenue streams associated with selected routes flown by certain airlines into Eagle County, Colorado, Regional Airport; these guarantees are generally capped at certain levels. As of April 30, 2007, the Company has recorded a liability related to the airline guarantees of \$200,000, which represents the estimated amount the Company will be required to pay. Payments, if any, under these guarantees are expected to be made during the year ending July 31, 2007.

Unless otherwise noted, the Company has not recorded a liability for the letters of credit, indemnities and other guarantees noted above in the accompanying Consolidated Condensed Financial Statements, either because the Company has recorded on its Consolidated Condensed Balance Sheet the underlying liability associated with the guarantee, the guarantee or indemnification existed prior to January 1, 2003 or the guarantee is with respect to the Company's own performance and is therefore not subject to the measurement requirements of FIN 45, or because the Company has calculated the fair value of the indemnification or guarantee to be immaterial based upon the current facts and circumstances that would trigger a payment under the indemnification clause. In addition, with respect to certain indemnifications it is not possible to determine the maximum potential amount of liability under these guarantees due to the unique set of facts and circumstances that are likely to be involved in each particular claim and indemnification provision. Historically, payments made by the Company under these obligations have not been material.

As noted above, the Company makes certain indemnifications to licensees in connection with their use of the Company's trademarks and logos. The Company does not record any product warranty liability with respect to these indemnifications.

Commitments

In the ordinary course of obtaining necessary zoning and other approvals for the Company's potential real estate development projects, the Company may contingently commit to the completion of certain infrastructure, improvements and other costs related to the projects. Fulfillment of such commitments is required only if the Company moves forward with the development project. The determination whether to complete a development project is entirely at the Company's discretion, and is generally contingent upon, among other considerations, receipt of satisfactory zoning and other approvals and the current status of the Company's analysis of the economic viability of the project, including the costs associated with the contingent commitments. The Company currently has obligations, recorded as liabilities in the accompanying Consolidated Condensed Balance Sheet, to complete or fund certain improvements with respect to real estate developments; the Company has estimated such costs to be approximately \$11.7 million as of April 30, 2007, and anticipates completion of the majority of these commitments within the next two years.

The Company has completed installing a new gondola lift and related infrastructure at Breckenridge for the 2006/07 ski season pursuant to an agreement with the Town of Breckenridge (the "Town"). The Town contributed \$6.7 million to fund construction of the gondola, as well as the already completed skiway. The funds contributed by the Town reduced the book value of the gondola and related infrastructure.

Self Insurance

The Company is self-insured for claims under its health benefit plans and for workers' compensation claims, subject to a stop loss policy. The self-insurance liability related to workers' compensation is determined actuarially based on claims filed. The self-insurance liability related to claims under the Company's health benefit plans is determined based on internal and external analysis of actual claims. The amounts related to these claims are included as a component of accrued benefits in accounts payable and accrued expenses (see Note 5, Supplementary Financial Statement Information).

Legal

The Company is a party to various lawsuits arising in the ordinary course of business, including Resort (Mountain and Lodging) related cases and contractual and commercial litigation that arises from time to time in connection with the Company's real estate operations. Management believes the Company has adequate insurance coverage or has accrued for loss contingencies for all known matters that are deemed to be probable losses and estimable.

Cheeca Lodge & Spa Contract Dispute

In March 2006, RockResorts was notified by the ownership of Cheeca Lodge & Spa, formerly a RockResorts managed property, that its management agreement was being terminated effective immediately. RockResorts believed that the termination was in violation of the management agreement and sought monetary damages, and recovery of attorney's fees and costs. Cheeca Holdings, LLC ("Cheeca Holdings"), the entity owner of the hotel property, asserted that RockResorts breached the management contract, among other alleged breaches, and sought a ruling that it had the right to terminate the management contract and sought monetary damages, and recovery of attorneys' fees and costs. Pursuant to the dispute resolution provisions of the management agreement, the disputed matter went before a single judge arbitrator at the JAMS Arbitration Tribunal in Chicago, Illinois. The Company has incurred \$184,000 and \$816,000 of legal related costs related to this matter in the three months ended April 30, 2007 and 2006, respectively,

and has incurred \$4.5 million and \$816,000 of legal related costs related to this matter in the nine months ended April 30, 2007 and 2006, respectively, which is included in "contract dispute charges" in the accompanying Consolidated Condensed Statements of Operations for the three and nine months ended April 30, 2007 and 2006.

On February 28, 2007, the arbitrator rendered a decision, awarding \$8.5 million in damages in favor of RockResorts and against Cheeca Holdings. The arbitrator found that the ownership group had wrongfully terminated the hotel management contract without good cause, as RockResorts had maintained in the proceedings, and that RockResorts had not breached the management contract, as the ownership group had alleged. In accordance with the arbitrator's ruling, RockResorts will seek recovery of costs and attorneys' fees in the last stage of the proceedings. Upon conclusion of that stage, the total award, which will incorporate the \$8.5 million damage award and any additional cost recovery award, is final, binding and not subject to appeal. Upon completion of the cost recovery stage, RockResorts will proceed with the collection of the award and will record the actual amount received, upon receipt, in "contract dispute credit (charges), net."

Breckenridge Terrace Employee Housing Construction Defect/Water Intrusion Claims

During the year ended July 31, 2004, the Company became aware of water intrusion and condensation problems causing mold damage in the 17 building employee housing facility owned by Breckenridge Terrace, an Employee Housing Entity in which the Company is a member and manager. Breckenridge Terrace recorded a \$7.0 million liability in the year ended July 31, 2004 for the estimated cost of remediation and reconstruction efforts. As of July 31, 2006, Breckenridge Terrace had substantially completed all remediation efforts.

Forensic construction experts retained by Breckenridge Terrace determined that the water intrusion and condensation problems were the result of construction and design defects. In accordance with Colorado law, Breckenridge Terrace served separate notices of claims on the general contractor, architect and developer and initiated arbitration proceedings which have since been closed. During the nine months ended April 30, 2006, the Company recorded an \$852,000 mold remediation credit due to Breckenridge Terrace receiving reimbursement from third parties for costs incurred in conjunction with its mold remediation efforts. This credit has been recognized by the Company as reduction of the remediation expense that was originally recognized in the year ended July 31, 2004.

12. Stock Repurchase Plan

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock. During the nine months ended April 30, 2007, the Company repurchased 358,400 shares of common stock at a cost of \$15.0 million. The Company did not repurchase any shares of common stock during the three months ended April 30, 2007. Since inception of this stock repurchase plan, the Company has repurchased 673,500 shares at a cost of approximately \$25.8 million. As of April 30, 2007, 2,326,500 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee stock based compensation plans. Acquisitions under the share repurchase program will be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors including the Company's future financial performance, the Company's available cash resources and competing uses for cash that may arise in the future, the restrictions in the Credit Facility and in the Indenture, dated as of January 29, 2004 among the Company, the guarantors therein and the Bank of New York, as Trustee, prevailing prices of the Company's common stock and the number of shares that become available for sale at prices that the Company believes are attractive. The stock repurchase program may be discontinued at any time and is not expected to have a significant impact on the Company's capitalization.

13. Guarantor Subsidiaries and Non-Guarantor Subsidiaries

Edgar Filing: VAIL RESORTS INC - Form 10-Q

The Company's payment obligations under the 6.75% Notes (see Note 4, Long-Term Debt) are fully and unconditionally guaranteed on a joint and several, senior subordinated basis by substantially all of the Company's consolidated subsidiaries (collectively, and excluding Non-Guarantor Subsidiaries (as defined below), the "Guarantor Subsidiaries") except for Boulder/Beaver LLC, Colter Bay Corporation, Eagle Park Reservoir Company, Forest Ridge Holdings, Inc., Gros Ventre Utility Company, Jackson Lake Lodge Corporation, Jenny Lake Lodge, Inc., Mountain Thunder, Inc., SSV, Larkspur Restaurant & Bar, LLC, Vail Associates Investments, Inc., Arrabelle, Gore Creek, Chalets, Timber Trail, Inc. and VR Holdings, Inc. (together, the "Non-Guarantor Subsidiaries"). APII and the Employee Housing Entities are included with the Non-Guarantor Subsidiaries for purposes of the consolidated condensed financial information, but are not considered subsidiaries under the indentures governing the 6.75% Notes.

Presented below is the consolidated condensed financial information of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries. Financial information for the Non-Guarantor subsidiaries is presented in the column titled "Other Subsidiaries." Balance sheet data is presented as of April 30, 2007, July 31, 2006 and April 30, 2006. Statement of operations data is presented for the three and nine months ended April 30, 2007 and 2006. Statement of cash flows data is presented for the nine months ended April 30, 2007 and 2006.

Investments in subsidiaries are accounted for by the Parent Company and Guarantor Subsidiaries using the equity method of accounting. Net income (loss) of Guarantor and Non-Guarantor Subsidiaries is, therefore, reflected in the Parent Company's and Guarantor Subsidiaries' investments in and advances to (from) subsidiaries. Net income (loss) of the Guarantor and Non-Guarantor Subsidiaries is reflected in Guarantor Subsidiaries and Parent Company as equity in consolidated subsidiaries. The elimination entries eliminate investments in Other Subsidiaries and intercompany balances and transactions for consolidated reporting purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of the Company's financial condition and results of operations should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended July 31, 2006 ("Form 10-K") and the Consolidated Condensed Financial Statements as of April 30, 2007 and 2006 and for the three and nine months then ended, included in Part I, Item 1 of this Form 10-Q, which provide additional information regarding the financial position, results of operations and cash flows of the Company. To the extent that the following Management's Discussion and Analysis contains statements which are not of a historical nature, such statements are forward-looking statements which involve risks and uncertainties. These risks include, but are not limited to, general business and economic conditions, terrorism, war, the weather, changes in the competitive environment of the mountain and lodging industries, real estate development risk, and other factors discussed elsewhere herein and in the Company's filings with the Securities and Exchange Commission ("SEC").

Management's Discussion and Analysis includes discussion of financial performance within each of the Company's segments. The Company has chosen to specifically address the non-GAAP measures, Reported EBITDA (defined as segment net revenues less segment operating expenses, plus or minus segment equity income or loss) and Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents), in the following discussion because management considers these measurements to be significant indications of the Company's financial performance and available capital resources. The Company evaluates performance and allocates resources to its segments based on Reported EBITDA. Refer to the end of the Results of Operations section for a reconciliation of Reported EBITDA to net income. Management also believes that Net Debt is an important measurement as it is an indicator of the Company's ability to obtain additional capital resources for its future cash needs. Refer to the end of the Results of Operations section for a reconciliation of Net Debt.

Reported EBITDA and Net Debt are not measures of financial performance or liquidity under accounting principles generally accepted in the United States of America ("GAAP"). Items excluded from Reported EBITDA and Net Debt are significant components in understanding and assessing financial performance or liquidity. Reported EBITDA and Net Debt should not be considered in isolation or as an alternative to, or substitute for, net income, cash flows generated by operating, investing or financing activities or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA and Net Debt are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, Reported EBITDA and Net Debt as presented may not be comparable to other similarly titled measures of other companies.

OVERVIEW

The Company's operations are grouped into three integrated and interdependent segments: Mountain, Lodging and Real Estate. The Mountain segment is comprised of the operations of five ski resort properties and related amenities, primarily including ski school, dining and retail/rental operations. Mountain segment revenue is seasonal in nature, the majority of which is earned in the Company's second and third fiscal quarters. Operations within the Lodging segment include ownership/management of a group of six luxury hotels through the RockResorts International, LLC ("RockResorts") brand, including four proximate to the Company's ski resorts; the operations of Grand Teton Lodge Company ("GTLC"), which is open generally from mid-May to mid-October; the ownership/management of non-RockResorts branded hotels and condominiums proximate to the Company's ski resorts; and golf course operations, which are open generally from mid-May to mid-October. The Real Estate segment is involved with the vertical and horizontal development of property in and around the Company's resort properties.

The Company's five ski resorts opened for business for the 2006/2007 ski season in November, which fell during the Company's second fiscal quarter and ski operations concluded in April, which fell during the Company's third fiscal

quarter. Consequently, the period during which the ski resorts are open (generally November through April) is the peak operating season for the Mountain segment. The Company's single largest source of Mountain segment revenue is the sale of lift tickets (including season passes), which represented approximately 51% of Mountain segment net revenue for the three months ended April 30, 2007 and 2006, and approximately 46% and 45% of Mountain segment net revenue for the nine months ended April 30, 2007 and 2006, respectively. Lift ticket revenue is driven by volume and pricing. Pricing is impacted by both absolute pricing as well as the demographic mix of guests, which impacts the price points at which various products are purchased. The demographic mix of guests is divided into two primary categories: 1) out-of-state and international guests ("Destination") and 2) in-state and local visitors ("In-State"). For the 2006/2007 ski season, Destination guests comprised approximately 64% of the Company's skier visits, while the In-State market comprised approximately 36% of the Company's skier visits. Destination guests generally purchase the Company's higher-priced lift ticket products and utilize more ancillary services such as ski school, lodging and retail/rental. Destination guests are less likely to be impacted by changes in the weather, due to the advance planning required for their trip, but can be impacted by the economy (including the strength of the U.S. dollar) and the global geopolitical climate. In-State guests tend to be more weather-sensitive and value-oriented; to mitigate against this, the Company markets season passes to In-State guests, generally prior to the start of the ski season. For the 2006/2007 ski season, approximately 25% of the total lift revenue was generated from the sale of season passes. The cost structure of ski resort operations is largely fixed (with the exception of retail/rental, ski school and dining); as such, incremental revenue generally has high associated profit margin.

Lodging properties at or around the Company's ski resorts represented approximately 84% and 89% of Lodging segment revenue for the three months ended April 30, 2007 and 2006, respectively, and 70% and 69% of Lodging segment revenue for the nine months ended April 30, 2007 and 2006, respectively, and are closely aligned with the performance of the Mountain segment, particularly with respect to visitation from Destination guests. Revenue from hotel management operations under the RockResorts brand is generated through management fees based upon the revenue of the individual hotel properties within the RockResorts portfolio, and to the extent that these managed properties are not proximate to the Company's ski resorts, they are more subject to the seasonality of those hotels and trends within the overall travel industry. Revenue of the Lodging segment during the Company's first and fourth fiscal quarters is generated primarily by the operations of GTLC (as GTLC's peak operating season occurs during the summer months), as well as golf operations and seasonally low operations from the Company's other owned and managed properties.

The Company's Real Estate segment engages in both the vertical development of projects and the sale of land to developers, which generally includes the retention of some control in the oversight and design of the projects and a contingent revenue structure based on the sale of the developed units. The Company attempts to mitigate the risk of vertical development by utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling all or a portion of the project, requiring significant non-refundable deposits and obtaining non-recourse financing for certain projects. The Company's Real Estate development projects also may result in the creation of certain resort assets that provide additional benefit to the Resort (Mountain and Lodging) segment. The Company's Real Estate revenue and associated expense fluctuate based upon the timing of closings and the type of real estate being sold, thus increasing the volatility of Real Estate operating results from period to period. In the near-term, the majority of Real Estate revenue is expected to be generated from vertical development projects that are currently under construction, in which revenue and related cost of sales will be recorded at the time of real estate closings.

TRENDS, RISKS AND UNCERTAINTIES

Together with those factors identified in the Company's Form 10-K, the Company's management has identified the following important factors (as well as risks and uncertainties associated with such factors) that could impact the Company's future financial performance:

Potential ownership changes of hotels currently under RockResorts management could result in the termination of existing RockResorts management contracts, which could impact the results of operations of the Lodging segment. In March 2007, RockResorts was notified by the ownership of the Rosario Resort & Spa (“Rosario”) that the management agreement was being terminated, which will result in the Company receiving a termination fee in the fourth quarter of the year ending July 31, 2007, but loss of future management fees. RockResorts recognized \$241,000 in management fees from Rosario in the year ended July 31, 2006. In February 2007, RockResorts was notified by the ownership of The Equinox that the owner intended to sell the hotel, at which time the management agreement was terminated, which resulted in the Company earning a termination fee of \$2.6 million (pursuant to the terms of the management agreement), which the Company recorded as Lodging revenue in the three and nine months ended April 30, 2007. RockResorts recognized \$822,000 in management fees from The Equinox in the year ended July 31, 2006. In August 2006, RockResorts' management agreement for The Lodge at Rancho Mirage (“Rancho Mirage”) was terminated in conjunction with the closing of the hotel as part of a redevelopment plan by the current hotel owner, which resulted in the Company earning a termination fee of \$2.4 million (pursuant to the terms of the management agreement), which the Company recorded as Lodging revenue in the nine months ended April 30, 2007. RockResorts recognized \$644,000 in revenue related to the management of this property in the year ended July 31, 2006. Offsetting the impact from the loss of the above management contracts, the Company continues to pursue new management contracts, which may include, in addition to management fees, marketing license fees and technical service fees in conjunction with a project's development and sales. For example, the Company recently announced that it will manage the Hotel Jerome in Aspen, Colorado and will operate The Chateau at Heavenly Village, currently under construction, at the base of Heavenly Ski resort. In addition, the Company also previously announced that it will manage the new Rum Cay Resort on Rum Cay Island, Bahamas, will assist in the marketing of whole and fractional ownership units within the Rum Cay Resort and provide technical advisory services in the design and construction of the resort as well as manage the new Eleven Biscayne Hotel & Spa in Miami, Florida and provide technical advisory services for this resort. These projects are currently under construction.

- 1 On February 28, 2007, an arbitrator rendered a decision, awarding \$8.5 million in damages in favor of RockResorts and against Cheeca Holdings, LLC, the ownership entity of Cheeca Lodge & Spa, the former RockResorts managed property located in Islamorada, Florida. Additionally, in accordance with the arbitrator's ruling, RockResorts will seek recovery of costs and attorneys' fees in the last stage of the proceedings. Upon conclusion of that stage, the total award, which will incorporate the \$8.5 million damage award and any additional cost recovery award, is final, binding and not subject to appeal. Upon completion of the cost recovery stage, RockResorts will proceed with the collection of the award and will record the actual amount received, upon receipt, in “contract dispute credit (charges), net.” The Company has incurred legal related costs of \$184,000 and \$4.5 million in the three and nine months ended April 30, 2007, respectively, and \$3.3 million for the year ended July 31, 2006 in connection with this matter which are included in “contract dispute charges” in the Consolidated Condensed Statements of Operations in the respective periods.
- 1 Real Estate Reported EBITDA is highly dependent on, among other things, the timing of closings on real estate under contract. Changes to the anticipated timing of closing on one or more real estate projects could materially impact Real Estate Reported EBITDA for a particular quarter or fiscal year. Additionally, the magnitude of real

estate projects currently under development or contemplated could result in a significant increase in Real Estate Reported EBITDA as these projects close, expected in the year ending July 31, 2008 and beyond. The profitability and/or viability of current or proposed real estate development projects have been and could continue to be adversely affected by escalation in construction costs. Real estate development projects are also subject to a slow-down in market demand, as well as project difficulties or delays and the resulting potential negative financial impact associated with design or construction issues that may arise in the course of construction. For the three and nine months ended April 30, 2007, the Company has recorded \$2.4 million and \$6.6 million, respectively, of estimated unanticipated costs associated with construction and design issues related to its Jackson Hole Golf & Tennis Club ("JHG&TC") residential development. These costs include estimates to complete remediation work and take into consideration performance requirements and recoveries of costs from other parties involved in the design and construction of the JHG&TC residential development, and as such are subject to change which could impact future operating results.

- 1 In recent years, the Company has shifted its Real Estate focus to vertical development (versus land development), which requires significant capital investment prior to project completion (including the construction of related Resort depreciable assets). For example, in addition to development projects currently under construction including The Arrabelle at Vail Square, Vail's Front Door and Crystal Peak Lodge projects, the Company expects to move forward with the development of The Ritz-Carlton Residences, Vail. The Company expects to incur between \$545 million and \$575 million of construction costs related to these projects subsequent to April 30, 2007. The Company has currently entered into non-recourse financing agreements to borrow up to \$298 million for The Arrabelle at Vail Square and Vail's Front Door and expects to enter into similar non-recourse financing agreements for The Ritz-Carlton Residences, Vail and Crystal Peak Lodge development projects.

The data provided in this section should be read in conjunction with the risk factors identified elsewhere in this document and within the Company's Form 10-K.

RESULTS OF OPERATIONS

Summary

The Company realized significant increases to net income in both the three and nine months ended April 30, 2007, compared to the three and nine months ended April 30, 2006, as shown below (in thousands):

	Three Months Ended April 30,		Nine Months Ended April 30,	
	2007	2006	2007	2006

Edgar Filing: VAIL RESORTS INC - Form 10-Q

Net income for the three months ended April 30, 2007 increased by \$10.2 million, compared to the three months ended April 30, 2006, which is primarily attributable to an increase in Resort Reported EBITDA of \$14.8 million, a \$3.6 million decrease in relocation and separation charges, a \$1.2 million increase in investment income and a \$0.8 million decrease in interest expense, net, which were partially offset by a \$6.5 million increase in provision for income taxes and a decrease in Real Estate Reported EBITDA of \$3.9 million.

Net income for the nine months ended April 30, 2007 increased by \$18.7 million, compared to the nine months ended April 30, 2006, which is primarily attributable to an increase in Resort Reported EBITDA of \$32.9 million, a \$3.4 million increase in investment income, a \$2.9 million decrease in interest expense, net, a \$2.4 million decrease in relocation and separation charges and an increase in Real Estate Reported EBITDA of \$2.0 million, which were partially offset by a \$12.0 million increase in provision for income taxes, a \$4.6 million prior year gain on sale of businesses, net, a \$3.6 million increase in contract dispute charges, a \$3.6 million increase in depreciation and amortization, a \$1.0 million increase in minority interest in income of consolidated subsidiaries, net and a \$0.9 million prior year mold remediation credit.

Presented below is more detailed comparative data and discussion regarding the Company's results of operations for the three and nine months ended April 30, 2007 compared to the three and nine months ended April 30, 2006.

Mountain Segment

Mountain segment operating results for the three and nine months ended April 30, 2007 and 2006 are presented by category as follows (in thousands, except effective ticket price ("ETP")):

Total skier visits	6,219	6,288	(1.1)%
ETP	\$ 46.15	\$ 41.83	10.3%

Total Mountain Reported EBITDA includes \$3.1 million and \$2.7 million of stock-based compensation expense for the nine months ended April 30, 2007 and 2006, respectively.

Lift revenue increased 5.9% during the three months ended April 30, 2007, and increased 9.1% during the nine months ended April 30, 2007, which comprised the entire ski season. These increases were due to the significant increase in ETP and higher season pass revenue, partially offset by a decrease in visitation. Overall, ETP was positively impacted by an increase in absolute pricing of the Company's individual lift ticket and pass products as well as an increase in the mix of Destination guest visitation (who generally purchase higher priced tickets). Destination guest visitation increased to 64% of total visitation compared to 60% in the prior year and increased on an absolute basis. Season pass revenues were up 17.7% in total, due to a combination of more passes sold and the higher pass prices. Season pass revenue was recorded throughout the season, thus favorably impacting lift revenue and ETP for both the three and nine months ended April 30, 2007. Total visitation at the Company's five resorts decreased 3.1% for the three months ended April 30, 2007 compared to the same period last year, with the Company's Colorado resorts' visitation remaining relatively flat, and the Company's Heavenly resort visitation decreasing by 16.3%. Total visitation at the Company's five resorts for the entire 2006/2007 ski season decreased 1.1% compared to the prior season, with the Company's Colorado resorts' visitation increasing 1.0%, and the Company's Heavenly resort visitation decreasing 12.0%. The decline in visitation at the Company's Heavenly resort is primarily attributable to significantly unfavorable weather conditions throughout the ski season. Additionally, in-state Colorado visitation, including visitation by season pass holders, was negatively impacted by adverse weather conditions in the Denver metropolitan area.

Revenues from the Company's ancillary Mountain businesses also increased for the three and nine months consistent with the lift revenue increases. Revenue from ski school improved due to an increase in absolute pricing and higher participation as a result of increased Destination guest visitation. Dining revenue grew commensurate with price increases, partially offset by a slight decrease in total visitation. Retail/rental experienced 7.2% revenue growth for the nine months ended April 30, 2007; however, the increase for the three months ended April 30, 2007 increased only 0.6%, partially due to adverse weather conditions, especially at the Company's Heavenly resort.

Segment expense increased 2.4% and 5.4% during the three and nine months ended April 30, 2007, respectively, compared to the same period in the prior year. Excluding retail/rental expense, which fluctuates more with sales volume, expense increased 2.6% and 4.7% during the three and nine months ended April 30, 2007, respectively, primarily attributable to higher variable costs related to the higher revenue, including USDA Forest Service ("Forest Service") fees, credit card fees and other fees associated with revenue; and certain labor related costs, including higher ski school labor to support the higher ski school revenue.

Lodging Segment

Lodging segment operating results for the three and nine months ended April 30, 2007 and 2006 are presented by category as follows (in thousands, except average daily rate ("ADR") and revenue per available room ("RevPAR")):

	Three Months Ended		Percentage Increase	
	2007	2006		
Total Lodging net revenue	\$43,643	\$39,492	10.5	%
Total Lodging operating expense	31,126	30,515	2.0	%

Total Lodging Reported EBITDA	\$12,517	\$ 8,977	39.4	%
ADR	\$271.58	\$247.32	9.8	%
RevPAR	\$165.56	\$149.74	10.6	%

Total Lodging Reported EBITDA includes \$306,000 and \$162,000 of stock-based compensation expense for the three months ended April 30, 2007 and 2006, respectively.

	Nine Months Ended April 30,		Percentage Increase (Decrease)	
	2007	2006		
Total Lodging net revenue	\$116,848	\$113,321	3.1	%
Total Lodging operating expense	98,233	101,050	(2.8)	%
Total Lodging Reported EBITDA	\$ 18,615	\$ 12,271	51.7	%
ADR	\$ 234.15	\$ 218.83	7.0	%
RevPAR	\$ 112.37	\$ 103.15	8.9	%

Total Lodging Reported EBITDA includes \$859,000 and \$983,000 of stock-based compensation expense for the nine months ended April 30, 2007 and 2006, respectively.

In January 2006, the Company sold the assets constituting Snake River Lodge & Spa ("SRL&S"). For the nine months ended April 30, 2006, Lodging Reported EBITDA includes revenue of \$5.2 million and operating expense of \$4.4 million related to SRL&S. Commencing with the sale of the assets constituting SRL&S, the Company is earning base management fees, which were \$324,000 for the nine months ended April 30, 2007.

Excluding the impact of the sale of SRL&S, Lodging revenues increased \$8.8 million, or 8.1%, for the nine months ended April 30, 2007, compared to the nine months ended April 30, 2006. The revenue increases for the three and nine months ended April 30, 2007 were partially due to the recognition of a \$2.6 million termination fee associated with the termination of the management agreement at The Equinox (pursuant to the terms of the management agreement) with the sale of the hotel by the current hotel owner, and revenue for the nine months ended April 30, 2007 further includes the recognition of a \$2.4 million termination fee associated with the termination of the management agreement at Rancho Mirage (pursuant to the terms of the management agreement) with the closing of the hotel as part of a redevelopment plan by the current hotel owner. ADR and RevPAR, which do not include the impact of the termination fees and excluding the impact of the SRL&S sale, increased 8.3% and 10.7% for the nine months ended April 30, 2007, respectively, compared to the nine months ended April 30, 2006. The increase in ADR and RevPAR for the three and nine months ended April 30, 2007 was primarily driven by the Lodging properties proximate to the Company's ski resorts and was due to increased pricing as well as the higher Destination guest visitation as described in the Mountain segment discussion. The overall Lodging revenue increases during the three and nine months ended April 30, 2007 were partially impacted by fewer available rooms, primarily as a result of construction at The Lodge at Vail and a reduction in managed condominium units.

Lodging expense for the three months ended April 30, 2007 compared to the three months ended April 30, 2006, increased by only 2.0% despite the higher revenues. Excluding the impact of the sale of SRL&S, expense increased \$1.5 million, or 1.6%, for the nine months ended April 30, 2007 compared to the nine months ended April 30, 2006. These increases are commensurate with normal increases in operating costs, partially offset by fewer available rooms as discussed above.

Real Estate Segment

Total Real Estate Reported EBITDA	\$ (1,498)	\$ (3,518)	57.4	%

Real Estate Reported EBITDA includes \$1.6 million and \$1.1 million of stock-based compensation expense for the nine months ended April 30, 2007 and 2006, respectively.

Certain reclassifications have been made within Real Estate segment operating results for the three and nine months ended April 30, 2006 to conform to current period presentation.

The Company's Real Estate operating revenue is primarily determined by the timing of closings and the mix of real estate sold in any given period. Different types of projects have different revenue and expense volumes and margins; therefore, as the real estate inventory mix changes it can greatly impact Real Estate segment operating revenue and operating expense, and, to a lesser degree, Real Estate Reported EBITDA. The above single family and multi-family unit sales primarily represent the Company's vertical development projects.

Real Estate segment operating revenue for the three months ended April 30, 2007 was driven primarily by the closings of certain JHG&TC cabins and the sale of the sole asset in the FFT Investment Partners real estate joint venture. In addition, the nine months ended April 30, 2007 includes the closings of Mountain Thunder and Gore Creek Place developments, additional JHG&TC cabins and the sale of parcels in Red Sky Ranch and Breckenridge to third-party developers. Operating expense for the three and nine months ended April 30, 2007 included cost of sales commensurate with revenue recognized, as well as overhead costs such as labor and benefits and professional services fees. In addition, the Company recorded \$2.4 million and \$6.6 million, net of estimated recoveries from contractors, in estimated unanticipated incremental costs during the three and nine months ended April 30, 2007, respectively, for previously built and yet to be completed JHG&TC cabins that have design and construction issues. Furthermore, for

the three months ended April 30, 2007, the additional costs recorded for the JHG&TC cabins was primarily attributable to a change in estimates related to remediation cost sharing between the Company and contractors involved in the construction of the JHG&TC cabins. The Company is currently in the process of resolving these issues along with the contractors involved in the design and construction of the JHG&TC residential development and expects to complete remediation efforts by the second quarter of the year ending July 31, 2008. The Company recorded \$1.1 million, net of estimated recoveries from contractors, in estimated unanticipated incremental costs during the three and nine months ended April 30, 2006, for previously built and yet to be completed JHG&TC cabins. In addition, for the three months ended April 30, 2007, the Company wrote off approximately \$1.1 million of certain real estate development planning costs for a project that was abandoned in favor of a Resort-related project. Real Estate segment operating revenue and Reported EBITDA in the three and nine months ended April 30, 2006 were primarily generated from a land exchange with the Forest Service, contingent gains on development parcel sales that closed in prior periods and the sale of parcels in JHG&TC. Operating expense included cost of sales commensurate with revenue recognized, as well as overhead costs such as labor and benefits, marketing costs, professional services fees and allocated corporate costs.

Other Items

In addition to segment operating results, the following material items contributed to the Company's overall financial position.

Depreciation and amortization. Depreciation and amortization expense for the three and nine months ended April 30, 2007 increased primarily as a result of an increase in the fixed asset base due to normal capital expenditures and an increase in accelerated depreciation and amortization for the three and nine months ended April 30, 2007 of approximately \$545,000 and \$1.4 million, respectively, for assets which were retired in advance of their previously estimated useful lives and accelerated amortization associated with certain intangible assets related to terminated management agreements. The average annualized depreciation rate for the three and nine months ended April 30, 2007 was 7.6%, as compared to an average annualized depreciation rate for the three and nine months ended April 30, 2006 of 7.7% and 7.4%, respectively.

Relocation and separation charges. In February 2006, the Company announced a plan to relocate its corporate headquarters, and the plan was approved by the Company's Board of Directors in April 2006. The Company recorded \$166,000 and \$1.4 million of relocation charges in the three and nine months ended April 30, 2007, respectively. The Company recorded \$1.1 million of relocation charges in the three and nine months ended April 30, 2006. The Company anticipates it will record less than \$100,000 in additional relocation charges in the remainder of the year ending July 31, 2007. In addition, in February 2006, Adam Aron, the former Chairman and Chief Executive Officer of the Company, resigned. In connection with Mr. Aron's resignation, the Company entered into a separation agreement with Mr. Aron, whereby the Company recorded \$2.7 million of separation related expenses during the three and nine months ended April 30, 2006.

Mold remediation credit. During the prior year's three and nine months ended April 30, 2006, Breckenridge Terrace, LLC received reimbursement from third parties for costs incurred in conjunction with its mold remediation efforts in the amount of \$852,000, which has been recognized by the Company as reduction of the remediation expense that was recognized in previous periods (see Note 11, Commitments and Contingencies, of the Notes to Consolidated Condensed Financial Statements, for more information regarding this item).

Investment income. The Company invests excess cash in short-term investments, as permitted under the Company's Fourth Amended and Restated Credit Agreement (the "Credit Agreement") underlying the Company's credit facility (the "Credit Facility") and the Indenture, dated as of January 29, 2004 among the Company, the guarantors therein and the Bank of New York, as Trustee ("Indenture"), governing the Senior Subordinated Notes due 2014 ("6.75% Notes"). The increase in investment income for the three and nine months ended April 30, 2007 compared to the three and nine months ended April 30, 2006 is due to significant increases in average invested cash balances during the periods

resulting primarily from increased cash flows from operations.

Interest expense, net. The Company's primary sources of interest expense are the 6.75% Notes, the Credit Facility, incorporating unused commitment fees and letter of credit fees related to the \$300 million Credit Facility Revolver thereunder, the SSV credit facility, the outstanding \$57.7 million of industrial development bonds (collectively, the "Industrial Development Bonds") and the series of bonds issued to finance the construction of employee housing facilities (the "Employee Housing Bonds"). Interest expense, net decreased \$810,000 and \$2.9 million for the three and nine months ended April 30, 2007, respectively, compared to the three and nine months ended April 30, 2006 due primarily to an increase of capitalized interest associated with the significant ongoing Real Estate and related Resort development.

(Loss) gain on sale of businesses, net. The Company recorded a net loss of \$601,000 in the three and nine months ended April 30, 2007 on the sale of its investment in RTP. The Company recorded a \$4.7 million prior year gain in the nine months ended April 30, 2006 associated with the sale of the assets constituting SRL&S. Additionally, the Company recorded an \$82,000 loss in the nine months ended April 30, 2006 associated with the sale of the Company's interest in Bachelor Gulch Resort, LLC (see Note 8, Sale of Businesses, of the Notes to Consolidated Condensed Financial Statements, for more information regarding these sales of businesses).

Contract dispute charges. In March 2006, RockResorts was notified by the ownership of Cheeca Lodge & Spa, formerly a RockResorts managed property, that its management agreement was being terminated effective immediately. RockResorts believed that the termination was in violation of the management agreement and pursued its legal rights. The Company has incurred \$184,000 and \$4.5 million of legal related costs related to this matter in the three and nine months ended April 30, 2007, respectively. The Company recorded \$816,000 of contract dispute charges in the three and nine months ended April 30, 2006. In February 2007, the arbitrator in the Cheeca matter rendered a decision in favor of the Company, awarding \$8.5 million in damages to RockResorts. The arbitrator found that the ownership group had wrongfully terminated the management contract and that RockResorts had not breached the contract. The Company will record the total arbitration award, upon receipt, in "contract dispute credit (charges), net" (see Note 11, Commitments and Contingencies, of the Notes to Consolidated Condensed Financial Statements, for more information regarding this item).

Gain (loss) on put option, net. The value of put options fluctuates based on the estimated fair market value of the put options as of the end of each period. The net gain for the three and nine months ended April 30, 2007 was related to the elimination of the put option liability (including the write-off of the associated put option intangible asset) as a result of the sale of the Company's investment in RTP in April 2007. The net loss in the three and nine months ended April 30, 2006 was related to the increase in the estimated fair market value of the liability associated with the RTP put option (see Note 9, Put and Call Options, of the Notes to Consolidated Condensed Financial Statements, for more information regarding the Company's put options).

Income taxes. The effective tax rate for the three and nine months ended April 30, 2007 and 2006 was 39.0%. The interim period effective tax rate for the current and prior year is primarily driven by the anticipated pre-tax book income for the full fiscal year and an estimate of the amount of non-deductible items for tax purposes.

The Internal Revenue Service has completed its exam of the Company's tax returns for tax years 2001 through 2003 and has issued a report of its findings. The examiner's primary finding is the disallowance of the Company's position to remove the restrictions under Section 382 of the Internal Revenue Code of approximately \$73.8 million of net operating losses ("NOLs"). These restricted NOLs relate to fresh start accounting from the Company's reorganization in 1992. The Company has appealed the examiner's disallowance of these NOLs to the Office of the Appeals. If the Company is unsuccessful in its appeals process, it will not negatively impact the Company's financial position or results of operations.

LIQUIDITY AND CAPITAL RESOURCES

Significant Sources of Cash

The Company's second and third fiscal quarters are seasonally high for cash on hand as the Company's ski resorts are generally open for ski operations from mid-November to mid-April, from which the Company has historically generated a significant portion of its operating cash flows for the year. Additionally, cash provided by operating activities can be impacted by the timing of closings on real estate development projects that may or may not occur in any given period. In total, the Company generated \$124.6 million of cash in the nine months ended April 30, 2007 which represents an increase of \$21.1 million in cash generated compared to the nine months ended April 30, 2006.

Cash provided by operating activities improved \$107.7 million for the nine months ended April 30, 2007 compared to the nine months ended April 30, 2006 and was primarily attributable to a \$67.6 million increase in Real Estate Reported EBITDA adjusted for non-cash cost of real estate sold (cash expenditures made in previous periods related to the cost of sales recorded in the nine months ended April 30, 2007) primarily as a result of closings on certain development projects including Gore Creek Townhomes and the second phase of the Mountain Thunder Townhomes in Breckenridge and a \$32.9 million increase in Resort Reported EBITDA (the combination of Mountain Reported EBITDA and Lodging Reported EBITDA). Cash used in investing activities increased by \$81.8 million for the nine months ended April 30, 2007 due to increased capital expenditures of \$18.3 million, increased investments in real estate of \$32.7 million, primarily due to expanded vertical real estate development projects (including Resort depreciable assets), and the purchase of an additional interest in SSI Venture, LLC. Additionally, cash proceeds of \$30.7 million were received in the prior year nine months ended April 30, 2006 from the sale of SRL&S. Cash provided by financing activities was consistent with the prior period; however, cash proceeds from the exercise of stock options decreased by \$42.7 million (including tax benefits) for the nine months ended April 30, 2007 compared to the nine months ended April 30, 2006. Additionally, the Company repurchased \$15.0 million of its common stock during the nine months ended April 30, 2007. The Company had an increase in non-recourse borrowing proceeds of \$46.8 million, which was used to fund a portion of its investment in real estate.

In addition to the Company's \$316.4 million of cash and cash equivalents at April 30, 2007, the Company has available \$227.3 million under its Credit Facility (which represents the total commitment of \$300 million less certain letters of credit outstanding of \$72.7 million). As of April 30, 2007 and 2006, total long-term debt (including long-term debt due within one year) was \$575.6 million and \$521.3 million, respectively, with the increase related to non-recourse financing related to the Company's vertical real estate projects. Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) declined from \$281.2 million as of April 30, 2006 to \$259.1 million as of April 30, 2007. This reduction in Net Debt places the Company in a position to better take advantage of potential strategic options as further discussed below, as the Company has significant cash on hand and no revolver borrowings under its Credit Facility.

The Company expects that its liquidity needs in the near term will be met by continued utilization of operating cash flows and through borrowings under construction loan agreements entered into by the Company's wholly-owned subsidiaries, Arrabelle at Vail Square, LLC and The Chalets at The Lodge at Vail, LLC. The Company also expects to enter into non-recourse financings on certain other real estate projects.

The Company is currently evaluating how to use its excess cash, including a combination of the following strategic options: increase real estate investment for further development, increase Resort capital expenditures, pursue strategic acquisitions, payoff outstanding debt and/or return value to shareholders, including the repurchase of additional stock of the Company. The Company's debt generally has favorable fixed interest rates and is long-term in nature. The Company's Credit Facility and the Indenture limit the Company's ability to make investments or distributions, including the payment of dividends and/or the repurchase of the Company's common stock, and the pay off of certain of its debt, including its 6.75% Notes.

Significant Uses of Cash

The Company's cash needs typically include providing for operating expenditures, debt service requirements and capital expenditures for both assets to be used in operations and real estate development projects. In addition, the Company expects it will incur significant cash income tax payments (generally expected to approximate its statutory income tax rate) in the near future due to the improved operating results, the limitations on the usage of NOLs generated in prior periods and a decline in tax benefits resulting from stock option exercises. Historically, the Company has not been a significant cash income tax payer.

The Company expects to spend approximately \$325 million to \$345 million in calendar year 2007 for real estate development projects, including the construction of associated Resort-related depreciable assets. The Company has

entered into contracts with third parties to provide construction-related services to the Company throughout the course of construction for these projects; commitments for future services to be performed over the next several years under such current contracts total approximately \$170 million. The primary projects are expected to include continued construction and development costs, as well as planning and infrastructure costs associated with planned development projects in and around each of the Company's resorts. Of the calendar 2007 estimate, the Company expects to incur approximately \$95 million to \$105 million for real estate development projects (including associated Resort-related depreciable assets) during the remainder of fiscal 2007. The Company expects real estate capital expenditures will be higher than historical levels for the foreseeable future as the Company continues its vertical development efforts. As noted above, the Company obtained non-recourse financing to fund construction of The Arrabelle at Vail Square and The Lodge at Vail Chalets projects. The Company expects to utilize similar financing arrangements for certain other development projects. In addition to utilizing project-specific financing, the Company also pre-sells units requiring deposits in a proposed development prior to committing to the completion of the development, thereby helping to ensure sales commitments exist and sufficient funds are available to complete the project.

The Company has historically invested significant cash in capital expenditures for its Resort operations, and expects to continue to invest significant cash in the future. The Company evaluates additional capital improvements based on expected strategic impacts and/or expected return on investment. The Company currently anticipates it will spend \$90 million to \$95 million of Resort capital expenditures for calendar 2007 excluding expenditures for Resort depreciable assets in conjunction with real estate activities noted above. Included in these annual capital expenditures are approximately \$38 million to \$40 million which are necessary to maintain the appearance and level of service appropriate to the Company's Resort operations. This overall Resort capital investment will allow the Company to maintain its high quality standards and make incremental discretionary improvements at the Company's five ski resorts and throughout its hotels. Highlights of the proposed discretionary expenditures include a new Beaver Creek children's ski school gondola and a related ski school building at the top of the new gondola; replacement and realignment of two chairlifts with high-speed chairlifts at Vail; a new high-speed chairlift at Heavenly; an expanded spa at The Keystone Lodge; and upgrades to the Company's central reservations, marketing database and e-commerce booking systems, among other projects. Of the calendar 2007 estimate, the Company expects to incur approximately \$20 million to \$30 million in capital expenditures for Resort operations during the remainder of fiscal 2007. The Company currently plans to utilize cash flow from operations and cash on hand to provide the cash necessary to execute its capital plan.

Principal payments on the vast majority of the Company's long-term debt (\$489.6 million of the total \$575.6 million debt outstanding as of April 30, 2007) are not due until fiscal 2012 and beyond.

The Company's debt service requirements can be impacted by changing interest rates as the Company had \$120.9 million of variable-rate debt outstanding as of April 30, 2007. A 100-basis point change in LIBOR would cause the Company's annual interest payments to change by approximately \$1.2 million. The fluctuation in the Company's debt service requirements, in addition to interest rate changes, may be impacted by future borrowings under its Credit Facility or other alternative financing arrangements it may enter into. The Company's long term liquidity needs are dependent upon operating results which impact the borrowing capacity under the Credit Facility, which can be mitigated by adjustments to capital expenditures, flexibility of investment activities and the ability to obtain favorable future financing. The Company manages changes in the business and economic environment by managing its capital expenditures and real estate development activities.

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock. During the nine months ended April 30, 2007, the Company repurchased 358,400 shares of common stock at a cost of \$15.0 million. The Company did not repurchase any shares of common stock during the three months ended April 30, 2007. Since inception of this stock repurchase plan, the Company has repurchased 673,500 shares at a cost of approximately \$25.8 million. As of April 30, 2007, 2,326,500 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee stock based

compensation plans. Acquisitions under the share repurchase program will be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors including the Company's future financial performance, the Company's available cash resources and competing uses for cash that may arise in the future, the restrictions in the Credit Facility and in the Indenture, prevailing prices of the Company's common stock and the number of shares that become available for sale at prices that the Company believes are attractive. The stock repurchase program may be discontinued at any time and is not expected to have a significant impact on the Company's capitalization.

Covenants and Limitations

The Company must abide by certain restrictive financial covenants in relation to its Credit Facility and the Indenture. The most restrictive of those covenants include the following Credit Facility covenants: Net Funded Debt to Adjusted EBITDA ratio, Minimum Net Worth and the Interest Coverage ratio (each as defined in the Credit Agreement). In addition, the Company's financing arrangements, including the Indenture, limit its ability to incur certain indebtedness, make certain restricted payments, enter into certain investments, make certain affiliate transfers and may limit its ability to enter into certain mergers, consolidations or sales of assets. The Company's borrowing availability under the Credit Facility is primarily determined by the Net Funded Debt to Adjusted EBITDA ratio, which is based on the Company's segment operating performance, as defined in the Credit Agreement.

The Company was in compliance with all relevant covenants in its debt instruments as of April 30, 2007. The Company expects it will meet all applicable financial maintenance covenants in its Credit Agreement, including the Net Funded Debt to Adjusted EBITDA ratio throughout the year ending July 31, 2007. However, there can be no assurance that the Company will meet such financial covenants. If such covenants are not met, the Company would be required to seek a waiver or amendment from the banks participating in the Credit Facility. While the Company anticipates that it would obtain such waiver or amendment, if any were necessary, there can be no assurance that such waiver or amendment would be granted, which could have a material adverse impact on the liquidity of the Company.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not have off balance sheet transactions that are expected to have a material effect on the Company's financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD LOOKING STATEMENTS

Except for any historical information contained herein, the matters discussed in this Form 10-Q contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies.

These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will" and similar terms and phrases, including references to assumptions. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that such plans, intentions or expectations will be achieved. Important factors that could cause actual results to differ materially from our forward-looking statements include, but are not limited to:

- *economic downturns;*
- *terrorist acts upon the United States;*

- *threat of or actual war;*
 - *unfavorable weather conditions;*
- *our ability to obtain financing on terms acceptable to us to finance our real estate investments, capital expenditures and growth strategy;*
 - *our ability to continue to grow our resort and real estate operations;*
 - *competition in our Mountain and Lodging businesses;*
 - *termination of existing hotel management contracts;*
 - *adverse changes in real estate markets;*
- *failure to commence or complete the planned real estate development projects;*
- *failure to achieve the anticipated short and long-term financial benefits from the planned real estate development projects;*
 - *shortages or rising costs in construction materials;*
- *implications arising from new Financial Accounting Standards Board ("FASB")/governmental legislation, rulings or interpretations;*
- *our reliance on government permits or approvals for our use of federal land or to make operational improvements;*
 - *our ability to integrate and successfully operate future acquisitions; and*
 - *adverse consequences of current or future legal claims.*

All forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this Form 10-Q, including investors and prospective investors, are cautioned not to place undue reliance on such forward-looking statements. The Company does not intend to update these forward-looking statements, even if new information, future events or other circumstances have made them incorrect or misleading.

Readers are also referred to the risk factors identified in the Company's Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk. The Company's exposure to market risk is limited primarily to the fluctuating interest rates associated with variable rate indebtedness. At April 30, 2007, the Company had \$120.9 million of variable rate indebtedness, representing 21.0% of the Company's total debt outstanding, at an average interest rate during the three months ended April 30, 2007 of 6.2%. Based on variable-rate borrowings outstanding as of April 30, 2007, a 100-basis point (or 1.0%) change in LIBOR would have caused the Company's annual interest payments to change by \$1.2 million. The Company's market risk exposure fluctuates based on changes in underlying interest rates.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Management of the Company, under the supervision and with participation of the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), have evaluated the effectiveness of the Company's disclosure controls and procedures as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Act") as of the end of the period covered by this report on Form 10-Q.

Based upon their evaluation of the Company's disclosure controls and procedures, the CEO and the CFO concluded that the disclosure controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective

to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

The Company, including its CEO and CFO, does not expect that the Company's internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
