**Description**

99.1

Press Release dated October 29, 2003

Exhibit 99.1

**ARTESIAN RESOURCES CORPORATION**

Newark, DE, October 29, 2003 - (ARTNA) The Board of Directors of Artesian Resources Corporation today approved a 2% increase in the Class A Non-Voting and Class B Common shareholders' annual dividend. This is the second increase this year. The quarterly dividend of \$0.2025 per share is payable November 21, 2003 to shareholders of record at the close of business on November 10, 2003. Dian C. Taylor, Chair, CEO and President, said, "The increase in the dividend reflects our continued confidence in Artesian's long-term growth strategy and financial performance and our commitment to provide consistent returns to our shareholders."

The Company also reported that revenues for the nine months ended September 30, 2003 were \$27.2 million as compared to \$25.8 million for the same period in 2002, an increase of 5%. Net income available to common shareholders for the same period was \$2,977,000, up from \$2,952,000 as reported for the same period in 2002, an

increase of approximately 1%. Basic and diluted net income per common share were \$0.77 and \$0.75, respectively, for the nine months ended September 30, 2003, as compared to \$0.86 and \$0.84, respectively, for the same period last year, a 10% decrease in basic net income per common share.

Revenues for the third quarter of 2003 were \$9.2 million as compared to \$9.5 million for the same period in 2002, a decrease of 2%. Net income available to common shareholders this quarter was \$1.1 million, down 31% from \$1.5 million as reported for the third quarter of 2002. Basic and diluted net income per common share were \$0.27 and \$0.26, respectively, for the quarter, as compared to \$0.39 for the same period last year, a 31% decrease in basic net income per common share.

For the nine months ended September 30, 2003, rainfall was more than 15 inches above normal in significant portions of our service territory. The excessive precipitation negatively impacted water sales revenue for both the quarter and the nine months ended September 30, 2003. The reduced water consumption was slightly offset by increased rates and an increase in the number of customers served. Despite increased purchased water expense in 2003, continued efforts to control expenses has resulted in an overall decrease in the ratio of operations and maintenance expenses to operating revenues to 53.6% for the nine month period ended September 30, 2003 from 54.1% for the same period last year. A waiver of our minimum purchase requirements from Chester Water Authority significantly reduced purchased water expense in 2002. Purchased water expense will continue to increase in the fourth quarter of 2003 as we fulfill our minimum take obligations.

In October 2003, AquaStructure, a limited liability corporation in which Artesian Wastewater Management has a one-third membership interest, was awarded a contract to design and build a 1.5 million gallon a day Wastewater Treatment Facility in Cecil County, Maryland. Our revenues from contract operation services and our non-regulated wastewater operations for the nine month period ended September 30, 2003 has increased by over \$200,000 compared to the same period a year ago.

Artesian Resources Corporation, through our wholly owned subsidiary, Artesian Water Company, is the largest investor owned regulated public water utility in the State of Delaware and has been providing water within the state since 1905. We distribute and sell water to residential, commercial, industrial, governmental, municipal and utility customers throughout the state. As of September 30, 2003, we had 69,400 metered customers, providing water service to about 230,000 residents, approximately 29% of Delaware's total population.
