Revenues

: In the fourth quarter, revenues from Teléfonos de México and its subsidiaries in Mexico and Latin America totaled 41,335 million pesos, a decrease of 2.6% compared with the same period of 2004 mainly due to the decrease of calling party pays, measured service and international long distance revenues. Of total consolidated revenues, voice revenues represented 75.4% and data transmission revenues represented 18.6%. For the twelve months, consolidated revenues totaled 162,948 million pesos, an increase of 12.6% compared with the same period of last year due to the incorporation of the subsidiaries in Latin America, mainly Embratel since August 2004.

Costs and expenses:

Costs and expenses in the fourth quarter totaled 28,906 million pesos, 3.7% lower than the same period of the previous year. For the full year, costs and expenses increased 14.3% totaling 114,254 million pesos as result of the consolidation of the subsidiaries in Latin America.

EBITDA (1) and operating income:

EBITDA (1) totaled 18,332 million pesos in the fourth quarter, 1.8% lower than the same period of 2004, producing an EBITDA margin of 44.3%. Comprehensive financing cost:

Comprehensive financing cost was 2,040 million pesos in the quarter. This result was due to a net exchange loss of 1,607 million pesos from hedges that eliminated the exchange risk of 88.5% of total debt, to a net charge of 1,299 million pesos for interest rate swaps that have allowed that 68.7% of consolidated debt to have a fixed rate, and accrued interest, and also to a gain of 866 million pesos in the monetary position. For the full year, comprehensive financing cost was 5,336 million pesos. The net interest rate in pesos was 7.7%.

Majority net income:

Majority net income totaled 7,780 million pesos in the fourth quarter, 27.8% lower than the same period of the previous year mainly due to higher comprehensive financing cost. For the twelve months, majority net income totaled 28,180 million pesos, 0.8% lower than last year. Earnings per share for the fourth quarter, based on the number of shares outstanding at December 31, 2005 (22,045,082,270 shares), were 0.35 pesos compared with 0.46 pesos per share in the same period a year ago, and earnings per ADR were 0.66 dollars compared with 0.78 dollars per ADR in last year's fourth quarter.

Debt:

The net increase of 499 million dollars or 6.2% primarily relates to the placement of Senior Notes for 1.750 billion dollars, the repurchase of 432 million dollars of the 1.5 billion dollars Senior Notes that matured in January 2006 and prepayments of approximately 700 million dollars of Embratel's debt.
