SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2016

or

Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission File Number 000-19289

STATE AUTO FINANCIAL CORPORATION

(Exact name of Registrant as specified in its charter)

Ohio 31-1324304
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

518 East Broad Street, Columbus, Ohio 43215-3976

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (614) 464-5000

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

On July 29, 2016, the Registrant had 41,676,921 Common Shares outstanding.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of State Auto Financial Corporation and Subsidiaries (“State Auto Financial” or the “Company”) have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of the Company, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month period ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. The balance sheet at December 31, 2015 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2015 (the “2015 Form 10-K”). Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the 2015 Form 10-K.

Adoption of Recent Accounting Pronouncements

Simplifying the Presentation of Debt Issuance Costs

The amendments in this guidance simplify the presentation of debt issuance costs by requiring them to be presented in the balance sheet as a direct deduction from the carrying amount of the related recognized debt liability, consistent with debt discounts. The Company adopted this guidance at January 1, 2016 on a retrospective basis and it resulted in a \$0.3 million decrease to notes payable and accrued investment income and other assets at December 31, 2015.

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

The amendments in this guidance remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years and should be applied retrospectively to all periods presented. The Company adopted this guidance at January 1, 2016 and it did not have a material impact on the condensed consolidated financial statements.

Pending Adoption of Recent Accounting Pronouncements

Improvements to Employee Share-Based Payment Accounting

The amendments in this guidance simplify the accounting for share-based payment award transactions including: income tax consequences, classification of awards as either equity or liabilities, classification of excess tax benefits, and classification on the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years, and early adoption is permitted. The Company is currently evaluating the requirements of the guidance and has not yet determined its effect on the Company’s results of operations, financial position or liquidity.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The Company reviewed its investments at June 30, 2016, and determined that no additional other-than-temporary impairment existed in the gross unrealized holding losses other than those listed in the table below. The following table sets forth the realized losses related to other-than-temporary impairments on the Company's investment portfolio recognized for the three and six months ended June 30, 2016 and 2015:

(\$ millions)	Three months ended June 30 2016		Six months ended June 30 2015	
	2016	2015	2016	2015
Equity securities:				
Large-cap securities	\$—	\$—	\$(0.2)	\$—
Small-cap securities	(0.6)	(0.8)	(1.8)	(1.3)
Fixed maturities:	—	—	(2.3)	—
Total other-than-temporary impairments	\$(0.6)	\$(0.8)	\$(4.3)	\$(1.3)

The Company regularly monitors its investments that have fair values less than cost or amortized cost for signs of other-than-temporary impairment, an assessment that requires significant management judgment regarding the evidence known. Such judgments could change in the future as more information becomes known, which could negatively impact the amounts reported. Among the factors that management considers for fixed maturity securities are the financial condition of the issuer including receipt of scheduled principal and interest cash flows, and intent to sell, including if it is more likely than not that the Company will be required to sell the investments before recovery. When a fixed maturity has been determined to have an other-than-temporary impairment, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings as a realized loss, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Among the factors that management considers for equity securities and other invested assets are the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their recovery periods, the current financial condition of the issuer and its future business prospects, and the ability of the market value to recover to cost in the near term. When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, the cost basis of the security is adjusted to fair value. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at June 30, 2016:

(\$ millions)	Amortized cost	Fair value
Due in 1 year or less	\$ 36.6	\$37.1
Due after 1 year through 5 years	511.7	528.5
Due after 5 years through 10 years	270.7	282.5
Due after 10 years	632.5	672.5
U.S. government agencies mortgage-backed securities	578.4	602.8
Total	\$ 2,029.9	\$ 2,123.4

Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay the obligations with or without call or prepayment penalties.

At June 30, 2016, State Auto P&C had U.S. government agencies mortgage-backed fixed maturity securities, with a carrying value of approximately \$85.0 million, that were pledged as collateral for the Federal Home Loan Bank of Cincinnati ("FHLB") Loan. In accordance with the terms of the FHLB Loan, State Auto P&C retains all rights regarding these securities.

Fixed maturities with fair values of \$9.3 million and \$8.8 million were on deposit with insurance regulators as required by law at June 30, 2016 and December 31, 2015, respectively. The Company retains all rights regarding these securities.

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

3. Fair Value of Financial Instruments

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.

Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company utilizes one nationally recognized pricing service to estimate the majority of its available-for-sale investment portfolio's fair value. The Company obtains one price per security and the processes and control procedures employed by the Company are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, the Company gains an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, the Company compares to other fair value pricing information gathered from other independent pricing sources. At June 30, 2016 and December 31, 2015, the Company did not adjust any of the prices received from the pricing service.

Transfers between level categorizations may occur due to changes in the availability of market observable inputs.

Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations during the three and six months ended June 30, 2016 and 2015.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that are carried at fair value.

Fixed Maturities

The Company utilizes a third party pricing service to estimate fair value measurements for the majority of its fixed maturities. The fair value estimate of the Company's fixed maturity investments are determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, and other market-observable information. The fixed maturity portfolio pricing obtained from the pricing service is reviewed for reasonableness. The Company regularly selects a random sample of security prices which are compared to one or more alternative pricing sources for reasonableness. Any discrepancies with the pricing are returned to the pricing service for further explanation and, if necessary, adjustments are made. To date, the Company has not identified any significant discrepancies in the pricing provided by its third party pricing service.

Investments valued using these inputs include U.S. treasury securities and obligations of U.S. government agencies, obligations of states and political subdivisions, corporate securities (except for a security discussed below), and U.S. government agencies mortgage-backed securities. All unadjusted estimates of fair value for fixed maturities priced by the pricing service are included in the amounts disclosed in Level 2 of the hierarchy. If market inputs are unavailable, then no fair value is provided by the pricing service. For these securities, fair value is determined either by requesting brokers who are knowledgeable about these securities to provide a quote; or the Company internally determines the fair values by employing widely accepted pricing valuation models, and depending on the level of observable market inputs, renders the fair value estimate as Level 2 or Level 3. The Company holds one corporate fixed maturity security included in Level 3 and estimates its fair value using the present value of the future cash flows. Due to the limited amount of observable market information for this security, the Company includes the fair value estimate in Level 3.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Equities

The fair value of each equity security is based on an observable market price for an identical asset in an active market and is priced by the same pricing service discussed above. All equity securities are recorded using unadjusted market prices and have been disclosed in Level 1.

Other Invested Assets

Included in other invested assets are two international funds (“the funds”) that invest in equity securities of foreign issuers and are managed by third party investment managers. The funds had a fair value of \$76.6 million and \$77.0 million at June 30, 2016 and December 31, 2015, respectively, which was determined using each fund’s net asset value. The Company employs procedures to assess the reasonableness of the fair value of the funds including obtaining and reviewing each fund’s audited financial statements. There are no unfunded commitments related to the funds. The Company may not sell its investment in the funds; however, the Company may redeem all or a portion of its investment in the funds at net asset value per share with the appropriate prior written notice. In accordance with Accounting Standard Codification 820-10, these investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. Fair values presented here are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the condensed consolidated balance sheets.

The remainder of the Company’s other invested assets consist primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds based on an observable market price for an identical asset in an active market reflect their fair values and consequently these securities have been disclosed in Level 1.

Total unrealized gains – included in other comprehensive income	(0.2)
Purchases	—
Sales	(5.9)
Transfers into Level 3	—
Transfers out of Level 3	—
Balance at December 31, 2015	\$ 3.3

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that is not measured at fair value but for which fair value is disclosed:

Financial Instruments Disclosed, But Not Carried, At Fair Value

Other Invested Assets

Included in other invested assets are common stock of the FHLB and the Trust Securities. The Trust Securities and FHLB common stock are carried at cost, which approximates fair value. The fair value of the FHLB common stock at June 30, 2016 was \$4.8 million and the fair value of the Trust Securities was \$0.5 million. The investments have been placed in Level 3 of the fair value hierarchy.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Notes Receivable from Affiliate

In May 2009, the Company entered into two separate credit agreements with State Automobile Mutual Insurance Company (“State Auto Mutual”) pursuant to which it loaned State Auto Mutual a total of \$70.0 million. The Company estimates the fair value of the notes receivable from affiliate using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread. Consequently this has been placed in Level 2 of the fair value hierarchy.

	June 30, 2016			December 31, 2015		
	Carrying value	Fair value	Interest rate	Carrying value	Fair value	Interest rate
Notes receivable from affiliate	\$70.0	\$74.8	7.00 %	\$70.0	\$74.1	7.00 %

Notes Payable

Included in notes payable are the FHLB Loan and Subordinated Debentures. The Company estimates the fair value of the FHLB Loan by discounting cash flows using a borrowing rate currently available to the Company for a loan with similar terms. This has been placed in Level 3 of the fair value hierarchy. The carrying amount of the Subordinated Debentures approximates its fair value as the interest rate adjusts quarterly and has been disclosed in Level 3.

	June 30, 2016			December 31, 2015		
	Carrying value	Fair Value	Interest rate	Carrying value	Fair value	Interest rate
FHLB Loan due 2033: issued \$85.0, July 2013 with fixed interest	\$85.3	\$85.9	5.03 %	\$85.3	\$85.5	5.03 %
Affiliate Subordinated Debentures due 2033: issued \$15.5, May 2003 with variable interest	15.2	15.2	4.87 %	15.2	15.2	4.61 %
Total notes payable	\$100.5	\$101.1		\$100.5	\$100.7	

4. Reinsurance

The insurance subsidiaries of State Auto Financial, including State Auto P&C, Milbank and SA Ohio (collectively referred to as the “STFC Pooled Companies”) participate in a quota share reinsurance pooling arrangement (“the Pooling Arrangement”) with State Auto Mutual and its subsidiaries and affiliates (collectively referred to as the “Mutual Pooled Companies”).

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The following table sets forth a summary of the Company's external reinsurance transactions, as well as reinsurance transactions with State Auto Mutual under the Pooling Arrangement, for the three and six months ended June 30, 2016 and 2015:

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2016	2015	2016	2015
Premiums earned:				
Assumed from external insurers and reinsurers	\$1.0	\$1.0	\$2.4	\$2.1
Assumed under Pooling Arrangement	322.4	311.5	642.3	626.8
Ceded to external insurers and reinsurers	(6.5)	(8.5)	(13.3)	(17.4)
Ceded under Pooling Arrangement	(204.8)	(208.6)	(411.3)	(418.5)
Net assumed premiums earned	\$112.1	\$95.4	\$220.1	\$193.0
Losses and loss expenses incurred:				
Assumed from external insurers and reinsurers	\$0.8	\$0.6	\$1.9	\$1.4
Assumed under Pooling Arrangement	263.3	225.0	488.7	420.3
Ceded to external insurers and reinsurers	(0.5)	(2.5)	(2.4)	(2.4)
Ceded under Pooling Arrangement	(176.5)	(165.6)	(308.2)	(286.8)
Net assumed losses and loss expenses incurred	\$87.1	\$57.5	\$180.0	\$132.5

5. Income Taxes

The following table sets forth the reconciliation between actual federal income tax expense and the amount computed at the indicated statutory rate for the three and six months ended June 30, 2016 and 2015:

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2016	2015	2016	2015
Amount at statutory rate	\$(8.7) 35.0 %	\$1.2 35.0 %	\$(7.4) 35.0 %	\$12.8 35.0 %
Tax-exempt interest and dividends received deduction	(1.9) 7.4	(2.3) (67.2)	(3.9) 18.1	(4.5) (12.2)
Other, net	10.1 (40.7)	1.8 52.3	11.6 (54.7)	0.9 2.3
Federal income tax (benefit) expense and effective rate	\$(0.5) 1.7 %	\$0.7 20.1 %	\$0.3 (1.6)%	\$9.2 25.1 %

Income taxes for the three and six months ended June 30, 2016 reflect the impact of a correction of prior period deferred tax expense related to expired stock options. As a result of the correction, deferred federal income tax expense and additional paid-in-capital were reduced by \$1.6 million, respectively.

6. Pension and Postretirement Benefit Plans

The following table sets forth the components of net periodic cost for the Company's pension and postretirement benefit plans for the three and six months ended June 30, 2016 and 2015:

(\$ millions)	Pension		Postretirement		Pension		Postretirement	
	Three months ended June				Six months ended June 30			
	2016	2015	2016	2015	2016	2015	2016	2015
Service cost	\$1.5	\$1.9	\$—	\$—	\$3.1	\$3.9	\$—	\$—
Interest cost	2.9	2.9	0.2	0.2	5.9	5.7	0.4	0.4
Expected return on plan assets	(3.7)	(3.5)	—	—	(7.4)	(6.9)	—	—
Amortization of:								

Edgar Filing: State Auto Financial CORP - Form 10-Q

Negative prior service cost	—	—	(1.4)	(1.4)	—	—	(2.8)	(2.8)
Net actuarial loss	2.3	2.8	—	0.1	4.6	5.5	0.1	0.3
Net periodic cost (benefit)	\$3.0	\$4.1	\$(1.2)	\$(1.1)	\$6.2	\$8.2	\$(2.3)	\$(2.1)

The Company's share of contributions to its pension plan for the six months ended June 30, 2016 were \$6.5 million. The Company expects to contribute an additional \$6.5 million during 2016.

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

9. Segment Information

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve, the products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied, general liability, and workers' compensation insurance covering small-to-medium sized commercial exposures. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services.

The Company evaluates the performance of its insurance segments using industry financial measurements based on Statutory Accounting Practices ("SAP"), which include loss and loss adjustment expense ratios, underwriting expense ratios, combined ratios, statutory underwriting gain (loss), net premiums earned and net written premiums. One of the most significant differences between SAP and GAAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred and amortized over the same period the premium is earned.

The investment operations segment is evaluated based on investment returns of assets managed by Stateco. Asset information by segment is not reported for the insurance segments because the Company does not produce such information internally.

Total consolidated (loss) income before federal income tax expense	\$(25.1)	\$3.4	\$(21.3)	\$36.6

The specialty insurance segment results for the three and six months ended June 30, 2015 reflect the impact of a correction of reinsurance amounts related to the Company's reinsurance agreement covering casualty risks within the segment. As a result of the correction, net written and earned premiums were reduced by \$7.6 million and \$5.5 million, respectively, losses were reduced by \$2.1 million and acquisition and operating expenses were reduced by

\$1.6 million.

Investable assets attributable to the Company's investment operations segment totaled \$2,637.7 million and \$2,529.8 million at June 30, 2016 and December 31, 2015, respectively.

10. Contingencies and Litigation

In accordance with the Contingencies Topic of the Financial Accounting Standards Board's Accounting Standards Codification, the Company accrues for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. The Company reviews all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, the Company cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, the Company does not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to the Company, it believes that its reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, the Company, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of the Company.

The Company is involved in lawsuits in the ordinary course of its business arising out of or otherwise related to its insurance policies. Additionally, from time to time the Company may be involved in lawsuits, including class actions, in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. The Company generally will contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to its results of operations or have a material adverse effect on its consolidated financial position, results of operations or cash flows.

Additionally, the Company may be impacted by adverse regulatory actions and adverse court decisions where insurance coverages are expanded beyond the scope originally contemplated in its insurance policies. The Company believes that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on its consolidated financial position, results of operations or cash flows.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The term "State Auto Financial" as used below refers only to State Auto Financial Corporation and the terms "our Company," "we," "us," and "our" as used below refer to State Auto Financial Corporation and its consolidated subsidiaries.

The term "second quarter" as used below refers to the three months ended June 30, for the time period then ended. For a glossary of terms for State Auto Financial Corporation and its subsidiaries and affiliates and a glossary of selected insurance and accounting terms, see the section entitled "Important Defined Terms Used in this Form 10-K" included in our Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 Form 10-K").

The discussion and analysis presented below relates to the material changes in financial condition and results of operations for our consolidated balance sheets as of June 30, 2016 and December 31, 2015, and for the consolidated statements of income for the three and six month periods ended June 30, 2016 and 2015. This discussion and analysis should be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the 2015 Form 10-K, and in particular the discussions in those sections thereof entitled "Overview," "Executive Summary" and "Critical Accounting Policies." Readers are encouraged to review the entire 2015 Form 10-K, as it includes information regarding our Company not discussed in this Form 10-Q. This information will assist in your understanding of the discussion of our current period financial results.

The discussion and analysis presented below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "project," "believe" or "continue" or the negative thereof or variations thereon or similar terminology.

Forward-looking statements speak only as of the date the statements were made available. Although we believe that the expectations reflected in forward-looking statements have a reasonable basis, we can give no assurance that these expectations will prove to be correct. Forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. For a discussion of the most significant risks and uncertainties that could cause our actual results to differ materially from those projected, see "Risk Factors" in Item 1A of the 2015 Form 10-K, updated by Part II, Item 1A of this Form 10-Q. Except to the limited extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve or products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied, general liability, and workers' compensation insurance covering small-to-medium sized commercial exposures. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services. See "Personal and Business Insurance" and "Specialty Insurance" in Item 1 of the 2015 Form 10-K for more information about our insurance segments. Financial information about our reportable segments for 2016 is set forth in Note 9 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

POOLING ARRANGEMENT

The STFC Pooled Companies and the Mutual Pooled Companies participate in a quota share reinsurance pooling arrangement referred to as the "Pooling Arrangement." Under the Pooling Arrangement, State Auto Mutual assumes premiums, losses and expenses from each of the Pooled Companies and in turn cedes to each of the Pooled Companies a specified portion of premiums, losses and expenses based on each of the Pooled Companies' respective

pooling percentages. State Auto Mutual then retains the balance of the pooled business.

RESULTS OF OPERATIONS

Our pre-tax loss for the three and six months ended June 30, 2016 was \$25.1 million and \$21.3 million, respectively, compared to pre-tax income of \$3.4 million and \$36.6 million, respectively, for the same 2015 periods. The decrease was primarily due to an increase in losses, both catastrophe and non-catastrophe, when compared to the same 2015 periods. For the three and six months ended June 30, 2016, we reported net realized gains on investments of \$6.5 million and \$7.8 million, respectively, compared to \$5.4 million and \$9.6 million, respectively, for the same 2015 periods.

The following table sets forth certain key performance indicators we use to monitor our operations for the three and six months ended June 30, 2016 and 2015:

(\$ millions, except per share amounts)	Three months ended June 30		Six months ended June 30

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Insurance Segments

We measure our top-line growth for our insurance segments based on net written premiums, which provide us with an indication of how well we are doing in terms of revenue growth before it is actually earned. Our policies provide a fixed amount of coverage for a stated period of time, often referred to as the “policy term.” As such, our written premiums are recognized as earned ratably over the policy term. The unearned portion of written premiums, called unearned premiums, is reflected on our balance sheet as a liability and represents our obligation to provide coverage for the unexpired term of the policies.

Insurance industry regulators require our insurance subsidiaries to report their financial condition and results of operations using SAP. We use SAP financial results, along with industry standard financial measures determined on a SAP basis and certain measures determined on a GAAP basis, to internally monitor the performance of our insurance segments and reward our employees.

One of the more significant differences between GAAP and SAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred over the same period that the premium is earned. In converting SAP underwriting results to GAAP underwriting results, acquisition costs are deferred and amortized over the periods the related written premiums are earned. For a discussion of deferred acquisition costs, see “Critical Accounting Policies – Deferred Acquisition Costs” section included in Item 7 of our 2015 Form 10-K.

All references to financial measures or components thereof in this discussion are calculated on a GAAP basis, unless otherwise noted.

The following tables set forth our insurance segments’ SAP underwriting gain (loss) and SAP combined ratios for the three and six months ended June 30, 2016 and 2015:

(\$ millions)	Three months ended June 30, 2016

Total Loss and LAE	\$ 298.2	\$ 27.5	\$ 155.1	\$ 206.6	9.2	52.0	69.3

The personal insurance segment's net written premiums for the three and six months ended June 30, 2016 decreased 0.4% and 1.0%, respectively, when compared to the same 2015 periods (Table 1). During the second half of 2015, we implemented various underwriting actions, which included pricing reviews and non-technology process improvements, designed to improve personal lines production and future profitability. While total policies in force continued to decline in the first half of 2016, we believe that these underwriting actions are showing positive results as retention improved, new business policy counts were up, and personal auto and homeowners new business premiums increased in the first half of 2016 when compared to the same 2015 period.

The personal insurance segment's SAP catastrophe loss ratios for the three and six months ended June 30, 2016 were 20.8% and 14.6%, respectively, compared to 16.5% and 9.2%, respectively, for the same 2015 periods (Tables 2 - 3). Weather events classified as catastrophes during 2016 have generally been more severe than those experienced in 2015. The number of events impacting us in the second quarter of 2016 was less than the same 2015 period, and was approximately the same on a comparative year to date basis. Weather patterns in Texas, primarily wind and hail, accounted for slightly more than half of the personal insurance segment's catastrophe losses.

The personal insurance segment's SAP non-catastrophe loss and ALAE ratios for the three and six months ended June 30, 2016 were 59.3% and 56.2%, respectively, compared to 52.3% and 52.0%, respectively, for the same 2015 periods (Tables 2 - 3). The SAP non-catastrophe loss and ALAE ratios for the three and six months ended June 30, 2016 increased 8.7 points and 6.4 points, respectively, in personal auto and 10.1 points and 2.7 points, respectively, in homeowners, when compared to the same 2015 periods (Tables 2 - 3). Personal auto results were impacted by 5.7 points of prior year adverse development (see the "Loss and LAE Development" section included in this Item 2 for the development of the prior accident years ultimate liability by line of business for the three and six months ended

June 30, 2016 and 2015) attributable to an increased level of bodily injury severity trends which resulted in increases in ultimate loss and ALAE estimates for prior accident years, primarily 2014 and 2015. The personal auto current accident year loss and ALAE estimates reflect the pricing and underwriting actions we have taken in the last twelve months. Homeowners results were impacted by a higher level of large fires losses during the second quarter of 2016 when compared to the same 2015 period.

Total Loss and LAE	\$236.1	\$ 12.3	\$ 133.7	\$ 158.4	5.2	56.7	67.1

Net written premiums for the business insurance segment for the three and six months ended June 30, 2016 decreased 7.3% and 6.4%, respectively, when compared to the same 2015 periods (Table 4). The decreases were primarily due to (i) our decision to exit our large account business, (ii) changing our regional sales teams due to field restructuring, including staff reductions and reassignment of agency relationships among staff, that was completed during the first quarter 2016, and (iii) rate actions to improve profitability in commercial auto.

The business insurance segment's SAP catastrophe loss ratios for the three and six months ended June 30, 2016 were 10.1% and 6.0%, respectively, compared to 9.2% and 5.2%, respectively, for the same 2015 periods (Tables 5 - 6). The business insurance segment's SAP catastrophe loss ratios for 2016 were impacted by the same Texas weather events as described in the personal insurance segment discussion above.

The business insurance segment's SAP non-catastrophe loss and ALAE ratios for the three and six months ended June 30, 2016 were 56.8% and 59.6%, respectively, compared to 56.2% and 56.7%, respectively, for the same 2015 periods (Tables 5 - 6). The SAP non-catastrophe loss and ALAE ratios for the three and six months ended June 30, 2016 increased 0.6 points and 2.9 points, respectively, when compared to the same 2015 periods (Tables 5 - 6), primarily due to commercial auto, other & product liability and workers' compensation. The commercial auto ratio

increases when compared to the same 2015 periods were attributable to increased bodily injury severity trends which resulted in increases in ultimate loss and ALAE estimates for prior accident years, primarily 2014 and 2015, as well as higher current accident year loss and ALAE estimates. The other & product liability ratio increases when compared to the same 2015 periods were primarily due to less favorable development of prior accident year losses. The workers' compensation ratios for the three and six months ended June 30, 2016 reflect increasing indemnity severity trends compared to the same 2015 periods. The indemnity severity trend increases resulted in increases in ultimate loss and ALAE estimates for prior accident years for the three months ended June 30, 2016 compared to the same 2015 period. For the six months ended June 30, 2016, prior accident year ultimate losses and ALAE developed less favorably compared to the same 2015 period.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Somewhat offsetting the increases in the SAP non-catastrophe loss and ALAE ratios for the three and six months ended June 30, 2016 when compared to the same 2015 periods were improvements in commercial-multi peril and fire & allied lines. The improvement in the commercial multi-peril ratio for the three months ended June 30, 2016 was due to adverse development of prior accident year losses in the same 2015 period. The improvement in the fire & allied lines ratios was due to improvement in current accident year loss and ALAE.
