

CPI AEROSTRUCTURES INC

Form 10-Q

August 09, 2013

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the quarterly period ended June 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 1-11398

CPI AEROSTRUCTURES, INC.  
(Exact name of registrant as specified in its charter)

New York  
(State or other jurisdiction  
of incorporation or organization)

11-2520310  
(IRS Employer Identification Number)

91 Heartland Blvd., Edgewood, NY  
(Address of principal executive offices)

11717  
(zip code)

(631) 586-5200  
(Registrant's telephone number including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer  Accelerated filer

Edgar Filing: CPI AEROSTRUCTURES INC - Form 10-Q

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting  
company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  
 No

As of August 5, 2013 the number of shares of common stock, par value \$.001 per share, outstanding was 8,391,954.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

---

1. INTERIM FINANCIAL STATEMENTS

The condensed financial statements of CPI Aerostructures, Inc. (the “Company”) as of June 30, 2013 and for the three and six months ended June 30, 2013 and 2012 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

The condensed balance sheet at December 31, 2012 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. All adjustments that, in the opinion of management, are necessary for a fair presentation for the periods presented have been reflected as required by the SEC. Such adjustments are of a normal, recurring nature. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. The results of operations for interim periods are not necessarily indicative of the operating results to be expected for the full year or any other interim period.

On January 1, 2012, the Company adopted the provisions of Accounting Standards Codification 220, “Comprehensive Income.” The new guidance requires the Company to present Comprehensive Income either on one continuous statement of Income and Comprehensive Income, or on a separate Statement of Comprehensive Income. The new guidance does not change the computation of Net Income or Comprehensive Income.

The Company maintains its cash in two financial institutions. The balances are insured by the Federal Deposit Insurance Corporation. From time to time, the Company’s balances may exceed these limits. As of June 30, 2013, the Company had approximately \$1,500,000 of uninsured balances. The Company limits its credit risk by selecting financial institutions considered to be highly credit worthy.

2. STOCK-BASED COMPENSATION

The Company accounts for compensation expense associated with stock options based on the fair value of the options on the date of grant.

The Company’s net income for the three and six months ended June 30, 2013 includes approximately \$361,000 of noncash compensation expense related to the Company’s stock options. The Company’s net income for the three and six months ended June 30, 2012 includes approximately \$383,000 of noncash compensation expense related to the Company’s stock options. The noncash compensation expense related to all of the Company’s stock-based compensation arrangements is recorded as a component of selling, general and administrative expenses.

The estimated fair value of each option award granted was determined on the date of grant using the Black-Scholes option valuation model. The following weighted-average assumptions were used for the options granted during the three and six months ended June 30, 2013 and 2012:

## NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Risk-free interest rate	2013 0.72%	2012 0.9%
Expected volatility	106%	102%
Dividend yield	0%	0%
Expected option term	5 years	5 years

A summary of the status of the Company's stock option plans as of June 30, 2013 and changes during the six months ended June 30, 2013 are as follows:

	Options	Weighted average Exercise Price	Weighted average remaining contractual term (in years)	Aggregate Intrinsic Value
Outstanding at beginning of period	495,517	\$9.33		
Granted	44,217	10.62		
Exercised	(20,000)	8.20		
Forfeited	(35,000)	8.20		
Outstanding and vested at end of period	484,734	\$9.58	2.78	\$993,916

Options to acquire 44,217 shares of common stock were granted on January 1, 2013 to members of our board of directors as part of their normal compensation.

During the six months ended June 30, 2013, no stock options were exercised for cash. During the same period, 20,000 options were exercised, pursuant to provisions of the stock option plan, where the Company received no cash and 17,355 shares of its common stock in exchange for the 20,000 shares issued in the exercise. The 17,355 shares that the Company received were valued at \$164,000, the fair market value of the shares on the dates of exercise.

The intrinsic value of all options exercised during the six months ended June 30, 2013 and 2012 was approximately \$26,300 and \$1,252,950, respectively.

### 3. DERIVATIVE INSTRUMENTS AND FAIR VALUE

Our use of derivative instruments has been to hedge interest rates. These derivative contracts are entered into with a financial institution. We do not use derivative instruments for trading purposes and we have procedures in place to monitor and control their use.

We record these derivative financial instruments on the condensed balance sheets at fair value. For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

## NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Any ineffective portion of the gain or loss on the derivative instrument for a cash flow hedge is recorded in the results of operations immediately. For derivative instruments not designated as hedging instruments, the gain or loss is recognized in the results of operations immediately.

In March 2012, the Company entered into interest rate swaps with the objective of reducing our exposure to cash flow volatility arising from interest rate fluctuations associated with certain debt. The notional amount, maturity date, and currency of these contracts match those of the underlying debt. The Company has designated these interest rate swap contracts as cash flow hedges. The Company measures ineffectiveness by comparing the cumulative change in the forward contract with the cumulative change in the hedged item. No material ineffectiveness was recognized in the quarter ended June 30, 2013. As of June 30, 2013 and December 31, 2012, we had a net deferred loss associated with cash flow hedges of approximately \$35,500 and \$61,000, respectively, due to the interest rate swap which has been included in Other Liabilities.

As a result of the use of derivative instruments, the Company is exposed to risk that the counterparties may fail to meet their contractual obligations. Recent adverse developments in the global financial and credit markets could negatively impact the creditworthiness of our counterparties and cause one or more of our counterparties to fail to perform as expected. To mitigate the counterparty credit risk, we only enter into contracts with carefully selected major financial institutions based upon their credit ratings and other factors, and continually assess the creditworthiness of counterparties. To date, all counterparties have performed in accordance with their contractual obligations.

## Fair Value

At June 30, 2013 and December 31, 2012, the fair values of cash, accounts receivable, accounts payable and accrued expenses approximated their carrying values because of the short-term nature of these instruments.

	June 30, 2013	
	Carrying Amount	Fair Value
Debt		
Short-term borrowings and long-term debt	\$33,703,845	\$33,703,845
	December 31, 2012	
	Carrying Amount	Fair Value
Debt		
Short-term borrowings and long-term debt	\$27,760,437	\$27,760,437

We estimated the fair value of debt using market quotes and calculations based on market rates.

## NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

The following table presents the fair values of those financial liabilities measured at fair value on a recurring basis as of June 30, 2013 and December 31, 2012:

Description	Total	Fair Value Measurements June 30, 2013		
		Quoted Prices in Active Markets for Identical assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest Rate Swap, net	\$ 35,509	--	\$ 35,509	--
Total	\$ 35,509	--	\$ 35,509	--

  

Description	Total	Fair Value Measurements December 31, 2012		
		Quoted Prices in Active Markets for Identical assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest Rate Swap, net	\$60,516	--	\$60,516	--
Total	\$60,516	--	\$60,516	--

The fair value of the Company's interest rate swaps was determined by comparing the fixed rate set at the inception of the transaction to the "replacement swap rate," which represents the market rate for an offsetting interest rate swap with the same notional amount and final maturity date. The market value is then determined by calculating the present value of the interest differential between the contractual swap and the replacement swap.

As of June 30, 2013 and December 31, 2012, \$35,509 and \$60,516, respectively, was included in Other Liabilities related to the fair value of the Company's interest rate swap, and \$23,437 and \$40,827, respectively, net of tax of \$12,072 and \$19,689, respectively, was included in Accumulated Other Comprehensive Loss.

## NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

## 4. COSTS AND ESTIMATED EARNINGS ON UNCOMPLETED CONTRACTS

Costs and estimated earnings in excess of billings on uncompleted contracts consist of:

	June 30, 2013		
	U.S. Government	Commercial	Total
Costs incurred on uncompleted contracts	\$237,662,363	\$52,127,357	\$289,789,720
Estimated earnings	88,824,737	27,420,732	116,245,469
Sub-total	326,487,100	79,548,089	406,035,189
Less billings to date	242,302,347	52,849,929	295,152,276
Costs and estimated earnings in excess of billings on uncompleted contracts	\$84,184,753	\$26,698,160	\$110,882,913

  

	December 31, 2012		
	U.S. Government	Commercial	Total
Costs incurred on uncompleted contracts	\$214,888,101	\$42,636,753	\$257,524,854
Estimated earnings	85,320,636	23,782,285	109,102,921
Sub-total	300,208,737	66,419,038	366,627,775
Less billings to date	215,743,090	42,631,694	258,374,784
Costs and estimated earnings in excess of billings on uncompleted contracts	\$84,465,647	\$23,787,344	\$108,252,991

The above amounts are included in the accompanying balance sheets under the following captions at June 30, 2013 and December 31, 2012:

	June 30, 2013	December 31, 2012
Costs and estimated earnings in excess of billings on uncompleted contracts	\$ 111,303,474	\$ 108,909,844
Billings in excess of costs and estimated earnings on uncompleted contracts	(420,561)	(656,853)
Totals	\$ 110,882,913	\$ 108,252,991

U.S. Government Contracts includes contracts directly with the U.S. Government and Government subcontracts.

Revisions in the estimated gross profits on contracts and contract amounts are made in the period in which the circumstances requiring the revisions occur. During the six months ended June 30, 2013 and 2012, the effect of such revisions in total estimated contract profits resulted in a decrease to the total gross profit to be earned on the contracts

of approximately \$2,797,000 and \$528,000, respectively, from that which would have been reported had the revised estimates been used as the basis of recognition of contract profits in prior years.

Although management believes it has established adequate procedures for estimating costs to complete on uncompleted open contracts, it is possible that additional significant costs could occur on contracts prior to completion.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

---

5. INCOME PER COMMON SHARE

Basic income per common share is computed using the weighted average number of common shares outstanding. Diluted income per common share for the three and six month period ended June 30, 2013 and 2012 is computed using the weighted-average number of common shares outstanding adjusted for the incremental shares attributed to outstanding options to purchase common stock. Incremental shares of 64,202 were used in the calculation of diluted income per common share in both the three and six month period ended June 30, 2013. Incremental shares of 239,734 were not included in the diluted earnings per share calculations for both the three and six month period ended June 30, 2013 as their exercise price was in excess of the Company's average stock price for the respective period and, accordingly, these shares are not assumed to be exercised for the diluted earnings per share calculation, as they would be anti-dilutive. Incremental shares of 475,517 were used in the calculation of diluted income per common share in both the three and six month period ended June 30, 2012. Incremental shares of 55,000 were not included in the diluted earnings per share calculations for both the three and six month period ended June 30, 2012 as their exercise price was in excess of the Company's average stock price for the respective period and, accordingly, these shares are not assumed to be exercise for the diluted earnings per share calculation, as they would be anti-dilutive.

6. LINE OF CREDIT

Until December 2012, the Company was party to a Credit Agreement, dated August 13, 2007, as amended, between the Company and Sovereign Bank (the "Prior Agreement"), which provided for a revolving credit facility and two term loans. Immediately prior to entering into the Restated Agreement (identified below), a revolving credit facility in the aggregate of \$18.0 million was available to the Company under the Prior Agreement.

On December 5, 2012, the Company entered into an Amended and Restated Credit Agreement with Sovereign Bank ("Restated Agreement") as the sole arranger, administrative agent, collateral agent and lender and Valley National Bank as lender. The Restated Agreement increased the revolving credit facility under the Prior Agreement from \$18 million to \$35 million (the "Sovereign Revolving Facility"), refinanced one of the previous term loans as a revolving credit loan, continued the other term loan and then-existing revolving credit loans, and amended and restated the general terms of the Prior Agreement. The revolving credit loans under the Restated Agreement mature on December 5, 2016. The Sovereign Revolving Facility and term loan under the Restated Agreement are secured by all of our assets.

As of June 30, 2013, the Company was in compliance with all of the financial covenants, as amended, contained in the Credit Agreement and \$29.95 million was outstanding under the Sovereign Revolving Facility.

## NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

## 7. LONG-TERM DEBT

On October 22, 2008, the Company obtained a \$3.0 million term loan from Sovereign Bank to be amortized over five years (the "Sovereign Term Loan"). This term loan was refinanced as part of the revolving credit loan under the Restated Agreement of December 5, 2012.

On March 9, 2012, the Company obtained a \$4.5 million term loan from Sovereign Bank to be amortized over five years (the "Sovereign Term Loan 2"). The Sovereign Term Loan 2 was used by the Company to purchase tooling and equipment for new programs. The Sovereign Term Loan was continued under the Restated Agreement, and is payable in monthly installments of \$75,000, with a final payment of the remaining principal balance on March 9, 2017. The Sovereign Term Loan 2 bears interest at the lower of LIBOR plus 3% or Sovereign Bank's prime rate. The Sovereign Term Loan 2 is subject to the amended and restated terms and conditions of the Restated Agreement.

In connection with the Sovereign Term Loan 2, the Company and Sovereign Bank entered into a five-year interest rate swap agreement, in the notional amount of \$4.5 million. Under the interest rate swap, the Company pays an amount to Sovereign Bank representing interest on the notional amount at a rate of 4.11% and receives an amount from Sovereign representing interest on the notional amount at a rate equal to the one-month LIBOR plus 3%. The effect of this interest rate swap will be the Company paying a fixed interest rate of 4.11% over the term of the Sovereign Term Loan 2.

The maturities of long-term debt are as follows:

Twelve months ending June 30,	
2014	\$1,069,710
2015	969,196
2016	954,865
2017	760,074
	\$3,753,845

In addition to the Sovereign Term Facility 2, included in long-term debt are capital leases and notes payable of \$303,846, including a current portion of \$169,710.

## 8. MAJOR CUSTOMERS

During the six months ended June 30, 2013 and 2012, 1% and 9%, respectively, of revenue was directly from the U.S. Government. In addition, during the six months ended June 30, 2013, the Company's three largest commercial customers accounted for 27%, 22% and 19% of revenue, respectively. During the six months ended June 30, 2012, the Company's three largest commercial customers accounted for 38%, 19% and 15% of revenue, respectively.

Edgar Filing: CPI AEROSTRUCTURES INC - Form 10-Q

At June 30, 2013 and December 31, 2012, 1.5% and 3.2% of costs and estimated earnings in excess of billings on uncompleted contracts, respectively, were direct from the U.S. Government.

At June 30, 2013, 41%, 19%, 15% and 11% of costs and estimated earnings in excess of billings on uncompleted contracts were from four largest commercial customers. At December 31, 2012, 39%, 22%, 14% and 13% of costs and estimated earnings in excess of billings on uncompleted contracts were from the Company's four largest commercial customers.

At June 30, 2013, 32%, 28% and 25% of our accounts receivable were from our three largest commercial customers. At December 31, 2012, 36%, 30% and 21% of accounts receivable were from our three largest commercial customers.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

The following discussion should be read in conjunction with the Company’s Condensed Financial Statements and notes thereto contained in this report.

Forward Looking Statements

When used in this Form 10-Q and in future filings by us with the Securities and Exchange Commission, the words or phrases “will likely result,” “management expects” or “we expect,” “will continue,” “is anticipated,” “estimated” or similar expressions are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The risks are included in Item 1A - Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2012 and Item 2 Management’s Discussion and Analysis of Financial Condition and Results of Operations included in this Form 10-Q. We have no obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Business Operations

We are engaged in the contract production of structural aircraft parts principally for the U.S. Air Force and other branches of the U.S. armed forces, either as a prime contractor or as a subcontractor to other defense prime contractors. We also act as a subcontractor to prime aircraft manufacturers in the production of commercial aircraft parts.

Marketing and New Business

From the beginning of the current fiscal year through June 30, 2013, we received approximately \$13.2 million of new contract awards, which included approximately \$6.0 million of government subcontract awards and approximately \$7.2 million of commercial subcontract awards, compared to a total of \$44.6 million of new contract awards, of all types, in the same period last year.

## Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

## Backlog

We produce custom assemblies pursuant to long-term contracts and customer purchase orders. Backlog consists of aggregate values under such contracts and purchase orders, excluding the portion previously included in operating revenues on the basis of percentage of completion accounting, and including estimates of future contract price escalation. Substantially all of our backlog is subject to termination at will and rescheduling, without significant penalty. Funds are often appropriated for programs or contracts on a yearly or quarterly basis, even though the contract may call for performance that is expected to take a number of years. Therefore, our funded backlog does not include the full value of our contracts. Our total backlog as of June 30, 2013 and December 31, 2012 was as follows:

Backlog (Total)	June 30, 2013	December 31, 2012
Funded	\$74,849,000	\$52,318,000
Unfunded	337,021,000	339,563,000
Total	\$411,870,000	\$391,881,000

Approximately 53% of the total amount of our backlog at June 30, 2013 was attributable to government contracts. Our backlog attributable to government contracts at June 30, 2013 and December 31, 2012 was as follows:

Backlog (Government)	June 30, 2013	December 31, 2012
Funded	\$39,711,000	\$43,215,000
Unfunded	177,870,000	190,109,000
Total	\$217,581,000	\$233,324,000

Our backlog attributable to commercial contracts at June 30, 2013 and December 31, 2012 was as follows:

Backlog (Commercial)	June 30, 2013	December 31, 2012
Funded	\$35,138,000	\$9,103,000
Unfunded	159,151,000	149,454,000
Total	\$194,289,000	\$158,557,000

Our unfunded backlog is primarily comprised of the long-term contracts that we received from Boeing, Spirit and Northrop Grumman Corp. during 2008, Honda and Bell during 2011 and Cessna, Sikorsky and Embraer during 2012. These long-term contracts are expected to have yearly orders which will be funded in the future.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

Critical Accounting Policies

Revenue Recognition

We recognize revenue from our contracts over the contractual period under the percentage-of-completion (“POC”) method of accounting. Under the POC method of accounting, sales and gross profit are recognized as work is performed based on the relationship between actual costs incurred and total estimated costs at the completion of the contract. Recognized revenues that will not be billed under the terms of the contract until a later date are recorded as an asset captioned “Costs and estimated earnings in excess of billings on uncompleted contracts.” Contracts where billings to date have exceeded recognized revenues are recorded as a liability captioned “Billings in excess of costs and estimated earnings on uncompleted contracts.” Changes to the original estimates may be required during the life of the contract. Estimates are reviewed monthly and the effect of any change in the estimated gross margin percentage for a contract is reflected in cost of sales in the period the change becomes known. The use of the POC method of accounting involves considerable use of estimates in determining revenues, costs and profits and in assigning the amounts to accounting periods. As a result, there can be a significant disparity between earnings (both for accounting and tax purposes) as reported and actual cash received by us during any reporting period. We continually evaluate all of the issues related to the assumptions, risks and uncertainties inherent with the application of the POC method of accounting; however, we cannot assure you that our estimates will be accurate. If our estimates are not accurate or a contract is terminated, we will be forced to adjust revenue in later periods. Furthermore, even if our estimates are accurate, we may have a shortfall in our cash flow and we may need to borrow money, or seek access to other forms of liquidity, to fund our work in process or to pay taxes until the reported earnings materialize as actual cash receipts.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

Results of Operations

Revenue

Revenue for the three months ended June 30, 2013 was \$21,110,452 compared to \$20,854,627 for the same period last year, representing an increase of \$255,825 or 1.2%. For the six months ended June 30, 2013, revenue was \$41,037,885 compared to \$40,575,722 for the same period last year, representing an increase of \$462,163 or 1.1%.

We generate revenue from government contracts for which we act as a prime contractor or as a subcontractor as well as from commercial contracts. Revenue generated from prime government contracts for the six months ended June 30, 2013 was \$287,441 compared to \$3,570,726 for the six months ended June 30, 2012, a decrease of \$3,283,285 or 92%. This decrease was anticipated, as we move away from focusing on government prime work.

Revenue generated from government subcontracts for the six months ended June 30, 2013 was \$27,621,393 compared to \$25,289,400 for the six months ended June 30, 2012 an increase of \$2,331,993 or 9.2%. This increase is primarily the result of increased production on the A-10 program of approximately \$5 million and an increase in production on our program with UTC Aerospace of approximately \$2 million, offset by a decrease in production on the E-2D program of approximately \$6 million.

Revenue generated from commercial contracts was \$13,129,051 for the six months ended June 30, 2013 compared to \$11,715,596 for the six months ended June 30, 2012, an increase of \$1,413,454 or 12%. This increase is primarily the result of increased production rates on the G650 program.

Inflation historically has not had a material effect on our operations.

Gross Profit

Gross profit for the three months ended June 30, 2013 was \$4,236,247 compared to \$5,768,644 for the three months ended June 30, 2012, a decrease of \$1,532,397. As a percentage of revenue, gross profit for the three months ended June 30, 2013 was 20.1% compared to 27.7% for the same period last year. Gross profit for the six months ended June 30, 2013 was \$8,676,817 compared to \$10,733,030 for the six months ended June 30, 2012, a decrease of \$2,056,213. As a percentage of revenue, gross profit for the six months ended June 30, 2013 was 21.1% compared to 26.5% for the same period last year.

The gross margin percentage was below our anticipated percentage because of adjustments to our long term programs with Spirit, Northrop Grumman and Boeing as well as the C-5 Top program. The adjustment for our Spirit program was the result of price reductions given as part of an agreement to increase the program value and to extend the life of the program until 2019. The adjustment for Northrop Grumman is a reserve against anticipated price reductions that may be necessary upon completion of a government pricing analysis. The adjustment for our Boeing program was part of the negotiations for program changes described in the liquidity section. The Boeing adjustment approximates a 200 basis point decrease in our gross margin percentage. The adjustment for the C-5 Top program was the result of excess time and work required on C-5 wing tip panels

Because of the adjustments taken related to the Boeing negotiation and the costs associated with the C-5 wing tip, as well as price reductions taken on our G650 for extending our contract life and price reductions on our E-2D program, we now expect our gross margin for the full year to fall to be in the range of 23%-24%.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended June 30, 2013 were \$1,496,272 compared to \$1,570,231 for the three months ended June 30, 2012, a decrease of \$73,959, or 4.7%.

For the six months ended June 30, 2013, selling, general and administrative expenses were \$3,374,195 compared to \$3,675,112 for the same period last year, a decrease of \$300,917 or 8.2%. These decrease are predominately the result of a lower accrual for officers’ bonus of \$250,000 and lower professional fees of approximately \$239,000, offset by increased salaries of \$179,000, the result of increased headcount.

Income Before Provision for Income Taxes

Income before provision for income taxes for the three months ended June 30, 2013 was \$2,584,276 compared to \$4,024,019 for the same period last year, a decrease of \$1,439,743. This decrease is the result of the lower gross margin percentage during 2013 as compared to 2012. For the six months ended June 30, 2013, income before provision for income taxes was \$5,005,551 compared to \$6,734,338 for the same period last year, a decrease of \$1,728,787.

Provision for Income Taxes

Provision for income taxes was \$800,000 for the three months ended June 30, 2013, or 31% of pre-tax income, compared to \$1,328,000 or 33% of pre-tax income, for the three months ended June 30, 2012. Provision for income taxes was \$1,550,000 for the six months ended June 30, 2013, or 31% of pre-tax income, compared to \$2,119,000 or 32% of pre-tax income for the six months ended June 30, 2012.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

Net Income

Net income for the three months ended June 30, 2013 was \$1,784,276, or \$0.21 per basic share, compared to net income of \$2,696,019, or \$0.37 per basic share, for the same period last year. Net income for the six months ended June 30, 2013 was \$3,455,551 or \$0.41 per basic share, compared to \$4,615,338, or \$0.65 per basic share, for the same period last year. Diluted income per share for the three months ended June 30, 2013 was \$0.21, calculated utilizing 8,456,156 average shares outstanding. Diluted income per share for the six months ended June 30, 2013 was \$0.41, calculated utilizing 8,452,064 average shares outstanding.

Liquidity and Capital Resources

General

At June 30, 2013, we had working capital of \$84,432,728 compared to \$79,708,725 at December 31, 2012, an increase of \$4,724,003, or 5.9%.

Cash Flow

A large portion of our cash is used to pay for materials and processing costs associated with contracts that are in process and which do not provide for progress payments. Contracts that permit us to bill on a progress basis must be classified as “on time” for us to apply for progress payments. Costs for which we are not able to bill on a progress basis are components of “Costs and estimated earnings in excess of billings on uncompleted contracts” on our condensed balance sheets and represent the aggregate costs and related earnings for uncompleted contracts for which the customer has not yet been billed. These costs and earnings are recovered upon shipment of products and presentation of billings in accordance with contract terms.

Because the POC method of accounting requires us to use estimates in determining revenue, costs and profits and in assigning the amounts to accounting periods, there can be a significant disparity between earnings (both for accounting and tax purposes) as reported and actual cash that we receive during any reporting period. Accordingly, it is possible that we may have a shortfall in our cash flow and may need to borrow money, or to raise additional capital, until the reported earnings materialize into actual cash receipts.

At June 30, 2013, we had a cash balance of \$447,377 compared to \$2,709,803 at December 31, 2012.

Our costs and estimated earnings in excess of billings increased by approximately \$2.5 million during the six months ended June 30, 2013. The Boeing A-10 contract accounted for an approximately \$3.0 million increase, offset by approximately \$500,000 decrease in all other programs. Although this contract does provide for milestone billings, the program had reached the end of the milestone billing phase and as such we were not able to invoice this program on a progress basis. During June 2013 we completed our negotiations with Boeing regarding engineering changes. As such, we have increased the revenue over the life of the A-10 program by approximately \$1.5 million. In addition, Boeing will allow us to bill on a progress basis for inventory purchased through the end of June 2013, which will improve our cash flow in the third quarter of 2013. Lastly, Boeing has agreed to work with us to lower procurement costs on a going forward basis, as well as changing certain requirements, which will lower labor costs

associated with the job. The net result of this negotiation resulted in an approximate 200 basis point reduction in the current quarter's gross margin percentage.

Because of our high growth rate, in order to perform on new programs, such as the recently announced Goodrich and Embraer programs, we may be required to expend up-front costs that may have to be amortized over a portion of production units. In the case of significant program delays and/or program cancellations, we could be required to bear impairment charges which may be material, for costs that are not recoverable. Such charges and the loss of up-front costs could have a material impact on our liquidity.

We continue to work to obtain better payment terms with our customers, including accelerated progress payment arrangements, as well as exploring alternative funding sources.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

---

Credit Facilities

Line of Credit

Until December 2012, the Company was party to a Credit Agreement, dated August 13, 2007, as amended, between the Company and Sovereign Bank (the “Prior Agreement”), which provided for a revolving credit facility and two term loans. Immediately prior to entering into the Restated Agreement (identified below), a revolving credit facility in the aggregate of \$18.0 million was available to the Company under the Prior Agreement.

On December 5, 2012, the Company entered into an Amended and Restated Credit Agreement with Sovereign Bank (“Restated Agreement”) as the sole arranger, administrative agent, collateral agent and lender and Valley National Bank as lender. The Restated Agreement increased the revolving credit facility under the Prior Agreement from \$18 million to \$35 million (the “Sovereign Revolving Facility”), refinanced one of the previous term loans as a revolving credit loan, continued the other term loan and then-existing revolving credit loans, and amended and restated the general terms of the Prior Agreement. The revolving credit loans under the Restated Agreement mature on December 5, 2016. The Sovereign Revolving Facility and term loan under the Restated Agreement are secured by all of our assets.

As of June 30, 2013, the Company was in compliance with all of the financial covenants, as amended, contained in the Credit Agreement and \$29.95 million was outstanding under the Sovereign Revolving Facility.

Term Loan

On October 22, 2008, the Company obtained a \$3.0 million term loan from Sovereign Bank to be amortized over five years (the “Sovereign Term Loan”). This term loan was refinanced as part of the revolving credit loan under the Restated Agreement of December 5, 2012.

On March 9, 2012, the Company obtained a \$4.5 million term loan from Sovereign Bank to be amortized over five years (the “Sovereign Term Loan 2”). The Sovereign Term Loan 2 was used by the Company to purchase tooling and equipment for new programs. The Sovereign Term Loan was continued under the Restated Agreement, and is payable in monthly installments of \$75,000, with a final payment of the remaining principal balance on March 9, 2017. The Sovereign Term Loan 2 bears interest at the lower of LIBOR plus 3% or Sovereign Bank’s prime rate. The Sovereign Term Loan 2 is subject to the amended and restated terms and conditions of the Restated Agreement.

In connection with the Sovereign Term Loan 2, the Company and Sovereign Bank entered into a five-year interest rate swap agreement, in the notional amount of \$4.5 million. Under the interest rate swap, the Company pays an amount to Sovereign Bank representing interest on the notional amount at a rate of 4.11% and receives an amount from Sovereign Bank representing interest on the notional amount at a rate equal to the one-month LIBOR plus 3%. The effect of this interest rate swap will be the Company paying a fixed interest rate of 4.11% over the term of the Sovereign Term Loan 2.

Contractual Obligations

For information concerning our contractual obligations, see “Contractual Obligations” under “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the

year ended December 31, 2012.

Item 3 – Quantitative and Qualitative Disclosure About Market Risk

---

Management does not believe that there is any material market risk exposure with respect to derivative or other financial instruments that would require disclosure under this item.

Item 4 – Controls and Procedures

---

Evaluation of Disclosure Controls and Procedures

The Company's management has established disclosure controls and procedures designed to ensure that information it is required to disclose in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within time periods specified in the Securities and Exchange Commission rules and forms. Such disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information the Company is required to disclose in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management to allow timely decisions regarding required disclosure.

Based on an evaluation of the Company's disclosure controls and procedures as of June 30, 2013 made by management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) were effective as of June 30, 2013.

Changes in Internal Control Over Financial Reporting

No change in our internal control over financial reporting occurred during the quarter ended June 30, 2013 that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Part II - Other Information

Item 1 – Legal Proceedings

---

None.

Item 1A – Risk Factors

---

Material risks related to our business, financial condition and results of operations are disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012, as filed with the SEC on March 13, 2013. There have been no material changes to such risk factors. The risk factors disclosed in our Annual Report should be carefully considered in evaluating our business because such factors may have a significant impact on our business, operating results, liquidity and financial condition.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

---

There have been no repurchases or unregistered sales of our equity securities for the three months ended June 30, 2013.

Item 3 – Defaults Upon Senior Securities

---

None.

Item 4 – Mine Safety Disclosures

---

Not applicable.

Item 5 – Other Information

---

None.

Item 6 – Exhibits
