## SUPPLEMENTAL PLAN OF DISTRIBUTION

The Bank expects to agree to sell to the Dealers, and the Dealers severally and not jointly expect to agree to purchase from the Bank, the principal amount of the covered bonds specified, at the price specified, on the cover page of this prospectus supplement. The Dealers intend to resell each covered bond they purchase at the price to the public set forth on the cover page of this prospectus supplement. In the future, the Dealers or one of their affiliates, may repurchase and resell the covered bonds in market-making transactions, with resales being made at prices related to prevailing market prices at the time of resale or at negotiated prices. For more information about the plan of distribution, the underwriting agreement and possible market-making activities, see “*Plan of Distribution*” in the accompanying prospectus.

<b>Dealer</b>	<b>Principal Amount</b>
Scotia Capital (USA) Inc.	U.S.\$150,000,000
RBC Capital Markets, LLC	U.S.\$150,000,000

The Dealers have advised the Bank that the Dealers propose initially to offer the covered bonds to the public at the public offering price on the cover page of this prospectus supplement, and to certain dealers at that public offering price less a commission not in excess of 0.200% of the principal amount of the covered bonds. The Dealers may allow, and those dealers may reallow to other dealers, a commission not in excess of 0.125% of the principal amount.

After the initial public offering of the covered bonds is completed, the public offering price and commissions may be changed by the Dealers.

In connection with the sale of the covered bonds, the Dealers may engage in:

over-allotments, in which Dealers selling the covered bonds sell more covered bonds than the Bank actually sold to the Dealers, creating a Dealer short position;

stabilizing transactions, in which purchases and sales of the covered bonds may be made by the Dealers at prices that do not exceed a specified maximum in accordance with Rule 104 of Regulation M under the Securities Exchange Act of 1934; and

Dealer covering transactions, in which Dealers purchase the covered bonds in the open market after the distribution has been completed in order to cover Dealer short positions.

These stabilizing transactions and Dealer covering transactions may cause the price of the covered bonds to be higher than it would otherwise be. These transactions, if commenced, may be discontinued at any time.

The Dealers and their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. In the ordinary course of their respective businesses, the Dealers and/or their affiliates have engaged, and may in the future engage, in commercial banking, investment banking, trust or investment management transactions with us and our affiliates for which they have received, and will in the future receive, customary compensation.

S-9

We will deliver the covered bonds against payment therefor in New York, New York on May 7, 2015 which is the fourth scheduled business day after the trade date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade covered bonds on any date prior to three business days before delivery will be required, by virtue of the fact that the covered bonds will initially settle in four business days (T + 4), to specify alternative settlement arrangements to prevent a failed settlement.

## THE PORTFOLIO

The statistical and other information contained herein has been compiled by reference to the Loans in the Portfolio securing the covered bonds as of March 31, 2015 (the “**cut-off date**”). The noon exchange rate of Canadian dollars into U.S. dollars on the cut-off date was CDN\$1 = U.S.\$0.7885. Columns stating percentage amounts may not add to 100% due to rounding.

The Loans in the Portfolio are selected on the basis of the seller's Eligibility Criteria set forth in the Mortgage Sale Agreement. The material aspects of such Eligibility Criteria are described under “*Summary of the Principal Documents—Mortgage Sale Agreement—Eligibility Criteria*” in the accompanying prospectus. As of the cut-off date, all Loans in the Portfolio complied with the Eligibility Criteria. One significant indicator of borrower credit quality is arrears and losses. The information presented below under “*Loss Information*” reflects the arrears and losses experience of the Portfolio as at the dates indicated. Any material change to the Eligibility Criteria, which could lead to arrears and losses deviating from the historical experience presented in the table under “*Loss Information*,” will be reported by the Guarantor on periodic reports filed with the SEC on Form 10-D. It is not expected that the characteristics of the Portfolio as of the closing date will differ materially from the characteristics of the Portfolio as of the cut-off date.

The Portfolio was drawn up as at the cut-off date and comprised 94,520 Loans having an aggregate current balance of \$16,042,368,140 as at that date. The Bank originated the Loans in the Portfolio between January 2005 and January 2015.

75,368 Loans in the Portfolio (or 79.35% of the aggregate current balance of the Loans as of the cut-off date) were fixed rate Loans. The remaining 19,152 Loans in the Portfolio (or 20.65% of the aggregate current balance of the Loans as of the cut-off date) were standard variable rate Loans, as described below.

In the prior three years, there have been no repurchases or replacement of Loans in the Portfolio as a result of breaches of representations or warranties and no demands for repurchase or replacement of any Loan.

No Loan in the Portfolio failed to meet the Bank’s Lending Criteria.

The Bank most recently filed a Form ABS-15G on February 13, 2015. The Bank’s Central Index Key is 0000009631.

As of the cut-off date, the Bank's standard five-year variable rate for existing and new borrowers was 3.65% (rate for “open” loans) and 2.85% (rate for “closed” loans) per annum.

**Review of the Portfolio**

The Bank has performed a review of the Loans in the Portfolio and a review of the disclosure regarding the Loans in this prospectus supplement and the accompanying prospectus required by Item 1111 of Regulation AB (such disclosure, the “**Rule 193 Information**”). This review was designed and effected to provide the Bank with reasonable assurance that the Rule 193 Information is accurate in all material respects.

S-15

One aspect of the review consisted of a comparison of the statistical information contained in Annex A and Annex B hereto to statistical information relating to all of the Loans in the Portfolio contained in the Bank's data files. The data files are electronic records maintained by the Bank. For this comparison, the data files from the Bank's loan servicing system, including relevant data elements, were extracted from the Bank's information repository system. No material exceptions were found between the statistical information contained in Annex A and Annex B and the data files extracted from the Bank's system.

A second aspect of the review consisted of a sampling of physical loan files. In accordance with CMHC requirements, in January 2014, a third party at the request of the Bank completed a comparison of certain Loan characteristics as required by the CMHC Guide, such as amount financed, current balance, location of the property and property valuation, in a sampling of 652 randomly selected Loan files, to the applicable information in the data files. No material exceptions were found between the Loan files and the data extracted from the Bank's system.

The Bank has developed procedures for monitoring and managing the Loans in its Covered Bond Portfolio. For example, on a periodic basis, the Bank performs a review of the Loans in its Covered Bond Portfolio to ensure such Loans continue to be Eligible Loans. As a result of a review, a selection of Loans may be sold by the Guarantor to the Bank, including Loans that have ceased to be Eligible Loans or Loans that are at least 90 days past due or subject to foreclosure. Sales of Eligible Loans by the Guarantor that are at least 90 days past due or subject to foreclosure are done on a voluntary basis and the Guarantor is under no obligation to continue such sales or notify investors of any discontinuance of such sales. The Bank is under no obligation to purchase such loans. As well, additional Eligible Loans may be added to the Covered Bond Portfolio to increase the value of Loans in the Covered Bond Portfolio. Typically, these periodic sales are immaterial to the Covered Bond Portfolio's overall performance. Any addition to or subtraction of Loans from the Covered Bond Portfolio is reflected in the next monthly Investor Report and incorporated by reference herein.

On January 22, 2015, approximately \$6.65 billion of additional Eligible Loans were added to the Covered Bond Portfolio. That addition of new Loans is reflected in the monthly Investor Reports beginning with the period ended January 29, 2015. The next pool audit required by the CMHC Guide is scheduled to be performed prior to July 1, 2015. No separate sample of Loan files for the additional Loans added to the Covered Bond Portfolio on January 22, 2015 has been conducted to date.

A third aspect of the review consisted of a review of the Rule 193 Information related to descriptions of the transaction documents in this prospectus supplement and the accompanying prospectus. For this part of the review, the Bank and its legal counsel reviewed the Rule 193 Information consisting of descriptions of portions of the transaction documents and compared that Rule 193 Information to the related transaction documents. The Bank and its legal counsel also reviewed the Rule 193 Information consisting of descriptions of legal and regulatory provisions that may materially affect the performance of the Loans or payments on the covered bonds.

In addition to the elements of the review of the Rule 193 Information that were specifically conducted for purposes of this transaction as described above, with respect to Rule 193 Information relating to credit approvals and exceptions to

Edgar Filing: BANK OF NOVA SCOTIA - Form 424B2

credit policies, the Bank has observed the regular, ongoing application of its internal control procedures. These include audits, quality assurance reviews and portfolio level analyses following origination to assess compliance with the Bank's underwriting policies. These audits, quality assurance reviews and portfolio level analyses are reviewed by a policy review committee as well as group risk management and other partners on a regular basis.

All Rule 193 Information consisting of textual disclosures of factual information and not otherwise described above was reviewed and approved by the Bank.

S-16

After undertaking the elements of the review described above, the Bank has found and concluded that it has reasonable assurance that the Rule 193 Information in this prospectus supplement and the accompanying prospectus is accurate in all material respects.

The review of disclosure relating to the description of the transaction documents and legal and regulatory matters and the reviews of statistical information and certain Loans characteristics were performed with the assistance of third parties engaged by the Bank. The Bank determined the nature, extent and timing of the review and the level of assistance provided by the third parties and by the Bank. The Bank has ultimate authority and control over, and assumes all responsibility for, the review and the findings and conclusions of the review. The Bank attributes all findings and conclusions of the review to itself.
