Chairman's  
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent fiscal year your Fund continued to provide you with monthly tax-free income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Manager's Perspective and Performance Overview sections of this report.

With longer-term interest rates still relatively low, many investors have begun to wonder whether these rates will soon begin to rise, and whether that makes this the time to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional

"OUR MISSION CONTINUES TO BE TO ASSIST YOU AND YOUR FINANCIAL ADVISOR BY OFFERING THE INVESTMENT SERVICES AND PRODUCTS THAT CAN HELP YOU TO SECURE YOUR FINANCIAL OBJECTIVES."

can be an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that a municipal bond investment like your Nuveen Fund can be an important building block in a portfolio designed to perform well through a variety of market conditions.

As in past reports, I'd also like to direct your attention to the inside front cover, which explains the quick and easy process to begin receiving these Fund reports via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

### Portfolio Manager's PERSPECTIVE

Portfolio manager Tom Spalding discusses the economic and market environment, key investment strategies, and the fiscal year performance of these six Funds. With 27 years of investment experience at Nuveen, Tom has managed NXZ since its inception in 2001, and NPP, NMA, NMO, NAD, and NZF since 2003.

#### WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE ANNUAL REPORTING PERIOD ENDED OCTOBER 31, 2004?

During this fiscal year, the U.S. economy demonstrated improvement in a number of key areas, although the pace of the recovery slowed over the last six months of the period. The gross domestic product (GDP) expanded at annualized rates of 4.2% in the fourth quarter of 2003 and 4.5% in the first quarter of 2004. However, sharply higher energy prices restrained consumer spending during the second and third quarters of 2004, which in turn impacted economic momentum. Over this period, GDP growth moderated to 3.3% annualized in the second quarter and 3.9% annualized in the third quarter.

Higher energy costs also continued to fuel lingering concerns about inflation. Although monthly gains in consumer prices were generally tame, by the end of October 2004 inflation was running well ahead of the 2003 pace. The Consumer Price Index (CPI) rose at a 3.9% annualized rate for the first 10 months of 2004, more than double the 1.9% rate for all of 2003. Excluding energy and food, the CPI increased at an annual rate of 2.4% for the first 10 months of 2004.

During the second quarter of 2004 in particular, inflation worries, the slowing pace of economic recovery and continued geopolitical uncertainty acted as catalysts for heightened volatility in the fixed-income markets. As one example, the yield on the Bond Buyer 25 Revenue Bond Index (BB25), a widely followed municipal bond index, began this reporting period at 5.24%. The BB25 yield then dropped steadily over the next five months to 4.73% by mid-March 2004. As a series of improved employment reports sparked increased anticipation of action by the Federal Reserve, the index yield began to climb again, rising more than 70 basis points over the next 8 weeks to 5.45%, where it hovered through the end of June. However, more bond-friendly news--including indications of relatively slow growth of wages and employment--prompted a retreat to 4.97% by the end of October 2004.

While intermediate and long-term bond yields generally fell over most of the second half of the Funds' fiscal years, short-term rates slowly rose. The

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

Federal Reserve instituted three different one-quarter-point increases in the fed funds rate between June and

4

September 2004. (On both November 10 and December 14, following the end of this reporting period, the Fed added additional quarter-point increases, bringing the fed funds rate to 2.25%.)

Over the 12 month period, municipal new issue supply nationwide remained relatively strong, with \$363.4 billion in new bonds coming to market. This represented a decrease of about 5% from the preceding 12-month period, as the improving economy and higher tax revenues lessened the need for some issuers to borrow.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE 12 MONTHS ENDED OCTOBER 31, 2004?

As the market continued to anticipate increased interest rates, our focus during this fiscal year remained on purchasing bonds that we believed had the potential to add value and perform well under a variety of market scenarios. In general, our purchase activity for all six of these Funds centered on trying to find attractive securities in the long-intermediate part of the yield curve, that is, bonds that mature in 20 to 25 years.

One of our longer-term goals was to work to position all of these Funds so that they produce less volatile, roughly equivalent returns over time. As one strategy to reach this goal for some of the newer Funds, we have attempted to reduce some of NXZ's interest rate risk by hedging in the derivatives markets. (Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise, since bond prices move in the opposite direction of interest rates.) Our only objective with these hedges is to reduce the Fund's interest rate risk, and not to potentially enhance its return by making a prediction about future interest rates. This hedge does not affect NXZ's income stream or dividend-paying capabilities over the short-term. Instead, the costs of the hedge are reflected as an addition or subtraction to the Fund's net asset value as the market value of the hedge fluctuates. Although the hedge had a negative market value as of October 31, 2004, it succeeded in reducing some of the volatility of NXZ's net asset value over the course of the reporting period.

In NZF, we sought to shorten the Fund's duration<sup>1</sup> to mitigate some of its interest rate risk. To accomplish this goal, we sold some of NZF's holdings with the longest maturities and reinvested the proceeds in bonds from the intermediate part of the yield curve.

Demand for municipal securities remained firm through most of this reporting period, which limited our ability to find bonds with attractive prices, yields and structures. Since insured bonds accounted for about 50% of new municipal bond issuance during this period, we often looked to this area for buying opportunities.

1 Duration is a measure of a Fund's net asset value (NAV) volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise

noted.

5

We also sought to purchase higher-coupon bonds that we believed could help support the Funds' dividends, and we worked to enhance the Funds' call protection by selling several bonds with short call dates and reinvesting the proceeds in longer-term securities with better call protection.

For additional information, see the individual Performance Overview for your Fund in this report.

For the 12 months ended October 31, 2004, the total returns on net asset value (NAV) for all six Funds in this report outperformed the return on the Lehman Brothers Index. All of the Funds also outperformed the average return for their Lipper peer group for this period.

One of the primary factors benefiting the 12-month performances of these six Funds relative to that of the unleveraged Lehman Brothers index was the Funds' use of financial leverage. While leverage can add volatility to the Funds' NAVs and share prices, especially when substantial shifts in interest rates occur, this strategy also can provide opportunities for additional income and total returns for common shareholders when short-term interest rates remain low, as they did during this period.

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

All six Funds also benefited from their holdings of lower quality bonds, which generally outperformed higher credit quality sectors as the economy improved and demand for

6

lower-rated bonds increased. Among the lower-rated bonds making positive contributions to the Funds' total returns during this period were those issued by the healthcare sector, especially hospital bonds. The performance of the healthcare sector as a whole ranked second among the Lehman Brothers Index's revenue sectors for the 12-month period. As of October 31, 2004, NXZ had 25% of its portfolio in healthcare bonds, while NMA and NZF each had 17%, NAD had 16%, and NPP and NMO had 10%. In particular, NMA and NXZ benefited from their holdings of bonds issued by the Michigan State Hospital Finance Authority for Detroit Medical Center, which appreciated in price as the center's financial situation continued to improve.

The Funds' returns were also helped by the strong performance of their holdings of uninsured bonds backed by the 1998 master tobacco settlement agreement. Over this period, NPP, NMA, NMO, NAD and NZF maintained exposures of approximately 5% in tobacco bonds, while NXZ continued to allocate about 3% to this sector.

One sector that did not perform well during this period was housing, both multifamily and single family. The housing sector as a whole ranked at the bottom of the Lehman Brothers Index revenue sectors for the 12-month period. The sector's below-market performance stemmed largely from the increase in mortgage prepayments as interest rates remained low, which resulted in a number of bond calls. In general, the Funds' housing exposure had a negative impact on their performance, with NMA and NZF having the heaviest weightings in housing bonds.

In addition, the annual performance of NMO was negatively affected by the continued deterioration of its holding of bonds issued by the Indianapolis Airport Authority and backed by United Airlines. These bonds declined in value to \$0.11 on the dollar as of October 31, 2004.

### HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining relatively low throughout this reporting period, the leveraged structures of these six Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates these Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay relatively lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. This strategy enabled us to increase the dividend of NZF in December 2003 and helped us to maintain the dividends of NPP, NMA, NMO, NAD and NXZ throughout the reporting period.

7

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of October 31, 2004, all six of these Funds had positive UNII balances for both financial statement and tax purposes.

As of October 31, 2004, all six of these Funds were trading at discounts to their NAVs. These discounts were generally in line with the Funds' average discounts over the entire 12-month reporting period.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF OCTOBER 31, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality was an important requirement for the Funds. As of October 31, 2004, these six Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 68% in NXZ to 74% in NMA, 80% in NMO and NAD, and 82% in NPP and NZF.

As of October 31, 2004, potential call exposure for these Funds during 2004-2006 ranged from 4% in NXZ, to 5% in NZF, 9% in NMO, 10% in NAD, 14% in NPP and 16% in NMA. The number of actual bond calls in all of these Funds depends largely on market interest rates in the future.

FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Performance Plus Municipal Fund, Inc. (NPP), Nuveen Municipal Advantage Fund, Inc. (NMA), Nuveen Municipal Market Opportunity Fund, Inc. (NMO), Nuveen Dividend Advantage Municipal Fund (NAD), Nuveen Dividend Advantage Municipal Fund 2 (NXZ) and Nuveen Dividend Advantage Municipal Fund 3 (NZF). Performance Plus (NPP), Municipal Advantage (NMA), Market Opportunity (NMO) and Dividend Advantage (NAD) are traded on the New York Stock Exchange while Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations

issued by state and local government authorities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

### Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At October 31, 2004, Performance Plus (NPP) and Dividend Advantage (NAD) had outstanding when-issued purchase commitments of \$3,702,086 and \$24,582,900, respectively. There were no such outstanding purchase commitments in any of the other Funds.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

### Professional Fees

Professional fees presented in the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of the Fund's shareholders. Legal fee refund presented on the Statement of Operations for Market Opportunity (NMO) reflects a refund of workout expenditures paid in a prior reporting period.

### Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended October 31, 2004, have been designated Exempt Interest Dividends. Net realized capital gains and

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

ordinary income distributions made by the Funds are subject to federal taxation.

### Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

70

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

### Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in more than one Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

### Forward Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net earnings. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment. The amount of the payment obligation is based on the notional or nominal amount of the forward swap contract. The Funds may close out a contract prior to the effective date. When a forward swap is terminated, it does not involve the delivery of securities of other underlying assets or principal, but rather is settled in cash. Each Fund intends to, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment. To minimize such credit risk, all counterparties are required to segregate collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to segregate assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss. The Funds help reduce the credit risks associated with forward swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the swap counterparties.

### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

### Indemnifications

Under the Funds' organizational documents, its Officers and Director/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Directors/Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its

affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .006% as of November 30, 2004.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

| AVERAGE DAILY NET ASSETS<br>(INCLUDING NET ASSETS ATTRIBUTABLE<br>TO PREFERRED SHARES) | PERFORMANCE PLUS (NPP)<br>MUNICIPAL ADVANTAGE (NMA)<br>MARKET OPPORTUNITY (NMO)<br>FUND-LEVEL FEE RATE |

| For the next \$250 million   | .4250  |
| For the next \$500 million   | .4125  |
| For the next \$1 billion   | .4000  |

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

For Managed Assets over \$91 billion (2) .1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
  
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

Reinvest Automatically  
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS  
DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on the dividends or distributions awaiting reinvestment. Because the market price may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

commissions usually will be lower than those charged on individual transactions.

### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

#### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the sensitivity of a bond or bond fund's value to changes when interest rates change. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

### ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at [www.nuveen.com/etf](http://www.nuveen.com/etf).

### ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

## Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR. Mr. Evans has served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on October 31, 2004.

Prior to July 26, 2004, William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR, served as the audit committee financial expert. Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from May 1, 2004 to July 26, 2004.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

#### ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

##### NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly

brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Advisory Corp. ("NAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts

greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

### ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans and William J. Schneider.

### ITEM 6. SCHEDULE OF INVESTMENTS.

See Schedule I in Item 1.

### ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

### ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

### ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

### ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors or trustees and reserves the right to interview all candidates and to make the final selection of any new directors or trustees.

### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within
