Form 10-Q
November 14, 2001

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT

PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2001
Commission file number 1-496

HERCULES INCORPORATED

A Delaware corporation
I.R.S. Employer Identification No. 51-0023450
Hercules Plaza
1313 North Market Street
Wilmington, Delaware 19894-0001
Telephone: 302-594-5000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

As of October 31, 2001, 108,501,991 shares of registrant's common stock were outstanding.

HERCULES INCORPORATED NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. These condensed consolidated financial statements of Hercules Incorporated ("Hercules" or the "Company") are unaudited, but in the opinion of management include all adjustments necessary to present fairly in all material respects Hercules' financial position and results of operations for the interim periods. These condensed consolidated financial statements should be read in conjunction with the accounting policies, financial statements and notes included in Hercules' annual report on Form 10-K for the year ended December 31, 2000, as amended. Certain prior period amounts have been reclassified to conform to the current period presentation.

Pursuant to Securities and Exchange Commission ("SEC") Regulation S-X, Rule 3-10, the Company is required to provide condensed consolidating financial information on the Company and its subsidiaries in a prescribed format in all periodic reports filed with the SEC. The information necessary to present all of the required disclosures was not available in time to be included in this Form 10-Q filing. The Company is in the process of preparing the required condensed consolidating financial information and intends to file an amended Form 10-Q, which will include this information as soon as it is available.

2. Revenue Recognition - The Company recognizes revenue when the earnings process is complete. This generally occurs when products are shipped to the customer or services are performed in accordance with terms of the agreement, title and risk of loss have been transferred, collectibility is probable and pricing is fixed and determinable. Accruals are made for sales returns and other allowances based on the Company's experience. The corresponding shipping and handling costs are included in cost of sales.

3. Derivatives Instruments and Hedging - On January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended ("SFAS 133"). The standard requires that all derivative instruments be recorded on the balance sheet at their fair values. The Company has not designated any derivative as a hedge instrument and accordingly, changes in fair value of derivatives are recorded each period in earnings. The adoption of SFAS 133 did not result in a pre-tax or post-tax cumulative-effect-type adjustment to income, and did not result in a change to other comprehensive losses.

Under procedures and controls established by the Company's risk management policies, the Company strategically enters into contractual arrangements (derivatives) in the ordinary course of business to reduce the exposure to foreign currency exchange rates and interest rates.

The Company's risk management policies establish a variety of approved derivative instruments to be utilized in each risk management program and the level of exposure coverage based on the assessment of risk factors. Derivative instruments utilized include forwards, swaps and options. The Company has not designated any non-derivatives as hedging instruments.

The Company uses forward exchange contracts and options, generally no greater than three months in term, to reduce its net currency exposure. The objective of this program is to maintain an overall balanced position in foreign currencies so that exchange gains and losses resulting from exchange rate changes, net of related tax effect, are minimized. The Company has used interest rate swap agreements to manage interest costs and risks associated with changing rates.

Edgar Filing: HERCULES INC - Form 10-Q

Counterparties to the forward exchange, currency swap and interest swap contracts are major financial institutions. Credit loss from counterparty nonperformance is not anticipated. During 2000, the interest rate swap portfolio was substantially terminated.

6

4. Business Combinations and Intangible Assets - In June 2001, the Financial Accounting Standards Board ("FASB") approved the issuance of Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS 141"), and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). For Hercules, these statements will generally become effective January 1, 2002, although business combinations initiated after June 30, 2001 are subject to the non-amortization and purchase accounting provisions.

SFAS 142 stipulates that goodwill and other intangible assets with indefinite lives are no longer subject to amortization, but must be evaluated periodically for impairment beginning January 1, 2002. Hercules is currently in the process of conducting an assessment of the actual impact of the non-amortization provision of SFAS 142 on its diluted earnings per share. The assessment of goodwill for impairment is a complex issue in which the Company must determine, among other things, the fair value of each defined component of its reporting units. It is, therefore, not possible at this time to reasonably estimate the impact that the impairment assessment provision will have on Hercules' financial statements.

In addition, in June 2001, the FASB approved the issuance of Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" ("SFAS 143"). SFAS 143 establishes accounting standards for the recognition and measurement of legal obligations associated with the retirement of tangible long-lived assets. SFAS 143 will become effective for the Company on January 1, 2003 and requires recognition of a liability for an asset retirement obligation in the period in which it is incurred. Management is in the process of evaluating the impact this standard will have on the Company's financial statements.

In October 2001, the FASB issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. The provisions of this statement are effective for financial statements issued for fiscal years beginning after December 15, 2001. Management is in the process of evaluating the impact this standard will have on the Company's financial statements.

5. The following table shows the amounts used in computing (loss) earnings per share and the effect on income and the weighted-average number of shares of dilutive potential common stock:

(Amounts in millions, except per share data):

		=====	=====	=====

7

6. Costs and expenses include depreciation of \$24 million and \$32 million for the three months ended September 30, 2001 and 2000, respectively, and \$77 million and \$99 million for the nine months ended September 30, 2001 and 2000, respectively.

7. Other operating (income) expense for the three and nine months ended September 30, 2001 includes environmental charges of \$2 million and \$6 million, respectively. Both periods also include non-recurring restructuring charges of \$45 million associated with the comprehensive cost reduction and work process redesign program (see Note 10), partially offset by \$5 million and \$7 million in restructuring reversals pertaining to prior year plans for the quarter and nine-month periods. The nine months ended September 30, 2001 includes \$74 million in net gains from the sale of the Company's hydrocarbon resins business, select portions of its rosin resins business, its peroxy chemicals business and its 50% interest in Hercules-Sanyo, Inc. Partially offsetting these gains are \$5 million of executive severance charges, \$3 million in non-recurring fees related to the 2001 proxy contest and other matters and \$1 million in project abandonment costs.

Other operating (income) expense for the three and nine months ended September 30, 2000 includes integration costs associated with the BetzDearborn acquisition of \$1 million and \$4 million, respectively, environmental charges of \$1 million and \$7 million, respectively, and \$9 million of net restructuring charges for both periods. Both periods also include the gain of \$168 million on the sale of the Food Gums business, partially offset by \$51 million of asset impairment charges primarily in the FiberVisions business. Additionally, the three and nine months ended September 30, 2000 include charges of \$1 million and \$25 million, respectively, associated with the sale of the nitrocellulose business, partially offset by \$11 million in recoveries of insurance and environmental claims for the nine months ended September 30, 2000.

8. Interest and debt costs are summarized as follows:

(Dollars in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2001	2000	2001	2000

Edgar Filing: HERCULES INC - Form 10-Q

Costs incurred	\$ 46	\$ 45	\$158	\$124
Amount capitalized	--	3	4	8
	----	----	----	----
Interest expense	\$ 46	\$ 42	\$154	\$116
	=====	=====	=====	=====

9. Other expense, net, for the three and nine months ended September 30, 2001 includes approximately \$3 million and \$6 million, respectively, for litigation costs, \$1 million and \$4 million, respectively, of miscellaneous discounts and losses from the sale of assets of \$2 million and \$1 million, respectively. Interest income of \$1 million and \$4 million, respectively, is included for the three and nine month periods and foreign currency gains of approximately \$4 million, partially offset by rent expense of \$1 million are included in the nine months ended September 30, 2001. Litigation costs, rent expense and asset sales primarily relate to former operations of the Company.

Other expense, net, for the three and nine months ended September 30, 2000 includes losses of \$4 million and \$2 million, respectively, associated with the sale of properties in the BetzDearborn division. Additionally, the three and nine month periods include litigation costs of \$4 million and \$6 million, respectively, primarily associated with former operations of the Company and bank charges of \$1 million and \$2 million, respectively. Miscellaneous discounts of \$2 million and \$3 million are also included for the three and nine month periods. Offsetting these expenses is interest income of \$2 million and \$6 million for the three and nine months ended September 30, 2000. The three and nine month periods also include miscellaneous costs of \$2 million and \$5 million, respectively, that pertain to the Company's foreign operations.

10. The consolidated balance sheet reflects liabilities for employee severance benefits and other exit costs of \$53 million and \$47 million, respectively, at September 30, 2001 and 2000. During September 2001, management

8

authorized and committed to a plan to reduce the workforce as part of the comprehensive cost reduction and work process redesign program. The Company incurred restructuring charges of \$45 million, which includes charges of \$41 million for employee termination benefits and \$4 million for exit costs related to facility closures. Under this plan, approximately 880 employees will be terminated. The plan includes reductions throughout the Company with the majority of them from support functions as well as the Process Chemicals and Services segment.

The restructuring liabilities also include amounts relating to the 1998 plan initiated upon the acquisition of BetzDearborn and additional plans that the Company committed to in 2000 relating to the restructuring of the Process Chemicals and Services segment and corporate realignment due to the divestiture of non-core businesses. The total number of employee terminations relating to the 1998 plan is 889. The total number of employee terminations relating to the 2000 plans is 212. Actions under the 1998 plans were substantially complete as of December 31, 2000; actions under the 2000 plans will be substantially completed by the end of 2001.

Pursuant to the above plans, approximately 280 employees were terminated during the nine months ended September 30, 2001. Cash payments during the periods ended September 30, 2001 and 2000 included \$9 million and \$43 million, respectively, for severance benefits and other exit costs. Severance benefits paid during the current year represent the continuing benefit streams of previously terminated employees as well as those terminated in the current

Edgar Filing: HERCULES INC - Form 10-Q

year. During the second and third quarters of 2001, the Company completed assessments of the remaining expenditures for the 1998 BetzDearborn plan and the 2000 plans, respectively. As a result of these assessments, the estimates for severance benefits and other exit costs were lowered by \$17 million, with corresponding reductions to goodwill and expense of \$10 million and \$7 million, respectively. The lower than planned severance benefits are the result of higher than anticipated attrition, with voluntary resignations not requiring the payment of termination benefits. A reconciliation of activity with respect to the liabilities established for these plans is as follows:

(Dollars in millions)	Nine Months Ended September 30,	
	2001	2000
	----	----
Balance at beginning of year	\$ 34	\$ 77
Additional termination benefits and other exit costs	45	17
Cash payments	(9)	(43)
Reversals	(17)	(4)
	----	----
Balance at end of period	\$ 53	\$ 47
	====	====

The balance at the end of the period represents severance benefits and other exit costs of which \$45 million pertains to the 2001 restructuring plan, \$4 million pertains to the 1998 BetzDearborn plan and \$4 million relates to other restructuring plans initiated in 2000.

9

11. A summary of short-term and long-term debt follows:

(Dollars in millions)	September 30,	December 31,
	2001	2000
	----	----
SHORT-TERM:		
Banks	\$ 19	\$118
Current maturities of long-term debt	186	143
	----	----
	\$205	\$261
	====	====

At September 30, 2001, the Company had \$55 million of unused lines of credit that may be drawn as needed. Lines of credit in use at September 30, 2001 were \$19 million.

(Dollars in millions)	September 30,	December
	2001	200
	----	---

Edgar Filing: HERCULES INC - Form 10-Q

Revolving credit agreement due 2003	517	43
ESOP debt	84	10
Term notes at various rates from 5.23% to 9.60% due in varying amounts through 2006	58	6
Other	6	
	-----	-----
	\$ 2,208	\$ 2,48
Current maturities of long-term debt	(186)	(14
	-----	-----
Net long-term debt	\$ 2,022	\$ 2,34
	=====	=====

In 1998, the Company entered into a \$3,650 million credit facility with a syndicate of banks, which includes varying maturity term loans totaling \$2,750 million, of which \$543 million was outstanding at September 30, 2001. In addition, the facility includes a \$900 million revolving credit agreement, of which \$517 million was outstanding at September 30, 2001. Through this revolving credit facility, a Canadian subsidiary of the Company can borrow up to U.S. \$100 million equivalent from select lenders in Canada in Canadian dollars. As of September 30, 2001, \$66 million was outstanding under this facility. As of September 30, 2001, \$291 million of the multi-currency revolver was available for use, however the Company's incremental borrowing capacity was approximately \$143 million. Actual availability under the revolving credit agreement is constrained by the Company's ability to meet covenants in its senior credit facility.

On January 23, 2001, the Company's corporate credit rating was downgraded by Standard & Poor's Rating Services to BB, which resulted in an increase to the interest rates on the term loan tranche A to LIBOR + 2.75%, on term loan tranche D to LIBOR + 3.25% and on the ESOP credit facility to 12.95%.

Both the Company's senior credit facility and its ESOP credit facility require quarterly compliance with certain financial covenants, including a debt/EBITDA ratio ("leverage ratio"), an interest coverage ratio and minimum net worth. Due to a delay in closing the sales of various Resins businesses, which in turn delayed the pay down of debt, debt as of March 31, 2001 was significantly higher than planned. As a result, the Company would have been out of compliance with the leverage ratio covenant of its senior credit facility and ESOP credit facility as of that date. On April 5, 2001, the Company's senior credit facility bank syndicate and ESOP lender

granted waivers with respect to compliance with the leverage ratio as of March 31, 2001 and one other covenant. In July 2001 and August 2001, respectively, the Company's senior credit facility and its ESOP credit facility were amended to modify certain covenants.

While the Company expects to remain in compliance with its debt covenants, future compliance is dependent upon generating sufficient EBITDA and cash flow, which are, in turn, impacted by business performance, economic

Edgar Filing: HERCULES INC - Form 10-Q

climate, competitive uncertainties and possibly the resolution of contingencies, including those set forth in Note 13.

If the Company is not in compliance with debt covenants in the future, it would pursue various alternatives, which may include, among other things, refinancing of debt, debt covenant amendments or debt covenant waivers. However, there can be no assurance that the Company would be successful in pursuing these alternatives.

12. Guaranteed Preferred Beneficial Interests in Subordinated Debentures consists of:

(Dollars in millions)	September 30, 2001 ----	December 31, 2000 ----
9.42% Trust Originated Preferred Securities	\$362	\$362
6 1/2% CRESTS Units	261	260
	-----	-----
	\$623	\$622
	=====	=====

13. Commitments and Contingencies

ENVIRONMENTAL LITIGATION

Hercules has been identified as a potentially responsible party ("PRP") by U.S. federal and state authorities, or by private parties seeking contribution, for the cost of environmental investigation and/or cleanup at numerous sites. The estimated range of the reasonably possible share of costs for the investigation and cleanup is between \$82 million and \$255 million. The actual costs will depend upon numerous factors, including the number of parties found responsible at each environmental site and their ability to pay; the actual methods of remediation required or agreed to; outcomes of negotiations with regulatory authorities; outcomes of litigation; changes in environmental laws and regulations; technological developments; and the years of remedial activity required, which could range from 0 to 30.

Hercules becomes aware of sites in which it may be named a PRP in investigatory and/or remedial activities through correspondence from the U.S. Environmental Protection Agency (the "EPA"), or other government agencies, or through correspondence from previously named PRPs, who either request information or notify Hercules of its potential liability. Hercules has established procedures for identifying environmental issues at its plant sites. In addition to environmental audit programs, Hercules has environmental coordinators who are familiar with environmental laws and regulations and act as a resource for identifying environmental issues.

On April 10, 2001, the United States Court of Appeals for the Eighth Circuit ("Appeals Court") issued an opinion in the United States, et al. v. Vertac Corporation, et al. In that opinion, the Appeals Court reversed an October 12, 1993 grant of partial summary judgment by the U.S. District Court for the Eastern District of Arkansas ("District Court"), which had held Hercules jointly and severally liable for costs incurred and to be incurred at the Jacksonville site, among other things, and remanded the case back to the District Court for a determination of whether the harms at the site giving rise to the government's claims are divisible. The Appeals Court also vacated the District Court's finding that Hercules was liable for 97.4% of the costs at

Edgar Filing: HERCULES INC - Form 10-Q

issue, ordering that these issues be revisited following further proceedings with respect to divisibility. Finally, the Appeals Court affirmed the judgment of liability against Uniroyal.

11

The trial on remand commenced on October 8, 2001 and continued through October 19, 2001. Proceedings are scheduled to resume on December 11, 2001. At the trial, Hercules presented both facts and law to the District Court in support of its belief that it should not be liable under CERCLA for some or all of the costs incurred by the government in connection with the site because those harms are divisible. Should Hercules prevail on remand, any liability to the government will be either eliminated or reduced.

In 1992, Hercules brought suit against its insurance carriers for past and future costs for cleanup of certain environmental sites, Hercules Incorporated v. Aetna Casualty & Surety Company, et al., Del. Super, C.A. No. 92C-10-105 and 90C-FE-195-1-CV (consolidated). In April 1998, the trial regarding insurance recovery for the Jacksonville, Arkansas site (see discussion above) was completed. The jury returned a "Special Verdict Form" with findings that, in conjunction with the trial court's findings, were used by the trial court to enter a judgment in August 1999. The judgment determined the amount of Hercules' recovery for past cleanup expenditures and stated that Hercules is entitled to similar coverage for costs incurred since September 30, 1997 and in the future. Hercules has not included any insurance recovery in the estimated range of possible investigation and cleanup costs above. Since entry of the trial court's August 1999 order, Hercules has entered into settlement agreements with several of its insurance carriers and has recovered certain settlement monies. The terms of those settlements and the amounts recovered are confidential. Hercules appealed certain of the trial court's rulings to the Delaware Supreme Court. On August 15, 2001, the Delaware Supreme Court issued a decision in Hercules Incorporated v. Aetna Casualty & Surety Company, et al., Del. Super., C.A. No. 92C-10-105 and 90C-FE-195-1-CV (consolidated). In its decision, the Delaware Supreme Court affirmed the trial court in part, reversed the trial court in part, and remanded the case for further proceedings. The specific basis upon which the Delaware Supreme Court reversed the trial court was the trial court's application of pro rata allocation to determine the extent of the insurers' liability. At this time, proceedings at the trial court have not yet commenced.

At September 30, 2001, the accrued liability of \$82 million for environmental remediation represents management's best estimate of the probable and reasonably estimable costs related to environmental remediation. The extent of liability is evaluated quarterly. The measurement of the liability is evaluated based on currently available information, including the process of remedial investigations at each site and the current status of negotiations with regulatory authorities regarding the method and extent of apportionment of costs among other PRPs. While it is not feasible to predict the outcome of all pending suits and claims, the ultimate resolution of these environmental matters could have a material effect upon the results of operations and the financial position of Hercules.

OTHER LITIGATION

Hercules is a defendant in numerous lawsuits that arise out of, and are incidental to, the conduct of its business. These suits concern issues such as product liability, contract disputes, labor-related matters, patent infringement, environmental proceedings, property damage and personal injury matters.

Hercules is a defendant in numerous asbestos-related personal injury

Edgar Filing: HERCULES INC - Form 10-Q

lawsuits and claims which typically arise from alleged exposure to asbestos fibers from resin-encapsulated pipe and tank products which were sold by a former subsidiary of Hercules to a limited industrial market, or from alleged exposure to asbestos contained in facilities owned or operated by Hercules. Lawsuits are received and matters are settled on a regular basis. In December 1999, Hercules entered into a Settlement Agreement to resolve the majority of such matters then pending. In connection with that settlement, Hercules entered into an agreement with several of its insurance carriers pursuant to which a majority of the amounts paid will be insured. The terms of both agreements are confidential. During 2000 and 2001, Hercules entered into additional settlement agreements. The terms of these settlements are also confidential. In accordance with the terms of the agreement with several of Hercules' insurance carriers, the majority of the amounts paid and to be paid pursuant to these various settlement agreements will be insured. Further, Hercules continues to pursue additional insurance coverage from carriers who were not part of the previously mentioned agreement.

12

Since the beginning of September 2001, Hercules, along with the other defendants in the Thomas & Thomas Rodmakers action, (Case No. CV 99 07796 GHK (CTx), U.S. District Court, Central District of California), has been sued in nine California state court purported class actions brought on behalf of indirect purchasers of carbon fiber. Six of these actions have been brought in the Superior Court of California, Los Angeles County, and are captioned as follows: Alden W. Badal, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., Case No. BC258615; Sean Connolly, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., Case No. BC259202; Perry Proietto, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., et al., Case No. BC257764; Gary Regier, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., et al., Case No. BC258961; Todd Simon, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., et al., Case No. BC258404; and Jonathan Yolles, on behalf of himself and all others similarly situated, v. Newport Adhesives and Composites, Inc., et al., Case No. BC258671. Two of these actions have been filed in the Superior Court of California, San Francisco County, and are captioned as follows: Jubal DeLong, on behalf of himself and all others similarly situated, v. Amoco Polymers, Inc., et al., Case No. 400652; and Elisa Langsam, on behalf of herself and all others similarly situated, v. Newport Adhesives and Composites, Inc., et al., Case No. 400408. Finally, one of these actions has been brought in the Superior Court of California, San Joaquin County - Stockton Branch, and is captioned as follows: Louis V. Ambrosio, Jr., on behalf of himself and all others similarly situated, v. Amoco Polymers, Inc., et al., Case No. CV015559. These actions all allege violations of the California Business and Professions Code relating to alleged price fixing of carbon fiber and unfair competition. Currently, steps are being taken to consolidate these various actions. Hercules will deny liability and will vigorously defend each of these actions.

In May 2001, the Supreme Court of New York accepted a Special Referee's Report and rejected Hercules' position in a case captioned Hexcel Corporation v. Hercules Incorporated, Index No. 602293/99, Supreme Court of New York, County of New York. In February 2001, Hexcel moved to confirm the Special Referee's Report and Hercules crossmoved to confirm in part and reject in part the Special Referee's Report. The Special Referee's Report, issued in January 2001, recommended that Hercules be found liable to Hexcel for a total of approximately \$7.3 million plus interest. As a result, a judgment was entered against Hercules in the amount of approximately \$10 million. Hercules believes the court's decision is incorrect, at least in part, as a matter of law and has appealed the trial court's decision.

Edgar Filing: HERCULES INC - Form 10-Q

In December 1999, BetzDearborn and Bill Blythe, its employee, were sued by M.C. Dixon Lumber Company, Inc. (M.C. Dixon Lumber Company, Inc. v. BetzDearborn and Bill Blythe, Circuit Court of Barbour County, Alabama, Case No. 99-0177). In this lawsuit, M.C. Dixon sought recovery for alleged damage to wood drying kilns and other equipment, as well as lost production and other consequential damages. M.C. Dixon alleged that these damages were caused by BetzDearborn's negligence and breach of contract in the administration of the water treatment program at M.C. Dixon's plant. On September 4, 2001, this case went to trial. During the course of the trial, Hercules agreed to settle this case for an amount which is confidential, but was in excess of \$1.75 million. In connection with that settlement, Hercules reached an agreement with one of BetzDearborn's insurance carriers whereby BetzDearborn paid \$1.75 million of the settlement amount (that amount being the total of BetzDearborn's deductibles under certain insurance policies) and that carrier paid the rest. As a condition of that settlement, BetzDearborn and that carrier agreed that all amounts above \$1 million each may be subject to reallocation based on the possible contribution by one of BetzDearborn's other insurance carriers, as well as various potential coverage issues. While the outcome of the reallocation process will not be known until it occurs, it is possible that BetzDearborn could receive a partial refund of the amount it has paid to date, thereby reducing its contribution to below \$1.75 million; under no circumstances, however, will BetzDearborn's total share of the settlement be less than \$1 million or greater than \$3.5 million.

13

On September 28, 2000, Hercules sold its Food Gums Division to CP Kelco ApS, a joint venture that Hercules entered into with Lehman Brothers Merchant Banking Partners II, L.P. CP Kelco also acquired the biogums business of Pharmacia Corporation (formerly Monsanto Company). In April 2001, CP Kelco U.S., Inc., a wholly-owned subsidiary of CP Kelco ApS, sued Pharmacia (CP Kelco U.S., Inc. v. Pharmacia Corporation, United States District Court for the District of Delaware, Case No. 01-240-RRM) alleging federal securities fraud, common law fraud, breach of warranties and representations and equitable fraud. In essence, the lawsuit alleges that Pharmacia misrepresented the value of the biogums business, resulting in damages to CP Kelco U.S., including the devaluation of CP Kelco U.S.' senior debt by the securities markets. The complaint seeks over \$430 million in direct damages, as well as punitive damages. In June 2001, Pharmacia filed a third-party complaint against Lehman and Hercules. That complaint seeks contribution and indemnification from Hercules and Lehman, jointly and severally, for any damages that may be awarded to CP Kelco U.S. in its action against Pharmacia. This lawsuit is in early discovery. Hercules believes that the third-party lawsuit against Hercules and Lehman is without merit. Hercules has denied any liability to Pharmacia and will vigorously defend this action.

At September 30, 2001, the consolidated balance sheet reflects a current liability of approximately \$23 million for litigation and claims. These amounts represent management's best estimate of the probable and reasonably estimable losses and recoveries related to litigation or claims. The extent of the liability and recovery is evaluated quarterly. While it is not feasible to predict the outcome of all pending suits and claims, the ultimate resolution of these matters could have a material effect upon the financial position of Hercules, and the resolution of any of the matters during a specific period could have a material effect on the quarterly or annual operating results for that period.

14. Segment Information

- (a) Net sales and Profit from operations in 2001 reflect the divestitures of the food gums and nitrocellulose businesses in 2000.
- (b) Net sales and Profit from operations in 2001 reflect the divestiture of the hydrocarbon resins, select rosins resins and the peroxy chemicals businesses in 2001.
- (c) Includes the following for the quarter and nine-month periods ended September 30, 2001, respectively: goodwill and intangible asset amortization of \$19 million and \$57 million,

14

environmental charges of \$2 million and \$6 million and \$27 million and \$72 million of other corporate items not specifically allocated to the business segments. Both periods also include \$45 million of non-recurring restructuring charges relating to the 2001 cost reduction program (see Note 10), partially offset by \$5 million and \$7 million in restructuring reversals pertaining to prior year plans for the quarter and nine-month periods, respectively. In addition, the nine-month period includes \$74 million in net gains from the sale of the hydrocarbon resins business, select portions of the rosins resins business and the peroxy chemicals business. Partially offsetting these gains are \$5 million in executive severance charges, \$3 million in non-recurring fees related to the 2001 proxy contest and other matters, \$5 million in pre-payment penalties relating to the ESOP credit facility and \$1 million in project abandonment costs.

- (d) Includes the following for the quarter and nine-month periods ended September 30, 2000, respectively: goodwill and

Edgar Filing: HERCULES INC - Form 10-Q

intangible asset amortization of \$22 million and \$65 million, integration costs of \$1 million and \$4 million, environmental charges of \$1 million and \$7 million, net restructuring charges of \$9 million for both periods, a gain on the sale of the Food Gums business of \$168 million for both periods, asset impairment charges of \$51 million for both periods and \$9 million and \$37 million of other corporate items not specifically allocated to the business segments. Additionally, the quarter and nine-month periods include \$1 million and \$25 million, respectively, of charges associated with the sale of the nitrocellulose business, partially offset by \$11 million of recoveries of insurance and environmental claims for the nine-month period.

15. Divestitures

On May 1, 2001, the Company completed the sale of its hydrocarbon resins business and select portions of its rosin resins business to a subsidiary of Eastman Chemical Company, receiving proceeds of approximately \$244 million. On May 31, 2001, the Company completed the sale of its peroxy chemicals business to GEO Specialty Chemicals, Inc., receiving proceeds of approximately \$92 million. Additionally, on May 25, 2001, the Company completed the sale of its interest in Hercules - Sanyo, Inc., a toner resin joint venture, to Sanam Corporation, a wholly owned subsidiary of Sanyo Chemicals Industries, Ltd., its joint venture partner. The Resins division, including the businesses that the Company has sold, had approximately \$450 million in net sales in 2000.

15

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

RESULTS OF OPERATIONS

Within the following discussion, unless otherwise stated, "quarter" and "nine-month period" refer to the third quarter of 2001 and the nine months ended September 30, 2001. All comparisons are with the corresponding periods in the previous year, unless otherwise stated.

The table below reflects Net sales and Profit from operations for the quarters and nine months ended September 30, 2001 and September 30, 2000.

(Dollars in millions)		Three Months Ended September 30,		Nine Mo End Septem
	2001	2000	2001	
	----	----	----	
Net Sales:				
Process Chemicals and Services	\$ 418	\$ 443	\$ 1,239

Reconciling Items	(88) (c)	75 (d)	(113) (c)
	-----	-----	-----
Consolidated	\$ 31	\$ 207	\$ 222
	=====	=====	=====

- (a) Net sales and Profit from operations in 2001 reflect the divestitures of the food gums and nitrocellulose businesses in 2000.
- (b) Net sales and Profit from operations in 2001 reflect the divestiture of the hydrocarbon resins, select rosins resins and the peroxy chemicals business in 2001.
- (c) Includes the following for the quarter and nine-month periods ended September 30, 2001, respectively: goodwill and intangible asset amortization of \$19 million and \$57 million, environmental charges of \$2 million and \$6 million and \$27 million and \$72 million of other corporate items not specifically allocated to the business segments. Both periods also include \$45 million of non-recurring restructuring charges relating to the 2001 cost reduction program (see Note 10 in Notes to Financial Statements), partially offset by \$5 million and \$7 million in restructuring reversals pertaining to prior year plans for the quarter and nine-month periods, respectively. In addition, the nine-month period includes \$74 million in net gains from the sale of the hydrocarbon resins business, select portions of the rosins resins business and the peroxy chemicals business. Partially offsetting these gains are \$5 million in executive severance charges, \$3 million in non-recurring fees related to the 2001 proxy contest and other matters, \$5 million in pre-payment penalties relating to the ESOP credit facility and \$1 million in project abandonment costs.

16

- (d) Includes the following for the quarter and nine-month periods ended September 30, 2000, respectively: goodwill and intangible asset amortization of \$22 million and \$65 million, integration costs of \$1 million and \$4 million, environmental charges of \$1 million and \$7 million, net restructuring charges of \$9 million for both periods, a gain on the sale of the Food Gums business of \$168 million for both periods, asset impairment charges of \$51 million for both periods and \$9 million and \$37 million of other corporate items not specifically allocated to the business segments. Additionally, the quarter and nine-month periods include \$1 million and \$25 million, respectively, of charges associated with the sale of the nitrocellulose business, partially offset by \$11 million of recoveries of insurance and environmental claims for the nine-month period.

The discussion that follows speaks to comparisons in the table through Profit from operations.

Consolidated net sales were \$637 million for the third quarter and

Edgar Filing: HERCULES INC - Form 10-Q

\$2,009 million for the nine-month period. This compares with \$815 million and \$2,435 million for the corresponding periods in 2000, reflecting a decrease of 22% and 17% compared with the prior year quarter and nine-month period, respectively. Total volumes decreased 25% and 26%, respectively, for the quarter and nine-month period versus the comparable periods in 2000, reflecting the effects of businesses divested in June 2000, September 2000 and May 2001, coupled with a global economic slowdown in the Pulp and Paper sector. Excluding divested businesses, consolidated Net sales were \$637 million for the quarter and \$1,896 million for the nine-month period, a decrease of 6% and 5%, respectively, from the same periods last year. The stronger U.S. dollar, relative to foreign currencies, continues to negatively impact sales and profits and is attributable for approximately one half of the net sales decline. Contributing to the decline is reduced volume in all business divisions, except BetzDearborn, for the quarter and nine-month period versus comparable periods in 2000. Net sales declined 4% in both the North American region and Asia Pacific region, declined 9% in Europe and remained flat in the Latin American region in the nine-month period.

Consolidated Profit from operations was \$31 million for the quarter, a decrease of 85% from 2000, and \$222 million for the nine-month period, a decrease of 46% from 2000. Profit from operations in 2001 includes \$74 million of pre-tax non-recurring gains, partially offset by \$45 million of non-recurring restructuring charges associated with the 2001 cost reduction program. The gains result from the sales of the hydrocarbon resins, select portions of the rosin resins and the peroxy chemicals businesses. Profit from operations in 2000 was favorably impacted by a \$168 million non-recurring gain associated with the sale of the Food Gums business, partially offset by non-recurring losses associated with the divestiture of the nitrocellulose business. Excluding divested businesses and non-recurring items, Profit from operations was \$71 million and \$83 million, respectively, for the quarters ended September 30, 2001 and 2000, and \$188 million and \$261 million, respectively, for the nine-month periods ended September 30, 2001 and 2000. Higher costs incurred in complying with new regulatory reporting requirements resulting from Hercules' debt refinancing in the fourth quarter of 2000, higher ESOP expenses and higher corporate charges in Reconciling Items previously allocated to divested businesses are the principal drivers for lower margins in the quarter and nine-month period. Additionally, the stronger dollar negatively effected Profit from operations for both the quarter and nine-month periods in 2001 by approximately 5%.

In the Process Chemicals and Services segment, Net sales were down 6% and Profit from operations improved 7% versus the same quarter in 2000. The Pulp and Paper Division continues to be impacted by weak global demand. Profit from operations was negatively impacted by volume declines in the Pulp and Paper Division of 2% from last year's third quarter and nine-month periods, partially offset by lower overhead costs. In the BetzDearborn division, Net sales declined slightly for the quarter and the nine-month period, yet increased slightly compared to the second quarter 2001. Profit from operations improved significantly for the quarter and the nine-month period. Volumes in the BetzDearborn division were up 5% and 8%, respectively, for the quarter and nine-month period versus 2000. Product mix in North America was unfavorable for the quarter and nine-month periods. Excluding the accounts

receivable provision booked in the third quarter 2000, Profit from operations for the quarter and nine-month period was flat.

Functional Products segment Net sales declined 31% for the quarter and 32% for the nine-month period versus the corresponding periods in 2000. Profit from operations for the quarter and nine-month period decreased 27% and 37%, respectively, compared to the same periods in 2000. The declines in both Net

Edgar Filing: HERCULES INC - Form 10-Q

sales and Profit from operations reflect the effects of the divestitures of the Food Gums and nitrocellulose businesses in 2000. On a comparable basis, Net sales were down 5% and 4% for the quarter and nine-month periods, respectively, and Profit from operations declined 10% for the quarter and 21% for the nine-month period. Profit from operations was negatively impacted by unfavorable fixed cost absorption due to lower production levels, partially offset by lower overhead expenses. Additionally, volumes, excluding divested businesses, were down 2% and less than 1% in the quarter and nine-month period, respectively, versus the same periods last year.

Chemical Specialties segment Net sales declined 53% for the quarter and 33% for the nine-month period, while Profit from operations decreased 46% and 29% for the quarter and nine-month period versus the comparative periods in 2000. In May 2001, the Company sold its hydrocarbon resins business, select portions of its rosin resins business, its peroxy chemicals business and its 50% interest in the ink toner joint venture. Excluding divested businesses, Net sales were down 8% for the quarter and 12% for the nine-month period, while Profit from operations increased 133% for the quarter and 36% for the nine-month period. Despite decreases in FiberVisions' Net sales, Profit from operations increased significantly in the quarter and nine-month periods from the same periods in 2000. The improved performance was driven by lower polymer cost and cost containment initiatives, partially offset by price declines resulting from the contractual flowthrough of polymer cost savings to customers. Volumes for FiberVisions declined 1% and 10%, respectively, for the third quarter and nine-month period versus comparable periods in 2000 and improved 3% versus the second quarter 2001. Net sales and Profit from operations in the Resins division, excluding divested businesses, declined for the quarter and nine-month period relative to the prior year primarily due to lower volumes indicating soft demand. Volumes for the quarter and nine-month period declined 14% and 19%, respectively, versus the same periods in 2000.

Interest and debt expense increased \$4 million for the quarter and \$38 million for the nine-month period reflecting higher borrowing costs, partially offset by lower debt as a result of the application of proceeds from the sale of businesses. Preferred security distributions of subsidiary trusts decreased \$8 million for the quarter and \$25 million for the nine-month period, reflecting the repayment of \$370 million of these securities in 2000.

Other expense, net, decreased \$7 million and \$9 million for the three and nine month periods ended September 30, 2001, respectively. The decline in the quarter, relative to the prior year, reflects decreased litigation charges, lower rental expense and lower miscellaneous and foreign charges, partially offset by lower interest income. The decline in the nine-month period compared to the prior year reflects decreased litigation costs related to former operations of the Company, lower miscellaneous foreign expenditures and lower rental expense, partially offset by lower interest income.

While the Company has experienced losses in 2001, it continues to recognize tax expense due to non-deductible goodwill amortization, repatriation of foreign earnings and other provisions. The effective tax rate in the third quarter of 2000 reflected the utilization of research and development credits.

FINANCIAL CONDITION

Liquidity and financial resources: Net cash provided by operations was \$72 million for the nine-month period ended September 30, 2001, as compared to \$86 million for the same period in 2000. Current and quick ratios have decreased to 1.0 and .74, respectively, at September 30, 2001, compared with 1.1 and .78, respectively, at December 31, 2000. As of September 30, 2001, the Company had \$291 million available under its revolving credit agreement and \$55 million available in short-term lines of credit. The Company's incremental borrowing

Edgar Filing: HERCULES INC - Form 10-Q

capacity is approximately \$143 million. The Company expects to meet short-term cash requirements from operating cash flow and availability under lines of

18

credit. However, actual availability is constrained by the Company's ability to meet covenants in its senior credit facility. Future compliance with debt covenants is dependent upon generating sufficient EBITDA and cash flow which are, in turn, impacted by business performance, economic climate, competitive uncertainties and possibly the resolution of contingencies.

Capital Structure and Commitments: Total capitalization (stockholders' equity, company obligated preferred securities of subsidiary trusts and debt) decreased to \$3.6 billion at September 30, 2001, from \$4.0 billion at year-end 2000. The ratio of debt-to-total capitalization decreased to 62% at September 30, 2001 from 64% at December 31, 2000.

On May 1, 2001, the Company completed the sale of its hydrocarbon resins business and select portions of its rosin resins business to a subsidiary of Eastman Chemical Company, receiving gross proceeds of approximately \$244 million. On May 31, 2001, the Company completed the sale of its peroxy chemicals business to GEO Specialty Chemicals, Inc., receiving gross proceeds of approximately \$92 million. The Company used the proceeds from these divestitures to reduce long-term debt.

The payment of quarterly dividends was suspended in the fourth quarter of 2000, subject to reconsideration by the Board in its discretion, when warranted under appropriate circumstances and subject to restrictions in the indenture governing the senior notes. Quarterly dividends of \$0.27 per share were declared and paid for each of the first two quarters of 2000 and a quarterly dividend of \$.08 per share was declared and paid for the third quarter of 2000.

RECENT EVENTS

In the fourth quarter of 2000, the Company announced its intention to pursue a merger or sale of the Company or one or more of its businesses in the belief that, over the long term, becoming part of a larger enterprise is the best strategic path for the Company. To that end, the Company retained Goldman, Sachs & Co. and Credit Suisse First Boston to assist the Board of Directors in its identification and evaluation of various alternatives. If a sale of the Company occurs, it would most likely be in a two-step-process, with the sale of the BetzDearborn division constituting the first step. The Company is currently pursuing a disposition, in whole or in part, of its BetzDearborn division and is in discussions with potential buyers in that regard. The Company continues to pursue a merger or sale of the Company or its businesses. There can be no assurance that any of these parties will be prepared to pay a price that is acceptable to the Company or that any transaction will occur.

In June 2001, the Company announced a comprehensive cost reduction program to improve its return on capital. This cost reduction program is being implemented while the Company continues to explore strategic alternatives, including the merger or sale of the Company or one or more of its businesses. The Company's annualized and recurring cost savings target is \$100 million. Approximately one-half of the cost reductions are targeted for corporate functions and the other half for businesses. The Company is committed to achieving this target by the end of the second quarter 2002. The expected cost to implement the cost savings program is approximately \$50 million. Actual cash outflows related to this program will be paid over future quarters and should be more than offset by cash inflows from the savings.

Edgar Filing: HERCULES INC - Form 10-Q

On July 1, 2001, George MacKenzie, Vice Chairman and Chief Financial Officer, retired and resigned from the Board of Directors. On August 23, 2001, the Company announced the election of two new members to its Board of Directors. Jeffrey M. Lipton replaced George MacKenzie and Joe B. Wyatt replaced H. Eugene McBrayer, who also resigned from the Board of Directors. On October 29, 2001, the Company announced the election of Robert D. Kennedy to the Board of Directors and the resignation of Gaynor N. Kelley from the Board of Directors. Mr. Kennedy's election and Mr. Kelley's resignation were effective October 31, 2001.

On September 5, 2001, the Company announced the first steps in its previously announced comprehensive cost reduction plan, including an initial reduction in its workforce of 300 employees, excluding Europe, as well as the release of non-critical outside contractors by September 30, 2001.

Through September 30, 2001, the number of employees decreased by approximately 670 individuals, of which approximately 280 had been terminated pursuant to restructuring plans.

19

RISK FACTORS

Market Risk - Fluctuations in interest and foreign currency exchange rates affect the Company's financial position and results of operations. The Company uses several strategies to hedge interest rate and foreign currency exchange rate exposure and minimize the effect of fluctuations in such rates on reported earnings and cash flow. Sensitivity of its financial instruments to selected changes in market rates and prices, which are reasonably possible over a one-year period, are described below. Market values are the present value of projected future cash flows based on the market rates and prices chosen. The market values for interest rate risk are calculated by a third-party software model that utilizes standard pricing models to determine the present value of the instruments based on the market conditions as of the valuation date.

The Company's derivative and other financial instruments subject to interest rate risk consist of debt instruments, interest rate swaps and currency swaps. At September 30, 2001, net market value of these combined instruments was a liability of \$2.6 billion. The sensitivity analysis assumes an instantaneous 100-basis point move in interest rates from their levels, with all other variables held constant. A 100-basis point increase in interest rates at September 30, 2001 would result in a \$56 million decrease in the net market value of the liability. A 100-basis point decrease in interest rates at September 30, 2001 would result in a \$63 million increase in the net market value of the liability. The change in the sensitivity level from year-end 2000 is primarily due to the partial repayment of both syndicated and revolving debt.

The Company's financial instruments subject to foreign currency exchange risk consist of foreign currency forwards and options and represent a net liability position of \$1 million at September 30, 2001. The following sensitivity analysis assumes an instantaneous 10% change in foreign currency exchange rates from year-end levels, with all other variables held constant. A 10% strengthening of the U.S. dollar versus other currencies at September 30, 2001 would result in a \$3 million decrease in the net liability position, while a 10% weakening of the dollar versus all currencies would result in a \$5 million increase in the net liability position. The change in the sensitivity level from year-end 2000 is primarily due to the strengthening of the U.S. dollar during the year.

Foreign exchange forward and option contracts are generally used to hedge firm and anticipated foreign currency cash flows. Thus, there is either an asset or cash flow exposure related to all the financial instruments in the

Edgar Filing: HERCULES INC - Form 10-Q

above sensitivity analysis for which the impact of a movement in exchange rates would be in the opposite direction and substantially equal to the impact on the instruments in the analysis. There are presently no significant restrictions on the remittance of funds generated by the Company's operations outside the United States.

The Company has not designated any derivative as a hedge instrument under SFAS 133 and, accordingly, changes in the fair value of derivatives are recorded each period in earnings (See Note 3 in Notes to Financial Statements).

Environmental Litigation - Hercules has been identified by U.S. federal and state authorities as a "potentially responsible party" for environmental cleanup at numerous sites. The estimated range of reasonably possible costs for remediation is between \$82 million and \$255 million. The Company does not anticipate that its financial condition will be materially affected by environmental remediation costs in excess of amounts accrued, although quarterly or annual operating results could be materially affected (See Note 13 in Notes to Financial Statements).

Environmental remediation expenses are funded from internal sources of cash. Such expenses are not expected to have a significant effect on the Company's ongoing liquidity. Environmental cleanup costs, including capital expenditures for ongoing operations, are a normal, recurring part of operations and are not significant in relation to total operating costs or cash flows.

Other Litigation - Hercules is a defendant in numerous lawsuits that arise out of, and are incidental to, the conduct of its business. These suits concern issues such as product liability, contract

20

disputes, labor-related matters, patent infringement, environmental proceedings, property damage and personal injury matters. While it is not feasible to predict the outcome of all pending suits and claims, the ultimate resolution of these matters could have a material effect upon the financial position of Hercules, and the resolution of any of the matters during a specific period could have a material effect on the quarterly or annual operating results for that period (See Note 13 in Notes to Financial Statements).

FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q includes forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995, reflecting management's current analysis and expectations, based on reasonable assumptions. Forward-looking statements may involve known and unknown risks, uncertainties and other factors, which may cause the actual results to differ materially from those projected, stated or implied depending on such factors as: Hercules' inability to generate cash and reduce debt, the result of Hercules' pursuit of strategic alternatives, business performance, economic and competitive uncertainties, Hercules' inability to monetize certain of its identified businesses, higher manufacturing costs, reduced level of customer orders, changes in strategies, risks in developing new products and technologies, environmental and safety regulations and clean-up costs, foreign exchange rates, adverse legal and regulatory developments and adverse changes in economic and political climates around the world. Accordingly, there can be no assurance that the Company will meet future results, performance or achievements expressed or implied by such forward-looking statements. As appropriate, additional factors are contained in reports filed with the Securities and Exchange Commission. This paragraph is included to provide safe harbor for forward-looking statements, which are not generally required to be publicly revised as circumstances change.

Edgar Filing: HERCULES INC - Form 10-Q

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

For discussion of quantitative and qualitative disclosure about market risk, see "Risk Factors" under Item 2, Management's Discussion and Analysis of Results of Operations and Financial Condition.

21

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

For information related to Legal Proceedings, see Notes to Financial Statements, Management's Discussion and Analysis of Results of Operations and Financial Condition and the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2001 and June 30, 2001.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS.

On August 9, 2001, Hercules filed a Registration Statement on Form S-4 with the Securities and Exchange Commission, pursuant to which the Company offered to exchange all of its \$400 million aggregate principal amount of 11 1/8% Senior Notes due 2007 ("old notes") for \$400 million aggregate principal amount of 11 1/8% Senior Notes due 2007 ("new notes"). The form and terms of the new notes are the same as the form and terms of the old notes except that, because the issuance of the new notes is registered under the Securities Act, the new notes will not bear legends restricting their transfer and will not be entitled to certain registration rights under the registration rights agreement. The new notes will evidence the same debt as the old notes and the new notes and the old notes will be governed by the same indenture. On October 31, 2001, Hercules filed Amendment No. 1 to the Registration Statement on Form S-4 with the Securities and Exchange Commission and the Registration Statement became effective. Hercules will not receive any proceeds from the exchange offer.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

(a) Exhibits.

None.

(b) Reports on Form 8-K.

None.
