## Joint News Release

### B2Gold and Central Sun Sign Definitive Agreements

**Vancouver and Toronto, February 9, 2009** B2Gold Corp. (TSX: BTO) ( B2Gold or the Company ) and Central Sun Mining Inc. (TSX: CSM) (NYSE ALTERNEXT US: SMC) ( Central Sun or CSM ) announce that they have signed a definitive arrangement agreement relating to the previously announced business combination of B2Gold and Central Sun (the Transaction ). In addition, B2Gold and Central Sun have signed a definitive agreement for the previously announced Cdn\$10 million convertible loan from B2Gold to Central Sun (the B2Gold Loan ).

The material terms of the B2Gold Loan are as previously disclosed, except that the B2Gold Loan will be repayable on June 20, 2009 and Central Sun's option to convert the B2Gold Loan into CSM shares if the Transaction does not proceed now allows Central Sun to convert all or any portion of the B2Gold Loan at 100% of the 5-day volume weighted average trading price of the CSM shares on the TSX for the five trading days following termination of the arrangement agreement and to repay any unconverted portion in cash. Central Sun's option to convert expires 30 days after the date of termination of the arrangement agreement, provided that, to the extent that Central Sun shareholder approval is required for the issuance of CSM shares on the optional conversion, that portion of the B2Gold Loan must either be converted into CSM shares or repaid in cash within 60 days from the date on which Central Sun gives a notice of conversion.

The material terms of the Transaction are as previously disclosed and the Transaction remains subject to regulatory, court, and Central Sun shareholder approvals. The date of the special meeting of Central Sun shareholders to approve the Transaction is set for March 20, 2009 and the record date for receiving notice of, and the right to vote at, the Central Sun shareholders meeting is February 17, 2009.

The TSX has conditionally approved the listing of the up to 15,535,997 CSM common shares (25% of Central Sun's issued and outstanding shares) that may be issuable upon conversion of the B2Gold Loan. Under the loan agreement, B2Gold's conversion right is limited to that portion of the B2Gold Loan that would result in B2Gold receiving 9.9% of the issued and outstanding CSM shares at the time of conversion. Central Sun's optional conversion right under the loan agreement allows it to convert up to 100% of the B2Gold Loan into CSM shares and, accordingly, the listing of such CSM shares in excess of the number conditionally approved for listing remains subject to regulatory approval, which may include a requirement for Central Sun shareholder approval for the issuance of any additional CSM shares.

The combination of B2Gold and Central Sun will result in B2Gold commencing with initial production of approximately 45,000 ounces of gold per year and a planned production of approximately 130,000 ounces of gold per year following completion of the Orosi Mill Project scheduled for the fourth quarter of 2009. The combined company will also have exploration properties in Nicaragua, Colombia, Panama and Russia.

#### About B2Gold

B2Gold is a Vancouver based mineral and exploration company founded by the former management team of Bema Gold Corporation. Bema grew from a junior explorer to an international gold producer that was acquired by Kinross Gold Corporation through a

## Edgar Filing: CENTRAL SUN MINING INC. - Form 6-K

Cdn\$3.5 billion transaction in February 2007. B2Gold completed a Cdn\$100 million Initial Public Offering on the TSX Venture Exchange on December 6th, 2007 and has recently graduated to the Toronto Stock Exchange, trading under the symbol BTO. The company's corporate objective is to capitalize on the extensive experience and relationships that its management team has developed in the mining business over the past 25 years, to build an intermediate gold company through exploration and acquisitions. B2Gold has amassed interests in a portfolio of exploration properties in Colombia and Far East Russia.

### **About Central Sun**

Central Sun is a gold producer with mining and exploration activities focused in Nicaragua. Central Sun operates the Limon Mine in Nicaragua and is converting the Orosi Mine in Nicaragua to conventional milling to increase the annual gold output. It also holds a 60% interest in the Cerro Quema Project in Panama, a 100% interest in La India property and an option to acquire a 100% interest in the Mestiza gold property both of which are located 70 kilometres by road east of its operating Limon Mine. The Company is focused on efficient and productive mining practices to establish high quality and cost effective operations. Central Sun is committed to growth by optimizing current operations, expanding mineral reserves and resources at existing mines, exploring its extensive land holdings and seeking strategic mergers or acquisitions in the Americas.
